

Holiday Showers

Partly cloudy with widely scattered afternoon and evening thunder-showers Sunday and Monday. Not much change in temperatures. Maximum temperature Saturday 95 degrees, minimum 73 degrees.

Senate Scrap Keeps Congress Grinding

House Clears Decks, Waits For 'Go' Sign

WASHINGTON (AP)—A hot Senate row over a White House-opposed curb on spending for atomic weapons expansion held up adjournment of Congress Saturday night.

Budget Cuts Set Record In Congress

WASHINGTON (AP)—A modern-day budget cutting record was established during the second session of the 82nd Congress.

Weekend Violence Claims 28 Texans

Texas' holiday weekend violent death toll rose to 28 Saturday with traffic accidents claiming the most lives.

Nation's Toll Soars Toward New Record

By The Associated Press The nation's Fourth of July weekend death toll soared toward a new record Saturday night.

July \$Dollar Day\$ Monday To Offer Red-Hot Bargains

\$DOLLAR DAYS—Midland's July \$DOLLAR DAYS—will be observed Monday, with merchants determined to make this event the best and most worthwhile in this city's history.

Fellow Senators Salute Tom Connally As Texas Statesman Nears Retirement

WASHINGTON (AP)—Senator Tom Connally's colleagues on the Foreign Relations Committee hailed him Saturday for outstanding service they said he had given "the entire free world by his great ability, initiative and statesmanship."

HAS 'HOT FOOT' FOR IKE—There's a long, long trail a-winding between New York and Chicago, and Abraham Nathanson, of Brooklyn, N. Y., covered every mile of it on foot. It took the Eisenhower admiral 33 days to tramp the trail leading to the Republican National Convention.

Newest Liner Knifes Ocean Toward Goal

ABOARD THE SS UNITED STATES — (AP)—America's sleek new queen of the seas streaked well ahead of the Queen Mary's 14-year-old record-setting pace across the Atlantic Saturday night after plowing through a night of blinding fog and bumpy seas.

In the first two days of the streamlined 53,000-tonner's maiden crossing, the United States covered 1,497 miles at an average of close to 35 knots—or about 42 land miles an hour.

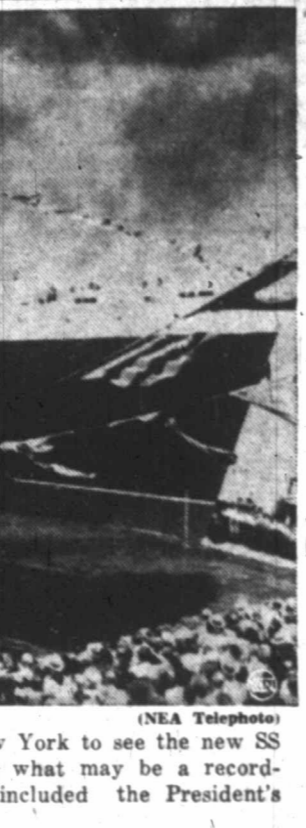

Speed tests are clocked between Ambrose Light off the American Coast and Bishop's Rock. The Queen Mary made it between these two points in three days, 20 hours, 42 minutes at an average of 31.69 knots.

LONE GUNMAN BREAKS PEACE

City police and other law enforcement officers had experienced a quiet Fourth of July. They expected the lull to continue.

Midland Area Bell Workers To Benefit By New Wage Hike

Midland area employees of the Southwestern Bell Telephone Company will receive annual wage increases totaling \$105,000 as a result of a contract agreement reached Friday by company officials and union representatives at St. Louis, Mo.

MAIDEN VOYAGE—Crowds mass on the pier in New York to see the new SS United States begin her maiden voyage to Europe in what may be a record-shattering crossing. The 1,669 passengers aboard included the President's daughter, Margaret Truman.

Toe-To-Toe Struggle For GOP Nomination To Start Monday

CHICAGO (AP)—Gen. Dwight D. Eisenhower and Senator Robert A. Taft stormed into this convention city Saturday for their toe-to-toe struggle for the GOP presidential nomination.

The general ripped off a promise that "I will never give up" in the battle for the nomination in the Republican National Convention which opens Monday.

The Ohio senator pledged that he will go "all-out" himself for the big prize.

But rank and file delegates who swarmed into town with the main combatants were wondering openly whether the bitterness generated in the Taft-Eisenhower battle would endanger chances for victory in November.

Here and there, however, there was talk of efforts to restore some sort of harmony within the warring GOP. Arthur Summerfield, national committeeman from Michigan, said, in fact, that he and Gov. John S. Pines of Pennsylvania have been working in that direction.

"Gov. Fine and I would like to see a new note of harmony developed here that is very badly needed," Summerfield told a news conference.

And Gov. Earl Warren of California, an outside contender for the

presidential nomination, rode in from the coast declaring himself more interested in Republican harmony than in anything else.

"I'm the only candidate who doesn't guarantee his nomination," Warren said.

Another hopeful, former Gov. Harold E. Stassen of Minnesota, wasn't so sure of his chances either. But he told a reporter he thinks both Eisenhower and Taft may "fall short" of the nomination on early ballots, leaving the way open for their supporters to flock to him.

SCOREBOARD OF DELEGATES

Table with 2 columns: Name and Delegates. Includes Taft (530), Eisenhower (427), Others (131), Uncommitted & disputed (118), Total (1,206), Needed to nominate (604).

Hoover Panel Closes Shop, Cites Billions In Savings

WASHINGTON (AP)—The Citizens Committee for the Hoover Report shut down operation Saturday with an estimate that government reorganization proposals it has helped push through eventually will save the American taxpayer four billion dollars a year.

The committee was formed in April, 1949, to work for adoption of the recommendations made by a commission under former President Herbert Hoover. That group, after extensive studies, proposed sweeping measures to streamline the executive branch of the federal government.

Robert L. L. McCormick, research director of the Citizens Committee, said in summing up its accomplishments that 70 per cent of the 300-odd Hoover recommendations have been written into law. He made the four-billion-dollar savings estimate and added:

★ LATE NEWS FLASHES ★

WASHINGTON (AP)—Fights over a curb on spending for a huge atomic weapons expansion program and over projects cut out of a rivers and harbors bill still had Congress tied in knots early Sunday. Foes of the cuts declared they could talk all night and all day Sunday, too.

WASHINGTON (AP)—The Gulf Intercoastal Waterway appropriation approved Saturday night by a joint conference of Senate and House committeemen was \$1,150,000. It was one of the few appropriations which had differed in the House and Senate bills.

WASHINGTON (AP)—The Senate adopted by voice vote Saturday a resolution urging cooperation between federal and state governments to let members of the armed forces vote this year.

Walsh Confirmed To Arizona Judgeship

WASHINGTON (AP)—The Senate Saturday approved, without objection, the nomination of James A. Walsh of Arizona to be federal judge for Arizona.

It also confirmed the nomination of Paul Moss of Odessa, Texas, to be a member of the advisory board for the Post Office Department.

Midland Streets Gush With Water As Showers Heavy

Water gushed in Midland streets late Saturday afternoon as heavy showers brought relief from the extended heat.

The mercury plunged 13 degrees in an hour—from 89 degrees at 4:30 p. m. to 76 degrees at 5:30.

Water stood in the borrow pits along the Andrews Highway as West Midland received precipitation estimated up to 1.25 inch. Other sections of the city had intermittent showers which greened lawns, shrubbery and other vegetation.

CAA observers measured .05 inch at Terminal. They reported the moisture was mostly limited to the immediate Midland area.

Thundershowers were continuing at scattered West Texas points Saturday night. Big Spring listed showers to the south and northwest.

The Texas weather for Sunday promises to maintain the pace of high temperatures and scattered thundershowers which has held all during the Fourth of July weekend.

TOOTHFULLY CONFUSING — Honny Sue and Connie Lou Lester, 7, of Jacksonville, Fla., are identical twins. So identical, that they both lost the same baby tooth the same night. That's Connie Lou on the left. Or is it?

Truman Gets Cheers On Surprise Visit To Senate Chamber

WASHINGTON —(AP)— President Truman paid a surprise visit to the Senate Saturday and got a rousing ovation from the members and from spectators who crowded the public galleries.

The President went to the Senate after lunching at the Capitol with prominent Democrats at the office of Senate Secretary Leslie Biffle. He slipped quietly into the rear row seat he once occupied as a senator from Missouri.

Several senators discovered his presence and came to his side to shake hands. Being broadly, Truman chatted several minutes with them.

Then Vice President Barkley, presiding over the Senate, took note of Truman's presence and introduced him "as a great President of the United States."

When Barkley concluded, senators on both sides and the gallery spectators rose and applauded the President. He smilingly acknowledged the ovation.

Then he asked for "unanimous consent" to say a few words—a request Barkley readily granted on his own.

Noting that Congress was driving toward adjournment by nightfall, Truman said it had been his custom—"almost every year since I left the Senate"—to come back for the last day of the session.

He said the happiest years of his life were spent in the Senate and called it the greatest deliberative body in the history of the world. Then he added with a grin that he hoped he wasn't quoted on that remark in the House.

Air Force Experts Take Off For Study In Peruvian Andes

OAKLAND, CALIF.—(AP)—A half-dozen scientists and mountain climbers left by U. S. Air Force plane Saturday, their goal one of the highest peaks in the Peruvian Andes.

The expedition, to be joined by three other medical scientists, will seek data for the Air Force on the effects on human beings of prolonged exposure to altitudes above 18,000 feet.

The climbers also expect to get training for a planned attack next year on 28,225-foot Mount Dhaulagiri in the Himalayas.

Leading the group Saturday was William Siri, physicist and research associate at the University of California Donner Laboratory of Medical Physics.

Siri said they would be joined by Brig. Gen. Otis Benson, commanding officer of the Air Force School of Aviation Medicine at Randolph Air Force Base; Dr. John H. Lawrence, director of the UC Donner Laboratory; and Dr. Peter Hoenes, assistant professor at the University of Utah Medical School.

A major phase of the scientific studies, Siri said, will be an attempt to learn something of the factors which increase the production of red blood cells in humans at high altitudes.

JOHNSON IN HOLLYWOOD Sparks Flying Again In Zippy Gabor-Calvet Fildom Feud

By **ERSKINE JOHNSON** NHA Staff Correspondent

HOLLYWOOD — Exclusively Yours: Sparks are flying again in Hollywood's spiciest feud—the clawing and scratching of Hungarian Zsa Zsa Gabor and French Corinne Calvet.

In the July issue of Motion Picture Magazine, in a story about glamor girl feuds, I quoted Zsa Zsa as saying:

"This Corinne Calvet is not a French girl as she represents herself. She's a Cockney girl who couldn't even speak French a few years ago. Even George (Sanders) knew her in London when she was an English girl speaking with a Cockney accent."

New it's Corinne yanking Zsa Zsa's blonde hair with:

"I think poor Zsa Zsa made a natural mistake. She must have met so many people in London while she was there with a roving gypsy band selling fortunes that she got mixed up. I want to thank her, though, for thinking I'm such a great actress that I can pretend to be English when my family have been French, for generations."

Meow!—and pick your own accent.

Payed Thoughts

John Payne's romance with Golden Gray is serious enough to end up at the altar. They ignited while co-starring in "Kansas City 117." . . . Julie Mitchell, Bob's sister, is giving up her singing and will try for a movie-actress career. . . . Paul Douglas will be Ros Russell's leading man in "Never Wave at a WAC." . . . Charles Boyer sold his \$200,000 home—for a fraction of the price it cost him. . . . Joan Crawford nixed the lead opposite Bob Young in a road company of "Country Girl." . . . Dean Martin and Jerry Lewis are shopping for a Texas cattle ranch—steaks for meat packers and capital gain for the comics. . . . No property settlement talks as yet between Keenan and Betsy Wynn. But she's telling friends that a reconciliation is out of the question. . . . Censors nixed an "All About Sex" ad campaign for "The Happy Time." So now it will be "All About That Certain Urge." . . . Errol Flynn's profit share of UFA "Against All Flags"—40 per cent—will be attached by a Hollywood press agent who has a \$15,000 judgment against the star for publicity service him. . . . Timmy Getty, son of actress Theodora Lynch and millionaire oilman J. Paul Getty, has been stricken with a mysterious malady. Doctors say that the six-year-old boy is in a critical condition. . . . Anti-Red Union Leaders Support Western Defense

BERLIN —(AP)— Leaders of the world's anti-Communist trade unions Saturday voted unanimous support of Western defense efforts but at the same time expressed hope "the need for rearmament will soon cease."

A resolution expressing these views was approved at the closing session of the first General Council meeting of the International Confederation of Free Trade Unions (ICFTU), composed of unions which broke away from the Communist-dominated World Federation of Trade Unions (WFTU) in 1949.

The resolution, submitted by representatives of North Atlantic Treaty nations, called for effective economic planning in connection with defense, equal sharing of the burdens and a voice for labor in NATO and other organizations dealing with the economic and social aspects of rearmament.

England's Cliffs of Dover are formed by the uplifting of countless shells of minute animals.

THIS NEW YORK

BY NORTH CALLAHAN

NEW YORK—New York Harbor is noted for its sights. I found during the last war when I was stationed on Governors Island. Then grey-billed warships slipped in and out, awesome in their martial splendor. Last week, however, a great messenger of peace sailed majestically up the harbor. The new liner, "The United States" arrived from Virginia and was given the proverbial Gotham welcome. We watched her glide easily through the water escorted by dozens of puffing tugs and hailed by the music of many bands. Five city blocks long, she is 100 feet wide and 13 decks high, our finest ocean liner. Many a visitor will come and go on her swift cruises, and we hope that all of them will continue to be peace-time missions.

John Foster Dulles spoke to a group of us about the foreign policy of our nation, and some wondered why he did not lash out more strongly day the young woman came home for a visit and was showing her parents some of her latest exercises. She grabbed a big rod and swung it back and forth, explaining that this was to develop her arms. The father still was skeptical. "Now if that rod had straw at the end of it," he commented wryly, "You'd be sweeping."

Get off a train here and thought Sedam had broken loose in the depot. It had. About 7,000 boys and girls from seven to 17 had gathered, ready to depart for Summer camp. Some clomped over the floor in camp boots, others alighted about in moccasins of sneakers. They were drinking countless gallons of water from the fountains, pouring nickels into soft drink machines and chomping nervously on candy bars. The big bunch was yelling greetings, complaints and asking questions. Some waved some books, others

canoe paddles. One hollered out, "Hey Charlie, how you gonna drive this year—by the head, by the feet or by the seat?" All in all, it was a lively scene of young America at its polki, happy best.

For quite awhile now, the National Council of Churches, world's largest religious organization, has been trying to select a headquarters. The organization always has had its central office here in New York, and a recent decision was made to keep it here for at least another 10 years. However, after that time, it was recommended, the headquarters be moved to the Middle West. Predominance of opinion was that although this city is the "center" of many things, this religious organization eventually should be headquartered more near the middle of these United States.

Dad still has a problem with his Summer clothes. Seems that when they were designing tops for him, they left out the calculations of the weatherman. Heat was built into the clothes, coats have been made a miserable Summer fashion and neckties have become as uncomfortable as nooses for hanging. For awhile, shorts appeared to be an answer, until some men were mistaken for kiddies because of their skinny legs. Now denims are being used a lot, the drug store cowboy of New York trying to look like the crow poke of the old West. Only trouble with this fashion is that the denims still make spindly shins and bow legs, which did not come from a horse, look strangely warped in these small-legged duds which poor man has donned in his attempts to dress as well as the comfortable woman.

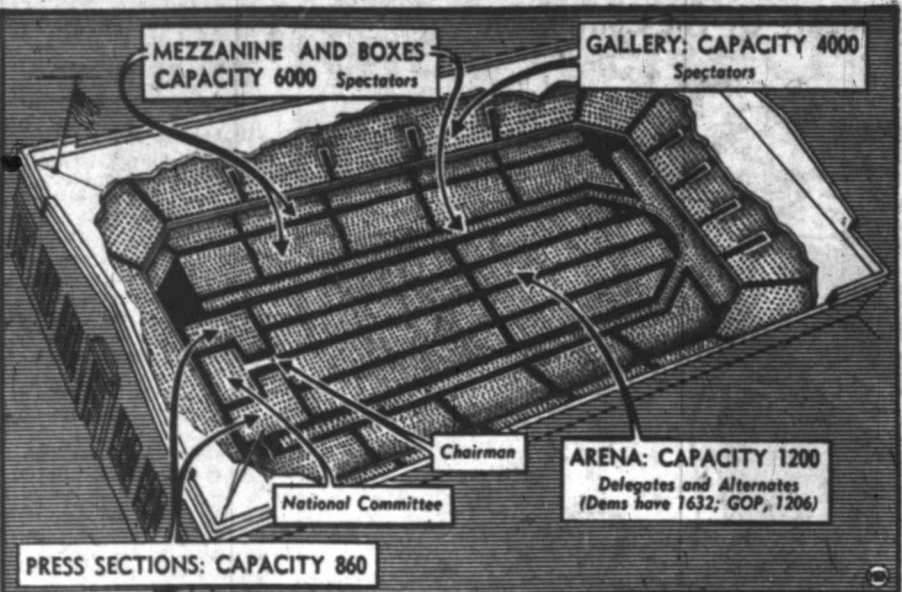

Pioneer Andrews Resident Interred

ANDREWS—Funeral services for Mrs. S. E. Umberson, 78, pioneer Andrews resident, were held Saturday in the First Baptist Church here. Interment was in the Fairview Cemetery, Midland, with the Newell W. Ellis Chapel in charge.

Funeralbearers were Umberson Akana, O. B. Buske, W. F. Buske, Emory Stewart, A. L. Stewart and Tom Akana.

Widow of the late Judge S. E. Umberson, she was born in Alabama on Oct. 5, 1873. The family had moved to Andrews in 1907 and was the third family to settle in the city.

Survivors include three daughters, five sons, eight grandchildren and three great grandchildren.

CONVENTION STAGE IS SET—Where some 12,000 persons will sit and see our nation's next President nominated is shown on the above diagram of Chicago's International Amphitheater, which will host both the Republican and Democratic National conventions, opening on July 7 and 21, respectively. Central attractions at the greatest political shows on earth will be the delegates and alternates seated in the main floor arena. Surrounded on all four sides by spectators in the boxes, mezzanine and gallery, they will also be watched by an estimated 60,000,000 radio and television fans.

Bitterness Pervades Chicago Air On GOP Convention Eve

By RILMAN MORIN

CHICAGO—P—The air in Chicago is heavy with bitterness.

On Monday morning, the thousands of Republicans who have been crowding into the city during the last week get down to the deadly-serious business of nominating a candidate for the presidency. Another national political convention is about to begin.

And this is what people—the partisans and neutrals alike—are asking: "Was there ever a convention that started like this?"

A national convention, normally, is a kind of carnival, a Mardi Gras with a purpose. People put on caps and buttons and badges. They mill around in hotel corridors with buzzers and cow-bells, and crowd the bars and restaurants, trading wisecracks like college boys on the night before a football game.

They have a very good time. Even the paid professionals tend to look on the whole panorama with a certain indulgence, although they stand to win or lose a great deal.

There is relatively little of that atmosphere here now.

The heat and aggravation stirred by the straight-out contest between Senator Robert A. Taft and Gen. Dwight Eisenhower is fierce and desperate. Both sides are playing this convention for all there is in it. This is a fight to the death.

Possibly, this is because only two men appear, at this point anyway, to have a chance for the nomination.

In 1948, there were at least four—Dewey, Taft, Stassen and Warren. And on the fringes of the contest, so to speak, were the late Senator Arthur Vandenberg and Gen. Douglas MacArthur.

Consequently, the partisan feelings, which are as inflammable as high octane, were diffused during the pre-convention period.

It is not like that now.

There have been fist-fights in the Conrad Hilton hotel, where both Taft and Eisenhower have their headquarters.

The other night, some young Republicans came to serenade Taft, and then went up to floors into Eisenhower's headquarters, chanting "We want Taft... We want Taft."

Trigger-Ready Laughs

The people who are working for Eisenhower stormed out of their

Congress Completes Action Guaranteeing Crop Price Supports

WASHINGTON—P—Congress completed action Saturday on a compromise bill guaranteeing that prices of six basic farm crops will be supported by the government at 90 per cent of parity during 1953 and 1954.

The Senate passed the bill by voice vote and a short time later the House also passed it by voice vote, thus sending the measure on to the White House.

As first passed by the House, the bill would have extended this guarantee for an additional year, or through 1955. But the Senate had refused to accept the mandatory support provision at all.

The compromise measure worked out by a Senate-House conference committee also provides that parity prices for the six crops—cotton, wheat, corn, rice, tobacco and peanuts—be determined under either one of two formulas through 1955.

This part of the measure was not in dispute between the two branches of Congress. It is designed to give producers of these crops the benefit of whichever parity formula is higher for an additional two years.

Parity is a price determined by the government to be fair to farmers in terms of things they buy.

Shivers Links Own Race With National Democratic Issues

EL PASO—P—Governor Shivers said Saturday the issue in July 26 Democratic precinct conventions and in his race for reelection is "one of the same."

Talking to his precinct leaders and campaign workers here, Shivers told them:

"The issue is, shall the Democratic Party of Texas and the governor's office be controlled by the same forces and influences that now control the national Administration, or shall we continue in Texas the middle-of-the-road, conservative policies that I have tried to maintain?"

The governor urged his workers to "see to it that Democrats representative of your true beliefs and interests turn out for these conventions."

Shivers' visit to El Paso completed a two-day tour of West Texas. He returned to Austin late Saturday, where he announced plans for a week-long swing through East Texas, Central Texas, the Panhandle and Permian Basin areas this week.

Yarborough Voices Need For Capturing Texas Flood Water

BRADY—P—Much of the present suffering for want of water could be relieved by a comprehensive plan for the conservation and use of Texas flood waters, Ralph Yarborough said Saturday in his campaign for governor.

Yarborough said Texas loses an average of 35 million acre feet of water a year because the water is allowed to flow into the Gulf.

The candidate also declared himself in favor of federal-aid programs such as those for old age assistance, highways and airport construction.

He attacked what he termed the short-sightedness of state officials who declare their complete independence of the union of 48 states. Such an attitude, he said, will lead the way in halting federal assistance to states.

"Sixty-five cents out of every dollar that goes to old age assistance comes from the federal government," he told his listeners at the Brady July jamboree.

"Texas gets more federal highway aid than any other state. Our airport construction program is financed largely by federal assistance."

"I have no regard for the permanent politicians who spend their time denouncing the union."

Well Completions Dip Again In State

AUSTIN—P—Oil well completions dropped again last week, when 171 were drilled compared with 177 the previous week, the Railroad Commission reported Saturday.

The year's total rose to 5,904 compared with 5,559 a year ago.

Six gas wells were brought in, making 430 for the year against 442 last year at the same date.

Operators abandoned 115 dry holes.

Wildcat operations led to six wells and 82 dry holes.

Pluggings included 113 dry wells, 4 gasers and 39 oil wells.

The total average calendar day allowable Saturday was 2,724,523 barrels, a decrease of 172,228 barrels from the previous week as the curtailed July permissive flow went into effect.

It is only in comparatively recent times that it was known there is no Antarctic ocean.

BLEACHERS COLLAPSE

ESTELLINE, S. D.—P—More than 1,500 persons escaped serious injury when an overloaded section of bleachers collapsed during a Fourth of July amateur show at the race track here Friday night.

Life is different in Mexico! Rich in culture, with fine traditions of hospitality and comfort. You'll find relaxation and excitement in the capital or the provinces. And your dollar goes further. You'll never forget MEXICO!

DIRECCION GENERAL DE TURISMO

Iron Curtain Conceals Fate Of Former Red Darling Anna Pauker, Purge Victim

VIENNA, AUSTRIA—P—Romanian Foreign Minister Ana Pauker, the international darling of communism and one of Stalin's former friends, has been shored from her office in a lightning Soviet stranglehold over the Black Sea nation.

Her ouster was announced formally by Communist news agencies Saturday. Western diplomatic reports from Bucharest said the fact that she is a Jewess was a major factor in the internal cut-throat rivalry for power that led to her purging.

Western observers here believed the time is coming when she will be put on trial as a traitor despite the fact she was a faithful, lifelong Communist who once had the special privilege of being able to get the ear of Stalin by long-distance telephone at any time.

The Soviet-licensed German news agency ADN said her dismissal was ordered by the National Assembly in Bucharest. Simion Boghiet, a Russian-indoctrinated official who formerly was Romanian a bassador to Moscow, was given her job to make sure Romania is kept under the Kremlin's heel.

There was nothing in the files of diplomats here, in Washington or Berlin that shed any further light on her.

Committee Bows To Taft Directive On Texas Votes

CHICAGO—P—The Republican National Committee bowed to a Taft directive Saturday to seat 22 Taft delegates and 16 Eisenhower delegates in his compromise offer.

The committee decided that was not necessary and seated the delegates as named by Taft.

Taft's list showed:

TAFT FACTION

Delegates at-large—Henry Zweifel, Fort Worth; Mrs. Carl G. Stearns, Houston; Marrs McLean, San Antonio.

District delegates—First—Jesse H. Blalock, Marshall; Second—L. J. Benckenstein, Galveston; Fourth—H. H. Duncan, Kaufman; Sixth—Ben Ballard, Jr., Hillboro; Seventh—Dudley Lawson, Alto; Eleventh—L. D. Barnes, Sr., Thorndale; Thirteenth—O. J. Harit, Wichita Falls; Fourteenth—J. J. Schleyer, New Braunfels; and J. Lawrence Wood, Refugio; Fifteenth—Carlos G. Watson, Brownsville; and R. N. Clarke, McAllen; Sixteenth—H. L. McCune, Jr., El Paso; and G. L. Hells, Midland; Seventeenth—Guy E. Morris, Sweetwater; Nineteenth—M. D. Temple, Lubbock; Twentieth—Eugene Nolis, Jr., San Antonio; and Neil E. Beaton, San Antonio; Twenty-first—William Schroeder, Fredericksburg; and R. W. Hedge, Del Rio.

EISENHOWER FACTION

At-large—Corbin J. Robertson, Houston; H. J. Porter, Houston and Ben Guill, Pampa.

District delegates—Third—James H. Hughes, Longview; Fifth—Alvin H. Lane, Dallas; and Mrs. Alice M. Currie, Dallas; Eighth—Keith McCasne, Houston; and Mrs. R. H. Osborne, Jr., Houston; Ninth—Harry E. Clark, Houston; and Howard J. Swann, Galveston; Tenth—G. D. Williamson, Austin; and Gray Thorton, Austin; Twelfth—Elton M. Hyder, Sr., Fort Worth; and Mrs. Joseph D. Kennedy, Fort Worth; Eighteenth—L. R. Miller, Pampa; and Mrs. Frank T. O'Brien, Amarillo.

Betty Haas Is First To Land In Women's Florida-Canada Race

WELLAND, ONTARIO—P—Betty Haas of Seaside, N. Y., Saturday finished first among four women pilots, in a 1,200-mile all-women's air race from St. Augustine, Fla. However, the winner will be determined later on a handicap basis.

Miss Haas, who brought down her single-engine Navion plane here at 12:35 p.m., was the 1950 winner.

Mrs. Elaine Mogelvang of Lockhart, Fla., landed almost simultaneously with Miss Haas. Mrs. Dorothy Runnell of Welland arrived at 1:50 p.m.

The four contestants left St. Augustine Friday in the race sponsored by the Florida Chapter of Women Pilots.

The fourth entrant, Peggy Lennox of St. Petersburg, Fla., was forced out Friday when she ran low on fuel and crash-landed in a pasture near South Boston, Va. She was uninjured.

Three Texans Die In Arizona Crash Of Private Plane

SANTA FE, N. M.—P—Three members of an Austin family died Friday when their private plane crashed near here.

State police identified the dead as: Stuart S. Nickerbocker, 41; his wife, Vera, 47; and a boy of five or six, believed to be their son.

Officers said the Nickerbockers had landed for gas at a private airport southeast of Santa Fe but couldn't get the type of fuel they wanted. They took off for a nearby airport and the plane crashed about half a mile from the runway.

An aviator, in World War I, was an ace after he shot down five enemy planes within his own lines.

Atlantans Celebrate Fourth In Big Way

ATLANTA—P—"Biggest celebration on record," sighed the Atlanta Police Department Saturday as it counted 650 Fourth of July arrests.

The figure is almost twice the number of arrests recorded last year.

INGRID GOES HOME

ROME—P—Actress Ingrid Bergman took her 17-day-old twins home from the hospital Saturday.

Business Research Bureau Has Hands Full Of Queries

AUSTIN—It's almost a full-time job for one research librarian in the University of Texas Bureau of Business Research to answer such questions as:

"Are any chayote plants available in Texas?"

"How many pounds of horsehair and shark livers are produced in Texas?"

"Tell me all you know about Texas, as please."

The Bureau of Business Research, celebrating its 25th anniversary, has a library containing one of the most comprehensive collections of Texas business and economic literature in the state. It is available to the Texas public and is invaluable for research by graduate and undergraduate students in business administration and other fields.

The two-pronged bureau program, conceived by Dr. A. B. Cox, its founder, includes compilation of current statistical data for business and industry, and basic research in resources, the foundation of Texas wealth. A monthly publication, Texas as Business Review, has been issued since 1927.

Other publications include periodical bulletins and permanent studies.

The Directory of Texas Manufacturers will appear soon in its eighth edition.

Since its founding, the Bureau has encouraged participation of private institutions in its activities. Extensive research projects have been commissioned by several industrial and commercial concerns and trade associations.

Dr. John R. Stockton, Bureau director, expects more and more private companies to call upon the Bureau for collaboration in research studies in the future. Such studies benefit individual companies, other interacting business and the state as a whole, he points out.

Dr. Stockton is nationally known as a business statistician and analyst. Assistant Director Stanley A. Arlingast is an expert on the resources and industrial geography of Texas.

Dr. Stockton will present the University July 14-15 at a New York City meeting of the Census Advisory Committee of the American Marketing Association. The group will advise the Bureau of the Census concerning the next national Census of Business, to be prepared in 1953.

ON THE UP AND UP—Flippy, a porpoise trained at Marineland, Fla., is a flag-raiser as well as an eyebrow-raiser. At either spoken or visual command, Flippy races across his tank, leaps out of the water to grasp a rubber ball, pulling it down to raise the Marine Studios' porpoise flag. At left, above, he leaps for the ball. At center, almost free of the water, he grabs the ball. Flipping back (right) he releases his hold on the ball just as the flag reaches the top of the mast.

Behavior Problems Separate Diligenti Quints, Argentina's Most Famous Team

Buenos Aires.—Argentina's most famous team has been broken up for disciplinary reasons. The Diligenti quintuplets, now in their eighth year, have been sent to five different English boarding schools. Father Franco Diligenti, the well-to-do, Italian-born factory owner who ever since the quint's birth has been sheltering them from the glare of publicity, quietly decided earlier this year that the children should be treated as single units. "They were becoming an increasingly serious problem," he said in an interview. "Their team spirit, a wonderful thing in most cases, was just too much for their mother and myself and their teachers and servants. Just a year ago, I commented happily on how closely knit a team they were. Since then, their squad behavior meant that they defied discipline and any corrective influence from outside. Diligenti, a busy man who has little time to spare, and Mrs. Diligenti, whose restraining influence was strained to its limit, agreed that, harsh as it may seem, the best for the kids was to have them separated. "Besides," Diligenti explained, "we wanted the children to be educated as any other boys and girls. We wanted their individualities developed. When they went to the same school, the teachers and the other pupils could not help treating them as the quint. The five now study, play, eat and sleep in schools miles apart. They get together only on rare occasions on weekends—but never the five of them at the same time. Their father takes them out for a couple of hours, singly or, at most, by twos, every Saturday. Franco, Jr., who has not yet decided what to be when he grows up, and Carlos Alberto, the prospective airman, met only once in the last

three months. That was when playing a friendly soccer game for their respective schools. Their three sisters—Maria Cristina, Maria Fernanda and Maria Esther—have changing ideas about their wishes for later in life. Diligenti said this is the beginning of proof that he was right in splitting the team apart. Before, he said, the five were apt to keep to a thought-pattern when one of them had any idea.

West Texas Road Bids June July 15-16

AUSTIN.—Road projects to cost approximately \$2,500,000 will be bid on July 15-16. Bids opened July 15 for grading, structures, base and surfacing will include these projects by counties: Seury—U. S. 84, one mile, grade, foundation course and two-course surface treatment from east city limits to Avenue H in Snyder. El Paso—U. S. 80, 12.3 miles, widening pavement, surfacing and construction shoulders from Fabens to Hudspeth County line. Projects on which bids will be received July 16 (grading, structures, base and surfacing): Mitchell—Farm 1808, 5.58 miles from Westbrook to 3.5 miles south. Nolan—State 70, 1.25 miles grading, flexible base and one-course surface treatment from Alamo Avenue to south city limits in Sweetwater. El Paso—U. S. 80, seven-tenths mile reconditioning flexible base and hot mix asphaltic concrete pavement from 83 mile to 1.59 miles north of junction with U. S. 80-A.

Rio Grande Valley Plans To Rebuild Citrus Empire

HARLINGEN.—A coating of costly ice all but wrecked the booming citrus fruit industry in the southern tip of Texas in 1951. But today farmers in the Lower Rio Grande Valley are planning a comeback for their multi-million-dollar grapefruit and orange crops. It is a long, slow process, because four or five years are needed to get new trees into full production. Citrus experts say the groves will be better than ever because of improved varieties and better orchard planning. The January, 1951, freeze was brief, but disastrous. It killed or damaged millions of trees. Eight million of the eleven million trees in the Valley have been removed, according to Joe Daniels, executive manager of the United Citrus Growers Association. In a recent school tax case, attorneys and economists for Lower Rio Grande counties asked reduction of school assessments on the grounds the Big Freeze will cause a five to seven year business recession of \$286,000,000. Other estimates placed actual property damage to the groves at

Progressive Chief Charges Civil Rights Double Cross

CHICAGO.—Former Congressman Vito Marcantonio of New York told the Progressive party's National Convention Saturday that President Truman wants civil rights "only as an issue" and not as law. He accused the Truman Administration of "shameful double-dealing" on civil rights in the 81st Congress and said Republican senators, including Senator Robert A. Taft of Ohio, "gave their aid." Marcantonio said Taft has "a record of sabotage of civil rights" in the Senate and that Gen. Dwight D. Eisenhower's "confessed ignorance" on civil rights "places him on the dunce stool." In the current 82nd Congress, he said, a fair employment practices bill was not reported out of committee until a month before scheduled adjournment of Congress. This he contended, amounts to "a guarantee it will not be enacted." The one-time American Labor Party congressman predicted "1952

will mark the beginning of the disintegration of the Democratic party. Speaking as permanent chairman of the left-wing party which hopes to get its presidential and vice presidential candidates on the ballots of 39 states in November, he said: "I say we are not wasting time; we are not fighting in vain. For as we battle in 1952 to that extent will we earn the right to be the hard core of the great political party that will follow in the reassignment which will inexorably ensue from the disintegration of the Democratic party as we know it." The party's candidate for president is Vincent Hallinan, West Coast lawyer who defended Harry Bridges on charges of perjury and conspiracy. Hallinan is serving a jail sentence for contempt of court. His release is scheduled August 17. The vice presidential candidate is Mrs. Charlotte Bass, New York negress who formerly published the California Eagle, a negress newspaper.

WHERE ANGELS FEAR TO TREAD

NEW YORK.—Recorded portions of the GOP National Committee hearing on the Texas delegate dispute were carried Friday night on a Columbia Broadcasting System radio program. The hearing in Chicago was banned to radio and television facilities. CBS said the recording was made without the knowledge of the committee and proved it could be done with "no fuss whatsoever."

Goodfellow Is Sole Texas Base To Get Building Fund Boost

WASHINGTON.—Funds for 22 military construction projects in Texas were included in a \$10,000,000 supplemental money bill approved Saturday by a Senate-House Conference Committee. As approved by the committee, the Texas money allocations included reductions voted by the Senate in the case of 16 Texas projects, and a lone increase. The only boost voted in the Senate was in funds for Goodfellow Air Force Base at San Angelo, which were increased to \$3,820,000 from the \$3,741,000 house figure. Other Texas projects in the military construction authorization bill, giving first the money voted by the House and then the Senate figure, included: Fort Bliss, El Paso, \$5,036,000 and \$4,856,000. Biggs AFB, El Paso, \$773,000 (unchanged). Carswell AFB, Fort Worth, \$15,644,000 and \$13,889,000. Tye Field, Abilene, \$32,273,000 and \$23,472,000. Big Spring AFB, Big Spring, \$6,270,000 (unchanged). Reese AFB, Lubbock, \$8,239,000 and \$7,356,000. Los Angeles and San Francisco are served by dairying areas in the irrigated valleys of the Pacific Coast.

Reds Perfect Technique To Lure New Recruits Into Fifth Column

By WILLIAM L. RYAN
AP Foreign News Analyst

What accounts for the startling success of the Stalinist fifth column? How are its recruits, often highly intelligent and educated persons, persuaded to join an underground conspiracy against their own countries? It is a long, careful process. The recruitment of the fifth column often requires money, and Moscow is willing to spend it without stint for the purpose, but money is secondary. Few of the cases of convicted Communist spies involved the payment of any large amount of money. One of the most important methods of recruiting is the Communist cell. Communists scout carefully for their prospects—persons whose environments, backgrounds, way of thinking, prejudices, misconceptions or ideals indicate the possibility of persuasion. Those persons are not invited into the Communist party itself. They are often not reliable enough. Moreover they are more valuable outside the party. These persons instead become subjects for what the Communists call "development." Prospects are lured by one means or another into "study groups" or "discussion groups," which in reality are operated by cells of the Communist party. The recruiting agents concentrate their attention on such persons as scientific workers, teachers, students and persons engaged in intellectual pursuits—in particular likely prospects who either work for the government or have a chance of doing so. Wherever ever possible these persons are caught young. Persons with grievances against the world—those who consider themselves or their race or their creed to be persecuted—are singled out for special attention and often be-

come easy victims. Disillusionment hits these people hard when it comes. Second Class Citizen "I considered myself a second-class Canadian, not a first-class Canadian," testified one agent in the Canadian case. "That is not a laughing matter, Mr. Commissioner. It is serious." That played a large part in this agent's motivation. But there are other motives. The files of prospects in Moscow contain careful entries on personal habits, character, attitudes to families, even inclination to drink hard liquor. A man who is financially insecure may be persuaded to take money. If he does, he quickly becomes "hash," the Russian word for "ours." Gradually the results are imbued with a sense of a secret mission, a sense of conspiracy which sets them apart from their fellows. The cell carefully develops the secrecy habit. Gradually it works to make the prospect doubt the need of honesty and loyalty to his own community. Ultimately, the pros-

pect comes to believe that anybody expressing such sentiments is guilty of "petty bourgeois morality" or some other jargonistic Communist sin, pronounced with a superior sneer. Little By Little The "study groups" are induced to study political and philosophical works highly critical of Western democracy—not necessarily, as yet, Marx, Engels, Lenin and Stalin. These works come at a later stage. First the sense of oneness with the Soviet Union must be inculcated. The "student" must be imbued with the idea that in working for Moscow he is working for humanity. The Communist party makes prime targets of organizations which can be helpful to it. The object is to seize control of such organizations as those devoted to civil liberties, to trade union work, to youth, to women's interests, to peace and a variety of other things. Once in control, the party can use the organization as a recruitment and operations base, unknown to the bulk of the membership. Aside from capturing existing organizations wherever possible, the

party also forms its own front organizations, retaining strict control over them and using them for propaganda and other purposes. There is a system of interlocking directorates among such organizations which gives the party certain continuity of action. Party members in controlling positions in one organization are likely to hold top positions in other front groups. Loyalty To Soviet Once the cells have completed the basic program of "development" with their prospective "fifth columnists," the second stage is reached. That brings a transfer of loyalty to the Soviet Union, blind obedience to the party, devotion to the "cause." This is a gradual process, too. The prospect gets small doses. He takes only as much as he can swallow. His capacity becomes greater and greater as he becomes more and more enmeshed in secrecy and conspiracy. He acquires the psychology of a double life and a double standard, and the moral principles he once knew are displaced. He still believes he is working for mankind, but now the good of mankind and the Soviet Union are becoming synonymous. Thus Klaus Fuchs, the brilliant

atomic scientist, said in his confession in Britain: "I used my Marxian philosophy to conceal my thoughts, which had to be separated into two compartments. One side was the man I wanted to be. I could be free and easy and happy with other people without fear of disclosing myself, because I knew the other compartment would step in if I reached a danger point. It appeared to me at the time that I had become a free man because I had succeeded in the other compartment of my mind in establishing myself completely independent of the surrounding forces of society." Thus Dr. Alan Nunn May, caught up in the Soviet spy network in Canada, pleaded in court: "I did it for the good of mankind." Thus Harry Gold, convicted Communist spy courier between Fuchs and Russian agents, described himself tearfully as "an idealist."

Hangover Cure Suggested, But It Would Kill Patient

By ALTON E. BLAKESLEE
Associated Press Science Reporter

PRINCETON, N. J.—Science now knows a chemical reason why humans get hangovers. The reason suggests a cure, too—but the cure would be worse than the hangover. The horrors of the hangover come from what alcohol does to enzymes. Enzymes are vital chemicals that make the machinery of living cells tick in normal fashion. There are enzymes in all cells of your body. The enzymes get tacked by the excess alcohol of too much drinking. The alcohol wedges itself into empty spaces inside the enzyme molecule and the enzyme is blocked or taken out of action. The cell can't carry on its normal chemical reactions, thus leading to the headache, butterfly and despairing effects of the hangover. Theoretically, the cure would be to squeeze the alcohol out of the enzymes. But that would take tons of pressure. And would be more than a bit lethal. The hangover explanation comes as a by-product of research by Dr. Frank H. Johnson, physical chemist in Princeton University's Department of Biology. Dr. Johnson is studying life in its basic form, the molecules of the living cell. He is learning what effects heat, light and pressure have on chemical reactions of cells, and what drugs do to enzymes. The knowledge may aid in finding differences in enzymes of normal and cancerous cells, or explain some other puzzles of disease and health.

Oil Wayout Cuts Average Earnings

AUSTIN.—The average weekly pay of petroleum refining workers dropped \$19.45 in May as the result of a labor-management dispute involving 22,955 workers. Average pay of all factory production workers in Texas was \$62.73 a week in May, down \$1.64 from April, the Texas Employment Commission reported Saturday.

Blind Man Worries As Dog Gains Weight

DALLAS.—Eugene Norris, a blind newspaper vendor, is worried about his Lady's figure. Lady is his 10-year-old seeing-eye dog who is now on a reducing diet because she is 15 pounds overweight. Norris claims well-meaning people insist on feeding her too many cookies and candy. He likes the food gifts of some, like the cans of dog food and milk bone from a department store worker and the executive who brings dog candy, which is non-fattening.

Midland Meets Roswell In Doubleheader Here Sunday

6—THE MIDLAND REPORTER-TELEGRAM, SUNDAY, JULY 4, 1952

Dodgers Shellack 'Country Cousins,' Boston Braves, 5-3

BOSTON —(AP)—The Brooklyn Dodgers whipped their Boston "cousins" for the twelfth straight time this season Saturday night, as Right-hander Carl Erskine held the Braves to five hits and George (Shotgun) Shuba blazed a three-run homer in the 5-3 victory.

The verdict moved the pace-setting Dodgers a full four games ahead of the second-rung New York Giants, who lost a day game to Philadelphia. The score: R H E Brooklyn 300 100 001—5-11-0 Boston 101 001 000—3-5-0 Erskine and Campanella; Johnson, Cole, Jones, Jester, Burdette and Cooper.

Cubs Drop Fourth In Row As Cincy Reds Triumph, 7-1

CHICAGO —(AP)—Big Ted Kluszewski supplied the power and Veteran Kenny Raffensberger the pitching as the Cincinnati Reds handed the Chicago Cubs their fourth straight lacing by a 7-1 score Saturday.

Kluszewski whalloped his seventh home run and two doubles to drive in four of the Reds' runs as Raffensberger posted his ninth victory with a walk-free six hitter. The score: R H E Cincinnati 101 010 040—7 15 1 Chicago 000 100 000—2 6 3 Raffensberger and Semmlick; Kelly, Lown, Klippstein and Edwards.

Hamner Homers As Phils Trip Giants

NEW YORK —(AP)—Shortstop Granville Hamner, hitting only 256 at game time, smacked a home run off the left field fly screen in the seventh inning Saturday to give the Philadelphia Phillies a 3-2 victory over the New York Giants.

The score: R H E Philadelphia 010 010 100—3 8 0 New York 011 000 000—2 6 3 Fox and Burgess; Jansen, Wilhelm and Westrum.

Red-Hot Redbirds Beat Pirates, 5-0

ST. LOUIS —(AP)—A Bradie 37-year-old relief ace of the St. Louis Cardinals made his third start of the season a five-hit shutout Saturday night as the red-hot Redbirds scored their seventh straight victory, beating the Pittsburgh Pirates, 5-0.

The score: R H E Pittsburgh 000 000 000—0 5 3 St. Louis 104 000 005—5 11 0 Main; Kline and McCullough; Brazie and Rice.

Typhoon Nears Mainland Of China

HONG KONG —(AP)—Storm warnings were hoisted here Saturday as the destructive typhoon which lashed the Central Philippines Wednesday and Thursday approached the Chinese mainland.

The Royal Observatory said the storm, with winds of up to 90 miles an hour, was about 200 miles southeast of Hong Kong, and moving northwesterly at 16 miles an hour. An overcast sky and choking humidity heralded its approach.

The typhoon left 85 dead, 115 missing and more than 10,000 homeless in the Philippines, according to incomplete reports.

WINFREY HAY —(AP)—Father and son recently won successive races at Aqueduct. Hay, trained by Bill Wilfry, scored in a maiden fill race and in the next event, Squared Away and won by five lengths for Gary Winfrey, Bill's dad. Both were favorites and were ridden by Eric Guerin.

National Is 13-10 Choice In 'Star' Tilt

PHILADELPHIA —(AP)—The National League, riding the crest of a two-game winning streak, was established a 13-10 favorite Saturday in the annual all-star game in Philadelphia Tuesday.

It marks only the second time since the inaugural of the mid-season classic in 1933 that the National League has ruled the favorite. The other time was last summer, when they justified the odds-makers' opinion by thrashing the junior circuit's best, 8-3. The American League, however, holds a 12 to 8 edge. No game was played in 1945.

Stalwart Soxers It is not difficult to see why the National has been picked to make it three in a row. Led by such stalwart sockers as Stan Musial, Ralph Kiner, Hank Sauer, Bobby Thomson and company, the National, up to the fourth of July, had cradled 187 home runs to only 128 for their rivals. The older loop boasts the top hitter in Mutual (.333) and the majors' No. 1 home run hitter and run producer in Sauer.

Neither manager, Leo Durocher of the Nationals nor Casey Stengel of the Americans, has given any hint as to which pitcher they intend to start. The guess, however, is that Robin Roberts, the Philadelphia Phillies' right-handed fireballer, will oppose Bobby Shantz, the little left-hander of the Athletics for the first three innings.

Vossler, Pinkston To Meet In Abilene Golf Tourney Finals

ABILENE —(AP)—Ernie Vossler, Port Worth, and Lee Pinkston, Abilene, Saturday swung through quarter and semifinal matches to gain the finals of the Abilene Country Club Invitational Golf Tournament.

Vossler, Port Worth city champion, turned in a five-under-par 68 in the semi-finals to defeat Ed Hopkins, Abilene, 3 and 2. In the other semi-final, Pinkston took the measure of Don January, North Texas State ace, 3 and 2.

In quarter-final play, Vossler beat Doug Jones, Abilene, 4 and 3; Pinkston, Abilene city champ, whipped Russell Crossover, Abilene, 4 and 3; January defeated Vic Jennings, Lubbock, one-up; and Hopkins beat Dr. Harvey White, Wichita Falls, 4 and 2.

Frisky Stasey May Perform In Seventh All Star Contest

ABILENE —(AP)—Pat Stasey is the only Longhorn Leaguer around who has participated in all of the circuit's previous all-star games and when the voting gets underway this week it looks like he'll be on hand for the sixth time.

The Big Spring owner, manager and right fielder still is cutting fancy capers on the diamond with a batting mark of .335 through the midseason averages.

Red Rolfe Let Out As Tiger Manager

By HARRY STAPLER DETROIT —(AP)—The last-place Detroit Tigers Saturday fired Manager Red Rolfe and in a dramatic surprise move boosted relief pitcher Fred Hutchinson.

Red Rolfe, 32-year-old right-hander, into the managerial post. Hutchinson, 33-year-old right-hander, into the managerial post.

President Walter O. Spivey, Jr., announced the dismissal of Rolfe and the promotion of Hutchinson. Hutchinson was named manager of the Tigers and will be appointed immediately to take Bertelli's place.

Yankees Nose Out Philadelphia, 3-1, On Joost's Miscue

PHILADELPHIA —(AP)—A throwing error by veteran Shortstop Eddie Joost led to a pair of ninth-inning runs which gained the New York Yankees a 3-1 victory over Philadelphia here Saturday.

Joost tossed wildly to first on a perfect double play set-up after he fielded Phil Rizutto's grounder for a forceout at second base with one away.

The miscue allowed Mickey Mantle to tally from third, and a few minutes later Rizutto, who got an extra base on Joost's miscue, scored all the way from second on an infield hit by Bob Cerv.

The score: R H E New York 000 001 002—3 9 0 Philadelphia 100 000 000—1 5 1 Raschi and Berra; Kellner and Astroth.

Hutchinson Steers Tigers Past Browns

DETROIT —(AP)—Fiery Fred Hutchinson, named Detroit Tiger manager only two and a half hours before game time, guided his last-place club to a 6 to 0 victory over the St. Louis Browns Saturday night as Left-hander Bill Wright hurled six-hit ball before 32,221 fans.

Hutchinson saw his club end a three-game losing streak when Walt Dropo slashed a one-run single and Johnny Groth a two-run double in the sixth inning.

The score: R H E St. Louis 000 000 000—0 6 1 Detroit 000 003 02x—5 11 2 Cain, Bearden, Johnson, Moss, Courtney; Wright and Swift.

Senators Slip Past Red Sox Nine, 4-3

WASHINGTON —(AP)—Floyd Bakers' base-loaded double in the seventh inning scored two runs and lifted Washington to a 4-3 victory over the Boston Red Sox Saturday night before a crowd of 18,006, including President and Mrs. Truman.

The score: R H E Boston 000 002 100—3 12 2 Washington 000 200 20x—4 10 0 Brodowski, Benton and White; Shea and Keller.

Indians Trip Sox On Tipton's Single

CLEVELAND —(AP)—Joe Tipton's single with one out in the eleventh inning scored Al Rosen from second base with Cleveland's winning run in a 3-2 victory over the Chicago White Sox Saturday night.

It settled a pitching duel between Bob Feller and Joe Dobson and sent the Indians into second place ahead of the White Sox. The score: R H E Chicago 110 000 000—3 8 3 Cleveland 010 100 000 01—3-11-1 Dobson and Lollar, Mast; Feller and Tipton.

Sports Take Pair From Roughnecks

SHREVEPORT —(AP)—The Shreveport Sports smashed the Beaumont Roughnecks twice Saturday night in a doubleheader, 8-4 and 8-1.

The victories gave the Sports their tenth and eleventh wins in their last 13 games and gave them a firm grip of the Texas League's fourth position.

First game: R H E Beaumont 010 001 2—4 6 0 Shreveport 003 140 X—8 11 0 Sturdivant, Crowder, Mitchell and H. Smith; Lively, Manville and Livingston.

Second game: R H E Beaumont 000 100 000—1 3 3 Shreveport 000 000 20x—5 8 0 Gray, Dyck, Crowder and H. Smith; Buddy and Livingston.

Dallas Beats Tulsa Tulsa 000 000 002—2 6 3 Dallas 000 001 00x—3 8 0 Youth, Ball and Landrith; Santiago and Sullivan.

Oklahoma City Wins OKLAHOMA CITY —(AP)—Oklahoma City took a pitchers' duel, 4-1, Saturday night from the Fort Worth Cats.

Heavy Downpour Forces Saturday Game Off Docket

A sudden downpour of rain Saturday resulted in a flash flood at the Midland Indian ballpark, washing out the scheduled Saturday night game between the Midland Indians and the Roswell Rockets.

The two teams will play a doubleheader starting at 7 p.m. Sunday.

Odessa Nips Vernon, 7-6

VERNON —(AP)—Manager Bob Martin stole home here Saturday night to provide the winning margin when the Odessa Oilers continued their supremacy over the Vernon Dusters, 7-6.

Martin stole home in the top of the ninth inning with the win-producing run after Lefty Loyko had scored on a single by Martin.

Vernon took the lead in the game in the first inning off two runs, but watched the Oilers forge ahead, 5-2, at the end of the fifth.

The Dusters bounced back in the bottom of the sixth with four big runs to control a 6-5 lead.

In the sixth, John Reimold singled and went to second on a wild pitch by starter Fred Parker. Joe Niedson and Goldy Gholson walked and George Hayes hit a two-run single, scoring Reimold and Niedson.

Gholson scored on a pinch-hit single by Al Richardson. Hayes scored from third on the throw-in after Vernon Starting Pitcher Steve Lagomarcino flied out to left.

Four hits and a base on balls brought in the two Odessa runs in the third. Felix Castro scored an unearned run in the fourth after being safe on a two base error. He scored on Fred Parker's single.

The score: R H E Odessa 002 100 002—7 13 0 Vernon 300 004 006—6 9 2 Parker, Guerrero, Perez, and Castro; Lagomarcino, Rosa and Niedson.

Big Spring Rumbles By Sweetwater, 17-2

BIG SPRING —(AP)—Gil Guerra fashioned his twelfth mound victory of the season here Saturday night when the Big Spring Broncs defeated the crippled Sweetwater Braves, 17-2.

Guerra set the visitors down with six hits, one of them a bases-empty home run in the seventh by Ernest Cortes.

Despite the fact that 16 base hits rattled off the bats of the Broncs, Marcelano Solis went all the way on the mound for the Braves.

Solis accepted his second loss. He has yet to win a decision.

The Broncs struck for three runs in the first frame and coasted in from that point.

Witty Quintana drove in four tallies for the resident nine with a triple and two singles. Osaie Alvarez scored no less than six times for the Steers.

The score: R H E Sweetwater 100 000 100—2 6 4 Big Spring 311 102 30x—17 16 0 Solis and Trapeusto; Guerra and Valdes.

MCC Course Flattens Public Links Hopefuls

MIAMI, FLA. —(AP)—The cream of America's weekend golfers found the tough Miami Country Club's par 70 an impossible goal Saturday as they warmed up for the National Public Links tournament with an 18-hole battle for the Warren G. Harding team trophy.

A Chicago team was 17 strokes over par with 227, but it was good enough to capture the trophy by a one-stroke margin.

Humble Signs As Pro DALLAS —(AP)—Weldon Rumble, one of the Southwest Conference's all-time great linemen, Saturday signed a pro grid contract with the Dallas Texans.

Maureen Connolly Captures Coveted All-England Title

WIMBLEDON, ENGLAND —(AP)—Maureen Connolly, petite powerhouse from San Diego, Calif., whipped Louise Brough, 7-5, 6-3, Saturday to become the first teenager in 65 years to win the coveted women's singles title in the All-England tennis championships.

The 17-year-old bombshell, also holder of the U. S. singles crown, surged from behind twice to end the comeback hopes of the veteran Miss Brough, three time Wimbledon champion from 1948 to 1950.

Playing with the precision of a mechanical doll, Miss Connolly cut down Miss Brough with a display of faultless ground strokes and uncanny anticipation.

Frank Sedgman, Australia's magnificent Davis Cupper, completed a "triple" by sharing in the doubles and mixed doubles title.

The Aussie teamed with countryman Ken McGregor to retain the men's double crown. They scored a thumping 6-3, 7-5, 6-4 victory over Vic Seitzas, Philadelphia, and Eric Sturgess, South Africa.

Then Sedgman joined with Doris Hart, Jacksonville, Fla., to take the mixed doubles title. They defeated Enrique Mora, Argentina, and Mrs. Theima Long, Australia, 4-8, 6-3, 6-4.

San Antonio Homers Down Houston, 3-2

SAN ANTONIO —(AP)—Home run by third baseman Bobby Rhawn as outfielder Harry Heisel gave the San Antonio Missions a 3-2 victory over the Houston Buffs Saturday night.

The loss was Houston's thirteenth in 14 games.

The score: R H E Houston 000 011 000—2 9 0 San Antonio 000 012 00x—3 5 0 Woodruffe, Creel and Morgan; Peterson and Hopkins.

The first football coach in the history of Colgate University was a man named Samuel Colgate. That was in 1890.

Court Fails To Hand Down Verdict On Heckling By Fans

DALLAS—(P)—Can a fan in the stands breach the peace by "riding" a baseball player?
This intriguing question was supposed to be answered when the case of a Dallas man, charged with disturbing the peace after a Dallas player went into the stands to remonstrate with him, came up in corporation court.
Joe Masbo was the player. He had grown sick and tired of the taunts from the fan in question, hence his visit to the stands.
But the question wasn't answered. After considerable talk by the parties concerned, Judge Frank O'Brien dismissed the case. He did it when the prosecutor moved that it be dismissed.
That's all there was to it. The fans will go on "riding" the players and booging the umpires at least until the question is knarred with some other case.

Midland JayCees To Meet Gushers In Title Contest

The Midland JayCees will meet the Odessa Gushers in Oiler Park at Odessa Tuesday night for the district semi-pro baseball title.
The Gushers entered the final Thursday night when the Midland Coits failed to field a team in Odessa.
Winner of the Tuesday night game will represent this district in the state tournament in Austin under the sponsorship of the National Baseball Congress.
Trophies will be presented to the winning team and members of the all-district club in ceremonies following Tuesday night's game.

Fort Worth Skipper Will Manage Cuban Team During Winter

HAVANA, CUBA—(P)—Bobby Bragan, manager of the Fort Worth club of the Texas League, will manage the Almendares team in the Cuban Winter Professional League.
Bragan was chosen Friday by Mario Mendoza, president of the club. He replaces Mike Guerra, ex-Washington catcher and now manager of the Havana Cubans in the Florida International League.
The Winter League operates from early October to mid-February. Bragan has been with Fort Worth five seasons, coming to the Texas League club from Brooklyn.
Guerra was dropped recently because Mendoza and other club officials thought United States baseball methods would get better results out of the Almendares team's pitching staff. The club finished last in the four-club league last season.
Some 32 American Class AAA and AA players take part in the league race.

SPORTS MIRROR

By The Associated Press
A YEAR AGO—Shirley Fry, Akron, Ohio, defeated Louise Brough, Beverly Hills, Calif., three-time Wimbledon champion, in the semi-finals of the women's singles in the All-England Lawn Tennis Championships.
FIVE YEARS AGO—Jack Kelly, Jr., won the Diamond Sculls by eight lengths over Carl Fronsdal Norway, to avenge the barring of his father from the event 25 years earlier.
TEN YEARS AGO—Ted Lyons won his 252nd major league game as the White Sox trimmed the Browns, 14-2.
TWENTY YEARS AGO—Bill Dickey, Yankee catcher, was indefinitely suspended for punching Carl Reynolds and breaking the Washington outfielder's jaw in a holiday game at the nation's capital.
Sophomore outfielder Bobby Carr of Birmingham was the University of Alabama's top baseball hitter this season with an average of .329.

Carlisle Named Coach

FRAMMONT—(P)—Paul Carlisle has been named head football coach at French High School succeeding Bill Duncan, who went to Texas A&M as end coach. Carlisle has been assistant football coach and head basketball coach at French.
TWO ROOKIES HIT
NEW YORK—(P)—As the major leagues neared the halfway mark, each league boasted only one rookie in the 200 class. Catcher Toby Atwell of the Chicago Cubs had a .310 batting mark for 41 games while Francisco Campos, Washington outfielder, was hitting .308 after getting into 29 games.

O'Keefe Still Atop Longhorn Batting

Youthful-looking Pat O'Keefe, Indian rightfielder, continues to occupy the hitting throne in the Longhorn League.

Latest statistics show O'Keefe's average at .419, or 21 points ahead of his nearest rival, Leo Eastham of Odessa, who boasts a .398 mark.

The statistics were listed as the most official mid-season averages available at the weekend. Actually, the first half of the season ends after each team has played, or is scheduled to play, 70 games.

Tribe Takes Twin Bill From Colts

SAN ANGELO—(AP)—More than 2,000 fans saw the Midland Indians capture a doubleheader from the San Angelo Colts here Friday night, 9 to 0, and 6 to 2.

Israel Ten limited the fading Colts to five hits in ringing up an easy win in the opener and Herb Dwire won his second game of the season in the nightcap, despite nine hits off Colt bats, four more than the Indians could gather.

The opener, in which Ten won his 10th victory of the year, was strictly no-contest after the Indians opened the scoring in the second inning. The big inning was the sixth when the Midlanders tallied five times, three of the runs coming on Pat O'Keefe's home run.

The Colts constantly threatened against Dwire in the second game, getting the leadoff man on in five of the seven innings. The long, slender, right-hander tightened in the clutch, however, and worked his way out of all trouble.

Only four of the Midland runs were earned, two coming on an error by manager Mark Christman of the Colts.

The Indians made the most of their five hits off Lozano, cashing in for three runs on two safeties and the Colt error in the third inning and two more in the fourth on only one hit, a walk sacrifice and wild pitch.

First game: MIDLAND (9) AB R H O A

SAN ANGELO (8) AB R H O A

Second game: MIDLAND (6) AB R H O A

SPORTS NOTES from the BENCH JOCKEY

By BOB ADAMS

Without a doubt, the Midland Indians have been plagued with injuries this season more than any other Longhorn League team.

It all started in Spring training when Menapace suffered a finger injury. Then came Second Baseman Bill Crumley, now on the voluntarily retired list, Gordon Tanner, Dempsey Albritton, Floyd Martin, Cahlen Dinkel, Hayden White, Julio de la Torre and now Menapace again.

If the Indians finish in the top division, they'd better keep a doctor handy.

Pity poor Joe Bauman, the Artesia Driller first baseman who is running away with the Longhorn League home run leadership.

And the big fellow collected one single while striking out once, in two times against Malone. They'll be rolling the ball into the Artesia slugger next. And then there are those who still insist he can be pitched to.

The Midland Indians lost a faithful follower Wednesday when young Dick Fitzgerald, Jr., returned to his home in Dallas.

Before Dick left for Dallas, Manager Zeke Bonura presented him a baseball autographed by members of the Indian club. Fitzgerald is the son of Mr. and Mrs. R. L. Fitzgerald, former Midland residents.

Harlingen in the Gulf Coast League drew an all-time record crowd for the loop Friday night when 4,014 fans trooped into the park to see the Capitols drop a doubleheader to the Brownsville team, 7-3 and 6-4.

for the \$2,500 goal is reached. The money will be used to pay for uniforms and equipment for all the Little League baseball players in Midland.

Those contributing money Saturday included the Veterans of Foreign Wars Post #149-825; Andrew V. Redpath, \$5; and Dr. Henry Schlichting, Jr., \$5.

Anyone desiring to make a contribution should clip out the coupon below this story and send it along with a check made out to the Little League Fund Raising campaign to the Sports Desk of The Reporter-Telegram.

One-Legged Lefty Hurler Wins For Corpus In Gulf Coast League; Takes Spare With Him

CORPUS CHRISTI—(AP)—Bert Shepard, who carries a spare leg along with him, now is pitching for Corpus Christi in the Class B Gulf Coast League.

Shepard is the fellow who lost a leg in World War II but played professional baseball. He was in the major leagues for a time.

In his only appearance to date he twisted Corpus Christi to an 11-3 victory while getting two hits and handling five fielding chances without a bobbie.

He started this season at St. Augustine, Fla., as manager and won the only two games his club could spare before he was released after two weeks. From there he went to Chattanooga to work out and there he came under the care of the team's trainer, Sandy Sandlin.

Between seasons, Shepard worked for the Army, making movies and tending amputation centers. After the 1946 season he had to return to the hospital for five operations and a stay of more than two years.

He became manager of Waterbury, Conn., in the Colonial League. But his long stay in the hospital had caused his arm to tighten up and he played little. So he laid out two more years, pitching a few exhibitions and working his arm to get it back into condition.

Shepard has no concerns about as a runner being provided for him if he gets on base; he can run well enough. And his fielding is exceptional, even on bunts.

Bert has two artificial legs. One is more sturdy built than the other for playing baseball but in an emergency the other one is stable enough. Shepard has fun with that extra leg.

He had one bus station porter handling it like a bag of eggs, telling him it was fragile. "You could probably drop it out of an airplane and not damage it," Bert says.

Bums Sell Podbielan To Get Tom Holmes

BROOKLYN, N. Y.—(AP)—In order to put Tommy Holmes on the Brooklyn roster, Dodger President Walter F. O'Malley said, "We had to let a young pitcher, Bud Podbielan, go to Cincinnati for practically nothing."

Both Holmes and Gordon are Brooklyn natives. Boston is the leftfielder for the Boston Braves.

Bob Cerr, rookie outfielder for the New York Yankees, has three sisters who are softball stars.

Jack Chesbro of the New York Yankees pitched 45 complete games in 1904.

Baseball Roundup (continued)

Vann Ligon Meets Dunn In Country Club Golf Finale

Weather permitting, Vann Ligon, defending champion of the Midland Country Club's Golf Tournament, will take up the defense of his title at 12:30 p.m. Sunday when he tees off against Evans Dunn in the 18-hole finale of the Club tourney on the new North Course.

GOOD NEWS FOR BOSOX

'Reaching My Prime Now,' Says Third Baseman Kell

By FRANK ECK
AP News Service Sports Editor
NEW YORK—George Kell was finding it rough regaining his batting form when he last saw him. That was back on May 1 in Yankee Stadium when he was with the Tigers and hitting .261 in the first 12 games.

GEORGE KELL

Everybody knows third baseman Kell is not that kind of a hitter. He is fifth in total hits among the American League's active batters with more than 1,300 safeties. Something was wrong.

"I'm off on my timing," said Kell. "I'm going to start hitting that ball back to the pitcher just to get a bat and swing back in the groove."

That's just what Kell did when he was traded by Detroit to the Boston Red Sox on June 2. He left the Motor City batting .297 in 40 games.

Jingles Help Sell Art To Audiences

NEW YORK—(AP)—The arts—modern painting, architecture, opera, classical music—are about to be sold to the radio audience as if they were soap chips, beer or chlorophyll.

New York City's independent WNEW will soon start singing little musical jingles plugging long-hair pleasures. For instance, one jazzy jingle starts: "Maybe Mr. Bach wrote tunes that didn't rock."

er Evkn, 3 and 2, in the semi-final. Dunn entered the championship flight by downing J. T. Jamison by the margin of 3 and 2.

In other semi-finals matches Saturday, Roy Lockett, Jr., medalist in the recent Men's Invitational meet here, defeated C. R. Vandervoort, 2 and 1, in a first flight contest. The other first flight match saw Gib Payne beat Miles Hall, 4 and 5. Gib Payne beat Miles Hall, 4 and 5. Gib Payne beat Miles Hall, 4 and 5.

In the second flight matches, Dr. Doyle Patton defeated James Eiker, 1-up, and John Ed Cooper defeated Fred Chambers, 3 and 2.

J. H. Conine defeated Gerald Fitzgerald, 3 and 2, in a third flight contest while Ken Ballard defeated J. P. Wilkinson, 2-up, in the other match.

Luggage Delayed, Umpires Call Game In Street Clothing

NEW YORK—(AP)—Umpires, for many years, have been known as "the men in blue." Their dark blue suits with caps to match have often been taken for granted.

But recently in a game between the Yankees and the Athletics, the umpires were seen wearing everyday street clothes of all colors and descriptions. The reason? The umpire's luggage was held up at Pennsylvania Station by mistake.

Father, Son Team Compete In Sulkies

LAUREL, MD.—(AP)—Horse racing fans are used to entries, but at Laurel Raceway and other harness tracks, they see double—horses and drivers.

It's caused by the Wendell Waltheus, father and son.

GALESVILLE, FLA.—(AP)—The University of Florida football team this season will play six teams who played in Bowl Games last season.

These opponents are: Georgia Tech (Orange Bowl), Kentucky (Sugar Bowl), Tennessee (Cotton Bowl), Miami (Gator Bowl), Clemson (Gator Bowl) and Stetson (Tangerine Bowl).

MITCHELL NOW PRESIDENT

CLEVELAND—(AP)—Since the departure of Ted Williams into the service, the American League's "300 Club" composed of batters who have averaged 300 or better for at least 300 games is headed by Dale Mitchell of the Cleveland Indians. Dale's lifetime mark through the '31 season was 316. Williams' average before accepting Marine duty this year was a lofty 347.

FLIP FLOP—Buddy Picklesimer's mount, 15, did a cartwheel after crashing into Jack Donald's, 75, during stock-car races at Atlanta's Peach Bowl Speedway.

The drivers escaped serious injuries. (NEA)

First game in a Red Sox uniform he accounted for five runs with a home run and a double. The next day he made two more hits. He hit in his first 10 games with the Sox before he was stopped.

At the 60-game mark Kell was hitting .325 and pressing Cleveland's Al Rosen and Boston's Dom DiMaggio for the lead. There's a good chance that Kell will lead the league in hitting. He has been twice in 1950 he hit .342, beating Ted Williams by a fraction of a point.

Kell has hit better than 304 his last six years so you can see Red Sox manager Loni Boudreau knew what he was doing when he demoted Kell in the nine-player deal with Detroit.

It was the biggest mistake I ever made in baseball when I traded George Kell to Detroit for Barney McCasky," Connie Mack often has said. That was back in 1946 and the native of Swifton, Ark., has hit in the upper strata ever since, leading the league in hits the last two seasons.

Kell broke in with the Athletics in 1943. This is his 10th year in the league. He spent four years in the minors, topping his Class A career with a .396 at Lancaster, Pa. in 1943. His average that year was baseball's highest.

"After 10 years it's tough to get much better," says Kell. "But I think I'm reaching my prime right now. I figure I should be good for at least three to five more years."

Had the experts known in the spring that the Red Sox were to get Kell, Tom Yawkey's club would have been picked for the sixth straight spring to win the pennant. They've won it only once during that time, but with Kell in the lineup the Red Sox are the darkhorse team in the American League.

Only injuries prevented him from making the All-Star game five straight years. He missed in 1948 when he suffered a fractured wrist in May. He also suffered a fractured jaw in August of the same year when he got in the way of a Joe DiMaggio drive.

Not only has the 29-year-old Kell taken over in the No. 4 batting slot for the Red Sox, but it wouldn't be surprising to see him become the league's most valuable player.

Bobby Locke Favored To Cop British Open

LONDON—(AP)—South African golfer Bobby Locke is a firm 3 to 1 favorite to win the British Open golf championship, in which play begins Monday.

Nine American entries are included in the biggest post-war field of 73 entries, among them veteran Gene Sarazen, who won the title 20 years ago.

Red Russia Honors Coaches In Same Light As Star Pupils

By TOM WHITNEY
MOSCOW—(AP)—In Soviet Russia the athletic trainer or coach is as highly honored as his star pupils.

The Russian trainer or coach generally is a member of the staff at a sports club. It's his job to select and train leading athletes as well as give general advice to club members.

ALABAMA LAUDS FRESHMAN

TUSCALOOSA, A.L.—(AP)—Freshman Dick Hearn is one of the University of Alabama's top prospects in baseball and basketball. The six-foot-three-inch, 190-pound athlete was a double figure scorer with the Crimson Tide's varsity baseball team in home runs and runs batted in this season.

Longhorn Loop Attendance Shows Eight Per Cent Gain

ABILENE—(AP)—Longhorn League attendance for the first half of the 1952 season is up eight percent, League President Hal Sayles announced Saturday.

The total stood at 225,259 as compared with 209,375 for the same period last year.

Walker Tops Hitters In JayCee Loop

Western Plastic's Jim Walker vaulted into the batting lead in the JayCee softball loop here last week ahead of R. T. Stacey of Shell. Walker has collected 16 hits in 26 times at bat for an average of .571.

Stacey has 14 safeties in 25 times at the plate for his .560 batting mark, which is good enough for runner-up spot.

CAP'S OFF—Hank Thompson, Giant's center fielder, ran right out from under his hat moving swiftly to make a backhanded shoestring stab of a low liner at Polo Grounds. (NEA)

Isabelle McCrae Leads Fem Flyers In U. S. Air Race

ABILENE—(AP)—Isabelle McCrae of Lemon Grove, Calif., was aiming at Terre Haute, Ind., as her goal to outdistance other entries in the All-Women Transcontinental Air Race Saturday night.

She checked in by radio at Springfield, Mo., Saturday afternoon and announced her decision to stretch her flight to Terre Haute after taking off from Abilene in her Beechcraft Bonanza.

Crane Lions Club Fiesta Date Reset

CRANE—(AP)—Due to conflicts with other events in the county, date for the Crane Lions Club Fiesta has been postponed from July 19 to August 30.

The new date will coincide with the twenty-fifth anniversary of the organization of Crane County.

POST-ELECTION SHORT ORDERS

GARLAND, TEXAS—(AP)—If you have to eat your hat to pay off a bet after next November's presidential election, you may as well make it digestible.

So thinks Harry Kolnick, president of the Restofol Hat Company here. He has come up with a host of recipes for succulent fedoras.

His recipe for Top Hat Dumplings:

Cook top hat in salad water 10 minutes. Grind top hat and combine macaroni, onion, salt, crumbs, flour and egg. Mix well. Boil noodles in beef broth eight minutes. Shape mixture into one-inch balls. Drop into noodles. Cover and cook ten minutes. Serve hot.

HERE'S WHAT "MAN IN THE MOON" WOULD SEE—If there were someone on the moon, here's an artist's conception of how a space ship from earth would appear to him, as it came in earth, to arrival on the satellite. It is the feature of New York's Hayden Planetarium presentation for July and August. The dome of the sky-theater has been converted to resemble the interior of a space ship.

GOP Policy Makers May Tone Down Defense Plank

By OVID A. MARTIN
CHICAGO—(AP)—Republican platform drafters, at the insistence of Eisenhower forces, were reported Saturday night to have agreed to "tone down" a proposed national defense plank stressing a sharp expansion in air power.

This action was taken, top-ranking platform leaders said, after Rep. Christian Herter of Massachusetts had raised questions about the plank.

As written, it had raised the threat of a break in the heretofore harmonious effort of the Resolutions Committee to come up with a statement of principles acceptable to the major candidates for the

DA CANDIDATE NOW SOUTHPAW

Charles Butts of Odessa will conduct a left-handed campaign for district attorney now. His right hand is in a sling.

The Ector County candidate bidding for the Democratic nomination in the July 26 primary election suffered a broken right arm in a fall as he alighted from a float in the Fourth of July parade at Odessa.

"I'll still get around to visit friends and make my scheduled talks," Butts said, "but it's going to curtail my writing letters and putting up placards. But I suppose the worst is the fact that I'll have to shake hands left-handed!"

Loss of Credit

In discussing the air power issue, the general said he felt he could claim a "lot of credit" for the fact that the Air Force has gained independent status, on an equal footing with the Army and Navy.

Meanwhile, platform drafters, in a declared move to take farm problems out of politics, propose to strip the politically-appointed secretary of agriculture of powers to fix farm prices and other policies.

Instead, such policies would be determined by a non-partisan board, operating in the farm field much in the manner that the present Federal Reserve Board sets banking and other monetary policies.

A recommendation for this drastic government change has been made to the convention's Resolutions Committee by a sub-group on agriculture.

"Political Football"

The subcommittee said it was prompted to take this stand because of the "extreme lengths" to which the present Democratic secretary of agriculture, Charles A. Brannan, has gone to make farm issues "political footballs to catch farm votes."

Meanwhile, the Resolutions Committee still appeared to be facing a closed meeting tussle over the civil rights issue.

The majority of a subcommittee on civil rights was writing a plank endorsing a federal Fair Employment Practices Commission which would carry on an educational campaign against racial discrimination.

But a minority of the group planned to insist that the platform take the stand that the problem of handling racial discrimination was purely a local and state problem, and not federal.

The platform is now scheduled to be laid before the convention Wednesday. However, a prolonged fight over seating of delegates could delay the presentation.

All Europe Suffers Under Broiling Sun

LONDON—(AP)—Europe still is suffering under a broiling sun. Italy was hit hardest Saturday with temperatures around 100. So far, 18 deaths in Italy have been blamed on the heat wave.

HEAD-OVER-HEELS IN HIS JOB—The feet protruding from the business end of this jet engine belong to B. E. Cummings, AM 3/C, of Lewiston, Idaho, and U. S. Navy airman R. L. Zook, of Willoughby, Ohio, will yank him away from his work as soon as Cummings is finished. Both men are stationed aboard the U.S.S. Boxer, somewhere off in Korea waters.

'Things Look Mighty Good' For General, Porter Notes

CHICAGO—The leader of the Texas Eisenhower delegation says "things look mighty good" for getting 33 of his state's 38 votes for the general at the Republican National Convention.

Heart Trouble Kills Worker

Jodi Sivley, 38, 900 West Taylor Street, died unexpectedly early Saturday morning at his home of a heart ailment.

Midland Internal Revenue Offices To Move Monday

As part of an expansion program, the Midland office of the Bureau of Internal Revenue will be moved Monday from its present location in the Midland County Courthouse to Room 219 of the West Building.

Panhandle County Upholds Dry Law

MATADOR—Voters of the Panhandle County of Motley sustained at an 1883 election when they voted to prohibit the sale of liquor.

Body Of Man Found Floating In River

HUGO, Okla.—The body of a man identified as Elmos Fisher, Paris, Texas, was found late Saturday afternoon on a snag in the Red River about 20 miles southeast of here.

Bill De Mouche, Dyed-In-Wool Texan, Is New Middle East Diamond Kingpin

KUWAIT—A man walked into the dusty little office of the Middle East Diamond Company the other day, laid a bundle of rupees worth \$40,000 on the desk and said he wanted that amount in small diamonds.

convention hotel to make his prediction to reporters. "Asked if he thought Texas 33 votes would be the deciding ones in the nomination of Gen. Eisenhower, Porter said, "Well, the Zweifel people seem to think so."

Porter, grinning and in a good mood, went down to the general press room in the basement of the convention hotel to make his prediction to reporters.

Armed Man Escapes Net After Robbery Of Oklahoma Bank

SPENCER, Okla.—An armed negro held up the Spencer State Bank at closing time Friday and then vanished with from \$2,500 to \$3,000 after eluding an elaborate force of state and county officers who blocked all roads in the area minutes after the robbery.

Convict, Teenage Girl Friend Elude Posse In Montana

DILLON, MONT.—An armed posse sought a 22-year-old escaped convict and a 16-year-old Dillon girl on a ranch south of here Friday after the two slipped through a police net in pre-dawn darkness.

Body Of Man Found Floating In River

HUGO, Okla.—The body of a man identified as Elmos Fisher, Paris, Texas, was found late Saturday afternoon on a snag in the Red River about 20 miles southeast of here.

Toe-To-Toe Struggle—

(Continued From Page One) was going on furiously. The rival Eisenhower and Taft camps sprayed more scalding statements around.

The general himself arrived on the scene with friendly words and warm grins for hordes of welcoming supporters. But he was boiling at opposition tactics.

For the soldier turned politician, it was "another D-Day," in what he called a fight for "clean politics." And in the battle for the nomination Eisenhower promised, "I shall never give up."

Chutist Sets Mark In 124 Jumps; Doubts It'll Hold

GRAND PRAIRIE—(AP)—Neal Stewart, who set a new world's record of 124 parachute jumps just before midnight Friday, said Saturday he expects the honor to be short-lived.

Czechs Convict Five Suspects Of Treason

LONDON—(AP)—A state court in Communist Czechoslovakia Saturday convicted 15 anti-government intellectuals of high treason and sentenced them to prison for five to 22 years.

If it does, it will be a clear-cut defeat for Taft, who has been winning almost all the preliminary skirmishes so far. It would put in jeopardy more than 50 of the 830 first ballot votes now marked up for the Ohio senator on The Associated Press scorecard.

The Eisenhower arrival was staged all the punch and noise his supporters could muster. The general's special train pulled into the Northwestern Station shortly before noon. The general hopped off. A band hit it up. A little girl gave a tremendous bouquet of red roses to Mrs. Eisenhower and held out a boutonniere to her husband.

Arm in arm with his campaign manager, Senator Henry Cabot Lodge, Jr. of Massachusetts, Eisenhower began the two-block hike into the station. It took 30 minutes. More bands there, and hundreds of screaming Eisenhower fans who made the scene a mixture of Mardi Gras and madhouse.

Youngest Democrat Office Holders Get Free Chicago Trips

WASHINGTON—(AP)—Three public officials, all just barely old enough to vote, were announced as winners Saturday of three-day, expense-paid trips to the Democratic National Convention.

All Seven States Appeal Rulings In Delegate Contests

CHICAGO—(AP)—All seven states with contesting delegations to the Republican National Convention filed appeals Saturday from seating decisions of the National Committee.

UN Troops Shatter 'Old Baldy' Attack

Workers Utilize Lunch Hour For Bible Teachings, Prayers

NEW YORK—(AP)—It's noon at a Texas oil refinery. The sharp blast of the 12 o'clock whistle halts all work and several hundred workmen seize their lunch pails and run—for prayers.

IT'S ALWAYS THAT WAY—Sgt. Donovan A. Dutton, of Boulder City, Nev., plays the piccolo in the First Marine Division Band in Korea, and he's a strapping six feet, seven inches tall. Pfc. Eugene J. Leskanio, of Linden, N. J., is the smallest member of the band, and he draws the Sousaphone with his instrument. Leskanio was all out of breath from blowing the big horn and couldn't tell his exact size.

Unique Building Outlives Ridicule; Shaped Like Pie

NEW YORK—(AP)—The once-famous Flatiron Building is observing its 50th birthday like a lonely old freak—too short to show up on today's skyline, too far down-town to have any glamor, too durable to excite alarmists any more.

Today, only a handful of tourists visit the 21-story building and most of them want to go up in the Flatiron only to take pictures of other taller buildings.

Today, nobody is afraid to walk on the Flatiron's side of the street. Years ago, many pedestrians stayed on the other side. They feared that a strong wind would topple the thin structure which is shaped, as one critic said in 1902, like a "stingy piece of pie."

By now, the Flatiron has convinced the public it's here to stay. "And it will be here another 150 years," says superintendent George Bonham. "This was one of the first skyscrapers in New York built on a steel frame."

In 1902, when the Flatiron was completed, it became the number one tourist attraction of its day. Its picture was reproduced on postcards sent all over the world.

In 1904, William Orndway Partridge, an artist, called it "a monstrosity, a disgrace to our city, an outrage to our sense of the artistic and a menace to life."

It was built on a small triangular island on Twenty-third Street, where Fifth Avenue reluctantly crosses Broadway. It stands 282 feet high. It has foundations of 214 feet on Broadway, 80 feet on Twenty-second Street, 107.6 feet on Fifth Avenue, and only four or five feet on Twenty-third Street.

Offices occupying the apex come to a point only three or four feet wide inside, only wide enough to get a chair in. Frank Munsey, the publisher, used to have an office on the 18th floor, in the corner. He had

other kind of pictures where I look like me. I like pictures of myself where I look like someone else, preferably Vivian Leigh.

Now Miss Leigh is a beauty and undoubtedly one of the world's greatest actresses but she will get you 10 that she would gladly trade the Oscar she won last March if she could look like Virginia in a bathing suit. Or play Hot Garters Gertie.

and elsewhere across the country. In some places the services are held daily; in others they are weekly or monthly. Some are very short, others fairly long. In one respect however, virtually all are alike: They show how Bible teaching and precepts can help solve the problems of daily life. Sometimes the service closes with a discussion of office problems and a prayer for guidance in their solution.

Look into the Sinclair Oil refinery at Houston as the whistle sounds the half-hour lunch period. Workmen in overalls are streaming from all parts of the plant, their helmets gleaming in the sun. Some troop into an old pump house, repaired and refurbished by management, now known as Chapel 1. Others fill the benches in a refurbished storage room—Chapel 2. Sandwiches come out of the lunch pails and the men begin to munch and listen.

Plant Inspector-Freacher Harry Sampson, a plant inspector who also is a preacher, steps up to the lectern. First comes a Bible reading, then a short sermon. The service closes with a brief prayer. Then a welder, his goggles hanging around his neck, leads a closing hymn with a ringing voice—and the men file out to their jobs.

Various people and causes sparked the workday prayer meetings in various parts of the country. The Sinclair services grew out of the day one of the workmen discovered Harry Sampson was a minister and asked him to explain some Bible passages that had puzzled him. The two men met in an office to talk at the lunch hour. The janitor overheard them and asked if he could come. News of the Bible discussion spread. Before long the office was so crowded more space had to be found.

Another minister-worker, assistant electrical foreman D. G. Harding helped inspire the services now held daily in the maintenance shop at Shell Oil refinery, Houston. At the John Mitchell Jr. Company of Dallas, manufacturers of cotton gin equipment, the employees' regular devotional service grew out of management's offer of jobs to theological students.

Philippine Island Development Plan To Be Undertaken

MANILA—(AP)—The Mutual Security Administration (MSA) is planning large-scale development of Mindanao in the southern Philippines aimed at making the island republic economically self-sufficient.

The program calls for opening up fertile regions—some of them unexplored—for agricultural development, the harnessing of hydro-electric power and irrigation and resettlement of Filipinos from crowded northern islands.

Dr. Clarence Decker, assistant administrator of the MSA for the Far East, visited Mindanao and other southern islands in mid-June. He was accompanied by Dr. Roland T. Renne, chief of the MSA mission in Manila who worked out the development program with the Philippine government.

Mindanao, covering 36,837 square miles near the equator, is slightly larger than the state of Indiana. Next to Luzon, some 600 miles to the north, it is the largest island in the Philippines.

Much of the island is high plateau, with jungle-covered shoulders peering into high, extinct volcanic peaks. It is believed capable of development sufficient to raise Filipino living standards throughout the islands and provide food for population growth for the next 50 years.

Only along the fringe of the northern section and in the south at Zamboanga, Cotabato and Davao has agricultural development made much progress. One notable exception has been in the highlands of Bukidnon province where the American-owned Philippines packing corporation has developed a large pineapple plantation.

The MSA plans initially to build roads into regions promising the likeliest immediate development. The tropical frontier is rich in minerals, in addition to its agricultural and hydro-electric potentials.

Problems still to be solved by the Philippine government include an agreement with the Moro (Filipino Mohammedan) leaders on the resettlement of Catholic Filipinos.

In nearly 400 years of Spanish and American domination, the Moros have generally remained aloof from participation in Filipino affairs. They acknowledge the jurisdiction of the central government but insist on living under Koranic law. Many Filipinos fear them.

Also to be contended with are nomadic tribes in the unexplored mountainous areas of the island.

SPELLBOUND

To describe this residence as a 3-bedroom home would be like calling a chinchilla wrap a lady's coat... a true but hardly adequate statement. On a very large corner lot in the heart of Grafaland, this Austin Stone home is in the setting it truly deserves... and from the heavy shake roof to the solid foundation, it was built for generations of comfort and enjoyment.

The huge living room is the natural focal point, with immediate access to the large, airy family room, the beautiful, paneled den, the dining room and kitchen, and the three comfortable bedrooms. Refinements include fireplaces in the living room and den, 7 1/2-ton U. S. Airco air conditioning, 200,000-B.T.U. heating system, circulating hot water, indirect lighting with mercury switches, and innumerable others. Two full tile baths, with a half-bath off the kitchen. The carpeting and drapes are in exquisite taste, of course. And leading to the double garage is a large, tiled porch designed for outdoor living enjoyment.

This gracious home, one of the most beautiful and outstanding in Grafaland, is waiting for your inspection... just call and let us know when you would like to see it.

REPORTING THE TOP NEWS IN REAL ESTATE

BEAUTIFUL HOME . . . BEAUTIFUL
STREET! 3 bedrooms, 2 baths, plenty of closet space, double carport with plenty storage. Carpeted throughout, wonderfully cool and homey, yet of modern design. The kitchen? It is 10x20 feet with automatic washer connection, garbage disposal unit, and soft and hard water faucets in double sink, arranged so that you will not tire yourself in preparing meals. All of this is set in a park-like lawn, front and back, with shrubs, grass and trees. Wall-back yard opening onto a paved alley. Let us show you this home, priced at only \$26,500.

MY BLUE HEAVEN FOR JUST MOLLY AND ME, AND BABY MAKES THREE. NOT MUCH MONEY IN THE BANK? Well, here is the home for all three of you. Brick veneer. Living room, bedroom, kitchen, bath, and a nice bedroom for baby, complete with drapes and a large service porch. A good water well produces soft water. Home can be added to as you go along, as there is plenty of room for expansion. All you need is \$1,045 for down payment and assume a loan (short term) of \$4,250. Total price \$5,895. This home is in the northwest part of town, Crestview at Kansas.

BEAUTIFUL NEW HOMES . . . These are beautiful homes of brick veneer, built-up roofs, carpeted throughout, central heat, air conditioned. Go by and see them. These homes are not built as competitive priced homes, but to give you more value for your dollar.

1412 West Strey Street, paving in and paid, carpeted throughout, 3 bedrooms, and a beauty for only \$23,500.

3808 West Michigan, 3 bedrooms, carpeted throughout, brick veneer, built-up roof, several new ideas in this house for only \$15,500.

3811, West Louisiana Street, same as the one above with a little difference, and this place is only \$14,900.

305 East Spruce, 2 bedrooms, central heat, brick veneer, wainscoting and wood siding, with crushed brick built-up roof. Paving paid, only \$9,850.

All the above houses are plumbed for automatic washers and are ready to move into without buying any extras. Good neighborhood, and in areas being developed, which assures increasing future values. We invite your good judgment.

A good home can be purchased on East Oak Street. It has two bedrooms, nice closets, steel hip bath, hardwood floors, nice yard and saving paid. Half block off bus line. This house is in good condition and does not need repairs. You may drive by 407 East Oak Street and look at this one. Terms can be arranged. As little as \$2,000 down.

WITH LONG PLANNING FOR A DREAM HOME, this one is just that. It is well planned, with family room, a meal planner's delight in the kitchen, where the walls are done in fine linoleum from ceiling to floor, dining room uniquely situated; fireplace chain screened, double carport, knotty pine finished, and a cutouts room as large as a nice living room. Austin Stone finished, with shake roof. This house is in the Bedford Addition, close to schools. Must be seen to be appreciated. \$37,500.

ON EXCLUSIVE COUNTRY CLUB DRIVE. A beautiful 3-bedroom home of Austin Stone, with two tile baths. Living room, dining room and halls are carpeted, as are the three large bedrooms. Central heating as well as air conditioned. All this in 2,200 square feet floor space. Good yard with water well. The comforts of this home can be had for \$33,000.

A GOOD HOME IN A GOOD LOCATION. This is a good buy. It has 2 bedrooms, hardwood floors, paved street, two blocks from shopping, fenced yard, brick veneer in excellent shape, grass and shrubs plenty. Close to schools and churches. Price is \$14,500.

THIS ONE WILL COOL YOU OFF! It's a new listing! Five rooms, all of them large. Garage and breezeway. Fenced-in back yard. Corner lot. Location, West Ohio, in the older residential area. A beautiful location. Full price, \$11,750. Terms. Exclusive.

It gives us a great deal of pleasure to announce the construction of this group of attractive, low-cost homes . . . available NOT JUST TO VETERANS but to the GENERAL PUBLIC on these very liberal terms! We know this group of houses will meet every requirement you might have for a low-cost home . . . and their good location will place them doubly in demand. So for best selection of plan and homesite . . . and for quick possession, make your choice TODAY!

Our field office is located one block north of the Ranch House cafe, just off West Wall Street. The office will be open all day today for your convenience!

The *Cooler* store in town... ... YET THE HOTTEST PRICES ... **Dunlap's July Dollar Day**

★ In the Ready-to-Wear Mezzanine—

Ladies' Dresses . . .

Cool to wear . . . easy to launder (no ironing), these orlon and nylon puckered dresses are ideal for summer wear. Sizes 10-20 and 14½-24½.

Special . . . \$9.95

Ladies' Cotton Dresses . . .

Pima cotton dresses in solid colors with self covered belt, convertible collar and four pockets. Choose from navy, grey, green or brown. Sizes 10-20 and 38-52.

Dollar Day only . . . \$7.95

Special Dress Group . . .

A very special lot selected from regular stock. Bemberg, failles, nylons or crepes to choose from. Values to \$35. Specially priced for quick

Dollar Day sale at . . . \$10.00

Ladies' Suits . . .

A wonderful buy for your trip to the mountains, ideal for travel or early fall days. Virgin Wool imports, genuine Palm Beach and rayon gabardines to select from.

2 Suits, regularly \$249.00, now only \$140⁰⁰ 3 Suits, regularly \$225.00, now only \$120⁰⁰

2 Suits, regularly \$210.00, now only \$119⁰⁰ 2 Suits, regularly \$198.00, now only \$115⁰⁰

12 Suits, regularly \$25.00, now only \$17⁵⁰

★ In the Shoe Department—

GROUP LADIES' SHOES . . . Shantung, linen, mesh or calf to choose from. Values \$12.95 and \$14.95 . . . Priced \$ Day \$7.95

ONE GROUP CASUAL SHOES . . . Low or regular wedges in tan, blue and combinations. \$8.95 and \$10.95 values . . . Priced \$ Day \$5.95

ONE TABLE LADIES' SHOES . . . These are broken sizes and lots but are exceptional values if they fit . . . Yours for only \$3.00 pr

ONE GROUP MOCCASINS . . . Colors of chartreuse, purple and natural only. Specially priced for . . . \$ Day at only \$2.95

ENTIRE STOCK OF CHILDREN'S BUSTER BROWN SHOES . . . Sizes 8½ to 3. Buy them \$ Day, Monday, July 7 . . . for only \$3.45 pair

CHILDREN'S PLAY SANDALS . . . Entire remaining stock of children's play sandals for quick clearance . . . \$ Day just \$1.85 pair

★ Ladies' Lingerie, Hose and Accessories—

NYLON HOSE . . . First quality nylons in 51 and 54 gauge, 15 denier, in the newest colors for summer wear. Sizes 8½ to 11. Limit 3 pair to a customer, please. . . 3 pair for \$2.00

COSTUME JEWELRY . . . One group of summer costume jewelry, bracelets, earrings, necklaces and scatter pins . . . \$ Day \$1.00 plus tax

ONE GROUP OF SUMMER BAGS . . . Straw, fabric, nylon and leather in your choice of color and style. Priced for \$ Day, Monday . . . only \$3.00 plus tax

ONE GROUP NYLON PETTICOATS . . . Styled by Munsingwear with net ruffle or lace hems, in colors of pink, navy, black, blue or white. Sizes small, medium or large . . . \$ Day \$5.00 each

ONE GROUP NYLON GOWNS . . . Choose from lace, net or embroidery trim in colors of yellow, rose, green, pink, blue or sage. Styled by Munsingwear and Henson, in sizes 32 to 40 . . . \$ Day \$10.00 each

NYLON SLIPS . . . Wide net flounce and applique trim, in colors of blush or white. Sizes 32 to 40 . . . \$ Day \$6.00 each

2 PIECE COTTON PAJAMAS AND RAYON TRICOT GOWNS . . . Colors of blue, coral, rose, violet, green or pink to choose from. Sizes 32 to 40. Priced for . . . \$ Day at \$4.00 each

ONE GROUP GIRDLES . . . These are in either pink or white. Values to \$18.00, specially priced . . . Monday only \$8.00

★ Piece Goods and Linens—

BEMBERGS AND TISSUE GINGHAMS . . . In plaids, also dotted swiss, voiles and dimities, specially priced . . . \$ Day 3 yards \$1.00

TISSUE CHAMBRAY IN PLAIDS AND SOLIDS . . . These were regularly priced at 95c and 75c per yard. Out they go . . . \$ Day 2 yards \$1.00

KITCHEN CURTAINS . . . In white with blue and gold figures. Regularly priced \$2.95 per yard . . . Now only \$1.00 yard

RAYON PRINTS . . . These are 42 inches in width, in large and small prints and dots. Specially priced for . . . \$ Day Sale at \$1.00 yd.

LINEN AND RAYON LUNCH CLOTHS . . . Sizes 56x56 and 52x72, regularly priced at \$3.95. Special . . . \$ Day 2 for \$5.00

RAYON PANELS . . . Get them in white, blue, pink or yellow. Regular price has been \$1.95. Buy them . . . \$ Day 2 for \$3.00

BLACKSTAFF CREASE-RESISTANT LINEN . . . 36 inches in width in colors of blue, black, navy, brown, pink, beige, aqua, grey or orchid. Regular price \$3.25 per yard. Reduced for . . . \$ Day 2 yards \$5.00

500 YARDS OF PIMA BROADCLOTH . . . In colors of luggage chartreuse, teal, grey, slate, tangerine or beige. 39 inches in width. Specially priced for . . . \$ Day \$1.00 yard

★ At the Cosmetic Bar—

Summer Fragrances of Special Cologne . . .

Five ways to keep cool . . . white lilac, sweet-spice, natural, summer bouquet, summer song. Regular \$2.00 size, Special for \$ Day . . . \$1.00 plus tax

Skin Fresheners . . .

To be used after cleansing cream. Cleanses and refines large pores. Orange Flower skin and texture lotion. Regular \$2.00 size, priced for \$ Day, Monday . . . \$1.00 plus tax

★ Men's and Boys' Department—

MEN'S LEISURE COATS . . . Group I—100% Forstmann Charmeen Gabardine . . . handsomely tailored in tan checks, Reg. price \$55.00 \$29⁰⁰

MEN'S LEISURE COATS . . . Group II—Imported Raw Silk Shantung . . . colors natural and blue. The perfect coat for dress and casual wear. Sizes 38 to 46. Regulars and longs. Reg. price \$52.50 \$25⁰⁰

MEN'S RAYON SLACKS . . . Stock up for the hot days ahead . . . these slacks are expertly tailored in solid colors and small checks . . . sizes 27 to 40. Regulars and longs. Reg. price \$6.95 \$5⁰⁰

MEN'S SLACK SUITS . . . Handsomely tailored in blue and tan linen crash with contrasting piping on shirts. They're perfect for casual and sport wear. Reg. price \$19.95 \$15⁰⁰

LUGGAGE . . . "The Trip Taker" . . . what could be nicer for the trip than this utility case. Beautifully lined in plastic. Large mirror. Plastic exterior in contrasting colors . . . (plus tax) Reg. price \$7.95 \$7⁰⁰

MEN'S SHORTS . . . Boxer type, Sanforized, fast colors. Multi-colored broadcloth. Satisfaction guaranteed. Sizes 30 to 42 . . . Reg. price 75c 2 for \$1.

MEN'S UNDERSHIRTS . . . Full combed, full cut, custom detailed, large roomy armholes, fine knit. Sizes 36 to 44 . . . Reg. price 79c 2 for \$1.

MEN'S SHORT SLEEVE SPORT SHIRTS . . . They're here . . . it's hot . . . the price is right! Nothing more comfortable than one of these cool, crisp, comfortable shirts. Please creases, spun rayons and multi-colored prints. Sizes small, medium, large. Regular price \$1.85 to \$2.95—for Dollar Day . . . \$1.65 2 for \$3.00

MEN'S SHORTIE PAJAMAS . . . Seersucker crepes . . . in tan, blue, green and maize. Short sleeves. Knee length. Sizes A-B-C-D. Ideal for the hot summer nights. Regular price \$3.50 . . . For Dollar Day \$2⁹⁵

MEN'S FINE QUALITY WHITE HANDKERCHIEFS . . . Combed yarns . . . rolled edges Regular 35c value . . . 29c 4 for \$1.00

MEN'S TIES . . . One big group of crepes, rayons and silks. Regularly priced to \$3.50 . . . \$1.55 2 for \$3.00

MEN'S NYLON SHORTIE PAJAMAS . . . 100% pucker nylon. Short sleeves, knee length. Colors blue and tan. Sizes A-B-C-D. Regular price \$10.00 . . . For Dollar Day \$8⁰⁰

MEN'S SOX . . . One big group of men's sox—nylons, rayons and mercerized argyles. Reg. price 65c & 75c . . . 59c 2 for \$1.00

BOY'S SHORT SLEEVE SPORT SHIRTS . . . Printed cottons, rayons, seersuckers and knits. Big savings here in our Boys' Department! Sizes 4 to 18. Shop this department for such values as:

\$3.95 values, now \$2⁸⁵ \$2.95 values, now \$2³⁵ \$2.50 values, now \$1⁷⁵

\$1.95 values, now \$1⁵⁰ \$1.69 values, now \$1³⁵

BOY'S TEX 'N' JEAN SHORTS . . . Sturdy long lasting, Western style, Sanforized, vat dyed. Sizes 1 to 9. Reg. \$1.98, for \$ Day \$1⁶⁵ 2 for \$3⁰⁰

Ryan, Hays & Burke Stake Rank Wildcat In C-W Yoakum

Ryan, Hays & Burke spotted location for a rank wildcat in Central-West Yoakum County, 10 miles southwest of Plains.

It will be drilled as No. 1 H. T. Fillingim, 600 feet from north and 1,980 feet from east lines of section 661, block D, John H. Gibson survey.

Operator filed application with the Railroad Commission of Texas asking permit to drill to 11,000 feet.

Permian Basin OIL & GAS LOG

James C. Watson
Oil Editor

Permian Basin Oil Show In Odessa October 16-19 Will Draw Huge Audience

Approximately 100,000 people are expected to attend this year's Permian Basin Oil Show. The show will be held in Ector County Park Oct. 16-19.

The show will be an area-wide operation with most of the Permian Basin's communities being represented on the board of directors.

The executive committee of the board is composed of the following persons:

Lloyd French, French Tool and Supply Co., Odessa, president; Earl N. Spira, Spira Equipment Co., Midland, first vice president; Bill Lane, Plymouth Oil Co., Midland; second vice president; Roy Carter, Carter Foundation Production Co., Kermit, treasurer; Houston Crump, First State Bank, Odessa, manager and secretary; and Bob Durrutt, Norvell-Wilder Supply Co., Odessa, chairman of the Chamber of Commerce Oil Activities Committee.

Other Members

William H. Dunlap, assistant district superintendent, Amerasia Petroleum Corp., Seminole; C. W. Brown, Brown and Thorp Drilling Co., McCombs; R. W. Coburn, assistant superintendent, Atlantic Refining Co., Denver City; M. M. Rogers, district superintendent, Humble Oil and Refining Co., Stanton.

Harry Miller, division superintendent, Continental Oil Co., H. W. Mathews, district superintendent, Standard Oil Company of Texas; Tom Flewharty, Western Co. L. A. Fagan, Humble Pipe Line Co.; G. E. Beakley, general superintendent, Superior Oil Co.; and Joe Dickerson, vice president, Shell Oil Co., all of Midland.

More Helpers

Jack Y. Smith, personnel manager, Couden Petroleum Corp., and

Public Invited To McElroy-Wilshire Gas Plant Opening

The general public is invited to attend formal dedication ceremonies of the new \$1,500,000 McElroy-Wilshire gas plant to be held July 19 on the 30-acre plant site in Upton County 11 miles northwest of Crane, according to Frank W. Lake of Midland, vice-president and manager of the Texas division of the Wilshire Oil Company, Inc.

Meanwhile, Lake said, special invitations are going out to more than 2,000 persons in Texas, Oklahoma, New Mexico and California, including Gov. Allan Shivers of Texas.

To Feature Conservation

Keynote of addresses at the dedication, Lake said, will be the conservation of the natural petroleum resources of Texas.

Speakers include Olin Culbergson, chairman of the Railroad Commission of Texas; Maurice A. Machris, Los Angeles, administrative consultant for Wilshire, and D. A. Hulcy of Dallas, president of Lone Star Producing Company.

Hulcy is immediate past president of the Chamber of Commerce of the United States and is not chairman of the chamber board. Master-of-ceremonies will be L. T. Potter of Dallas, a vice-president of Lone Star.

Luncheon Planned

Following the dedication program which is to start at 11 o'clock, a barbecue luncheon will be served under a huge tent.

Open house and conducted tours of the plant and adjacent big drilling rigs of Wilshire will precede and follow the dedication and luncheon.

Feasting facilities will be available within a short distance of the plant and the area will be sprinkled to settle the dust, Mr. Lake said.

The plant, owned jointly by Lone Star and Wilshire, was built by Lone Star and will be operated by that firm.

To Use Residue Gas

The plant capacity is approximately 18 million cubic feet of natural gas every twenty-four hours, with initial production to be 30,000 gallons of natural gasoline, butane and propane per day. The residue gas will be purchased by the El Paso Natural Gas Company for utilization in its transmission system extending from the Permian Basin in Texas to California.

SW Cochran Project To Make Tests

Rowan Oil Company No. 1 Grimes, Southwest Cochran County wildcat 12 miles south of Bledsoe is to make a production test in the San Andres-Permian above 9,340 feet.

The section between 9,340 feet and 9,340 feet developed some free oil and a considerable amount of oil and gas out mud on drillstem tests.

There is a fair possibility that the project can complete a commercial producer and a new discovery from that horizon.

It is about six and one-half miles northwest of the nearest production in the multiphase Landon field.

Location is 663.85 feet from north and 662.96 feet from west lines of the northwest quarter of section 3, block Z, pal survey.

The Rowan No. 1 Grimes drilled to a bottom of 12,118 feet in Devonian lime and chert. That horizon made only salty, sulphur water. It had no shows of oil or gas and there were no signs of possible production on any section between the San Andres and the Devonian.

O'Neill Completes Good Producer In C-E Lea Sector

Joseph I. O'Neill, Jr. of Midland has completed No. 1 Dressen as a good producer at a one-location stepout to the Warren (McGee) field of Central-East Lea County, N. M.

It was finished for a calculated daily potential of 1,411 barrels of 55.06-gravity oil through a three-quarter-inch choke and from perforations at 9,190-9,178 feet. That interval had been treated with 500 gallons of mud acid.

It is one location northwest of another producer in the field and 330 feet from south and east lines of section 7-20s-38e.

Pamphlet Published By Interstate Oil Compact Commission

OKLAHOMA CITY—The Interstate Oil Compact Commission announces the publication of a pamphlet entitled "Summary, Secondary Recovery Operations in Kentucky to 1951 Including Annual Kentucky Oil Production by Counties."

This publication is the result of a joint survey by the state of Kentucky and the Interstate Oil Compact Commission and was prepared by Dan J. Jones, chairman of the Kentucky Secondary Recovery Committee and members of that committee in cooperation with the secondary recovery division of the Interstate Oil Compact Commission.

Brief History

This pamphlet includes data on 17 secondary projects in the state of Kentucky as of January 1, 1951, together with a brief history of the production of oil from Kentucky and early secondary recovery operations as well as future prospects.

In addition an oil and gas map of Kentucky showing the location of secondary recovery projects and the oil and gas fields together with the stratigraphy of the water-flood projects in East and West Kentucky are included.

Copies of this pamphlet may be obtained from the Interstate Oil Compact Commission, P. O. Box 3127, State Capitol, Oklahoma City 5, Okla.

Driver In Glasscock Gets SW Extender

Sinclair Oil & Gas Company No. 1-D TXL, has been completed as a one-half mile southwest extender to the Bigby portion of the Driver (Spraberry) field of Southwest Glasscock County.

Operator reported a daily flowing potential of 156 barrels of 48-gravity oil through open two-inch tubing and from open hole at 6,644-6,750 feet. Gas-oil ratio was 780-1 and tubing pressure was 25 pounds.

Location is 600 feet from north and east lines of the southwest quarter of section 15, block 36, T-5-S, T&P survey.

Wasson In Yoakum Gets New Project

Honolulu Oil Corporation will drill No. 1 D. K. Woodward, Jr., as a 5,400-foot project in the Wasson area of Central-South Yoakum County.

It is one location south of a recently completed long north extender to the central portion of the field.

Drillsite is 600 feet from north and west lines of section 674, block D, John Gibson survey and seven miles north of Denver City.

C-N Crockett Pool Gets Three Offsets

Continental Oil Company has staked locations for three offshoots to the Eikhorn (Ellenburger) field in Central-North Crockett County.

All the testers will be drilled with rotary tools to 7,600 feet.

Conoco No. 25-A J. M. Shannon is 2,010 feet from north and 2,069 feet from west lines of section 21, block UV, GC&SF survey on a 5-315-acre lease. That makes it one-quarter of a mile west of production in the north end of the field.

One-half of a mile north of production in the Eikhorn (Ellenburger) field, Continental spotted its No. 1-D J. M. Shannon estate. It is 690 feet from most northerly south line and 3,300 feet from the most westerly west line of section 20, block UV, GC&SF survey. It is on a 778-acre lease.

Conoco No. 24-A J. M. Shannon is 2,010 feet from south and 2,069 feet from west lines of section 21, block UV, GC&SF survey and on a 4,315.3-acre lease.

Midwest Finishes South Extender To NE Yoakum Field

The Prentice field of Northeast Yoakum County has been extended one location south with the completion of Midwest Oil Corporation No. 2 May.

It was finished for a daily pumping potential of 173 barrels of 30-gravity oil through perforations at 6,598-6,720 feet. That section had been treated with 18,000 gallons of acid. Gas-oil ratio was 193-1. Location is 680 feet from south and west lines of section 25, block K, pal survey.

Extender Finaled In Weiner-Floyd Area Of Reagan

The Blackwood & Nichols Company completed its No. 2-D Daniel as a one-half-mile east extender to the Weiner-Floyd field.

(Continued On Page Two)

WTGS Releases Complete List Of Publications

The publications committee of the West Texas Geological Society, headed by John W. LeSassier, has compiled a list of maps and books which are now available from the society.

The list includes field trip guidebooks as follows: number one, Marathon, Big Bend, Sierra Blanca regions; number two, Cenozoic Geology of the Llano Estacado; number four, The Permian Rocks of the Trans-Pecos region; number five, Pre-Permian Rocks of Trans-Pecos and Southern New Mexico area; Sierra Blanca and Franklin Mountains regions; Pennsylvania of Brazos and Colorado River Valleys; Apache Mountains of Trans-Pecos and Marathon Basin, Brewster and Pecos Counties.

Maps included are: east-west cross section through Permian Basin of West Texas, both large and small scale, and the text for the map; north-south cross section through Permian Basin of West Texas, both large and small scale.

General publications include: Colular section, pre-Permian Rocks, Central Basin Platform, 1948; Correlation chart by E. Russell Lloyd of Permian of West Texas and Southeast New Mexico; Introduction to Petroleum Geology of Permian Basin and West Texas-Southwest New Mexico Geological directory.

Number one and number four guidebooks are not in stock at present, but will be re-printed on demand.

U of T Scientists Hunting For Core Correction Plan

AUSTIN—University of Texas scientists are seeking a mathematical equation which will correct the porosity and permeability of a frozen oil well core to that of an unfrozen one.

At present, many well cores are packed in dry ice upon removal from the core barrel and frozen to retain their fluid content until transported to the laboratory for analysis.

Evidence indicates water, expanded by freezing, causes internal fracturing, changing porosity and permeability of rock—important factors in oil bearing. J. M. Lebeaux, assistant professor of petroleum engineering in charge of the project, said.

The Midland Reporter-Telegram

THE BEST INVESTMENT FOR YOUR ADVERTISING DOLLAR

FIRST WITH THE NEWS MIDLAND, TEXAS, SUNDAY, JULY 6, 1952 FIRST WITH THE NEWS

More Producers Are Finaled In Spraberry Pools

The District 8 and 7-C offices of the Railroad Commission of Texas received 25 Spraberry completions last week to bring total number of producers in the Spraberry Trend to 1,388.

The Tex-Harvey field of Midland and Glasscock Counties received two of the new wells and the Driver area in the same counties received nine new oilers.

Tex-Harvey now has 529 and the Driver 315 wells.

Lion Completes Ellenburger Discovery In Crockett Area

Lion Oil Company has completed its No. 1 J. M. Shannon estate, North-Central Crockett County wildcat as a flowing discovery from the Ellenburger.

It reported a total 24-hour flowing potential of 193 barrels of 38.4-gravity oil and no water, flowing through an 18/64-inch tubing choke.

The production came from perforated section at 7,280-7,413 feet.

That zone had been washed with 500 gallons of mud acid and treated with 5,000 gallons of regular acid.

Location is 1,800 feet from north and 690 feet from east lines of section 46, block UV, GC&SF survey. Undeveloped.

It is in an undeveloped area and is one and one-half miles east of the Todd, (Deep) field and three

miles southwest of the Eikhorn, (Ellenburger) field.

Top of the Ellenburger is a 6,945 feet. That is on a datum of minus 4,283 feet.

Total depth is at 9,704 feet. The lower Ellenburger made sulphur water and some gas. After getting the water the project plugged back to 7,488 feet and cemented 5 1/2-inch casing at that point.

ON NEW JOB—Reo E. Goodwin is the new district geologist for Seaboard Oil Company of Delaware in the Permian Basin, with headquarters in Midland. He took over the "headman's" job in that department when Lamar McLennan, Jr., was promoted to the concern's headquarters at Dallas. Goodwin has been with Seaboard for more than a year. He formerly had been with another oil company in Midland.

Ellenburger Producer In Sight At Barnes Project In NE Nolan

J. C. Barnes of Midland has a producer from the Ellenburger in sight in Northeast Nolan County, five miles east of Sweetwater.

The project is one-half of a mile northeast of a small Ellenburger producer completed several years ago by Sohio Petroleum Company and Hunt Oil Company at their No. 1 Faver.

The Sohio-Hunt well is the only

Ellenburger producer in that region. The Barnes prospect is his No. 1 Iri Faver. It is 1,980 feet from south and west lines of section 47, block 21, T&P survey.

It topped the Ellenburger at approximately 5,895 feet. That makes it approximately 40 feet higher on the top of the Ellenburger than the same marker in the Sohio-Hunt No. 1 Faver.

Barnes No. 1 Faver recovered free oil in two drillstem tests between 5,895 feet and 6,130 feet. Complete details of those tests have not been reported.

However, it had its best show for production in a drillstem test at

6,130-55 feet. The tool was open four hours.

Gas surfaced in 40 minutes. No fluid came to the top while the tester was open.

Recovery was 2,385 feet of clean oil approximately 50 degrees gravity and 90 feet of heavily oil and gas cut drilling mud.

There were no signs of formation water in that test or in either of the two which were taken in the upper zones of the Ellenburger.

Open flowing bottom hole pressure was 765 pounds during the drillstem test at 6,130-55 feet. Shut-in bottom hole pressure after 30 minutes was 2,400 pounds.

Operator is to set and cement 5 1/2-inch casing on bottom and test the Ellenburger pay through perforations. Interested observers expect it to be completed as a commercial producer and the second Ellenburger well in the Faver area of Northeast Nolan County.

Barnes has the oil and gas leases on a block of 1,560 acres in the region adjacent to his prospective producer.

Lovington To Be Site For District Offices For SPLC

LUBBOCK—Service Pipe Line Company's expanding operations in New Mexico will be supervised from a new district headquarters at Lovington after July 1.

C. E. Wilson, the company's West Texas division manager, said an office building and warehouse had been constructed in Lovington and was ready for occupancy. James C. Dotson, former division gauger of Denver City, will be in charge of the new office as district superintendent.

Now connected to 285 wells on 168 leases in Lea County, Service Pipe Line Company is building a new 26-mile 10-inch line from the Saunders pool to the Denton pool and its West Texas system.

Gaugers Have Moved

Wilson said that about 16 more of the concern's employees would be moved to Lovington. A number of gaugers already have moved to new homes in Lea County.

A connection crew under the supervision of Mack W. Lancaster, formerly of Denver City, and four office workers will be transferred from other West Texas divisions points. Russell L. Reasoner will be promoted to division gauger to replace James C. Dotson.

The Saunders pool now is served by a company line that pumps oil north to a line serving the Caprock area. The new Saunders-Denton line will move oil east to the company's Wasson pump station. Completion is expected about July 1.

To Act As Loop

C. M. Scott, Jr., general manager, described the new construction as "a big gathering line that will act as a loop also for our northern line in Lea County." Pipe for the job was received from the mill June 10.

The project has Petroleum Administration for Defense approval.

The new line will provide adequate capacity for future production in the vicinity of the Saunders and West Saunders pools and for new development along the route. There is considerable drilling activity in the region.

The construction will give Service Pipe Line Company an extensive gathering and transportation system in northern Lea County. Lines now run from Caprock to the company's West Texas system at Slaughter station with laterals serving the Bagtown, Saunders and Gladiola pools.

Connected To Crossroads

A Magnolia Pipe Line Company gathering system serving the Crossroads pool is connected to the Caprock-Slaughter line also. A line runs from the knowles pool across the Texas line to Wasson. The Denton pool already is connected to the West Texas system. Thirty of the Lea county wells are in the Eaves pool in the company's Monahans district.

During the last year SPLC, a 12,128-mile crude oil system has connected 92 new fields and pools largely in Texas and New Mexico. Most of the oil gathered by the company in the southwest is delivered to refineries in the Kansas City, St. Louis and Chicago areas.

CSOC Announces Personnel Shifts In Production

Important changes within the oil production division of Cities Service Oil Company of Delaware have been announced, effective July 1.

Glen Harsh of Oklahoma City, formerly assistant division superintendent for North Texas and South Oklahoma, has been transferred to the Bartlesville headquarters offices as assistant general superintendent.

Replacing Harsh at Oklahoma City is Hugh L. Riley of Graham, formerly district superintendent there.

Odessaan Promoted

F. D. Priebe of Odessa has been elevated to district superintendent at Odessa, replacing C. R. Smith, who was transferred to Bartlesville recently as general superintendent of production. Stepping into Priebe's former position as district engineer is Donald L. Kastner of Russell, Kan. W. C. Newlin is being transferred from Oil Hill, Kan., to Russell to replace Kastner as district petroleum engineer.

A. E. Straub of Bartlesville has been appointed assistant chief production engineer to enable J. R. Hatfield, chief production engineer, to devote his entire time to increasing technical problems incident to the company's expanded production program. L. B. Hicks of Bartlesville has been named equipment engineer and will assist J. L. Bole in handling drilling contracts.

Other Changes

C. D. Zlomke of Gladewater, assistant production foreman, has been transferred to Rock Springs, Wyo., to supervise the company's production activities there. Donald F. Presley of Gladewater has stepped into Zlomke's former position and Eugene F. Motter of Madison, Kan., has been transferred to Gladewater as production engineer.

O. C. Atkinson of Graham, special engineer, has been moved to Vernal, Utah, and O. L. Goodwin of Lindsay, Okla., assistant production foreman, has been transferred to Lima, Mont.

Relationship Among Corrosion Inquiries To Be Explained

Houston—The relationship among corrosion investigations of four engineering associations in the petroleum pipeline field will be discussed at the October 1-3 National Association of Corrosion Engineers' South Central Regional meeting at New Orleans. The speakers, all in the upper echelons of their respective companies, are scheduled to address the corrosion engineers October 3 at the Junc Hotel, headquarters for the NACE meeting.

L. F. Scherer, assistant general manager of Texas Pipe Line Company, Houston, will review some of the work of a typical American petroleum institute pipe line sub-committee on external corrosion protection of crude oil pipe lines and its relation to similar work in NACE.

Russell A. Bramson, supervising corrosion engineer, Humble Pipe Line Company, Houston, will have the internal side of the same subject.

A. D. Simpson, chief engineer, Texas Division, United Gas Company, Houston, will review some of the work of a typical American gas association sub-committee on pipe line corrosion.

The last of the four talks is a review of corrosion topics studied by the Petroleum Industry Electrical Association's Corrosion Committee by A. L. Stenger, corrosion and communication engineer, Tennessee Gas Transmission Company, Houston.

The four talks cover the external and internal corrosion problems of crude oil lines, corrosion problems of gas distribution systems and the problems peculiar to long line gas transmission systems.

These talks are only four of seven scheduled talks on the technical program. Other topics to be covered are oil and gas production, processing plants, oil and gas transportation. There also will be meetings of several of the NACE's technical practices committees and various other features, including a business session, plant visits and a dinner.

Three Officials Of Pipe Line Concerns Get New Positions

At a meeting of the board of directors of the Texas-Empire Pipe Line Company held at Tulsa, R. P. Hopsop of Tulsa was elected vice president and assistant general manager. R. W. Phillips of Tulsa was made assistant general manager and D. B. Good, chief engineer.

Some With Kaw

It also was announced that at the meeting of the board of directors of Kaw Pipe Line Company Hopsop was elected vice president and general manager, Phillips was promoted to assistant general manager and Good advanced to chief engineer.

All the changes were effective immediately.

CONSULTANT—Edna J. Elliott now is a consulting geologist in Midland. Her office is at 205 West Wall Street. Miss Elliott had several years experience as a staff geologist in the Midland district office of Stanolind Oil & Gas Company prior to the time she resigned from that concern a short time ago.

Tidelands Issue Must Go Through Legislative Mill

The submerged oil lands controversy apparently is back where it started some 14 years ago.

Supporters of state ownership of the lands beneath the marginal seas, unable to count enough votes to override the presidential veto, didn't force the issue in the Senate.

Senator Holland (D-Fla.), leader of the states ownership faction, notes that the matter can be brought up anytime throughout the remainder of the year if Congress reconvenes in special session.

With the convening of the next Congress January 3 the tidelands legislation will have to be introduced again and go through the whole legislative mill—more introduction and referral to Senate and House committees for hearings, and, if approved, action by House and Senate.

BUSINESSMAN AIDS PICKETS

MT. VERNON, ILL.—(AP)—A dry-cleaner was picketed in an effort to organize his employees into a union. Owner Ed Meek put a big umbrella and a chair in front of his business. His sign explained: "For the comfort and convenience of our pickets."

Texaco Will Continue Drilling To Ellenburger In Andrews

The Texas Company filed application with the Railroad Commission of Texas asking for permit to continue drilling to 14,000 feet at its No. 1-Z State of Texas, wildcat in Northeast Andrews County.

It was drilling at 12,820 feet in the Devonian on last report. Originally slated for tests of that

Service Pipe Line Changes Status Of Four Key Employees

LUBBOCK—C. E. Wilson, manager of Service Pipe Line Company's West Texas division, has announced the promotion of three employees and the transfer of another to Lubbock, from the company's general offices in Tulsa.

Promoted were John J. Wright, Jr., to area engineer; Murray C. McNichol, to oil traffic engineer, and Russell L. Reasoner to division gauger with headquarters at Denver City.

Hawkins Is Planner

John W. Hawkins, Tulsa, planning engineer, was transferred here as engineer for the Lubbock district. Wright, an employee since 1947, has been oil traffic engineer. He was graduated from Weatherford, Texas, high school, and received a degree in mechanical engineering at Texas A&M College in 1947.

McNichol was promoted from engineer for the Slaughter district. An employee for the company since 1943, he received a degree in petroleum engineering at the University of Oklahoma in 1948 while on leave of absence from the company to continue schooling.

Reasoner joined in 1933. He joined the company in 1933, had worked at company installations in Oklahoma and other parts of Texas before being transferred to the Slaughter district of the West Texas division. He was a district gauger before his promotion.

Hawkins joined the company in 1948 after receiving a degree in business and engineering administration at Massachusetts Institute of Technology.

All Executive Offices Of National Supply Are Now In Pittsburgh

Consolidation in Pittsburgh of the executive offices of The National Supply Company, including several departments formerly in Toledo, has been accompanied by a number of changes in the company's sales organization.

Thomas J. Waime, formerly head of the export division, has been appointed general manager of oil field sales.

Staff Members Listed

His staff will consist of R. W. Gordon, sales manager, merchandising products; M. E. Swain, sales manager, production equipment; W. T. Cushing, sales manager, drilling equipment; and H. E. Heywood, manager, general sales office Gordon, Swain, Cushing, and Heywood were among personnel transferred from Toledo.

A. R. Meyer has been appointed manager of the company's export division in New York City. Sales activities will be handled by E. M. Gretzier, sales manager. Calvin B. Carter has been promoted to assistant sales manager and R. Carson Allan has been promoted to division engineer.

Ryan, Hays-

(Continued From Page One)
The Weddell (Spraberry) field of Northwest Reagan County. It was completed for a daily flowing potential of 217.84 barrels of 40-gravity oil and no water through a 3.8-inch choke and from open hole at 8,314-8,385 feet.
Location is 1,804 feet from north and 682.5 feet from east lines of section 10, block A, H&W survey.
Gas-oil ratio on the above test was 882-1 and tubing pressure was 100 to 128 pounds. Pay was fractured with 3,000 gallons.

Phillips Schedules Short Output To Field In NW Reagan

Phillips Petroleum Company No. 1-B Nunn is to be drilled as a one-half mile south outcrop to Lloyd H. Smith, Inc., No. 1 Nunn, recent one-mile south extension to the Weimer-Floyd field.
Drill site is 665 feet from west and 1,380 feet from south lines of section 44, block 36, T-3-S, T&P survey.

Standard Stokes Ciscod Project In N-C Scurry Area

Standard Oil Company of Texas No. 1-S E. L. Terry will be drilled as a Ciscod project in the Kelly-Snyder area of Central-South Scurry County.
Situated to 6,300 feet with rotary, it is 487 feet from north and 2,000 feet from east lines of section 34, block 97, H&TC survey. It is seven miles north of Snyder and in an undeveloped area for Ciscod production.

Two WT Tests Are Plugged, Abandoned

Two West Texas wildcats have been plugged and abandoned. One of the dry holes is in Yoakum County and the other is in Runnels. Brinsmere Oil Company of Fort Worth has plugged and abandoned the No. 1 J. H. B. Hendricks, three-quarters of one mile north of the Watson field in Central-South Yoakum County. It was abandoned after acidizing the San Andres with 4,000 gallons from 5,250 to 5,299 feet and swabbing dry.
Location was 330 feet from south and west lines of the northeast quarter of section 637, block D, John H. Gibson survey.
In Central-East Runnels County, C. B. Drilling Company No. 1 Bomar was quit at total depth of 3,380 feet in shale.
It was 1,890 feet from south and 2,310 feet from west lines of G&H&T survey No. 43 and four miles southwest of Talpa.

SE Terry Wildcat Will Be Abandoned

W. R. Bowden and Jack M. Hawkins of Midland are preparing to plug and abandon the No. 1 James Beardsley, Southeast Terry County wildcat.
It drilled to a bottom of 8,185 feet in barren San Andres-Permian lime. There were no shows for commercial petroleum production.
Bait water was developed between 8,145 feet and 8,155 feet.
Location was 860 feet from north and west lines of section 8, block C-30, psi survey.
It was 16 miles southeast of Brownfield and three miles northeast of the Corrigan (Pusselman) field.

NE Midland Tester Plugged, Abandoned

Kerr-McCoy Oil Industries, Inc., quit as a failure its No. 1 Wise, extension try to Spraberry production in the Germaans-Tex-Harvey area of Northeast Midland County.
It was quit on total depth of 7,171 feet after failing to develop commercial production.
Location was at the center of the southwest quarter of the northeast quarter of section 7, block 38, T-3-S, T&P survey. It was dug one and one-half miles east of production.

Stanotex Completes New Scurry Oilier

Standard Oil Company of Texas has completed No. 4-8-B Brown as a Ciscod producer in the Kelly-Snyder area of Scurry County.
It was finished for a daily pumping potential of 117 barrels of 40-gravity oil and no water from open hole at 6,190-6,236 feet. Gas-oil ratio was 672-1.
Location is 1,230 feet from north and 1,330 feet from east lines of the lease in section 441, block 97, H&TC survey.

Strawn Producer Fined In Kent

Chapman & McParlin Producing Company has completed another Strawn test in the Cogdell-multipay area of Central-South Kent County.
It was finished for a daily pumping potential of 117 barrels of 40-gravity oil from open hole at 7,383-7,404 feet. Gas-oil ratio was 692-1.
Location is 680 feet from north and 1,375 feet from west lines of section 46, block 4, H&GN survey.

Pryor And Courty, Phillip '66ers' Quit Basket Ball

BARTESVILLE, OKLA.—Two outstanding veterans of the past three Phillips 66 basketball teams, Kenny Pryor and Paul Courty, have retired from basketball to devote full time to their jobs with Phillips Petroleum Company.
Pryor, AAU All-American the last two years, works in the special services division of the treasury department. Courty is in the sales department and will transfer in the immediate future to the Tulsa sales division.
Were "66ers"
Both players, after brilliant careers at the University of Oklahoma, joined the "66ers" for the 1949-50 season, and played on the national AAU championship team of 1950.
While at Oklahoma, both Pryor and Courty were named to the All-Big Seven team three years, and played on the NCAA runner-up team in 1947.
Pryor, 5'11", led the Phillips fast break and was a consistent scorer. He was one of the finest long shooters in AAU basketball. Courty, a 6'3" left hander, was also a dangerous scorer and a splendid rebounder despite his comparatively small size.
Two Others Have Quit
Their retirements raise to four the number of last year players who have given up basketball. Bill Klein, 6'10" center, and Loy Doty, a forward, announced their retirements shortly after the close of last season.
Klein and Doty have also remained with Phillips.

Church Celebrates 250th Anniversary

NEW YORK.—The Grace Episcopal Church in the borough of Queens has celebrated its 250th anniversary.
It was founded by a missionary of the London Society for the Propagation of the Gospel in Foreign Parts in 1702. Next to Trinity Church in Manhattan, it is the oldest Episcopal Church in the State of New York.

Ellenburger Research Work Aided By \$51,600 In Grants

AUSTIN.—Research by a geologist man bent over a microscope in a gloomy building at the University of Texas may lead to more oil for 1956.
The project just starting is a study of the Ellenburger formation, a thick series of rock layers formed during the Ordovician Age. Best guesses say that was probably 800 million years ago.
The man at work is Dr. Virgil E. Barnes, research scientist in the university's Bureau of Economic Geology. He has been contributing to scientific knowledge and to the oil industry's progress for more than 20 years.
A grant of \$51,600 by five oil companies will pay the expenses of the study, which basically will try to give oilmen a sure-fire method of identifying what layer of the Ellenburger they are drilling in.
This is important because some layers will produce more oil than others due to differences in porosity and other factors.
Other Help
Barnes is counting on research agencies in scattered parts of the nation to help him. Core specimens from wells drilled to the Ellenburger will be sent to a firm in California specializing in spectro-chemistry.
Tests there will check on whether traces of certain minerals or elements run through the Ellenburger, or are found only in certain layers.
Barnes hopes facilities at the University of Wisconsin will be available to run thermo-luminescence tests. This research technique is based on the fact limestones of varying ages will glow under varying intensities of heat. The University

of Wisconsin is the only place with apparatus to make the tests.
Clay Tests
Tests for clay minerals will be made by X-ray and differential thermal analysis in the University of Texas ceramics department.
Barnes will do microscope work to identify minerals and will be responsible for conclusions drawn from all the research.
Though only five companies are contributing money, others are sending in cores from wells drilled to the Ellenburger. The Ellenburger extends from Cooke County, in Central North Texas, south-south-west approximately 400 miles and west some 600 miles into New Mexico, in Oklahoma.
The same formation runs into Oklahoma, where it is named after the Arbuckle Mountains. In Texas, it derives its name from the Ellenburger Hills in San Saba County.
The Ellenburger is found on the surface of the ground in Central Texas in what is known as the Llano uplift. Cores from the same formation have been found as deep as 15,000 feet in Val Verde and Pecos Counties.
Why will it take three years to do the research?
"You have to keep producing these oil companies to get the cores for your study," explains Barnes. "They may get a core and decide it doesn't look any good, so they just throw it in the slush pit. Then it's sure enough isn't any good for anybody."
Companies supporting the project are Atlantic Refining, Gulf, Humble Oil and Refining, Shell and Texas.

SEACYCLE — Clement Nicollet, in the driver's seat of this water-borne tandem, pedals down the Seine River, at Paris, with the aid of his "catamaran," a pair of floats which will support a bicycle or power cycle. Friction from rear wheel drives a propeller which pushes the craft along at a smart seven knots.

Explorer Says Mt. Everest Becomes Higher Every Year

NEW DELHI, INDIA (AP)—The leader of a Swiss expedition which reached within 900 feet of Mt. Everest's summit said Saturday the world's highest mountain is growing higher every year.

Dr. Ledouard Wyes-Durant, who led the expedition which was driven from the unconquered peak by monsoon weather last month, said his party's measurements show Everest now towers 29,610 feet. The World Almanac gives its elevation as 29,002 feet.

Indian scientists recently confirmed the peak is steadily gaining altitude. Dr. M. S. Kirshnan, the Indian government's geological expert, said Everest has grown 200 feet in 100 years. He placed its height at 29,200 feet and said the raise was due to the movement of the earth's crust.

"Certainly the mountain is growing," declared Wyes-Durant, "and anybody who wants to reach the top better hurry because it gets harder every year."

He said the expedition started off with the calculation of 29,083 feet

"but later calculations indicate the present height of 29,610 feet and still going up."

The member of the expedition that made the highest ascent was Ramond Lambert, who reached within 900 feet of the goal on May 28. It is probably the highest point any man ever reached on Everest and returned alive.

Then the expedition director ordered a retreat because monsoon weather was causing icefalls and avalanches along the route.

"We don't know how hard the wind blew up there but it was hard enough to pick up rocks and project them like gun-fire," Wyes-Durant said. "We were lucky to get that high and return without losing a man. On our retreat we had to bridge great cracks in the ice fields and saw huge towers of ice crumbling and falling under the impact of the monsoon winds."

The Abominable Snowman

Durant said the Swiss expedition may decide to try again in October but in any case they are handing over all information obtained to British mountain climber Eric Shipton, who will lead an attempt next year.

Durant said his party found tracks of the "abominable snowman," first reported by Shipton after an earlier expedition. Legend says the fabulous ape-like creatures who make three-toed foot-prints, are supposed to eat yaks and Tibetan children. The discovery of the prints photographed by Shipton became Britain's No. 1 folklore conversation piece last year.

"I believe they are bears," declared Wyes-Durant. "In any case they walk on all fours leaving tracks about a foot long."

On passage over President Truman's veto, 87 to 28, of McCarran immigration bill: For passage, Connally and Johnson.

On Morse (R-Ore) amendment to defense appropriation bill to cut 200 million dollars from funds for Air Force maintenance and operation, defeated 43 to 33. Connally and Johnson, both against.

On ratification, 77 to 5, of peace treaty with Western Germany. Connally and Johnson, both for.

On passage, 84 to 16, of bill to permit minimum-price (fair trade) agreements. Johnson for, Connally against.

House

On passage, 194 to 142, of Senate-House compromise bill extending Defense Production Act, with price and wage controls through April 30, 1953.

For—Bentzen, Kilday, Patman, Thomas, Thornberry.

Against—Burleson, Fisher, Ikard, Lucas, Mahon, Poage, Teague, Wilson.

Listed as not voting—Beckworth, Combs, Kilday, Lyle, Poage, Regan, Rogers, Thompson.

On passage, 207 to 121, of bill to continue present method of computing parity prices for basic agricultural commodities.

For—Bentzen, Burleson, Fisher, Ikard, Lucas, Mahon, Patman, Pickett, Poage, Rogers, Teague, Thomas, Thornberry, Wilson.

Against—None.

On passage, 247 to 99, of a resolution authorizing expenditure of \$75,000 for select committee to investigate foundations and other such organizations exempt from federal taxation.

For—Burleson, Fisher, Ikard, Lucas, Mahon, Patman, Rogers, Teague, Thomas, Thornberry, Wilson.

Against—None.

Listed as not voting—Bentzen, Combs, Kilday, Lyle, Poage, Regan, Thompson, Beckworth.

National Supply Opens Oil Field Store At Hadacol

The National Supply Company has opened oil field supply store at Hadacol, the humorously named West Texas hamlet that was nothing but a road intersection less than a year before.

Forty-two miles southeast of Midland, the location is 20 miles from the nearest paved road and 40 miles from the nearest railroad, but it is in the heart of Spraberry Trend oil area.

To Provide Service

National's decision to locate a store at Hadacol is in keeping with its policy of providing service in all active drilling and producing areas.

The company, which is the world's largest manufacturer and distributor of oil field machinery and equipment, has more than 110 stores throughout the oil country in the United States and Canada.

Formerly it supplied the Spraberry

Area from its store at Odessa.

The Hadacol store is a two-story building, of structural steel covered with corrugated iron, with living quarters for the staff, as well as the store and offices, all weather conditioned.

Its stock includes all supplies appropriate to the area, except very large units. Ben Jackson, formerly of National's Odessa store, is manager.

Dropped The Corner

The community came into being when "Hadacol," Darlins, of Midland, set up his trailer at the road crossing to sell soft drinks, sandwiches and candy.

Nearby was a guide post, with signs pointing to various drilling developments. At the top Darlins put a sign: "Hadacol Corners." The name stuck, except that as the settlement grew, the word "Corners" was dropped.

Hadacol now has several business establishments, including grocery stores, a garage, welding shops and cafes, surrounded by a number of trailer homes. The community, in the northeast corner of Upton County, is three miles west of the intersection of Upton, Reagan, Midland and Glascock Counties.

Hadacol is due to be connected with the outside world by at least three paved highways by the end of 1952.

Connally, Johnson Split On Fair Trade Authorization Bill

WASHINGTON (AP)—How Texas members of Congress are recorded as voting on recent roll calls:

Senate

On passage over President Truman's veto, 87 to 28, of McCarran immigration bill: For passage, Connally and Johnson.

On Morse (R-Ore) amendment to defense appropriation bill to cut 200 million dollars from funds for Air Force maintenance and operation, defeated 43 to 33. Connally and Johnson, both against.

On ratification, 77 to 5, of peace treaty with Western Germany. Connally and Johnson, both for.

On passage, 84 to 16, of bill to permit minimum-price (fair trade) agreements. Johnson for, Connally against.

House

On passage, 194 to 142, of Senate-House compromise bill extending Defense Production Act, with price and wage controls through April 30, 1953.

For—Bentzen, Kilday, Patman, Thomas, Thornberry.

Against—Burleson, Fisher, Ikard, Lucas, Mahon, Poage, Teague, Wilson.

Listed as not voting—Beckworth, Combs, Kilday, Lyle, Poage, Regan, Rogers, Thompson.

On passage, 207 to 121, of bill to continue present method of computing parity prices for basic agricultural commodities.

For—Bentzen, Burleson, Fisher, Ikard, Lucas, Mahon, Patman, Pickett, Poage, Rogers, Teague, Thomas, Thornberry, Wilson.

Against—None.

On passage, 247 to 99, of a resolution authorizing expenditure of \$75,000 for select committee to investigate foundations and other such organizations exempt from federal taxation.

For—Burleson, Fisher, Ikard, Lucas, Mahon, Patman, Rogers, Teague, Thomas, Thornberry, Wilson.

Against—None.

Listed as not voting—Bentzen, Combs, Kilday, Lyle, Poage, Regan, Thompson, Beckworth.

Houston Minister To Speak Here

The Rev. M. E. Stubbiefield of Houston will be the speaker at the 11 a.m. worship service Sunday in the First Assembly of God Church, corner New York and Baird Street.

He is the first minister of the Midland church. Mr. Stubbiefield is scheduled to be the evangelist in revival services beginning Sunday night in Eunice, N. M.

By Bob Evans WASHINGTON OIL—

Steel Strike Shuts Down One-Fifth Of U. S. Drilling Rigs

By JOSEPH HUTTLINGER
Reporter-Telegram Washington Oil Correspondent

WASHINGTON—The continuing steel strike is rapidly slowing down the American petroleum industry's expansion plans.

A total of 20 per cent of the nation's drilling rigs are shut down as a result of the strike, says the Petroleum Administration for Defense. The rigs can't find the oil country tubular goods for drilling new wells.

The approval of wildcat applications to drill for oil is being held up by PAD; no applications have been approved for the last 30 days, it says.

A total of 5,000 tons of tubular goods a day is being lost in the steel strike, enough for 110 oil wells a day, 3,400 a month. The steel strike has been on more than a month.

Lines Being Set Back

As for oil pipe lines, carriers designed to handle 1,400,000 barrels daily of crude oil and others to handle 400,000 barrels daily of products have been set back four to six weeks, the PAD estimates.

In oil refineries, a total of 156,000 barrels daily of new capacity, scheduled for completion during the third quarter of this year and another 176,000 barrels daily set for the fourth quarter completion, have been set back a month to six weeks.

The worst of the steel shortage appears ahead, barring a swift settlement, as by now, the petroleum industry, by and large, has eaten into steel stocks, and is near the bottom of the barrel.

Stricter Allocation

Ahead, a stricter allocation of oil country tubular goods is in sight. The PAD denies it has firm plans as yet, but if the steel strike goes further, it may have to act.

One idea that has been proposed is to take tubular goods away from one operator with relatively large inventories, and give them to someone else more in need. Another, and this is strictly in the idea stage, and strictly for use only as a last resort, is for PAD to exercise some controls over who shall drill for oil and where.

Aim Stated

The aim of this, of course, would be to see that a ton of steel goes furthest in getting oil. In any event, it's sure that the PAD in months ahead will pare down requests of all producers for tubular goods more than it has had to pare them down in the past.

The drive for the end of price controls over crude oil and products and natural gas is ended today, for the time being, with no success. The Congress has extended the Defense Production Act, authority for price, wage and allocation controls.

Controls To Continue

The price controls go on until April 30, 1953, pretty much as at present. A glimmer of hope arose when the House voted for a petroleum-supported amendment to take price controls commodities that are not rationed, but the Senate refused to agree.

It's largely been overlooked, but the 27.5 per cent depletion allowance for oil and gas producers may be safe from heavy attack for many years to come. The subject of political attacks from both Presidents Truman and Roosevelt, the allowance carries the hearty endorsement today of a White House study group, the President's Materials Policy Commission, which studied for 18 months about this and other problems.

Further, the allowance should stay at the present rate, said the Paley Commission. Observers believe that in the face of this, the Administration may not again call for lowering the income tax incentive; even if it should, they point out, the petroleum industry now, for the first time, has an effective reply.

Buchanan Disapproved

Thomas C. Buchanan of Pennsylvania, former chairman of the Federal Power Commission, was disapproved for another five-year term on the commission by a nine to four vote of the Senate Commerce Committee.

Oil and gas officials, including William Murray of the Texas Railroad Commission, asked the Senate not to confirm the appointment, made by President Truman.

One man testified Buchanan, only man to vote against the Phillips Petroleum Company, in a case involving the Kerr Bill issue, is trying to hold down the price of gas to please the consumers, and he explained it's political.

There are, he pointed out, more consumers than producers. A recess appointment for Buchanan is in sight, permitting him to serve until January.

R. H. (Hal) Burton

Burton Featured As Personality In B-T Publications

R. H. (Hal) Burton, chief clerk, Plymouth Oil Company in Midland, was "this month's personality" in June 22 issue of *The Money*, monthly publication for the Bend-Sum-Trees organization.

The story was written by G. W. (Gerry) Geen, scout in Plymouth's Midland office.

The article reveals that Burton started working for Big Lake Oil Company in 1926 at Texon. Since then he has worked in Pittsburgh, Penn., Sinton and Midland.

Included in the story are some of Burton's remembrances of the old time oil activity around the Big Lake field in 1928 and of the Texon baseball team made up of Big Lake Oil Company personnel during 1933.

FULL TAXERS

Seven states still require payment of a poll tax: Alabama, Arkansas, Mississippi, South Carolina, Tennessee, Texas, and Virginia.

Three Killed, Eight Hurt In Road Crash

BUTLER, MO.—(AP)—Three persons were killed and eight others injured Saturday in a head-on traffic accident 13 miles north of here.

Two of those killed and four of the injured were identified by the Missouri State Highway Patrol as Fort Hood, Texas, soldiers enroute to their Iowa homes on furlough. Those in the other car were Kansas City negroes on a fishing trip. The patrol identified the dead as: Calvin F. Van Kooten, 32, New Sharon, Iowa.

Kenneth Van Gorp, 23, New Sharon, Iowa.

Mrs. Maude Nance, 49, Kansas City.

Midlander Attends Methodist Rally

Bus Hudgins of Midland attended a recent Central Texas Conference of the Methodist Church Youth Assembly on the campus of Southwestern University at Georgetown.

Outstanding leaders in church activities participated in the various activities during the sessions at the university.

PAUPER'S GRAVE

To the shame of his contemporaries, the famous composer Mozart was buried, unattended, in the common burial ground reserved for paupers. The exact place of the interment is unknown.

What's a Bank Statement to You?

Nothing perhaps, but a column of figures... BUT LET'S TAKE A CLOSER LOOK!

I. WE OWE TO OUR DEPOSITORS	\$22,621,803.72
This is the money that you and your neighbors have placed in our keeping.	
II. YOUR DEPOSITS ARE SECURED BY THESE ASSETS	
A. CASH	\$7,053,450.55
This money is on hand in our vaults and in the vaults of large metropolitan banks, available for immediate needs.	
B. U. S. GOVERNMENT BONDS	7,067,001.50
These bonds are payable in currency at maturity or on demand.	
C. OTHER BONDS AND WARRANTS	2,742,294.26
This consists of gilt-edge short term bonds of counties, school districts, municipalities, etc.	
D. LOANS AND DISCOUNTS	6,941,900.95
This means funds loaned to your neighbors for homes, business operations. It means new autos, appliances and repairs. It's extra funds for merchants to buy more goods, folks to develop more oil properties, for farmers and ranchers to operate on. It's money for expansion . . . for a greater Permian Basin Area.	
E. NEW BANK BUILDING UNDER CONSTRUCTION	475,695.50
A new home for the bank is under construction at the corner of Texas Street and Big Spring Avenue to better serve you.	
F. OTHER ASSETS	134,542.56
This includes Federal Reserve Bank stock, \$45,000.00; furniture and fixtures, \$63,522.36; leasehold improvements, \$21,135.87; other assets, \$4,884.33.	
III. CAPITAL STOCK	1,000,000.00
A. SURPLUS	512,500.00
B. UNDIVIDED PROFITS, RESERVES	280,581.60
	\$24,414,885.32
	\$24,414,885.32

Two Shallow Tests Scheduled In Eddy; To Start At Once

HOBBS, N. M.—Locations for two shallow wildcat tests have been staked for immediate drilling in Eddy County.

Union Oil Company of California will drill No. 1 C. B. Beaman as a 2,800-foot test six miles west and slightly south of the Malaga Delaware sand field. It is 1,980 feet from north and west lines of section 13-24-37e.

Hanson & Yates will drill its No. 1 Cordie-King as a 1,950-foot project four and one-half miles northwest of the Black River field and 1,980 feet from south and 680 feet from west lines of section 22-23-36e.

Skelly Oil Company has abandoned location for No. 6-A Lynch-Federal, recently staked, 12,500-foot Devonian wildcat in North-east Eddy County. It was to be drilled 680 feet from north and west lines of section 22-17a-31e.

Sohio Petroleum Company spotted location for a diagonal southwest offset to Amerada Petroleum Corporation No. 1 Turner, recently completed McKee producer in the Warren area of Lea County.

The new test will be drilled as No. 1 Fred Turner, 660 feet from north and 1,980 feet from west lines of section 20-30-38e. It is to drill to 9,300 feet.

Skelly Oil Company has spotted two more projects in the Lovington (also) field of Central-East Lea County.

No. 4 C. S. Taylor will be drilled 2,175 feet from north and 2,173 feet from east lines of section 6-17a-37e.

No. 12-O State will be dug 1,650 feet from south and 2,310 feet from east lines of section 31-16a-37e. Both are to be drilled to 8,600 feet.

Gulf Oil Corporation was started operations at No. 3-E Harry Leonard in a recently opened multipay area in Southeast Lea County. It is to be dug 2,310 feet from north and 320 feet from east lines of section 18-21a-37e. It will go to 7,900 feet.

Atlantic Refining Company No. 2 Federal-Jones is to be drilled as a 12,700-foot Devonian project in the Denton field of Central-East Lea County.

It is 330 feet from the south and east lines of section 34-14a-37e.

Gulf Oil Corporation has started operations on No. 2 Maude Saunders, project in the Saunders field of West-Central Lea County. It is to go to 10,000 feet, 1,880 feet from south and west lines of section 34-14a-33e.

Atlantic Refining Company No. 3-T State is a new oiler in the Denton field. It was completed from open hole in the Devonian at 11,671-12,463 feet for a daily flowing potential through a 3 8-inch choke. Completion was natural. Gas-oil ratio was 176-1 and tubing pressure was 1,900 pounds.

Location is 1,980 feet from south and west lines of section 2-15a-37e.

Stanford Oil & Gas Company No. 1-V State is a new Devonian oiler in the recently opened West Dollarhide area of Southeast Lea County. It was completed through perforations at 7,885-7,905 feet for a daily flowing potential of 250 barrels of 40-gravity oil through a 37.64-inch tubing choke.

Location is 1,980 feet from north and 660 feet from east lines of section 32-24a-38e.

THE FACE OF WAR—One more patrol completed. One more safe return. Pvt. [Name], 19, of Montreal, Canada, who is with the Canadian Army unit in Korea, has just returned from a combat mission, tired, grimy, and shaken up. This trip, he's lucky. His only injury is a blooded nose.

Mexico To Name President; Cortines Reveals Program

MEXICO CITY—As citizens of Mexico began their trek to the polls in record numbers early Sunday, the probable victor in the presidential race announced the program his government would follow.

Adolfo Ruiz Cortines, candidate of the powerful government party, Partido Revolucionario Institucional (PRI), made public a 24-point summary of the policies of his administration if it wins at the polls Sunday.

Ruiz Cortines, former interior (Governacion) secretary and governor of Vera Cruz state, said the program was formulated during his eight months campaigning throughout the country. It grew from numerous roundtable discussions with local leaders and was supplemented by economic and social studies requested of experts chosen regardless of party affiliation.

Outstanding Points

Outstanding points in the program were:

1. A government based firmly on the constitution and the promises of the 1910-1917 revolution;
2. A drive against the high cost of living;
3. Government credits to mechanize and increase agricultural production and stimulate cattle raising, and guarantees of the rights of small landowners and communal farmers (ejidatarios);
4. Continued support of the country's industrialization, based on the iron, steel, petroleum and electrical industries, and a project to establish 1854 industrial centers in the provinces;
5. Public works projects for cities and towns, and improved roads, telephone and telegraph;
6. Female suffrage and expansion of women's civil rights to a part with men;
7. Continuation of Mexico's foreign policy based on "good neighborliness, loyal friendship, and mutual respect between countries, vigorous opposition toward any foreign domination, respect for the right of all peoples to support the government they desire; sympathy for the weak and oppressed; absolute opposition to racial discrimination, aversion to all injustice, devotion to the cause of peace, and above all love for liberty."

A record half a million Mexicans are expected at the polls Sunday to choose between four presidential candidates and elect 58 senators and 128 federal deputies. The PRI is expected to win its customary smashing victory.

The other presidential candidates are: Gen. Miguel Henriquez Guzman, a veteran of the revolution and Mexico's richest man; Vicente Lombardo Toledano, lawyer and labor leader who has Communist support; and Efraim Gonzalez Luna, lawyer with right wing and Catholic support. Henriquez is expected to poll the largest vote for the opposition, with Lombardo and Luna trailing far behind.

1952 Convention Promises To Be 'Granddaddy Of All'

WASHINGTON—Squabbles between rival delegate slates have been going on at political conventions for years, but the Republicans appear to be heading into the granddaddy of them all.

With the start of the twenty-fifth quadrennial GOP nominating session just two days away, the Taft and Eisenhower camps had their lines drawn for what is likely to be the most bitterly fought battle of the convention.

Up to now, the forces of Senator Robert A. Taft of Ohio have had much the better of the struggle with delegates supporting Gen. Dwight D. Eisenhower. This can be completely reversed, however, on the convention floor.

Aside from the matter of cold votes, there is the added and almost equally significant question of psychological gains by the victors in delegate contests.

In 1948, for instance, the victory of the hotly contested Georgia slate backing Gov. Thomas E. Dewey of New York gave Dewey a big boost toward winning the nomination from Theodore Roosevelt.

There is, however, this essential difference: When Taft lost the Georgia delegate contest, he dropped the issue there. He didn't argue his case on the convention floor.

Eisenhower leaders have said they will push the contest issue onto the floor and that they're prepared for an all-out fight. If they lose that fight, chances of an Eisenhower nomination may be lost.

Only once in the 100-year history of the GOP convention has there been a floor fight over which delegates shall be seated. That was in 1912, and the winner of that struggle was Taft's father, William Howard Taft, who won the nomination from Theodore Roosevelt.

That battle split the Republican Party right down the middle and it was decisively beaten by the Democrats in the general election.

In 1912, the elder Taft was in control of the National Committee, which then—as now—sets up the convention machinery.

One of the key issues then, as it is now, was whether the delegates approved by the Credentials Committee should be allowed to vote when the committee report hit the floor.

Elihu Root, who was chosen temporary chairman of the convention and who was a Taft man, ruled that the contested delegates could vote.

Up rose Gov. Herbert S. Hadley of Missouri, a Roosevelt leader. He moved that the convention decide not to allow those disputed delegates to vote.

The jig was up.

The Taft men were ready. Rep. James Watson of Indiana, a Taft supporter, put in a motion to table the Hadley resolution. The verbal battle was on for fair. In the end of the convention decided, 689-496, to table the Watson proposal.

The jig was up for Roosevelt.

In the last convention—in 1948—there were a number of contests, but the most important was the factional feud in Georgia. That state had only 18 votes in the convention, but the decision packed a good deal of psychological wallop.

The National Committee chose the Dewey slate by a close 48-44 vote and Taft appealed to the Credentials Committee. The Dewey margin was even narrower there—only one vote. The convention accepted the report without a murmur.

Dewey won on the third ballot.

But that was four years ago when you don't hear such charges as those about a "Texas steal," "a day of infamy," etc., aired by the Eisenhower people now.

No one now disputes the significance of those seating contests. As the most Republicans agree that the man who finally wins those contests will be in the driver's seat at the convention.

Slick-Moorman Sets Location For Deep Wildcat In Scurry

Six miles west of the Hermleigh (Ellenburger) field and three and one-half miles southeast of Snyder in Central Scurry County, Slick-Moorman Oil Company staked location for an 8,000-foot wildcat. It will be drilled as No. 1 Warren Sturgeon, 330 feet from north and west lines of section 28, block 3, H&G survey.

The proposed 8,000-foot destination will allow for tests of the Ellenburger. Elevation at drillette is 2,354 feet.

Operations are to start at once.

Mussolini's Jealous Spouse Shook Him, Messenger Says

BRESCIA, ITALY—Mussolini's wife Rachele, who so jealous she once shook a motorcycle love note messenger by the neck and demanded he tell her the whereabouts of El Duce's mistress, an appeal's court here was told Friday.

The testimony came near the end of Brescia hearings in the Italian government's appeal against a lower court decision that the hundreds of passion-packed love letters between Il Duce and Claretta Petacci be returned to her relatives.

The government claims them on the argument Mussolini's dark-eyed mistress, executed and hanged by the heels with him in 1945, was his official confidential secretary.

The letters, filled with his tender descriptions of her and with her often-bitter reproaches at his increasing coolness, were found two years ago in a villa on glamorous Lake Garda. Many of them have been published in the Italian press. The court took into evidence a deposition by Michael de Domenico, described as a messenger for Mussolini's former personal secretary. Di Domenico related one of his jobs was to run love letters back and forth between Mussolini and Claretta by motorcycle.

On one such trip, his deposition said, he was intercepted by Rachele, who demanded to know where Claretta was and shook him by the neck to force an answer. He testified he didn't tell.

The case will be moved back to the Rome court of appeals probably next week. It was transferred here for testimony of individuals connected with the case who reside in this area.

FIRST CROSSER

The Savannah, a vessel of about 350 tons' burden, measuring 100 feet in length, was the first steamship to cross the Atlantic Ocean. She finally was wrecked off the south coast of Long Island.

Free-Flowing Dollars Make Conventions Big Business

By SAM DAWSON

NEW YORK—Americans love conventions. And the hotels, transportation and other service companies love the more than 13 million Americans who go to some 22,000 of them annually.

The political shindigs this month in Chicago are spectacular, but only a drop in the bucket to what goes on around the country.

Trade, professional, civic, social and other organization get-togethers this year will cost around 216 million dollars in hotel rooms, meals, entertainment, cabs, tips—and the little woman's shopping.

Railroads and buses will take in some 45 million dollars more. And the airlines are out to get 15 million dollars in convention travel. Gasoline stations sell an unestimated number of gallons to convention goers in their cars.

Big conventions like the Shriners and the American Legion draw around 100,000 persons. But the average convention is much smaller—around 350, the World Convention Dishes, trade publication in the field, estimates. And about 4,500 of the meetings have less than 100 in attendance.

What to do with the women—about one-third of the men now bring their wives along—is a chief problem, according to the Manual on Conventions and Meetings by George Dahl. He says the best thing is to get them out of the hotel during the session hours—certainly the first day, and one trip as far from the convention site as possible. The second day's entertainment program for the ladies can be slower. And the third day they'll pack.

People in charge of conventions work far in advance—some on their 1954 plans already. It's an intricate job. There are associations concerned with conventions, like the International Association of Convention Bureaus, and the Hotel Sales Management Association International which has 400 delegates at this own convention.

The Department of Commerce lists some 4,900 national trade, professional and civic associations. Add to that the nation's countless educational, fraternal, and social organizations—plus the growing trend toward regional meetings of national groups—and the American urge to convene becomes tremendous.

SHRUNKEN

At the close of the Civil War, America was a continent more than three months wide; today, by the best trains, it is three days wide, while planes reduce that to, mere hours.

The sun's rays falling on Jupiter are calculated to have one 27th the intensity of those falling on the earth.

Midland Political Rally Set July 17

Politics will be near the boiling point July 17 when a Midland Candidate Rally will be held at 7:30 p.m. at Indian Baseball Park, with the public invited to attend.

The event, designed along the lines of an old-fashioned political rally, will be sponsored by the Midland League of Women Voters, the Chamber of Commerce, JayCees and JayCee-ettes.

Frank Besoni, Midland County Democratic chairman, will preside at the outdoor gathering, the purpose of which will be to afford citizens the opportunity of meeting candidates for state, district and county offices.

Candidates who are opposed in their campaigns for election to public offices, will be invited to make brief speeches, sponsored stated. Unopposed candidates will be introduced to the audience.

Invitations to participate in the rally have been dispatched to candidates for Agriculture, General Land Office and Railroad Commissions and to all candidates for district and county offices. Sponsors said acceptances have been received from Walter McKay, Agriculture Commission candidate, and Joe Laird, Rail Road Commission candidate, as well as from practically all district and county candidates.

A capacity crowd of interested persons is expected to attend the function, which will be free of charge. Refreshments will be available at the ball park.

Mrs. R. E. Dorn is serving as chairman of the Candidate Rally. Committee chairmen include Mrs. John Culver, publicity; Mrs. J. S. Roden and Mrs. Harry O. Stewart, properties; and Mrs. Frank S. Hayford, posters and advertising.

Rain-Making For Midland Also Was Futile In 1891

By The Associated Press

More than half a century ago the federal government sent a specialist to West Texas to try his hand at rain-making. He tried for about two weeks. Whether he taught West Texas anything about rain was not clear. But there was no question about this: He learned a lot about West Texas weather.

It was on Feb. 27, 1891, that U. S. Secretary of Agriculture J. M. Rusk commissioned R. O. Dyrenforth to conduct experiments in the production of rainfall.

It was probably the first U. S. government experiment in rain-making. Dyrenforth conducted his experiments in Andrews County north of Midland, near El Paso and later near San Diego in South Texas.

Dyrenforth believed the explosion of a gas-filled balloon might create rain. Senator C. B. Farwell of Illinois won appropriations of \$2,000 and \$7,000 for rain-making studies. Dyrenforth was put to work as special agent.

Nelson Morris, Chicago, offered the freedom of his large ranch in the dry region of Texas, "plus food and lodging," Dyrenforth said in his eventual report to Congress. Dyrenforth accepted.

When he arrived at Midland, after considerable difficulty in assembling this company and supplies, Dyrenforth had a premonition that nature had dealt him one from the bottom of the deck.

"The ranch, known as the 'O' ranch, is deep Midland, a station on the Texas & Pacific railroad, and embraces several thousand acres, but the ranch house located by the south central portion of the Llano Estacado in Andrews County, is 23 miles from Midland, much farther than I had been led to believe," Dyrenforth wrote.

There had been a deficiency of rain for several years in the region and the past 18 months had been severely dry, he was informed. Small wonder that the journey to the ranch, "made a strongly negative impression" upon Dyrenforth. His report gave an accurate description of West Texas drought in the summer.

"Though we started early in the morning, the sun shone fiercely. There was not a fleck of a cloud visible anywhere in the sky. The ground was dry with an appearance of alkali. There was a strong dry wind from the south which seemed greedy to take up any moisture that might be present," he recalled.

He had studiously avoided conducting experiments in a wet climate. Now he feared he had gone to the other extreme.

Four wagons hauled equipment to the site. Two large wooden tanks were ordered built in Midland to contain hydrogen and oxygen, which were to be generated on the site. On August 9 the first charges

of "rockrock" were touched off in a trial run.

"On the morning of the next day, August 10, a very heavy rain fell, coming from the northeast and extending west and southwest," he recited. "The rain continued for about two hours, causing water to run in the draws and the plains to be drenched."

Dyrenforth was elated, but later he wrote it off to chance when he learned that Abilene had showers the same day. He found it was common knowledge along the T&P that frequently it rained in Abilene and Big Spring but not in Midland.

He waited impatiently for more favorable conditions. Cumulus clouds, moving toward the site were often, at low altitude, seen to vanish as they approached. It was like vapor passing over a hot stove, Dyrenforth observed.

With arrival of his meteorologist, George E. Curtis, Dyrenforth was ready to get down to serious business. But he had troubles. High winds quivered oxygen generating efforts, and the hydrogen tanks took a long time to soak gas-tight. Gradually, enough gas was accumulated for an attempt.

The omnipresent winds damaged balloons. Big kites were sent aloft, but "they were soon broken in body or broke their strings." On August 12, a few kites were put up successfully with half a pound of dynamite attached. A 30-mile wind blew up clouds, but no rains.

Guns were deployed in a semi-circle from the house and cannonading continued for several days, along with periodical blasts from the kites. The agent tried exploding dynamite in prairie dog holes but this shook the earth and not the atmosphere.

On August 18 inflation of a 10-foot balloon was begun but operations were tediously slow. It was three hours after a mid-afternoon shower that the big bag rose rapidly, reversed its course. About two miles away and at a mile altitude, it exploded.

"It was not accompanied by any precipitation, nor was there any fall immediately thereafter. At 8 o'clock heavy rain clouds formed in the west-southwest and rain fell heavily, but not at the ranch house."

Dyrenforth hoped to ascertain the relation, if any, of static electricity to precipitation. Since there was a heavy electrical display, he sent up an "electric kite" with bands of tin-foil connecting to wires which carried such a charge to the earth that "it produced a spark half an inch in the sulphuric acid condensers."

The evening of August 17 saw constant firing maintained. One blast at 8 p.m. was followed by a spatter of rain. Disappointingly, Dyrenforth found next morning it did not even show in the gauge. Some rain came the next day. Then came two days of clear skies in which it was useless to fire. Moreover, most of Dyrenforth's assistants were ill from failure to heed his warnings against drinking icy water.

August 20 brought more clouds and more firing, and some sprinkles. Explosives were detonated from kites, mesquite bushes and guns, but with no significant results. Two days later there was a morning fog but no rain. Oxygen equipment was shifted to an adobe hut and by August 25, Dyrenforth was ready for the "great test."

Several balloons broke away in the high winds, but a few were fired in this climactic experiment. But at 11 p.m. that day it was "as dry as I ever observed it."

Next morning an early thunderstorm blew up and drenched the north half of the ranch. Little fell at the ranch house, but "after each explosion, the quantity of rainfall increased."

This was the last day of the experiment. Dyrenforth returned to Washington. The equipment was sent to El Paso where rain-thirsty citizens had raised a fund for the expedition. Later, with R. J. Kleberg doing most of the financing, experiments were conducted at San Diego, Texas.

While not jubilant with results, Dyrenforth concluded that during periods of drought when "conditions favored rainfall without there being actual rain, precipitation may be caused by concussion." But more than what he found out about rain making, Dyrenforth appeared to have learned about West Texas weather.

Lorraine Collins, Midland Girl Scout, writes in from the Mitre Peak Camp, "Rain, rain—it's all we have had. I wish you could have some of it. It is WONDERFUL!"

Most of the girls at the camp perhaps never had seen that much rain at one time, and like all other West Texans they doubtless were in accord on the "wonderful" part of it.

Sounds wonderful to DSQ, too, and we plan to visit the Big Bend country this weekend to glimpse the marvelous changes which have resulted since bountiful rains blessed that area.

M. W. Collie of Midland was in the midst of a downpour between Fort Davis and Balmorhea early last week. Had to turn on his bright lights and use his best driving technique before working his way through it. Collie enjoyed the experience, though. "Who wouldn't?"

L. T. Sledge quotes Sherwood O'Neal former Midland County commissioner who now ranches up Oklahoma way, as saying it is pretty dry on his Oklahoma ranch—hasn't rained there in about 30 days. My!

O'Neal was back in Midland on a brief visit last week.

A National Future Farmer officer candidate from the Texas Future Farmers will be chosen at the annual state convention July 17 in Dallas from the following nominees: Dwaln P. Smith of Hale Center; Billy Charles Mikeasa, of Eden; Jerry K. Johnson of Naacogdoches;

Dir, Squirt and Quirt

— FARM, DAIRY AND RANCH NEWS —

San Angelo has set its twenty-second annual Fat Stock Show and Rodeo for March 5-8, 1953, show officials there announced last week.

The San Angelo show will follow by one week the annual San Antonio Livestock Exposition.

It's been showering around, pardner, but somehow the moisture has been missing Midland altogether. Terminal has had two good showers recently and so has some of the country to the north and northeast, Martin County, or parts of it, even came up with one or two hard showers. One of these days the clouds will get together and the Midland territory will be blessed with a good general rain. DQS still thinks it will come by the tenth of the month. Get out your slicker, pardner.

And slickers were needed on the Johnny Nobles ranch country just northwest of Midland Wednesday night. It was one of the best rains the ranch has received in many moons, according to Mr. Johnny. He says a large lake which has two ponds dry for months now has two feet of water in it. The veteran Midlander naturally was most enthusiastic and in the best of spirits for the holiday weekend.

The Big Bend country doubtless will blossom out in all its splendor following heavy rains which have swept that section the last week or 10 days. From one to a half-dozen rains of cloudburst proportions have been reported from Alpine, Marfa and Fort Davis.

The Big Bend area is one of the most beautiful in Texas when it is green, and surely the Davis Mountains will be greener than green as a result of the moisture. And of course those famed Highland Herd-fords will be faster than ever pretty pronto now.

The rains in the Marfa-Alpine country, incidentally, measured from two to 10 inches. Nine inches of moisture fell at the Mitre Peak Girl Scout Camp 10 miles north of Alpine in a three-day period. Streams were up, roads were impassable and some damage was reported to camp facilities.

Lorraine Collins, Midland Girl Scout, writes in from the Mitre Peak Camp, "Rain, rain—it's all we have had. I wish you could have some of it. It is WONDERFUL!"

Most of the girls at the camp perhaps never had seen that much rain at one time, and like all other West Texans they doubtless were in accord on the "wonderful" part of it.

Sounds wonderful to DSQ, too, and we plan to visit the Big Bend country this weekend to glimpse the marvelous changes which have resulted since bountiful rains blessed that area.

M. W. Collie of Midland was in the midst of a downpour between Fort Davis and Balmorhea early last week. Had to turn on his bright lights and use his best driving technique before working his way through it. Collie enjoyed the experience, though. "Who wouldn't?"

L. T. Sledge quotes Sherwood O'Neal former Midland County commissioner who now ranches up Oklahoma way, as saying it is pretty dry on his Oklahoma ranch—hasn't rained there in about 30 days. My!

O'Neal was back in Midland on a brief visit last week.

A National Future Farmer officer candidate from the Texas Future Farmers will be chosen at the annual state convention July 17 in Dallas from the following nominees: Dwaln P. Smith of Hale Center; Billy Charles Mikeasa, of Eden; Jerry K. Johnson of Naacogdoches;

and Victor Boehl of Westhoff, a member of the Cuero Future Farmer Chapter.

These four boys were selected by the FFA Area in which they live to compete for the candidacy. The Texas chosen will submit his application to the national nominating committee which will nominate a president, a student secretary, a national adviser, and four vice presidents from the following four Future Farmer regions: North Atlantic, Southern, Central and Pacific. The officers are to be elected at the National Future Farmer Convention in Kansas City in October.

Donald Stahel of Hurricane, Utah 1951-52 national president, will address the Texas convention.

Congratulations to Marion Wilkerson of Garden City who has been awarded a sterling silver belt buckle for showing the grand champion fine wool lamb at the Garden City and San Angelo sheep shows earlier this year.

CORNY, BUT NICE — Kay Goudron, of Rome, models a corn-decorated bathing suit, designed by Gaberri, one of Italy's foremost stylists. The kernels of corn are the real thing, and on hot days may keep things popping on the beaches.

Home grown feeds, especially pastures and other forages, are the cheapest and best feeds for dairy cattle. Such feeds, says R. E. Burleson, dairy husbandman for the Texas Agricultural Extension Service, can provide the essential nutrients needed by dairy cows to produce liberal amounts of milk.

The specialist urges dairymen to plan for ample acreages of long season grazing crops, abundant supplies of high quality forage and enough grain to supplement the roughages and balance the dairy ration.

Mechanization catches up with the beef cattle industry in the impressive Trans-Pecos chapter of the all-new "Story Book of Texas Agriculture" at the 1952 State Fair of Texas in Dallas, October 4-19.

The display shows three mechanical cowboys branding a mechanical calf while a mechanical campfire broils a plaster beefsteak. A big color enlargement in the back shows a photographic herd of cattle grazing against a scene of celluloid mountains. A model chuckwagon at one side of the range and a variety of prairie grasses and plants complete the pseudo-cattle country setting.

The Trans-Pecos area is included in the Texas A&M College System Extension District 6, which covers the following counties: Andrews, Brewster, Jeff Davis, Crane, Crockett, Culberson, Ector, Edwards, El Paso, Glasscock, Hudspeth, Kinney, Loving, Martin, Midland, Pecos, Reagan, Reeves, Sutton, Terrell, Upton, Val Verde, Ward and Winkler.

Spectacular Exhibit The Story Book will be one of the 1952 fair's most spectacular exhibits. It will include colorful, animated dioramas devoted to each of the 12 extension districts, plus displays telling of the work of 4-H clubbers and negro extension workers. Many of the "show window" type displays include live animals, growing plants, sound effects and clever mechanical figures.

A mammoth central exhibit will feature a huge map of Texas which shows the various soil areas of the state. The map is portrayed in phosphorescent paints that will glow dramatically when pinpointed by hidden spotlights. Bluebonnets, wheat, rice, sorghum and cotton will encircle the map. Yucca, cacti and century plants in the display will represent West Texas, and roses and pine trees will lend an East Texas flavor.

One of the many surprises of the 1952 Story Book will be the tiny "Tommy Texas" character, hovering above the central exhibit in a miniature helicopter. At intervals, "Tommy" will briefly tell the interesting story of Texas' two-billion-dollar agricultural empire.

'Miss South Texas' Title Won By Blonde SEQUIN—(AP)—Joe Ann Mang, 17, blue-eyed blonde of Gonzales, won the fifteenth annual Miss South Texas Bathing Review here Friday. She will compete in the Miss Texas contest at Galveston later this summer.

Danita Gwynn Davenport, 17, Bay City, was second and Bobbie Jean Bock, 18, was third.

Midland Farmers Loaned \$17,000 In PMA Funds

During the first six months of 1952 a total of \$17,000 was loaned to Midland County farmers by the County PMA committee, according to Charles Champion, local PMA official.

Approximately \$15,000 of the amount was loaned to farmers to encourage a deep plowing practice to prevent wind erosion.

The \$17,000 loaned by the PMA to farmers in this county represents only about one-half of the amount used to prevent wind erosion from January through June, Champion said.

"Benefits resulted all Spring as the farmers that used the deep plowing practice on their land actually stopped wind erosion," Champion said.

The deep plowing practice, used successfully for a number of years in Dawson County, was tried for the first time on a small scale last year in Midland County.

Loans by the PMA for the first six months of this year are well above the total loans for the entire year of 1951. Last year, the PMA loaned \$10,837 for various conservation practices.

A breakdown of loans in 1951 follows: deep plowing of sandy crop land, 2,016 acres, \$5,563; sub-solling for better water penetration on tidelands, 189 acres, \$978; contour farming, 1,899 acres, \$506.70; deferred grazing on range lands, 2,040 acres, \$510; fire guards, 76 miles \$243.54; wells for livestock water on rangelands, four, \$939; grass seeding on croplands, 100 acres, \$50; chemical control of mesquite, 1,266 acres, \$2,240; and leaving stubble on croplands to prevent wind erosion, 228 acres, \$57.

CCC Support Plan Loses 59 Millions During Fiscal Year WASHINGTON—(AP)—The Agriculture Department's Commodity Credit Corporation (CCC) sustained a net realized loss of \$59,300,000 on its price support loans and inventories program on farm crops for the first 11 months of the fiscal year.

This CCC report compares with a loss of \$345,599,000 during the full financial year ending June 30, 1951. This larger loss last year, the department said, was due chiefly to liquidation of old inventories of perishable commodities and to the support of potato prices.

The 11-month report said \$1,828,755,000 was invested in the support program. Inventories acquired under loan, purchase agreement, and direct purchase operations represented an investment of \$1,079,730,000.

BACK FROM VACATION Mr. and Mrs. Ralph O. Cook, 907 West Washington Street, have returned from a vacation trip to Lawrenceville, Ill.

Modern Homemakers Choose Gas Ranges!

No Other Range Is More Automatic

Flame Cooking Facts:

- 1) Automatic gas ranges assure you of clean, dependable cooking. Only gas broilers are smokeless, because live flame consumes rising food vapors.
- 2) The automatic gas range reduces labor by making simple and automatic, uncertain and difficult methods of cooking.
- 3) Thermostatic controls on all gas ranges give instant, exact control of oven cooked meals.
- 4) Due to its dependability and adaptability, the automatic gas range can cook an endless variety of foods to add zest to the family menu.
- 5) Handsome in design and appearance, the automatic gas range adds snap and eye-appeal to any kitchen.
- 6) Not only is the fuel bill lower with an automatic gas range, but maintenance costs are much lower, too.

The economy of natural gas for cooking is so well known that comparisons are rarely made. And... the modern homemaker knows there is nothing to compare with taste-tempting meals cooked by live flame in a modern gas range. She knows she can produce delicious meals in a matter of minutes... or that with an automatic gas range she can cook a meal while she is miles away from home. No range is more automatic. There is nothing that will compare with an automatic gas range for low original cost... low installation cost... low operating cost... and dependability of operation. See the modern gas ranges at your dealer's.

Daddy Ringtail

Daddy Ringtail And Pat Myself On The Back

This is a story of a man who didn't want to pat himself on the back, he said. No one had ever seen him in the Great Forest, until one day he came walking along the Elephant Path. Daddy Ringtail, your monkey friend, saw the man coming.

"My name is Daddy Ringtail," said Daddy Ringtail, "and a happy

day to you, Stranger. Then, so the stranger would not be a stranger any more, Daddy Ringtail asked what the Stranger's name was.

"Well," said the Stranger, "I don't want to pat myself on the

back, but I have a fine name and I—"

"Wait!" said Daddy Ringtail. "Stranger, you can pat yourself on the back if you want to."

"But I don't want to pat myself on the back," the Stranger said.

"But you can if you want to," Daddy Ringtail insisted.

The man pulled off his coat to be a little cooler. He took off his hat to fan himself. "Look," said the man, "you don't understand. You are like the friendly wolf I met awhile ago. He didn't understand either."

"That must have been the Hufen Puffen," said Daddy Ringtail. "That's the one," said the man. "The wolf's name was Hufen Puffen, and I met him in front of his hollow tree house. I stopped and said to him, 'I don't want to pat myself on the back, but I—'"

"Stop!" said Daddy Ringtail of a sudden. He held up his hand for the man to stop his talking of how he didn't want to pat himself on the back.

"Stranger," said Daddy Ringtail, "the Great Forest is a happy place. If patting yourself on the back is what you need to make you happy, then pat yourself on the back right now."

SIDE GLANCES

"She told her new boy friend the maid was just clearing the dinner table! Who's that, me or you?"

"But I don't want to pat myself on the back!" shouted the Stranger now in anger.

"Oh yes you do!" called out the Hufen from nearby. Yes, because now the Hufen had hurried up with a fine pat-yourself-on-the-back stick that he had made for the man.

"Help!" shouted the man, and away he ran down the Elephant Path, and he never, never came back. I still don't know what his name was. All I know is he was the man who didn't want to pat himself on the back, the silly boy. Happy day!

Teacher Prepares To Publish Ballads

CLEVELAND—(AP)—Prof. Harry Lee Ridenour used to delight his English students by breaking into song right in the middle of a lecture.

Now the veteran professor, for 30 years head of the English Department at Baldwin-Wallace College is retiring to prepare for publication his collection of Ohio folk songs and ballads. Student enthusiasm for the ballads developed into a regular course, first offered eight years ago.

Professor Ridenour has recorded about 400 of the folk songs.

The blood of oysters is colorless.

ANY MORE QUESTIONS?

For sheer tumult, the 1880 Republican Convention at Chicago stands alone. Sen. Roscoe Conkling's appeal for ex-President Grant created "a human ocean in tumult." Not to be outdone, James Blaine's supporters staged the wild demonstration pictured at right. Then James Garfield's speech, which a mob for John Sherman. Though the demonstrations continued through four days of hollering, Grant's votes remained between 202 and 213; Blaine's between 282 and 285.

At last, Sherman, despairing of victory, urged the support of his floor manager, James Garfield. Despite Garfield's protests, state after state took up his name. The compromise candidate was nominated as the 35th ballot. After defeating Democrat William Howard Taft for the presidency, Garfield, who had protested his own nomination, was assassinated.

Radio, TV To Send Convention To Almost Every Home In U. S.

NEW YORK (AP)—The Republican National Convention opening Monday will be staged in the biggest arena the world has known to date, due to television and radio.

The convention hall, Chicago's International Amphitheatre, has room for only about 12,000 persons inside. But television will put the proceedings in close-up view of persons in more than 17 million homes from coast to coast in areas with 96 per cent of the nation's population.

All the television networks are pooling facilities to enable the TV viewer to watch every move on the convention floor or dias as if he were practically at the speaker's or delegate's elbow. They will supplement the actual proceedings with their own separate interviews, briefings and other special features.

The addition of 10 cities to the Bell System's television network facilities this week will make possible the biggest hookup put together so far—65 of the 66 cities with TV stations.

But how many persons actually will see the convention via TV? The Columbia Broadcasting System estimates "over 65 million" and the National Broadcasting Company forecasts "around 70 million."

NBC estimates 17,900,000 homes have sets, with 99.9 per cent of 17,300,000 in range of the telecasts.

Whatever the actual total will be, it probably will exceed all previous TV audiences by a good margin due to the increase in number of sets and network expansion since any previous event of similar public interest.

For comparison, you can take the recent Ezzard Charles-Joe Walcott heavyweight championship boxing bout telecast in 56 cities. The American Research Bureau estimates it was tuned in on 10,800,000 sets. But in many of those cities, it was in competition with one or more other programs. The convention will be telecast from 66 cities and, with the possible exception of New York and Los Angeles, which have seven stations each, will be the only program on the air.

Not The First

While it's the first nation-wide telecast of a political convention, it isn't the first to be televised.

The 1940 conventions in Philadelphia were carried over a single 73-mile network channel to New York, and there were only about 5,000 sets in the two cities in range of the telecasts.

There were no telecasts in 1944 due to the war but the 1948 sessions in Philadelphia were carried by 16 stations in seven cities along the Atlantic Seaboard from Boston southward to Richmond. But there were only about 400,000 sets in use then and only 70-odd per cent of them in range of the telecasts.

So the 1952 convention telecasts will reach more than 40 times as many sets, and people as did those of 1948.

As for the schedule, you can hardly miss. Starting with preview programs Monday, the convention will dominate television for the next several days.

The networks plan to have numerous convention programs both before and after each session with summaries and analyses.

According to present plans, nominating speeches in behalf of various candidates are due to get under way Wednesday, with a possibility that balloting also may start.

What about radio?

Well, radio will be every place TV is, and possibly a number of places besides. One network alone plans 230 convention broadcasts. As for potential audience, it's limited to the size of the population, as more than 95 per cent of American homes have radio sets. Even in TV areas, radio will have many listeners in automobiles, places of business, and in homes among members of the household unable to sit by the TV set.

On both television and radio, the procedure will be repeated for the Democratic convention in the same site starting July 21 — two weeks from Monday.

Midland Construction Spurts To Start Second 1952 Half

Almost a quarter of a million dollars worth of building permits last week started the city off to a fast start in the second half of 1952.

Records in the office of R. S. Higgins, city superintendent of inspections, showed that \$221,950 worth of permits were issued during the week.

Featuring permits for the first 23 homes in the new Trueland Addition in the north section of the city, the week's permits sent the year's total to \$10,375,597.

Permits issued during the week included:

- Hays Construction Company, dwelling, for Ursula Hays, 1201 Chestnut Lane, \$11,150.
- Hays Construction Company, dwelling, 1311 Chestnut Lane, for Ursula Hays, \$16,180.
- Clyde Pool, garage, 801 North Main Street, \$450.
- Whitmore Homebuilders, residence, 2508 West Kentucky Street, for Dowell Chemical Company, \$6,750.
- Whitmore Homebuilders, residence, 2510 West Kentucky Street, for Dowell Chemical Company, \$6,750.
- Merl Reynolds, two-family residence, 404 South Adams Street, \$6,500.
- J. S. Elliott, servant's quarters, 1008 West Washington Street, for J. W. Blocker, \$2,900.
- Henry Lee, residence, 407 South Tyler Street, \$1,900.
- Henry Lee, residence, 405 North Lee Street, \$1,200.
- True-Built Homes, Inc., residence, for True Enterprises, Inc., 1401 East Golf Course Road, \$8,000.
- Same, 1403 East Golf Course Road, \$8,000.
- Same, 1405 East Golf Course Road, \$7,000.
- Same, 1407 East Golf Course Road, \$8,000.
- Same, 1901 North Jackson Street, \$8,000.
- Same, 1903 North Jackson Street, \$7,000.
- Same, 1905 North Jackson Street, \$8,000.
- Same, 1907 North Jackson Street, \$8,000.
- Same, 1408 Lynn Avenue, \$8,000.
- Same, 1404 Lynn Avenue, \$7,000.
- Same, 1402 Lynn Avenue, \$7,000.
- Same, 1400 Lynn Avenue, \$8,000.
- Same, 1313 Jackson Street, \$8,000.
- Same, 1311 Jackson Street, \$8,000.
- Same, 1407 Lynn Avenue, \$7,000.

MISS NEW YORK—Jackie Loughery, 21, of Brooklyn, gives a charming display of the reasons for being chosen "Miss New York." Jackie will play hostess to 15 foreign entrants in the Miss Universe Beauty Pageant, when they pay a visit to New York.

Retail Credit Class Formed In Andrews

ANDREWS—Stearling S. Speaks, University of Texas instructor in retail credit, is conducting a 10-hour course in retail credit procedure here.

Classes are being held from 7:30 to 10 p.m. each evening at the commissioners courtroom.

T. L. Causeaux, manager of the Andrews Retail Merchants Association, reports an excellent attendance.

"AUTOMATIC FIGHTER" HAS NO GUNS—Pictogram above shows outstanding features of the radically new Lockheed F-94C Starfighter, now in production at Burbank, Calif., and being delivered to the Air Force. The Starfighter carries no guns, relying on rockets. It is so nearly automatic that the pilot and radar operator have little else to do but take the plane of the ground, maneuver in the general target area guided by ground radar, switch on the "electronic crew" monitor operation of the piloting and rocket-control apparatus during the attack and then land. The all-weather interceptor is designed for air defense of the United States, with the specific mission of knocking out invading enemy bombers.

Temporary Officials Selected For New Methodist Church

Temporary officials for the new Methodist Church to be established soon in West Midland were announced Saturday by the Rev. Clarence Collins, pastor of the new Church.

Members of the Board of Stewards include W. E. Fowler, Roy Johnson, Dan McInosh, Dale McReynolds, Alvin Cook, Marvin Zoller and Fred Peyton.

Trustees also were named as follows: Jack Goddard, Bob Baker, and Jimmy Thorne, all of the First Methodist Church, and E. E. Sunderland, Tom Calhoun, Roy Johnson, and Fred Peyton from the new church membership.

Jimmy Thorne was selected church school superintendent to serve until the permanent organization is set up in September. W. E. Fowler was elected temporary treasurer of the church.

Plans were made at a Wednesday night meeting of the members to receive charter memberships until the second Sunday in September.

Plans for the establishment of a permanent organization. First services of the new church are scheduled for July 13, at 3 p.m. at the First Methodist Church with Dr. Orin W. Carter, district superintendent, and the Rev. Luther Kirk, pastor of the sponsoring church, in charge. Members will be received at the close of the service. A business meeting will be held immediately following the service.

CAUGHT WITH THEIR PANTS-DOWN—Prisoners of Compound 77 on Koje Island remove all clothing but their underwear, on orders of UN guards, before being moved to smaller, more easily supervised compounds. Such a move minimizes chances of Red POW's smuggling weapons to their new quarters.

WHAT'S THE MOST VITAL THING ADVERTISING DOES FOR YOU?

- ★ BRINGS INFORMATION TO MAKE SHOPPING EASY.
- ★ GIVES YOU BETTER GOODS FOR LESS MONEY.
- ★ RAISES STANDARD OF LIVING.
- ★ MAKES JOBS MORE SECURE.
- ★ ENTERTAINS AND AMUSES.

This Case History Shows How Advertising Gives You Greater Personal Security

TAKE this actual case of a brand of soap. A big company had developed a better, faster-acting soap powder that washes dishes faster, makes clothes whiter with less work.

How could they sell it at such a low cost as to be able to sell it cheaply? Only through advertising.

Today they sell millions of dollars of this soap powder per year—making hundreds of new jobs in a huge factory, hundreds of jobs with firms who supply the raw materials, more and better jobs in stores that handle that soap—and in banks, railroads, truck lines, insurance companies, all of whom have more work to do—and more money coming in—because of this added soap business.

Nobody Lost

For the amazing fact is—this new brand of soap didn't take money from other soap companies. The product and its advertising increased the total consumption of soap. So there was more business, better business—more and better jobs.

You're More Secure

Apply this very prosaic soap story to the more glamorous fields of automobiles, refrigerators, clothing, furniture—everything you buy. You'll see plainly how advertising acts as the spark plug of business. You'll see how advertising—today and tomorrow—is creating opportunity for you, and making your present job more secure.

What Others Say:

- LABORER**—There are no layoffs when things are busy. A rush means overtime for me. So when advertising sells goods for my firm, I get more in my pay envelope.
- EXPRESSMAN**—My job depends on goods being shipped. And the main reason goods are shipped is because they are sold. So by selling goods, advertising helps me be sure of steady work.
- HOUSEWIFE**—It's a perfect circle. When advertising makes us women go to the store to buy, we stimulate business. And it's when business is good, that our husbands are secure in their jobs. So let's be grateful for advertising.
- SAILOR**—A ship's business is to transport goods. Always there has to be a buyer—or we tie up. So advertising to sell goods is important in giving sailors steady work and a chance to get ahead.

Advertising... BY SELLING MORE GOODS TO MORE PEOPLE
Makes your job more secure

Peewee Jets Taking Over Model Airplane Activities

NEW YORK—(P)—The age of jet propulsion is taking over the model airplane field.

Already, more than 2,000 miniature plane pilots around the country are flying jets. Before long, it is expected they will reach a speed in excess of 200 miles an hour.

One junior jet already has been clocked at 179 miles an hour. That was a record set in a national meet by two boys from Minneapolis—Bob Thor and Glen Tennil.

Their little plane blew up in mid-air after setting the record, but that hasn't discouraged them or other peewee jet fans.

Higher Speed Due
The average jet model, weighing 15 ounces and costing about \$35, whizzes around on a wire at about 140 miles an hour. With improvements in design, they'll soon better 300, according to Arthur Hassebach, president of a Bronx model plane club the Model Knights, one of the pioneers in junior jets. He is also a manufacturer of the tiny machine.

The development of model jets began in California about eight years ago.

"Many of us all over the country,"

says Hassebach, "exchanged information in the pioneer work. The biggest problem was to get the tanks to feed properly."

"My first jet set a national record at 89 mph. Today we have jets which take off that fast."

The chief problem among junior jet pilots is the noise. A jet model, he says, makes almost as much noise as the real thing. That makes it difficult to find urban airfields.

A jet model looks like nothing more than a pipe on wings. Actually, it's complicated, but, of course, far less intricate than the real thing.

Explosion Occurs
The fuel, ordinary automobile gas, is fed across a sparkplug in the engine, which ignites and creates an explosion. This closes valves forcing pressure out through the tail pipe and gives it thrust.

This also creates a vacuum in the tube, starting another cycle, drawing fuel into the engine again.

The average jet gas tank holds between four and eight ounces of fuel. On that much, it can travel only about 15 laps, or one mile. The conventional model plane flies three times longer on the same fuel supply.

Frenchman Learns Old West Lives Again At Pecos Rodeo

PECOS—Friends in Paris, France, might be worried about one of their compatriots if they knew where he is and what he's about to witness.

Marcel LeGal, who was enroute to New Caledonia last week to resume his duties as a dispatcher with a civil aviation concern came to Pecos to see the rodeo—his first one.

To pass the time, the game Frenchman has been trying his hand at riding horses. He thinks, too, that "with practice" he could ride a tough Brahms bull.

Folks back home still think of this region as the Old West, he said, where that trusty old standby, the six-shooter, served in a combination of functions as judge, jury and sheriff.

But Marcel has gained a different opinion from his visit. He says he's met "lots of friendly people in Pecos." He expressed his appreciation to Pecos residents for their friendly hospitality.

Marcel had never heard of Pecos or its rodeo until last week when he stopped in El Paso about the time the rodeo boosters arrived.

Western program and stories about the show soon him. He followed them back to Pecos.

\$52,000 Budget Set By McCamey

MCCAMEY—Proposed city budget for the next fiscal year, beginning October 1, is \$52,000. City Manager Tom Nevinger announced Saturday.

Nevinger said the new budget represented an increase of \$11,000 over the present one. The budget increase would be used for street maintenance and additions to the police force, the city manager said.

Nevinger indicated the financial structure of the city was "good", with more than 85 per cent of current taxes collected.

He said the city tax rate of \$1.50 on the \$100 valuation will be the same next fiscal year.

About a million square miles of Australia is regarded as uninhabitable.

McCamey Chamber Manager Selected

MCCAMEY—Charlie Young, former of the C and R Confectionery, will assume duties July 20 as manager of the McCamey Chamber of Commerce.

Young will succeed Mrs. Edith Ash, who is going to Venezuela with her husband.

Midlander Attends Gemological Study On West Coast

Milton J. Cone, 1112 East Maple Street, Midland, is currently attending a laboratory practice class at the International Headquarters of the Gemological Institute of America, Los Angeles, as a part of his studies in gemology (the science of gemstones).

Anyone unfamiliar with methods used in the scientific identification of gemstones might think he had wandered into a modern crime laboratory if he were to walk into this classroom where men from ten states, 12 California cities, and one Canadian province sit around long tables covered with strange looking instruments.

"You see, Cone explained, "there is a lot more to recognizing the true identity of a gemstone than most people realize." There are many cases on record, according to Cone, where a piece of jewelry turns out to be something far less valuable than the owner believed."

Cone, who has been employed for the last two and one-half years as watchmaker by Kruger Jewelry Company, 104 N. Main Street, was accompanied to Los Angeles by his wife and children. He is studying the gemological courses under the GI Bill of Rights.

The fiercest blow that can be struck by an animal is that of a whale's tail.

Builder of New German Army Promotes Idea in Personal Chats, Friendly Air

BONN, GERMANY—(P)—The shy German, planner of the new German Army, has come out of self-imposed obscurity into the public eye as No. 1 salesman for German rearmament.

Once Blank ducked the cameras, kept sealed lips and ran for cover when spotted by reporters.

That was while he was negotiating with the delegates of five other nations on the creation of the European army.

It's different now, West Germany has signed the treaty to set up the European Defense Community. Theodor Blank—man of the people—has become Dr. Adenauer's foremost salesman of the idea that Germans should rearm to defend themselves and their free Western neighbors.

Not So Painful
In folksy broadcasts, at public meetings and in a new affable attitude to the press he is trying to put over the two nations that rearmament is necessary and it won't be so painful as it sounds.

A complaint often heard is that stern old Chancellor Adenauer is too stiff from the people. So Blank is trying to fill that gap. He aims at the mothers in "fireside chat" broadcasts.

"I know you feel strongly about having your sons taken into the army again," he says, "but this is why we must do it..." And then

he goes on with a simple point by point explanation.

Another of his targets is the young men who will be conscripted. He goes to universities, where he gets big audiences for a preliminary talk and a discussion period in which he gives as good as he gets in uninhibited exchanges.

Hearing Set July 14 In La Vega Protest

WACO—(P)—A public hearing on charges made by parents in the La Vega School District near Waco against the school superintendent will be held at 7 p.m. July 14 at the school gymnasium.

P. N. Hallmark, president of the school board, announced the date set by the board.

P. W. Shelton has been superintendent of the La Vega school 22 years. A group of parents in the community have charged him with racial and religious discrimination and dictatorial conduct.

The parents asked for the hearing to present evidence. The board has given Shelton a vote of confidence.

It's a novel way for a big man in a German government to behave, but Blank is a novel type to have running an army anyway.

He's nothing like the Prussians who did the job for the Kaiser and Hitler. You can rid your mind of the picture of a stiff-backed, heel-clicking militarist. Blank is short and stocky. His suits are always rumpled and he wanders round Bonn in a grubby mackintosh with no hat to cover his thin, untidy hair.

Now 43, he introduces himself as "son of a worker." He left school at 14 but completed his education at night schools. In World War II he was drafted and promoted to lieutenant. Until elected to Parliament as a Christian Democrat, deputy he was an official of the important miners union. His gravelly voice and pawkly idiom are those of the Ruhr workers.

Midland Girl Scouts Enjoy Camping At Mitre Peak

TOOTHBRUSH TREE—Each Girl Scout at Mitre Peak has a certain place to hang her toothbrush and cup on trees similar to the "toothbrush tree" pictured. Girl Scouts, left to right, are Mary Anita Kay of Alpine, Nancy Muns, Odessa; Miriam Parkinson, Midland; Georgia Ann Bengel, Monahans, and Helen Sue Thompson, Midland. Approximately 130 Midland Scouts have enrolled in one of the five sessions of the camp.

COOKING OUTDOORS—Three Midland Senior Scouts prepare their meal over an open fire. Senior Scouts at Mitre Peak live in the "Outpost" which is away from civilization and the only convenience is a water tap. They cook, sleep and eat out of doors. Cooks pictured, left to right, are Janice Hill, Larry Ann Burnside and Janice Michener.

RELAXING—After a hard day of work and play comes an evening of rest. These tired Scouts relax for a while to discuss their experiences during the day. Scouts, pictured left to right, are Patsy Marty of El Paso; Linda Fields, San Angelo; Charlotte Richburg, Pecos; LuWertha Hiatt, Midland, and Nora Lee Carpenter, San Antonio. Mitre Peak Girl Scout Camp is located mid-way between Fort Davis and Alpine.

BONE COLLECTION—Seminole Scouts take time out to pose for a picture with their bone collection at Mitre Peak. The Seminole Scouts are a unit of the Intermediate Scouts. The other unit is the Apache. The Intermediates live in tents, four to a tent. Cities represented by the Seminole Scouts pictured are Midland, El Paso, Alpine, Odessa, Rankin and Pecos.

FLAG RAISING—When the sun breaks over the hills from the east the girls at Mitre Peak Girl Scout Camp have one of the most impressive ceremonies witnessed at the camp. The 56 girls form a semi-circle around the flagpole to salute the colors as they are raised. The color guard is made up of the Brownies. The camp opened June 8 and will close August 2 with five sessions being held during that time.

CHOW TIME—Senior Girl Scouts at Mitre Peak take time out for chow. Pictured, left to right, are Julie Esenwine of Pecos, Brownie Queen, and Garcelle Wright of Midland. Mrs. J. J. Black of Midland is the camp director. The program director is Mrs. Maxine Shoemaker of El Paso and Mrs. C. D. Cope of Fort Stockton is assistant program director. Mrs. Donald Beaudry of Midland is the camp nurse. One adult supervisor is provided for every eight girls in addition to the camp staff, waterfront directors and two cooks.

As fast and easy as "setting" your hair!

YANKEE DOODLE

DALLAS—(AP)—Birthdays were celebrated here Friday by the J. E. Crawford, Jr.

Staff Sergeant Crawford, who is stationed at Sheppard Air Force Base at Wichita Falls, was born on the Fourth of July 29 years ago. So was Mrs. Crawford.

One year ago, their son, Martin Brett Crawford, was born on the Fourth of July.

Recruiting Offices To Reopen Thursday

The Army and Air Force recruiting offices here will be closed until Thursday, Sgt. First Class John H. Maxwell said Saturday.

The Maxwells and their guest, Henry Steiner, of Dover, Ohio, left Saturday for a weekend visit to Carlsbad, N. M.

Sergeant Maxwell reminded that Air Force enlistments continue under a quota and urged prospective enlistees to contact him as soon as possible.

The Door to Health and Freedom

The promise that still stirs the world is this: "Ye shall know the truth, and the truth shall make you free."

Today the door to this mighty promise is open wide. Many have found it and entered the realm of God-given freedom. You at this moment are on the threshold. A great book, the Christian Science textbook

SCIENCE and HEALTH with key to the scriptures by Mary Baker Eddy has opened the way.

Through thoughtful study of this book the actual Science of Christ is made plain—Jesus' promises are understood and become practical and *provable* in daily life. This door of freedom from all manner of human fear, want and trouble is open for all.

The textbook may be read, borrowed or bought at

Mass Chest X-Ray Survey Set Here

Preliminary arrangements for a mass chest X-ray survey in Midland and vicinity will be talked in a meeting in the City-County Health Unit offices, 200 South Colorado Street, at 7:45 p.m. Tuesday Dr. C. A. Pigford, unit director, announced Saturday.

Charles H. Hoover, field representative of the Tuberculosis Division, Texas State Department of Health, will attend the meeting.

Previous X-ray chest surveys here have proved very successful. Dr. Pigford pointed out.

Wanna Buy a Duck?

VANCOUVER—(AP)—Passenger cars and trucks were lined up for 100 yards in both directions as traffic halted on the Lions Gate bridge approach in Stanley Park recently.

The cause was a mother duck leading her newborn family sedately across the pavement.

N. M. The pastor of the First Baptist Church officiated.

The bride is the daughter of Dr. and Mrs. Thomas Carroll Bobo, 807 West Wall Street. Starkey is the son of Mr. and Mrs. Claude Starkey of Franklin.

After a wedding trip to Rudison, N. M., the couple will be home in Midland.

The bride is a graduate of Midland High School. Both Mr. and Mrs. Starkey will return to Baylor University in Waco this Fall where they will be seniors. Starkey is a pre-med student studying dentistry.

Midland Resident's Brother Interred

SAN ANGELO—Services for John M. Vaughn, 58, brother of Mrs. J. H. Holaday of Midland, were held Saturday at Cox Funeral Chapel with Dr. B. O. Wood, pastor of the First Presbyterian Church, officiating.

Vaughn died in San Angelo Thursday.

Other survivors include the wife, two daughters, Mrs. H. S. Blakeway of San Angelo and Mrs. W. F. Statham of Big Lake, and a son, William Vaughn, stationed in Germany with the Army.

Turla Ann Bates, J. E. Leath Wed

In a double-ring ceremony Friday afternoon Turla Ann Bates became the bride of Jimmie Erskine Leath. The ceremony was held in the First Presbyterian Church with the Rev. Flynn V. Long, Jr. assistant pastor, officiating.

The bride is the daughter of Mr. and Mrs. William E. Bates of Midland. Leath is the son of Mr. and Mrs. Erskine R. Leath of Wichita Falls.

The church was decorated with gladioli and peonies in varying shades of pink. Pink satin bows marked the families' pews.

Wallace Wimberly, organist, played "I Love Thee," "Melodie," "Tchaikowsky," "Calm as the Night," "I Love You Truly," "Bond," "Because," "D'Hardelot," and "O Perfect Love," Barakly.

Attendants Named

Mrs. C. E. Clarke, sister of the bride, was the matron of honor. Bridesmaids were Patsy Harris of Plainview, Ruth Joy Thomas of Marshall, and Ann Mansfield of Dallas. Joe H. Leath of Houston, brother of the bridegroom, was the best man. Usher were Charles E. Clarke of Midland, Walter Rector of Lubbock and Jimmie Smith of Wichita Falls. Rector and Smith were the candlelighters.

The bride, given in marriage by her father, wore a bluish pink nylon tulle over taffeta gown designed with a strapless bodice topped by a small bolero with rolled collar and small sleeves. The sculptured line of the bodice was enhanced by folds of net outlining the top edge and applique of lace at the right side. The full, ballerina length skirt was fashioned with scattered lace applique.

She wore net gauntlets and her short veil of silk illusion was attached to a bonnet type cap of shirred net. The cap was trimmed with rows of pleated net outlined with seed pearls. She carried a styled bouquet of pink roses.

The attendants were identically attired in dresses of pink nylon tulle over taffeta. The dresses were styled with strapless bodices under net stoles and ballerina length skirts. The skirts were accented with pockets of ostrich feathers. They wore velvet bandeaus with

YOUNG MAN'S FANCY VANCOUVER, CANADA—(AP)—

Many Vancouver young men are having their left ears pierced for earrings, says Mrs. Edna Mae Young, an ear specialist. She claimed men are crowding girls out of the shop.

Quebec supplies two thirds of the world's asbestos.

small veils and carried cascade bouquets of light pink roses.

Reception Held

After the wedding a reception was held in the home of the bride's parents.

The couple was assisted in receiving by their mothers and the wedding party.

Those in the house party were Mrs. M. T. Smith, Mrs. Frank Gardner, Mrs. H. A. Whittington, Mrs. Theron Graves, Mrs. Watson Hamilton, Mrs. Jack Mills, Mrs. Joe Leath, Mrs. Elizabeth Nisbet, Mrs. Knight Parker and Mrs. H. A. Whittington, Jr.

The bride's table was highlighted with a colonial pink floral arrangement. Arrangements of greenery and pink roses encircled the bases of the wedding cake and the punch bowl.

The couple will be at home at 4341 Pershing Street in Fort Worth where Leath is associated with Consolidated-Vultee Aircraft Corporation.

For traveling the bride wore a

black Shantung two piece dress with black and white collar and cuffs. She wore black patent leather accessories and a white orchid corsage.

Both Mr. and Mrs. Leath are graduates of Texas Tech in Lubbock.

Out-of-city guests at the wedding were Mrs. Kate Bates, Mrs. Elizabeth Nisbet, Mr. and Mrs. H. A. Whittington and Mr. and Mrs. Joe Leath of Houston, Mr. and Mrs. H. A. Whittington, Jr. and Roy of Lafayette, La., Martha Graves of Lubbock; Mr. and Mrs. E. R. Leath, Mrs. Hazel Miller, Mrs. Georgia Carpenter, Ellen Morgan and Jimmie Smith, Wichita Falls; Jeff Morris, San Antonio; Ann Mansfield, Dallas; Ruth Joy Thomas, Marshall; Patsy Harris, Plainview, Mr. and Mrs. Doyle Brooks, Waco, and Walter Rector, Dumas.

Mrs. E. R. Leath honored the couple with an informal dinner the evening of the rehearsal Thursday. The dinner was held in the home of Mrs. M. T. Smith.

A barbecue dinner was served in the yard to approximately 40 guests.

Mrs. Leath also was honored with a luncheon Thursday in the Blue Star Inn. Hostesses were Mrs. Kate Bates of Houston, Mrs. Knight Parker of San Augustine and Mrs. E. Bates Nisbet of Houston.

Guests attending were Mrs. Guy Theron Graves, Mrs. Willard Bum-Willis, Mrs. W. E. Pittman, Mrs. pass, Mrs. John Mills, Mrs. W. E. M. T. Smith, Mrs. Watson Hamilton, Mrs. E. R. Leath of son, Mrs. Frank Gardner, Mrs. Wichita Falls.

Legion Auxiliary Buys Conditioner For Vet Hospital

An air-conditioner purchased for and installed in the recreation room of the Veterans Hospital at Big Spring by the American Legion Auxiliary of Midland was dedicated in a special ceremony held there Thursday night. The conditioner was purchased with funds received from the Auxiliary's annual Poppy Sale.

Members of the Midland Legion and Auxiliary poets sponsored an independence day game party for patients and five guests following the dedication program.

The patients received bags of fresh fruit, tied with red, white and blue ribbons, with miniature lapel flags further decorating the attractive parcels.

Heading the Midland delegation to Big Spring were Mr. and Mrs. Red Steele and Mr. and Mrs. Ben Gay.

Nellida Bynum Wins Odessa Beauty Title

ODESSA—Nellida Bynum, 18, Odessa, was named Miss West Texas in a beauty contest here Friday. She will compete in the Miss Texas contest at Galveston later this summer.

Clara Jo Green, 18, Odessa, was runner-up and Jean Young, 18, Monahans, was third.

Mr. and Mrs. John L. Durrell

Mr. and Mrs. Max Gordon Smith

JUNE BRIDES AND BRIDEGROOMS—No, it wasn't a double wedding, although both couples pictured claim June 26 as their wedding date. A matter of 50 years separates the two ceremonies. Mr. and Mrs. Max Gordon Smith, exchanged nuptial vows in Stanton on the golden wedding anniversary of the bride's grandparents, Mr. and Mrs. John L. Durrell of Lancaster, Calif. The pictures were taken at the wedding reception which honored both couples.

Mrs. Dayton Bliven Is Tri Delt Hostess

Mrs. Dayton Bliven was hostess to the Delta Delta Delta Alumnae Association Thursday at a meeting in her home.

The group discussed plans for a party to be held later in the summer. Mrs. Stuart Gagnon became a new member at the meeting.

Others attending were Mrs. Larry Williams, Mrs. G. G. Pollard, Mrs. George Turner and Mrs. Hagg Woods.

Teachers Oppose Public Assistance To Private Schools

DETROIT—The 3,500 teacher delegates to the National Education Association's nineteenth annual convention Friday urged that no public funds be used for support of private or parochial schools.

The delegates on a voice vote approved a resolution committee proposal that the "American tradition of separation of church and state should be vigorously and zealously guarded."

The resolution said the NEA "respects and upholds the rights of groups, including religious denominations, to maintain their own schools financed entirely by their supporters so long as such schools meet educational, health and safety standards set by the states."

Mrs. Sarah C. Caldwell of Akron, Ohio, was elected president of the NEA for 1952-53 at the group's closing session Friday.

State directors named included Dana Williams, Gladewater, Texas.

Doris Sader Becomes Bride On Grandparents' Anniversary

Doris Lorraine Sader of Midland became the bride of Max Gordon Smith of Odessa recently in a double-ring ceremony held on the golden wedding anniversary of the bride's grandparents, Mr. and Mrs. John L. Durrell of Lancaster, Calif.

The Rev. Iral Parker officiated. The bride is the daughter of Mr. and Mrs. Ralph E. Sader, 603 East Maiden Lane. The bridegroom's parents are Mr. and Mrs. M. D. Smith of Odessa.

Nuptial music was furnished by Mrs. Hart, pianist; Emma Parker, soloist, and a quartet composed of Wendell Parker, Earl Koonce, Gearl Koonce and Fred Church.

The church was decorated with greenery and baskets of white gladiolus and white chrysanthemums. The bride, given in marriage by her father, wore a white tulle taffeta dress trimmed with white illusion lace. A fingertip length veil

fell from her white calot hat. She carried an arrangement of white gardenias on a white Bible.

Shirley Bay of Midland was the bridesmaid. She wore a ballerina length Nile green dress of net and taffeta, fashioned with net sleeves. Her flowers were pink and white carnations.

Jo Nell Smith and Monica Moles, both of Odessa, were the flower girls. Jo Nell wore a blue organza print trimmed with lace and Monica wore an identically fashioned dress of yellow organza. They carried white baskets of rose petals.

Brother Is Best Man
Kent Smith of Odessa, brother of the bridegroom, was the best man. Ralph Edward Sader, brother of the bride; Wayne Church and Harold Miller served as ushers.

The reception was held in the home of the bride's parents. The bride's grandparents assisted the couple in receiving the guests.

The reception rooms were decorated with arrangements of blue delphiniums and yellow roses and daisies.

Barstow News

BARSTOW—Mrs. John Sweat and son, Gene, returned Tuesday from a visit in Grafton, W. Va.

Jenele Echols, daughter of Mr. and Mrs. Woodrow Echols, returned to Barstow last week after a visit with her aunt, Mrs. George Sullivan, in San Marcos.

The Rev. Ralph Hall, guest pastor at the First Presbyterian Church last Sunday, visited during his stay in the home of Dr. and Mrs. W. D. Black.

Programs for the Summer camps at McRanch, the Presbyterian conference grounds in Kerrville, have been announced as follows: Pioneer Camp, July 16-23, with Ed Mulliner and Fred Brewster as directors; Senior Camp, July 23-30, with Colie McKinney as director.

Dr. and Mrs. R. Oage Lloyd of Big Spring, and formerly of Barstow, are touring Europe and the Holy Land this summer. The trip was a gift from the members of the church which Dr. Oage serves as pastor.

Mr. and Mrs. Chester Armstrong and children, Mike, Jamie and Carol, left Barstow last week for Fayetteville, Ark., where they will establish their home.

Yvonne Talley is a guest in the home of her uncle and aunt, Mr. and Mrs. Alva Talley.

Billy McMahon, son of Mr. and Mrs. Bill D. McMahon of Summers, Ark., and formerly of Barstow, visited last week in the home of Mr. and Mrs. Chester Armstrong.

Jennifer Wicker of Pecos spent last week as a guest in the home of Mr. and Mrs. Toola Farrum.

Ernest McAnally, son of Mr. and Mrs. Robert McAnally, recently suffered a broken arm in a fall from a tree.

McCamey Lions Panels Announced

McCAMEY—New committee chairman for the McCamey Lions Club have been announced.

They are: J. E. McAnally, attendance; George Ramer, construction and building; James A. Rutherford, finance; C. G. Forester, information; Charlie Young, membership; Roy T. Smith, convention; Jim C. Langdon, program; Wilbur Harris, citizenship; Bill Razo, publicity; Curtice Winfield, club bulletin editor; W. L. Van Atta, boys and girls committee; C. W. Brown, civic improvement; Harvey Jacobsen, community betterment; H. B. Fitzgerald, education; Newton Anderson, health and welfare; Tom Nevinger, safety; W. K. Ramsey, sight conservation and blind; W. K. Thompson, United Nations; Harvey Jacobsen, greater; and T. A. Pauley, agriculture committee.

BIBLE CLASS TO MEET
The Boone Bible Class of the First Methodist Church will have a business meeting at 10 a.m. Wednesday in the home of Mrs. Virgil Galloway, 1411 West Tennessee Street.

To make a small room look larger, match draperies or curtains to wall paint or the background color of the wallpaper. They will merge unnoticeably with the walls.

Library Receives New Fiction, Non-Fiction, Geological Books

Twenty new books have been received by the Midland County Library. It was announced Friday by Lucille Carroll, librarian.

Novels include: The Secret Road (Lancaster), The Nice American (Sykes), The Invisible Man (Hillson), Song in the Night (Lawrence), The Bengal Tiger (Hunter) and replacement copies for several books by Grace Livingston Hill, Emile Loring and Zane Grey.

Non-fiction books received were: How to Clean Everything (Moore), Monsoon Seas (Villiers), Flowers of the Southwest Mountains (Arnerberger), U. S. Census Supplement: Population 1950 and 1940, After-Ten-Agers Quit School (Department of Labor), Federal Jobs Outside the Continental United States

(Civil Service Commission), and The Defense of Wake, The Battle of Tarawa and Saipan, The Beginning of the end (Marine Corps Monographs).

New additions to the geological library are: The Earth's Crust (Stamp), Rotary Drilling Handbook (Brantley), Petroleum Productive Capacity (National Petroleum Council), Petroleum Dictionary (Boone), Catalogue of the Geosolic Plants of North America through 1950 (Lamotte), Third Annual Institute on Oil and Gas Law and Taxation (Southwest Legal Foundation) and Structure and Petrography of the Hillabee Sill (Griffin).

Bellview Baptists Schedule Revival

Plans are underway for a revival at the Bellview Baptist Church according to the pastor, the Rev. J. H. Goins.

The revival is scheduled for July 13-20 with services at 10 a.m. and 7:45 p.m. daily.

Andrew Wallis, state Sunday school worker for the Texas Baptist General Convention, will be the speaker. Raymond Jones from the department of music of the Texas Baptist General Convention, will direct the music.

Potomac means "trader," and the Potomac River was named for trader Indians.

Billye Patterson And Roy Davis To Wed Soon

ANDREWS—Mr. and Mrs. W. E. Patterson announce the engagement and approaching marriage of their daughter, Billye Sue, to Roy Davis, son of Mr. and Mrs. Art Davis of Wichita Falls.

The wedding will take place July 20 in the home of Miss Patterson's aunt, Mrs. Elsie Carey of Wichita Falls.

Both Miss Patterson and Davis are students at Mid-Western University in Wichita Falls. They will make their home in Wichita Falls and continue their studies.

Barbara Wright And Robert Bond Wed

McCAMEY—In a recent double ring ceremony Barbara Jean Wright became the bride of Robert C. Bond. Martin Kamstra, minister of the Church of Christ, officiated.

The bride is the daughter of Dr. and Mrs. Robert Wright of McCamey. Bond is the son of Mr. and Mrs. Fred Bond of Big Sandy.

For her wedding the bride wore a blue nylon dress with white accessories and carried a white Bible topped with a gardenia bouquet.

Bobbie Lee Carnes was the maid of honor and the best man was Charles Green.

After the wedding a reception was held. Ellen Ann Glover presided at the bride's book and Mrs. Paul Baker served the wedding cake. Mrs. William Crowder presided at the punch bowl.

The couple will be at home in McCamey where Bond is employed by Oil Well Supply Company.

Midlander Named As Top Camper At Carey's Ranch

Patsy Kimball, daughter of Mr. and Mrs. W. C. Kimball of Midland, has been chosen outstanding camper by her fellow campers at Carey's Ranch Camp for girls. The ranch is located near Cloudercroft, N. M.

Miss Kimball received a trophy for the honor. The motto of the camp is "Fun Plus."

The girl, who in the eyes of the other campers shows the finest spirit, is most cooperative and shows the character traits that make an excellent camper receives the award.

At present a month camp for teen-age girls is in progress. The program consists of daily guided trail rides into the forest, archery marksmanship, roping, novelty horseback events and a pack trip to one of the outpost camps.

A two-week period for boys will be held next. The girls sessions are under the direction of Joan Carey and the boys session, under the direction of Vernus Carey.

Midland Lions To Install Officers Wednesday Night

Officers of the Midland Lions Club for 1952-53 will be installed at a special ladies night banquet scheduled at 8 p.m. Wednesday in the main dining room of the Ranchland Hill Country Club. The night session will supplant the club's regular noon meeting this week. J. F. (Kil) Carson, Jr., retiring president, said.

Veniremen Called For Murder Trial Of Thomas Livesay

HASKELL—(AP)—A special venire of 100 prospective jurors has been summoned for Monday in the murder trial of Thomas Clifford Livesay, transferred here from Swisher County.

A change of venue transferring the case to Haskell was ordered by Judge E. A. Bills of the 64th District Court last May. Judge Bills will preside for the trial in 39th District Court here.

Livesay, 36, and Lester Douglas Stevens, 51, both of Amarillo, were charged last Fall with the death of Joshua Blocker, aged Bailey County recluse and founder of the little hamlet of Progress, six miles from Muleshoe.

Stevens already is under a death sentence for his part in the slaying.

Trial of Livesay scheduled here Monday is the fourth attempt by the state to bring the accused again to trial. The case originally was set at Muleshoe in Bailey County; was moved to Farwell in adjoining Farmer County, and then to Tulsa in Swisher County.

Brigham Young was reputed to have left 19 wives and he was the father of 87 children.

The new officers, headed by L. V. Basaham as president, will be installed by George Spence of Ysleta, governor of District 2-T-2, Lions International.

Others who will take office are Duke Jimerson, Robert H. Pine and Carl O. Hyde, vice presidents; Clarence E. Nelson, secretary-treasurer; Morris Howard, tall twister; Richard Kitchens, Lion Tamer; and

L. V. Basaham

John E. Reid and W. Earl Chapman, directors.

Musical Program Slated
Officers for the new club year were elected early in May, when Basaham was elevated from the first vice presidency. He returned last Wednesday from Mexico City where he attended the annual convention of Lions International.

Carson said a program of musical entertainment will be presented at the Wednesday night affair. He urged a large attendance of Lions and their ladies at the annual function, which he said will be particularly outstanding this year.

Casualties In Korea

The Department of Defense announced Saturday the following Texas casualties in the Korean area:

Killed In Action
ARMY: Pfc. William H. Hitt, Houston; Sgt. Jim T. Hasselwood, Dallas; Cpl. Robert D. King, Rockdale; Sgt. Eduardo N. Raschel, San Antonio (previously reported missing).

VOLCANIC PLANT
A plant native to only one volcano, the Haleakala silversword, grows in the crater of dormant Haleakala, in the Hawaiian National Park.

McCamey News

McCAMEY—Thomas N. Hendricks, formerly of Sheffield, recently was named the new elementary school principal. Elyna Rose Smith and Mrs. June Smith were hired as new teachers.

Members of the Girl's Auxiliary of the First Baptist Church spent a week at Palsano encampment. Those attending were Jalayra Woodson, Martha Jean Brown, Leatrice Ingram, Patty Jo Johnson, Billie Faye Tompkins, Patricia Baldwin, Susie Havins, Sue Haynes.

Doc Strong, Once Star Of Olympics, Hangs Self In Jail

NORMAN, OKLA.—(AP)—County Attorney Lester Reynolds reported that Harley (Doc) Strong, 35, former U. S. Olympic wrestler and Oklahoma A&M star, was found dead Friday night in the Norman jail.

Reynolds said he was hanging from a cell bar by his belt a half-hour after being picked up for public drunkenness.

Strong was a member of the 1936 U. S. Olympic team after winning the 136-pound national collegiate championship while at A&M.

This year he had assisted University of Oklahoma Coach Port Robinson with his Olympic hopefuls. Strong also came in third this year at a district Olympic qualifying meet.

When hair on human heads is left uncut there is little difference between the length of hair on a man's head and on a woman's.

Bessie Gunter, Harriett Sullivan and Barbara Hollfield. They were accompanied by Mrs. M. V. Woodson, Mrs. J. M. Johnson and Mrs. Charlie Putty.

Mr. and Mrs. J. W. Jernigan are the parents of a baby daughter born June 26 in the Cooper Hospital. The baby, Belinda Sue, weighed seven pounds, seven ounces.

Mr. and Mrs. Fred Stenhalter of McCamey are the parents of a daughter, born Tuesday and weighing seven pounds, four ounces.

Mr. and Mrs. E. P. Halamlock and son, Eddie, will leave this week for Fayetteville where they will attend a family reunion.

Mr. and Mrs. A. F. McNamara left Wednesday for a vacation trip to Carlsbad Caverns.

Mr. and Mrs. Cleatus Brooks and son, Mike, returned this week from a trip to Arkansas, Shreveport, New Orleans and other points.

Mrs. Minnie Gaddy returned this week from a visit in Georgia, North and South Carolina and Florida.

Mrs. Leona Faulkner returned Sunday from a visit in California. Mary Gentry of San Angelo is spending the summer with her parents, Mr. and Mrs. G. J. Gentry.

Mr. and Mrs. Buck Jones and daughter have returned from a trip to Cloudercroft, N. M.

Mrs. Walter Putnam reviewed the book "Barabbas" recently at a meeting of the Garden Home Demonstration Club.

W. E. Pulley and R. A. Caldwell have returned from a fishing trip near Denver, Colo.

Mrs. J. L. Sanders and Christie of El Paso are visiting in the home of her parents, Mr. and Mrs. H. H. Qualls.

Bernice Weddle

Weddle, Lewter Plan Wedding

McCAMEY—Mr. and Mrs. Clarence Weddle of McCamey announce the engagement and approaching marriage of their daughter, Lilye Bernice, to Bill Lewter.

The wedding will take place July 31 in the First Baptist Church in McCamey.

The bride-elect is a graduate of McCamey High School and is employed by the Southern Union Gas Company.

Lewter, originally from San Angelo, is employed by Dowell, Inc. He served four years with the U. S. Marines.

Miss Rhodes Named 1952 Honor Girl

Ruth Ann Rhodes was chosen 1952 Honor Girl for Unit 1 of Nu Phi Mu. Honor girls are chosen annually by the units.

Ruth Ann Rhodes

Miss Rhodes is the daughter of Mr. and Mrs. F. B. Rhodes, 721 West Storey Street, and will be a senior at Midland High School this fall.

These girls are chosen for some local commendation either in the news, arts, science or by her school, church or other organization.

Miss Rhodes was chosen because of her musical ability. She started her musical career at the age of 10 and has won first place in the Universal Inter-Scholastic League Contest twice. She is past president of the Vesper Choir and soloist for the First Methodist Church.

A member of the Midland High School A Cappella choir she has won merit awards and choir recognition. Miss Rhodes had the lead in the high school operetta "Ermine" in 1952.

This Spring she auditioned for Dr. Von Ende and won a scholarship to McMurry College in Abilene. Each year Miss Rhodes is in a recital given by Mrs. Maude Leonard and this Spring she will give a private recital. She also plays the organ and piano.

A recognition tea was given for Miss Rhodes Tuesday in the home of Ann Klebold. The house was decorated with arrangements of Spring flowers. Refreshments were served and an honorary membership to Nu Phi Mu was presented to the honoree.

The honoree's mother was a guest. Beta Sigma Phi Chapter presidents and officers attending were Mary Katherine McDade, Sarah Johnson, Betty McWhorter, Vi Rubin, Frances Hillin, Elizabeth Knox and Bernice Rubin.

Nu Phi Mu members attending were Norma Sinclair, Helen White, Barbara Roberts, Ruth Eckert, Miss Klebold, Jean Waddill and Marie Thompson.

Nu Phi Mu sorority is the "little sister sorority" of Beta Sigma Phi. It is an international organization of girls between the ages of 18 and 21 devoted to friendship and follows a planned program of social, cultural and service activities.

Parties Entertain Midland Visitors

Mr. and Mrs. Alec Oates have returned to their home in Abilene after visiting in Midland with his parents, Mr. and Mrs. N. G. Oates.

Mr. and Mrs. Joe Mabes entertained the visitors with a swimming party and Mr. and Mrs. D. W. Peterson entertained with a yard party. Oates is a student at Hardin-Simmons University.

Delphian Society To Have Organizational Meet Tuesday

In accordance with a nationwide program of the Delphian Society, Mrs. Ann Becker, national field secretary, will conduct an organizational meeting for a new chapter in Midland at 9:30 a.m. Tuesday in the Scharbauer Hotel.

The chapter is being organized for the personal benefit of its members. Mrs. Becker says, "They specialize in improving themselves."

Every member participates in the discussion seminars conducted by the chapter, but no one may talk for longer than three minutes nor use notes or written papers. A different member serves as chairman for each seminar.

Mrs. Becker states that the three-fold objective of the three year correlated program is to enable the member to have a better understanding of her own physical and mental makeup, to understand American democracy better through study and discussion of the five year major political areas in the world, and through a study of the ways other people live, to have a greater appreciation of the American republic and the opportunity it offers for happier, more peaceful, abundant living.

The organization is non-sectarian and non-political.

This is the fourth Delphian Chapter to be established in Midland. The first chapter was founded here in 1927 when Mrs. Ralph T. Bucy and Mrs. C. N. Noble were its first president and secretary.

Village Claims Title For Abiding By Law

IZMIR, TURKEY—The village of Karakelle in southwestern Turkey claims to be the most law-abiding community in the country. For 96 years, not one of the 450 inhabitants of Karakelle has been arrested or hauled before any court. Official records show that no resident of the village in that period has even so much as appeared in court as a witness.

About 125,000 beaver pelts were taken in the U. S. in 1930.

AS COPS FAIL, BOY SUCCEEDS

SEWARD, N. Y.—It was the small boy who rescued the dog this time. State police had worked for hours trying to free a collie from a culvert, when a small boy stepped from among the bystanders. The youngster stripped off his clothes, crawled into the culvert and tied a rope around the dog, which then was pulled free. It had been trapped eight hours. The boy vanished before troopers could find out his name.

Fix-It Man Patches, Mends Odd Assortment Of Fixtures

No fix-it job is too large or too small—from a ditch digger down to a fragile china cup—for Edward Orienecks.

In fact, Orienecks, who operates his Fix-It Shop in his home at 1807 North Main Street, has as his slogan, "You break it, we fix it."

The answer to the busy wage earner's prayer of someone to do the minor repair jobs about the house, Orienecks is far different from what one usually expects in a "fix-it man."

Instead of being an elderly, uneducated, lankish-looking bachelor, Orienecks is an energetic, former University of Texas student with a wife and four children, and a background of 15 years in the oil business.

How a man of his caliber became a "fix-it man" makes almost as interesting a story as the unusual work in which he is associated.

Orienecks, a native of Massachusetts, met his wife, an Ohio native, while both were attending junior college at Tyler.

After graduation from junior college, Orienecks attended the University of Texas, while she attended Miami University in her home

state. During Orienecks' senior year at Texas, the couple decided to marry.

Orienecks quit school and went to work for Pure Oil Company, advancing to the rank of division gas superintendent before resigning 13 years later. For the next three years, he held various oil industry positions prior to opening his fix-it shop here in March of this year.

While Orienecks had been doing odd job repairs as a hobby since his college days, it was something of a venture for him to quit his profitable oil position to enter the fix-it business.

He explains it this way: "I became tired of moving from one place to another in the oil business and wanted to settle down with a business in a modern city like Midland where my children could finish school."

Two of the children—Laura Beth, 14, and Bill, 9, are of school age, while Karen, 5, and Keith, 4, will be entering school within a couple of years.

Both Mr. and Mrs. Orienecks believe Midland is the ideal place in which to live and raise their children. They praised the school sys-

tem, low delinquency rate, modern homes and businesses, and its other facilities.

Children Cooperate
Mrs. Orienecks assists her husband in the business by doing the office work, such as answering the telephone and keeping a set of books. The children cooperate by not disturbing the various items about the house that Orienecks is repairing.

Orienecks says that a good fix-it man is similar to a physician, "he must be a good diagnostician and able to mix ingredients to make necessary repairs." He added "it also helps to have a wonderful imagination, be a contortionist, mechanically inclined and an efficiency expert."

His oil field background has been an asset to the fix-it trade, Orienecks said.

While Orienecks' work consists chiefly of routine repairs of toys, furniture, electrical appliances and installing air conditioners, he occasionally has some unusual repair jobs.

For example, there was the woman who had a wooden head stead that kept falling down. Everyone that she knew had tried their hand at repairing it, to no avail. Company was expected and it just wouldn't do for the bed to fall with them occupying it. She called Orienecks, and he shortly had the bedstead repaired and it hasn't fallen to this day.

"It was just a matter of making all the necessary repairs, as the others had just repaired only one thing at a time," he said modestly.

Rich And Poor
Other interesting repair jobs have included an antique coffee grinder and a cap and ball pistol.

With his trade coming from rich and poor alike, Orienecks finds that most people have items repaired for practical purposes with only a few doing so because of sentimental reasons.

As for the cost of repairing items, Orienecks says it wouldn't be worthwhile if the repair bill was more than the value of the article. "If it can't be fixed, throw it away," he said. He added that many people throw away articles that could be easily mended.

It's all in a day's work for some woman to call Orienecks and have him go through her entire house doing various minor repairs—from fixing a cranky door to repairing the cook stove.

As for Mrs. Orienecks, she thinks it's fine to have a fix-it man for a husband. "The only trouble is," she said, "I have to wait my turn on the list before I can get things repaired around our house."

TEXANS IN WASHINGTON Poage Flood Bill Lands In Squeeze

WASHINGTON — (AP) — The upstream flood prevention bill of Waco's Rep. W. R. (Bob) Poage got caught in the congressional adjournment squeeze, but he hopes for its enactment next session.

The legislation would tackle flood control by construction of small ponds and reservoirs in the upper reaches of the nation's watersheds, to supplement control effected by the multi-million dollar dams erected downstream.

The House Agricultural Committee unanimously approved the Poage bill, but it ran into a roadblock in the House Rules Committee, the group that determines if and when a measure gets a turn at consideration on the House floor.

Opposition to Poage's bill was raised before the rule committee by leaders of the House Public Works committee, who contended the legislation should have been referred to their group in the first place.

"I do not agree with this conclusion," said Poage, vice chairman of the Agriculture group.

"But, if the jurisdiction is so important, and if it is the business of that committee, I feel it should have long ago taken action. Everyone agrees that this work should be done. My bill provides a way to start work. It has widespread endorsement."

The other committee seems to me to be taking a 'dog in the manger' attitude. I believe that shortly after the opening of the next session of Congress we will get favorable action."

The jurisdiction issue involved is more than a question of which congressional committee should handle the bill.

During the Agriculture Committee hearings on Poage's bill arguments ensued over who should administer the program.

Under the legislation the Soil Conservation Service, a unit of the Agriculture Department, would be authorized to cooperate with community, county or state organizations in building upstream works. The federal government would share the cost with local interests.

Interior Department officials protested that such a program should be administered by the Reclamation Bureau, which long has been in the business of building reservoirs for irrigation purposes.

Some members of the House Public Works Committee, which handles all major flood control and navigation improvements, contended that the army engineers should handle the upstream program. They note the engineers have been in the business of building such projects as Whitney Dam on the Brazos, the Denison Dam reservoir and numerous other big dams.

Successfully pushing his measure through the Agriculture committee, Poage asserted that it would enable farmers to improve their own pastures and farms and at the same time hold back silt that in time renders the big reservoirs useless.

Around the Capital:
Maj. Gen. Paul H. Streit, originally from Seguin and a former San Antonian, was recognized recently for his work as commanding officer of the Army's big Walter Reed Medical Center here.

The quiet-speaking Texan won a citizenship award offered by the local order of servicemen who hold the Purple Heart. He was commended for eliminating irksome and needless regulation and otherwise making life more comfortable for Korean and World War Two wounded servicemen undergoing treatment at Walter Reed.

Lacey C. Sharp of Waco, secretary to Congressman Poage, is going to serve as an official doorkeeper at the Democratic National Convention in Chicago.

He confesses with a grin that some of his own escapades in the past may help him keep out the gate crashers.

It seems that as a middle teen-age youngster just getting interested in politics he successfully managed to slip into the Democratic National Convention in Houston in 1928. And, no less an authority than One-Eyed Connally, the champion of all gate crashers, showed him how to do it.

"Another boy and I were eagerly looking about for a way to get into the Convention hall," he confided. "Then we noticed a small window open, up so high we had to help each other climb in."

"We discovered we had entered on a passageway almost directly under the speaker's platform, and we were startled when a man standing nearby spoke up and told us to follow him."

They soon learned, Sharp added, that the man was One-Eyed Connally. In short order they were mingling with the delegates.

OUR JULY CLEARANCE SALE OF FINE FURNITURE IS STILL IN PROGRESS

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1952, by the Bell Syndicate, Inc.)
Drew Pearson says: Taft's steamroller is slowing down; Eisenhower backers are bringing big-money pressure; Absentee GOP landlords in South never can build a political party.

CHICAGO—The outcome of the final caucus is going to depend on pressure politics—the political steamroller vs. the pocketbook steamroller.

Taft already has shown how he can ride roughshod over the Eisenhower forces in the preliminary skirmishes, but the big-money boys quietly are dismantling the steamroller right out from under Taft. With a few strong tugs of the financial strings, they are pulling key men into the Eisenhower camp, and the Taft steamroller already has lost momentum.

It's still a question as to whether Taft's frontal pressure or Wall Street's backstage pressure will win, but here's how the battle of the pressure is shaping up:

Taft High Pressure—Taft has complete control of the convention machinery. His hand-picked people will be swinging the gavel, delivering the key speeches and running the committees. Taft is counting heavily upon his keynote speaker, General MacArthur, to take the convention by emotional storm. MacArthur will blast the Democratic Administration's "Europe first" policy, thus take an indirect swipe at Eisenhower. Taft forces also have cornered the bulk of the gallery tickets, will stack the bleachers with Taft voters. And the Chicago Tribune will add to this psychological advantage by bursting Taft bombshells throughout the convention.

Eisenhower High Pressure—Biggest blow to Taft was the little-noticed announcement that Sinclair Weeks had come out for Eisenhower. As GOP finance chairman, Weeks couldn't withstand the financial pressure from Wall Street, now has pitched his tent in the Eisenhower camp. Other key men, who have felt the financial needle, include Pennsylvania's Gov. John Fine and Michigan's Arthur Summerfield. Both have been under terrific pressure from the big-money boys to come out for Ike.

Meanwhile, the nomination still depends on which way the following pivotal states will go.

Michigan—The Michigan delegation will caucus Sunday night, and Arthur Summerfield, a Chevrolet dealer, already has promised Gen-

wants to function in the South. Once every four years, Republicans have a chance to demonstrate whether they mean what they say about organizing the South by breaking up the GOP absentee-landlord feudal system which keeps the Republican Party in a more degraded state of "bondage" than tenant farmers on the worst Mississippi plantation.

Here is how it works. In South Carolina, the Republican national committeeman is Edgar Morris, supposed to live in Pickens, S. C., but who actually lives in Washington, D. C., has an electric-appliance store there, a \$100,000 mansion, and is so well established that he long has been a member of the D. C. Board of Public Welfare, on which he could not serve unless he were a D. C. citizen.

Last week, South Carolina Republicans got irked with their absentee landlord, got a preliminary ruling from a South Carolina court that Morris "is in every legal and moral sense" a resident of Washington, D. C., and has no right to represent the Republican Party in South Carolina.

Yet illegal-resident Morris now is in Chicago, sitting on the key credentials committee where he rules on the legality of himself and other Southern delegates to sit. It hardly is necessary to add that he is for Taft.

Absentee Landlord—Morris's co-partner from South Carolina is Mrs. John Messervy, Republican national committeewoman, who is supposed to live at 159 Rutledge Avenue, Charleston. If you try to get her at that address, however, as I did, you will be unsuccessful. For Mrs. Messervy for some time owned radio station WLOU in Louisville, Ky., now lives at Williston, Ky. She also is for Taft.

Another absentee political landlord is the Republican national committeeman from Mississippi, Perry Howard, a negro attorney living in Washington. Howard is just as much a pillar of the negro community in Washington as Morris is of the white community.

He seldom goes to Mississippi, has no more influence in Mississippi than the shah of Persia, but is able to deliver a neat bloc of Mississippi delegates to Taft. Senator Taft, incidentally, gratefully put Howard's son on the Senate payroll as a Post Office clerk when the Republicans controlled Congress.

The only way you build up a political party is by living near and among the voters. The absentee-landlord system and the pocketbook delegates which Republicans seem to want continued in the South will never build up a party.

FCC Studies Radio Outlet At McCamey

WASHINGTON—(AP)—The Federal Communications Commission has under consideration the application of Spraberry Broadcasting Company, McCamey, Texas, for a new standard radio station there. The proposed station would operate on 1450 kilocycles, 250 watts and unlimited time.

AUGUST BRIDE—Mr. and Mrs. Ancel B. Garden of Midland announce the engagement and approaching marriage of their daughter, Bennie Frances Koon, to Jennings Eugene (Junior) Morgan of Duncan, Okla. Morgan is the son of Mr. and Mrs. J. W. Morgan of Odessa. The wedding will be held in August. The bride-elect is a secretary for the Superior Oil Company in Midland. Morgan is an engineer for the K&G Tool Company in Duncan.

Serve watermelon and cantaloupe balls in a sugar-syrup flavored with mint; garnish the fruit with sprigs of fresh mint leaves. This combination makes a most refreshing dessert.

Make a necklace of your favorite bracelet by sewing narrow black ribbons to each of the clasp ends and then tie it around your throat, dog collar fashion.

Your silver requires prompt washing in hot, sudsy water after each meal. Careful washing and rinsing is the most practical way of keeping silver bright.

Complete Program Listed For Underwriters Banquet

Complete program has been announced for the annual Ladies Night installation banquet of the Permian Basin Life Underwriters Association at 7:30 p.m. Friday at the Ranchland Hill Country Club. Charles E. Gaines of Dallas, vice president and agency director of Great National Life Insurance Company, will be the principal speaker.

The Rev. Vernon Yea, pastor of the First Baptist Church of Midland, will give the invocation. George Vannaman of Midland, retiring president, will recognize guests.

Perry Pickett, mayor of Midland, will present awards. Harold Steck of Big Spring, a director, will recognize retiring officers. Roy McKee of Midland is to introduce new officers. Jim F. Littlejohn of Midland, incoming president, will introduce Gaines.

FALL KILLS CONDUCTOR
DALLAS—R. M. Hicks, 49, of Fort Worth, a Texas and Pacific Railway conductor, was found dead early Friday near Santo, in West Texas, after he fell from the back of a freight train.

Pioneer Rancher Dies Near Austin

AUSTIN—(AP)—C. C. (Doc) Wuthrich, 93, died Friday at his home on the W-R Ranch at Cedar Valley, near Austin, where he had spent his life.

Wuthrich's parents came to Texas from Switzerland and settled on the plot in the shadow of Friday Mountain that was to become the W-R Ranch.

Except for a couple of trips to South Texas in his young days and an occasional trip to Austin, Wuthrich put in 91 years at the ranch. He was a partner with his brother, J. R. Wuthrich, who died in 1947. Wuthrich led an active life until a few days before his death. He celebrated his 91st birthday by riding his horse, Don, around Friday Mountain.

BAD BATTLE FOR BOTH
In the battle for Quebec, in 1759, both commanders, General James Wolfe for the British and Marquis de Montcalm for the French, were mortally wounded.

W. H. Pomeroy

W. H. Pomeroy Will Direct 'The Drunkard'

W. H. Pomeroy, Jr., will be the director of the Summer Mummer's production of "The Drunkard" this year.

Tryouts and a meeting of all those persons interested in helping with the show will be held at 8 p.m. Monday in the City-County Auditorium. Public tryouts will be held for the first time.

The first performance of the show will be given July 24. The show will be given for three or four weekends in the American Legion Hall.

This will be the fourth Summer for the Summer Mummer's. "The Drunkard" first was presented in 1949.

W. F. Pennebaker will be in charge of the business arrangements and Art Cole will assist in promoting the show.

The Summer Mummer's is made up of a group of people interested in the theater. All proceeds for the show will go to the Community Theater Building Fund.

All persons interested in helping with the show are urged to attend the meeting Monday. All types of olio acts also are needed.

Chinese Workers Attend Red School, Learn Party Line

HONG KONG—(AP)—The Shanghai Liberation Daily reports that 1,019 workers have been graduated from the Shanghai Workers Political School after learning the elementary ABC's of communism.

The newspaper issue, reaching here today, said 388 graduates were granted membership in the Communist party at commencement exercises.

This is considered significant. Red policy appears to call for party cadres in jobs of influence, technical skill and administration.

Workers held over in these jobs from pre-Communist days have continued "reactionary and capitalistic" methods in trade and industry.

The Reds do not have anywhere near enough skilled people to replace them, but have started turning them out in job lots on a quick course program.

Technical and administrative experts predict future trouble for the Reds from these half-trained technicians and managers. But the Reds, apparently, prefer risking bungling in the factory to wavering in the political zone.

"BLUE ANGELS" FLY AGAIN—Disbanded at the start of the Korean conflict, the Navy's famous precision flying unit, the carrier-based "Blue Angels," is once more on the wing. The four F94F Panther jets that compose the formation are seen above during final training maneuvers.

Clean-Up In Federal Affairs Advocated By Price Daniel

Advocating a general clean-up in federal affairs and pledging to work, if elected to the U. S. Senate, to return the government to the people, Price Daniel addressed a large and enthusiastic group of Midland and area residents at a breakfast meeting Saturday at the Midland Country Club. The Texas attorney general brought his Senate election campaign to Midland after a busy Independence Day of speech-making in Garland, Terrell, Odessa, Monahan and Pecos, arriving here at 2 a.m. Saturday.

Charles Langdon, Midland attorney, presided at the breakfast meeting, and Reese Cleveland, oil man, introduced the speaker. The meeting was arranged by Langdon and Emil Hassman.

The cleaning-up of dishonesty and disloyalty in government; calling a halt to waste and extravagance, and working to return the government to the people were listed by the candidate as the major planks in his campaign platform.

"We must balance the nation's budgets," he said, "and Price Daniel will never vote for a higher tax load on the people of this country."

SON OR NO COUNT

Among the Moors, if a wife does not become the mother of a boy, she may be divorced with the consent of the tribe and can marry again. This continues until she does give birth to a male child.

Marines In Korea Name Favorite Food

WITH THE FIRST MARINE DIVISION IN KOREA—Members of the 1st Battalion, 1st Marine Regiment, prefer "heat-and-serve" food, dehydrated soups and precooked preparations over sweets and other confections, according to a recent survey.

Cans of chili, soups, tuna, sardines and meat sandwich-spreads were rated high on the preferred list. Pepperoni was listed as favorite among meat items.

Other cherished gifts from home are sharp cheese and cheese spreads, "instant" cocoa, tea bags and bouillon cubes.

Representatives from Midland, McCamey, Odessa, Kermit, Andrews, Fort Stockton and Stanton attended the breakfast.

The attorney general also spoke Saturday morning in Stanton and Big Spring before going to Amarillo for a night stop on his state-wide campaign.

Among those from out-of-city attending the Price Daniels breakfast here Saturday were Mr. and Mrs. William Wolf and Mayor C. W. Brown of McCamey, Maurice Bullock of Fort Stockton, Tommy Thompson of Kermit and Garry P. Ross of Stanton.

Hunting For Worms In Levees Forbidden

CAIRO, ILL. — (AP) — Fishermen who find Cairo's high earthen river levees are fine for digging worms will be fined, police warned.

U. S. engineers said serious damage to levees could result from digging holes in them. Bait-hunting in levees breaks out anew each fishing season.

Wolves, like dogs, express pleasure by wagging their tails and put their tails between their legs when frightened.

Cox Holds Fair Job For Quarter Century

DALLAS—(AP)—S. Bowen Cox, 72, recently celebrated his 25th year as secretary of the State Fair of Texas.

From small beginnings the fair has grown to an all-year event with trade shows, sports events, musicals and other permanent exhibits. Cox joined the organization as chief clerk to the secretary.

He says he is looking forward to another quarter century with the organization. Cox's father lived to be 95 and his mother 98.

Cost Of Waging War Set At Four Trillion

SAN DIEGO, CALIF.—(AP)—A Navy economics expert estimates it would cost the United States almost four trillion dollars to fight an all-out third world war.

Comdr. John W. Seager of the Navy Supply Corps, who is a member of the Industrial College in Washington, said in a recent interview here that each major war the United States has fought has cost roughly ten times more than the previous one. World War II most cost 383 billion dollars, Seager says.

Debating Attorney Calls Labor Unions 'Evil Monopolies'

HOUSTON—(AP)—Big labor unions were called "evil monopolies" and defended as only following "patterns of power" created by employers in a debate at the Texas State Bar Association convention Friday.

Theodore Iserman, New York labor attorney, made the monopoly charge and Alfred Kamin, Chicago labor lawyer took the defense before the association's session on labor law.

Kamin maintained that unions have to be big to protect labor's interests.

Iserman urged passage of a bill now in the House which would ban industry-wide bargaining by such labor groups as the striking United Steel Workers (CIO).

He described the anti-trust bill in detail, noting that it was co-authored by Rep. O. C. Fisher of San Angelo.

The bill would amend the Sherman Anti-Trust Act and would eliminate "the root of our trouble," Iserman said.

Kamin replied that the bill "would entail reshaping the American economy drastically."

"It would be unfair to American labor," he said, "in that it would curtail their use of matching power against industry for equal sharing of benefits."

Iserman argued that:

"When a great and powerful union controls collective bargaining in an entire industry, the public loses much of the protection of competition."

"Wages and other terms of employment tend to become uniform, and they tend to become uniformly high. The public pays the bill in higher prices."

WITH THE SERVICES

Midland Jet Pilot Given Air Medal For Korea Work

First Lt. Carroll R. Griffin of Midland has been awarded the Air Medal for his work as a jet fighter pilot in the Korean War.

Flying with the pioneer jet combat unit of the war, the 8th Fighter Bomber Wing, Lieutenant Griffin has been flying daily interdiction missions against the North Korean Communists.

Pounding rail lines, hitting bridges, truck convoys and napalming and strafing enemy front line troops and installations are part of his job.

Interdiction is the Air Force's mission of choking off all movement of enemy supplies to the front line. This means attacks on targets varying from trains hauling many

tons of supplies down to a single oxcart which might be transporting a load of anti-aircraft ammunition uphill to a single gun position.

His citation reads in part:

"Lieutenant Griffin engaged in strafing and divebombing from dangerously low altitudes, destroying and damaging enemy installations and equipment, thus bringing great credit upon himself and the United States Air Force."

Lieutenant Griffin is married to the former Joan Chapman of Midland.

Cadet Kenneth M. Rogers, son of Mrs. Verdie G. Rogers, 2208 Garden City Highway, is one of 1,181

cadets assigned to the Corps of Engineers 1952 ROTC Summer camp at Fort Belvoir, Va.

Upon graduation from Texas Tech in June, 1952, he will be eligible for a commission in the Officers Reserve Corps in the Engineer Branch.

Guy M. McCully, seaman, USN, of Crane, is serving aboard the amphibious force flagship USS Mount McKinley, which recently participated in a joint Army-Navy amphibious landing exercise off the coast of Okinawa.

Former M/Sgt. Marion F. Culver was sworn in as a First Lieutenant in June following his recall to active duty in his former commissioned grade.

Lt. Culver, now a member of the 1414th Training Mission at Dhahran, Saudi Arabia teaching Weather and Forecasting to Saudi Arabian students, will be reassigned to Conynolly AFB, Texas for bombardier refresher training, and will proceed there to Randolph Air Force Base, for additional training there.

A native of Gulfport, Miss., he attended high school at New Orleans, La., and Texas Technological College at Lubbock. His wife, the former Marie Newton, and his two children, John David and Elaine Marie are living with her parents at 3216 Michigan Street here.

Culver entered the Air Force in October, 1942, and attended bombardier school at Big Spring where he was commissioned a Second Lieutenant following his training there.

He served as a combat bombardier with the 15th Air Force during the war. Following his tour of combat duty, he attended an aircraft and engine school at Keele Air Force Base, Miss., and Weather Forecaster School at Chanute, Ill. He reverted to the grade of master sergeant in June, 1947, and held that grade until his recall.

Weary Clockwinder Turned Away From Public's Payroll

IXWORTH, ENGLAND—(AP)—Every night for the last 14 years, Horace Hayward has climbed the 29 steps of the church tower here to wind the village clock.

That's a total of almost 150,000 steps.

What's more, Horace had to get up his own pay by making a house-to-house collection.

He got tired of all this and asked the rural district council to pay him a regular salary of five shillings (70 cents) a week.

The council met Friday and said no, it was sorry, but it had no power to charge taxpayers for clockwinding.

So Horace will go on, wearily climbing the 29 steps, winding the clock and then walk an uncounted number of steps to collect his own pay.

Texas Teachers Rank High In Professional Training

AUSTIN—Despite the fact that Texas teachers have not had an increase in their base salaries since 1949, they have continued to improve their professional training.

They now rank among the five top states in the nation in teacher preparation, according to Charles H. Tenneyson, executive secretary of the Texas State Teachers Association.

Tenneyson said that figures available from the Texas Education Agency show that more than 85 per cent of the state's 58,513 public school teachers now hold degrees from accredited institutions of higher learning.

During the school term just closed, only 2,299 or 4.5 per cent of the white teachers in the state did not have degrees. Only 146 or 1.84 per cent of the negro teachers in Texas do not have degrees.

The school year 1951-52 marked progress also in another direction, Tenneyson added. It was the first year in the history of the state that the schools did not have some people teaching who had less than a high school education. The previous year 34 such people were employed as teachers.

PASSING OF AN ERA! Once autoleases, Bermuda now permits the use of cars. The law permits operation of private cars and taxis with a speed limit of 15 miles an hour in the city and 20 miles in the country areas. Importation of second-hand cars is forbidden.

Livestock

FORT WORTH—(AP)—Livestock receipts increased seasonally here during the last week. The week opened with some strength on cattle and calves, but soon turned bearish and all cattle and calves closed lower.

Cows were fully 50 cents off and grass steers and yearlings and slaughter and stocker calves were 50 cents-\$1 off. Spring lambs sold strong to \$1 higher, and canner ewes were steady to strong. Hogs moved in a narrow range with little change price-wise.

Comparative prices: slaughter steers and yearlings \$12-\$34; stocker calves \$16-\$22; slaughter calves \$30 downward; stocker yearlings \$16-\$26; stocker steers \$25 down; Spring lambs \$10-\$22; yearlings \$10-\$15; old wethers \$9 down; slaughter ewes \$5.50-\$7; closing hog top \$20.25-\$30; sows \$12.50-\$17.50; pigs \$13-\$16.00.

Midlander To Get Degree In Geology

FORT WORTH—(AP)—Garner L. Wilde, Midland, is a candidate for the degree of master of arts at Texas Christian University.

A geology major, Wilde is scheduled to complete degree requirements August 24, and will receive his degree at the Summer commencement on that date. He is one of 130 candidates to receive the master's degree at the commencement.

SENSATIONAL VALUES

For **DOLLAR Day** AND ALL NEXT WEEK

Two good reasons for these drastic price reductions on good staple WESTERN WEAR:

(1) To cooperate with Midland's gigantic monthly Dollar Day event;

(2) To reduce our stock just prior to some interior remodeling, designed to make our store one of the most attractive Western Show Places.

June Proves Best Month For Pioneer Air Lines

June was the best month in the history of Pioneer Air Lines for number of passengers transported and for passenger miles (passengers times miles traveled). Harding L. Lawrence, vice president of traffic and sales, has announced.

During the month, Pioneer flew 16,551 passengers a total of 4,306,048 passenger miles. The previous high was registered in October, 1951, a 31-day month, when 16,054 passengers were flown 4,235,093 passenger miles.

The June, 1952, results represents

a 19.4 per cent increase over the 13,903 passengers for June, 1951, and a 50.4 per cent over the 11,004 passengers for the same month in 1950.

June also was the first month of operation for Pioneer's Pacemasters which averaged 16 passengers per plane mile. Operations with the Pacemaster began on June 2 with the replacement of six DC-3 flights. Additional schedule changes throughout the month resulted in a complete replacement of the DC-3's by June 30, the company official

said. During the month, Pioneer operated 132,647 scheduled miles with the Pacemaster, transported 7,705 passengers for a Pacemaster load factor (percentage of seats occupied) of 44.1 per cent. DC-3 operation for June consisted of 197,311 scheduled miles, the transport of 8,846 passengers for a load factor of 45.19 per cent or 11 passengers per plane mile.

Of the 329,958 total scheduled miles flown by Pioneer during the month, 40.3 per cent were flown with the Pacemaster. However, the Pacemaster transported 45.5 per cent of the passengers and produced 49.2 per cent of the revenue passenger miles.

Pioneer purchased its new fleet of nine, 270-mile per hour, 36-passenger Pacemasters in March of this year. With the acquisition, Pioneer became the first of the nation's local service airlines to ever secure modern, postwar equipment for its operations.

Pioneer inaugurated its first service on Aug. 1, 1945, with nine-passenger Lockheed Electra planes. In August and September, 1946, the Lockheeds were replaced by 24-passenger, 180-mile per hour DC-3 planes and in June, 1952, the DC-3's were replaced by the Pacemasters.

Washable Fabrics Make Exciting Coat News

BY GAILE DUGAS
NEA Woman's Editor
NEW YORK — (NEA) — Ever think the day would come when you'd wash out a coat at night,

hang it up to dry and find it looking like new and ready to wear the next morning?

That day is here. A pastel coat you'd wash out a coat at night,

been the dream of many women for many years. The dream is an actuality now, made possible by fluffy orlon fleeces that is completely and beautifully washable.

It takes to the suds at night, just as your nylons do, goes on a hanger for drying and is ready for wearing when you get up in the morning. And of course, it needs no ironing.

It's shown (left) in white, with pointed collar, turn-back cuffs adjustable to any sleeve length and pretty but unexaggerated fullness. A Leeds design, it's the kind of coat, in short, that you can wear and wear without wear of grime or smudges. It addition to the white, it's done in pale blue, maize and beige.

Equally practical is Main Street's nylon seersucker coat (right) that's a feather-light rain duster. Point for summer travelers is that it takes only a corner in a suit case. It has macaroon collar and deep turn-back cuffs. The practical hood is detachable.

Mix a tablespoon of chopped chives with a tablespoon of chopped parsley and sprinkle over cream of tomato soup before serving. Grated cheddar cheese also makes an attractive and delicious topping for tomato soup.

Varied Program Celebrated In Crane On Fourth Of July

CRANE — Danesse Hickey and Wanda LeClaire took first honors in bathing beauty reviews at the July 4th celebration here.

Runnerup to Danesse Hickey in the junior division was Brenda Meizer. Suelien Davis finished third.

Eugenia Mills came second in the senior girls bracket with Brenda Owens third.

An estimated 500 attended the program at the Crane County swimming pool.

Winners in the swimming contest included:

Open free style: 1—Lowell Adams; 2—Doyle Williams, and 3—Bill Sergeant.

Junior division: 1—Lowell Adams; 2—Leonard Barker, and 3—Charles Wilmoth.

Senior diving: 1—Hugh Neal Green; 2—Brooks Aikens; 3—George Thompson.

Howard Lumley of Odessa directed the swimming competition. He joined Harold Pettit and J. P. Harrison in judging the events.

Harrison, Mrs. Harold Riley and Foyce Underhill were in charge of arrangements for the Independence Day celebration. John Clark and Clark Presley were clowns, performing throughout all events.

Dr. J. C. Ramsey, pastor of the First Presbyterian Church, delivered the invocation and explained the meaning of the Fourth of July.

PROVED POINT

To prove effectiveness of the bow and arrow, Dr. Saxton Pope and Arthur Young, both of San Francisco, obtained a permit to shoot five grizzly bears in Yellowstone Park in 1920. Not only was the test successful but, in some cases, only one arrow was needed to bring down the mighty grizzly.

'June Busted Out All Over; Record Heat Scorches U. S.

WASHINGTON — (AP) — That June heat wave really was a sizzler, branding the month one of the hottest Junes in all history for many cities.

And weathermen say all July likely will be hotter than normal in most of the nation.

The hottest time and places in the heat wave country last month was 108 at Malden, Mo., June 29, on the basis of official U. S. Weather Bureau temperatures that have reached the Washington weather office. There were higher readings in Death Valley and in Arizona and some other southwestern places. These were near normal for these regions, which weren't considered to be in the grip of the unusual heat wave. It was 111 at Yuma, Ariz., on June 18 and 112 at Presidio, Texas.

A bubble of cold air from the Hudson Bay country of Canada pushed southward in the last week of June and brought cool weather to most of the East. It took about 10 days for this to travel as far south as Florida.

The Cold Front
Temperatures tumbled as much as 30 degrees within a few hours as the cold front moved south.

Most of the Eastern United States felt the heat wave at some time in June.

These new high-reading records, for June, were reported:

North Platte, Neb., 107, highest in 77 years; Wilmington, N. C., 104, highest in 80 years; New York, 101, highest in 81 years; Mobile, Ala., 102, as high as anything in 80 years (also 102 in June, 1936); Tallahassee, Fla., 103, highest in 12 years.

In St. Louis it was over 100 for six days and reached 104 on June 27 and 28. High temperatures for the last week in June averaged 102, possibly the highest for a week on record in St. Louis.

Temperatures of 108 degrees were reported from South Carolina; it was 100 in Detroit, Mich., and 100 at Boston. This Boston temperature

was the equal of any recorded in 80 years, in June.

Back To 1900
The hottest average June weather in the history of these weather stations, or back to the year 1900, were reported at these cities:

Denver, 74 compared with the previous high of 71.3 in 1931; Cairo, Ill., 85 compared with 81.7 in 1914; Evansville, Ind., 81, compared with 80.5 in 1933; Dodge City, Kan., 82 compared with 80 in 1934; Wichita, Kan., 83, compared with 82.6 in 1933; Columbia, Mo., 81, compared with 80.4 in 1934; Kansas City, 84, compared with 83.2 in 1934; Springfield, Mo., 81 compared with 79.4 in 1934.

Others were Chattanooga, Tenn., 82 compared with 81.7 in 1936; Amarillo, Texas, 80 compared with 79.6 in 1934; Greenville, S. C., 82 compared with 79.9 in 1914; Memphis, 85 compared with 82.6 in 1934; and Knoxville, Tenn., 81 compared with 79.9 in 1943.

Weather Bureau long-range diagnosticians, who base their predictions mostly on conditions in the upper atmosphere, say the normal weather-making elements exist over the hemisphere.

The Moving Bubbles
There is a high pressure area off the West Coast, and another high pressure bubble in the Southeast United States, or just offshore.

It is normal for these two bubbles to move closer together in the Summer, with most of the United States under the influence of the eastern bubble.

The heat wave was broken temporarily when the bubbles shifted and let in a blast of cold air from the North Polar regions.

But now the bubbles are shifting

BIG "APPLE" — "Cabezonas," — 22 pineapples are known in Palmaréjo, Puerto Rico, grow big, juicy and sweet, and Domingo Rivera has reason for that wide grin as he looks forward to a 10-pound treat.

ANNUAL REPORT
The President of the United States is required by the Employment Act of 1946 to make an economic report to Congress at least once a year.

PURITY EMBLEM
The lily, emblem of purity, is painted in almost every picture of the Annunciation and of the Madonna, according to the Encyclopedia Britannica.

"Doc" H. Glenn Walker Candidate For County Commissioner, Precinct 1

Believes In County Participation
In The Following:

1. West side park and park building program of Midland, including swimming pools in colored and Latin-American parts of the city.
2. Fair building for development of interest in ranch and farm youth (Wadley tract).
3. Library and museum to meet county needs, supported by city, at center of population.
4. Building roads and paving to meet safety needs.
5. Proper health programs to place Midland County in place of respect among the other counties with like programs.
