W.C. Jones, celebrated his birthday with a party at the Methodist Church Monday afternoon from 3:30 to 5 o'clock.

The George Washington color scheme, red, white and blue was carried out in the decorations and refreshments.

Cake and cream was served to 22 guest and the hostess.

Texas farmers during 1936 reaped the almost extinct crafts crafts of leather tanning and Syrup making into homes industries which added about 200,000 to their farm income, according to the annual report of M. K. Thornton, Jr., leather specialist of the Texas Extension Service.

As a result of 154 leather tanning demonstrations given by Thornton 110 counts 630 farmer last year tanned 1,308 hide and 288 fur skins. The resultant products are valued at \$13,313 included in these figures are the 104 hides and 86 fur skins tanned by negroes. The leather as made into various articles of harness automobile and felts, shoes soles, chair bottom, chaps, coats, car seat covers lariats, and many other items, while the fur skins were converted into rugs, coats wrap, and so on.

The volume of syrup making from sorghums was greatly increased, and 1,372 farmers planted 6,864 acres to various types of sweet sorghum from which they made 265,525 gallons of syrup valued at almost \$150,000, negroes to the number of 1,113 devoted 3,365 acres to sweet sorghums from which made 144,210 gallons of syrup valued at more than \$75,000.

Ribbon cane for syrup was planted under the supervision of county agricultural agents in 258 cases, involving 941 acres. Improved methods of syrup making as outlined by Thornton were used in the production of 58,394 gallons of ribbon cane syrup representing a return of \$32,000. Ribbon cane for syrup was planted by 143 negro demonstrators who made 21,470 gallons, valued at more than \$12,000.

W. A. Mann, University of Texas Law Student, is the newly crowned non-stop talking champion. He bet his roommate that he could out-do the late Huey Long's filibuster record of sixteen unbroken hours of declamation.

Talking on astronomy, religion politics, economics, his life history and many other topics of moment. Mann forged ahead to unequalled heights and an all time record of sixteen hours and ten minutes. Reports are un- enlightening on the point, but if anyone listened to him that long that must constitute a record of me kind also.

Due to the illness of Mr. Wilhelm. I will be unable to put out as good a paper as Mr. Wilhelm did but I will do the best that I can and when Mr. Wilhelm is able to be back he will do better. The paper will be published the same time each week as it has been in the past.

WOMEN WHO HOLD THEIR MEN NEVER LET THEM KNOW

NO matter how much your back aches and your nerves scream, your husband, because he is only a man, can never understand why you are so hard to live with one week in every month.
Too often the honeymoon expression is wrecked by the nagging tongue of a three-quarter wife. The wise woman never lets her husband know by outward sign that she is a victim of periodic pain.
For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomfort from the functional disorders which women must endure in the three ordinals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

European Powers Agree on Blockade of Spain to Insulate the War—Farm Tenant Program—Supreme Court Controversy Grows.

By EDWARD W. PICKARD
Western Newspaper Union.

SO FAR as the international non-intervention committee can do it, the war in Spain is now insulated. Representatives of 26 European nations agreed that no more volunteers for either side in the civil conflict should be permitted to enter the Iberian peninsula, effective at midnight February 20; and they laid plans for a complete blockade by land and sea that would prevent the importation of any more men or war munitions. Only Portugal dissented, objecting to establishment of frontier guards on her territory; Great Britain, France, Germany, Italy and Russia ignored the Portuguese protests and went ahead with the blockade plans, which are to be put into effect by March 6.

The decisions were reached after France delivered a virtual ultimatum to her fellow committee members to end their bickering and warned Italy she would not stand for "open invasion of Spain." The French were quick to place guards at all strategic points along the Franco-Spanish frontier.
The international naval patrols presumably will not have authority to stop vessels suspected of carrying arms and men to Spain, but will report ship movements to the committee for action and will place observers on the vessels to check cargoes.

Supposing this blockade to be successful, it may well be that the Spanish civil war will die of inanition. Then may be brought about that which the international committee seeks—international mediation between the insurgents and the loyalist government.
For the present both sides are renewing their efforts for decisive victory. The fascists, still driving hard at the "life line" that connects Madrid and Valencia, also are attacking the capital itself again. Their airplanes made two night bombing assaults on the city and its environs, killing a number of persons; and their artillery constantly shells the highways to Valencia.

The loyalist government, at its temporary seat in Valencia, took a new mandate of absolute power from all Popular Front parties and mobilized all available man power to oppose the insurgent forces. All military classes of the last five years were drafted for immediate war service.

PRIME MINISTER STANLEY BALDWIN'S government of Great Britain is asking for \$7,500,000,000 to finance its "war plan in time of peace," and is meeting with determined opposition from the Liberals, Laborites and others in parliament. These especially object to the plan for enlargement of the nation's land, sea and air forces by a \$2,000,000,000 loan and increased taxation.

Commenting on the British naval construction program, Admiral William D. Leahy, chief of naval operations of the American navy, served notice that any foreign nations expanding their navies beyond the standards of recent treaties might expect that the United States would match their construction. He said it was his understanding that this nation was definitely committed to the maintenance of a "navy second to none." To maintain that principle, he declared, it would become necessary for the United States to build new ships if other powers did.

The present United States building program calls for start of construction this year on two new capital ships. Great Britain already has laid the keels of two new craft and the program announced in London calls for the start, after April 1, of construction of a third new vessel. When Britain lays a third keel, then this government is likely to start similar construction.

\$500,000,000 farm tenant bill now before congress would be made the basis for the new legislation.
The President's farm tenancy committee, headed by Secretary of Agriculture Wallace, recommended that congress make available "a definite sum each year for a number of years" for a land-purchase program, but mentioned no definite figure. Wallace said, however, he thought Jones' proposal for \$50,000,000 annual appropriation for ten years is "reasonable."

THOUGH President Roosevelt persisted in his intention to force through congress his measure to "reform" the federal judiciary, law-makers who have been his warm supporters are coming out one by one in hot opposition to his plan to pack the Supreme court.
Among them are Senator Bennett C. Clark of Missouri and Senator Burton K. Wheeler of Montana, both leading Democrats. They studied the scheme carefully before issuing their statements. The announcements of these men were scarcely offset by a radio address by Attorney General Homer S. Cummings, dutifully defending the President's plan.

Senator Clark said he was entirely in accord with the minor proposals in Mr. Roosevelt's scheme, but was totally unable to agree with the provisions for packing the Supreme court.
Then came Senator Wheeler, stalwart radical, with a statement which it was reported he made public over the protests of the White House. He said in part:
"I am, always have been, and will continue to be opposed to the usurpation of legislative functions by the courts; I am, have been, and will be opposed to usurpation of legislative and judicial functions by the executive branch of the government."

"There is nothing democratic, progressive, or fundamentally sound in the proposal advanced by the administration."
Attorney General Cummings advanced these two reasons for supporting the President's proposal:
New blood should be injected into the judiciary in order that the Constitution shall be construed in keeping with the changing needs produced by new complexities of national life.
The congestion of dockets in the federal courts is largely due to the inability of aged and infirm judges to perform their share of the work.

Investigation has shown, however, that the second reason is unsound.
Commenting on Mr. Cummings' speech, Senator Glass of Virginia said: "I think it indicates that the country is in infinitely greater need of an attorney general than of additional judges on the Supreme court or of judicial wet nurses for six of the present members of the court."

Senator Minton of Indiana defended the plan in a radio address but probably did it more harm than good, for he frankly admitted the purpose of the administration is to change the personnel and views of the Supreme court, in order that President Roosevelt's New Deal program will be held constitutional.

Other senators who came out against the President's plan were Nye of North Dakota, radical Republican; Bone of Washington, Democrat; Burke of Nebraska, Democrat; and Van Nuys of Indiana, Democrat. On the other side were McAdoo of California; Thomas of Utah and La Follette of Wisconsin.
Senators Bone and Wheeler introduced a resolution for a constitutional amendment that would give congress the power to override Supreme court decisions by a two-thirds vote of both houses, but only after a national election involving congressional seats has intervened so that the people have had a chance to speak on the issue.
The American Federation of Labor and Labor's Nonpartisan league declared their support of the court packing scheme, and the National Grange expressed its opposition. Legislatures of many states adopted resolutions for or against the plan, most of them being in opposition.
Mr. Roosevelt received several groups of senators, some of whom are among those opposing the packing of the Supreme court, and reiterated his intention to push his plan through congress without modification. He said the people had voted for a New Deal and were going to get it.

Worthy of Your Pride!

MOTHER, between you and me Sis is getting to be a little show-off. Last night when Dick called, there she sat, big as life, right in the middle of things chirping about the new dress you made her; how you used a remnant left over from one of your dresses, and got it finished in one afternoon—she even had Dick feel the material.
Well, Elsie, you can't blame the child's appreciating herself in a new dress. How about ourselves? Didn't you say your jumper was the talk of the Tennis Club meeting yesterday? And haven't I been spending more time before the mirror since I made my new "Stylish Stout" model? I actually feel like a new person in it—imagine me being vain at my age!

Oh, Mother, you're not vain and you're as young as any of us. You just were lucky to find a particularly flattering style for your figure. That soft jabot makes you look lovely and the whole thing is so slenderizing. But only an expert like you could make such a dress.
It isn't being expert, Elsie, it is choosing a pattern that is deftly designed, and giving full step-by-step instructions on how to proceed.

I'm going to make another blouse for my jumper soon, Mother. I always admired that white pique shirt of Dick's, so I think I'll try it for my blouse, since the pattern is a lot like a man's shirt in design.

Calotabs Help Nature To Throw Off a Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fourth night if needed.
How do Calotabs help Nature throw off a cold? First, Calotabs are one of the most thorough and dependable of all intestinal eliminators, thus cleansing the intestinal tract of the germ-laden mucus and

toxines. Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the blood. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.
Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

MANY LETTERS Addressed to You Personally

THINK of the advertisements in this paper as so many letters addressed to you personally. That's what they're intended to be, and, actually, that's what they are. This newspaper is, in effect, a mail-bag which brings you news of events and news of the best merchandise at the fairest prices.
You don't throw away letters unread. You don't read three or four letters carefully and skim through the rest. Treat the "merchandise letters" in this newspaper the same way. Read them all. Read them carefully. One single item will often repay you for the time it has taken to read them all.
Many good housekeepers have formed the habit of reading their newspaper with a pencil and paper, ready to jot down the articles they wish to look at when they start out on their shopping tour. Try this method. It saves time, and saves money, and provides you with the pick of the day's merchandise.

Charming Way to Use Cross Stitch

Pattern 5740

Even amateurs will have no difficulty in turning out this finished looking chair or buffet set—with this easy-to-do pattern. And what compliments they'll get on this cross-stitched peacock done in all the glory of its natural coloring or in two shades of a color for a more subdued effect. The crosses are 10 to-the-inch—the colors are clearly given in a color chart. With two patterns a handsome scarf could be made. In pattern 5740 you will find a transfer pattern of a large motif 13 by 16 inches, and two smaller ones 4½ by 6 inches; material requirements; color chart and key; illustrations of all stitches used.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle Household Arts Dept., 259 W. Fourteenth St., New York, N. Y. Write plainly your name, address and pattern number.

U. S. Railroad Mileage

The railroad mileage of the United States as compared with that of other countries is by far the greatest, with 249,433 miles. The Soviet Union is second, with 48,467; India is third, with 41,724; Canada is fourth, with 41,409, and France is fifth, with 39,467.

Household Questions

Winter Salad—Mix one cup of celery with one cup of tart apples and half cup of walnuts. Cut the celery and apples into very small dice and combine with mayonnaise or cream dressing. Add walnuts just before serving. Garnish with celery tips.

Potatoes that are to be French fried should stand in cold water at least an hour before cooking.

You can produce your own sour milk for use in sour-milk recipes by simply adding a teaspoon of vinegar to each cup of fresh sweet milk.

Cane-bottomed chairs should be brushed to remove all dust and then washed with salt and water and placed in the open air to dry. This treatment tightens up the cane.

Sometimes ink stains can be removed from the hands by rubbing them with the inside of a banana peel.

Carrots can be made crisp before cooking by scraping and leaving in cold water for half an hour.

If the roof should leak and stain your ceiling, cover the stain with block magnesia. Rub the block over the spot until the stain is covered, then smooth over with the tips of your fingers. It works like magic.

Constipated 30 Years

"For thirty years I had stubborn constipation. Sometimes I did not go for four or five days. I also had awful gas bloating, headaches and pains in the back. Adierika helped right away. Now I eat sausage, bananas, etc., and I feel like a new man. I sleep soundly all night and enjoy life."

—Mrs. Mabel Schott.
If you are suffering from constipation, sleeplessness, sour stomach, and gas bloating, there is quick relief for you in Adierika. Many report action in thirty minutes after taking just one dose. Adierika gives complete action, cleaning your bowel tract where ordinary laxatives do not even reach.

Dr. H. L. Shonk, New York, reports: "In addition to intestinal cleansing, Adierika checks the growth of intestinal bacteria and colon bacilli."

Give your bowels a real cleansing with Adierika and see how good you feel. Just one spoonful relieves GAS and stubborn constipation. At all Leading Druggists.

HELP KIDNEYS

To Get Rid of Acid and Poisonous Waste
Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.

Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multitude of grateful people recommend Doan's. Ask your neighbor!

Newest Silk Prints Go Pictorial

By CHERIE NICHOLAS

AS A sure antidote to winter gloom, as a reviver of crest-fallen spirits, as an unflinching means of buoying one up with that grand and glorious feeling that spring is nigh we recommend that you go stepping in a brand new silk print frock, the gayest, the brightest, the most animated in its patterning and coloring you can find to wear under your somber fur coat.

Hurry up if you want to secure the choicest, the most distinctive and outstanding from among the hundreds and thousands of prints now on display. Seriously is this word of advice offered for it is a fact the new silk prints are that intriguing and alluring we have known it to be a fact that certain particularly attractive patterns are unpacked, priced and displayed in the morning and by nightfall they are sold, not even a remnant left to tell the tale.

The new silks look new—distinctively new! Those that unmistakably bear a new-this-season stamp follow along unique lines of thought. They are more than mere dress media in that they have gone pictorial, illustrative, interpretative. They portray ideas, they entertain, they amuse. Some of the better high-class silk prints even go by name as an artist would entitle a picture which makes them all the more interesting. There is, for example, a clever looking new silk print called "film modes." The French love of

American films inspired Schiaparelli to design this amusing print with the names of famous stars printed on colorful scrolls simulating cinema film. The attractive daytime frock centered in the illustration herewith is made of this star-encircled silk print, the color scheme being peacock blue and coral on black. The beret topping this costume is worn far back on the head in latest approved manner, so as to show a perfectly groomed hair-dress with latest style-correct off-face movement.

The silk for the dress shown to the left by the same artist designer registers as "subway of Paris," and its motif carries out the idea quite realistically. This silk tunes perfectly to the gay young dress pictured to the left in the trio. The dashing cavalier hat is a resort fashion such as bespeaks a coming springtime vogue. The turn-up-at-side silhouette is exploited in several Paris collections.

Strawberries, fresh strawberries! At any leading silk department where smartest silk prints are flaunting their fascinating colors and breathtaking patternings ask for "fresh strawberries," and the knowing salesperson will bring out a perfectly charming silk crepe print such as is used for the making of the winsome dress shown to the right in the group. Appliques of the strawberries on net introduce an ornate accent in the bodice. The strawberry corsage is dyed to match the color of the berries in the print.

Others among the new and novel pictured prints now so fashionable are enlivened with animated figures, such as golf players teeing off, or "doggie" silks with frolicsome Scotch terriers performing tricks, galloping horses, quaint undersea fish, butterflies on the wing and other motifs too numerous to itemize. Most unusual and of high-style importance are the new landscape prints: marine scenes, too, grace these silks. It is indeed a versatile story of romance, history, music and what not that the smartest prints of the season are telling.

First-choice silks for immediate wear play up vivid splashes of striking florals in breathtaking colors against black or some other preferred dark background. The wide-spaced flower motifs look newest, these in huge single flowers or in wide-set bouquets. A new and lovely silk print has artful bowknots in gay colors. In Paris black and white prints are acclaimed.

FASHION NOTES

Rubens' art exhibit is having influence on fashion.

Plaids are often seen in wools, taffetas and surrachs.

Filly feminine neckwear with the tailored suit is fashion's decree.

Raincoats are becoming more charming and wearable than ever.

Prints are cryptically modern, disarmingly old-fashioned or frankly flowered.

Strange as it may seem, cotton is the most popular material for ski jackets.

Soft beige, sunshine yellow, delicate blues, greens and pinks vie with white in dressier daytime clothes.

Blouses with cummerbund are good since sashes are in fashion. These are practical since many women don't like just a tuck-in.

Engine Whistle Having Cow's "Moo" Won Contest

A Florida railroad recently fitted an engine with six whistles and tooted them in 20 towns along the line. Citizens were then asked to choose the one they preferred. When the votes were counted, a whistle with a cow's "moo" won.

There is an almost endless variety of whistles. The United States and Canada use whistles in lighthouses. Buoys

Division of Time—

Quiet Pleasures to Punctuate the Rush of Life Are Sought

THE rush of life that leaves persons no time for deliberation, nor the pursuit of happiness in their own special ways, has seemed to reach its apex. Already there is a trend toward leisurely living, the sort that claims the right to dispose of hours not occupied in business or housekeeping, in ways of personal choice rather than of group determining.

Today, in the modern ways of living, time is divided into two units, one of which is work, the other diversion rather than play. As soon as work is over, or can be interrupted, the time is given over to diversion. Some persons work most of the time and some persons spend most of their time in diversions. The division of hours between these two things is uneven, but however divided, no waking time is left.

Spare Time.

While each of us should work part of our time, it is the matter of how we spend the rest of our time that is now coming under special consideration. There is a growing discontent that seems to bode good. Why should any of us be bound to do in time which is our own, what this or that group is doing because at the moment it is the popular thing? Can we have no evenings to ourselves?

Home Diversions.

Shall the rare pleasures of home be invaded? Or shall we decide to spend some quiet evenings in reading favorite books or delving into those new ones we realize would be liked? Shall we have time to devote to needlecraft, to music, to studying some language,

to pursuing some hobby or doing anything to enrich ourselves or to make something beautiful?

Enriching Diversions.

All these things are diversions from necessary work, but they are the sort that repay us by making life more worth living, and not the kinds that merely absorb attention for the time being, and leave us depleted rather than replenished. If we wish to master time rather than be mastered by it, we must use at least a portion of our time when work is through in following out our own personal preferences in our diversions.

Leisure.

When we do this we have real leisure, one definition of which is, "time available for some particular purpose, spare time." One great cause for being rushed is trying to do what everyone else is doing, rather than determining for ourselves what we will do.

TO THE LADIES

You will find wooden spoons more satisfactory for beating and stirring than metal ones. Wooden spoons should be washed well and rinsed several times

then dried thoroughly. While beating eggs or cream or any other mixture, it is annoying to have a bowl skid around on the table top. You will find it convenient to keep a pot holder on the table to slip under such a bowl. This holds the bowl steadily in place, leaving both hands free for beating or adding ingredients.

Here is a delicious and tasty recipe for Royal Tropicaroma cake.

- 1-2 cup shortening
 - 1 1-4 cups sugar
 - 2 egg
 - 2 1-2 cups flour
 - 4 teaspoons baking-powder
 - 1-4 teaspoon salt
 - 1 teaspoon nutmeg
 - 1 teaspoon cinnamon
 - 1 cup milk
 - 2 tablespoon cocoa
 - 1 cup chopped nuts
- Cream shortening; add sugar and beaten eggs. Mix well. Add alternately the milk and dry ingredients. Last, add cocoa and chopped nuts. Bake in leaf pan.

SAFETY—OR THIS?

DEATH in the guise of heavily loaded motor trucks, rife the highways of Texas every day and every night. The toll of human death and injury of these vehicles is appalling.

In the five-year period, 1932 to 1936, inclusive, trucks in Texas have participated in 2,476 highway accidents in which 2,105 persons were killed and 11,562 injured. In 1936 alone, their record stood 2,200 accidents with 3,323 persons injured and 576 killed. These actual records of people killed, as shown by Texas newspapers, compared with the number of deaths resulting from all motor vehicle accidents, as given by the Bureau of Vital Statistics in Austin, show that the average Texas truck participates in twice as many fatal accidents as the average passenger car.

Likewise, as might be reasonably expected from their greater weight and size, and as shown by the records of the Texas Railroad Commission, the Carrier-for-Hire truck accidents, during 1936, have resulted, vehicle for vehicle, in three times the number of fatalities as for the average passenger car.

Increased liability to highway accident forms an insupportable result of BIG truck operation. But even now, the threat of greater highway hazards hangs over the people of Texas. Newspapers report that operators of BIG trucks have organized for the purpose of securing an increase in weight and speed limits, already too large. These are the elements, weight and speed, which, in highway accidents, spell "D-E-A-T-H."

The right to grant, condition or deny the use of the highways for profit, belongs to you, the people of Texas, notwithstanding the attempts of the operators of BIG trucks to take it away and give it to the federal government instead. Your present laws, limiting the size, weight and speed of trucks, were enacted by reason of your insistence, and by your insistence they have remained on the statute books. Their amendment would serve the sole purpose of increasing the profits of operators of the BIG trucks, with the certain results of also increasing the mounting injuries, deaths and property losses now taking place on your highways.

Public welfare and public safety demand that existing highway regulations shall be retained and enforced.

Accept this Advice! before you buy ANY Refrigerator!

BASE YOUR CHOICE ON PERFORMANCE!

A Good Refrigerator Must . . .

- Keep Foods Safely!
- Freeze Ice Quickly!
- Operate at Low Cost!

• FOR TRUE VALUE . . . BUY AN ELECTRIC REFRIGERATOR! •

All refrigerators are not alike. All do not offer the same value or provide the same performance. Neither price nor appearance determine true refrigerator worth. The basic test of any refrigerator is its ability to provide satisfactory trouble-free performance all the time. Many buyers overlook this fact.

Buy your refrigerator this way!

First, and most important, demand that it maintain temperatures below 50 degrees. Many refrigerators cannot. Yet, in temperatures over 50 degrees, food spoils quickly and endangers health.

Second, demand that your refrigerator freeze ice quickly. If it cannot, you are not receiving true refrigerator value. You must have fast freezing ability in summer when ice needs are many and when frozen desserts are an important part of menus.

Third, look for low operating cost. But remember, low operating cost is worthwhile only when the above performance is maintained.

Demand evidence of such performance when you buy. If you do, you will choose a modern electric refrigerator and receive the utmost for your money!

★ MODERNIZE . . . CHOOSE AN ELECTRIC REFRIGERATOR! ★

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?
