BROWNWOOD BANK VICTIM OF BANDITS

Two Unmasked Men Force Five Employees of Institution Into Vault and Escape with \$5,000

BROWNWOOD, March 13.—Two masked bandits with pistols forced five employees of the First National bank into the vault of the bank here early today and escaped with about \$5,000.

The bandits first held up the cashier who had arrived at the bank early to clean up for the day. Finding that the janitor did not open the vault, the thugs held him at the point of a pistol.

Meanwhile, other employees were entering for the day's work and were also held up. When the cash had been removed, also five employees were forced into the vault and locked in.

The bandits escaped in an automobile waiting outside.

One of the bandits stood at the front door of the bank while the other with drawn pistol forced several others into the bank vault, forcing them to hand over the bank's cash.

After locking the employees in the vault, the two gunmen left the bank and it is not known which of them they fled.

Officers were notified but as yet no trace of the robbers has been found.

Oil Policy of Administration Is Explained by Hoover During Conference With Walsh Today

WASHINGTON, March 13.—The precise scope and nature of President Hoover's new oil conservation policy soon will be defined specifically by interior department regulations governing leasing and drilling on the public domain and on Indian lands, was learned at the department today.

WASHINGTON, March 13.—Senator Walsh of Montana, sponsor of the celebrated Teapot Dome case, called at the white house today to discuss with President Hoover the new oil leasing policy outlined by the chief executive yesterday.

It is understood Walsh sought clarification as to the practical application of the new policy.

At the conference it was stated that the contractual obligations of the government to operators prospecting on the government domain would not be abrogated by the new policy.

Under the general leasing act covering oil exploration on the public domain, an operator sinks a prospecting well on territory is automatically secured certain rights should be discovered.

Walsh was apprehensive of the rights, in cases where the land had been sunk but oil has not been discovered, might

APPOINTMENTS PRESENTED BY MOODY TODAY

AUSTIN, March 13.—The names of Honorable W. H. Frey of Erath, and Hon. E. H. Krohn of El Paso, were submitted to the senate this morning by Governor Dan Moody for confirmation as members of the board of regents of the Texas State Teachers' college in accordance with the increased membership made by the present legislature.

Hon. George E. Christian of Burnet, and Hon. A. B. Martin of Hale were re-appointed to the commission of appeals of the court of criminal appeals.

Hon. Fred E. Horton of Hunt was named to serve on the Texas prison board.

The following were re-appointed members of the board of regents of the College of Industrial Arts: Mrs. W. E. Spell of McLennan; Mrs. Lee Joseph of Travis; Mrs. H. F. Ring of Harris; Hon. R. H. Hoffman of Denton was named to succeed J. W. DeGann.

Dr. J. M. Frazier of Bell and Dr. Joe S. Wooten of Travis were named as members of the state board of control.

The following were named to the pilot commission for Sabine Pass rivers and tributaries: W. L. Weatherall, George M. Craig, J. S. Edwards and P. P. Butler of Jefferson county, and H. L. McNeil of Orange county.

The following named to state board of pharmacy: Erwin Joseph of Travis, Paul Carroll of Bowie, John A. Weeks of Rannels, C. Bryan Allison of Dallas.

The following were named to the board of medical examiners: Dr. H. W. Cummings, Robertson; Joe Blotch, Hunt; L. H. Reeves, Travis; N. P. Bue, Falls; T. J. Crewe, Dallas; M. E. Daniels, Fannin; William Roddy, Williamson; S. C. Southern, Dallas; H. C. Morrow, Travis; H. H. Blankmeyer, San Patricio.

The following were named as public weighers of Harris county: C. S. Sanders, Jr., D. Rice, E. R. Morgan, D. A. Daly, H. Rice, Jr., C. P. Reynolds, C. L. Woveford, R. C. Tankersley, C. E. Cole, L. D. Baugard, John H. Lewis, T. E. Melville, C. S. Timmins, R. R. Cottingham and C. T. Christensen.

Senate goes into executive session this afternoon.

The following were re-nominated to succeed themselves: Hon. Newton P. Willis, district judge of 84th judicial district; Hon. J. A. Holmes, district attorney of 84th judicial district; Hon. Reese Ewing, district judge of 31st judicial district; Hon. Clifford C. Braly to be district attorney of 1st judicial district; Hon. J. A. Drane, district judge of 109th judicial district.

Federal Columns Converging on Torreon and Durango After Fall of Saltillo to Government Force

(By United Press)

The Mexican federal government prepared today to strike what it believed would be a death blow to the insurrection which broke out in two sections of the republic eleven days ago.

The capital expressed confidence that the desertion of rebel troops and federal victories in the state of Coahuila marked the beginning of the collapse of the revolt.

Plutarco Elias Calles took advantage of the federal victory at Saltillo to urge his advance troops ahead in pursuit of rebels retreating to Torreon and to push the federal column steadily toward the city of Durango. Torreon and Durango are the objectives of two federal columns operating along the railroad line from Canillas.

The government announced that 1,000 rebels had deserted in the state of Sonora, of whom approximately 1,200 surrendered at Naco. With federals in command of Naco the insurgent forces in the far west may be cut off from the rebel stronghold of Torreon.

FEDERAL TROOPS ADVANCE

LAREDO, March 13.—Federal troops under the command of General Almazan have advanced as far as Hipolito, nearly half way from Monterrey to Torreon, the Mexican consul said here today. He said the advance had been made without resistance from the rebels.

REVOLUTIONISTS VERY ACTIVE

EL PASO, Tex., March 13.—Train crews returning to Juarez today reported extensive revolutionary activity in the desert-like cattle country in Chihuahua with cow punchers leaving the ranges and ranchers taking up arms to join the revolt.

These volunteers are being massed to join rebel forces mobilizing in Torreon where a battle against Plutarco Elias Calles is expected in a few days, the trainmen said.

RAPE CASE REVERSED BY HIGH COURT

AUSTIN, March 13.—The court of criminal appeals today reversed the case of Dick Hazzard who was given a death penalty in Comanche county on a rape charge. The court affirmed life sentence against Harley Holland and J. D. Pierce in companion cases. Hazzard's case was reversed because of prejudicial testimony.

New trial was granted James Elliott, who had a 65 year sentence for killing Joe Mackey in Cottle county. Inadmissible testimony was the grounds for reversal.

Mollie Turner, given 20 years for killing her husband, M. B. Turner, in Lynn county, was also granted a new trial because of failure of the trial court to submit a requested charge on accomplice testimony.

A life sentence given Margarito Silva in San Patricio county on a charge of killing Mariana Lane was affirmed.

ASA CHANDLER "COCO COLA KING", DEAD

ATLANTA, Ga., March 13.—Atlanta and the South mourned today the passing of one of its wealthiest and most romantic men, Asa G. Chandler, "the coca cola king," who died yesterday following an illness extending over a period of more than a year.

Wife of Rebel Chief

Senora Aguirre, beautiful young commander at Vera Cruz, Gen. Jesus M. Aguirre.

EFFORT TO REVIVE BOND ISSUE FAILS

AUSTIN, March 13.—An eleven hour effort to revive the \$175,000,000 state bond issue failed this morning when the speaker's ruling against counting pairs was sustained by a vote of 97 to 12.

If pairs had been counted, bond advocates claimed they would have had 101 votes or one more than necessary.

The members whose votes they sought to have counted for the bond issue were Speaker W. S. Barron, Dr. J. C. Sherrill of Bellevue, J. J. Olsen of Yoakum and Dewey Young of Wellington.

Many original bond advocates spoke against an attempt to reverse the action of last Monday when the bond issue failed.

"Where I come from three strikes is out," said Representative George Purl of Dallas. "You can't win a ball game by trying to lick the umpire."

A riotous morning was precipitated in the senate this morning with the introduction of two resolutions bearing on the much muted prison problem.

Senator T. J. Holbrook of Galveston, introduced a resolution requesting the board to make recommendations to the special called session of the 41st legislature regarding relocation and centralization of the state prison system.

Senator Tomas Pollard of Smith, sent up a substitute resolution calling on the prison board, augmented by the governor, lieutenant governor, attorney general and speaker of the house, to make recommendations to the special session. His resolution provided that the prison board could get aid from the faculties of Texas university, Texas A. & M. college and Texas Technological college.

After a tempestuous morning during which the sergeant-at-arms were frequently called upon to act, further consideration of the prison matters were postponed until after the executive session this afternoon.

BIBLE KILLED WHEN RACING CAR CRASHES

DAYTONA BEACH, Fla., March 13.—Lee Bible, trying to set a new world's record, crashed today while making the north run on Daytona Beach. He was killed instantly.

A cameraman was said to have been killed also.

The crash occurred two miles north of the grand stand. The big, black, tri-motored car, J. M. White's triplex, turned over completely and was wrecked.

QUEENS OFF TO BRECKENRIDGE STATE TOURNEY

H. V. Nigro, principal of the high school and coach of the Lebo Queens, will leave with his squad of 13 girls for Breckenridge at 5 o'clock, where the Queens will meet Throckmorton this evening in their first game in the state A. A. U. high school girls' basketball tournament. The game is to be called at 8 o'clock.

Those making up the squad are: Mary Powell, Ola Perdue, Gertrude Van Horn, Verrah Mae Ramsey, Virgie Eager, Lucille Smith, Ida Mae Collins, Lula Grace Kellogg, Maxine Tarrant, Ruby Tolle, Freddie Tolle, Wynn Burnam and Gladys Purvis, members of the team; Beth Kellogg, manager; and Miss Blanche Shear, chaperon.

TO BE SWORN IN

WASHINGTON, March 13.—Patrick Jay Hurley, of Tulsa, Okla., will be sworn as assistant secretary of war at 9:30 a. m. Friday, the United Press was informed today. Hurley was chosen yesterday by President Hoover to succeed Col. C. C. Robins of Iowa.

First Plane Inaugurating Dallas to El Paso Route of T. A. T. Due Here at 11:05 Saturday Morning

Formal announcement of the beginning of service on a new air line to be operated between Dallas and El Paso via Cisco, as one of the key stations, was made by the Texas Air Transport today through Silliman Evans, vice president in charge of public relations.

The first planes will be flown Saturday, March 16.

Cisco will be, in railroad parlance, a division or junction point on this line, and facilities for the care and servicing of planes, and the convenience of patrons of the line will be provided at the municipal airport where the planes will land and take off. Work upon these facilities will be rushed to completion. They include hangars for the planes, gasoline and oil service equipment, accommodations for passengers and so forth.

Six-passenger Pooker planes of the Super-Universal type powered with 400-horsepower Wasp engines will be used on this line. One plane each way daily will first be operated. With the growth of the line this schedule will be revised to include other regular ships.

The schedule which will be followed by the ships with the inauguration of service Saturday is as follows:

Westbound (Central Standard Time):

Leave Dallas 9:30 a. m.

Arrive Fort Worth 10 a. m.

Leave Fort Worth 10:05 a. m.

Arrive Cisco 11:05 a. m.

Leave Cisco 11:10 a. m.

Arrive El Paso 4:30 p. m.

Eastbound:

Leave El Paso 9:30 a. m.

Arrive Cisco 2:40 p. m.

Leave Cisco 2:45 p. m.

Arrive Fort Worth 3:50 p. m.

Leave Fort Worth 4 p. m.

Arrive Dallas 4:30 p. m.

The rates for the service are two and one-half times railroad fare. From Cisco to Abilene the fare will be approximately \$4.16; from Cisco to Big Spring, \$13.75; from Cisco to Midland, \$17.35; from Cisco to El Paso, \$45.05.

Stops on the line will be at Dallas, Fort Worth, Cisco, Abilene, Sweetwater, Big Spring, Midland and El Paso.

The establishment of feeder lines is contemplated in the plans for the operation of this new line which is destined to become one of the most important air trails in the south.

BIRTHDAY GREETINGS

W. H. Kittrell, Sr., is receiving the congratulations of his many friends today on the occasion of his 78th birthday. Mr. Kittrell, though he has passed his "allotted three score years and ten" upon the earth, is remarkably strong and active and would easily pass for a much younger man.

TO NIMROD

Ciscoans who are interested in club work and in the development of the communities about Cisco, and especially members of the women's clubs in the city, are urged to meet at the chamber of commerce Friday night at 7.15 to accompany a motor caravan to Nimrod where the Busy Bee club of that community will have an auction sale. The purpose of the auction is to raise funds to complete payments on the Nimrod club house.

Nobile, Held Responsible in Wreck of Italia Last Summer, Resigns His Rank and Office in Italy

ROME, March 13.—Gen. Umberto Nobile, leader of the dirigible Italia expedition to the North Pole last summer, has resigned his rank and office and the resignation has been accepted. It was officially announced here today.

The report of an official investigation commission last week held Nobile responsible for the disaster, in which the dirigible was wrecked while returning from the North Pole and seven members of the crew were lost.

Nobile's resignation was the result of one of the most tragic Arctic dramas in the history of North Pole expeditions. Commanding the dirigible Italia, the noted explorer had charge of an important aerial expedition over Polar seas for the first time although he previously had crossed the Pole on the Norge.

THE WEATHER

West Texas—Generally fair tonight and Thursday; somewhat colder southeast tonight.

TRANSPORTATION SERVICE.

Because of the fast and dependable transportation service furnished by the railroads, "hundreds, or even thousands of millions of dollars have been saved to shippers during the last several years, not only in the saving of commodities that were formerly wasted, but in time saved, and also—of greater economic importance than both—in capital released for other uses," according to C. W. Banta, vice president of the Bank of America.

HIGHWAYS AND FARM RELIEF.

By bringing the farmer into closer touch with his markets and increasing the interrelation between cities and agricultural districts, improved highways do much toward solving the much-discussed problem of farm relief. The American Automobile association points out that while 5,007,124 or more than one-fifth of all motor vehicles, are owned by farmers, only 7.5 per cent of all farms are located on macadam, concrete or brick highways, while 43.1 per cent of farms are located on unimproved dirt roads.

A TRAGIC JOKE.

In a brief editorial entitled, "This is a Joke," the Cordell, Oklahoma, Beacon recently said: "Many states have laws regulating the sale of revolvers and pistols. Others require that a person possessing a pistol should be licensed. Both regulations are for the purpose of preventing murder. The up to date gangster buys a machine gun. With these new instruments of death he is efficiently armed. Besides they can be bought without red tape and no permit is necessary."

THE ELECTRICAL KINGDOM.

The application of electricity to the necessary tasks of mankind has caused an industrial revolution similar to that of the latter eighteenth and early nineteenth centuries when steam was first harnessed and applied to locomotives, boats and manufacturing machinery. Electricity, by replacing steam in many operations, has caused an era of tremendous further progress along the same lines. Steam power expedited production and increased productivity of

workers; electric power gives each worker the equivalent strength of dozens of strong men. The results are lowered unit costs and prices, increased wages, expanded prosperity and, most important of all, higher standards of living. A few generations ago a laborer was exactly what the word suggested: his assets were the strength of his muscles and the width of his back. In many parts of the world, where industry has not yet triumphed, this is still true. But in the United States and of a lesser extent in the more progressive foreign countries, the industrial worker, instead of swinging a pick turns a switch and guides a machine that is a miracle of efficiency. Twenty years ago our average working week was 60 hours. Today it is 44 hours. The average family income was then \$800 a year, today it is \$2,200. Then ten million people had bank accounts averaging \$700 each; today 23 million people have bank savings of \$1,000 each. And it is estimated that now at least ten million people own securities in our business enterprises. Of such is the kingdom of electricity. And we may believe that what has been done in the past is little more than a beginning to vast achievements of the future.

TARIFF AND MASS PRODUCTION.

"The keynote of the stability of our prosperity is the maintenance of a protective tariff which will preserve unimpaired our incomparable home market, the most extensive and most profitable free trade market of the world, extending from the Atlantic to the Pacific, from Minnesota to Mexico and comprising the diversified products of 48 great states, with a purchasing power immeasurably greater than that of the combined nations of Europe," recently said John Hays Hammond, famous engineer. "Having thus secured mass consumption as a condition precedent, we can avail ourselves of the economic advantages of mass production in a degree unequalled elsewhere. Too much stress cannot be laid on the fact that large scale operation renders possible many economies in production and distribution; that it aids utilization of by-products; promotes steadier employment and higher wages for labor; increases protection against industrial accidents and furthers international trade."

Randolph College Drive, Highway Plans and Other Matters Before Meeting of Chamber of Commerce

All but three members of the board of directors of the chamber of commerce were present at the regular meeting of the board which took place in the directors room of the chamber at 8 o'clock last night. Reports from Mayor J. M. Williamson on the Randolph campaign; W. W. Wallace on highway matters; J. T. Elliott on athletic matters; J. A. Bearman on the status of the clean-up campaign now in progress and other reports were heard by the board.

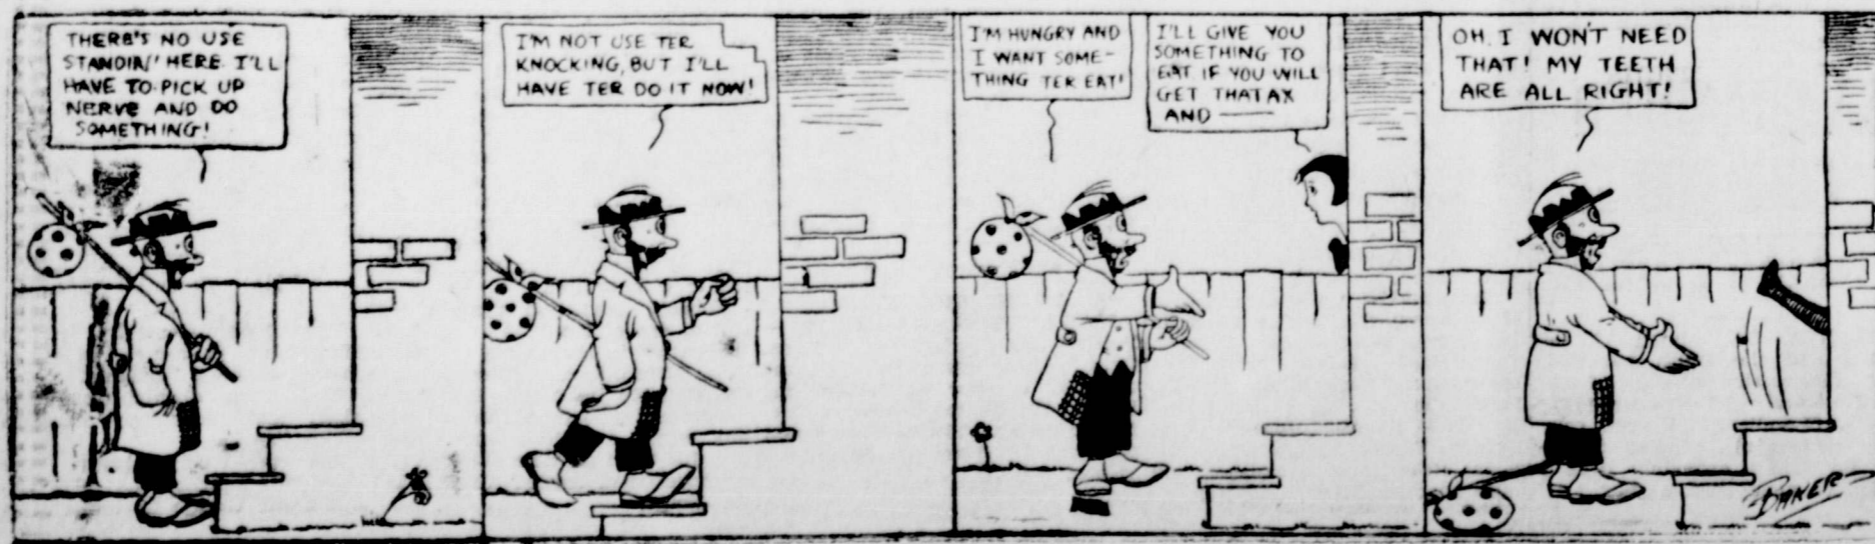

REV. SHEARER TO PREACH HERE TONIGHT

Rev. George E. Shearer, pastor of the First Methodist church at Eastland, will preach tonight at 7:30 at the First Methodist church here. Special emphasis during this service will be placed upon religious education and Sunday school work, the pastor, Rev. Frank E. Singleton, said.

Legislature Will Go Down In History as One of Most Hectic Since Days of Reconstruction

By GORDON K. SHEAR

THE 41st session of the legislature which ends this week will go down in political history as one of the most hectic since Reconstruction days.

A single measure or incident make it remarkable like the session of 1870. Former Governor James E. Ferguson, but all down incidents and measures of major interest will keep alive in memory.

Not spectacular of its events the advance of Hidalgo caravan in a 400 mile drive knock at the floor of the senate in demand for recognition the ancient right of petition.

West Texas the outstanding feature of the session is the beds title bill. Almost as a delegation as that from Rio Grande Valley besieged legislature in its behalf. Final vote over the governor's veto ordered their diligence.

Most important of the Wirtz bill to discipline Hoover. The power it gives to bar the Democratic primaries in all who voted against Alfred Smith probably will never be used.

That the state Democratic executive committee will as candidates any who led "Hooverate" is likely. It is than a year until the state executive committee meets and scheduled time much of the feeling of the presidential campaign will have subsided.

Attempts to repeal the search seizure law caused a fight at the assembly. Backed by W. C. T. U. and the anti-league, the demand for repeal of this act was carried on vehemently. The act penalizing officers for illegal search for Governor Moody is to be asked to submit its repeal at the special session of the legislature to be held in April.

An agreement was reached between the senate and the house which disposition of university and gas leases will be passed in by both regents of the university and the state land commissioner. The compromise includes joint handling by two regents and the land commissioner. Further provision that the commissioner, thus giving an opportunity to contest any regents might favor.

Important Issues Divide.

The road bonds and state relocation which loomed as major issues at the opening of the session, divided in importance as the session progressed and they were whittled down little resemblance of their original form.

The prison bill went back practically to the form to which the administration forces agreed years ago. That authorized prison board to make plans relocation or centralization retained right to the legislature have a final say.

ROTARY CLUB ORGANIZED AT BRECKENRIDGE

Dr. T. T. Roberts, president of Randolph college and a member of the Cisco Rotary club, assisted yesterday in the organization of a Rotary club at Breckenridge. The formation of a club in the Stephens county capital, the object of a series of meetings attended by Rotarians from Cisco, Abilene and other oil belt cities, was finally completed at the luncheon yesterday, officers elected and the new Rotary unit will begin functioning immediately of its own accord.

Officers elected yesterday for the Breckenridge club and its members are:

A. Garland Adair, president; N. S. Holland, vice president; Floyd Jones, secretary-treasurer; W. C. Bagwell, L. D. Hawkins, T. L. Dyer, C. W. Lawson, E. B. Hendricks, E. L. Routh, Rev. Frank McDowen, Dr. W. S. Parks, H. D. Hall, A. W. Whitfield, J. U. Gibbs, J. A. Guthrie, R. G. Miller, W. C. Veale, C. B. Newby, Jno. Ward, Floyd W. Holder, C. B. Newby.

Meetings of the club will be held each Tuesday noon in the Y. M. C. A. building at Breckenridge. That city already boasts a live Lions club which holds its meeting each Wednesday noon in the same building.

JUSTICE IN CRITICISM OF AN ASSOCIATE

SAN ANTONIO, March 13.—Judge W. S. Fly, veteran jurist and chief justice of the fourth court of civil appeals here, was the target of a scorching criticism from his bench associate, Justice Thomas D. Cobbs, in a supplemental opinion last week.

Judge Cobbs charged that Judge Fly and also Associate Justice Edward W. Smith acted "in bad form and bad taste" for criticisms of an opinion he had written in the case of W. R. Corley versus W. D. Cleveland and others, appealed from Willacy county and involving a labor lien on a stock of groceries.

"It would be in bad form and in bad taste for justices to be allowed to criticize each other's opinions," Justice Cobbs said. "The effect on the judge writing the opinion would be to deprive him of his independence and cause him to try to write to please his associates. That I shall never do, nor tolerate improper criticisms."

The criticism to which Justice Cobbs took offense was contained in a paragraph signed by Justice Fly and Associate Justice Smith after they had concurred in the "result" of the decision. The criticism was: "The opinion, however, is but a verbatim copy of the whole appellee's brief, including the discussion and conclusions upon questions of law, as well as a statement of the cause and conclusions of facts. I question the propriety of this procedure."

Chief Justice Fly is one of the oldest jurists in Texas and is a charter member of the fourth court of criminal appeals.

Why Some Women Are So Popular

Beauty's first requisite — skin perfection. Thus, the fairest and wisest use MELLO-GLO Face Powder that spreads more smoothly and produces a youthful bloom. Its new French process makes MELLO-GLO stay on longer and bans the shiny nose. Pure! Prevents pastiness, flakiness, irritation and large pores. Use MELLO-GLO. Moore Drug Co.

So she rubbed and she scrubbed the blankets

but she couldn't get the clothes clean! No wonder. The water was hard. Instead of white fluffy suds, there was a dirty curd in the water. Scum. It got into the fabric. Who wants dirty gray blankets?

She should have washed them in soft water. The hardest city water can be made soft by adding Mello. And what a fine cleaner this water is, with or without soap! How much more effective the soap is! Try Mello in the next washing. Get it today at your grocer's.

SHOOTING INVESTIGATED.
SAN ANGELO, March 13.—Shooting to death Tuesday of Curley Anderson, oil field worker at Elmasho, Crockett county, was investigated by authorities today. A woman arrested at the scene of the shooting told officers that Anderson's death was accidental. His body has been removed to Thorndale for burial.

Reduction -IN- Electric Rates

Lower rates for electricity for domestic and commercial purposes have been made voluntarily by the West Texas Utilities Company. The cost per kilowatt-hour has been reduced.

The New Rate for Residences

- 12 CENTS net per kilowatt-hour for the first four kilowatt-hours used per room per month.
- 9 CENTS net per kilowatt-hour for the next four kilowatt-hours used per room per month.
- 6 CENTS net per kilowatt-hour for all energy used in excess of the above amount.

Determination of Number of Rooms

The room count is based upon the ordinary real estate rating, and in making the count, alcoves, unfurnished attics, bathrooms, cellars, hallways, laundries, closets, pantries, open porches, garages, barns, and outbuildings will not be included. Premises with less than three rooms, real estate rating; will be classed as 3-room premises; those with more than seven rooms will be rated as 7-room premises. THE NUMBER OF OUTLETS AND APPLIANCES USED DO NOT AFFECT THE RATE.

TABLE SHOWING NEW THE NET RATE AND NUMBER OF KILOWATT-HOURS IN EACH STEP.

Size of Residence.	First Step 12 cents per kilowatt-hour FOR FIRST	Second Step 9 cents per kilowatt-hour FOR NEXT	Third Step The new SIX CENT RATE

5 Rooms	20 Kilowatt-hours	20 Kilowatt-hours		
6 Rooms	24 Kilowatt-hours	24 Kilowatt-hours		
7 Rooms or more	28 Kilowatt-hours	28 Kilowatt-hours		
				For all kilowatt-hours used each month over total of first and second steps, per kilowatt-hour.

You will note how few kilowatt-hours per month need be used before you reach the new low SIX CENT price.

COMMERCIAL RATES

- 12 CENTS net per kilowatt-hour for the first 30 hours of maximum demand.
- 10 CENTS net per kilowatt-hour for the next 60 hours use of maximum demand.
- 5 CENTS net per kilowatt-hour for all energy used in excess of the above amounts.

The new rate makes liberal use of electricity for all purposes in commercial establishments inexpensive per meter.

Further explanation of the rates will be given gladly upon request.

THESE RATES EFFECTIVE IN CISCO IN FEBRUARY.

West Texas Utilities Company

STATE ALLOTS \$250,000 FOR EASTLAND ROAD IMPROVEMENT

\$100,000 to Be Spent on Overpass at Harrell's Crossing West of City; All to Be Expended in 1929

The state highway commission has set aside \$250,000 to be used in the betterment of highways through Eastland county during 1929. W. W. Wallace, chairman of the highway committee of the chamber of commerce, reported to the board of directors of that organization here last night.

Of this sum, Mr. Wallace reported, \$100,000 will be expended in the construction of an overpass over the Texas and Pacific railroad at the point known as Harrell's Crossing, three miles west of the city.

Monday contracts are to be let by the highway commission for the widening and toping of highway No. 23 from the Brown county line through Rising Star to a point one mile north of Harrell. Mr. Wallace also reported.

His report followed a conference with District Highway Engineer Cox recently, a result of which

conference is seen in the parallel parking instituted today on D avenue. The change from center parking was made by the city officials in order to cooperate with the state highway commission in expediting traffic over the Barkwood highway through Cisco.

The highway commission, it was further stated, will make a survey of the street situation in Cisco in order to assist Cisco in laying out a program of future paving that will coincide with the program of the state commission for routing traffic over state highways through this city.

Mr. Wallace said in speaking of a conference held recently at Brown on the Barkwood highway situation, that practically all of Cisco's quota for the Broadway of America highway association had been raised and turned over to the proper authorities.

Underwood—United Press
Penelope Anderson of Richmond, Va., who won the final in the ladies' singles of the Bermuda Lawn Tennis Championships for 1929. She defeated Miss M. F. Harland of England in the last round, 7-9, 6-4, 6-2.

"THE HOME TOWNERS" IS GREAT FILM

George M. Cohan has written many plays, but never one quite so merrily human as "The Home Towners," which is now to be seen at the Palace theater, in the Warner Bros' all-star version.

The cast is an exceptional one, all being stars of the speaking stage and the story is that of two middle-aged cronies who come together after years of separation. McWade is the one who has married and settled down in the home town; Richard Bennett, the other, a man who has invaded the Big Town, made much money, and now invites his old-time friend to come to the city to act as his best man. McWade suddenly gets the hunch that his friend is being deceived by the young lady, whom he is sure must be an adventuress. In the city he berates his pal with such earnestness that a quarrel ensues; he faces the girl and her family and accuses them of being all that is not considered right; he stirs up such a general squabble that the girl breaks the engagement; her parents and brother

FARMER MUST SPEND LESS THAN INCOME

AMARILLO, March 13.—When the man in agriculture stops spending more than he makes, we will accomplish more towards farm relief in one year than any legislator could in 10 or 15 years, declared John Fields, vice president of the Federal Land bank of Wichita, Kansas, in an address to the Panhandle Livestock association here.

"We must realize exactly how little we are making from our products and then perhaps we will get mad enough to really get together and fight for the same protection for our industry that is accorded others."

Mr. Fields spent some time in discussing the purchasing power of the cattlemen's dollar as compared to other commodities, asserting that the cattlemen's dollar today was worth nine per cent less than it was during the five year period preceding the World War, while other commodities rated as high as 150 per cent on the same comparison.

SIX PRODUCERS COMPLETED IN THIS COUNTY

EASTLAND, March 13.—Producers and two dry holes were completed in Eastland county during February, official figures issued by the oil and gas bureau at Austin show. There were 12 applications to drill during the month.

Activities for the state show to show a marked decline as compared to the preceding month. Applications to drill in February were 573 as compared to 877 in January; producers were 284 to 437, dry holes 70 to 261, gasens 21 to 28.

Stephens county had seven permits to drill, with 11 completions, of which only four were producers. Callahan 26 producers, 13 gasens, 22 permits; Brown 11 producers, 14 dry holes, 34 permits; Palo Pinto 2 producers, 1 dry hole, 1 permit.

In some parts of Alaska, the thermometer shows 60 below in winter and 90 above in summer.

There are some 22 active volcanoes in Alaska.

NOTED MEN TO BE HEARD AT RANGER MEET

RANGER, March 13.—Three noted speakers will feature the one-day session of the Oil Belt district of the West Texas chamber of commerce, which is to be held here April 18.

Dr. T. O. Walton, president, A. & M. college, has accepted an invitation to attend the convention. He will speak either in the morning or afternoon.

J. M. Bourland, Vernon, president West Texas chamber of commerce, also will attend the session and is scheduled as one of the principal speakers.

Present plans call for J. M. Pelland, president Waco Drug company, to deliver the inspirational address at the luncheon.

TO SPEAK.
AMARILLO, March 13.—Congressman Will D. Upham, known as "Georgia Cyclone," will deliver two addresses in this city March 17 under direction of the Texas Anti-Saloon league.

DELLER FOUND DEAD

BERKEENPIDGE, March 13.—Pending the arrival of relatives, the body of Jim Larkin, 70-year-old drifter, who was found dead in his room Tuesday morning, will be held at the undertaking parlor of the Thompson Furniture company 12-kin was one of the most widely known drifters in this section. He had been in this field for years, and although he had been unable to work lately, he had been active in drilling many of the producing wells around here. Roomers at the hotel where Larkin stayed said they heard him groaning in the night as if in pain, but didn't investigate until morning when he failed to show up for breakfast. He was found dead on his bed about 9 o'clock Tuesday morning, apparently the victim of a hemorrhage, as he was lying on a bloody bed.

The Draks of Borneo do not like beads and a looking-glass and tweezers are an indispensable part of every young man's equipment.

CENTER PARKING ABANDONED ON D AVENUE FOR PARALLEL

Change Ordered by City Commission After Urgent Request From State Highway Department Is Presented

Abandonment of center parking on D avenue, Cisco's main business street over which the Bankhead highway is routed through the city, took place this morning in favor of parallel parking at the curb. Members of the city police and street sweepers were busy throughout last night lining off with white spaces alongside the curbs for the convenience of parkers. The action in removing cars from the center of the street was taken in response to the urgent request of the state highway commission, Mayor Williamson said this morning. The commission from the commission came with the statement that the com-

Asbestos Suits Latest Apparel Out for Reporters Covering Texas Legislative Sessions at Austin

By RUTH BALDWIN COWAN
Austin, March 13.—Asbestos suits are the latest words for reporters covering the regular and special sessions of the 41st Texas legislature. The suits, which are made of a material that is fireproof, are being worn by many of the reporters who are covering the sessions. The suits are being worn because of the fire hazard in the legislature building. The suits are being worn by many of the reporters who are covering the sessions. The suits are being worn because of the fire hazard in the legislature building.

mission felt that center parking contributed to a slow up of traffic over the Bankhead through Cisco. The new regulation will not affect parking on other streets in the city where the regulations will remain as in force formerly. An hour parking limit will be maintained on D avenue and signs to that effect erected at once, Mayor Williamson said. D avenue was thoroughly cleaned yesterday when a crew of city firemen armed with high pressure hose attacked the accumulations of dirt washing it into the sewers. The street this morning presented an appearance decidedly more inviting than before.

press state protection for reporters only. One reporter was mean enough to suggest that invitations be issued to all editors on the day of the hearing, but that they do not be supplied with equipment at the expense of the state. This reporter has the idea that that might be one way of burning up an editor who refused to give his weekly stipend a boost. Senator Miller said that being unfamiliar with prices of asbestos garments, he would have to have a few days to consult with manufacturers. He assured the fashion plates of the legislative press gallery that the suits will be in the very latest style. But the reporters want it made clear that no one on the floor or in the galleries be allowed to carry any sort of dangerous weapon. The scribes feel that they may look just a bit peculiar in the legislative press gallery that lead to Senator Woodward's announcement. Senator Moore didn't think of a speech made by Homer D. Wade, manager of the West Texas chamber of commerce, before the Odessa chamber of commerce, as reported in the Fort Worth Star Telegram under an Odessa dateline. Wade had not been so very complimentary toward the legislature. Governor Dan Moody and the attorney-general's department for their attitude on the Small land bill which would have validated titles to river beds. This seemed to open the valve of senatorial disgruntlement against the press. Seeing at one stage of the slaming that the press table was all but deserted, Senator Tom Deberry, of Red River moved a call of the press.

Lieut. Gov. Barry Miller, spotting a member of the Associated Press at the far end of the table and a representative of the United Press perched on his rostrum for safe keeping, responded that the wire services would see that the word got around. A further check revealed that other reporters had moved out onto the floor. A reporter, like a senator or a representative, likes to be talked about. During the affray, Senator Thomas Pollard and Senator Deberry had seated themselves at the press table. Suddenly after a telling pass had been made at the press, Senator Deberry jumped up. "I'm moving," he declared, "before some one in the galleries gets the idea I belong here." "Me, too," echoed Senator Pollard. Not having the right to defend

himself, all the press could do was sit and grin—which it did, widely. Finally Lieut. Gov. Miller banged his mallet for order. The senate hushed. "Anyway, we have the last word," a scribe was distinctly heard to say.

Many Similarities Between Barron, Speaker of House, and Ex-President Coolidge, Seen by Washington Man

JUNIOR CLASS WILL PRESENT 'GOLDEN WAVE'

The "Golden Wave" from Baylor university will appear here Friday evening on its annual spring tour. That is what the Baylor university band, directed by Everett M. McCracken, has been named because of the gold uniforms worn by the Baylor musicians on all public appearances. The band is being brought to Cisco through the efforts of the junior class of the high school which is endeavoring by this means to raise money for a high school gymnasium and for the annual junior-senior banquet. Tickets for the event are being sold now by members of the class who expect a packed auditorium to greet the band when it appears at the high school. Forty Baylor men make up the Bear Band from Baylor on its 800 mile tour through Western Texas. From all parts of Texas and many other states the band members come to study under the personal direction of Professor McCracken, one of the leading teachers of wind instruments music in the south. Professor McCracken has been head of the Baylor organization since the fall of 1927. He has also been director of the Karen Shrine band since 1920. Since his connection at Baylor he has developed one of the greatest and most efficient concert bands in the whole south and west. Musicians from a large number of northern schools have transferred to Baylor for one reason, that is to study under Mr. McCracken. Many efficient high school musicians have selected Baylor as their alma mater for this reason. Many Texas schools have ex-students in the band. Three associate artists will accompany the Baylor organization on its western tour. They will be Sam Knox of Bryan, Texas, on harimba; J. U. Lee, Jr., of Waco, on violin; and Cecil Porter of DeCatur, on piano.

Calvin Coolidge

Speaker W. E. Barron of the Texas Legislature, and his prototype, Calvin Coolidge.

Austin, March 13.—In his decisive manner, his physical characteristics and ready wit, his self-possession, his vigorous grasp of the business in hand, Speaker W. S. Barron of the Texas legislature is strongly reminiscent of former President Calvin Coolidge, according to W. J. Cobb of the Washington information bureau. Mr. Cobb saw Speaker Barron in action here, and declared his conduct of the house of representatives bears a marked parallel to the former president's conduct as the presiding officer of the United States senate. But Barron has a "better sense of humor," Mr. Cobb said. The visitor praised the Texas legislature as moving with dispatch, and credited much of this to the speaker's effective direction of its affairs. "He has the same decisive manner exhibited by Mr. Coolidge when the latter ruled the senate," Cobb said. "While Barron has a better sense of humor, the determined manner in which he meets each new question is strongly reminiscent of Coolidge."

"WHOOPEE" HAS COME TO THE WHITE HOUSE

WASHINGTON, March 13.—"Whoopee" has come to the white house! A salt and pepper colored Schnauzer dog bearing the merry-making name, was sent to the white house manager from Frances Lillian Gillman of Chicago. It was the first contribution to President and Mrs. Hoover's collection of pets. "I have always taken the 'Prescription' during my expectant periods and it kept me in such good physical condition that I never had any trouble—never suffered as most women do at this time. It not only keeps a woman in good condition but helps to make the child healthier and stronger."—Mrs. C. E. Reese, 148 N. Hill St., Dallas, Texas. The use of "Favorite Prescription" has made many women happy by making them healthy. Get it from your druggist, liquid or tablets. Write Dr. Pierce's Invalids Hotel, in Buffalo, N. Y., for free advice. Send 10¢ if you want a trial package of tablets.
