The Gay Philosopher

By J. W. S.

FROM WHITTIER, Calif., comes this interesting letter: In the Dec. 2 issue of The Press I asked for suggestions to stop the noise from vibrating under the feet of Cisco residents. This prompts me to report that I recently was able to stop such annoyance by replacing worn out carpet washers in the water outlet. This is a simple 'do-it-yourself' job as an assortment of washers can be purchased at the dime store or plumbing supply house. In some stubborn cases 'water hammer,' as this phenomenon is called, may be caused by loose pipe hangers. The obvious cure in that case is to tighten them up and add some more on the long ones. Best regards to Cisco and Cisco people. It is my hope that these suggestions may be helpful to some there. This is from the desk of Ken Hoffman, a former Ciscoan, son of the H. T. Huffmans.

THANKS TO KEN and the other suggestions. Water Superintendent John Rodden says you've been doing some of these things that have been suggested some other changes. And you have the situation under control now. We've all learned a lot from the discussions of the issue. This all proves that if you have a problem you ought to advertise. Somebody will have had some experience that might help you.

IN TOWN ON Thursday to attend the funeral of her father was a woman who probably had the most novel experience any child could have had in many years ago. She used to be a pretty little girl named Frances Comer and she was kidnapped by Santa Claus. She was in the Santa Claus bank robbery more than 25 years ago. She was dressed in a Santa's suit and used her as an ostage to keep the police from getting at them while the bank was being robbed. She was released and returned home shortly after the robbery. She is now Mrs. F. E. Kephart of Fort Worth. With other relatives, she was here for the funeral of Mr. Oscar Comer.

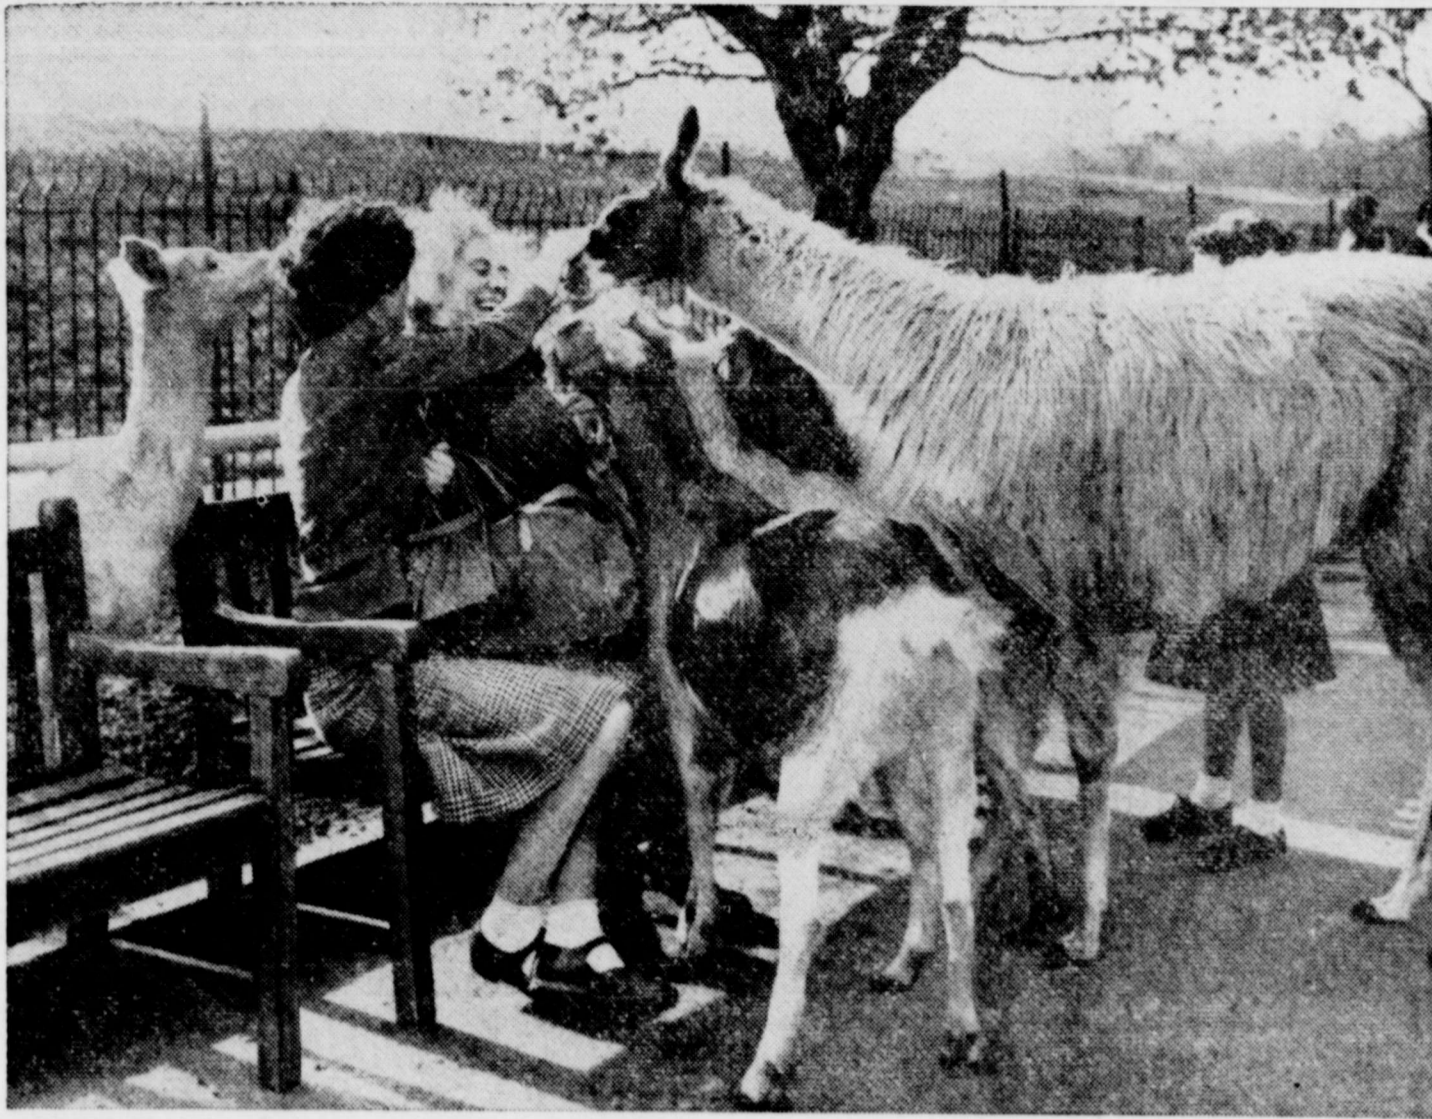

YOU'LL WANT TO drop by the Cisco Locker Plant this afternoon or Sunday to see the exhibit of pecans grown in this area. The 2nd annual Eastland county Pecan Show is underway. They'll auction off the cakes and the pecans Saturday afternoon. We certainly would have enjoyed being judge in this event, but they didn't want people from out of town.

FIREMEN TO TAKE DONATIONS TO HELP DYSTROPHY VICTIMS
Cisco firemen will take part in the national Fire Fighters March for Muscular Dystrophy next Tuesday night when they tour the city to accept donations for the organization, Chief Lefty Sublett announced today. Local residents who want to contribute to the fund have been asked to turn on their porch lights Tuesday night. Several teams of firemen will drive through the residential areas, stopping where ever a porch light is burning. Muscular dystrophy is the fatal disease which afflicts more than 200,000 victims in the United States, including over 130,000 children. The fire fighters' tour will raise funds to support increased medical research into this mysterious killer, to establish more clinics nationwide, and to assist the stricken in the purchase of orthopedic equipment. Firemen voted at their national convention this year to spearhead the appeal of the Muscular Dystrophy Associations, Inc., Chief Sublett said. He added that "we are grateful for the opportunity to be of service and we will appreciate the cooperation of the public in this very worthwhile program."

HOBBY CLUB TO MEET
The Cisco Hobby Club will meet Saturday morning at nine o'clock at the East Ward School for their last meeting until after Christmas. All members were urged to attend.

MINGLING—Although those tame inmates of the London Zoo were not invited by the ladies on the bench, they do not seem unwelcome. The gentle animals are not restricted to fenced enclosures in this zoo.

Junior Quintets To Open Season In Tilts Tonight

The Cisco Junior High School Midgets and the junior high girls team will open their 1954-55 basketball season tonight when they go to Cross Plains for games with the junior Buffalo team and the Cross Plains girls. The girls game is scheduled to begin at 7 p. m. and the boys game will follow. Coaches Bob Zellars and Bill Tate are working with the teams. Coach Zellars, head coach of the boys team, has issued 15 game uniforms, and Coach Tate, head coach of the girls team, has issued 13. Probable starters for the Midget-Cross Plains game include Dal Elder, Milton King, Johnny Choate, Robert Bostick and Ronnie Bostick. Others who will likely see a lot of action in the game tonight include Billy Kendall, John Adams, Dickie Bennie, Philip Harrelson and Jerry Anderson. Other players making the trip will be Don Doyle, Charles Lipsey, Delbert Schaefer, Smith and Frank Farnsworth. Zellars said that he would trim his squad to 20 players after the Christmas holidays. Coach Tate reported that probable starting girls teams would be Freda Plumlee, Janice White, Dortha Riffe, Frances McKeen, Beth Smith and Joan Lisenbee. Other players who will probably see action include Jean Walker, Mary Wayne Huston, Mina Morris, Lavonne Harelson, Pat Sledge, Treva Wood and Mary Laird. On December 17 the two Cross Plains teams will come to Cisco for games with Cisco on the junior high hardwoods. Conference play for the Midgets begins on January 10. On January 13-15 the Cisco boys and girls are entered in the Gorman grade school tournament. Plans call for holding the Cisco tourney on February 17-19.

CJC CAGERS WILL MAKE FIRST HOME APPEARANCE SATURDAY

The Cisco Junior College Wranglers will make their first home appearance Saturday night when they meet the strong Abilene Christian College Freshmen at community gym. Plans call for two games on the Saturday night program. The "B" teams of the two schools will open the festivities when they meet at 6 p. m. The Wranglers will play at 8 p. m. The wranglers will be facing one of their strongest opponents Saturday night. The junior Wildcats from Abilene have been impressive in previous games, and consistently beat the varsity in practice games. The Wranglers began their season last week when they entered the Ranger Junior College tournament and won the consolation trophy. They lost two games this week to strong teams at Odessa Junior College and Howard County Junior College. Coach Red Lewis said that his starters for the game Saturday night would probably be Burnell Stevens, Eddie Bennett, Joe Ed Palmore, Byron Welborn and Don Slatton. Other likely to see action will be Bob Loyd, Jimmy Hicks, Richard Eddleman and Wayne Speegle. Probable "B" team starters will include Randy Reynolds, Don Jobe, Norbert Van Dinter, and Shipman.

S-D MINUS 5

Only five days remain before national S-D (safe-driving) day. If Texas is to enjoy a successful S-D day, we cannot tolerate "highway robbery" anywhere in the state, says the Texas Safety Association. What is highway robbery? In this case it refers to "trespassing" on the other fellow's side of the road, "robbing" him of his lawful right-of-way. It means depriving others of their safety and peace-of-mind by driving a motor vehicle in a reckless and dangerous manner. It means appropriating two traffic lanes instead of one. It means cheating other drivers of their normal ability to see by directing glaring headlights into their eyes. In short, it means taking unfair and dangerous advantage of others when you drive. Don't be a highway robber!

Eastland Pastor Is Speaker For Lions Luncheon

The Rev. Jacob Oglesby, pastor of the First Methodist Church of Eastland, told Lions of Cisco and Eastland about the work of the United Nations Organization in a talk Wednesday at the weekly luncheon meeting of the club here. Some 30 Eastland service club members attended the Cisco luncheon in the Lions' inter-city program project. Rev. Oglesby recently was one of a large group of Methodist ministers from all parts of the nation who visited the United Nations headquarters in New York City to study and observe the work of the organization. He pointed out that the United Nations has many accomplishments to its credit and "with Christian people in charge the UN's contributions to the world and to the cause of peace can be lasting." Rev. Oglesby noted that "we've won wars and, through the UN, we are endeavoring to win the peace." The Eastland club was in charge of the meeting. Their tailtwisters, Everett Plowman and Jimmy Young, took over the duties of Cisco Tailtwister Clell Reed and cut off Reed's tie to prove a point. A number of other ties were victims of the Eastland scissors during the luncheon. Visitors at the luncheon included Rev. Oglesby, Harold Reese, M. S. Long, Van Allen, Ed Freyschlag, Dock Germany, James Reed, Homer Smith, John Goode, Clyde Young, Lowell Snyder, Carrol Shelton, William Crow, Wendell Siebert, D. L. Houle, Furman Lund, W. G. Womack, Paul Chaney, Frank Sayre, Richard Cox, James Young, W. K. Cooper, Aubrey Van Hoy, Norman Guess, Everett Plowman, Virgil Moore, Jack Pilon, Stanley Webb, W. R. Garrett and Bill Norwood, members of the Eastland club, and Helen Taylor, sweetheart of the club. Joe Dennis of Ranger also was a visitor.

Pecan Show Is Seen As Successful Event

A full two hour program has been arranged for the Cisco Jamboree tonight at the city hall auditorium. The program will begin at 8 p. m. On the program will be the staff band, the Country Roundup Gang; Gene Funderberg and Jack Boggs of Breckenridge, who do vocal and instrumental numbers, and the following regular entertainers: Paul Huffman, Smiley Ricker, Troy Gosnell, Charlie Brown, and possibly the Rythm Boys of Cisco and the Rythm Five from Scranton. The jackpot for the program tonight will be \$75.

Cisco Jamboree Program Ready

A successful show in all respects was forecast today as the Eastland County Pecan Show opened at the Cisco Locker Plant with a large number of entries in virtually all varieties of paper-shell pecans. County Agent J. M. Cooper was in charge of the annual event. Miss Minnie Mae Billingsley, county home demonstration agent reported that judging in the pecan products show was due to be completed early this afternoon. The number of entries in the pie, cake, candy and nut bread divisions was not as large as had been expected. Judges were Mrs. Loretta Morris, homemaking teacher at the Eastland High School, and Mrs. Dorothy Arthur, county home demonstration agent of Comanche County. Instead of an auction sale, as originally planned, the cakes, pies and other products were to be sold by the piece with coffee during the afternoon and Saturday. The Pleasant Hill Home Demonstration Club was sponsoring the products show. Club members present today to help with details included Mrs. Cleo Rice, Mrs. Marshall Berry, Mrs. Bela Tucker and Mrs. Virgie Hale. This was the first products show, and the success of the initial event was regarded as a good beginning for an annual products program. Mr. Cooper said the pecan show judging would begin at 10 a. m. Saturday and that entries would be accepted until 9:30 a. m. Saturday. Judges will be from Texas A&M College. Considering the fact that the past year has been unusually dry, the quality of the pecans entered in the show is very good, Mr. Cooper said. Cash prizes and ribbons will be awarded to the winners. The show will continue through Sunday, and visitors have been extended an invitation to attend.

Gift Shop Will Benefit Patients At TB Hospital

A group of volunteer workers headed by Mrs. D. R. Reilly of San Angelo is trying to correct this situation at nearby McKnight sanatorium, where 650 persons are ill of tuberculosis. Some have children at home they have never held in their arms. Some have wives or husbands struggling to hold the family together until the other parent again is able to help. One is a father with 11 children. To help them "make Christmas" at home, the volunteers will operate a gift shop at McKnight December 13, 14 and 15 from which patients can choose small gifts for their families. Mrs. Reilly said organizations and individuals in the patients' home counties are sending gifts — or money to purchase them — but there are not yet enough to insure every patient will get at least one. Certificates will be issued to the patients which they will exchange for the desired articles in the gift shop. No money will change hands. Patients without families may select items for their own use, Mrs. Reilly said. Especially sought are cotton pajamas, all sizes, underwear, socks, hose, gloves, scarves, slippers, toilet articles, stationery, stamps, ball point pens, costume jewelry, or small linens such as washrags, towels, pillow cases or table cloths suitable for family use. They should not be gift wrapped, and should be addressed to "Patients Gift Shop" — McKnight Hospital, Sanatorium, Texas. H. C. Charles, San Angelo business man who is hospital projects chairman of the Advisory Council for Texas TB Hospitals, said the gift shop is a part of the Council's effort to provide Christmas gifts to patients in all the state-operated TB hospitals.

Girl Scouts Helping Collect Xmas Toys

Girl Scouts of Cisco will continue their collection of discarded toys today and Saturday, it was announced. They will make tours of the city streets to pick up donations to toys. Anyone wishing to contribute toys was asked to place them in sacks or boxes on their front porches. Volunteers are repairing the toys at the Dick Thomas workshop for use in Christmas baskets.

SCOUTS WILL MEET

Members of Boy Scout Troop 101 will meet at 7:30 p. m. Friday (tonight) at the First Presbyterian Church, Scoutmaster J. V. Heyser, Jr., announced. Plans for the Christmas party will be made, and all troop members were asked to attend. Elizabeth Foster and Nell Carmichael attended the Bird Breeders Association meeting in Clyde Thursday evening. Mr. Brown of Austin was the speaker. Mrs. S. H. Nance returned home Thursday afternoon from Abilene where she underwent surgery in the Hendricks Memorial Hospital. She is reported as doing nicely.

LOBOES ADVANCE IN DE LEON TOURNEY; QUEENS ARE BEATEN

The Cisco High School Loboos advanced to the semi-finals of the De Leon basketball tournament Thursday night when they eliminated Pottsville 49-32. They play Stephenville Saturday at 11:45 a. m. for the right to meet the winner of the upper bracket in the finals Saturday night. The Lobo Queens ran into a tough one in their game Thursday night and were eliminated from the championship bracket. They met the strong Pottsville girls and lost by a score of 75-30. Pottsville has one of the top girls teams of the state. In the Lobo-Pottsville game George Callarman made 13 points to take scoring honors for the game. He nosed out Tommy Reynolds who made 12. Duke of Pottsville led his team in scoring with nine points. The Loboos began the game by jumping in the lead, and kept up the pace all the way. They scored 30 points in the first half to lead at the intermission 30-19. They slackened the pace some in the second half when they made 19 points. In the girls game Roberts of Pottsville made 35 of her teams 75 points to take scoring honors for the game. She was trailed by her teammate, Hayes, who made 23. Donnic Johnson and Bonnie Owens led the Queens with 12 and 11 points respectively. The Queens play Eastland at 5:45 o'clock today in their first consolation match. The Stephenville boys advanced to the semi-finals when they defeated Eastland Thursday night. Bangs will meet Dublin in the other boys semi-finals match today by virtue of wins Thursday. Dublin advanced by downing the host team, the De Leon Bearcats.

The Dixon-Yates Contract

Columnist Frank Kent recently had some tart words to say about the furor that has arisen over the Dixon-Yates contract, under which private enterprise is to build a \$107,000,000 steam electric plant to supply needed power to a big Atomic Energy Commission installation in Arkansas. He wrote: "The whole debate, in and out of congress, is drenched in the most bitter and partisan politics and the gates have been opened for a flood of demagoguery not exceeded in many years." He

One doesn't have to be an engineer or a lawyer to understand the reasoning back of these views. For the opponents of the contract have done a potent job of obscuring its provision and purposes — and, for the most part, administration defenders have been much less effective in presenting their side.

It would take a book to list all the points of controversy, and some of them are hopelessly befogged in complex and irreconcilable sets of statistics. But the main ones are about as follows.

It is charged that the contract is designed to undermine TVA. Yet the President has categorically denied this. Mr. Kent described the Eisenhower position accurately when he said: "He does not want to destroy TVA, but neither does he want to expand all over the country its principle of tax support while exempt from tax contributions — particularly when private enterprise is equipped and willing to take over the expansion."

It is charged that the cost of Dixon-Yates power would be much greater than if TVA expanded sufficiently to supply it. Yet documented estimates show that most of this difference lies in the fact that TVA wouldn't pay taxes on the revenues, while the Dixon-Yates system would. As the Saturday Evening Post put it editorially, "Undoubtedly TVA could charge less for power than can private companies which must pay taxes and interest on their capital, but what the Government would save on one side of the ledger it would lose on the other."

It has been charged that the contract "guarantees" the Dixon-Yates group a handsome profit. To put it mildly, that seems quite an exaggeration. The Bureau of the Budget has said, "The only element of profit in this proposal is the return to the sponsors on their \$5,500,000 of equity capital. This would amount to \$495,000 annually." So far as the rest of the investment is concerned, more than \$100,000,000, there is no guarantee. Indeed, if it should prove that estimated construction costs are too low, which is certainly possible, the return to the investors could be sharply reduced, or even eliminated entirely.

Finally, so far as the general charge that the contract is financially unfavorable to the taxpayers is concerned, a long list of responsible authorities have testified to the opposite. To take two examples, AEC General Manager Nichols stated that he believes the contract is "fair and reasonable." And the Federal Power Commission, after considering all the factors involved and viewing the contract as a whole, used the identical words.

Why, then, all the hooting and hollering? Here is the reason Mr. Kent gives: "There is plenty of room for difference of opinion on the basic principle involved: A sharp division between those who believe in private enterprise and those who believe in public ownership. That is at the bottom of the fight."

Letters

To the Editor,
"McCarthy Turns Off The Eisenhower Road," says a headline. McCarthy is wrong. That our president sees Red China may be trying to goad us into war shows we are good at president-picking. It also shows that Western forthrightness is beginning to understand the devious cunning of Communist-Oriental mentality. China does not mind losing men. She has too many. And there is nothing like a war to cure internal disaffection.

Russia won her revenge on Japan with us doing the fighting. Why not win against us with China doing the fighting? Bog us down as France was bogged down in Indo-China, and Russia could ask no more.

Mrs. F. D. Wright Is Speaker At Meeting Of 20th Century Club

The Twentieth Century Club met Friday afternoon at the clubhouse for their regular meeting with Mrs. C. E. Paul acting as hostess for the day. Mrs. F. D. Wright presented the program by giving a travelogue of her four months tour of Europe. Mrs. Wright, with her sister, Mary Jane Butts, and a friend, toured Europe in a car visiting the various places of interest. Mrs. Wright stated that women in Europe do not drive cars, therefore, they attracted a lot of attention. Mrs. Wright spoke of the beauty of Europe, the flowers in season, and the people they met. She also told of kissing the Blarney Stone in Ireland and of the window boxes of flowers in England both in the houses and business firms. ANOTHER SWISS MOVEMENT

READY FOR ACTION—A scientist is readying Switzerland's first liquid-fueled, radio-controlled rocket for launching in the rocky Oberalp region of the country. Because of the small testing area, the rocket was shot up only a few thousand yards, but interested observers were on hand to witness the tryout.

AWAY SHE GOES!—Shooting skyward in its first attempt, the rocket is shown as it left the ground. Scientists claim this new precision instrument can be automatically steered to hit targets as far as 20 miles up in the air.
