

GREYHOUNDS GET READY: Dr. Gregg, and Coach Mayfield look on hopefully as Coy Winder, 150 lb. Jr. end for the Greyhounds, undergoes his physical exam for football. Coach Bill Mayfield will open his season against the Stinnett Rattlers, at Rattler stadium, and it promises to be a bang-up game with the AA Rattlers. The entire football team came to school in their swimming trunks for their physicals Friday afternoon, and we had to make a picture of the boys in their trunks, so pep squad girls could have a souvenir picture.

HOSPITAL PRAISED

NOTICE TO ALL HANSFORD COUNTY CITIZENS AND TAX-PAYERS

Perryton, Texas
August 17, 1969

Editor Spearman Reporter
Spearman, Texas

I read with interest letters from Spearman citizens which were published in the Perryton Herald.

I feel that it is appropriate that I address these remarks to the staff at Hansford County Hospital and to the people of Spearman through your paper.

During the last few years I have had occasion to have experiences with a number of hospitals ranging from an eight story University Hospital to city hospitals, to conventional small-town hospitals. Needless to say, these experiences in some cases have been very unsatisfactory and trying.

My mother, Mrs. J. L. Bryan, was in Hansford Hospital for several months and my father, the late Mr. J. L. Bryan, was a patient in the same hospital for a shorter period of time.

It is impossible for me to give enough praise and appreciation to the staff of Hansford Hospital for the excellent care given my parents. Not only were their medical and physical needs met, but love and kindness were displayed. To me these are the most important elements in nursing. I will ever be grateful for the patience and consideration which were bestowed. I could cite many instances in which the nurses went far above and beyond the line of duty.

I will ever be grateful to the Hospital as a whole but especially to the particular individuals who through their love and devotion to their work and to their patients have made Hansford Hospital one of the most excellent hospitals.

May God Bless you and continue with you as you carry on with this work.

Sincerely,
Mrs. Nadine Bryan Crum

Behind the fabulous pitching of Don Allen, the Church of Christ blasted the Baptist "Soul Brothers" 17-7, in a league game at

Spearman Little League Stadium Tuesday night. However, it wasn't just Don Allen's pitching that won the game, the Church

of Christ team was out-hitting the Baptists, and their sagging in-field defense was sensational. Led (CONTINUED ON PAGE 2)

Also, Coach Larry Anthony says that ALL Lynx teams have managers positions open at this time.

Spearman Schools Set Vote

The voters in the Spearman Independent School district will go to the polls September 8th, to ballot on a proposed \$185,000 bond issue. If the issue carries, the bonds would be used to build a new football field, track, bleachers, and field house. The Spearman high school field is one of the best in the state, that does not have a field house.

The old antique field that the Lynx now use, was built from donations from the town, and not by the school. Coach Garland Head, and local townspeople were greatly responsible for what little comfort fans enjoy at the stadium. The school has helped maintain the field and has done an excellent job with their field and maintenance program.

The petition to build the new stadium was presented to the school board August 18th. It has been noted by many, that the Spearman schools do not own the ground that their football field is on. However, it was learned at the school board meeting Monday night, that they have a 100 year or more lease on the field, and there is no chance of them losing this lease. The land belongs to the city of Spearman.

The election September 6th will be held at the Spearman Junior High School building in the Spearman Independent school district, and the officers of the election will be as follows: R. L. McClellan, presiding judge; J. L. Brock, Judge; Mrs. Tom Etter, Mrs. Don Desimone, and Mrs. Jesse Davis will be clerks for the election.

The complete details, and drawing of the proposed new stadium, will be available to the public, as soon as architects can draw up the plans. A bowl-type stadium has been discussed, plus the steel-wooden bleacher type, and if the bond election passes, the money available will decide what type of construction will be used. The new stadium will be located just south of the high school, on the school property. It is an excellent location, and was originally donated to the school by Mr. Ralph Blodgett and Mr. Jimmie Linn.

by Schumann at short-stop, and Bashful Ben Upchurch in right field, they were just too much for the Soul Brothers. In fact, the Soul Brothers called in their heavy hitters in their 4th inning, which included most of the entire school coaching staff, but Dizzy Dandy Don Allen just kept fanning the Baptists.

Woodie Beck slammed home-runs all night, and played excellent defense, along with big Al Tucker

at first base.

The Church of Christ team says who needs Don Meredith when we have Don Allen? And, the Soul Brothers had to agree!

Already, the Church of Christ team members (namely Gordon Parrish) has called the Reporter, bragging on their fine team! And, we want to remind fans that the Methodists and First Christian Church teams will collide in the last official league game of the season, this Thursday night at 8:00 p. m.

All of the Baptist players are urged to be present, as

the winning trophy of the year will be presented to the Baptist team, who already have won the league, despite losing their only game last Tuesday night.

DOUG MOORE TO FILL PULPIT SUNDAY EVENING

Mr. Doug Moore, a young man who has devoted his life to God and the business of "multiplying discipleship" will fill the pulpit Sunday evening at the regular worship service at First Baptist Church. The service begins promptly at 7 p. m.

Moore, 28, is a graduate of Spearman High School and Texas Tech. He is the son of Mr. and Mrs. Ray Moore of rural Spearman.

He is a member of the nationally known "Navigator Group" a non-denominational church organization working especially with service men and college students. The Evangelical association is supported by various denominations. "Navigators" devote their time working with young men who are unreached by the churches.

Glen Erie in Colorado Springs is headquarters for the Navigator Group. Moore has been a member of this organization for two years. Following his graduation from Tech, he attended a special conference at Glen Erie when he made his decision to devote his life to this type of evangelistic

work.

For the past two months Doug has been in Fort Worth participating in a special training program with the Navigators. He will soon move to San Antonio where he will be working with the many Service men who are stationed at Ft. Sam Houston. As an experienced Navigator, he will be training some 15 other young men to work in this field. Members of the group must work and earn their own livelihood, so Doug will be leaving soon in order to find work before taking up his duties with the Navigator Group in San Antonio.

The public is invited to be present Sunday evening at 7 p. m. to hear this outstanding young man give his testimony and tell of his many experiences in the field of "working for Christ."

TO SAVE OUR CITIES

**WE MUST HAVE
RURAL - URBAN BALANCE . . .**

There is something we can do about the crisis that faces every big city in America.

What we can do is to use our greatest resource—space—to reverse the tide of unhappy refugees from the countryside that flows to the streets and sidewalks (and slums and ghettos) of the city.

Because these refugees are the victims of a quiet revolution in agricultural technology rather than of war . . . because they travel by ones and twos and threes in cars and buses . . . because they disappear into city warrens and by-ways rather than refugee camps, they are unseen and unheeded until they pour forth into the streets in violent protest.

Riots in the cities begin with hungry children on land that has lost its promise. They and their parents move from the bleak areas of the countryside to the cities in search of another promise. But the cities are already over-crowded, straining to cope with their own growth. There is little room and less opportunity for those who are poorly-schooled, without modern skills, unequipped to meet the city on its own terms.

In many areas of rural America, rural electrics have achieved great success in developing local resources of space and people. They have helped create home-town industries providing home-town jobs with home-town payrolls.

But the job is bigger than one group. The urgency of the problem requires the effort of us all, acting in concert with Federal, state and local officials as well as the private organizations in the cities and the rural areas.

We can—and we must—restore the promise to the land. We must create the job opportunities in the small towns and rural areas. We must develop the instruments of modern living—more decent housing, more hospitals and medical facilities, better schools and libraries, improved water supplies and sewage facilities, adequate public services—that will attract and hold people who yearn for space to call their own.

America's rural electrics have been heartened by the response of the nation to their initial efforts. We look forward with high hopes to the efforts of our nation's leaders to restore the rural-urban balance in people and in opportunity. We offer our unstinting cooperation and all our resources of energy and determination in this effort.

**THE ANSWER TO WHAT WE DO WITH THE NEXT 100 MILLION PEOPLE LIES IN
THE RURAL-URBAN BALANCE . . . THERE IS NOWHERE ELSE TO GO.**

NORTH PLAINS ELECTRIC CO-OP

PERRYTON, TEXAS

Let Me See
... by Sybil

Spearman has no way of welcoming newcomers to our city. In fact we have never met a living soul. This is unusual to her because she moved here from Perryton. When this family moved to Perryton, the good will committee from the Chamber of Commerce called on her before she even unpacked her household goods. This means a lot to strangers moving into a new city and I wish our Chamber could work out some sort of welcoming committee to make these new people moving into Spearman feel at home. This woman was a Baptist and couldn't understand why some member of the church hadn't called on her. You see, NO ONE knew she was in town. Before Community Public Service went to the computer system of sending statements, a record was available in that office of all new connects and office personnel even asked each customer to fill out a card giving church preference, family members, place of employment, address, etc. These cards are available to the Chamber and the list was printed in the newspaper so people could know and greet those who were new in town. But this got to be too time consuming and office personnel at CPS had to be stopped. On the other hand, some of these customers resented being to fill out these cards, and felt the questions were "none of your business." But this type of

information does help to know who our new families are, and it gives us a chance to say "Howdy, welcome to our town. Can anybody figure out any way of securing a NEWCOMERS list and make it available to our readers?"

Overhead several of the fellows talking of how difficult it was to catch their favorite Barber Floyd Hays in his usual stall last week. Seems as though Floyd would barber a while and disappear for a while. About the time some of his patrons decided to give it up and let their hair grow, Floyd explained to them just why he was having to rush out of the shop from time to time. He needed to go home to the bathroom. Now before you get any wrong ideas, Floyd was not taking medicine, he was taking a bath! A cold bath at that. In fact he took so many cold baths each day for 3 or 4 days that he all but washed his skin off.

The truth of the matter is that Floyd and his wife Buena went plum picking down on Turkey Track Ranch. They would roam around until they found a good plum thicket when Buena would go to work picking the fruit and Floyd would sit down in the shade of a tree. This went on for some time and as the day wore on, and progressively hotter, Floyd noticed he was having difficulty fighting off the gnats. . . or what he THOUGHT were gnats. By the time they arrived home he decided he must have sat down in some poison ivy for he was covered with red splotches. The burning, stinging and itching simply drove him crazy and the only relief he could get was from a cold bath. Later (much later in fact) he ran into Pinky Sheets, whose natural habitat is Turkey Track Ranch, and he mentioned to Pinky his uncomfortable condition. Pinky informed him that he had been fighting Deer Flies instead of gnats and that if he lived at all, his condition would finally improve. I believe it has, for Floyd is back at the barber trade this week with special instructions to each customer on what to do for Deer fly bites.

I have a new idea for the many people in Spearman who taken up walking and/or jogging. Someone came up with the idea of "litter walking", which is nothing more than taking a good long walk and bending down

to pick up every piece of litter encountered. The national antilitter organization devised the plan in conjunction with the "Keep America Beautiful" advocates. Take along a big sack, for you will encounter lots of beer cans and whiskey bottles plus other unsightly articles. Aching muscles will testify to the exercise part of it, and a small stretch of clean countryside will make the body feel better too.

ORIENTATION
LUNCHEON AT
COUNTRY CLUB

use hers toward her tuition at Frank Phillips College this fall.

Following a delightful luncheon, the functional committees met briefly to consider the responsibilities of the coming year. Each committee then reported to the group for general discussion.

The next meeting is to be a dinner on September 23. The starred event of the evening will be the initiation of new members. Jo Pennington and Wanda Scott of Perryton and Roselle Shelby of Waka.

Jeffie Mae Hoy of Gruver and Lucy Mundy of Spearman were among those who attended this orientation meeting.

This Costs Texans \$2 MILLION A DAY

YOU HELP PAY THE BILL

The way cars are being wrecked and the way folks are being injured and killed in traffic accidents, it looks like this year's Texas traffic toll will top \$800 million. This figures out to be more than \$2 million a day and that is a lot of money!

When you pay for your auto insurance you help pay this bill because most of your insurance rate is for the amount of money insurance companies pay for traffic accidents. Add to this the amount they pay for autos destroyed or damaged by collision, fire, hail, theft and pilferage. Lower these amounts and your insurance costs will go down. Raise these amounts that insurance companies must pay and your auto insurance costs will have to go up. It is as simple as that.

Here are three ways to cut your auto insurance costs.

1. Help reduce the number of Texas traffic accidents. You can do this by driving the very best you can and by insisting that traffic laws are enforced in your town, county, and state. Let your Mayor, County Officials and Governor Smith know that you want all traffic laws enforced.
2. Help cut down on car thefts and vandalism by locking your car and taking the keys whenever you park. Always try to park your car in a safe place.
3. Ask your insurance agent to show you how you can save money on your auto insurance by taking full advantage of the Driver Education, Two Car and other discounts now offered in Texas.

Auto insurance costs will be cut in Texas after accidents and their costs go down. You and other motorists of Texas can bring this about... if you really want to. IT IS UP TO YOU!

10 reasons why **Maverick is the fastest-selling new car in automotive history!**

New Ford Maverick... the simple machine

Our little car is making a big hit. In its first 100 days Maverick has outsold every new car ever introduced. And every day more and more smart drivers are discovering the fun of owning the simple machine. Take a few minutes to find out why Maverick's so popular. Then take a test drive at your Ford Dealer's.

1. **LOW PRICE.** Maverick is the best seller of the '70s at 1960 prices. And you get your money's worth. A complete car all ready to drive home.
2. **LOW FUEL BILLS.** In tests by professional drivers at our tracks, where we do our best to duplicate actual driving conditions, Maverick averaged 22.5 mpg. (Some Maverick owners report they get 25 mpg and better.)
3. **105 HORSES.** Maverick's high-spirited Six gives you nearly twice as much horsepower as the leading import's engine. You get fast acceleration, easy passing.
4. **PEOPLE-SIZED INTERIOR.** Maverick pinches pennies, not people. Its front seat gives you nine inches more shoulder room than the leading import. Plus lots of leg room, hip room and head room.
5. **EASY HANDLING.** Maverick can outmaneuver the leading economy import. It can U-turn in a tighter circle, nip around corners and slide into tight parking spaces with amazing agility.
6. **FEWER SERVICE CALLS.** Maverick is actually easier and less expensive to maintain than an economy import. Maverick oil changes come only once every 6,000 miles and chassis lubrications once in 36,000 miles. The leading import recommends an oil change twice as often and a chassis lubrication six times as often. (Maverick gives you economy without inconvenience!)
7. **SIMPLE SERVICE AND REPAIRS.** The Maverick Owner's Manual has 24 pages of instructions for routine maintenance jobs you can do yourself, if you wish. You can change spark plugs, replace fuel filter, adjust ignition timing, and more. Even a smashed grille can be replaced in as little as 13 minutes.
8. **WIDE-OPEN TRUNK SPACE.** No more cramming in luggage just because you have a small car. Maverick gives you 10 cubic feet of luggage space—nearly twice as much as the leading import. (With Maverick, you can take it with you.)
9. **SOLID DURABILITY.** Maverick's unitized body construction makes it light, strong and durable. (And Maverick's 3-speed transmission is tough enough to handle twice as much horsepower as the engine turns out.) (Maverick may be little, but you don't have to treat it like a kid.)
10. **BUILT-IN SAFETY.** Unlike most economy imports, Maverick's tread is wider than the car is high. That means stability—might be important when the road is wet or the wind is strong.

FIGHT BACK

NITROMITE

Fight the price/cost squeeze on your
wheat with NITROMITE. Shamrock's
fine brand of anhydrous ammonia.
A preplant application of NITROMITE speeds early growth, producing
lush, high-quality forage (and plenty of it!)—an important factor if
you plan to graze cattle this winter.
And the cash crop? NITROMITE delivers the most usable nitrogen per
dollar to help increase yields without increasing cost appreciably. So
come harvest, even if prices are low, you make out. If they're good,
you'll be the big winner.
Put down NITROMITE now. It'll give you a fighting chance in the
marketplace.
