

TOPSY-TURVY WORLD—Making a daring loop in formation, these Meteor 7's of the Royal Air Force 203rd Advanced Flying School are actually upside down and very close together. The feat was one of many performed by the RAF's famed acrobatic team which was recently disbanded. Below them is the Yorkshire coast, near Bridlington.

SHE'S DOING ALL RIGHT—Dorothy Chernook, left, head nurse at a hospital in New York City, holds Babette Hope Calvert, the smallest baby ever born at the hospital and live. Student nurse Mary Ann Kelly is holding a doll representing the 1 1/2-pound size of Babette at her birth last September. The baby weighed five pounds in this photo, and was on her way home.

EAST TO MEET WEST—Three Notre Dame players on the East team were getting in some practice at Santa Clara, Calif., University as they prepared for the annual East-West clash in San Francisco on January 2. The Fighting Irish shown are: halfback John Lattner, leaping high, as tackle Art Hunter, left, and fullback Neil Worden give him some protection.

VAN JOHNSON holds a mirror for **ESTHER WILLIAMS** in this scene from MGM's musical, "EASY TO LOVE," in color by Technicolor.

CRACK-UP

PASSENGERS' EYE VIEW—This is the wrecked interior of a bus carrying some 40 passengers that veered out of control in The Bronx, N. Y., and crashed into an elevated railway pillar, injuring about 20. The accident happened when the bus was struck by the swinging tail gate of a garbage truck.

PEDESTRIANS' EYE VIEW—The bus managed to get itself wrapped neatly around that pillar, top photo. Inside, a high school girl manages to smile although her leg is caught in the wreckage and she's unable to move, below. Naturally, all the injured were not as good-natured about the accident as she.

SOCIETY AND CLUBS
AND NEWS OF INTEREST TO WOMEN

Mona Sue Lenz And Tommy Partain Married On Christmas Day

Miss Mona Sue Lenz became the bride of Tommy Partain in ceremonies performed December 25 in the home of the bride's parents, Mr. and Mrs. Henry Lenz, by the Rev. F. C. Bradley, pastor of the East Cisco Baptist Church. The groom is the son of Rev. and Mrs. R. L. Partain of McAlester, Oklahoma. The couple stood before the fire place which was flanked by the bride and groom. The bride wore a navy wool suit with accessories of pink and navy. She carried a white Bible topped with white carnations. Mrs. James Couch of Abilene, sister of the bride, was matron of honor and Freddy Partain of McAlester, Oklahoma, brother of the groom, served as best man. A reception was held following the wedding for a few close friends and relatives. The couple left immediately for a wedding trip to McAlester, Oklahoma, after which they will make their home in San Diego, California, where he is stationed in the Navy. Those attending from out of town were Miss Betty Gorman, Mr. and Mrs. James Couch, and Mr. and Mrs. Doyle Lenz and children of Abilene; and Rev. and Mrs. R. L. Partain and Freddy Partain of McAlester, Oklahoma. Others attending were Mr. and Mrs. H. D. Lenz and son, Mr. and Mrs. Stewart Slatton and family, and Mr. and Mrs. H. A. Lenz, all of Cisco.

Oakley - Lewis Wedding Rites Are Announced

Miss Wilda Oakley, daughter of Mr. and Mrs. Oscar Oakley of Cisco, became the bride of Robert M. Lewis of Fort Hood, in ceremonies performed December 31 at 8 p. m. at the home of the Rev. Bob Sanders, pastor of the Wesley Methodist Church. Miss Ramona Joy Ingram was maid of honor and Seaman Jesse Oakley served the groom as best man. The bride wore an ivory velvet dress with tiny velvet hat with illusion veil. Her shoes were of white satin and her corsage was of tiny pink roses. Miss Ingram wore a pale grey faille dress and Frances Oakley, sister of the bride, wore a dress of blue taffeta and served as flower girl. The couple will be at home in Cincinnati, Ohio, after January 23.

HEALTH TALKS

Prepared by the Texas Medical Association

A broken bone used to be a major calamity in the life of a working man. It often meant he had to lay off from work and lose his pay envelope for weeks or perhaps months. Now, however, with the help of physical therapy he can get back on the job sooner. Not only that, the range of motion of the broken arm, leg, or hip more nearly approaches normal when healing is complete. In some instances physical therapy is begun even before the bone is set; cold may be used to keep swelling down and make the patient more comfortable. Once the bone is held together by a plaster cast or other means, treatment is continued to keep the patient in the best possible physical condition. A cast sometimes is split down one side and "hinged" so that the limb can be removed and treated with heat and gentle massage, then returned to the cast between treatments. The person carrying out the treatment is careful not to get the limb out of line. Later, it may be carefully exercised by the doctor or physical therapist working under his direction. Any physical therapy prescribed by the doctor depends upon his knowledge of the condition of the individual broken bone and the desired functional results of the joint or joints involved. At certain stages a particular form of treatment may be called for, or a combination of methods might be better than just one. Exercises are highly individualized. They are designed to prevent the limb from shrinking, to maintain good muscle tone, and to obtain the maximum movement possible in the long run. As long as the bone is not healed, the limb either will be kept completely at rest or handled with the utmost care. However, it will not be kept motionless any longer than absolutely necessary. Even broken bones with which the patient must remain in bed for longer periods (such as fractures of the neck or back) can benefit from the different forms of physical therapy such as heat and massage. If the patient isn't able to walk or be carried to where treatment facilities are, they can be taken to him.

Federated Clubs To Hold Meeting Of Board Jan. 7-8

AUSTIN, Dec. 31.—Mrs. L. E. Dudley, Abilene, president of The Texas Federation of Women's Clubs has issued the official call for a meeting of the board of directors at headquarters, Austin, January 7-8, 1954. Detailed plans for the work of the ten Federation departments and their divisions will be discussed and approved during the two business sessions scheduled for the afternoon of January 7th and the morning of January 8th. The administration theme, "We Go From Strength to Strength," will be carried out through emphasis on four projects that have already been approved. These projects exemplify the diversity of club work. The pursuance of adult education by groups working through the Epsilon Sigma Omicron Division of the Department of Education will be channeled from the Extension Divisions of accredited colleges or universities. Indian Affairs, a division of the Public Affairs Department, will be directed to the Alabama-Coushatta Indian tribes on reservation near Livingston, Polk County. The Federation is one of the first organizations in the state to offer cooperation with the action of the 53rd Legislature which authorized the State of Texas to assume full trusteeship for the Alabama-Coushatta tribes. When Congressional approval of this transfer is accomplished through pending legislation, Texas will be the first state to assume the full responsibility for the development of the Indians living within its boundaries. The Texas Federation project will be to supplement existing recreational facilities; to provide scholarships that will allow Indian students a choice of colleges or universities for their higher education; to offer material assistance to the indigents; and to open an avenue of trade for the products and handicraft of the Indians. The second step in the series of programs planned for the study of Mental Health for Effective Living, initiated at the eight district workshops at the beginning of the present club year, has been planned in the form of specialized meetings for areas interested in this program. To encourage new club members to develop leadership, prizes will be announced for award to those who have developed worthwhile projects in their communities. The field of competition is for women who have been members of a federated club for at least two years, but not more than ten years.

Texas' further participation in the GFWC 1952-54 administration theme, "The Preservation of Our American Heritage," through a project to promote study of American History and assist in the restoration of Independence Hall, Philadelphia, will be presented through the Americanism Department and its related committees.

Ramona Ingram Weds Jesse L. Oakley

Mr. and Mrs. Claude Ingram of Cisco have announced the recent marriage of their daughter, Ramona Joy, to Seaman Jesse L. Oakley, son of Mr. and Mrs. Oscar Oakley of Cisco. The wedding was performed January 2 in Ranger with Charles Massegee, a Baptist minister, officiating. The couple was attended by Mr. and Mrs. Bob Lewis. Mrs. Oakley has lived in Cisco all her life. She is a graduate of Cisco High School and attended Cisco Junior College. She is employed by Dr. D. Ball. Mr. Oakley lived in Cisco until he entered the Navy, and is now stationed at Orange. Mrs. Oakley will be at home at 406 Jefferson at present but will join her husband in Orange soon.

CELEBRATES BIRTHDAY

Sara Brashear celebrated her eighth birthday January 1 with a party at the home of her parents, Mr. and Mrs. R. P. Brashear. Games were played and refreshments served to Karen Moore, Ann Brunkenhoefer, Leah Leveridge, Lary Wilson, and the honoree.

HERE FOR WEDDING

Miss Charlotte Schofield of Dalls, Miss Harriett Southpaw of Austin and John Clark of Dallas attended the wedding of Miss Carolyn Crofts to James Webster Friday. Mrs. James Harvey of Fort Worth was a member of the house party.

A New York policeman must weigh at least 145 pounds, and be at least 5 feet 8 inches tall.

LADY AND CUB—When singer Carolyn Long got to Bishop, Calif., for a concert, she saw this tiny lion cub trotting loose along the street. There wasn't too much danger in so small a wild beast, so Carolyn picked it up gingerly and held it for the owner. The cub was serving as mascot for the Sheriff's Posse Rodeo.

Jan Burkman Honored On Eighth Birthday

Jan Burkman was honored on her 8th birthday with a party held at the home of her grandmother, Mrs. W. A. Burkman. Games were played and the gifts which had been placed under the Christmas tree were opened. The happy birthday song was sung after which refreshments of gold and white birthday cake, stick candy, and orange ade were served. Those attending were Paty Doyle, Myron Johnson, Lanell Stamford, Ann Brunkenhoefer, Sylvia and Sandra Hart, Frankie and Jimmy Gryder, Margel Elder, Mike Joyner, Julia McCanlies, Jean, John, and Jerry Burkman, the honoree, Mrs. F. W. Burkman, and the hosts. Moving pictures were made of the group and sent to the honoree's father, Agent F. W. Burkman, who is stationed in Korea.

Vets Questions And Answers

Q - I'm planning to take a correspondence course under the Korean GI Bill. How much will my GI training allowance be? A - Your training allowance will be computed on the basis of the established charge which the school requires non-veterans to pay for the same course. Q - As a member of the organized reserves, may I count time spent on training duty - as opposed to regular active duty - in figuring how much entitlement I'll have for Korean GI Bill training? A - No. Time spent on training duty does not count in determining entitlement under the Korean GI Bill. However, if you were recalled for regular active duty - and not training duty - that time would count. Q - I understand that if a Korean GI trainee's entitlement runs out past the mid-point of a school term or semester, he'll be allowed to finish that term or semester under the Korean GI Bill. Will entitlement be extended for an on-the-job trainee whose entitlement expires before he finishes his training? A - No. Entitlement may not be extended under any circumstances for veterans taking on-

the-job or institutional on-farm training under the Korean GI Bill. The law permits such extensions only for veterans in school. Q - Is it possible for two veterans, who own a farm in partnership, to take institutional on-farm training on the same farm? A - Yes, it is possible, provided that conditions are favorable enough to assure the success of both veterans, and provided that both training programs meet all the qualifications of the law. T/Sgt. and Mrs. Claude H. Yeager left December 30 for El Paso where Sgt. Yeager will be stationed at Biggs Air Force Base. The Yeagers spent the Christmas holidays in Cisco with their parents, Walter Yeager and Mr. and Mrs. Walter A. Burkman. James Whistler signed his correspondence and paintings with a small drawing of a butterfly. David Livingston's body was carried through Africa for ten months so he might be buried in England.

THREE TO MAKE READY—And firm believers that the Lord helps those who help themselves are these youngsters in Epsom, Surrey, England. When a pudding had been put in the oven, the dish presented an attractive opportunity for some good scraping, and the kids fell to with spoons, fists and a good appetite.

'54 FORD the "worth more" car declares a dividend Here Tomorrow!

3 distinctive lines - 14 brilliant body styles. You just ought to try the '54 Ford... the car that brings a whole new set of value features to the low-price field. You'll find that each new feature is an extra dividend in driving enjoyment. And each new dividend establishes Ford, even more in '54, as the "Worth More" car. You get a special dividend in styling, for example, with Ford's distinctive new appearance... smooth, clean lines. You get sparkling new interiors, too, that are a dividend in themselves. And each of the new Fords gives you special dividends in ride and performance... with new Ball-Joint Front Suspension, the greatest advance in chassis design in 20 years... with your choice of Ford's new low-friction Y-block V-8 or I-block Six, the most modern engines in any car today! With 28 brilliant new models to choose from, you'll find the exact car to suit your tastes and requirements. Come in and see the '54 Ford. Test Drive it. Once you try it, you'll want to drive it home. The greatest engine advances since the original FORD V-8. TWENTY-TWO YEARS AGO Ford introduced to the low-price field a fine-quality precision-engineered V-8 engine. And now, with its 22 years' experience in building over 13,000,000 V-8's, it is only logical that Ford is first in its field to introduce a brand new type of V-8—the Y-block V-8... together with the most modern Six in the industry—the advanced I-block Six. Both new 1954 Ford engines have overhead valves for most efficient high-compression operation on today's fuels. Both engines have a deep-cast block with skirt that extends well below the crankshaft for greater strength and rigidity... smoother, quieter performance and extra-long engine life. Their modern short-stroke, low-friction design cuts friction losses... gives you more usable horsepower, more miles per gallon of gasoline. And new high-turbulence combustion chambers assure more efficient firing of fuel. Plan to Test Drive a '54 Ford. You'll find these new Ford power plants stand out as the greatest engine advances since the original Ford V-8.
