The graduating exercises on Monday night were a success in every particular. The essays read by the young ladies and gentlemen of the graduating class were all excellent pieces of literature and well read. The floral tributes to each of them were beautiful and gave to the stage at their feet the appearance of a flower garden.

The address delivered by Mr. J. F. Mangum, County Superintendent, to the graduates was a model of its kind, replete with good suggestions to these young people just stepping upon the threshold of life.

The commencement sermon at the Methodist cnurch on Sunday by Rev. F. M. Boyles was excellent. His earnestness showed that he was fully impressed with the responsibility of his task and that his every word was the spontaneous afflux of a sincere

Down in Ohio is a concern capitalized at \$150,000. It is owned by three men. The stock pays an annual dividend of forty per cent. Machinery of a certain type is manufactured. One of the owners is the chief salesman, one looks after the office, the third looks after the factory. It is an ideal combination. Each member obeys the law of economy. Each member is conservative. Forty per cent is a pretty fair return on money invested, you know.

It happens that the annual ont put of this plant is disposed of through personal solicition, most of the work being done by the salesman partner. Did this company advertise it would be necessary to increase the size of the factory. This would entail a large expense, and, as one of the partners told me, they do not feel like gambling when they have a sure thing.

This company has no desire to grow. Therefore it does not need advertising. Only companies with ambitions should advertise.

I know of a little store away back in the mountains of Kentucky. The storekeeper buys once a year. His customers seldom leave their own community, and Uncle Sam does not even bring them mail because they have no one in the outside world to write to them.

This store has a monopoly. No mail order catalogues ever enter that region, and there are line of any in east Texas. no other stores for miles. The storekeeper makes enough for his simple wants-he has no desire to secure more trade,

Old Gray Touches Upon the Subject. Local News from the Mustling Village to Our East. Crops Damaged

Augusta, Texas, May 2,-The heavy rain we had in the past week did considerable damage to growing crops, and the cold wind since makes cotton drop its head as though it was here a little too soon. Things on the farm are not just as we would like them to be, but hope that great stimulant that buoys man to his utmost is with us and it will not be long before we will be looking at the bright side of the picture. The fruit crop throughout this section will be short; even the berry crop is not as abundant as usual. and what berries there are seem to say, 'touch us not; flour and sugar are too high to use us in

Miss Dollie Moore, daugeter of Mr. and Mrs. Jack Moore, has been at Palestine for some time preparatory for an operation. She was operated on last Wednesday. Her many friends will be glad to know she is on the road to speedy recovery. The operation was a dangerous one and required scientific skill to perform the same. Dr. Blair of our town assisted Dr. Jamison of Palestine in performing the operation. The young lady underwent the ordeal in a very heroic manner. It will not be such and enormous cost to plait the three miles of sand leading out from Grapeland this way. I have interviewed a number of our citizens and they are more than willing to aid in making a good road from Augusta to Grapeland. We believe the people of Grapeland and community will lend a helping hand. In conversation with one of our enterprising townsmen he told us that he seldom traveled the road but would contribute liberally to the project. Let us take this matter under consideration, and make it a success. Be glad to hear from others; give us some proposition and figures. Whoopping Cough.

This is a more dangerous disease than is generally presumed. It will be a surprise to many to learn that more deaths result from it than from scarlet fever. Pneumonia often results from it. Chamberlain,s Cough Remedy has been used in many epidemics of whooping cough, and always with best results. Delbert McKeig of Harlan, Iowa, says of it: "My boy took whooping cough when nine months old. He had it in the winter. I got a bottle of Chamberlain's Cough Remedy which proved good. I cannot reccommend it too highly. For sale by D. N. Leaverton.
