# When Grandpa

# came to visit

when Grandpa came to visit. Remember? There was always something extra-nice for us in his pocket. And only Grandpa had a big railroad watch with

the magic ticking that never failed to intrigue us.

Maybe that's why we remembered the things he told us so well. Like when he took a coin out of his pocket and slipped it to us when Mother and Dad weren't watching and whispered, "Put this away for a rainy day." It was so hard not to spend it—but we put the money in our bank and waited. And one day we were happy we had.

Yes, Grandpa was wise and his advice was sound. And though it's even more difficult not to spend extra money today, we realize how necessary it is to provide for the future—ours and our children's. That's why eight million of your neighbors are putting something aside each payday—for a "rainy day"—on the Payroll Savings Plan.

Why don't you sign up and tell the people in your pay office how much you want to save each payday? They put that amount aside for you. When enough accumulates, they buy and turn over to you a U. S. Series E Savings Bond. And Bonds now pay 3% interest for as long as 19 years and 8 months! Get the Bond habit now!

If you want your interest as current income, ask your banker about 3% Series H Bonds that pay interest semiannually by Treasury check.
