## The Gay Philosopher

By J. W. S.

UP IN THE City of Echenectas, New York, there's a gentleman named M. Drury Nolan who likes to spend his winters down this part of the country. And he's a friend of Mr. Leon Maner of the drug store. Some time back, Mr. Maner sent him some Texas newspapers, copies of the Press included.

In this particular copy of The Press was a story about the coming graduation at Cisco Junior College. So Mr. Nolan sent a check to Mr. Maner with the instruction, "Buy a bouquet of flowers for the most attractive girl graduate."

Mr. Maner turned the check over to Registrar J. Turner of the college. Mr. Turner left the selection of the bouquet to the boy members of the graduating class. And that's how it came about last Tuesday night that attractive Miss Hallye Marie Johnson of Hamilton was presented with an armful of American Beauty roses during the commencement exercises.

Mr. Nolan would have been very pleased, we'll bet, if he had had been there to see the surprised Miss Johnson accept her pretty flowers.

OUT AT COLLEGE Hill Wednesday afternoon, after the day's work was done, all the teachers and employees of Cisco Junior College gathered in the cafeteria. It was a surprise party for the O. L. Stameys. The occasion was to honor Mr. OLS who retires soon as president of CJC.

The gift was a very handsome wall mirror. And every time Mr. OLS looks into it he will see the reflection of a man who has contributed much to his community — by being a good teacher and college official, by being a good church man, and by being a good citizen in all respects.

Haven't heard what his plans are when he turns over the college reins to his successor, but we hope that the plans don't require the Stameys to leave our town.

IF YOU COULD have dropped in at Lake Cisco Park during the noon hour on Wednesday you would have seen a big group of happy children enjoying a picnic. They were the fourth grade students of Mrs. Grady Laws, and the picnic was because the mothers of the students were faithful about attending P-TA meetings.

The P-TA always gives a prize of \$2 cash to the room with the most mothers present for meetings. And Mrs. Laws' room was a winner every time the P-TA met during the past school year. So they used all their money plus a couple of bucks donated by the mothers to have a big hot dog picnic. Mrs. Gladys Byrd provided a lovely dessert in the form of a snow cone for each child.

Mothers of the children attended, too. So did Principal and Mrs. Doyle Holmes. It was a grand occasion, a couple of the students told us.

PRESS WANT-ADS get results, according to Mrs. Connie Reynolds of 204 West 11th. Mrs. Reynolds, who is 84 years old, missed her parakeet the other day and a want-ad had returned him. . . Mrs. Leveridge of the Jewelry Store tells us that Ciscoans would appreciate the cool weather if they went down south for a brief day. She visited down south of Brownwood the other day. They haven't had much rain and the weather is already hot. . . The Don Morrisons of Throckmorton and formerly of Cisco have announced the adoption of a daughter, Sylvia, on May 1. Sylvia was born Dec. 22 last and has been with the Morrisons since she was six weeks old. Mrs. Morrison is the daughter of Mr. and Mrs. A. L. Farley of Cisco.

FRIENDS OF Mrs. Bruce Campbell, formerly a local teacher, will be pleased to know that she recently was named president of the Delta Kappa Gamma chapter at Albuquerque, New Mexico. Her parents are Mr. and Mrs. S. N. Poe of Cisco. . . Mr. C. E. Whitaker of the Gallagher Clay Products Company advises us that he is slowly getting his strength back after a very serious operation several months ago. He's thinking of an occasional game of golf. . . Understand Mr. Nick Miller of the Man's Store, who underwent surgery in Dallas a couple of weeks ago, will be home this weekend.

ENGRAVED IN ICING—Street vendors in Paris are inviting pedestrians to have their names written on gingerbread pigs. The practice is a tradition at an annual fair where French carnivals gather before starting their individual rounds throughout the country.

## Applicants For Swimming Course Are Sought Here

W. B. Wright, chairman of the Eastland County Chapter of the Red Cross, is now taking applications for the aquatic school to be held at Texas State College for Women, June 8-18. The only expense for the school to the applicant selected, will be travel costs as the Red Cross has agreed to pay other expenses that may be incurred.

Because of the great number of boating and swimming facilities now being built and developed, there is a greater need than ever before for emphasis of the safe way to enjoy water and water sports. The demand for trained instructors in water safety and swimming techniques is at an all-time high. The person sent from Cisco to the aquatic school in Denton will become one of these trained instructors.

To qualify for entrance to this aquatic school, the young person must:

Be 18 years of age or older, be in good physical condition and agree to teach at least two classes, without charge, for the Eastland County Chapter during the coming summer.

Applications for admittance should be submitted as soon as possible because attendance at these schools is limited to accommodations available.

### LEGION WILL MEET

Plans for July the Fourth at Lake Cisco park will be discussed at the regular semi-monthly meeting of the John William Butts Post 123, American Legion, at 7:30 p. m. Thursday (tonight). Post Commander Gene Abbott has urged all members to attend.

Mrs. Bill Bragg is doing nicely in the West Texas Clinic in Ranger following surgery Wednesday.

## CARL ELLIOTT WITHDRAWS FROM RACE FOR COUNTY SCHOOL POST

County Superintendent Carl Elliott announced today that he has withdrawn his name as a candidate for re-election in the July primary. The action left H. R. (Pop) Garrett of Cisco the only candidate for county superintendent in the race.

In connection with his withdrawal from the race, Mr. Elliott issued the following statement: To the people of the opportunity: I am taking the opportunity to express my appreciation to you for the honor which you have bestowed upon me and to tell you why it has meant so much to me.

When I was two years of age my father moved his family to Eastland County. He was a tenant farmer. We lived in the community of Long Branch, southwest of Carbon, for five years. We then moved to Pleasant Hill, six miles west of Carbon and lived there three years. My school career began in the little two teacher school at Pleasant Hill. From there we moved to Bear Springs, east of Carbon, and I attended that school until I completed the sixth grade. The remainder of my public school education was received at Carbon, and I graduated from the Carbon High School in 1923.

I would have finished school sooner, but I was never able to enter school any year until after Christmas, until I reached the 9th grade. Our large family of ten boys and three girls made it necessary for us to pick cotton each fall until after Christmas, in order to have the bare necessities of life. Two different successive years I entered the 9th grade after Christmas, and the two different successive years I

## CROP AND PASTURE PROSPECTS IMPROVE WITH WEEKEND RAINS

Crop and pasture prospects in most Texas areas, particularly West Texas counties, took a turn for the better early this week as another cool front brought bountiful rains to most areas. Approximately one inch fell in the Cisco area.

In the northwest part of the state, planting and replanting of cotton and sorghums made only fair progress between showers but will be pushed when fields dry.

Over the week end much needed showers also fell in the Plateau and south Texas. Reserve moisture in the western half of the State, particularly the low rolling and southern high plains, is the best in several years. Over the eastern half of the State planting, replanting or cultivating cotton, sorghums, peanuts, and other spring crops was active. Moisture in most of that area was generally adequate.

Wheat prospects on surviving acreage in the northwest continued on the upgrade. Combining the 1954 crop was started as scattering fields in central, north Texas and Cross Timbers counties ripened. In the northwest, where stands are thin, weeds may

### Shallow Oil Well Is Completed On Wright

A shallow oil well has been completed on the Wright Ranch some seven miles southeast of Cisco, according to information here today. The well is the Haas and Wilson, Dallas, No. 1 W. B. Wright. Location is in Section 28, Block 4, H&TC Survey.

Daily potential was 84 barrels of oil, plus 21 per cent water, pumping from open hole at 1,368-74 feet, according to the completion report. The well is west of Mississippi lime production.

### Shallow Oil Well Is Completed On Wright

Mrs. Iona Odell and sons and Mrs. Cloze and baby of Big Spring, and Mr. and Mrs. Harry Fielding and children of Borger returned to their homes Sunday after a visit in Cisco with their parents, Mr. and Mrs. J. T. Carson, Sr., and their brother and wife, Mr. and Mrs. J. T. Carson, Jr.

D. L. Carson of Del Rio and Miss Reba Carson of Amarillo returned to their homes Tuesday following a visit in Cisco with their parents, Mr. and Mrs. J. T. Carson, Sr., and their brother, J. T. Carson, Jr., and family.

Mrs. Lannie Mancill and Dr. Jim Lawrence were in Dallas Thursday where they were transacting business and visiting Dr. E. L. Graham at Baylor Hospital. Dr. Graham was reported as improving steadily.

Mr. and Mrs. C. P. Cole are visiting their children and other friends and relatives in Phoenix, Arizona, and San Francisco Calif.

## Election Ordered June 19th On Scranton School Consolidation

### Musical Program By Mrs. Phillips Is Lions Feature

Mrs. Richard Phillips, teacher in the Cisco schools, played several piano selections as the program feature Wednesday at the weekly luncheon meeting of the Lions Club at the Victor Hotel. Lion Ralph Glenn was in charge of the program.

The program included both classical and popular numbers. Mrs. Phillips is the former Miss Lovell Paul, daughter of Lion and Mrs. C. E. Paul. She is a former Club Sweetheart.

President George Davis announced that members of the Cisco club have been invited to meet on Tuesday night, June 15, at Ranger for installation of new officers in ceremonies for clubs at Ranger, Eastland, Strawn and Cisco.

The meeting will be in the First Baptist Church at Ranger at 7 p. m. Ranger Lions Joe Dennis, Lloyd Bruce and Calvin Lipkin are in charge of an entertainment program. Dr. Calvin Harris, Ranger mayor, will be master of ceremonies.

Joe Weaver of Olney, new district governor, will be present to talk and install the officers of the four clubs. He will be introduced by O. L. Stamey of Cisco, who recently retired as district governor.

Mr. Davis asked local Lions to be ready to make their ticket reservations at the next luncheon of the club. Tickets will be \$1.50 each and the meeting will be a "ladies night."

Guests at the luncheon included Max Bentley and Les Clark of Abilene and Otis McCleskey of Cisco.

Members of the 1954 graduating class of Cisco High School were urged to "know where you came from and where you are going" in a baccalaureate address Wednesday night by the Rev. Grady James, pastor of the First Presbyterian Church.

The baccalaureate service was attended by a capacity crowd at the high school auditorium.

The closing event of the 1953-54 school year will be the high school commencement exercises Friday night at the auditorium with Dr. Rupert N. Richardson, former president of Hardin-Simmons University, Abilene, as the speaker. Diplomas will be presented at that time.

Promotion services for Junior High graduates will be held at that school at 8 p. m. Thursday with the Rev. James as the speaker. Some 83 students will be promoted to high school in the service.

In his baccalaureate address, Rev. James used John 13:3-5 — And Jesus knowing that he came from God and was going to God, he . . . tied a towel round him . . . and began to wash the feet of the disciples — as his text. His subject was "Living to Serve."

Rev. James quoted an old

## DR. JAMES SPEAKS TO SENIORS CLASS; FINAL SERVICE FRIDAY

Members of the 1954 graduating class of Cisco High School were urged to "know where you came from and where you are going" in a baccalaureate address Wednesday night by the Rev. Grady James, pastor of the First Presbyterian Church.

The baccalaureate service was attended by a capacity crowd at the high school auditorium.

The closing event of the 1953-54 school year will be the high school commencement exercises Friday night at the auditorium with Dr. Rupert N. Richardson, former president of Hardin-Simmons University, Abilene, as the speaker. Diplomas will be presented at that time.

Promotion services for Junior High graduates will be held at that school at 8 p. m. Thursday with the Rev. James as the speaker. Some 83 students will be promoted to high school in the service.

In his baccalaureate address, Rev. James used John 13:3-5 — And Jesus knowing that he came from God and was going to God, he . . . tied a towel round him . . . and began to wash the feet of the disciples — as his text. His subject was "Living to Serve."

Rev. James quoted an old

proverb: "If you are planning for a year, plant grain; if you are planning for a hundred years, plant trees; if you are planning for the centuries, plant men." He used the proverb to urge the graduates "knowing that we came from God and are going to God, let us humble ourselves in order to serve, and serve in order to save our generation."

The speaker noted that accomplishments belong largely to those who have a mission in life — who know where they are going. "It is valuable for a person to know where he is going," Rev. James said. "After studied decision, there is nothing left but to be on one's way. Seeing a good man who knows where he is going is an inspiration. His deep purpose and drive and zeal has a power to compel others to go along with him."

"Tonight is a milestone in your lives. This could be such a milestone for you as was the night for the disciples in the upper room. How you react to the humbleness of the Lord Jesus Christ will give the manner of direction to your whole life. I hope you have already gotten your bearings for great living."

The program opened with

## Fonda Wallace To Be Featured On Cisco Jamboree

Fonda Wallace, 10 year old Monday radio and television

FONDA WALLACE

star, will return to the Cisco Jamboree Friday night as the feature attraction, it was announced Thursday by Al Anderson, Jamboree manager.

Fonda has appeared on many jamboree programs, including the Big D Jamboree in Dallas last week. She was elected queen of the Country Roundup Show at Breckenridge last year. She has appeared many times on Wichita Falls radio and television shows and is very popular with local jamboree fans.

Smiley Ricker, Kelley Coats, Roy Thackerson, Betty and Mary Alexander, Al Anderson and Paul Huffman are among the local entertainers scheduled for appearance Friday night. In addition there will be entertainers from Breckenridge, Nimrod and Dublin on the program.

The weekly show is sponsored by the Cisco Volunteer Fire Department.

Mary Ann Moore will leave early Friday morning for Temple where she will enter the Scott and White Hospital. She is to be accompanied by her parents, Mr. and Mrs. W. L. Moore.

### Swimming Pool Notes . . .

## BIG GROUP FROM ABILENE HAS OUTING AT LAKE CISCO PARK

By W. P. KNIGHT

The Lake Cisco Swimming Pool and other lake recreational spots were very busy places last weekend. With the 90-member all-girl Abilene High School Egleettes singing group, and the high school band and orchestra, it looked as though all the teenagers in Abilene were with us.

We were so busy that we never had time to meet the band and orchestra director, Robert Fielder, with whom we had made plans for this visit via telephone. Neither did we meet Miss Gloria Williams, the young lady who wrote us about the Egleettes coming here. And Mr. G. Kenney, their director, was another whom we failed to contact here.

We did find a few seconds to converse with Coach W. D. Lawson from Abilene, who appeared pleased when we asked about those fine athletic teams of Abilene High School. He pointed out swimmer Bob Gay, who was on the top state Class AA sprint relay team. Bob also placed second in the 100-yard event.

Thanks to the Egleettes and 150-member band and orchestra, we made a new 195 attendance record at the pool, when 223 adults purchased tickets. In addition, we sold 17 children's tickets. These totals do not include a number of swimmers with 10 or 25-swim passes.

sent over 30 students, and from De Leon arrived 40 Juniors. Eastland High School's Freshman class of 40 was the last group to join the swimmers. We learned that the Senior Class had gone to Glen Rose for their trip.

Thursday was not such a bad day at the swimming pool, when we had 139 adults in swimming. Ranger 8th grade with 62 in the group, visited us, with Principal H. L. Coody in charge. Teacher Dorothy Aston and Vocational Agriculture Director B. H. Dudley came with this class. A number of Ranger Junior College boys swam, also.

From Moran came the 8th grade, the members of which must have been "welcomed" by the Moran High School students, since most of them had "FISH" lip-sticked on their forehead. Nine teachers or sponsors accompanied the aggregation from Shackelford County. They were: Mrs. Harold Thomas, wife of the Moran superintendent; Teachers Mr. and Mrs. L. B. Phippen, Mrs. W. A. Huskey, Mrs. Bernice Midkiff, Mrs. Moore, Elmo Murphy and bus driver Lucian Brooks.

Other Thursday swimmers were the De Leon Freshmen, 70 strong, with teacher Mrs. Daniels and Vocational Agriculture Advisors R. H. Campbell and W. M. Robertson. Mr. Campbell recalled earlier trips here with FFA groups from Coleman, who

## Proposal Would Add Scranton To Cisco District

An election has been ordered for Saturday, June 19, on the question of consolidating the Scranton School District with the Cisco Independent School District, according to an announcement here today. The election was called by County Judge John Hart in response to a petition signed by 24 patrons of the Scranton district asking for such an election.

As required by law, the judge also set the same date for an election to be held in the Cisco district, called for the purpose of voting on the question of accepting the Scranton district if the voters there decide they want the consolidation.

As provided by law, notices of the election were posted in three places in each district by Sheriff Frank Tucker. He put up the notices on Wednesday.

The Scranton district is composed of several square miles of territory with an assessed valuation of approximately \$500,000 it was reported. If the election carries it will mean the transfer of some 125 students from the Scranton school to the Cisco schools.

Arlin Bint, superintendent of the Cisco schools, said that the Cisco schools would welcome the Scranton students in the event the voters in the area decide on consolidation. "He stressed the point that he and the local board would work with the Scranton district in any way possible — either way the election goes."

State law requires, in cases of consolidation, that the district asking consolidation must decide the issue by majority vote, and in turn, the district to which they vote to consolidate must vote to accept the consolidation.

Mr. Bint said that if the election carries in both districts Cisco would be allowed five additional teachers for the next year. He said that the Cisco schools had adequate room and facilities to care for the additional students. It would require the running of at least three school buses to the Scranton, Nimrod, Dan Horn area, with the State paying the expense of bus operation.

The proposal for the consolidation was drawing considerable interest in the Scranton district, it was reported. There are approximately 100 qualified voters in the area, including some 77 poll tax holders and several who are exempt.

## Former Resident To Be Buried In Friday Rites

Author Aubrey Chancellor, 53 year old carpenter, who lived in Cisco until five months ago when he moved to Catoosa, Oklahoma, died there Tuesday afternoon it was reported here Thursday.

His body was to be brought back to Cisco where funeral services will be held at the graveside in Oakwood Cemetery. Time of the services has been tentatively set at 5 p. m. Friday with the Rev. Mart Agnew, pastor of the Okra Baptist Church, officiating. The body was to arrive in Cisco at noon Thursday. Thomas Funeral Home was in charge of the arrangements.

Mr. Chancellor was born in Cisco on June 27, 1900, and had lived here most of his life before moving to Oklahoma five months ago.

Survivors are his wife of Catoosa; a son, Neal Chancellor of Catoosa; five daughters, Mrs. Billy Diggins of Vernon, Mrs. Jack McMillan of Tulsa, Mrs. Jack Freeman of Snyder, Mrs. Kenneth Wallace of Odessa and Mrs. Joe Murry of Hesse; a brother, Billy Chancellor of Cisco; two sisters, Mrs. Henry Hull of Lamesa and Mrs. Pug McClelland of San Angelo; and his parents, Mr. and Mrs. G. W. Chancellor of Cisco and nine grandchildren.

SLOW DOWN AND LIVE Texas is one of thirteen Southern states which have joined with eleven Northeastern states in a concerted effort to control highway speeds during the peak period of summer travel. Patterned on a similar program which was conducted in 1953 by the Northeastern states group, a "Slow Down and Live!" campaign will be conducted in 24 states from Memorial Day through Labor Day.

Political Announcements

The Press has been authorized to make political announcements, subject to the Eastland County Democratic First Primary in July, for candidacies as follows:

- For County Superintendent CARL ELLIOTT (re-election) H. R. (Pop) GARRETT For Sheriff J. F. TUCKER (re-election) J. B. WILLIAMS E. L. (Jug) DENNIS For Commissioner, Precinct 4 J. E. (Ed) McCANLIES, (2nd Term) ARCH BINT District Clerk ROY L. LANE, re-election JOHN C. NICHOLAS Tax Assessor-Collector STANLEY WEBB (re-election) County Treasurer RICHARD C. COX (re-election) For County Judge JOEL HART (re-election) C. S. (Clabe) ELDRIDGE For Justice of Peace ROSS GRIFFITH HENRY H. CURTIS (re-election) County Clerk JOHNSON SMITH (re-election) For Constable Cisco Precinct A. C. (ALLEN) JONES (re-election) State Representative 16th Dist. OMAR BURKETT (re-election) PAUL BRASHKAR

The Texas Safety Association, working jointly with the Texas Department of Public Safety, will act as coordinators in making the summer watchwords of the highways from Passamaquoddy to El Paso — "Slow Down and Live!" The agreement of the 24 states to conduct the program has been announced by a joint declaration of the governors of the states participating. J. O. Musick, General Manager of the Texas Safety Association,

has been named State Safety Coordinator for the project. In explaining the reason for the campaign, Mr. Musick said: "Traffic violations involving SPEED, including: speed too fast for conditions, following too closely, failing to yield right of way, improper passing and plain, excessive speed." Mr. Musick also pointed out that this program differs from other traffic safety campaigns in that it concentrates in a single area of traffic law enforcement—the violations associated with speed—during the peak period of summer traffic. "The campaign," he said, "is entirely under the direction of public officials, assisted by organized public support. It sets no unified policy as to methods of enforcement and has no 'axe to grind' regarding a particular speed limit. Each state, county and community steps up enforcement of its own statute or ordinance."

Dr. James — From Page One prayer by Dr. H. M. Ward, pastor of the First Baptist Church, followed by a scripture reading by the Rev. D. M. Duke, Nazarene pastor. Band Director H. E. Wagner led in singing and the high school choir provided special numbers. The closing prayer was given by the Rev. F. C. Bradley, pastor of the East Cisco Baptist Church. Norma Schaefer played the professional and the recessional.

Mary Dryden of Dallas is expected Friday for a weekend visit in the home of Mr. and Mrs. Carlton Holder. Mr. and Mrs. O. L. Bassett of Littlefield visited Mr. and Mrs. A. F. Peiry and other relatives in Cisco this week. Patsy Gardenhire of Abilene visited in the home of her parents, Mr. and Mrs. Van Gardenhire, Tuesday. Dwayne Pelfrey of the U. S. Navy, stationed at Norman, Oklahoma, visited his parents, Rev. and Mrs. J. C. Pelfrey, over the weekend.

Big Loss in Legume Seed Saved by Fixing Combines

Experiments conducted by the California Agricultural Experiment Station indicate that millions of pounds of alfalfa and clover seed might be saved annually and a much higher germination obtained by proper adjustment and operation of seed harvesting equipment, thus insuring better stands and better yields. With combine harvesters the average germination was increased by 10%, primarily as a result of adjustments of cylinder speed. If this percentage was applied to all alfalfa and clover seed harvested with combine harvesters in the United States, many millions of pounds might be saved. A high standard of germination—85% minimum—is required for certification of alfalfa and clover seed by most State crop improvement associations. In California, in 1948, approximately 10% of improved seed was in danger of rejection because of low germination, and much good seed was lost in trying to bring the resulting germination up to an acceptable percentage. Since mechanical damage seemed an important factor in the problems of low germination, sample lots of cleaned seed from all improved alfalfa seed fields in production during 1948 were examined microscopically. Seeds visibly damaged—cracked, chipped, or broken—varied from 8% to 69% for different lots, with an average of 27%. Results of tests and adjustments of harvesting equipment and methods demonstrated that the amount of seed damage is closely related to the peripheral speed of the cylinder. After adjustments had been made, germination results ranged from 88% to 98% with an average of 93.7%, 10% higher than before adjusting. Benefits derived from the use of flax rolls and reducing cylinder speeds are not confined to improved seed quality. Lower speeds leave the straw in better condition—longer pieces and less chaff—so that the seed can be separated and cleaned more efficiently, with less loss over the rear of the machine. Yields from individual fields of alfalfa in this investigation ranged from 100 pounds to slightly over 1,000 pounds per acre. Visible seed damage averaged 17% for the 16 combines as initially operated, and 5.3% after the machines had been adjusted.

A QUICKIE—Grabbing a chance to be together for a short vacation, actor-singer Tony Martin and his actress-dancer wife, Cyd Charisse, flew to San Juan, P. R. They're sharing a tropical drink and wearing native hats before Martin returned to his TV show in New York and Cyd to Hollywood.

# SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

## Sawyer Hostess Circle Meeting

W. W. Sawyer was hostess of the First Baptist Church of their regular meeting at the home of Mrs. E. J. Poe presiding. A. F. Ashenbust led the prayer and Mrs. Fred gave the devotional from 103. Routine business were transacted after Mrs. Sawyer taught the Mrs. Algie Skiles dis- tinguished the meeting with prayer. Social hour followed and refreshments were served to Mes- srs. W. C. Cates, Algie Skiles, Clyde Karkalits, Frank Poe, J. E. Burnam, A. R. E. J. Poe, Fred Grist, Bobby Frank Walker, and the Mrs. Sawyer.

## Baptist Circle Meets On Tuesday

Two of the First Baptist Church met Tuesday at the home of Mrs. F. E. Shepard for their regular meeting with the Rev. Mrs. O. G. Lawson, in- charge. Mrs. O. G. Lawson opened the meeting with prayer. Mrs. O. G. Lawson gave the devotional which Mrs. E. L. Jackson

## Lutheran Missionary League Has Meeting

The monthly meeting of the Lutheran Women's Missionary League of Grace Lutheran Church was held Friday evening at the home of Mrs. Clarence Stroebel. Mrs. Carl Stroebel, chairman, opened the meeting with scrip- ture reading from John 17 and prayer. The topic for the meet- ing, "Fervent Prayer For Mis- sions," was led by Mrs. Fred Stroebel, Mrs. Marie Fricke, and Mrs. Winona Lanham.

The topic brought out the fact that as disciples of our Lord, we need to be fervent in praying for the spreading of His word and in asking God to give us and our congregation liberal hearts and hands and increased personal zeal in spreading the gospel.

At the business session, it was voted to have a basket dinner on Sunday evening, May 30, at Lake Cisco at which time the children of Grace Lutheran School will present their closing program. The time of vacation Bible school was set for June 21 through July 2.

The meeting was dismissed with all repeating the Lord's prayer in unison. Refreshments were served at the close of the meeting to Mes- srs. Ernest Reich, O. J. Weiser, R. H. Dunning, Marie Fricke, Fred Stroebel, Winona Lanham, A. M. Stroebel, Paul Weiser, Alex Zander, A. O. Lenz, Dorothy Prange, Clarence Stroebel, Frank Ziehr, Carl Stroebel, and Joe Weise.

Carol Donahoe of S.M.U. is visiting his mother, Mrs. W. W. Donahoe, this week.

Mr. and Mrs. Bill Marshall and children of Dallas are expected Saturday for a weekend visit with Mrs. Alex Spears.

Mr. and Mrs. E. C. Lloyd of Waco are expected Saturday for a weekend visit with her par- ents, Mr. and Mrs. W. Z. Latch, and other relatives.

Mr. and Mrs. J. Bert Beck of Dallas, formerly of Cisco, are the guests of Mr. and Mrs. J. H. Chambliss this week.

Mrs. F. E. Clark left today for LaPorte, Texas, to be with her daughter, Mrs. Tom B. Smartt, who is to undergo surgery Tues- day.

Charles Spears of Sherman is expected Saturday for a weekend visit with his family.

Mr. and Mrs. Henry Clutz of Dallas visited her parents, Mr. and Mrs. H. A. Bible, Wednesday.

Mac Stephens of Cisco was re- ported as slightly improved at Graham Hospital Thursday. He has been in the hospital for sev- eral days.

## Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow- down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nag- ging backache—feel miserable. Minor blad- der irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these condi- tions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discom- forts—help the 15 miles of kidney tubes and fil- ters flush out waste. Get Doan's Pills today!

FOR ATHLETE'S FOOT USE A KERATOLYTIC BECAUSE — IT SLOUGHS OFF the tainted outer skin to expose buried fungi and kills it on contact. Get this STRONG, keratolytic fungicide, T-4-L, at any drug store. If not pleased IN ONE HOUR, your 40c back. Now at Dean Drug Co. adv.

## NORVELL & MILLER

WHERE MOST PEOPLE TRADE

WEST 10th AT AVE. D. — CISCO  
Phones 102 — 103 — We Deliver all day during this Sale

We Congratulate The Graduates of all Cisco Schools and of the Surrounding Area

HOPING FOR THE BEST—As London's annual open-air art show opened, Marguerite Chapuzet, of Bordeaux, France, left, arrived with her entries. Dressed in the tradition of the art world, Ann Bultias, right, scans an exhibit entered by Elisabeth Kaye, who seems content to let her paintings "sell" themselves as she catches up on the news.

ANOTHER MIRACLE—Mrs. Lawrence Miller, of Flint, Mich., thinks she has proof that animals are taking part in "Be Kind to Animals Week." She found four young rats in the backyard and turned them over to Tabby, her cat, for disposal. Tabby, mother of two new kittens shown here, did away with three of the rodents, but seemed to take a liking to the one that remains. Now the little rat nurses right with the kittens and even drinks milk from a saucer along with Tabby and her natural babies.

### Grassland Farming has Growing Role in Future

Grassland farming with adapted varieties makes possible the profitable use of this poorly drained area which is too wet for anything but grazing.

What can grassland farming mean to the future of livestock farming? Henry Ahlgren of Wisconsin, in CROPS AND SOILS, presents six important considerations.

- (1) Forages provide 64 per cent of the nutrients consumed by dairy cattle in the United States in the form of pasture, hay, and silage. They supply certain efficient proteins, minerals and vitamins in greater abundance and cheaper than grains and seeds or their by-products.
- (2) Forages do more to widen the margin of profit by reducing the cost of feed, which represents about 50 per cent of the cost of producing milk, and by using more efficient rations than can be done by any other means.
- (3) Forages of high nutritional value assure better health of livestock, which is even more important than cost of production.
- (4) Forages assure better human health. Just as livestock suffer from nutritional deficiencies, so would human consumers of the milk and meat from these animals be deprived of certain nutrients and vitamins normally present in these valuable foods.
- (5) Forage grasses and legumes protect and improve the soil. They reduce soil losses by wind and water erosion. They have a beneficial effect on the yield of the crops that follow.
- (6) Forages make possible the use of land that is too wet, stony, stumpy, or rough for anything except grazing.

Ahlgren also calls attention to certain limitations and weaknesses of grassland farming as practiced now, most of which can be overcome:

- (1) Yields of pastures are too frequently and unnecessarily low and the forage is often of poor quality. We are getting too small a proportion of the potential yield and livestock gains from our pasture land.
- (2) Good pasture is a most economical source of feed but often fails to provide a uniform supply of palatable and nutritious forage throughout the growing period.
- (3) Losses during haymaking are excessive. Weather conditions are often not conducive to the production of good quality hay. As a result, hay is more variable in quality than any other harvested feed.
- (4) Considerable labor and equipment are required in making hay and silage. Fortunately, buck rakes, field balers, bale loaders, and field choppers are all big labor savers and should do much to reduce labor costs.
- (5) Milk production per cow is too low. Feed in the amount needed and of the desired quality is not in itself a guarantee of maximum return or profit for dairy farmers.

ARTISTS AND MODELS—Mrs. Rita Trostel is sitting for a group of very young painters at a Children's Aid Society center in New York, top photo. The youngsters in the class persuaded their mothers to pose and the results became Mother's Day presents. Below, Charlotte Walsh, eight, is showing her effort to her mother who is obviously pleased with the "likeness."

### Carl Elliott -- From Page One

failed to be promoted because it is impossible to make the last half of the 9th grade without having had the first half as a foundation.

The next year my father told me that if I would remain out of school completely for that year he would see that I did not have to be out any more until I finished high school. This I did, and when I re-entered the 9th grade, four years from the time I first entered it, I sat in the same seat, with classmates who had been four grades behind me. With no more interruptions but with plenty of hard work as school janitor for three years, I graduated in 1923.

My school-day sweetheart and I were married in the fall of 1923. I studied for and took state examination for a teacher's certificate, passed, and began my first teaching in the 1923-1924 school term. From that beginning, by attending summer school, extension courses at night, and correspondence work, I am now the holder of a Master of Arts degree, yet have not missed a year in teaching since my graduation from high school. (This is counting my work as County Superintendent, which is considered teaching.)

On July 27, 1947, I was unanimously appointed County Superintendent of Eastland County schools and I would like to give you part of the order of the Court that made the appointment.

"It further being made known to the court that H. C. Elliott of Eastland, Eastland County, Texas, had filed with the Commissioners' Court his application to be appointed to fill the unexpired term of W. P. Jones, Supt. of Schools for Eastland County, and that he likewise had filed a letter bearing the signatures of all members of the County Board of Trustees, recommending that he, H. C. Elliott, be appointed to said position. And the court, after duly considering said application and after hearing Mr. Elliott personally, is

of the opinion that he is a thoroughly qualified and suitable person to fill such position and that it would be for the best interest of the schools of Eastland County that he, H. C. Elliott, be appointed to fill the unexpired term of W. P. Jones, resigned, as County School Superintendent."

This appointment was for one year, five months and four days of an unexpired term of three years five months and four days. Since the Court can only appoint until general election, in July, 1948, I was a candidate for the remaining two years of this unexpired term. I had no opposition, so in July, 1950, I became a candidate for my first full-term as County Superintendent, subject to the action of the Democratic Party. I am at present serving my first full-term of office as County Superintendent. If I should live until the expiration of this term on December 31, 1954, I will have been your County Superintendent a total of seven years, five months and four days.

So far as I am able to trace the records this is longer than any other County Superintendent has ever served Eastland County. This honor is doubly great when you consider that it has been bestowed upon me without opposition, without having to give out a candidate card, or having to ask anyone to vote for me. For this I am humbly grateful.

I wish to give you a brief resume of the accomplishments and progress made in the Eastland County Schools during my service in this office. When I entered the office there were 37 school districts in Eastland County, 26 of which were inactive. I called a meeting of the County Board and asked the County Board to consolidate these districts long before the enactment of the Gilmer-Aiken bills. Many of these were consolidated prior to their enactment. We now have only 9 active school districts. They are all first class, affiliated schools. One other accomplishment that I would like

to mention is the fact that I was instrumental in getting the Texas Education Agency to approve another teacher for the colored schools of Eastland County so they might be taught some high school work. Many other accomplishments in which I have had a part could be named, but space will not permit.

I have done my best to make you a good County Superintendent. All decisions that I have made have been made in what I thought was the best interest of the school children of Eastland County. I made these decisions or rulings without fear or favor. No one can say I ever straddled the fence or that they ever had to ask me a second time how I stood on any question. This is not said boastfully.

I have a written endorsement and recommendation signed by seven out of 9 superintendents of Eastland County Schools, and a statement of commendation for a job well done from the other two. I certainly want to express my sincere appreciation to the County School Board, Superintendents, teachers, and patrons for the splendid cooperation that you have given me in the past. It has been wonderful. No man could have had better help or cooperation. I shall ever be grateful to you for this.

To all people of Eastland County, let me say I shall always be indebted to you for permitting me to serve you seven years five months and four days as your County Superintendent -- longer than any one, and this without opposition or having to campaign for it. This is the highest public educational office in the county. To have served you this long without opposition in the county in which I have lived all my life, is an honor anyone would be proud of. You people have been good to me. You have honored me, helped me, been nice to me for which I thank you from the depth of my heart.

The recent special session of the Legislature raised teachers' salaries \$402 per year. A teacher with a Masters Degree and 26

years experience can draw 434 per year. Since I have had these qualifications I draw this amount for nine months teaching. I have been offered a teaching position which will pay me \$4,434 for 9 months elementary principalship will pay me \$4,860 for 9 months. I have also been offered an educational position in Eastland County that will pay me for 10 months employment term of office expires Dec 31, 1954. The following January 1, 1955, I can be offered an educational position in Eastland County at a salary of \$5,100 per month.

Using the words of C. Coolidge, "I do not choose to run."

Thank you. Sincerely, Elliott, County Superintendent of Eastland County Schools.

Mr. and Mrs. Harold Hinson, Mark, of Austin were expected today for a week-end with their parents, Mr. Mrs. Fred Erwin and Mrs. C. B. Hill.

IS SHE THE SWEETEST GRADUATE YOU KNOW?

Philpot the Florist

### Big Group — From Page One

camped out in the park, and heard panthers screaming from the park zoo, which then was in full operation.

While Wednesday's swimmers were fewer than later in the week, we had 139 in the pool who bought adult tickets. The Ranger Vesper Choir of 8 to 12 year old boys and girls, enjoyed a swim. There were 25 in this group which was in charge of Mrs. Dave Pickrell, Premier Pipe Line Co. official. Fred Baumgartner, formerly Cisco schools music head, handles this choir which is the Ranger Methodist Church, whose pastor and wife came with the choir. He is Rev. Finas Crutchfield, who we understand is retiring this year.

Sponsors with this choir were: Mr. and Mrs. Leonard Pounds, Mr. and Mrs. W. H. Clark, Mrs. Roscoe Hopper and Mrs. R. L. Willis.

We started this week with the Brock FFA boys, in charge of Vocational Agriculture teacher H. H. Hooks, with Rev. Horace Horton, Brock Baptist Church pastor, as a sponsor. This group of 16 camped out Monday night in the park and left Tuesday morning.

Swimming was their chief entertainment while at the park. Coming from the Parker town close by the Brazos River, these boys swim in water as deep as 18 feet when the river is high, but they and their teacher and pastor sponsor agreed that the Lake Cisco pool has "everything a swimmer could wish for."

And their vocational instructor said he never saw clearer water anywhere. We appreciate these nice statements about our big pool.

The Brock boys were Joe L. Addison, Dwain Campbell, Jerry Hale, Jimmy Jordan (with whom we corresponded about this trip), James Steel, Wesley Beecham, Ken Harwell, Johnny Moss, Don Lothridge, Robert Jones, Jim Harrison, Walter Jones, Joe Herring and Max King.

Other newcomers to the park this week were the Sub-Debs from Winters, who have occupied City of Cisco rock houses for the past few years. They will stay with us until Friday in their residences just back of the bath-houses.

Sponsored by Mrs. Shirley Howard and Miss Max Puckett, the group included Shirley Scott and Bonnie Pierce, back from last year; and new-comers Jan

Hurley, Shirley Hale, Linda Bedford, Loretta Awalt, Joan Smith, Barbara Brannon, Winona Olsen and Bobby Howard.

Late Tuesday afternoon the Eastland High School Sophomore class came to the pool in charge of W. M. Crow, a teacher. Arriving about 6:15 o'clock, only a dozen or so swam, included J. D. Hansen, Eastland Senior, who placed first in the state Class B track finals in one hurdle run and second in another.

Accompanying this class were sponsors Mrs. Guy Craig, Mrs. Russell Hill and Mr. and Mrs. Wayne Caton.

Thanks to Joe Comingore's "Joe Must Mow" program last weekend, the heavy growth of grass on the bank between the bath-houses and the golf course at the lake now looks like one of the country club putting greens. Thanks a lot, Joe. And Ben Smith tried out a weed burner that eliminated much of the grass along the bottom of the wire fence close by the pool. Thanks to you, Ben.

### Moran News . . .

## Prosper Walker To Graduate At Military Academy

By MRS. C. C. CADY

Mr. and Mrs. L. L. Walker and daughters, Ruth and Patsy, will leave Moran on June 1 for West Point where they will attend graduation exercises for their son and brother, Cadet Prosper Walker, who is completing his work at the military academy. The services will be held in the field house on June 8.

On June 8 Cadet Walker is to serve as an usher at the wedding of one of his classmates, and on June 9 he is to serve as usher at the wedding of another classmate.

The Walker family will make the trip to West Point by bus.

F. K. Humphrey of Phoenix, Arizona, who has been in the Moran area for the past few weeks obtaining oil leases, has filed for permits to drill in the Moran city limits. He has spudded in a shallow test on the E. R. Mohon tract, and has four additional locations made. A part of the

22 acre Mohon tract lies in the city limits.

Mr. Humphrey has rented a house in Moran, and he will be joined by his wife, who will remain here for the summer.

The Rev. Melvin Mathis and family left Moran Monday for Quail for a short visit with Mrs. Mathis, mother. They were en route to Amarillo where they will attend the annual North Texas Methodist Conference. Their daughter, Marie, will visit her grandmother in Quail while Mr. and Mrs. Mathis attend the conference.

The Rev. Arthur Murrell will speak for the Sunday morning services at the First Christian Church. Sunday night he will speak at joint services at the Methodist Church.

Several out of town visitors were at the Moran Luncheon Club meeting at the club room Wednesday, May 19. Included in the group were Mr. McCanlies, Mr. Crawford, and Mr. Carter of Cisco. Other visitors were Mr. Butler of Abilene, Mr. Forney of Abilene, Jimmy Duval of Breckenridge and several oil workers from the Sedwick area.

The Rev. J. B. Fowler presided at the meeting in the absence of Toastmaster Sanford Tune. The Sedwick group served a roast beef dinner with strawberry shortcake as the dessert.

Mrs. Hortense Brooks has received an invitation to attend graduation services in Galveston on June 4, at which time her grandnephew, Billy Gay Campbell, will receive his M. D. Degree from the University of Texas School of Medicine. Billy is a graduate of Moran High School and the son of Mr. and Mrs. Gay Campbell of Odessa.

A downtown parade will be held in Moran Saturday, June 5, as the vacation Bible school of the Baptist Church begins.

Moran business houses will be closed Monday in the observance

**ENCOURAGEMENT**—Tiny Pamela Micharlson is just doing her big bit for Letters From America Week. She's using that king-size fountain pen to remind people to help spread the truth about the U. S. in foreign countries by writing letters abroad. The idea is endorsed nationwide by public officials.

of Memorial Day. The holiday falls on Sunday, so the merchants decided to close for the observance Monday.

The regular meeting of Moran Chapter 591, Order of Eastern Star, was held Monday, May 24, and officers for the coming year were elected.

The following officers were named: Ida Thompson, worthy matron; Albert Thompson, worthy patron; Clea Collingsworth,

SENIORS ENJOY TRIP; TEACHERS MAKE PLANS FOR BUSY SUMMER

By RHELDA REED
The senior class of 1954 has attended its last class in high school. The class has enjoyed a prosperous four years and is looking forward to many happy years ahead.
Last Friday morning at 4:30 o'clock a very excited, wide-awake group of seniors departed for their senior trip. They had breakfast in Lampasas and stopped for a short visit in Austin. Upon reaching New Braunfels,

they went immediately to Lando Park where the class participated in various activities. Some went swimming, boating, bicycle riding, and some just walked around taking in the beautiful scenery.
At 2 o'clock the group boarded the bus and went to the Mission Valley Dude Ranch where they stayed until Saturday at 2 o'clock. At the ranch there were many things to do for entertainment. Most of the students went swim-

ming Friday afternoon and some went horseback riding. After dinner some danced, watched television, and swam. The class had a most enjoyable time at the ranch and would recommend it to anybody.
After departing from the ranch the group headed for San Antonio. They spent some time at Brackenridge Park and then went to Playland. They left San Antonio at about 7 o'clock and pulled into Cisco about 1:45 a. m.
The seniors had a wonderful time and it will be an experience they will never forget. They not only enjoyed the entertainment offered but also the pleasure of being together.

Teacher's Summer Plans
Mrs. Van Horn — She plans

Vets Questions And Answers

Q — If I enroll in a correspondence course under the Korean GI Bill, what will VA consider as the official start of the course — the date I receive my first lesson or the date I complete it? I want to know because I have to get started before the August 20 GI cut-off date.

A — Your correspondence course will officially begin when the school transmits its first lesson to you.

Q — I understand that I'm allowed to suspend Korean GI Bill training for 12 straight months after my starting cut-off date. What happens if circumstances arise that force me to suspend for longer than 12 months? Will I be able to get back in training afterwards?

A — To get back in training, you will have to show VA that the suspension in excess of 12 consecutive months was due to reasons

beyond your control. If VA approves the excess suspension, you will be permitted to resume your course.

Q — I've just been discharged from the armed forces. Do I have to begin training under the Korean GI Bill by this coming August 20?

A — No. Veterans who must start training by August 20, 1954, are those who were released from service on or before August 30, 1952. Veterans separated after that date, have two years from their separation date in which to begin Korean GI Bill training.

Q — Under the Korean GI Bill, I'm allowed to make one change of course. Will I still be permitted to make this one-and-only change after my starting cut-off date?

A — After the cut-off date, you

will be allowed to change your course only if (1) the course you want is a normal progression from the one you're now taking, or (2) you haven't been making satisfactory progress in your present course, due to no fault of your own, and vocational counseling indicates you'd do better in some other course more in keeping with your aptitudes and abilities.

look to the future
IT CAN BE ANYTHING YOU WANT IT TO BE. CONGRATULATIONS ON YOUR GRADUATION. 1954
- YOUR JOB -

Wherever you're working—in office or shop
And however far you may be from the top—
And though you may think you're just treading the mill.
Don't ever belittle the job that you fill;
For, however little your job may appear,
You're just as important as some little gear
That meshes with others in some big machine,
That helps keep it going — though never is seen.
They could do without you — we'll have to admit—
But business keeps on, when the big fellows quit!
And always remember, my lad, if you can,
The job's more important — (oh yes) than the man!
So if it's your hope to stay off the shelf,
Think more of your job than you do of yourself.
Your job is important — don't think it is not —
So try hard to give it the best that you've got!
And don't think ever you're of little account —
Remember, you're part of the total amount.
If they didn't need you, you wouldn't be there —
So, always, my lad, keep your chin in the air,
A digger of ditches, mechanic or clerk
THINK WELL OF YOUR COMPANY, YOURSELF, AND YOUR WORK!

"As it  
Looks  
From  
Here"

CHAR BURESON  
Congressman  
17th District

WASHINGTON, D. C. — Near the ceiling in the House of Representatives, directly in front of where I usually sit, are inscribed these words: "Let us develop the resources of our land, call forth its powers, build up its institutions, promote all its great interests, and see whether we also, in our day and generation, may not perform something worth to be remembered."

These words were spoken by Daniel Webster. They say more than the complete text of some books I have read.

The very phrase, "Let us develop the resources of our land..." suggests a text on which a long speech could be delivered. Unfortunately our natural resources and land were not taken care of in years past and a start has only been made in recent years to do very much about it.

This past week I appeared before the Public Works Committee of the House of Representatives in behalf of the development of some of our natural resources. Particularly must we make an investment in water reservoirs, and more especially to trap waters in upstream creeks and rivers.

The idea of conserving our natural resources has many angles and reaches into many fields of effort. We hear some people deplore our over-production of farm commodities. It is true we have some huge surpluses, but we should be thankful we are able to produce them. Of course, ways and means must be found to meet an immediate situation, but the day may come, and comparatively soon, when a shortage may exist.

Our population is amazingly increasing. During the past year it has risen approximately three million people. There are now 162,023,854 individuals in the United States. Present figures show there is a birth every eight seconds, a death every twenty-one seconds, an immigrant every twenty-four minutes — all totaling up to a net gain of one additional person in this country every twelve seconds. Last year the net increase was one individual every thirteen seconds. This adds up to the fact that each year creates a need, if they were all in Texas, for two more cities the size of Houston, two more Dallases, and maybe four more Fort Worths.

At this rate, there should not be a surplus in anything in a few more brief years. This also points up the constant need for foresight in conserving our natural resources, and more particularly water, which is the very life of every West Texas community.

It was my privilege to have a visit with President Eisenhower at the White House a few mornings ago. This was the second personal contact I have had with the President in the last ten days. Last week he was up to

## Red Cross Offers Suggestions For Holiday Swimming

By MRS. R. H. CUTTING

Every year on Memorial Day many people take their first dip since the previous summer. Last year 96 persons went out to enjoy a Memorial Day swim and never returned. It happens every year because these swimmers have been out of the water so long that they are apt to over-estimate both their swimming ability and their physical condition.

If your Memorial Day weekend includes plans for swimming, and if you want to increase your chances of returning from your Memorial Day weekend alive and in good health, the Red Cross suggests a few common sense precautions on your holiday.

Here are some precautions that may save your life:

DON'T try to show off abilities you don't possess. Remember distances over water are often greater than they appear.

If you must go on a distance swim, have someone accompany you in a boat to give assistance if required. Better still, swim parallel to the shore where you can get to shallow water quickly.

WAIT one and one-half hours after you eat before swimming. Enter the water gradually, especially if it is cold. If you dive in, make sure the water is deep enough and has no hidden rocks.

SWIM in a safe place, preferable one supervised by life guards. Never swim alone. Be sure someone is nearby who can help you if you get into trouble.

STICK to your boat if it upsets or swamps. Most boats will float even when filled with water.

If you do get into trouble —

keep calm, don't struggle. Keep your hands under water. Kick your feet, and head for shore. GET out of the water and rest as soon as you feel at all tired. Take your sun gradually — a few minutes the first day, then gradually increased exposure. OF COURSE, you should learn to swim if you are going to play around the water. You can't find a better sport to save your life.

The Red Cross hopes to be able to offer free courses in swimming and lifesaving this summer. For their details will be in your newspaper at a later date. The life you save may be your own!

Following an old Egyptian custom Cleopatra married her brother.

Virgin olive oil is that obtained when the olives are first pressed.

Crews will be available for emergency calls at any time — the same as usual.

the Capitol to inspect and dedicate some repairs and statutory additions made under the Capitol Dome. I serve on a Joint Committee of the House and Senate which has charge of these matters. At that time the President looked pretty tired and seemingly was not in the best of humor. However, during my visit to the White House the other morning, he looked fine and was apparently in good spirits. I hope he remained that way if he found that in leaving I backed my car off the driveway onto the grass and cut a hole in his lawn. It was raining at the time.

The average person seldom needs to exercise any great degree of caution in selecting the words and phrases which he uses to communicate his ideas to others. We usually give voice to the first appropriate words which come to mind, and then make use of additional explanation to clarify our expressions if necessary.

In legal documents, however, words must have exact meanings in order that they may be uniformly interpreted by the courts. Lawyers naturally become accustomed to this situation, and frequently use terms which have a definite meaning to them, but which do not always convey the same meaning to laymen.

Below are explanations of several terms commonly used by attorneys. Exact definition has not been attempted, as this would take too much space and would involve the use of other terms having a legal meaning which might not be entirely clear. However, you will find below a general idea of the meanings involved. See how these correspond with your own definitions.

**REAL PROPERTY.** Real property consists of land and includes generally buildings, fences and other improvements erected upon or attached thereto. Also generally included within the term are trees and crops growing upon the soil.

**PERSONAL PROPERTY.** This term ordinarily includes movable possessions of a person which are not so attached to the soil as to become real estate. Stocks, bonds, notes, livestock and household furnishings which are not firmly attached which are not of the house itself, come within the ordinary meaning of the term.

**COMMUNITY PROPERTY.** In Texas community property includes all property acquired by a husband or wife after their marriage, except such items as may be obtained by one of the parties through gift or inheritance.

**SEPARATE PROPERTY.** This phrase covers property owned by

either husband or wife before their marriage, and such real or personal property as either may acquire after marriage by gift or inheritance.

**TRUST.** A trust occurs where one person holds the legal title of real or personal property for the benefit of another person. For example, a husband may direct in his will that after his death certain property shall be held and managed by some corporation or individual, with income going to his widow. In such a case the person holding legal title and control of the property is known as a trustee.

Another type of trust is sometimes called a spendthrift trust. This is an arrangement whereby one sets up a certain sum of money to be given out to another at a definite rate per month or per year, or under definite restrictions.

This type of trust is generally used in wills where a person desires to leave money to an individual, but feels that the individual is not capable of properly caring for the money and that if left to them in full that the party receiving the money will spend and waste the money and not receive the maximum benefit from it.

There are certain technicalities in setting up such an arrangement, but in a proper case they will preserve to the beneficiary a definite income, and see that the principal estate left to the beneficiary is not wasted.

**Many Texans To Attend Southern Baptist Meeting**

DALLAS, May 26. — Approximately 3,000 Texans will leave this weekend for St. Louis, Mo., where they will attend the ninety-seventh annual Southern Baptist Convention June 2-5. Most of them will arrive in time to attend two other meetings — the Woman's Missionary Union Convention May 30-June 1 and the Pastors' Conference May 31-June 1.

The Convention is expected to attract 15,000 of the more than eight million members of Southern Baptist Convention churches. SBC churches are located in 22 states and number more than 30,000.

Besides annual reports from boards, institutions, and standing committees, the convention will hear a report on the financing of theological education and on the Royal Ambassador (boys' missionary organization) movement.

The Convention may be asked to recognize Ohio as a state convention, the first since the Oregon-Washington Baptist Convention was recognized in 1949. Another issue that may claim attention is the position of Southern Baptists on social security for ministers.

Several Texans will appear on programs of the three meetings during the week. Gov. Allan Shivers of Austin will return from a tour of Korea to speak on the opening night's program of the Pastors' Conference May 31. Other Texans appearing on the Pastors' Conference program include Dr. E. H. Westmoreland of Houston; Dr. J. M. Price of Fort Worth; Dr. Carl Bates of Amarillo, and Dr. Sterling Price of Abilene.

Dr. Robert E. Naylor of Fort Worth will bring the report to the Convention on the R.A. movement. Among those giving annual reports will be two Dallasites — Dr. Walter R. Alexander of the Relief and Annuity Board and Rev. Thomas T. Holloway of the American Bible Society. Dr. C. E. Matthews, secretary of the SBC Home Mission Board's Evangelism Department, Dallas, and Dr. Forrest C. Feezor, executive secretary of the Baptist General Convention of Texas and also of Dallas, will give principal addresses.

Dr. Floy Barnard of Southwestern Baptist Theological Seminary, Fort Worth, will be in charge of a drama on the closing night of the W.M.U. Convention. Nineteen Texas women will be in the production as will Miss Eula Mae Henderson, Texas W.M.U. executive secretary, Dallas; Miss Amelia Morton, Texas Young People's secretary, Dallas, and Mrs. R. L. Mathis, state W.M.U. president, Waco.

THE SENIORS

CLASS OF...1954  
MAY THE FUTURE FULFILL ALL YOUR HOPES AND DREAMS FOR SUCCESS AND HAPPINESS.

... on their achievement and extends a cordial invitation to all Seniors to avail themselves of its service in planning their college work.

The Junior College offers two years of standard college work under a well-trained faculty.

The classes are small enough for individual training and guidance.

The advantages of staying at home and attending college are obvious.

The tuition is very low, making the cost of the student negligible.

Approved by the State Department of Education and Association of Texas Colleges as a Junior College of First Rating.

Member of the American Association of Junior Colleges and the Texas Association of Colleges. Courses leading up to JUNIOR STANDING in a four-year college or university.

**Fall Term Opens Sept. 7th**

## State Capitol NEWS

By VERN SANFORD  
Texas Press Association

**AUSTIN** — Progress was being made in plans to construct four resort lodges, each to cost about \$1 million, at Inks Lake near Burnet, Eisenhower Park on Texoma, Lake Whitney, and Texarkana Reservoir in Cass County.

This is a project of the State Parks Board. The money for building the lodges would come from revenue bonds. Private operators would lease the lodges and run them.

### Wets and Drys

Texas Rangers are investigating trouble between the wets and drys at Bandera.

Rev. Joe R. Townsend, Baptist minister in that West Texas resort and ranch town, moved for a dry election after saying that he had been thrown through a plate glass window.

### Refunds Coming

Employers of Texas are going to get refunds amounting to several million dollars from the Texas Employment Commission.

A decision of the Supreme Court in a case concerning Todd Shipyards Corporation is responsible for the refunds. Todd maintained that its unemployment tax rate was too high and would have been lower if the corporation had been notified by TEC of all claims made by former workers.

### In and Out

About as many Texans went into the armed services as came out in April, says Brigadier General Paul L. Wakefield, state selective service director.

### Reserves to Meet

Texas Department of the Reserve Officers Association will hold an annual convention and service conference here May 28-29, when high ranking officers of all branches of the services from

Washington will attend, along with an expected 200 state reserve officers.

### New Building

Dedicated here was a new South Texas district headquarters building for the Internal Revenue Department.

Present for the ceremony was T. Coleman Andrews, commissioner of internal revenue.

Most of the five-story building will be occupied by the Austin district of the internal department.

### More Vegetables

There will be a 20 per cent increase in acreage planted to commercial vegetables planted in Texas this year, according to a forecast of the Crop Reporting Board of the U. S. Department of Agriculture.

### Panther Warnings

Sheriff T. O. Lang of Austin has issued frequent warnings to Capitol City residents that a panther large enough to leave a print like a man is roaming the rugged Bee Cave area west of the city.

One housewife in the hill section reported hearing two panthers screaming, one on each side of her home, about a mile west of the Bee Cave road. Several citizens in the area report seeing the animal.

### Burglar Trap

Austin police will be able to get the jump on burglars here, very soon now, thanks to a new piece of equipment devised by a local detective agency.

The secret is a quiet alarm that tips off the police via a panel in the Police and Courts Building. It replaces the jangling alarm bell so often found inside of buildings. The new silent alarm has no bells, switches or wires that are visible.

L. G. Phares, organizer and

first director of the Texas Department of Public Safety, invented the new device. He has operated his own detective agency here since 1941.

### Names Advisors

Dr. Henry A. Holle, state health officer, and Earl Cabell of Dallas, president of the Texas Manufacturing Association, have been added to the Governor's Advisory Commission, a recently appointed commission composed of some 25 members.

John M. Griffith, Taylor banker and president of the Texas Bankers Association, has been appointed to replace T. Neill Greer, past president.

Herschel E. Nix, San Antonio, replaces E. L. Powell, president of the South Texas Chamber of Commerce, on the same committee.
