

Midland Discovery Is Cleaning After Second Acid Shot

Ralph Lowe No. 1 J. E. Hill, Northwest Central Midland County wildcat discovery from the Wolfcamp lime of the Permian was flowing and swabbing an estimated 18 barrels of fluid per hour—mostly new oil—at last report.

The well was flowing most of the time, but operator was having to pull the swab at intervals to help clean out acid residue still in the hole.

This project had washed the open hole in the Wolfcamp at 9,440-9,850 feet with 1,500 gallons of mud acid and had then treated with 3,000 gallons of regular acid.

The 18-barrel per hour fluid yield was coming after the last acid treatment.

An Incorrect Report
After the 1,000 gallon mud acid wash, and before the 3,000 gallon regular acid treatment, the well had been credited with having flowed an average of 26 barrels of new oil per hour for 18 hours.

That report was incorrect. The well did flow as high as 26 barrels per hour at times during the 18 hours, but a re-check of the production during that period showed that the overall average was approximately 18 barrels of oil per hour.

This new field opener is five miles southwest of the City of Midland and 660 feet from north and 1,980 feet from east lines of the southeast quarter of section 30, block 39, T&P survey, T-2-S.

Operator plans to continue flowing and swabbing on the Wolfcamp pay until the true producing ability of that zone is determined.

Another Stretch Try Set For SE Andrews

Stanford Oil & Gas Company No. 1-M David Faskan is to be a new exploration to try to develop production from the Grayburg-Permian lime on the outside of the proven area in the Midland Farms field in Southeast Andrews County. Location is 660 feet from north and west lines of the Northeast quarter of section 39, block 41, G&M&B&A survey, T-1-N.

Drilling to a possible bottom of 5,000 feet is to start immediately. The drillsite is 10 1/2 miles southeast of the town of Andrews.

Benedum Area Gets Spraberry Oil Well

The Blackwood & Nichols Company has completed its No. 1 Humble-Eager as a producer from the Spraberry sand of the Permian on the northwest side of the Benedum area of Central-East Upton County.

The new producer is the first oil well to be finished from the Spraberry in, or adjacent to, the Benedum multiphase field.

It reported a 24-hour potential of 17 1/2 barrels of 29.5-gravity oil, flowing through a three-quarter inch tubing choke.

From Perforations
Gas-oil ratio was 986-1. The production was from perforated section at 7,488-7,513 feet. The pay section had been treated with acid and had also been hydraulically fractured.

Location is 660 feet from south and 1,980 feet from east lines of section 4, block Y, CCSD&RGNG survey.

It is one and three-quarters of a mile northwest of the nearest production in the Benedum field.

Other producing zones in the field are the Ellenburger, Fusselman, Pennsylvanian and the Leonard section of the Permian.

DeSoto Oil Finals Stonewall Discovery

DeSoto Oil Company of Dallas has completed its No. 1 J. C. Guest, Central Stonewall County wildcat as a flowing discovery from a Canyon sand.

This wildcat, three miles southeast of Aspermont reported a flow of 142 barrels of 41.8-gravity oil in 24 hours on the official potential test.

The flow was through a one-half inch choke from perforated section at 4,535-61 feet. That zone had been hydraulically fractured. Gas-oil ratio was 600-1.

Location is 660 feet from north and west lines of section 91, block D, H&TC survey. It is two and three-quarter miles west of Skelly Oil Company No. 1 Flowers, recently completed Canyon sand discovery from pay at 4,166-80 feet. The Skelly producer is in section 54, block D, H&TC survey.

Reagan Prospect Is Out Of Oil Pay Zone

Union Oil Company of California No. 1-76 University, Central-South Reagan County wildcat, three miles west of the town of Big Lake, which indicated a discovery from a lime at 9,097-9,118 feet, when it flowed at the estimated rate of eight to (Continued On Page Seven)

UN Gains 10 Miles In Korea

TOKYO — (AP) — Allied troops slashed more than 10 miles beyond Wonju on the Central Korean front Wednesday and to the southeast recaptured the key mountain town of Yongwol.

A heavily-armed patrol with tanks blazed through Hoengsang, 10 miles north of Wonju, and pushed on to within 33 miles of the 38th parallel before withdrawing, a field dispatch said.

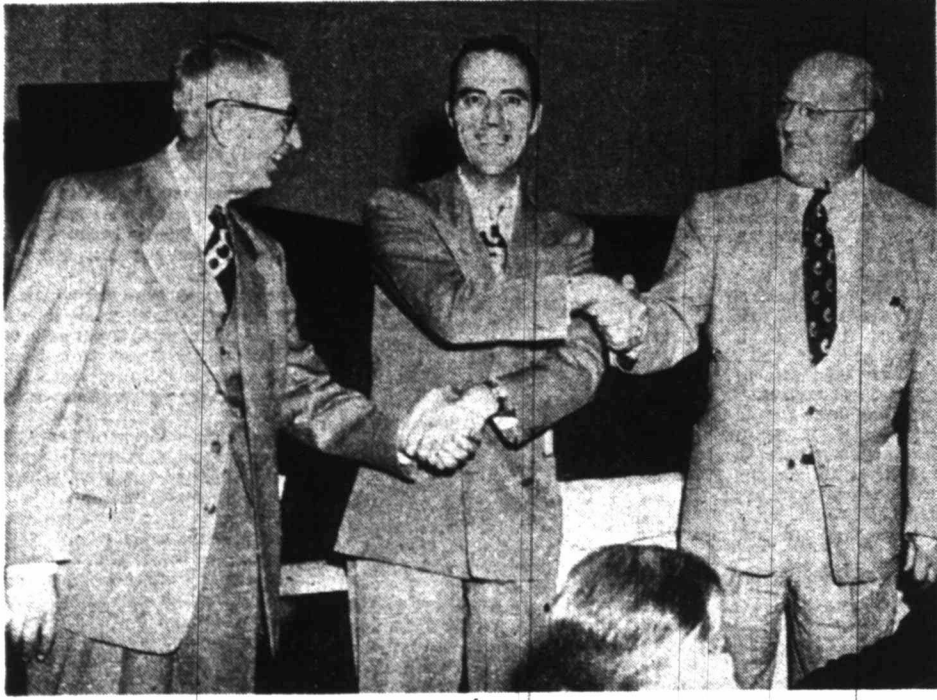

It was the farthest northward advance since Seoul, the Korean capital, was abandoned. On the way back the task force was engaged by a company of enemy troops. The Reds retreated with heavy casualties.

The Han River town of Yongwol, southeast of Wonju, fell to Allied attack after an air and artillery bombardment.

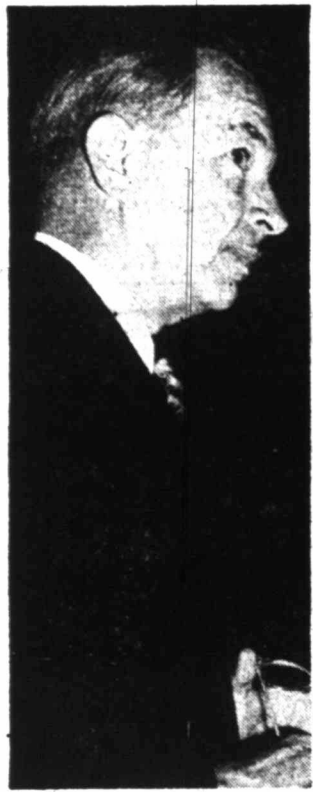

Surprised Reds Flee
The capturing force was not identified. However, the U. S. Seventh Division, only American force to reach the Manchurian border in the Korean war, has been operating south of the tungsten mining town.

AP Correspondent Tom Stone said the attacking force drove across the ice-covered Han River after an intense air and artillery barrage.

The surprised Reds fled, leaving only light opposition. In the air, U. S. F-84 Thunderjets damaged three Russian-built MIG-15's in Northwest Korea. First (Continued On Page Seven)

C. OF C. BANQUET—Top Wranglers of the Midland Chamber of Commerce, above, congratulate each other after receiving membership awards at the organization's annual banquet. Left to right, they are Fred Fromhold, Ted Thompson and C. E. (Bud) Bissell. Pictured at far left is Eugene McElvaney, Dallas banker, who addressed the banquet, and M. C. Ulmer, Midland banker and civic leader, who served as toastmaster.

Stanley M. Erskine took office as president of the Midland Chamber of Commerce, other officers were introduced, and life membership and "Top Wrangler" awards were presented at the organization's annual banquet and membership meeting Tuesday night in Hotel Scharbauer. Eugene McElvaney, Dallas banker, was the principal speaker. Col. C. E. (Bud) Bissell and Fred Fromhold received life membership awards for bringing more than 100 new members each into the Chamber of Commerce during the last several years. Bissell has accounted for at least 270 new memberships and Fromhold, more than 115. Fromhold was named Midland's "Top Wrangler of 1950," and received a pair of cowboy boots for obtaining the greatest number of memberships last year. Ted Thompson, runner-up for the "Top Wrangler" award, received a western-type hat. Bissell, Fromhold and Thompson are veteran members of the Wranglers Club, membership division of the Chamber of Commerce. The awards were made by Bill Collins, Wranglers Club foreman.

C. Of C. Speaker Calls For Unified Program Of Action

Calling for a unified program of positive action at home and abroad as well as for a rededication to the preservation of the America "we know and love," Eugene McElvaney, Dallas bank executive, told a large gathering of more than 200 West Texans here Tuesday night that "unless prompt, rigid and universal price and wage controls are placed in effect we won't be able to increase taxes fast enough to catch up with the increasing costs of things we have to produce for an adequate defense program."

McElvaney, senior vice president of the First National Bank in Dallas and in charge of its oil loan department, was the principal speaker at the annual banquet and membership meeting of the Midland Chamber of Commerce, which was held in the Crystal Ballroom of Hotel Scharbauer. The speaker also is a trustee and chairman of the executive committee of Southern Methodist University.

He was introduced by M. C. Ulmer, president of the First National Bank of Midland, who presided at the banquet in the absence of Robert L. Wood, retiring C. of C. president, who is ill.

Out-Of-City Guests
Guests from McCamey, Crane, Kermit, Seminole, Lamesa, Monahans, Austin, Big Spring, Odessa, Dallas and Brownwood were introduced by Manager Delbert Downing.

The speaker, terming this a crucial hour in history, reviewed and (Continued On Page Seven)

Resolution Adopted
Erskine succeeds Robert L. Wood as Chamber president. Wood was unable to attend the annual event because of illness. His son, Robert L. Jr., also is ill in Midland Memorial Hospital, where he underwent surgery Monday. The more than 200 persons attending the banquet adopted a resolution expressing sympathy.

March Of Dimes At Halfway Mark In Drive For Funds
The 1951 March of Dimes Wednesday was at the halfway mark in its drive for funds to fight polio, Chairman Ray Lynch announced. He reported returns totaling approximately \$6,000 against a goal of \$12,500. Lynch, pointing out the drive will end January 31, called upon all residents to give generously and promptly to the worthwhile cause.

The \$6,000 figure does not include funds obtained in the "Coffee Day" or "Mile-of-Dimes" projects. The "Mile-of-Dimes" stand received approximately \$80 Tuesday at its location in the Hotel Scharbauer lobby. It was moved to a post office location Wednesday.

Forward Contributions
Lynch stressed the fact no personal solicitation work will be done in the downtown business or residential districts. He said the only personal solicitation work was done in the advance big gifts drive and in the larger office buildings. Persons not solicited should forward their contributions to the March of Dimes, Midland, he said.

Legislature Swings Axe At Spending

AUSTIN — (AP) — Major money bills cutting state expenses by \$10,000,000 were introduced in the Senate Wednesday.

Three of the economy measures also went before the House on first readings.

Senator Howard Carney of Atlanta, chairman of the Senate Finance Committee, offered the bills while a subcommittee stuck by its rigid policy of giving state departments just 15 minutes each to appeal if they think the cuts are too deep.

In an hour and 15 minutes, the subcommittee heard exactly five departments.

The appropriations measures covering vital state services were drafted by the Legislative Budget Board.

Colleges Cut Heavily
The Senate, in executive session, quickly approved a long list of Gov. Allan Shivers' interim appointments, and adjourned until Thursday.

The House heard a total of 18 bills on first reading and adjourned until Thursday. The Appropriations Committee scheduled a night session.

The budget board created by the Legislature two years ago to help plan state spending, proposed biennial outlays of \$56,764,218 for colleges and universities, \$46,586,520 for state departments, \$39,963,210 for hospitals and special schools, \$5,985,702 for courts and \$4,191,000 for junior colleges. This adds up to \$153,490,650.

The proposed \$10,000,000 saving would reduce the estimated amount of new revenue needed by the state government for the next two years to \$100,000,000.

A \$5,788,231 reduction in the college appropriation would account for most of the drop. Budget Director Vernon McGee said an expected decline in school enrollment was the reason.

The first hearing of the session on an appropriation bill Tuesday led to a rebuke for John C. White, new commissioner of agriculture.

Rollback To January 2 Levels Seen

WASHINGTON — (AP) — Representative Spence (D-Ky) said after a White House call Wednesday President Truman is preparing legislation to strengthen the whole price machinery and "provide effective control of food prices."

Spence, chairman of the House Banking Committee, told reporters the bill to bolster existing laws for "price and rent control" will be sent to Congress shortly.

Spence's report coincided with word from stabilization officials that a price freeze may be expected Thursday, possibly followed by wage ceilings on Friday.

Price Director Michael DiSalle told the Joint Senate-House Economic Stabilizer Eric Johnston recommendations for general price controls. He did not make public his proposals.

DiSalle also said, "We are shooting for the opening of 55 offices on Monday—13 regional offices and 42 district offices." He said there will be at least one office in every state. The 13 regional offices had been announced earlier but not the others.

Spence said there was no discussion by the President of a price roll-back, but the President thought the machinery contemplated under the proposed legislation would make roll-backs workable.

Johnston was sworn in Wednesday as economic stabilization administrator. An overall price ceiling at levels of January 2 was reported by informed government sources to be in the works.

The wage action, it was understood, will put a lid on wages as of the day announced.

Johnston, long-time president of the United States Chamber of Commerce and lately the president of the Motion Picture Association, was understood to be planning a radio and television broadcast Thursday, at which time he will tell the public of his plans.

He took the oath of office from Chief Justice Fred M. Vinson in a brief ceremony in President Truman's news conference room in the old State Department Building.

An order was due shortly from Johnston giving autonomous power over prices to Price Stabilization Director Michael V. DiSalle and over wages to the nine-member Wage Stabilization Board headed by Cyrus S. Ching.

Johnston has told a congressional committee he will have broad supervisory power over not only wages and prices, but also over all economic phases of mobilization including credit controls, rents, home financing, and general fiscal policy.

Midland Woman To Attend Meeting On Election Laws
Mrs. William Y. Penn, a member of the Texas Election Laws Commission, will attend a meeting of the nine-member panel in Austin Thursday.

In commenting on accomplishments to date, Mrs. Penn said the commission already has found 100 conflicts in the state's present election laws. She expects a "warm" session Thursday.

Dr. Cagle, head of the Department of Government at Baylor University, has been retained by the commission as its legal advisor, Mrs. Penn said.

Korean Casualties Up 1,064 In Week
WASHINGTON — (AP) — A week's increase of 1,064 in Korean war casualties was reported Wednesday by the Defense Department. This raised the total to 46,201.

The total includes casualties whose next of kin were notified through midnight January 19.

Total Army casualties were 27,953; Navy 519; Marines 7,369; and Air Force 350.

Total deaths were Army 5,971; Navy 67; Marines 1,325; Air Force 136.

FEDERAL GRAND JURY INDICTS BADMAN COOK
OKLAHOMA CITY — (AP) — A federal grand jury Wednesday indicted William E. Cook on five counts in connection with the kidnapping and murder of the Carl Mosser family of Atwood, Ill.

His arraignment was set for Thursday before U. S. District Judge Stephen Chandler.

U. S. Bans Use Of Nickel In 400 Civilian Products
WASHINGTON — (AP) — The government Wednesday banned the use of nickel in automobile trim and in almost 400 other civilian products.

The purpose is to conserve a tight nickel supply for defense and essential civilian uses.

The National Production Authority (NPA) made public a long list of products for civilians in which nickel or nickel plate may not be used in new manufacturing on March 1 and thereafter.

It issued another long list of civilian products in which nickel-bearing stainless steel or high content nickel alloys may not be used, beginning April 1.

However, the NPA allowed manufacturers two months to complete articles started before the effective dates.

Among the items in which nickel may not be used after the effective dates of the order are doors, downspouts, roofing, ashtrays, freezer cabinets, drainboards, table and range tops, automatic vending machines, jewelry, sporting goods, bicycles, toys, piping, valves and fittings, bar and cafeteria counters, water coolers, casket hardware, food mixers, hand tools and flatware.

No Crash Expected

With new and heavier taxes in store for us and President Truman calling for a budget of \$71,600,000,000, inevitably a lot of people are going to be discouraged about our ability to carry the load.

Total manufacturing capacity is up almost 30 per cent in that period—on top of the stout wartime gains.

Late in 1950 civilian employment was 8,000,000 higher than the peak year of the war. More significant than that, productivity—output per man hour of work—has advanced some 10 per cent in the same five-year span.

Best of all, this growth shows no signs of slackening its pace. Industrial output in 1950 was 14 per cent more than 1949. While 1949 witnessed a mild recession, by June of 1950 U. S. production was ahead of the peak 1948 production rate.

The President's advisers look for a hike of seven per cent over present levels by the end of 1951. And they're anticipating at least a 25 per cent production gain within the next five years.

WASHINGTON COLUMN

They'll Argue And Argue And Argue And Argue And . . .

By PETER EDSON. WASHINGTON—Crux of the big gab fest on foreign policy is whether the President has the power to send U. S. troops to Europe under the North Atlantic Treaty, and whether the President had such power to send U. S. troops to Korea under the United Nations resolution.

Robert A. Taft of Ohio thinks the President does not have that power. Both can cite the Constitution as their authority. Senator Taft cites Article I, section 8, paragraph 8: "The Congress shall have power . . . to declare war . . ."

That means that the President doesn't have the power to declare war. But the circumstances in today's situation are that the President has not declared war against the North Koreans nor against the Chinese Communists nor the Russians. And no declaration of war is involved in sending additional U. S. divisions to Europe.

The two divisions in Europe now are there as Army of Occupation, because peace with Germany has not been concluded. The President's asserted power to send more divisions to Europe stems from Article II, section 2, paragraph 1 of the Constitution: "The President shall be Commander-in-Chief of the Army and Navy of the United States . . ."

The President also has the authority to conduct foreign relations. The Constitution gives him the authority to make treaties and send ambassadors abroad, subject to confirmation by the Senate. Both the United Nations Charter and the North Atlantic Treaty were so ratified by the Senate.

Taft Has Two Arguments. But in this connection, Senator Taft makes two points: 1. There is no legal obligation for the United States to send troops to Europe. Article 5 of the North Atlantic Treaty merely provides that the United States is obligated to go to war against any country that attacks one of the Atlantic Pact nations. The United States is left free to decide how it will fight that war, how much and what kind of aid it will give the European countries.

2. The act passed by Congress to implement the United Nations Charter provided for the commitment of troops only after a special military agreement to set up an international police force had been made by the Security Council. This agreement specifically was to be made subject to later ratification by Congress.

The Russians having prevented the making of this agreement by the Security Council, it never was submitted to the Congress for ratification. International lawyers, constitutional lawyers, senators and everybody else can and probably will argue interminably on the legal points that Senator Taft has raised. Unquestionably, the senator has a case, from a legal standpoint.

The other side of the argument is that the President as Commander-in-Chief has control over the armed forces of the United States to carry out his foreign policy. The sound game contract. TODAY'S QUESTION As dealer, with both sides vulnerable, you hold: Spades A-K-6-3, Heart 5, Diamonds Q-10-7-2, Clubs A-J-8-4. What do you do? Answer tomorrow.

Nothing now in use can stop the atom-powered submarine. With it we could drive every surface ship from the sea. —Vice Adm. Charles A. Lockwood. Americans are the most handsome race in the world. —Dona Salmon, British portrait painter.

To the tragic toll of the battlefield we have added a huge list of dead and injured on the home front that not only is tragic but shameful because it is needless. —Ned H. Dearborn, president National Safety Council, on traffic accidents.

We are the most insurance-minded people in the world and now it's time for us to buy a little insurance in Uncle Sam. Normal living is something that is past. It will mean scarcity and sacrifice for five or 10 years. —Charles C. Ralls, National Commander VFW, urging total mobilization.

Oh, May, May, my darling. I thought I'd lost you! His voice was a moan but it tingled with elation, thanksgiving, devotion. "Is Judy all right?" May's pinched face beamed up at him. Alive with love and salvation. "In the little restaurant across the street. We've been sitting there watching for you for—forever."

They hadn't moved. Paul clung to the ecstatic haven of her warm, pulsating body. Then he remembered that in addition to the joy of reunion there was more good news—the Dolbin was waiting. A DIM bulb illuminated the sign: "CYNTHIA—Capt. H. Cross. DEEP SEA FISHING PARTIES." Paul, holding Judy's hand, looked at the sign from across the dark street.

The sound of water lapping against the shore was music. He looked back. May smiled happily as she watched them. She was a block behind. The sailor and his girl rose from their bench. They walked slowly past Paul, the sailor's arm about the girl's waist. Bitterly Paul Twing looked after them, hating them for their complacent happiness. As Paul looked he saw a slight figure running across the street toward the sailor and the girl. The lights from the display windows of the stores across the way were behind the figure and he could see no more than the slim silhouette—but he knew—he knew that silhouette! He was on his feet when May reached him and flung herself into his waiting, joyous arms. They held each other close. He could feel the wild beating of her heart against his. Then his mouth found hers and he kissed her hungrily. He kissed her wet eyes and he kissed her cheeks and then her lips again.

Community Theater Schedules Prize Winning Play, 'Harvey'

When the Community Theater's presentation of the Broadway comedy hit, "Harvey," opens January 31, Morris Growth will be seen in the leading role of Elwood P. Dowd, the mild inebrilliant who took up with a large rabbit six feet one and a half inches tall, and named him Harvey—because that was Harvey's name.

Mary Margaret Corbett will be playing Elwood's sister, Veta Louise, who is baffled by her brother's insistence that his closest friend is an over-sized rabbit, and Betty Gaines will be seen as his equally distressed niece, Myrtle Mae.

It is Veta Louise's decision to have Elwood committed to a high class sanatorium so she and Myrtle Mae might have a normal social life, uncomplicated by an illusory rabbit's presence, that sparks the chain of situations in the comedy.

Others in the Community Theater production of "Harvey," will include Wally Jackson, Walter Beardsley, Betty Simpson, Claude Neely, Myrl Thompson, Mrs. M. O. Gibson, Virginia Bedeaux and Bob Goff.

"Harvey," written by Mary Chase, has been produced all over the world in addition to chalking up a record of 1,773 performances on Broadway.

DADDY RINGTAIL

By WESLEY DAVIS

Daddy Ringtail And Man In A Chair

Daddy Ringtail, your monkey friend, one day sat down by the Elephant Path, waiting to see what he could see. Ah, yes, and ah me, and pretty soon he saw it.

down in the chair at home and then he had tied himself to the chair with a rope. And so now the man bent way over as he walked, of course, because the chair wouldn't let him stand up straight.

"No," said Daddy Ringtail, "no questions at all, thank you." The man stopped his rocking now. He said: "You don't even want to ask me why I walk along with my chair tied on all ready for me to sit down?"

course, because of the chair that was tied to him.

"Why," said Daddy Ringtail, "I imagine you walk along with the chair tied on—because you like to sit down."

The man jumped up with a happy smile when he heard these words. He shook Daddy Ringtail's hand up and down. Yes sir, and why would anyone walk along with a chair tied on if they want to sit down? They wouldn't, I guess. Happy day!

Permian Basin Oil And Gas Log—Midlander To Dig E-C Terry Project

George L. Machris of Midland has made location for No. 1 Dan Auld, wildcat project four miles southwest of the Mound Lake-Pennsylvanian field of East-Central Terry County.

Stated destination is 12,500 feet. Drilling tools will be moved in and drilling will begin at once.

It is 600 feet from north and west lines of section 25, block T, D&W survey.

It was originally started to 8,900 feet to explore the Ellenburger.

Location is 960 feet from south and east lines of section 10, block 11, University survey.

Recovery was eight feet of black shale, with no shows of petroleum.

An electric log survey is now being run. After that work is completed the project probably will drill deeper.

National Guard To Hold Recruiting Campaign Thursday

Company E, 11th Armored Cavalry Regiment, Midland unit of the Texas National Guard, will stage a recruiting drive here Thursday.

Warrant Officer (jg) Royce N. Howard and Sgt. Bob Drake will be in charge of the drive.

Tables will be placed on the east side of the courthouse square, with enlistments being taken from 9 a.m. until 4 p.m.

Equipment and weapons of the National Guard unit will be displayed.

The drive is a continuation of a recruiting campaign started last week and which has recruited 14 members since that time.

Men from 17 to 35 may enlist in the National Guard now, Howard said.

Resolution To Send Soldiers To Europe Has Panels' Backing

WASHINGTON (AP)—The Admiration committee on count on the Senate Foreign Relations and Armed Services Committees to approve a resolution endorsing the dispatch of American troops to Europe.

A spot check by The Associated Press of 21 of the 28 members of the two committees showed that as of Wednesday 14 favor such a move and not one publicly opposes it.

A favorable recommendation by the two committees would carry heavy weight with the Senate itself.

However, there was a sharp but inconclusive difference of opinion among the 21 committeemen regarding whether Congress should put a ceiling on the number of ground forces that may be dispatched under the North Atlantic Treaty.

Senator Taft (R-Ohio), who favors limiting the number of divisions involved, said he will carry that issue to the Senate floor.

Senator Connally (D-Texas) told reporters that if any such limitation were voted it "would discourage Europe and encourage Stalin to strike before there is enough manpower over there."

Connally said he will call together this week the Foreign Relations and Armed Services Committees to look over a resolution assigned to them.

The resolution, sponsored by Republican Floor Leader Wherry of Nebraska, was aimed at barring any commitment of troops to Europe by President Truman until Congress passes on the issue.

Truman set up the nine-member, non-partisan commission late Tuesday, and named retired Adm. Chester W. Nimitz to head it.

He would appoint eight other "distinguished citizens" later.

The President announced the commission would consider "the question of how this nation can best deal with the problem of protecting its internal security and at the same time maintaining the freedoms of its citizens."

One of the commission's major tasks, the President said in a statement, will be to consider the operations of the federal agency "loyalty and security programs." These have come in for hot congressional criticism in the past.

But Truman did not limit the commission to that. He assigned it to study the whole field, including activities of state and local governments, "private groups of all kinds and citizens in their daily work and in their homes."

The commission "will consider the harm that comes from the wrong kind of action as well as the good that comes from the right kind of action," the President said.

Commission Member Describes City Plan At Lions' Luncheon

The "City Plan" for Midland was described to members of the Lions Club at their luncheon meeting Wednesday in Hotel Scharbauer by John Hills, member of the Zoning and Planning Commission.

Using a large map, which outlined the plan, Hills explained it.

He said the plan was adopted after World War II when it was apparent Midland's growth was not a boom but a solid type of expansion.

The plan was drawn by a firm of consulting engineers.

Hills explained that his commission only makes recommendations to the City Council. It is advisory.

The plan, as described by Hills, is not a force of law but rather a moral force in the best interest of our city.

Map illustrates. The map, used for illustrations, pointed out the business district, the residential districts, the shopping centers (actual and recommended) arteries of traffic, playgrounds and schools, parks (actual and proposed).

Following the plan would give us a city comfortable to live in and not a haphazard, helter-skelter type of growing city, Hills said.

Ed Richardson presided. Paul Hicks spoke in behalf of the March of Dimes campaign. Bill Mims was introduced as Junior Lion of the Week. George Grayum was program chairman. A director's meeting was held following the luncheon.

Admiral Nimitz To Head New Internal Security Commission

WASHINGTON (AP)—President Truman has created a commission to report on how best to protect the nation's internal security without impeding traditional freedoms.

Truman set up the nine-member, non-partisan commission late Tuesday, and named retired Adm. Chester W. Nimitz to head it.

He would appoint eight other "distinguished citizens" later.

The President announced the commission would consider "the question of how this nation can best deal with the problem of protecting its internal security and at the same time maintaining the freedoms of its citizens."

UN Gains—

Continued From Page One reports had claimed one enemy jet shot down but the Fifth Air Force later revised its toll.

Between 16 and 20 MIG's flashed across the Yalu River and attacked the American Thunderjets. The American planes fought clear without damage.

Capt. Allan J. Gilbert was credited with damaging one MIG Wednesday and Capt. Richard T. Rutherford was credited with damaging two. Both are from Austin, Texas.

Maj. Gen. Earle E. Partridge, Fifth Air Force commander, said 63 enemy jets have been destroyed, probably destroyed or damaged since the Russian-made planes first showed in the Korean war last November.

C. Of C. Speaker—

appraised the present situation on the economic horizon, discussed what the future may hold, and offered suggestions as to what "you and I can do about it."

Before launching into his well-delivered and challenging address on national affairs, McElvany lauded Midland and West Texas on their rapid growth and development, and saluted the City of Midland and the men who are building it.

He said the Midland Chamber of Commerce has done one of the outstanding jobs of any Chamber of Commerce in Texas.

"One catches here, in the great metropolis you are building in the midst of this great oil and ranching empire, something of the real spirit of America, the compelling enterprise, the abiding faith and confidence in American traditions and ideals, which seem so signally and so tragically to have been falling from the entire length and breadth of this land," he said.

He commended Midlanders upon their vision, imagination and determination in anticipating the needs of a growing community and upon the soundness and adequacy of planning and building to meet those needs.

Merely growth in population doesn't make a city, he said. In local, state and national affairs, McElvany charged his listeners to face the issues squarely, analyze conditions to the best of their abilities and then set their courses to fulfill individual responsibilities.

He said the science of business and economics is not too complicated if the laws of supply and demand are permitted to play their natural role in effecting balances, keeping price levels automatically adjusted to given conditions and otherwise offering the most effective means of self-correction.

"When government, however, and I mean any government, undertakes the repeal and invalidation of these national laws, when it attempts by regulation to produce permanent prosperity and by edict and arbitrary controls to force our economy into man-made channels of performance, it not only undertakes the impossible, but plays havoc with the system itself," he stated.

Let it be said here and now that in our present national emergency we face the absolute necessity of government regulation and controls in every phase of our economic and social life. We must recognize that necessity.

He compared the present American political and economical life with that of a quarter of a century ago, and said that if such a change had happened overnight it would have been labeled in history as a major disaster.

"But," he said, "it is only through the tempering influence of the passing years and their succession of dramatic events by which our judgment has been blinded and our conscience saved that we have witnessed almost without realization the partial disintegration of American democracy as we have known it, and the debasement of our standards of self-government."

He stated that during the last 25 years, America has gone a long way down the road to socialism, and that citizens have permitted an orgy of reckless extravagance in government and social experimentation which long ago would have bankrupted any nation but America.

Such a practice has been going on so long that citizens no longer are critical of it, he stated. Practically every cherished freedom having to do with individual welfare and self-determination have been surrendered to the federal government.

"We have sold our American birthright of inherent individualism and freedom of choice for a measly mess of federal pottage," he stated. He stressed the fact the ultimate outcome rests not with Harry Truman, but with the individual citizen.

Pointing out that America today faces the gravest outlook in history, he said the nation's position in world leadership is sorely imperiled.

"Rise To Responsibility" "It is a position we have had thrust upon us whether we want it or not," said McElvany. "We shall surrender it by default, along with our survival as a free and democratic nation, or we shall rise to our responsibility toward the creation of a world in which free men can live and flourish."

"We had better let the voice of America be heard and I don't mean whispered. It's time to compose our differences, to make up our minds and commit ourselves and this nation without reservation to a unified program of positive action at home and abroad.

"I would remind you that despite the apparent confusion in Washington, that Washington is not America, Midland, Texas; Keokuk, Iowa; Oshkosh, Wis. you here in 'r's room are America. The summation of the character and determination and forthright qualities of our American citizenship will be the determining strength of this nation."

The speaker decried the fears and doubts which seem to spread across the face of this nation as to its actual survival. He said that is not the spirit of America, adding that citizens must keep themselves strong both in spirit, in patriotism and in devotion to the common good.

Homecoming Veterans "And above all let there be a re-kindling and a rebirth of some of the old homespun virtues of our forefathers—hard work, industry, thrift, temperance and tolerance. These are the things that made America great. There is no substitute for an honest day's work to create all the happiness and peace and contentment and ultimate social security that man will ever know in this world."

He said Americans also should be prepared to face the inevitable hardships and sacrifices which undoubtedly are in store.

Return To Religion "Finally we must return to religion," McElvany said. "This democracy was conceived and born in supplication to Almighty God for divine guidance and help in its hours of struggle. In all humility we should turn our minds and hearts to the living God and the simple faith of our fathers.

Get-Harvey Field Tests New Oil Well

El Tee Oil Company No. 1-13 Floyd estate, project in the undeveloped area at the east side of the Teel-Harvey field of Central-East Midland County, about midway between Hubbard S. Russell No. 1 Wraga-Hendrickson and the field, has been potentialized for 210.89 barrels of 37.9-gravity oil.

This was based on an actual 24-hour flow through an 8 1/2-inch choke. Total fluid recovered was cut with two per cent water. Gas-oil ratio was 710-1.

Production was natural from open hole between 6,335 feet and 6,999 feet.

Location is 666.7 feet from south and 1,976.4 feet from east lines of section 13, block 37, T-3-S, T&P survey. It is about 18 miles southeast of the City of Midland.

New Officers—

Continued From Page One pathy to the retiring president, commending him upon his fine work and leadership during 1950, and wishing speedy recoveries for Wood and his son.

M. C. Uimer, toastmaster at the banquet, said 1950 was a banner year in Midland and in West Texas. "I hope the success of 1950 not only will inspire us but will serve as an incentive as well for greater accomplishments in the year ahead," Uimer said.

Uimer said "Think straight, act wisely and be determined to give your very best to your community, state and nation."

Midland County's Gold Star Girl, Wanda Fain, and the Gold Star Boy, Charles Looklar, were introduced by Manager Delbert Downing, who also introduced 28 out-of-city guests.

Special Entertainment A unique musical novelty act, "Harmony on Tin Cans," was presented by Bill Smith of Pampa. He was accompanied at the piano by John Springer of Midland. The entertainment feature was well-received by the large gathering.

Johnny Bissell of Midland furnished the dinner music.

The invocation was by Dr. R. Matthew Lynn, pastor of the First Presbyterian Church.

Erkine, in a brief message following his installation as president, lauded the efforts and accomplishments of the 1950 officers and directors, and pledged his best efforts in the year ahead. He asked for the continued support and cooperation of all officers, directors and members.

Other Officers Listed Wood, Jack Wilkinson and Jack Wicker are vice presidents for 1951 and Collyns is treasurer.

New directors are Dr. C. S. Britt, John Dublin, Jr., Earl Chapman, J. H. Herd, Robert M. Payne, Pat Stanford, Irby Dyer, O. E. Merahon, James L. Daugherty, Frank Monroe, T. R. Wilson, Jr., Russell Conkling and W. Dave Henderson.

Cyrus B. Frost Dies Suddenly At Hico

Cyrus W. Frost, widely-known attorney of Eastland, died suddenly Tuesday in Hico.

Frost, about 60, became ill Tuesday while at his ranch in the south part of Eastland County. He went into Hico, the nearest town, for medical assistance. While in a doctor's office he slumped in a chair and died.

He practiced law in Eastland in association with his three sons, Jack W. Billy and Cyrus B. Frost, Jr.

Other survivors include the widow, and two daughters, Mrs. Maurice Bullock of Fort Stockton and Mrs. H. T. Ehrhridge of El Paso.

Tentative funeral services have been set for 3 p.m. Thursday in the First Methodist Church in Eastland.

Frost has been a frequent visitor to Midland. He and associates have considerable oil interests in West and West-Central Texas.

Respect For Allies Eliminates 'Gook' From GI Vocabulary

By HAL BOYLE

WITH U. S. TROOPS IN KOREA—(AP)—The word "Gook" has just about disappeared from the American soldier's vocabulary here.

And that is a good thing. It is an outward sign of an inward change toward the people for whom right to democracy he was sent here to fight.

When the Americans first arrived in force last July, they hardly regarded the Koreans as ordinary people.

They saw Korea only as an old and tired backward land, smelling of the honey-wagon and filthy with ancient disease.

And they thought of the Koreans chiefly as a race of dog-eating tribesmen given to child marriage and thievery and totally incapable of knowing the meaning of democracy.

And in their arrogant they began calling all Koreans—North and South—"Gooks." It was a term of lumped contempt and it was uttered in contempt. It might have jolted the superiority of some of them to learn that the Koreans also had a word for "American" in their language. It was "Megook."

But there was no contempt in it. It meant only "foreigner."

If it has done nothing else, the extended police action in Korea has helped bridge the gap between the Gooks and Megooks—between 150,000 American troops and almost 30,000,000 Koreans.

They have been through much together and they understand each other better now.

This result may hardly be worth a war, but it is only one of many results. And it certainly is important in a narrowing world that Americans realize the vital need of understanding the peoples whose destiny will be linked with theirs.

"Many of our men have come to know and like individual Koreans," said one field officer. "And through them they have come to understand and have sympathy for the Korean people as a whole."

A soldier in the line said: "It was the civilian refugees—the courage they showed in leaving their homes to march back with us—that made me respect them. Hell, I hope my folks at home never have to show that kind of guts."

Three Charged With Smuggling Diamonds In Heels Of Shoes

MIAMI, FLA. (AP)—Customs agents have arrested three trans-Atlantic passengers on charges of smuggling industrial diamonds into the United States in the heels of their shoes.

The third arrest was made here Tuesday. The other two were picked up earlier in New York City.

The two travelers at New York are charged with smuggling \$1,500,000 worth of industrial diamonds into this country from Europe.

Customs agents say they have not yet established any connection between the trio.

Eli Stern, 29-year-old furniture dealer from Brooklyn, N. Y., was arrested here Tuesday and James R. Offutt, acting supervisor of customs agents, said he had \$119,346 in industrial diamonds concealed in his shoe heels.

Held in \$5,000 bail Stern was seized as he alighted from a plane from Havana, Cuba. He was arraigned before U. S. Commissioner Roger Edward Davis on smuggling charges and ordered held in \$5,000 bail.

Davis said he set bond at only \$5,000 because Stern's story "appeared to be true."

Eta Hoffman, 26-year-old auburn-haired Belgian emigre, was held in \$150,000 bail after she landed at New York International Airport where they found \$1,000,000 worth of industrial diamonds in the hollow heels of her "wedgie" shoes.

Leiser Weitman, 31-year-old Austrian, was arrested Sunday when he arrived in New York, also from Belgium. He allegedly had \$500,000 worth of industrial diamonds hidden in his shoe heels. Weitman was held in \$100,000 bail.

Low Bids Received On Area Highways

AUSTIN — Low bids on half the 381 miles of new Texas highways and roads ended Tuesday with a day's total of \$3,931,424 turned in.

Karen Nelson Denies Implication In Pistol Death Of Husband

SANTIAGO, CUBA (AP)—Twenty-six-year-old Karen Olsen Nelson denied before a Cuban court here Tuesday that she had anything to do with the pistol death of her sugar cane planter husband.

The American woman charged with murder said Alvar Nelson, 31, was killed accidentally when his gun was discharged after it fell from his belt while he was cranking a motor in the pump house of their home in December, 1949.

Mrs. Nelson, formerly of Utica, Mich., and two plantation employees are charged by police with causing her husband's death to collect \$30,000 insurance.

Service Station Attendant Dies Of Gunshot Wound

SNYDER—(AP)—Jerome W. Gossett, 23, died late Tuesday, shortly after he was found shot in the locked washroom of the service station where he worked.

Alfred E. Vernon, owner of Snyder Hatcheries, and Henry Ray Treat, another employe of the service station, found Gossett lying on the washroom floor with a .41 caliber revolver by his side.

Treat reached into the window and opened the washroom door from the inside, while Vernon was calling an ambulance.

No inquest had been ordered. Gossett lived in a trailer camp with his wife. They have no children.

Mrs. Gossett said she and her husband came to Snyder from Rising Star four months ago.

Funeral arrangements were pending.

Mobilization May Slow Down Texas Highway Building

AUSTIN—(AP)—National mobilization soon will clamp a "Go-Slow" policy on Texas highway construction.

State Highway Engineer D. C. Greer has revealed a message to that effect from the U. S. Bureau of Public Roads. The message explained conferences now being held in Washington will set a national policy for controlling critical road-building materials.

The bureau asks a slowdown of all road projects not essential to national defense.

All proposed Texas projects already have been examined in order to determine how much critical materials they will involve, Greer commented. Some may be postponed, he added.

Quick Verdict of the New-Car Season: "Smart Buy's Buick"

To modernize the triumphant phrase of an old campaigner—"They came. They saw. It conked 'em!"

In other words, folks are calling this smart-stepping '51 Buick terrific.

Wherever you look, you find reasons for this fervor.

The SPECIAL blossoms forth with a full line all its own—Sedans, Rivieras, Convertibles—new in styling, new in power-to-weight ratio—new in performance—new in thrift—smartest car for its price that Buick ever offered.

The SUPER has everything it takes to make it the standout performer and buy of the middle-price brackets.

And the ROADMASTER literally tops all previous standards of comfort

and luxury. You sink hip-deep in double-thick, pillow-soft Foamtex cushions—feast your eyes on new fabrics that have the look and texture of custom excellence.

You can enjoy the sweeping view from the generous glass areas of the '51 Buick to the fullest—for now you can have glare-and-heat-reducing windshields and windows.

Add to all this the mighty power of Buick's Fireball engine—the superb smoothness of Dynaflo Drive—a ride that's the marvel of the industry—and you can understand why Buick dealers' showrooms are drawing the crowds.

Better go, see for yourself, what all the excitement's about.

- NO OTHER CAR PROVIDES ALL THIS:**
- DYNAFLOW DRIVE*—saves strain on driver, reduces wear on many parts of car
 - FIREBALL POWER—high-compression, valve-in-head engine gets more good from every drop of fuel by "cyclone" combustion found in no other automobile
 - PUSH-BAR FOREFRONT—combines smart style and unsurpassed protection
 - WHITE-GLOW INSTRUMENTS—greater clarity at night
 - TORQUE-TUBE DRIVE—steadies ride, improves driving control
 - 4-WHEEL COIL SPRING—cushions ride, saves servicing costs
 - DUAL VENTILATION—outside air fed separately to right or left of front compartment
 - SELF-ENERGIZING BRAKES—hydraulic—multiply pedal-pressure five times at brake drum
 - DREAMLINE STYLING—tapered, car-length fenders, gleaming sweepers on most models
- PLUS:** Self-locking luggage lid, Step-On parking brake, two-way ignition lock, Safety-Ride rims, Hi-Poised engine mounting, Body by Fisher
- *Standard on ROADMASTER, optional at extra cost on other Series.

Army Plans Induction Of 4-F Athletes

Professional and amateur athletes got implicit notice Wednesday from Defense Secretary George Marshall that 4-F's probably will find themselves drafted in the present emergency if the necessity demands.

If inducted, Marshall said, the men could be used in non-combat duty, thus relieving more of the physically fit for the fighting front.

The question arose at a session of the House Armed Services Committee in Washington Tuesday when it was recalled that many athletes who failed to pass Selective Service physical examinations were deferred in the last war.

A new bill proposing to draft 18-year-olds and establishing a universal military service and training system now is under discussion.

Although it was not specified, Pentagon officials later explained that it was decided to draft the 4-F's, not only athletes but men from all walks of life would be affected.

Officials of major league baseball and football immediately gave full support to the proposal, many of them pointing out that the athletes themselves would prefer such service.

Actually, unless the international situation requires drastic changes in mobilization requirements, such sports as major league baseball and football will feel little effect under present regulations.

The present draft applies only to men from 19 through 25 years of age, and exempts veterans of World War II and married men with dependents. Rosters of most of the professional clubs are stocked with players who saw service in the last war, are 26 or over, or are married.

At the Pentagon it was said officials have been talking about the 4-F's for several weeks. The Selective Service boards are hearing the bottom of the barrel filling quotas with those meeting present physical requirements.

Palms Accepted
Ery Palica, 23, Brooklyn Dodgers pitcher who failed to pass his physical last November, passed a new examination Tuesday. He suffered high blood pressure, but now is expected to be inducted within three weeks.

Others who might be called for limited service include such baseball players as Ralph Branca, Brooklyn pitcher, outfielder Joe Adcock and Pitcher Herm Wehmeier of the Cincinnati Reds; Mickey McDermott, Boston Red Sox pitcher; Cass Michaels, Washington Senators second sacker; Mickey Marlie, rookie shortstop going South with the New York Yankees; Eddie Kasak, St. Louis Cardinals third baseman; and Pitcher Jim Pearce of Washington.

Pitcher Howie Fox and First Baseman Tex Kluszewski of the Reds were classified 4-F, but Fox is 29 and Kluszewski is 26 years old.

Two other athletes were among those receiving notices Tuesday to report for physicals. Weldon Humbels, guard of the Cleveland Browns—National Football League champion—was called for his physical February 5. He is a reserve first lieutenant with the Marines. Pete Babando, 25, wingman of the Chicago Blackhawks of the National Hockey League, will report for examination Friday.

Riley Starts Play In Amateur Tourney

MIAMI, Fla.—(AP)—The defending champion, Polly Riley of Fort Worth, was the first player to tee off Wednesday in the opening round of the Helen Lee Doherty Women's Amateur Golf Tournament.

The chunky Texan, who matched women's par for the 6,068-yard Miami Country Club course in Tuesday's qualifying round with 38-38-38, was paired with Mrs. Paul Kirby of Miami in the first match. Mrs. Kirby qualified with an 82.

Two competitors—Marge Lindsay of Decatur, Ill., and Pat O'Sullivan of Orange, Conn.—had better scores as a starting field of 158 was whittled to 32 for championship play.

Miss Lindsay knocked four strokes off par on the outgoing nine, firing an eagle and three birdies to reach the turn in 34. An even par performance of 38 on the home nine gave her a 72, just one stroke off the tournament qualifying record set by Marlene Bauer of Midland, Texas, last year.

Miss O'Sullivan gave Miss Lindsay a scrap for medal honors with a 38-37-73 and was the only other player to break par.

Flying Sisters
Dump Garden City
The Midland Flying Sisters basketball team drubbed the Garden City team 25-10 Tuesday night in the John M. Cowden Junior High School gym.

Rosie Hart paced the Midland team, scoring 19 points and being the outstanding player on the court. Eloise Graham scored four points, and Bobby Delap tallied two for the Sisters.

Edith Campbell, star forward of the Midland five, did not play Tuesday night. Dutch Clinton, Joyce Beasley and Franki Schukle played nice floor games for the winning team.

The game evened the Flying Sisters' record at 1-1 for the season.

Seventh Grade Bullpups Win
Coach Clifton Holt's John M. Cowden seventh grade team defeated visiting Odessa Bowie 27-13 Tuesday afternoon in the Junior High gym.

The Purple and Gold team led all way, and the little Bullpups never were in trouble. The scoring was evenly distributed with Bud Whitley scoring six points, Roy Vanderpool six, Larry Sapp four, Stuart Chancellor three, Howard Harris, two, Ray Phillips two, Princess Blancett two and Jerry Wilton two.

Midland Youth Team Wins Ping Pong Match
The Midland Youth Center ping pong team Tuesday night defeated the Latin American Youth Center team 11-1 in a 12-game match at the Latin American center.

Jimmy Chavez won the only game for Latin American, defeating Gwyn Girsham 22-20.

Winning for the Midland Youth Center were Teddy Kerr, Al Atkinson, Jack Wright, Bobby Stanley, Tommy Johnson, Billy Medart and Charles Crowley.

LONGEST HOME STREAK
BROOKLYN —(AP)— Long Island U's home-court winning streak—now 139 straight—probably is the best in the country. The Blackbirds' last defeat at home was in 1947 at Marshall College.

Jockey Ted Atkinson led the riders during the 196-day New York thoroughbred season with 164 winners. He had 1,002 mounts, Eddie Arcaro was runnerup with 134 winners for 606 mounts.

Oklahoma City U Slaps Baylor Bears In Double Overtime

By The Associated Press
Oklahoma City University slapped a 52-48 defeat on Baylor University Tuesday night and handed the Southwest Conference another inter-sectional licking.

It took the Chiefs two overtime periods to dump the peaky Bruins, but field goals by Bill Stowell and Laverne Laws finally sewed up the game.

Baylor had rallied from a seven-point deficit to tie the game in the final second on Ralph Johnson's field goal.

Gordon Carrington shot Baylor ahead with a field goal in the first overtime period, but Kenneth Rose sank two free throws for the Chiefs to send the game into another extra session.

The game was one of only two to be played by conference teams this week Saturday. Texas Christian University plays host to Howard Payne in a non-conference tilt.

Final examinations are keeping other teams inactive.

Hogan Is Favorite In Phoenix Open

PHOENIX, ARIZ.—(AP)—The nation's leading golfers teed off Wednesday in the pro-amateur curtain raiser of the \$10,000 Phoenix Open Golf Tournament.

They fired over the 6,068-yard, par 71 course at the Phoenix Country Club. Championship play will start Thursday.

Already Bantam Ben Hogan has been tagged as the man to beat. Jimmy Demart and Byron Nelson also are rated near the top.

Allocation Of Steel Is Sought For West Texas Water Project

WASHINGTON —(AP)— Three West Texas cities Wednesday sought an allocation of steel for a water supply project they plan jointly to construct.

Here representing Odessa, Big Spring and Snyder in a conference with W. B. Quale of the Steel Division of the National Production Authority was E. V. Spence of Big Spring, manager of the Colorado River Municipal Water District.

Before going to the federal agency, Spence took the matter up with Representatives Mahon and Regan and Senators Connally and Lyndon B. Johnson, Texas Democrats.

To Open Bids Soon
Spence told the legislators the three cities plan to open bids soon for construction of a dam about half way between Big Spring and Snyder, on the Scurry-Borden County line.

The project, including about 100 miles of pipe to deliver the water to the municipalities, is expected to cost between 10 and 12 million dollars, Spence said.

Before proceeding with construction of the dam, he added, the cities want to be sure the steel is available for the pipe.

Spence, formerly a member of the Texas State Board of Water Engineers with headquarters in Austin, said the water district he now manages is comprised of the municipalities of Odessa, Big Spring and Snyder.

The three cities already have worked out arrangements to finance the project, he added.

Philharmonic Will Observe Tradition

TEL AVIV —(AP)— Even during its forthcoming three-months tour of the United States and Canada, the Israel Philharmonic Orchestra will stick to its old tradition, not to give any concerts on the Sabbath; the Seventh Day of the week— from Friday after sunset until the first star shines on Saturday night.

Leonard Bernstein, who will conduct most of the concerts in the U. S. said in a newspaper interview in Tel Aviv, he was sure the American public would receive the orchestra with enthusiasm.

King's Row

By LARRY KING

It seems baseball fans here are ready for the diamond season. After the Longhorn League members voted Sunday in Big Spring to go ahead with the season, interest picked up.

Reports say there's quite a clamor for box seats. The seats haven't gone on sale yet, but will within a few days. Harold Webb is due back in town soon and he has announced the seats will go on sale when he arrives.

The MFA basketball team sported shiny new warm-up tugs Tuesday night, but they didn't help much in the basketball game with San Angelo.

San Angelo took the clash 60-28 despite our prediction Midland would win—a prediction several phone calls won't let us forget.

The Midland team looked good in spots, but couldn't work the ball in against the San Angelo zone defense. Coach Rutledge's five is having a bit of trouble getting started this season.

It always has been a custom here for teams to try to avoid conflicts in home dates.

The Midland Flying Sisters played the Garden City team here Tuesday night in direct competition with the MHS five.

It seems to us that since the Midland High game was booked far in advance, the Sisters could have lined up another night for their contest.

While it's true no team has a monopoly on home games, it is best to avoid such conflicts. We hope they will be avoided in the future.

Three teams from Midland will enter the Southwest Bowling Tournament in Fort Worth early in February, according to Edward M. Jones of Plamor Lanes.

From the City Major League, Houston Hill and Scharbauer Hotel will enter legkles. The American Legion team will represent the Civic-Fraternal League.

Jim Watson, Midland heavyweight, has decided against fighting Odessa's Don Thompson again.

Watson realizes he isn't in the condition he should be to fight, having had quite a lengthy layoff from the squared circle sport. And there won't be time for Watson to get back in condition before his scheduled second appearance against Thompson February 7.

U. S. Air Command In Europe Is Unified

WIESBADEN, GERMANY —(AP)— The U. S. Air Force Wednesday announced a drastic reorganization placing its air power in continental Europe, England and the Mediterranean area under a single, unified command.

The reorganization places the units in Europe under the direct control of Lt. Gen. Lauris Norstad, new commander of U. S. Air Forces in Europe.

Midland Attorney To Address Annual Pecos CC Banquet

PECOS—William L. Kerr, Midland attorney and a member of the Board of Regents of the Texas State Teachers Colleges, will address the annual banquet of the Pecos Chamber of Commerce January 30. Manager Alton Hughes announced.

Kerr, a native of Pecos, is a former district attorney and district judge here.

Officers and directors of the Chamber will be elected by ballot prior to the banquet and the election results will be announced at the annual gathering.

Pecos Merchant Named City Judge

PECOS—Will R. Glascock, veteran Pecos merchant, Tuesday took office as the new Pecos city judge, succeeding the late Monroe T. Kerr.

The new city judge, who was sworn in by Mayor Cecil Cothrun, has resided here since 1896. He has been engaged in the grocery and dry goods business.

The appointment was made by the City Council. Four applicants were considered.

Flags Are Voted For Californians In Korea

SACRAMENTO, CALIF.—(AP)— Californians servicemen in Korea won't have to listen quietly to rebel yells anymore.

The State Senate unanimously voted funds Tuesday to send California State Bear Republic flags to three outfits in Korea.

Two Men Scheduled To Go On Trial For 'Fixing' Boxing Bout

MEMPHIS, TENN.—(AP)— A gambler and a referee-promoter go on trial here February 19 charged with bribing a Dallas heavyweight to throw his fight.

In extraordinary session Tuesday, the Shelby County grand jury returned joint bribery indictments against Frank Casone and James A. Manley.

Both denied there was any "fixing" bout, Manley, who refereed the fight, staged November 21, previously was indicted by the grand jury on a separate bribery charge.

They were accused of promising Russell H. (Buddy) Scott a percentage of the net gate receipts and a slice of "winnings from bets to be placed" on the fight.

District Attorney General John Heiskell said Scott took a dive in his bout with Oscar Buchanan of Memphis. He said the fake knockout was rehearsed in Casone's hotel suite the night before the fight.

The state also contends a fight matching Johnny Edward Burke of Birmingham and Memphis welterweight Sanford L. Barrow was booked. Both bouts would end up the pre-match favorite on the canvas.

Scott, who was headed back to Dallas Tuesday night, said: "I've never before been connected with anything shady. I want to do everything I can to straighten up this matter."

"I had been approached before by gamblers to throw a fight," he added, "but this is the first time I've agreed to go through with it."

Rotary-Hale Fives To Play Benefit Clash In Odessa

The Rotary Engineers Journey to Odessa Wednesday take on the Bill Hale Motors five of that city in a benefit basketball tilt, in the new Odessa High School gym. Game time is 8 p.m.

All proceeds will go to the March of Dimes fund. The admission charge is any donation to the March of Dimes.

Both of the teams are among the toughest in independent-cage circles in West Texas. Rotary has dropped but one game in 11 starts—a 50-43 decision to the Odessa five. But the Midland team has licked Hale on two occasions, 56-37 and 52-36. The Odessa team has dropped but three of eleven games.

Bennie Rutherford, Leland Huffman, Tom Shaik, Frank Collins and Charlie Kelly probably will start for the Midland quintet.

Texas' Ken Jackson Signs For Navy Hitch

AUSTIN —(AP)— Texas' Ken Jackson has passed up pro football for a four-year hitch with the Navy.

The 245-pound all-Southwest Conference tackle enlisted Tuesday. He had been selected in the second round of the pro league draft by the New York Yankees.

Jack Jackson said he enlisted with hopes of getting physical training duty.

O'Donnell Receives 'Friendly' Warning From Top AF Boss

WASHINGTON —(AP)— Gen. Hoyt Vandenberg, Air Force chief of staff, says he is sure Maj. Gen. Emmett (Rosie) O'Donnell, until recently in charge of bombing in Korea, did not urge the "immediate use of the atom bomb on Communist China."

Nevertheless, General Vandenberg reminded O'Donnell in a friendly letter, made public by the Air Force Tuesday, that armistice must "use care" when making public statements.

Meantime the Army said an order issued shortly after O'Donnell spoke to a news conference was intended to encourage officers to do more talking. Rep. Van Zandt (R-Pa.) told the House a "gas" report went out, after O'Donnell spoke, binding officers to support Administration policies in any public comments on military and foreign matters.

Flurry Of Comment
O'Donnell spoke to newsmen last week at March Air Base, Calif., upon his return from his post as chief of the Far East Bomber Command to head the 15th Air Force. His remarks created a flurry of pro and con comment in Congress.

Vandenberg wrote that "after personal investigation I am now confident your remarks did not urge the 'immediate use of the atom bomb on Communist China.' This apparently was a matter of interpretation."

O'Donnell has not claimed he was misled by reporters at the air base. He told them, "I think we would be very effective with the ultimate weapon against Red China." Asked what he meant by the "ultimate weapon," O'Donnell replied, "The atom bomb."

Kashmir Plan Due At United Nations

KARACHI —(AP)— Mohammad Ali, secretary general of the Government of Pakistan, told newsmen here after his arrival from a seven-week stay at Lake Success that a new Kashmir Plan will shortly be presented to the Security Council of the United Nations.

He declined to give any details, but stated that the new plan had not been completed.

Bobcat Five Drops Bulldogs 60 To 38

Driving John Poss and tall Jimmy McGill teamed to score 43 of San Angelo's 60 points Tuesday night as the Bobcats stormed to an easy 60-38 win over the Midland Bulldogs on the Purple's home court.

The Bobcat 'B' team slammed the Midland Bees 41-38, finishing with but four men after three Angelo boys had fouled off the court.

Minor Loops Slate Regional Meetings

COLUMBUS, OHIO.—(AP)— A series of nine regional meetings starting this weekend may have a lot to do with how successful a season minor league baseball has in 1951—its golden anniversary year.

The National Association of Professional Baseball League (minors) has invited representatives from all its 420 clubs to attend. The first meeting will be held Friday and Saturday in Des Moines, Iowa, for officials of Midwest leagues and clubs.

Baseball men will talk over the organization's two biggest problems: 1. How to increase attendance at minor league games, and 2. How to get enough players while the country is calling more and more young men to the armed forces.

President George M. Trautman of the association points out that there were 440 minor league clubs last year and are only 420 now. But he said "we're holding our own" considering the draft.

The schedule of meetings and local leaders includes: February 7-8—Fort Worth, Texas, Worth Hotel, John Reeves. February 8-10—Houston, Texas, Texas State Hotel, Allen Russell.

Dick Todd Confers With Tech Officials

LUBBOCK —(AP)— Texas Tech's new head football coach may be named within a few days, President D. M. Higgins indicated.

The Athletic Council Tuesday interviewed Dick Todd, Texas A&M backfield coach. He is one of the three most prominently mentioned for the job—left vacant when Dell Morgan resigned.

Dr. Higgins Tuesday night said things were moving rapidly toward a selection.

Major Weirus Holds Command Inspection Of Guard Unit Here

Maj. Richard Weirus, executive officer of the 112th Armored Cavalry Regiment of the Texas National Guard, held a command inspection of Company E Tuesday night at Midland Airpark.

Major Weirus conducted the annual inspection for Col. Frederick H. Weston, commanding officer, who was inspecting a unit in Snyder. Company E is a part of the Second Battalion, with headquarters in Pecos. Regimental headquarters is in San Angelo.

The executive officer inspected the records and office of Company E Tuesday afternoon, and reviewed the troops that night.

Major Weirus said the Midland unit is "in pretty fair shape."

Recruiting Drive
"The recruiting drive the company has underway has gained 115 new recruits, which brings its strength to 56 men," Weirus said. Before the drive, Weirus said the Midland unit had 42 men, which is just enough to keep the unit from disbanding.

The lack of adequate facilities for classes and vehicle repair was mentioned by the inspecting officer, but he quickly added that it is not the fault of the Midland unit.

The medical detachment for the Second Battalion also is a Midland unit. Weirus said the unit, with two officers and 11 men, is the largest in the regiment.

Authorized strength for Midland's Company E is 121 men, and Weirus reminded that men can join the National Guard prior to receiving notice to report for physical examination for Selective Service.

FASCINATING POSITION For a young lady as representative in the telephone business office. To qualify you must have at least a high school education. Experience unnecessary. We train you thoroughly, full pay while you learn. Some typing, no dictation, no bookkeeping machine work. Good salary to start, with regular increases.

TELEPHONE OPERATORS - WANTED If you have poise, friendliness, a pleasing voice, and an opportunity for a job with the Telephone Company in which you will receive special training that will add to your charm of voice and manner, and pay dividends "socially" too. The "Voice With A Smile" reflects the happiness and satisfaction you may find in the job of a telephone operator. You'll work in pleasant surroundings, with people you like, at a starting rate of \$135.00 per month, and doing something you know is important. See Mrs. Ruth Baker, Chief Operator, 123 Big Spring St., and find out all about it.

SOUTHWESTERN BELL TELEPHONE COMPANY GIRLS (2) 18-25. Free to travel. \$500 month and transportation. No experience necessary. Interest in aviation helpful. Miss Corbett, Har-Wil Court, 6-8.

STENOGRAPHERS with general office experience, preferred. An opportunity for a job with the Telephone Company in which you will receive special training that will add to your charm of voice and manner, and pay dividends "socially" too. The "Voice With A Smile" reflects the happiness and satisfaction you may find in the job of a telephone operator. You'll work in pleasant surroundings, with people you like, at a starting rate of \$135.00 per month, and doing something you know is important. Prostate Gland Trouble Can Become Serious If Neglected

By EDWIN P. JORDAN, M.D.
Written for NEA Service

"For the past 10 years," one of my correspondents writes, "I have had prostate gland trouble which seems to be getting no better. I have read that people can give new organs for their bodies and wondered if I could not get a new prostate gland."

I wish that I could answer "Yes," but unfortunately it seems most unlikely that this request can ever be gratified—at least not for a long, long time.

Now, the prostate gland is a sex gland which lies at the neck or outlet of the bladder. In the later years of life it often grows bigger and thicker. If it enlarges too much, it interferes with the free flow of urine and complete emptying of the bladder. Getting up at night often is one of the first signs of enlargement.

Delay or difficulty in beginning urination is common at first. This tends to increase slowly. The bladder wall gradually thickens and is, therefore, able to hold less urine and thus the desire to urinate comes more and more often, setting up a sort of vicious circle.

The pain, irritation, and local discomfort caused by enlargement of the prostate vary from person to person. The sleep can be disturbed. There is also a possibility of developing kidney trouble because of the back pressure from the urine in the bladder.

A man with an enlarged prostate suddenly may find that he is not able to urinate at all. If this happens the bladder must be emptied through a tube, called a catheter.

George O. Browne, president of Optimist International, Indianapolis, Ind., will be a guest of honor

which is passed into the bladder. The symptoms of acute inability to urinate can be relieved in this way but only for a while.

Surgery Used
The complications of an enlargement of the prostate gland can be serious. Those who have symptoms should not neglect them until serious harm to the kidneys or the bladder itself has been done.

Perhaps sometime a method will be discovered of preventing prostate enlargement or of treating it with hormones or drugs. Although studies along these lines have been made at present surgery usually is the best method of treatment.

There are several different and good methods of operating on the prostate gland aimed at removing some of the excess tissue and relieving the symptoms. The choice of what particular method is to be used must, of course, be left to the decision of the surgeon. But no surgeon can be expected to supply a new prostate.

Midland K&F Club Will Install New Officers Thursday

Officers of the Midland Knife and Fork Club for 1951, including Carroll L. Thomas, president; C. E. Nelson and Mrs. Erma Mandell, vice presidents; Newell W. Ellis, secretary, and Jack Wicker, treasurer, will assume their respective offices at the January meeting of the organization Thursday night in the Midland High School Cafeteria. The dinner-meeting is scheduled at 7 p.m.

James C. Watson is the retiring president. He has served since the organization of the club late in 1949.
Guest Speaker
Robert Kazmayer, writer, traveler and commentator on world events, will be the guest speaker at the Thursday night session. He has gained a national reputation as a speaker and writer on national and foreign affairs and is much in demand as an after-dinner speaker. He addresses more than 200 clubs and organizations each year.

Yet, he still finds time to visit Europe and other foreign countries each year to gather material for his lectures. He has made 12 trips over the European continent in recent years.

A former Methodist minister, Kazmayer left the ministry in 1938 to devote full time to lecturing and writing. He also is the publisher of a newsletter for U. S. businessmen.

Mosquitoes Bite You? If So, You Have Taste Appeal

STATE COLLEGE, PA.—(AP)—Ever wonder why mosquitoes put the bite on you and spare others? Two Pennsylvania State College scientists have an answer—you've got the right taste appeal.

Drs. Hubert W. Prings and Charles L. Hamrump, reporting on a study of habits and fancies of mosquitoes, say the female—the male doesn't go after blood—tests your taste appeal before sinking the stinger. This is done, they explain, through sensitive samplers on her nose and legs.

If the mosquito bites, say the researchers, it means she has found the blood type which suits a really keen and subtle sense of taste.

Last Rites Held For Veteran Actor

LOS ANGELES—(AP)—Funeral services were held Tuesday for Jack Holt, veteran actor of adventure films, who died last Thursday.

Among friends attending the rites at the Veterans Administration Cemetery Chapel were Ronald Coleman, Nigel Bruce, Tim McCoy, Hal Roach and Aileen Pringle, along with his son, Tim, a cowboy actor, and his daughter, Jennifer, a television actress.

Children's Agencies Will Hold Regional Meeting In Midland

An all-day regional meeting to discuss problems faced by handicapped children will be held in Hotel Scharbauer on February 3, under the sponsorship of the Children's Service League of Midland and the Texas Society for Crippled Children.

Plans for the meeting, which will be attended by parents, teachers and social workers throughout this section of Texas, were announced Wednesday.

The discussions will center around handicapped children with particular emphasis on those afflicted with cerebral palsy.
Luncheon Scheduled
The all-day session will feature a noon luncheon.

Included on the program for the meeting are H. E. Robinson, Austin, director of special education for the State Education Agency; Robertine St. James, Galveston, director of the Moody State School for Cerebral Palsy; and Martin Ricker, Dallas, executive director of the Texas Society for Crippled Children.

A demonstration of speech correction also will be given during the day by Mrs. Paul Zedler, director of the speech clinic at the Southwest Texas State College at San Marcos.

Breckenridge Asks Housing Grant Be Used For Defense

FORT WORTH—(AP)—The Public Housing Administration cancelled a public housing program for the City of Breckenridge.

The action was the reply to a resolution by the housing authority of the West Texas city that funds allocated to the project there be used for defense purposes.

A. E. Sweeney, chairman of the Breckenridge Housing Authority, said Tuesday he received the letter of cancellation from C. J. Stenzel, field office director of the PHA in Fort Worth.

"We had \$75,000 in federal funds already in hand to start the program," Sweeney said. "Four members of our housing authority are veterans of World War II. We talked it over and decided that the housing program could wait until the war emergency is over."

Wow! Shave And Haircut, Two Bucks

By The Associated Press
Order a shave and a haircut in Houston and Beaumont and the price is two bucks.

Houston barbers Tuesday hiked haircuts to \$1.25 and shaves to 75 cents. Beaumont barbers started charging the same prices January 15.

Barbers in many other Texas cities haven't raised prices, but some indicated they would soon.

The price for children's haircuts in Beaumont is \$1.00, except on Friday and Saturday.

Five Dallas barbers said the price for a haircut is still \$1.00 and 50 cents for shaves. "We may go up 25 cents the first of the month, though," one said.

No increase in prices in haircuts was reported in downtown shops in Fort Worth, Austin, San Antonio or Corpus Christi. Suburban barbers in San Antonio, however, hiked prices from 75 cents to \$1.00 to conform with downtown prices. Shaves in these cities now cost from 60 to 65 cents, except in Corpus Christi, where you can get one for 50 cents.

Alabama Claims Sweetest River

VERBENA, ALA.—(AP)—The sweetest little river in these parts Wednesday is the Coosa.

A trailer-truck carrying a load of syrup fell into the stream near here Tuesday when a ferry couldn't hold it.

The driver attempted to back off the ferry when it became apparent something was going to give. But rotation of the truck wheels pushed the ferry away from the shore, and the truck was dumped smack in the middle of the river.
No one was injured.

Howard Sentenced To Five-Year-Term In Houston Slaying

BELTON, TEXAS—(AP)—Wash Howard, Jr., said he would ask a new trial after he was convicted and sentenced to five years in prison for the death of a negro yardman. A 27th District Court jury Tuesday deliberated 86 minutes, then returned a verdict of guilty of murder without malice. It recommended a prison sentence of five years.

Howard was tried for the fatal shooting of Carter Boyd, 38-year-old Houston negro yardman.

The case was tried here on a change of venue. Shortly after the jury returned its verdict, the 25-year-old former University of Houston student told reporters: "I am not guilty. I am going to file a motion for a new trial."

Boyd, father of nine children, was shot to death March 11 after a minor traffic accident on a Houston street.

In final arguments Tuesday, the prosecution contended Howard had not told the truth in saying he did not kill Boyd. The defense contended the wrong man had been indicted for the murder.

Howard testified he did not kill Boyd and that it "looks like" a friend, Milton Edward Simms, Houston lumberman, fired the fatal shot.

Simms was the trial's mysteriously missing witness.

Leviness Goes To Trial Second Time In Twitchell Slaying

ANAHUAC, TEXAS—(AP)—Six jurors were needed Wednesday to complete the panel for the second murder trial of Alex Leviness of Orange, charged with the slaying of a Beaumont housewife.

Leviness and Darius Coleman of Hempstead were sentenced to death a year ago by a Liberty County jury. They were convicted in the September, 1949, slaying of Mrs. Eloise Twitchell.

The Court of Criminal Appeals reversed the Liberty County verdict. Coleman is to be tried again here April 10.

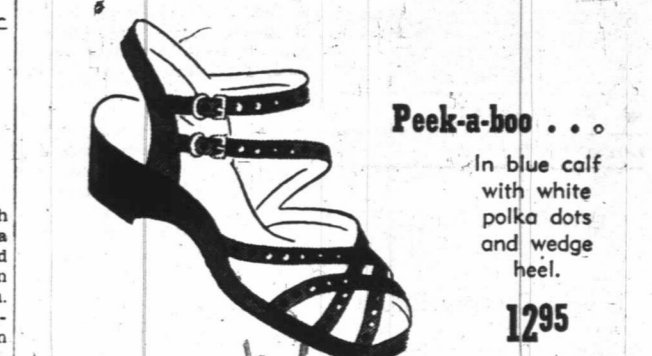

The body of Mrs. Twitchell was found by two hunters in a patch of brush near Saratoga, Liberty County, October 4, 1949. She had been missing since September 20, when she left Beaumont to visit her mother in Colmesneil.

Grenade Damages Embassy In Dublin

DUBLIN, IRELAND—(AP)—A grenade hurled by two men shattered two windows in the British Embassy here Tuesday night and damaged a car belonging to a member of the embassy staff. No one was injured. The two men escaped.

Pickets have been outside the embassy since last Friday protesting the training of a Dutch air squadron in Northern Ireland, which still is part of the United Kingdom despite Irish demands for home rule.
