Glenn R. Lewis Announces For Judge 51st Judicial District.

Glenn R. Lewis, eleven years before the bar and now serving his sixth year as district attorney of the 51st Judicial District will seek promotion to the office of District Judge of the same district.

The candidate was reared in the Texas Panhandle. He came to San Angelo immediately after receiving his law degree from the University of Texas in 1925 and became engaged in general civil law practice. His first connection was with the late Judge J. A. Thomas. He left Judge Thomas' office in 1927 and went into the office of Wright & Gibbs and was still associated with Judge Gibbs at the time of taking office as district attorney in 1931.

Mr. Lewis will soon be 34 years of age, is married and has two sons, Dickie, aged 8, and Glenn Bill, aged 18 months.

His brief statement follows:

"Through the help of many friends, which is gratefully acknowledged, I have been serving as district attorney for some time. It is now my privilege to ask election to the place of district judge, an opportunity for more comprehensive service and an advancement which I have tried to earn. If elected, I pledge myself to a course of fair and impartial administration of justice and attentiveness to business."

Change in Phone Rates.

On January 15th a reduction was made on person to person calls during the night rate period corresponding to the station rate. Example—Station to station rate to Abilene, 90c; night rate, 45c. Person to person, Abilene, 90c; night rate, person to person, 65c.

The night station to station rate and the night person to person rate will be in effect each week day from 7 p. m. to 4:30 a. m. On Sunday the night rate will be in effect all day. Example—The all-day Sunday rate to Abilene will be station to station, 35c, and person to person, 25c, not including tax.

Judge Jehn F. Sutton is a Candidate to Succeed Himself.

Judge John F. Sutton, Judge of the 51st Judicial District of Texas, composed of Tom Green, Irion, Schleicher, Coke and Sterling counties, places his name in the announcement column of this paper as a candidate to succeed himself as District Judge. Judge Sutton submits his name as a candidate for reelection at the coming Democratic Primary, with the request that the voters consider his past record in selecting a man who will direct the business of the 51st District Court, and pledges a continuance of his best efforts to fairly and impartially administer the duties of the office he now holds.

In his announcement Judge Sutton says: "In my first campaign for the office of District Judge I promised the people of this Judicial District to keep clear the dockets of the court; to conduct the affairs of the court in a businesslike manner and deal fairly with all mankind.

Upon being elected to the office of District Judge by a majority over two honorable and distinguished opponents, I pledged myself to the people of this Judicial District and to those who might come to live amongst us, that I would with courage and earnestness give my very best ability, strength and energy to the end that this District might have an improved and economical disposition of the court. These promises and my pledge have ever been fresh in my mind as a reminder of my official duties to the people of this Judicial District. In the discharge of my official duties I have established an official record, to which I refer the voters to determine for themselves whether I have made good, and, of course, gladly submit myself on that record, a reward that I have no desire to change and one which I feel will stand the test of comparison with others hold like positions. Upon my record I submit my candidacy and solicit the vote and active support of all voters in the 51st Judicial District, and in return offer a continuation of the same character and kind of service I have rendered in the past, with such added efficiency I have gained by judicial experience."

Hours for Meals.

A farmer who went to a large city to see the sights, engaged a room at a hotel, and before retiring asked the clerk about the hours for meals.

"We have breakfast from 7 to 11, dinner from 12 to 3, and supper from 6 to 8," explained the clerk.

"Look here," inquired the farmer, in surprise, "what time am I goin' to have to see the town?"

And Winter Just Started.

A train was brought to a stop by striking a snowdrift in Wyoming.

A farmer carrying a long pole showed up on the scene. He would walk a few steps and stick the pole down in the snow.

Finally, he came close to the train and a passenger opened a window and asked the farmer: "How deep do you find the snow out there?"

"I'll be gosh darned if I know," said the farmer; "I'm hunting my fiver."

Jesse Couch Candidate for the Office of County Clerk.

Jesse Couch, former district clerk, and perhaps one of the most widely known men in Tom Green county, herewith announces his candidacy for county clerk. Mr. Couch says:

"I have resided in Tom Green county continuously since January 10, 1908, except for about four months spent in a hospital in Temple, Texas.

"I served as district clerk of Tom Green county for several terms, since which time I have acted as deputy clerk and commissioner of the federal district court, which position is now and has been since the federal court was established in San Angelo, a part time position.

"I believe the experience I have had in court work qualifies me for the position I am seeking, and request you to examine with care my record as district clerk.

"I respectfully ask your support for the office of county clerk, and assure you that, if elected, I will devote my entire time and efforts to the office."

Mr. Couch has in his possession letters of commendation from attorneys from all parts of the state, and from state officials. He has been a taxpaying citizen in Tom Green county since 1914. In 1935 he was instrumental in bringing the County and District Clerks' convention to San Angelo, which was the first time the association had ever met in San Angelo.

Mr. Couch has had many hardships during his life, and is quick to sympathize with anyone who is "down and out," and has never refused to help anyone when he could do so, and he considers "friends" the best asset a person can have.

He has a wife and two children, a girl and boy, the latter is a student in junior high school. They reside at 210 West Harris street.

One Dollar Income: Two Dollar Outgo!

By RAYMOND PITCAIRN
National Chairman
Sentinels of the Republic

With Congress well launched into its present session, the public is watching eagerly for evidence that pledges to reduce extravagance in government are to be fulfilled.

Thus far the evidence is scant. There have been the usual number of "private bills" to increase individual pensions and the like. There has been talk of huge appropriations for various projects obscure both in scope and in purpose. It begins to look as if enough plans to spend the taxpayers' money will be offered this session to run the total high into the billions—as has been the fashion at Washington during recent years.

Naturally all these efforts on the part of legislators to spend the people's dollars cannot hope to be enacted into law. But the persistence with which such attempts recur indicates something worthy of consideration by all of us who pay taxes, whether direct or "hidden."

It is, that while office-holders like to picture themselves as the people's business agents in government, actually many of them seem to play quite the opposite role. Probably that explains why the Federal public debt has reached an all-time high; why the government is spending almost two dollars today for every dollar it takes in.

What the office-holder should remember is that the ability of any business agent is measured not by the number and the magnitude of the bills he runs up for his employers to pay, but by the efficiency and economy with which he administers the affairs of those he represents. Helping to run up a public debt that would take thousands of years to pay at the rate of \$5,000 a day, doesn't quite fit the picture. Yet that, statisticians say, is what reckless spending in government has done to the United States and its people.

Big appropriation bills may help put a legislator's name on the front page—but they don't remedy conditions if they also help put a lot of other men's names among the bankruptcy notices.

Texans to Spend Millions in 1936 As Host to U.S.A.

Southwest Empire's Fete of Independence to Center in Dallas

Dallas, Texas.—In 1936 the State of Texas will celebrate the passage of a century since her pioneer settlers won freedom from Mexican rule and established the Republic of Texas, which later became a state.

Throughout the Lone Star State there will be celebrations at places of historic and patriotic interest. The cities and towns which were battle scenes in the Texas Revolution, and communities founded during the exploration and colonization preceding the Republic, will commemorate progress of the only state that existed as an independent republic, prior to its entrance to the Union.

Under the six flags that have flown over Texas soil—those of France, Spain, Mexico, Republic of Texas, the Confederacy and the United States—since 1519, there has been written by men and women, in thought and action, a saga that is truly mighty.

Highlights of the gala and festive celebrations of the Centennial Year will be an event that is in its own right an historic one. It is the Texas Centennial Exposition to open in Dallas on June 6 and continue until November 29.

The Texas celebration represents an investment of more than \$20,000,000. The City of Dallas pledged \$8,000,000 in cash and property and the \$4,000,000 plant of the State Fair of Texas, located within her city limits, will be used as the Exposition grounds. Dallas also pledged \$5,500,000 in cash for building her share of the enterprise, \$2,500,000 of which was raised by a municipal bond issue and \$2,000,000 bonds sold by the Texas Centennial Central Exposition Corporation, comprised of Dallas citizens.

The Texas Legislature appropriated \$3,000,000 and the United States Government a like sum.

The Dallas Exposition grounds consist of approximately 200 acres. Exposition buildings and their cost follow:

Texas Hall of State, \$1,200,000; Hall of Fine Arts, \$550,000; Hall of Varied Industries, Electricity and Communications, \$440,000; Hall of Livestock and Animal Husbandry, \$300,000; United States Building, \$225,000; Hall of Natural History, \$250,000; Rural Boys' and Girls' Dormitory, \$250,000; Hall of Foods and Beverages, \$230,000; Hall of Aquatic Life, \$180,000; Hall of Agriculture, \$170,000; Hall of Domestic Arts, \$75,000; Hall of Horticulture, \$75,000; Band Shell and Pavilion, \$50,000; Hall of Negro Life and Culture, \$50,000; Radio, Police, Fire Station, Texas Ranger Headquarters and Hospital, \$40,000.

Cost of landscaping and paving is estimated at \$675,000. In addition, a half-million dollars worth of utility equipment and \$350,000 in electrical equipment will be installed.

A million dollar sports plant will enable the Exposition to handle sporting events of all kinds. The grounds already have a \$400,000 stadium seating 46,000 people, a horse race track and grandstand costing \$300,000, and indoor boxing and wrestling arena costing \$100,000 and seating 8,000 persons, a polo field, straightaway and oval running tracks and tracks suitable for automobile or motorcycle races. A standard-sized swimming pool will be constructed for aquatic events.

Main entrance of the Exposition grounds will face the Esplanade of State, 300x1,000 feet, leading to the Texas Hall of State. The esplanade's center will be a reflecting basin 200x700 feet with concealed lighting effects flashing from the pool to adjacent buildings.

The Texas Hall of State, built of native granite, will be 488x258 feet. An 80-foot high center will house the Niche of Heroes, dedicated to illustrious figures of Texas history. The front wings will be devoted to regional rooms, a replica of a Texas mission representing the Hall of 1936. An auditorium in the basement will be used for convention purposes.

Getting Down to Business.

Tommy—I never loved anyone but you.

Jane—Nonsense!

Tommy—You are the light of my life.

Jane—I've heard that before.

Tommy—I can't live without your love.

Jane—Don't be foolish.

Tommy—If I could only tell you how much I love you!

Jane—Think of something new.

Tommy—Will you marry me?

Jane—Well, now you're talking.

Who would risk eyes like these?

CURRENT EVENTS IN REVIEW By Edward W. Pickard

Farm Leaders Insist on Crop Control Legislation

FARM leaders summoned to Washington to help in devising a new farm program decided to remain there and "picket" the halls of congress until legislation is passed to take the place of the AAA destroyed by the Supreme court ruling. The proposal that was the first plank in the policy platform they drew up and that is pushed by administration men centers on production control through subsidized soil conservation. Farmers would get cash grants, provided they had permitted the transfer of certain acreage from commercial production to soil conserving crops, or had "adjusted" the commodities on certain land.

Administration leaders were considering a plan to raise the half million dollars a year necessary for this scheme by enacting most of the old processing taxes as excise levies. The farm leaders favored this, and also recommended: "Retention and strengthening of all positions of the AAA act not declared unconstitutional. "Creation of farm commodity co-operatives, authorized under the Carper-Volstead act, for marketing or distributing farm products." Foremost among the agricultural experts who took part in the conference was Howard R. Tolley, director of the Giannini foundation in California. He has been described by administration officials as the leading agricultural economist in the United States, and was hurriedly called from the West coast to Washington.

Process Tax Refund Ordered by Supreme Court

PROCESSING taxes amounting to \$200,000,000, impounded by the courts, must be refunded to the taxpayers, according to a unanimous ruling of the Supreme court of the United States. The decision did not go into the question of whether processors must prove they had absorbed the tax before they could recover, though this was one of the main points at issue. Presumably this will first be passed upon by a district court. The case was brought by Louisiana rice millers.

Protects WPA Workers From "Chiseling" Employers

HARRY L. HOPKINS, WPA administrator, has sent to state administrators a set of regulations intended to protect WPA workers from "chiseling" employers and to keep up wage standards. In his letter to the state officials Mr. Hopkins said: "I want to make perfectly clear the policy of the works progress administration relative to private employment or employment on contract jobs under the direction of other federal departments which may be offered the WPA workers. "It is expected that WPA workers will accept available jobs in private employment, whether of a permanent or temporary nature, provided: (1) That the temporary or permanent work shall be a full-time job. (2) That such work shall be at a standard or going rate of wages. (3) That such work shall not be in conflict with established union relationships. (4) That workers shall be offered an opportunity to return to the WPA upon completion of temporary jobs."

Raskob Is Angered by Government Tax Suits

JOHN J. RASKOB is angry, and so is Pierre S. duPont, for the government has filed with the board of tax appeals a brief charging that these two gentlemen agreed to create fictitious losses through security sales to each other in 1929 and thus improperly reduced their net taxable incomes. "Tyranny and cheap politics" was the way Raskob characterized the action, and he intimated that the brief was timed to appear before the American Liberty league dinner January 25 at which Alfred

E. Smith will be chief speaker. Both Raskob, a conservative Democrat, and duPont are liberal backers of the Liberty league, which has been saying many severe things about the New Deal.

In its latest output the Liberty league attacks President Roosevelt's interpretations of the fiscal situation as "misleading and deceitful," and urges that congress investigate "the entire governmental structure."

Puerto Rican Sugar Estates Will Be Broken Up

SECRETARY OF THE INTERIOR SICKES, making a brief visit to our Caribbean possessions, told representatives of the sugar interests in Puerto Rico that the great sugar estates of that island would be broken up, because they are in violation of a law forbidding the corporate ownership of more than 500 acres of land. He explained the lands will be homesteaded to get thousands of landless persons back to the soil. It is not known whether Mr. Sickes did anything about the general dissatisfaction in Puerto Rico with the policies of certain of the government's representatives there.

Democratic Convention Goes to Philadelphia

AUCTIONED off to the highest bidder, the Democratic national convention of 1936 was sold to Philadelphia by the party's national committee. The price was \$200,000, plus some prizes and concessions. Chicago and San Francisco also bid for the convention. The former offered a certified check for \$150,000. The California city made the same bid and later raised it to \$292,500.

During a brief recess Chairman Farley telephoned, presumably to the White House, and Vice President Garner moved among the members of the committee urging the selection of Philadelphia. Therefore the City of Brotherly Love won the prize. The opening of the convention was set for June 23.

Hauptmann Still Fights Against Execution

BRUNO HAUPTMANN, due to die in the electric chair January 17 for the kidnaping and murder of the Lindbergh baby, continued, through his legal counsel, his fight to save his life. If the attitude of Governor Hoffman of New Jersey was rightly reported, there was a possibility that the condemned man would at least obtain a reprieve; but the state court of pardons, of which the governor is a member, had unanimously refused to commute the sentence to one of life imprisonment after examining the alleged new evidence in Bruno's favor. Defense counsel were said to be preparing to try to persuade the United States Supreme court to take some action in the case.

When Hauptmann was told by C. Lloyd Fisher, one of his lawyers, that the court of pardons had rejected his plea he displayed no emotion. "Your only chance now is to directly involve some one else in the kidnaping," Fisher told Hauptmann. "I can't change my story," Hauptmann replied, according to the prison warden. "I have told the truth all along. There's nothing more to tell than I have told. I haven't the least idea where Fisch got that money from." Hauptmann referred to Isador Fisch, German furrier, who died in Bavaria about a year after the kidnaping. The prisoner has steadfastly insisted that the ransom money found in his possession when he was arrested had been left with him by Fisch.

Bonus Measure Is Pushed Through the House

NO TIME was lost in putting through the house the bonus measure that had been agreed upon by veterans' organizations and approved by the ways and means committee. It carries the name of the Vinson-Patman-McCormack bill and is a compromise that authorizes immediate payment of the bonus but offers no definite plan for raising the money. It would provide 3 per cent interest until 1945 for veterans refraining from cashing their adjusted service certificates at once, and cancel all interest still due on loans on the certificates. In the senate Pat Harrison introduced a compromise bonus bill providing for payment in \$50 bonds that may be cashed upon demand.

Miguel Gomez Elected President of Cuba

IN AN astonishingly tranquil election, Miguel Mariano Gomez, coalition candidate, was chosen president of Cuba, defeating Gen. Mario G. Menocal, former president, by a slender margin. Gomez, who is forty-five years old, was formerly mayor of Havana. He was supported by the army. The lack of disorder at the polls was due in part to the fact that the women of the island republic for the first time took part in an election.

STAR DUST Movie Radio

By VIRGINIA VALE

THE motion picture business got a gentle jolt recently, when it was announced by a man who knows that the stars preferred by people who buy tickets to the movies are not the stars credited by Hollywood and the motion picture critics as being the best on the screen.

The announcement was made by A. H. Blank, who has been in the business for 24 years, and is the head of two organizations which operate 75 theaters in 35 cities, selling some 20,000,000 tickets a year. He says that the most popular stars this last year have been Will Rogers, Shirley Temple, Clark Gable, Mae West, Norma Shearer, Bing Crosby, Claudette Colbert, Myrna Loy, Joan Crawford and the team of Fred Astaire and Ginger Rogers.

The stars the critics rave over are Charles Laughton, Claudette Colbert, George Arliss, Clark Gable, Leslie Howard, Norma Shearer, Greta Garbo, Will Rogers, Shirley Temple and Helen Hayes. They include Shirley, you see, but put her ninth on the list.

So—let's take the list of the best ten, and check up on current news about them.

Will Rogers' pictures are still drawing crowds, a most unusual thing when the star is no longer living. Shirley Temple had a lovely Christmas, with James Dunn acting as Santa Claus in an airplane and dropping presents for her on the lawn. She's taking a month's vacation, and planning to spend it in Hollywood. Clark Gable, since the split with his wife, is living at a hotel, and having some difficulty because he has his dogs staying with him. He will probably make a sequel to "Mutiny on the Bounty," showing what happened to him and his men after they settled on Pitcairn Island. Mae West wants to return to New York and do a stage play.

Norma Shearer, making "Romeo and Juliet," has for some time worn her hair a la "Juliet," in preparation for the picture. Bing Crosby is more excited than ever over his racing stable, now that the Santa Anita track is open. Claudette Colbert is still receiving congratulations over her elopement with Doctor Pressman, who was called to attend her when her sinus trouble was aggravated by the rain scenes in "It Happened One Night." Joan Crawford and Franchot Tone are still in a honeymoon mood. Fred Astaire, happier than ever before, is set to make more pictures with Ginger Rogers, who proved not to be so successful in "In Person," which she made alone, as she is when she's working with him.

If you've heard the very popular serial, "One Man's Family," on the air (and you should have; it's been going on for years), you'll be interested to know that both RKO and Paramount are bidding for the screen rights; want to do it with the same people and everything.

Now it's Ann Dvorak who's having trouble; she is suing Warner Brothers, complaining that they haven't let her work since October 29 and haven't paid her salary since then. But—she looked badly in her last picture and didn't give too good a performance.

"Captain Blood" is one of the pictures you'll want to see; it's dramatic, thrilling all the way through, and brings to the screen a young man who's sure to be a star—Errol Flynn. Off the screen Mr. Flynn has the quiet, reticent manner of Ronald Colman. He's very good looking, very intelligent, and most likable.

From Impresario Steve Trumbull, radio vet famed for his yacht-racing through very stormy waters and for his ill-fated broadcast of the feverish Dillinger hunt in Indiana (while the late Public Enemy No. 1 was robbing a state or two away), comes this correction for the item in which it was stated here that the Buck Rogers show had been taken off the air: "After stopping for one sponsor, the Buck Rogers show was immediately taken up by another. The show is presented on CBS twice from New York—once at 6:00 p. m. EST (reaching the Middle West at 5:00 p. m.) and then re-broadcast to reach the mountain states at 5:00 p. m. their time and the Pacific coast at 4:00 p. m. coast time. Thanks for setting your public right on this."

ODDS AND ENDS... During 1935 Guy Lombardo picked and played on the air ten songs which became hits... Eddie Cantor's broadcasting hour is changed, so that he no longer has Major Bones as competition... Twentieth-Century-Fox is making three hundred prints of the quints' picture, "The Country Doctor"; it will be introduced simultaneously in three hundred cities... And I hear that it's a grand picture... Reginald Denny is making loads of money out of toy aeroplanes... And Colleen Moore gets a nice income from the showings of that doll house of hers.

INITIATIVE

It is true that some people lack initiative, leadership, and executive ability sufficient to enable them to go into business for themselves...

DOCTORS KNOW

Mothers read this:

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use liquid laxatives.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses.

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help.

FLORIDA'S INDUSTRIES

Potential Turtle Soup From Florida.

Prepared by the National Geographic Society, Washington, D. C.—WNU Service.

FEW tourists know industrial Florida. There is no smoke pall hanging over the state.

Output ranges from toys, turtle soup and turpentine to shiploads of dressed lumber, phosphates, and cigars.

One mill at Jacksonville grinds oyster shells and ships them by the carload to California, to help the digestions of Pacific coast poultry.

Palm fronds by the carload go as far North as Canada, for use on Palm Sunday. Palm-leaf fiber is made into brushes.

Men wade on the bottom of the sea, picking sponges as a farm boy pulls turnips.

Schooners cruise as far away as the coast of Honduras, catching sea turtles.

Unloaded at Key West, these turtles are first branded on the breastplate with the initials of the local fishing company.

Besides various pines, Florida also yields much cypress lumber, from a tree which grows with its feet in water.

When one considers the number of golf players the ancient game has developed in the United States, then multiplies the total by perhaps ten, some idea of the army which swears by fishing as a hobby may be imagined.

Our government experts may scientifically estimate the hidden supply of coal, ore, oil, and relative natural resources, but no one has the temerity to try to gauge the crop of the fish life of the Gulf stream.

Just offshore on either coast the piscatorial enthusiast finds his happy hunting ground. The sea is alive with such fighting tribesmen as tarpon, sailfish, marlin, albacore, tuna, barracuda, wahoo, amber jack, dolphin, grouper, and many others familiar to salt-water fishermen.

From Pensacola fleets fish for grouper and red snapper as far away as the coast of Campeche, in the Gulf of Mexico, let us say, for purposes of location.

Many Have Achieved Fame While in Their Twenties

Ambitious youth seeking to find their places early in life in a maladjusted world will find encouragement if they will take a look into the pages of history.

William Pitt, Mr. DeGroot cites as his first example, filled the responsible post of chancellor of the exchequer at twenty-three and served as prime minister of Great Britain at twenty-four.

THE WASTE BASKET

Dorothy, who when asked why her parlor was so popular with the men, cooed: "Oh! that's a dark secret."

Mr. White says when his word is law around the house, he's usually repeating something his wife said.

What blonde did not have to visit a preacher to become a Mrs. Allene—I find that my economics course is becoming quite a problem to me.

Dorothy—Miss Page should make you stay in after class until it's easier.

Allene—She does. That's the problem.

Why the disguise, Miss Notley?

Lulubelle thinks the height of foolishness is a dumb girl turning a deaf ear to a blind date.

The voice of experience says be careful if you go out riding with a magician. He's likely to turn the car into a side road.

When you begin talking about coppers [meaning policemen] be careful not to show your pennies, as Johnnie V. believes them to be the same.

There seems to be a war going on between two high school girls for picture rating. We wonder which is rating higher, now? Remember, all is fair in love and war.

What two girls will lose their men if they won't give them a chance to say something now and then?

Notice—People don't argue with George's teaching; they simply don't know it.
