

Maybe a government-managed economy could be successful if all the smartest business men in the country were selected to do the managing. But it certainly will never achieve very greatly if its affairs are handled by politicians who—generally speaking—have had little business experience, and some of whom are earning as much—or more—than they could out in the competitive world. If the government—Heaven forbid—intends to stay in business, it should offer monetary inducements which would draw to it the same sort of men who have so successfully built up American business and industry.

We know of a case in which one of the smartest lawyers and judges this country ever produced was appointed to the Supreme court. This lawyer was earning in private life between \$50,000 and \$75,000 a year. He had a large family of children whom he was bringing up to live on a basis commensurate with his earnings. He spent annually about \$50,000 on living expenses and saved about \$25,000. His salary on the Supreme bench would have been \$10,000. It almost broke this man's heart not to be able to serve his country, but the reorientation would have been too drastic and he was compelled to decline the honor. How many hundreds of cases like this must happen all the time in connection with our government?

As we all know, most of the best men who went to Washington to help out the war effort have had to leave in order to earn the living to which their brains and energy entitle them. It is inconceivable that a great nation like this should make itself so incompetent to handle its own business. As witness we cite the mess made of OPA.

The President of this country should be paid a salary of \$250,000 tax exempt; the members of the cabinet should receive \$100,000 tax exempt, members of the senate should receive \$50,

Dallas Rodeo to Feature Many Big Special Events

Dallas, Sept. 17.—The first annual Southwest Amateur Championship Rodeo will be held in Dallas Oct. 5 to 29, at the grandstand on the State Fair grounds. It has been announced and dates run concurrently with those of the 61st Annual State Fair of Texas.

Contestants and champions from famous cowboy reunions such as those held at Stamford, Snyder, Matador, and other Texas towns, as well as the famous ones of Oklahoma will compete for the Southwest championships. Entries of more than 200 "cowhands from Oklahoma" have been made, according to Pat Hamilton, proprietor of the famous Hell's Halfacre Ranch at Fargo, Oklahoma, who will produce and direct the championship contests. Mr. Hamilton said that he expected more than 500 contestants in the championship events. Any cowboy wishing to enter the contests may do so by registering with the entry department of the Dallas Rodeo Association, Fair Park, Dallas 10, Texas.

An Indian Village will be included in the rodeo presentation. It was announced. The Indian Village will be open at all times during the day. Special presentations of Indian riding, lassoing, and other events will be included in the special features offered during the rodeo program.

Many special events—most of which have never been seen in professional rodeos—are included on the program. Among these are wild-cow milking contests, wild-mare milking, a free-for-all scramble for a greased steer offering, and the regular bone-breaking, steer riding, bulldozing, calf-roping, and other events.

General Simpson, 9th Army Leader, Retires In Texas

Special to The News Review: General William H. Simpson, who led the victorious Ninth Army into Germany, in retiring concludes a brilliant military career with the permanent rank of Lieutenant General.

The 58-year-old veteran Infantryman was chairman of the "Simpson Board" whose recommendations for a reorganization of the War Department were put into effect June 11. Under this reorganization, the U. S. was divided into six arm areas and the old Service Commands abolished. A native of Weatherford, Texas, he was graduated from the Military Academy and appointed a Second Lieutenant of Infantry in 1909. Serving in both World Wars, his Ninth Army was at one time the largest single command in the United States military history.

General Simpson and his wife, Ruth, have their permanent residence in Fort Worth, Texas.

Hico Tigers Will Open '46 Season At Meridian Tonight

The Hico Tigers will open the 1946 football season with a game at Meridian Friday night, Sept. 29. Hico will have a small team but they will always be in there fighting.

Next week end the Tigers will play their first Conference game against their old rivals, the Hamilton Bulldogs. The game will be played at Hico, Sept. 27, and local fans are expected to back the Tigers to the limit.

The boys who are coming out for football are:

- Ralph Ellis, 165, back.
- Wendell Burden, 140, back.
- Ralph Turner, 135, back.
- Walter Latham, 130, back.
- Melvin Jaggers, 130, back.
- Gleason Ross, 125, back.
- Billy Keeney, 155, end.
- R. W. French, 140, end.
- Ray Johnson, 135, end.
- Bobby Rainwater, 145, end.
- R. C. Walker, 175, tackle.
- Bulldog Hill, 175, tackle.
- Royce Grimes, 175, tackle.
- Raymond Lane, 160, tackle.
- Odell Terry, 140, back.
- Richard Barnett, 145, tackle.
- Raymond Jaggers, 160, tackle.
- Benny Collins, 170, tackle.
- H. C. Connally, 165, guard.
- Stub Funk, 160, guard.
- Bobby Ratliff, 130, guard.
- Donald Davis, 125, guard.
- Lee Roy Brooks, 150, center.
- James Lee Proffitt, 140, center.
- Lester Simpson, 120, center.

The Tigers only had three returning lettermen this season. They are Billy Keeney, three-year letterman, Lee Roy Brooks, two-year letterman, and Ralph Ellis, one-year letterman. They lost fourteen lettermen from last year, and they hated to see them leave.

The Tigers want and will need lots of backing and support from the local fans this year.

Full Benefits Under G. I. Bill of Rights Continue to Oct. 5

Public Law 190, the famous GI Bill of Rights, which provides education, loans, and many other privileges to discharged veterans, terminates October 5th this year. Allison J. Dick, 1st Lt., Asst. Recruiting Station Commander at Waco, announced this week. Men taken into the army after October 5 will not receive the full GI benefits extended to veterans of World War II; many thousands of whom will go to college and into business this year under one of the Bill's provisions.

Men enlisting in the army on or before October 5 will still be entitled to full benefits of the bill, however, including a college education, on-the-job training, loans, reenlistment bonuses, free mail, and many other privileges.

The Army Recruiting Campaign, which has enlisted nearly 1,000,000 men in the Regular Army, will be intensified during September in order to give men who desire to enlist or reenlist an opportunity to get the most out of their service.

Glamorous Kitchens To Spotlight Great Gas Exhibit at Fair

A premiere showing of what is heralded as the glamorous New Freedom Gas Kitchen will spotlight the greatest display of gas appliances ever shown at the State Fair of Texas opening in Dallas October 5.

Marvelous appliances for house comfort and convenience will be shown in sparkling array in Lone Star Gas Company's state-of-the-art building. These are the gas cook stoves, heaters, refrigerators and air-conditioners the industry has been planning during long years of war. Now they are here and the dreams conjured from the planners' drawing boards will appear in 14 great display rooms of the unique building. The structure is identified by a huge tower topped by a simulated blue gas flame done in neon lights.

Four kitchens, each distinct in design and color, will be displayed. One of the kitchens will show the gas appliances in actual operation and Lone Star experts will be available for consultation on menu planning and meal preservation, and kitchen planning and designing. All the kitchens will be complete in every detail, from top of the steel cabinets down to the linoleum on the floor.

The kitchens have been designed by Servel, Inc., manufacturers of the gas refrigerator. They are offered as complete kitchen installations or in separate work units.

A cabinet cowl provides automatic circulation of air for removal of greasy vapors, moisture and cooking odors. Other appointments include a food conditioning cabinet over the refrigerator for crisping cereals and crackers, condiment bays at convenient eye-level for frequently used items, and additional steel cabinets for storage of cups, dishes and other small containers.

The most magical of all the new gas wonders will be the all-year gas air-conditioner that selects heating, cooling or independent air circulation by the flip of a switch. These air-conditioning units will be on display for inspection and in actual operation to bring comfortable temperature for visitors who will have easy access to lounging chairs, free ice water and clean rest rooms in the modernized building.

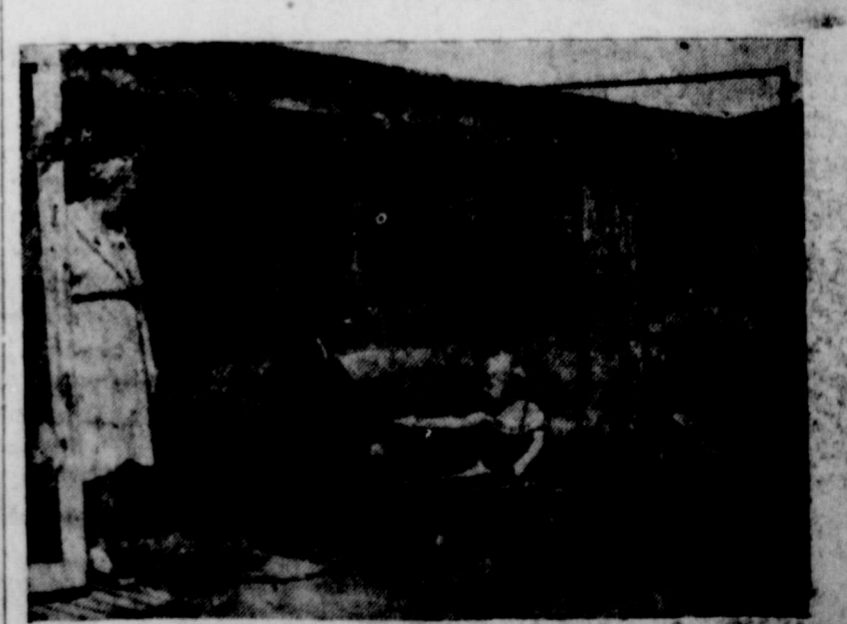

A large number of general gas appliances will also be on display and trained personnel will demonstrate and explain their operation. The equipment will include the 1947 Servel gas refrigerator featuring silent operation and a deep freeze unit for meats and other perishables; gas ranges with heat controls and other time and labor saving devices; automatic storage type water heaters, vent and gas circulating heaters, floor furnaces, central heating plants that automatically distribute warm air throughout a house; unit heaters that provide heat for commercial establishments; gas equipment for industry and the newest restaurant cooking equipment. Information will be available on the value of vented heating in eliminating wall sweating and providing healthful living conditions.

John B. White

Mr. John B. White was born April 21, 1868, in Canton, Georgia, and passed away at his home at midnight, Sept. 10. He had been ill a long time.

He was married to Miss Ellen Hester, in January of 1894, and to this union ten children were born. Surviving are six sons and three daughters: Joe, Claud, Jess, Johnnie, Tommie, and Oley; Mrs. Laura Paulson and Mrs. Addie Josey, and Miss Adell. He is also survived by other relatives and friends.

His wife passed away several years ago. He made his home with his children.

Mr. White was converted and joined a Baptist church. He had been a member of the Iredell Baptist Church since 1924. He and his wife and children lived here for several years and had many good friends. Mr. White was considered to be a good old man. When he could do so he was ready to lend his help to one and all, for he was a friend to all and all were his friends.

The funeral was held Wednesday afternoon in the Baptist church, with Mr. Barrow in charge of arrangements. Rev. Potter delivered the funeral message to a large crowd of relatives and friends. The remains were laid to rest in the cemetery east of town.

There were several out-of-town relatives and friends here for the funeral, but I failed to get their names. The children and other relatives have the sympathy of their friends in the loss of their loved one.

You can afford the luxury of Automatic Central Gas Heat

How would you like to sit back and enjoy life during winter without a single heating worry? You can! Simply include heating as part of house in your remodeling or building plans.

Closest type central furnaces are being specified here in Southwest by new home builders. They like this furnace because it provides fresh, cleaned, warmed air automatically. They like it because it can be installed in small space. They like it because it costs little to operate. And they like it because it is vented to a flue.

You, too, will like it. And you can afford it when it is included as part of house cost. Remember, a house is no more modern than its heating system.

What- NO PRESSURE?

The same thing can happen to your electric service with **INADEQUATE** home wiring

You know what sometimes happens on hot summer days when everyone in town is watering the lawn. The water pressure drops and you get a mere trickle from the hose.

The same thing happens to your electric service when too many lamps and appliances are plugged into a single wiring circuit. The pressure (voltage) drops. Your iron heats up slowly... your lights go dim... and all of your appliances

operate sluggishly, taking more time to do their jobs and wasting electricity.

The remedy for this condition is **adequate wiring**. Install larger wire, more wiring circuits and additional outlets. Then no one circuit will become overloaded and you'll always be assured of full strength current and plenty of plug-in space for all of your lights and appliances. **Adequate wiring is the key to better electrical living.**

If you plan to build, buy or modernize, insist on **ADEQUATE WIRING**

Adequate wiring simply means entrance wires large enough to bring in as much electricity as your home may need at any time... enough branch circuits of large enough wire to carry a full measure of electrical energy to lights and appliances... plus plenty of outlets and switches, conveniently located. **Don't make the mistake of bottling up an obsolete wiring system inside the walls of your home.**

THIS AND THAT

By JOE SMITH DYER

WHEN SILENCE IS NOT GOLDEN:

He was an eminently successful man. One of those emigrant boys who, minus education, influence, or money had through his intelligence, industry and steadfastness of purpose achieved those desired things and reached an enviable position in his chosen work.

Not without good reason was this man proud of his accomplishments and not averse to praise in one form or another, or perhaps I should say, graciously willing to accept the tributes of others and yet he was wont to say:

"Why should I praise? It should be sufficient that I do not reprimand; my silence should be praise enough."

Enjoying praise himself, this man denied that stimulating morsel to his associates. He accepted but he never gave.

Yet he knew that commendation is to humans what a ray of sunshine is to a flower garden—that recognition of work well done animates a desire and a determination to achieve more and better results.

It's true that praise may make a fool abhorrent, arrogant, but to the intelligent, faithful, hopeful person praise is a spur; to the timid and the modest, silence is often so disconcerting as to kill all desire. The symbol of sympathetic understanding and appreciation is praise, or perhaps you prefer to substitute the word encouragement for praise, but whatever word you may choose, act upon it, for there are many instances, many situations involving business associates, family and friends when silence is definitely NOT golden.

MEMORIES OF PARIS—1932:

Hood River, Oregon, apples on the counter at Felix Potins' Foodstria at 12 francs per apple (about 48c).

The lady guardians of the gentlemen's "lavabos" in all Paris cafes. Years ago they forgot how to blush.

The Seine at night from the rear platform of a bus as it crossed the Pont-Neuf.

The book-shop of "Shakespeare & Company" on the Rue de l'Odeon where Ulysses burst into print.

The octogenarians playing "boules" with big iron balls at the Flea Market.

Citroens automobile advertisement atop the Eiffel Tower at night. It makes the showiest thing on Broadway look very small-townish.

The speed of Paris elevators. A good Burgundian small could easily beat them upstairs.

The head waiter at La Coupele smoothing the ruffled feathers of a disgruntled guest. No more expert diplomacy was ever seen outside the pages of Oppenheim.

A small black sheep trying desperately to get into the Cathedral of Dol.

Few there are who feel sure of an encouraging word. Most men who hire humans seem to feel that a little extra cash will do the trick. When the best efforts of an employee pass without eliciting an expression of appreciation or of praise there is sure to be present something that kills initiative and wounds tired help.

"I like these new B.F. Goodrich Silvertowns," says Mr. Joseph W. Thomas, Louisville, Ky., Yellow Cab driver, "and I know the boss likes them because they're giving better mileage and stand up better in rough, tough, day-in-and-out taxi service. But for me, I like that wide, flat tread. It gives me better control. I feel safer." Before the new B.F. Goodrich passenger car tire was offered for public sale, it had passed over 17 million miles of the roughest, toughest type of beating . . . in service on taxi fleets (as Mr. Thomas describes), on police cars, and on the B.F. Goodrich tire test fleet, even at high speeds. Supplies of this new tire are still limited. However, we'll do our best to keep your car rolling until we can get new tires for you. **1610**

Great Things are Coming in the FARMALL SYSTEM

The Farmall System—the 4 Farmall Tractors and the broad range of McCormick-Deering Farmall equipment—has gone a long way toward making farm work easier and more profitable.

But there's much more coming: Self-Propelled Combines . . . One-Man Pickup Hay Balers . . . Mechanical Cotton Pickers . . . Spreaders for Fluid Manure . . . Farmall Cub Tractors and Tools . . . New Side Delivery Rakes . . . Dry and Green Hay Choppers . . . Power Loaders . . . Small Balers, Combines,

Corn Pickers . . . Cut-Off Corn Pickers . . . Sugar Beet Harvesters . . . Home Freezers . . . Touch Control.

These new products are being prepared for American farmers by International Harvester engineering and productive skills. Many of these machines will not be ready for many months to come. All of them are dependent on plant capacity and availability of men and materials. We'll be glad to keep you posted on the new equipment that's coming. Talk it over with us any time.

Fight Soil Erosion!

Strip-cropping is being practiced more and more as a recommended soil conservation measure on sloping, hilly fields. It is a profitable example of better land use . . . Your regular Farmall Tractor and Equipment is designed for FARMING ON THE CONTOUR.

We service not only Tractors and Trucks, but any and every kind of Farm Machines.

By MARY E. DAGUE

Author of Sister Mary's Kitchen

SEPTEMBER marks the opening
of the harvest season—the season
when markets fairly teem with col-
orful fruits and vegetables, eager to
add their delicious wealth of min-
erals, vitamins and bulk to our
daily meals. Purple-lustered egg-
plants, scarlet tomatoes, silvery-green
lima beans, vivid peppers and cool
green cucumbers, as well as fragrant

peaches and
melons—these
are only a few of
the abundant offer-
ings from garden and
orchard.

This year every
American housewife is
canning with thankful zeal. The war
is over and we want to fill our cup-
boards for our re-united families.

Salad mixtures and soup mixtures
will add zest to winter meals so add
a few jars to your regular store.

Vegetable salad mixtures are best
canned in slightly sweetened vine-
gar. The acid-vinegar—aids in the
preservation of the vegetables as
well as making them pleasantly tart
for salads. Lima beans, tiny flower-
ettes of cauliflower, neat cubes of
turnip, slices of baby carrots, threads
of red and green peppers, whole
kernels of sweet corn and late peas
make a colorful mixture. However,
you can of course, concoct any mix-
ture you may fancy, or have in your
garden.

Speaking of salads, if you
haven't put up a few jars of
pickled beets try and do it now.
There's no garnish more attrac-
tive in winter than slices of
crimson beets. Vegetable, fish
and meat salads gain immeasur-
ably from this simple accessory.
They're good for the Christmas
holidays and work in beautiful-
ly again in February for St.
Valentine's parties as well as one
of the national colors for patri-
otic parties.

Fruit mixtures are good to can for
salads and fruit cups. A combination
of peaches and pears and melon
balls is good to use as is, or you can
add fresh fruit when you make your
salad or fruit cup.

OPA GOES OFF... A pen-
cillin capsule guided minute
capsule of cooking oil and de-
stroys enemy strands or mi-
crobes which would threaten Amer-
ican shores in time of war. It is a
new development in the "anti-
biotic" war of the future. Report-
edly, the capsule was first in use
in the Pacific.

Any Port In A Storm

The KNOTHOLE

By ELLIOTT PINE
NWNS Sports Writer

In the battle between the profes-
sional football leagues, the old Na-
tional circuit is defender, while the
All-American Conference is attack-
ing with cash and brains, ready to
lose up to \$300,000 in its first three
years. Players' salaries and bonuses
have been pushed to astonishing
and unprofitable levels by competi-
tive bidding. Robert Waterfield of
the Rams is on top, with a straight
salary of \$20,000 for the season.

B. Bierman

On the other hand
has so many let-
termen back that some of them
can't be used, even as third stringers.

The Conference claims that the
National league has not been giving
the customers a chance to see real
competitive play—that the schedules
are arranged to insure the biggest
gate receipts, and to keep the "Big
Four"—the Washington Redskins,
New York Giants, Chicago Bears
and Green Bay Packers—always on
the winning side. The National
league reports that the upstart Con-
ference will wreck the professional
game.

One family is providing 473 pounds
of tackling might for the U. of
Maryland... the Stuart brothers of
Columbus, O., add up to that figure.
Adam stands 6 feet, 2 inches and
weighs 253 pounds. Bob is 6 feet, 3
inches and 226 pounds.

The Milwaukee Brewers have
a center fielder who is likely to
be heard from in the big time.
He is Dave Philley... as well
as a classy ball chaser, he is
good with the stick. Ted Lyons,
White Sox prospect, plans to
call on him for next year. An-
other Sox prospect is Karl Er-
misch, third sacker on the Mad-
isonville, Ky., club, who hit .300.
The club's first baseman, Bill
Hasechak, is considered too small
for the majors, although he bat-
ted .370.

MAC AND IKE... Ed Coffey,
Lanville, N. C., cast and then
chiseled out of ordinary concrete
these likenesses of Mac and Ike.
A little point finished up the job.
Coffey's yard and home is inter-
sected with similar handiwork.

HOW TO UNDERSTAND A BULLY

IS there a bully in your neigh-
borhood? There usually is! You look
on him as a menace and a headache—
unless he happens to be your own
child, when your headache is of a
different sort. But the chances are
that you are not the mother of this
bully. He is a threatening little
stranger who swaggers down the
street armed with a long stick; he's
often throwing stones or just throw-
ing his able fists around. If you
know he's coming, you do your best
to get your children out of his
path. You aren't going to let peace-
able Bobby or worse still, harm-
less Baby Sue, get beaten up or
otherwise victimized by a power-
mad little despot. Yet did you ever
stop to think of this
Menace as merely

another child—one with real diffi-
culties? To you, he's taken on alarm-
ing proportions, but really, he's just
a little boy whose problems are so
serious that he has to take out an
unusually large share of hostility
on those around him. Ever think of
befriending him? It might be worth
it.

We're not saying that he's a
pleasant fellow to deal with,
when you have to watch him ev-
ery minute to make sure he's not
gouging your child's eyes out—
but wait... A mother who be-
friended the bully in her neigh-
borhood tells us how she went
about it. Her son Tom had al-
ways played happily with the
other neighborhood children,
and she'd let him fight out his
small wars on his own. She
had no idea how wrong she

appeared on the scene. Tom's
mother had noticed Billy before.
Always he seemed on the offen-
sive, ready to start a fight. She
knew that he came from a quar-
relsome home. Also she had fre-
quently seen him teased by
smaller boys because he was so
heavy for his age. She decided
that most of his aggressiveness
might very well be a mistaken
way of using the only defensive
weapon he owned—his physical
strength. So one day when Billy
stalked into the yard and began
ordering little Tom around, in-
stead of sending him home, as
other mothers in the neighbor-
hood did, Tom's mother invited
both boys into the house for
milk and gingerbread. Billy was
so surprised he dropped his arro-
gant air at once. Tom proved to
be a good host and offered to let
Billy run his electric train. Soon
the boys were playing like old
pals.

Billy wasn't won over in a day.
But on later visits he was treated as
a welcome guest. Tom's mother
didn't interfere with their play but
to increase the atmosphere of
friendliness she sometimes told
the boys a story, or let them admire
Tom's baby sister. Dad was called in
and occasionally took the two boys
for a swim. The confidence Billy
learned in making one friend soon
began to show in his treatment of
other boys besides Tom. Before long
he was actually popular—and a far
happier boy.

So perhaps all the bully needs to
make him a desirable companion is
a little understanding. There's still
truth in the old Christian principle
that the best way to overcome a
supposed enemy is to love him—for
then he is no longer your enemy, he
is your friend.

Miss Alora Marie Hooper, daughter of Mr. and Mrs. Vernon H. Hooper of Wichita Falls and granddaughter of Mrs. Hugh Hooper of Hico, became the bride of Aldon L. Shipp, son of Mrs. Ida Shipp of Wichita Falls, last Thursday evening. The ceremony was performed in the chapel of the First Baptist Church in that city, with Rev. James H. Landes, pastor, reading the nuptial rites.

The bride is a graduate of Wichita Falls High School and for the past several years has been employed with the Wichita Falls Clinic Hospital. The groom has been serving with the navy for a period of three years since graduating from high school.

Mr. and Mrs. Shipp will establish residence in Wichita Falls, where he plans to enter Hardin College during the fall term.

Relatives from Hico who attended the wedding were Mrs. Watt Petty and Mr. and Mrs. Grady Hooper and son, Van Keith.

Walter Burton to Superintend Poultry Show at State Fair

Walter Burton of Arlington, outstanding poultry authority who has served as superintendent of the State Fair of Texas Poultry Show since 1912, has again been appointed to that position for the 1946 State Fair, held at Dallas October 5-20, announced Ben E. Cabell, chairman of the Livestock and Agriculture committee of the State Fair.

Mr. Burton stated that in addition to the Poultry Show, which includes a Bantam Show, a Turkey Show, a Waterfowl Show in a large pool adjoining the Poultry Building, and an egg laying contest, other outstanding events will be held. Entries from as far as California are expected for the Pigeon Show, and rabbit fanciers will have their own show.

The Junior Poultry and Turkey Show for the 4H Club and Future Farmer of America members will open the show on Oct. 7, Mr. Burton said.

ONE OF the nicest personalities off screen and radio is Gene Autry. Why he isn't given better picture material, when he is a consistent top box office attraction, is a mystery.

Gene Autry Certainly it would be a step forward in the battle over juvenile delinquency if there were less "Outlaws" and more wholesome Autry pictures produced.

Orson Welles is rumored to have the inside track as summer replacement for the Bergen-McCarthy show. . . . Although he weighs 280 pounds now Professor Quiz, ABC's genial quizmaster, was once one of the most graceful ballet dancers to tour vaudeville circuits. . . . It's reported that "Hit Parade" is due for a change in format, with Peggy Mann taking over Joan Edwards' duties. . . . Beatrice Kay returns to the air over Mutual on May 30.

A 'Discharge' for Lane

Peter Lawford took a lease on an apartment, but cancelled it when he learned he could get it only on condition he tend the owner's pet peacocks. . . . After two years in films portraying servicemen, Dane Clark has his first civilian role in "Her Kind of Man." . . . "Duel in the Sun" cost \$36,645 for each moment it will run on the screen! . . . Fashion tip: Gowns in Ann Sheridan's new wardrobe are either all black or dead white. . . . on Ann they're colorful.

The Mickey Rooney show is being submitted to several clients but there are no nibbles yet. . . . Jack Haley, proprietor of NBC's Village Store, has been inked to a new contract, making his fourth year with the program. . . . Odd to think of "The Kid," Jackie Coogan, starring in CBS' new show "Forever Ernest," and already contemplating his third marriage!

ONE of the poorest bits of casting in recent years is the choice of Linda Darnell for the role of the now notorious Amber. Amber was a typical English beauty, blond and cool... hardly the description for Linda who rose to fame as a sultry Latin. Lana Turner, with her hair its natural shade, would have been more logical, but if Hollywood had to tamper with Amber's coloring, such brunettes as Vivien Leigh, Gene Tierney or Paulette Goddard would have been preferable to the final decision.

Spike Jones is huddling with agency executives about the possibility of doing an air show slanted for children... A good idea since too many programs for the kiddies are involved with crime... Tony Marvin, handsome CBS announcer, has been tested for the title role in the forthcoming movie, "Life of Valentino"... Another radio star to receive a call from Hollywood is Carl Brisson, star of Mutual's "A Voice in the Night."

Flying High
 Tyrone Power is zooming over Hollywood these days in that brand new plane he just piloted in from the factory in Kansas... Robert Taylor has been appointed to the board of directors of the Hollywood Coast League baseball team... Claudette Colbert gets two of the acting plums of the year in "State of the Union" and "The Egg and I"... Bob Hutton is the latest bobby-sox idol to take crooning lessons.

Bob Hope has written a new book entitled "So This Is Peace" and it will be out soon... "The Shadow," the program with the largest audience in daytime radio, has started its tenth consecutive season on Mutual... Frank Sinatra will do a disc in Italian for one of his next releases.

Midnight, October 5, 1944 is the last day that young men enlisting in the Regular Army have the opportunity to take full benefits under the G. I. Educational Bill.

SAVE YOUR CALF!
 A shame to lose one with scours when a \$1.00 bottle of **DURHAM'S COMBINATION TREATMENT** will save it. You risk nothing. If it does not save your calf your \$1.00 will be refunded by **CORNER DRUG CO.**
