From where I sit ... by Joe Marsh

On Playing the Fiddle Badly

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is

there-harmony between folks who

like each other's company, who en-joy the simple, homey atmosphere

-with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene-with its community music, home entertainment, friendly glass of beer - than to held out for professional perfection. (Besides, I like to play the fiddle even badly!)

WORRIED.

Dear Worried:

Your problem is very compli-cated, indeed. If you start flirting with other boys and going with them when this girl is around and don't pay much attention to this other boy. maybe this will prove to her that you don't care for him.

I wouldn't worry about her and what she believes if I were you. I remain,

no getting away from it! When you have a good thing—word gets—and FAST! And from our view, it seems everyone is demanding that OUTWEARS PREWAR TIRES.

FOR EXTRA SAFETY AND EXTRA MILEAGE THE NEW F. Goodrich Silvertown IS WORTH THE WAIT!

The new Silvertown tires have been setting records for long mileage, safety and economy not only on taxi fleets, police cars and special test cars but in regular car owner use. These new tires are built with a broader, flatter tread that puts more rubber in contact with the road, spreading the wear over a larger area. To hold this heavier tread, B. F. Goodrich engineers developed a 35% stronger cord body with stronger cords and more of them... This meant better bruise resistance, greater safety. If you want the tire that OUTWEARS PREWAR TIRES, place your order today. A little wait will be rewarded with today's biggest money's worth in tires.
