**Oil, Water Found On Pennsylvania Test In NW Dawson**

Fonder Oils, Inc., of Midland No. 1 M. C. Lindsey, wildcat in Northwest Dawson County, developed oil mud, clean oil and some salt water on a drilltest, test in the Pennsylvania reef.

Interval tested was from 8,564 to 8,579 feet, total depth. Tool was open two hours. Gas surfaced in six minutes. No fluid came to the top while tool was open.

Recovery was 4,019 feet of fluid. This fluid was 3,340 feet of clean oil, 289 feet of mud-out oil and 390 feet of salt water.

Estimated top of the reef is 8,565 feet, elevation 3,155 feet. Operator was running electric log while at last report.

Location is 660 feet from south and east lines of the northeast quarter of section 109, block M, EL&R survey. It is one and one-half miles northwest of Pennsylvania production in the Mungerville field and 18 miles northwest of Lamesa.

**SW Martin Gets San Andres Test**

Drilling is to be started soon at a San Andres Permian wildcat in Southwest Martin County. It will be drilled as Joseph I. O'Neill, Jr., and Zephyr Drilling Corporation of Midland No. 1 Mabes.

It is approximately one mile south of the nearest production on the south side of the Mabes (San Andres) field.

Location is 1,980 feet from west and 660 feet from north lines of section 12, block 39, T-1-N, G&M&B&A survey. It is just inside the west line of Martin County.

The drillsite is about 20 miles northwest of the city of Midland. It is on a farmout from Magnolia Petroleum Company. Rotary tools will be used.

**Wagner Schedules 6,500-Foot Test In Crockett Area**

John P. Wagner of Helotes spotted location for a 6,500-foot wildcat in Central Crockett County.

Drillsite has been staked 1,960 feet from west and 660 feet from north lines of section 10, block 9, D&SE survey and 19 miles northwest of Odessa.

It is four and one-half miles west of the Kilkorn (Ellenburger) field. It will be drilled as No. 1-B Shannon Estate.

**Tom Green Gets Two New Tests**

Two wildcat locations have been staked for immediate drilling in Tom Green County.

Deeper of the pair will be drilled by Rowan Oil Company of Fort Worth and others as No. 1 E. H. Jones and others.

Location is 660 feet from north and 1,937 feet from west lines of block 888, Joseph Jung survey, A-1524 and six miles east and slightly north of Knickerbocker.

It will be drilled with rotary tools to 7,000 feet to test the Ellenburger.

**North Texans Dig Out; Snow Spreads East**

Telephone crews were restoring damaged circuits and the Panhandle was shoveling out of a blanket of snow Friday after a vicious but shallow norther blasted the northwest corner of the state Thursday and Thursday night.

Power and telephone lines were put out of commission by ice and snow. A dangerous glaze of ice made driving "extremely hazardous" and stranded many motorists temporarily.

Southwestern Bell Telephone Company offices in Dallas said 329 long distance circuits in the storm area were out of service at one time. Sixty-three men were working in the Panhandle-South Plains area to restore service. Reports said most of the trouble was from storm-caused shorting.

The company listed 14 towns without phone service Friday morning. They were Cotton Center, Olton, Edmondson, Silverton, Claude, Goodnight, Groom, Sunray, Bovina, Friends, Hale Center, Tulla, Lockney and Hereford.

Vega and Dumas were isolated Thursday but service was restored by Bell's emergency radio equipment.

Ten Inches At Akia  
The snowfall ranged from two to three inches at Lubbock to around 10 inches at Akia.

Snow reached into North Central Texas Friday. At mid-morning it was snowing at Sherman, Denton, Gainesville, Dallas and Mineral Wells. Taylor and Longview had rain.

At the same time, Laredo and Brownsville had blowing dust. The severe storm area in the Panhandle and South Plains was clear or clearing. Temperatures included Amarillo 25, El Paso 28, Salt Flat 22, Lubbock 30, Dallas 36, Wichita Falls and Midland 33 and Brownsville 55.

Overnight, the coldest temperature reported was 22 at Salt Flat. Winds blew into Dalhart in the northern Panhandle Thursday with velocities up to 80 miles an hour.

All highways in the Amarillo area were reported open to traffic Friday morning. The Highway Patrol said U. S. 66 east of Amarillo was restricted to one-way traffic. Traffic also was moving very slowly on Highway 287 between Amarillo and Clarendon. The patrol reported two or three inches of snow on the ground near Amarillo.

Motorists Stalled  
Hundreds of motorists sought refuge Thursday night in farm homes already crowded in some instances by school children who couldn't make it home after buses stalled in deep snowdrifts.

Police said they believed most of the motorists were towed to safety or abandoned their cars to spend the night in nearby farm homes.

All travel was blocked at Plainview after more than eight inches (Continued On Page 10)

**Diminished Winds Due Back In City**

The winds were expected back Friday afternoon after Midlanders enjoyed a morning of clear skies and radiant sunshine.

Winds of only 20 miles an hour promised some respite from Thursday's gales, which were recorded as high as 40 miles an hour at the Midland Air Terminal.

Friday afternoon's wind was due to hold the temperatures down to the low 60's. The noon reading at the Air Terminal hit 53 degrees.

**Air Force Scotches Rumors Of Red Missiles Over Japan**

WASHINGTON—(P)—The Aircraft Industries Association, calling attention to "the fast growing importance of guided missiles as an arm of this nation's defense," announced Friday it is setting up a special committee to deal with the flying robots.

Meanwhile, the Air Force spiked a rumor that the colored aerial objects seen over North Japan recently were Russian guided missiles.

"Pure conjecture," said an Air Force spokesman. "We have nothing to indicate any such explanation."

The Air Force has earmarked an estimated \$271,000,000 for its guided missile program in the fiscal year starting July 1. This is five times

**Pecos Board Acts To Halt Salt Menace**

The Pecos River Compact Commission moved quickly Thursday afternoon to prevent the release of an estimated 120,000 tons of concentrated salt brine annually into waters flowing into Texas.

The commission, winding up its one-day annual meeting here, instructed its Engineering Advisory Committee to study a plan for diverting the salt brine at Malaga Bend, to prevent it from emptying into the Pecos River.

The commission, headed by R. J. Tipton of Denver, Colo., will meet next Wednesday in Santa Fe to study the proposal and determine the cost of such a project.

The plans talked Thursday, wells would be sunk into the underground brine reservoir to pump out the salt-laden water to drying beds nearby.

The commission also decided to pursue a study of ways and means of preventing the loss of 55,000 acre feet of water annually because of the extensive growths of salt cedars at the head of the Pecos.

In addition, the commission approved a plan for employing a full-time director—at a total annual cost of \$25,000—providing the appropriations can be set up by the respective legislatures of Texas and New Mexico.

**Notrees Man, Odessa Girl Jailed In Postal Robberies**

SHREVEPORT, LA.—(P)—Eight persons are being held in connection with the burglary of four Texas post offices and the cashing of forged money orders in 10 states.

George T. Heaberg, Jr., postal inspector from Fort Worth, said Thursday three persons involved were J. R. Turner, 31, of Notrees, Texas, an escaped convict charged with the burglaries in Texas; Jau-nell Dyson, 20, of Odessa, charged with cashing forged money orders in Texas and New Mexico; and Robert Adams, 31, of Tracy City, Tenn., charged in Shreveport with attempted cashing of a forged money order.

Adams' arrest in Shreveport led to the arrest of Turner and the

**TERRIBLE TUMBLIN' TUMBLEWEEDS**—City crews Friday began cleaning up thousands of tumbleweeds like these blown into Midland Thursday by winds which reached a velocity of 40 miles an hour. Numerous homes in the northwest section of the city, like this residence of the Richard Dorns, 1409 Bedford Drive, were almost covered with the dry tumbleweeds, which Fire Chief Melvin Little described as a fire hazard. The tumbleweeds were being hauled to an empty lot and burned under the fire department's supervision.

**TO DISPOSE OF GM STOCK—Senate Committee Again Hears Charles E. Wilson**

WASHINGTON—(P)—Charles E. Wilson went before the Senate Armed Services Committee again Friday, his way now eased for Senate confirmation as Defense secretary.

The White House announced Thursday night Wilson had volunteered to dispose of his \$2,500,000 worth of stock in General Motors, the firm he headed before President Eisenhower picked him for the Cabinet post.

That decision, called for by key senators who cited a law forbidding a government official to have an interest in a firm doing business with the government, apparently removed the big barrier to confirmation.

Wilson's formal nomination went up only Thursday night and Chairman Saltonstall (R-Mass) called the Armed Services Committee into a closed-door session Friday to consider it.

Saltonstall said he expected the committee to give its approval before nightfall.

Wilson told a reporter he would prefer to have his testimony at a public hearing rather than behind closed doors.

"I guess it's too late to ask that now," he added.

In addition to the committee members, Senator Ferguson (R-Mich), a friend of Wilson, also was present.

Saltonstall said no action would be taken by the Senate committee on four Defense Department assistants for Wilson until their nominations were submitted formally by the White House.

Asked whether each of them also must agree to sell stock or securities in any corporations having defense contracts, Saltonstall said he

**LATEST PEALE BOOK COMING**

"The Power of Positive Thinking," the new, best-selling book by Dr. Norman Vincent Peale, noted clergyman, will appear serially, beginning Monday, in The Reporter-Telegram.

The book is termed "A practical guide to mastering the problems of everyday living."

In this new book, Dr. Peale Proves, by actual experiences, that an attitude of the mind can change lives, win success in all things and overcome all obstacles.

Dr. Peale's weekly column, "Confident Living," appears each Sunday in The Reporter-Telegram.

**Mothers Plan Help In Drive**

Volunteers for the Mothers' March on Polo next Thursday will receive worker's kits and instructions at a mass meeting Sunday, Mrs. Ray Howard, chairman, announced Friday.

There will be an out-of-city speaker and a movie for the meeting, to be held at 3:30 p.m. in the Cowden Junior High School.

There is an urgent need for many more volunteers to assist in the Mothers' March, Mrs. Howard said Friday, asking that all women who will assist attend the Sunday meeting.

Women wishing to volunteer also may contact one of the captains for the drive or call Mrs. Ed L. Gardner, telephone 4-8636, she said.

Captain assignments for the drive include Mrs. H. H. Redding and Mrs. J. B. Bain, Lamar School district; Mrs. Paul Anderson, North Elementary; Mrs. Ewing Hill, Sam Houston Elementary; Mrs. J. T. Smith, David Crockett; Mrs. Murray Frazier, West Elementary; Mrs. Tillman Allen, Carver; Mrs. John Rhodes, areas outside the city limits; and Mrs. Haskell Brady, Mrs. Joe Mims and Mrs. Alton Brown, trailer courts.

**100 Youths Exhibit Stock At Stanton**

STANTON—The Martin County Junior Livestock Show opened Friday with more than 100 exhibitors vying for almost \$500 in prize money.

Exhibitors for the two-day show include 4-H Club members and FFA members in both Stanton and Flower Grove chapters.

Premiums will be awarded in classes of milked steers, barrows, breeding gilts, capons and sheep.

**Thirsty Cities Offered Drink On New Basis**

STANTON—Fresh from its legal victory in the Texas Supreme Court, Martin County lifted high the olive branch of peace Friday in its bitter water battle with the Colorado River Municipal Water District.

County Judge James McMorries, often a spokesman for the Martin County Underground Water Conservation District, said he was ready to recommend an increase in water production allowances

**Midlanders' Blood Starts To Warfront**

The blood of generous Midlanders was winging its way Friday to the men in Korea.

For two days, the residents of Midland turned out in unexpected numbers to give almost 400 pints of the life-giving fluid.

"And some of it," reported Rosebud Stacy, executive secretary of the Red Cross Chapter here, "will be in Korea in three days, ready to be used by any of our boys who fall in battle."

Miss Stacy reported 395 pints of blood were taken during the two-day visit of the Blood Mobile here, well above the quota of 300 pints assigned to Midland.

"It was a mad house here those two days," she said, "but we feel like it was worth it."

The doctors were wonderful in their cooperation and we simply could not have done the job without the help of the wonderful women who volunteered their services while the Blood Mobile was here.

Women who took part in the operation of the blood donation center during the two days included members of the Children's Service League, the Modern Study Club, AATW, the Jay-Ceeettes, the Midland Service League, the Midland Memorial Hospital Auxiliary and other organizations.

The volunteers worked under the direction of Mrs. John Hills, assisted by Mrs. D. W. Rogers.

Under the Martin County district rules, the production of water is limited to 16 acre inches a year.

"I have heard—and it's just a rumor—that some of their wells over here are being pumped at the rate of 800 to 1,000 gallons of water a minute for 24-hour periods," the judge continued.

"That is way over the maximum. If they continue at that rate, they would have to shut down their (Continued On Page Ten)

**High Winds Blamed For Woman's Injury**

High winds were responsible for injuries which sent a Midland woman to Western Clinic-Hospital Thursday for emergency treatment.

Eddie Bryan, 23, Atlantic Tank Farm, started to enter the Tower Building. A sudden gust of wind pushed her to the ground, injuring her right ankle and foot.

**Cattlemen Draw Prison Sentences**

EL PASO—(P)—Prison sentences ranging from two to five years were imposed Friday on four West Texas cattlemen found guilty of smuggling cattle from Mexico.

Heaviest sentence in U. S. District Court was imposed on Walter (Dixie) Babb, Indian Hot Springs, Texas, rancher. He was given a five-year sentence on each of six counts of smuggling and transporting stolen cattle and two years on each

of two other counts, the sentences to run concurrently.

Wayne Babb, Walter's brother, was sentenced to three years on each of six counts and two years on another count, all to run concurrently.

Irvin Babb, another brother, was given a three-year sentence on his conviction on two counts and two years on another conviction, the sentences to run concurrently.

Sentence Suspended  
Joseph T. Marchant, Midland, Texas, cattle buyer, was given a two-year suspended sentence on his conviction on two counts and he was fined \$3,000. The court ordered that the fine be paid within 90 days or the sentence would be imposed.

Defense Attorney W. H. Fryer indicated an appeal would be filed. Appeal bond for each of the convicted men was set at \$5,000.

Three tractors from Big Spring, Texas, charged with the four men convicted, were found innocent by the federal jury hearing the case. They were Herman L. Fred and Leonard Wilkerson.

**Texas To Buy Land For Wild Bird Refuge**

AUSTIN—(P)—The Game and Fish Commission Friday agreed to buy land near Paris for a wild goose refuge.

Members decided also to appoint a committee to study the possibilities of operating a quail hatchery in connection with the refuge.

Cost of the project was estimated at \$111,000.

Film Actor Faces Fourth Charge Of Drunken Driving

LOS ANGELES—(AP)—Arrested a fourth time on a drunken-driving charge, actor John Agar faced a court appearance Friday for another alleged offense—violation of probation.

Terms of a previous drunk-driving conviction, for which he served 60 days at the county farm in 1951, specified that he should not drive a car during a three-year probation period.

Agar, 31, divorced husband of former actress Shirley Temple, went to jail twice Thursday.

The first time was after his arrest early in the day on charges of drunken driving and driving with a suspended operator's license.

A friend, film producer Hal R. Makelind, posted \$1,500 bail. The actor pleaded innocent to both counts and asked a jury trial, which was set for February 4.

As he was about to leave the Santa Monica court, he was re-arrested for alleged violation of probation. His attorney obtained his release from the West Los Angeles jail on a writ of habeas corpus and bail of \$500.

Agar's present wife, Loreta, and his mother, Mrs. Lillian Agar, were in the Santa Monica court at his arraignment. His wife said he left their home Wednesday night to take their French poodle, Rag Mop, for a walk.

The actor told officers he visited a friend in Malibu and was returning home when arrested.

Lions Gather In Midland

The first annual mid-winter conference of District 2-T-2, Lions International, will be held here Saturday afternoon and evening, with more than 100 out-of-city delegates expected to attend.

Herb Petry of Carrizo Springs, a past president of Lions International, and Joe Fisher of Jasper, a director of the international organization, will be the principal speakers.

Presidents and secretaries of the 38 clubs in this West Texas district, which extends from Lorraine to El Paso, will attend the conference as official delegates. All Lions and

their ladies are invited to attend the sessions, especially the luncheon, scheduled at 1 p. m., and the banquet at 7 p. m. A luncheon honoring the visiting ladies is set for 1 p. m.

All sessions are scheduled at the Ranchland Hill Country Club. Registration will get underway at noon Saturday.

The Midland Midland Evening and Terminal Lions Clubs are the host organizations. C. Ed Pritchard of Midland, zone chairman, and Norman Taylor, chairman of the convention committee of the Midland Lions Club, are in charge of general arrangements.

George Spence of Yaleta, governor of District 2-T-2, will preside at the business sessions. Jack Smith of Big Spring, deputy district governor, and James L. Daugherty of Midland, international councillor and a past district governor, will appear on the program.

Petry will address the evening banquet session and Fisher will be the luncheon speaker.

Presidents of the hosts Lions Clubs are L. V. Baasham, Midland Club; Gerald D. Johnson, Evening Club, and G. B. Goolsby, Terminal Club.

Mid-Winter Drive Adds 24 Members For Midland C-C

Twenty-four new members had been reported Friday as the mid-winter membership campaign of the Midland Chamber of Commerce entered its second week.

The new members are Albert Clement Motors, Tent Cafe, Reynolds Food Market, American Window Company, Mohican Cafeteria, Arrol Brown Grocery, Shaddix and Rogers Piano Company, Car and Truck Rentals of Texas, Paul Oles, Andrew A. Bradford Oil Company, McClatchy-Cleaners, Dale Parker, Keller and Peterson, L. B. Vaden, Five Star Oil Report, A and J Electric Company, El Capitan Oil Company, John Grimland, McClintock Studio, Howard Lumber Company, Bud Wilson Texico Service Station, Kent Auto Service, Cecil Dennis Chapel and Harry Fitch Studio.

The goal in the current drive has been set at 100 new members, which Chairman S. M. Erskine predicted would be reached by the end of next week.

He urged all volunteer workers to contact their prospects promptly, reporting results to the Chamber of Commerce office.

Screen Play To 'Tell All' Of Last Red-Hot Mama's Story

By ERSKINE JOHNSON NEA Staff Correspondent

Exclusively Yours: There will be no sugar-coating of the life that Sophie Tucker has lived when Betty Hutton plays the Last of the Red-Hot Mamas in "The Sophie Tucker Story."

Celebrating her sixty-fifth birthday at a party hosted by Jimmy Durante and Herman and Yvonne Haver before her opening at a niter, Sophie told me that the screen play will be based on her own handwritten story—"Some of These Days"—with all the gaudy passages her publisher omitted as "too frank."

"No honey, I won't let 'em sugar-coat me," Sophie said. "I didn't live my life that way. All through my career and life I've told people, 'Let me be myself. Don't try to change me or make me something I'm not.' I want an honest story that tells everything about me."

Hush-hush reason for Bing Crosby's withdrawal from his own golf tourney was a red light from his doctors. The Grosner is groaning from a gallstone—and faces an operation.

Rudy Vallee's plotting a return to the screen as the star of Jesse Lasky's "The Big Brass Band." Joy Lansing will take the Reno route to divorce. Lance Fuller, who admits that Pat Knight may be his next mate, told me: "I flipped over Pat. She's got me in a spin."

Walter Wagner is now living in Joan Bennett's home in case Joan's wondering how the reconciliation attempts are working. Joan's on tour with "Bell, Book and Candle."

Feud For Thought

Mario Lanza, now paly-waly again with MGM, is testing for the lead in "Kiss Me Kate." If he gets the role, insiders expect Kathryn Grayson to ask the studio to release her as the film's co-star. And that's feud for thought.

Tony Dexter and his estranged wife, Marjorie Craig, are close to the reconciliation announcement.

Bob Taylor's mother now is making it a threesome with Bob and Ursula Thiess. A close-to-the-air note?

Preston Sturges' deft staging of Robert E. Sherwood's "The Road to Rome" at his restaurant should have the studio lining up for his services as film director. Cheers, too, for Carolyn Jones as the feminine star.

Paramount may delete Joanne Gilbert's bit in "Houdini," made before she became a \$4,000-a-week nitery star. The studio figures the youngster is too good to be seen in a bit part now.

Diana Lynn is beaming. For the first time in her career the censors nixed some of her stunts for "Plunder in the Sun" as being too sexy.

WHY YOU GO BALD EXPLAINED BY SPECIALIST HERE SUNDAY

One of the most common causes of hair loss, the blocked follicle, is explained to a balding man by trichologist S. J. Mueller. Mueller's organization, largest of its kind in the South, is sending a specialist here to advise men how to correct hair troubles by home treatment.

Where you're growing fuzz you can usually grow real hair, trichologist says...

HOUSTON, Texas, January 23—New home treatment methods for growing thicker hair—and preventing baldness—will be demonstrated in Midland, this Sunday, January 25.

Trichologist G. M. Holden, from the staff of Mueller Hair Experts will be in charge. He will personally examine hair-worried men and women from 10 a. m. to 8 p. m. Sunday at the Hotel Scharbauer.

Examine You Free. In making the announcement at the home office of Mueller Hair Experts, director S. J. Mueller said: "I want to make it clear that you incur no charge or obligation by seeing Mr. Holden."

"Your only obligation is to yourself—to ease your mind of worries about hair loss, dandruff, itching, or other scalp disorders, by learning how to take care of your hair. If your case is beyond the scope of Mueller home treatment, Mr. Holden will tell you so. But less than five per cent of the people we examine are 'hopeless.'"

Offers No Cure-All. His method of home treatment, Mueller said, should not be confused with "mail order courses."

"We always make a personal examination before suggesting treatment," he said. "There is no cure-all for every scalp disorder. Each of the 18 disorders that cause most baldness requires a special treatment."

Mueller says that sometimes your treatment must be changed after a few weeks to get best results. "For this reason, you mail regular reports of your hair progress to the nearest Mueller office."

"Also, your scalp condition is checked personally by a Mueller trichologist at regular intervals."

Satisfy 90%. Does Mueller grow hair? Best evidence that he does is that his organization expanded quickly from one office in Houston to 13 offices from coast to coast: Memphis, Atlanta, Jacksonville, Miami, Nashville, Cincinnati, Tulsa, Oklahoma City, Dallas, San Antonio, Oakland, San Francisco. And in addition to these permanent offices, Mueller staff trichologists regularly do extension work in many other cities.

"Our biggest problem is not in doing what we claim to do," declares Mueller. "We satisfy more than 90 per cent of our clients."

"But overcoming the average

### Does Discuss Project Plans

Project plans and the election of a new officer and a new member highlighted the meeting of Drove 83 of the Benevolent and Patriotic Order of Does Wednesday night in the Elks Lodge.

Plans were discussed for fund raising projects to aid the drove's charity program. A bake sale will be held in connection with the game party Saturday night in the Elks Lodge, and plans also were discussed for a rummage sale.

Peggy McCourt was elected chap-

lain, and Mrs. O. W. Stice was named as a new member.

Refreshments were served during a social hour following the business session, with Mrs. Henry Krause and Mrs. Tom D. Frye presiding at the refreshment table.

Guests for the evening were Mrs. N. L. Adams of Wisconsin, Mrs. James H. Walker, Mrs. Gordon G. Geddes, Mrs. Viola Cunningham and Mrs. Alice Woody.

Members present included Mrs. W. T. Joyce, Mrs. Krause, Mrs. E. D. Richardson, Mrs. Herbert King, Mrs. Dolores Wilson, Mrs. E. N. Spire, Mrs. Frye, Mrs. D. H. Gwyn, Mrs. Bertha Kenney, Mrs. Ira Proctor, Mrs. B. J. Moore, Mrs. Charles Y. Romer, Miss McCourt, Mrs. H. B. Dunnagan, Mrs. Otis A. Kelley and Mrs. George B. Christy.

THE MIDLAND REPORTER-TELEGRAM, FRIDAY, JANUARY 23, 1953-3

### Oil Industry Is B&PW Topic

Waldo Grossman gave the program for a dinner meeting of the Business and Professional Women's Club Tuesday night in the Ranchland Hill Country Club.

He showed slides that gave the story of the Halliburton Oil Well Cementing Company's part in the drilling of an oil well.

Contributions also were made to the fund used to assist a needy family the club has "adopted." Guests were June Sparks, Mrs.

Rupert Cole, Mrs. Nelda Cooper, Mrs. Leola Owens and Mr. and Mrs. Waldo Grossman.

About 45 members attended, including four new members—Mrs. Lolita Cuffey, Mrs. Vivian Breith, Mrs. Maxine Mitchell and Mrs. Elsie Cole.

Keep a bottle of hand lotion on a kitchen shelf and use it before you put on kitchen gloves for quick beauty hand treatment.

### Methodist Circle Has Discussion Meeting

The Edwyna Kirk Circle of the First Methodist Church held a discussion meeting Wednesday in the home of Mrs. John Knox.

Mrs. Kirk gave the opening prayer and reported on the beginning of the Methodist mission at Terminal. The discussion was led by Mrs. Bill Bryant.

It was announced that next meeting will be held February 4 in the home of Mrs. J. H. Frazer, 424 Magnolia Street.

### Oldtimers Club Adds Members

Five new members were introduced when the Welcome Wagon Oldtimers Club held a Tuesday luncheon in the Ranch House.

They were Mrs. G. H. Dunagan, Mrs. F. E. Murrish, Mrs. F. M. Broene, Mrs. D. K. Spellman and Mrs. George T. Brown.

Mrs. William Caldwell and Mrs. O. E. Vaudell were hostesses for the meeting and Mrs. Vaudell, first vice president, presided in the absence of the president, Mrs. Cecil Snodgrass.

Members voted to schedule regular meetings on the third Tuesday of each month. Mrs. Broene and Mrs. Ed L. Smith will be hostesses for the February meeting, with the meeting place to be announced. Game prizes for the afternoon

### Mrs. Hardie Gives Program

went to Mrs. Brown and Mrs. Spellman.

Guests were Mrs. J. Y. Bunn, Mrs. James Pipkin and Mrs. C. R. Skidmore. Other members present were Mrs. Charles E. Champion, Mrs. Kate Black, Mrs. Charles Brunt, Mrs. J. T. Gist, Mrs. Otha Griffis, Mrs. V. A. Knight, Mrs. T. A. McCarty, Mrs. F. D. Richardson, Mrs. W. T. Soes and Mrs. Smith.

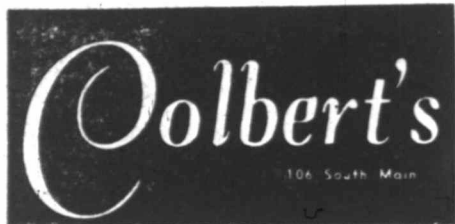

The meeting was held in the home of Mrs. John McKinley, 1301 West Illinois Street, with 10 members attending.

It was announced that the next meeting will be at 3 p.m. on February 4 in the home of Mrs. Charles Edwards, 1307 West Texas Street. A Bible Day program will be given.

When you are buying a covered roaster for holiday fowl, make sure that the roaster has good handles. For open-pan roasting, any kind of pan large enough for the meat and deep enough to hold the drippings may be used. A pan about 14 by 10 by 2 inches is a good size for most roasts.

Hard-cooked eggs, shelled and cut in half lengthwise or sliced, make a delicious luncheon dish when served with a hot spicy tomato sauce and crisp triangles of thin buttered toast.

## Planning Board Has First Meet

The Girl Scout Senior Planning Board held its first meeting Monday in the Little House.

Mrs. Deryl Bishop discussed the Senior Scouts' five point program which forms the basis of Senior Girl Scouting. The following officers were elected: Brownie Queen, Troop 13, chairman, Burnice Bell, Troop 31, vice chairman; Laurabeth Grienecke, Troop 20, historian; Mary Belle Ten Eyck, Troop 41, reporter and secretary, and Virginia Kroenlein, Troop 1, treasurer.

Plans were discussed for an area conference on Senior Scouting.

## Wednesday Club Chooses Officers

The Woman's Wednesday Club named new officers Wednesday at a meeting in the home of Mrs. W. G. Whitehouse.

Those chosen were Mrs. W. L. Kerr, president; Mrs. Paxton Howard, first vice president; Mrs. Erlie Payne, second vice president; Mrs. John Perkins, secretary; Mrs. C. R. Steinberger, treasurer; Mrs. C. W. Chancellor, corresponding secretary; Mrs. Robert Turpin, historian, and Mrs. Andrew Fasken, parliamentarian.

It was announced February will be Memorial Book Month at the Midland County Library. Anyone interested in donating a memorial book is asked to check with Lucy Carroll, librarian. The group voted to approve the courthouse extension which would house the library.

Mrs. George Glass read the Broadway play, "I Know My Love" by S. N. Behrman. Alfred Lunt and Lynn Fontaine starred in the original production which dealt with four generations of a Boston family.

Mrs. R. L. Miller presided over the business session in the absence of the president. Others attending were Mrs. Clyde Cowden, Mrs. Ida Fay Cowden, Mrs. Fasken, Mrs. Payne, Mrs. Perkins and a guest, Mrs. Flora Armitage of Little Rock, Ark., sister of Mrs. Payne.

Want a wonderful tasting hard sauce for your favorite dessert? Cream half brown sugar and half powdered sugar with the butter or margarine and add rum flavoring. Don't forget to add a dash of salt, too, for good flavor.

The Midland Country Club will hold its January dance from 9 p.m. until 1 a.m. Music will be by Lee Powers and his orchestra. Dinner will be served from 6 until 11 p.m.

The Midland Symphony and Choral Association will present a concert at 8:15 p.m. in the San Jacinto Junior High School auditorium.

The Midland Officers Club will have a dance from 9 p.m. until 1 a.m. in the clubhouse. Bob Goebert's orchestra of Odessa will furnish the music.

Those participating were Joann Jackson, Shirley Anderle, Kaye Dodson, Linda Hocker, Diane Morgan, Joe Campbell, Karen Hahn, Cleona Faye Salsberg, Joanne Ball, Teddy Mitchell, Donna Sue Tisdale, Joey Pylant, Cynthia Tucker, Denzel Perciful, Don Mauldin, Robert Furman, Judith Rose and Eupha Lowery.

The P-TA members voted to give \$15 to the new DeZavala School P-TA unit and to buy two coffee urns. Room attendance prizes were won by the fourth grade rooms of Louise Sullivan and Nettie Jo Burton. Mrs. Ray Howard, chairman of the Mothers' March on Polio in Midland, asked for volunteer workers to assist her.

Mrs. Eddie Frank Conner and Mrs. Thurman Pylant presided over the refreshment table during the social hour which followed the program.

Advertise Or Be Forgotten.

## Club Discusses Civilian Defense

"Civilian Defense" was the program topic Wednesday at the meeting of the Modern Study Club in the home of Mrs. Carl Westlund.

Mrs. J. W. Brown, hostess, was in charge of the program. Speakers were Mrs. W. B. Anders, who discussed the national phase of the topic, and Mrs. Earl A. Johnson, who spoke on state aspects. It was announced the Kiwanis Club had requested a representative from the Modern Study group to speak to them on the same topic. The club decided to launch a movement with the goal of interesting all Midland clubs in a constructive civil defense program.

Volunteers were requested for the Mothers' March of Dimes. It was reported several members were absent because of appointments to donate blood at the blood mobile. Membership pledges for the Women's Club, Inc. were accepted and a petition for an addition to the courthouse was discussed. Members were urged to pay their poll taxes so they could vote on this issue.

Attending, in addition to the above mentioned, were Mrs. M. H. Brady, Mrs. J. W. Carroll, Mrs. John Casselman, Mrs. John Daly, Mrs. Bryan Denson, Mrs. C. Richard Harrell, Mrs. R. E. Morgan, Mrs. Lee B. Park, Mrs. Brandon E. Rea, Mrs. Ed Shakely and Mrs. C. H. Shepard.

H. G. Brewer talked on the stewardship campaign and Mrs. Aycock presented the program on "African Heritage." Eight members attended.

## "Change of Life Made Me Scream at My Husband"

Writes Mrs. A. W., New York, N. Y. "Now I don't suffer from hot flashes and nervousness—feel fine," she adds. "If you, too, are suffering from the irritable, restless feelings and hot flashes of change of life—listen! In tests by doctors Lydia Pinkham's Compound and Tablets gave relief of such functionally-caused distress in 63% and 80% (respectively) of the cases! Complete or striking relief!" Yes! Research has proved these medicines thoroughly modern in the relief they give from those nervous, "out of sorts" feelings of mid-life "change!" Get Lydia Pinkham's Vegetable Compound or new Tablets with added 1 (Wonders!) too, for functional pain in this menstrual period. It acts through sympathetic nervous system to relieve distress of "heat waves!"

## Don't Fear Washing Gloves; Special Soap Will Handle Job

By ALICIA HART  
NEA Beauty Editor  
If you've ever hesitated to buy an exquisite pair of white leather gloves on the ground that you have not got the knack for washing them, you can go right out and satisfy

This girl doesn't fear washing her best kid gloves. Soil comes out safely with French soap balls made for gloves.

your desire for those gloves right now. A noted French designer and manufacturer of gloves has created a special soap that makes it easy for anyone to do a good job on washable leather or fabric gloves. To use this soap, you simply put on the gloves and "wash your

hands" with the soap and lukewarm water. Rinse thoroughly in several tepid waters. Don't wring or twist gloves, but press out excess water between layers of Turkish toweling. Lay them on towel to dry.

Three balls of soap are tied up in a black tulle bag, a red one for dark gloves and two white ones for light gloves. A tee stand holds the soap like a golf ball when you have finished using it and want it to dry.

White gloves are, of course, the thing with which to dress up any costume. Fashionables are wearing white angora and white wool jersey as well as the more traditional white-glace kid and doe-skin-finished lambkins.

Excellent quality white cotton gloves are being made these days with the same fine detailing and soft look and feel of the best leathers. They cost a bit more than ordinary ones, but certainly less than the leathers and can go anywhere that leather goes with equal aplomb.

Now, with this glove soap obtainable where gloves are bought, why not indulge your "great lady" taste and go in for white gloves passionately?

There are 31,522,400 seconds in a leap year.

## USDA Workers Get Jitters As Benson Talks Economy

**WASHINGTON**—(AP)—Thousands of job-nevver Agriculture Department employes wondered Friday where and when the axe will fall in Secretary Benson's announced plan for overhauling their agency.

President Eisenhower's new farm chief made plain in announcements Thursday he intends to cut the size of the department in an effort to economize on an agency which spends and lends more than any other civilian agency.

The great bulk of the department's 58,000 full-time workers have civil service status—that is, they cannot be removed without cause or unless their type of work is done away with.

A Benson memorandum to employes carried an implication that pay raises may be few and far between. It said most of Benson's aides "are serving at great financial sacrifice because they have a deep sense of public duty and a desire to be of service to agriculture."

Some employes interpreted this as meaning the new secretary would expect a degree of sacrifice all along the line. The same memorandum spoke of "the unprecedented public debt and continued high government expenditures" and of the public's expectation of economy in government.

Just which activities might be trimmed or eliminated was not indicated. He said the streamlining would unfold gradually.

However, much that the department does is required by law.

## Justice Department Must Decide Action On 'Militant Mary'

**JACKSON, MISS.**—(AP)—The job of collecting a \$42 social security bill from a Mississippi woman editor who refused to pay it is now a legal matter instead of an administrative matter.

James Enoch, collector of Internal Revenue who was unsuccessful in his year-long attempt to force payment by Mrs. Mary Cain of Summit, said Thursday the case is now in the hands of the U. S. Justice Department.

Mrs. Cain, editor of the Summit Sun, about 1,500 circulation, recently hacksawed a padlock and chain put on the building by revenue department agents in a tax lien seizure.

The 48-year-old woman editor, sometimes called "Militant Mary," maintains social security is forced insurance and she doesn't want any.

# Soil Conservation Experts Point To Future Difficulties

MINERAL WELLS —(P)—The men responsible for Texas soil conservation program were told here Thursday they must protect the progress they have made by working even harder.

Representatives from 166 soil conservation districts were here for the annual meeting of the Texas soil conservation district supervisors organization.

"If you don't think we have a job to do, just look out the window," Horace Fawcett, Del Rio rancher and member of the State Soil Conservation Board, said.

presented by Jack Garrett of Dallas president of the Texas Bank and Trust Company, which has sponsored the program to recognize outstanding supervisors.

Winners of four regional awards were Willis A. Hawkins of the Running Water District in Castro County, A. B. Scharlach of the Salt Saba-Brady District, Joe B. Bomba of the Atascosa District and W. H. McGinney of the Neches-Sabine District.

## Mexico Announces Sweeping Campaign To Cut Food Prices

MEXICO CITY—(P)—The Mexican government Thursday night announced a sweeping 300 million peso (\$6 million dollar) program designed to hold down food prices by boosting farm production.

Special emphasis will be placed on increasing output of corn and beans, Mexico's most important items, a government announcement said.

The program was worked out at a national meeting of top Cabinet members presided over by President Adolfo Ruiz Cortines.

Under the plan, 150 million pesos (30 million dollars) will be placed at the disposal of the National Ejido communal farm bank and the National Agricultural Bank for loans to farmers.

Another 150 million pesos will be set aside for the Department of Agriculture to help put into effect the government's previously announced plan to push planting of corn and beans.

The 1953 goal is for planting of 300,000 hectares (750,000 acres) of these two food items—90,000 hectares by communal farms and 210,000 by small private farms.

## WE'VE REALLY GONE NOWHERE

BUFFALO, N. Y.—(P)—Edward Jerszewski, chairman of the Board of Assessors of suburban Cheektowaga, is a man who likes to save time.

Eleven years ago, someone gave him a calendar. But he never got around to using it.

The calendar is perched on his desk now, perfectly usable.

Jerszewski gleefully points out that the dates this year are the same as in 1942.

## March Date Slated For University Fete

AUSTIN—The University of Texas has launched plans for the twenty-third annual Round-Up, which is to be held March 27-28. John A. McCurdy, executive secretary of the Ex-Students' Association, sponsoring organization, has announced 1953 activities will be held one week earlier than in previous years to avoid conflict with the Easter holidays.

Two days of varied activity will be packed into the program. The annual Round-Up parade on March 27 at 3 p.m. promises to be the biggest in the history of the event.

## Indian Says Reds Provide Profit, U. S. Lends 'Cook'

COLOMBO, CEYLON—(P)—Commerce Minister R. G. Senanayake asserted Thursday night Ceylon's rubber deal with Communist China had given the island commonwealth a big profit and assured employment, while four years of U. S. Point Four aid had provided only "a cook for a girl's farm school."

## Midland Firm Low On Howard Project

The T&L Construction Company of Midland has been awarded the contract to construct Big Spring's first sewage lift station.

The T&L bid of \$4,900 was about 28 per cent lower than three other estimates submitted. The firm promised to start the project in 10 days after the work order is issued and to complete the station in Northwest Big Spring in 30 working days.

CHINESE FETE—Peace Yuk Pung Yuen, above, of Honolulu, has gathered an armful of narcissus blossoms for use as decoration during the annual Narcissus Festival in Hawaii. The festival, which will be held February 8-16, marks the observance by the islands' Chinese of the Chinese New Year.

## Texas Veteran, 16, Advises Buddies To 'Stay At Home'

HOUSTON —(P)— Back home after a second hitch in the Army which took him to Korea, 16-year-old Ralph Renfro, Jr., advises other youngsters to "stay at home."

Ralph's mother recently ended his Korean sojourn when she sent his commanding officer a copy of his birth certificate.

The young world traveler and soldier of fortune, who looks like he might be 21, says he wouldn't go through his experiences again "for

a million dollars," but "I wouldn't take a million dollars for having had them."

But he adds quickly, "I should have listened to my dad." If he had it to do all over, he says, "I'd stay home."

At the age of 13, Ralph was roughnecking in an oil field. "By telling a slight fib," he said Thursday, he joined the 49th Armored Division of the National Guard in 1950.

Several months later he decided to join the Army, an idea his mother took as a joke because he was just 14. But he enlisted in September, 1950, and was discharged in 1951 because he had asthma.

A trip west—through Arizona, New Mexico, Nebraska, Colorado and Montana—was followed by shipping out as a crewman on a yacht. When the ship docked in New Orleans last year, he enlisted in the Army again.

At Camp Chafes, Ark., he volunteered for Korean duty. By this time his mother decided to let him stay in service until he had had enough.

A few months ago, Mrs. Renfro decided the boy was getting homesick and started action to get him home. He was separated from the service at Fort Sam Houston, San Antonio, Tuesday. He was glad to see "mom" and "dad," the latter a carpenter here.

## House Unit Plans Four-Ply Scrutiny Of Red Activities

WASHINGTON—(P)—The House Un-American Activities Committee is planning to focus its spotlight on four stages: higher education, organized labor, entertainment and government service.

The group, headed by Representative Velde (R-Ill.), mapped that course at an organization meeting Thursday.

Velde, a former FBI agent, told reporters committee investigators are virtually ready for hearings on two fronts.

1. A number of former educators who once belonged to Communist groups will be called for questioning before mid-February, and

2. The committee will open shop in Los Angeles, at a time yet to be set, to wind up last year's probe for subversion among movie and labor union groups on the West Coast.

## Civil War Veterans Made DAV Members

CINCINNATI—(P)—The Disabled American Veterans Thursday made the eight living survivors of the War between the States members.

The Civil War veterans include Walter W. Williams, 116, Franklin, Texas, and Thomas E. Riddle, 107, Austin.

The United States released 30 different issues of postage stamps in the record year of 1948.

COLORFUL WASHDAY—The women, above, have a long, long job of washing ahead of them. Employees of William Parrack's flag factory at Rochford, Sussex, in England, they will have scrubbed and hung up to dry an estimated ten miles of bunting by April. With the help of only 17 employees, Parrack is turning out the bunting which will decorate the Coronation route the Royal Procession will follow on the occasion of the Coronation of Queen Elizabeth II.

## FIDO CURED PEPYS' PLAINT— Londoners Are Quite Vexed; This Beastly Fog, You Know

By COLIN FROST

LONDON —(P)— Normally easy-going London finally is getting riled up about one of its long-time winter complaints—the city's famous pea soup fog.

In the last three months, four big sulphur-laden smog blankets have led to an estimated 6,000 deaths and seriously crippled communications in the world's biggest capital.

During one week in December, when the worst fog in recent memory muffled the city, the death rate jumped by 2,000 persons—more than doubling the normal figure for the period.

Most of the deaths have been attributed to bronchitis, pneumonia and heart ailments touched off by the king-sized overcast. The government says it is probing the fatalities with "the gravest urgency."

A fog costs big money, too. On each of 16 dark days thus far this winter, the big international airlines using London's two main airports lost an estimated 60,000 pounds (\$18,000) through delays and diversions.

Try Fido Again

The squeeze on the airlines is so bad that they are pressuring the British government, which runs the airports, to bring back the wartime fog disposal system known as "Fido."

Under this system, gasoline or diesel oil is set afire in blaring rows alongside airport runways. The heat shifts the fog.

"Fido" is expensive, but airline officials say it's cost is small in comparison to their losses. Peter Masfield, boss of the nationalized British European Airways Corporation, said:

"A fog costs us 20,000 pounds (\$6,000) a day. We are all in favor of Fido."

The National Smoke Abatement Society, a voluntary organization supported by hundreds of municipalities, has called for a full-scale investigation of the fogs.

The society has been studying reports of a U. S. government investigation into the 1948 smog disaster at Donora, Pa. The U. S. Embassy here also has offered to supply copies of the official report to members of Parliament.

The deadly smoke and fog that cost 19 lives in that Pennsylvania city was laden with acid fumes from industrial plants in the area. Similar chemical contamination also has characterized the London fogs.

And the problem has existed a long time. The famous diarist Samuel Pepys complained about London's pea soupers back in the 17th Century. King George II said at that time somebody should do something about them.

## Alabama Indians Reaffirm Loyalty, Claim For Riches

ATMORE, ALA.—(P)— Fifteen hundred members of the Creek Indian nation held a pow-wow here Thursday night to reaffirm their loyalty to the great white father in Washington and to seek 2 million dollars from the federal government.

Calvin W. McGehee, head of the Council of the Creek Nation, and an Atmore farmer, presented a progress report on the Indians' claim for payment for 23,267,000 acres of land in Alabama, Mississippi and Georgia.

The Indians contend the land was taken from them after they were defeated by Gen. Andrew Jackson in the War of 1812.

RECIFE, BRAZIL —(P)— Two thousand doses of a new drug arrived from Sweden Thursday night to combat a press-reported epidemic of fatal hiccoughs in infants but health authorities still denied there had been such an outbreak.

Pernambuco State Health Secretary Arthur Coutinho said 61 infants have died in the last three weeks in the poorer sections of Recife but he attributed their deaths to summer heat, faulty nutrition and lack of sanitation. The mortality rate in these sections is usually high.

The drug shipment was sent by a Swedish chemical company after a dispatch from Recife to a Rio de Janeiro newspaper reported 55 infants had died from violent hiccough attacks.

## McDonald's Leg Yields No Riches

SYDNEY, AUSTRALIA—(P)—The body of Scotsman Donald McDonald was exhumed Friday but the coffin didn't contain the wooden leg his relatives believe was the hiding place for a small fortune.

It was thought here that the retired seaman was penniless when he died in April, 1951, but relatives in the Isle of M. Scotland, asked that his body be exhumed. They said he may have stuffed his life savings in his wooden leg.

## Mail Clerk's Arrest Ends Three-Year Tax Nightmare

MIAMI, FLA.—(P)— For three years, strange antics of the U. S. mail caused sleepless nights for Ernest Overstreet, Dade County tax collector.

Hundreds of taxpayers complained that they had sent in checks, money orders and currency which never were received. Hundreds of outgoing letters never reached their destination.

The disappearance of mail had been driving me nuts for three years," Overstreet said. "I couldn't sleep nights because of the yelling of the taxpayers."

The mystery was solved Thursday. Postal inspectors arrested Charles W. Lewis, 32-year-old mail clerk in Overstreet's office, and said he admitted taking "thousands of letters" over a three-year period.

Many of the letters contained checks and money orders, Overstreet said, but Lewis apparently made no effort to cash them, taking only currency.

The actual money loss, he said, wasn't large.

"I believe the largest was \$20," he said, "but all those people—and many were poor—had to pay again."

"We've been averaging 150 complaints a year from people who said they had sent us money orders and 400 a year from persons who said they had mailed checks."

## HELP, POLICE, RUSH, QUICK

DECATUR, ILL.—(P)— Police sped to a street intersection Thursday in response to a report of a collision between two cars. No one was injured. The drivers, both women, told police they were in a hurry.

They identified themselves as Ellen Rush, 37, and Leona Quick, 38.

# 'YOU CAN'T BUY WORLD FRIENDSHIP'— Thought, Prayer Cited As America's Top Needs

The Oklahoma humorist from Chickasha committed more than 200 West Texans to laughter here Thursday night, threading, in a dare to think and a challenge to pray.

"Revive and resurrect the spirit which made America," Jeff Williams, much traveled lawyer, urged at the thirtieth annual meeting and banquet of the Buffalo Trail Council, Boy Scouts of America. "Clarify by action the things you believe in."

He appealed for an inventory to determine what the United States is up against.

"We are in a war of ideologies," Williams told the capacity High School cafeteria. "What people think will dominate the future."

With pointed reference to huge expenditures under the Marshall Plan and other American aid programs, the native Texan warned that "you can't buy the friendship of the world."

"Feed your many relative for four years and then try to throw him out," Williams drew a parallel. "Why, he'll cut your throat and burn down your house before night-fall."

Faith Brings Courage

Paying attention to worthy things was seen by Williams as the salvation of the future.

"Let there be a reward for thrift, honesty and energy," the straight-talking Oklahoman appealed. "We must fix a penalty for skulduggery and laziness."

Williams forecast improved conditions under the new Administration but cited history to show that troubles always beset peoples.

"Spiritual faith brings courage," Williams assured delegations from the nine districts making up the far-flung Buffalo Trail Council.

"The people of America ought to get down and pray." Obviously referring to the late Democratic registration in Washington, Williams cautioned:

"Civilizations are not murdered, they commit suicide."

With only one out of seven births occurring in the white race, Williams solicited help for worthy people. He reduced this appeal down from nations to next door neighbors.

Leaders Get Awards

Williams, who is acclaimed as one of the most sought-after speakers in the country, was introduced by School Supt. R. A. Lipscomb of Wink.

Three leaders of the Buffalo Trail Council received the Silver Beaver award, highest in its authority, for distinguished service to boyhood.

Wayne Miller of Odessa, Charles Melear of Big Spring and Charles L. Klapproth of Midland were honored for decades of service which

ran the ladder of Boy Scout achievements. H. Lyman Wren of Snyder, vice president and commissioner and former Council president, directed the ceremonies.

Mr. and Mrs. Calvin Lawrence, who moved to Midland from Lufkin, received a plaque for meritorious service with the East Texas Council.

S. G. Painter, district executive in the Buffalo Trail Council office, reviewed the highlights of 1952 revolving around the national theme of "Forward on Liberty's Team." The council recorded its largest membership of 5,142 in 212 units in 1952, this being a 13.3 per cent increase over the previous year.

A total of 1,448 advanced in individual rank, a 70.3 per cent increase as compared to 1951.

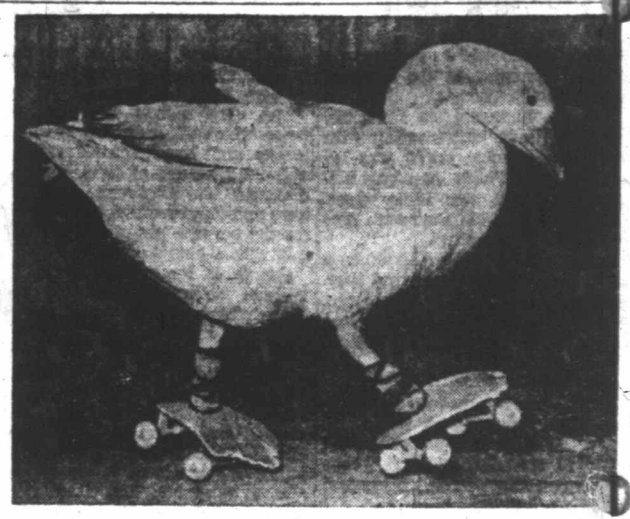

Mayor Perry D. Pickett gave the address of welcome. Snyder, Big Spring, Odessa, Kermit, Monahans, Wink, Sweetwater, Colorado City, Andrews and other cities within

the shadows of the Texas & Pacific Railway from Sweetwater to Pecos were represented in his audience.

Lyle Deffenbach of Snyder, Council president, was master of ceremonies. He introduced fellow officers, including Dr. W. B. Hardy of Big Spring, Emmet Beauchamp of Pecos, J. M. Waddell of Kermit, G. W. Breneman and J. L. Rhoades of Midland, vice presidents; J. T. Baker of Midland, treasurer; C. J. Kelley of Midland, assistant treasurer, and Wren.

The Rev. T. J. Kennedy, pastor of St. Ann's Catholic Church, gave the invocation. The Rev. J. Q. Woodard of the First Baptist Church directed group singing. Duke Jimerson of Midland sang two songs, accompanied by John Springer, pianist. The Rev. Clyde Lindsay of Midland gave the benediction.

The annual Council business session preceded the banquet.

OSKAR'S NO SILLY GOOSE—After taking a gander at the fate of his sockmates, "Oskar," the roller-skating gander of Hamburg, Germany, decided that getting the bird on the stage was much more pleasant than being the bird on the table. His owner puts him on exhibition at poultry shows.

## March Of Dimes Finances Three-Way Job Of Work

When Midland County citizens contribute to the 1953 March of Dimes, they have the satisfaction of knowing that their donations are financing a triple job of work. It was pointed out by Ray Gwyn, Midland County campaign director.

"With the nation having just experienced its worst polio epidemic in history," Gwyn said, "it is natural for us to review how the March of Dimes has helped the stricken."

"The contributions of the American people to this great cause enabled the National Foundation for Infantile Paralysis to combat polio on three wide fronts."

"Since the establishment of the National Foundation," Gwyn said, "some \$18,000,000 has been invested in scientific research programs aimed at the eventual conquest of the disease. In the field of education, more than \$16,000,000 has been allocated—making it possible for more and more skilled hands to be trained. At the same time, patient-care bills amounting to \$148,000,000 have been defrayed."

Pointing to the vast cost entailed in this over-all fight against polio, Gwyn concluded, "Let's keep up the momentum. Let's get behind this drive and really put it over the top."

Gwyn warned that the National Foundation's work would be jeopardized unless every American joins enthusiastically in the March of Dimes.

"We are making real progress against infantile paralysis," Gwyn concluded. "Let's keep up the momentum. Let's get behind this drive and really put it over the top."

Kentucky, in 1926, was the first state to adopt an official bird, choosing the cardinal.

# SPORTS PARLEY

By CHARLEY ESKEW

If Baylor doesn't abandon the T for some "wing" formation next Fall, then the fried chicken trail of January football banquets doesn't affect Bear Mentors George Sauer and Uncle Jim Crow. (Nor does a low-life pun.)

Those two rival Truman for making whistle stops and taking their chops in chicken. Right now they are as popular as Eisenhower in West Texas.

Apparently the two have set up a base of operations in the vicinity and from it commute to beat the drumsticks for the Baysors.

They have ranged from the Panhandle to the Mexican border in the last two weeks and again this week—here they go again.

Sauer, the Bruin head man, is the speaker at Odessa and Crow at Kermit, both football banquets Saturday night.

Uncle Jim perhaps will be on view at Kermit for something other than his speech-making ability, for he's a real football rarity. A man who's so endeared at his school he has remained as one job 33 years.

Isn't that some sort of record in this heyday of win-or-lose? (Some places insist that even two losses a season is the ultimate.)

Uncle Jim, of course, never was the Baylor head coach but assistants, too, are booting as many miles as the masters in this football business. You can recall dozens who live in their cars season-to-season, winner-to-winner.

Uncle Jim, more enviably, stayed at Baylor to see Frank Bridges, Morley Jennings, Frank Kimbrough and Bob Woodruff move along, for this or that.

Practically a human institution at Baylor, Uncle Jim is more a requirement to the football teams than a head coach. Probably Baylor wouldn't want one without him.

This year, a season after he was elevated to the assistant athletic directorship, Baylor dedicated its football efforts to the players' "second father." It made him cover boy for the team brochure.

"We don't ever want to think of trying to get along without him," Coach Sauer has said.

If he left, the Bruins would be without the dean of Southwest scouts, that's for sure.

A few of those at Kermit Saturday—real veterans—will remember Uncle Jim as a Texas Aggie; he made all-Southern tackle as a Maroon and White way back before World War I.

## Spivey Calls Up Witnesses To Character

NEW YORK—(AP)—The defense called on character witnesses Friday to help back up Bill Spivey's denial that he played crooked basketball as an All-America center.

Counsel for the former University of Kentucky player said six character witnesses would be put on the stand and then the defense would rest.

Spivey himself took the stand Thursday and denied that he ever agreed to rig scores or that he ever took bribes from gamblers.

He is being tried in General Sessions Court on a perjury charge that he lied under oath when he made similar denials before a grand jury here last February.

After Spivey testified at length, the defense called two character witnesses.

One was former Baseball Commissioner A. B. (Happy) Chandler, one-time U. S. senator, Kentucky governor and basketball coach.

C. F. Clement Kelly, Lexington, a former Kentucky assistant state attorney general, also testified for Spivey.

In his testimony, the seven-foot tall Spivey contradicted testimony of two former teammates—Jim Line and Walter Hirsch—that he agreed with them and a gambler to help fix game scores during the 1950-51 season.

## Mangrum Favored As Pros Start Bids In Phoenix Tourney

PHOENIX, ARIZ.—(AP)—Golfdom's elite converges here Friday for the launching of the annual 72-hole, \$10,000 Phoenix Open Tournament with most eyes focused on Lloyd Mangrum, defending champion and leading money winner thus far this year.

Although Ben Hogan, Julius Boros and Byron Nelson won't be on hand for the Phoenix event, there will be quite a galaxy of talent assembled. Boros, the National Open champion of 1952, is suffering from an infected tooth. Hogan and Nelson are playing the PGA circuit just intermittently this year.

Figured to be solid contenders are Jimmy Demaret, Klametha Lake, N. Y., Tommy Bolt, Maplewood, N. J., winner of the San Diego Open; Dr. C. W. Middlecoff, former National Open titleholder from Memphis, Tenn.; Jack Burke, Jr., Klametha Lake, N. Y.; Doug Ford, Harrison, N. Y.; Ted Kroll, New Hartford, N. Y.; and Jimmy Clark, Laguna Beach, Calif.

Clark flashed a five-under-par 66 Thursday for the best individual score registered.

## Rotary Bags Seventh Win

BIG SPRING—The Rotary Engineers of Midland, led by Benny Rutherford's 34-point collection, handed Phillips Tire Company of Big Spring an 80-58 defeat Thursday night.

It was the first loss for the Big Spring quint, composed of Webb Air Force Base cadets, but it was decisive enough. Rotary, for its seventh win, never was headed, leading 18-9 at the first quarter's end, then 43-25 at halftime.

Rutherford, Sweetwater coach, easily took individual honors. Joe Parkin hit 18 for Big Spring, while Rotary's Leland Huffman followed with 14.

## 21 Bulldogs Exit At Fete

Midland High School bids goodbye to 21 of its 35 football players being honored at the annual banquet Monday night.

Of the group, all but 41 either will graduate or become ineligible for another year with Coach Tugboat Jones' District 1-AAAA football teams.

A former Midlander and present coach at Texas Western, Mike Brumelow, will be the principal speaker at the event.

It will be held at 7 p. m. in the high school cafeteria.

Those players who have completed football eligibility at Midland are: Keys, Curry, Walter Cremin, Jimmy Counts, Ronnie

Rone, James Reagan, John Petty, Calvin Hancock, Jay Schlichting, Dan Ratcliff, Harold Paden, Bobby Cast, Robert Keisling, Bill Leonard, Don Forest, Teddy Puglaar, Roy Kinsey, Dick Spencer, M. A. Rose, Larry Friday, Bill Erskine, and Jesse Hatfield.

Hatfield won all-district honors and Keisling and Bill Mims earned mention rating.

Besides Mims, the returning players are Russell Rutledge, Ervin Townsend, Clinton Hamlin, Paul Davis, Fred Gist, John Crowley, Darrell Spivey, Melton Jones, Clinton Noble, Don Evans, Jimmy Mashburn, Kenneth Schrum and Jerry Ball.

## Bulldogs Test Odessa There In League Tilt

The Midland Bulldogs complete their first go-round against District 1-AAAA foes by traveling to Odessa at 8 p. m. Friday—and in the clash with the Bronchos, anything can happen—

Meaning that, as usual, Coach Red Rutledge more than likely will have a surprise or two figured out for the Bronchos.

Midland, winless in district play, is finding its first year in Class AAAA double rough and to keep up with the clubs who maintain longer-pre-season training, has to bulk up its contention with a spice of variety.

The green Midlanders tried fast break basketball at the first of the season and won only two of six outside games. Against Pampa and Bor-

ger the first district weekend, the club switched to control, then against Amarillo and Lubbock, to speed again. Last week the Bulldogs developed a full court press that scared San Angelo for a time but backfired completely against Abilene.

Rutledge and the Bulldogs likely will have something new added Friday against the surprisingly-tough Odessans, who, before district play, were figured to finish next-to-last.

Since, however, Odessa, with Tuffy Zellars and Billy Joe Har-

ville the pace-setters, has won three and lost three—victims including Borger, 57-50, Lubbock 70-56, and San Angelo, 58-57. That left Odessa tied for third place.

Zellars Heads Scorers  
Zellars scored 24 and Harville 75 to rank fifth and sixth, respectively, in district scoring through six games.

The short Odessa trek marks the closest to home Midland has played since opening the district season here the first weekend in January. It also moves them nearer to the favorable part of the slate—home games.

Midland gets its next district game here February 6 after a weekend at Pampa and Borger, January 30-31.

Although he has been sidelined in five of six tilts because of personal, Robert Keisling sparks the Bulldogs in their district games. He has tallied 63 points so far to rank eleventh in the district. Jesse Hatfield, guard, is the second Midland high scorer with 63.

The Starting Teams  
Those two will be joined by Harold Paden, Bill Mims and Roy Kinsey as Rutledge's probable starting team against Odessa. The taller Bronchos likely will counter with Zellars, Harville, Jimmy Jackson, Carl Schlemeyer and Milton Gillespie.

Odessa has a game scoring average in district of 54 points to opponents' 54.8, while Midland has garnered a 44.5 tally to opponents' 65.1.

The game will be preceded by a junior high encounter at 7 p. m. between Bowie of Odessa and Cowden of Midland.

Meanwhile, in District 1-AAAA games, leading Pampa (6-0) visits Borger (3-3), Amarillo (5-1) travels to Lubbock (2-4) and Abilene (3-3) goes to San Angelo (2-4) Friday in the only loop games scheduled this week.

Coach Pat Pattison's Midland 'B' team opened the Midland-Odessa cage series Thursday with a revenge, 52-19 triumph over the Odessa 'B's there. Buddy Mays tallied 14 points and Joe Nichols 12 for the winners.

PECOS QUARTERBACKS TO HEAR RAY GEORGE  
PECOS—The annual Pecos Quarterback Club banquet will be held at the Pecos Valley Country Club at 7:00 p. m. Monday, with Coach Ray George of Texas A&M appearing as main speaker.

## Haw River Cage Coach Says It Can't Last But Scoring 95.8 Average Is Fun So Far

By KEN ALTYA

HAW RIVER, N. C.—(AP)—When W. Kerr Scott completed his term as governor of North Carolina a couple of weeks ago and returned to his Haw River farm, folks around the Tar Heel State figured they'd heard the last of this Alamance County community.

But they reckoned without the town's unbeaten high school basketball team. Coach Bud Phillips cagers have been kicking up quite a storm this season.

To give it to you quickly—they whipped Mebane High, 91-49, here night before last and despite the 91-point spree their average for the season dropped—that's right, dropped—to 95.8 for nine games. And this despite the fact prep teams play only eight-minute quarters.

The team has rolled over the century mark three times, hitting a high last week in a 143-40 rout of Elon High. Earlier, the boys had clicked for 119 and 113 points.

Their "poorest" night saw them score only 67 points.

The school, rated Class A, lowest

branch in the state's three-class rating, has an enrollment of 138, half of them boys.

A fast break and deadly shooting have combined to overpower the opposition. They've hit on at least 60 per cent of their shots in each game and once hit the 80 per cent mark.

There's only one senior on the 12-man squad. Center Jerry Bosquet, at 6-5, is the only player over the six-foot mark. He scored 43 points in that 143-point game and for nine games has 196 points.

Last year the team ran up a 19-game winning streak before losing out in its bid for a berth in the state tournament. That's the boys' goal this time.

## Midland Nel Squad Completed For Two Matches At Abilene

Coach Frank Ford completed his 16-player Midland High School ten-man team Friday as the Bulldogs prepared to travel to Abilene for two Saturday matches.

Ford earlier named 15 of the team—nine boys and six girls—to tackle two schools, 10 a. m. match with Clyde at Abilene and a 2 p. m. duel with Abilene.

Don Ingham was selected Friday as the sixteenth player on the Bulldog squad.

The matches are the second and third for Midland this year after Odessa trimmed the Bulldogs, 6-4, in a pre-Christmas meeting.

The boys squad lists John Galle, Jimmy Graylin, Ken Hughes, Johnny Godwin, John McGuigan, Clayton Tatom, Bill Vandenter, James Wolfe and Charles Bleiker. Don Ingham, Dot Faye Black, Ellen DeChiclis, Carolyn Faris, Janna Murray and Wanda Murray make up the girls team.

### Preacher Requests Clemency For Hulen, Doomed Amarilloan

AUSTIN —(P)— An Amarillo preacher urged clemency Friday for R. J. Hulen, pleading that Hulen was driven to the murder of his wife because of her conduct. "I'm asking if you could see fit in some way to let him pay his penalty in life instead of death," the Rev. G. W. Hamilton, pastor of the United Pentecostal Church, told the pardons board. Hulen is sentenced to die in the electric chair February 6. He was convicted in the Amarillo pipe laying of his estranged wife, Mabel Rachel Hulen, in her home April 25, 1951. "Crime is crime, and wrong is wrong. I believe he should pay a penalty, but I would ask you to reduce it to a life sentence," said Hamilton. Board Chairman Lyle C. Harris said another clemency hearing has been set for January 30 on the request of Hulen's attorney.

### Super-Tough Tires Promised With New Synthetic Material

AKRON, OHIO —(P)— Goodyear Tire & Rubber Company said Friday it has basic patents on a new type of synthetic rubber to make automobile tire treads which "could easily outwear the automobile itself." Before the new synthetic can be made for wide use, however, ways must be found to produce its raw material cheaper, improve its processing and better its resilient and adhesive qualities. "There is every reason to believe these problems can be brought to a practical solution," said P. W. Litchfield, Goodyear board chairman. The new rubber, surpassing present types in toughness and resistance to abrasion, is the result of secret research over several years.

SEOUL —(P)— Allied Sabre jets destroyed four Communist MIG-15's and damaged seven in clear skies over Northwest Korea Friday, the Fifth Air Force reported. It brought to 15 the number of Russian-built jets knocked down in three days. At least 13 have been damaged. Capt. Delphin P. Overton III, Andrews, S. C., was credited with bagging his fourth MIG in three days—the hottest record in the current series. This left him only one more to go to become an ace—on his 148th mission.

He said GM has close to five billion dollars worth of defense contracts and "it is not in the interests of good government" to have a former GM president judging details for those contracts. Regardless of the trend of Wilson's testimony, some senators said they foresaw trouble for him ahead. They said some people are certain to cite his previous declaration, "What is good for General Motors is good for the country and what is good for the country is good for General Motors."

## Dramatic Strides In Surgery Save Lives, Limbs In Battle

TOKYO —(P)— The Army's top surgeon Friday said soldiers in Korea "have a better chance of not being wounded—or of living if wounded" than fighters in any other comparable conflict. Maj. Gen. George E. Armstrong in a news conference reviewed dramatic strides in research which are saving lives and limbs at the battlefield. Armstrong, Army surgeon general, leaves Tokyo Saturday for Washington after a tour of Korea, Japan and Okinawa. The two-star general described new treatments for the wounded—including a method for transplanting arteries which may cut amputations by 70 per cent, an intricate artificial kidney to lessen deaths from severe shock and "most encouraging" trial substitute for blood plasma, dextran. Armstrong expressed a belief that the new armored vest will affect for the first time in 30 years the one-to-four ratio between killed and wounded in battle. The general also had good news on Korea's most baffling disease—hemorrhagic fever, sometimes called "Manchurian fever."

### ONE GOOD BLOW BEGETS ANOTHER

KNOXVILLE, TENN. —(P)— Burglars battered open a safe in a Knoxville factory office, found it empty, blew their tops. Firemen found the note atop the safe.

"If they had come over here and called a meeting and explained to our people that they needed the water until they could get their own reservoir operating, we would have gone along with them. "I don't think a word would have been said. "But they have not cooperated in any fashion. They have used tactics a 10-year-old boy would know better than to use. They have acted just like a big 200-pound football player running over a 100-pound man. "Until their attitude changes we are going to continue the fight. "But if they come over here with a friendly attitude, I will recommend to the board that the rules be relaxed to let them have the water they need. But only on a temporary basis."

### Victim Doesn't Know Attacking Dog Rabid

TYLER —(P)— An unidentified truck driver was the object of an East Texas search Friday because the dog which bit him near Bullard was found to be rabid. Dr. W. R. Ross, director of the City-County Health Unit here, said residents of Bullard didn't remember the driver's name but he was driving a truck for the G&W Improvement Company.

or how it is transmitted. Armstrong said the percentage of wounded who die after getting medical attention runs a normal two and one-half per cent. But "a remarkable number of men wounded are returned to duty—upwards of 87 per cent." The general also noted tremendous stride for caring for combat fatigue. In World War II, he said, psychiatric cases caused the most discharges. In Korea "they are a drop in the bucket." Fewer Amputations  
Armstrong reported "amazing advances" in research in the active combat theater. "At one time," he said, "the severance of a major artery caused amputation if not loss of life." But today, he went on, "it would appear" that these advances in research may prevent "70 per cent of the amputations of limbs previously required because of major blood vessel injury."

### Taft's Son Seeks Approval As U. S. Envoy To Ireland

WASHINGTON —(P)— Senator Robert A. Taft's son is making a bid for the post of ambassador to Ireland. It is a move that could provide some embarrassment for President Eisenhower. The Ohio Republican's son, William Howard Taft, III, has asked senators to back him for the Irish position. He served for three years as deputy administrator for the Marshall Plan in Ireland and now is a professor of Gaelic culture at Yale. The elder Taft is majority leader of the Senate. It is through him Eisenhower must submit his legislative program to Congress. Senator Taft told a reporter he is keeping hands off his son's campaign.

Between 400 and 500 school children were stranded in Plainview when buses were unable to return them to their rural homes. Many remained in Plainview homes for the night. A Plainview radio station repeatedly broadcast their names to worried parents. A similar situation prevailed in snow-bound Pampa, where officials announced they would not open the schools Friday. It was probable, police said, that many other schools would find it useless to open. FROM PECOS

## Mesonium, Chemical Which Lasts Only Brief Instant, Helps Atomic Research

By FRANK CAREY  
Associated Press Science Reporter  
CAMBRIDGE, MASS. —(P)— A will-of-the-wisp chemical element that exists for less than a millionth of a second is aiding atomic re-

search, a famous scientist said. The short-lived substance is called "Mesonium." Man can cause it to form in the laboratory. Dr. Enrico Fermi of the University of Chicago told a reporter it is

science's newest yardstick for measuring the size of the nucleus, the basic core of the atom, and may well become the most accurate means of taking such a measurement.

The measurement of the nucleus of all kinds of atoms is of fundamental importance in science's continuing quest to learn more about the innermost secrets of atoms—secrets whose solution might aid in the further development of atomic energy.

Dr. Fermi, one of the world's pioneer atomic researchers, made the comments in an interview at the annual meeting of the American Physical Society of which he is president-elect. He said he himself is not working on mesonium, but he declared the subject is of prime interest to all physicists as evidenced by the fact that a number of technical papers on it were presented at the Harvard University meeting by Dr. James Rainwater of Columbia University and others. Fermi said mesonium is produced in the laboratory in this way:

Atomic "rays" issuing from a machine known as a cyclotron strike a target material. Various particles are released from the atoms of the target material. A Matter Of Mesons  
Among them are particles known as "mesons" which are believed to be a kind of "glue" that ordinarily holds the various parts of the nucleus of an atom together.

A released meson can then be absorbed by any material—such as lead, iron or carbon—which is placed nearby. Such a material is thereby converted into an entirely different element—mesonium—but it remains in that state for less than a millionth of a second, sometimes for as little as one hundred millionth of a second.

Meanwhile, however, sensitive instruments can pick up X-rays given off by the short-lived material. Study of these rays allows measurement of the atomic nucleus of the material which had temporarily absorbed the meson.

Fermi said the availability of mesonium as a laboratory tool might also aid towards better understanding of mesons—and also of cosmic rays which enter the earth's atmosphere from outer space. These rays cause the natural production of mesons when they strike atoms of oxygen and nitrogen in the atmosphere.

### City Cagers Initiate League Play Friday

Midland's six-team City Basketball League kicks off its 22-game schedule Friday night with the first doubleheader. The first night games, played in Cowden gym, will match Murray-Young Motors against the Lions Club at 7:30 p.m. with Bentley's of Stanton against Western Company at 9 p.m. The JayCees and Rotary Engineers drew first round byes in the JayCee sponsored league. Getting a belated start, the league will continue action each Tuesday and Friday night through February 27. The leader then will be champion, with no playoffs slated, Phil Fickman of the JayCees has announced. Jesse Mason has been named to work both games as referee Friday.

### JayCees Give Yule Awards

The Friday noon meeting of the Midland JayCees at Jimmy's Bar-B-Q, 416 West Texas Street, was highlighted by the presentation of prizes and awards for winners in three Christmas contests. Parade, home lighting, and safety slogan victors received cash awards in the Jay-Cee-sponsored holiday events. Winners in the Christmas parade contest and their prizes were: Senior Division, First, Westward Ho Kennels, \$100; second, Rebekah Lodge, \$50; third, Beta Sigma Phi, \$25; Junior Division, First, St. Ann's School, \$75; second, Junior S.P.C.A., \$25; third, Latin American Girl Scouts, \$15. Ken Durham presented the cash prizes. Christmas home lighting victors were: First, Mr. and Mrs. J. E. McCain, 2108 West Indiana Street, \$100; second, Mr. and Mrs. Roy Jones, 1904 West Tennessee Street, \$50; third, Dorothy Perkins, 800 North F Street, \$25. Lloyd Inerarity gave the cash awards to winners. Ten children, students of Midland schools, received \$5 each for safety slogans contributed to the Jay-Cee contest. J. P. Marchioni, president of the JayCees, was in charge of the meeting. Lee Woods, chairman of the membership committee announced plans for a membership drive in the near future. Raymond Howard introduced Ray Gwyn, March of Dimes chairman, who gave a short talk on polio and its effects on the community. Bill Fickman reported on the progress of JayCee sponsored sports events. Also considered at the session were plans for the poll tax drive by the JayCees.

### Para-Medic Drop, Helicopter Sortie Save Pilot Quickly

TOKYO —(P)— A U. S. pilot was trapped helplessly in his F-84 Thunderjet Friday when it crashed landed in rugged, snowbound northern Japan. Only 40 minutes later he was in a military hospital being treated for a broken leg. Two air-rescue medics parachuted into four feet of snow within five minutes after witnesses gave the alert. They administered first aid and a helicopter completed the rescue. The injured man's name was withheld. The helicopter was piloted by Capt. Richard V. Gerdaud, Los Angeles. The other helicopter crewman was a para-medic, T. Sgt. Oni V. Hale, Brashear, Hopkins County, Texas.

### Mulloy Breezes Past Two Foes In Net Meet

ORLANDO, FLA. —(P)— Gardner Mulloy easily brushed aside two opponents' first day in the Florida Invitational Tennis Tournament. The nation's top amateur netter Thursday defeated 14-year-old Lewis Leach of Orlando, 6-0, 6-0, and C. L. Varner, former state veterans' champion, also of Orlando, 6-1, 6-2.

### Department Store Receipts Decrease

DALLAS —(P)— Department store sales in Texas dipped during the last week compared to the same period a year ago. For the week ending January 17, sales in the district were down four per cent over the week ending Jan. 19, 1952. Houston and El Paso showed increases of 10 to eight per cent respectively but Dallas down 18 per cent, Fort Worth down nine per cent and San Antonio seven per cent. For the four weeks period ending January 17, Texas sales were 22 per cent above the corresponding period of last year. El Paso sales were up 40 per cent, Houston 29 per cent, Fort Worth 18 per cent, Dallas 16 per cent and San Antonio 10 per cent.

### Newark Claps Tax Liens On Costello

NEWARK, N. J. —(P)— Frank Costello, bigtime gambler now serving a prison term for contempt, has been slapped here with income tax liens totaling almost \$500,000. The Internal Revenue Bureau filed the liens here Thursday, and as a result any assets Costello may have in Essex County are tied up until he settles his account with tax authorities.

# HOW ADVERTISING AFFECTS YOUR JOB

Raises, Cuts, Promotions, Layoffs Often Depend on How Much the Firm Sells

★ ★ ★

**NEXT** time you hear or read advertising, just stop and analyze how it affects you.

Its purpose is to sell goods or services. More sales mean more work to be done. That means more jobs in the firm that advertises . . . and more jobs in the hundred and one firms with which it does business. It's a never-ending chain.

Now when more jobs open up, that means more security for everyone. It means promotion to many, with wage increases. It means opportunity—par-

ticularly for friends and sons and daughters of present employees.

Whether or not you work for a firm that advertises, remember that this modern method of mass personal selling affects your company's business and its future. Hence it affects your job and your future.

Advertising, by selling goods, starts businesses humming, makes them bigger. That's how advertising affects your job. For tomorrow, it creates opportunity . . . for today, it makes your job more secure.

*Other Ways Advertising Helps You:*

1. Brings you better goods for less money.
2. Makes shopping more pleasant and easier.
3. Has given us the world's highest standard of living.

**MECHANIC**—I like advertising. It sells goods. And when sales go up, our shop is plenty busy. My wife and I can then have real peace of mind.

**WAITRESS**—Advertising my boss does means more tips in my pocket. Advertising other firms do means more business, steadier jobs for my customers and bigger tips in my pocket. So I'm all for plenty of advertising.

**BOOKKEEPER**—I know what a difference advertising made in my firm . . . made our volume four times as big in five years. Now instead of just being a clerk, I have seven people working for me.

## Advertising . . . BY SELLING MORE GOODS TO MORE PEOPLE Makes your job more secure

REPORTING THE TOP NEWS IN REAL ESTATE

SECRETARY OF DEFENSE C. E. Wilson had to give up \$2,500,000 in order to get a post in Ike's cabinet. Well, we can secure you a host of cabinets (kitchen, that is) in this exquisite Roman brick home for a little less. Featuring spaciousness, it has 3 lovely bedrooms, huge living room, 2 ceramic tile baths, and that dream we call a magnificent kitchen. Central heating and air-conditioning, softly carpeted throughout, generous closets, mahogany doors. For that quiet hush of luxury, it sincerely cannot be surpassed. \$23,000.

WOULD YOU OWN AND DRIVE a two-passenger car if you had a family of four? You would trade in your car. What about your home? We'll trade for a 3-bedroom, 2-bath, new home on Louisiana. Carpeted living and dining rooms (and hall), tile kitchen with knotty-pine cabinets, and attached garage. Central heating, ducted for air-conditioning, and peppered with good closets. Located on huge lot, and priced at a stimulating \$16,500.

WHAT ARE WE OFFERED as a down payment for 1107 East Pecan—the great big house with 3 bedrooms and two baths? Carpeted over oak floors, re-decorated, and 1,377 sq. ft. Appraised for \$10,577, and priced at \$6,800.

DRIVE-BY SPECIALS: 3202 Delano Street. Two bedrooms and 10x24 pine paneled den. Central heating, plastered walls, oak floors, huge pantry, Murray metal cabinets in kitchen. Priced at \$9,800. Then a few blocks south to 3202 Thomas Street. Three bedrooms, huge living room, and attached carport. Central heating, some carpeting, air-conditioned, and paved street. He has a lot in it, but will sell for \$12,250.

211 RIDGLEA AVAILABLE... YOU HAVE OFTEN HEARD of the Executive Mansion, but here is a mansion for the oil executive—West Texas styling. Rambling in design, the shake shingle roof covers 3 huge bedrooms, den, 3 ceramic tile baths, luxurious living room with slant-angle wood-burning fireplace, utility room, 2-car attached garage. Central heating, air-conditioned, masculine wood carpeting, tile fence, water well. It's got too many closets in which the kids could hide. Although it is vacant, it proudly stands and waits to serve. \$36,500.

I WAS BUILT WITH KIDDIES in mind, but I guess that I'll have to take in their parents, too. I want noise and young laughter within the walls of my 3 bedrooms, and hungry tots raiding the cookie jar of my huge kitchen. I want them to come into my bath with dirty hags and faces just so I could see them clean when leaving. I've got a dining room for their ice cream parties, and a wood-burning fireplace when it's nasty outside. I've got secret places in my closets for playing, and rugs on the floor when you kneel down to pray. I'm warm in the winter, and air-conditioned in the summer. You'll like me, and I'm sure that I'll love you. So will your Mommy and Daddy. I'm at 305 Jax Street. Why don't you come to see me?

FAR BEYOND WEALTH is the consolation of quiet living in a peaceful home. Located in Skyline Heights, where rambling homes abound, is this utterly magnificent two-bedroom, two bath, brick home. The grey and gold draperies alone cost in excess of \$1,000. Central systems for the season's vicissitudes, carpeting, ceramic tile features, utility room, and double attached garage. This home was decorated with the meticulous touch of a master. Under \$20,000.

THERE IS 1403 West Michigan—and this is one which you will like. There is 106 East Oak Street—a lovely 2-bedroom home with million dollar features and comforts. There is 204 East Oak—also with 2 bedrooms and best of construction. Try 1211 East Hamby for only \$7,500. Try calling us. It does not cost more to deal with the LEADER, Key, Wilson & Maxson.

## Surrender Ends Prison Rebellion

BELLEFONTE, PA.—(AP)—A band of 225 rebel convicts, mindful of a tightening ring of heavily armed state police and unmoved by the roar of National Guard fighter planes overhead, surrendered unconditionally Thursday night to the "get tough" orders from Gov. John S. Fine.

The rebels released six guard hostages shortly before 7 p.m. and then fled meekly back into their cells from the barricaded building they had turned into a fortress.

None of the hostages had been harmed, although one was near the point of exhaustion from his 72-hour ordeal.

"The convicts—a holdout segment of a riot that started last Monday—loosed out through the shattered windows of the cellblock the eight revolvers and five hundred rounds of ammunition and tear gas equipment that had been one of the main concerns of the prison officials during the insurrection.

Their surrender made unnecessary a planned attack on the cellblock strung point by state policemen and alerted National Guard units.

Earlier in the afternoon, while planes were buzzing the building, the prisoners dropped a note through a barred window asking to see the Catholic chaplain, the Rev. Richard Walsh. When Father Walsh went to the wall of the building, the men shouted down that they were willing to give up if state officials would agree to an earlier offer that there would be no reprisals for the riot. The governor made that offer two days ago and it had been accepted by the men in two adjacent cell blocks.

Guards Unharmed  
State Attorney General Robert E. Woodside, after a conference with the governor, replied in a note, "Only an unconditional surrender will be accepted." He ordered the prisoners to turn over their guns and ammunition to the priest or to the hostage guards who were to be released immediately.

Shortly thereafter the convicts shouted they were willing to give up and started dropping the guns and ammunition from the windows. The guards emerged "without a scratch" from the building. Five were taken to their homes and one, Paul Gingham, was removed to the prison hospital. He was not injured but appeared suffering from nervous exhaustion.

State police then converged on the building and the convicts returned to their cells without a word.

One of the hostage guards, Melvin E. Williams, 64, said at his home last night he believed the turning point of the situation was the psychological effect of the dropping planes overhead.

## Charles A. Eaton, Former GOP Foreign Policy Leader, Dies

WASHINGTON —(AP)—Former Rep. Charles A. Eaton of New Jersey, one time chairman of the House Foreign Affairs Committee, died Friday.

Eaton died at 2:30 a.m. in his Washington apartment. He had been in failing health some time and chose not to run for reelection last year. He completed his fourteenth consecutive term in Congress January 3.

Long a ranking figure in foreign affairs, Eaton was a delegate to the founding conference of the UN in 1945 and later served as a U. S. delegate to the UN.

He was chairman of the Foreign Affairs Committee of the Republican-controlled 80th Congress of 1947-48.

He was elected to Congress in 1924.

Before entering politics, Eaton was a prominent Baptist churchman.

A staunch supporter of a bipartisan foreign policy, Eaton worked closely with the late Senator Arthur Vandenberg.

## Prison Rebellion Leader Sentenced On Kidnap Charge

JACKSON, MICH.—(AP)—Earl Ward, 28-year-old leader of last April's mutiny at Southern Michigan prison, Thursday was convicted of kidnaping a guard during the costly million-dollar riot.

A jury convicted Ward after less than two hours' deliberation.

Judge Harry D. Boardman sentenced ward to serve a 20-30-year term for the abduction of guard Frank Hinton.

Ward actually will serve only four years of the sentence. Judge Boardman directed the new term to be served concurrently with Ward's present 15-30-year term for armed robbery.

## Hospital Releases Victim Of Mysterious Arsenic Poisoning

GALVESTON —(AP)—Mrs. David M. Morris, Beaumont, who said she had been poisoned mysteriously with arsenic over a two-year period, was released from a hospital here Thursday.

Her husband and four small children met her at Beaumont after release and she was to go Friday to her parents' home in Marksville, La., for what was called an extended holiday.

Meanwhile, Sheriff Charles Meyer, Beaumont, said investigation into the case was continuing.

WRONG MAN, RIGHT MEDAL—Pvt. Walter N. Johnson, of Creeley, Neb., at right, looks slightly dazed upon being congratulated by Maj.-Genr. Fridi Dhappong Davakul, back to camera, Thailand's delegate on the UN Commission for the Unification and Rehabilitation of Korea. Johnson was down to Seoul to receive the Silver Medal of the Crown of Thailand, for an action in which he never took part. Because of an error in translation, the Army called the wrong Johnson from the lines. The correct Johnson will receive another medal, and Walter will keep his as a souvenir.

## That Truman Fellow Pops Up All Over, Just Like Farm Boy In Big City Again

By ERNEST B. VACCARO  
INDEPENDENCE, MO.—(AP)—That fellow you couldn't help bumping into all over Jackson County Friday was Harry S. Truman.

Just to look at him, strolling along the sidewalks, with an in-

fectious grin on his face, you would never guess three days ago he was President of the United States if you hadn't seen his picture in the papers so often.

The new ex-President was taking the problem of adjustment at-

er almost eight years in the White House, with all its attendant burdens, in easy stride.

"Country Boy Again"

And so was Jackson County — Kansas City, where he has his new private offices; Independence,

where he and Mrs. Truman live in the big white frame house on North Delaware Street; and Grandview, where his family has a farm.

When you consider that this 69-year-old man, with the blue eyes twinkling beneath his thick lensed spectacles, came home only Thursday night after turning over the White House to Dwight D. Eisenhower, you had to admit that the adjustment was coming alone fine.

This reporter bumped into Truman at his offices on the eleventh floor of the Federal Reserve Bank Building, where the ex-President tackled the job of answering hundreds of letters and telegrams.

"I feel like a country boy in the big city again," Truman asserted.

Others of jobs

He said he didn't know what kind of job he would take and couldn't make a decision for some time on the many offers he has received.

"But I won't do anything that would reflect on, or commercialize, the great office I have held," he said.

At the present time, he added, he does not consider there is any possibility that he will run for Congress, and he doesn't think that he will seek any office again.

What he would like to do is to get away with Mrs. Truman and his daughter Margaret for a long rest. After all, he pointed out, practically everybody else who participated in last year's hectic political campaign has done so.

With Two Bodyguards

The most noticeable thing about Truman when you run into him in Jackson County nowadays is the absence of the Secret Service bodyguard that surrounded him when he was President.

But he does have two bodyguards, both former members of Battery D, of the 35th Division's 129th Field Artillery which Truman commanded in France in 1928.

They are Sgt. Arthur Bell, a member of the state highway patrol who was assigned to guard Truman during a period of adjustment, and Lt. Fred Roifers, of the Kansas City police department, to look after him when he goes into Kansas City.

His Big Project

Truman's big interest now is to see construction get underway on a library and cultural center on the family farm at Grandview to house his presidential papers and serve as a student research mecca. He invited reporters to join him at Grandview Thursday to look over the site of the proposed library for which private funds now are being sought by personal friends. The project is estimated to cost \$1,500,000.

The ex-President, after driving to nearby Kansas City from Independence Thursday in a state highway patrol car, walked over to the Muehlebach Hotel for lunch. Almost anyone who wanted to, strolled into his offices to shake hands and ask questions. As he told one old friend:

"You don't need an appointment to see me now."

RANKIN STATE BANK  
REELECTS OFFICERS

The First State Bank of Rankin has reelected all its officers and directors at the annual meeting of stockholders and directors.

O. W. Parker is president of the financial institution. Other officers are J. P. Rankin, vice president; Dunn Lowery, executive vice president; D. S. Anderson, cashier; Johnnie D. Hurst, assistant cashier.

Directors are O. W. Parker, J. P. Rankin, H. M. Noelke, H. F. Neal, Jack Taylor and Dunn Lowery.

## Pope's Condition Said Improving

VATICAN CITY—(AP)—Pope Pius XII remained in bed Friday with a mild attack of influenza, and attendants said he would be unable to hold audiences Friday or Saturday.

His personal physician said, "The course of the Pope's illness is progressing normally. There is no cause for concern."

The 77-year-old pontiff was said to have passed a restless night. His temperature, which Thursday rose to about 100 degrees, was lower but still slightly above normal.

POLIO VICTIMS REUNITED—Even though they are still in iron lungs, Dr. and Mrs. Thomas A. Michiels, of Chicago, are happy to be together again. Stricken last October, each was admitted to a different hospital. The 31-year-old dentist has recovered sufficiently to need only the aid of a portable iron lung, and has been allowed to join his wife. One of the couple's two children is also a polio victim.

## East German Leaders Flee From Red Purge

BERLIN—(AP)—The Russian Zone's drive toward complete Bolshevism sent two more East German government officials fleeing to West Berlin Friday.

They had served as connecting links between the Red regime and the Protestant and Catholic churches.

## Quickie Weddings, Divorces Draw Texas Lawmakers' Fire

By MARTHA COLE  
AUSTIN—(AP)—Legislators realize they can't pass a law making a man love his wife—or vice versa—but they want to do something about almost 40,000 divorces a year in Texas.

Already four bills have been introduced and others are ready on marriage and divorce problems.

The idea of the new proposed law is a "cooling off period—give 'em time to think it over."

The first attack was on marriages—because there can't be a divorce unless someone's married.

Stop 'Gin' Weddings

What some legislators want to do is stop the "gin" weddings of couples who stagger up to take their vows with a merry will but no intention to make them last any longer than the fun lasts.

Nowadays a couple has to have a certificate saying they're free of venereal disease before they can get a marriage license. Once they have the license, they can get married without delay.

What one bill introduced this week would do is make them apply

for a license then wait 48 hours before they can be married.

"Give 'em time to think about it," said its author, Senator Doyle Willis of Fort Worth.

And if a married couple wants a divorce, another bill would require a 90-day waiting period between the time of filing and the time the trial starts.

"Think It Over"

"Give 'em time to think it over," Willis, the author, said again.

Rep. Bill Miller of Houston has the same bill in the House, and he would require a 180-day waiting period if the couple has children.

Thousands of persons decide each year they really didn't mean it about leaving forever or going home to mama. Records show that in Texas in 1951, 37,150 divorces were granted, but \$2,868 divorce suits were filed.

There's another bill Willis is ready to introduce. It would make it illegal for a person to marry within a year after he or she got a divorce and make it a felony with a two to five-year prison sentence if he or she does. It's illegal in Texas now, but there's no punishment for it and nobody pays any attention to it.

In the House there's another bill that would allow a child of divorced parents to sue them for damages resulting from "wrongful dissolution of marriage or destruction of the family circle." The child could sue the third person who may have caused the wrongful breakup. He could file suit through a friend.

Other bills being prepared would abolish the validity of common law marriages, allow suits to be brought on behalf of children to force parents to provide for their support.

These bills, too, are backed by the State Bar of Texas.

Complex Problem

Writing about them in the State Bar Journal, Judge Jack Pope of San Antonio admitted it was a complex problem for lawmakers, for:

"After the man and woman have failed, after their own immediate family has failed, after their friends and employes have failed, in fact after all others have failed, the already broken family is handed over to the law to take one last whack at creating a masterpiece of beauty out of society's junk pile."

Shivers Selected  
Heart Fund Leader

AUSTIN—Gov. Allan Shivers again will serve as the honorary state chairman of the annual Heart Fund campaign. It has been announced by S. E. McCrealess of San Antonio, state chairman, and Bruce Barton, national chairman for the 1953 Heart Fund.

Attorney General John Ben Shepperd and State Insurance Commissioner George B. Butler will serve with the governor as honorary co-chairmen. McCrealess also announced that William Rawland, Cleburne publisher and president of the Texas Press Association, will be publicity chairman for the February campaign, and that Ben H. Wooten, president of the First National Bank in Dallas, will be state campaign treasurer.

Artist Joseph Christophe and portrait of Queen Elizabeth II. The old socks on his arm are his woolen "painter's" palette.

## Tweezers, Old Wool Socks Are Joseph's Art Supplies

PARIS—(NEA)—Working with a tweezers for a brush and any old discarded sock or sweater, traveling salesman Joseph Christophe can lay claim to having invented something entirely new in the realm of art. Right now 33 of his works, portraits, studies, landscapes—all guaranteed "pure wool" and as tenuous as a spider's web—are being shown on the Left Bank.

Unlike brother artists, Joseph has never attended art school. He knows absolutely nothing about drawing or perspective. For the notable people he has portrayed, he works from ordinary photographs which have appeared in magazines.

"My mother owns a wool store at Vernet-les-Bains in the Pyrenees," Christophe explains. "One day I happened to the fingering some samples of yarn which were around and mechanically I began making patterns of them on the table before me. Then I tried to make a portrait of my father asleep in his easy chair. It worked and I decided that this would be an amusing hobby in my spare time."

Christophe's wool portraits are extremely lifelike. He has done all the great or today—Pope Pius XII, President Eisenhower, Queen Elizabeth II, the Duke of Edinburgh, Generals Ridgway and MacArthur, Winston Churchill, President and Madame Vincent Auriol, Prime Minister Pinay as well as Pablo Picasso and Pablo Casals. He also shows studies of an old Catalonian peasant and even a seascape.

"I prefer doing portraits because a portrait presents more of a challenge," declared Christophe.

KUALA LUMPUR, MALAYA—(AP)—The Malayan tin industry is soon to sponsor the making of a film entitled "The Miner's Wife." Gathering material here for the production is W. Henry Lawrence, former United States Information Service official in Singapore who is now assistant director of the Tin Bureau in Washington. The film will be produced by a Hollywood company, says Lawrence.

He also announced that the Tin Bureau is appointing a public relations officer in Kuala Lumpur. He will serve as liaison between the bureau in Washington and tin producers in Malaya, supplying up-to-date information and material for use in the United States.

## Inauguration Rites Boost Readership Of Newspapers

NEW YORK—(AP)—President Eisenhower's inauguration gave a solid boost to newspaper sales around the country, an Associated Press survey showed Thursday.

Millions viewed the inaugural on television; millions more heard it broadcast on the radio. But, reports from circulation managers game will be worth \$7.25 to the by pried themselves loose from the video screens and radio sets, many of them turned to newspapers for the complete story.

**INFLUENZA ON THE MARCH**—Apparently beginning in Southern Colorado, influenza and other Winter respiratory infections are moving in a three-pronged offensive to the east, north and south as shown on Newsmap above. In many communities the number stricken reached epidemic proportions.

## Wave Of Influenza Spreads Over Wide Areas Of Nation

By The Associated Press

Flu—or what feels like flu—has spread into more than half the 48 states, and a nation-wide Associated Press survey showed Texas one of three particularly hard hit.

Texas reported from 200,000 to 250,000 influenza cases and described its outbreak as the worst since World War I.

The malady also has struck hard in Arkansas and Tennessee. Arkansas had the greatest number of respiratory infections in its history. The disease was reaching the epidemic stage in Tennessee.

Meanwhile, Dallas reported 14 pneumonia deaths and three influenza fatalities thus far in January. City Health Officer Dr. J. W. Bass said, "We've studied the situation statistically and this month has shown a significant increase . . ."

The Army, a state university, a steel company and some local officials have taken steps to combat the infections with influenza vaccine.

The Eastern and Western states were comparatively free of outbreaks, although Florida reported some schools closed to prevent the further spread of an influenza-like disease.

The Army is giving flu vaccine to the troops in Korea, Europe and at ports of embarkation for those countries. An outbreak of flu in Bavaria this week resulted in nine deaths at Munich, filled the city's hospitals and closed 27 school rooms.

The Jones & Laughlin Steel Corporation announced it is giving flu shots to its 44,000 employees in Pittsburgh; Alliquippa, Pa., and Cleveland mills, at its New York and Michigan ore mines and at various fabricating plants throughout the country. The treatments are voluntary.

In Ohio, where the incidence so far is low, Ohio State University is planning a voluntary flu immunization program to run through next week.

**One Type Intensified**  
Vaccine also was administered at the Syracuse (N.Y.) School for Mental Defectives and at the Cook County Jail in Chicago.

The reports indicate at least one type flu bug—A-prime—is responsible for some of the outbreaks. Some health authorities believe several types of minor virus infections are involved in school shutdowns or heavy absenteeism in several parts of the country.

Dr. A. M. Washburn, head of the Communicable Diseases Department of the Arkansas Board of Health, said the outbreak "definitely is an epidemic" in that state. He added it is difficult to determine which cases are true influenza.

George Cox, state health officer in Texas, said the flu outbreak in that state is the worst since World War I. He added that the disease is about at its peak and should start declining next week.

Dr. R. H. Hutcheson, Tennessee health commissioner, said 2,127 cases were reported last week and that all sections of the state are affected.

Osceola, chief of the Seminoles, was buried beside Fort Moultrie, in South Carolina, where he died as a prisoner.

## Hospital Shareholders Set Meeting For Next Month

The annual meeting of shareholders of the Midland Memorial Foundation will be held at 3 p.m., February 3, in the Midland Memorial Hospital, Chairman Frank Stubbeman announced Friday.

A shareholder to succeed Fred Wright, resigned, and three trustees will be elected at the session. Trustees whose terms of office have expired are J. H. Herd, Stubbeman and John W. House.

Shareholders are George T. Abell, John P. Butler, Stubbeman, Frank Cowden, R. L. Miller, Ralph Lowe, O. C. Harper, Lester Grant, J. S. Noland, Fred Turner, Jr., John J. Redfern, Jr., W. A. Yeager, R. M. Barron, Mrs. J. Howard Hodge, Clark R. Steinberger, Mrs. Ruth Scharbauer, H. G. Bedford, Foy Proctor, Fred Wemple, George W. Glass, James N. Allison, House, Dr. John B. Thomas and William L. Kerr.

Holdover trustees are Joseph I. O'Neill, Jr., president; Olin Frautner, Tom Campbell, Dr. Thomas, Al Vineyard, Mrs. Hodge, Mrs. Hal C. Peck and Abell.

Burton Sears is the hospital administrator.

Reports will be heard at the shareholders' meeting and plans for possible future expansion will be discussed.

He fell asleep while smoking and awoke with his clothing aflame. When he fell off the porch he lit on a water faucet, breaking it.

The stream of water put out the flames.

## Antique Timepiece Has Booming Alarm

NEW YORK—(AP)—An antique alarm clock which shot off a pistol and lighted a candle to awaken its owner is on exhibit at New York University.

The timepiece has a built-in flint lock pistol. Dr. Edward C. Smith of the university says powder was placed in the pan of the pistol. The alarm attachment exploded the powder and lighted a candle which promptly popped out of the clock to provide light.

The clock was made about 1730 A.D. in Carlsbad, Germany.

He Isn't Coming Home

One warm evening last May, a soldier drove restlessly around his home neighborhood in Queens, N. Y., gazing fondly at trees and other sights long familiar to him.

He knew, too, that it would mean separation from his sweetheart just at the time their marriage plans were taking shape.

Yet matters could have been worse. His enlistment would be ended in March, 1953, and the Army would have to ship him home in January to get him out of service by that date.

But January is well on its way now, and the soldier, Sgt. Werner Krenzer, still is in Korea.

The reason is very simple. Krenzer has found a job he likes. It would be better to say a job to which he is dedicated.

Doing this job in Seoul, the capital, he works with a team under the UN Civil Assistance Command.

Krenzer walks among the hapless kids, smiling and trying to win their confidence. If he strikes a real spark, he and Kim ask the youngster to go along with them to one of the city's orphan homes.

It's high tribute to Krenzer that he has won them over countless times. For these children, like the youthful victims of war everywhere, are dazed, bewildered, often hostile, reduced to scrounging for food and shelter like resourceful little animals.

On New Year's morning at about 1:30, the sergeant found a little five-year-old girl shivering on a stoop, shielded only by a bit of burlap, her head pressed against her lap to keep warm.

"We took her to one of our orphanages and set her on a bench near the stove. At first she could not stop shivering. Then the warmth took hold and, as we watched, she slowly sat up and at last stood up.

Back in Queens, his girl is gone, but the trees and the other friendly sights still beckon to Werner Krenzer. But you can understand now why he is staying on in Korea.

You'd actually think some motorists owned their cars, the way they drive them!

One Of The More Pitiful Aspects Of The Change-Over

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1953, By The Bell Syndicate, Inc.)

Drew Pearson says: New first lady takes on giant housekeeping job; Food costs prove terrific drain on presidential pocketbook; White House kitchen wonders add up to housewife's paradise.

WASHINGTON — Mamie Eisenhower now has had time to look around the White House and discover that she is mistress of a kitchen establishment which is the modern housewife's dream.

In fact, she is the mistress of a sort of entertainment factory, with three kitchens and several dining-rooms. She also faces the problem of feeding the President's staff, her own large retinue of servants, plus White House guests.

And there will be times when she will wish that Congress had acted on that last request of Harry Truman's to increase the White House expense allowance, because, unless she's extremely careful, she and the new President will find themselves dipping into their own pockets to pay for White House upkeep.

Another thing Mamie will find, after she gets settled, is that Senator Kenneth McKellar, a bachelor and a parsimonious one at that, will cause her a lot of headaches. For the penny-pinching senator from Tennessee, who presided over the White House Appropriations Committee, scribbled on thermostat heat regulators. Thus the White House heat is not controlled by individual thermostats in each room, as in every modern hotel, but by a main thermostat.

This means that the sun-room upstairs where the Trumans liked to breakfast is like a refrigerator in the winter and a furnace in the summer.

What Mrs. Eisenhower seemed to like most when she inspected the White House with Mrs. Truman last month was the big cedar room in the third floor. For a moth-harassed housewife, this room is heaven. Every inch is lined with cedar, even the cabinets and drawers; and the room is plenty big enough to hold every piece of wool around the White House, including Ike's old Army uniforms which have been a mecca for moths at Morningside Heights.

Mamie's Kitchens Mrs. Eisenhower didn't get a chance to inspect the White House kitchens when she looked over the place with Mrs. Truman, and they happen to be an intriguing modern food factory.

The main kitchen is a huge room in the equivalent of the White House basement, and contains every imaginable modern device for food preparation. Most of this was installed by Mrs. Roosevelt and still is in excellent condition. A large electric range covers one side of the kitchen. There also are work tables with built-in warming trays, a large soup kettle, barbecue spit, coffee grinder, garbage disposal beneath gigantic sinks, and overhead utensil hangers.

The whole thing is entirely air-

JACOBY ON BRIDGE

By OSWALD JACOBY

Written for NEA Service

Bridge experts are a versatile group, so I wasn't surprised especially when my friend, Albert Morehead, recently brought out a book of crossword puzzles.

In today's hand, Morehead's skill as a player is demonstrated. When West opened the queen of diamonds, against Morehead's logical contract of four hearts, he resisted the temptation to cover with dummy's king.

Such a play would, of course, establish dummy's ten of diamonds. The trouble was, however, that East immediately would switch to clubs after winning the first trick with the ace of diamonds. The defenders would thereupon take three club tricks to set the contract immediately.

When Morehead played a low diamond from the dummy at the first trick East naturally played a low

diamond from his hand. He assumed that his partner was leading from diamonds headed by the queen and Jack, and East wasn't even sure that South would follow suit to the first trick.

East could have been a hero by playing the ace of diamonds, anyway, but he cannot be blamed for failing to make this miraculous play.

After West won the first trick with the queen of diamonds, no further defense could defeat the contract. West actually shifted to a trump, as good a defense as any, whereupon Morehead drew three rounds of trumps ending in dummy. He then led the king of diamonds from dummy, ruffing out East's ace.

It was now simple to discard one club on the ten of diamonds, run five spades in order to discard all the clubs from dummy, and ruff a club in dummy. Morehead thus won 11 tricks instead of being set one.

CARD Sense

Q—With neither side vulnerable, the bidding has been:

North 3 Diamonds South West 1 Heart 2 Diamonds

Q—South, Hold: Spades A-6-2, Hearts K-7-6-5, Diamonds 4-3, Clubs K-J-7-5. What do you do?

A—Bid three hearts. The jump raise shows 13 to 17 points, and in this case you have the minimum requirement for the bid. You have a count of 11 points in normal high cards, one point extra for the king of your partner's bid suit, and one point for the doubleton.

TODAY'S QUESTION

The bidding is the same as in the question just answered. You, South, hold: Spades A-6-2, Hearts K-J-6-5.

Oil Policy Is A Problem Child For GOP To Whip Into Line

By PETER EDSON

NEA Washington Correspondent

WASHINGTON—Sometime early in the Eisenhower Administration, its best minds are going to have to develop a consistent oil policy. No such policy exists today.

The result—if the United States suddenly were thrown into another shooting world war—would be chaos. It could lead to loss of the war for lack of adequate oil supplies.

Need for an American domestic and international oil policy is made evident by a number of related developments:

1. Today's great hassle over the Department of Justice actions against an alleged international cartel involving, among others, five major U. S. producers—Standard of New Jersey, Standard of California, Socony-Vacuum, Texas Company and Gulf Oil.

2. The stalemate over the Iranian oil crisis, and the failure of the British to make a settlement with Iran's Premier Mossadegh.

3. Soviet, Russian threats against the Middle East and the native unrest in this area. Here is the world's greatest known oil reserve—more than 200,000,000,000 barrels.

4. The constantly increasing rate of U. S. consumption of petroleum products, when measured against proved U. S. reserves estimated by Department of Interior as sufficient for only 14 years.

5. Protests of U. S. oil producers against American imports of foreign oil, now running at a million barrels a day as compared to domestic production of 5,500,000 barrels a day.

6. Ex-President Truman's order to transfer U. S. "tidelands" oil rights to the naval reserve. Congressional majority opinion and President Eisenhower's own campaign promises to transfer these rights to the states promise to make this one of the more immediate issues for the new Administration in Washington.

World-Wide In Scope

When all these points are considered together, it is apparent that a domestic U. S. oil policy no longer can be considered by itself. Everything now has to be fitted into the world picture.

This is a subject which has been given top consideration by the National Security Council in recent weeks. NSC is composed of the President and Cabinet officers. As such, it is America's top civilian defense and foreign policy determining group.

For from being able to arrive at any definite decisions on oil policy, however, the Truman Security Council left the problem like an unwanted child in a bundle on the doorstep of the new Administration.

A report prepared by Oscar Chapman, former secretary of Interior, was deposited with the founding to outline its ancestry and a few possible feeding formulas.

Everything in the Chapman paper focuses on the Middle East. When Premier Mossadegh of Iran was in Washington last year, Secretary Chapman saw him for two hours in his hospital. At that time it was believed that a solution of the dispute with the British was possible.

Russia Wants Abadan Today that is not so apparent. The possibility of the Anglo-Iranian Oil Company never being able to re-

Seals Top Eskimos In Fishing Abilities

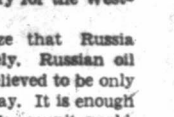

SEATTLE—A clergyman from tiny St. Paul Island near the Bering Sea says there is one special dietary drawback to life in that area where sea life abounds. No fish.

If he wants herring for his table, for example, they must be shipped from outside, explained the Rev. Makar A. Baranoff of the Russian Orthodox Church.

"The seals catch all the fish for 100 miles around our island," he said. "The seals are much better fishermen than the Aleut natives. So the Aleuts spend their Summers sealing and their Winters in trapping foxes."

St. Paul is one of the Pribilof Islands, famed as the breeding grounds for the migrant seal herd of the Pacific.

The Golden Door

By Bart Spicer

THE STORY: With the theft of valuable perfume from the Jones home by the apparent aide of the stockroom clerk, Carney Wilde, private detective, has been asked to help Jack Jonas, son of the store owner. And some records of Future Americans, a group trying to help displaced persons. These records disappeared under circumstances from headquarters of the organization on the Jones estate.

JACK JONAS got a key from Mia and opened one of the cabinets. "Part of the cards in the second drawer are gone," he said.

The cards were buff colored and fairly stiff. The list of questions was long and detailed. Future Americans wanted a lot of information and apparently got it. The back of the card was used for references and opposites such was the result of a questionnaire sent by Future Americans. It was a careful screening job equivalent to a routine FBI job. A small photograph was pasted on the bottom line next to a double row of fingerprints.

"Not all of these were your members then?" I asked. "These cards look like application blanks. Didn't you turn anyone down?"

Rudi took over then. "The most clever and insidious people in the world are the former Nazis and collaborators."

"That cabinet holds our acceptance records, Wilde," Jonas said. "Is this the entire personnel?" I asked, indicating the people present.

"The answer is both yes and no, Wilde," Jack said in a harsh tone. "No one here is involved. I can assure you of that. Now please drop that line of questioning." He looked at question at Rudi and he nodded to each other.

I fingered the blank card and waved it at them. "This thing carries a lot of information," I said. "I can imagine circumstances in which that information might be useful to some people. Did you

ever have requests for information?"

"We...uh...have had some requests," Jonas said lamely. "Once, in fact, the FBI consulted us about a man." When he mentioned that he seemed to brighten up. "Of course we would open the files to any authorized agency."

He ran out of ideas then. "All right," I said. "We won't chase that one any more." I rapped both hands in my side pockets and made hard-clenched fists. "Just what good would it do yours? Anyone at all?"

No one said anything. After waiting a moment, I pulled the chair out from the desk so I could sit facing the wall and not have to look at those masked, secretive faces of people trying to think of something to say. I lit a cigaret. The smoke billowed around a stilled bas-relief of the Statue of Liberty and then drifted away. I sat dully, staring at the graceful, hopeful model, trying to get my control back.

"She is a favorite of yours, Mr. Wilde?" It was Rudi's voice behind me. Light and slightly mocking.

"Yes," I said flatly.

HE laughed easily. "This I have always disliked," he said. He leaned over my shoulder and traced a slim finger under the last few lines of the poem printed in large script at the base of the model. "Give me your tired, your poor," he quoted in a tone of light contempt. "Your huddled masses yearning to breathe free. The wretched refuse of your teeming shore. Send these, the homeless, tempest-tost to me. I lift my lamp beside the golden door." Rudi straightened and his hand came away from the wall.

"I wonder," he said, "if any American could believe that one might come here without being 'wretched refuse.' Do you think so, Mr. Wilde?"

I stood slowly and put out my cigaret in an ashtray. "Couldn't say," I turned and looked at him. "It sure is the golden door, though." I brushed past him and went out.

WASHINGTON—Fire is the real killer in aircraft crashes.

The finding of the National Advisory Committee for Aeronautics, which has a major research program under way aimed at drastically reducing the death toll in plane accidents.

If it weren't for the flames which usually turn a crashed airplane into a mass coffin for all the passengers, the number of survivors from plane accidents would be considerably higher, NACA scientists have found.

## Screams Of Victims

The actual result of the impact of the plane with the ground is not the main fatal element. "Aeronautical research has shown that very high decelerations can be withstood by a human, provided they persist for only a short time," an NACA report states.

This fact is also supported by almost all eye-witness reports of crashes. When rescuers have been able to get close to planes which have just crashed, they invariably report screams, moans and shouts from persons alive inside the cabin.

It is the inevitable fire which drives off rescuers and kills the trapped passengers.

In its fight to cut these fire deaths to an absolute minimum, NACA is in the middle of a spectacular research project. It goes one step beyond previous studies of fire-fighting equipment and chemicals, and research into the various firing temperatures of lubricating oils, fuels and hydraulic fluids.

Using war-weary C-46 and C-82 cargo planes, NACA creates actual crashes.

"We simulate a take-off accident in which the airplane fails to become airborne, strikes an embankment, shears off the propellers and the landing gear; strikes trees or poles; ruptures the fuel tanks, and then skids along the ground to a stop," an NACA report explains.

Cost of this program, which will end up saving thousands of lives, is included in next year's NACA budget request of \$58,872,000. This year NACA financed the work out of its \$48,940,000 budget. Last year NACA asked for \$50,563,000 but was cut five per cent by Congress.

Most of the results are considered so important to national security they are being kept secret. However, they will be built into new military and commercial aircraft.

A few results of the fire studies have been revealed. For example, it was learned that in many cases temperatures are caused in crashes which are too low to ignite the gasoline, but which can set in flames the oil or hydraulic fluid. These flames, then, touch off the gasoline.

Another discovery was that it is possible to cut off the ignition on the engines too soon when a pilot sees a crash is imminent.

If it is cut off before the flow of fuel has been stopped, fire frequently results as the gasoline passes through the engines and hits the hot metal of the tail pipe.

Findings of this nature have been given to employes and crews of the airlines for the increased safety of passengers. This line of research will be pushed more vigorously, in view of the recent series of air crashes.

The "flying typewriter," a printer which can reproduce "Gone With the Wind" from magnetic tape in two hours, has been designed to print a line at a time, 80 characters to the line, and to handle 300 lines a minute. It prints from coded tape directly, or from code signals sent over wires.

This produces a "maximum array of potential ignition sources." Such a test, with the planes loaded with more than 1,000 gallons of fuel and engines at full throttle, contains the elements of just about every crash fire hazard.

A monorail on a 1,700-foot runway keeps the plane heading straight to its crash destination. Results are recorded as follows:

"High-speed motion pictures provide a detailed photographic record. Installed in the planes are fire-proof, shock-insulated boxes filled with instrumentation to measure temperature, combustible vapors and decelerations. Other instrumentation provides fuel-line failures and short circuits or arcs. A total of 102 thermocouples and heat registering devices are installed in engine nacelles and in wings and fuselage."

Results Secret

At full throttle, NACA test plane roars down runway toward barrier on way to a crackup to study ways to prevent fire.

Split second later, high-speed sequence camera catches test plane as it hits barrier. Wings and tail start to crumple.

As ground-loop begins, damage grows, but cabin is intact.

Plane skids to stop, and fire breaks out from ruptured tanks.

Antique furniture is reupholstered (left) with vinyl plastic fabric. This couple traced the shapes of the chair seat and back with a pencil and cut them out. Now the girl lacks the pieces in place. Next step will be to trim off raw edges and cover them with wetting, using gimp tacks. Rolling pins can do more than make pie crust. Girl (right) demonstrates the way to roll a new melamine-laminate plastic top onto your coffee table to make a stain-and-scratch resistant surface. A long metal strip nailed vertically along the studding. Hold top and bottom edges, temporarily in place with shingle nail heads.

## Table Top Takes A Beating, Stands Up Well, Plastic Also Makes Upholstery Scuff-Resistant

By ANNETTE JEWETT  
NEA Staff Writer

NEW YORK—(NEA)—A melamine laminate is the latest thing to make your coffee table resistant to water rings, burns, bangs, feet parked on it, chipping and other abuse not-so-tenderly administered by guests having too good a time to think about your table's good looks.

This melamine laminate is a hard plastic sheet, 1/16th of an inch thick, that you cut to fit, exactly on the top of your table. These are the tools you will need: a hand saw having at least 12 teeth to the inch; a quick-setting adhesive made especially for the job; a hand plane; and a kitchen rolling pin.

Lay the plastic sheeting on the table top and cut to size with the saw, keeping it at a very low angle to avoid chipping the table edge.

Apply the adhesive to the two surfaces you wish to cement together. Let them dry 15 minutes before putting together.

Seal table and laminate together after first matching edges exactly, by rolling with your rolling pin from the center out to the edge.

Bevel the edges with your hand plane for a perfect finish.

Now let anyone who will leave a wet glass overnight on your coffee table!

Who hasn't admired those kitchens with plastic counters that clean so easily? Housewives roll out pie crust on them without even bothering with a board. Once you had to order entire new kitchen units before you could get these wonderful counter tops. Now handy husbands can make kitchens over for their wives without too great an investment.

Melamine laminates 1/10th of an inch thick have curves engineered into them so they will hug a flat surface—one free from bumps—with air-tight fit.

Tools you will need for the job are a keyhole or coping saw, a cove molding, overlap-type molding and nails. The moldings are available through the same lumber dealers that carry the melamine laminate.

Cut the panels to size with the saw. Fasten cove molding securely to the counter base by nailing it through the flange directly to the counter type. Then slip the laminate into the molding.

Secure overlap-type molding to the edges that have no wall support and screw or nail in place. Nails never go through the plastic but only through the molding into the surface that supports the plastic.

If you want to put up a melamine laminate behind your stove or on any other wall surface, that gets a lot of staining, you can do that easily too.

Lay out studding on the wall where the panel joints will be. Anchor plastic panels to the wall with long metal strips nailed vertically along the studding. Hold top and bottom edges, temporarily in place with shingle nail heads.

Next step is to fit snap-on type moldings in place on the strips that serve as molding tracks. These snap-on moldings match the pattern of the plastic panels and are bought with the laminate.

You can get materials and directions for doing a whole house in plastic if you so desire. Take your bedroom, for example—you can cover the walls with a plastic fabric that looks like wallpaper but is far less delicate; upholster the furniture with electronically-quilted plastic; have draperies, bedspreads and dressing-table skirts in new plastic fabrics that have all the beauty and soft feel of textile fabrics.

The adjoining bathroom can be done in lustrous plastic tiling. Of course all the surfaces in these plastic rooms are mar-proof laminates.

## The MATURE PARENT

### 'It Hurts Me More Than You' Is Phony Talk To Youngsters

By MURIEL LAWRENCE

At 5 p.m. Mr. Jones phoned his wife to say that he was dining in town with a client. When she protested that he had a bridge date with neighbors, he said, "Stop trying to tell me how to run the advertising business."

At 5:30, Marilyn Jones, dyeing an expensive sweater in the bathroom, told her mother that she couldn't see the red stains she'd splattered on a new bath towel. Her mother was passionately demanding to know whether Marilyn believed her parents were made of money when Jackie came upstairs to fuss because he couldn't find his Scout knife.

He followed his mother downstairs, still fussing while she prepared a bleach solution for the towel. And as he complained, he kept poking at the loaf cake cooling on the kitchen table.

"Stop it," his mother said. "I've had all I can take. The cleaner will bring back your Scout knife when he delivers the coat you left it in. Now run along and stop bothering me."

But Jackie wouldn't stop bothering. He snatched at the cake again, knocking over a bowl of shredded coconut. Whereupon his mother blew her top. She grabbed Jackie by his coat collar, muttering, "Now we'll see who's boss around here!" and marching him up to his room, gave him a spanking.

When she brought his supper an hour later, he wouldn't speak to her. He refused to show any interest in his piece of coconut cake. Hesitantly, Mrs. Jones said, "Are you still angry with mother? Don't you know that spanking you hurts me more than it hurts you?"

Jackie didn't believe her. Neither do I.

Spanking her harassing child was a release and relief to Mrs. Jones' accumulated irritations. She does neither herself nor her child any service by pretending to philanthropic motives for her action. We all blow our tops when pressures are stronger than our resistance to them. We do not have to be so ashamed of this that we doll up our explosion in phony altruistic talk to Jackie.

What his mother might better have said is, "I've been mad this afternoon and just lost my temper when you gave me extra work, I'm sorry. When you can understand that mother is not an angel but gets mad sometimes just as you do, come on down and have some supper with us."

Talk of how spanking hurts us more than it hurts Jackie forfeits his respect. He figures, quite logically, that if spanking him is really so painful to us, we'd find another way to express our point of view.

If we believe that we have done right to spank a disobedient or harassing little boy or girl, we should not apologize. We should not feel especially hurt at meeting out punishment we consider instructive.

If we don't believe we have done right, then we should admit our error and make a straightforward request for forgiveness. (All rights reserved, NEA Service Inc.)

# SMART FOLKS—THOSE BUICK ENGINEERS!

They've made the 1953 BUICKS 87 ways better

World's newest V8

OUR hat's off to the men who made the 1953 Buicks what they are—the greatest Buicks in fifty great years.

They came up with a new kind of V8 for the SUPER and the ROADMASTER—a brilliant V8 Engine with a long list of engineering "firsts."

They redesigned the F-263 Fireball 8 for record horsepower and compression in the spirited Buick SPECIAL.

They kept every inch of room in the roomiest six-passenger Sedan in America—and still shortened its turning radius considerably.

They did new wonders with the wonderful Million Dollar Ride. They stepped up visibility, comfort, handling ease, control.

And man—what they did with getaway!

They dreamed up, designed and developed a new Twin-Turbine Dynaflo Drive\* that whisks you away quick as a wink—and just as smooth, almost as silent.

In fact, no other car in the world gets away with all the combined quickness, quiet and smoothness of a Twin-Turbine Dynaflo Buick.

Wouldn't you like to see for yourself just how great these Golden Anniversary Buicks really are? Drop in soon—we'll be happy to do the honors.

 The son, James, Jr., is studying for the ministry. The daughter, Alfreda, has a master's degree from a theological seminary and plans to be a lay church worker in religious education.

**Fickle Bride Says 'No' Too Late But Court Ends Affair**  
 NEW YORK —(AP)—The bride had a change of heart at the last minute which even caused a difference of opinion in the Victoria Supreme Court before it finally was settled, reports the Australian News and Information Service here.  
 It seems a streetcar motorman and a transport conductress decided suddenly to get married, got a special license and went to a clergyman's home for the ceremony. But just as the ring was being placed on her finger she changed her mind, threw the ring on the floor and cried, "I won't go on with it!"  
 The bridegroom later asked the court to rule the marriage invalid or to give him a divorce. The court, deciding the marriage was legal, gave him a divorce. But the chief justice maintained there had been no marriage in the first place because he said it was necessary for a religious service to be completed for such a marriage to be binding.

**JAPAN GETS SCRAP**  
 YOKOHAMA, JAPAN —(AP)—U. S. Army quartermaster sales of scrap metal and rubber to Japanese firms have netted American taxpayers \$2,750,000 since 1951, an Army report says. The scrap is sold mainly to small businessmen.

## TALK ABOUT HAVING FUN!— Try Deep Sea Dive As Fly Buzzes Inside Your Helmet

SOUR LAKE, TEXAS—(AP)—The unexpected provides the greatest thrills for a professional diver.

A fly, or worse yet a spider, trapped in the diving helmet. A freak underwater current that can snarl the air lines. Or close a door while the diver is inside a sunken ship. And sometimes everything goes wrong, recalls Vernon Westbrook, 51-year-old Sour Lake man whose freelance diving assignments take him up and down the Texas Gulf Coast.

On one such job, he found himself without air while at work below the water. He surfaced and discovered his two tenders had deserted his air pump and were engaged in a fist fight.

"People were always horse playing on that job," he grinned. "One guy in particular took pleasure in splashing water in my face just before screwing on my helmet. After he had completed snuggling me up for a dive one day I grabbed him by the legs and just fell off the barge with him."  
 "Matter of fact, I held on to the struggling character until we were about 12 feet under the surface and

then let go. Never had a bit of trouble or horseplay with him after that."  
 Westbrook has been locating and retrieving sunken objects for 32 years. It was in 1920 that he began working for Nick Kahl in Beaumont. Nick taught his pupil only one thing: three pulls on the safety line meant the diver wanted to come up. Westbrook had to learn the rest himself.

**Finds 50 Bodies**  
 Since then Westbrook has made more dives than he can remember. He estimates he has recovered the bodies of 50 drowning victims.  
 Once he went down to recover two victims who had drowned in a tug in the Port Arthur ship channel. Feeling his way into the blackness of the small cabin, he located one body and tied it to the handle of the cabin door. When he had found the other body his discovered a freak current had jammed the first body between the ship's rail and the door, closing the only exit. He had to work long and carefully to get the door open.

Because of darkness down under, Westbrook works principally by his sense of touch. Recently he found a jack handle which officers believed had been used in a criminal case—but had to squirm a mile on his stomach to do it. He worked alongside the sea wall, using his entire body as a feeling device. He found bicycle tires, auto tires, whiskey bottles, beer cans, innumerable chunks of concrete—and the jack handle.

**Fly In Helmet**  
 Once one of his tenders, as a joke, put a large green fly in his diving helmet before clamping the device on Westbrook's head.  
 "I didn't discover it until I was half way down, and by that time it was too late," Westbrook recalls. "He crawled and buzzed all around my head and generally made a nuisance of himself."

missed the fly. Finally I locked my legs around a piling and increased the air inside my suit until the pressure killed him.  
 "The pressure trick will work with a fly but not spiders. Most of the time when I feel something crawling around in my helmet, I don't know what it is. But one time I saw a small black spider on my port glass as I went under."  
 "He thoroughly enjoyed himself crawling in my ears, over my mouth and around my nose so I thought I'd get rid of him like the 100 I locked my legs around a piling again and increased the pressure, but it didn't faze him. Finally he wandered down into my suit and didn't bother me anymore."
