VOLUME 23. NO. 1

GRAPELAND, HOUSTON COUNTY, TEXAS, THURSDAY, March 4 1920

PRICE \$1.50 PER YEAR

Local Firm Makes Big Shipment of Eggs to Jacksonville

We can tell the world that Grapeland is the biggest thing on the map when it comes to shipping hogs, cattle, peas, peanuts, chickens and eggs—especially eggs.

We have smashed another record in egg shipments, and when we smash a record previously made we have done something to brag about.

The largest local consignment of eggs ever shipped out of here was made by S. T. Anthony last Saturday, consigned to the White Produce Co. at Jacksonville.

The shipment consisted of 151 cases of 30 dozen to the case, making a total of 4530 dozen. The price paid for these eggs was 35c per dozen, making a total amount of \$1585.50 paid to the farmers throughout this section for a week's run. We claim it is some eggs!

Plenty of Club House Corn, English Peas, Tomatoes and Snap Beans at—

Kennedy Bros.

Mrs. C. E. Lively returned Monday from Houston where she had been to visit her son and wife, Mr. and Mrs. Aubrey Lively. She reported that Mrs. Lively was some better, she having been real sick with pneumonia.

New Head of Vet Home is Installed

Austin, March 1.—Judge Edwin Winfree of Houston County assumed charge today of the Confedate Home, succeeding Dr. J. C. Loggins, resigned. Judge Winfree was a member of the Thirty-sixth Legislature, and for eighteen years prior to that time was county judge of his county. He fought under General Gordon and was of the last of the 7,892 Confederate soldiers to surrender on April 8, 1865, that day being also the twenty-first anniversary of his nativity.

Every sack of that good La France flour you buy from us is backed up by our "satisfaction or money back" guarantee.

Kennedy Bros.

W. E. Keeland, George, Shaver J. B. Woodside and J. W. Howard returned Tuesday afternoon from Troup, Jacksonville and Palestine, when they went to inspect the sweet potato plants in those places with a view of getting some information to use in the construction of a plant in Grapeland. They were encouraged over what they saw and learned and are more convinced than ever that Grapeland should have such a plant in time to care for this year's crop.

Plenty of cotter keys, lock washers, Ford switch keys, timer wires and radiator cement at—

Kennedy Bros.

Darsey always tops the produce market.

New improved Ford timers. Ask about them at—

Edwards Don't Like 'em

Sam H. Dixon writes us a letter from Houston and mails it at Austin advising us that he has thrown his hat into the ring as a candidate for Commissioner of Agriculture—and along with it he sends a long "platform of his principles" that would require \$23.00 worth of our space if published. Sam used to walk on high stilts in these parts. He alleges that he is a newspaper man. Neither of these things cut any ice with The Banner. Our estimate of the aforesaid candidate is that he is a failure and not as well qualified for the job he is asking the voters to give him as a Digger Indian is to teach Greek in Harvard University.

And Geo. B. Terrell of Alto is another prospective or imaginary candidate for the office of Commissioner of Agriculture. Our estimate of him is that he is also a petered out politician. His past political experience, which has been more or less varied, probably qualifies him for the position of road overseer, down in Possum Hollow, but for nothing higher. We are agin him also. He is great on the political game and it is due to the monkey-business of such as he and Sam H. Dixon in the State Department of Agriculture that there is such a demand amongst the intelligent people of Texas for the wiping out of that department.—Henry Edwards, in Troup Banner.

Want Your Hogs

I want to buy a few hogs next Tuesday, March 9. Am going to ship that day and lack a few of having a car load. Only want well finished hogs, 200 pounds up. See me at Kennedy's store Saturday evening.

Joe Bailey's chances to be governor are fine—just like an oyster at a church supper.

Wool is said to be short, but there seems to be enough of it for pulling over the eyes of the people by the politicians.

Joe Bailey makes such a loud noise that he can't hear anything else, and so imagines that he is a leader of men.

One thing that has thrown the world out of joint is that we jazz and shimmy too much, when we ought to be Hooverizing.

Advertising is the lighthouse that keeps the business house from being wrecked on the rocks of failure.

"Don't eat too much," advises one of our able doctors. That is good advice, alright, but there is not a chance in the wide world for us to disregard it.

Uncle Sam believes in advertising, but he wants a great deal of it for nothing and much valuable paper could be saved if about a thousand of the publicity agents in Washington were fired.

That we should all go in heavy on the production line is a self-evident fact, but it is possible to over do even that. One patriotic young mother has just brought forth four babies at one time. It is hoped it will not become contagious or epidemic.

Grapeland needs many things to put it to the front as town of the firstclass and we believe our citizens are waking up to this fact and great things will be accomplished in the future. Watch Grapeland's smoke in this good year of 1920.

The Messenger gets a whole armful of mail each day from all over the country, from this bureau and that, that goes right into the wastebasket unopened. A great part of it is from people or organizations who want free advertising for their schemes, out of which they are making, or expect to make, money. It is wonderful how many people there are who have the opinion that the world is full of suckers.
