AT THE Cisco Gas Cor-tion, Manager Gene Abbott put their charts which show the gas pressure was and, among other infor-mation, what the temperature was any given day. Gene, who to quote statistics to prove us, let us look at the charts. There were 52 consecutive days which the temperature was 99 degrees or more. Beginning June 28 (it was only 99 de-grees the day before), 100-degree weather prevailed daily through Sept. 19. After this date, there were three 99-degree days fol-lowed by another string of 100-degree weather. It was 100 or more the first week of Septem-

ber. Looking at the 1953 charts, we were a lot of 100-degree weather in September. On Sept. 1953, it was 114 degrees. Hot-weather so far this year was 99 degrees on July 19 and Aug. 1. Gene could figure how to use rain from his charts, the business probably would be better, huh?

YOU CAN START the week by sending "happy birthday" to a number of Ciscoans, including the following:

Sept. 12 — Dr. N. A. Brown, King, Mrs. Clell Reed and da Faye Plumlee.
Sept. 13 — Mrs. Rex Moore, G. W. Troxell, Mrs. C. L. Carman Blount and Van Lenhire.
Sept. 14 — Lizzie Hill.
Sept. 15 — W. E. (Dizzy) Dean, McCanlies and M. D. Sparks.
Sept. 16 — Richard Turknett, Mrs. Mike Smith.
Sept. 17 — Mrs. Guy Ward, Ed Courtney and Mona Lisa Witt.
Sept. 18 — H. T. Huffmans will cele-brate a wedding anniversary on the 18th.

AT THE football game Sunday night, Mr. Edgar Johnson J. SCAMPER town felt kind of lone-ly. Five Johnson sons have been on the Lobo teams over the years, including Mitford, Joe N. Dixon, Don, Russell and Waymon vice Johnson. . . . Doug Johnson, their father, is a first stringer over at Baptist Payne and he was here at the Friday night contest, and Pastor was Robert Jackson, another member who is doing a good job at the HPC stadium. The HPC sea-son opens next weekend.

TOOK A lot of people to the football game. Besides teams, coaches and the of-ficials, we made a list as follows:

Observers telephone — Jack Britt, Jack King and Doug Johnson.
Own box — H. V. Kirby.

PROBABLY left out some of those who had a job at the game. The Rev. D. M. Duke, president of the minister's asso-ciation, gave the opening game prayer. . . . Saw Alton Roan, the chickenridge band director, in the stands. . . . Al Langford, the Leon coach whose team plays hand this week, was an in-teresting scout. . . . The 24-page program were prepared by the booster's Club in cooperation with local merchants. . . . Lobo-ers wore their new gold uni-forms. They also have some new ones. . . . STRANGE BEDFELLOWS—After five months of it, James P. McNelly still can't believe his eyes when he looks at his three household pets in Yakima, Wash. Shep, a dog; Tommie, a cat, and Ike, a rat, are good friends and give every indication they intend to remain so. McNelly is hoping for the best but, of course, he's also prepared for the worst.

Fisher, district manager of the Social Security Administration. The amended Social Security Act:

1. Extends coverage, commencing January 1, 1955, to about 10 million more gainfully-employed people, including self-employed

Smokers Blamed In Hotel Fires

AUSTIN, Sept. 10. — Smokers were blamed today for almost half of Texas' 151 hotel fires in 1953. Norris W. Parker, manager of the Texas Insurance Advisory Association, said that figures compiled by his organization showed that smoking in bed caused 44 hotel fires last year. A. R. COLLIER MOVING THIS WEEK TO TAKE CHURCH PULPIT

The Rev. A. R. Collier, who recently left the faculty of Cisco Junior College after some seven years as night school coordinator, will conclude his pastorate at the Scranton Baptist Church with the two Sunday services. Rev. Collier reported that he and Mrs. Collier will move this week to Houston where he will go into full-time ministry work. He has been pastor at Scranton for the past two years and previously was at Sabanno for 18 months. Rev. Collier joined the Cisco school system faculty as a science teacher in the high school in 1946. After one year, he transferred to the junior college to head the veterans school. Several hundred students were enrolled in the night school each year for about four years. Before coming here, Collier had teaching experience in Arkansas and South Texas. He was employed by the U. S. Navy and the U. S. Maritime Commission during World War II. Members of the junior college faculty and former students in the night school presented "going-away" gifts to the Colliers recently. "We deeply appreciate the gifts," Rev. Collier said. "We shall always remember Cisco for the many friends we have made and for the fine community spirit." He said that he had considered entering the ministry on a full-time basis for several years and "I am happy with the decision we have made."

Big Crowd Turns Out For Contest

Cisco High School's Loboes looked impressive in all departments Friday night as they opened the 1954 football season with a whopping 51-to-12 victory over the Mavericks of neighboring Eastland High School. The contest attracted a near capacity crowd at Chesley Field here. The Lobo victory evened the score between the two schools, as the Mavericks triumphed when the two teams met last season. Lobo fans were delighted with their backfield performers and the determined, scrappy work of the forward wall. Virtually all of the touchdowns were produced by long runs. No injuries were reported by either team. Much of the credit for the success of the speedy backs was due to splendid line and downfield blocking. On several of the long touchdown runs, the blocking was outstanding.

The Loboes struck three times in the first quarter. They took the opening kickoff and leisurely marched 68 yards to score. Tom Reynolds and Marcos Gallegos got 12 yards, and Reynolds picked up five more. Harold Pippen got through for eight yards, and Joe Gilmore drove to the Eastland 39. Pippen picked up 12 yards, Gallegos got 11 yards, and Reynolds skirted end for about 15 yards and a score.

A few minutes later, the Loboes covered a fumble on the Eastland 14 yard line. And Gallegos promptly ran 14 yards for a touchdown. Touchdown No. 3 also resulted from a recovered fumble. Big Ed Bernie, who played a fine game at tackle, fell on the ball on the Eastland 25. Reynolds sprinted to the 9, then lost 5 and the Loboes drew a 15 yard penalty. Benji Lipsey entered the game and took the ball 22 yards to the 7, and then ran it over to score. Shortly after the second period opened, the Loboes got the ball when alert Fred Hayes blocked a punt and Cisco took over on the Eastland 27. Reynolds and John Carlike got four yards, and Reynolds passed to End Bill Smith for 23 yards and a touch-down.

That ended the Lobo scoring in the first half. Late in the period, Eastland pushed across their first touchdown. The Mavericks recovered a fumble on the Cisco 35. Bill Upchurch, who was the outstanding Eastland back in the game, passed to Ben Cate for 8 yards and to Clyde Evtatt for a first down on the 16. Upchurch drove through for 9 yards, and Duard Turner drove to the 4. Cate scored.

Band Parents To Install Officers

The Cisco Band Parents Association will hold its first meeting of the 1954-55 school year at the band hall at 7:30 p. m. Monday, President E. H. Cheves announced Friday. At the meeting Monday the new officers will be installed. They are E. H. Cheves, president; George Douglas, vice president; Mrs. Virgie Redwine, treasurer, and Mrs. H. K. Neely, secretary. Plans will be made at the meeting Monday night for the completion of projects or the raising of funds for the aiding of the band in its work for the year.

CLASS PLANS MEETING

The JOY Class of the First Baptist Church will meet at 1:30 p. m. Monday in the home of Mrs. J. W. Sifton for the regular monthly business meeting and semi-annual election of officers. All members were asked to attend and have a part in the election and business discussion.

Shortly after the final quarter opened, Lipsey scored again. The Loboes got the ball on their 33. Carlike got 15 yards, and Lipsey drove to the Eastland 41. Carlike then got 8 yards and Lipsey got loose for 33 yards and a touch-down.

Points scored were as follows: Reynolds 15, Gallegos 12, Lipsey 12, Smith 6, and Ewell 6.

Since 1940 the increase in church membership has been thirty million as compared with the years between 1926 and 1940 when the net increase was ten million. Population percentage-wise, the number of church members has swelled since 1950. In that year 36 per cent of the population were church members. In 1950 the figure was 36 per cent; in 1954 -- 59.5 per cent. The biggest numerical gain in 1955 is shown in the Protestant Churches which added a total of 1,607,362 members -- an increase of 3 per cent for a total of 55,837,325. Protestant church membership is equal to 58.9 per cent of all U. S. church members, the same as in 1952 and in 1951. Gain in Roman Catholic membership in 1955 was 1,223,824 or

Colorful Booklet Tells Story Of First Oil Well

A colorful storybook on the drilling of the nation's first commercial oil well in 1859 — the famous Drake well which led to the founding of the U. S. oil industry — has been published by the American Petroleum Institute.

Designed as a souvenir booklet, it will be distributed by the tens of thousands this fall when the men and women of oil observe Oil Progress Week for the seventh consecutive year. The

Oil Progress Week dates are October 10-16.

In full color, the storybook parallels the Institute's new motion picture of the same name, "The Story of Colonel Drake." It can be used as a take-home souvenir at showings of this new picture, or it can be distributed as a separate item, for it is complete in itself.

The storybook embraces the whole Drake story, from the first conference between Edwin L. Drake and James Townsend, president of the City Savings Bank of New Haven, Conn., through months of frustration and disappointments to ultimate success — the first commercial oil well.

The bright colors and the continuity strip art approach, as well as the simplicity of the story line, make the booklet interesting and educational. It has eye-catching appeal and is expected to be one of the big hits of this year's Oil Progress Week observance.

The concluding lines of the storybook contain this message: "Drake's well brought about an immediate revolution in the American Way of Life, but progress has been ever more rapid during the 20th century. Grand-grandma and Granddad thought it was wonderful when they were able to buy kerosene and then gasoline and lubricants at the general store.

"But today a whole host of new or better oil products, as well as endless services, are provided by a marketing network composed of over 29,400 wholesalers and about 200,000 service stations. In other words, in a thousand ways, all of which grow out of the progressive, competitive nature of the entire petroleum industry, Oil Serves You."

SCOUT BOARD TO MEET

The executive board of the local Girl Scout Association will meet at 9:30 a. m. Monday in the directors room of the Chamber of Commerce. All officers and committee members were urged to attend.

Ciscoan Is Married In Shep Ceremonies

In a double ring ceremony performed Friday evening, September 10, at eight o'clock at the First Baptist Church in Shep, Miss Ouida Lawrence, daughter of Mr. and Mrs. Joe Lawrence of Shep, became the bride of Donald Gorr, son of Mrs. A. T. Gorr and the late Mr. Gorr of Cisco.

The Rev. James Renfro performed the ceremony under an archway of greenery flanked with tall baskets of pink gladiolus with the wedding candelabra.

Mrs. James Renfro, pianist, played the wedding music including "I Love You Truly," "Always," "Indian Love Call," and "Brahms Waltz." She also accompanied Frank K. Antilly who sang "Because," and "The Lord's Prayer."

The bride given in marriage by her father, wore a ballerina length dress of white nylon tulle over satin. The bodice was designed with white taffeta ribbon squares giving a criss-cross effect. Her finger tip veil of nylon tulle fell from a close fitted cap of white satin ribbons in a wheel design. She wore white nylon mitts and carried a white Bible topped with a white orchid and asters. She wore a double strand of pearls, a gift from the groom.

Mrs. Donald Crawford served her sister as matron of honor. She wore a blue ballerina length dress fashioned like the bride's. Her headpiece was a blue ruffled headband.

Al Fannin of Cisco was best man and Aubrey Gale Lawrence of Shep, brother of the bride, and Carl Gorr of Cisco, brother of the groom, served as ushers.

A reception was held at the church immediately following the ceremony. The reception rooms were decorated with pink gladiolus and pale pink asters. The four tiered wedding cake was topped with a miniature bride and groom under a wedding bell.

Those assisting with the service were Mrs. Carl Howard, Betty McClure, and Mrs. Hershel Jackson.

For traveling the bride chose a two piece gray dress with black and white accessories and the orchid from her bridal bouquet as a corsage.

Mrs. Gorr is a graduate of Blackwell High School and was employed by West Texas Utilities Company in Abilene. Mr. Gorr is a graduate of Cisco High School and is employed by Graves Butane Company.

The couple will make their home in Cisco.

Guests attended the wedding from Abilene, Winters, Blackwell, Littlefield and Cisco.

Desk And Derrick Club Plans Meeting

farm operators and most farm workers.

72 to have earnings up to \$1,200 in a year without loss of social security payments. (A beneficiary 72 or over will be able to receive all his payments regardless of the amount he may be earning.

Mr. Fisher went on to explain that of the 10 million more persons eligible for the protection of old-age and survivors insurance, approximately 6 1/4 million will be brought into the system on January 1, 1955. Another 3 3/4 million may elect coverage under special arrangements.

The largest group of gainfully-employed people in the nation not heretofore covered by social security has now been brought in — the 3.6 million self-employed farm operators. Commencing January 1, 1955, these farm operators will be covered on the same terms as other self-employed people, except for a provision which simplifies the reporting procedure for farm operators with low annual incomes.

Abolishing the old requirement that farm workers be regularly employed by one employer means that over two million additional farm employees will have social security protection for themselves and their families. The new provision simply requires that the farm hand be paid \$100 cash wages in a calendar year by one employer.

About 200,000 more domestic employees in private households will be covered by the law because of the removal of the former requirement that the domestic employee work 24 days in each calendar quarter in any one household. Here the requirement now is the payment of only \$50 in cash wages by one household employer in a calendar quarter.

About 3,500,000 employees of State and local governments, excluded up to now because they are under a retirement system, may now be brought under social security subject to a referendum.

Ministers, whether employed or self-employed, may come under the law as if they were self-employed persons. Included in this provision are Christian Science practitioners.

Other self-employed groups to be covered by social security as of January 1, 1955, are professional engineers, accountants, architects, and funeral directors.

Immediately effective is the increase in monthly payments to persons now getting benefits. These increases will show on the September checks which will be mailed early in October.

The present minimum payment of \$25 to a retired worker has been raised to \$30; the maximum of \$85 has been increased to \$98.50. Dependents and survivors now getting monthly benefits will get proportionate increases, with every family unit assured an increase of at least \$5. The maximum family payment has been raised from \$168.75 to \$200.

Persons now receiving monthly payments do not have to take

any action to get these increases, Mr. Fisher declared. They will be made automatically, and do not have to be applied for, he said.

The amended law also provides increases for persons who become eligible for benefit payments in the future. Beginning with 1955, the amount of covered earnings which may count toward social security will be raised from \$3600 to \$4200 in a year. This provision will make it possible to maintain a closer relationship between the worker's earnings and the benefits he and his family will eventually receive.
