John Spence Honored by Crockett Masonic Lodge

Crockett, Texas, Aug. 8.—At the meeting of Lothrop Lodge No. 21, A. F. & A. M., held in this city Tuesday night, August 1, Judge John Spence was made a life member and exempted from the further payment of all dues. Judge Spence has been a member of this lodge for thirty-one years, and among the members of the fraternity is familiarly called "old faithful," never having been known to fail to respond to a call for his services in case of the sickness or death of a brother mason, whether a member of his own lodge, or that of another.

District Manager Visits Local Woodmen Circle

Mrs. Siddle Stevenson of Groveton, spent several days here last week visiting and working among the members of this Grove, and soliciting new members. She acted as Guardian at our regular meeting Friday afternoon, and made a splendid talk for the good of the order.

The Grove also met Saturday afternoon, when Mrs. Stevenson gave the membership a great deal of instruction relative to the benefits, new rates, etc.

She spent some time drilling the members in the secret work. Her work was greatly appreciated by all present. After the business session was closed refreshments were served.

Mrs. Stevenson planned to visit Augusta Grove the following Monday, but was called home. She expects to visit us again in a short time and will visit Augusta Grove at that time.

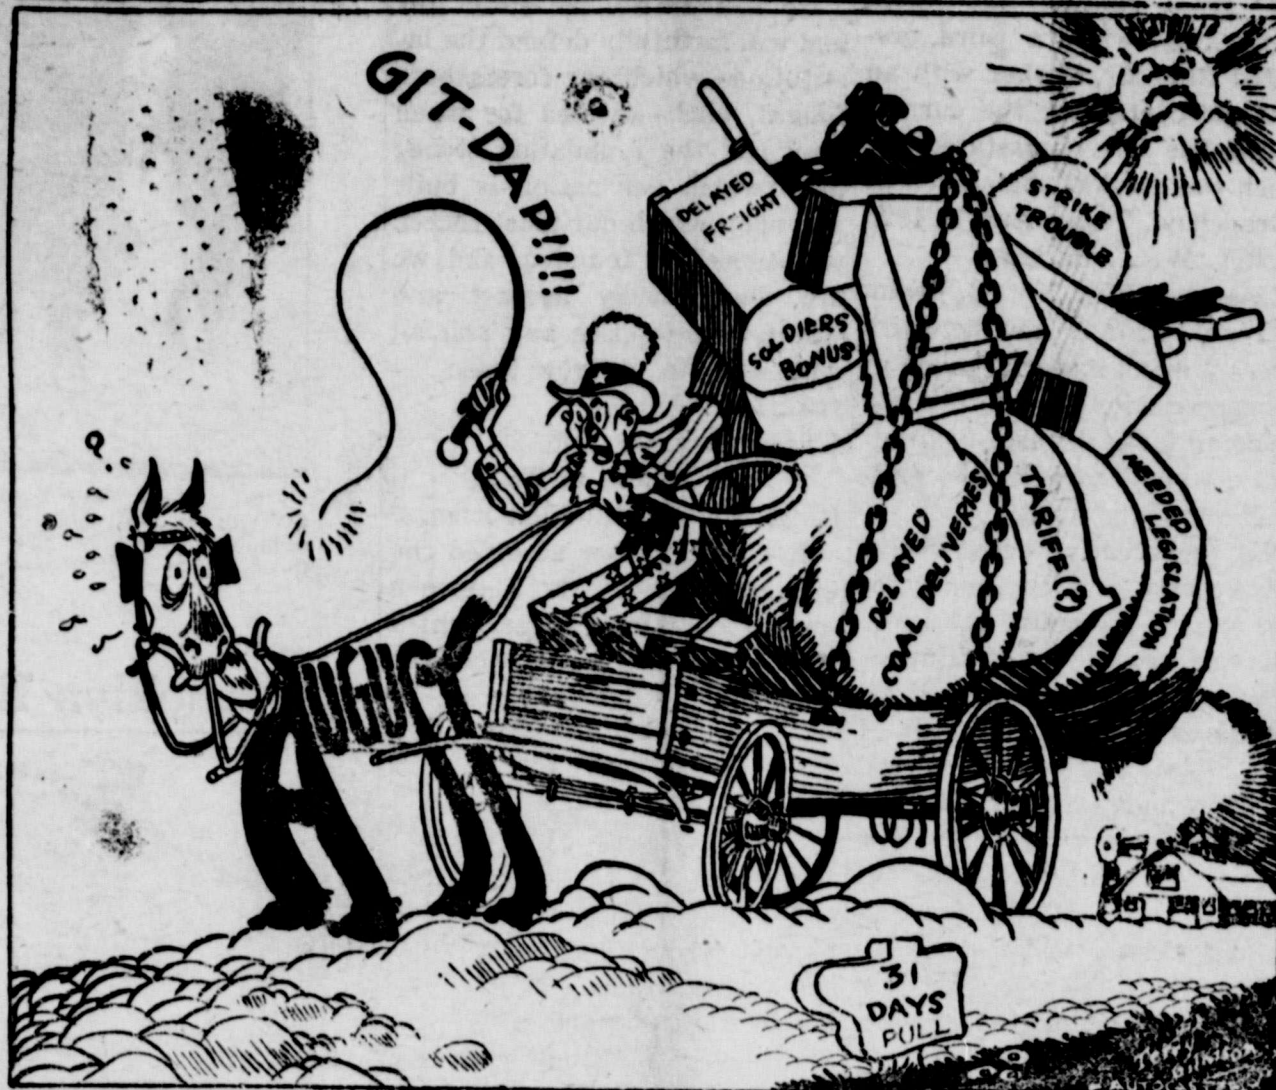

Mrs. Mattie Parker,
Guardian.

Names Omitted

From the list of delegates to the State Democratic Convention published last week the names of F. H. Bayne and A. G. Bray were inadvertently omitted by the secretary, Capt. N. H. Phillips, who asks that we publish the correction.

It was brought in by Tom Beazley, a colored tenant on Richard Pennington's farm.

The cotton was ginned by Herod & Leaverton, weighed 590 pounds and brought 21 1-2c per pound.

Mrs. George Brailsford is Killed in Auto Accident

Athens, Texas, Aug. 4.—Mrs. George Brailsford, formerly of Dallas, but who has been residing in Crockett, was so seriously injured in an automobile accident here this morning that she died shortly after noon today.

Crockett, Texas, Aug. 4.—Mrs. George Brailsford, who was fatally injured in an automobile accident near Athens this morning, was a resident of Latexo, six miles north of Crockett. Mrs. Brailsford and daughter, Mrs. Robert Allen, and children, left Crockett at an early hour for a visit to Dallas. She was prominent in this city in lodge and social circles, being a prominent member of the Eastern Star.

She was a candidate in the recent primary for county treasurer. Funeral services will be held in Dallas, her former home.

A Blessing

The following card of thanks recently appeared in a Kansas paper: "I wish to thank the city authorities for quarantining my family and me for three weeks recently because one of them had the smallpox. During that time my wife caught up with her sewing; we had three square meals a day, as no one came in and she was not permitted to leave; we enjoyed three weeks of good night's sleep; and best of all a cousin with four children had arranged to visit us, saw the small-pox sign on the door, and left town so scared she will never come back again. So for these and other blessings we are very thankful for the quarantine."

Klansmen Visit Church Last Sunday Morning

Nine men garbed in the regalia of the Knights of the Ku Klux Klan entered the Baptist church Sunday morning just before the pastor announced his text and presented Rev. W. A. Parker with \$50 in currency.

One klansman carried the fiery cross, another the United States flag, while a third presented Rev. Mr. Parker with an envelope containing the currency and the following statement, which was read to the audience: Grapeland, Texas, Aug. 6, 1922 To Rev. W. A. Parker:

Lone Star Klan No. 23, Realm of Texas, tenders you herewith \$50 as a small material token of our appreciation of the work you are doing for the cause of Christianity, which embodies the principles we stand for.

We reverently acknowledge the majesty and supremacy of God and we recognize the goodness and providence of Him.

We stand for an unqualified allegiance to the government of the United States of America, its flag and the Constitution. We unequivocally endorse the laws of the United States of America and of the several states and we stand for the enforcement of the same by duly constituted authorities and by them alone.

We avow the distinction between the races of mankind as same has been decreed by the Creator and will ever be true in the faithful maintenance of white supremacy, and will strenuously oppose any compromise thereof in any and all things.

We believe in the sanctity of the home and in the purity of womanhood, and are willing to lay down our lives for the protection of the same.

We believe in the Christian religion, and we believe in the government of the United States of America, to which govern-

ment we have pledged allegiance and we will pledge allegiance to no other.

We favor our free school system and will vigorously oppose any encroachment thereon.

We oppose the union of church and state.

We are opposed to mob violence.

We are opposed to law breaking in all forms.

To summarize, we stand for and will faithfully defend the institutions which our forefathers fought, bled and died for when they laid the foundation stones upon which our nation is built and upon which our most sacred traditions are founded, and we are unqualifiedly against and will forever oppose any and all who seek to destroy these institutions.

Lone Star Klan No. 23, Realm of Texas, Knights of the Ku Klux Klan.

Rev. Mr. Parker accepted the gift and thanked the klansmen for the donation, after which they silently departed and left town via the Crockett road.

Hubby—When I married you I thought you were an angel.

Wife—I inferred as much. From the very first you seemed to think I could get along without clothes.—Chicago Ledger.

Singleton—What makes your baby cry so much?

Youngpop—The poor little fellow is cutting a tooth.

"Huh! Only a tooth? It sounds as though he might be cutting his whole head off.—London Answer.

"I am told," said the caller "that your husband is engaged on a work of profane history."

"Yes," replied the author's wife, "certainly sounded that way when I heard him correcting the proofs."—Washington Star.

"When I looked out the window, Johnny, I was glad to see you playing marbles with Billy Simpkins."

"We wuzn't playing marbles, ma. We just had a fight, and I was helping him pick up his teeth."—Judge.

"Mary," said the young man, "you know I have always turned to you; that I have always thought of you. May I—that is oh, will you be my wife?"

"What a scare you gave me, George," she said. "I thought from your manner that you were going to ask me to lend you some money."

Teddy—You haven't any whiskers or very much hair.

Teddy—Oh, I was only wondering how pa was going to manage it.

Sister's Hero—Manage what?

THE MESSENGER'S AMERICANIZATION SERIES

AMERICAN CITIZENSHIP

We have indulged in gratifying recollections of the past, in the prosperity and pleasures of the present, and in high hopes for the future. But let us remember that we have duties and obligations to perform corresponding to the blessings which we enjoy. Let us remember the trust, the sacred trust, attaching to the rich inheritance which we have received from our fathers. Let us feel our personal responsibility to the full extent of our power and influence, for the preservation of the principles of civil and religious liberty. And let us remember that it is only religion and morals, and knowledge, that can make men respectable and happy, under any form of government. Let us hold fast the great truth, that communities are responsible as well as individuals; that no government is respectable which is not just; that without unspotted purity of public faith, without sacred public principle, and honor, no mere forms of

government, no machinery of laws, can give dignity to political society. In our day and generation, let us seek to raise and improve the moral sentiment, so that we may look, not for a degraded, but for an elevated and improved future. And when both we and our children shall have been consigned to the house appointed for all living, may love of country, and pride of country, glow with equal fervor among those to whom our names and our blood shall have descended.

And then, when honored and decrepit age shall lean against the base of this monument, and troops of ingenuous youth shall be gathered around it, and when the one shall speak to the other of its objects, the purposes of its construction, and the great and glorious events with which it is connected, then shall rise from every youthful breast the ejaculation, "Thank God, I—I also—am an American"—Daniel Webster.

Progress in Prosperity

Tried by all the time-honored tests such as bank clearings, iron and steel production, postal receipts and the movement of freight, the country is in the bend in a business way. As President Harding would express it, sensible progress is being made toward normalcy. To these signs of the time there now comes the addition of a generally favorable government crop report, and particularly as to the major crops of wheat and corn, with cotton promising better than last year.

Industrial disturbances are more widespread and serious than usual, but they have not been able as yet to stay this upward and broadening march of recovery from the after-war depression, and they have a way of subsiding when they appear to be most hopeless of composition.

The providence which is said to have special care for drunken

men and little children and the United States evidently continues to be on guard in spite of all our efforts to dislodge it. In spite of turmoil and discouragement abroad, which must delay complete recovery, we see at home a grateful progress in prosperity.—New York World.

Working Together

The needle has but one eye and the thread was weak, but the two, working together rendered a great service for the man who needed a button.

This little story shows what may be done by co-operation.

Few of us have the power to do great things, but if we pool our resources, if we work together, we may do anything we decide to do. Ever think about this?—Logansport Progress.

A diplomat is the man who picks up the beans another man has spilled.—Ex.

"I heard of Cardui and decided to use it," continues Mrs. Simpson. "I saw shortly it was benefiting me, so I kept it up and it did wonders for me. And since then I have been glad to praise Cardui. It is the best woman's tonic made." Weak women need a tonic. Thousands and thousands, like Mrs. Simpson, have found Cardui of benefit to them. Try Cardui for your trouble.

**Houston County Club
on Superintendents Race**

Because of an erroneous report having been circulated in Houston county regarding our attitude toward the County Superintendent's race we teachers of Houston county composing the "Houston County Club," in the Sam Houston State Normal contribute the following resolutions, which were passed unanimously at our last meeting:

1 Resolved, that since we are in closer touch with the county schools and country children than is any other element of our citizenship we are in position to know for sure what ought to be the attitude of those officers administering the affairs of those schools. Since we are intimately acquainted with and related to the country schools of our county we can choose intelligently and fearlessly and respectfully in recommending our leadership.

2 Resolved that we commend the candidates for county superintendent in their recent race for their genuine personal pride and professional ethics, and that we bitterly censure those who should not have been seriously interested for attempting to inject bitterness into it. We urge the two candidates who engage in the second primary devote themselves to that high degree of courtesy which has characterized them up to this time.

3 Resolved, that the country school business of our county is the biggest and most vital agency in the country for good or for bad, and that inexperienced, unqualified or doubtful leadership at this time would be extremely venturesome, expensive and dangerous.

4 Resolved that the independent districts in our county are composed of intelligent people and who, as a whole, are interested in education and scholastic prosperity, and that we commend them for their wisdom in choosing their superintendents, but who, we believe, may not get always the rural view point of the situation and that many of them may, out of human sympathy and personal preferences or for either undue reasons, exercise an unsafe influence in choosing our superintendent.

5 Resolved, that we stand for executive skill, firmness and honesty as opposed to official vacillation, brilliant sociability and petty politics. We stand for an open, correct and direct interpretation of duty and the proper application of law because any other attitude is dangerous to real educational advancement of our country schools and people.

6 Resolved that we stand for growth and for the brighter outlook which we hope will come to Texas and to our county and that we solicit all good people to scholastic optimism and pride.

7 Resolved that we unqualifiedly endorse the administration of our present county superintendent. We are prepared to say that he has been our fearless leader and our reliable counselor and trustworthy friend. He has at all times looked through and beyond us to the genuine interest of the children whom we have taught and has never hesitated or dodged any issue wherein the child's welfare was involved. He has been always courteous without being profuse and has always advised without leaving us in

doubt as to how to interpret his advice.

8 Resolved that the adverse criticism of him has not come from his professional attitudes which have been the most genuinely honest motives and honest efforts. We desire business methods in a business and we know that this desire has been met in our present leader.

9 Resolved that we have a high regard and supreme sympathy and respect for any other aspirant to the county superintendency of our county but that we respectfully and emphatically endorse the candidacy of Mr. Rosser as being better qualified by far in every essential respect for the arduous duties than any available candidate.

10 Resolved, that these unsolicited resolutions issue from a genuinely respectful and honest motive. We are not politicians but we desire real scholastic leadership, politics or no politics. (Political advertisement contributed by rural teachers.)

Of First Importance

Letters and expressions of sympathy to persons in sorrow always bring strength and comfort to those who receive them. A genuine heartfelt message of sympathy comes to the soul as a ray of sunshine on a cloudy day. Such a message was contained recently in a letter written to one whose mother had been called to the heavenly home. In this letter a profound truth was expressed that may encourage fathers and mothers who are trying to rear their children in the way of righteousness. The writer of the letter condensed much of vital truth in the following question: "Isn't it a wonderful thing to have the memory of a mother or a father who considered it of first importance to train one in the simple way of truth and righteousness rather than the memory of parents whose influence was for self-indulgence and social position?" How are you training your children?

When you feel dull, achey and sleepy and want to stretch frequently, you are ripe for an attack of malaria. Take Herbine at once. It cures malaria and chills and puts the system in order. Price, 60c. Sold by Smith & Ryan.

WHO OWNS THE AIR?

An interesting phase of aviation has developed in the action of a farmer in Pennsylvania, who sued two aviators for trespassing on his farm.

The fliers were fined one dollar each by a justice of the peace and upon appeal to the county court the decision of the justice was reversed.

It is not known whether the farmer will carry the case to the higher courts, but if he is not disposed to appeal the case, others should be interested in getting a decision on who owns the air.

Is there any height to which an aviator may go in flying over the property of others and not be adjudged guilty of trespassing? How far above the surface of his land does the farmer own?

The case involves a principle that should be decided by the federal supreme court, for it means a great deal to the future of aviation to know the extent of the rights of the aviators.

An Ohio city council has enacted an ordinance requiring aviators to fly high enough that chimneys may not be damaged by the airplanes.

Do aviators have rights in the air which they may not be required to secure from the owners of the property? Is the air as free as folks have been led to believe?

Editor Luker, of The Grapeland Messenger, passed through Trinity Sunday morning with his family and a party of friends en route to Galveston for a week. When the press gang gets to Galveston next summer for their annual jubilee we want all the boys to vote with us on Luker as "official pilot" for if he stays there all this week he will know every rope and just where it should be pulled.—Trinity Tribune.

When the bolsheviks speak of the "Russian heaven" they may not include the districts kept from starvation by the United States government and American organizations.

As a labor saving device the strike is a success, but it fills no pay envelopes.

Our country is able to win wars, but it has not learned how to maintain industrial peace.

Men will do a lot of things when they need money; some will even go out and work for it.

Many red radicals in the United States do not appreciate a country generous enough to let them live here.

Many a man would welcome having his taxes pared down, but he does not want anything like that done to his income.

It would be nice if capital and labor would settle their difficulties without calling in their neighbors.

Any wages these days that does not provide for the purchase and upkeep of a flivver will not be very popular.

Uncle John's Joke

TOO MANY PEOPLE THINK THE ROLL OF HONOR IS A BANK ROLL

W Punchettes W

It may be trite to say that farming is the most necessary and one of the most honorable occupations in the world. The world will always be indebted to the farmer.

THE FARMER'S BOY

Without him it would be impossible to progress in any line. The farmer has not always considered his position in the dignified way he should. In fact, it is only in recent years that he has been made to realize the scientific side of his work. Prior to that time he was really a trespasser on the soil, he was a robber, an ingrate. He scratched the soil; he mutilated it; he robbed it of its producing power. Any farmer who does not give back to the soil a proportionate part of that which he takes from it is an embezzler, not only of God's Providence, but also of Nature's bounty.

The farmer did not have the right attitude toward his own son. He worked him because he was his son. That was unfair and dishonest. He should have considered his son a partner and shareholder in the labors, responsibilities, liabilities, assets and profits of the farm. He

should have rendered an account to his son, paid him a just compensation, and given him an honest and equitable share in the profits of the farm.

The farmer has not always made the farm attractive to his son. You can't keep a boy at home if you give him a pine knot fire by which to read when the world offers him electric lights, a library, and a reading lamp. The farmer must bring the pleasures, amusements, books, magazines, and attractive things into his home and upon his own farm if he expects to keep his boy and make a great agriculturist out of him.

The parcel post, the rural mail delivery, the automobile, the paved

highway, and other conveniences, are for the purpose of enabling the farmer to bring the attractions of the world into his own little country home, into his own desolated farmhouse, and to his own fireside. If he will seize the opportunity, fill his table with magazines, papers, and good books, bring in the music box, and the wireless radio and thus make his home attractive, bright, cheerful magnetic, and fascinating, he will keep his boys and girls around him.

This is the day of the farm if the farmer will only realize it. This is the hour when the farm ought to be the most attractive spot in the country; this is the moment when the farmhouse ought to ring with music, and the barnyard ought to be the convention hall of agricultural and political activity. The farmer should make his son the leader in that convention and teach him how to mould public opinion and direct legislation.

Let the farmer learn how to be generous and kind to his children and to keep them in the atmosphere of agricultural purity, peace and prosperity.

Poem by UNCLE JOHN

This life we live is irksome, no matter where we be; the road is lined with boulders, an' breakers crown the sea. But we mustn't get discouraged an' declare that life's a cheat, for the prospecks ain't so cheerin' when a feller gets cold feet.

COLD FEET

The man that proves a winner, is the man that trims his sails, and steers his craft, unerrin' amid the storms or gales,—the hard knocks don't dismay him, which he squares his chin to meet, and his symptoms don't betray him—he never gets cold feet!

There ain't no road to glory, but what's beset with thorns, and it's purty hard to travel, if you're pestered some with corns. So, to make yer failure certain, wear yer pants out on the seat,—it's a sign that allers tells me that a feller's got cold feet. . . .

I like to greet the feller that can laugh at clouds an' cares—that squares hisself in trouble, with his fists as well as prayers. . . . One that earns a benediction, that is mighty soft an' sweet. He blessed the world he lived in, and — he never got cold feet!

For your own Uncle John.

HOMIEY PHILOSOPHY For 1922

If a man should put a pair of handcuffs on himself, lead himself to jail, lock the door an' throw away the key, we'd most likely drag him out of prison an' put him in a padded cell, but we don't do a thing to the bunch that's trying all the time to strip themselves of human rights as well as liberty. Now we are considering censorship of the movies—when we have right with us the only efficient censorship without any law—the censorship of the people. Moral conduct by royal command never has worked out. Let the people have what they want when they want it. Old Dame Nature will batter them into the line of decency. We wouldn't have steam heat today if our aboriginal ancestors hadn't been frozen into moral action.

State Normal College Organizes County Club

On July 14th, at the suggestion of Dr. Bruce, the students of the north Texas State normal college of Denton, met on the campus to form county clubs, the purpose of these clubs being to know the students of your own and surrounding counties, to keep in touch with home papers, and to enliven the school work by get together meetings, outings, and other entertainments.

The students of Houston, Anderson and Trinity counties with Mr. McDonald of Crockett acting as temporary chairman, organized, and elected J. M. Young of Grapeland president, and Miss Ruby McDonald of Montalba secretary. Reporters for the home papers were appointed by the president.

The three counties already mentioned have about eighteen representatives in the college, and though not many in number, it is "quality and not quantity" that counts.

With twenty-six hundred students enrolled for the summer school, representing almost every county in the state, the Denton Normal College ranks among the largest schools of its kind in the southwest. We are proud for Houston, Anderson and Trinity counties to be represented in such a college and will make it known from what part of Texas we hail. Reporter.

Rev. B. C. Anderson and family are spending this week in Timpson, the occasion being a reunion of the Anderson family.

NORMAN'S GARAGE

Bon Voyage!

No one but a car owner can understand the joy of driving from a repair garage with motor purring again as if new.

And there is much satisfaction from our view-point, when the job has been done here; maintaining the reputation this shop has always enjoyed of doing the best work in the Grapeland territory.

Every car needs slight adjustments or small repairs every once in a while. Let us have your car for a few hours. You will be astonished at the improvement when we return it to you.

Maybe a new set of piston rings. Maybe only carbon removed. Maybe a carburetor adjustment—a loose nut here—a new rod there. But no matter what the ailment may be, we have the expert eye to locate and the knowledge to make the repair.

Deupree; Daniel, Page Hale; Freeman, Hose Holly; Shiloh, W. B. Huntsman; Volga, T. J. Maples. All of these thirty precinct chairmen will serve for the next two years.

At the county convention the 29th of July, and at the meeting of the Executive Committee, the returns of the primary election held on the 22nd of July were canvassed and approved by both bodies, and those named above for the various offices and who

were nominated were declared the nominees of the democratic party for the general election to be held next November, and where no nominations were made those named above for the runoff primary to be held on August 26th were declared to be the two highest in the votes cast for each office, respectively, and who should be placed on the ballot for the second primary, and this will be done by the Executive Committee at the proper time and the ballots sent to the respective judges for that purpose.

Let all of us remember the day and date, Saturday, August 26, 1922, as the time for holding the next primary election, when it is hoped that every democrat, men and women, will go to the polls and vote for the candidate of their choice. A splendid vote was polled on July 22, and I hope August 26 will witness no abatement of interest among the democrats of the county.

Very respectfully,

J. W. Madden,
County Chairman.

Camp Travis News Notes

Camp Travis, Texas, Aug. 2. Editor Messenger:

In accordance with my promise, I will try to state in brief some of the most important things that have happened since myself and friends left home.

On Wednesday, July 26, Calvin Dutch, Marvin Caskey and myself left for Palestine via the auto route in order to catch No. 3, a westbound morning train for San Antonio. Between Palestine and San Antonio we were joined by about thirty other boys, who were bound for the same place.

Our ride was a very pleasant one, as we C. M. T. C. fellows took possession of one car and when a new one boarded the train he was cheered and soon got acquainted.

When we arrived here we went through some preliminary examinations and were assigned bunks in different barracks. Calvin is in Company No. 2 infantry, Marvin in Company No. 6, field artillery, and myself in Company No. 7, engineers corps.

I have met all the rest of the Grapeland boys except George Murchison, and all seem to be enjoying army life fairly well, and you needn't doubt that we are kept busy.

We engineers have each been assigned a complete outfit, including rifles and bayonets.

Drilling and athletics take up most of our time and some time is spent in engineer schooling.

But the most important thing in my estimation is chow. Everyone is glad to hear the chow call, but the reveille is not always welcome.

As spare time with us engineers is almost a thing of the past, I must close.

A Baby Today—Yes

--But in College Tomorrow!

A baby today is ready for college tomorrow, so it seems, unless parents are prepared to meet additional expenses of better education for their children.

Do you want your child to have a good education—an even chance with others? It's up to you.

To be prepared, start NOW.

A small saving account is the way.

Open it in baby's name. Make regular deposits each week or month, no matter how small. And by the time baby is ready for college the needed money will be waiting.

Also—there is an educational value to this method of saving. As the child grows older and is permitted to make deposits, it learns the fundamentals of THRIFT—without which there can be no lasting success.

Find Cure for Pellagra

The U. S. public health service declares that pellagra, the disease which has caused widespread illness and has taken such a heavy toll, is caused primarily by lack of animal protein in the diet and is both preventable and curable by proper quantities of this protein being included in the sufferer's food. After many years study of the disease, the government physicians assert that 40 grams a day of beef or milk proteins will, for practically all normal individuals, prevent the contraction of the disease. This amount of animal protein is found in a pound of beef or three pints of milk.
