

OFFICIALS OF FRISCO SPEND NIGHT HERE

COME FROM MENARDVILLE VIA SONORA AND ELDORADO, TAKING IN THE COUNTRY.

NOT LOOKING THIS WAY AT PRESENT

Plans Do Not Contemplate Building into San Angelo—This Road Never Asks for Bonuses.

Dust laden and happy, tired, but contented, and with the Frisco smile upon their faces, the nabobs of that big system arrived in San Angelo shortly after 7 o'clock Wednesday evening.

In the party were A. J. Davidson, president of the big system, W. C. Nixon, vice president and deep water drawer, also of the big system; W. B. Drake, affectionately called Billy by all who have known him ten minutes and who measure up to the standard of being a good fellow, vice president of the Texas lines, and E. P. Tillman, who is almost a fellow citizen and who officially is general live stock agent of the Texas lines of the Frisco.

"Really, no significance need be attached to our coming. We merely wanted to see San Angelo," said President Davidson, who is always pleasant and who was never during a constant acquaintance of ten years ever for one moment been loquacious when I asked him the way.

"Will you build into San Angelo?" I fired at him.

"Our plans do not contemplate that," was his reply.

"Would a bonus attract you?" I asked.

"Not in the least," was the quick response. "You see, the Frisco never asks for bonuses. We do not believe that to be right. This matter of trading on bonuses is repugnant to our way of thinking. In the event we were to arrange to come to a place and the people wanted us to pay a bonus and people wanted to pay us a bonus and would raise a nice sum I would tell them to collect the sum and then spend it on the highways and county thoroughfares. In this manner by building good roads the railroad would profit more in the course of a year or so than would be the case if it took the cash. Of course we think it proper to accept right of way and terminal grounds and believe that it is fair for the railroad to do this."

Davidson is a peculiar fellow. He always thinks more than he says and even the most ardent stranger can always bank on everything that he says.

"Let me say that you will come here—eventually," I asked.

"I don't want that responsibility," was the answer.

"Fudge, you build the road and I'll take the responsibility," was the rejoinder, but the president of the Frisco laughingly declined to enter into that kind of a partnership.

Davidson and Nixon are both Santa Fe products. Davidson started years ago with the Gulf division and he worked through all the grades up to division superintendent. He had previously been with the Cotton Belt, and he knows the railroad game foot and nail. He was superintendent of transportation of the Frisco and one day Charles Boggs went to mining and—well Davidson became president

and he has been ever since.

Col. Nixon won his spurs in Texas. At least he won the golden spurs in this state while general superintendent and afterward vice president and general manager of the Gulf lines of the Santa Fe. He left the Santa Fe to go with the Frisco. While always a good looking man, Col. Nixon is positively palchritudinous when he has on plaid stockings and plays golf.

Drake is of the royal blood in a friendship way and a better, truer man cannot be found. He has done more than his share toward relieving the false impression sought to be created against the railroads of this state by living up to the doctrine of the square deal all the time. To say things about Tillman is too much like talking sweet talk to home folks.

While coming from Sonora the Frisco party met Vice President Pettibone of the Santa Fe going to Eldorado. Mr. Pettibone evidently didn't recognize his old team mates, for his car merely gave a honk honk grunt and continued without stopping.

Epitomized, the coming of the Frisco officials may mean much to San Angelo—just a little later on. Wouldn't it be a delightful sensation to get a railroad built into San Angelo without shedding a drop of bonus blood?

The party will leave here Thursday morning at 9 o'clock and will go to Brady, where the cars are waiting. Several prominent citizens called at the Landon Wednesday night to pay their respects to the distinguished visitors.

SUCCESSFUL

Governor Johnson Operated Upon With Satisfactory Results.

Rochester, Minn., Sept. 15.—Governor Johnson was operated upon today for adhesions, following a recent operation for appendicitis, the result being very satisfactory. In fact, it has been pronounced that the final operation was successful, and the governor should soon be on the road to rapid recovery.

Relapse.

Rochester, Minn., Sept. 15.—At a late hour tonight Gov. Johnson had a relapse, and his condition is now critical.

URGES FARMERS TO HOLD THEIR COTTON WHILE

Raleigh, Sept. 15.—Implores the farmers throughout the South to hold as much cotton as possible for better prices instead of letting Wall street reap the benefits. President Alexander of the North Carolina Farmers' Union and Cotton and Tobacco Growers' Association, today issued a lengthy address that is sure to have great weight throughout the cotton-growing sections.

President Alexander declares that the farmer who turns his cotton loose at this time is indeed a foolish man to say the least. In doing so the producer is only cutting his own throat in order that the gambler may reap the harvest.

The cotton crop, he says, is the smallest in many years, and claims that this statement is backed up by figures and statistics that cannot be disputed. Now is the time, above all others, when the farmer should be careful and exert every effort to hold his cotton, for it will mean the highest price in many seasons.

In closing, President Alexander points out the fact that the farmers may secure advances, without actual sale, through the warehouse certificate plan.

Castles Buried.

New York, Sept. 15.—The last rites were performed over the body of John W. Castle, president of the Union Trust company, Wednesday. Castle committed suicide Monday by cutting his throat with a razor.

WITNESSES TESTIFY IN BEHALF OF COOK, ALSO PEARY—LOOKS LIKE BOTH MEN MADE DISCOVERY

New York, Sept. 15.—Cook's story of finding the North Pole is to be no longer doubted, for Miss Gerda Lebbe- love, a Danish woman who has lived three years in the far North as a governess of the family for a governor of a Danish trading post, declares she has received letters to the effect that the Eskimos up there knew of Cook's discovery some time ago.

If this is true, Peary will no longer have the privilege of calling Cook an impostor and declaring himself the only white man that ever reached the Pole.

Negro Backs Up Peary.

Battle Harbor, Sept. 15.—In an ad-

ditional statement, Capt. Peary declares that the flag presented him by his wife thirteen years ago when he made his first dash for the Pole is the one he raised on his recent discovery. Also the navy ensign, the flag of the Delta Kappa Epsilon fraternity, and flag of peace were raised. He added that a complete record of the journey and observations is enclosed in the ice.

"I was with Peary at the Pole," declared Matthew Henson, Peary's negro companion. "We slept one night there, after reaching it April 6th at noon. With the commander were myself and four Eskimos."

BALLINGER UPHELD BY PRESIDENT

TAFT ISSUES STATEMENT FROM CHICAGO IN WHICH HE ORDERS DISCHARGE OF GLAVIS.

PINCHOT EXPECTED TO RESIGN AT ONCE

He Has Taken Decided Stand in Controversy and in View of Chief Executive's Action Further Developments Looked For.

Chicago, Sept. 15.—President Taft today issued a statement in which he upheld the actions of Secretary of Interior Ballinger in the matter of the forest controversy. The discharge of L. H. Glavis, the chief of the general land office at Seattle, was ordered. Glavis was the first to make charges against Ballinger.

Pinchot, the chief forester, is expected to resign, owing to the decided stand he took in the controversy.

SOLDIERS.

Diaz Will Be Accompanied By 5,000 Men On March to El Paso.

Galveston, Tex., Sept. 15.—Five thousand soldiers, the pride of the army of Mexico, will accompany President Diaz when he marches to El Paso to meet with President Taft.

And the corpulent man that occupies the presidential chair of the United States will not be alone when he shakes hands with Diaz. Thirty hundred regulars of the American army will be at his side.

Congratulations.

Washington, Sept. 15.—President Taft today telegraphed congratulations to President Diaz, this being the occasion of Diaz's birthday.

BRUTAL MURDER WOMEN KILLED

Chicago, Sept. 15.—In an apartment house in the Hyde Park district this afternoon, the bodies of Mrs. Anna Silver and Mrs. Judith Tripp were found, brutally mutilated by bullets. Mrs. Silver had eleven bullets in her body.

All Chicago is aroused over the brutal murder; detectives from the central office are at work upon it, but as yet no vestige of a clue or motive has been uncovered.

POLITICAL EXECUTION OF CANNON

Chicago, Ill., Sept. 15.—As a result of Speaker Cannon's declaration before the American Bankers' Association, in which he said that under no circumstances will the present currency laws undergo a revision at the next congress, his political execution has been demanded.

This step is being taken by the bankers in their efforts to secure the needed financial legislation.

Now that the bankers have taken the matter in hand they intend to push it, and the situation promises to become interesting in the extreme.

It will be recalled that Speaker Cannon said that the three thousand bankers in session were only a spoke in the immense wheel of the national government. They intend to show him that they are the hub, and therefore in direct communication with all of those spokes that go to make up this great wheel.

JEROME RULES AGAINST CLUB

New York, Sept. 15.—District Attorney Jerome ruled today that the Fairmount Athletic club was operating in direct opposition to the statutes and forbid the continuance of fistic combats as conducted there at present.

This ruling may seriously interfere with the scrap between Stanley Ketchell and the negro pugilist, Sam Langford, which is scheduled to be pulled off Friday night.

The case will be fought to the bitter end by the members of this eminent sporting organization and fight fans all over the state will join in the howl of protest that will arise if the Ketchell-Langford match fails to materialize. This combat will settle in a large manner who was the most likely of the budding pugilists has the best opportunity of doing up Jack Johnson, in case Jeffries fails to come back into his own. Stanley Ketchell is already matched with Johnson and Langford is eager for a bout.

DEVELOPMENT.

Micchessi Said to Be Name of Man Who Kidnaped Children.

Utica, N. Y., Sept. 15.—The burial of the two children who fell victims to the Finnish craze of the insane assassin near this city Monday took place today.

Fanny Infantino, the little girl who survived, declares that the name of the kidnaper and murderer is Micchessi.

Washington, Sept. 15.—Forecast: East Texas, West Texas and Oklahoma, fair and warmer Thursday.

DEAD.

Former Partner of Stanford White Expires at Age of 62.

New York, Sept. 15.—Charles F. McKim, who was a partner of the late Stanford White, died here today of heart disease. He was 62 years of age, and had been in poor health for a year or more.

BANDITS.

Rurales Meet Huerta Brothers and Kill Them.

Vera Cruz, Sept. 15.—The rurales under the command of Captain Costillo, met and killed the famous Huerta brothers today. The Huertas were the most notorious bandits who ever struck this district, and have been terrorizing the people for the past two years.

EIGHT KILLED EIGHT WOUNDED R. R. WRECK

Washington, Sept. 15.—Eight killed and eight injured is the result of a head-on collision at Pogram, on the Nashville, Chattanooga & St. Louis railway today. A passenger train ran into a freight, demolishing both engines and tearing up the track for several hundred yards.

The wreck was due to a misunderstanding of orders by the trainmen, and was through no fault of the dispatcher. Each engineer thought he had the right of way, and the trains were traveling at a high rate of speed.

The eight people killed were employees of the company.

BIG MERGER IS EXPECTED

New York, Sept. 15.—A big merger of several telephone and telegraph companies is contemplated, and although it has been reported that Gould has disposed of his Western Union stock, it has not been verified.

Gould will neither affirm nor deny the statement. The American Telephone and Telegraph company is reported to have made him an offer for the securities. This concern also wants the holdings of the Sage estate.

ROYAL WEDDING IN SCOTLAND

Dingwall, Scotland, Sept. 15.—In Dingwall today joy and mirth are unconfined as a result of the marriage of Prince Miguel of Braganza to Miss Anita Stewart of New York. A fete is in progress in honor of the distinguished visitors and the usually innumerable Scots have gathered from their solemn demeanor and are cutting up like American school children.

The ceremony was brief and generally choral in character. Thirty-six members of the Austrian Portuguese royalty, were in attendance, while quite a delegation of Americans was on hand to see the affair done up according to Hoyle.

Prince Miguel belongs to the royal family of Austria, and is a social lion of Europe and America as well.

Miss Stewart is another one of the American belles who are constantly going over to the other side of the big pond to show the grande dames of blue blooded ancestry what real American culture is.

The happy couple will reside in Austria in Prince Miguel's family castle.

PETTIBONE IN SPECIAL CAR REACHES CITY

LEAVES IN AUTOMOBILE WITH C. B. METCALFE AND SPENDS AFTERNOON NEAR ELDORADO

MEANING OF VISIT NOT ACCOUNTED FOR

Intimated That Santa Fe Intends to Build Its Road to the South or to the West in Near Future.

In his special car, General Manager F. C. Pettibone of the Santa Fe arrived in San Angelo Wednesday morning bright and early. Shortly after breakfast he left the city for Eldorado in a big automobile, accompanied by Chas. B. Metcalfe.

Now, what is the meaning of Mr. Pettibone's clandestine excursion is only a matter of conjecture, but eminent railroad authorities of San Angelo are shading their eyes with their hands and looking "south or west." Pettibone is recognized as being an all-business man; therefore it is readily conceded that his trip to Eldorado is not to deliver a lecture on "The Raising of Hot Tangles by Irrigation," on another such fertile purpose. Manager Pettibone is the man of action of one of the largest railroad systems in America, a road whose motto is building and more of it. Now there has been considerable talk of other roads building "south or west," and the Santa Fe is not noted for allowing said roads to cut a watermelon that looks ripe to it.

At a late hour Wednesday night Manager Pettibone had not returned from the trip, and his porter is very much worried because "de kunnel" didn't carry his overnight bag. His bed was ready and waiting for him at 12 p. m., but no Pettibone was there.

FIVE THOUSAND BACK TO WORK

Fall River, Sept. 15.—Five thousand men return to work tomorrow at the Bordon mills. The strike which has been on for several days has been settled, the employees being granted an increase of five per cent.

Under the new agreement employers and employees are well satisfied, although the strikers did not get all that they asked. The settlement was in the form of a compromise.

SUFFERING.

American Consul States That Monterey Situation is as Serious as Represented.

Monterey, Mexico, Sept. 15.—Terrible suffering is the part of the people of the stricken city of Monterey, but succor is being tendered with all possible dispatch.

Phillip Hanna, the American consul, declares that the number of victims of the recent flood will run up into thousands, but the exact number will not be known for some time.

To File Thursday.

New York, Sept. 15.—The will of Edward H. Harriman, the dead railroad king, will in all probability be filed Thursday.

THE SAN ANGELO PRESS-NEWS.

Published by The News Publishing Co.

Office No. 30 West Beauregard Avenue San Angelo, Texas.

Telephone No. 244

Terms of subscription: By mail or carrier, 25 cents a month.

Daily published every morning except Monday. Weekly issued every Thursday.

Entered at the postoffice at San Angelo as second class mailmatter.

Thursday Morning, Sept. 16, 1909.

COL. BRYAN'S FALSE LOGIC.

When one raises the voice of protest against one enshrined as a hero and worshipped by the millions, he invites the shafts of denunciation upon his head.

Col. William Jennings Bryan, the charmed pet of the dear old Chautauqua circle, invaded Texas with his fatigued body, silver toned voice, depleted pate and sweet sounding sophistries.

Col. Bryan knows that under the genius of the American government revenue to support the government must be raised from duties on imports. Primarily a tariff is a matter of revenue.

Col. Bryan knows that under the genius of the American government revenue to support the government must be raised from duties on imports. Primarily a tariff is a matter of revenue.

That is about as succinctly as seven columns of verbiage delivered at Dallas can be stated.

He steps upon our corns in making this declaration. We are opposed to such a policy. If we are to have free wool, then we say give us free woolens.

That's the patriotic way to view this question. If the tariff on wool is fixed at a revenue basis, then we say that there should be a revenue tariff on woolens.

We can not appreciate the logic of a statesman who would have the man who lures from Mother Earth her choicest treasures compete against the world and at the same time give to the man who changes the form of things raised a protection against foreign competition.

The doctrine of protected manufactured articles and free raw materials is one that causes the manufacturers of rock-ribbed New England states to clap their hands in joyous acclaim and pour out libations at the feet of those who advocate this. But we are not the mentors to point the way to prosperity for New England magnates.

Senator Bailey on next Saturday in Dallas will answer the specious argument made by Col. Bryan in Dallas Tuesday. Mark you, we say answer, not reply.

What The Press-News wants is to see Texas as a whole blossom and grow, and to see West Texas in particular peopled with a happy and contented people. We know that prosperity and free wool are eternal enemies and both can not live in the same community.

A great number of big coops are DISHOP WARD

may live long and prosper.

We gladly admit the sincerity of Col. Bryan, but we denounce his reasoning as being specious and unsound. We believe that Col. Bryan is the greatest man who has ever been defeated for the presidency during the last twelve years, with the exception of Judge Parker, and we further believe that if he has always held to the doctrines enunciated at Dallas and Fort Worth that his successive defeats have been to the lasting glory and the eternal salvation of this country, and especially West Texas.

All West Texas wants is a square deal. All West Texas wants is a fair field, and she craves no favors. But she will never sit idly by and pay tribute to those living in distant parts while the people of West Texas sit amid ruined fortunes and blasted hopes. Charity begins at home. He who will not fight to obtain justice for his own fireside does not deserve a fireside. We are for justice--no more, nor will we be content with less.

In 1896 Texas Democrats declared against the vicious doctrine of free raw material. In 1896 William Jennings went to Chicago as a member of a contesting delegation from Nebraska to attend the National Convention of the Democratic party.

When William Jennings Bryan was defending the Ocala platform Joseph Weldon Bailey was smiting the enemies of Democracy hip and thigh. When Bryan was endeavoring for the sake of the leaves and the fishes to entrap the Pops into his camp, Bailey was preaching the doctrines of Democracy in the hope of arousing the consciences of patriots.

Bryan was made the nominee of the party while frenzy was in the saddle. He grasped the standard with hands that had been spotted by political misdeeds and he carried it to defeats after he had stained the fair flag with taints of polypolicies foreign to the soil of Democracy. This, my fellow citizens, is the man who attempts to teach Democracy to those nursed in the cradle of the party.

When William Jennings Bryan was rushing after false gods, Texas was upholding the principles of Democracy. When William Jennings Bryan was trying to court opposing parties, the Democracy of Texas was keeping the faith. Choose ye this day who ye shall serve. We are glad the issue has been squarely drawn. We want none in the party who cannot feel a sacred inspiration from the principles of the party.

Men of property in San Angelo, if some one threatened to create a nuisance alongside of the property you own here, would you seek a remedy to prevent it? Of course you would. The remedy in such a case would probably lie in a writ of injunction.

Follow this same line of action. If a man sought to cut off a vast territory whose trade gives values to your property, isn't it your duty to yourself to seek a remedy to prevent it? Of course it is. The remedy in this instance lies not in an appeal to the courts, but in an appeal to your conscience. It lies in raising the bonus asked to build that road to the "south" or "west" of San Angelo.

Senator Bailey on next Saturday in Dallas will answer the specious argument made by Col. Bryan in Dallas Tuesday. Mark you, we say answer, not reply. While Col. Bryan has been chautauquing about "The Prince of Peace" and other \$2 per pod in the parquet lectures, Joseph Weldon Bailey has been burning the midnight oil seeking the correct solution of this tariff problem.

What The Press-News wants is to see Texas as a whole blossom and grow, and to see West Texas in particular peopled with a happy and contented people. We know that prosperity and free wool are eternal enemies and both can not live in the same community.

A great number of big coops are DISHOP WARD

NAME THE SOAP

We carry an almost bewildering array of soaps. You can have any special choice as to quality or odor. We can supply it. This week we are going to have a Soap Sale. 20 per cent discount on all soap in our window.

Concho Drug Store

Be a duty doer, not a duty dodger. Get your name for a fat sum in the subscription list. No place ever had too many railroads.

You confess that we are almost afraid to go to sleep of nights for fear that during our hours of slumber some man will clandestinely build a railroad to the west or south of us.

Remember the dates--October 5-9--and tell your friends to come to the big fair.

You sheep man, Col. Bryan calls you hard names by innuendo. Permit us to remind you that you were not ashamed to look a sheep in the face during shearing time prior to the passage of the Clevelandized brand of tariff reform.

Pave Chadbourne street.

Peary says he is the only white man who has ever reached the north pole. Oh, very well, as long as he doesn't attempt to show that he and not Howland Peak was the first white child born in Tarrant county, we won't fuss with him.

Bids will be received at the office of the San Angelo Bank and Trust company until 12 o'clock noon October 7, for the erection and completion of a six-story and basement fireproof and office building for the Trust Building company of San Angelo, Texas.

TRUST BUILDING CO. By J. D. O'Daniel, Pres.

Tom Green county--greeting:

You are hereby commanded that you summon, by making publication of this citation in some newspaper published in the county of Tom Green, if there be a newspaper published therein, but if not, then in any newspaper published in the Fifty-first judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said Fifty-first judicial district, for four weeks previous to the return day hereof.

Remember the dates--October 5-9--and tell your friends to come to the big fair.

Suit to recover of defendants the sum of \$615.00, damages sustained by plaintiff by reason of the breach of a contract entered into by and between plaintiff and defendants for the lease of a certain building on Chadbourne street in San Angelo, Tom Green county, Texas, owned by plaintiff, which said contract is in writing and dated July 18th, 1907.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in San Angelo, this 6th day of September, A. D. 1909. JAS. B. KEATING, Clerk District Court Tom Green County, Texas.

The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting--and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach--a stomach that is doing for the body just what Nature intended it to do--is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by indigestible food, the blood and heart are directly affected. Then dullness, unnatural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

Spurring the stomach and brain

to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting. Indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it--just as the stomach should perform it--while the stomach takes a little rest, "for the stomach's sake."

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to lost one in a family. The large bottle contains 2 1/2 times as much as the fifty-cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

MALARIAL DISEASES.

How to Avoid Them and the Serious Consequences of Neglect.

"Fix me up something to knock the malaria, doctor," remarked a sallow-faced, sickly looking man, entering a prominent physician's office the other day.

The doctor stepped to his medicine case, took down a couple of bottles, mixed a preparation which he handed to the patient with the customary advice to "shake well and follow directions," and resumed his seat.

"Such cases are frequent," replied the doctor in answer to a question. "The warm days and damp, chilly nights are certain malaria breeders and are most serious in those who have neglected to keep their stomach, liver and bowels in good condition. Such persons are full of the impurities on which the malarial germ thrives, and it is from this class that typhoid fever, pneumonia, Bright's Disease, small pox and yellow fever claim most of their victims when these diseases are prevalent.

The proper way to guard against the malarial germ and the serious diseases which follow it is to get into good condition by taking a reliable remedy that will keep the bowels clear and the liver healthy, and to continue with it at frequent intervals during the sickly season.

A dose of Prickly Ash Bitters three or four times a week will do all of this, besides stimulating the digestion, improving the appetite and keeping the bodily energy at the highest pitch.

Prickly Ash Bitters is known everywhere as a system tonic and bowel regulator. It not only removes all traces of malarial poison from the system, but tones up the vital organs, gives new strength and vigor, makes the body strong and the brain active.

"Prickly Ash Bitters is the best all-around medicine for the family I ever used. During the past ten years I have always kept it in my house. Whenever any of my family show signs of malaria, kidney trouble, indigestion or constipation a few doses is all that is needed to make them well and hearty again."—W. H. McWilliams, Pickering, La.

Sold by druggists. Price \$1.00.

JUDGE LOVETT PAYS TRIBUTE TO HARRIMAN

New York, Sept. 15.—Judge Lovett, in paying tribute to the late E. H. Harriman, is quoted as follows:

"Col. Harriman was the greatest man of this generation. The whole world recognized him as a genius and acclaimed his great achievements.

"We, his associates, know there never was a man of kinder heart and a more sympathetic nature, a truer friend, or a man more loyal to his business associates and fellow workers."

COTTON MAKES BIG ADVANCES

PRICES BOOSTED UP FIFTEEN POINTS ABOVE TUESDAY.

Makes Offers On Blocks of From 2,500 to 10,000 Bales, and is an Important Factor.

New York, Sept. 15.—The cotton market opened active, and the firmer advancing tendency continued until prices had reached fifteen points above last night. Commission houses were free buyers.

An important factor in the advance was a New Orleans house which was bidding freely for blocks of from 5,000 to 10,000 bales.

This advance was accompanied by a report of decreased offerings in the South. The foreign demand was better, the New England mills buying freely.

Spots, 12.50; Liverpool, 8.84.

New York, Sept. 15.—Strength, at times approximating buoyancy, and a marked increase in interest, characterized the stock market today. The market reflected with satisfaction the remarks of President Taft with reference to the monetary reform.

Stocks continued active during the afternoon, closing strong around the best price of the day. Call 2 and 2 per cent.

DIAMOND FOB FOR WILL DAY

With courtly grace and grave demeanor, Claude R. Jones presented to Will Day, at a dance given in his honor at the Elks hall Wednesday evening, a beautiful diamond studded Elks fob. In a few well chosen words Mr. Jones told of the noble work for the local lodge that Mr. Day had accomplished as secretary, and of how much he would be missed when he hid himself to Jacksonville to enter the drug business. Mr. Day responded with feeling and amid great applause the token of appreciation was passed.

A large crowd of the society set of the city was in attendance and danced blithely to the melodious strains of the dreamy waltz and catchy two-step as rendered by Springer's orchestra.

BONUS RAISERS MAKE PROGRESS

Working faithfully and diligently are the twenty-three railroad committees soliciting subscriptions on the Morgan Jones proposition. Their success is not flattering, but they are still gathering in some money. Another meeting will be held Thursday afternoon at the San Angelo Club to see what has been done and to formulate future plans. Fairly good progress was made Wednesday.

ROADS.

Tom Savell Says Going is Rough Between San Angelo and Sterling.

"While talking about improving the roads," observed Tom Savell, the automobile stage line man, "I would like to remark that the road between San Angelo and Sterling City, particularly that portion of it between Water Valley and Sterling City, is no Applian Way by a jug full. In fact, it is about as rough as they are made, in a natural way, of course.

"In view of the fact that the railroad movements of the last few months have augmented travel between the two cities to a remarkable extent, I would recommend that the road be worked over and arranged so that traveling will be made easier."

COMING.

Cleveland Attorney Will Make San Angelo His Home.

John A. Niedling, one of the big lawyers of Cleveland, Ohio, who has been in the city on a prospecting trip, returned to his home Wednesday.

"But I'm coming back and I'm coming back to stay," he declared. "This is the greatest country in the world, not even barring a little burg named Cleveland where I first saw the light of day.

"There is a good bunch of lawyers here, but I believe there is always room for one more, so I'll just try it one."

New Realty Company.

With a capital stock of \$50,000 the Park Heights Realty Company was formed in San Angelo Wednesday. The new company has taken charge of 320 acres, the Lakeview addition, involving over \$10,000.

E. E. Garnett, of Brownwood, was elected president; C. T. Paul, vice-president; E. E. Bailey, secretary and treasurer. The directors are E. E. Garnett, J. B. Garnett, J. S. Smith, Amadorillo, E. E. Bailey and C. T. Paul. E. H. Labadie and J. Blackwell are among the stockholders.

Mrs. Kitchens Dead.

Mrs. J. A. Kitchens, of Menardville, died Wednesday night at Sonora. The body will be taken to Menardville, and services will be held Friday afternoon. Mrs. Kitchens had been in poor health for a long time.

Butter Nut Bread. City Bakery.

Roth Oysters Strictly Fresh

City Fish and Oyster Market Handles Only Good Bivalves.

No Preservatives Used

Proprietor Offers Reward of \$25 to Any One Finding Such Preparation in Sealshipt Products.

"I will give \$25 to any one who can show that preservatives of any kind are used in Sealshipt oysters, the kind that I handle," declares John Roth, of the City Fish and Oyster Market. "That's the kind I sell. That's the only kind I sell. Sealshipt oysters come straight from the oyster beds under air tight seal to me here. Our contracts cover the time from the growing time, through the shucking and shipping and I know exactly what I am receiving. During every mile of the journey here the oysters I receive are in patented air tight Sealshipts. The seal is not on at the seashore. It is not broken until it reaches here.

"I make this statement because it has been published that a young man here was recently poisoned from eating oysters. He could not have been poisoned from eating my Sealshipt oysters, for the reason Sealshipt oysters are nothing but oysters, free from all kinds of preservatives and with the nice oyster taste that good oysters, and only good oysters, have."

SIGHTS.

F. E. Allen and Family Return From Trip Through California.

F. E. Allen and family returned to San Angelo Thursday, after taking in all the sights of California and other points in the great Northwest.

"We visited at Long Beach, Los Angeles, Pasadena, Santa Barbara, Santa Cruz, San Francisco and Santa Rosa—all coast towns of California," said Mr. Allen. "We also took a little jaunt up to Sacramento, Grant's Peak, Oregon, Salt Lake City and Pueblo. Great country that, great fishing and hunting and we had a fine time. We didn't visit the Yukon-Alaska Exposition—didn't feel like mixing in the hurly burly and excitement.

"I hear that Deacon Sharp is back from his travels and Col. Ed Crosson is on the way, so I guess we will get the whole bunch of summer trotters together up at the club once more, with all kinds of tales of wonderful experiences.

"We traveled over a good portion of Texas, and find that San Angelo is ahead of anything in the state when it comes to crops this year. The country up around Fort Worth and Dallas, especially, is burnt up."

NOW FROM THE NORTH A CHILL WIND BLOWS

At an early hour Wednesday morning "the wind blew chill" from the regions in which Peary and Cook claim to have found no trace of each other. It is safe to say that if either of the eminent explorers had found themselves in San Angelo when the norther blew up and did not have a quilt ready to protect their systems they would most certainly have begun to wonder if they hadn't made some slight miscalculation as to the exact zone in which the Pole hung out.

And the norther is still blowing and things are getting right chilly in the land where the waters of the Cancho bifurcate. Straw hats are being tossed aside and coats are rapidly coming into fashion. If the norther continues, it is probable that the acquisition of an overcoat will have a salutary effect in regard to the disposition of those who dare to brave the Polar blasts that bless good old Tom Green.

Those who are going on the Trades Excursion are requested to meet Friday afternoon at 3 o'clock in the office of Mayor Paul, when the last finishing touches will be put on the details of the trip.

All who desire to go who have not yet signed up are requested to at once report their wishes.

Earl Hammersdorf wants to see you at Cos-Hart's.

Get Busy.

"What in the dickens is the matter with the progressive citizens of good old San Angelo?" asked J. C. Landon Wednesday. "They seem to be passively ready to let Morgan Jones go right by with his railroad, chopping into our territory and putting a fin-isk to a great portion of our trade. Ugh, it makes me tired."

"Where, may I ask, is that class of the old guard that always came forward so nobly when any project for the city's benefit was broached and gave even of their sustenance to bring a railroad to San Angelo? Where are the men who gladly put up \$300,000 to bring the Orient railroad to San Angelo? Time was when a railroad promoter could come to San Angelo and be given the fat of the land and get a bonus before breakfast. Now he is dined on chile con carne. By the eternal, I think the old guard must have picked up and moved away."

"What is wanted, what is needed, is for the people of San Angelo to wake up to the exigencies of the situation and realize that the chance for material improvement is ahead of them in the shape of the portly form of Morgan Jones. Is it a time to put your hand down in your pocket—and keep it there? No, by the living jingoes, bring her up overflowing with greenbacks, do it in unison and tell Brer Jones to bring along his road—that we have built Orients."

"Most of the men from whom we were expecting thousands gave hundreds, the majority a round century alone. No that's not the way, boys. Get alive; we need this road, fact is, we can't afford to lose it, so what's the use of closing up so tight?"

"No, I can't believe this of the people of San Angelo, people who have achieved deeds of civic valor that the world wonders at today; they are simply in a lethargy and they will awake anon and pull together that bonus so quick that Morgan Jones will kick himself once or twice for not asking double the amount. Pally round the banner, boys, the same old banner that the citizens of San Angelo have fought under since the days of the city's infancy, upon whose broad folds is inscribed in letters of gold their motto: "Bigger, Better, More Beautiful."

A WORKSHOP
WE ARE PROUD OF

Repairing watches and jewelry to the entire satisfaction of our patrons is the one thing we are proud of. Watches and clocks are repaired—not simply to run, but to keep good time.

Diamonds to be reset or valuable articles to be repaired are in safe hands, while the smallest jobs are handled with a view of retaining your good will and patronage for the store.

We will not do the unnecessary nor charge for what we do not do.

INDICATIONS FOR COAL IS GOOD IN TOM GREEN

With the statement that it is almost certain that an immense vein of coal lies under the soil of Tom Green county, J. E. Captinger, mining promoter, declared Tuesday that though at present he is not making any definite investigation of the matter, in all probability at no far distant date he would interest himself in such a move.

"Every indication points to such a conclusion," he asserted with much vigor, "many geologists have given this country a passing look-over and all of them declare that prospects for coal were never brighter in any district."

"One may ask why, with these possibilities, the industry has never been developed. Well, that is explained very simply. No competent parties have ever made a decided movement in that direction, but when they do—well, there is going to be something doing in quite a new line from anything ever touched in the Cancho country."

"And gas, well, there have been enough discoveries made in that line to warrant a thorough investigation of the gas resources of this country. No more brilliant prospects for natural gas are to be found anywhere."

"Since my recent investigation of the probable oil resources of the country south of Brownwood, in which, by the way, I have achieved very promising success so far, I have been the object of many importunities to look over the oil prospects of Tom Green county. At present I am contemplating no such move, but in the future I may possibly interest myself in the matter. I will say that it is extremely probable that oil may be located in paying quantities in this country. Some slight indications have been discovered to date, but nothing so definite as to cause me to pass up other projects to look into it immediately."

"I have every promise of discovering oil in paying quantities in my Brownwood wells. In fact, it has already been discovered in some degree south of the city about forty miles."

ANNOUNCEMENT PARTY.

When October Breezes Blow, Miss MHSpaugh and L. F. Boulware Will Be Wedded.

And the cat is out of the bag at last! Mrs. Will Grinnell gave an announcement party in honor of Miss Sadie MillsSpaugh and Mr. Lem F. Boulware, Wednesday afternoon, who will be married in October. A large crowd of friends of both parties was in attendance and toasts to their long life and continued happiness were drunk.

What Will You Do With Those Few Spare Dollars This Month

Invest Them to Good Advantage or Spend Them?

Why spend every dollar you make now, and receive no permanent or real beneficial returns—when by taking advantage of this exceptional opportunity, you can reap untold profit in the days to come?

It only takes a few dollars to make the first payment—the balance payable in easy, monthly installments. A small per cent of your earnings invested now in COLONIAL HEIGHTS means a sure and big profit to you in a short time.

The majority of the world's substantial wealth was built up from a firm foundation—and the firm foundation of the majority of these fortunes was REAL ESTATE—the KEYSTONE TO WEALTH.

COLONIAL HEIGHTS is being beautified this week. The streets are being grubbed and grading is being finished. The entire addition is well drained; has fertile soil, and good water, obtainable at a moderate depth; is in easy walking distance of the Santa Fe depot, and in the highest and prettiest part of San Angelo.

COLONIAL HEIGHTS offers you the best and most for your money. Do not delay—act now, and you will never regret your investment in this addition.

I will be glad to show you the property at any time you may designate. It will pay you, and cost you nothing, to investigate COLONIAL HEIGHTS, "the place for the homes of people of good judgment and best taste."

OFFICIALS OF FRISCO SPEND NIGHT HERE

COME FROM MENARDVILLE VIA SONORA AND ELDORADO, TAKING IN THE COUNTRY.

NOT LOOKING THIS WAY AT PRESENT

Plans Do Not Contemplate Building Into San Angelo—This Road Never Asks for Bonuses.

Dust laden and happy, tired, but contented, and with the Frisco smile upon their faces, the nabobs of that big system arrived in San Angelo shortly after 7 o'clock Wednesday evening. They had come all the way from Menardville via Sonora and Eldorado since Wednesday morning. They were out looking over the country. What their object was God only knows, aside from the nabobs, and neither the good Lord nor the nabobs will tell.

In the party were A. J. Davidson, president of the big system; W. C. Nixon, vice president and deep-water drawer, also of the big system; W. B. Drake, affectionately called Billy by all who have known him ten minutes and who measure up to the standard of being a good fellow, vice president of the Texas lines, and E. P. Tillman, who is almost a fellow citizen and who officially is general live stock agent of the Texas lines of the Frisco.

"Really, no significance need be attached to our coming. We merely wanted to see San Angelo," said President Davidson, who is always pleasant and who was never during a constant acquaintance of ten years ever for one moment been loquacious when I asked him the why.

"Will you build into San Angelo?" I fired at him.

"Our plans do not contemplate that," was his reply.

"Would a bonus attract you?" I asked.

"Not in the least," was the quiet response. "You see, the Frisco never asks for bonuses. We do not believe that to be right. This matter of trading on bonuses is repugnant to our way of thinking. In the event we were to arrange to come to a place and the people wanted us to pay a bonus and people wanted to pay us a bonus and would raise a nice sum I would tell them to collect the sum and then spend it on the highways and county thoroughfares. In this manner by building good roads the railroad would profit more in the course of a year or so than would be the case if it took the cash. Of course we think it proper to accept right of way and terminal grounds and believe that it is fair for the railroad to do this."

Davidson is a peculiar fellow. He always thinks more than he says and even the most ardent stranger can always bank on everything that he says. "Let me say that you will come here—eventually," I asked.

"I don't want that responsibility," was the answer.

"Fudge, you build the road and I'll take the responsibility," was the rejoinder, but the president of the Frisco laughingly declined to enter into that kind of a partnership.

Davidson and Nixon are both Santa Fe products. Davidson started years ago with the Gulf division and he worked through all the grades up to division superintendent. He had previously been with the Colton Belt and he knows the railroad inside and out and nail. He was superintendent of transportation of the Frisco and one day Charles Boggs went to minting and—well Davidson became president

and he has been ever since.

Col. Nixon won his spurs in Texas. At least he won the golden spurs in this state while general superintendent and afterward vice president and general manager of the Gulf lines of the Santa Fe. He left the Santa Fe to go with the Frisco. While always a good looking man, Col. Nixon is positively pulchritudinous when he has on plaid stockings and plays golf.

Drake is of the royal blood in a friendship way and a better, truer man cannot be found. He has done more than his share toward relieving the false impression sought to be created against the railroads of this state by living up to the doctrine of the square deal all the time. To say things about Tillman is too much like talking sweet talk to home folks.

While coming from Sonora the Frisco party met Vice President Pettibone of the Santa Fe going to Eldorado. Mr. Pettibone evidently didn't recognize his old team mates, for his car merely gave a honk honk grunt and continued without stopping.

Epitomized, the coming of the Frisco officials may mean much to San Angelo—just a little later on. Wouldn't it be a delightful sensation to get a railroad built into San Angelo without shedding a drop of bonus blood?

The party will leave here Thursday morning at 9 o'clock and will go to Brady, where the cars are waiting. Several prominent citizens called at the Landon Wednesday night to pay their respects to the distinguished visitors.

SUCCESSFUL

Governor Johnson Operated Upon With Satisfactory Results.

Rochester, Minn., Sept. 15.—Governor Johnson was operated upon today for appendicitis, following a recent operation for appendicitis, the result being very satisfactory. In fact, it has been pronounced that the final operation was successful, and the governor should soon be on the road to rapid recovery.

Relapse.

Rochester, Minn., Sept. 15.—At a late hour tonight Gov. Johnson had a relapse, and his condition is now critical.

URGES FARMERS TO HOLD THEIR COTTON WHILE

Raleigh, Sept. 15.—Implores the farmers throughout the South to hold as much cotton as possible for better prices instead of letting Wall street reap the benefits, President Alexander of the North Carolina Farmers' Union and Cotton and Tobacco Growers' Association, today issued a lengthy address that is sure to have great weight throughout the cotton-growing sections. President Alexander declares that the farmer who turns his cotton loose at this time is indeed a foolish man to say the least. In doing so the producer is only cutting his own throat in order that the gambler may reap the harvest.

The cotton crop, he says, is the smallest in many years, and claims that this statement is backed up by figures and statistics that cannot be disputed. Now is the time, above all others, when the farmer should be careful and exert every effort to hold his cotton, for it will mean the highest price in many seasons.

In closing, President Alexander points out the fact that the farmers may secure advances, without actual sale, through the warehouse certificate plan.

Castles Buried.

New York, Sept. 15.—The last rites were performed over the body of John W. Castles, president of the Union Trust company, Wednesday. Castles committed suicide Monday by cutting his throat with a razor.

WITNESSES TESTIFY IN BEHALF OF COOK, ALSO PEARY—LOOKS LIKE BOTH MEN MADE DISCOVERY

New York, Sept. 15.—Cook's story of finding the North Pole is to be no longer doubted, for Miss Gerda Lebbelove, a Danish woman who has lived three years in the far North as a governess of the family for a governor of a Danish trading post, declares she has received letters to the effect that the Eskimos up there knew of Cook's discovery some time ago.

If this is true, Peary will no longer have the privilege of calling Cook an impostor and declaring himself the only white man that ever reached the Pole.

Negro Backs Up Peary. Battle Harbor, Sept. 15.—In an ad-

BALLINGER UPHELD BY PRESIDENT

TAFT ISSUES STATEMENT FROM CHICAGO IN WHICH HE ORDERS DISCHARGE OF GLAVIS.

PINCHOT EXPECTED TO RESIGN AT ONCE

He Has Taken Decided Stand in Controversy and in View of Chief Executive's Action Further Developments Looked For.

Chicago, Sept. 15.—President Taft today issued a statement in which he upheld the actions of Secretary of Interior Ballinger in the matter of the forest controversy. The discharge of L. H. Glavis, the chief of the general land office at Seattle, was ordered. Glavis was the first to make charges against Ballinger.

Pinchot, the chief forester, is expected to resign, owing to the decided stand he took in the controversy.

SOLDIERS.

Diaz Will Be Accompanied By 5,000 Men On March to El Paso.

Galveston, Tex., Sept. 15.—Five thousand soldiers, the pride of the army of Mexico, will accompany President Diaz when he marches to El Paso to meet with President Taft.

And the corpulent man that occupies the presidential chair of the United States will not be alone when he shakes hands with Diaz. Thirty hundred regulars of the American army will be at his side.

Congratulations.

Washington, Sept. 15.—President Taft today telegraphed congratulations to President Diaz, this being the occasion of Diaz's birthday.

BRUTAL MURDER WOMEN KILLED

Chicago, Sept. 15.—In an apartment house in the Hyde Park district this afternoon, the bodies of Mrs. Anna Silver and Mrs. Judith Tripp were found, brutally mutilated by bullets. Mrs. Silver had eleven bullets in her body.

All Chicago is aroused over the brutal murder; detectives from the central office are at work upon it, but as yet no vestige of a clue or motive has been uncovered.

DEAD.

Former Partner of Stanford White Expires at Age of 62.

New York, Sept. 15.—Charles F. McKim, who was a partner of the late Stanford White, died here today of heart disease. He was 62 years of age, and had been in poor health for a year or more.

BANDITS.

Rurales Meet Huerta Brothers and Kill Them.

Vera Cruz, Sept. 15.—The rurales under the command of Captain Costillo, met and killed the famous Huerta brothers today. The Huertas were the most notorious bandits who ever struck this district, and have been terrorizing the people for the past two years.

EIGHT KILLED EIGHT WOUNDED R. R. WRECK

Washington, Sept. 15.—Eight killed and eight injured is the result of a head-on collision at Pogram, on the Nashville, Chattanooga & St. Louis railway today. A passenger train run into a freight, demolishing both engines and tearing up the track for several hundred yards.

The wreck was due to a misunderstanding of orders by the trainmen, and was through no fault of the dispatcher. Each engineer thought he had the right of way, and the trains were traveling at a high rate of speed.

The eight people killed were employees of the company.

BIG MERGER IS EXPECTED

New York, Sept. 15.—A big merger of several telephone and telegraph companies is contemplated, and although it has been reported that Gould has disposed of his Western Union stock, it has not been verified.

Gould will neither affirm nor deny the statement. The American Telephone and Telegraph company is reported to have made him an offer for the securities. This concern also wants the holdings of the Sage estate.

ROYAL WEDDING IN SCOTLAND

Dingwall, Scotland, Sept. 15.—In Dingwall today joy and mirth are unconfined as a result of the marriage of Prince Miguel of Braganza to Miss Anita Stewart of New York. A fête is in progress in honor of the distinguished visitors and the usually immobile Scots have relaxed from their solemn demeanor and are cutting up like American school children.

The ceremony was brief and generally choral in character. Thirty-six members of the Austrian Portuguese royalty were in attendance, while quite a delegation of Americans was on hand to see the affair done up according to Hoyle.

Prince Miguel belongs to the royal family of Austria, and is a social lion of Europe and America as well. "Miss Stewart is another one of the American heiresses who are constantly going over to the other side of the big pond to show the grande dames of blue blooded ancestry what real American culture is.

The happy couple will reside in Austria in Prince Miguel's family castle.

PETTIBONE IN SPECIAL CAR REACHES CITY

LEAVES IN AUTOMOBILE WITH C. B. METCALFE AND SPENDS AFTERNOON NEAR ELDORADO

MEANING OF VISIT NOT ACCOUNTED FOR

Intimated That Santa Fe Intends to Build Its Road to the South or to the West in Near Future.

In his special car, General Manager F. G. Pettibone of the Santa Fe arrived in San Angelo Wednesday morning bright and early. Shortly after breakfast he left the city for Eldorado in a big automobile, accompanied by Chas. B. Metcalfe.

Now, what is the meaning of Mr. Pettibone's clandestine excursion is only a matter of connection, but eminent railroad authorities of San Angelo are shading their eyes with their hands and looking "south or west." Pettibone is recognized as being an all-business man; therefore it is readily conceded that his trip to Eldorado is not to deliver a lecture on "The Raising of Hot Tamales by Irrigation," on another such fertile purpose.

Manager Pettibone is the man of action of one of the largest railroad systems in America, a road whose motto is building and more of it. Now there has been considerable talk of other roads building "south or west," and the Santa Fe is not noted for allowing said roads to cut a watermelon that looks ripe to it.

At a late hour Wednesday night Manager Pettibone had not returned from the trip, and his porter is very much worried because "de kumple" didn't carry his overcoat along. His bed was ready and waiting for him at 12 p. m., but no Pettibone was there.

FIVE THOUSAND BACK TO WORK

Fall River, Sept. 15.—Five thousand men return to work tomorrow at the Borden mills. The strike which has been on for several days has been settled, the employees being granted an increase of five per cent.

Under the new agreement employers and employees are well satisfied, although the strikers did not get all that they asked. The settlement was in the form of a compromise.

SUFFERING.

American Consul States That Monterey Situation is as Serious as Represented.

Monterey, Mexico, Sept. 15.—Terrible suffering is the part of the people of the stricken city of Monterey, but succor is being tendered with all possible dispatch.

Phillip Hanna, the American consul, declares that the number of victims of the recent flood will run up into thousands, but the exact number will not be known for some time.

To File Thursday.

New York, Sept. 15.—The will of Edward H. Harriman, the dead railroad king, will in all probability be filed Thursday.

COL. BRYAN'S FALSE LOGIC.

When one raises the voice of protest against one enshrined as a hero and worshipped by the millions, he invites the shafts of denunciation upon his head.

Col. William Jennings Bryan, the charmed pet of the dear old Chautauqua circle, invaded Texas with his fat-tended body, silver toned voice, depleted pate and sweet sounding sophistries.

Col. Bryan knows that, under the terms of the American government revenue to support the government must be raised from duties on imports. Primarily a tariff is a matter of revenue.

But back to Col. Bryan. He favors the revenue to run this government being raised by putting the tariff on manufactured articles and by raising that tariff on manufactured articles to an amount to support this government and thereby permitting raw materials for the manufacturers to enter this country free of all duty.

That is about as succinctly as seven columns of verbiage he delivered at Dallas can be stated.

He steps upon our corns in making this declaration. We are opposed to such a policy. If we are to have free wool, then we say give us free woolens.

That's the patriotic way to view this question. If the tariff on wool is fixed at a revenue basis, then we say that there should be a revenue tariff on woolsens.

We can not appreciate the logic of a statesman who would have the man who lures from Mother Earth her choicest treasures compete against the world and at the same time give to the man who changes the form of things raised a protection against foreign competition.

The doctrine of protected manufactured articles and free raw materials is one that causes the manufacturers of rock-ribbed New England states to clap their hands in joyous acclaim and pour out libations at the feet of those who advocate this. But we grant the members to point the way to prosperity for New England manufacturers.

What The Press-News wants is to see Texas as a whole blossom and grow, and to see West Texas in particular peopled with a happy and contented people. We know that prosperity and free wool are eternal enemies and both can not live in the same community.

may live long and prosper. We gladly admit the sincerity of Col. Bryan, but we denounce his reasoning as being specious and unsound. We believe that Col. Bryan is the greatest man who has ever been defeated for the presidency during the last twelve years, with the exception of Judge Parker, and we further believe that if he has always held to the doctrines enunciated at Dallas and Fort Worth that his successive defeats, have been for the lasting glory and the eternal salvation of this country, and especially West Texas.

All West Texas wants is a square deal. All West Texas wants is a fair field, and she craves no favors. But she will never sit idly by and pay tribute to those living in distant parts while the people of West Texas sit amid ruined fortunes and blasted hopes. Charity begins at home. He who will not fight to obtain justice for his own fireside does not deserve a fireside. We are for justice—no more, nor will we be content with less.

In 1896 Texas Democrats declared against the vicious doctrine of free raw material. In 1896 William Jennings went to Chicago as a member of a contesting delegation from Nebraska to attend the National Convention of the Democratic party. He was fresh from the camp of populism and the effluvium of the Ocala platform was sweet perfume in his nostrils.

When Bryan was endeavoring for the sake of the leaves and the fishes to entrap the Pops into his camp, Bailey was preaching the doctrines of Democracy in the hope of arousing the consciences of patriots. Bryan was made the nominee of the party while frenzy was in the saddle. He grasped the standard with hands that had been spotted by political misdeeds and he carried it to defeats after he had stained the fair flag with taints of polypolicies foreign to the soil of Democracy.

Men of property in San Angelo, if some one threatened to create a nuisance alongside of the property you own here, wouldn't you seek a remedy to prevent it? Of course you would. The remedy in such a case would probably lie in a writ of injunction. Follow this same line of action. If a man sought to cut off a vast territory whose trade gives values to your property, isn't it your duty to yourself to seek a remedy to prevent it? Of course it is. The remedy in this instance lies not in an appeal to the courts, but in an appeal to your conscience.

Senator Bailey on next Saturday in Dallas will answer the specious argument made by Col. Bryan in Dallas Tuesday. Mark you, we say answer, not reply. While Col. Bryan has been chautauquizing about "The Prince of Peace" and other \$2 per paid in the parquet lectures, Joseph Weldon Bailey has been burning the midnight oil seeking the correct solution of this tariff problem. When Bailey speaks it will be reason pitted against impulse. It will be logic battering against sophistry; it will be patriotism in the lists against pandering. We have our faith in the junior senator pitched upon a high plane. He has never disappointed his friends. He has never failed to confound his enemies. He will keep the faith; he will not violate the trust.

A great number of big coops are

DISHOP WARD

NAME THE SOAP

We carry an almost bewildering array of soaps. You can have any special choice as to quality or order. We can supply it. This week we are going to have a Soap Sale. 20 per cent discount on all soap in our window.

Concho Drug Store

Be a duty doer, not a duty dodger. Get your name for a fat sum in the subscription list. No place ever had too many railroads. San Angelo hasn't got enough—yet.

We confess that we are almost afraid to go to sleep at nights for fear that during our hours of slumber some man will clandestinely build a railroad to the west or south of us. West Texas is coming to her own nicely, thank you, for which we must give thanks to the sanity of the senate of the 31st legislature. Dig a little deeper when you subscribe.

Remember the dates—October 5-9— and tell your friends to come to the big fair.

You sheep men, Col. Bryan calls you hard names by innuendo. Permit us to remind you that you were not ashamed to look a sheep in the face during shearing time prior to the passage of the Clevelandized brand of tariff reform. Do you want a return of the evil days of yore? If not, get in line.

Pave Chadbourne street.

Peary says he is the only white man who has ever reached the north pole. Oh, very well, as long as he doesn't attempt to show that he and not Howard Peak was the first white child born in Tarrant county, we won't fuss with him.

Bids will be received at the office of the San Angelo Bank and Trust company until 12 o'clock noon October 5, for the erection and completion of a six-story and basement fireproof and office building for the Trust Building company of San Angelo, Texas. A certified check in the sum of \$1000 made payable to J. D. O'Daniel, president of the Trust Building company, must be submitted with all bids. Plans and specifications are on file at the office of the San Angelo Bank and Trust company at San Angelo, Texas, as well as the office of the architects, Sanguinet & Staats, Fort Worth and Houston, Texas. The right is reserved to reject any or all bids.

TRUST BUILDING CO. By: J. D. O'Daniel, Pres.

Tom Green county—greeting:

You are hereby commanded that you summon, by making publication of this citation in some newspaper published in the county of Tom Green, if there be a newspaper published therein, but if not, then in any newspaper published in the Fifty-first judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said Fifty-first judicial district, for four weeks previous to the return day hereof, D. C. Scarborough and W. R. Wynn, whose residence is unknown, to be and appear before the Hon. district court, at the next regular term thereof, to be holden in the county of Tom Green at the court house thereof, in San Angelo, on the fourteenth Monday after the first Monday in September, 1909, it being the 12th day of December, A. D. 1909, then and there to answer a petition filed in said court, on the 11th day of December A. D. 1908, in a suit numbered on the docket of said court No. 1801, wherein R. A. Rushing is plaintiff and D. C. Scarborough and W. R. Wynn are defendants. The nature of plaintiff's demand being as follows, to-wit:

Suit to recover of defendants the sum of \$615.00, damages sustained by plaintiff by reason of the breach of a contract entered into by and between plaintiff and defendants for the lease of a certain building on Chadbourne street in San Angelo, Tom Green county, Texas, owned by plaintiff, which said contract is in writing and dated July 18th, 1907.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in San Angelo, this 6th day of September, A. D. 1909. JAS. B. KEATING, Clerk District Court Tom Green County, Texas.

The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting—and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by undigested food, the blood and heart are directly affected. Then dizziness, unnatural sleepiness, sick headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

Spurring the stomach and brain

to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting, indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake."

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 24 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

ASSIGNMENT OF TEACHERS FOR CITY SCHOOLS

SUPT. SMITH ANNOUNCES ALL IN READINESS FOR THE OPENING OF TERM.

VERY FEW CHANGES FROM LAST YEAR

Board Meets and Lays Plans for Better Ventilation in Two Ward Buildings—School Matters of Interest.

With all of the teachers selected and assigned to their classes, Superintendent Smith is relieved of a big responsibility, and announces that everything is now ready for the opening of the 1909-10 term next Monday morning.

Very few changes in the teaching force have been made, as compared with last year. Appointments were announced Wednesday by Superintendent Smith as follows:

High School—H. O. Jones, principal and teacher of science; G. L. Nunnally, Latin; Lee Ellison, English; W. E. Masterson, mathematics; H. C. Somerville, history; Miss Elizabeth Woolworth, physiology and algebra; Miss Willie Thatcher, Spanish and English.

Seventh grades—Misses Lillian Graves, Rosa Arozena and Alice Jones, East San Angelo school—Miss Minnie Rawlings, principal; Miss Lillian Fitch, first grade, low division (high division to be supplied after Christmas); Miss Myrtle Meers, second grade; Miss Belle Gore, third grade; Miss Ella Jones, fifth; Miss Norma Norton, sixth grade.

North San Angelo school—Miss Mary Whitfield, principal; Miss Mary Whitfield, first grade, low division (high division to be supplied after Christmas); Miss Minnie Periman, second grade; Miss Anne Binkley, third grade; Miss May Greer, fourth grade; Miss Ella Jones, fifth; Miss Norma Norton, sixth grade.

Fort Concho school—Miss Martha Woolworth, principal; Miss O. DeSmith, first grade, low division; Miss Cora Ellis, first grade, high division; Miss Della Lovell, second grade; Miss M. L. Gorman, third grade; Miss Kathleen Wallace, fourth grade; Miss Prudence Herring, fifth grade; Miss Minnie Jameson, sixth grade.

Harris Avenue school—Miss Prudence Herring, principal; Miss Ella Scott Fisher, first grade, low division; Miss Cora Ellis, first grade, high division; Miss Della Lovell, second grade; Miss M. L. Gorman, third grade; Miss Kathleen Wallace, fourth grade; Miss Prudence Herring, fifth grade; Miss Minnie Jameson, sixth grade.

Ventilation.
 Providing for the heating facilities for the two new schools and the improvement of two others, the school board met Tuesday.

A contract was let for the attaching of a heating apparatus to each of the new ward schools, to the Campbell Heating company of Kansas City. This is to be installed in about sixty days. It was also agreed to have a more perfect system of ventilation for the

Harris and Concho avenue schools.

Requirements for Admission.

Before enrolment each pupil must present a certificate from a reputable physician, stating that he has been successfully vaccinated within a period of seven years.

Pupils residing in the corporate limits of the city of San Angelo, who are over 7 and under 19 years of age on September 1, 1909, are entitled to free tuition.

Pupils transferred by the county superintendent from other districts in Tom Green county to the San Angelo independent district will be allowed free tuition until January 1 following the date of their transfer. After January 1 all transferred pupils will be charged for tuition.

Children with living parent or personal guardian elsewhere, and who are living with or being raised by relatives or friends in San Angelo, will not be considered residents of San Angelo so as to entitle them to free tuition, unless they have been adopted by such relatives or friends; however, if such pupils have been taken into the scholastic census for the San Angelo district they will be allowed free tuition until after January 1 following the year of their enumeration.

Children whose parents reside in San Angelo temporarily or move to the city solely for school facilities will be charged for tuition.

Children who are 7 years old on or before January 1, 1910, will be enrolled at the North and East San Angelo schools at the beginning of the spring term, after the completion of the new ward buildings. They will be enrolled at the Fort Concho and Harris Avenue schools at the beginning of the fall session, September 20, and at the beginning of the spring term after the Christmas holidays. All pupils under 7 years of age on September 1 will, of course pay for tuition.

Pupils who expect to be enrolled in the low first grade must enter school not later than two weeks after the beginning of the fall or spring sessions.

Terms for tuition \$2 per scholastic month payable in advance.

School Districts.

Fort Concho School.—Territory south of the North Concho river including Fort Concho, Millspaugh, Park Heights and Hyde Park additions. For pupils in the first six grades of the elementary school.

Harris Avenue School.—Angelo Heights and territory between the North Concho river and the Santa Fe railroad, west of Magdalen street. For pupils in the first six grades of the elementary school.

East San Angelo School.—Territory north of the North Concho river and east of a line beginning at the City Park, running north on Magdalen street to the Santa Fe railroad, east along the Santa Fe railroad to Main street and north on Main street to the city limits. For pupils in the first four grades of the elementary school, after completion of the new building, for pupils of the first six grades.

Central or High School.—High school grades for the entire city; seventh grades for entire city; fifth and sixth grades from East San Angelo district, until completion of new ward building.

Mexican School.—All Mexican pupils in the city.

Colored School.—All colored pupils in the city.

Parents and pupils are advised not to buy any books until they receive correct lists from teachers.

An outline of the course of study may be had at the superintendent's office.

Daily Sessions.

First grades, 9 a. m. to 2 p. m.; second grades, from 9 a. m. to 2:30 p. m.; third grades, from 9 a. m. to 2:45 p. m.; all other grades, from 9 a. m. to 3 p. m.

There shall be intermissions of fifteen minutes each forenoon, an hour at noon, and during warm weather ten minutes in the afternoon.

Optional Courses.

Spanish may be substituted for Latin in the tenth and eleventh grades, if this course is chosen.

High School Promotions.

As far as possible, in the high school, promotions will be made by subjects instead of by grades. Conflict in the recitation schedule, due in a measure to the lack of a study hall, may in many cases limit promotion on this basis.

Conditioned pupils, or pupils of unusual strength and aptness, who have done vacation work, may take advanced standing by examination at the beginning of the fall term.

Completion of High School Course.
 Pupils who have completed the prescribed courses in English, mathematics, history and science, and who have four years of Latin to their credit, or the eighth grade Latin and three years of Spanish, will be granted a diploma.

A. W. ARMSTRONG, Manager.
 118 Chadbourne Street. "ACCURACY" OUR MOTTO

Pupils in the eleventh grade who for any reason fail to complete sufficient work to merit a diploma, will, at the close of school, be given credit for all courses they have completed. This certificate of credit, together with the satisfactory completion at some future time of the course or courses in which such pupils fail, will entitle them to a diploma.

Conditions of the above type may be removed by examination at such time as the superintendent may set, or, if pupils prefer, they may the year following their failure attend class work devoted to courses in which they failed. The length of time they must attend such classes and the satisfactory completion of the course or courses will be determined by the teachers and principal of the high school.

Reports.

The standing of each pupil is reported monthly to parent or guardian.

Scholarships.

The University of Texas offers annually two scholarships in the department of literature, science and arts.

One of these scholarships goes to the boy, the other to the girl in the graduating class who makes the highest standing for the year. Scholarships of similar nature are offered by Southwestern and other universities.

Affiliations.

The high school is classed in group 1 in the list of affiliated schools of the University of Texas. We also have affiliation with Southwestern university, A. and M. College and many other colleges and professional schools.

A. G. Metz of Illinois, who bought some property in this country about a year ago, has been back to look over the situation, contemplating buying more land.

J. C. Brown has gone to Fort Worth on business.

T. W. Wood and mother have returned to their home in Chicago, after visiting here.

For feed stuff see Neeley Bros. We deliver to any part of the city.

Real Estate.

The following members of the San Angelo Collegiate Institute faculty will give instruction at the downtown studio of the college in the Connerly building:

Mrs. Coleman, voice.
 Miss Stanford, art.
 Miss Osman, piano.
 Mrs. Andrews, expression.

Real Estate Transfers.

Paul Abstract & Title Company's report of real estate transfers recorded Sept. 15:

G. S. Mason to J. W. Bewick, \$6,000. Conveys 200 acres out of block 234, Subd. 1, Collyns ranch.

PURRLIND KITTENS SOON TO SEE
THE LIGHT.

AN ENDURANCE TEST

Such Will Be the Walk of the Tender
to the Gates of This Mys-
terious Domain.

Scrivener Ross of the Concatenated Order of Hoo-Hoo delivers himself classically thusly, relative to the great gathering that will be here October 8: "As the hour approaches when the purrlind kittens of Texas will seek the light of Hoo-Hoo land there come from the four winds the cries and meows of these seekers. Awaiting them at the base of the pyramid will be the snark of all Hoo-Hoo, and nowas during its mythological days, the long, sharp claws of all Hoo-Hoo will be spread and primed that no one will be overlooked, and their most exacting tastes will be satisfied as to what they are expecting to receive at the altar of the Great Black Cat. This Great Feline sees in this meeting the greatest opportunity yet offered since leaving its home on the sandy deserts of Hoo-Hoo land, and in advance it has decreed that each and every one shall be treated alike, and its subordinates charged to see that nothing is overlooked. There is no guarantee to anyone that he will safely pass over the hot sands, through the kilna, from the pine limbs or bear fight. They offers for entry into the mysteries of this sacred land are voluntary, and as such they must accept the consequences.

"Their walk to the gate of this mysterious Domain will not be on a bed of roses, but instead it will be a test of endurance, taking their first steps from the base of the pyramid Friday night at 8:20, and from there walking in darkness until admitted into the Court of His Majesty the Snark of the Universe, where will be reviewed the steps each has taken during this life, and where, if found to be worthy, the final rites of admission will be administered. Like rare jewels, which come high, admission to the Great Land of Hoo-Hoo is not a matter of form. The applicant must in every way prove himself worthy of the great honor he seeks, and not a single fault will be pardoned, for none but the good and righteous can hope to enjoy the serene and heavenly bliss that belong to those who now live under the protection of the Great Black Cat.

"Formal orders have gone forth that all loyal Hoo-Hoo assemble at the gate and there await the command of their Snark on the evening of October 8, partly to guide the faltering steps of those seeking this great light, and to be present to do honor and homage to their new brothers."

See Cray has returned from Little Rock, Ark., and taken his position at the Cos-Hart fount. Cray is a good mixer with the public and of drinks.

TO ABILENE.
Humphreys Off to Boost Hoo-Hoo Concatenation Scheduled for Fair.

W. P. Humphrey, alias Hill, left Tuesday for Abilene. He goes there for the purpose of seeing the sights of the county fair that is now on that city and for the further purpose of boosting the great Hoo-Hoo concatenation that takes place in San Angelo on October 8, beginning at 9:09 p. m. sharp.

Mrs. A. J. Marshall and little daughter left Tuesday for Bardwell, Ky., after a visit of two weeks with George Waterback, Mrs. Marshall's brother. Miss Mona Waterback returned with them for a two months' visit. Mr. Waterback and family formerly resided at Bardwell.

**JUST A HINT
WORTH WHILE**

SAN ANGELO SHOULD MAKE OTHER THINGS EQUAL CLIMATE.

HOTELS ARE A FACTOR

Leon Moshbacher Returns from California and Tells of Things That Made That State.

"The greatest asset that San Angelo can ever have is the climate. What San Angelo ought to do is strive to make other things here in keeping with the goodness of the climate. Let this be done and you will see this city go forward with strides that at this time can not even be conjured."

That's the way Leon Moshbacher, who has just returned from a tour of the Pacific coast, expresses himself. While away Mr. Moshbacher observed the effects of salubrious climate and other good things, but let him tell his own story.

"California has a good climate, but the climate alone has not made California. They have added fine roads in the country to the fine climate, and in the cities they have added good paved streets and cleanliness. If San Angelo ever achieves her manifest destiny she has got to add cleanliness to her climate; she has got to add good paved streets to her climate, in order to secure the necessary degree of cleanliness, and then she has got to have good roads in this section to permit those who come here to take jaunts into the open without being jolted to jelly.

"The state of California has voted a bond issue of \$16,000,000 for the purpose of building good roads. The state will enter a county and ask the county how much it will put up. Usually the county sees the state dollar for dollar, and the result will be that when the present state bond issue is exhausted at least \$72,000,000 will have been spent in making the highways better, and a better investment could not be made.

"San Angelo today also has all the advantages that San Antonio has, except paved streets, city cleanliness, good roads, and last, but far from least, good hotels." By good hotels I do not mean that San Angelo hasn't as good a hotel for the price charged as can be found anywhere. There are good hotels and there are better hotels. For instance, a man in Los Angeles put up a hotel the cheapest room in which costs \$6 a day. People said that when he started to build the Alexander he was a fool. He was just the kind of fool to make a million, and in less than a year afterward another hotel was started. And today this second hotel, the Angelus is a great hostelry and one can not get a \$10 a day room there unless he makes his reservation weeks in advance.

"You see we have passed the stage where we can say to a man, 'Hands up!' as was the case in the long ago. We must now say to him in a soft and gentle-like voice, 'Hands down,' and then when he digs down into his pocket we must be able to give him value received. A man doesn't mind spending money if he has it and gets value received. If we had paved streets and the attendant cleanliness of the city, fine country roads and a hotel that was a pretentious one we could give value received.

"What has made California? Solely the climate and modern conveniences. And when we add modern conveniences to the climate here the future of San Angelo will always be aglow with brightness. What has made San Antonio and what is today forging San Antonio to the front? The climate plus modern conveniences.

"Why can't we learn from the experience of others? That's the point exactly. We have not yet shed our swaddling clothes in growth. We have got to make it inviting here to the man of means to come among us, and to do this we have got to have all the aids to comfort. Catch the point? This means paved streets, a clean city, fine roads and a good hotel."

John A. Netting, a lawyer from Cleveland, Ohio, who has been here on business for a few days, left for his home Wednesday, but will return in about thirty days.

I. P. Ruhman, after being here on business, returned Wednesday to his home at Ballinger.

CHAPTER IV.

"In the Bosom of Wild Nature."

THE Chateau du Glandier is one of the oldest chateaux in the Ile de France, where so many building remains of the feudal period are still standing. Built originally in the heart of the forest in the reign of Philip le Bel, it now could be seen a few hundred yards from the road leading from the village of Sainte-Genevieve to Monthery. A mass of inharmonious structures, it is dominated by a donjon.

It was in this place, seemingly belonging entirely to the past, that Professor Stangerson and his daughter installed themselves to lay the foundations for the science of the future. When M. Stangerson bought the estate, fifteen years before the tragedy with which we are engaged occurred, the Chateau du Glandier had for a long time been unoccupied. Another old chateau in the neighborhood, built in the fourteenth century by Jean de Belmont, was also abandoned, so that that part of the country was very little inhabited. Some small houses on the side of the road leading to Corbeil, an inn, called the Auberge du Donjon, which offered passing hospitality to wagoners—these were about all to represent civilization in this out of the way part of the country, but a few leagues from the capital.

But this deserted condition of the place had been the determining reason for the choice made by M. Stangerson and his daughter. M. Stangerson was already celebrated. He had returned from America, where his works had made a great stir. The book which he had published at Philadelphia, on the "Association of Matter by Electric Action," had aroused opposition throughout the whole scientific world. M. Stangerson was a Frenchman, but of American origin. Important matters relating to a legacy had kept him for several years in the United States, where he had continued the work begun by him in France, whether he had returned in possession of a large fortune.

Mlle. Stangerson was at the time when her father returned from America and bought the Glandier estate twenty years of age. She was exceedingly pretty, having at once the Parisian grace of her mother, who had died in giving her birth, and all the splendor, all the riches of the young American blood of her parental grandfather, William Stangerson. A citizen of Philadelphia, William Stangerson had been obliged to become naturalized in obedience to family exigencies at the time of his marriage with a French lady.

Twenty years of age, a charming blond, with blue eyes, milk white complexion and radiant with divine health, Mathilde Stangerson was one of the most beautiful marriageable girls in either the old or the new world. It was her father's duty, in spite of the inevitable pain which a separation from her would cause him, to think of her marriage, and he was fully prepared.

(To be continued.)

Miss Gerlie Love, who has been visiting Miss Truman Lovelace, left for her home in Belton Wednesday.

Miss Maude Exlie has gone to Fort Worth, where she will make her home in the future.

Miss Marie Gibson of Morgan went to her home Wednesday after staying here a few days with friends.

W. E. Draughton left Wednesday for Brady.

I. B. Hulsey of Lampasas, who has been here on business, returned to his home Wednesday.

Mrs. E. J. Trueblood of Fort Worth, who has been here for her health, returned home Wednesday.

E. P. Nevans has returned to Ballinger, his home.

COSTLY.
Home of Edgar S. Hamilton in Park Heights to Cost \$23,000.
W. E. Nelson has let the contract for the Edgar S. Hamilton mansion in Park Heights to Moon & Myer, their bid for the job being \$23,000.
This will be one of the most beautiful examples of the mission style of architecture ever seen in West Texas. Every modern convenience will be supplied and the grounds will be terraced.

MALARIAL DISEASES.

How to Avoid Them and the Serious Consequences of Neglect.

"Fix me up something to knock the malaria, doctor," remarked a sallow-faced, sickly looking man, entering a prominent physician's office the other day.

The doctor stepped to his medicine case, took down a couple of bottles, mixed a preparation which he handed to the patient with the customary advice to "shake well and follow directions," and resumed his seat.

"Such cases are frequent," replied the doctor in answer to a question. "The warm days and damp, chilly nights are certain malaria breeders and are most serious in those who have neglected to keep their stomach, liver and bowels in good condition. Such persons are full of the impurities on which the malarial germ thrives, and it is from this class that typhoid fever, pneumonia, Bright's Disease, small pox and yellow fever claim most of their victims whenever these diseases are prevalent.

The proper way to guard against the malarial germ and the serious diseases which follow it is to get into good condition by taking a reliable remedy that will keep the bowels clear and the liver healthy, and to continue with it at frequent intervals during the sickly season.

A dose of Prickly Ash Bitters three or four times a week will do all of this, besides stimulating the digestion, improving the appetite and keeping the bodily energy at the highest pitch.

Prickly Ash Bitters is known everywhere as a system tonic and bowel regulator. It not only removes all traces of malarial poison from the system, but tones up the vital organs, gives new strength and vigor, makes the body strong and the brain active.

"Prickly Ash Bitters is the best all-around medicine for the family I ever used. During the past ten years I have always kept it in my house. Whenever any of my family show signs of malarial, kidney trouble, indigestion or constipation a few doses is all that is needed to make them well and hearty again.—W. H. McWILLIAMS, Pickering, La.

Sold by druggists. Price \$1.00.

JUDGE LOVETT PAYS TRIBUTE TO HARRIMAN

New York, Sept. 15.—Judge Lovett, in paying tribute to the late E. H. Harriman, is quoted as follows:

"Col. Harriman was the greatest man of this generation. The whole world recognized him as a genius and acclaimed his great achievements.

"We, his associates, know where never was a man of kinder heart and a more sympathetic nature, a truer friend, or a man more loyal to his business associates and fellow workers."

COTTON MAKES BIG ADVANCES

PRICES BOOSTED UP FIFTEEN POINTS ABOVE TUESDAY.

Makes Offers On Blocks of From 5,000 to 10,000 Bales, and is an Important Factor.

New York, Sept. 15.—The cotton market opened active, and the firmer advancing tendency continued until prices had reached fifteen points above last night. Commission houses were free buyers.

An important factor in the advance was a New Orleans house which was bidding freely for blocks of from 5,000 to 10,000 bales.

This advance was accompanied by a report of decreased offerings in the South. The foreign demand was better, the New England mills buying freely.

Spots, 12.50; Liverpool, 8.81.

New York, Sept. 15.—Strength, at times approximating buoyancy, and a marked increase in interest, characterized the stock market today. The market reflected with satisfaction the remarks of President Taft with reference to the monetary reform.

Stocks continued active during the afternoon, closing strong around the best price of the day. Call 2 and 2 per cent.

DIAMOND FOB FOR WILL DAY

With courtesy grace and grave demeanor, Claude R. Jones presented to Will Day, at a dance given in his honor at the Elks hall Wednesday evening, a beautiful diamond studded Elks fob. In a few well chosen words Mr. Jones told of the noble work for the local lodge that Mr. Day had accomplished as secretary, and of how much he would be missed when he bled himself to Jacksonville to enter the drug business. Mr. Day responded with feeling and amid great applause the token of appreciation was passed.

A large crowd of the society set of the city was in attendance and danced blithely to the melodious strains of the dreamy waltz and catchy two-step as rendered by Springer's orchestra.

BONUS RAISERS MAKE PROGRESS

Working faithfully and diligently are the twenty-three railroad committees soliciting subscriptions on the Morgan Jones proposition. Their success is not flattering, but they are still gathering in some money. Another meeting will be held Thursday afternoon at the San Angelo Club to see what has been done and to formulate future plans. Fairly good progress was made Wednesday.

ROADS.

Tom Savell Says Going is Rough Between San Angelo and Sterling.

"While talking about improving the roads," observed Tom Savell, the automobile stage line man, "I would like to remark that the road between San Angelo and Sterling City, particularly that portion of it between Water Valley and Sterling City, is no Appian Way by a jug full. In fact, it is about as rough as they are made, in a natural way, of course.

"In view of the fact that the railroad movements of the last few months have augmented travel between the two cities to a remarkable extent, I would recommend that the road be worked over and arranged so that traveling will be made easier."

COMING.

Cleveland Attorney Will Make San Angelo His Home.

John A. Niedling, one of the big lawyers of Cleveland, Ohio, who has been in the city on a prospecting trip, returned to his home Wednesday.

"But I'm coming back and I'm coming back to stay," he declared. "This is the greatest country in the world, not even barring a little burg named Cleveland where I first saw the light of day.

"There is a good bunch of lawyers here, but I believe there is always room for one more, so I'll just try it one."

New Realty Company.

With a capital stock of \$39,000 the Park Heights Realty Company was formed in San Angelo Wednesday. The new company has taken charge of 320 acres, the Lakeview addition, involving over \$40,000.

E. E. Garnett, of Brownwood, was elected president; C. T. Paul, vice-president; E. E. Bailey, secretary and treasurer. The directors are E. E. Garnett, J. B. Garnett, J. S. Smith, Aurillo, E. E. Bailey and C. T. Paul. E. H. Labadie and J. Blackwell are among the stockholders.

Mrs. Kitchens Dead.

Mrs. J. A. Kitchens, of Menardville, died Wednesday night at Sonora. The body will be taken to Menardville, and services will be held Friday afternoon. Mrs. Kitchens had been in poor health for a long time.

Butter Nut Bread, City Bakery.

Roth Oysters

Strictly Fresh

City Fish and Oyster Market Handles Only Good Bivalves.

No Preservatives Used

Proprietor Offers Reward of \$25 to Any One Finding Such Preparation in Sealship Products.

"I will give \$25 to any one who can show that preservatives of any kind are used in Sealship oysters, the kind that I handle," declares John Roth, of the City Fish and Oyster Market. "That's the kind I sell. That's the only kind I sell. Sealship oysters come straight from the oyster beds under air tight seal to me here. Our contracts cover the time from the growing time, through the shucking and shipping and I know exactly what I am receiving. During every mile of the journey here the oysters I receive are in patented air tight Sealships. The seal is put on at the seashore. It is not broken until it reaches here.

"I make this statement because it has been published that a young man here was recently poisoned from eating oysters. He could not have been poisoned from eating my Sealship oysters, for the reason Sealship oysters are nothing but oysters, free from all kinds of preservatives and with the nice oyster taste that good oysters, and only good oysters, have."

SIGHTS.

F. E. Allen and Family Return From Trip Through California.

F. E. Allen and family returned to San Angelo Thursday, after taking in all the sights of California and other points in the great Northwest.

"We visited at Long Beach, Los Angeles, Pasadena, Santa Barbara, Santa Cruz, San Francisco and Santa Rosa—all coast towns of California," said Mr. Allen. "We also took a little jaunt up to Sacramento, Grant's Peak, Oregon, Salt Lake City and Pueblo. Great country that, great fishing and hunting and we had a fine time. We didn't visit the Yukon-Alaska Exposition—didn't feel like mixing in the hurly burly and excitement."

"I hear that Deacon Sharp is back from his travels and Col. Ed Crosson is on the way, so I guess we will get the whole bunch of summer trotters together up at the club once more, with all kinds of tales of wonderful experiences.

"We traveled over a good portion of Texas, and find that San Angelo is ahead of anything in the state when it comes to cross this year. The country around Fort Worth and Dallas, especially, is burnt up."

NOW FROM THE NORTH A CHILL WIND BLOWS

At an early hour Wednesday morning "the wind blew chill" from the regions in which Peary and Cook claim to have found no trace of each other. It is safe to say that if either of the eminent explorers had found themselves in San Angelo when the norther blew up and did not have a quilt ready to protect their systems, they would most certainly have begun to wonder if they hadn't made some slight miscalculation as to the exact zone in which the Pole hung out.

And the norther is still blowing and things are getting right chilly in the land where the waters of the Concho bifurcate. Straw hats are being tossed aside and coats are rapidly coming into fashion. If the norther continues it is probable that the acquisition of an overcoat will have a salutary effect in regard to the disposition of those who dare to brave the Polar blasts that bless good old Tom Green.

Those who are going on the Trades Excursion are requested to meet Friday afternoon at 3 o'clock in the office of Mayor Paul, when the last finishing touches will be put on the details of the trip.

All who desire to go who have not yet signed up are requested to at once report their wishes.

Earl Hennesdorf wants to see you at Cos-Hart's.

Get Busy.

"What in the dickens is the matter with the progressive citizens of good old San Angelo?" asked J. C. Landon Wednesday. "They seem to be positively ready to let Morgan Jones go right by with his railroad, chopping into our territory and putting a flash to a great portion of our trade. Ugh, it makes me tired.

"Where, may I ask, is that class of the old guard that always came forward so nobly when any project for the city's benefit was broached and gave even of their sustenance to bring a railroad to San Angelo? Where are the men who gladly put up \$200,000 to bring the Orient railroad to San Angelo? Time was when a railroad promoter could come to San Angelo and be given the fat of the land and get a bonus before breakfast. Now he is dined on chile con carne. By the eternal, I think the old guard must have picked up and moved away.

"What is wanted, what is needed, is for the people of San Angelo to wake up to the exigencies of the situation and realize that the chance for material improvement is ahead of them in the shape of the portly form of Morgan Jones. Is it a time to put your hand down in your pocket—and keep it there? No, by the living jingo, bring her up overflowing with greenbacks, do it in unison and tell Breer Jones to bring along his road—that we have built Oriens.

"Most of the men from whom we were expecting thousands gave hundreds, the majority a round century alone. No that's not the way, boys. Get alive; we need this road, fact is, we can't afford to lose it, so what's the use of closing up so tight?"

"No, I can't believe this of the people of San Angelo, people who have achieved deeds of civic valor that the world wonders at today; they are simply in a lethargy and they will awake anon and pull together that lotus so quick that Morgan Jones will kick himself once or twice for not asking double the amount. Rally round the banner, boys, the same old banner that the citizens of San Angelo have fought under since the days of the city's infancy, upon whose broad folds is inscribed in letters of gold their motto: "Bigger, Better, More Beautiful."

A WORKSHOP
WE ARE PROUD OF

Repairing watches and jewelry to the entire satisfaction of our patrons is the one thing we are proud of. Watches and clocks are repaired—not simply to run, but to keep good time.

Diamonds to be reset or valuable articles to be repaired are in safe hands, while the smallest jobs are handled with a view of retaining your good will and patronage for the store.

We will not do the unnecessary nor charge for what we do not do.

The Tiffany of San Angelo

INDICATIONS FOR COAL IS GOOD IN TOM GREEN

With the statement that it is almost certain that an immense vein of coal lies under the soil of Tom Green county, J. E. Castinger, mining promoter, declared Tuesday that though at present he is not making any definite investigation of the matter, in all probability at no far distant date he would interest himself in such a move.

"Every indication points to such a conclusion," he asserted with much vigor, "many geologists have given this country a passing look-over and all of them declare that prospects for coal were never brighter in any district.

"One may ask why, with these possibilities, the industry has never been developed. Well, that is explained very simply. No competent parties have ever made a decided movement in that direction but when they do—well, there is going to be something done in quite a new line from anything ever fanned in the Concho country.

"And gas, well, there have been enough discoveries made in that line to warrant a thorough investigation of the gas resources of this country. No more brilliant prospects for natural gas are to be found anywhere.

"Since my recent investigation of the probable oil resources of the country south of Brownwood, in which, by the way, I have achieved very promising success so far, I have been the object of many importunities to look over the oil prospects of Tom Green county. At present I am contemplating no such move, but in the future I may possibly interest myself in the matter. I will say that it is extremely probable that oil may be located in paying quantities in this country. Some slight indications have been discovered to date, but nothing so definite as to cause me to pass up other prospects to look into it immediately.

"I have every promise of discovering oil in paying quantities in my Brownwood wells. In fact, it has already been discovered in some degree south of the city about forty miles."

ANNOUNCEMENT PARTY.

When October Breezes Blow, Miss Millspaugh and L. F. Boulware Will Be Wedded.

And the cut is out of the bag at last! Mrs. Will Grinnell gave an announcement party in honor of Miss Sadie Millspaugh and Mr. Lem F. Boulware, Wednesday afternoon, who will be married in October. A large crowd of friends of both parties was in attendance and toasts to their long life and continued happiness were drunk.

"Mother's Bread, the best ever. City Bakery."

J. T. Davis, a ranchman of Sterling, was here Tuesday on business.

Everet Yates, formerly of San Angelo, but now a jeweler of Lampasas, is in the city on a visit to his mother-in-law, Mrs. W. C. Harris.

For cakes and pies, see City Bakery.

Bridge Work.

Nearer each day is the Orient. Two thousand feet were laid Wednesday on this end, leaving a little over four miles yet to be built. The main work

now being done is on bridges. Several small bridges are to be finished. Work can be hurriedly completed. Theme Tablets at City Drug Store.

What Will You Do With Those Few Spare Dollars This Month

Invest Them to Good Advantage or Spend Them?

Why spend every dollar you make now, and receive no permanent or real beneficial returns—when by taking advantage of this exceptional opportunity, you can reap untold profit in the days to come?

It only takes a few dollars to make the first payment—the balance payable in easy, monthly installments. A small per cent of your earnings invested now in COLONIAL HEIGHTS means a sure and big profit to you in a short time.

The majority of the world's substantial wealth was built up from a firm foundation—and the firm foundation of the majority of these fortunes was REAL ESTATE—the KEYSTONE TO WEALTH.

COLONIAL HEIGHTS is being beautified this week. The streets are being grubbed and grading is being finished. The entire addition is well drained; has fertile soil, and good water, obtainable at a moderate depth; is in easy walking distance of the Santa Fe depot, and in the highest and prettiest part of San Angelo.

COLONIAL HEIGHTS offers you the best and most for your money. Do not delay—act now, and you will never regret your investment in this addition.

I will be glad to show you the property at any time you may designate. It will pay you, and cost you nothing, to investigate COLONIAL HEIGHTS, "the place for the homes of people of good judgment and best taste."
