Wilshire Wildcat In W Upton Is Taking Potential

The Wilshire Oil Company, Inc., No. 1 Timmins, wildcat one and one-quarter miles south of Ellenburger production in the Pegasus (multipay) field of Northwest Upton County, was flowing on potential test at last report.

Operator representatives say it is flowing at the rate of 27 barrels of oil hourly.

The production is coming from the Wolfcamp formation through perforations in casing at 9,990-10,134 feet. That set had been treated with 3,000 gallons of acid.

The flow is through a three-quarter-inch choke.

Prior to starting the potential test the well flowed 227 barrels of oil in 10 hours, cut five per cent filtrate and three per cent basic sediment. Gravity of the oil was 42.4 degrees and gas-oil ratio 847-1.

Location is 660 feet from north and west lines of section 12, block 41, T-5-S, T&P survey.

Small Discovery In C-E Lea Area To Be Deepened

Drilling & Exploration Company, Inc., will re-enter and deepen a small pumping discovery from the San Andres in Central-East Lea County.

The project was completed from the San Andres on total depth of 4,300 feet for a daily potential of 32 barrels of 31-gravity oil.

The discovery will be deepened to 7,900 feet as a wildcat.

It is No. 1-C Stat. 660 feet from south and 1,980 feet from west lines of section 32-20s-39e.

Operations are to start at once.

Amerada Slakes West Offset To Yoakum Opener

Amerada Petroleum Corporation spotted location for a west offset to its No. 1 Weems, flowing discovery from the Devonian in Central-West Yoakum County.

The offset will be drilled in Lea County, N. M., 660 feet from north and 477 feet from east lines of section 14-13s-39e. It will be drilled as No. 1 H. D. Schenck to 12,000 feet. It is one location west of the discovery.

No. 1 Weems was completed for a daily flowing potential of 1,934 barrels of 43-gravity oil from perforations at 11,773-860 feet.

Other operators with an interest in the Devonian discovery are Magnolia Petroleum Company, Sinclair Oil & Gas Company, Warren Petroleum Corporation and George Coates.

Marlowe Wildcat In E-C Yoakum Shows As Opener

Marlowe Oil Company No. 1 R. L. More estate, East-Central Yoakum County wildcat, one and one-half miles west of the northwest side of the Ownby (San Andres) field appears to have found a new area for production from the San Andres formation.

This prospect is six miles east and slightly south of the town of Plains and 660 feet from north and west lines of section 48s, block D, John H. Gibson survey.

It drilled to a bottom of 7,502 feet in barren lower Clear Fork-Permian lime.

Had Some Shows
The project then set 5 1/2-inch casing at 5,565 feet to test the San Andres which had shown some possibilities of making oil and gas in a drillstem test.

Cree-Sykes Wells Produce, Saxon's Attorney Tells RRC

AUSTIN—(AP)—Saxon Exploration Company representatives told the Texas Railroad Commission Thursday tests are proving many of their wells in the Cree-Sykes fields capable of producing even though a commission engineer found them off production a month ago.

They said they had no way of knowing whether wells had been operated illegally in the past under different field management.

Ben R. Howell of El Paso, attorney for Saxon, asked that wells of proved producing ability be restored to the Cree-Sykes fields as required gas-oil ratio test reports are filed.

He reported Saxon's Cree-Sykes operations under new management and said Norman Fitzgerald of Abilene now has no part in the operation. Fitzgerald owns one-eighth of the seven-eighths working interest.

Commission Examiner George Singletary, conducting the hearing which had been recessed since October 28, said he did not know whether Saxon's wells could be restored to their allowances unless the commission receives evidence on whether they were operated in violation of the law prior to the October 21 shutdown.

Singletary said the commission itself will have to decide that question and also will have to decide whether it will accept the reports of an independent engineer, W. T. Jordan, hired by Saxon three weeks ago.

Singletary said it was his understanding the wells would have to be re-checked by commission engineer before they could be put back on flow.

Jordan said a number of wells found "dead" by the commission had begun to flow as soon as Saxon opened them for test purposes.

Five Kills Boost MIG Bag To 502

SEOUL—(AP)—Allied forces pounded Chinese positions late Thursday with the heaviest rocket barrage and warplane strike in the 37-day old battle for the vital Kumhwa ridges on the Central Korean front.

In the air, U. S. Sabre jets destroyed five Communist MIG-15's. The Fifth Air Force announced it brought to 502 the Red jet fighters

destroyed since the war began—exclusive of those down by Navy pilots.

AP Correspondent John Randolph reported from the central front that 576 rockets were launched within a few seconds at Communist targets north of Allied-held Sniper Ridge.

The dusk rocket barrage came after an intensive fighter-bomber strike against Chinese positions along a narrow, two-mile sector.

Randolph's dispatch on the rocket launching was timed at 9 p. m. An hour later he filed a report that two Chinese infantry companies attacked South Korean dug-in on Sniper Ridge. His censored dispatch indicated the attack was continuing.

"Whether tonight's action was just another probe or a heavy attack remained to be seen," he reported.

The Air Force reported that Capt. John H. Jones, Jr., of Rome, N. Y., bagged two of the five MIG's. The Sabre pilots said they damaged two other Communist jets.

Jones, 31, flying with the 51st Fighter Wing, was credited with downing the 499th and 500th MIG's. The Air Force issued a special announcement of the 500th—the U. S. Air Force boss, Gen. Hoyt S. Vandenberg, was touring the battlefield.

46 Persons Hurt As Bus, Train Crash

HOUSTON—(AP)—At least 46 persons were injured Thursday as a passenger train struck a crowded city bus near downtown Houston.

There were no reports of critical injuries.

Thirty-five persons were treated at St. Joseph's Infirmary, five each at Hermann and Memorial Hospitals and one at the City-County Hospital.

The collision occurred at 9:10 a. m., only five minutes before the train, Santa Fe No. 65 from the West Coast, was to arrive at the nearby Union Railroad Station.

Dragged 50 Feet
About two-thirds of the bus appeared to have cleared the tracks when it was struck by the train. It was dragged about 50 feet from the point of impact and stopped parallel with the train engine.

George W. Marchand, the train's engineer, told Police Accident Investigator E. Craven the train was moving about 17 or 18 miles an hour.

"I saw the bus coming about 60 feet from the tracks," said Marchand. "He was coming too fast and I knew he could not stop. I put on the emergency brakes but they had just begun to hold when we hit it."

The bus driver, Robert L. Lee, 35, told police he did not see the warning lights flashing at the crossing.

\$65,000 Settlement Approved In Grade Crossing Accident

Settlement of a \$62,500 damage suit against the Texas and Pacific Railway Company and a Midland motor company, growing out of a railroad crossing accident one year ago, was filed Wednesday in 70th District Court.

The settlement provides for the payment of \$65,000 to Mrs. Pansy Dillon, whose husband and daughter were killed in the accident, and Eva Dell Dillon, another daughter.

Under the terms of the agreement, the railroad company will pay \$40,000 and Malcolm Brenne-man and Guy Brenne-man, doing business as Ace Motor Company, will pay \$25,000.

Paula Dillon, her husband, Paul Dillon, and their two daughters, were in an automobile driven by Lester Flannigan, a salesman for the motor company, when it was struck by a train Nov. 18, 1951, at the Garfield Street crossing.

Dillon, five-year-old Paula Dillon and Flannigan, were killed in the crash.

The settlement, approved by District Judge Garland Casaber, provides for the payment of \$60,000 to Mrs. Dillon and \$5,000 to Eva Dell Dillon.

Navy Plane Crash Kills Eight Aboard

QUONSET POINT, R. I.—(AP)—Three officers and five enlisted men died Thursday in the crash into the sea of a P-4V, a Neptune bomber, 70 miles southeast of Block Island.

The plane, participating in anti-submarine exercises, "made a pass" at a submarine, then hit the water, the Navy said.

The Navy withheld identification of the casualties pending notification of next of kin.

LADY, WATCH THAT CURFEW

WATFORD, ENGLAND—(AP)—Albert C. Southwood, 67, was fined five pounds (\$14) Thursday for slugging his wife just three months before their fiftieth wedding anniversary.

Southwood told the judge the quarrel began when 70-year-old Emmie came home late from a saloon.

Truman Lauds Ike's Backing Of UN Policy

WASHINGTON—(AP)—President Truman said Thursday he is very happy over Gen. Dwight D. Eisenhower's views on the Korean prisoner-of-war issue, and declared, "This country is a unified organization in its policy toward the rest of the world."

In his first post-election news conference—his first in fact since September 25—Truman laid emphasis on unity, and on the effort to make the shift of power to President-elect Eisenhower as smooth as possible.

He began with this statement which he permitted reporters to quote directly:

"I want you to understand that the election is over and that we are trying to get things in shape to make an orderly turnover of the government to the successor, and that we want to let the world know that this country is a unified organization in its policy toward the rest of the world."

"I was very happy to see that General Eisenhower had told Senator Wiley he was with the policy on the prisoners of war in Korea. That was one of the main things about which we talked in the meeting the other day when he was down here."

Eisenhower and Truman met at the White House Tuesday and later announced jointly that they had arranged for an exchange of information. They expressed belief this cooperation would be to the advantage of the country and promote a favorable progress on international affairs.

Wednesday, Eisenhower had a telegram from Rep. John W. McCormack (D-Mass.), Rayburn said so many Democratic House members had urged him to accept "I've decided that if the position is offered to me in the Democratic caucus I will accept."

Hope Defines Two Farm Law Policies

PORT WORTH—(AP)—Rep. Clifford R. Hope (R) of Kansas told livestock men here Thursday that livestock agricultural policies should have two principal objectives.

They are, he said, reasonably stable prices that are fair to both producer and consumer and increased agricultural production for home needs and foreign obligations.

Hope spoke at the third annual Texas Livestock Round Up, sponsored by the Fort Worth Farm and Ranch Club.

Flying time for the Arctic jump was three minutes more than seven hours. For the entire 5,855-mile trip, time in the air was estimated originally at 24 1/2 hours.

Airline officials figured the plane would reach the Danish capital after the 2,385-mile jump from Thule about 10:30 p. m. (8:30 a. m. CST). Trims 1,000 Miles

Wednesday, the big skyliner covered the 1,822 miles between Los Angeles and Edmonton in six hours and 46 minutes, taking off from Greenland after a refueling stop of almost two hours.

The flight's successful completion will make the Viking the first commercial airliner to fly from the West Coast of the United States to Europe over the North Pole route. This route, giving the Pacific Coast its own gateway to Europe and making Los Angeles an overnight hop from Scandinavia, cuts 1,000 miles off the trip by way of New York.

Wilson, McKay Given Defense, Interior Posts

NEW YORK—(AP)—President-elect Eisenhower announced Thursday he has chosen John Foster Dulles secretary of State; Charles E. Wilson, president of General Motors, secretary of Defense, and Gov. Douglas McKay of Oregon, secretary of the Interior.

Eisenhower's press secretary, James C. Hagerty, gave the news to the press while the general was luncheon at Hotel Eden, British foreign secretary, at Eisenhower's Hotel Commodore headquarters.

In naming Dulles, secretary of State, Eisenhower picked for his Administration a major Republican voice in America's bi-partisan foreign policy of the last decade.

Dulles, 64, held the title of ambassador when he served as architect of the Japanese peace treaty under Secretary of State Dean Acheson.

Censorship For Ike Trip Is Confirmed

WASHINGTON—(AP)—The Defense Department announced Thursday there will be an official news blackout during Gen. Dwight Eisenhower's visit to Korea.

For security reasons, it said, there will be no authorization for publication of news while he is in Korea and no schedule will be announced publicly.

Secretary of Defense Lovett said the arrangements have the approval of the President-elect.

Lovett announced: "The President-designate of the United States, Gen. Dwight D. Eisenhower, is going to Korea sometime in the future."

"The security of the President-designate is of paramount importance to the people of the nation as well as to the people of the free world. In order to assure him all possible protection during his coming trip to the war zone, it is necessary to observe the following precautions:

"1. There will be no published schedule of the trip at anytime, including departure date, arrival in Korea or departure from that country.

"2. No news reports of the President-designate's activities will be cleared through the Korean Theater of Operation until after the President-designate leaves Korea. News coverage will be arranged by theater commanders, probably on a 24 hour basis.

"3. I sincerely trust that the American people and the American press, radio, television and newsmen will realize the necessity for such precautionary measures, and that they will cooperate with the Department of Defense in carrying them out."

Dallas Dad Held In Brutal Beating Of Baby Daughter

DALLAS—(AP)—A 39-year-old West Dallas father was held in jail here Thursday under a \$25,000 peace bond after admitting he beat his baby daughter black and blue because she wouldn't quit crying.

Charges of aggravated assault were expected to be filed against the man Thursday. Sheriff's deputies took the nine-month-old infant to a doctor for examination.

They said she had black and blue marks from the middle of her back to her thighs.

Purge Of Czech Leaders Looms As Red Bosses Put Former Chieftain On Trial

VIENNA, AUSTRIA—(AP)—The former secretary general of the Czechoslovak Communist Party, tough, Moscow-trained Rudolf Slansky, was listed for trial in Prague Thursday with other purged leaders of the Red Czech regime—a mass hearing some diplomats expect will rival the 1951 Moscow trials.

Announcement of the hearing was made earlier Thursday by Czech radio. The broadcast said that Slansky would be tried together with "his group," but it gave no indication of how many defendants would face the court or who the others might be.

The radio also made no mention of the charges, but Slansky and others purged with him have been accused publicly of high treason.

"The radio said it would broadcast daily reports of the court proceedings. There have been so few Western news correspondents in Czechoslovakia since the conviction last year of Associated Press Correspondent William N. Ostis on "spy charges—a trial denounced throughout the non-Communist world.

Red-haired Slansky, one of the architects of the Red Czech regime, was arrested in November, 1951, along with scores of other top government and party officials in a full-scale purge of Communist ranks.

Ranchland Women Host Across-City Contingent Tuesday

An informal golfing contest was featured Tuesday afternoon when the Ladies Golf Association of the Ranchland Hill Country Club entertained their counterparts from the Midland Country Club. The play day event was preceded by a luncheon on the sun porch at Ranchland Hill. Mrs. W. D. McEachin was chairman of the Ranchland Hill group, and Mrs. W. L. Meadows represented the Midland Country Club as their chairman. Mrs. R. T. Cox of Ranchland Hill was in charge of the luncheon arrangements. Thirty-five players participated in the afternoon matches, divided into an A flight and a B flight. Mrs. Frank Flournoy placed first in low gross of Flight A with Mrs. W. E. Harkrider second. Mrs. H. L. Garrett led first in low net for that group, and Mrs. Van Ligon came in second with low net. In Class B Mrs. J. Oliver Gooch gained first spot in low gross, with Mrs. W. B. Cheatham second. Mrs. H. E. Rankin was first in low net in B class, with Mrs. W. D. McEachin following in second place. Leading in firm with the low put for both groups was Mrs. J. Oliver Gooch, while Mrs. D. W. Trott placed second in the low put scores.

'FOR LEPROUS VIRGINS'—Female Purveyor Of Horror Cometh

By MILTON MARMOR
LONDON—(AP)—Storm warning for Hollywood: Acid-tongued poet-historian-lecturer Dr. Edith Sitwell sails Friday for the cinema wilderness to write a film script for her book "Fantasy for Elizabeth." Dr. Edith gave a tea at Claridge's to acquaint the literary world with the fact. A group of dazed newspaper writers staggered back into the wet streets of London not certain whether they were here or in the 16th Century. The statuesque Miss Sitwell appeared in a black gilded cowl. "I resemble Henry VII strongly—he was an ugly old man," and a black bombastic floor-length dress, and sported long gilt fingernails. She also wore a topaz ring some two inches square, and her wrist wore two huge gold bangles. "I love horror," she explained sweetly. She did say she was a bit worried about Hollywood because George Bernard Shaw once warned her that film people are the greatest wolves. She insists she is 81 years old but reference books contend she's only 55. "My first scene," she wants Hollywood and Columbia pictures to know, "will be most appallingly morbid. Murder hovers around, and there will be an absolutely superb scene in a hospital for leprous virgins." She's not disturbed about censorship—"The patients will be dressed as huns." Miss Sitwell lists her recreation in "Who's Who" as "alience." She was out of character at the tea. She plans to work in bed.

Glamorous Zsa Zsa Gabor Strikes Back At Corinne Calvet

SANTA MONICA, CALIF.—(AP)—The glamorous Zsa Zsa has struck back. Sued for one million dollars slander damages last August by Corinne Calvet of the movies, Zsa Zsa Gabor filed a demurrer Wednesday and asked the court to strike from Miss Calvet's complaint several statements she said are conclusions rather than facts. Miss Calvet claimed Zsa Zsa, wife of actor George Sanders, "falsely and maliciously" told a Hollywood columnist that instead of being French, Miss Calvet is a Cockney English girl. This Zsa Zsa denied. Her attorney asked the court to strike these statements from the Calvet complaint: "That Miss Calvet is known throughout the world as a French actress," that she "truly possesses the attributes portrayed by her in screen roles," that Miss Gabor's allegedly slanderous statement was made for the purpose of causing it to be published throughout the world, and that it was made with actual malice and was defamatory.

Britain's David Niven Uncorks Corker Of Behind-Scene Story

The Laugh Parade: David Niven made "Bonnie Prince Charlie" several years ago but he's just getting around to telling an "I-didn't-know-whether-to-laugh-or-cry" story about the British production. One scene called for Niven, backed by 600 extras from the British armed forces, to lead a battle charge over a hill. Sword raised, Niven began the assault, only to stumble and carry a number of extras to the ground with him. Lifting his head, he discovered to his horror that his sword had gone through the leg of one of the extras. "I say there," he gasped, suddenly swept by waves of nausea, but at that moment the director's voice boomed over the loudspeaker, urging Niven and the extras to continue the mock battle. The soldier rose and stumbled ahead. Niven's sword still in his leg. "I've run my sword through your leg," Niven yelled, trotting after the extra. "You simply can't go on, old boy. You must stop for medical aid." "Please be quiet," the wounded extra finally said. "I need this job and you're going to spoil it for me. It just happens that I'm the only soldier in the Coldstream Guard with a cork leg and you've put your blasted sword through it." Moses Was A Piker Of all the stories told on Tin Pan Alley this is a favorite. Fred Fisher, who wrote the hit "Dardanella," sued composer Jerome Kern for plagiarism, charging Kern stole the melody of his song. In court at the trial, Fisher claimed his melody was a masterpiece and had earned close to \$1,000,000. "But how," asked the judge, "can you tell it's a masterpiece?" "Look," said Fisher. "How much did Moses get for the 10 Commandments?" "John Ireland tell it on wife Joanne Dru. One day he lunched with his agent at Romanoff's and returning home he found that Joanne was nursing a cold in bed. In an effort to cheer her up, he began to tell Joanne about the people he had seen at the restaurant. "Eve Arden and Eve Johnson were there," he said. "And so was Eve Miller." "Evedropper!" snapped Joanne.

New Trial Slated For Sleepy Sentry
PT. MEADE, MD.—(AP)—The Army said Thursday it will start a new trial "in the next few days" for Pfc. Warren McConnell, 21-year-old soldier from Alloway, N. J., who was sentenced previously to 10 years at hard labor for going to sleep on his post in Korea. The previous conviction and sentence was set aside by the Court of Military Appeals in Washington. McConnell was accused of going to sleep Nov. 14, 1951, at his post on a main line of resistance held by the Seventh Division and was tried by a Seventh Division general court martial in Korea Dec. 10, 1951. He also was sentenced to a dishonorable discharge and the forfeiture of all his pay allowances. Aerial photographs are used to check inventories of coal stock piles at TVA plants.

Mrs. Earl Johnson Speaker For Pyracantha Garden Club

Mrs. Earl Johnson gave a review of the American Rose Annuals of 1951 and 1952 for the meeting of the Pyracantha Garden Club Tuesday morning in the Officers Club.

Each new American Rose annual is planned to give the latest and most authentic information avail-

able in the field of rose culture, Mrs. Johnson explained.

Planting Aids Given

Most contributors to the annual agree, she added, that roses should be planted two feet apart, have sunshine and protection from wind, be sprayed and watered deeply once a week, have good drainage and a leaf mulch over the entire rose bed in early Spring.

There are 5,676 varieties of roses, Mrs. Johnson concluded, pointing out that roses best for the Midland climate include Charlotte Armstrong, Sutter's Gold, Red Radiance, Nocturne, Mission Bellis, Peace and Etolie de Holland.

A fruit and flower arrangement in a pottery cornucopia, arranged by Mrs. Frank Downey, was on exhibit for the meeting.

Political Conduct, Personal Morals Differ, Expert Says

SAN ANTONIO —(AP)—Some persons judge political acts by a different moral standard than they follow in their own behavior, a political science expert believes.

"People of good personal morals," Le Roy Ferguson of Michigan State College said Wednesday, "are staunch supporters of Senator Joe McCarthy."

Ferguson was speaking at one of the closing sessions of the National League of Municipalities' fifty-eighth conference on government.

He is a political science professor at Michigan State.

The Best Guarantee
He and five other political science experts and a magazine writer participated in a panel discussion of "elections and political morality."

About 1,000 persons registered during the three-day conference and five concurrent sessions were held Wednesday, last day of the meeting.

Recurring theme that cropped out repeatedly in the political science discussion was that increased citizens interest in public affairs is the best guarantee of better government.

Are To Grind
Writer Leslie Velle defended politicians, saying many would do a good job if left alone to do it.

"Who are the real corrupt politicians—the office holders, or the businessmen who bribe them?" Velle demanded. He said many lawyer-legislators see nothing wrong with the practice of accepting retainers from firms with political axes to grind.

"Yankee Money" was blamed by H. C. Nixon of Vanderbilt University for racial issues in the South. He said an important fact of shoddy politics is unrevealed campaign funds for unrevealed issues.

Louisiana State University's Prof. William Harvard slapped at party nominees who support the candidate of another party. He noted however that for the rank and file party lines should remain fluid.

Brooklyn College's Belle Zeller rapped some practices of members of Congress and said personal standards or morality should govern political conduct.

It was after Miss Zeller's statement that Ferguson said different moral standards were followed.

Appeals Court Hears Two Cases Involving Jehovah's Witnesses

FORT WORTH—(AP)—The U. S. Fifth Court of Appeals Wednesday heard two cases involving Jehovah's Witnesses—one from Gainesville and the other from San Antonio.

The Gainesville case against Sheriff Emory Horn, Police Chief Kirchbaum and School Superintendent Wilson alleges they failed to provide police protection and ousted members of the sect from the Junior High School Auditorium where they were holding a three-day meeting.

The Witnesses accused American Legionnaires of "running them out" of towns in 1949.

Hayden C. Covington, New York, represented the Witnesses, who complained that their treatment was a violation of civil rights.

Former Gov. Dan Moody appeared for Horn and others named in the suit.

The appeal was from the refusal of a U. S. district court to grant the witnesses an injunction.

The other case concerned Marshall Near, Jr., negro preacher of the sect, who was convicted in San Antonio for refusing to be inducted into the armed forces.

Dedication Slated For Research Unit

Cub Scout Leaders Enroll In Basic Training Course

Forty-eight Cub Scout leaders representing six Cub Packs in Midland are currently enrolled in a Cub Scout leaders basic training course. Scout headquarters reported Thursday.

Course members include den mothers, cubmasters, and pack committee members who meet at Scout headquarters at 7:30 each Monday for instruction in such subjects as pack administration, program planning, the achievement plan, and other allied subjects.

The next session, to be held Monday night, will be on the subject of "Den Meetings." Boy Scouts who are serving as den chiefs to the various Cub Scout dens are especially invited to attend this session along with their adult pack leaders.

The current course, which will end December 1 with a session entitled "The Park Meeting," will be followed by a series of make-up sessions for the benefit of those who were unable to attend one or more of the evenings during the present schedule.

Binion To Appeal Decision Ordering Hearing In Texas

CARSON CITY, NEV.—(AP)—Las Vegas Gambler Benny Binion filed notice Wednesday that he would fight his ordered return to Texas by an appeal to the Ninth Circuit Court of Appeals in San Francisco.

Binion, who so far has evaded three Texas attempts to take him back to Dallas for trial on state charges of gambling, was ordered back to Texas last week for trial on income tax charges. Texas officials have said they will hold him for trial on the gambling charges if he is brought back on the federal charge.

Pioneer Air Lines Names Office Chief

Carroll E. Lunce has been named office manager for Pioneer Air Lines' Dallas general offices replacing Will G. Ostrum who resigned to enter private business. E. W. Bailey, company secretary-treasurer, has announced.

Lunce, a native of Jefferson City, Tennessee, will be in charge of all office personnel and activities, Bailey said.

Prior to joining Pioneer, Lunce was associated with the Thermoid Company as branch manager in Dallas and with the Texas Power and Light Company as a buyer in the purchasing department.

Greenwood School Bond Issue Approved

Approval has been made by Attorney General Price Daniel for a \$65,000 school building refunding bond issue for Greenwood Consolidated Common School District No. 1 in Midland County.

The Board of Trustees ordered the issue September 15, with proceeds of the bond sale to be available for construction, equipment or repair of school buildings and the purchase of school site.

Beginning in 1953, the bonds are payable annually on March 15 at the Midland National Bank. Maturity date of the last bond is 1962. The interest rate was set at 2 1/4 per cent on the first 10 bonds, and 1 1/3 per cent on Nos. 11-65, payable semi-annually beginning March 15, 1953.

District property valuations were listed as \$6,906,420 and a sufficient tax has been levied to pay off the bonds principal and interest.

Santa To Parade Saturday At Kermit

KERMIT—A big parade at 2:30 p.m. Saturday with Santa Claus as the feature attraction, will open the Christmas shopping season in Kermit, announces Ralph Looney, chairman of the retail affairs committee of the Chamber of Commerce.

At the close of the parade, children will be given gift bags of candy, fruit and nuts.

Thousands of area residents are expected to be present with Kermit's precision High School "K" Band, Boy Scouts, Girl Scouts, and the fire department to add to the festivities.

The newspaper first was published in 1819 by William E. Woodruff.

H-SU Cowboy Band Will Fly Overseas To Entertain Troops

ABILENE—The famed Cowboy Band from Hardin-Stimmons University here will entertain troops overseas during the Christmas holidays.

United Service Organizations (USO) Camp Shows announced Wednesday the band's offer to participate in special-Christmas shows for armed forces aboard had been accepted by the Department of Defense.

The 30-member group will perform at U. S. military installations in North Africa, Naples, Austria, Germany, France and England. The band is scheduled to leave Abilene by special Air Force plane December 19 and return home January 4.

During the war season a movement of several feet per day of ice near the edge of a glacier would be considered rapid, says the National Geographic Society.

COLD TURKEY—Pat Mink, of Las Vegas, Nev., keeps cool while waiting for Thanksgiving day to arrive by riding this deep-frozen turkey, sculptured from a huge block of ice, by a chef at the Last Frontier hotel.

Highway 80 Added To State's Freeways

AUSTIN—Two more highways were tagged for eventual development as freeways by the State Highway Commission Wednesday. Other projects costing \$1,185,500 also were authorized.

U. S. Highway 77 between Gainesville and Hillsboro and U. S. 80 from the Martin County line to Sweetwater were added to the commission's growing list.

State highway engineer was authorized in each case to coordinate planning, right-of-way acquisition and construction for development of the two highways by stages to ultimate standards for a freeway.

Texas Newsman, 88, Gets Literary 'Award Of Merit'

WHITE SULPHUR SPRING, W. VA.—An 88-year-old man who waited until he was 65 to break into the editorial end of the newspaper business received an award of merit here Thursday.

He was Judge A. W. Neville, an active, 115-pound columnist for the Paris, Texas, News.

The award, made at the opening session of the 49th annual three-day convention of the Southern Newspaper Publishers Association, was presented by the American Association of State and Local History.

Neville, who acquired the title of judge for serving two terms as Paris City Court judge 44 years ago, was "by and large a printer until I got to be 65."

After that the bright-eyed Neville was shifted to the editorial department, where he started a five-day week column called "Backward Glances," a semi-historic enterprise. For this column, Judge Neville and the newspaper which publishes it were cited for making "distinguished contributions to American local history."

Neville was born in Salem, Va., and plans to return there Friday for the first time in 73 years. Although I'd done some writing," Neville said, "I probably wouldn't have been shifted to the editorial department if they hadn't thought the job of being composing room foreman was too much for me. Now, look:

"Retire? They'll have to carry me out before I quit."

FOOD EXPERT GIVES UP JOB

MELTON MOWBRAY, ENGLAND—Whiskers has retired after five loyal years as the chief taster in an animal food factory and had a medal hung around his neck.

One factory executive said of the ginger cat: "He had a better personality than his junior assistants. If Whiskers turned away in distaste from a new product, we had to scrap it."

Federal Court Rules Segregation Illegal On Interstate Buses

RICHMOND, VA.—Segregation of white and negro passengers on buses running between states has been declared illegal by a Federal District Court here.

The decision Wednesday came a week after the U. S. Supreme Court declined to review another ruling by the same District Court which invalidated segregation on interstate railroad travel.

The decision resulted from a case brought by J. B. Williams, a negro of Spring Hope, N. C. Williams charged he was put off a bus operated by the Carolina Coach Company—better known as Trailways Lines—when he refused to move his seat while on a trip to Norfolk Sept. 4, 1950.

Martin A. Martin, Richmond negro attorney for the National Association for the Advancement of Colored People, who represented Williams, said the decision will bring about the abolition of segregation on common carriers throughout the South.

Execution Date For Atomic Spies May Be Set Friday

NEW YORK—An execution date for Julius and Ethel Rosenberg, convicted atomic spies, may be set Friday by Federal Judge Irving R. Kaufman.

U. S. Attorney Myles J. Lane said he will ask Kaufman to set the execution date.

The couple has been in Sing Sing Prison's death house since conviction March 29, 1951, on charges of relaying atomic secrets to Russia.

On Monday, the U. S. Supreme Court for a second time rejected an appeal for a review of the conviction.

All vegetable products were at one time sugar in the leaves of green plants.

Close Lubbock Game Forecast

Football observers over the state believe the Lubbock-Midland game in Memorial Stadium Saturday afternoon will be close.

The Bulldogs have been cast in an underdog role with the Westerners favored as much as 13 points. However, a majority of the recognized sports writers predict the defending state champions will emerge victorious by six or seven points in a high scoring encounter.

The Hub City gridder can clinch championship and playoff honors in District 1-AAAA by defeating Coach Tuboat Jones' warriors. But the Bulldogs aren't conceding a single point to the Westerners, possessors of seven straight wins this year and 27 consecutive triumphs over a two-season span.

The Bulldogs continued Thursday to drill behind locked gates. Workouts leveled off but there was more on the schedule than usual for Thursday since this week's game doesn't go on until 2 p.m. Saturday.

The limited information which has seeped through indicates an offensive battle between the Midlanders and Westerners. The Bulldogs exhibited much improvement in the passing department in downing Amarillo and serials may play a big role in the wide open offensive expected from them.

Not only is Jones shaking up the offense, but the defense has undergone alterations. It's all-out against Westerners who were upset in 1950 by the "fired up" Bulldogs in Lubbock.

Meanwhile ticket sales started briskly Thursday morning in the foyer of the high school auditorium. They will continue in the foyer until 5 p.m. Thursday and from 9 a.m. until 5 p.m. Friday. Ducats may be purchased at Memorial Stadium after 9 a.m. Saturday.

Alpine Grid Coach Quits

ALPINE—Richard Johnson has resigned as coach of the Alpine High School Bucks, Supt. Peyton Cain announced Thursday.

The school board is expected to consider the resignation at its December 16 meeting. Johnson gave no reason for the resignation.

Johnson started coaching the Bucks in the Spring of 1951. He came to Alpine from Sul Ross where he was an assistant mentor. Johnson lettered as a member of the Baylor University Bears.

Johnson's football team tied for second and third place with the Iran Braves in District 5-A competition. Wink's Wildcats captured the championship.

Johnson's Bucks had the best defensive record in the conference.

'Wonderful' Rasslers Take Over Citadel Of Sports

NEW YORK—Let us all enjoy a big, hearty laugh at the expense of the rasslers, those funny, funny fellows who put on their rickety, rickety acts after night around the country and are never, of course, taken seriously by anyone who got beyond the fourth grade.

They had the nerve to take over that gleaming citadel of sport, Madison Square Garden, the other night, and you'll hold your sides when we tell you what happened. It was a cinch to happen, because there isn't a more hep crowd of sports fans in the whole world than right here in the nation's greatest city.

Well, these groaners, better than a ton of the grandest names in the business, drew only 18,357 paid admissions, including 250-odd standees, before the fire department locked and barred the doors. Another 5,000 were left out in the street, mad clean through. The receipts were \$57,396.

If you'll leave off laughing for a moment, we will add that the Garden now thinks rasslers are more wonderful even than the horse show. It slightly less social, and has invited them to hurry back again on June 5 and at frequent intervals thereafter.

The grapplers, from all accounts, gave their big town audience the works, as fine and conscientious a performance as could be seen in Windblown, Idaho, or anywhere. One of them got tangled up in the ropes and was kicked half to death before the referee could rescue him. A 241-pounder was turned blue by what a knowing critic described as a "double frankfurter twist." It was strictly big time.

It's been, roughly, 20 years since the noble science enjoyed its last

WESTERNER GUARDS—Ed Haney, left, 185 pounds, and Don Barton, 165 pounds, play guard on offense for the celebrated Lubbock Westerners who invade Memorial Stadium Saturday night. Both are in their junior year, indicating the Bulldogs will see them again in 1953.

Games This Week Could Produce 13 District Champions

By HAROLD V. RATLIFF
Associated Press Sports Editor

Two defending state champions can push their way into the Texas schoolboy football playoffs this week.

Lubbock, which won the Class AAAA title, is a heavy favorite to clinch a spot in the playoffs Saturday

when the Westerners play at Midland. Lubbock is undefeated and untied and needs only one more conference victory to become the District 1 representative. Midland lost to Pampa and Abilene, both of which were beaten by Lubbock.

Arlington, defending champion of Class AA, is an even choice to win its district title Friday night and return to the playoffs. Arlington, however, must beat a Mineral Wells team that has a better season record.

District 1 Undecided
Breckenridge, the 1951 champion of Class AAA, has to wait until next week to win its way back into the fight. It plays Brownwood November 27 for the District 2 championship.

There will be a new champion of Class A. Giddings, which took the crown in 1951, has been eliminated inside the district.

It's a big week in schoolboy football. At least six playoff teams can be determined in the eight districts of Class AAAA and it's the same in Class AAA.

Class AA has 16 district champions to be decided out of 31. Class A has eight out of 32.

Reagan Faces Milby
In Class AAA, Wichita Falls already is in the playoffs although it may wind up tied for the District 5 championship. One title goes on the line Thursday as Reagan plays Milby needing a victory or tie to clinch the Houston district pennant.

In District 2, Austin (El Paso) can win the title by beating El Paso Friday night. Ray of Corpus Christi can do the same in District 6 by beating Austin, and Baytown and Fort Arthur clash for the District 3 championship. The Dallas and Fort Worth districts won't decide champion until next week.

In Class AAA, the District 1 and District 2 titles come up next week but Denison already is in the playoffs representing District 3 and McAllen is champion of District 4 by beating Marshall on Friday.

Marshall can clinch District 5 by defeating Palestine, Texas City and Fort Neches clash for the District 6 title and Kerrville and Elision (San Antonio) meet for the District 7 crown.

The feature game of the lower classes is the meeting of Phillips and Pampa Saturday at Pampa. It not only matches undefeated, untied teams but decides the District 1 championship of Class AA.

Bulldogs Prove Best Gainers

The Midland Bulldogs moved into the lead in District 1-AAAA team statistics this week with 1,399 total yards. The Lubbock Westerners, Midland's opponent here Saturday afternoon, come second with 1,377 yards, or 13 less than Bulldogs.

But the Westerners have been much better on defense. They limited the opposition to 337 yards, lowest in the district, while the Bulldogs allowed 1,334 yards.

Field-footed Jesse Hatfield of Midland retains the honors as the individual offense leader in the "Little Southwest Conference." He commands an aggregate of 690 yards, divided between 436 rushing and 254 passing. Hatfield is third among individual rushing leaders.

Bill Mims, Midland end, is third among individual pass receivers. He has caught five for a total of 139 yards or an average of 27.8 yards.

8-AA Shapes '53 Schedule

FORT STOCKTON—The 1953 schedule for the newly-assigned District 8-AA was mapped at an initial meeting Tuesday night in Fort Stockton.

Presented were all six members of the circuit, Crane, Marfa, Fort Stockton, Alpine, Pecos and Monahans.

E. W. Smith, superintendent of schools at Fort Stockton, was named chairman for the coming year. J. O. Hucksaby of Fort Stockton was elected secretary.

Holdover members of the district are Comanche and Pecos, while the other four schools participated in District 8-AA the last football season.

All schools will open circuit play October 28 and end November 27. Admission to the 1953 games was set for \$1 for '52s and 25 cents for students provided tickets are purchased at the school before 4 p.m. the day of the game. After that the price will be 50 cents, which will be charged at the gate.

Pep Beats Chavez In 'Comeback' Try

ST. LOUIS—A confident, crafty Willie Pep, his latest "comeback" opponent listed as a victim, says he'll fight anyone, any time to gain another crack at winning back his featherweight crown from Sandy Saddler.

The bobbling veteran put on his usual show Wednesday night to win a unanimous, 10-round decision from Fabian Chavez, a youngster from Hollywood, Calif. Both weighed 128 pounds.

Rice's Don Rhoden Accepts Shrine Bid

HOUSTON—(P)—Rice Institute Linebacker Don Rhoden has decided to play in the East-West Shrine football game, December 27 instead of the Blue-Gray game at Montgomery, Ala.

Both games fall on the same day. Rhoden earlier had been asked to take part in the Blue-Gray classic but decided Wednesday to accept the shrine invitation. The Shrine classic will be played in San Francisco.

Mexico Auto Racers Roar Toward City

OAXACA, MEXICO—(P)

The Pan-American auto race roared through its second and third legs Thursday, bringing the remaining cars to Mexico City.

The total of 330 miles for the two legs include the toughest mountain going in the entire race. From Oaxaca the highway climbs 3,000 feet over the mountain range, drops 3,000 feet to the valley near Acapulco, and then goes up the grueling 4,000 feet pass Pambas to Rio Frio in the mountain peaks, before descending to Mexico City. Rio Frio, the highest point along the route, is about 8,400 feet above sea level.

The field of 80 which started the race Wednesday in Tuxtla Gutierrez, Southern Mexico, had dwindled to 74 for Thursday's start, 19 in the sports car category, and 55 stock cars. Cars started in the order of their ranking in Wednesday's leg.

The leader man is Jean Behra, France, whose Gordini set a new record Wednesday for the first lap with an average speed of 100.13 kilometers per hour. He is followed by Giovanni Bracco, Italy, with a Ferrari; Karl Kling, Germany in a Mercedes-Benz; Umberto Maglioli, Italy, in a Lancia-Aurelia; and Jack McAfee, Manhattan Beach, Calif., in another Ferrari.

After the specials are away, Walter Faulkner, Long Beach, Calif., led off the stock car class in his 1953 Lincoln. Faulkner also set a new record Wednesday with an average speed of 127.260 kilometers per hour over the first leg. He was followed by Pat Kirkwood, Fort Worth, in a Chrysler; Capt. Bob Kerr, Wright Field, Ohio, with a Lincoln; Jim Hantz, Los Angeles, with another Lincoln; and Chuck Stevenson, Lynwood, Calif., with a Lincoln.

The second leg ends at Puebla, 80 kilometers 80 miles south of Mexico City. There the cars are allowed 30 minutes for refueling and checking, and start on the third leg to Mexico City in the same order they arrived.

LINEBACKERS—Terry Fuglaar and Robert Keisling will take on new duties in the Midland plans for repelling the Lubbock Westerners Saturday afternoon in Memorial Stadium. Fuglaar, 150-pound guard, and Keisling, 169-pound end, have been playing linebackers in Coach Tugboat Jones' revised strategy on defense.

ROSE BOWL AT STAKE—

Uclans, Trojans Tangle Saturday

LOS ANGELES (AP)—The football teams at Southern California and UCLA eased down a bit in workouts Thursday and, barring the unforeseen, will go into their Pacific Coast Conference championship game in Memorial Coliseum Saturday in near-perfect condition.

The possibility that Southern California's great tackle, Bob Van Doren, may not be able to play cast a pall of gloom in the Trojan camp. Dr. Willis L. Jacobs, team physician, said Van Doren has not progressed satisfactorily from a mild concussion suffered in last week's game against Washington.

"It is quite doubtful whether he will be ready by Saturday," said Dr. Jacobs. X-rays and brain wave tests showed no serious injury, but the big defensive tackle has been complaining of headaches all week.

The battle, with the winner heading on to Pasadena and the Rose-

Hank Sauer Voted NL's Top Award

NEW YORK (AP)—Hank Sauer, the rags to riches outfielder of the Chicago Cubs, Thursday was named the most valuable player in the National League of 1952 by the Baseball Writers Association of America.

The selection of the 23-year-old Chicago slugger came as a surprise to many as Sauer slumped badly during the last month of the season following a brilliant start.

Sauer won his circuit's highest honor by a narrow margin over Robin Roberts, the graceful right-hander of the Philadelphia Phillies, and Joe Black, the rookie relief expert of the pennant-winning Brooklyn Dodgers.

Robt. Roberts Second

The Chicago star, whose climb to major league stardom was a tortuous path, collected 226 points out of a possible 336. Roberts, who won more games than any other pitcher, 28, finished second with 211 points.

Ponies, Hogs Enter Saturday Contests Riddled By Injuries

By CLAYTON HICKERSON
Associated Press Staff

Everybody except Southern Methodist and Arkansas appeared in top shape for Saturday's Southwest Conference games—and both those outfits were getting accustomed to crimples.

The return of letterman Ed Jim Mayhew to the SMU lineup left only four regulars on the Pony lineup last: Duane Witt, Doyle Nix, Tommy Hairston and Bob Caldwell.

The Mustangs slacked off Thursday after a long, hard scrimmage Wednesday. Their Wednesday work chiefly was on pass plays of Baylor, their Saturday opponent.

Arkansas, preparing for its final game of the season against Tulsa, had an injury list that sounded like a multiple-car highway crash. Co-Captain Dean Pryor had a broken jaw sustained in the SMU game last week. Tackle Don Smith had a broken rib he got in the same game. And Fullback Lewis Carpenter had a knee injury received in the A&M clash three weeks ago.

Pecos Assumes Scoring Lead In District 8-AA Race

PECOS—The Pecos Eagles took the season scoring lead this week in District 8-AA with 323 points. Seminole, who had held the lead the past few weeks, dropped to second place with 246 tallies. The Indians, however, hold the district scoring lead with 89 points for three games. Monahans follows with 71, Pecos has 64, and Kermit 55.

From a defensive standpoint,

Kermit is tops—having given up only 30 points in three games. Monahans follows with 32 points allowed. Seminole has given up 39 and Pecos has given up 54.

Four teams are tied for the district lead, with one more week of play to go.

Johanny Cook, Pecos, paces the individual scoring race with 16 touchdowns and 96 points. Jackie Sparks, Seminole, follows with 91 tallies, while Don Handline of Kermit is third with 48 points.

Bell County Aims At Six Schoolboy District Crowns

TEMPLE (AP)—Ever hear of one county having six district schoolboy football championships?

Bell County is on the way.

It already has three and may get three more this week.

Killeen won the District 22-AA title last week by besting Gatesville.

Dunbar High School of Temple won the negro District 8-AA title Friday night. Temple High is expected to win the District 5-AAA championship when it plays Palestine.

Bartlett at the same time will meet Academy of Temple for the District 37-B pennant. Since both are in Bell County, you can count a district championship for the county before they play.

H-SU Frosh Headed For Punting Record

ABELINE—Jerry Jefferies, freshman back from Childress, is apparently headed for an all-time Hardin-Simmons University punting record.

Jefferies, a six foot, 190 pound blond, has zoomed 29 punts so far this season for 1,617 yards, an average of about 41.4 yards per boot.

Al Johnson, head football coach at New Mexico Western, established the present Cowboy mark in 1947 when he punted 39 times for 1,508 yards, an average of about 38.6 yards per kick.

Canteron and Rosebud meet Friday night and although both are out-of-the-county teams, a victory by Rosebud would give the District 23-AA championship to Belton, which is in Bell County. A Rosebud win would leave it tied with Belton for the title and Belton would represent the district in state play by virtue of having beaten Rosebud earlier.

And not to leave the little fellows out in the cold, the Central Junior High School team of Temple won its district championship.

Helmet Block Okay, Insists Baylor Coach

WACO (AP)—Coach George Sauer of Baylor says he can see no reason to ban the so-called helmet block in football.

(NEA Telephoto)

Commenting at the Waco Quarterback Club meeting on reports that Texas was considering a protest against Baylor for using the helmet block—but which Coach Ed Price of Texas denied—Sauer said Wednesday night:

"There is nothing illegal about it, mainly because very few players can or will use it. It actually is more dangerous for the player using it than for the man being blocked. Unless it is done right, it could cause a bad neck injury."

Sauer said: "If they want to outlaw that block, then I don't see why they don't say it is illegal to use a shoulder block. Shoulder pads are just as hard as a helmet. And they could argue that a runner who brings his knees up high and hard is illegal. Knees hurt more people than helmets do."

ACCUSED—Famed basketball coach Nat Holman faces suspension from the City College of New York faculty on charges of "neglect of duty" growing out of recent "point-shaving" scandal. Holman and two other members of the CCNY faculty were accused by a special committee of the Board of Education.

Texaco To Drill Deeper On SE Cochran Tester

The Texas Company has filed application with the Railroad Commission of Texas for permission to deepen its No. 2-G Mallett Land & Cattle Company, wildcat in Southeast Cochran County, to 12,250 feet.
The project is now drilling below 10,266 feet in lime and chert. It was originally projected to 10,000 feet to test the Devonian.
Location is 660 feet from south and west lines of section 9, block G, 1st survey and 14 miles south of Whiteface.

General Crude Quits Hudspeth Failure In Granite Formation

General Crude Oil Company No. 1 Merrill and Voyles, Central-North Hudspeth County wildcat has been abandoned and plugged on a bottom of 4,794 feet in granite.
The duster did not encounter any shows of possible commercial production of oil or gas.
Location was at the center of the northeast quarter of the northeast quarter of section 8, block 68, T&P survey. It was six miles southwest of Dell City and 65 miles east of El Paso.

General Crude To Drill Canyon Reef Wildcat In Fisher

General Crude Oil Company has staked location for a 6,000-foot Canyon reef lime wildcat in Southwest Fisher County.
It is No. 3 Edwin Aiken and is located 660 feet from north and east lines of section 250, block 3, H&T survey. That makes it one and one-half miles west of the Claytonville field.
Drillite is separated from the pool by two failures. Rotary tools will be moved in and drilling will begin at once.

Stanotex Finishes NE Extender To W-C Upton Pool

The West-Central Upton County has been extended to location north and east on the east side with the completion of Standard Oil Company of Texas No. 22-118 R. S. Windham.
The well was finished for a calculated daily flowing potential of 872 barrels of 54.1-gravity oil. Gas-oil ratio was 560-1.
Production was through a three-quarter-inch choke from open hole, 12,322 feet, where seven-inch casing was set and total depth of 12,449 feet.
Top of pay was picked at 12,327 feet on derrick floor elevation of 2,854 feet. Tubing pressure was 250 pounds with a pecker on the casing.

C-W Upton Field Gets New Oilier

J. V. Terrill of Midland has completed his No. 1-B O'Neal as a new oil well in the McCloy field of Central-West Upton County.
The well pumped 24 hours and made an initial production of 248.41 barrels of 32.1-gravity oil and no water. Gas-oil ratio was 60-1.
Production is coming from perforations between 3,906 feet and 3,909 feet after being shot with 540 quarts of nitro glycerin.
Top of pay is 3,923 feet and total depth is 3,759 feet. Seven-inch casing was set at 2,530 feet.
Location is 662.94 feet from south and 660.42 feet from west lines of section 184, block E, CCSD&RGNG survey.

C-E Denton Pool Given Two Tests

The Denton (multipay) field of Central-East Lea County gained sites for Wolfcamp and Devonian tests.
Sinclair Oil & Gas Company will drill No. 1 Pope to 12,800 feet, 330 feet from south and west lines of section 36-145-37.
The Wolfcamp project is Gulf Oil Corporation No. 6-G Lea-State, 2,310 feet from south and east lines of section 2-158-37. It will go to 9,500 feet.
Sinclair will dig No. 2-263 Lea-State as a project to test for Queena production in the multipay West Dolomite area of extreme Southeast Lea County.

Seaboard Finals Nolan Discovery

Seaboard Oil Company No. 2-B Billie Manka has been completed as a discovery from the Fry sand in Southeast Nolan County.
Operator reported a daily potential of 149.44 barrels of 36.4-gravity oil through a 20/64-inch tubing choke. Gas-oil ratio was 1,456-1. Production was through perforations at 5,420-5,428 feet.
Closest other Fry production is five and one-half miles southeast of the Hyton-Moore field. Location is in section 21, block Z, T&P survey.

Another Producer Fined In Trend

The Blackwood & Nichols Company No. 1-C Malone has been completed in the Weiner-Floyd area of Northwest Reagan County.
The well was completed for a calculated daily flowing potential of 673.44 barrels of 40-gravity oil.
Potential was calculated on an actual six-hour flow through a one-half-inch choke and from open hole between 6,153-6,260 feet. Gas-oil ratio was 862-1 and tubing pressure 200 pounds. Pay was fractured with 3,000 gallons.
Location is 1,985 feet from north and 1,986 feet from west lines of section 9, block A, H&W survey.

THE SWAMPER
by Joe Salmon

Jack Fina, hailed as one of the nation's outstanding pianists, arrangers and conductors, will bring his orchestra to Midland Friday night for the West Texas Geological Society Annual Dinner.
It will be held at Ranchland Hill Country Club, starting at 9 p.m. The band will play until 1 a.m.
Tickets may be purchased from Clem George of Anderson-Prichard Oil Corporation, chairman of the

Sinclair Finals Driver Producer
Sinclair Oil & Gas Company has completed its No. 9 J. B. Calverley as a new producer in the Driver (Spraberry) field of Southwest Glasscock County.
The well flowed 24 hours through a two-inch opening to make an initial production of 134.17 barrels of 36.4-gravity oil and no water. Gas-oil ratio was 1,130-1.
Top of pay is 6,870 feet and total depth is 7,800 feet. Five and one-half inch casing is set at 7,799 feet. Production was natural from perforations between 6,870 and 7,758 feet.
Location of the new well is 1,980 feet from south and west lines of section 31, block 36, T-4-S, T&P survey and 17 miles southwest of Garden City.

Jack Fina
dance committee and Fred Forward, W. E. (Bill) Gipson, Booker McDermott and Leo Goodwin.
Jack Fina and his orchestra of radio, motion picture and recording fame, has made personal appearances at such outstanding places as the Coboanut Grove, Los Angeles; Waldorf-Astoria and St. Regis Hotel, New York; Palmer House and Edgewater Beach Hotel, Chicago and St. Francis Hotel in San Francisco.
In radio he has appeared on the Jack Carson show, Campbell Soup, American Oil and RCA Magic Key.
The band also has played in numerous motion pictures.
Fina gained fame for his modern interpretations of Tchaikovsky and Rachmaninoff while spotlighted at the piano with Freddy Martin's orchestra. It was Fina's playing of Tchaikovsky's "Piano Concerto in B Flat Minor," introduced as "Tonight We Love," that made modern-music history. His arrangement has sold more than 2,000,000 records.

PRIVATE TALK—President Harry S. Truman, left, greets President-elect Dwight D. Eisenhower in the President's White House office. The nation's outgoing Chief Executive and the President-to-be conferred on important matters relative to the change-over in administrations, the first in 20 years.

Truman Lauds Army Colonel Raps Shivers Views On Control Of Water

(Continued From Page One)
meeting in New York with Senator Wiley of Wisconsin, who will become chairman of the Senate Foreign Relations Committee in the new Republican-controlled Congress.
Wiley said Eisenhower "is completely dedicated to the principles of the UN and re-emphasized his agreement with the principle of no forcible repatriation of Communist prisoners."
Alter Truman's reference to this, a reporter said the wording of Wiley's statement has been taken to indicate the general is agreeing only with the principle of the United Nations stand on prisoners of war and does not necessarily endorse the specific UN position.
Truman said he would meet again with Eisenhower before the general takes of the White House—if Eisenhower wants another meeting.
Truman said last Tuesday's meeting with the President-elect was given over almost entirely to foreign affairs.
He said the prisoner-of-war issue was one of the subjects discussed and that they also talked about the Iranian problem.
He didn't give any details.
On other subjects:
Truman said he expects to meet Gov. Adlai E. Stevenson sometime around December 1, when the defeated Democratic presidential candidate is coming to Washington.
He said again that he regards Stevenson as the head of the Democratic Party.
Mum On Future Plans
Asked if he would recommend a new chairman of the Democratic National Committee in place of Stevenson's man, Stephen A. Mitchell, Truman replied that he would ask the governor for nothing—that he would merely offer cooperation in reorganizing the Democratic Party.
Laughingly, Truman said in reply to a question that it is very much too early to discuss what he himself will do after leaving the White House.
He went on to say that he does not know himself yet what he will do eventually—that for a while he is not going to do anything but sit down and enjoy himself.
He said he'd have some information to make public about his plans on January 21, the day after inauguration.
He did say, however, that he does not plan to maintain an office or an apartment in Washington.

DALLAS (AP)—If Texas wanted complete control of her rivers, she should have paid the entire cost of dams on the streams, the Southwest chief of the Army Engineer Corps said.
Col. Herbert D. Vogel, expressing "complete surprise" at Gov. Allan Shivers' attack on federal control of water behind Whitney Dam, said the Engineers must regulate use of water behind the dam and other such federally-financed structures to make sure the water is used the way Congress intended.
Vogel added that when Texas agreed for the Army Engineers to build dams within its boundaries it gave assent to the concept of federal control. Water behind the dams, he explained, must be used so that the federal government's expenditures will be repaid.
Vogel's remarks were brought on by a Shivers address before the Conference of Southern Governors Tuesday in New Orleans. The governor then said he would ask the attorney general to sue the federal government to find out who controls water impounded behind federally-built reservoirs.
For 'Maximum Benefit'
Said Vogel: "Obviously, if Texas wanted complete control it should have paid for the dams itself. But events have proved that this is too big a financial burden for any state requiring a vast flood control system."
Vogel agreed that the water belongs to the people. He said the question is control and the Engineers try to use the water so that the state gets maximum benefit.
"We have no desire to argue with Governor Shivers or any other official," the colonel said. "We are down here as public servants and have always worked harmoniously with the state."
"We have the responsibility for flood control and other work, and we must have the authority to carry out these responsibilities," Vogel added.

Auto-Train Crash Takes Three Lives

RED ROCK (AP)—A train and car collided here Wednesday, fatally injuring three members of one family.
The dead were identified as Mary Jo Weeks, 11, daughter of Mr. and Mrs. Jack Weeks, Lot 1, Texas; Mrs. Shirley Frazer, 17, another daughter and wife of a soldier in Korea; and Glenda "Patsy" Maier, four, niece of the Weeks.
Mrs. Weeks and her 14-year-old son, Kenneth, were injured. The boy's condition was described as critical by attendants at a Bastrop hospital.

Federal Indictments Charge Grey Market Oil Pipe Sales

WASHINGTON (AP)—The government contends that about 568 tons of pipe were diverted from the drilling of wildcat wells by independent drillers to the Texas Company when that company already had been authorized a regular allotment of such pipe.
The Justice Department said Texaco "paid about double the... selling price and extra freight charges, the 'grey market' profits be" about \$100,000."
The department said those named in the indictment were The Texas Company, Superior Iron Works and Supply Company, Inc., William G. Taylor, assistant manager of The Texas Company's purchasing division; Clayton B. Watson, Superior's treasurer; L. O. Verbruyck, Superior's New York representative; and Charles Jackson, Irving Singer, George B. Mahler, James E. Zoes, and Norman Mintzer, all of New York City.
The case is the first of its kind under the Defense Production Act.

Borger Gets New Rent Stabilizer

BORGER (AP)—The Office of Rent Stabilization has named C. J. Lockhart rent stabilizer for Borger and Hutchinson Counties. Lockhart succeeds Calvin Ashley who will practice law in Wichita Falls.
Lockhart was transferred here from the Temple office.

Cotton

NEW YORK (AP)—Thursday noon cotton prices were 20 to 25 cents a bale lower than the previous close. December 34.62, March 35.38 and May 35.71.

Midland National Guards Undergo Federal Inspection

Officers and men of Company B, Second Battalion, 112th Armored Cavalry Regiment of the National Guard were drawn up in full regalia at Midland Airport Wednesday night. The occasion was the "Big One," the annual federal inspection conducted by the Inspector General's office. Company "E" had been preparing for months for the inspection.
Col. E. J. Bond, I. O. from Fourth Army Headquarters at Fort Sam Houston came to Midland for the examination of the National Guard unit. He said the status of Company B was generally satisfactory, with marked improvement in some phases. But the colonel said attendance at guard meetings here could be bettered.
A medical detachment of the 112th Armored Cavalry Regiment, which is stationed also in Midland, underwent inspection, too.
Examination of Company E by Colonel Bond included inspection in ranks, color drill, and questions asked at classes conducted by units of the National Guard outfit.
Present for the inspection were the four officers of Company E, Capt. Max A. Schumann, commanding officer; First Lt. Paul H. Jones, Jr., executive officer; Second Lt. William A. Bourland, platoon leader, and W. O. Douglas C. Hedges, unit administrator. Capt. George Utermohle, battalion adjutant, came down from Peecos to observe the inspection.
Also attending the inspection were two officers who regularly drill with Company E, Capt. Ed Gideon, battalion sergeant major, and Capt. Frank Johnson, battalion communications officer.
Colonel Bond examined administrative records of Company E Wednesday afternoon, preliminary to the main inspection.

Sabre Pilot Breaks Speed Mark Of Operational Craft

THERMAL, CALIF. (AP)—A roaring, flame-spewing F-86-d Sabre jet plane piloted by Capt. J. Blade Nash of Edwards Air Force Base has established a new unofficial world speed record—699.3 miles per hour.
Captain Nash, 31, whose home is in Moline, Iowa, made four low-level passes Wednesday over a measured three-kilometer course at the edge of the Salton Sea, 235 feet below sea level. His performance was made under rules of the Federation of Aeronautics which require that the National Aeronautics Association, which must verify it before it becomes official.
In shattering the record for operational aircraft in the North American all-weather interceptor, Captain Nash topped the 670.981 miles per hour mark set last September 15 by Maj. Richard L. Johnson at Edwards AFB. Johnson used an earlier Sabre model, the F-86-a, Near Sound Barrier.
At his top speed Captain Nash's plane nosed toward the dangerous compressibility of the sonic wall. The speed of sound in the 75-degree temperature of the lake shore was about 775 miles per hour at the time of the test runs in the Imperial Valley.
The rules under which the flight was made specified that the plane must not fly higher than 1,540 feet. Actually, Captain Nash made the four passes at not more than 100 feet off the sun-swept earth of the eastern shore of the inland sea. He was monitored by four T-28 training planes and timed with high speed movie cameras and a special chronograph system.
The North American Sabre carried 24 rockets in a retractable launcher and weighed about nine tons. It was powered by a General Electric turbojet with afterburner developing in excess of 5,700 pounds thrust.

Oil Well Drilling Operations Due To Increase In Sector

"Replay in the Spraberry trend is on the wane, and West Texas oil operators may have to look to the Delaware Basin for new play," H. E. (Doc) Ward said Thursday in addressing the weekly meeting of Rotarians at the Cactus Club. But he continued his talk on geology by predicting a high rate of activity in West Texas oil well drilling operations for the future.
The principal speaker was introduced by Delbert Downing, Chamber of Commerce president. Vice President J. P. Carson presided in the absence of President Richard S. Brooks.
J. Ross Bosman introduced guests. J. P. Wilkinson gave the invocation.
Announcement was made that the proposed joint meeting of Lions and Rotarians next Wednesday was called off. The Lions will hold their session without the Rotarians.
There will be no Rotary meeting next week due to the Thanksgiving holiday.

Senate Secretary Talks Of Retiring

WASHINGTON (AP)—Secretary of the Senate Leslie L. Biffle said Thursday he is thinking of retiring after 44 years on Capitol Hill.
Biffle's job will be forfeited to the Republicans when they take over control of the Senate in January. Indications are that J. Mark Trivette, present secretary to the minority, may be picked for the job.
Biffle, who is 63, told reporters he has no plans for the future except to take a long vacation.
There were indications, however, that the Democrats would ask him to stay on as director of their Policy Committee, or in some other post.

Engineer Receives License

A. J. Vogel of Midland has received a license from the Texas State Registration Board for Professional Engineers.
When a graduate engineer has had four years of experience satisfactory to the Board of Examiners, he is granted a license.
Vogel is a graduate of the University of Texas.

Civil Service Sets Accountant Exams

Examinations for accountants (comprehensive audits) in the General Accounting Office, and highway engineer trainees in the Bureau of Public Roads, Department of Commerce, was announced Thursday by James Tabor, Civil Service Commission secretary at the Midland Post Office.
The accountant positions pay from \$4,205 to \$10,800 a year and are located in Washington, D. C., and in various large cities throughout the country.
The highway engineer trainee jobs, paying \$3,175 and \$3,416 a year, are located in Washington, D. C., and throughout the country and, in some cases, in foreign countries.
Further information may be obtained from Tabor.

FBI Joins Luchese Search With Deportation Warrant

NEW YORK (AP)—The FBI hunted Thursday for Thomas (Three-Finger Brown) Luchese in the wake of State Crime Commission hearings which recessed with testimony aimed at a former judge's financial affairs.
The state probes looking into political-underworld links no sooner suspended the public hearings Wednesday than U. S. Attorney General James F. McGrath authorized the FBI to search for Luchese, wealthy garment manufacturer and ex-convict described as a boss racketeer and king of politicians.
Luchese previously testified privately before the commission but balked at talking at the open hearings.
A two-day search by a U. S. marshal and two deputies failed to locate Luchese. The government seeks to take away his citizenship and deport him to his native Sicily. Officials are hunting him to serve denaturalization papers. He allegedly concealed arrests in obtaining citizenship.
In the final hours of the commission hearings, witnesses described the financial dealings of 71-year-old retired State Supreme Court Justice Aaron J. Levy, appointed last year as a court referee. The commission introduced records, purporting to show that Levy's known receipts totaled \$291,000 from 1942 to 1951, including what he spent \$406,000 during the same period. Levy's judgeship pay over the six-year period amounted to \$188,000—\$28,000 a year.

Taft's Cabinet Suggestions Include Industrial Leaders

WASHINGTON—(AP)—Senator Robert A. Taft of Ohio Thursday was reported to be urging President-elect Eisenhower to appoint an industrialist as secretary of Defense.

The Ohio senator was said to have submitted the names of three businessmen for the post, without indicating any preference among them. They are:

Edward L. Ryerson, 68, of Chicago, director of the Inland Steel Corporation, and chairman of the board of Joseph T. Ryerson and Son. Ryerson is a Yale man, as is Taft.

B. E. Hutchinson, 64, of Detroit, vice president of the Chrysler Corporation, and chairman of its finance committee.

Charles McElroy White, 61, of Cleveland, president of the Republic Steel Corporation.

There have been some reports that Eisenhower might pick Senator Henry Cabot Lodge, Jr., of Massachusetts, who has been serving as his liaison man with government departments.

There were stronger indications, however, that the President-elect might ask Lodge to become a sort of assistant President and trouble shooter for him, with the rank of

ambassador-at-large.

Taft was said to be contending strongly that an experienced industrialist ought to take over the Defense Department and reorganize it from the bottom up. Eisenhower indicated during the campaign he favors some such shakeup.

Many Suggested

The three suggested by Taft formed only a part of a list of about a score of persons the Ohio senator named as deserving—in his opinion—of appointments in the new Administration.

Taft himself has maintained since he was elected in 1946 that he would like to see an industrialist in the White House.

B-36 Deters Russia, Says British Airman

FORT WORTH—(AP)—The one thing in the world today stopping Russia, says Britain's top airman, is the giant B-36 bomber plane, called America's A-Bomb carrier.

Air Chief Marshal Sir William F. Dickerson, who will assume command of the British Royal Air Force on January 1, said, "It is not the Army that is deterring him (Joe Stalin), not the Navy, and not the Royal Air Force. I say without any envy that it is the United States Air Force Strategic Air Command."

Sir William, opening a 10-day tour of U. S. Air Bases and defense plants Wednesday, spoke at a Com-vair dinner in his honor at River Crest Country Club.

"A peace with teeth," he declared, "is the only kind of peace the world's free nations can have at present."

Verdict Of Sanity Doooms Sex Slayer

SANTA ANA, CALIF.—(AP)—Convicted of murdering a 15-year-old babysitter last August, Billy Rupp Jr., 18, has been adjudged sane at the time of the crime, making his death sentence mandatory.

Rupp, a Yorba Linda, Calif., bee-keeper, was convicted last Thursday of the sex slaying of Ruby Ann Payne. The jury deliberated only 22 minutes Wednesday on his insanity plea.

Rupp was accused of molesting and shooting the Payne girl while she was caring for the children of Perry Dyer, his employer.

ence on his selections. He said in New York Wednesday he doesn't believe Eisenhower has made any cabinet choices. But he has indicated he thinks Eisenhower will give serious consideration to several on his list.

One of these may have been Thomas E. Coleman of Wisconsin, Taft's floor manager in the Ohioan's unsuccessful bid for the Republican presidential nomination at the Chicago convention.

Majority Leadership

Coleman declined to comment on reports that he had been offered the job of secretary of Commerce. While the cabinet speculation went on, there were increased signs that Taft is leaning toward a move to seek the majority leadership in the new Republican-controlled Congress.

The Ohio senator has told friends he plans an all-out effort to make the new Eisenhower Administration a success. He is said to feel that a lot of battling in the Senate can be eliminated if he and Eisenhower maintain close daily contact on legislative problems.

AMA Chief Says Doctors Protest Draft Because Time Wasted On GI Dependents

WASHINGTON—(AP)—The president of the American Medical Association says many doctors are refusing to volunteer for military service because they feel too much of their time is wasted treating wives and children of armed forces members.

Dr. Leis H. Bauer of Hempstead, N. Y., called upon the services to find out how much time military doctors spend caring for dependents because he said:

"Questionnaires sent to medical men on leaving the services cite this frequently as a cause of resentment

namely that they have been drafted from civilian life to take care of other civilians."

In urging an investigation by the armed forces, the AMA leader said Wednesday in an address prepared for the fifty-ninth annual meeting of the Association of Military Surgeons of the United States:

"The necessity for extension of the doctor draft law will depend in part on the answer to this question."

Dr. Melvin A. Casberg, chairman of the Armed Forces Medical Policy Council, said Wednesday doctors up

to 51 years of age without veterans' status may be drafted early next year unless the present outlook in doctor supply improves.

At another point in his talk, Dr. Furr asserted:

Unfavorable Comment

"The medical services of the armed forces are still suffering from unfavorable reactions, the result of the last war.

"There is no doubt that doctors were wasted at that time. Many were kept weeks and months in mobilization camps doing little. Others were assigned to duties of a nonmedical nature.

"Many, in fact, most, of these conditions have now been largely eliminated. . . . Unfortunately, this is not widely known. Former officers have tended to discourage men from going into the services, because of their unfavorable recollections of their own service."

He urged the armed forces to undertake a campaign of public relations among the civilian medical profession."

Army Has 'Who's On First' Game In Guardhouse Mixup

BATTLE CREEK, MICH.—(AP)—Official papers on file at the Army's Ft. Custer says Pvt. William John Tilley is being held in the guardhouse on charges of going AWOL.

But William, 22, is at his Detroit home attending to a concrete contracting business, while his 19-year-old brother Joseph sits in the guardhouse.

That is as it should be. Army officers ruled Wednesday, because it was Joseph who deserted last September. William was discharged in 1946, only the Army thought then he was Robert Tilley.

The mixup goes back to the war year of 1944, when 14-year-old William Tilley wanted to get into action. He was too young, so he assumed the identity of his brother Robert, who had been dead several years.

William or Robert joined up and served two years before being honorably discharged. He was married and the father of a son when his draft summons arrived in June.

At that point younger brother Joseph decided to help out and went into the Army as William. Three months later, officers said, he decided he didn't like Army life and returned home to become Joseph again.

So when military police went to Detroit Wednesday night to arrest William for being AWOL, it was Joseph they brought back with them.

Officers at the fort decided Joseph should take the punishment.

Odessa Is Selected New Baptist Pastor By Monahans Church

MONAHANS—The Rev. A. C. Hammett of Odessa, has been selected pastor of the Calvary Baptist church in Monahans, replacing the Rev. Raymond Smoot.

The 30-year-old minister has been active in missionary work in the

Rev. A. C. Hammett, Odessa, Midland and San Angelo area the last two years. He is married and the couple have a daughter, Shirley.

The Rev. Hammett, a Howard Payne College graduate, was pastor of churches in Brownwood and Carthage before going to Odessa.

The Calvary Baptist Church, located on the north side of Monahans at the corner of Guadalupe and Elm Street, is only five years old and one year of that was as a mission for the north side. The church occupied a new Spanish type \$20,000 building in November, 1951. A revival is planned for the first anniversary of moving into the new building. The pastor will hold the revival and T. D. Carroll of Henderson will have charge of music.

Adlai Eyes No Job In Public Service

SPRINGFIELD, ILL. (AP)—Gov. Adlai E. Stevenson says he is not considering any public service posts after his term of office expires in January.

But, the defeated Democratic presidential nominee told reporters Tuesday: "I would like the privilege of expressing myself from time to time on important issues," during the next four years.

TEXAS TRAFFIC UP
DALLAS (AP)—Motor-vehicle travel volume on Texas highways in September was up 4.3 per cent over September, 1951, the Commerce Department reported Wednesday.

The number of farms sold in the United States has tended to decline since 1946.

Fourth Marriage Set For Bertrand Russell
LONDON (AP)—The London Times announced Wednesday that Britain's most unconventional peer—80-year-old Bertrand Russell, world-renowned philosopher, Nobel Prize winner and earl in the peerage of the United Kingdom—is taking a fourth bride.

She is a 53-year-old American author, Edith Finch of Byrn Mawr, Pa., the Times says. The ceremony reportedly will take place in January.

Russell was divorced from his first three wives.

THAT WOULD BE LEAP YEAR, TOO

AUSTIN (AP)—Cher up girls, there may be enough men in Texas to go around by 1960.

A "marked increase of men workers" seeking jobs here was given as the reason by Robert H. Ryan of the University of Texas Bureau of Business Research.

Ryan's analysis of the 1950 census showed more women than men but a tendency toward an increase in male population because of Texas' growing industrialization.

Chinese Land Reform To Include Herdsmen

SAN FRANCISCO—(P)—Communist China has decided to extend land reform to the nomad herdsmen and peasants of remote Sinkiang province on the borders of Russia.

A Peiping radio broadcast, heard here, said the land redistribution program among four million people would take place this winter and next spring.

The Red broadcast promised that customs and religious beliefs of Sinkiang's many diverse peoples would be respected. There are many Moslems and Buddhists in the region.

FASTEST TRANSPORT—Powered by four turbo-compound engines, the Lockheed Super Constellation takes to the air for the first time, at Burbank, Calif. With a top speed approaching 400 miles per hour, and a cruising speed of almost 350 miles per hour, it is believed to be America's fastest transport plane. The black nose of the ship contains radar equipment, which will be installed in planes produced for military usage.

Youth Center Chatter

By NANCY LOU KLINGLER

Everyone on the campus of MHS is real excited about the things that are scheduled to take place this weekend. Saturday, as most of you know, is Homecoming. The Midland Bulldogs play the Lubbock Westerners. The 1950 Bulldogs were the last to defeat the Lubbock Westerners and the 1952 Bulldogs are going to try to pull the same deal. We wish them the best of luck. Every one is sure and come out there to help the Bulldogs to another victory.

There will be a Homecoming parade starting at 10:30 a.m. Almost all of the clubs in MHS are entering floats to try their best to win the prize that is going to the best float.

Congratulations to Agatha Sue Tabor Culppepper and "Spee". They are now the proud parents of a little baby boy—Michael Ross.

Martha Frick will be here Saturday and will stay about a week and a half. Martha now lives in Corpus Christi. She is coming home for the Homecoming.

Congratulations to Jean Bishop and her husband, Kenneth Pennington. They were married last Friday night.

Nancy Cooper was home from Texas University last weekend. Also home were Jackie Brady and Larry Mayfield who are attending Texas Tech. We forgot to mention it, but Nancy was last year's Catoico Queen.

While still on the subject of Queens, Barbara Ware was elected by the Midland High Student Body as the 1952 Catoico Queen. Her attendants are: Shirley Fannell, Mary Jane Miller, Othanna Gadberry, Faye Henshaw, "Fifi" Pryor, and Ardith Campbell. (We would like to note that these are not the order in which they came). Congratulations to all of you and we know that you are all very happy and proud.

Junior Play is History

The Junior Play now is history. Yes, the play, "The Seven Sisters," was presented Monday and Tuesday night. It was a very delightful play. Tuesday night there was a short informal dance after the play. There was a very large crowd as there always is at a dance.

Wednesday, the students of the Midland Public Schools were given a holiday. Yes, B-E Day was observed. It was clean-up day at the Youth Center.

Thursday night, there will be a sock-hop. No shoes will be admitted in the Youth Center. The shoes will be checked as you walk in the door. The reason for this is to shine the floor that was waxed Wednesday night.

Looks as though something has happened to Carol Garrison's hair. Yes, she now has a poodle. It looks very nice.

The Band majorities finally have gotten their new uniforms which have been ordered since last August. They surely are proud of them and they are very pretty.

Six weeks tests also are something of the past and many persons are very thankful that they are. Next Wednesday will be the fatal day for the last six weeks.

Twirl Season Ends

Last Saturday night ended Twirl Season. It ended with a bang. Rather a bang-up. Yes, Myrt said that it was the best dance ever.

Elaime Conger now has added another year to her life. Yes, she now is 16 years young, or old. Just which ever way she chooses to put it.

The students of San Jacinto Junior High School seemed to be very pleased with their victorious football team. San Jacinto Mustangs beat the John M. Cowden Junior High Bulldogs last Saturday afternoon.

Have you noticed the pictures on the bulletin board lately. If you happen to see yourself and you would like to have one, all you have to do is just simply tell Myrt that you would like for him to order one and pay him, and that is that.

The ping pong tournament will start next week. There are no fees for this tournament this year and there will be no trophies.

The Midland High School Student Council attended a meeting in Kermit last Saturday. Those attending were John Petty, Grace Bole, Virginia Kronlein, Jimmy Mashburn, Robert Stubbsman, Joy Glendinning. They were accompanied by Coach Jack Mashburn.

Glenda McNeal, who is the 1952 Football Sweetheart, will be presented to the public Saturday at the half-time of the Homecoming game between the Midland Bulldogs and the Lubbock Westerners.

Glenda is a sophomore. Everyone is very proud of the victory over the Amarillo Sandies. The Bulldogs have come out of it and are on the winning side again. The final score was 22-14.

Buzzy Bray, Snooky Roberts, Larry Clark, Doyle Brooks and Ronnie Krist all seem to have a new nickname. Ask them what it is and we are sure that they will tell you but out with a small explanation before telling or after telling.

Saturday Dance

Harold Paden looked as though he was going to go into the belt making business. Harold had about two or three belts that he had made for his father and smaller brother.

There will be a dance this Saturday. The reason that there won't be one on Friday is because of the game Saturday. The dance is just a regular dance.

Thanksgiving, there will be a formal dance, after the Odessa-Midland football game which will be played in Odessa Thanksgiving afternoon.

Those of you who have missed the

last several picture shows have missed some real good ones. Everyone seems to be very interested in the serial, "The Green Archer."

Schools get out Thursday and Friday of next week. This is for the Thanksgiving holidays.

Seems as though all of the news has been reported. We will be looking forward to seeing you Thursday at the "sock-hop."

An Alarming Trend

One of the great afflictions of modern-day federal government is the creeping silence that spreads through departments and agencies and blankets information from the American citizen ought to have.

World War II gave great impetus to this disease, until now it is of epidemic proportions. Military security was the great excuse for not telling the public the public's business, and the habit, once established, never was shaken off.

At times top government officials have been emboldened to suggest that department bosses should have it entirely within their discretion what to release and what not to, regardless of whether security is involved. Such a policy obviously could be designed for only one purpose—to insulate government from criticism of its mistakes.

Fortunately, the sharp outcries of the press and others usually have been sufficiently disturbing to cause the shelving of these extreme notions. But it still is not an easy task to find out nowadays what your government in Washington is doing.

And now, in an article in the current American Magazine, we read that the infection of government silence is making inroads even in local government. Local residents of cities are finding it difficult to get into meetings of town boards, school boards, planning commissions, and the like.

Perhaps this should have been expected. Local officials, seeing the example of the federal government, hardly could have helped imitating the practice.

Silence in government operations is a device aimed at political security. The official who can conduct his affairs without public scrutiny will be safer at the next election. But it is a strategy destructive of the aims of democracy—which feeds upon full information. And a new administration ought to set about quickly to reverse this alarming trend.

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1952, By The Bell Syndicate, Inc.)

Drew Pearson says: Eisenhower invited to Chile and Mexico; Stevenson and Truman to confer on Democratic Party's future; Democratic senators figure Senator "Lyn-Down" Johnson will live up to his nickname.

WASHINGTON—General Eisenhower has received two invitations to visit Latin America and is considering the possibility of making a good-neighbor trip there before his inauguration January 20.

The two invitations are from Mexico and Chile, both among the few remaining democracies in the Western Hemisphere. Although Chile now is under the presidency of General Ibanez, he was elected in a free election and has shown no tendencies toward dictatorship, although he staged an anti-U.S. A. campaign to get elected. The Eisenhower trip would help melt Ibanez' frigidities.

If Eisenhower makes the pilgrimage, he would follow in the footsteps of Herbert Hoover who made a good-will tour of Latin America between the period of his election and inauguration.

Some of Ike's advisers urge that since Latin Americans generally hoped Stevenson would be elected, he should go; thus dispelling Latin American predictions of a return to isolationist imperialism under the Republicans.

Senator Lyndon Johnson of Texas will be the new leader of Senate Democrats all right, but some Democratic senators aren't at all happy about it. They figure that "Lyn-Down," as he is nicknamed, will follow a pro-Republican line and there won't be much Democratic opposition to GOP policies.

What Senator Johnson did to ensure his selection was to start a telephone barrage the day after election to line up votes for himself. When freshmen senators such as "Scop" Jackson of Washington and Mike Mansfield of Montana were pressured by Lyndon there wasn't much they could say except that they would support him.

Later, Mansfield was asked by an older Southern senator why he had been stamped into endorsing Johnson. The new senator from Montana didn't have much to say. "Don't you think it's healthy to have Texans leading the party in both houses of Congress—Sam Rayburn in the House and Johnson in the Senate?" Mansfield was asked.

"I thought Lyndon was Sam Rayburn's boy," Mansfield replied. "And

son wants that job, let him have it." It isn't supposed to be known, but Governor Stevenson will come to Washington on or about December 1 to spend an evening with President Truman and chart the future course of the Democratic Party.

Truman will pretty much turn over the party to Stevenson at that time. One thing they will discuss is the chairmanship of the Democratic National Committee, now in the hands of Stevenson's former law associate, Stephen Mitchell. There are a lot of divergent views among Democrats to what lost them the election, but one thing they all agree on is that Mitchell did not help.

Mitchell did not call one meeting of the Democratic National Committee during the campaign, although urged to do so repeatedly. He would not even call regional meetings. He antagonized so many local leaders that many refused even to call him on the telephone.

Stevenson may insist on keeping Mitchell, but Truman and everyone around him will urge that he be eased out.

Taftites aren't at all happy over the appointment of Herbert Brownell, former campaign manager for Governor Dewey, as chief patronage adviser for General Eisenhower.

In their opinion this means that jobs, for which the GOP has been waiting 20 long years, now will go to the Dewey wing of the Republican Party.

Brownell is under instructions to clear appointments with GOP National Chairman Arthur Summerfield, who is a Taft man, and to work with the Republican National Committee. Furthermore, he is only to handle jobs below cabinet rank.

Nevertheless, leaders of the Taft wing are not at all happy. They foresee something like this immediately after the Chicago convention at which Dewey and Brownell were largely responsible for nominating Eisenhower. And it was fear that the Deweyites might take over patronage that caused Taft to write a special patronage provision into the "Declaration of Morningside Heights" after his breakfast with Eisenhower.

Brownell went down to Augusta quite unobtrusively and the first thing the Taft people knew he had come back to New York with his job-seeking arrangements in his hands. He is to set up a National job vacancies, check on loyalty, ability, etc., of candidates. And while he is instructed to check with Summerfield, the power to recommend—which is all-important—will be largely his.

Note—Regardless of Dewey's unpopularity inside his own party, he has picked some top men to run his administration in New York state.

Healey looked so impressed I was impressed myself. "One thing," he said, "what about the open safe?"

"Oh, yes... well, after he slugged them, the guy probably burned the safe to switch the rest of his phony money and then beat it without taking time to lock it. Maybe he was scared by the sound of Chris Witmer coming from the rec hall."

"Why didn't he just cut off the dough in the safe instead of taking time to switch back money for good?"

"I saved that one away. When we've worked out a plan thoroughly, you sometimes carry it out to the letter even if you're in a daze."

Healey shook his head, not caring for that. "I think you've got a loose spot there, too. But there's something else I've thought of—something that's really loose."

"What's that?"

"All my speculation adds up to the fact that the one who murdered Al was somebody on these

JACOBY ON BRIDGE

By OSWALD JACOBY

Written for NEA Service

"Please write an argument about the play of this hand," requests a San Francisco correspondent. "It has caused quite a stir in our bridge club here."

"West opened the ten of spades, and East overtook with the jack. East then returned a low trump, and dummy won with the ten. Declarer immediately led a second round of trumps, after which he was a dead pigeon."

"If South drew all of the trumps, he could take his four club tricks, but then the defenders would have the ace of diamonds and the rest of the spades. If South failed to draw the rest of the trumps, the opponents could punch out one of his trumps by leading spades whenever South knocked out the ace of diamonds. South would still wind up on the wrong side of the ledger."

"When the hand was over, North

Bridge hand analysis table with columns for NORTH, WEST, EAST, SOUTH (D), and South-North vul.

pointed out that declarer could have made his contract if he had led the king of diamonds at the third trick instead of drawing a second round of trumps. If the opponents took the ace of diamonds and led spades, dummy's remaining trump would stop a third round of spades.

"South admitted that the hand could be made in this way, but pointed out that this line of play would lead to defeat if either opponent had a singleton and managed to get a diamond ruff. He said that the question was whether the diamonds or the trumps were divided 5-1, and that he had merely made an unfortunate guess as to which suit would be so badly divided."

"Who is right in this argument?" North is right. South should fear a bad trump break far more than a bad diamond break.

If West held a singleton diamond, there is a fair chance that he would have led this suit to begin with. If East held a singleton diamond, there is a very good chance that he would lead the suit on winning the first trick with the jack of spades. What, however, actually took place? Nobody led diamonds, but East did lead trumps.

When East makes this strange return at the second trick, South should give East credit for having something in mind. There is some reason to believe that the trumps will break badly, and no reason at all to be worried about the diamonds.

WASHINGTON COLUMN

New Chief Executive Inherits Mountain Of Unfinished Work

By PETER EDSON

NEA Washington Correspondent

WASHINGTON—Before the new President can do a lick of work on his own administration of the next four years, he must clean up a lot of unfinished business left for him by the last Congress. This includes asking his new Congress for deficiency appropriations to pay the bills for running the government until next June 30, when the present fiscal year ends.

In an effort to show how much it could economize and cut back President Truman's budget request for this year, the last Congress did considerable deferring of appropriations. This may have fooled the voters somewhat. But it was perfectly obvious that sooner or later the money would have to be provided to meet these expenses which Congress had previously authorized.

So now, instead of being able to start fresh by cutting government expenses, the new administration must increase them. The amount of this increase now is estimated at \$1,800,000,000 minimum.

Biggest item on this list is \$800,000,000 to go to members of the armed forces for extra combat and mustering-out pay. The last Congress certainly was very generous in giving the troops these allowances. It was a noble gesture to win the soldier and sailor vote. The only thing neglected about it was providing the money to meet the payrolls. Now comes the day of reckoning.

Cuts Must Be Restored. Another big hunk of money—\$315,000,000—must be asked for to meet public-assistance payments to the states. Approximately \$140,000,000 of this is to restore cuts in public-assistance payment rates which Congress voted last year. The remainder is to meet obligations which Congress hoped wouldn't arise. But they did.

The Veterans Administration will be in with a similar request for \$54,000,000. It will be to meet increased GI bill of rights readjustment benefits, pensions and medical service payments.

Other deficiency appropriations to be met by the new administration include several minor items—anything less than \$100,000,000 being a minor item. \$15,000,000 for highway aid, \$23,000,000 for promotion of education, and \$123,000,000 for "contingencies." Pin money, to pay the cost of claims against the government.

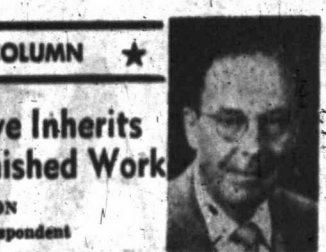

All the above mentioned items are sure-shot requests, itemized in President Truman's revised budget estimate of last August. In addition to these, however, there are a number of other possibilities staring the new administration in the face.

If fighting in Korea continues, it will be necessary to ask Congress for additional military appropriations next year.

point for the doubler. This is a minimum opening bid, and you would be happy to bid one no-trump if your strength were better distributed. With all of your strength in two suits, however, it is more informative to bid those two suits.

TODAY'S QUESTION. The bidding is the same as in the question just answered. You, South, hold: Spades 4-2, Hearts A-J-10-5, Diamonds A-K-J, Clubs 7-5-3. What do you do?

Answer Friday

Some of the government's so-called fixed charges, which can't be reduced at all, may be higher than anticipated. For instance, interest payments may be \$176,000,000 higher than estimated in January.

More Spending Requests. A few of the eager beavers in government, with pet projects to promote, may be expected to come forward with additional spending requests. Gen. James Doolittle, for instance, headed an Airport Commission which recommended a construction program that would cost billions.

The government now is working on the second five years of a \$500,000,000 Federal Airport plan authorized in 1946. Almost \$200,000,000 of this sum has been allocated, and \$185,000,000 spent. But Secretary of Commerce Charles Sawyer says the program should be stepped up by \$157,000,000 immediately to meet air-traffic needs.

Congress for years has refused to face up to the Post Office deficit, which now is running about \$600,000,000 a year. To reduce that deficit, postal service was cut down to one home delivery a day. That saved \$70,000,000 in 1949. But if this curtailment is restored, it will cost \$125,000,000 a year because the country has grown that much in the last three years.

There is, finally, a little matter in which the new President and vice president may have a personal interest. It concerns the exemption from taxation for the special expense allowances now given Mr. One and Mr. Two.

If the tax exemption is to be received by the new officials, Congress will have to approve it before inauguration day on Jan. 20, 1953. Otherwise it won't apply. And by the time the new heads of government learn their jobs, they'll no doubt think they're entitled to every dime they can collect.

Blue Ribbon Couple Harvest Fair Honors. IGNACIO, COLO.—(AP)—Bob Richards, 58, gets around on crutches and has no farm help to speak of, yet he managed to win a flock of blue ribbons recently at the annual Ute Indian fair.

Suplt. Elbert J. Floyd of the Consolidated Ute Agency says Richards is "just about the best farmer in the area." Richards won first prizes for sheep and threshed oats, alfalfa, watermelons, two kinds of fish and muskmelons. His potatoes, beets and tomatoes won lesser awards.

He also had found time to make beaded gaiters and a buckskin vest which won blue ribbons. Mrs. Richards was doing fine, too—seven blue ribbons in the canned goods and food preservation competition.

SLOWING PULSE. At birth, the average pulse rate is 134 a minute, being reduced to 110 during the first year of life. By the age of 14, the pulse rate has slowed to 87.

Murder she yelled

By Joseph Shellis

I WENT on with my theory of the murders: "I haven't rehearsed this part. But just talking at random, it might go like this. Our friend needed down to the bridge to pick up the dough, and nothing's there. Something's wrong, he doesn't know what. But there's still a pocketful of phony money burning his leg. At least he can burn something on that. So after the other friend goes back to the office, opens the door and gets the surprise of his life to find Al and Eddie there. Al takes one look and realizes it's his big itch. The blackmailer and safe-opener, Al jumps up, either to grab the villain or the phone, and the visitor snatches the nearest thing handy, the ax, and swings, first knocking out Eddie, then ruining Al. As an afterthought, he picks their sockets to make the crime look like robbery."

Healey looked so impressed I was impressed myself. "One thing," he said, "what about the open safe?"

"Oh, yes... well, after he slugged them, the guy probably burned the safe to switch the rest of his phony money and then beat it without taking time to lock it. Maybe he was scared by the sound of Chris Witmer coming from the rec hall."

"Why didn't he just cut off the dough in the safe instead of taking time to switch back money for good?"

"I saved that one away. When we've worked out a plan thoroughly, you sometimes carry it out to the letter even if you're in a daze."

Healey shook his head, not caring for that. "I think you've got a loose spot there, too. But there's something else I've thought of—something that's really loose."

"What's that?"

"All my speculation adds up to the fact that the one who murdered Al was somebody on these

You're due to get 75 per cent of the estate. The High Heel, the bank accounts, everything."

It was the most restrained show of enthusiasm on record. Eddie shook his head and said, "It is the wisest thing that ever happened."

Healey's head moved back warily. "What do you mean?" Eddie gave a smile that needed a crutch. "You tell me I'm suddenly rich, and I have to tell you I can't take the dough."

"How do you mean that, Fields?" Healey said weakly. "Just before I passed out, while I was lying in the office, Al moaned out he wanted everything to go to Kitty."

Healey sat there scowling at him. He got up and turned: "Why didn't you say something about this before?"

"I was waiting to see you." "You mean you're voluntarily giving up your claim?"

"What can I do? Cheat a dead man?"

I CAUGHT up with Healey down the corridor. "Where did Dillon and the will?" I asked. Healey kept walking. "In Kemmer's trunk through that trunk myself early yesterday morning. I didn't notice anything looked like a will."

Healey swerved around, his blue eyes sparking. "So you're the guy who broke the lock?"

"Somebody got there before I did." "Who?" "I don't know, but I think whoever cracked the lock borrowed some cancelled checks to copy Kemmer's signature on a fake will."

"What makes you think it's a fake?" "Simple. Al would never have left all that dough to Eddie Fields. He wasn't quite that crazy about him."

"Was he so hot on the Lane woman?" "No, he was thinking about ditching her, but he might have felt remorse."

Cranberries for Thanksgiving, of course. But just for a new and colorful aiant, serve them up in a light and beautiful peppermint-flavored angel cake.

Cranberry Mint Angel Cake

One and one-fourth cups fresh cranberries, 1 1/4 cup sugar, 1/4 teaspoon peppermint extract, 1 package Angel Food cake mix, butter icing, 3 to 4 drops additional peppermint extract (optional), 2 tablespoons light corn syrup, 2 tablespoons fresh cranberries, cut in half.

chopper using coarse blade. Add sugar and allow to stand 10 minutes. In the meantime, prepare cake mix according to instructions on the package. Stir in the chopped berries and peppermint extract. Bake according to package instructions.

To ice cake, prepare butter icing according to your favorite recipe and add peppermint extract, corn syrup and cut cranberries.

Cranberries can be made into a sherbert for one of the old-fashioned touches to a meal that always are good.

Cranberry Sherbert

(For Fruit or Meal—1 Quart)
Four cups fresh cranberries, 2 1/4 cups water, 2 cups sugar, 1 tablespoon gelatin (1 envelope), 1/4 cup cold water, juice and grated rind of 1 lemon, juice and grated rind of 1 orange.

Combine cranberries, water and sugar in saucepan. Cook until cranberries are soft. Put through sieve or food mill. Soften gelatin in cold water and dissolve in hot cranberry puree. Stir in fruit juice and rind. Cool. Pour into refrigerator tray and freeze until firm.

UN Group Admits Spain As Member

PARIS—(AP)—Spain was admitted into the UN Educational, Scientific and Cultural Organization (UNESCO) Wednesday by a vote of 44 of the 65 members.

France lined up with the U. S. and Britain in favoring admission of Spain into full UN membership.

Mexico, Uruguay, Yugoslavia and Burma voted against Spanish membership. The Netherlands, India,

Israel and the Scandinavian countries abstained. Cuba, South Korea and Saudi Arabia were not present. UNESCO's three members from behind the Iron Curtain—Hungary, Poland and Czechoslovakia—are not attending the current meeting and did not vote.

Daddy Ringtail

Daddy Ringtail
The Twelve Boxes

Daddy Ringtail, your monkey friend, and Mugwump Monkey, the monkey boy, were down on the Elephant Path with the present that Uncle Bunkum had sent from the zoo. The present was in a big, big, box.

Dr. Shoobug, the monkey doctor, had been there with them, but suddenly Dr. Shoobug had run away fast to see about a sick someone.

The Huffer/Puffer, the friendly wolf, had been there with them too, but suddenly the Huffer had run away back home to his hollow tree house to see about some Huffer business.

And what was the present there in the box? Was it a big, big something like the big, big box was big? Or, was the present a whole big lot of little somethings? "Well, let's open the box to see," said Daddy Ringtail. That is what they began to do. Oh yes they did!

Can you guess what was inside? Well, there inside the big, big box was a second box that was almost as big as the first box.

"Uh-oh," said Mugwump. He opened the second box, and

there inside it was a third box that was almost as big as the second.

"Uh-oh," said Mugwump. He opened up the third box, and there inside was a fourth box that was almost as big as the one before.

"Uh-oh me, this time," Raddy Ringtail said.

Mugwump opened up the fourth box, and there inside it was a fifth box. Nobody said "Uh-oh" at all this time. Mugwump opened the fifth box, and there inside it was a sixth

Stuff Pork With Sauerkraut

FRESH PORK SHOULDER plays a warming tune on chilly nights to the accompaniment of tangy sauerkraut and apple stuffing.

By GAYNOR MADDOX
NEA Food and Markets Editor
Brisk nights build large appetites for this recipe: fresh pork shoulder stuffed with sauerkraut and chopped tart apples.

Sauerkraut-Stuffed Fresh Pork Shoulder
(Serves 6)
One 5- or 6-pound fresh pork shoulder, skinned and boned, salt and freshly ground pepper, 1 No. 2 can sauerkraut, drained; 2 cups chopped, unpared apples, 1 1/2 teaspoon paprika, 2 tablespoons melted bacon drippings.

Have butcher make pocket in pork inside and out with salt and pepper. In a large bowl, combine sauerkraut, apples, paprika and bacon drippings; mix lightly but thoroughly. Fill meat pocket with this mixture, but do not pack too tightly. Close opening with toothpicks or skewers.

Place roast, fat side up, on rack in shallow pan. Cook until tender in moderate oven (325 degrees F.)

at 45 minutes per pound.
Here's another sauerkraut and pork recipe just right for this time of year. Sauerkraut is used abundantly now, incidentally.

Apple Sauerkraut With Roast Pork
(4 to 5 servings)
Two pounds of loin of pork, 2 teaspoons salt, freshly ground black pepper, 2 medium tart apples, 1 No. 2, 1 1/2 can sauerkraut, 1 small onion, chopped, 1 tablespoon brown sugar.

Season loin of pork with salt and pepper. Place on rack in open roasting pan with fat side up. Roast in moderate oven (325 degrees F.) at 40 minutes per pound, or until meat is thoroughly done.

Wash, core and chop unpared apples. In bowl, combine apples, sauerkraut, onion and sugar; mix thoroughly. About 30 minutes before roast will be done, pour off most of the pork drippings. Reserve for future use. Spread sauerkraut mixture around roast. Return roast to oven and continue to cook until done.

New System Allows Nurse-Patient Talk

NEW YORK—(AP)—A British hospital has come up with an instrument which enables the patient to talk direct to the nurse in her staff duty room. The British Information Service reports here that the system has been installed in the Catherine de Barmes Maternity Hospital, Salford, Manchester.

In the staff duty room is a loud-speaker master unit which has indicator lights corresponding to the exact position of the hospital bed. Each bed has a speaker-microphone until small enough to go under the pillow without causing discomfort. When the patient presses a button a low tone is heard indicating that the call note has been transmitted to the office. Simultaneously the appropriate light glows on the master unit panel. A single key switch enables the nurse to talk to the patient.

AMERICANS DONATE BOOKS
MANILA—(AP)—Americans, privately and in groups, have donated more than 250,000 books to the Philippine Library of Congress.

FOOTLOOSE COLLEGE MYSTERY—Officials of Baldwin-Wallace college, at Berea, Ohio, are faced with a "stocking" problem. The barefooted fact is that ten students over 6 1/2 feet tall have enrolled at the college, and the dean of men has been hard put to find beds for the towering scholars. Dean Scheffel Pierce has ordered 15 outsized beds, just in case. He's been promised delivery of five.

Ex-Fighter Names 'City' For Himself

CARSON CITY, MO.—(AP)—You won't find Carson City on the map but if you drive down Missouri Highway 21 it's hard to miss despite its lack of people.

Metal signs boldly proclaim the unincorporated "city" with its population of three. Actually it is a restaurant run by Lester Carstens, 48, just 3 1/2 miles south of St. Louis.

Carstens fought as an amateur under the ring name of "Kit Carsten," and the name stuck when he entered business. He formed the "city" easily last December by simply placing a large sign on the building and smaller signs at the entrances.

Carstens said some neighbors have indicated they would like him to extend his "city limits," but he plans to limit it to his wife, Carol, their son, Keith, 18, and himself.

Prunes, raisins and dates are all good to add to fruitcake batter. If the prunes seem dry, soak them before pitting and chopping. Soak the raisins too, then drain well and add. Dates need not be soaked.

For a pleasant cold soup for a hot weather meal, combine a can of condensed cream of celery soup, and a can of condensed tomato soup, and 1 1/2 cans (using soup can as measure) of milk. Chill for at least four hours and serve in chilled bowls. Garnish with minced parsley and accompany with cheese crackers.

★ DR. JORDAN SAYS ★ Examine Family For Pinworms If Children Are Reinfected

By EDWIN P. JORDAN, M. D.
Written for NEA Service
A mother who signs herself "Distracted" says that for the fourth time in two years she is treating her children for pinworms. In her letter she asks three questions concerning the common condition among youngsters.
First, she asks, "Why do the children continue to have pinworms?" I thought perhaps the whole family should be treated, but my husband refuses to cooperate. Second, she asks, "Is the children's diet in any way responsible?" And finally, she asks if there is any other way besides boiling to treat the bedclothing, towels and washcloths and personal clothing of the youngsters.
If the information given by "Distracted" is correct, her children have been cured of pinworms on several occasions, but have been reinfected. This is unfortunately a common experience and one can only guess as to whether the re-infection came from within the family or from outside.
Under such circumstances, however, all the member of the family should be examined for pinworms, including the husband, even though he has no symptoms.
The chances of re-infection are so great that in addition to hygienic measures, everyone with whom the children are likely to come in contact and thus become reinfected should be examined and given treatment if they are found to have these parasites.

In answer to the second question, it can be said that the diet is not responsible for re-infection with pinworms unless somehow or other pinworms are contaminating the food, and this could only occur if someone handling the food already had the worms.
This mother, like many others, evidently has been extremely careful in handling and serving food and in instructing her children in hygienic measures. The fact that she has boiled the washing so carefully and still the children have become reinfected, suggests the cause of re-infection lies elsewhere.
Wash Clothing Carefully
The parasites are rather delicate and die fairly easily outside the human body, so that it would probably be quite safe merely to wash the clothing carefully in hot water, then make sure that it is thoroughly dry.
Unfortunately, such experiences as that described are by no means unusual and about the only suggestion one can make is that still further efforts be made to identify all possible carriers of pinworms so that they, too, can be treated and will not serve as a source of future trouble.

Midlander On Dark Continent Notches Jungle Triumph Over 'King Of Beasts'

THE HUNTER WITH HIS KILL—Lewis S. Murphy, son of Mr. and Mrs. Clinton Noble, 1807 West Texas Street, displays a huge lion he shot recently in Ethiopia.

Stalking the "king of the jungle" is a terrifying experience, relates Lewis S. Murphy, son of Mr. and Mrs. Clinton Noble, 1807 West Texas Street, in his letters home. Murphy, who is stationed at Dire Dawa, Ethiopia, with the Sinclair Oil Company, recently went on a lion hunt and brought down his first kill.

Natives in the vicinity of his camp reported that lions were abroad, hunting the cattle, sheep and camels at the water well. Taking his Somali gun bearers with him, Murphy went out in a truck for the sport. When the evening shadows had begun to fall after a long wait, he spotted a huge male lion who had wandered in front of the truck headlights.

Simba, as the natives called the lion, lashed his tail and roared defiantly at the truck. Murphy reported that he broke out in a cold sweat, but from his position on top of the truck cab he leveled his rifle at the lion's heart and fired. The beast leaped in the air and fell slung in a fatal spot.

Waits For Mate
The hunter waited half an hour, as the lion's mate may have been nearby. Hunters had been killed who forgot about the presence of the female, when they shot a lion. Sometimes she would come charging out of the brush to attack the unwary

hunter. But no female showed up, and Murphy left the truck and loaded his lion in back and departed. He stopped at Galadi, a small native village, where the natives chanted and sang the praises of the "great white hunter," all the while beating the dead lion with sticks.

Murphy said in his letters to his mother that he had no great desire to participate in any more lion hunts, since he considered the sport too dangerous. He said the lions in Ethiopia were the most troublesome in the rainy season, and he related occasions when the beasts had contracted rabies and gone mad, killing anyone within reach.

Hot Rock Tea
He has been in Ethiopia since April, 1952, employed as a well logger by Sinclair, having signed up for a two-year hitch. On his way over, he stopped in Cairo, and saw the tomb of Mohammed, the Near East founder of the Mohammedan religion. Flying over the desert, he viewed Mount Sinai, where God gave the ten commandments to Moses.

While in Ethiopia, he visited the Somaliland region. The natives treated him with their own version of tea, which he heated by dropping a white hot rock in the cup. He returned the favor by giving them some tea water, which they consider a great delicacy.

Trading for horses there was a complex procedure. Murphy had to visit with the chief and praise his sons, even if a deal for horses was not made. A typical native "city" there was Jeomale, consisting of three grass huts and a store. The total area of the trading post was about one-third of a city block.

Shoots Giant Condor
He shot a condor in full flight, which when brought down measured 11 feet in wingspread. And he saw African guineas, which with their blue breast feathers and gray backs are more colorful than their American counterparts. Plenty of Panthers, lynx and hyenas were in evidence, along with the ever-present packs of lions, 10 or 12 in a group.

Flying over Ethiopia, he viewed a hill covered with thousands of black and white monkeys that frequently threw rocks at the plane as it went over.

Murphy said that the Ethiopian city of Dawa was ringed by mountains. In Addis Ababa he met the Russian delegate to Ethiopia, whom he characterized as polite but reticent. The Midlander became a fast friend of the son of the Duke of Harrar, who was the crown prince of Ethiopia. His new friend often lent him formal clothes for parties.

Thirsty Elephants
Haile Selassie, monarch of Ethiopia, is a fast friend of the United States. He has pictures of Franklin D. Roosevelt and Harry S. Truman prominently displayed on his desk.

In Nairobi, Murphy watched the animals come down to a watering hole to drink. A herd of about 15 elephants, with "Old Jumbo," their leader, came every night to splash and play in the water. And also present was "Ole Leo," the lion, as their British guide called him, along with a profusion of other wild animals.

The Midlander scaled the heights of Kilimanjaro, Africa's highest mountain, as part of his outdoor activities. The climb took four days and four nights. The mountain is an extinct volcano.

Ancient Walled City
Kilimanjaro is well-known as the scene for one of Ernest Hemingway's most famous stories.

Murphy also toured the old African city of Harrar, which was once conquered and held by the Turks in ages past. It was surrounded by a massive wall with seven ancient gates built by the Turks. While in the old city, he saw unbelievable poverty in evidence, with the poor chewing opium leaves in an effort to forget their miserable existence.

Lepers roamed the streets of Harrar at will, with no isolation system used to confine them. Murphy saw an Ethiopian funeral there, which curiously enough, was attended solely by women mourners.

Bulldozer Polo
The only men present in the funeral procession were the priest and the pallbearers. Apparently men were not supposed to participate in the burial of the dead.

Probably the most entertaining part of Murphy's recreation overseas was the practice of charging across the African plains with a Caterpillar tractor, knocking over ant hills and trees. The natives seemed to derive great pleasure from being chased by the tractor and ran about before it as if it were all a game devised for their entertainment.

Canadian Teacher Becomes Minister

CARDSTON CANADA—(AP)—For 20 years the Rev. Douglas S. Pitts kept postponing his ordination as an Anglican clergyman. There would be a postponement each time he was called upon to do Indian school work.

He climaxed 20 years' work in Indian schools recently by entering them inistry at the first Anglican ordination service ever held on the Blood Indian Reservation in Southern Alberta.

Mr. Pitts, who has been principal of St. Paul's Anglican Indian Residential School on the Blood Reserve near here, now is expecting an appointment to a parish. He is married and has two sons.

Self-Reproach For Lost Child Isn't Really Normal Grief

By MURIEL LAWRENCE
I have a letter from a mother who lost a little son four years ago. "I have never recovered" from his death," she tells me. "Sometimes I feel a great need to get away from my husband and other children. They do not understand what my little boy meant to me. There are days when I am so lonely for him that I wonder how I can go on..."

Once, I knew another mother who felt like that. After months of depression, she took her persistent grief to someone who was skilled in understanding it. Gradually, under his guidance, she was led to see that she did not suffer from normal grief, but from remorse. She had not wanted her last child—and when she lost him, self-reproach so dominated her that she could not accept the experience that denied her any possibility of atoning to him.

When she found the strength to accept herself, mistakes and all, she found that she could accept what had happened to her—and adopted a living child to atone to.

Normal grief does not isolate us from those who remain to us, but brings us very close to them. By stirring memories of our failures to make better use of the time we had with our loved person, it floods us with new awareness of the preciousness of our present time with others we love. Morbid grief acts as a separator from the living, bogging us down in guilt and self-condemnation.

It would have us believe that we are mourning the dead when we really are mourning a loss of proper love and acceptance of ourselves.

In overcoming it, we may find it helpful to stop regarding our refusal to forgive ourselves as "noble." It is not noble to indulge a constant sense of our unworthiness, although many of us have been taught that it is.

If we give such an attitude a little investigation, we begin to see that instead of being "noble," it is really arrogant and aggressive. For it implies that we regard our mistakes as rather special, different from those our neighbors make. It suggests that we expect such goodness from ourselves that it is intolerable to discover that we belong to the human race.

So I want to remind my correspondent that very few of us take full advantage of our opportunities to love our children. Not all of us wanted them and many of us begrudged them life. If we have learned to love them after they came, we have corrected our mistake. (All rights reserved, NEA Service, Inc.)

JACOBY ON CANASTA

By OSWALD JACOBY
More readers keep asking about the rules of Cut-Throat Canasta, so I'll repeat the important pointers. The game is for three people. Each player is dealt 13 cards. When you draw from the stock pile you take two cards at a time, but you discard only one card. Hence your hand tends to grow bigger all the time. Game is 7,500 points, and the rules for the initial meld are the same as in regular Canasta.

You can meld from your hand to begin with, but it's foolish unless you can meld out your entire hand (concealed). The player who first picks up the discard pile scores all by himself, and the other two automatically become partners against him for that hand.

When two players become partners, they keep their melds together, and they score together in exactly the same way that two partners meld and score in regular four-handed Canasta.

If one of them melds out, they both get full credit for all melds—less the amount left in the hand of the partner who did not meld out. If the lone player melds out, both partners lose the full amount of their combined hands!

The only meld that the two partners do not share is the credit for red threes. Each player always scores separately for his own red threes.

The scorepad has three columns, one for each player. At the end of a hand, the lone wolf (if there was one for that hand) gets credit for his score, and the two partners each get the same amount in their separate columns.

When one of the partners wishes to meld out, he must ask for permission to do so. If refused, he must continue; but he need not ask permission again if he wishes to meld out later on. The lone player has no partner and therefore never asks for permission to meld out.

The most important pointer to remember when you try the game is that two partners playing together can almost always pile up a score of more than a thousand points. Hence you don't become the lone player (thus taking on two opponents at once) unless you can get enough from the discard pile to give you a meld of about a thousand points likewise. It's fun to be the lone player, but there's no use in butting your head against a stone wall.

Try this game You'll like it immensely.

Models Help Engineers See Answers To Major Problems

KANSAS CITY —(NEA)—It's a small world—so small, in fact, that the Thunderjet airplanes rolling off the assembly line here would fit in your hat. And the automobiles that roll off would fit in your pocket.

The men who stand at the finger-nail-size drill-presses, lathes and workbenches come in the economy size, too—little taller than an inch in their workshoes.

This proportional world of still-life is far from the make-believe. Designed at General Motors' Kansas City plant, the model assembly line may be the solution to one of the nation's toughest problems. For engineers here are working toward

the production of military and civilian goods side-by-side.

Along with coupes, sedans and convertibles for civilians, deadly F-84F Thunderjets may soon be in production. The dual-purpose plant was suggested by C. E. Wilson, president of General Motors.

"The time it takes to go to war," he said, "is no longer the time it takes to train a soldier, but the time it takes to produce his arms and equipment."

Although the Kansas City plant will employ 10,000 men in the new production, the only work under way now is in miniature.

Now and then a giant hand—large enough to fit your glove—invades the little world. Rubber autos, cast-aluminum planes and tiny men of lead are rearranged. The turn of a machinist is as important as the turn of a lathe.

The usual blue-prints and plans, according to plant manager E. D. Rollert, did not tell the whole story. "We discovered that a three-dimensional model was worth a hundred two-dimensional layouts," he said.

What toy manufacturers and machine shops could not supply in the way of models, General Motors engineers built. All steps on the assembly line—from engine parts to drying ovens—were scaled down 48 times.

The by-products of model planning are beginning to grow, too. Engineers, calculating space, distance and time, have hit on a new device for turning jet engines in a complete circle on the conveyor belt—in miniature, of course.

U. S. milk production has increased very little in the past 10 years.

WT Area Gets Nine New Wildcat Tests

New locations reported to the Oil and Gas Division of the Railroad Commission of Texas totaled 43 for the last week in the West Texas area.

A total of nine wildcats was listed among the new projects. Mitchell County gained two of the new ventures. The remaining new prospectors were divided one each among Andrews, Crane, Ector, Howard, Pecos, Scurry and Yoakum Counties.

Midland County led with field permits, listing seven new explorations in James and Yoakum Counties each reported four new locations.

Three new drillsites were staked in Pecos County. Two new test wells were set in each of Andrews, Dawson, Howard, Loving and Ward Counties.

The remaining new locations were distributed one each to Borden, Cochran, Garza, Hockley, Kent and Reeves Counties.

Andrews County
Wildcat—Frank & George Frank of Houston No. 1-R University, 662 feet from south and 660 feet from east lines of the southwest quarter of section 38, block 13, University survey, rotary to 4,500 feet.

Amended: Wildcat—Novak Inc. and H. H. Drilling Company of Andrews No. 1 Home Stake, 1,980 feet from south and 661 feet from east lines of the southwest quarter of section 3, block A-34, pal survey, rotary to 5,500 feet. This well was plugged and abandoned as of August 1, 1952. Application to re-enter and drill out plugs and test the San Andres formation only.

Shafter Lake, North (San Andres)—Cities Service, et al No. 2-E University, 440 feet from north and

east lines of section 17, block 14, University survey, rotary to 4,700 feet.

Bullets Miss; Man Wrestles Antelope

LEWISTOWN, MONT.—(AP)—Alan Van Horn doesn't care for "antelope-dogging."

While hunting recently, Van Horn missed an antelope with five shots. The antelope ran toward him. He grabbed the animal's horns, rode-style and wrestled him to the ground.

"There I was with one foot on his horns and the other on his neck," Van Horn later related. "The buck was getting mad and I was afraid if I let him up he'd start after me."

Another hunter came along and took Alan off the horns of a dilemma by cutting the antelope's throat.
