Mother's Club to Buy Shades For the School Building

The Mother's Club has undertaken the task of buying window shades for the school building, and it's going to be a pretty big job.

They were quite successful with their "hen" party last Friday afternoon receiving 124 hens, which were donated by the patrons of the school and others. They were shipped to a produce firm in Houston and they expect to realize about \$75.00 from their sale.

Jas. O. Ritchey Post, American Legion, gave the club ten dollars. Not to be outdone, the Ku Klux Klan matched the American Legion. Superintendent Boone received the ten dollars Sunday, which was sent him by the Klan in a special delivery letter, and requested him to apply it to the Mother's Club shade fund. It was gladly received—there was no quibbling as to whether or not they would accept it. The Klan's letter was written on plain paper, and bore the official seal, "Grapeland Klan No. 23, Realm of Texas, Knights of the Ku Klux Klan."

The club will present a play in the near future.

Potato Growers Meeting

The potato growers met last Saturday and elected J. E. Hollingsworth chairman. While only a few were present, 27 acres were pledged. This could and should be made 100 acres. Will meet again Saturday at 2 o'clock p. m., November 5.

The time is short. Don't let the opportunity pass. Go to one of the banks and get a copy of the book on growing and marketing sweet potatoes, and follow its instructions. Get your seed now and prepare your land this month

Masonic Lodge Pledges Fund To Washington Memorial

The masons of the United States are going to erect a suitable memorial to the memory of George Washington in the form of a magnificent building to be located near Washington, D. C.

At a recent meeting of the Grapeland Lodge, the membership pledged one dollar per member to this fund. There are approximately 105 members of Grapeland Lodge.

All masonic bodies in the United States will be asked to contribute to this fund.

In his day and time, Washington was a most zealous mason, as well as soldier and statesman.

Boy Scout News

Our troop of boy scouts is trying to install a library in their club rooms and have already gotten about eighty good books.

We want to ask the mothers and fathers of Grapeland to donate any kind of book that you have that will be good, safe reading for our boys and girls, and we will give three months library service for each book given. Any of the following will be accepted: Book of Adventure, Histories, Fiction, Boy Scout and Camp Fire Girls series, Books of Fables, Ancient Histories, Books of Myth, Classics, New and Old Testaments. We need a good Bible. Any good book will be accepted and we will have scouts to call at your home one day this week for any book you have to give.

Keep in Touch With Your Old Home Town

If everyone born and reared in this town had remained here to make his permanent home, we should be a town of many hundreds more population than we now number.

On the other hand, cities and towns elsewhere that have attracted our youth would never have been founded, perhaps, and America would remain as it was in pioneer days, a great continent with a few scattered cities, all too large, all over-congested.

But the opportunity that calls men away from their native home keeps the great movement alive, with the result that practically every corner of the country has in it a representative of Grapeland.

However, the home town always has its interest for the people who heeded the call to go elsewhere, and news of its progress and the doings of its people is welcome news to the native and former resident, wherever he may now be located. Correspondence, however faithful, cannot cover all the news and gossip, and seldom deals with more than family affairs. The perfect medium, of course, is the home town newspaper, which prints all the news of all the people. Some of these items, while of limited interest to you, might be of great interest to one away from home.

There is now a nation-wide movement on foot, sponsored by the National Editorial Association

Colored People Ask Help to Complete School Building

Some time ago the colored people of the Reynard School District started in to build a school house by private subscription and succeeded in getting enough money to put up the building and cover it, but on account of short crops they find they are unable to complete it, and they are asking the white people to help them finish it.

They need doors, windows, and other material to make the house fit for school purposes during the cold winter months.

Tom Kent, P. L. Fulgham and Herman Beazley are the trustees of this school, who will receive your donation, or if you prefer bring it to the Messenger office and we will forward it to them. Any amount will be greatly appreciated.

tion and other agencies, in which this paper is taking part, looking to a stimulation of interest in the Home Town Paper.

The Messenger is participating in this movement, and in order to help it along, we have a few extra copies this week which we will give to any subscriber who will send it to some friend out of town. This extra copy is free for the asking by writing or calling at the office. Or if preferred we will send it to such former resident as you may indicate.

Your Home Town Paper What it Can Do for You

First of all, it can bring to you the NEWS of your own home town. Week after week, it prints in detail the happenings of the community. Faithfully it sets forth the goings and comings of its people, giving careful attention to the homely little items that are ignored in the overcrowded dailies of the big cities.

It can furnish you with more interesting information about people you know, or used to know, than could a dozen private correspondents. The one who writes to you may know only a few of your friends at home—but your Home Town Paper knows them all. It tells you about people you are interested in.

Finally, in a good, hard business sense, your Home Town Paper is of value to you. It keeps you posted as to the industrial and commercial growth of a community which familiarity may have caused you to neglect. It often reveals that keen people see, right in your home town, a mine of golden opportunity. The moral is obvious—

Hiding the Guns

Several years ago the world was astonished at the invention of a "noiseless" gun. Now U.S. Army experts have succeeded in making a "flashless" gun-powder. With smokeless powder, which is now in general use, it will be possible to conceal the location of a battery of guns, even when fired at night.

Think Moon Supports Life

Is there life on the moon? Professor William Henry Pickering of Harvard University thinks he has proven beyond a doubt that there is. He has taken a series of photographs of the summit of a volcano through a large telescope. The photographs were taken at Mandeville, on the island of Jamaica. They seem to show that there are great fields of vegetable life on the moon's surface. This vegetable life springs up with unbelievable rapidity and dies again within eleven days. It does not necessarily mean that there are any intelligent beings there, or even animal life of any kind. But the Professor thinks that if the moon's surface can support vegetable life, it might also support animal life. The moon's surface is believed to be very cold. Professor Pickering saw traces of great snowstorms.

The fellow that is run over don't care what make of a car it was.

To build roads of any kind without provision for maintenance is an inexcusable waste of money. No set of officials and no set of voters should approve any plan for spending money in building a road unless just as definite a plan for maintenance is presented at the same time. Taxpayers everywhere should insist on this.—Progressive Farmer.

TRINITY RIVER RIPPLES

Reynard, Oct. 24.—We feel safe in saying that fifteen or twenty cars passed through here yesterday enroute to the river to gather pecans. Mr. West says that he has been living on the river twenty-two years and has not seen the like before. Pretty weather and some where to go must be the cause.

Our Sunday school superintendent has struck and next Sunday we are going to meet and elect a new one, so if you live here you ought to be on hand and have a vote.

Tom Clinton and his partner, Mr. Doucette, were in our midst yesterday, guests at the West home. Mr. and Mrs. Herman Beazley were also guests at the same place.

Mrs. J. H. Beazley, Misses Gertrude and Maude Fulgham and Glenn Beazley were guests at W. C. Lasiter's Sunday.

Mr. and Mrs. W. L. Fox visited Mrs. G. W. Allen Sunday.

Tom Kent and O. M. Rials, with their families, spent yesterday on the river mixing with the pecans.

Mr. and Mrs. West did not go to the fair as reported, and the new baby is not named as reported but Mina Ruth instead.

R. H. Huff spent Friday night with J. L. Chiles.

Syrup making and the saw mill are the two principal industries in our community just now. Both can get all the labor they want.

Manufactures Tripled

This country manufactured goods in 1920 worth 63 billion dollars. This figure is contained in a report just made by the U. S. Census Bureau. The amount is three times as great as the value of manufactures in 1910 and five and one-half times the output in 1900. Beginning as an almost purely agricultural country, the United States has become a great industrial nation.

NEW PROSPECT NEWS

New Prospect, Oct. 24.—Everything is moving smoothly with us at this time. Crops are all gathered and pecan hunting is the order of the day. Some come home with a nice pile of pecans, while others get very few.

Our school is progressing nicely and we hear words of praise for all our teachers.

Mrs. Jack Baker has been quite ill since our last report, but is improving some.

Earl Musick has been on the sick list several days.

A. R. Baker, Sim Finch and Alton Baker are at Alto working with the syrup makers.

L. A. Finch and Arthur Brooks of Alto were here last Wednesday.

Walter Caskey slipped away to Slocum last Tuesday where he was married to Mrs. Rodgers. He put one by us, but we will not think hard of him about it but wish them both a happy and prosperous future.

A. E. Parker had the misfortune to lose his barn by fire last Saturday morning about daylight. No one could tell how the fire originated, as it was burning when the family awoke. All contents were lost except a few bushels of corn.

Alva Caskey and wife, who recently went to Hunt county to seek a new home, returned more than a week ago. It didn't take very long for them to decide the sand with all its drawbacks was a very good place.

Mrs. Thelma Collier from near Palestine visited her parents, Mr. and Mrs. N. J. Campbell, several days last week.

Miss Ruth Lawson visited her parents at Lovelady Saturday and Sunday.

Mr. and Mrs. Jim Musick are rejoicing over the arrival at their home of a pretty girl baby.

Mrs. George E. Darsey returned Saturday from Paris, where she visited her daughter, Mrs. Leon Anderson.

NOTICE BY PUBLICATION

THE STATE OF TEXAS
County of Houston

In Probate Court

To the Sheriff or any Constable of Houston County, Greeting:

You are hereby commanded to cause to be published in the Grapeland Messenger, a newspaper of general circulation published in said county, at least once a week for twenty consecutive days before the return day hereof, the following notice:

THE STATE OF TEXAS

To all persons interested in Estate of J. B. Luker, deceased, that whereas, A. H. Luker, Administrator of said Estate, has this day filed his application to sell said estate's undivided one-half interest in a tract of 192 acres of land situated in Cherokee County, Texas, which said proceeding will be heard by said Court on the 7th day of November, 1921, at the Court House of said County, in Crockett, at which time all persons interested in said Estate are required to appear and answer said proceeding, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Crockett, Texas, this 11th day of October, 1921.

W. D. Collins,

Clerk, County Court, Houston County, Texas.

THURSDAY, OCT. 27, 1921

Any job, when it is well done, nearly always pays a dividend.

The employment conference failed to take up the cases of the ex-democratic postmasters.

Incompatibility is given as the cause of most divorces, but we guess income inability figures some, too.

It is generally conceded now that the most difficult mathematical problem of the day is trying to make both ends meet.

The per capita tax in 1920 was \$53.46, being \$1.04 more than the per capita amount of money in circulation. That's one thing the matter with the country.

Col. Billie Mayfield, in his great weekly, has started a reform movement to make the girls lower their skirts. What's the matter, Colonel? Don't they reach from top to bottom?

Scientists tell us that life is the "superficial phenomena of arrested radiation upon the outer crust of a cooling nebula." No wonder the cost of living is so high!

The postoffice department has discovered that thousands of letters never have been delivered because they were not emptied out of the mail bags put aside for repairs. But the monthly bills come around with uninterrupted regularity.

If we were all like the old farmer in the hill section of Vermont, the railroad strike would not worry us very much. This old codger was found on an isolated rocky farm and had not heard of the war with Germany, and had never heard of a Ford car.

Notwithstanding the unemployment of thousands, statistics show that more young people have entered college this fall than ever before. The banks of the country report a steady growth in saving accounts, so we are bound to pull through readjustment safely, in spite of high living costs and abnormal taxation.

One thing learned by the

"It Takes Leather to Stand Weather"

unemployment conference held at Washington was that the figures show that the unemployment is not nearly so bad as has been reported. The total number of unemployed persons they found was two million less than the estimates and finally fixed at four million, which, of course, includes thousands who are habitually unemployed all their lives from too much riches or too much cussedness. This, in a population of 110,000,000 people, is not considered bad under present industrial conditions.

Up in Missouri there is a Durham bull valued at \$7000 and during a recent hot spell of weather three men were employed to fan the brute. There are

plenty of ways to knock out unemployment, and there'll be no such thing if people will use their wits a little. Why not every man own a fine bull and hire men to fan the animal? Fanning the bull is more useful employment than agitating the warm air.—Honey Grove Signal.

No Mercy For The Quitter

Advertising, Mr. Merchant, is just like making love to your girl. The time is always right

NOW—before the other fellow beats you to it. And you can't afford to quit even for a little while, because in that little while somebody with more enterprise and nerve will come along and get your girl away from you—or your trade. Advertising and love-making are two games in which there is no mercy for the quitter.—Howard (Kans.) Courant.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

THE MESSENGER'S AMERICANIZATION SERIES

History of the American Flag

Every country has one or more symbols that represent the principles and ideals of its government. The most familiar symbol of a nation is its flag. The flag stands for the nation itself. When we uphold and honor our country's flag, therefore, we are supporting our country itself and all that it means to us. There is more meaning than we sometimes realize in the slogan, "Rally round the Flag."

There were several different flags in Colonial times, but the first real American flag had its origin in the following resolution adopted by the American Congress, June 14, 1777: "Resolved, That the flag of the thirteen United States be thirteen stripes alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation."

According to the story, a rough pencil drawing, made by Washington himself, was taken to Mrs. Betsy Ross, who kept an upholster's shop in Philadelphia. "Can you make a flag after this design," she was asked. Her answer was, "I don't know, but I'll try." She did try, stitching the seams of every stripe and sewing in the stars in a circle, and this was our first real national flag. No wonder that an association has been

formed to buy and keep for patriotic purposes, the home in which was made, by the hands of Betsy Ross, the first real American flag.

Although there has been no material change in the flag as originally designed, its present form was adopted only about one hundred years ago. It was first planned; you will recall, for the thirteen original states. As other states were admitted to the Union, a stripe and a star were added to the flag. This plan was continued well into the first quarter of the nineteenth century and until the flag had twenty stripes and stars. It was then seen that if a stripe and a star were added for each new state, it would be necessary to increase the size of the flag indefinitely. So on April 4, 1819, Congress enacted:

"That from and after the fourth day of July next, the flag of the United States be thirteen horizontal stripes, alternate red and white; that the union have twenty stars, white in a blue field; that on the admission of every new state in the Union, one star be added to the union of the flag, and that such addition shall take effect on the fourth of July next succeeding such admission."

And thus on July 4, 1819, our flag took the permanent form as

we have it to-day. The thirteen red and white stripes and the white constellation of states in the sky-blue field have inspired and guided and protected this great Republic of ours during the past century of our wonderful history, and with our loyal support the flag shall guide and protect America for another century—and another—and for aye!

LIBERTY HILL LOCALS

Liberty Hill, Oct. 24.—The ladies of the Aid Society met at the home of Mrs. J. B. Young last Wednesday and quilted two quilts, which will be sold for the benefit of the church. Each of the many ladies present brought a dish of something good to eat. The dinner and day was very much enjoyed by all.

Quite a number from this place attended church at Augusta Saturday and Sunday.

The people of this community are glad to have with them Mr. Casey and family, who recently moved here from Crockett.

Mr. and Mrs. Walter Twilley, who have been visiting the latter's parents, Mr. and Mrs. Bill Morris, have gone to Colorado.

Miss Tommie Holcomb, who is attending school in Crockett, spent the week end at home.

Misses Cordie Holcomb and Emma Moore, who are teaching at Hickory Grove, came home this week end.

Jim Holcomb and Miss Ruby Young of Alto visited home folk Sunday.

Miss Alfa Barnes left today

for Nacogdoches to attend school.

Mack McLeod has returned from Dallas where he attended the fair.

Bernard Avera, who is attending school in Crockett, is visiting home folk.

Mrs. Jonnie Moore is on the sick list this week.

The quarterly conference elected Jim Rush, as old Sunday school worker, as superintendent. We hope the people will turn out well and encourage him to do his best.

Mr. Casey, the agricultural teacher, has organized a tomato club and twelve acres were pledged at the first meeting. Willie Wilson was elected president, L. A. Avera vice-president, and Mr. Casey secretary. We hope to make a go of the new enterprise.

L. A. Avera is building an eight hundred bushel capacity potato kiln. We hope his efforts in this line will be a success.

An Old Citizen Passes

Mr. John S. Brown Sr. died at his home a few miles east of Grapeland Monday night, October 24, 1921, his age being a few months past 84 years. His remains were laid to rest Tuesday afternoon in the Refuge cemetery, Rev. J. F. Lively of this city conducting the services.

Mr. Brown was born within one mile of where he died and where he lived his entire life. His birthplace is known as old Fort Brown. When the Indians made their raid on Fort Parker and captured the now famous Cynthia Ann Parker, the Brown's, together with others occupying Ft. Brown, fearing for their lives, went to the fort at Nacogdoches, remaining there until it was safe for them to return.

Mr. Brown was an ex-confederate soldier, serving three years with credit in the army of the lost cause.

He was a member of the Presbyterian church, and was a devout Christian gentleman. He lived a just and upright life before God and man, and it is said that he never had a case in court and was never called as a witness

in any trial. He lived a useful, unselfish life, and the influence for good he set in motion will live down the ages.

An Amazing Secret About Tooth Paste at Last Disclosed

A recent scientific investigation reveals the surprising fact that many tooth pastes and powder, instead of helping the gums and teeth, often do them serious harm.

This is because the abrasive substances contained in tooth pastes gradually wear tiny crevices in the teeth, where decay germs quickly enter. This gritty substance also tears the membranes of the gums where germs of pyorrhea and other dangerous mouth diseases quickly gain foothold.

The ideal dentifrice it is found, is a thoroughly antiseptic liquid mouth wash such as Steroline. This cleanses all the hidden spots that tooth pastes and powder never reach, and acts as a real preventive of the many diseases contracted through the mouth. Steroline keeps the mouth cool, sweet and fresh, heals raw and bleeding gums and quickly helps to overcome bad breath. Get a bottle from your druggist today. For sale by Smith & Ryan, Druggist's.
