and 3 city concilmen; plus,

vote on a \$135,000.00 swimming pool bond. Candidates who have filed for the school board include: Wilson McClellan, Ray J. Martin, Roy L. Bulls, Joel Lee Lackey, and Ralph E. Bynum. Two will be elected for the school board position, with incumbents being Ray J. Mar-

Three men are running for the Aldermen's positions. They are Dan Desimone, E.J. Callaway, Jr., J.K. Hicks, Alton Ellsworth, James B. Lair and Clarence Pettitt. Incumbents are Dan Desimone, E.J. Callaway, Jr., and J.K. Hicks.

tin and Joel Lee Lackey.

The entire community is working hard for the new swimming pool. The children plan a march this week, if the weather permits, and already several posters etc. have been put

up reminding people to vote.

Remember, it is your civic duty to vote in the elections this Saturday. According to information from City Hall and High School, a record absentee vote may be made by Tuesday of this week, when absentee voting ended.

#### JOEL LACKEY ASKS FOR SUPPORT IN SCHOOL B. RACE

The previous times that I have run for the school board I have stated that in my opinion we have a fine school system. I still maintain that we have a school system that conpares favorably with any Class AA school in the state.

The many changes coming from Austin in regard to our school will be a big issue in the next three years. During the previous terms that I have served I have seen more and more control and interference from Austin. The important factor in education as I see it is self-control. It is my hope that the recent Supreme Court decision will help keep our schools in local hands. The local people know their needs much better than someone in Austin.

Once again I want to say that we have one of the finest faculties there is anywhere and we must always strive to keep a strong faculty. I feel the quality of students that Spearman schools turns our is a credit to the faculty and the school system.

By nature I am a conservative, however, my record will show that I am interested in and have supported all areas of our program. It is emperative that we must not lose sight of the fact that we must spend our tax dollar as wisely as possible. I am sincere and willing in my efforts to continue to serve the community through the board of education and I pledge my time and efforts to see that we keep a fine educational program in

Spearman. to ask for the support of the voters of the Spearman In-dependent School District in order to be re-elected to the board of education.

Thank you..... Joel Lee Lackey

#### Letter To The Editor

As a concerned citizen of our community, I feel that it is necessary that we have a new swim ning pool. In the past several year: I have worked in organizations for the betterment of the community but as a rural resident it is impossible for me to vote in city elections.

I urge everyone to vote for this bond issue, and in backing it, I personnally will pay the \$18 that city residents will pay if the bond issue passes. I feel that this is very little to pay to have a safe and sanitary place for our children to en-

Maybe the citizens of Spearman think we have a swimming pool, but they should drive by and have a look at it before deciding.

#### Wilson McClellan Is Candidate for School Board of Trustees

In making my decision to seek this position on the school board there were many persons of various interests who suggested that I throw my hat in the

During these discussions it seemed to be the main thought that these persons were concerned with only fair and reasonable representation.

As to my qualifications, I am a taxpayer and father of two school age boys, one in the 7th grade and one in the 11th grade. I received my education in the Spearman School System and Texas Tech Uni-

We have a good school system; however, I believe that our school system should be continually improved as I believe everything in this community should be improved, while at the same time maintaining a reasonable tax rate out of an equitable evaluation which will give a fair value in taxes.

Our community deserves a well balanced school system with adequate planning in each area. To do this I feel we must keep our salary schedule at the top and provide a pleasant working atmosphere to assure our children the best possible education.

It is my feeling that we shou'd strive to have the best possible school system in the state or at least among the best school systems of the

In summary, if elected, I will try to do my best in consideration of students, parents and taxpayers. I will also work to keep local control of our school system and I will listen to both sides of any issue.

Thank you, Wilson McClellan

#### Fashion Show

A spring Fashion show, spon-sored by the DECA students of Spearman High School, April 6 at 7:30 p.m. in the HS auditorium.

#### Choral Concert

The "Faith Chapel Singers" a choral group from West Tex-as State University, will be in concert at the Apostolic Faith Church in Spearman Saturday, April 7 at 7:30 p.m.

The church's pastor Rev. Winston J. Barker gives everyone a special invitation to attend this inspirational musical concert.

The Barker's son, Jerry and his wife Lavanda are a part of this choir. Also, Mrs. Myrtle Fullbright has three of her grandsons in the choral group. They are sons of Dr. and Mrs. Wilbur D. Fullbright of Boston,

CORRECTION In the article concerning the organizational meeting of the Hospital Auxiliary, Mrs. Emmett Sanders, treasurer, was left off the list of officers.

VOTE YES-A-THON instigators Tammy Rook, Tammy Farr, Kevin Rook and Julie Farr got the ball rolling for the rally to be held Friday, April 6 beginning at 4:30 in front of the city hall. The group will march down Main Street to the 'old swimming pool park' where they will stage a rally in support of the upcoming bond election for the swimming pool.

#### Youth want new swimming pool

The four young people pictured above met Sunday night in the homes of Mr. and Mrs. George Rook and Mr. and Mrs. Bob Farr planning activities to show their support for the upcoming bond election April 7 for a new heated swimming pool.

As a result: all students young people as well as adult supporters of this issue are invited to attend a VOTE-YES-A-THON to begin at 4:30 p. m. Friday, April 6. The group will meet in front of the City Hall to begin their YES-A-THON, going down the post office street onto main and continue to the 'old' swimming pool park. Escorts will be the Spearman School Band and a Spearman fire truck.

Guest speakers for the Rally to be held at 5 p.m. in the Park will be: City Manager Mike Struve and the swimming coach Rev. Don Wirsdorfer. An alternate meeting place will be announced if weather conditions will not permit using the Park.

Many businesses and individuals have donated supplies for posters and decorations for the Rally at the Park. All participants are encouraged to make signs to carry on the YES -A-THON.

After the Rally, refreshments will be furnished by the Spearman Chamber of Commerce. The Rally will dismiss around 6 p.m. so everyone may listen to the 'Open Forum' to be broadcast on KBMF-FM at 7

> Although, these young people are firm supporters of the YES vote, they stated that "as much as anything, every-one needs to vote." Backing the young people in their ef-fort are the Spearman Chamber of Commerce; Women's Division of Chamber of Commerce; Dr. Hackley, Mayor; Mr. James Cunningham, superintendent of Spearman schools: all school principals,

the City Park Board and many

individuals.

#### SPEARMAN WANTS A NEW SWIMMING POOL

The new swimming pool proposed for our community is really needed. It will encourage not only our young people to swim, but adults will feel like it is suited for them.

I support this project for several reasons. First, the safety factor. The diving boards and swimming areas will be apart from each other. Second, those little children too small to swim will have a pool outside the main pool area. Third, the teaching area at the shallow end will enable the teachers to do a better job of teaching. Fourth, a heated pool makes it a great deal more pleasant to swim. It is easier to teach children, as they will not complain of the cold water. Adults will also not complain and will feel more like swimming.

I believe the cost per family is very cheap. For each water meter it costs 50¢ a month of \$6.00 a year. If we wait any longer the cost will go up. Surely we can go now and it will only cost you extra for three years. Support this project for it will benefit our community and help Spearman move ahead.

Sincerely, Don Wirsdorfer

'Action was necessary in order to prevent or alleviate a shortage in the supply of agri-cultural commodities. Setaside acreage was the only land which could be readily

released for crops, " Rudd said. Reduction of the feed grain set0aside is expected to return from 3;8 to 6 million acres back to major crops, such as corn, grain sorghum, barley and soybeans. The added corn acreage is expected to total between 2 1/2 to 3 1/2 million acres. Other acres of released set-aside land may be

used for livestock forage. Based on the latest enrollment report, the action taken will release approximately 930, 000 acres from set-aside designation in Texas.

# Set-aside Acres Lowered

in feed grain program payments or regulations as a result of the lowering of feed grain set-aside from an acreage equal to 25 percent of a farm's base to 10 percent, reports John Barry Rudd, State Farm Program Official.

The set-aside acreage reduction is automatic, he said, and producers have no added paperwork and no required visits to the Agricultural Stabilization and Conservation Service (ASCS) County Office.

The only change is that the set-aside requirement for producers who enrolled under the 25 percent set-aside plan has been reduced to 1- percent, " said ASC State Committee Chairman Rodd.

"Those producers will be notified by the ASCS County Offices of the change for their farm. If they already had their set-aside land inspected and measured, it can be remeasured at their request at no additional cost.

"I want to emphasize that

in the feed grain program are the ASC Committee Chair-

unchanged -- whether they signed under what was the 25 percent set-aside plan or under the zero set-aside plan, " Rudd

He pointed out that payments are calculated on half the feed grain base times farm yield payment rate.

However, those feed grain producers who signed up to set aside acreage are required to set aside a percentage of their feed grain base in order to qualify for payment. On their remaining cropland acreage they are free to plany any crop they choo'e, except quota crops which are peanuts, rice, extra long staple cotton and tobacco.

Those producers who signed up for the zero set-aside plan agreed to accept a reduced payment in order to have all of their cropland free for planting. They also agreed to limit their feed grain plantings to no more than their

set-aside acreage, with a reduction in payment. The per-acre payment deductions for having and grazing set-

She has worked with the Spearman Lions Club for several years with the Beauty Pageant. Needless to say, she will be called on again this year to help sponsor the big Lions Club program. The Loftin's have one daughter, Diane, who lives in Amarillo. She is Mrs. John Zachary. Diane and John have 2 children.

Kenney Loftin is probably one of the finest Welders, if not the finest in the area. Kenney loves to hunt and fish, and above all, he loves to work for Baker and Taylor. It is "great" to fine men who like their jobs. Kenith Loftin says that there is no doubt, about his company being the finest drilling company in the world. And, we must admit that both Kenney and Frances "love" Spearman. They have just recently purchased the Willis Sheets home in Spearman, and they are proud to be a part of our community, and a part of the fine Baker and Taylor organization. We salute these two fine citizens, and remind everyone that Frances Loftin will be helping with the big Lions Club Beauty Pageant this May 10th.

of Spearman, Texas recorded the fourth best performance na-tionally in the 75 yard dash event for 10-11 years while competing in the National AAU Junior Olympic track and field program. An effort of 9.7 in the event gave him national recognition as a top competitor from a field of millions across the country.

Under the National sponsorship of the Chevrolet Motor Division, the AAU Junior Oly mpics is a nationwide youth development program that involves millions of youngsters each year in 14 sports.

"The high level of these performances emphasizes to us the crucial role that the AAU Junior Olympics plays in this nation's sports development," said Robert D. O'Connor, General Sales Manager, Chevrolet Motor Division, "Chevrolet is indeed proud to be associated with the AAU in developing these programs.

National tabulations were announced today by Sam Giambelluca, Chairman of the AAU Junior Olympic Girls' Track and Field Committee, and Tom Hallstrom, Boys' Track and Field Chairman, Giambelluca commented, "Our increase in the number of participants and

the marked improvement in the number of record setting performances by these young athletes, can only point out the fact that the AAU Junior Olympics track and field program is improving year after year." Hallstrom echoed Giambelluca's sentiments, saying that "with the kind of performances achieved by AAU Junior Olympic athletes in 1972, there is no doubt in my mind that many of these youngsters will be our country's Olympic hopefuls in the years ahead.

Past Junior Olympic track and field competitors include Bill Toomey, winner of the Decathlon gold medal at the 1968 Olympic Games in Mexico City: John Pennel, first man to pole vault over 17 feet; Wilma Rudolph, winner of three gold medals in the Rome Olympics in 1960; and Rafer Johnson, gold medalist in the Decathlon in the 1960 Rome Olympiad. These competitors were all also recipients of the AAU's Sullivan Award, as the Nation's outstanding amateur athlete (in 1969, 1963, 1961 and 1960 respectively).

In addition to the national publicity given to 1972's top Junior Olympic athletes as a result of their performances. each has been awarded a National AAU Junior Olympic Certificate, by AAU President David Rivenes, commending them on their achievements.

#### Study Group Met March 28

The Baptist Women's Study Group of the Women's Missionary Union met March 28 in the church parlor at 9:30 a.m. The meeting was opened with Mrs. L. L. Anthony giving the Prayer Calendar and reading Acts 2: 14-21. Altha Groves led in special prayer for the mission-

The program was presented with Mrs. Woodville Jarvis in charge. "Missions and National Issues" was the title for the skit presented by Mmes. R.H. Gray, Woodville Jarvis, Arthur Adkison, Sammy Don Jones and Ray Devers. The scene was in the den of a ladies home, where two women were having coffee. While they were sitting discussing Chaplains and their part in the armed services they were greeted by three visitors. Each visitor told of their problems and how a Chaplain had helped each of them in their time of trouble. The group dis-

cussed the problems of an Air Force Academy Cadet, a wife of a service man with marriage problems and how God came into the life of a crusty Army sergeant who died in Viet Nam.

Refreshments were served in fellowship hall by the hostess Mrs. R.H. Gray to the following: Mmes. L.L. Anthony, Woodville Jarvis, Arthur Adkison, Sammy Don Jones, Ray Devers, A.F. Loftin, Fred Holt and Altha Groves.

The next meeting will be April 7 in the First Baptist Church at 9:30 a.m. for the general meeting.

#### Renner Joins Wheat Producers On Mexico Trip

The research work of Wheat Breeder and Nobel Peace Prize Winner, Dr. Normen E. Borlaug at the International Maize and Wheat Improvement Center (CIMMYT) at Obregon, Mexico, will be visited and studied this week by four Texas agricultural leaders. The research oreinted study and conference is under the auspices of the Texas Wheat Producers Board with emphasis on potential wheat improvement of Texas

Participating in the April 3rd-6th session are: Mr. N.F. Renner, Spearman wheat producer and member of the 9 man Texas Wheat Producers oard: Dr. Kenneth Porter, Bushland, professor in charge of wheat breeding, Texas A M Agricultural Experiment Station: Dr. Tom Longnecker, Director, High Plains Research Foundation, Halfway; and Bedford Forrest, Farm & Ranch Director, KVII-TV, Amarillo.

A similar group of wheat producers and agricultural scientists from Colorado will join the Texans in Phoenix for the Mexico trip as a cooperative venture between the Colorado Wheat Producers Committee and the Texas Wheat Producers Board, according to Bill Nelson, Amarillo, administrator of the Texas Research and Market

Development Program. Wheat varieties released from CIMMYT have been credited with increasing wheat yields in developing countries such as Mexico and India. The Center is supported principally by the Rock-efeller and Ford Foundation and to a lesser extent by the World Bank, U.S. Agency for International Development, and the Canadian and West German governments.

Recent announcements by CIMMYT indicate that it is changing its emphasis which has been high yields from irrigation to improved quality, and improved varieties and farming practices under dryland conditions.

Mr. Ken Kendrick, Chairman of TWPB from Stratford, said that the Board in approving the project wanted to study the work at the Intern-

ational Center to learn if there might be materials or techniques that could be utilized to improve the wheat varieties and production practices in Texas which might raise producer income from wheat production.

Other producer-members of the 9-man TWPB are : Dwight Hamilton, Olner; Leo Witkowski, Hereford; W.R. Moore, Munday; John Cogdell, Crowell: Otis Harman, Tulia; C. L. Edwards, Panhandle;& Delbert Timmons, Perryton.

Let Me See

Here is your chance to be a good Samaritan --- if you know a Mary A. Moen Delong, who used to live in Spearman, and know her wherabouts, the National Life Insurance Co. would appreciate your letting them know. So would Mrs. Delong. The Insurance Co. is trying to locate her because she has a life insurance policy which has matured for a substantial amount of money! She would be about 53 years of age. She has a son and a daughter. When the family lived in Spearman she was Mary Moen. If you could be of help, contact the Librarian at Hansford Library and give her this information. The insurance company wrote the letter of inquiry to the Library. Mary Moen Delong ----where are you??

RECON THE HIGH cost of living is going to make theives of us all? I read in my Antique trader where thieves are stealing barnes---big barnes, right out from under the farmer's nose. One man was gone from home for 2 days and when he returned to his farm, his huge old barn was gone. Thieves had literally torn it down and carted it off. Old barn siding is becoming very popular to home builders now, especially to people who wish to create a rustic old country look and this old lumber (weathered by the elements) is high as a kite! On the other hand, lumber is high enough now to make people yearning for a new home want to steal... . . rather than buy such an inflated market.

A long with food, lumber is the basic bulge in the economy, and like food--it effects one of the basic needs of man---shelter. In the last 6 months lumber prices added at least \$1,200 dollars average new home. This er must have \$40 per month salary increase in order to meet the monthly mortgage payment which is higher in ration, according to the incereased price of lumber. Price tags on all wood products have been changed so often lately you get writers cramps trying to keep up. We've had an 18% hike in envelope prices just lately.

Newsprint is getting higher, as is all wood-pulp products. Have you priced a 2 X 4 lately? Between January & March the price of 2 X 4 lumber increased 25%. During the same period 3/8ths inch plywood increased 98%. Renters suffer, home improvements are almost a thing of the past. Building a fence in the back yard costs more than twice what it did six

months ago. SO THE President sets a

ceiling on meat prices. Why pick on meat -- or lumberfor that matter -- when everything mentionable has increased in price accordingly. Proposition these people who want the meat price rolled back to December, with a roll back of their salaries, proportionally and they would throw down their picket signs immediately! With no more will power than I have, it would benefit me greatly if they would ration food. Did you know that overweight is now epidemic and that calorie counting has become a NATIONAL obsession? Eating habits do not change -- the amount of physical activity does. Consequently we have a nation of sit-around people who are still eating a thresherman's diet. Most people over 30 are perhaps doomed to a perpetual cycle of eating weight on, then starving it off. Dieters now range from people who are naturally round to young men -- muscular and wiry only a few year ago -- who suddenly notice expansion at their waist lines. Old and young alike ----in America and Europe-eat too much and exercise

too little. This is not the first time that eating habits have gotten out of time with physical ac-tivity. Evan the Spartans of ancient Greece, among history's most disciplined peoples, once faced a crises of obsesity. After years of military successes, there were slaves in abundance, leaving little work for citizens to do. The Spartan elders noticed (as we can easily observe today) that men were "spending their lives at splinded tables, delivering themselves to the hands of their cooks to fatten them in corners like greedy brutes, and to ruin their bodies which, enfeebled by indulgence and excess, stand in need of as much care as if they were continually sick. The solution, a characteristically Spartan one, proved quickly effective. It was legislated that all males between the ages of 30 and 60 must eat their main meal daily in a public dining hall where the food was lean in energy and skimpy in amount.

Nobody loved a fat Spartan What Sparta did for the Spartans, America might try. On the fat people. As well as I love to eat, I hope it never comes to food ration-

ing.
I'll pray for gasoline rationing. Then we'll all walk to work and be forced to get that exercise we refuse to partake of voluntarily.

that exercise we refuse to partake of voluntarily.

They say over-weight is getting to be a labor problem. Recently the personnel director of a large factory rec-

eived another one of those

30-page government questionnaires which asked an other items: "How many eloyees do you have, brokedown by sex?" The direct replied, "Over weight is of a problem with us."

Mrs. Mary Lou Wysong at daughter Jan were in Amari Friday for Jan's checkup win her doctor. Jans broken amari mending rapidly.

Pasture weeds are expensive as they reduce grazing and lower forage quality.

Weeds rob pasture grasses of valuable moisture and nutrients. They also are irritating to livestock grazing the past-

Weeds have a better ability than grasses to obtain nutrients and moisture. Consequently, weeds get first choice of nutrients and moisture.

Numerous result demonstrations throughout Texas have shown that two to three times more grass can be grown on the same pasture acre when weeds were controlled as when they were not controlled.

Chemicals usually offer the most effective weed control and several are available and safe to use in pastures. Chemicals should be applied when weeds are young and actively growing. Adequate amounts of water should be mixed with herbicides and applied according to directions on the label.

Specific recommendations for controlling weeds common to pastures in Hansford County are available at the County Extension office.

#### Mrs Green Winner Of 1973, Region 1 Homemaker Award

FORT WORTH---Mrs. Roy Gheen Jr. of Perryton was named winner of the 1973 Region I Texas Conservation Homemak-

2 at Crowell, Tex. in the new high school gymnasium.

Mrs. Gheen was selected from conservation candidates in the region by a panel of conservation and home economics specialists.

The annual awards program

is sponsored by the Fort Worth Chamber of Commerce in cooperation with the Texas Agricultural Extension Service. Texas A&M University, and Soil and Water Conservation Districts.

Operating a 1,944-acre farm 12 miles southeast of Perryton, the Gheens' major enterprises include dryland and irrigated wheat, corn, milo and grassland for their cattle.

Farming operations follow a basic soil and water conservation plan developed in cooperation with the local Soil and Water Conservation District. 'Mrs. Gheen was chosen for her outstanding achievements

in conservation at home and on the farm, " according to W.A. King, conservation director, resources information, Fort Worth Chamber of Commerce, who made the announ-The mother of one son and two daughters is homemaker,

partner in farm management, gardener and seamstress for the Gheen family enterprise. Her most recent role is that of grandmother. Conservation projects in the home include sewing, a pro-

ject Mrs. Gheen cites as her major one, gardening and food preservation. Mrs. Gheen is as active in farm conservation practices as she is in the home. During har-

est, she is truck driver, and throughout the year she helps with field crop work, roadbuilding, planting, cattle branding and "doctoring. . Her latest project is raising Farm conservation projects

include irrigation water management, crop rotation, stubble mulching, terracing, pond construction and emergency tillage when necessary for erosion control. Of conservation, she noted,

"Basic principles learned from Home Demonstration Club work, 4-H, and soil and water conservation programs have enabled me to develop methods to conserve my time and energy as well as soil and water." Mrs. Gheen is a Friendly Circle Home Demonstration

Club member, serving as coun-cil finance chairman, and a member of the First United Methodist Church. State winner in the conservation homemaker competition is Mrs. Edward Weil of Hale Center. Other regional winners include Mrs. Ewell D. Lord of San Saba, Mrs. R.H. Ellermann
