PROHIBITION SITUATION TIGHTENING

Hoover Endeavoring to Balance Law Enforcement Commission to Emphasize Entire Legal System

BY RAYMOND CLAPPER. WASHINGTON, March 21.—While federal enforcement agencies are making preparations for their most supreme effort to enforce prohibition efficiently, President Hoover is seeking to balance his law enforcement commission so it will deal with all laws and not single out the dry act. President Hoover regards the enforcement of all laws as vital and is opposed to singling out the prohibition law as a special favorite of enforcement agencies. Nevertheless, the chief difficulty in the law enforcement situation arises from the prohibition laws and attention will be concentrated on that regardless of any desire President Hoover may have to prevent over-press agency of his purpose to make the Volstead act effective in humanly possible. There will be no sporadic "drive" but a sustained effort lasting indefinitely. Prohibition has become a more acute subject of discussion here than anything else, due to the general feeling Mr. Hoover is going to put the law to its supreme test. Evidence of a tightening up are seen everywhere, from the restrictions thrown around the importation of diplomatic liquor and the pre-

LONE BANDIT ROBS BRADY BANK \$5,000

BRADY, March 21.—A young man, well known in Brady, and three women collaborated in the robbery of the Farmers and Merchants bank here today. The young man entered the bank during the noon hour when all the employees, except Hal Johnson, the cashier, were at lunch. The lone bandit threw his gun on the counter and demanded all the money in sight. Johnson handed over \$5,000 and the bandit escaped in an automobile, parked at the curb with the three women. The car went in the direction of Mason and was hotly pursued by local officers. The bandit was recognized by Johnson and his capture is expected momentarily. The identity of the three women was not learned. They remained in the car during the robbery.

Splendid Progress Reported Over Past Year in Address of District Governor at Session This Morning

Splendid progress of Rotary in the 41st district was summarized in an accounting of his stewardship which was rendered by District Governor Rue P. Parcells at the opening session of the district conference in the First Baptist church of Ranger this morning. Last July there were 54 clubs—now there are 59—the new clubs being Crosbyton, Canyon, Floydada and Lockney, with Breckenridge not yet chartered. The membership of the district totals 2,597, a gain of 256 members. Twenty-seven clubs show a gain in membership, with seven reporting a decline. Abilene registered the largest gain—20. Attendance in July was 83 per cent, in February it had reached a shade less than 90 per cent with six clubs—Canyon, Lubbock, Pampa, Quanah, Ranger and Vernon—reporting a 100 per cent attendance for the month. The best attendance records from July to March have been made by Lubbock and Waxahachie—each better than 98.50. Two hundred and twenty-four boys are in school who would not be there if it had not been for "back to the school" campaigns conducted by Rotary clubs last fall, the district governor declared. The clubs are doing a vital work through student loan funds, 42 clubs having such funds, which total \$80,450 and are aiding 632 boys and girls. Port Worth leads with a fund of \$30,000, which has assisted 140 students. Temple makes a wonderful showing with a loan fund of \$10,000. That the Rotary club does not encroach upon or hamper the chamber of commerce, Parcells declared, was shown by the fact that more than 90 per cent of the Rotarians in the cities he had visited are active, contributing members of the chamber of commerce. Boy Scout work is being sponsored by the Rotary clubs and 4,500 boys are receiving the benefit of Scout training in the 41st district. A note of inspiration was sounded by the district governor in concluding his address:

REBEL LEADER EXECUTED BY FIRING SQUAD

MEXICO CITY, March 21.—Former General Jesus Aguirre, principal leader of the Mexican revolution in the state of Vera Cruz, was executed today at La Margas, where he was taken last night for court martial after capture by federal troops, according to announcement of the presidency. The presidency announced that the expected attack by the rebels on Mazatlan had not begun at 2:15 a. m. when the federal commander there reported that only a few stray shots had been fired. It was said that the federal garrison entrenched at Mazatlan numbered 2,500 while the rebels appeared to number about 2,000 to 3,000. However, the government believes the federal position, and the natural lay of the city would aid in the defense and no fear for the city's loss was expressed. It had not been decided whether to send reinforcements to Mazatlan from Calles' strong army at Torreon. It was reported here that Calles is at present between Torreon and Chihuahua pursuing the rebel forces.

Most of 300 Men Employed in West Virginia Workings Led to Safety After Terrific Blast

PARNASSUS, Pa., March 21.—Less than five hours after an explosion wrecked the Kinloch mine of the Valley Camp Coal Co., today all but 85 of the more than 300 miners in the workings at the time had been rescued. Fighting their way through the gas filled chambers of the mine, approximately 190 of the entombed men reached safety through the entrance to the Valley Camp Mine No. 1. The entrance to this mine which connects with the Kinloch workings, is about three miles from the shaft where the full force of the explosion struck. A short time later Edward Jones, assistant pit boss, led more than 100 additional miners from the mouth of the Valley Camp Mine No. 1. All were able to walk without assistance. The blast, which was felt for miles, occurred at 7:20 a. m. shortly after the men went to work. It was reported that the tipples was burning. The small mining town of Kinloch was thrown into excitement and many miners, who left the mine after working all night, hurried to the entrance. Several called police, firemen and the Pittsburgh office of the United States bureau of mines. Planes were rushed to send rescue crews to the mine. An explosion occurred in the mine in February, 1928, and several lives were lost. Injured were being removed to the Citizens' General hospital, indicating that the explosion was disastrous.

First Meeting of Cisco Rotary Club Took Place January 6, 1921; Club Charter Delivered in February

Beyond that the club was organized in 1921 and that P. W. Campbell was the first president, very few Cisco Rotarians are aware of very many of the essential facts connected with the institution of Cisco Rotary club. The Daily News, however, by considerable effort unearthed statistics which give all these facts and will enable the members of the club to perpetuate the first records of the organization. Of the 19 charter members only four are still members. They are: E. L. Graham, E. P. Crawford, Frank Harrell and A. B. O'Flaherty. The first meeting of the club was held on January 6, 1921. The club charter was delivered on February 25, 1921, by Lutch Stark, of Orange, then district governor. At the initial meeting on January 6 representatives of the Ranger Rotary club were present. The following article appearing in the Daily News of January 7, 1921, gives an account of the first official meeting: As a result of a movement set on foot several weeks ago by Claude C. Wild and others, who obtained a permit from the international president, last night witnessed the formation of a full-fledged Rotary club for Cisco. H. E. Cole, president of the Ranger Rotary club, was present as representative of District Governor Stark, of Orange, Texas. In an exceptionally nice talk H. Cole explained the purposes of the organization to the nineteen charter members in attendance at the chicken dinner prepared for them at the Mecca cafe, and gave the Cisco Rotary club official recognition. "The big idea of Rotary work," said Mr. Cole, "is service to others and the dissemination of good fellowship, the Rotary motto being 'He profits most who serves best.'" After the adoption of constitution and by-laws and short talks by all present, seven directors were named by the body as follows: John H. Garner, S. P. Parish, Frank E. Harrell, Claude C. Wild, R. E. Mitchell, P. W. Campbell and A. B. O'Flaherty. The directors held a short session later and chose the following officers: President—P. W. Campbell. Vice president—A. B. O'Flaherty. Treasurer—Frank E. Harrell. Secretary—E. P. Crawford. Sergeant-at-arms—E. T. Gunther. Permanent quarters for the weekly luncheons, which will be held on Thursdays have not been decided upon as yet, but a convenient place, with some degree of privacy, will be secured before the meeting of next week. Among the out of town guests present, all of them Rotarians, were Messrs. R. D. Wagman, J. E. T. Peters, E. B. Reid and John Milford of Ranger. Mr. Milford formerly resided in Cisco, but is now the most energetic, progressive undertaker in Ranger, according to his brother Rotarians. Mr. Milford was accused of soliciting business on the streets of Cisco yesterday, but the charge was not substantiated. Doc Leslie, Irish Garner and Pansy Crawford developed real story-telling ability. Others 'ave 'opes. Following is a list of the charter members: P. W. Campbell, L. M. Drown, E. T. Gunther, J. D. Leslie, E. L. Graham, John H. Garner, C. C. Wild, E. P. Crawford, Frank E. Harrell, S. P. Parish, C. V. Rominger, J. E. McDermitt, Sam Fowlkes, A. B. O'Flaherty, Elbert Blease, R. E. Mitchell, John O. Sue, E. C. Patten and Arthur A. Webster.

CATTELMEN TO MEET AT SAN ANGELO

HOUSTON, March 21.—San Angelo today won the 1930 convention of the Texas & Southwestern Cattle Raisers' association. HOBART HEADS CATTELMEN. HOUSTON, March 21.—T. D. Hobart of Pampa, former vice president, today was elected president of the Texas & Southwestern Cattle Raisers' association in the closing session of the 53rd annual convention. Hobart succeeds R. M. Kleberg of Corpus Christi, president for three years, who nominated him. Hobart and all other officers were elected unanimously. The following were re-elected:

Mass Meeting at City Hall Monday Night

A mass meeting of the citizens of Cisco has been called by P. P. Shepard, chairman of the airport committee of the chamber of commerce, to take place at the city hall Monday evening at 8 o'clock. Matters of great interest to all Cisco people and connected with the development of a municipal airport here will be taken up at this time. No solicitation will be made, Mr. Shepard said. The meeting is called primarily to secure the advice and counsel of every Cisco citizen upon a very urgent and important matter.

MINE WRECKED BY BLAST

PARNASSUS, Pa., March 21.—More than 300 men were entombed in the Kinloch mine of the Valley Camp Coal company here today. A terrific explosion which wrecked the mine, officials of the company announced. The explosion occurred at 7:20 a. m., a few minutes after the change of night and day shifts. First reports to the United States Bureau of Mines at Pittsburgh said at least 50 men were killed. But this report could not be verified. Rescue crews of the Valley Camp Coal company and adjoining mine companies were rushed to the mine. A mine rescue car operated by the United States Bureau of Mines was brought here from Curtsville, a few miles away, where it had been held on a siding. Houses for two miles about the mine were racked by the explosion. Witnesses said a shaft of flames shot 200 feet in the air from the mine shaft. It was feared that many of the miners may have burned to death.

MANY REPORTED KILLED

PITTSBURGH, Pa., March 21.—Fifty men were reported killed and many injured when an explosion occurred in the Kinloch mine of the Valley Camp Co., near Parnassus, today.

"Law" Not Highest Power, Says Judge

EASTLAND, March 21.—How does it feel to hold a human life in the hollow of your hand? District Judge Sam Russell knows, for he was in that situation late Wednesday afternoon in the 88th district court in Eastland. O. D. Pruitt, confessed participant in the county-wide outbreak of burglaries, stood before the judge to hear sentence pronounced. Two days before, a jury—trying 10 cases simultaneously against Pruitt—had given him the maximum in each case, the total being 112 years. It lay within the power of the judge to make the 10 sentences run concurrently, which would mean that when the defendant had served 12 years, he would have completed his punishment. Or the judge could make any number of the cases concurrent and any number cumulative, which would mean that Pruitt would have to serve 29 years, 30 years or any other number of years that the judge decreed. Or Judge Russell could make all the sentences cumulative, which would mean that Pruitt would have to serve the entire 112 years—in other words, the judge had it in his power to send the man to the penitentiary for life. The judge ordered the prisoner to stand up. Pruitt, pale from weeks in jail, arose. He was neatly dressed. He stood erect and a slight smile was on his lips—probably an attempt to maintain composure. "You are 20 years old," Judge Russell said. He spoke deliberately, in the manner of a man weighing a problem. "Your home is in Ranger. Your father lives there. Your mother is dead. She died in 1924. You have brothers and sisters. "Have you ever been in trouble before?" the judge inquired. "Yes—in Oklahoma," the prisoner spoke so low that he could barely be heard. "I was in the reform school for three years." "In November, 1927." "Why did you commit all these crimes?" the judge continued. "I guess it was because I thought I could get by with it," came the halting answer. "But you've found out you couldn't, haven't you? You've found out that it didn't pay, haven't you?" "You are young but you will find out before long, there is a Power higher than that power which is called, in slang, the law," the peacemaker said. And that Higher Power is God. "We read that He moves in mysterious ways but we know that, somehow, somehow. He brings to justice those who violate the laws of man and the laws of God. It is a decree of the universe that you cannot escape. "If you go to prison," the judge was speaking again, "determined to be hard-boiled, to make trouble and to escape at the first opportunity, it would be better if you were given the full 112 years, for such a determination must end either in your being killed or in your being tried and sent back to prison. "But if you go down there, determined to make yourself into a man, to put behind you the things you have done and to prepare yourself not only for this life but for the life to come, you can yet do worthwhile deeds. "I am giving you a chance." Judge Russell then imposed sentence in each case, making two of the 10-year terms run cumulatively, the remainder concurrently. "That means that when you have served 12 years, if you have a good record, you will be eligible for parole." Pruitt was asked if he desired to say anything further but answered that he did not. Sheriff Foster escorted the 20-year old man from the courtroom. He may be nearly twice that age before he breathes the air of freedom. "Court is dismissed until 9 o'clock tomorrow morning," said Judge Russell.

felt a thrill, an emotion such as no drama of the stage or screen had ever given. "If you go to prison," the judge was speaking again, "determined to be hard-boiled, to make trouble and to escape at the first opportunity, it would be better if you were given the full 112 years, for such a determination must end either in your being killed or in your being tried and sent back to prison. "But if you go down there, determined to make yourself into a man, to put behind you the things you have done and to prepare yourself not only for this life but for the life to come, you can yet do worthwhile deeds. "That means that when you have served 12 years, if you have a good record, you will be eligible for parole." Pruitt was asked if he desired to say anything further but answered that he did not. Sheriff Foster escorted the 20-year old man from the courtroom. He may be nearly twice that age before he breathes the air of freedom. "Court is dismissed until 9 o'clock tomorrow morning," said Judge Russell.

Alexander Hamfield, Prominent Cisco Oil Man, Drops Dead Here Suddenly Following Heart Attack

Funeral for Alexander Hamfield, who died here suddenly yesterday, will be held at 3 p. m. Friday from the Episcopal church. It was announced at 2 o'clock this afternoon. The body of Alexander Hamfield, 65, is being held at the Green Funeral home here, pending burial arrangements, after his sudden death yesterday noon due to what doctors said was a heart attack. Mr. Hamfield was found lying in the front room of the B. T. Riddle home at 908 N. avenue, yesterday by Mrs. Fleet Shepard who had called to see her mother, Mrs. Riddle. An inquest was conducted at the funeral home at one o'clock by Justice of the Peace J. H. McDonald, whose verdict said that death was due to an attack of heart trouble. Funeral arrangements await word from a brother in Sweden and a daughter in Minnesota. Another daughter in Fort Worth has been notified. Mrs. Hamfield and their two daughters are all of the immediate family surviving. Mr. Hamfield was born in England. For the past four years he had made his home in Cisco. He was an independent oil operator with extensive holdings over this section and was well known throughout the oil belt. The funeral will be conducted with the ritual of the Episcopal church of which Mr. Hamfield was a member. MRS. GRAHAM TO REPRESENT CISCO ROTARY Mrs. E. L. Graham will represent the Cisco Rotary club in the receiving line at the tea to be given visiting Rotary Anns in the Green room of the Gholson hotel at Ranger this afternoon from 3 to 5 o'clock. This tea will be a feature of the convention of the 41st district of Rotary, sessions of which opened today to continue through Friday. THE WEATHER West Texas—Generally fair tonight and Friday. Slightly warmer southwest tonight. East Texas—Mostly cloudy tonight and Friday; thunder showers east portion tonight. Arkansas—Cloudy, showers in eastern portion tonight. Friday, partly cloudy.

CITY TRAFFIC AND TOURISTS.

Most cities like to have tourist visitors. Yet traffic conditions in many are so complicated that more and more tourists try to avoid them instead of passing through them. A motorist would rather take a long detour to go around a busy city than attempt to brave its congested streets, its peculiar traffic rules, its lack of parking space, and its absence of easily distinguished route markers.

The American Automobile association has been looking into the situation. It believes that the unsatisfactory conditions found could be remedied by the cities themselves, since they are largely related to local methods of handling traffic. Further improvement could be effected by establishing uniform regulations of speed, parking and signals throughout the country, so that a motorist from one state would not be continually confused by strange rules in every state, city or village along his route.

Incidentally, every community that simplifies its traffic situation for visitors would at the same time simplify it for residents. Enterprising, progressive cities are getting after this problem right now, with the approaching touring season in mind.

AIR INSURANCE.

At last aviation is going to be taken care of adequately on the insurance side. Sixteen companies possessing assets of \$330,000,000 have combined to form the Associated Aviation Underwriters, prepared to take care of all classes of airplane risks. This includes damage by fire, accident, tornado and windstorm, property damage, public liability, workmen's compensation and loss of use. This should help greatly to stabilize the aviation industry and enable it to go ahead confidently. Prospective losses from any of the causes mentioned can now be discounted and set down as normal business expense. Those losses, as the industry develops, will naturally grow less, and rates will sink accordingly. Nothing is said, in this connection, regarding life insurance for pilots and passengers. That will come, and will soon be within the reach of everyone interested in flying.

BOUQUET FOR MEXICO.

"After the present strife and turmoil, Mexico will find a way out, and America will be proud to have her as a neighbor." This is the judgment of S. Wade Marr of Raleigh, N. C., director of International Rotary. He recently attended a Rotary conference in Vera Cruz, before the rebels took that seaport. "My impression of the Mexican," he says, "is that he is gentle, kind and considerate as any American citizen. Between Mexico and Europe I would select Mexico, and if the dollar were stabilized, I would not regret moving there." That is the way Ambassador Morrow seems to feel about it. Only he, with all his knowledge of Mexico, doesn't worry about Mexican cartwheels. Others who really know the Mexicans will readily add their testimony to the qualities of a race too little appreciated in the United States. Maybe what Mexico needs particularly is more Rotary clubs.

A special session of the new congress will convene April 15. It may sit all summer and after it has ceased to sit the farmers will know the brand of relief they are to be given by the Hoover administration. Those who are interested in the tariff will know just what they may expect in the future. On April 15 a special session of the Texas legislature will assemble in the city of Austin—it is to be hoped to enact constructive laws which affect the pockets of the people as well as the general welfare of the commonwealth.

Wall street insists that it isn't gambling to bet stocks will go up. Maybe it's astrology or clairvoyance.

REWARDING SAFE DRIVERS.

While efforts are being made to curb and punish careless drivers, nothing much is done to encourage and reward the careful drivers—of whom there

are many in every community. A New York department store, as part of a safety campaign, takes pains to express appreciation for careful driving on the part of its delivery men. The store offers a bonus of five dollars to every driver who has no mishap over a period of 25 days. Recently 16 men were paid \$65 each on this basis. Six of them were given additional awards because they had driven delivery trucks for two years without the slightest mishap, even to scratched paint or dented fenders. Perhaps there would be still less careless driving if there were more such awards, given by cities as well as by private concerns. The incentive of possible reward might prove a more inspiring factor than the fear of punishment.

A cow, so a judge decides, always has the right of way, which is no news to motor tourists.

THE MODEL MILE.

North Twenty-second street, Philadelphia, is a wonderful sight these days. It is so clean, you could sit right down and eat on it. Not a trace of rubbish for blocks and blocks. No tin cans, no broken glass, no papers, no inner tubes, no orange or banana peels, no dust blowing around. The women did it. Wherever you find anything particularly clean, you may be pretty sure that women are to blame. Some of the feminine residents on that street simply decided that they had had enough street dirt, and proceeded to clean up their block. The infection spread from block to block until there is at least a mile of it—the "model mile" they call it—and is still going strong. That's fine, as long as the street holds out. And why confine it to one street? Or one city? Woman's place may be in the home, but the home is spreading out considerably. And woman's favorite weapons—the broom and the garbage can—are just beginning their conquest.

The world's full of men and women who can't multiply four by six without getting seventeen, and yet are trying to understand the Einstein theory.

A SOCIAL CRISIS PASSED.

It is hard for plain citizens who have never visited the nation's capital to understand the gravity of the social problem raised by the fact that the vice president's sister is to be his official hostess during his term of office. All Washington society was reported as much worked-up over Mrs. Gann's official status. Should she be treated as a vice president's wife is treated, or should she hold lower rank in the social scale? It looks bad when the senate ladies refused to make her president of their club—a position always held by the wife of the vice president. They made Mrs. Gann merely an associate member. The matter has been settled at last by the only authorities apparently having the final word. It was submitted to the president and his wife, and shortly thereafter announcement was made that Mrs. Gann will rank second only to Mrs. Hoover. The question of what will become of Mr. Gann at public functions when his wife and his brother-in-law sit next to the president and the president's wife remains unsettled. Perhaps that isn't important. Husbands at social gatherings are usually relegated to the background anyway.

Now that President Hoover has been made a Boy Scout, all you have to do is drop into the white house early some morning and offer him a chance for his daily deed.

20 RATTLERS EXTERMINATED NEAR BAIRD

BAIRD, March 21.—One of the many exciting sports in West Texas, at the beginning of spring, is the hunting of rattlesnake dens and the killing of the snakes before they leave their winter homes. The first kill of the season in this territory was made Sunday by D. S. McGee, Ed Ivey, John T. Asbury and James Asbury when they raided two dens and killed 20 "diamond back rattlers." The snakes were mostly large ones with from 8 to 12 rattles. The largest measured four feet and eight inches in length, but its rattles were broken off with the exception of six or eight, and he bore scars that showed he had been in previous battles. Ranchmen and stockmen have encouraged the hunting of these dens and some have paid bounties to get the snakes

killed on their ranches. The rattlers have been thinned out considerably during the past few years and are now found only in the most remote places. The above mentioned snakes were killed on ranches about six miles northeast of Baird.

GRID STARS TO "SCHOOL"
NEW HAVEN, Conn., March 21.—Head Football Coach Mal Stevens won't begin to drill his Yale football squad for some time yet, but he has already started to limber up the Eli brains—something sports writers said was last fall's team's weakness. The team meets weekly for a discussion of plays and strategy.

It cost a Texarkana man a \$10 fine, court costs and a day in jail to steal a cheap pocketknife from a store there.

COUNTY BOYS PRACTICE FOR JUDGING CONTESTS

Preliminary Meet to Be Held at Lee Diversified Farm Here Next Tuesday; 19 Schools to Take Part

Eastland county club boys are grooming themselves for the state contests in judging to be held April 22 at the Agricultural and Mechanical college at College Station. The annual practice judging contest of the vocational department of the Cisco high school will be held next Tuesday at the Lee Diversified farm under the direction of E. H. Varnell, teacher of vocational agriculture in the school.

Schools from all over the county as well as several in counties outside of Eastland will participate in this practice contest. Mr. Varnell said today that 19 schools will be represented.

The contests open at 9 o'clock Tuesday morning. No prizes will be given since the meet, while it is expected to be large, is purely a practice affair in preparation for the contests at John Tarleton college and A. & M. college, the latter, as said, the state contest where teams of club boys from all over the state will gather to compete for the privilege of attending national meets.

The team winning the state contest in livestock judging will be permitted to attend the American Royal Livestock show in Kansas City this year, and the team winning the dairy judging contest will be eligible to attend the national dairy show at Memphis, Tenn. Plans are being made to send the winners of the poultry judging contest to some

large poultry show out of the state, preferably the Madison Square Garden show.

The following is the program for the practice contest here next week: Plant Production—Joe W. Edwards in charge. Cotton—classing, budding and grafting, grain judging—with classes as nearly approaching those at A. & M. as possible will be arranged. Each contestant should have his own knife. Staples for patch budding will be furnished, or contestants may use their own knives.

Stock Judging—F. A. Lloyd in charge.

1. Class fat steers—oral reasons.
2. Breeding gilts or sows—score card.
3. Class of mutton sheep—score card.

Dairy Judging—Ben Whitehouse in charge.

1. Class mature Jersey cows—oral reasons.
2. Class Jersey heifers—score card.
3. Class Holstein cows or heifers—score card.

Poultry—C. H. Colvin in charge.

1. Class exhibition Reds.
2. Class exhibition Rocks.
3. Two classes production Leghorns.
4. Class white market eggs.
5. Class brown market eggs.
6. Examination as for A. & M. contest.

Entomology—Amounts of some 15

to 25 of the insects listed for the state contest will be available. Several insecticides will be available, and the contest conducted as near like the state contest as possible. Five boys from each school may enter the contests. Entries will be allowed from any regular all-day vocational class.

C. M. HEALD TO TALK AT DAIRY MEET

C. M. Heald, Taylor county agent, will be the speaker at the meeting of the Cisco Dairy Night school at the chamber of commerce this evening. The hour for the school has been moved from 7:30 to 8 o'clock. Mr. Heald, formerly county agent at Cuero, was largely instrumental in the establishment of the cream routes there which have become famous and from which the Cisco

routes were modeled. He will discuss this feature of the dairy industry. "I am particularly eager to have a large number of dairymen, and especially cream producers, present," said E. H. Varnell, vocational agriculturist.

LIFE IMPRISONMENT. GALVESTON, March 21.—Life imprisonment was the verdict imposed upon Pete Lopez by a jury in Judge J. C. Canty's court Tuesday. Lopez was charged with murder of his former wife, Esperanza Quantos, on Nov. 17, 1928.

NEGRO INDICTED. WACO, March 21.—The McLennan county grand jury late Tuesday returned two indictments charging Jordan Scott, negro, with the murder of R. H. Podigo and his wife, Mrs. Mamie Podigo, at their home near Mossy March 7. Scott's trial likely will be set for Wednesday of next week, it was said.

GAS COMPANY MOVES. LUBBOCK, March 21.—The main offices of the West Texas Gas company, which now operates in two score Panhandle cities and towns,

are to be moved from Amarillo to Lubbock in the near future, according to word received from the company headquarters. The transfer probably will be consummated by early summer.

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

Coughs...

Pertussin

PERTUSSIS is made by a special (Taschner) process to relieve coughs quickly by removing the immediate cause. This cause usually is accumulated mucus, dust, inflammation or irritation. PERTUSSIN, by helping nature to expel the phlegm, and by soothing the irritation, quiets the cough. It is entirely free from harmful drugs. That is why Doctors have prescribed it for a quarter of a century. At all drug stores.

ARS, OUT OF CONTROL, HIT 2 BUILDINGS

J. W. Mancill will probably be known as the most selfless woman in Cisco after an accident Monday afternoon about 10 o'clock when the Buick sedan she was driving got out of control while driving down "standpipe hill" on the south side of the Baumer Hotel. The car crashed into the front of the Baumer Hotel and the Laguna hotel. No one was injured in the accident, although E. A. White, wife of the manager of the company, who was seated at a desk in the front of the Buick, narrowly escaped. The car precipitated itself through the front wall and entirely into the building, wrecking a partition and three timbers all about Mrs. White. Some of the pieces of furniture in the room was severely damaged, also.

Mrs. Mancill's car suffered a broken headlight and a punctured tire in addition to a few scratches of the finish. Mrs. Mancill herself, uninjured, was remarkably calm and unshaken by the incident.

The second accident of the character occurred shortly after 7 o'clock Monday morning when a sedan driven by A. J. Ward got out of control after striking a small coupe and ran into the front of the Spencer building on Broadway. Mr. Ward was considerably shaken by the impact. His car, after striking the building, which was backing out from a parking position, reversed across the street, encountering the brick wall of the building between the J. L. Litwack stand and the vacant section of the Spencer building. Damage to the building consisted principally of a broken plate glass window. Mr. Ward's car sustained no damages.

McBRIDE CASE CONTINUED AT BRECKENRIDGE

The case of the state of Texas versus C. B. McBride, of Cisco, charged with murder in connection with the fatal shooting of John Glenn, a Breckenridge oil well supply dealer, on Thanksgiving day, 1927, was continued to May 20 by District Judge C. O. Hamlin of the 90th district court at Breckenridge Tuesday morning. The continuance was granted on a motion of defense counsel Bill Saunders and V. L. Shurtleff who told the court that a material witness for the defense—Virgil Roart—

was absent. The court assessed a fine of \$500 against the absent witness and issued an attachment for him.

McBride, an independent oil operator, was tried at Breckenridge in December of 1927, receiving a sentence of 45 years in the penitentiary after the jury had returned a verdict of guilty. The court of criminal appeals later nullified this decision and remanded the case for a new trial.

Strawn Bank, in Palo Pinto County, Chosen Depository For Stephens County Over Breck Institutions

BRECKENRIDGE, March 21.—The Strawn National bank located at Strawn, Texas, has been chosen as the depository for Stephens county funds.

This decision was made in the Dynamite City of Texas when bids from local and neighboring banks were opened and the Strawn National found to be the one offering the highest rate of interest on Stephens county money.

By the decision of Stephens county commissioners within the next week nearly one million dollars will be transferred from the First National bank of Breckenridge to the Strawn financial institution.

County Judge W. J. Arington said today that the bid submitted by the Strawn National was 30 per cent greater than that submitted by the First National bank of this place, adding: "We are sorry to see the deposits go out of the

county, but the statutes require that we name as depository the bank, banking corporation or institution offering the highest interest bid for the funds.

He further stated that the law requires the out-of-the-county bank to establish some person or firm here in Breckenridge where all checks written by the county treasurer must be cashed without a delay.

Much criticism was voiced on the streets Tuesday by citizens discussing the matter, all of whom regretted that the million dollars in deposits is to be transferred. No animosity is expressed against Strawn or the Strawn National, however. The general sentiment is of regret and approval.

According to the latest issue of the Texas Bank directory, the Strawn National has a capitalization of \$50,000 with \$2,100 surplus and \$36,000 deposits.

By the transaction the deposits of that institution as shown in the 1928 directory, will increase three

fold, possibly by the time the next call for bank statements is issued.

The following eight banks submitted these bids, as taken from the records of the county commissioners court:

The Texas State bank of Eastland offers bids as follows: 3.05 per cent on not more than \$200,000 and not less than \$100,000. On road bond sinking fund interest to be computed and credited to county monthly, or will bid 3.05 per cent for \$150,000 and 2.95 per cent on \$50,000 on R and B fund.

The Commercial State bank of Breckenridge offers to bid 2.50 per cent for Stephens county bond sinking fund, 2.50 per cent for Stephens county school funds, 2.50 per cent for Stephens county general R and B fund, 2.50 per cent for Stephens county jail funds, 2.50 per cent for Stephens county school funds 2 per cent of all funds of Stephens county as above set out are awarded us, we will pay 2.77 per cent computed on daily balances.

The Continental State bank of Gorman: We offer 3.05 per cent on \$100,000 to \$300,000 of Stephens county bonds sinking fund, interest computed on daily balances.

Elizaville State bank of Elizaville: We offer 2 1/2 per cent interest on \$200,000 bond sinking fund.

Strawn National bank: We offer 3.05 per cent for Stephens county bond sinking fund; for Stephens county general R and B fund, 2.50 per cent; for Stephens county school funds 2 per cent of all funds of Stephens county as above set out are awarded us, we will pay 2.77 per cent computed on daily balances.

Tom Green county celebrated its fifty-fifth and Coke county its fortieth birthday on the same day this week.

The First National bank of Gorman: We offer to pay interest at the rate of 3.05 per cent for \$300,000 of Stephens county bond sinking fund and will pay 2.50 per cent for \$100,000 R and B, computed on daily balances.

The Exchange National bank of Eastland: We offer 2.65 per cent on \$200,000 road and bond sinking fund.

EXPLORER'S BODY STOLEN BY GHOULS

HORSE CAVE, Ky., March 21.—Found by bloodhounds only 500 yards from its resting place, in Crystal Cave, the body

of Floyd Collins was back on exhibition Wednesday.

The body of the explorer, who met death several years ago while exploring a cave he had discovered, was stolen from its metal and glass casket yesterday, Dr. H. B. Thomas, owner of Crystal Cave said.

He said when he and attendants went to open the cave they found a chain on the door broken and the empty casket 160 feet away.

Bloodhounds were called in and taking a scent from the

coffin, ran directly to the body on the bank of the Green river, 500 yards away. The only clues to the ghoul were a suit of overalls, a cap and a pair of gloves near the body. Mountaineers of the section, aroused by the theft, searched three counties for the culprits.

A lumber mill at Newton resumed operations after being closed down for two years.

COMMANDER EIGHT CONVERTIBLE CABRIOLET, \$1655. With 116-cylinder motor, \$1495. Six wire wheels and trunk rack standard equipment. Commander Eight Coupe, \$1495. Commander Six Coupe, \$1350. Prices at the factory. Bumpers and spare tires extra.

THE fine and final touch of modern motoring—straight eight power—now lends its liquid fluency to Studebaker's famous Commander!

The new Commander, now available as either an eight or a six, worthily succeeds to the renown of its illustrious predecessor, which sped 25,000 miles in 22,968 minutes.

The Commander's potent appeal of tireless speed is admirably matched by youthful, vivid style. Lines are lower and longer because of Studebaker's costly double-drop frame. Even in repose, you sense The Commander's fleetness, and its power, and its brilliant deportment.

Restful riding, such as motoring never knew until Studebaker introduced ball bearing spring shackles, is still further enhanced by hydraulic shock absorbers.

The sum of the new Commander's qualities, make it now, more than ever, "the greatest motor car ever built and sold at its low One-Price price."

Stepping Up Motor Car Quality without stepping out of the Low-Priced Field . .

THE New Pontiac Big Six is a low-priced car. Its prices range as low as \$745. But that is where its similarity to other low-priced cars ends. In performance, in style, in luxury, it offers the advantages of a fine big car.

It has all the superb smoothness and lack of vibration characteristic of a big car. It offers the big car symmetry and beauty attained by the use of stunning new Fisher bodies.

Thus it is that the new Pontiac is enabling progressive buyers to step up the quality of their automobiles without stepping out of the low-priced field. Come in to examine it and drive it. Learn by investigation what a decidedly advantageous "buy" it represents.

Prices \$745 to \$1295, f. o. b. Pontiac, Mich., plus delivery charges. Bumpers and rear fender guards regular equipment at slight extra cost. Check Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

Rumors of Further Impeachment Proceedings Indicate That Mania In Oklahoma City Is Not Yet Past

OKLAHOMA CITY, March 21.—The gubernatorial impeachment proceeding out of the way, Oklahoma prepared today to be ruled by a new governor for the next two years.

The removal of Henry S. Johnston from the office of governor yesterday on a charge of general incompetency, and the elevation of Lieutenant Governor W. J. Holloway to the chief executive's chair, was not expected to be the end of this state's current impeachment mania.

Rumors, with a semblance of truth, were cast freely about hotel lobbies last night that the present legislature would proceed immediately to consider impeachment charges against three supreme court justices. The regular session of the legislature was over Monday, but borrowed time and determination of certain members of the house forecast consideration of the judiciary committee's report of the late supreme court.

Johnston was impeached on seven charges of corruption and incompetency. The eleven articles are: issuance of a pardon to D. Crosthwaite, fugitive murderer; diversion and misrepresentation of funds paid J. W. Eldridge, an investigator; unlawful issuance of deficiency certificates in state banking department; creating jobs for assistant attorney, law clerk, and stenographer in the years 1927-28, 1928-29 (two separate articles); unlawful expenditures pursuant to illegal contract with Kirby Fitzpatrick as attorney for the state banking department; unlawful deficiency certificates for the state issues commission for the years 1927-28, 1928-29 (two separate articles); deficiency certificates to C. B. Schuman and D. H. Linebaugh as agents of the court in the supreme court's contempt controversy with O. O. Owens, calling out the militia to prevent a special session of the legislature in December, 1927; and general incompetency.

The charge of calling out the militia to prevent the legislature from meeting in December, 1927, was dropped by the house board of managers during the prosecution of the case. Conviction upon any one of the remaining ten charges is tantamount to removal from high office to which he was elected in November 1926.

The fight on Johnston began many days before the first day of the legislative session. The first skirmish was a defeat of the governor. This defeat came when Alvin Street, classed as an administration supporter, resigned the speakership of the house after being elected to the office but two hours. James Nance, a strong anti-administrationist, was elected speaker.

On January 11 the general investigating committee of the house began delving into Johnston's official record. On January 13 the house adopted five impeachment charges against the governor. The date received the charges January 21, and immediately suspended Johnston, elevating Lieut. Gov. W. Holloway to the chief executive's chair.

Within a few days the house had considered eight more impeachment charges, and adopted six of them, one of which was dropped by the house board of managers.

Governor Johnston appeared before the senate impeachment court January 31 and pleaded not guilty. The trial was set for February 11.

Then followed five weeks of testimony by both sides. The prosecution presented its case in twelve days. The high point of the defense testimony was the appearance himself on the witness stand, whence he occupied for seven days. During that time he reviewed his political history from the time he was county attorney of Noble county, Oklahoma, until impeachment.

He defended his administration, and made a good witness for himself. On cross examination by the prosecution attorneys he put the words of ridicule on his accusers more often than they put it on him. He did not have to "back up" once during his examination by his prosecutors.

The defense rested its case Saturday, March 16. The prosecution began presenting rebuttal testimony, and at the conclusion today turned the case to the consideration of the senate court, a body of 44 senators, 32 Democrats and 12 Republicans.

Johnston's recent political life has been more or less a nightmare to him. The prologue was more his liking. He was president of the Oklahoma constitutional convention and spoke the first words of Oklahoma when assumed the mantle of statehood. He was defeated twice for congress, a Democrat in an overwhelmingly Republican district.

In 1926 he campaigned for the gubernatorial nomination, and got on a platform which upheld Ku Klux Klan. He was supported in the campaign by Mrs. O. Hammonds, a member of the women's klan organization.

Johnston was elected and took office in January, 1927. Mrs. Hammonds was appointed confidential secretary to Johnston.

In the summer and winter of 1928 rumors of dissatisfaction with Johnston were heard and threats of impeachment were cast freely.

TRAIN WILL BE CONTROLLED WITH VOICE

SCHENECTADY, N. Y., March 21.—The ambition of every youngster to have a train that will stop and go at the command of his voice, is realized in a voice-controlled locomotive developed by the General Electric company.

"Casey Jones," a toy electric locomotive, starts forward, reverses or stops at the instant it is commanded to make any of these operations, and it never makes a mistake, providing the orders are properly worded.

The voice-controlled locomotive is a development of the laboratories of the General Electric company. Orders are issued through an ordinary telephone transmitter and the action of the train is dependent upon the voice impulses into the transmitter.

The command "Go ahead, Casey" is carried through a radio detector tube to a special selector which determines the polarity in the track and upon this polarity is dependent the direction in which the locomotive moves. Three or more syllables operate the relay and the selector to provide for forward movement of the engine. An

order in two syllables—"Back up"—sends the engine backward and the single word "stop" breaks the circuit and "Casey" comes to a standstill. By moving the transmitter from the mouth, the operator may carry on considerable chatter to "Casey" without affecting the operation of the train. The transmitter is particularly sensitive to syllables and the operator may direct Casey to travel around the track and stop at a designated point. By blowing into the transmitter the operator is able to check the engine at any point.

The tiny locomotive with an electric headlight is made of a light-sensitive cell, known as a photo-electric cell. Every round trip of the locomotive is recorded on a counter which is quite similar to that now in use in the Holland Tube in New York to count automobile traffic.

The apparatus used in the voice-controlled train has many possible practical applications in addition to its fascinating possibilities as a toy. By the use of this development, the householder may command the furnace to open from a telephone at his bedside. Elevators may be vocally controlled, providing always that the correct formula of one, two or three syllables is used.

Thinking he saw a peeper outside the window, a San Angelo man made a flying tackle for "him" and hurt his shoulder severely when the man proved to be a clothes line post.

ARAB DANCE ADDICTS

JERUSALEM, March 21.—The modern dance craze has spread to the Arabs of the Middle East, where the publication of the first book in the language of the desert denizens on "latest methods for learning modern dances," enables the city youth a few generations removed from the black goat-hair tent to keep as up-to-date as

the western man-about-town in the newest steps. The Arab book was written by Naim Azar, member of the "Union of Dance Teachers" in France, and of the Academy of Dance Masters in Paris. The book has two prefaces written by Paul Raymond of the Paris Opera, and Mme. G. Lefort, president of the Academy of the dance masters in Paris. To judge by the keen-

ness with which the east is studying the intricacies of the latest dances, the book should run into a few editions.

First Artesian Well in This Part of Country Drilled Many Years Ago at Wayland; Fine Water Was Found

(Editor's Note—This is one of a series of articles on early days in this country written by Isham Lamb of Cisco.)

The first artesian well in this country was drilled at Wayland. You will find them at most of the homes in the Wayland valley and the water is fine. Some of the finest gardens I ever saw were in the Wayland valley irrigated by the water from these wells. Speaking of irrigation, this country has the best natural advantages for artificial irrigation of any country. There are places that with a team and scraper in one week's time you can dam up a pool that would furnish a supply of water the year around and enough to irrigate a good orchard and garden and prevent the washing away of much good soil. These pools in many places would have a gravity fall so that no pumping would have to be done.

I now leave Stephens county and return to Eastland county and lap over into Callahan county. It is true, I am wandering around quite a bit but the earlier settlers were scattered also and I am hunting them up like we used to hunt cattle. I am writing for the Round-Up so I want to hunt up the old bunch who were here before the wire fences were put up and if possible gather all the old brands of names going up the Salamao west of where the Cisco and Rising Star road now is. There were a few settlers but most of the country was uninhabited in 1879. The old Anderson ranch was one of the first places settled. I do not know who settled and improved the place but it was the pioneer home of that community.

James Bell—we called him "Fatty"—and his son, Dock Bell, were early settlers. Others were Dock Pollock, who I knew in Coryell county before we moved west, Judge Black, who was I think the third or fourth county judge of Eastland county. George Speer, James Arnold and West Wheeler, a blind man, who was the wonder of the country on account of his wonderful touch, being able to tell you the color of a cow or horse by the skin he could tell you whether it was spotted or not. Went where he pleased and always found his way. He was a wonder.

James Cade and sons were early settlers. One of the Cade boys was hanged by a mob in 1885. The writer was selling and setting up binders and threshers and left Putnam at 2 o'clock in the evening and passed in a short distance of where Cade and another man was found hanging the next morning. I did not hear of it for three days after, as I was on my way to Brown county. I canvassed three or four counties and rode day and night as I could get no one to help me that knew any thing about a binder.

I had some interesting experiences that year, which I will tell of later, but back to the old herd of early days, that part of the county had snow every day in the year no difference how hot it was, for Jack Snow went to that part of the country and stayed with it for many years. Judge Hager and Brother J. M. Baker, a Mr. Hyatt, Mr. Harmon, Rob Williams, R. R. Wells, who served as county surveyor for many years, Mr. Acker, that broad-shouldered general, General Brooks, who was always in a fine humor and gave you a hearty welcome to his home when ever you called at his home. Rev. R. C. Forbes, Bill Brison, C. C. Atwood, big and jolly, Dave Allen, W. R. Smith, who was head and founder of the Smith family in that part of the country, Buck Johnson, W. L. Baird, Henry Flems, H. C. Ray, Weldon Grimes, son of Billy Grimes that good man

they used to sing about, Josiah Cox, Uncle Sy we called him John Cooper and B. P. Weaver who for a number of years held down the line dividing Eastland and Brown counties but after others moved in they moved to Rising Star and are still living there hale and hearty just 80 years.

MOODY SIGNS FURLOUGH FOR TWO CONVICTS

AUSTIN, March 21.—Before leaving for the cattlemen's convention at Houston Tuesday Governor Moody signed a furlough for two convicts, Henry Barber and Henry Barber, serving murder sentences from Bowie county. Each was given 90 days furlough while the governor studies their case. They were convicted in 1922 of killing another negro who had killed their father and threatened them. The governor's proclamation recites: "They have served eight years of the five to fifteen year sentence given them. Both are prison trustees."

HUGE MILK PLANT FOR SCHULENBERG

SCHULENBERG, March 21.—Carnation Milk company will erect a huge plant here to serve all of Texas and adjoining area, it was learned today. The plant is expected to cost about \$500,000. About \$1,000,000 worth of milk is expected to be bought from Texas farmers in the first year after operation starts, it was understood. Decision to build the plant was made after surveys of milk supply and facilities for distribution at many towns in this area. Erection of a Texas plant is in line with a general movement of milk canning companies to establish southern headquarters where supplies can be obtained from the surrounding areas.

KATY MAINTENANCE OF WAY MEETING HERE NEXT TUESDAY

Officials and Employes of Texas Central Division of Road Will Talk Track Problems at Sessions

The annual maintenance of the way meeting of the Texas Central division of the Missouri, Kansas and Texas railroad will be held in Cisco Tuesday, March 26, it was announced today by H. E. Pye, Cisco agent for the company. This meeting is one postponed from a date several weeks ago due to inclement weather.

At least 40 officials and employes have promised to be present although the number in actual attendance is expected to exceed this by a large margin.

Among those to be present are: D. C. Dobbin, district superintendent of the road; J. J. Gallagher, district civil engineer; J. P. Head, division train master, and Roadmasters Metcalf and Rogers.

Captain Head will be the oldest man in the point of continuous service with the road to be present. He was with the Texas Cen-

tral when the line was built through here, surveying practically every foot of the road about 50 years ago.

Sessions of the meeting, which will deal with problems of keeping the track and roadbed in proper condition for the traffic over the line, will take place in the chamber of commerce directors room. Luncheon will be served at one o'clock, quite probably in the Rotary and Lions club room.

In addition to officials all section and bridge foremen in the division are expected to be in attendance upon the meeting.

LAGUNA COFFEE SHOP LEASED TO S. H. MOORE

Announcement of the leasing of the Laguna hotel coffee shop to S. H. Moore, of Dallas, proprietor of the Moore cafes of that city, was made today by W. C. Witt, president of the company, who arrived yesterday afternoon by airplane. Mr. Witt will leave by plane on his return to Dallas this afternoon.

Special fixtures ordered for the coffee shop are expected to begin arriving any day now. The shop will be fitted up in keeping with the unique and charming appointments of the new hotel and with an eye to the highest class of service possible. Mr. Moore, an experienced cafe and restaurant man, is bringing the full benefit of his experience to the preparation of the institution for serving the needs of hotel patrons and the general public.

Furniture for the hotel proper is arriving at this time and its installation in the hotel will begin shortly. H. R. Pickard, manager, said today.

LIONS HEAR VISITORS IN NOON PROGRAM

Miss Zella Blanche McClinton, teacher of expression in Randolph College, Mrs. L. C. Black, Miss Mattie Lee Kunkel, Rev. A. C. Miller, Edwin Cate and Assistant Manager Bruce, of the Laguna Hotel, were Lions club visitors at the luncheon of the club yesterday noon.

The program for the hour was in charge of Connie Davis. Readings by Miss McClinton, vocal solos by Mrs. Black with Miss Kunkel at the piano and addresses by Mr. Miller, Mr. Cate and Mr. Bruce and a talk on the airport situation by Lion J. E. T. Peters formed the major part of an interesting program.

For the next meeting the program will be in charge of Dr. C. C. Jones as chairman, and Guy Austin and L. P. Kuykendall.

'KITTENS' ON WAY TO MEET AT WICHITA

Accompanied by three Cisco women as chaperons, and by Coach H. R. Garrett and Manager Wallace Nard, 12 Randolph college "Kittens," the girls' basketball team, left at 6:30 this morning in three cars for Wichita, Kansas, and the national A. A. U. open girls' basketball meet to open their March 23. The team left in three cars. The three women accompanying the team are Mrs. T. T. Roberts, Mrs. J. A. Bates and Miss Ester Hale.

The team plans upon reaching Elud, Oklahoma, this evening for a workout in the Phillips university gymnasium, proceeding in the morning to Wichita. The girls will reach the tournament city in time to practice two or three days before the opening of the meet. Difference in court arrangement makes this desirable. Needless to say, the Kittens loom as one of the favorites, if not the favorite in the big meet, with their sensational defeat of two—not one—of the leading teams in the nation at the Southern open meet in Dallas recently—a feat which brought them the southern championship.

C. OF C. OFFERS POOL ORDERS FOR SHRUBBERY

In connection with the clean up campaign, Secretary J. E. T. Peters of the chamber of commerce announced today that all Ciscoans who wish trees, shrubs or flowers for planting will be able to secure these plants at a material reduction in cost by listing their wants with the district chairman who will then pool the orders with those from other sections of the city. The entire lot will be purchased in lump at a very great saving over what the plants would cost if purchased individually. Citizens may also list their orders with the chamber of commerce at phone 395.

W. L. Stepien, captain-general of the Lions district in the clean up campaign said this morning that his committee will be ready Friday morning to begin the drive to place this district in spic and span condition. Other captains are reporting similarly optimistic results with their organizations. With the arrival of fair weather the drive, delayed by rain, will move forward rapidly now, these reports indicate.

FLOOD CONFERENCE. WASHINGTON, March 21.—President Hoover called a conference at the white house this morning to survey all reports of the southern flood disaster. Participating in the conference with the president will be Secretary of War Good, James L. Peiser, national relief director of the American Red Cross, Senator Heflin and a group of Alabama congressmen.
