by Billy Miller

I am sure enjoying the politics this week. The first thing off the bat, I got to hear Zack B. Fisher, one of our local Republicans talking from Miami. Then, everyone has been calling me wanting to know if I saw Ila Jo Hart; and sure enough I missed seeing her but I will get to see these two local delegates, before the convention is over, as I am recommending them for high positions in the party.

Speaking of politics, me and Weldon Greene, Peter Vernon and Touchdown Sansing had a caucus at the courthouse this week, and I never enjoyed anything so much! Since I have turned Republican, and am supporting Nixon, it has been raining at Old Hansford Every week. I am going to keep on supporting Nixon until it quits raining at Old Hansford. Me and Weldon Greene are the only two Nixon supporters, that are running scared in this election. I still ain't too sure about the 13,000,000 "floating" Wallace votes. They could decide the election.

Coach Clark Mires brought the program at Lions Club last Tuesday and it was a very fine program. He discussed the coming football team and emphasized that he hopes to have a fine season. He has about all of his defensive team back and a whole new offense. But, the best part of his program, was when he told about the new "outlook" or new "spirit" that Spearman high school has now. Mr. Mires gave the credit for this new "spirit" to a young team of evangelists, David Stockwell and Wayne Copeland. Of course, the real credit goes to the Man that these two were preaching about, mainly Jesus Christ. When you get a whole town of young people "on fire for Christ" you already have a winning season! If any of you boys going to high school haven't accepted Christ, just talk to some of those football players, and they will cue you in on where the "real action" is! A lot of prayers have been answered in this little community this summer, and it will make for the finest school year in our school's history!

CLARK MIRES Athletic Director

COMMISSIONERS COURT IS BUSY

All members of the Commissioners court were present at their meeting, August 14th. First on the agenda, was the approval of the delinquent tax roll, as presented to the court by Sheriff Cooke.

The sheriff requested some more help in the tax office, and the court hired Jeannie Keeton, as a new employee of the tax office.

Sheriff Cooke presented the summary of property and tax values for 1972 - for the tax roll, and this also was approved by the court.

The court paid the Lateral Road account of \$17,809.46, this amount being Hansford County's portion of surplus in said account.

All bills for the month were approved and paid.

The court approved an oil and gas mineral lease on one and one eighth acres of West 1/2 Sec. 24, to Paradox Petroleum Company.

Coach Mires is expected to discuss terminology, referee signals and training rules and their importance. He'll probably explain how hard the players have to work and why they use the protection they wear.

It is expected he'll start with the fundamentals from scratch just as is done with seventh grade boys. There will be a question and answer period.

This should be an entertaining evening and all interested persons are urged to attend and take advantage of this opportunity to become more knowledgeable about football.

Mr. Harry Crooks, a patient in Amarillo High Plains Baptist Hospital for the past 4 weeks, is some improved at this writing. He was able Monday to be removed from intensive care into a private room.

COLLIER, manager of Hansford Feedyard, knows the ropes of this giant operation. "Cattle talk" deals with facts, and figures...The corporation has recently expanded to 50,000 head of cattle.

Cattle Talk

Best point near Spearman, "cattle talk" is a good feedyard where the stock holders can get a quick education in cattle feeding. At first glance, it seems to be an advanced student learning of feedyard operation, after some conversation with him, you can get a quick education in cattle feeding.

Collier, manager of the feedyard, says that he is a pretty busy man, but he can possibly catch a few moments free to give you a quick education in cattle feeding. At first glance, it seems to be an advanced student learning of feedyard operation, after some conversation with him, you can get a quick education in cattle feeding.

Collier keeps up with the market through use of a teletype machine, constantly churning out livestock quotations from all over the country. Most any time one visits the Hansford Feedyard office, you find one or more cattle men scanning the reports as they come off the informative machine.

The completed expansion of the yard will mean the addition of at least twenty more employees.

This addition of 20 more families to the Spearman population means more than just a small step in progress.

DEATH CLAIMS MART HART

Funeral rites for John Mart Hart, 75, a farmer-stockman who had resided in Gruver since 1902, were held at 2 p.m. Tuesday in the First United Methodist Church of Gruver.

Rev. Milton Jochetz, pastor, officiated. Burial was in Gruver Cemetery by Boxwell Brothers Funeral Home of Spearman.

Mr. Hart died Monday, August 14, in High Plains Baptist Hospital in Amarillo. He was born in Duncan, Okla.

Casket bearers were Ed Rafferty, Carl Cooper, Bubby Gruver, Bob Crawford, Peyton Gibner, A.D. Reed Jr., Honorary bearers: Kiff White, Dave McClellan, J.C. Harris, Durward Hawpe, John Veneman, Clay Gibner, Hap Fairchild, Marshall Cator, Johnnie Foster, Pete Hererra.

Survivors include his wife, Jannette; three sons, Warren of Glazier, Jon and Lynn, both of Gruver; a sister, Mrs. Josie Evans of Gruver; eight grandchildren and two great-grandchildren.

Buying Power In Hansford County

ABOVE-AVERAGE

Based upon the economic progress it made in the past year, Hansford County stands out as a stronger market than most. It is given an above-average rating for business vitality.

This vitality expressed itself in the form of bigger earnings per family, greater consumer purchasing power and increased sales activity.

With their incomes going up and with the economy as a whole showing signs of improvement, local residents began to regain confidence.

They reduced the amount of money they were putting into savings and used a greater proportion of their disposable cash for goods and services.

The figures bearing this out are contained in the new "Survey of Buying Power," released and copyrighted by Sales Management. Comparable data on income and spending is presented for every section of the country.

Residents of Hansford County, it shows, had a record amount of money at their disposal during the year. Their net income, after payment of personal taxes, came to \$20,341,000.

What this was equivalent to, in terms of the individual family, was determined by dividing the overall income by the number of local households. It amounted to \$10,706 per household.

This was more money than was available to families in most parts of the West South Central States, the average being \$9,840. In the State of Texas, it was \$10,370.

A considerable portion of the gain was eaten up, however, by rising living costs.

According to a recent survey by The Conference Board, the public appears to have grown more optimistic about the shape of the economy but remains uncertain about the future.

But, despite this hesitation, business was good for most local storekeepers. They were able to chalk up a sales volume of \$25,494,000, an increase over the prior year's \$23,598,000.

The fact that sales exceeded earnings indicates that many outsiders do their shopping in the local area.

The relative standing of one community to another, with respect to market performance and potential, is brought out in the survey via a "Quality of Market" index. It takes into account such factors as income, population and spending.

Hansford County is given a rating of 139, or 39 percent above the national average.

Gene Cudd, manager of Hansford Implement Co. in Spearman, stands beside John Deere's new super tractor, the 4630. Mr. Cudd held open house to show off this beautiful machine last Saturday, and a big crowd came out to the gala affair. Of course, everyone is invited to come by and see the new John Deeres.

FUNERAL RITES TUESDAY FOR LORA MARTIN

Funeral services for Lora Katherine Martin, 35, were held Tuesday at 10 a.m. from the First United Methodist Church, Spearman.

Rev. Wesley Daniel conducted the memorial rites for the daughter of Mr. and Mrs. Bill Martin. She died Sunday at her home after a long illness.

Burial in Hansford Cemetery was conducted by Boxwell Brothers Funeral Home of Spearman.

Pallbearers included Ronny Burch, Terry Burch, David Dear, Leon Hagerman, Steven Hagerman, James George.

Survivors include the parents, Mr. and Mrs. Bill Martin; two brothers, Billy Dwane and David, both of the home; and two sisters, Mrs. June Potts of Spearman and Mrs. Carmen George of Hollis, Okla.

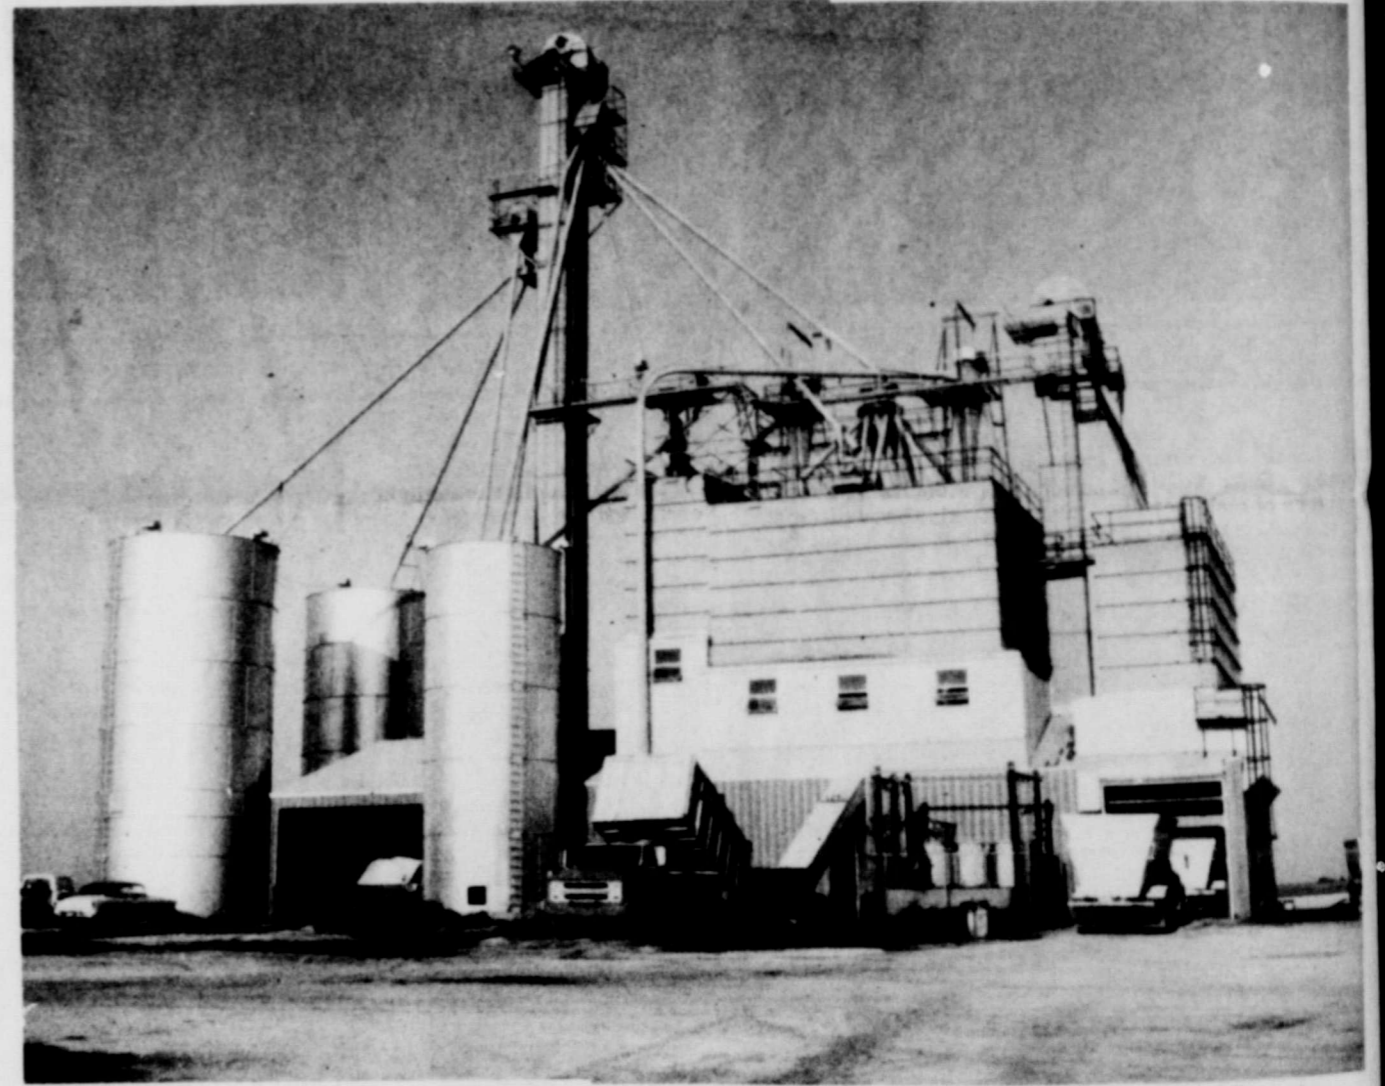

SOME CITY STREETS ran a foot deep in water following the 45 minute deluge Monday afternoon. Some parts of the city received as much as 1.40 inches of rain. This rain brought August's moisture total here in Spearman to well over three inches. The rain Monday was very spotted. No rain fell at all just to the north and west of Spearman. Farmers to the south and east received over an inch.

Mrs. Sam McClellan, organist played Chopin's Moonlight Sonata and the theme from Love Story as prelude music. She accompanied Mr. Jim Casey who sang "More" and "Twelfth of Never."

Formally gowned in a true A-line silhouette of imported silk organza and Pea de Ange laces, the bride was radiant when presented at the marriage altar by her father. Elaborate applique of Pea de Ange laces touching at shoulder lines, drifted over the high fitted empire bodice with shallow bateau neckline. Scalloped lace edges circled the bodice and the A-line organza skirt. The short tea-cup sleeves were detailed with identical scalloped lace. A deeper scalloped lace border encircled the hemline of the gown and the gently folded chapel length train which flowed gracefully from an organza bow at the

back bodice line. Appliqued scattered lace motifs enhanced the skirt front and the train. The bride's headdress matched her gown. She carried a cascade bouquet of daisies, baby's breath, surrounding a large white orchid. She wore a six-pence in her shoe, given to her by her father who brought

it from England where he was stationed during WW II.

Maid of honor was Carla Weathersby, sister of the bride. Bridesmaids were Miss Becky Walker, and Mrs. Monte Lusby, sister of the bridegroom. The bride's mother wore a formal gown of green dacron knit. The long sleeved gown was trimmed with green lace and enhanced by a yellow cymbidium orchid corsage. Mrs. P.A. Lyon, Jr., wore a lovely blue formal dacron knit. She also had a white cymbidium orchid corsage.

At the reception which followed the ceremony, the serving table was covered with a white net and satin cloth and centered with a seven-branched candelabra entwined with leather leaf. The three tiered cake, decorated in pastel roses, was topped with the traditional miniature bridal couple. The groom's table was covered with a red cloth and centered with his Kappa Alpha crystal pitcher holding two confederate flags. The groom's chocolate cake was traced in letters, bearing the date of the wedding.

When the couple left on their wedding trip, the bride was wearing a printed jersey dress topped with a bolero jacket. Her corsage was the orchid from her wedding bouquet.

The bride is a native of Odessa, Texas. She graduated from Odessa High School and Odessa

Wonder Why the Yellow Stayed?

COLLEGE STATION--Some homemakers wonder why the yellow stayed--in their white clothes, that is, after a thorough wash using chlorine bleach.

Often the reason is the bleach itself and the fabric finish of the clothes.

According to Roxanne Schnorr, clothing specialist for the Texas Agricultural Extension Service, yellowing can be caused by using chlorine bleach on fabrics with some types of resin finishes.

"These particular finishes are used to give a wash-and-wear property to the fabric and are most often found on cottons and rayons," the Texas A&M University specialist explained. "Although there's less of this type finish being used, there are still some available on the market."

Miss Schnorr suggested the following procedure to restore fabric whiteness when yellowing is the result of using chlorine bleach:

Rinse the garment with clear water.

Soak the fabric for half an hour or more, as necessary, in a solution containing one teaspoon of sodium thiosulfate to one quart water.

Use water as hot as is safe for the fabric.

Sodium thiosulfate is available at drugstores and as "hypo" at photographic supply stores, the specialist noted.

Dye remover may also be used to restore the whiteness of some fabrics, she added.

"To prevent yellowing with the use of chlorine bleach, read the hangtags and permanent care labels of permanent press and easy care fabrics. Follow the recommended bleaching and laundry instructions carefully," Miss Schnorr concluded.

Mr. and Mrs. Wesley Lackey's children (from Lubbock) have been here spending two weeks visiting their grandparents, Mr. and Mrs. Major Lackey and Mrs. D.B. Keim. Todd Wilson, son of Mr. and Mrs. A.L. Wilson Jr. of Lubbock came and stayed a week here with the Lackeys.

LABOR DAY TRAFFIC WILL CLAIM 48 LIVES

AUSTIN--Colonel Wilson F. Speir, director of the Texas Department of Public Safety, today estimated that statewide traffic accidents over the Labor Day weekend will claim 48 lives.

The Labor Day holiday, as set by the National Safety Council, is a 78-hour period from 6 p.m. Friday, September 1 to midnight Monday, September 4.

At the close of the Labor Day period last year, a DPS tabulation showed that 41 persons had died in 34 traffic accidents. Late deaths pushed the toll to 43 persons killed in 36 accidents.

Speir said the DPS and local law enforcement agencies

Let Me See
by Sybil

The sound of school bells this time of year, means a lot of things to a lot of people. It means a little bit more relaxation for mothers. The

house will be quiet & easier kept neat and clean. Not so many meals to fix. Telephones won't ring so often for Johnny or Jean.

Mothers sending first graders off will suffer several pangs of regret and uneasiness, but this won't last long. Mothers will come the opportunity to put the little ones in Day Schools & Kindergarten classes... for a few hours each day they turn their "little problems" over to somebody else.

Perhaps parents of teenagers entering college for the first year are happiest (or shall we say relieved) of all people! Just to get the young "know-it-all" out of the house for a while promises to be the most welcome feeling to come along in some 4 years! The grocery bill will be cut at least in half. The home telephone will be available ANY TIME. Wash-and-iron day will be simply a snap! The family automobile will get a needed rest. Mamas particularly look forward to an uninterrupted night's sleep not having to stay awake till junior gets home.

Students entering their freshman year at college look forward with great anticipation to being "away from home." They plan to go when they please, do what they please, with whom they please... without mama leaning over their shoulder questioning every move they make. This freedom is something they have looked forward to for the past several years, and they have plans to make the most out of a good thing!

It's all a big joke of course. These feelings are passing fancies; they pass quickly and I fancy they'll never return! The

first week junior is gone, mama stays awake longer than ever... wondering where he is; if he is hungry, cold, being mistreated. At the end of the week the collect phone calls from Johnny & Jean begin. Homesickness sets in and it is hard to tell which it afflicts the worst... mama or the student. It doesn't take long for the parents to win this game, however. A weekend trip to the campus does wonders for the parents!

I tell you, when all the college kids leave Spearman, our city seems rather dull and empty. Their leaving not only takes a lot of kids out of town, it takes a lot of cars! And believe you me, this hurts our Service Station men. They sell more gasoline to young motorists than you would believe.

WE'VE been enjoying all sorts of fresh garden vegetables lately, and we don't even have a garden. Nell McDade, my neighbor to the north, brought me cucumbers. Tiny & Caroline Gressett, our new neighbors to the south, shared some squash with us. Pastor Bill Shoemaker brought us turnip greens, cucumbers, tomatoes & green peppers. Chet Wise keeps me in "squash." I wish someone would tell me what these things are. They look like green squash, but slice and taste like cucumbers. He got the seeds from Frank Masad, who says these seeds are from the original stock brought over from the old country by his parents. They are delicious.

I think we have eaten more homemade ice cream this summer than ever before. The best yet though, is the lemon ice cream Betty Porter has been turning out. She got her recipe from Kay Vernon, originally, but has made a few variations, such as cream and chopped lemon. Try this for a treat: 6 lemons (squeeze juice from 4, chop 2 whole ones in blender) 4 cups sugar. Stir together, pour into gallon freezer. Add one-half pint whipping cream & fill up freezer with milk.

Did you know that "vanilla flavored" ice cream is not the same as vanilla ice cream? Notice the label the next time you buy some at the market. The difference is the substitutes used in the place of pure vanilla. By a federal labeling law passed in 1969 ice cream and frozen desserts must be made with 100% pure vanilla to be labeled Vanilla Ice Cream. The fact that it is called vanilla

ice cream is your assurance that it's made with pure vanilla. What substitutes do manufacturers use for pure vanilla? Vanilla is prepared from sulphite liquor, a by-product of pulp paper manufacturing, and ethyl vanillin is made from a coal tar derivative. You never know what you are eating. Bless us, Rai, h Nader.

Our Heritage of Faith...

notes from Faith Lutheran Church

A meeting will be held this evening Thursday, August 24 at 8 p. m. for members of the Parish Board of Education, new Sunday School teacher and the parents of confirmands for this next year, both 7th & 8th grade. This meeting is vital as we consider our church educational program for the future.

The Luther League met last Sunday in the church with ten members being present. This was the final meeting for Linda Reneau and Cindy Kopke as they will be leaving for college very shortly. Three new members were received. They are Kandy Montgomery, Ann Lad, and Kim Rinker. A meeting was scheduled for next Sunday, August 27 at 3 p. m. in the church parlors.

Our Luther Leaguers are selling the metal Social Security cards in the area. The cost for one is \$ 2 with the proceeds from the sale going to help meet the debt on our church building. If you desire one, you may call the church on Tues-

day's or Thursday's and leave your name and address. A leaguer will be around to contact you in person.

Sunday School will be dismissed on August 27. The new classes will begin the first Sunday in September. They are at 10:30 with classes for all ages. Morning worship is held at 9:30 with Pastor Victor Andersen in charge. You are invited to visit with us.

Bill and Edward LaFoe Visit In Batton Home

Guests in the home of Mr. and Mrs. Ceril Batton recently were their grandsons Bill and Edward LaFoe of Oak Grove, La. Bill is a junior in high school and Edward is a sophomore at LSU. While here they visited the Museum at Canyon, saw TEXAS in Palo Duro canyon, visited local radio station since both are interested in radio. They enjoyed our great county and enjoyed picking roasting ears at Wesley and Dot Jenkins farm. Friday they renewed old acquaintances in the Holt Community. At the home of Phil Jenkins they were served refreshments of cake, cookies, ice cream, tea and coffee. Joining them were Bertha Jenkins, Maude Rossen, Olive Pendergraft and Dot Jenkins.

On Sunday the young people at the Presbyterian Church had charge of the services in the absence of the pastor and they asked the boys to sing a duet and Bill accompanied on the guitar.

Ceril took Bill to see Adobe walls Sunday evening and incidentally they killed a rattlesnake which was very exciting for Bill. Bill and Edward had a real good time and hope to be able to pay their grandparents another visit sometime.

Other out-of-town guests attending the services included Mr. and Mrs. Chris Kenny, Lubbock; Gary Fletcher, Canyon; Mrs. Almeda Boehning, Canyon; Mrs. Ann Smith, Amarillo; Mr. and Mrs. Barton Riley, Kansas; Mr. and Mrs. Tom Whitson, Greensburg, Kansas.

The program of activities will begin at 10 a. m. with a parade. This includes a bicycle parade with the bicycles decorated, the winner of this to receive a series E bond. This barbecue luncheon--this is pit barbecue which has become one of the biggest drawing cards for the event--will be held from 11:30 a. m. until 1 p. m. Following this an old fiddler's contest will be held, and throughout the afternoon there will be a dunking board in operation. There will be a turtle race and a cake walk. At 3 p. m. local firemen will conduct water polo games. For the occasion a fly-in is being planned by members of the Top O' Texas Experimental Aircraft Association whose headquarters is in Amarillo. It will be members of this group which will participate in an air show which will start at 3 p. m. with a fly over the picnic area--which is the town square. The show will consist of aerobatics, a flour bombing and possibly a parachute jump.

Members of the Top O' Texas Club will also have a static display of various home-built aircraft for viewing by the public. The show is free. Aerobatics events will begin at 4 p. m. at the airport.

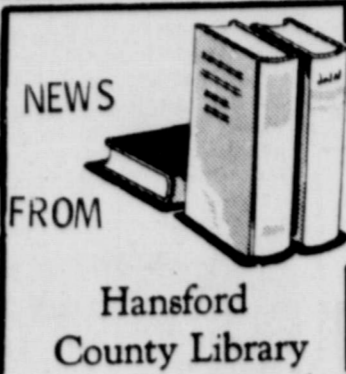

The show this year is sponsored by the Sunray Lions who are using the sale of barbecue for funding their various programs.

General chairman of the annual celebration is Boyd Beck, owner of the Sunray Cleaners. Those wishing to enter the old fiddler's contest may contact him.

Unless the weather turns sour, a record crowd is expected to attend the Sunray Annual Barbecue and picnic Saturday, August 26. Over five hundred this pre-Labor Day Celebration last year, and double this number is expected to attend this year. Just as the attendance has grown, so has the scheduled events. This year an old fiddler's contest and an air show along with an art and antique display has been added. On this occasion the entire community turns out in force, with local clubs and business people cooperating to carry out a program of fun that has all the air of a carnival.

Librarian Celestine Thompson announced this week that \$300.00 had been donated to Hansford County Library.

Mrs. Frank Davis was visiting with Mrs. Thompson one day last week just as Celestine was opening the morning's mail. The mail carried a letter, and two checks, each in the amount of \$150.00 and she gave a jubilant shout over the good news.

Hansford County Library

Mr. and Mrs. Ernest Archer enjoyed a vacation recently which took them to Albuquerque, N.M. where they visited their daughter Nancy, who is on the faculty of one of the schools there. They went sight-seeing at El Paso and Juarez, Mexico. They also visited their daughter, Mr. and Mrs. A.D. (Norma) Payne and children at Ralls, Texas and Louise's sister, Mr. and Mrs. H.S. Ayres in Pampa.

"Who in the world gave us that?" asked Mrs. Davis, a dedicated slave and promoter of Hansford County Library. The news was ironic, for the donations were made by Mrs. Davis' niece and her sister-in-law.

Mr. and Mrs. Jimmie intended to spend the end in Snyder with her who was with them when they got to the town where the water was so high that it turned around and got home of some friends in country to spend the night. Flooding conditions were bad. One death resulted, buildings and their contents were damaged.

Rural Areas Show New Growth Signs

WASHINGTON--The move from farm to city may be coming to a halt, a new era of economic and social growth for rural America may already be launched.

These are two conclusions to be drawn from various reports on the growth of rural America, from the arid stretches of the Southwest to the green fields of the Southeast. They also are indications that the much talked about goals of rural development are beginning to emerge as realized accomplishments for an increasing number of communities. Some signs of the recharged energies within rural areas are: --More jobs: During the 1960's nonfarm jobs increased by 39 percent in the countryside, a slightly better rate than the 34 percent increase in metropolitan areas. This growth rate has been high in completely rural counties as well as in those with cities of up to 50,000 population. --Farm exodus ending: The farm population has dropped to fewer than 9 1/2 million persons, with so few people remaining on the Nation's farms, little further decline in the population is possible. As the farm-to-city migration dwindles to a negligible level, continued gains in nonagricultural jobs will have a more visible impact on the overall economy and population of rural areas. --Greater federal commitment to rural areas: The government is stepping up its investment in rural America manyfold. For example, funds earmarked for housing in rural areas amount to \$2.2 billion this year, four times the 1969 level; sewer and water programs are allocated \$342 billion this year, nearly twice the 1969 level. Total funds devoted to rural development efforts by the Department of Agriculture will amount to \$3.5 billion this year--four times the level in 1961 and twice as much as in 1969. More important than the statistics or the governmental expenditures, however, is the determined individual in community after rural community who resolves to solve the problem on his own, who takes action to set his own neighborhood on the road to progress. In Tulla, Texas, for example, local leaders set out to combat decaying businesses, blighted housing. As a result of their efforts, the community has 386 new low-cost homes and jobs and incomes are up because of the construction work. In North Carolina, citizens mounted a driver education campaign as a small but vital part of their State-wide effort to connect more rural workers with more better paying jobs. Rural development is an idea whose time has come--mostly because increasing numbers of local groups are taking it upon themselves to make sure that it does.

Local Fishermen Disappointed

This ain't no fish story. A group of some 30 game wardens, and 200 fishermen waited anxiously on the banks of the lake at Lake Fryer Tuesday, to participate in the killing of all of the rough fish in the lake. The truck, carrying the chemicals for the big fish kill, broke down, at Wichita Falls, and the kill had to be postponed. This newspaper will try to contact game wardens to find out when the next kill at Lake Fryer will be made.
