

THE STAR'S EDITORIAL COMMENT

WHAT'S THE ANSWER THIS TIME?

Several homeowners and property owners in the east part of Friona are grumbling about the rumor that a labor barracks will be erected soon in their part of town.

It all depends on where you live, just how you feel about this problem.

Probably if we lived across the street from the proposed location we might grumble too, but let's take a long view on this subject.

The owners of the Friona Growers & Shippers, who incidentally are going to foot the bill for the barracks, are up against it.

They acted just as they had to.

They needed labor to process the vegetables which our area is going to produce this year and they needed it now, not tomorrow.

They tried to purchase property near the present labor barracks with no success.

So, they did the only thing left; they looked elsewhere.

And, they found the answer to their problem.

Friona Growers & Shippers is a boon to our community. We don't know exactly how much they mean to our community, but we'd like to say that we would be proud to have them ten times as large as they are now.

If they were, their problem would be enlarged ten times. They would need ten times as much room for their laborers to live.

We would like to suggest that the city, or rather the citizens and businessmen help with this problem.

A well planned labor center could be the answer to this problem in the future.

Entered as second class mail matter July 31, 1925, at the post office in Friona, Texas, under the Act of March 31, 1897. Published each Thursday.

In this way property owners wouldn't scream and Friona would have something to offer other industries which might look to our city as a possible site.

All laborers would be housed in a central location which would facilitate employers in finding and making transportation available.

What do you think?

Wouldn't it be better to have a well planned, adequate central labor camp, one that is well built and laid out to handle all the laborers rather than half a dozen squalid buildings overcrowded with people to show prospective industries?

So — you say well and good but why me?

We'll tell you why. Each and every one of us has a stake in Friona's future. If our industries now have trouble in finding room and facilities what chances do we have in getting others to come here?

If we all work together it will be of mutual benefit to the entire community.

Cubs and Dads Go Camping

Several members of Friona's Cub Scout pack and their dads went to Camp Don Harrington Saturday afternoon, made camp, and spent the night. Sunday morning mothers and other members of the families took picnic lunches and went to the camp.

After lunch the entire group went swimming then returned home late in the afternoon.

Camping overnight were Ronnie Altman, Joe Mann and Joe Bob, J. P. Sims and Bobby, W. R. Riethmayer and Mike, Bill Wooley and Mike, Leo Reed, Ronnie and Duane, Richard Ellis, Lonnie and Randy;

Tommy Shirley, Richard Biggers, L. H. Nettles and Danny, Nelson Coon, Craig and Ricky, W. H. Not Warm Enough? Then Build A Fire

Apparently having become used to the "nice warm days" of Sunday and Monday Will Osborn was about to freeze Tuesday afternoon when he built a fire in the gutter in front of Galloway Implement Co. in downtown Friona.

Uncle Will denied the fact he built the blaze on purpose but rather would have passers-by believe he found the cardboard box ablaze and was just watching it to make sure it didn't catch anything on fire.

OK, Uncle Will, we will listen, but we'll think what we want to.

Ready-baked bread can be used as a base for a dessert. The following recipe makes a nice looking loaf that members of the family or guests are sure to enjoy.

CINNAMON-ORANGE LOAF
 1 loaf sliced white bread
 1/2 cup butter
 1/3 cup firmly packed brown sugar
 1/3 cup sugar
 1/2 teaspoon cinnamon
 1 tablespoon orange juice
 2 teaspoons grated orange rind
 1/4 cup finely chopped nuts

Whip butter with sugar until light and fluffy. Blend in cinnamon, orange juice, rind, and nuts. Spread each slice of bread with about 2 teaspoons of the mixture, stacking as you go. Hold the stack firmly and, with a serrated knife, trim away the crusts.

Turn loaf on its side and place in a shallow foil-lined pan. Loosely tie a string lengthwise around the stack. Spread remaining sugar mixture over the top of the loaf. Gently pull top of loaf apart in several places. Heat in hot oven for 10 minutes. Remove the string and serve at hot.

Next time the children in your family want to make fudge, let them try this simple recipe which calls for brown sugar. It is simple to make and the brown sugar gives it a different flavor.

CHOCOLATE FUDGE
 1 pound brown sugar
 1 cup milk
 1 1/2 squares chocolate
 1/2 teaspoon salt
 1 tablespoon butter or margarine
 1/2 teaspoon vanilla
 1 cup nuts

Cook brown sugar, milk and chocolate to soft ball stage. Add salt and butter. Set pan in a pan of cold water to cool. Stir until creamy. Add flavoring and nuts. Pour into buttered pans to harden. Yield: 1 1/2 pounds.

Party Honors Lavin Fleming

Nancy Outland was hostess at a surprise birthday party in the home of Mayor and Mrs. Raymond Fleming Thursday evening honoring Lavin Fleming on her seventeenth birthday.

Those attending and sending gifts were Robbie Boggess, Linda Gee, Raye Jene Jones, Sue Baxter, Johnnie Tomlin, Betty Agee, Jonnie Hand, and Mr. and Mrs. Jesse Sinclair. Refreshments of cake and cold drinks were served by the hostess.

They tell the story of the shipwrecked sailor who was captured by cannibals. Each day his arm was cut and a native would drink his blood. Finally, the sailor sent for the king:
 "You can kill me and eat me if you want to," he declared, "but I'm getting sick and tired of being stuck for the drinks."
 A young actor came home all excited. "I've landed a part," he told his parents. "It's a new play and I have the role of a man who's been married more than 25 years."
 "Fine," nodded his father. "That's a start, anyway. Maybe next time you'll get a speaking part."

Some reports said that the attacks made on Vice President Nixon in South America came from students. However, according to J. Edgar Hoover, many of the participants were persons in their late thirties and forties. Mr. Hoover also says that the attacks were definitely communist-inspired.

MRS. DAVID CARSON

Mrs. David Carson Cook Of The Week

A former home ec teacher and long time resident of Parmer County is being featured as our Cook of The Week this week. She is Mrs. David Carson, who lives in the Lakeview Addition. Before her marriage she was Frankie Gober and grew up in the Oklahoma Lane community.

After graduation from the Oklahoma Lane High School, she attended West Texas State College at Canyon then transferred to Texas Tech at Lubbock where she received her B. S. degree as a home economics major. She taught in Clovis and near Eagle Nest in New Mexico, then at Slaton, Tex.

The Carsons have two children, a son, David Lee, and a daughter, Linda. David is also a graduate of Texas Tech and farms west of town. He and Frankie and the children lived on the farm before moving here about three years ago. The Carsons are active members of the Sixth Street Church of Christ.

When asked by a Star reporter what she did for a hobby, Frankie replied, "Mostly I work." Any homemaker with two children, a house to care for, a deep freeze to fill, and endless other things to do can appreciate that statement.

She later stated that her favorite recreation was playing bridge. Her husband is also a bridge enthusiast. Favorite desserts at the Carson home are fruit salad pie and banana nut bread.

FRUIT SALAD PIE
 1 large can crushed pineapple
 1 medium size jar Maraschino cherries
 6 bananas
 3 cups sugar
 1/2 cup flour

Add sugar to pineapple, let stand 6 to 8 hours. Take juice from pineapple and cherries. Add flour and cook until thick. Let cool, then add sliced bananas, cherries and pineapple. Pour into baked crust and serve topped with whipped cream.

BANANA NUT BREAD
 1/2 cup shortening
 2 1/4 cups flour
 1 teaspoon baking powder
 1 cup sugar
 1/2 teaspoon salt
 1/2 teaspoon soda
 2 bananas (average size)
 1/4 cup chopped nuts
 2 eggs
 1/3 cup buttermilk or 1/3 cup sweet milk and 1 teaspoon vinegar

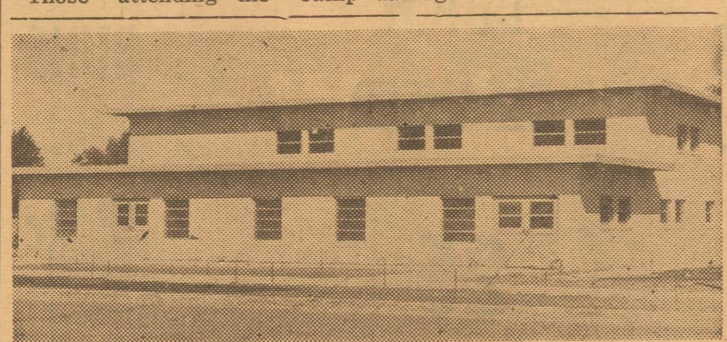

Combine sugar and shortening thoroughly. Add eggs and beat well. Combine flour, baking powder, soda and salt. Add flour mixture and milk alternately into the sugar and shortening mixture. Add mashed bananas and nuts. Pour into loaf pan. Bake at 350 degrees 1 hour.

Girl Scouts Attend Camp

Seven Friona Girl Scouts returned Saturday after spending a week at Camp Las Leonitas twelve miles southeast of Lubbock. Most of the girls agreed that going camping was a wonderful experience but they were glad to get home.

Some of the things the group especially enjoyed were handicrafts, outdoor cooking, living in tents, making jewelry, and riding horseback. The most unpleasant part of the camp was reported to be the blistering heat of the girls got.

Those attending the camp were Helen Stowers, Carolyn Guinn, Jo Beth Brummett, Colleen Harper, Marca Lynn Massie, Portia McGee, and Karen Osborn. All of these Scouts are members of troop 235 and troop 236.

DETRIMENTS TO UNDERSTANDING THE BIBLE

Not Expecting to Understand
 God gave the Bible to man to be UNDERSTOOD! The very prevalent idea that the "common" man cannot understand the word of God is a most dangerous doctrine, and places a majority of men at the mercy of a few uninspired and fallible men. When a man tells you that he can understand and you can't he is placing quite a premium on his intelligence and casting a terrible reflection on yours!

MISUSE OF SCRIPTURE
 "No prophecy of the scripture is of any private interpretation" has been (mis) used to teach that man can't understand for himself — he must have a divine interpreter! Isn't it strange that men who teach you that you can't understand the scriptures will use the scriptures (that you can't understand) to teach you that you can't understand them!

Imagine the inspired Peter, who wrote the above, needing a present day divine interpreter to interpret his teachings. If that be the case, who will interpret for the present day interpreter? If Peter and the other apostles need interpreters for their messages, certainly we need someone to check on the uninspired interpreters today. **How Absurd!**

The Bible was given from God, BY men and FOR men. Read what it has to say to you. "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness; that the man of God may be perfect, thoroughly furnished unto all good works." (2 Ti. 3:16,17). "Study to show thyself approved unto God. . . rightly dividing the word of truth." (2 Tim. 2:15).

Scripture did not come by private interpretation — it came by the Holy Spirit. We need to study it, rightly divide it, and teach it, that we might show ourselves "approved unto God."

Fleming Leaves For Malta

Ray Dean Fleming left Brunswick, Me., Monday of last week for Malta where he will be stationed at a naval air station. He visited his parents, Mayor and Mrs. Raymond Fleming, recently.

Fleming, a 1956 graduate of Friona High School, enlisted

in the naval air corps about eighteen months ago and was stationed at San Diego and Memphis, Tenn., before being transferred to Brunswick.

Burglars recently entered the Memphis High School for the second time in about a month and took \$14 from vending machines. — MEMPHIS DEMOCRAT

MORE WRECKAGE — Looking for identification early Sunday morning Sheriff Charles Lovelace picked his way through the blood-soaked ground where one body was found. After the crash one body was quickly identified from papers found on him. Luckily another billfold was found lying in the brush and the other two victims were identified later Sunday. THE BULWARK OF A COMMUNITY IS ITS CHURCHES

Worship Together Every Week

Builds stronger, richer life . . .

You know the hymn—"How firm a Foundation?" Of course you do. But it's more than a hymn. To many it is a way of life.

The foundation is faith. Faith that gives every day a shining new quality. Faith that provides a strong shelter in time of need. Faith that sustains you in sickness and trouble, that makes life a great adventure, truly worth living.

One does not find faith in a vacuum. You find it as a member of a family, as a member of a community. Worshipping together every week, with those you love, with others who believe as you do—gives you a closeness, a strength to carry you through with hope and courage.

You can build a stronger, richer life—on a firm foundation of faith. Worship together this week . . . every week!

Mary Lou Miller Sets Wedding Date

The engagement and approaching marriage of Mary Lou Miller of McLean to James Dale Glass of that city has been announced by her parents, Mr. and Mrs. Roy V. Miller Sr. of Friona. The wedding ceremony will be read at the First Baptist Church here at 5 p.m. Sunday, August 17, by Rev. Gerald Hill of McLean.

The bride-elect is a graduate of Friona High School and Texas Tech. She has taught home economics at O'Donnell and McLean. Glass is a graduate of McLean High School and West Texas State. Following his discharge from the armed forces, he became the Phillips wholesale dealer in McLean. The couple plans to make their home there.

WCS Has Monthly Meet

The Woman's Society of Christian Service of the Friona Methodist Church met for its regular business meeting at 9 a.m. Tuesday. The meeting was called to order by the president, Mrs. Billy Sides. The opening prayer was led by Mrs. I. T. Graves Jr.

The financial report was given and committee reports were approved. A poem "A Song of Thanksgiving" by Henry Van Dyke was read by Mrs. J. H. Boyle as a memorial to a deceased member, Mrs. Velma McGee.

The hostesses, Mrs. Bob Gore and Mrs. Floyd Rector, served refreshments of coffee and cake. The closing prayer was led by Mrs. Billy Sides.

Couple Takes Cycle Trip

Mr. and Mrs. Ray Strickland returned late Saturday after making a four-day tour of six states. They made the trip by motorcycle. The Stricklands covered almost 2000 miles and visited numerous places of interest.

States they toured were New Mexico, Colorado, Wyoming, Nebraska, Kansas, and Okla.

VANDALISM IN FRIONA — Two cases of senseless vandalism were reported last week as the windshield and glasses out of the truck shown above, and the windows in the crane were broken out by youngsters throwing rocks. One of the windows of the truck wouldn't break satisfactorily apparently, for a crow bar was found in the seat where it had been used to break out the glass.

BELOW — An irrigation motor belonging to Nelson Welch was stripped of all loose or those parts which could be jerked off the motor. The motor is located in the east part of town and was found with all the wires pulled loose, filter torn off and scattered, and battery stuffed full of dirt and sand.

A farmer's barn had burned down and the agent from the insurance company arrived to discuss the claim. Explaining the policy that covered the structure, he told the farmer that his firm would build another barn of similar size instead of paying the claim in cash. The farmer was furious. "If that's the way your company does business," he exploded, "you can just cancel the insurance policy on my wife!"

There'll be dancing in Dublin, cheering in Cork and, likely, fewer furrowed brows in Texas. Recent indications are that green is joining ranks of the other three colors considered standard nationally for highway signs. The green signs rapidly gaining national recognition as the most desirable for safe traffic control are similar to those in use on the Fort Worth-Dallas expressway.

Costs of dairy farming now

favor mechanization of chore work but operators planning to mechanize should carefully balance estimated cost against expected net returns, says A. M. Meekma, extension dairy husbandman.

Extra rewards await the cotton producer who succeeds in producing a high-quality crop this year, while discounts for low quality will continue to be stiff, reports Fred C. Elliott, extension cotton specialist.

No Relief Sighted In Bus Strike

Last week we received the following letter from members of the Bus Drivers of Local 1313 (Amarillo) regarding the bus strike which has stranded and caused such a strain on many of our local citizens.

"The negotiations between the bus drivers of Local 1313 Amalgamated Bus Drivers Union and the New Mexico Transportation Company, affiliate of the Greyhound Bus System, is still at a stalemate.

"There is no future meeting set. The breakdown is over the mileage rate of wages which expired on Jan. 19, 1958.

"There is a differential of 2 1/2 cents per mile in wages paid the drivers of the connecting lines in Amarillo, and a differential of 3 cents per mile with connecting lines in El Paso, Las Cruces, and Albuquerque.

"Drivers of the New Mexico Transportation Company, the Greyhound affiliate operating between these terminals and the system, are asking for an equitable equalization in the mileage rate of pay in accord with the connecting lines as they operate the same buses, loaded with the same passengers and cargo as the other lines.

"These buses and passengers are

brought in at the various terminals of which the New Mexico Transportation Co. receives the same tariff as the connecting lines.

"Only recently, a 10 per cent increase in tariff was granted to the bus lines and the New Mexico Bus Lines received this increase the same as the Greyhound System.

"The tariff increase was granted — and based, on increase in operating costs.

"The drivers of Local 1313 have not participated or received an increase based on this tariff increase.

"At the last meeting between the company and union, the company offered 1 1/2 mills per mile which would amount to about a 63-cent increase on the Amarillo to El Paso run which is a schedule of from 10 to 11 hours, or an average of 45 cents per day wage boost.

"We the drivers feel that as we carry the same loads, work the same hours and drive the same buses as our co-workers on the Greyhound System, it is only right that we should get at least an equalization raise between the two rates per mile as the System we connect has done."

Respectfully yours,

W. O. Holley

Visit Here

James and Annette Crow of Amarillo spent last week visiting their grandmother, Mrs. A. A. Crow. Their parents, Mr. and Mrs. J. B. Crow, spent last weekend here and the entire family returned home late Sunday.

NOW, JUST WHAT ARE WE TO SAY??

With the two new additions to the staff of the Parmer County Community Hospital, some confusion is bound to arise. Up until now having two Dr. Springs was a comparatively easy problem to solve. All we had to do was say "Dr. Paul" and "Dr. Lee."

Now that we have two Dr. Lees, the situation becomes complicated. The simplest way to solve it seems to be to say "Dr. Cranfill." But then when you take into consideration the fact that Dr. Lee Cranfill has also lived here most of his life, the solution doesn't seem so simple.

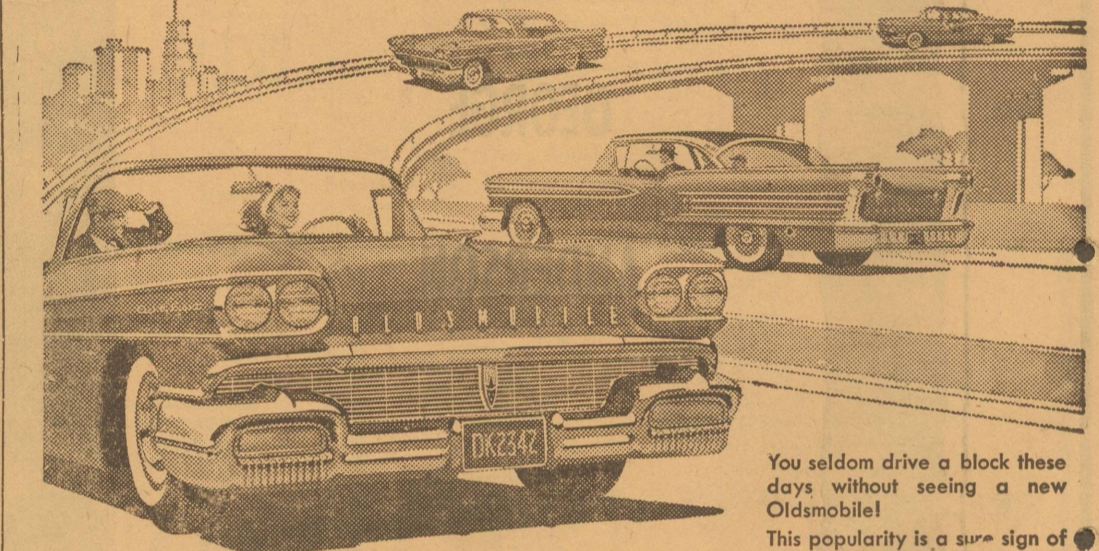

Strangers are likely to wonder why we say "Dr. Cranfill" when he is the youngest doctor on the staff as well as a hometown boy. Like most other problems, this one will probably work itself out, but it is a peculiar situation.

"WE NEVER RUN OUT OF GAS!" — Famous Last Words of the red-faced editor of the Star, Dave McReynolds, who is hiding his face on the right. Cordie Potts, left, cracks out some of the precious fluid to an embarrassed McReynolds after he ran out of gas chasing fire trucks on the way to the Clark fire last week — see Mack's Tracks in this issue.

in & around FRIONA WITH JUNE

As happens in most cities at one time or another, we had more than our share of the automobile accidents over the weekend. The four persons who died in the train-car accident just north of the Doyle Cummings residence make five traffic fatalities in Parmer County this year and all of them have been near Friona.

This should cause all of us to stop and give some serious consideration to the prevention of accidents. A statement that has been used over and over again in this connection is very true. Being careful has never killed anyone.

Anyone who wants verification that Star classifieds are really worth the money should call Mrs. Glen Mingus. Last week she called and asked us to run a classified concerning a dog that needed a home. Later she came into the office to pay the charge and jokingly asked if we guaranteed results.

Of course, we promised to return her money if she didn't find a home for the dog. Friday we ran onto her again and inquired about the matter. Her reply was, "Goodness, I had no idea that ad would get such quick results. I could have found good homes for a dozen dogs before I even got my Star."

By the way, who has some cats that need homes? The Floyds and a couple of friends who also live on a farm are at present cat-less. We would like to have at least two and the other couple needs that many. If we have any raters in the matter, we'd rather have cats that especially love catching rats.

Anyone having cats that they would like to give away is invited to call 2-2291 or Parmer 3418. We're not particular about color or breed. Just cats will fill the bill nicely.

In our lost and found department this week we have a practically new BB gun that was found about Christmas time and is presumed to have been some child's Christmas present. We also have a Friona FFA ring that has just recently been lost. Come by the office or call for further information.

Who said you couldn't grow fruit in Parmer County? The Russel O'Brians nearly always produce several varieties. This year their cherries and apricots produced abundantly. Mrs. O'Brian brought a branch off an apricot tree that was less than eighteen inches long. It had fourteen of the prettiest, largest apricots we have ever seen anywhere. Thanks to the O'Brians the Floyds had a taste of Parmer County apricots and enjoyed them very much.

Mrs. G. Cranfill says the new combination at her house works out pretty good. What could be more helpful around the house when there is a new baby than a doctor? The John Fred Whites and their baby son are staying in the Cranfill home temporarily.

Dr. Lee Cranfill, who is a new member of the Parmer County Community Hospital staff, is at home and is a great

Mrs. Jasper Bess was a Star office visitor one day last week. She reports that J. D. Jones, a former Friona resident, who was badly burned months and months ago, is now able to work. He has one artificial leg and has learned to use it remarkably well. Jones spent months in hospitals in Louisiana and Amarillo following the accident.

While she was visiting in Philadelphia recently, Mrs. Lucy Welch had an experience that just about any teen-age girl would have thoroughly enjoyed. Pat Boone of record, screen, and television fame attended a meeting of the board of education of the Northeast Christian Institute in that city.

Dr. Rex Johnston, president of the college and son-in-law of Mrs. Welch, had an appoint-

ment to meet Boone at the train and take him to the meeting. Mrs. Welch accompanied Johnston to the depot and reports that she enjoyed meeting the young man very much.

It seems rather strange to see such names as Dalhart, Dimmitt, Tulia, and Canyon on the Friona Chief football schedule for this fall. Of course, the Friona team has played some of these teams before, but these are the conference games.

Did anyone see the wheat growing on Otey Hind's place? We have it from a dependable source that the insurance adjuster allowed him 75 percent damage following the hail last month then he turned around and harvested 20 bushels per acre. Must have been pretty good wheat before the hail.

Listening to some of the political speeches on the radio reminds us of a sentence we read recently which went like this, "It's too bad some of the speakers who speak 'straight from the shoulder' can't speak from a little higher up."

You can tell a married woman by the ring on her finger, but you can't tell her much.

Mr. and Mrs. Jerry Houlette and daughter, Debbie, of Corpus Christi are due here Thursday for a visit with relatives and friends. Jerry is being transferred to Bermuda and Mrs. Houlette and Debbie will make their home with her parents, Mr. and Mrs. Ellis Tatum.

Weekend guests in the Ralph Price home were Mr. and Mrs. Bill Shackelford of Durango, Colo., Dick Hanna of Pampa, and Mrs. Gordon Shackelford of Phoenix, Ariz.

Sunday dinner guests in the home of Mr. and Mrs. J. R. Braxton and sons were Mrs. Braxton's parents, Mr. and Mrs. P. O. Southall.

The Black baseball team and Boy Scouts had a swimming party at Ed's Playground in Friona Monday night. About 25 boys attended the party.

Dr. L. B. Barnett of Hereford was a Sunday dinner guest in the home of his parents, Mr. and Mrs. R. E. Barnett.

We may soon be living in the second largest state in the United States, but there's not a better neighborhood. Yes, that's what the Rockeys think. Thanks to the neighbors Mrs. Helen Fangman brought us four gallons of milk which has been used to make ice cream; the T. J. Presleys came up with a nice fat fryer; the Howard Elmores provided us all the cherries we wanted to put in the deepfreeze and the Glenn Robertsons brought us some new potatoes freshly dug from their field.

Mrs. T. J. Presley and Mrs. Howard Elmore were shopping in Hereford last week.

There will be a wiener roast at the community house Thursday, July 10. Everyone is invited.

Mr. and Mrs. Jim Hays of Dimmitt visited in the home of Mr. and Mrs. Clyde Hays Sunday.

Mrs. Ellis Tatum made a business trip to Hereford Tuesday. While there she visited Judy Barnett, who is a patient at the Deaf Smith County Hospital.

Teddy Fangman and Arnold Fangman of Fort Lewis, Wash., visited Monday evening in the Dick Rockey home. They listened to the tape recording that H. V. Rockey sent his parents from Korea. On the tape H. V. said he had gained 20 pounds and on the tape the Rockeys are making to send to him, Arnold advised him that was nothing compared to the 30 he had gained. WANT TO GET AWAY FROMMIT TRY TH' MARINES!

According to information from the Amarillo recruiting office of the U. S. Marines, any old leatherneck who is now a member of Class III or standby reserves, can request assignment to active duty and retain their present rank up to and including sergeant. The requests for active duty must be for either three or four years. Apparently, if things are getting too rough in civilian life, Marines stand ready to offer a way out of it all.

Potato harvest started in the Friona area Monday. These were the first three truck loads, taken from the field of A. L. Black. They were forced to wait several hours under this awning while processing machinery was getting started.

Potatoes Roll In At Friona, Lariat

Potato digging, that summertime harvest function that is attracting more attention in the Parmer County area each year, got started at Friona and Lariat this week.

Both Friona Growers and Shippers and Gregory Produce at Lariat began their work on Monday, although new machinery at Friona kept the first loads from being processed immediately, and the potatoes went right on through the smaller, but ready-to-go shed at Lariat.

The first diggings in the Friona area deal, which amounts to about 600 acres, came from the farm of A. L. Black in the Hub community. Spuds were taken from the ground in the comparative cool of the morning, but had to stay on the trucks (which were tarped and parked in the shade) awaiting tune-up of the new equipment. Processing did get started about 10:30 Monday night.

During such hot weather, no digging is done during the midday hours, because of danger of the sun and wind, which can "blister" the produce and cost farmers money.

John O'Hugherty, Friona Growers and Shippers salesman, said Monday the market for the Friona spuds couldn't be tested until they were actually placed for selling.

Meanwhile, in the southern part of the county Buck Gregory took Monday morning diggings from the field of John Hood and put them through the washing, culling, dyeing, grading, and sacking operations, and moved the loads directly into the hands of a Dallas broker.

The early results of the first day, according to Gregory, were "awfully good." The potatoes sold for \$3.15 a hundred, a pretty good price, and the yield from Hood's farm—where the man is growing potatoes for the first time—was good, running from 250 to 275 sacks.

For such early season digging, this is an excellent yield, reports Gregory.

The potato harvest got off to a good start for Gregory, but the shed operator and grower is not expecting times to continue at a high level all through the harvest.

"I look for the market to weaken pretty soon," he says.

Orders for the early part of the High Plains harvest are usually slow in picking up momentum, and this year is no exception, so it is not Gregory's plan to rush through harvest in the hope of catching higher prices.

Gregory grows potatoes on a year-in-year-out basis, figuring on the law of averages to protect his over-all earnings. He does not appear to be concerned that his own potatoes will be dug toward the end of the deal, and when the market may be declining all along.

Gregory uses an unusual twist in selling. He has hired a professional potato salesman, which is not unusual, but the office set-up is. D. E. Hughes, the salesman, has three telephones in a motel in Texico, from where he makes contact with sales points all over the country.

Improved phone service from the facilities available in Texico is the main reason for this method of selling, says Gregory.

The more turnover of frozen foods in your home freezer, the more economical its operation will be, say extension foods and nutrition specialists. Certain fixed costs of freezer operation are large compared with other costs involved in freezing. Therefore, the more food used and replaced, the less the cost of storing each pound.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Irrigation of grain sorghum has been getting underway this past week. Several dry hot days like we have had over the weekend can remove lots of moisture. Farmers are interested in getting the water to the plant before it suffers because crops usually produce the highest yield when they can easily obtain moisture from the soil throughout the entire growing season.

An efficiently designed irrigation system will allow you to cover the ground in a hurry in order to get a good application of water when the plants need it.

The Soil Conservation Service has worked with L. W. Grissom, Roy Clements and James Norton to improve their water application on irrigated land. Robert Zetsche made a range survey on Owen Seamands' ranch last week.

A soil survey was made on the D. S. Anderson farm south of Clay's Corner.

The president has proclaimed the week of July 20-26 as National Farm Safety Week for 1958. The theme this year is "When you work for Safety, Safety works for you." Here are a few figures to impress on our minds the importance of SAFETY on the farm:

In 1956, there were 12,000 deaths and 1,050,000 injuries to farm residents of the United States. In Texas, the causes of farm accidents in percent are as follows: drowning—23.0, machinery—22.4, firearms—15.8, burns—9.5, falls—6.2, animals—5.6, lightning—4.1, electric current—3.9, blows—3.3, and other types of accidents 6.2.

Let's keep safety in mind not only during Farm Safety Week but every week of the year.

In the July issue of Soil and Water magazine there is an article entitled "Cotton Conservation" that tells how a farmer has increased his yield through conservation farming. If you take "Soil and Water" or have access to it take time to read this article.

This Year, as Last, Phosphate Pays On Sandier Soils

Tests conducted on two southern Parmer County farms by the Bushland Experiment Station indicate this year, as the year previous, phosphate fertilizer is an essential ingredient in obtaining high yields on wheat grown on sandier type soils.

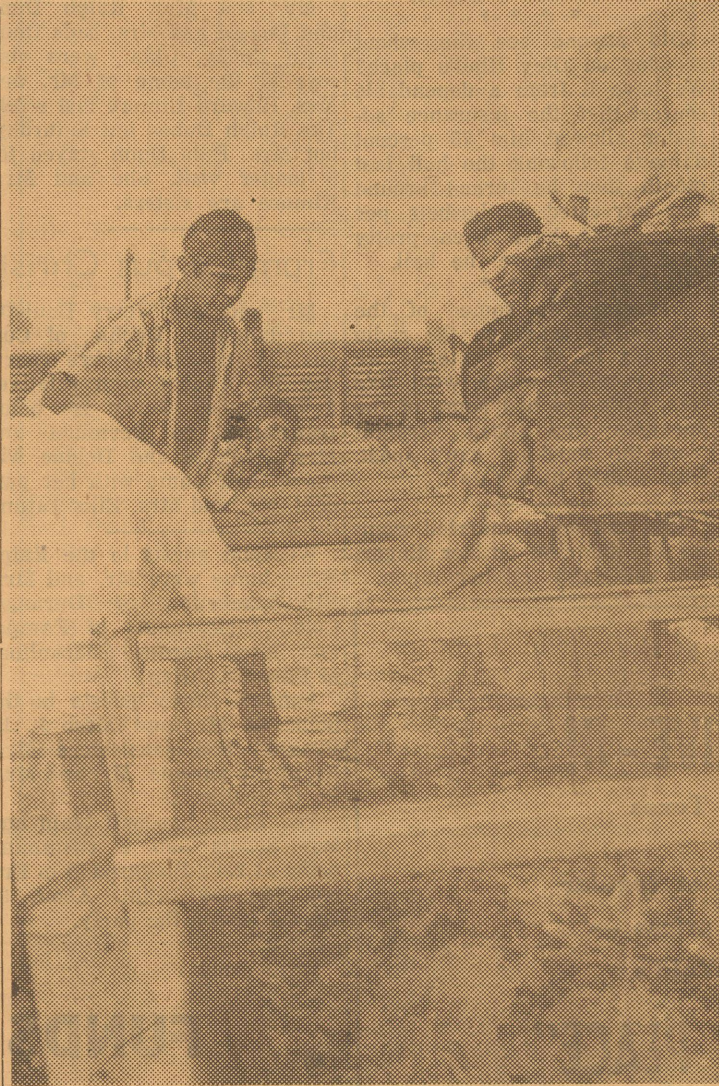

The tests do not minimize the importance of nitrogen, the most commonly applied fertilizer, in increasing the yields. But they do indicate that nitrogen and phosphate, working as a team, mean a lot more to the farmer in terms of getting the biggest yield increase for the least money.

In 1957, tests were run on the Walter Kaltwasser farm in the Oklahoma Lane community. The tables below will show that 120 pounds of nitrogen and 80 pounds of phosphate were the best paying combination for

him that year, resulting in a yield of 58½ bushels per acre. This year, tests were run on the Beryle Nix farm near Lariat, and again clearly indicated that the sandier soils need phosphate along with nitrogen for maximum grain production.

In the tables, it will be noted (Continued on next page)

Johnny Holland of Houston, nephew of the Eric Rushings, doesn't have a very good opinion of hospitals, though he knows they are necessary. While playing with his cousins Saturday Johnny fell into an irrigation ditch and hurt his hand. He didn't worry about it much until Sunday morning when his hand began to swell and stiffen.

Eric and Johnny came in to the hospital and found everyone busy so had to wait and the waiting was extremely hard on Johnny. Pretty soon he fainted, but after an x-ray revealed that he had no broken bones, he returned to the Rushing residence promising himself he'd stay away from hospitals as long as possible.

Tractors are our business and we are sure proud of the new McCormick six-row. Here's bigger, more efficient farming—six-row farming at its easiest and best. Ask for an on-the-farm demonstration.

When you pay your water bill, remember this: One half-inch hose and nozzle will distribute 200 gallons of water per hour, a three-quarter-inch hose and nozzle 300 gallons per hour, and the ordinary lawn sprinklers we use distribute approximately 200 gallons per hour.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

Have you ever seen any "garden garters?" We haven't, but have seen some advertised. The idea is wonderful, but a person wouldn't necessarily have to purchase them ready made. They are made from foam rubber and kept in place with elastic bands. Don't know where the name is from. They resemble knee pads and are used for just that.

These gadgets may be used to protect knees while gardening, scrubbing, waxing, or painting floors. The ones we saw advertised were cut in the form of a flower and were selling for \$1.

Another thing that is new is called a "double bucket." It has two compartments that hold six quarts of water each. It would come in very handy for floor cleaning. You could fill one compartment with warm suds and the other with clear water for rinsing.

For a quick and easy main dish for supper, try baking your supper and stacking it in a loaf. The following three recipes are built around ready baked bread. Of course, you could use home baked bread if you desired to do so.

SWISS SUPPER LOAF
1 loaf unsliced cornmeal or rye bread
1/2 cup butter
1/2 cup minced onion
1/4 cup chili sauce
1 tablespoon poppy seed
6 slices crisply fried bacon, crumbled
10 slices Swiss cheese

ELECT GLENN H. KOTHMANN
Commissioner of Agriculture
July 26

... because KOTHMANN is young, vigorous, qualified ... born, raised, trained and works fulltime in Texas agriculture ... a Texas A&M agriculture graduate, active in Texas Sheep and Goat Raisers Assn., Texas Cattle Raisers Assn., Texas A&M Ex-Students, on Legislature's important agriculture committees, Jaycees, Texas National Guard, American Legion ... from a family of pioneer Texas farmers and ranchers ... KOTHMANN stands for service to ALL TEXAS AGRICULTURE.

1 cup chopped fresh spinach
Cut bread into 10 slices. Melt butter, add onion, and saute until lightly browned. Add chili sauce, poppy seed, and one half of the crumbled bacon; heat five minutes longer. Spread hot mixture on bread slices. Place a slice of cheese and a sprinkling of bacon and spinach between each slice of bread.

Assemble slices, crinkle foil around loaf and place on baking sheet. Pour remaining chili sauce mixture over top. Heat in moderate oven for 20 to 30 minutes. Sprinkle with additional bacon and serve.

VIENNA SUPPER SNACK
1 long loaf unsliced Vienna bread
1 can (12 ozs.) pork-ham luncheon meat
1/4 cup chopped ripe olives
1 can cream of mushroom soup
Soft butter
3 tablespoons catsup
2 teaspoons prepared mustard
Coarsely grind luncheon meat. Combine with ripe olives and undiluted soup. Slice the bread the long way into three layers. Spread butter on cut areas. Spread bottom layer with catsup and one half of the meat mixture. Top with second layer and spread with mustard and remaining filling. Top with upper crust layer.

Wrap loaf loosely in foil, sealing ends. Heat on baking sheet in hot oven for 20 to 25 minutes. Remove to serving tray, open foil and cut loaf into 12 to 14 generous slices.

CHILI SOUFFLE BUNS
8 small hamburger buns
Soft butter
1/4 cup chili sauce
2 eggs, separated
1/2 teaspoon salt
1/4 teaspoon prepared mustard
1 cup grated sharp cheese
Spread butter, then chili

sauce, on cut surfaces of bun halves. Beat egg whites until stiff. Beat egg yolks with salt and mustard. Add cheese and fold into egg whites. Heap mixture on bun halves. Place buns on baking sheet and bake in moderate oven for 10 to 15 minutes. Garnish with parsley. Makes 8 servings.

900 Attend Program And Tulia's Biggest Banquet

Citizens from a broad area of the High Plains produced what many termed an unprecedented show in Tulia, March 31st. The area -- the fifteen county Thirtieth Senatorial District of Texas. The "Show" -- an Appreciation Dinner-Program honoring State Senator Andy J. Rogers of Childress. 30 to 100 persons from each of the 15 agricultural coun-

ties turned out for the evening-long program in the cafeteria and auditorium of Tulia High School. 75 business and farm leaders from outside the district joined in the "Chorus Of Thank You's" to the Senator. A majority of the Panhandle-South Plains Representatives and Senators, also two major daily newspaper representatives were present.

'SIX - ROW POLITICAL TRACTOR' INDEXING

WHO THEY ARE: WHAT THEY ARE SAYING:

Jimmy Willson, mayor of Floydada, in charge of Program Arrangements. Dr. Harlan Harris, Pastor First Baptist Church of Plainview. Dr. Claude Killingsworth, State VFW Surgeon. Rev. Joe Allen, First Baptist Church, Senator Rogers Pastor, Childress. L. Dean Butler, past President Swisher Farmers Union. Judge Luther Gribble, Presiding Judge of the 7th Supreme Judicial District. John Stapleton, District Attorney and Master of Ceremonies. Joe Cowan, Insurance man, State Democratic Committeeman 30th Senatorial District. Leo Purvis, President Hale County Teachers Association. Claude Wells, Owner and Publisher Memphis Democrat, Past President Panhandle Press Association. Joe Sooter, Past President Bailey County Farm Bureau. Paul Spillman, Past State Vice Commander American Legion.

A dozen leaders in the district were programmed to speak. They, typically, represented a cross-section of Plains life.

One was the Senator's pastor. He lauded the honoree for his fight against liquor, narcotics, and lewd literature. "Senator Rogers is always on the right side of every moral issue," said the churchman. "He wants and works for a high moral atmosphere to prevail."

A county teachers' association president called attention to Senator Rogers' work in behalf of public education. A Memphis druggist related that Rogers has always had an "open ear" for the small businessman.

A district judge praised the quality of legislation introduced and supported by the Senator. A mayor and insurance man emphasized the value of Andy Rogers' fight against corruption in Austin, particularly in connection with the insurance investigations.

Said an official of one of the veterans' organizations: "Andy told us for a long time there was serious trouble in the veteran's land program. He was right. And when this was cleaned up, Andy worked hard to see that this good program was not scrapped."

A newspaper editor and publisher, a former president of the Panhandle Press Association, observed, "This is the first time I've ever heard of people traveling so far just for a state senator. But it's fitting," he added, "for Andy Rogers for a job well done."

Spokesmen for the major farm organizations expressed approval of the Senator's record on farm-to-market roads, local ownership of underground water, rural electrification, and other legislation of concern to agriculture. Said the farm spokesman who rounded out the program:

"In view of all Andy Rogers has done for agriculture, I'm amazed to hear from the other speakers here this evening that he's had time for such effective work for so many others, too." The farmer concluded:

"Andy Rogers must use a six-row political tractor!"

The Senator acknowledged the praise-filled evening with obvious humility. He spoke humbly, too, of his "close personal friend" -- Lewis B. Taylor of Austin and Waco -- who had been stricken with a fatal heart attack there a few minutes earlier.

To the series of "thank you's" which had been expressed during the evening, Rogers responded:

"What's been accomplished, you've done. The credit belongs to you, to my parents, and to my wife who have all supported me so strongly. I really feel like I owe you all an appreciation dinner."

Plans for the 1958 Parmer County Farm Bureau queen contest were made Monday night as these 11 county women and Raymond Euler, front, gathered at Bovina Restaurant. Rules of the contest and committees were named, and entries are being sought by the contest committee.

FB Queen's Race, Rules Established

Members of the Parmer County Farm Bureau queen committee for 1958 met in the Bovina Restaurant Monday night to organize and plan for the sixth annual queen's contest. Mrs. Ralph Smith presided as temporary chairman until Mrs. C.

V. Potts was elected chairman. Rules for the contest were studied and amended as follows:

Eligibility—Entrants must be the daughter or sister of a Farm Bureau member actively engaged in agricultural production, single, age 16 to 22 on Sept. 1, 1958. (Exceptions—Daughters of state directors, county presidents, previous state winners or Farm Bureau employees are excluded.)

Sponsor, a business, club, or individual, shall pay an entry fee of \$10. Attire shall be dressy dresses of all-cotton material, exclusive of decoration, and shoes with heels will be worn. Corsages will not be worn.

The county winner will receive a check for \$100 and will be eligible to enter the district contest. Other entries will receive appropriate token awards. Two entries will be allowed each town, and one entry will be allowed each rural community.

Entries should notify the following community chairmen: Friona—Mrs. Raymond Euler, Farwell—Mrs. L. L. Norton, Bovina—Mrs. Dennis Williams, Lazbuddie—Mrs. E. D. Chitwood, Oklahoma Lane—Mrs. Harold Carpenter, Black—Mrs. Bruce Parr, Hub—Mrs. L. F. Bruns, Lakeview—Mrs. S. M. Bailey Jr.

On the publicity committee for the contest are Mrs. Dee Chitwood, Mrs. L. F. Bruns, and Miss Jimmie Lou Wainscott. The

Tiremen Offer Tips On Tires

A practice that is catching on among economy-minded drivers makes perfectly safe tires within the reach of all drivers. The practice of having tires recapped is becoming more popular as motorists wake up to the fact that they can get tires recapped for about one-half of the cost of new tires, say two tire service men, Henry Hathorn and Stanley (Blackie) Richardson. The tire men, of H&R Tire Service of Clovis, N. M., offer another tip that drivers need to keep in mind when having tires recapped.

"Watch those tires, and when the tread begins to disappear bring them to us and let us recap them. Not only can a better job of recapping be done, but the tires can often be recapped the second time if you check your tires regularly.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

President Gilbert Kaltwasser is in Waco this week, attending a Texas Farm Bureau Commodity Advisory Committee meeting. He is serving on the Water Committee. This is a state wide meeting, with committees composed of farmers from all counties over the state. Their job is to make studies of subjects related to all farm commodities and services to be presented to counties for consideration in annual conventions, preceding the State Convention in November.

Parmer County Farm Bureau Directors instructed the presi-

dent to write letters to all county ginners, urging their participation in support of the National Cotton Council. Cotton Sales Promotion is of vital importance to the future of the cotton industry, and Farm Bureau believes that the Cotton Council is performing an invaluable service in this field.

Farm Bureau Queen Committee members met in the Bovina Restaurant dining room Monday night to organize for the Sixth Annual Contest to be August 22. We think there will be a news story on this in Parmer County Newspapers this week.

J. H. West, TFB President, has written letters to all County Farm Bureau Presidents, urging them to make every effort to get every eligible voter out to the polls on July 26th. Your directors pass this important request on to everyone of you. Our right to vote is one that has not yet been infringed upon. If we can keep it that way, we have an excellent chance to remove some of the infringements that have progressively come upon us, by knowing who the men are, and what they believe, when we cast our ballot. VOTE!

A statement we deem true and important to you and us, by Admiral Arthur W. Radford: "Today, the Christian world is menaced by a Satanic force which denies and seeks to destroy all that we Christians hold important. Communism is a direct denial of Christ and His Church. More than that, it seeks complete domination of the free world through capturing the minds and hearts of its youth."

Sun glasses — GOOD or BAD?

Many people ask optometrists every day "is it all right if I wear sunglasses?" The answer isn't exactly simple. Certain conditions of vision require sun lenses while others definitely do not.

Light-sensitive vision (photophobia) often is a sign of infections in or near the eyes or in other parts of the body. If sun lenses are used in these cases, the real trouble might merely be covered up and the cause not discovered.

Sun glare problems should be carried to your optometrist. Only by a thorough visual examination can he answer the question: "Are Sun Glasses Good or Bad for Me?"

All Is Not Roses In Ford Onion Deal

Onions are closing out a weak year in the Farwell area, where Euvon and J. T. Ford and sons are winding up the second attempt to cash in on big-scale vegetable production.

The Fords are openly disappointed about prices they received for their savory product this year, after earlier encouraging reports on the markets evaporated before they could marshal their production and cash in.

"Last year was better than this year," says J. T., rather gloomily. And last year was a "stinker" for most onion growers on the Plains, who lost money on their efforts. The Fords, who have a big volume, fared better than most growers in 1957, though, because of this factor.

There is no onion processing shed in the Farwell area, and the Fords have been moving their onions through the Jack Griffin facilities in Hereford. They tried a slightly different kink this year, however, to bring at least a part of their processing worries closer to home.

They leased a grader and set it up at a barn near the farms,

and so graded out and sacked their onions, ready for shipment on the spot. The selling was still done from Hereford through Griffin, and the bags bore the Griffin imprint.

Although the market was down, the demand for the Ford onions held good, and sales were made nation-wide. Large trucks loaded at the Ford barn and rolled out to points from New York to Florida on the East Coast, and many locations in the Midwest and Southwest.

About 25 truck loads were moved out, representing the produce of 80 acres of onions. Another way to look at it is to consider that the crop made between 17,000 and 18,000 50-pound bags of graded onions. These sold mostly at prices ranging from \$1.25 to \$1.75 a bag—too cheap for the farmers who grew them.

These prices were especially painful in view of the tonnage, which was down drastically from that realized last year. Yield has been about 300 sacks per acre this year. Last year, the yield was often three times that, and so volume went a long

way toward making up prices a year ago.

There were two reasons why the yield was off so much for the Fords this year. The first, and most important, was the poor quality of "slips" or sets, which were brought from South Central Texas and hand planted. (This poor quality was, in turn, largely a result of bad weather.)

Then, the Fords pushed their harvest work as rapidly as possible to get in on what they hoped would be the best prices of the season. By making their harvest so early they took onions to market that would have put on a lot of additional weight in another week or two.

Whether this strategy was the best or was not is problematical. J. T. says the area men may have been better off to have waited.

As to the financial return left for the farmers, J. T. compares the profits with "a crop of cotton." And, he is quick to add that the money made with onions, if it compares with that of cotton, is certainly not worth the extra trouble and work, not to mention the financial risk, involved in vegetable growing.

A typical breakdown of a truckload sale of the onions would look like this: Here's a load bound for New York. The price is \$2.10. That's not too bad, but there's a 70 cents a sack freight involved. That cuts

Up goes another 50-pound sack of onions, loaded aboard a big semi-truck bound for Oklahoma City. This truckload of vegetables is from the Ford onion deal near Farwell. About 25 such loads were hauled out during the past week.

what lies ahead. He believes that anyone going into vegetables should plan to stay for five years, no matter how thick or how thin times should be as the years go by.

Many vegetable men agree that it takes a minimum of five years to catch one of those "good years" that sooner or later comes along—one of those years when the growers can look back over tough or break-even times and see that the wait was worth it.

The last time this happened for High Plains onion growers was in 1956, when good yields teamed up with best-ever prices, and farmers made from \$700 to \$1200 per acre profit from their crop. Some men declare this is too good to even hope for, and that it probably will

never happen again.

But nearly all agree that 1957 and 1958 have been "misses" for the High Plains onion growers, and that the cycle will swing up again. The big question is when.

Ford says that the county men may make a trade with a processor next year which should help spread the risk. He hopes for a deal where the processor would furnish the sets, the Fords would furnish the land, labor, water, and fertilizer. The processor would share a percent of the profits—not a percent of the gross from sales.

There is already talk that this type of a trade may reduce the risk enough to justify continuing to raise onions year in and year out, even though the weather and the markets are not always cooperative.

the new Brillion Plow Packer can save up to \$3.00 an acre!

You can now save time, labor, fuel costs and get increased yields by using the new Brillion Plow Packer. This Crowfoot Wheel Plow Packer brings you that much closer to "once over" farming that enables you to save up to \$3.00 an acre in labor, time and fuel cost.

It is a well known fact that tillage operations account for two-thirds of the power and labor required to produce field crops. The biggest tillage operation of course is seedbed preparation and this usually includes plowing and then disking, harrowing, dragging and whatever other operations are necessary to get a prepared seedbed. By packing when you plow, you can eliminate many of these field operations because you break up the clods and prevent rapid evaporation.

Get a BRILLION Plow Packer to use when you begin tearing up that stubble!

the money back to \$1.40 for the farmers at the barn.

But it costs them another 70 cents a sack to process the onions, leaving them a field gross of 70 cents. Take from that the cost of production, and a net profit per sack is reduced to somewhere in the 30-cent range. That profit, times the field yield, is not enough to justify everything the farmer has had to do to produce the onions.

The onions were bought in sets, hand planted, fertilized, watered, weeded, and hand harvested. That all costs money. Production cost alone was about \$16,000 for the Fords.

Over all of that, they had no assurance that they could ever sell one onion after all the work and risk had been expended.

Blakley Story Is Typically Texan

The typical American story is of the poor boy who made good through his own efforts. This is the story of Bill Blakley, born in a covered wagon while his parents were on their way to homestead in Oklahoma territory. He has come a long way in 59 years. Said the *Austin American-Statesman*, when William A. Blakley announced for the Senate:

"He was a top-hand cowboy; he was a crackerjack bank clerk; he was an exceptionally good accountant and lawyer. We have an idea that he is going to be a refreshing, able political candidate. He would make a great United States Senator."

Vote for Bill Blakley on July 26 — an able man whose only ambition is to serve all of Texas.

Although it has become practice for the "dummy" to lay down his trump suit before the first lead has been made in a bridge game, the rules of Contract Bridge clearly state: "The opening lead is made by the player on the declarer's left. Then (and only then) the declarer's partner spreads his hand."
