HICO, TEXAS, FRIDAY, JUNE 14, 1946.

NUMBER 4.

So far as the News Review has learned, the American Endowment Fund drive locally has not generated much enthusiasm.

Brad Corrigan, county chairman for the drive, has put in lots of effort to put the drive over.

Hamilton County's quota in the campaign is only \$529.00.

"When you and I go into an American hotel and by the grace of providence obtain a room, the desk clerk shoves over to us a pen and a card requiring our signature and home address.

"In most of the countries of the world, even before this last war, it was necessary to set down your nationality, the number on your passport and the date it was issued, your profession and the reason why you were there (if you were a tourist you had to have a tourist visa; if employed, a stamped "permission" from the appropriate government bureau) and in some cases an exact accounting of the francs, marks, dinars, gulden, pounds or dollars you happened to have in your wallet.

"Invariably, when I wrote 'U. S. A.' in the space specifying nationality, I got a reaction from the proprietor or clerk or whoever it was who took my card.

"The reactions were, as I have said, various. But at least they were positive - whether hostile, cordial or curious, they gave that 'U. S. A.' I had written in their questionnaires more attention than if I had listed myself from Tibet, Abyssinia or Iceland.

"Many of my fellow Americans were at that time fearfully and frantically pursuing the head-in-the-sand tactic of the ostrich in proclaiming that isolation - the ignoring of what was happening in the world which buys our manufactures and produce - would keep us out of a second world war.

"The Germans and Italians hoped we would dilly-dally until our aid would be too late to be effective. The others, understandably, felt bitterly at our hanging back. All of them questioned me about a matter which has them completely perplexed - did we have a national ideology?

"I had never given much thought to it before, but they made me self-conscious of being an American. They made me feel the necessity of being able to say why - knowing all the faults and weaknesses of a national system which had surmounted those faults and weaknesses - I should subscribe to a national credo.

"I found that there was one. It was an 'ism', but it was older by a century and more than the 'isms' which had brought Europe to ruin.

"It was, simply, Americanism. I tried to put that inherited creed into words - words for myself, not for others. I read, I thought. I read the writing of contemporaries who have thought deeply and consulted their consciences with every tap at their typewriters.

"In the preamble to the Declaration of Independence and in the Bill of Rights of our Constitution I found an answer.

"Americanism, I discovered (or rather, re-discovered, for like most of us, I had got my schooling in American History served as a gigantic sandwich in which the good meat was rendered tasteless by the requirement to memorize dates and Robert's Rules of Order) was merely the code of living I had learned at home - painlessly.

"It was a code of self-reliance, obedience to laws freely voted, and an implied responsibility for my fellow men. That that could be made the test of all Americans - a living testament, exemplified day by day - that 150 million human inhabitants of the world had peace - no war - is the only sane answer to our existence."

Brockschmidt Is New Industrial Engineer For Lone Star Gas Co.

Appointment of R. F. Brockschmidt as chief industrial engineer for Lone Star Gas Company's Corsicana division of distribution, which includes Hico, has been announced by Frank V. Williams, division superintendent.

Mr. Brockschmidt, Mr. St. John and Mr. Thompson will have headquarters in the State National Bank Building, Corsicana. Their territory will include 94 towns comprising the following districts in the Corsicana Division: Athens, Cleburne, Ennis, Corsicana, Garland, Hillsboro, Mexia, Terrell, Waxahachie and Urbandale.

Mr. Brockschmidt, a native of Dallas, joined Lone Star in 1923 after receiving a degree in chemical engineering at Texas Agricultural and Mechanical College.

He served as industrial engineer for Lone Star at Bryan, Waco and Abilene until 1942 when he entered the United States Army as a second lieutenant in the chemical warfare branch.

He was assigned to Lone Star's Dallas office until his Corsicana division appointment, effective June 1.

W. D. (Doxie) Tate For Superintendent Of Erath Co. Schools

To My Friends and Citizens of Erath County:

I would like to become your next County Superintendent. I was born and reared in Erath County, having spent my life in school, seventeen years of which has been spent as principal and superintendent of the rural public schools.

I have my Bachelor's Degree and college work equivalent to a Master's Degree. I think I know the school law and the needs of our public schools. I promise, if elected, to handle the office according to the school laws of the state, showing fairness to all persons and all communities.

Between now and the primary I will endeavor to see each of you. At this time, however, may I solicit your vote and influence and thank you very much for your earnest consideration.

Respectfully yours, W. D. (DOXIE) TATE.

SEARS CAFE AND TEXACO STATION ADDS NEW LINES

An advertisement in this issue of the paper calls attention to the addition of ice cream to the regular offering of short orders, sandwiches, bottled drinks and coffee at the Sears Cafe.

Increase In Milk Prices Authorized In Several Counties

All price control boards in the Fort Worth district have received a memorandum from R. H. Owens, district price executive, regarding increased prices for fluid milk, buttermilk, chocolate milk, cottage cheese and fluid cream.

In 42 counties of the Fort Worth district, producer's price was increased by 20 cents per hundredweight. The wholesale and retail prices are increased one-half cent per quart in these counties, none of which included Hamilton, Bosque or Erath.

In all other counties in the Fort Worth district, producer's price was increased 40 cents per hundredweight, and wholesale and retail price one cent per quart. Buttermilk, cottage cheese and chocolate milk took an increase of one-half cent per quart, pound and quart, respectively.

H. Marion McIlroy Makes Statement In Erath County Race

To all my friends throughout Erath County: I am asking you to elect me as your District Clerk. I think that every one of you who know that I am capable of handling this work, I will appreciate your vote and influence, and I shall not betray your confidence.

My father came to Texas in an early day, and settled near Tolar, Hood County. We bought our farm on credit and paid for it with 4 and 5 cent cotton.

Now that the cotton business has failed, I am asking my friends and acquaintances for the District Clerk's office. Since I am having to work the six days each week I will not be able to see everyone of you in person, but I do appreciate any help you can give me. I need this work and I shall thank you always.

Respectfully, H. MARION McILROY.

MALONE'S CAFE NOW READY FOR BUSINESS

Mr. and Mrs. W. L. Malone have authorized publication of an advertisement in this issue giving notice that they are now ready for business at their new cafe in the building west of the post office.

J. O. Garrett for County Judge of Erath County

I am J. O. Garrett, to my friends, Professor Garrett, a native Texan, fifty-five years old. I have lived in Erath County 25 years. I taught for twenty-five years. I taught 19 years, as Modern Language Teacher, in Tarleton College. The last six years I have been ranching.

I belong to pioneer stock. My father's oldest brother, James Gerard Garrett, died in the Alamo. My maternal name is Sheppard; my mother is a cousin to our late honorable Morris Sheppard.

As a child I lived an orphan. As a youth I worked at the most humble tasks to pay my way in school. I hold B. A. and M. A. degrees with much graduate work added. I have advanced training in several cardinal fields, as Government, Sociology, Economics, Languages and History.

I understand and appreciate the work of the soil conservation forces, the home demonstration agent, the county agent, the school superintendent and the county commissioner. I know the value of money; the danger of overspending and debts; I challenge the most careful investigation of my character and of my standing, financial, moral, educational.

Take your notebook and pencil and go to the American Legion, the Red Cross, Court House, banks, stores, churches, and ask any person about me. Write down what is said and make your vote accordingly. Pay attention to what is known and said and not to passing hearsay.

I know the needs and toll of the rural population as well as the urban dweller. I love people, aged, tired men, hungry, and timid girls; I can be patient and kind in helping someone to find the way out.

As your judge and as chairman of your commissioners' court, I promise that we shall handle the county's money safely and judiciously. I shall accept and respect the voice of a commissioner as the voice of the people of his precinct. I believe that we shall find means to improve bridges and put gravel on lateral roads.

Because of the conditions of lateral roads two years ago, I accepted the challenge of my friends in all parts of the county and asked to be your judge at that time. More than two thousand of you voted for me which was not far from the number needed to elect. You have asked me to make the race again. Your vote and good words to your neighbors will bring victory to us this year.

We shall not advance my candidacy by small politics nor by off-color methods. Ours is a blood-bought democracy and as freemen we shall act as true men and as statesmen.

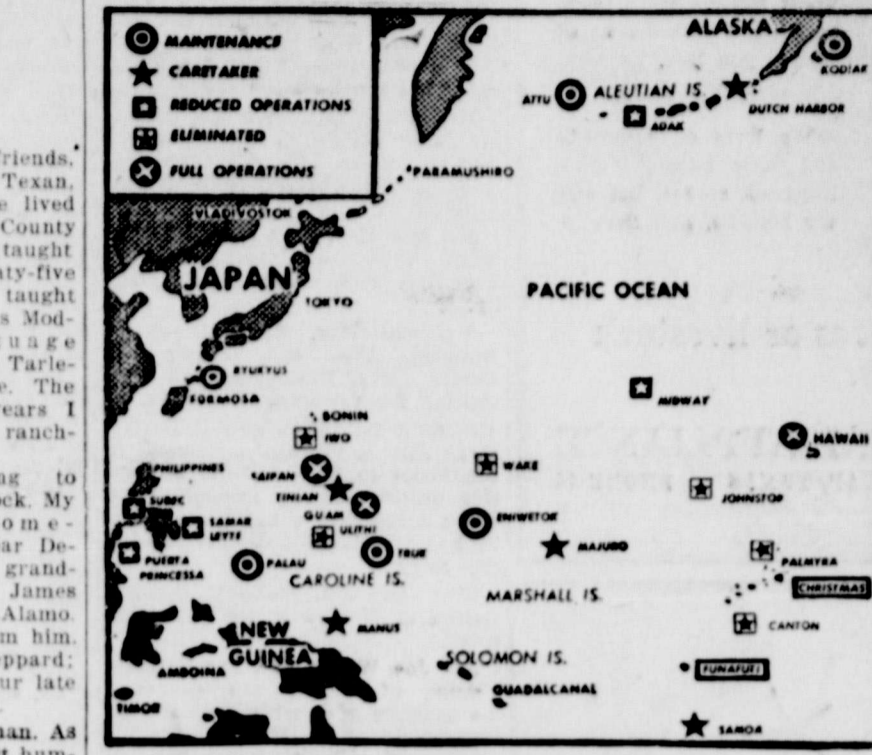

Now to all my good friends and to every citizen of our good county; help me all you can. I owe my ranch, my stock farm, my shantyland to the good opportunities Erath County and Tarleton College gave to me. This is my home, I belong to you. I can and I wish to pay back to you by being your servant in the office of your judge. I shall be fair, and I shall listen to your best counsel with patience. Together as friends and brothers we shall meet the challenge that our restless veterans and our awakened citizens have placed in our hands. Thanks a million for every friendly kindness you may show me.

Respectfully, J. O. GARRETT, Candidate for County Judge, Erath County.

ON HONOR ROLL AT J.T.A.C.

The honor roll for the spring semester at John Tarleton Agricultural College included the name of William Carroll Akin among the 100 students listed.

Twenty-three students made the distinguished honor roll which requires a grade of 90 or above and a minimum load of 15 hours.

Old Drugs Can Be Poison, Says State Health Officer

AUSTIN, June 10, 1946.—There are many persons who naturally hoard anything and everything including old clothes, boxes and other useless articles, some of which constitute no greater danger than a possible fire hazard, but a very real danger is present when this tendency is applied to hoarding old medicine in any form.

Most medicine finds its way into the home through a doctor's prescribing it for some illness. For the sake of safety, left-over medicines should be destroyed immediately when they have fulfilled their purpose and never be stored in the medicine cabinet for some future unprescribed use in case of another illness, according to Dr. Geo. W. Cox, State Health Officer.

"Self-medication with the use of left-over drugs which were of great benefit to some previous illness can sometimes turn a simple ailment into a very serious case of actual poisoning," Dr. Cox said. "This is particularly true of the indiscriminate use of sulfa drugs which have been prescribed for some previous specific condition."

"It is wise to use medicines as indicated for the illness for which they are prescribed by your doctor and when they are no longer needed, destroy the remaining medicine immediately," Dr. Cox said. "Even if you expect a return of the same condition at a future date, it would be better to obtain new medicine if the condition recurs than to retain this old medicine in the cabinet and subject the members of your family to the danger of using it unwisely."

Vacation Workers Must Obtain Cards For Social Security

WACO, June 11, 1946.—"Vacation time for school children is here, and no doubt many of them contemplate working during the summer months," said Glenn T. Dunn, office manager of the Social Security Board field office today in calling attention to the fact that each worker in covered employment must obtain a social security account card before entering upon a job.

"Not only is it important that the worker secure a card," Mr. Dunn continued, "but he must give his employer the number on the card in order to make certain that the worker gets credit for all wages received while employed."

Mr. Dunn emphasized another important matter in this connection when he pointed out that each worker should hold on to his card. "Too many people are losing them and it is costing the government considerable sums in money to replace them with duplicates which increases the cost of administration."

It was also pointed out in the statement that unless the person has a job or one in sight there is no need for getting a social security card. It is good only for keeping the records of the worker and to insure that he will receive all benefits due him when the time comes for him to file an application for same under the old age and survivor's insurance program.

BRYAN BRADBURY TO SPEAK HERE SATURDAY. Bryan Bradbury of Abilene, candidate for Congress from the 15th District, has announced through a display advertisement in this paper that he will speak on the streets of Hico Saturday afternoon, June 15, at 3 p. m.

Plenty Fun and Eats Promised Visitors At Cowboy Reunion

STAMFORD, June 11.—Those attending the 16th annual show of the Texas Cowboy Reunion to be held in Stamford on July 2, 3, and 4, are assured of witnessing the finest rodeo performance, and of having lots of fun and plenty to eat.

One of the most unique features of the Texas Cowboy Reunion is the Chuck Wagon Camp. After the spring round-up and branding are finished, bosses and cowboys load up the old chuck wagon and head for Stamford and the Texas Cowboy Reunion as a sort of vacation. There the ranch hands set up camp on a special reservation provided for that purpose. They eat at the chuck wagon, compete in the cowboy rodeo and take in the other attractions of the annual celebration.

R. G. Bowdry, Chairman of visiting Chuck Wagons, announced this week that all ranches are invited to bring their wagons. All provisions, including groceries and meats, are furnished, without charge, to all wagons after they reach the reunion grounds, provided that they have notified the chairman of their intention to attend. Visitors have the privilege of buying meals at these ranch chuck wagons and of visiting and mingling in the chuck wagon camp.

Dancing will be another feature during the three nights of the reunion. Two dances will be held on each of the nights. The Old Timers dancing the square and other folk dances will hold forth in the Round-up Building of the Texas Cowboy Reunion Association with an outstanding string band furnishing the music.

Directors of the Texas Cowboy Reunion are expecting a record breaking attendance during the rodeo this year, where visitors will witness the world's largest round-up of pioneer cowboys, as well as cowboys regularly employed on ranches today.

War Heroes Will Talk Over Radio For Price Daniel

An old-fashioned political rally with placards heralding the counties represented will be staged by friends of Price Daniel in the City Music Hall at Houston, Texas, next Monday night, June 17, to officially open his statewide campaign for Attorney General. Heroes of World War II will be among the speakers on the half-hour program which will be broadcast over all stations of the Texas Quality Network from 8:30 to 9:00 p. m.

Supporters from nearly 200 counties have already indicated their intention of attending the Rally in behalf of Price Daniel's candidacy. The first fifteen minutes will be taken up by key speakers from various parts of the state, including GI veterans whose exploits have been recorded in the pages of Army and Navy history. The last fifteen minutes will be used by Price Daniel in presenting for the first time to a state-wide audience the principal issues of his campaign for Attorney General.

Whitney Dam To Make Asset of Brazos River

The Whitney dam, designed to hold back for 48 hours the biggest flood the Brazos river has ever experienced, will turn that river into an asset instead of a liability.

Phil Teeling of the Waco Chamber of Commerce, told members of the Waco Exchange club recently. The army is understood to be working together with the national parks board, which will administer a large recreation center at the dam, he said.

Teeling cited for the Exchangeites a number of facts and figures relating to the dam: the lake area will cover more than two million acres, about half the size of Buchanan dam; 1,635,000 acres will be set aside for flood control purposes, and 109,000 acres for power; the dam will be 155 feet high and will be constructed of concrete in the river channel and of earthen fill for the balance of its three-mile length; the spillway will be 650 feet long and will contain 17 gates, each measuring 75 by 40 feet; a 34-foot road will be built on top of the dam, which will actually be a relocation of highway 22; while the lake is expected to be about 50 miles long when it is full, it actually will be only one-third that long in normal times, for it is being designed to be able to hold back for 48 hours the largest flood on record; a flood of average proportions may be held back for four days, according to present plans. These figures show how the dam is planned today, but some of them probably will be changed before construction actually gets under way, Teeling pointed out.

Most medicine finds its way into the home through a doctor's prescribing it for some illness. For the sake of safety, left-over medicines should be destroyed immediately when they have fulfilled their purpose and never be stored in the medicine cabinet for some future unprescribed use in case of another illness, according to Dr. Geo. Even though factory production is running about even with 1941 output, there are not enough gas refrigerators to satisfy the big demand all at once. This is why people who are placing orders now may have to wait for months. So it isn't too early to think of the most desirable Christmas gift for wife. Its silent operation without troublesome moving parts is causing many to say, "My next will be a Servel gas refrigerator. It's worth waiting for."

DOWN GO ELECTRIC RATES AGAIN

CHEAP ELECTRICITY IS NOW CHEAPER THAN EVER!

Another Reduction in Your Local Electric Rates Is Effective with This Month's Bills

● In line with our policy of lowering rates whenever justified by increased consumption, we are pleased to announce another reduction in residential and commercial electric rates, effective with this month's bills.

This reduction, which comes at a time when prices of other commodities are still going up and are far above pre-war levels, is part of a general reduction being made by this company throughout this area and brings the cost of electricity here to a new all-time low.

As a result of a series of reductions made during the last 15 years, the average customer of this company receives about THREE TIMES as much electricity for his money today as in 1930. Electricity for lighting and appliances costs little more today than electricity for lighting alone in 1930.

Right now, the electrical age is just beginning. New and improved appliances are bringing new thrills and new comforts and conveniences for the home and family. These new low rates make it possible for you to enjoy them all at amazingly low cost. Take advantage of your savings to buy more cheaper electricity . . . and gain the maximum benefits for yourself and your family from today's all-time low prices for electric service.

"I know I was foolish to trust a stranger the way I did. But he was so honest and friendly-

looking! I never suspected that all he was after was the 'down payment' for himself—that he never intended to deliver the goods at all! No wonder he priced them so cheap.

"Lucky for me I gave him a check instead of cash as he wanted me to. So when I discovered the deception, I phoned the bank and stopped payment on the check.

"That makes another good turn that my checking account has done for me."

MODERNIZE THE OIL FILTERING SYSTEM ON YOUR OLD TRACTOR

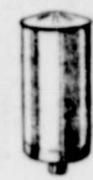

BY REPLACING THESE... WITH THIS

CLOTH STRAINER

Must be cleaned daily... a messy job! is easily damaged.

METAL STRAINER

Durable... but tends to clog. Requires cleaning daily.

STAR-SHAPED CELLULOSE ELEMENT

Has high filtering efficiency... but should be replaced by the new, improved "umbrella" type.

Keeps Engine Oil Clean Twice as Long

Protect your tractor engine with the new International Harvester "umbrella" type filter element. It lasts twice as long as the familiar old-style cloth or metal strainers which had to be cleaned daily and is more efficient than the star-shaped cellulose element. Even under adverse operating conditions the "umbrella" element affords full protection for 120 hours of use (100 hours for Diesel engines).

This new element is made of special, creped cellulose, resin-impregnated and baked to form a plastic-like material that withstands hot oil without collapsing. It keeps oil free from harmful material and filters out particles so small they can be measured only in microns.

For maximum protection use the new "umbrella" element and change regularly at the recommended time interval. Take home a supply today.

DEFICIT SPENDING

The thing that surprised us in all this strike crisis up until a few days ago, is the fact that no member of so-called "management" ever threatened to strike.

Just the other day, though, we read of a taxi company that employed union men, that was forced to consider going on strike.

Deficit spending seems to have become the fashion in government circles, and is gradually being forced upon manufacturers.

'ADOPTING' EUROPEANS

A program for American families to "adopt" European families has been spreading rapidly during the last two months.

Under this plan, each American family is given the name of a European family which is known to be in real want.

Already a great deal of good will has been built up by this plan and many of the famine-stricken families have been saved from starvation.

This personalized plan, due to the correspondence it has created between well-off American families and famine-stricken European families, may do more to establish understanding and goodwill between ourselves and our neighbors overseas than could ever be done by government sponsored relief.

'LET THEM EAT CAKE'

Although most of us have all the food we want to eat — there still seems something frightening about the fact that a major bread shortage is looming up.

When there was a shortage of beef, we found it easy to shift to other kinds of meat. When the sugar shortage came, we got along all right by paying less attention to our sweet tooth.

But a bread shortage seems more important than the others because bread has played such an important role in history as the "staff of life."

But it may be, if the world food shortage continues very long, that we will actually be forced to carry out the order of the famous French queen who, when told that her people had no bread to eat, dismissed the problem by exclaiming, "Let them eat cake!"

A 3c stamp commemorating the 50th anniversary of Texas' admission to the United States, was sold for the first time anywhere in Hico Dec. 29, 1923.

THIS AND THAT

By JOE SMITH DYER

TALENT IS NOT ALL:

A recent chance meeting has rounded out an acquaintance with two sisters with whom some years ago I had a casual contact.

Her friends and her family were thrilled about her future as a fine singer and she certainly did have a pleasing voice.

The other girl was her accompanist and was looked upon by the singer as some sort of a necessary evil. She did not remember that her sister's performance at the piano was so done as to cover up her own weak spots of tone and volume which came because of her lack of persistence in practicing.

Today the vocalist is an unpleasingly plump, petulant wife of a very disillusioned husband. Her excuse is the cruel lack of appreciation of the ignorant public. She smothers her grief and her disappointment in excess sleeping and eating. By determined practice and perseverance, sandwiched in between business hours, and much saving and stinting, the former accompanist, having earned a modest reputation as a pianist in musical circles, is now in the east, studying for greater achievement.

This is a very simple little story, but it goes to prove that self-discipline can and often does develop an unassuming human into what the world calls a gifted individual.

JUST FOR FUN:

New York publishers have reduced the price of some popular novels by well-known writers from \$2.50 to \$1.00.

That leaves some of them still over-priced about 95c.

Teacher: Who is the smartest man in the world—living or dead? Pupil: Thomas Edison is the smartest man.

Teacher: Why? Pupil: Because he invented the phonograph and the radio so that people would sit up all night listening to them and use his electric light bulbs.

A Dover, Del., newspaper was ungentlemanly enough to state: "Woman shoots man who would not marry her five times."

"Who is really the boss in your home?" inquired the friend.

"Well, of course," Maggie assumes command of the children, the servants, the dog and cat, and the canary. But I can say pretty much what I please to the goldfish," replied the man.

It is not so much a change of location and surroundings that we sometimes need as it is a change of the way we think.

Six-Inch Sermon

REV. ROBERT H. HARPER

Learning About the Kingdom.

Lesson for June 16: Luke 9:23, 24, 46-48, 57-62; 11:14; 17:20, 21.

Memory Selection: Matthew 6:10.

Under the perfect teaching of Jesus the disciples were led to learn much about the kingdom. The lesson text includes four passages from Luke which teach things the disciples needed to know. And we ourselves should know them.

Consider denying oneself. This means more than giving up some luxury. It is the denial and the giving up of a man's right to do just as he pleases, and his full surrender to the will of Jesus.

Jesus called a little child to teach the disciples to be humble. For through the child Jesus showed that he who humbly serves the least of men "the same is great." And perseverance is demanded. He who puts his hand to the plow must not turn back. Choosing Jesus, a man must follow him, even though he must give up the dearest things of earth.

Disciples must learn how to pray. In public prayer some seem more conscious of men than of God. Remember that God is hearing you. He does not need to be informed at length about conditions. Be conscious, first, of God's presence, tell him simply of your needs, and commit your ways unto him. See how the Lord's Prayer includes all needs. Truly to pray this prayer fits a man for citizenship in the kingdom.

The kingdom is within you. Certainly its high principles must be in your hearts, that its rule may be worked out in all human conditions.

VETERANS QUESTION BOX

Ed. Note: This newspaper has arranged with the Washington Bureau of National Weekly Newspaper Service, 1616 Eye St. N. W., Washington 6, D. C., to answer questions pertaining to servicemen and veterans. These questions will be answered in this column if addressed as above. No replies can be made by mail, but this paper will print answers to all questions received.

Q. My husband was drafted into the army in August, 1945. He went overseas in January of this year. We have two children, ages 5 and 4. Could you give me some idea when he will be home? He is in Versailles, France, now. Also could you give me an idea as to whom I could get in touch with for a dependency discharge?—D. B., Berlin, N. H.

A. Your husband has little or no point score since he was inducted in August and point scores were figured up to September 2, 1945. Unless he is discharged for other reasons, it may be a year or more before he is discharged, although army has not fixed regulations beyond June 30, 1946. Applications for dependency discharge must be filed by the soldier with his commanding officer.

Q. Can you give me any indication as to what would be the monthly income of an enlisted man in the army if food, clothing, medical care and everything else he gets was included?—W. A. R., Yakima, Wash.

A. That is a hard question to answer, but the war department estimates that at present pay rates, the average for enlisted men of all grades, including allowances, cost of food, clothing, medical care, etc., is approximately \$158 per month.

Q. I have a son who went into the navy in May, 1944. The navy approved an allotment to me in January of 1946, said I would only get it from that date. Can you tell me why I should not get it from the time he went into the navy?—Mrs. G. L. M., Klamath Falls, Ore.

A. In all probability, your son did not ask for an allotment until shortly before that date, and January of 1946 was the date which the navy started deducting your allotment from your son's pay. Allotments to parents are not compulsory and are only made upon application of the serviceman, purely voluntary on his part.

THE KNOTHOLE

By ELLIOTT PINE, NWNS Sports Writer.

Another European boxing champion wants to try his luck in America. In no way dismayed by the defeat of Bruce Woodcock, British heavyweight champion who lost to Tami Mauriello in New York, the European middleweight champion, Anton Raadik, is in the country, looking for a fight. He has had 130 matches, winning 90 by knockouts. He has lost three bouts, but never been kayoed.

And speaking of European fighters, there's some wild talk that some promoters (unnamed) may bring over 39-year-old Primo Carnera for a bout with Buddy Baer. Both the big men stand around 6 feet, 6 inches and weigh over 250, ringside. Neither was a first class fighter in his best days... they would be a sorry spectacle now.

Soccer is the latest game to be organized in a professional circuit... the loop, called the North American league, includes five teams... two representing Chicago, and one each for Detroit, Pittsburgh and Toronto.

A new type blocking dummy will soon be on the market... it incorporates a pneumatic principle by which the blocking resistance can be either increased or reduced. The machine can be used for leg development, hand charging, shoulder charging, and the various types of blocks. Mal Stevens, coach of the Dodgers, Brooklyn pro football team, invented it.

Mel Ott, Giants' manager, has benched himself... his hitting has slumped to less than .050. "I can't see the ball," he explained. "And I'm not going to swing any more at something I can't see." His lifetime average up to the start of this season was .306, in 22 years of play.

A. The Veterans' administration says that the pension in this case would date from the day the application was received, since application was not made within one year after the man's death as required by law.

Honor Bride-Elect With Luncheon and Buffet Supper

Mrs. J. B. Pool and Misses Oran Jo and Jessie Miller Pool entertained at their home Monday, June 10, with a luncheon honoring Miss Mary Ella McCullough, bride-elect of Stanton S. Bundy, Jr.

Places were marked for the honoree, the hostesses, Misses H. E. McCullough, H. N. Wolfe, Carter Brockenbrough, S. E. Blair, Jr., and Webb McEver; and Misses Louise Blair, DeAlva Hammons, and Frances McCullough.

Honoring Miss Mary Ella McCullough, who will become the bride of Stanton S. Bundy, Jr., on June 15, Mrs. Webb McEver entertained Thursday evening, June 13, with a buffet supper at her home.

Guests were the honoree, Mr. and Mrs. H. E. McCullough, Mr. and Mrs. H. N. Wolfe, Mr. and Mrs. McEver, Misses Sidney Wieser, Carter Brockenbrough, and Conrad Stolzenbach; Misses Maxine Ratcliff and Frances McCullough.

Newlyweds Are Honored With Wedding Shower

Mr. and Mrs. Leo Moselli were honored by a wedding shower last Wednesday afternoon, in the home of Mrs. Jim Lovell, who was assisted by Mrs. J. W. Lovell. Mrs. Moselli was the former Ann Houston.

Many gifts were received from friends and relatives, who either attended the shower or sent the gifts.

Games were played, and then the gifts were opened by the bride. Later, refreshments were served and the shower came to a close with the attendants wishing the couple happiness and good luck on their trip to their future home in San Jose, California.

"Just keep the news going and the News Review on the road," says a note from Mrs. W. H. Harris in requesting a change in her address from Dublin Route 7 to Stephenville.

Mr. and Mrs. J. T. Appleby have returned from Dallas, where they visited in the home of their son, Keith Appleby, for several days.

was out, and want to start enjoying it again.
 Also you will find enclosed a short poem in memory of Marian, my wife, who passed away May 25.

In Memory of Little Marian

In the early morning hours, before the sun was bright,
 She closed her eyes to the things of earth in brightness of heaven's light,
 She slipped from the shadows in a month's time, from the path by mortals trod,
 To the Heavenly home in a better world, in the presence of God.
 Goodbye today, but not for long, we soon shall meet again
 In the wonderful land of shout and song, where there is no grief nor pain.
 May God help us to bear our loss, till we reach the end of earth's day,
 Till we join hands in a better world, in a home not far away.

Perry Como Won't Trim Barbershop In His Background

Perry Como is riding high these days. The famed baritone is topping the swooner popularity polls, his recordings have put him at the head of the platter parade, and he is currently starred in one of the year's outstanding film musicals, "Doll Face," the new 29th Century-Fox hit opening Sunday at the Hico Theatre.

But while he has reached the dizzying heights of success, and despite his publicity agents' pleas that it's time he "forgot" his barbershop background, Como continues to tell the autobiographical truth.

What's more, Perry, who used to give out free arias along with shaves and haircuts, has even worked in a few lines about his barbershop in a scene in "Doll Face."

In one scene with Vivian Blaine, Dennis O'Keefe and Carmen Miranda with whom he is co-starred, and Martha Stewart in which he offers to contribute their savings towards producing their own show. Director Lewis Seiler remarked they needed a line for Perry.

Como promptly came up with a suggestion that he say something to the effect that "I could raise a few hundred dollars on my barbershop, and I have some songs I could contribute to the show," and that O'Keefe could answer: "Okay, we'll sell your barbershop and listen to your songs."

Producer Bryan Fay, on the "Doll Face" set at the time promptly okayed the lines.

Mrs. Bernard Ogle is invited to be the guest of the manager for this show.

Fred Vanlandingham and family have moved to Fort Worth.

J. D. Todd has been discharged from the Air Corps and we are expecting him home from California this week.

H. E. A. is very busy building new lines through the last part of this district. The following are expecting electricity at an early date: S. M. Priest, Vernell Jernigan, Floyd Scales, Abe Little, Lem Weeks and several others.

Leslie Earl Anderson spent the week end in Fairfield. His wife's grandmother, who lives in Fairfield, is very ill.

Miss Marie Juan Deskins is spending the week with Mr. and Mrs. George Bowie and Reba.

Mrs. B. M. King has returned from Gladewater after spending a week with relatives.

Edd Phillips and Curly Burgans are having new tanks dug on their places by the commissioner.

John Arnold and wife, accompanied by their two charming daughters, Sherra and Emily, visited in the home of Claud Arnold Friday night.

Johnnie and Frankie McAnally of Brownwood spent the week end with their father, A. L. McAnally.

Betty Anne Collier of Bluffdale is spending the week with her grandparents, Mr. and Mrs. Elmer Steele.

Texas mines gave up 21,336 fine ounces of silver and 80,000 pounds of copper in 1945.

'Man Alive' Hilarious

Hilarious results ensue when a husband forgets his wife's birthday in the hilarious screen comedy, "Man Alive" starring Pat O'Brien, Adolphe Menjou and Ellen Drew, with Rudy Vallee featured. O'Brien is the forgetful husband and Miss Drew is the neglected wife. When Vallee arrives on the scene with an armful of red roses, Ellen makes such a fuss over him that O'Brien goes out to drown his troubles with the most astonishing results. Menjou tries to fix things up, but only succeeds in making it worse.

You can't put 5 gallons of water into a 2-gallon pail

—and you can't get full-measure electric service from home wiring that's inadequate

The ability of a home to function, electrically, depends upon the wiring system, located in the walls, ceilings and floors. Wiring is inadequate if lights dim when appliances are operating... if heating appliances come up to temperature slowly... if fuses blow frequently... if extension cords must take the place of outlets... if one appliance must be disconnected to plug in another... if it is necessary to grope in the dark to find a light switch. Adequate home wiring removes these obstacles to efficiency and convenience... permits you to enjoy full-measure electric service for better electrical living. If you plan to build, buy or remodel a home, insist on adequate wiring.

What Is Adequate Wiring?

Adequate wiring simply means a service entrance large enough to bring in as much electricity as your home may need at any time, enough branch circuits of large enough wire to conduct a full measure of electrical energy to your lights and appliances, plus plenty of outlets and switches, properly located. Adequate wiring is the key to better electrical living.

Fairy

By Mrs. J. O. Richardson

Harvest is well under way and threshers are making preparations to begin their run in some parts this week.

We were very sorry to learn of the death of Mrs. Elbert Ford of Dallas, who passed away Saturday. She had been in ill health for some time and her death was not unexpected. They formerly resided near Fairy. Mrs. Ford was the former Miss Vera Merritt, whose parents also resided near here. We extend our sincere sympathy to her husband in this time of sorrow.

Mrs. W. E. Goynes spent the past week end at home with her husband and daughters. She is attending summer school at Brownwood.

Mr. and Mrs. Dellis Seago and daughter, Sherry, and Miss Peggy Allison of Waco spent Sunday in the home of their parents and grandparents, Mr. and Mrs. E. C. Allison and Texie Dell. Miss Mary Lou Hartgraves of Robstown, who had spent the past week in Waco visiting her aunt, Mrs. Seago, and Miss Allison, accompanied them. Other relatives who visited Sunday in the Allison home were Mr. and Mrs. Edwin Seibelmeyer of Hamilton, Mr. and Mrs. D. E. Allison and children, Ruby Jean and Darrel, of Dublin.

A new front porch is a recent addition to the Agee Baptist Church, which adds greatly to the appearance of the building.

Mr. and Mrs. Woodard Brummitt are now at home again in their recently erected karage apartment where they will reside until materials are available to rebuild their home recently destroyed by fire.

Mr. and Mrs. Guy Hartgraves and daughter, Mary Lou, of Robstown spent Sunday night with her parents, Mr. and Mrs. E. C. Allison and Texie Dell. Mr. Hartgraves returned home Monday while Mrs. Hartgraves and Mary Lou remained for a longer visit.

With the month of June being the leading month of the year with our family for birthdays and wedding anniversaries, we enjoyed having our children and their families with us last Sunday. Only one member of the family was absent, this being our son-in-law, Sgt. Carl R. Sellers, who is in Nuremberg, Germany. But our hearts were made to rejoice and the occasion was enjoyed much more after receiving a letter from him last week stating he expected to arrive home some time in July. He has been overseas fourteen months. Birthdays and wedding anniversaries honors and those present were Mr. and Mrs. D. E. Allison and Ruby Jean and Darrel of Dublin, June 5th being Mrs. Allison's birthday; Mrs. Carl Ray Sellers and little daughter, Carolyn, June 6 being Sgt. and Mrs. Sellers' fourth wedding anniversary and June 14 the little daughter will be one year old; Mr. and Mrs. Hersal Richardson and little son, Jerry Owen, June 10 being Hersal's birthday; June 9 is our husband's birthday and June 13 our wedding anniversary. All enjoyed the noon meal and home made ice cream in the afternoon.

We hope to have another such meeting in the near future when there will be no missing link and the one so far away will be one of the number.

Lt. Col. DeWitt Greer, Winnboro, Texas, developed the first teletype set-up in U. S. history used in a cross-the-world cabinet meeting.

To the Citizens Of Hamilton County:

Many of you are wondering why I have not been around to see you. I felt like I could not drop one job for another as I think it my patriotic duty to harvest my grain crop to help feed the millions of starving people of Europe and elsewhere.

I'm hoping to see each one of you soon however, since this being a busy season for farmers, should my work cause me to miss seeing some of you in person, I still ask your kind consideration and support.

Yours truly,

Sure He's Crowing!

— Just because he's been crowing about KNOX'S GOOD EGGS, maybe we'd better keep them good by getting rid of the male birds before real hot summer weather arrives.

This Week IN WASHINGTON

WASHINGTON, D. C.—Among all the breath-taking events which followed the President's plea for strong, anti-strike legislation, perhaps the most amazing was the unexpected opposition which rose out of the Republican ranks. First reaction of newsmen here was: when Senator Taft suddenly becomes allied with the CIO leaders, anything can happen.

Of course Senator Taft did not actively go to bat for the CIO, but it was his opposition to the President's anti-strike measure which prevented the bill from being rushed through the senate as it was through the house. The real reason behind Senator Taft's opposition is considered by many here to be primarily political: he thought he saw an opportunity for the Republicans to get a big chunk of the labor vote. Labor was angry at the President for asking for this legislation and the Republican leaders felt that the moment had arrived for them to win back labor's support.

But political strategists here say that the idea will never work. They say that labor leaders would organize a third party rather than turn Republican, that it is too obvious that the cloak of "labor's friend" doesn't fit the Republican leaders, and that the rank and file of labor is not nearly as disturbed over the President's proposals as are their leaders.

By his twelfth-hour action on labor, when the country had become paralyzed by the railroad strike, President Truman was merely giving in to the demands of the public.

FINDS NEW COMET . . . David Rotbart, Washington grocer and amateur astronomer, discovered a new comet during a routine search of the heavens which has caused a stir in the astronomical world.

The pressure brought upon him by public opinion had become terrific. It was necessary for him to do something which would make it impossible for labor unions to defy the government. His recommended legislation was no stronger than the people had demanded.

Whether the President's recommendation that those who strike against the government be drafted into the army was the best "penalty" for defiance is of course open to question. Some object to this provision on the grounds that it gives the army the status of a prison. Others object on the grounds that it has too much of a flavor of totalitarianism. But so far no one has offered any other suggestion for a substitute penalty considered nearly as effective.

It is interesting to note that the President's suggested legislation was an emergency measure based on the fact that the war isn't over yet.

ODELL WELBORN WRITES FROM CAMP WALLACE, TEX.

Odell Welborn, writing from Camp Wallace, Texas, reports in part: "I guess you know I'm married. The wedding took place the 26th of May at Cranfill's Gap. My wife is from Indiana. We came down here last Sunday and rented a room because apartments are hard to find, but we've located a nice one. As you know, Walter and Margie (Ramey), Owen (Welborn) and his wife are also down here and we are all working for Civil Service here at the Naval Base and are having a swell time. You should see what a large town we live in. Hitchcock is a little larger than Fairy."

GARDEN CLUB MEETING THIS AFTERNOON AT 3:30

The Hico Garden Club will meet today (Friday) at 3:30 p. m. at the Home Economics Cottage on the school grounds.

All who are interested in this meeting are extended a cordial invitation to attend, according to Mrs. Marvin Marshall, president of the club, who requested this announcement.

Buy Honey to Can With You Can't Lose!

- IF THE O. P. A. CEILING PRICES ARE LIFTED THERE WILL BE NO END TO WHAT YOU WILL PAY FOR MERCHANDISE.
- IF THE O. P. A. LOW CEILING PRICES CONTINUE, THERE WILL BE VERY LITTLE MERCHANDISE OFFERED.

YOU CAN'T BUY SYRUP FROM THE FACT THE PRICE ON SYRUP WAS SET WHEN CORN WAS 65c PER BUSHEL. WITH THE PRICE NOW \$2.00 PER BUSHEL, THE MANUFACTURER CAN NOT PROCESS WITHOUT A LOSS.

It is possible that this syrup is going to cake manufacturers at a bonus. We know a bakery that bought a car load of white syrup last week.

When you buy bottled drinks the chances are that you are drinking black market syrup. This same thing is true on all scarce merchandise.

CAN WITH HONEY WHILE YOU CAN GET IT!
