Eaker Ready to Take Off Sunday on Dawn to Dusk Hop

50 PER CENT AUTO FEE CUT DEMANDED

Dallas Solon Charges Leaders Provide for Only 20 Per Cent Reduction After Promising 50

AUSTIN, March 8.—Advocates of a \$175,000,000 state road bond issue were thrown into confusion today when Rep. Jack Kellenburger, bond supporter, demanded that there be a 50 per cent reduction in automobile registration fees before the bond is voted upon. Leaders of the bond movement were charged with furnishing the state a schedule for only 20 per cent registration fee reductions after promising the house members they would support a 50 per cent cut.

House recess left the bond issue still waiting a final vote in the house. Another movement to reduce registration fee reductions is put under way by Rep. Ray Linder, who called on the state automobile club to raise a \$100,000 fund to support a 50 per cent reduction in the fee. He claimed he will kill the entire bill, before consenting to a 20 per cent plan to make a reduction of only 20 per cent.

House members charged that two ago they were tricked into passing a three cent gas tax on the basis of reduced registration fees and that the senate then failed to reduce the fee.

The new tax bill must originate in the house as it is a revenue measure. No gas tax bill will be sent to the senate until the registration fee reduction is made this year. Rev. Ed. R. Sinks declared.

After disposition of the bond matter, the house will use a lottery plan to decide what remaining house bill shall get preference. Members who are entitled to call upon bills will put their names in a hat and each can call up one bill in his name as drawn.

That no attempt will be made to pass the rural school aid appropriation of \$300,000 over Governor Moody's veto was indicated in the house when Rep. J. F. Wallace, chairman of the appropriation committee offered a bill appropriating \$200,000 the governor has said he would approve that much.

Snow Queen. Catherine Curby, crowned Snow Queen in Westlake Park, Los Angeles. Her coronation in a semi-tropic setting presents a novel contrast.

Trip Will Carry Intrepid Flier Over Some of the Most Desolate and Sparsely Settled Territory

BROWNSVILLE, March 8.—Capt. Ira C. Eaker's dawn-to-dusk flight from the United States to Panama will take him over some of the most sparsely settled and desolate country in Mexico, some of which is now blistering with revolutionary activity.

The flight attempt will be made Sunday, barring accidents, with Brownsville as the take-off point. Lieut. Bernard S. Thompson, operations officer at Kelly field, San Antonio, visited Brownsville and officially approved the municipal airport and everything is in readiness for the flight.

Captain Eaker's ship will be christened "The Pan American" Saturday by Miss Mary Fehet, daughter of the chief of the air corps. The ceremony will be attended by prominent aviators and visitors from all sections of the country, including Col. Charles A. Lindbergh, who will bring the mail from Mexico City for the first trip over the new Brownsville line.

Following the christening Saturday, Captain Eaker will service his ship and rest until the take-off. As a protection against the blistering heat of the tropical sun and fly the six-hour trip to Brownsville and return the next day.

The Brownsville airport is a low altitude field one mile square with hard surfaced runways 100 feet in width and 2,500 feet in length, with no hazards bounding the field. No difficulty is expected by Eaker at the take-off as a stiff breeze blows constantly from the gulf and this will aid him in his climb for altitude.

The route from here to Minatitlan on the Gulf of Mexico, a distance of 660 miles, is at sea level, making it ideal for flying, but from Vera Cruz and Tabasco and angling directly across the state of Chiapas in Mexico, is most dangerous, due to high mountains and sparsely settled country.

The flight from this boundary state of Mexico will take Eaker along the west coast, or Pacific side, and along the shore line of Guatemala, Salvador, Nicaragua, and Costa Rica where he will have a sea level route to the far side of Panama.

Few planes operate along the east coast from Tampico to Minatitlan, and hardly any has ever crossed from this point to Panama. In event of a forced landing it would take many days to effect a rescue and this would only be possible by the use of airplanes.

A distance of 1,960 miles by air from Brownsville to Panama, over a part of the world that is sparsely settled, where the wind blows from the south 85 per cent of the time and where nearly two-thirds of distance is over a region shrouded in fog and rain, the successful completion of the flight will stamp this as one of the major accomplishments in the world of aviation.

Bricklayer-Student. Henry Christofferson, who has paid for his college education at Ripon College, Wisconsin, by laying bricks, also has time for school activities. He is on the debating squad.

Federal Officers Give Up Post After Battle Which Started Early This Morning; Four Rebels Killed

EL PASO, March 8.—Rebel troops gained control of Juarez, Mexico, revolutionary key center, today when federal troops raised the white flag of surrender.

Firing which started at 5:30 a. m. ceased when an automobile filled with federal officers rode down the principal streets flying a white flag shortly after 10 o'clock.

Federal troops were dispersed and General Miguel Valle, one of the rebel leaders, took charge of the city.

He said four of his men had been killed in the battle and that several had been wounded. Rebel forces arrested federal officers as rapidly as they could be rounded up, but announced that none would be executed.

NO ALIENS ALLOWED TO ENTER U. S.

EL PASO, March 8.—United States immigration officers announced that no aliens, even though wounded, would be allowed to enter the United States during the battle. Chief Rias, the attack leader, is the brother-in-law of the late Pascual Orozco, leader of the Maderista revolution.

WASHINGTON, March 8.—American artillery with gun muzzles pointed toward Mexico, and American army planes flying over columns of Mexican rebel troops advancing on Juarez, opposite El Paso, Texas, stirred official Washington today with apprehensions of possible international complications.

Of immediate importance is the report of rebel sharpshooter bullets humming into Juarez with the accompanying danger to American lives across the border, that danger enhanced by dispatches from El Paso indicating General Matias Ramos, federal commander, intends to resist rebel occupation of the city.

That the rebel leaders themselves are conscious of the danger of international complications which may result from promiscuous fighting in Juarez was evidenced by General Valle, who last night declared the rebels "want to stay in Juarez so that if we are forced to use force to capture the city the United States troops will intervene."

Movement of United States troops under Brigadier General George Van Horn Moseley commanding the first cavalry division at El Paso, the

MOODY PRISON BILL ADOPTED BY COMMITTEE

AUSTIN, March 8.—Governor Moody's prison centralization and reorganization plan as embodied in the Holbrook senate bill adopted by the conference committee of the house and senate last night. It will be a basis for a return to both houses.

NEW AIR MAIL LINE TO OPEN DESPITE WAR

WASHINGTON, March 8.—Opening of the Brownsville-Mexico City airmail route tomorrow as scheduled is anticipated by Mexican postal authorities despite the revolutionary disturbances in that country. Second Assistant Postmaster General Glover was advised today.

A cablegram from the Mexican postal department said the Mexican government expects the first plane flown by Colonel Lindbergh will leave Mexico City tomorrow in accordance with previous plans and fly the six-hour trip to Brownsville and return the next day.

BOLTERS BILL PASSES HOUSE AFTER FIGHT

AUSTIN, March 8.—The Negley-Wirtz "Democratic party for Democrats" bill flouted the Hoovercat majority of last year's election and weathered rough waters to victory in the house of representatives late last night.

Having passed the senate, it will go to Gov. Dan Moody's desk, and if he signs the measure it will give the Democratic party executive committee supreme control over voters and candidates in the primaries. Executive committees of other political parties will have the same powers.

The bill was backed to final passage over bitter resistance of the "liberals" and some of the ultra-dry sentiment that opposed Alfred E. Smith, Democratic nominee, last November. The vote was 71 to 59.

Friends of the bill said that its power to bar Hoovercat voters will never be exercised, but that bolter leaders of last year will be kept off the ticket as candidates.

The name of Senator Tom Love of Dallas, Hoovercat leader, was frequently mentioned.

INSANITY PLEA OF FRITTS IS UNDER FIRE

ANSON, March 8.—Attacking the insanity plea of Bill Fritts, on trial here for the murder of Earle Hamilton, the state introduced evidence to prove that the slaying was premeditated and not the irresponsible act of an insane man.

Selection of a jury was completed Thursday and testimony started. The state introduced statements to prove that Fritts, two days after the slaying had admitted that he shot D. W. Hamilton and his son, Earl, because the latter had "sworn falsely against him" before the Haskell county grand jury.

FOUR KILLED IN EXPLOSION OF DYNAMITE

SCRIBNER, Neb., March 8.—Fire in a dynamite storehouse, believed to have been caused from an overheated automobile in an adjoining garage, caused the death of four volunteer firemen, probably fatal injuries to five others, and serious injuries to seventeen other members of the local department last night.

The explosion occurred when the fire fighters were attempting to extinguish the blaze with chemicals. Buildings throughout the city were rocked and explosions were heard twenty miles away.

NEWS-PAPER MEN ESCAPE DEATH IN MEXICO

EL PASO, March 8.—Three persons, two children and an unidentified man, were shot and wounded seriously here today by stray bullets fired from Juarez, Mexico, across the Rio Grande, where a battle between federal and rebel forces rages.

NEWS-PAPER MEN ESCAPE DEATH IN MEXICO.

EL PASO, March 8.—A rebel leader's momentary delay of a firing order probably saved the lives of two American newspapermen who were mistaken for federal spies as they penetrated the revolutionary zone near Juarez, General Augustin de la Vega, rebel leader, revealed today.

The newspapermen were Robert Contine and Gerald Dailey, El Paso Post and United Press representatives, who had gone by automobile to within eight miles of Juarez near the scene of a reported conflict.

Confronted by a line of men, rising from the sage brush, the reporters turned their car and retreated. Later in an interview General de la Vega Contine and Dailey learned they had been mistaken for federal spies.

TOWLE CONFIRMED.

AUSTIN, March 8.—H. G. Towle of Snyder, was confirmed for reappointment to the state optometry board by the senate late Thursday afternoon. The name of David Worsman of Dallas, was referred to the senate committee on governor's nominations, pending decision on whether or not to present there are two vacancies on the board.

Hundreds Attend Eastland County L. O. O. F. and Rebekah Convention Here as New Officers Are Installed

In a session climaxed with a banquet attended by 200 people and held in the Odd Fellows hall here, Eastland County L. O. O. F. and Rebekah association yesterday held its semi-annual convention in 1929 to install officers and to prepare for a new year of work. The convention opened at 10:30 yesterday morning with an invocation by W. C. Boney and an address by Mayor J. M. Wilcox.

More than 200 Odd Fellows and Rebekahs from Cisco, Eastland, Ranger, Desdemona, Rising Star, Plover, Plains, Putnam and other places attended the sessions held during the day. This large gathering swelled to double that proportion when the evening session opened at 7:30 o'clock following a banquet served by the Cisco Rebekah association. The committee composed of Maude Eager, chairman, Mrs. C. Jensen and Mrs. Alice Leota Rae, secretary, and Mrs. Edith Rainbolt, treasurer.

The welcome address on behalf of the Odd Fellows lodge here was made by J. A. Jensen, with N. A. Brown welcoming the visitors on behalf of the Cisco Rebekahs. Response was made by Mrs. Dollie Taylor, secretary of the association.

A vocal solo by Cleo Evans and a reading by Eloise Rea preceded a five minute address by E. P. Whitaker of Putnam. Mrs. Hattie Thompson, of Gorman, also spoke briefly.

At the night session D. H. Lankford, deputy grand master, spoke. Entertainment for the evening was furnished by Mrs. Coe McLeRoy with a vocal solo, and by the Bluebonnet trio. After the address two Spanish costume violin numbers by Fred Casillas, 12-year-old Mexican boy, were wildly applauded.

In the competition between degree staffs of subordinate lodges during the evening session the Eastland and Cisco Odd Fellows teams tied, the banner, which was the prize for the contest, reverting to the association for lack of a winner. In the Rebekah contest Pioneer won over Eastland.

The next meeting of the association will take place at Ranger in September. The officers installed here last night will serve a year, their terms expiring next March.

LOBOES WIN FIRST ROUND STATE MEET

Cisco's Big Dam Loboes came out on top in their initial encounter in the state interscholastic league high school basketball tournament at College Station this morning by defeating Main Avenue high of San Antonio 27 to 23, according to a message from W. B. Chapman, athletic director of the Cisco high school who accompanied Coach W. L. Goughly and the Loboes to the state meet.

George Van Horn and Wendall Whitehead won the game for the Cisco boys with two last minute field goals.

The Loboes play Denison tonight at 7:30. The game will be broadcast, Coach Chapman said.

QUEENS PLAY.

The Lobo Queens will play the Mingus High school team this evening at 7 o'clock at the high school gymnasium. The officers for the game will be 15 and 35 cents.

76 FELONY INDICTMENTS ARE RETURNED

EASTLAND, March 8.—After returning a total of 76 indictments, all felonies the 88th district court grand jury, which was convened last Monday morning by Judge Elzo Been, recessed Thursday afternoon subject to call by the court.

SISTER OF MRS. SKILES PASSES AWAY

Mrs. Milton Taylor, a sister of Mrs. I. H. Skiles, of Cisco, died shortly after 12 o'clock last night at her home in Eaton, Tenn., according to a message received at 3 o'clock this morning by Mrs. Skiles, who left today on the 10:11 train for Eaton.

Double pneumonia was the cause of death. Mrs. Taylor is survived by her husband, two small children, her mother and father and three sisters. The mother and father are Mr. and Mrs. J. D. Meek, of Trenton, Tenn. The sisters are Mrs. I. H. Skiles, of this city, Miss Edith Meek, of Jonesboro, Arkansas.

SLIGHT QUAKE FELT IN OHIO AND INDIANA

COLUMBUS, O., March 8.—A slight earthquake shook sections of central Ohio and Indiana at 4 a. m. today, according to reports telephoned to the United Press. Two distinct shocks were felt at Piqua, O., near Moxley, when D. G. Jones, the earth visibly shook. Another shock, reported to have extended into Indiana, was felt at Dayton, and a third at Bellefontaine. No damage was reported.

New Enterprises Reported to Be Beckoning to Deposed Chairman of Standard; Sinclair Interested

CHICAGO, March 8.—New enterprises were reported beckoning to Col. Robert W. Stewart today.

From his more intimate friends it was learned that the oil industry already had offered him at least two positions as good or better than the \$125,000-a-year one he lost at Whiting.

It was considered doubtful, however, that Stewart would accept any new connections immediately but would rest for a while from the strenuous campaign against John D. Rockefeller, Jr., which ended yesterday when the big shareholders of the Standard Oil company of Indiana voted to oust him from the board of directors.

Harry F. Sinclair, whose business dealings with "The Colonel" in the Continental Trading Company, Ltd., led to Rockefeller's demand that Stewart get out or be

put out of Standard oil, is reported to have made two attractive offers to the deposed executive.

One is said to be a high position in Sinclair's present organization. The other report is to the effect that Sinclair is planning an immense oil merger with the Phillips and Skelly companies and wants Stewart to head the new concern.

THE WEATHER

West Texas—Partly cloudy, colder in panhandle tonight, Saturday partly cloudy and colder.

East Texas—Cloudy, occasional local rains tonight and in east portion Saturday; colder north Saturday.

Arkansas—Probably rain tonight and Saturday. Warmer eastern portion tonight. Colder Saturday.

THE SMALL TOWN.

The other day we noticed in a newspaper that a woman trying to lose her identity had been discovered in a small town.

The place where one is sure to be most conspicuous is the small town. The best place in which to lose oneself is the big city.

When a newcomer settles down in a small town, the inhabitants regard him as a curiosity and they scrutinize him as intently as the fowls in a chicken lot eye a strange hen.

It is no reflection on the people of the little town that they look with interest on every new arrival. Everybody is interested in everybody; everybody talks about everybody; people in the little town have not so many things with which to occupy themselves as the people in the big city.

In the little town each individual is an individual. He is a unit. He is a personality. He is not simply one of a mass. The term "masses" does not apply to the inhabitants of small towns; they are not "masses," they are persons.

If you have anything to conceal, don't take it to a small town, for every soul there will have you spotted in no time. Go to a big city, the bigger the better.

If you want to lose yourself, go to New York, Chicago, or some other municipality so cosmopolitan that nobody pays any attention to anybody.

In a big city you can live in an apartment for ten years without those on either side of you, across from you, above you or below you knowing a thing about you or caring. If they meet you often enough in the hall way or the elevator they may come to nod to you and perhaps speak, but they will not be concerned about you.

The big city offers sanctuary to one who would submerge himself or herself; to one who would get away and be forgotten. The greater the number one can sift oneself into, the less the likelihood of being observed.

The little town is the place for the person whose life is an open book and who cares not who reads it. But the big city—there is the place to forget and be forgotten—to wipe the slate clean and begin again—with nothing to live down.

ARTIFICIAL COOLNESS.

An electrical device to cool rooms in private homes, foreseen some time ago, is now announced. Its makers say it will lower the temperature of a room 10 degrees in 30 minutes, reduce the humidity 10 per cent and keep the air in proper circulation.

OIL NEWS OF SOUTHWEST

LOCKHART, March 8.—Work on laying a new pipe line about 50 miles in length, connecting Shell's producing wells in the Bruner field with the line near Austin, will begin within the next 10 days.

PALESTINE, March 8.—The Todd wells, both A and B, have been opened up and are now together flowing between 5,000 and 6,000 barrels of oil a day into the new pipe line running from the field to Groesbeck.

HOUSTON, March 8.—At Barber's Hill the Humphrey's corporation No. 1 Corolla Barber came in good for 3,950 barrels at 3.197 feet. The Navarro Oil company's No. 3-A Cain at Pierce Junction, after plugging back from 6,930 to 4,011 feet, made a 500-barrel well.

HOUSTON, March 8.—At Barber's Hill the Humphrey's corporation No. 1 Corolla Barber came in good for 3,950 barrels at 3.197 feet. The Navarro Oil company's No. 3-A Cain at Pierce Junction, after plugging back from 6,930 to 4,011 feet, made a 500-barrel well.

Cisco, drilling contractors hold a fourth interest. The owners believe the well good enough as it stands without further drilling, and the well was being cleaned and swabbed Thursday.

HOUSTON, March 8.—The Humble Pipe Line company is planning an 8-inch pipe line from the east Luling (Bruner) field in Caldwell county to its tank farm at West Columbia, which is connected with an 8-inch line to the Humble Refinery at Baytown.

HOUSTON, March 8.—The Houston Gulf Gas company, subsidiary of the United Gas company, has started survey for its 16-inch high pressure line from the Refugio gas field to San Antonio.

WEAK, RUN-DOWN

Alabama Lady Could Hardly Lift Her Head. Began To Feel Stronger After Taking Cardui. Loxley, Ala.—"I was in an awful bad state of health," says Mrs. Charles Jenkins, of this place. "I was all run-down and weak as could be. I did not have the strength of a kitten. Some days I could hardly lift my head from the pillow."

"I looked like a skeleton. I was so thin and haggard. It took all my will power to drag myself around the house. I never walked any farther than I had to, for it hurt me to stand on my feet. "My back and sides hurt me until I thought I could not stand it. "I saw myself growing gradually weaker and I did not know what to do. I tried several things but nothing helped me. "One day I read about how other women had been helped by taking Cardui, so I thought I would try it. I found it a splendid medicine. After I began to take it, I soon began to feel stronger and able to do things. "From that time to the present I have taken Cardui several times when I was run-down in health. It has never failed to help me. "Cardui should help you, too. Get a bottle today. No. 202 Take CARDUI OF USE BY WOMEN

NEW PUBLIC RELATIONS MAN FOR LONE STAR

WILLIAM C. GRANT, of Dallas as public relations and advertising director of the Lone Star Gas company is announced by R. A. Crawford, vice president and general manager of the company.

W. C. GRANT.

The Lone Star Gas company is the oldest natural gas pipe line company in the southwest, having been organized in 1909 when natural gas was discovered in the Petroleum north of Wichita Falls. It extends more than 3,200 miles of pipe line and supplies more than 200 towns and cities in Texas and Oklahoma.

HEALTHY AND RETIRED; NOW FIRM INDORSER

Charles E. Burns, who has always been a strong healthy man up to a few months ago when I had a bad attack of my whole system became run down. I lost my old strength and energy. I began to suffer with indigestion and biliousness.

CHARLES E. BURNS.

At my Building, I ate disagreed with in All California I was constantly spitting in. My stomach was food sour as vinegar. I was constipated, had severe headaches and was continually taking laxatives. My tongue was coated and my breath was foul. I would tire easily and my limbs were badly broken. These were new with me. A few days after I began taking Sargol and the Sargol began to improve. Four days later Sargol and two of pills made me feel like a different man. I regained my lost weight and was always hungry. What I am no longer both bloating gas or belching and headaches. I feel steady and have my old strength and energy. I feel better than ever. I have indorsed a medicine telling all my friends of Sargol treatment. A statement was made by E. Burns, wealthy real estate and insurance man of Grand, Kan., a recent visitor. Since this is a few years ago, Mr. Burns has turned over to his other business and is enjoying life easy. He is one of the best known men at part of the state. Sargol may be obtained in Cisco Drug Store and Corner Ninth Street.

continued as at present under the general supervision of Mr. Grant. Among activities which will be conducted by the department will be aiding chambers of commerce in constructive upbuilding of Texas and Oklahoma towns and cities, cooperation with civic enterprises, publication of an employees magazine, gathering of information on the gas industry in the territory, and similar work.

FISH ALL UTILIZED.

PORTLAND, Me., March 8.—The boast of the modern meat packing industry, that all the pig is utilized except its squeal, is now followed by the announcement of the Maine fishing industry, that all the fish is being utilized, even its scales. Pearl essence plants here and at other points along the Maine coast are offering seven cents a pound for fish scales, and tons of scales formerly discarded by fishermen have been sold this season at a total price estimated at \$250,000. One hundred pounds of the scales, for which the essence factories pay \$7, are required to produce one pound of pearl essence, valued at \$125 in the New York market. The essence, after elaborate processing, is used in the manufacture of beads, necklaces and miscellaneous jewelry.

DEVICE REGISTERS HEAT.

An instrument so small it would take a thousand to equal the size of a drop of water was used recently by Dr. Edison Pettit and Dr. Seth Nicholson, at Mount Wilson Observatory, to measure the heat of stars billions of miles away.

This device, constructed under a microscope, is a thermocouple and will register variations in heat as slight as one hundred thousandths of a degree. Used in connection with the 100-inch Hooker telescope at the Mount Wilson Observatory, it recorded the heat coming from 124 stars. Betelgeuse, a flaming sun 27,000,000 times as big as our sun, raised the temperature of the receiving instrument only one-sixteenth of a degree centigrade, so far away is it.

TWO LARGE WOLVES TAKEN BY TRAPPERS

EASTLAND, March 8.—Two large red wolves, the first to be captured by trappers employed by the county in its campaign to rid this section of predatory animals, were being exhibited on the courthouse square in Eastland Thursday afternoon. E. A. Pond, government trapper in charge of the work in the county, caught the wolves, a male and a female, in traps he had set on the Jim Woods farm, three miles east of Eastland. Mr. Pond said that both of the animals were caught within twelve hours after the traps were set, one of them having been caught one hour after the trap was set and the other an hour before sundown. A farmer living in the vicinity heard the wolf cry when the trap caught him.

On account of the death of our sister we will not have any pies or cakes for a few days. Mrs. I. H. Skiles, Skiles grocery.

ROTARIANS PREPARE FOR CONVENTION

Cisco Rotarians in their regular weekly luncheon yesterday dispensed with entertainment and occupied themselves with preparations for their part in the 41st district convention which will be held March 21 and 22 at Ranger. A. B. O'Flaherty was chairman for the day. Two delegates from the Cisco club to the convention were elected. They are B. C. Boney and T. Hunter Foley. At least 1,000 visitors are expected to attend the convention. It was pointed out that this gathering of business and professional leaders of western Texas was brought to Ranger as an Eastland county project and that the cooperation of the three clubs of the county, those at Cisco, Eastland and Ranger is essential to the successful entertainment of that gathering. Both Cisco and Eastland will be called upon to contribute largely toward this end. Hotel facilities here and such facilities as are available for the

entertainment of visitors will be called upon to bear their part in taking care of the temporary influx of prominent men who will be in Eastland county for this event.

ODD PLANTS "SNEEZE" SEEDS.

Sneezing plants that spray their seeds into the air with each "kackoo" are described by Herbert H. Whetzel, professor of plant pathology at Cornell University, Ithaca, N. Y. They are various types of destructive fungi. Their cup-shaped seed holders are filled with tiny pods, each containing eight seeds. In each seed pod is a charge of starch that ferments and explodes. Prof. Whetzel explains in Popular Science Monthly. This explosion blows the microscopic seeds an inch or more into the air. They float about, land on plants and take root.

QUIT ANTI-DRIES.

NEW YORK, March 8.—Robert P. Lamont, new secretary of commerce in Herbert Hoover's cabinet, told the United Press today he was a director of the association against the prohibition amendment but resigned "some time within the last six months."

EIGHT TEAMS ENTER STATE TOURNAMENT

BRECKENRIDGE, March 8.—Eight Texas high schools have definitely entered their girl basketball teams in the state tournament to be held here next Thursday, Friday and Saturday, according to Jess Pipkin, chairman of the athletic committee and Miss Cora Tyson, office secretary of the chamber of commerce. Letters in the hands of Miss Tyson and Mr. Pipkin indicate that at least 10 or 12 more schools in this section will enter their teams before the closing date. The teams that have entered here so far are: Mingus, Selden, Haskell, Eula, Cisco, Roby, Post and the local girls. Many of the teams that played in the Snyder meet last month, are expected to be heard from, and it is thought that most of these clubs will be here. Final preparations continue to go ahead in goodly fashion, which points to a very successful girls' athletic event.

EASTLAND, March 8.—Mrs. Alice Wiseman, 81, mother of Mrs. Bob Sellers of Oiden, died at the Sellers home here Wednesday. The body was shipped by the Barrow Undertaking company of Eastland to near Belton where burial was to be this afternoon.

Hundreds of new hats open for Saturday's business. Mrs. Chas. Curry, at residence, 604 H avenue.

LIGHT CRUST FLOUR makes hot biscuits a supreme delight! also cakes, pastries and light bread. THE LEADING FLOUR IN TEXAS ask your grocer

You Knew it was COLD

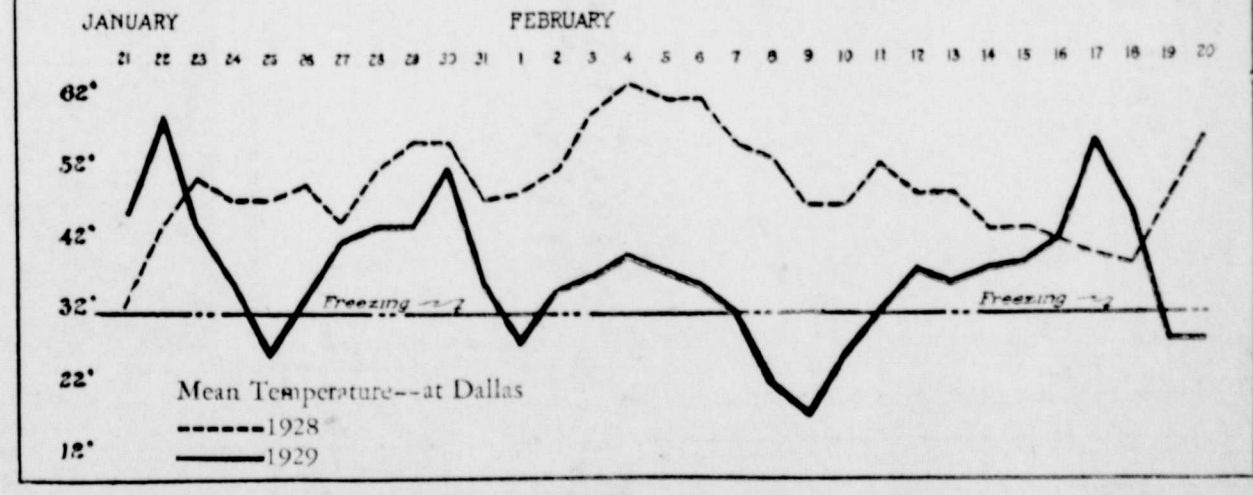

—but did you know just how many days were colder than the same period last year?

THE WEATHER is the most universal topic of conversation. But few people really know anything about it. Feelings are so deceiving! If it's hot, most people say, "P-h-e-w! this is the hottest weather I ever saw!"—if it's cold, they jump just as far the other way and say, "B-r-r-r! This is the coldest weather I ever saw!" They're probably wrong both times. It's so hard to remember what the temperature actually was at any given time. But those of you who said right

along, "This is the coldest February we've had for years," were correct! The mean temperature for the 31 day period from January 21 to February 20 was the lowest in fifteen years! There were more cold, disagreeable days in this climate than during any similar period for all that time. Here are the comparative figures for this year and last year, based on mean temperatures at Dallas, a more or less central point in Lone Star territory:

Table with columns: Month, Day, 1929, 1928, Higher, Lower. Shows temperature data for January and February 1928 and 1929.

You will note that 26 days in the 31 day period had a lower mean temperature this year than last year, the average being 16.96 degrees lower. In one stretch, from February 1 to 14, inclusive, the mean temperature was an average of 21 degrees lower this year than last. Eight days this year show freezing, 32 degrees, or below freezing, as a mean average temperature, against no freezing mean temperatures for a like period last year. Such a long period of cold, disagreeable weather, with much sleet, ice and cold rain, means that gas heaters were worked considerably over time! All who could stay inside did, day and night. This meant larger gas consumption. Naturally gas bills for this period will be somewhat higher than for the same period last year—and compared with the preceding 31 day period this season. Twenty-five days in the 31 day period from January 21 to February 20 showed lower mean temperatures than the period from December 21 to January 20; an average of 13.64 degrees lower! When you compare gas bills, compare these temperature figures. And, be thankful with us that Lone Star Gas Service was able to come through this unprecedented weather as efficiently as it did!

Hideous Regime of Dictatorship by Militarists Aim of Revolt in Mexico Says Ex-President Calles

Editor's Note: Former President Elias Calles, who has been called to act as secretary of war for President Emilio Portes Gil in putting down the Mexican revolution, was asked by the United Press to explain to the outside world the attitude of the government towards the revolt and the present condition of affairs in Mexico. Calles responded with the statement below.

BY PLUTARCO ELIAS CALLES, Minister of War in Mexico. (Copyright, 1929, by United Press.) MEXICO CITY, March 8.—I accept with pleasure your offer to explain to the outside world the attitude of the government towards the revolt and the present military situation.

As President Portes Gil, at whose orders as a soldier I placed myself since the beginning of the outbreak has said, it can be emphatically stated that no other armed movement has had in later times in Mexico less real or apparent justification as the one headed by the ex-Generals Escobar, Aguirre and Menzo.

The movement is one started by had military chiefs, greedy and corrupted, who without the remotest revolutionary principles in the social and economic order and without the remotest purpose for the betterment of the masses, rebelled

against a civil leader who has shown with only three months of administration that he has and has had a perfect respect to the law and public and private morality.

Under the false pretenses of the intention to impose candidates in the coming presidential campaign, whose results can only be known in November, and claiming as the only apparent reason the violation of the public suffrage that has not been exercised yet and shall only be exercised nine months from now, the military men I have mentioned are taking advantage of the forces placed in their hands by the government of the republic to guarantee its institutions and take care of the honor of the country. They have rebelled apparently to substitute a supposed political electoral impediment for a real and present political impediment.

In fact, at the bottom of the movement there is no apparent intention of the rebel chiefs other than stopping Mexico from entering into the regime of an institutional life for which we have been struggling and which were succeeding in establishing here. They desire a detachment of military character with the chiefs of great discredit and corruption at the head of it to strangle all the components of social and economic order obtained by the revolution of Mexico. They de-

sire to place, instead of the present constitutional regime, marked by respect to the laws, the hideous regime of a military dictatorship that can not have even the excuse of a real strength in the public opinion.

All this concerning the causes of the rebellion. Regarding now the real situation of the country, I wish to state that happily the sense of military duty, the knowledge of the real situation of the army, the popular grip that undoubtedly President Portes Gil has and the strength of legality that already is a factor of first order in this country growing into a legitimate life, have contributed to locate and isolate the rebels.

I only wish to add to finish with this exposition you asked, that I am complying with my purpose of a definite withdrawal from the political life of the country and my unavoidable duty as a soldier, made of the president. But I continue more than ever firm in my purpose of not being any more in Mexico in any occasion, a political factor.

SNAKES KILLED 27 IN YEAR

Twenty-seven persons died of snake bite in the United States in 1928, according to E. H. Hetherington and H. E. Stadelman, of the Audubon Institute of American. Five hundred and seventy persons were victims of different varieties of poisonous serpents. Of these, 159 were bitten by copperheads in 21 states; 33 by cottonmouth moccasins; 17 by the pigmy rattlesnake; 13 by the swamp rattler; 30 by the true rattlesnake of the diamond-back, or Texas variety; 40 by timber rattlers; 38 by prairie rattlers; 27 by Pacific rattlers; 11 by the eastern diamond-back and 4 by desert "side-winders."

VATICAN FIGHT ON ROTARY IS DROPPED NOW

ROME, March 8.—The Vatican's fight against Rotary International can be considered as ended with all issues against the Rotarians lifted. It was made known here today.

The clergy merely will receive a mild admonition to maintain the ecclesiastical dignity, it was understood in connection with the ending of recent attacks on the organization by the Vatican organ, *Osservatore Romano*.

The Holy See will not issue a communique on the question, but articles accepting President Sattler's defense of Rotary will be published in various Catholic semi-official organs, stating that Rotary is not interfering with the principles of the Catholic religion.

STAGE STAR IN "TALKIE" ROLE PALACE

George Jessell, who is a star of the legitimate drama, of vaudeville and of the screen, has his first singing and talking role in a feature length film in "Lucky Boy."

He sings five songs in the production. The numbers are "My Mother's Eyes," "Old Man Sunshine," "My Blackbirds Are Bluebirds Now," "My Real Sweetheart" and "Bouquet of Memories."

Jessell is famous for his imitations and makes the most of this talent in "Lucky Boy" by imitating several late stage stars, including Sam Bernard, Eddie Foy and Robert Bruce Mantell.

The story back of "Lucky Boy" is that Jessell made the film in order to save his disappointment at losing the role played by Al Jolson in "The Jazz Singer."

He wrote "The Jazz Singer" and later starred in it on the stage.

Film rights to the production were sold by Jessell to Warner Brothers because he thought he would get the principal part, according to studio gossip. When the role went elsewhere he was bitterly disappointed and in "Lucky Boy" has attempted to make up for the lost opportunity.

The cast for "Lucky Boy" includes Rosa Rosanova, William K. Strauss, Margaret Quimby, Green Lee, Richard Tucker, Gayne Whitman and Mary Doran.

SPOONFUL STAGGERS

NEBRASKA CITY, Neb., March 8.—How much liquor does it take to make a man intoxicated? A spoonful, according to a district court jury here which found Garrett Snyder guilty of intoxication. He had offered to pay for a meal for Miss Violet Orendon, a school teacher, to whom he had not been formally introduced. Convicted in justice court, Snyder, who had witnessed to testify that he had consumed but a spoonful of liquor, appealed. Twelve of his peers decided the spoonful was sufficient and upheld the lower court, but added a recommendation for leniency.

GOOD TIME GUY—"Now She's Worried."

By Frank Smiley

I HOPE EVERYTHING HAS HAPPENED AS I PLANNED IT--THOSE YEGGS WERE TO KEEP GUY A PRISONER UNTIL THEY HEARD FROM ME PERSONALLY AND FINANCIALLY! BUT I'M A LITTLE AFRAID OF THEM--THEY TAKE LIFE SO SERIOUSLY!

I REALLY FEEL SORRY FOR GUY, EVEN THOUGH I STARTED THAT BIGAMY RUMOR! HE'S THE TALK OF THE TOWN AND EVERYONE IN CORNHAY IS BUSY PINNING NEW TALES ON THE UNFORTUNATE DONKEY!

GUY IS BEING CALLED EVERYTHING FROM A PHILANDERER TO A MATRIMONIAL MANIAC--IF HE'D EVER RAISE A BEARD, I'LL WAGER THE WHOLE TOWN WOULD EXPECT IT TO BE BLUE!

WHY, THERE'S BLOOD ON THE FLOOR AND NO ONE IS HERE! WHERE CAN THEY HAVE LEFT GUY? I SHOULD NEVER HAVE TRUSTED THOSE THINGS--I HOPE THEY DIDN'T CUT THEMSELVES A PIECE OF THROAT!

So THAT'S IT! CAROLINE CONCEIVED THIS PLOT, BUT IT'S GONE FARTHER THAN SHE HAD PLANNED!

CAMPAIGN TO RAISE FUNDS FOR RANDOLPH OFF WITH BANG

Meeting Last Night to Devise Plans for Conduct of Drive Here Ends With Spontaneous Contributions of \$13,000

The most auspicious start that any campaign in Cisco has met with in the drive of the chamber of commerce last night to raise funds for the benefit of Randolph college. A meeting of directors of the chamber with members of the board of trustees of Randolph and the official board of the Cisco First Christian church evolved rapidly from an ancillary plan and strategy into a full initiative that reached its climax with the spontaneous contribution of \$13,000 by the 18 men present toward the \$50,000 that has been set as the goal of the campaign here.

The enthusiasm manifest at this meeting and concrete evidence that was present last night are deeply stamped in the college and the campaign that has been initiated is as optimistic as the tone of the government. Mayor J. M. Williams agreed at the meeting to take a leadership of the drive and he indicated today that with the cooperation of the group present and her business men and civil leaders it will be pushed vigorously in the hope of reaching a swift and successful conclusion.

The help of the other 17 men who attended the meeting last night was evidenced in carrying out the campaign.

ation and with the interest that the Christian churches over the state are showing and the optimistic prospects before the campaign here, that problem appears to be well on the way to a successful solution. A letter from Rev. S. J. Shettleworth, in charge of the drive that is being conducted among the churches of the denomination fostering the school, revealed that these churches are universally rallying to its support with liberal contributions.

RARE MIRROR BOUGHT FOR ONE DOLLAR

MINNEAPOLIS, March 8.—The antique inlay mirror frame of the William and Mary period, purchased recently in Virginia for \$1, was valued at more than \$1,000 here after it had been restored and its true worth revealed.

The frame, with its fine scroll-like inlay covered with several layers of paint, was discovered in an old cabin near Hanover, Va., by H. M. King, southern collector. King purchased the piece for \$1 and later sold it to Mrs. Charles S. Pillsbury, Minneapolis art lover.

An expert here engaged to restore the frame, removed the paint and found the exquisite "seaweed" design which proved the William and Mary origin. It was assumed that the frame was brought to America from England by some wealthy colonist.

Digesta-Pep for digestion. Scott's Emulsion for strength.

Hoover Gathers Cabinet About Him For First Time Today to Discuss Plans in General Way

By THOMAS L. STOKES.

WASHINGTON, March 8.—President Hoover gathered his cabinet about the table in the executive offices for the first time today to discuss in a general way the plans and policies of his administration.

Three outstanding problems confronting the president and his official family immediately, the Mexican revolution situation, prohibition and the extra session of congress, Mr. Hoover planned to discuss these matters in a general way with the cabinet as a whole and with the individual department heads concerned, particularly.

He has kept closely informed on the Mexican revolution through numerous visits of Secretary of State Kellogg in the last few days, has talked over his law enforcement investigating commission with Attorney General Mitchell, and has discussed farm relief with Secretary of Agriculture Hyde.

Only one cabinet officer was absent from the meeting today, Henry L. Stimson, whose appointment has been confirmed by the senate, and who will be sworn into office as soon as he arrives here from Manila, where he was governor general of the Philippines. Kellogg is serving until Stimson returns.

DONOVAN RESIGNED.

WASHINGTON, March 8.—William J. Donovan, who declined to accept the post of secretary of war in the Hoover cabinet after he had been denied the attorney generalship, resigned as assistant attorney general before President Hoover took office, it was revealed here today.

FAVORABLE REPORT.

WACO, March 8.—Favorable industrial development of the southwest was reported by executives of all railroads in this territory when the southwest shippers advisory board convened here today.

W. M. Maddox, assistant traffic manager of the Magnolia Petroleum company, Dallas, presided.

ROOKIE TELLS HOW IT FEELS TO FLY PLANE

How it feels to be given the controls of a speeding airplane for the first time is vividly described by Larry Brent, a student at Curtis Field, Long Island.

"We were up 800 feet, sailing along beautifully," he says. "I was thrilled. I knew I was going to like flying. The voice of my instructor, coming through the one-way speaking tube connected with my helmet, broke into my enthusiastic thoughts: 'You will now take the controls!'

"I shouted: 'Not yet! Wait! Hold on!' But, unlike the instructor, I had no speaking tube, and it was useless trying to talk into the blast of 90 horsepower. My instructor's hands were above his head. My right hand was on the stick. My feet were on the pedals. I was flying the ship! My stomach was feebly protesting. It didn't want me to fly—not yet! I was amazed that the ship continued to fly in her course. She should have slid off to one side or gone into a tailspin. The voice: 'You are over-controlling! I relaxed my clutch on the stick. 'Your nose is too high.' I pushed

ed the stick forward. Down went the nose.

"Your nose is too low." I pulled the stick back. When the horizon came to where it seemed to belong, I held it there.

"Your left wing is down." I tipped the stick to the right. Up came the left wing.

"You are not flying straight but in a wide circle. Pick up some object on the horizon and fly for it."

"I tried to. I saw a dark cloud and tried to steer for it. I was to the left so I pushed the left rudder. The cloud skidded so far to the right that I lost it. The voice: 'Release controls.' I released them gladly. I had given the rudder too generous a kick. It seemed to me we were skidding. We certainly were! "When we landed," writes Brent, "the instructor said: 'Not bad at all. Not half bad. Of course we may have to try flying you with your shoes off until you develop more rudder sense. But perhaps not.' "I felt he was letting me down easy. I was certain I would never learn to fly. There was little enough to do, but—how well you had to do that! I had expected to come back from my first lesson trembling, but not with terror. I was mad. Mad at the plane and mad at myself. Mad, most of all, at my dumb feet. It was comforting to learn that most beginners come down from their first few lessons mad clean through."

PURE EGG NOODLES

A sure sign of success for any meal... tender... appetizing... wholesome.

The World's Quality Oil made still better!

Leading lubrication specialists improve the quality of Mobiloil to meet today's demand for a superior lubricating oil

Today's high-speed driving conditions place a new burden upon lubrication. Your engine requires a better oil, especially adapted to these conditions.

This need is now met with the New Mobiloil, superior to anything produced before. At 35c a quart, you will find this Mobiloil the most economical oil you ever used.

MAKE THIS TEST

Drive to the nearest Mobiloil dealer... have him drain all the old oil from your crankcase and... fill it up with the correct grade of the New Mobiloil. You know from experience how your engine ran the last time fresh oil was put in the crankcase... Now—notice the difference!

Look for these results--

- Increased Oil Mileage: Often 100 extra miles per quart from the New Mobiloil.
- Increased Gasoline Mileage: Many tests show gasoline consumption reduced as much as 16%.
- Faster Pick-Up—More Power: Quicker get-away, more "pep" on the road, less labor on the hills.
- Smoother Operation: A quieter motor, a velvety smoothness of acceleration, less vibration when speeding.

new Mobiloil 35c a quart

The dealer who sells a quart of the New Mobiloil for less than 35c (except Mobiloil "B" the chatteringproof oil for Model T Fords at 30c) is not making his fair reasonable profit. Lower prices often accompany substitution.

Sweden likes U. S. films. STOCKHOLM, March 8.—American motion pictures are more popular in Sweden than those made in any other country. This has been brought out in statistics released by the government censorship bureau.

Of these, 2,304 had been taken by American firms, 1,918 by Swedish and 712 by other foreign concerns. The majority, or 2,729 were feature pictures, while 2,265 were news reels, scenic films, etc.

Largest list of films and children's bats we have ever shown on display for the first time Saturday.

Mrs. Chas. Curry, at residence, 604 H avenue.

There's a recipe on every package of Rice Krispies that makes the best macaroons you ever tasted!

Rice Krispies is the new cereal that's making such a hit. Toasted rice—so crisp it crackles in milk or cream. Serve it for breakfast—and lunch or supper too. At grocers. Made by Kellogg in Battle Creek.

ROSE BUSHES 25c
Heavy four year old monthly bloomers—while they last! Red and Yellow Canina 30c per doz. Don't ask questions on the phone, come and see them. A shade tree FREE with each purchase. We are not "bootleg" nurserymen—we grow it in Cisco.
Cisco Floral-Nursery Company
You Can Pay By the Month.

White? Not these clothes!

There was plenty of soap. The clothes were scrubbed thoroughly, and rinsed. But the water was hard. The soap mixed with the hard water, and formed a dirty ring around the basin—scum! The scum got into the fabric of the clothes. That's why the clothes weren't clean.

But they can be clean. How? By washing them in soft water. And how can hard water be made soft? By adding MeLo. The water is now a wonderful cleaner, with or without soap; and the soap much more effective. Get a can today at your grocer's.

People are more careful than ever before about diet. They diet to clear complexions. They avoid certain foods to stay thin. They eat others to get fat. But many are running a serious danger because they are missing the "roughage" or "bulk" foods that every person must have to keep well.

As a result, constipation gets in its deadly work. Headaches, listlessness, circled eyes are only the first symptoms. In the end, constipation ruins health, wrecks beauty and may cause serious disease.

Don't neglect your daily roughage. That is nature's rule. Kellogg's ALL-BRAN will supply it. A healthful cereal to eat each day. To use in cooked dishes or to serve with milk or cream. To mix with other cereals.

ALL-BRAN is guaranteed to relieve constipation—to prevent it. Two tablespoons daily—chronic cases, with every meal. It is 100% bran. Doctors recommend it. Your grocer sells it. Served by hotels, restaurants, dining cars. Made by Kellogg in Battle Creek.
