

It had to happen. Mrs. Jack Patterson collared us this week and lowered the boom for our reporting her husband's latest (but not greatest) story. She says that they were not either living in Hell's Holler back in Georgia.

Furthermore, she maintains, the reason they left Georgia and went west had nothing to do with picking cotton or the hard life they were living on the farm back there.

The unvarnished truth is, she says, that Jack spent so much time fishing and hunting and messing around that she could never get him to do anything, and leaving all those lures behind was the only way she could think of improving the situation.

We are experimenting with colds. It appears to be interesting.

We notice that when we get a cold and don't see a doctor, it drags on for an entire week. On the other hand, when we get a cold and go to the doctor, he stops it in seven days.

The thing we most hate about colds is having a runny nose. Just having a nose like ours is enough to ask anyone to bear. When it runs, though, well, that makes it a real burden.

With all the miracles the doctors are doing these days, having a cold is still pretty much of a miserable affair. We don't mean to place all the blame on the doctors, either. Modern industry, with so many purported technological advances, isn't doing much better.

Take that miracle product of modern industry called Kleenex, for instance. If there is anything less useful than Kleenex when anyone has a cold like we have them, we haven't run onto it.

The delicate ladies get by pretty well with Kleenex, but for us, it's hopeless. We would be satisfied with just one good blow per sheet, but it seldom can stand the test.

Also, when drawing a partially-used Kleenex from our pocket for another blow, we have decided there is no more frustrating thing in the world than trying to straighten out the wrinkles and get a dry place all spread out for use.

This act is usually performed just after a sudden and unexpected sneeze when we are standing there sniffing hard to keep back the drip while we fumble for that tiny wadded-up piece of Kleenex.

## Dave McReynolds To Join Star

David T. McReynolds joins the staff of The Friona Star next week in the capacity of editor and advertising manager.

He succeeds Leland Boyd, who is moving to Bovina to become publisher of the newspaper there.

McReynolds, his wife, Shirley, and their small son, Franklin, are expected in Friona Saturday or Sunday of this weekend and he will assume his duties Monday, February 3.

The news editor comes here from Galveston, where he was mainland editor for the Galveston News-Tribune. He was graduated from Texas A & M College in May of last year, and was one of the highest ranking members of the Aggie J-school. His home is Paris, and he was graduated from high school there in 1946. He has attended Kilgore College and Henderson

## Grade School Teams Ramble Over Sudan

Both boys and girls of Friona grade school rambled over Sudan Monday night in Friona. Mary Ann Boggess was high scorer for the Friona girls with 14 points, and Charles Bass was the high scorer for the Friona boys.

## Schools Split Wins In County Meet

Schools entered in the county grade school and freshman tournament held in Friona last week split honors for the championship teams of the various divisions.

In the freshman boys' division the Farwell boys won the championship title. Friona won second, and Bovina was winner of the consolation trophy.

Freshman girls of Friona won their division, followed by second place Bovina, and Farwell won consolation.

Farwell again finished first in the grade school boys bracket. Friona grade school boys

TROUBLE IN THE AIR—Johnny Lovelace of the Farwell Steers comes into the basket for a crisp shot during the Farwell-Chief game Friday night. Similar stunts by Lovelace helped the Steers defeat the Chiefs 47 to 43.

## Squaws Move Ahead

The Friona Squaws moved ahead in basketball this week by beating Sudan, the only team to have outscored the Squaws in district play this season.

The Squaws finished the week with a win from Farwell, and trounced the Sudan Hornets 81 to 75. Leading scorers and their points were Jonnie Hand 40, Robbie Boggess 25, and Charlotte Bock 16.

## Chiefs Drop Lead

Friona Chiefs' chances of finishing the basketball season with a district title grew dimmer this week after glowing brightly after their surprise victory over Morton.

The dimming factors were Farwell's Steers and the Sudan Hornets. The score of the Farwell game was Friona 43 to Farwell's 47. Sudan downed the Chiefs Tuesday night of this week 60 to 48.

## Pack Meeting To Be Thursday Night

A Cub Scout pack meeting will be at the American Legion Hall at 7:30 p. m. today (Thursday.) Truett Johnson, Cubmaster, asks that all boys having uniforms wear them as there will be an inspection.

Several boys will be given awards and badges which they have earned. All interested parents and friends of the cubs are invited to attend the meeting.

## Friday Last Chance!

Three tax bills which property owners and other citizens have been receiving statements for, will become delinquent after tomorrow (Friday).

The taxes are Friona city taxes, Friona Independent School District taxes, and Parmer County 1958 poll taxes.

Although poll taxes will not be delinquent in the sense that city and school taxes become delinquent, the eligible person who does not pay his poll taxes before then will be allowing the privilege of voting to escape.

Deputy poll tax collector Dan Ethridge says that few persons have paid their poll tax this year in comparison to other years. He reports that only 222 persons have paid poll taxes through his office as of Tuesday this week.

In past years 300 has been the approximate number of persons who paid poll taxes to Ethridge.

Elections this year for which the poll taxes will be good will be those for offices of the nation, state, county, and city. Persons receiving their first vote or who are more than 60 years old are not required to pay poll taxes, but must obtain exemptions in order to be eligible for a vote.

Members of Friona Lions Club in a meeting last week decided to conduct a word-of-mouth campaign urging persons to pay poll taxes.

## Report From Frio Draw

Dear Editor, To be honest I am definitely worried about a certain party which lives somewhere out in my neck of the county, whose name I don't even know. But I would hate for Katy, my wife, to be responsible for the death of the person, due to temper and anger over a little thing like telephoning.

The story is that Katy and Miz Jorsen wuz tradin' tidbits of gossip over the telephone, and somebody wanted to use the line about the same time Katy had to tell a highly important and juicy tidbit which she didn't want nobody else to know.

When Katy heard the prying party off, she waited until she wuz sure she wuz listening, and says real persuasively-like, "Git offen this line and drop dead."

I know, editor, that Katy has an awful compellin' voice, which she has used to intice me to do things for the last 30 years, whether I wanted to or not, and I am worried ef'n it has the same power when applied to somebody else. I shore do think there ought to be an investigation, for there hasn't been any priers on the line for the past few days, when Katy wanted to do any information collectin' or swappin'. I wonder if what Katy said happened.

Yours truly, Don Karatall

## Juvenile Sent To Gatesville

County Judge A. D. Smith presided at juvenile court in a hearing involving a 15-year-old minor Tuesday morning at Parmer County courthouse in Farwell.

The youngster, who had been picked up with a companion on a car theft case last week, was adjudged a delinquent and was to be taken to the State School for Boys at Gatesville, according to Sheriff Chas. Lovelace. His home was listed as San Antonio.

According to Lovelace, the youth told officers that he had been in an Austin juvenile ward for auto theft when he was 13 years of age.

## Construction Crew Located Here

About 30 persons were added to the temporary population of Friona this week. A construction crew that will lay about 23 miles of natural gas line moved into town, and more are to come, according to the foreman of the crew.

The foreman, L. L. Stewart of Pampa, is with Arey Construction Company, which will do the job.

About 40 or 45 more men will make up the crew, to bring the total number to about 75, Stewart says.

Twenty-three miles of gas line is in store for work, Stewart says. The change will be made along the highway from Friona to six miles north of Muleshoe.

Four-inch lines that transfer gas between the towns will be replaced with 8 and 10-inch pipeline. The change is expected to require about six weeks, depending on weather conditions.

Work will probably start Monday, Stewart says. Trucks have already begun hauling materials in for laying the line. Although

## Harding Announces For Attorney

I wish to announce my candidacy for nomination as County Attorney of Parmer County, Texas, subject to the Democratic Primaries.

I am presently serving as County Attorney under appointment by the Parmer County Commissioners Court, which appointive term expires December 31, 1958. I wish to thank the people of Parmer County for the cooperation shown to me thus far during my appointive term.

In making this announcement, I would like to state that if elected this my first elective term of office, I will continue to carry out the duties and responsibilities of this office to the best of my ability.

HURSHIEL R. HARDING

## Vernon Estes Joins Commissioner Race

Vernon Estes announced as a candidate for Parmer County commissioner of Precinct Two this week to bring the number in the race to three. Incumbent Charlie Jefferson and C. L. Calaway had previously announced.

Entering politics for the first time, Estes has been a resident of the county and the precinct for 18 years.

In announcing his candidacy, Estes said, "In making the official announcement that I am a candidate for Parmer County commissioner, Precinct Two, I want to solicit the votes and the support of the people of the precinct. If I am elected, I will work hard and conscientiously for the interest of this precinct. 'I will appreciate your help.'"

## Loveless Announces For JP Re-Election

Judge Walter Loveless of Precinct 2, Place 1 of Parmer County, this week announces his candidacy for re-election to Justice of the Peace.

He will have held the office for six years, upon his completion of his present term.

## Playground Of Parmer Co. Is In Making

A virtual playground of Parmer County is forming on the outskirts of Friona. The site will be west of Friona near Ed Massey's swimming pool, where part of the playground was erected last week.

The name for the site will be Ed's Playground.

Massey says the playground will eventually include a drive-in cafe, a miniature golf course, pony rides, and kiddie cars, besides the swimming pool and the skating rink which now stand at the site.

The drive-in cafe is to be on the location soon, but the other things may be a little while in arriving, Massey says.

The swimming pool was constructed during the latter part of last summer. Next summer will likely be the time for most of the other items to be brought in, Massey says.

## Reeve Chevrolet Builds Car Lot

Reeve Chevrolet has graveled and prepared the vacant lot on the corner north of the company's location for the purpose of a used car lot and for display of new cars, according to Glenn Reeve Sr.

There are more than 81 towns in Georgia with names ending in "ville."

## Revised Building Code Ready for Commission

A revised building code is ready for action of the Friona city commission, reports Raymond Fleming. Fleming is chairman of a five-man committee appointed by Mayor A. W. Anthony Sr. to compose a building code satisfactory to the requirements and desires of the town.

The building code which is now in effect has been sharply criticized by building interests, with the point in question being that the present code does not fit a town of Friona's size, and is a misfit for the soil and climate of the town.

"Whether or not the code which the committee has drafted is one which will go into effect in Friona, will be left up to the city commission," Fleming says.

Fleming says the code will be presented to the commission for the official body's action at the meeting Monday night, which will be the regular meeting of the commission in February.

The building code committee met Monday night of this week jointly with the city planning and zoning commission at Carl McCaslin Lumber Co. The purpose of the meeting was to discuss the revised code with the P&Z commission, Fleming reports.

The code emerged from the joint meeting with the sanction and approval of the commission, and no changes were made and no objections were raised to the code as it was drafted.

Members of the code committee are Fleming, Glen Stevick, Dan Laceywell, Weldon Dickson, and Kenyth Cass.

## Beauty Box Opens Monday

Announcement is made this week of the re-opening of a beauty shop next door to Taylor's Barber Shop on Main Street. The shop, which was formerly known as the Charm Beauty Shop, will be the Beauty Box.

New equipment has been installed and the shop has been completely redecorated. Jody Horton will be the manager and operator. The shop will be open for appointments Saturday morning and open for business Monday.

The shop will be open Monday through Saturday of each week and appointments can be made by calling 3201. Mrs. Horton, who has been employed at a beauty shop in Bovina for the past year, invites everyone to come in or call at any time.

## Trebelaires Present Lions Club Program

The Trebelaires, local music group, presented a new program at the regular meeting of the Friona Lions Club Thursday night of last week.

The program is entitled "Religion in Song," and was acclaimed for being of exceptional quality by members of the club. A guest at the meeting, Grady Dodd, expressed the feeling that the Trebelaires are the finest group in their category which he has ever seen.

Other guests were Dr. Ansel McDowell Jr., Ross Ayres, Chief Ben Moorman of the Friona Police Department, who organized the patrol.

Cogdill says, "There's no telling how much good the boys have done. They might have saved two or three lives. Nobody had done anything for them, and this is just a way of letting them know how proud I am that they are willing to stand out in the cold, and weather, and see that the crossings are made safer."

## Cogdill Honors Patrol

The Safety Patrol for Friona school crossings was feted Monday night with a steak supper, sponsored by W. F. Cogdill, who wanted to express his appreciation for the work which the five boys have done.

The supper was held at Sherman's Cafe.

Members of the patrol present were Richard White, Ronnie White, Carl Osborn, and Allen Day. Stanley Varner, another member of the group, was unable to attend. Also present were Rev. Hugh Blaylock, Cogdill, and Chief Ben Moorman of the Friona Police Department, who organized the patrol.

Cogdill says, "There's no telling how much good the boys have done. They might have saved two or three lives. Nobody had done anything for them, and this is just a way of letting them know how proud I am that they are willing to stand out in the cold, and weather, and see that the crossings are made safer."

### Benefit Game May Be Off

A benefit basketball game in Friona for the Parmer County March of Dimes may not be played, according to Glenn Reeve Jr.

Reeve contacted a Clovis Air Force Base team to find out if the Clovis team would like to play the Friona outsiders. He was informed that the Air Force team could not play benefit games, "due to a regulation."

### Return Match Slated Saturday

Wrestling fans will have an opportunity to see a return tag team match Saturday evening at the Hereford Bull Barn. Last week when Iron Mike and The Bull Dog battled Bob Geigel and Rip Rogers, the referee was Wee Willie Davis. Geigel and Rogers and many of the fans were dissatisfied because of the favor shown The Bull Dog and Iron Mike, so H. E. Wester, promoter, arranged for a return match this week.

Mr. and Mrs. Randal Allen of Lubbock were weekend visitors in the homes of their parents, Mr. and Mrs. Denver Smith and Mr. and Mrs. Charlie Wise.

### NEW STAMP ISSUE

The International Atomic Energy Agency is to be honored with the first commemorative stamp of 1958, to be issued 10 February, in 3-cent and 8-cent denominations. This will be the ninth stamp in the series of commemoratives depicting the work of the United Nations agencies. The United Nations Postal Administration announced that further details about the stamp will be made known approximately six weeks before the date of issue.

## BAPTISM—WHAT IS IT FOR?

God commanded Naaman, a leper, to dip seven times in the Jordan to be healed of his leprosy. Naaman became wroth and went away in rage. His servants persuaded him to go ahead and obey God to be cleansed. He did this and came forth from the waters of Jordan clean of all leprosy (II Kings 5).

Many people today maintain the same attitude Naaman had at first. They think forgiveness of sins should be done some other way than the way God authorized. It looks foolish from a human standpoint to be buried in water to obtain forgiveness of sins. It looked foolish to Naaman to dip in Jordan to be cleansed of his leprosy. We must have faith in God, which is believing what he commands, and not depend on our own human wisdom. We should always remember that "God hath chosen the foolish things of this world to confound the wise" (1 Cor. 1:27).

God's children have been washed from their sins in his (Christ's) own blood (Rev. 1:5). Baptism puts the repentant believer into the death of Christ (Romans 6:3-4). Since Christ's blood was shed in his death, the sinner reaches his cleansing blood by being baptized into his death. That is why Saul was told to "arise, and be baptized, and wash away thy sins, calling on the name of the Lord" (Acts 22:16).

WE SHOULD REMEMBER THAT SCRIPTURAL BAPTISM MUST ALWAYS BE PRECEDED BY FAITH, Mark 16:16, REPENTANCE, Acts 2:38, CONFESSON OF THE NAME OF CHRIST BEFORE MEN, Matt. 10:32; Acts 8:37; Romans 10:9-10.

WITH JUNE

We have seen more new faces in the office the past few days than ever before. Almost without exception, when a stranger comes in, he or she says, "Do you know where I can rent a

house?" A few new houses are being built, but there is always someone ready to move into any vacant house in town. Since the New Year isn't very old, maybe we should check on the resolutions we made at the beginning of 1958. If one on your list is to be a better neighbor, perhaps you should check and see if you don't have one or more new neighbors that you haven't visited. Many new people are moving into our community and we should make an effort to show

them that they are welcome and that we are interested in helping them in any way possible. In spite of our population figures, we really don't want to ever outgrow being a friendly community. \*\*\*\*\* Rumors are going around about candidates for our city offices, but up until now no one has tossed his hat into the political ring. Of course, most of us are interested in our local elections, county elections, state elections, and national elections. Let's all show our interest by paying our poll tax before the deadline which is Saturday night of this week. Next week will be too late. Some people feel that the tax is unfair, but maybe we could look at it like the voter whose opinion was expressed in this manner: "I'll gladly pay \$1.75 just to vote against one candidate. Then I get to vote for all the others for free." If you don't feel like getting to vote for anyone is worth \$1.75, then maybe there is one that you would not mind to spend the price of a poll tax just to get to vote against.

Some rather humorous incidents have resulted from the shortage of employees in the Farwell back shop. Last Monday the editor, W. H. Graham Jr., who has also been the printer, asked us whether a certain ad was supposed to run again. We thought the ad had run as long as the original order called for, so our answer was "No." After learning that we had made an error, editor-printer Graham was advised that the ad must run this week. He immediately began to apologize for the error, which he thought he had made. After he had finished, the Monday incident was re-hashed and he remembered it. Then he replied, "Yes, that is right. And I'm going to let you take the blame for that one. I've made so many errors that couldn't be blamed on anyone except me." At the present time things

are looking up for that end of the business and within a short time everything should be back to normal. We certainly do appreciate the consideration that our customers have shown us during this time we have been without a printer. \*\*\*\*\* One of the strangest pieces of junk mail we have ever seen came through early this week. The addresses on the envelopes were BOXHOLDER. Inside there was a very personal sounding letter and among others this statement was made. "You have been recommended to us etc., etc." Now, who goes around recommending boxholders? \*\*\*\*\* Another thing which came in the mail this week was a large important looking pamphlet entitled, "Who Pays For Trading Stamps?" We haven't taken time to read it yet, but our conviction is that the customers do. If we learn differently after reading this bulletin, we will certainly pass the information on to our readers.

★ **WANT TO VOTE?  
PAY BY 31ST**  
Time is running out. If you want to be on the register of those who will be eligible to decide important questions pertaining to your city, your county or the state or nation, you must act now! Friday is the deadline. To go to the polls in Texas and write "yes" or "no" to elections concerning the average citizen, each voter has to be equipped with a small piece of paper, entitled "poll tax receipt." As of Monday, 1731 receipts had been issued by Lee Thompson's tax assessor's office, and Thompson estimates that the total will go over 2000 by deadline time.

He informs prospective voters that if "you can't get in to pay your poll tax—if you will mail in \$1.75 and give your age, the number of years you have resided in the state and in the county, and your occupation, and be sure the letter is postmarked by January 31st, the poll tax receipt will be issued."

MRS. MARVIN GADDY

## Delores Cannon Weds Marvin Gaddy

In a candlelight service at the Northside Church of Christ in Muleshoe Saturday at 7:30 p.m., Helen Delores Cannon, daughter of Mr. and Mrs. L. D. Cannon of Muleshoe, became the bride of Marvin Lynn Gaddy. The bridegroom's parents are Mr. and Mrs. M. D. Gaddy also of Muleshoe.

The double ring ceremony was read by Bill Gipson, minister of the church, before an archway of greenery flanked by white candelabra and baskets of white gladoli and orchid mums. Family pews were marked with white candles and orchid satin bows.

The bride, given in marriage by her father, wore a dress of white satin and lace with an empire lace bodice, a scalloped boat neckline, and long tapered sleeves. The skirt, which extended into a chapel train, was accented with a puff in the back. Tiny covered buttons decorated the puff.

Her veil of illusion was waist-length and fell from a coronet of lace outlined with seed pearls and sequins. Her only jewelry was a strand of pearls which was a gift from the groom. She carried a bouquet of purple orchids and spider mums atop a white Bible.

For something old she carried a handkerchief which belonged to the groom's grandmother. She also wore a blue garter. Dinah Cannon, niece of the bride, was the maid of honor and Rosemary Hicks and Mary Janice Puckett were bridesmaids. The attendants wore identical dresses of orchid cotton satin designed with full skirts, boat necklines and orchid brocaded chiffon organdy bows in the back. Their headpieces were made of white nylon net topped with white embroidered lace and rhinestones. Their bouquets were of white gladoli.

Chunky Ivy of Muleshoe was best man; Alan Turner of Lubbock and Mark Grimsley of Muleshoe served as groomsmen; and ushers were Kirby Brantley of Muleshoe and Kirk Holt of Stegall.

Immediately following the ceremony a reception was held in the home of the bride's parents. The serving table was covered with white lace over orchid. The centerpiece was formed by arranging the bouquets of the attendants around the three tiered cake.

## JOHN DEERE DIESELS OFFER YOU POSITIVE WINTER STARTING

If you've had experience with other Diesels, especially when the temperature drops to zero and below, you'll really appreciate the husky V-4 starting engine featured on the new John Deere "720" and "820" Diesel Tractors. This engine furnishes unflinching power to crank the Diesel engine, and also performs three other important functions for cold weather starting. Through

connected cooling systems, water in the main engine is warmed during the starting cycle. Exhaust heat from the starting engine is used to warm incoming air for easier combustion. Finally, cranking the main engine operates the oil pump, prelubricating the Diesel. Stop in soon and let us tell you the many other features that keep John Deere Diesel Tractors head and shoulders above the field.

Now that graduation time is past, those fellows with A. B. degrees will start learning the rest of the alphabet.

THE BULWARK OF A COMMUNITY IS ITS CHURCHES

"Close That Door"

(This week's meditation is by the Rev. Hugh F. Blaylock, pastor of Friona Methodist Church)

It was a hot sultry day in New York City during World War II. There was a bedlam of noise in Grand Central Station where service men were meeting and greeting or saying goodbye to their families. One could barely hear the Station Master's voice over the loud speaker system. A man stepped into a telephone booth and called his wife in a near-by town. He could scarcely hear her answer. "Talk more clearly," he shouted, impatiently, "I can hardly hear you." "Use your feeble mind and close that door!" she answered, "I can hear all that noise way up here!"

Many of us try to talk to God with the noise and confusion of our busy world still beating upon our ears or throbbing in our minds. No wonder we don't understand His voice.

That is why God has instructed us, "Be still and know that I am God," and again, "When thou prayest, enter into thy closet and shut the door."

Try it!

C. H. DeVaney, state vice-president of Texas Farm Bureau, makes a point at the county-wide FB meeting at Hub Tuesday night. Seated is H. L. "Hub" King, district director.

## Big Attendance At FB Meeting

A large attendance—more than 100 persons—was registered at the county-wide Farm Bureau meeting Tuesday night. Bureau officials were pleased with the turn-out because the program was of an "all meat" variety with a minimum of entertainment. It was a policy discussion meeting in which the membership was encouraged to raise questions and discuss the organization's system for forming beliefs.

Starting off the evening was Cotton John Smith's presentation of the film, "The Seven Lean Years that Waxed Fat." Gilbert Kaltwasser, president of the county Farm Bureau, presided at the meeting that followed. State and national policy literature was handed out to the crowd and a discussion was made of several topics in agriculture.

On hand to lend information to the group were H. L. "Hub" King of Brownfield, district director, and C. H. DeVaney, state vice-president, who is from Coahoma.

The state veep gave high praise to county Bureau leaders, who have been influential on numerous occasions in help-

# «The High Plains Farm and Home»

DeVaney and King both agreed that, pricewise, things look good for cotton growers for the next two years, but that the long-term outlook is for shrinking markets and an allotment of 13½ million acres instead of 17½ million as soon as three years from now unless changes are made in the government farm program as relates to cotton.

Two phases brought up by Kaltwasser, those pertaining to wheat and the soil bank, drew little comment from the crowd. The Bureau officials termed "disappointing" the results of the present soil bank and said failure to adopt national FB recommendations was largely responsible.

Price supports was another subject with improved response. Kaltwasser commented at one point that he had noticed "in the local newspaper" (see last week's Farm and Home), where another farm organization had said "Farm Bureau is for 60 percent price supports. I just want to say that this is a bunch of baloney," Kaltwasser commented emphatically.

He went on to say that Farm Bureau has always approved the use of price supports for orderly marketing, but not for price fixing. "A lot of us are afraid—I am afraid—of what would happen without price supports," he said.

To show that price supports do not always mean more money to the farmer, however, he quoted figures that indicated that prices received by farmers on un-supported crops such as livestock, hogs, poultry and eggs, vegetables and others have averaged higher (on a parity scale) than "basic" commodities which are supported.

"Whenever the government is big enough to give you everything you want, they're big enough to take it all away from you, too," he said.

Coffee and doughnuts followed the meeting.

## Lazbuddie FU To Sponsor Supper

The Lazbuddie Farmers Union local will sponsor a chili and pie supper at the Lazbuddie school cafeteria Tuesday night, February 4. It will precede the basketball game with Vega at the school, and will start at 5:30 and continue through 7:15.

Proceeds will be used to send a delegate from the group to the national Farmers Union meeting in Washington next month. Tickets will be 75 cents for adults and 50 cents for children. The menu consists of chili, beans, pie, and a drink. The public is invited.

## Union Members To Attend Meet

Former secretary of agriculture, Charley F. Brannan, now general counselor for the National Farmers Union in Denver, will address an all-group farm program development conference in Lubbock Friday, January 31, beginning at 9:30 a.m.

Alex Dickie, Jr., Denton, president of Texas Farmers Union, which originated the idea for the conference, says all producers of agriculture commodities and all farm organizations in the state will be invited to the conference.

Other sponsors include Grain Sorghum Producers, Plains Cotton Growers, Texas Wheat

Growers, Texas Milk Producers Federation, Co-op Oil Mill, Producers Grain Co-op of Amarillo, and Cotton Marketing Co-op.

The primary purpose of the conference, Dickie said, will be to develop a comprehensive farm program that would have the backing of the producers of all agriculture commodities.

Attending from Parmer County will be several Farmers Union members. From Lazbuddie will be Wyle Bullock, T. O. Lesly, Freeman Davis, Clayton Graef, James Welch, Demp Foster, J. C. Redwine, and J. R. Harris. Others are expected to attend, also.

## THE PARMER FARMER

by W. H. Graham Jr.

Onions are often responsible for tears, but more than usual were shed over their production last year, as most farmers of the High Plains found it difficult to market them profitably.

It's anybody's guess as to what conditions this year will be, but from early predictions, we'd venture to say that onions stand a good chance of bouncing back in 1958.

That is characteristic of many vegetables grown on an in-and-out acreage basis: first, a good year, then whom! the bottom dropped out. Two years ago onions were ringing the cash registers for the few farmers who tried them at \$1,000 or better an acre.

Not so last year. Maybe they are due for another upswing. If they do make good this year it'll simply mean another generation of that up-and-down pattern that has characterized them so long.

Incidentally, you might be interested to learn that Texas leads the nation in onion production, planting around 45,000 acres to the crop each year. Last year, onions grossed \$15 million in the state.

Onions are big business in the lower Rio Grande Valley, where they are watered from the river. Around Laredo they occupy considerable acreage (well irrigation), and in the "winter garden" section southwest of San Antonio they are very popular (also well irrigation).

The principal area in which they are grown dryland is northeast Texas in Dallas, Collin, and Rockwall Counties. There, in the edge of the Blacklands, onions do well from time to time, but they washed out pretty badly last year, and before that, the drought had curtailed production drastically.

However, Northeast Texas is still a region to be reckoned with in onion growing.

Here on the High Plains, farmers with lots of good land and plenty of comparatively cheap water have been watching such things as onion growing with considerable interest. And well they might, for when onions do good, they really raise the banker's eyebrows.

A few men are pioneering big-scale onion production in this area. You may recall the stories of J. T. Ford and sons, who had over 80 acres this past year.

Onions were first introduced

to the United States just below the turn of the century, and, interestingly enough, the first commercial production was from the Laredo area, and the first sales were made in Milwaukee.

The seed originally came from the Canary Islands. Since then, plant research has produced better adapted onions for the Southwest and the crop has grown to one of major proportions.

And, as this is being written, it's snowing again! This is getting to be the damndest country. The old timers say this is nothing, we should have been here in 1908. Well, all we know is that downstate papers keep headlining these Panhandle snows, and most folks from central Texas and southward think of the High Plains as resembling a Montana plateau.

Moisture conditions for this time of year are the best they have been in a long, long time and prospects seem to be good for these conditions to hold good.

It looks as if we will get a late start on winter and early spring work, though, and after being so far behind on harvesting last year, farmers would just as soon get caught up on their work for a while.

Wyle Bullock says we erred when we reported the attendance at the Farmer's Union meeting in last week's Farm and Home. He says they had more than 100 seats and that wasn't enough.

The story estimated the crowd at 50. It was more like 150, says Wyle.

This is one slip-up we can pass on to the printers. Leland Boyd, who wrote the story, did use the figure 150. It didn't come out that way in the paper, though.

Some other folks have been slipping up on figures. Among them is the Plains Cotton Growers, Inc.

Joe Jones told us of a story from the Lubbock paper a couple of weeks ago that showed the organization as estimating Parmer County cotton production at about 30,000 bales.

We sent them the F & H clipping that tallied ginnings to prove the county production at around 46,000 bales instead. They have notified us, "In our future information we will list Parmer County as producing 46,000 bales for 1957."

## Plan New Store

Work is being done this week on equipment and facilities for the new Oklahoma Lane Farm Supply, which is to be open for business soon—possibly by next week.

The firm, which will be owned by Wendol, Clarence, and Troy Christian and Harold Carpenter, and will be managed by Jimmie McGuire, will specialize in fertilizer. The owners are all local men.

They will have an 8,000-gallon anhydrous ammonia storage tank, and also will stock dry fertilizer. They are located adjacent the Oklahoma Lane Gin, about two miles north of the "O. L. Corner," and have offices with the gin.

Also, the company will have eight portable tanks and "at least" two pull-type applicators for rent to farmers. They handle the Dow Chemical line.

The men report they may branch out into other farm supplies in the future. They are the first retail-type store to locate in the Oklahoma Lane community.

The tallest shipment ever undertaken by a railroad stood 28 feet above the rails; longest single shipment was 183 feet long.

## NEWS FROM THE FARM BUREAU

By RAYMOND EULER

As most farmers are aware, railroad companies have petitioned for freight rate increases. American Farm Bureau has urged the Interstate Commerce Commission to deny the increase. The reason given is that Farm Bureau members and other farmers would pay, either directly or indirectly, all of a substantial share of the proposed rate and services increases on farm products shipped to market by rail and on farm production supplies they purchase.

The railroad's request is that such increases should go into effect on February 1, 1958, without suspension. It also suggests the possibility of adjustments with possible refunds to those shippers who may have been overcharged. Such possible refund, says American Farm Bureau, would not help the farmer, even if it should be made, because the farmer would already have, in effect, paid the increase in a reduced net price for his produce, and the refund would be made to the shipper, who is not the farm-

er. Such an arrangement would, in AFB's opinion, create a "windfall" deal for buyers and shippers, who would have bought on the basis of a higher rate, and then received a refund, which should have been allowed the individual producer in the first place.

American Farm Bureau also, after considering recommendations from State Farm Bureaus, has made a recommendation for a change in arriving at the level of government supports for farm products, including grain sorghums, which would be priced in conjunction with corn, after consideration for differences in feed value. The recommended basis for supports is "90 percent of the weighted average market prices" of these commodities during the preceding three-year period.

The recommendation would also "avoid the determination of support levels by any Secretary of Agriculture at his discretion."

We suppose you have read the account elsewhere in Parmer County papers regarding the President's Conference attended by President Gilbert Kaltwasser and Director Donald Christian last week in Waco. They reported a good meeting.

# Will Land Breaking Pay this Year?

by FLOYD CRUME

A number of farmers have asked the question lately as to whether it would pay them to break their land this year with a breaking plow. The main facts that have prompted them to ask this question, as most of us know, are the high moisture condition of the soil and being late in being able to start the plowing operation.

poor soil structure than has yet been devised by man. For the first time in several years we have an opportunity to see this in operation. Nature's method of filling the upper soil profile with water and then freezing and thawing the soil will mellow and aerate the soil much better than mechanically. This will then increase the intake rate of the soil and give a better penetration of moisture.

On the other hand, should we decide to plow the land with it as wet as it now is, we would not only lose the effects of nature but would place a hardpan at the plowed depth that would act just like a seal. We would decrease our water intake rate greatly in this way.

Some farmers have expressed the fear that sorghum or corn residues will give trouble next spring at planting time and in cultivating. This should not give too much trouble for most farmers pull a large portion of the residue back to the surface when listing anyway. If you don't you are probably breaking too deep for these soils. It appears the best answer to the problem is to chisel the land two directions about six inches deep, apply your nitrogen fertilizer, and list. This should enable most farmers to make a needed cut in farm expenses, and keep yields high.

ing areas, winter and spring markets should have good supplies of fresh vegetables. As for fresh fruits, there'll be more apples, oranges, and grapefruit on markets in winter and spring months than last year.

### CLOTHING COSTS

Prices are heading upward on some clothing items in '58, according to extension clothing specialists. However, because of competition in the field, manufacturers and retailers are drifting away from across-the-board increases to pricing by item. Another hopeful note is the fact that this competition will produce a greater variety of clothing in the medium and better prices lines. More than ever before, careful shopping will help to cut clothing costs.

Competition in a price field sets the level of quality you get. At a given price the product must include one or more such features as: style, fit and comfort, workmanship, strength and durability, resistance to shrinkage, color fastness; special features such as washability, crease resistance, etc. All this makes label information very important. Directions for care should be given and carefully followed by customers.

### Delegates Report On FB Conference

### FOOD IN '58

Food supplies in the new year are expected to be large—almost as large as those of 1957, according to the U. S. Department of Agriculture. A strong demand for food from consumers also is expected next year, following the spending pattern that has marked recent high employment years.

Retail prices of food may average a little higher in '58, especially during the first half of the year. This will be partly because of the strong demand for some foods that will be in shorter supply, such as beef and eggs, and partly because marketing charges will be higher.

Total meat supplies in 1958 will be close to the near-record high of 1957 but there will be a larger share of beef and a smaller share of beef and veal. Retail prices of meat may average higher at least until mid-year when the heavier supplies of pork start coming to market.

We'll be eating more chicken. In fact, consumption in the new year is expected to break records. The increase will be in commercial broilers. Retail prices of chicken are not expected to average higher but egg prices are due for a rise. We'll have fewer eggs at least until late summer. There will be fewer laying hens.

Milk production is expected to increase next year. Retail prices of milk and dairy products are not expected to change much.

Large supplies of processed fruits and vegetables will be on markets through the winter and spring months. Given average weather in southern grow-

## One Break-In In Lazbuddie

One break-in in the county was reported to Parmer County law officers this week, and further investigations were being made.

Mae Mahon of Lazbuddie reported that someone had entered her home while she was away over the weekend. She had discovered nothing missing, however.

Lovelace said early this week that upon investigation, officers found that the screen door had been cut and the glass was removed from the front door. But the glass had been replaced, so Mrs. Mahon didn't discover the break-in until Monday.

**HUB COMMUNITY SALE**—This aerial photo of the scene at the Hub Community Center Wednesday of last week shows the capacity of such a sale to attract a large crowd. Estimates say that 2,000 persons attended the sale.

## Hub Community Sale Big Success

A whopping success is reported of the Hub community sale, staged Wednesday of last week at the community building.

Conservative guessers say that 2,000 persons attended the sale at one time or other during the day. All but a few of the sale items were disposed of, from an array of implements, household goods, and trucks.

Although a complete tabulation of the gross of the sale has not been figured, about \$45,000 would be fairly close, according to a member of the Hub community association. This would net the association approximately \$3,000 from the commissions which the auctioneers donated, the member said.

The Hub Home Demonstration Club fed about 500 of the 2,000 persons, ran out of food and refreshments, and turned many away, during the lunch hour of the sale.

Cars and pickups of persons who attended the sale lined both sides of the road for more than one-half mile.

### 4-H News

**Bovina Boys 4-H Club News**  
Dickie Clayton, Reporter

The Bovina Boys 4-H Club met January 22, 1958, at school. President Ronnie Sudderth called the meeting to order. Gary Stevenson, pledge leader, led the club in the 4-H Pledge. Secretary Joe Jones, read the minutes of the last meeting. Following this Joe Jones and Ronnie Sudderth gave a demonstration on swine. Tally Kelso and Gary Beachamp are scheduled to give a demonstration on irrigation. Joe Jones, county agent,

talked to us on beef stock. He also discussed getting red cedar trees through the Forest Service for farm windbreak planting. The trees cost \$3.00 per 100 and must be ordered before March 1.

**Farwell Junior Boys 4-H News**  
Roy Donaldson, Reporter

The Farwell Junior 4-H Club met at school on Thursday January 23. The meeting was called to order by Ronny Henson, president. Alan Busbice, pledge leader, led the club in the 4-H Pledge. Leon Lovelace, secretary, read the minutes of the last meeting.

Members voted to help the March of Dimes. Ronny Henson appointed a committee to see Cary Joe Magness about the March of Dimes. On the committee are Leon Lovelace, Murrell Smith, Charles Carthel, Jim Morton, and Ronny Henson.

Following this Gilbert Dale and Scotty Mount gave a demonstration on hog feeders. After the demonstration the different phases of it were discussed. Bobby Pruitt and Dudley Robinson will give a demonstration at the next meeting. Melvin Lingnau, Jimmy Terrell, and Murrell Smith will also give demonstrations at the February meeting. Joe Jones showed a small red cedar tree like is available through his office for farmstead planting. Cost is \$3.00 per hundred and they must be ordered by March 1.

Jones showed pictures on the 4-H club summer camp, the Lazbuddie stock show, and 4-H members' crops. A county stock show for the 4-H clubs of Parmer County was discussed.

The meeting was then adjourned.

**Farwell Senior 4-H Club News**  
Freddy Taylor, Reporter

The Farwell Senior Boys 4-H Club met at school on Thursday, January 23. The meeting was called to order by Barry McCuan, president. Joe Reed led the club in the 4-H Pledge. The meeting was then turned over to David Watkins and Aubrey White who gave a demonstration on raising pigs. Ricky Cooper and Joe Reed will

give a demonstration on swine at the next meeting. Johnny Sprowls and Marshall Lee are going to give a demonstration on wiring a pump, at the February meeting.

County Agent Joe Jones gave a talk on growing evergreen trees for a project. He also showed pictures on the crops contest and the Lazbuddie fair.

**Lazbuddie Junior 4-H News**  
Steven Young, Reporter

Lazbuddie Junior Boys 4-H Club met Monday, January 27, at school. The meeting was called to order by Gary Mac Brown, president. The minutes of the last meeting were read by D. H. Foster. The pledge was led by Lloyd Bradshaw. Business was then discussed.

Richard Chitwood and James Brown of the Senior 4-H Club gave a demonstration on the equipment necessary for fitting and showing a calf. Steven Young was elected county council delegate. Gary Mac Brown will give a demonstration on record books and Buddy Embury and Lloyd Bradshaw are going to give a demonstration on production of hybrid seed at the next meeting. Joe Jones, county agent, gave a talk on how to protect and care for small evergreen trees which can be ordered through his office for \$3.00 per hundred. Order must be in before March 1.

**Lazbuddie Senior Boys 4-H News**  
James Brown, Reporter

Lazbuddie Senior 4-H Club met on January 27 at school. Richard Chitwood, president, called the meeting to order. Cooper Young led the group in the 4-H Pledge. Cooper Young, secretary, read the minutes of the last meeting. James Brown gave a report on the county 4-H council meeting in the agent's office January 18. James Brown and Richard Chitwood gave a demonstration on "The Show Box," or equipment necessary for fitting and showing a calf. Joe Jones, county agent, discussed the boys' demonstration and gave some more about the show box.

Jones showed some slides on the Lazbuddie Farm Tour and the 4-H camp. Jones also showed a small red cedar tree like the ones available for farmstead windbreaks. He has order blanks in his office. Trees cost \$3.00 per hundred and must be ordered before March 1.

Read the following bit of advice somewhere. Don't know for sure whether it will work or not, but if it will, it is surely something all homemakers will be glad to learn.

To prevent paint odor, add one ounce of pure vanilla extract to a gallon of paint and stir well. The vanilla does not harm the color and can be added to any paint.

### THE HAPPY HOMEMAKER

BY JUNE FLOYD

If you are one of those homemakers whose husband and children enjoy dried beans of any kind and it is hard for you to find time to cook them as often as you would like, try this method.

Soak the beans overnight. The following morning put them into jars, add pork, ham, or whatever seasoning you desire, and

salt. Then cover with boiling water and pressure about one hour at 10 pounds pressure. Store with other home canned foods and serve at any time you desire.

\*\*\*\*  
Since liver is one of our favorites, we would like very much to share our favorite recipe with you. It has been used so much the name has worn off, so for your recipe file it will just have to be filed under "Liver." Remove the skin from the edges of two pounds of sliced liver. Pierce the edges lightly with a fork to prevent curling while cooking. Season with salt and pepper.

Dip into flour and drop each piece into hot fat and fry quickly until browned. Then add 4 medium onions, chopped fine, tops of 4 green onions, a sprig of parsley, one tablespoon vinegar, and four tablespoons water.

Cover and cook slowly over a medium flame until onions are well cooked. Serve with creamed potatoes or other vegetables. This recipe will serve a family of six amply.

\*\*\*\*  
For a dessert that is different, try this recipe for an unusual pie.

### BUTTERMILK PIE

1 cup sugar  
¼ cup cornstarch  
¼ teaspoon salt  
2½ cups buttermilk  
2 eggs, separated  
½ cup chopped cooked prunes  
1 nine inch baked pie shell  
Combine sugar, cornstarch, spices, and salt in saucepan. Gradually stir in buttermilk and beaten egg yolks. Add prunes, and cook, stirring constantly until mixture thickens. Boil one minute. Pour into pie shell; chill well. Serve with topping of whipped cream or meringue of two egg whites (left from filling) and ¼ cup sugar.

\*\*\*\*  
It will not be very long now until fresh rhubarb will be in plentiful supply. For a very pretty salad which is sure to make a hit with every member of the family, use this recipe for Ruby Red Salad.

2 cups rhubarb—fresh or frozen  
1/3 cup sugar  
¾ cup water  
2 tablespoons unflavored gelatin  
¼ cup cold water  
2 cups frozen, sweetened sliced strawberries  
1½ tablespoons lemon juice  
8 pineapple slices, drained  
Combine rhubarb, sugar, and water. Cook slowly until just tender. Soften gelatin in hot rhubarb mixture. Add strawberries and lemon juice; chill until slightly thickened in refrigerator. Pour into 1 quart mold. Chill until firm. Unmold on pineapple slices arranged on lettuce cups. Serves eight.

\*\*\*\*  
Carrot skins may be removed by dropping them in boiling water for five minutes. Then drop them in cold water and the skins will slip off.

\*\*\*\*  
When making congealed salad that calls for drained fruit, never throw the juice down the drain. Place it in a container in the refrigerator and use in punch.

\*\*\*\*  
If you have juice left from canned pickled fruits such as crab apples, pears and peaches, it may be used to baste smoked ham. The juice will give the baked ham a spicy flavor.

\*\*\*\*  
Read the following bit of advice somewhere. Don't know for sure whether it will work or not, but if it will, it is surely something all homemakers will be glad to learn.

\*\*\*\*  
To prevent paint odor, add one ounce of pure vanilla extract to a gallon of paint and stir well. The vanilla does not harm the color and can be added to any paint.

**HD Club Sets  
Goals For 1958**  
The Northside Home Demon-  
stration Club met at the club  
house in Friona Friday after-  
noon. The new president, Inez  
Sherley, presided over the busi-  
ness meeting. The devotional  
was given by Elizabeth Gore.  
Two goals were set for this  
year. The first was for the  
sponsoring of a 4-H Club project  
and the other was sponsorship  
of a summer camp for a Girl  
Scout Troop. A program on  
etiquette was presented by  
Elizabeth Gore.  
Refreshments were served by  
Inez Sherley to Lucy Faye Co-  
canougher, Jerry Sherrieb,  
Johnnie Stokes, Gladys Wright,  
Thelma Ruth Shelton, Elizabeth  
Gore, Druscilla Paul, Mary  
Roberts, Faye McMahan, Nellie  
Ray, Olive Massie, and Ruby  
Robards.

**Ivies Return**

turned Monday after spending  
the weekend visiting Mr. and  
Mrs. G. E. Campbell, Mr. and  
Mrs. Delvin Bratt and Jeanne,  
and Mr. and Mrs. Graham  
Campbell and Ellen at Archer  
City. They also visited Mr. and  
Mrs. Calvin Ivie at Lubbock.

**Girl  
Scout News**  
Troop 235 met at the Con-  
gregational Church Monday af-  
ternoon and started working on  
their good grooming badges.  
Mary Lou Cason, local beauti-  
cian, was a guest and discussed  
care of the hair, complexion,  
hands, and fingernails.  
Present were Willene Baxter,  
LaVoyce Burrow, Brenda Dea-  
ton, Kay Johnson, Mary Knight,  
Wanda Ready, Sharon Reeve,  
Nawasa Parson and the two  
leaders, Mrs. Kenneth O'Brian  
and Mrs. Cordie Potts.  
Troop 226 met Monday at the  
Methodist Church. After the  
business meeting, games were  
played and refreshments were  
served by Jeannie Taylor. She  
served cake and cold drinks.

After the Girl Scout song and  
prayer the meeting was dis-  
cussed. The leader, Mrs. Ernest  
Osborn, and thirteen Scouts  
were present.  
Troop 229 met Monday after-  
noon with the two leaders, Mrs.  
Wes Long and Mrs. E. G.  
Phipps. Girls present were Jan  
Wells, Lynn Wilson, Kay Mc-  
Broom, Betty Bass, Sheryl  
Long, Shirley Phipps, Sheron  
England, Natalie Marruffo, and  
Jonelle Wood.  
A get-well card was written  
to Sherri Woodley, who is ill,  
and a thank you note was writ-  
ten to Mrs. Doris Hale, who  
spoke to the troop last week  
about life in Scotland.  
The girls learned to tie knots.

Buck Dixon of Mosca, Colo.,  
and Jim Dixon, who attends

Texas A&M at College Station,  
visited in the home of their  
parents, Mr. and Mrs. C. W.  
Dixon, last week.  
There is truth under some  
rumors. That is what lends  
strength to all rumors.
