

The Cost of Living is Up to Us CONTROL of commodity prices during war-time is essential, but control of prices during peace-time is socialism.

We have to admit that the present administration made a complete mess of the control of wages and commodities. But politicians are not supposed to be business men, and wages and prices are business problems.

The probability is that as controls are taken off, fairly violent surges will be caused in the prices of various commodities by excited buyers. If the bulk of the consumers will be patient, however, for a few weeks' time at the most, these prices will settle a normal level just as surely as water does.

The word "strikes" is becoming rather an ugly word because the privilege of striking, which is the prerogative of free people, has been dreadfully abused in the last year by radicals who lack both common sense and patriotism.

To sum up—a nasty situation has been created through government interference with our free man's economy; attempts to rectify the condition have been prevented by men in government who wish to keep control of the American economy—and others who honestly believed it essential; grafters and hired radicals are going to cause surges in prices as controls are taken off; and citizens are either going to lose their sense of proportion and ruin themselves by bringing on runaway inflation, or they are going to exhibit good American horse sense and allow the grafters and radicals to stew in the juices which they will be cooking up. It is entirely up to us!

HICO, TEXAS, FRIDAY, NOVEMBER 1, 1946.

NUMBER 24.

## Homecoming At Hico Baptist Church Sunday, Nov. 10th

Plans for the Homecoming of the First Baptist Church at Hico are going forward, according to announcement by the pastor, Rev. O. D. Carpenter, and much encouragement is being received in the undertaking.

Some of the preachers who plan to be present, he said, include: Rev. Alvin Swindell, Rev. E. E. Dawson, Rev. Ralph E. Perkins, Rev. Otis Holladay, Dr. D. D. Tidwell, Rev. Bob Jenkins, and Walter McKenzie of Dallas. Miss Oran Jo Pool of Odessa will be guest pianist, and Mrs. Clark from Stephenville is to appear on the program.

"We are expecting a large attendance and a good program," the pastor said this week. Services will begin at 10:00 a. m. and will be concluded with the night service. Also there will be a basket dinner and barbecue will be served.

## Whooping Cough Due For Increase In Coming Months

Austin, Oct. 29.—Inasmuch as the incidence of whooping cough in Texas is expected to show an increase during the coming months Dr. Geo. W. Cox, State Health Officer, released a statement this week urging that strenuous efforts be made to control the spread of this debilitating childhood disease.

"Whooping cough can only be contracted by direct exposure to the disease, and isolation of cases must be universally practiced if the incidence is to be controlled," Dr. Cox stated.

"The infectious agent or germ of whooping cough is transmitted by droplets expelled in coughing, sneezing, or speaking," Dr. Cox said. "The discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious."

The first sign of this disease is usually a dry cough, which persists day and night and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of cough. Dr. Cox stressed the fact that children who have whooping cough should not attend school or come in contact with other children until three weeks after the appearance of typical signs of the disease.

"Prevention and control of whooping cough, especially among infants and small children, may be accomplished through use of approved vaccine and convalescent serum," Dr. Cox asserted, "and it is important that such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may seriously impair his future health."

## Dallas Symphony Orchestra Booked For John Tarleton

The Dallas Symphony Orchestra, under the musical directorship of Antal Dorati, is in the final week of rehearsals, preparatory to opening the season Friday, November 1, at Denton. In its first season of out-of-town engagements, the Symphony will appear Monday, November 4, at John Tarleton Agricultural College in Stephenville. On the preceding Sunday, the Dallas subscription series will open.

For the Stephenville performance, Conductor Dorati's program includes: "Lohengrin" Overture No. 3, Beethoven. Symphony No. 5 in C Minor, Opus 67, Beethoven.

Don Juan, Richard Strauss. Suite, Daphnis et Chloe, No. 2, Ravel. Tickets for the performance will go on sale at 6 p. m. Monday at the College auditorium. Prices for the concert are \$2.00.

## Volunteers Sought As Recruiters In U. S. Naval Reserve

NEW ORLEANS, Oct. 28.—Volunteer recruiters to enlist men in the Naval Reserve program were being sought this week by Captain Arthur A. Ageton, Eighth Naval District reserve director.

In an effort to enlist as many eligible men as possible for the Navy's "V-6" reserve force, Capt. Ageton called for veteran Naval officers and enlisted men with some typing ability to establish spare-time recruiting centers in localities where regular recruiting establishments are lacking.

Veterans of all services are eligible for the Naval Reserve, the director said. He invited prospective volunteer recruiters to write him at his offices in the Federal building here.

## Veterans' News

The Veterans Administration this week urged veterans who have National Service Life Insurance to designate beneficiaries for their insurance if they have not already done so.

Don Pray, VA's director of insurance in Texas, Louisiana and Mississippi, explained that the Insurance Act of 1946 completely changed the situation with respect to beneficiaries. The old provision for an automatic order of succession, in the event no beneficiary was named, is no longer in effect for insurance maturing after July 1, 1946.

Under the new law, Pray said, if the insured is not survived by a designated beneficiary, the insurance proceeds will be paid in a single sum to his estate at his death.

A veteran who does not designate beneficiaries exposes his dependents to the risk of unnecessary expense and delay, Pray pointed out.

A 200-bed general medical and surgical hospital at Marlin, Texas was among 13 new Veterans Administration hospitals approved last week by President Truman.

This brings the total of new VA hospitals planned for the Texas, Louisiana and Mississippi area to ten. Additions to existing installations also are planned.

New hospitals previously announced will be erected at New Orleans and Shreveport, La.; Big Spring, Bonham, Dallas, El Paso and Houston, Tex.; and Tupelo, Miss. Another hospital will be built in Mississippi at a site to be selected later.

Fewer veterans were paid readjustment allowances for unemployment during the week ending October 12 than in any week since last January. Ray R. Adams, Readjustment Allowance Director of VA, reported. During that week about 1,122,000 veterans claimed unemployment allowances, a nationwide survey revealed.

## Scouts and Dads to Enjoy Picnic Supper On Leon Nov. 7th

A county-wide "Scout and Dad Picnic Supper and Fun Fest" has been announced, to be held at the Sandy Camp at the Leon River bridge on Highway 281, next Thursday night, Nov. 7, beginning about 6 o'clock.

Every Scout and Cub, and their dads, as well as Scout leaders and citizens interested in boys, are invited. Each boy and dad should bring a box supper.

A program of food, fess and fun plus a rich program of inspiration and Scouting, has been prepared. The only admission charge for any dad and his son is a box supper for themselves.

## Telephone Group Elects Oscar Burton 2nd Vice-President

The United States Independent Telephone Association in its regular annual convention held at Chicago during the week of Oct. 14, elected Oscar Burton of Tyler second vice-president of the organization.

Burton, who is vice president and general manager of the Gulf States Telephone Company, which serves Hico among other towns, has for a number of years been active in this national telephone trade association of which he has long been a director. The organization is composed of members who operate independent telephone exchanges throughout the nation whose purpose it is to keep abreast of the times by constantly providing improved telephone service to the public.

There are approximately 12,000 telephone exchanges in the United States, operated by some 5,300 independent companies that serve two-thirds of the area of the nation. Much of the modern equipment in use today, including the dial automatic system, was first pioneered and put into operation by independent companies. Through their trade organizations and the manufacturers of telephone equipment, the independents continue the search for new ways of offering the public the highest grade of service at the lowest possible cost.

## Weekly SURPLUS NEWS WAA

Texas, with its many flying services and veterans enrolled in flying training courses under the G. I. Bill, has been one of the largest buyers of surplus aircraft sold by War Assets Administration. A total of 16,756 planes have been sold by WAA since V-J Day. Veterans have bought more than half of the four principal types of transport planes which have been put into service on non-scheduled lines since the end of the war.

If you thought WAA sold only large items of surplus, such as tractors, locomotives and barracks, take a look at some of the small items purchased recently from Fort Worth WAA. R. B. Dawson of Tulsa bought a putty knife; Jess McGuire of Amarillo went home with two pitchforks; William A. Crow of Brownwood found a paper cutter he wanted, and Winfred Atwood of Fort Worth bought a water tank. While the smaller items cannot always be purchased singly, they are available at site sales as parts of merchandising lots. WAA has thousands of such lots remaining to be sold at site sales.

If you should happen to want it Fort Worth WAA regional office will sell you a million bottles of ethyl hexanoil, dimethyl phthalate and indalone. That's "bug repellent" to you, son. The price is 2 cents per bottle for priority claimants and wholesalers, and 3 cents to small retailers, who may buy a minimum of 50,000 bottles.

If you are interested in chemicals, here's your chance to buy anything from acetone to xylol from a stock of \$35,000,000 worth of surplus industrial chemicals now being offered in a national sale campaign by WAA. Quantities of some of these chemicals are located in practically all of WAA's 33 regions. The inter-regional sales division in the Fort Worth regional office is prepared to locate the material in any of the regions. All sales are subject to priority regulations.

Sixty-three percent of the declared surplus of the Office of Civilian Defense has been sold by War Assets Administration. The property originally cost OGD \$18,000,000, and the WAA has disposed of equipment valued at \$11,300,000. The sale began April 15 and the property was stored in 2,600 locations. On Oct. 1, the WAA sales had cleared 1,500 of the locations.

## NEW PASTOR AT DUFFAU

Rev. Jimmie Allen of Brownwood has accepted the pastorate of the First Baptist Church at Duffau, according to announcement from one of the congregation, and will preach his first sermon on Sunday, Nov. 17, at 11:00 a. m. and will preach again in the evening at 8:00.

## WITH THE COLORS

T/SGT. JULIUS M. JONES OFFICER AT N. C. O. CLUB IN PANAMA CANAL ZONE

HEADQUARTERS, ARMY AIR BASE, FRANCE FIELD, CANAL ZONE. — Tech Sergeant Julius M. Jones, son of Mr. and Mrs. Julius W. Jones of Hico, has just been elected to the Board of Governors of the France Field Non-commissioned Officers' Club. Sergeant Jones is assigned to the 53rd Fighter Squadron at this base.

He was graduated from Memphis High School, Memphis, Tex., in 1933.

Prior to entering the Army Air Corps, in 1940, he was employed as clerk by the St. Louis & Southwestern R. R. Co. of Texas.

Sergeant Jones served 14 months in the Pacific Theatre during World War II and has been in the Canal Zone since April of this year.

His wife, the former Miss Lorraine Harless of Waco, Texas, has joined him here and they have established their home at France Field.

T/Sgt. Lonnie Redden, who went back to Europe after re-enlisting to see who it was shooting at him during his service with the 36th Division, is going to have the old home paper right in after him over there in Germany, whether he likes it or not. His aunt, Mrs. Clair Brunson, came in last week to order the subscription, but the editor was out at the time and didn't get to find out much about Lonnie's business. For that matter, he wouldn't have found out much through a personal interview with Lonnie, for that's the kind of a guy he is. Ain't it a little hard to have to salute the officers again, Soldier?

"Eldon has just been here a few minutes on his way to Orange, Texas, where he has been transferred," says a note from Mrs. W. C. Rogers of Salem. "He asks to have you hold his papers till he has time to send in a new address. He and his wife are fine, and glad to get back in Texas." That would be Patty Officer John E. Rodgers and wife to you, Mr. and Mrs. Public.

S/Sgt. Douglas Helvey, who is stationed at Bergstrom Field, near Austin, spent the week end here with his father, W. H. Helvey.

## Funeral Services Held Here Saturday For O. G. Pingleton

Oliver Goldsmith Pingleton (better known as Oll) quietly passed away here Oct. 25, 1946. Funeral services were held at the Hico Methodist Church last Saturday afternoon, conducted by the pastor, Rev. J. F. Isbell, assisted by Rev. O. D. Carpenter, Methodist minister. Burial was in Duffau Cemetery.

Mr. Pingleton was born at Crab Orchard, Lincoln County, Kentucky on October 25, 1869, and settled in Collin County where he was married Nov. 22, 1897 to Miss Susie Hester Shelton. They later came to Hamilton County, where they have lived and had many friends.

He was converted and joined the Methodist Church December 5, 1945. He is survived by his wife and two sons, Arthur Lee Pingleton of Stephenville and Otis T. Pingleton of Dublin; three grandchildren, Mrs. Howard Toler of Stephenville, and Pvt. Roy L. Pingleton of Fort Sam Houston; one sister, Mrs. Hallie McCallum of Corpus Christi; one nephew, Troy Pingleton of Bandera; two nieces, Mary Frances Ruede of Bandera and Mrs. Frank Rhodes of Corpus Christi.

## C. of C. Members Filled With Oysters And Enthusiasm

The regular monthly meeting of the Hico Chamber of Commerce was held Wednesday, October 29, at Firemen's Hall, with the vice-president, Rev. J. F. Isbell, presiding in the absence of the president, Webb McEwen.

Twenty members and guests were present to enjoy the oyster supper prepared and served by Harvey Howerton and Monroe Latham. The editor, devoting himself to the original objective, remained at the table after the others had left, helping Harvey and Monroe clean up things (including the remainder of two gallons of oysters—skillfully and tastefully prepared, and in sufficient quantity). So on account of a slight case of indigestion, he reverted to his usual procedure of spouting on Secretary E. H. Persons for notes on the business session, as follows:

"Luther Knox reported for the committee on light rates and signal light for intersection of Highways U. S. 281 and State 6 and 220, saying nothing definite had been accomplished and the committee was discharged.

Commissioner Nominate Fern Jordan reported that arrangements for a suitable lot in Hico for storing road machinery for the precinct had been made on consideration that the lot be graveled and suitably lighted and fenced.

The constitutional amendments to be voted on in November were discussed in a general way and especially the amendment providing for the payment of construction costs on a building at John Tarleton College, Stephenville, and the amendment concerning use of gasoline tax on highway construction in Texas.

On motion by Paul Neel, seconded by Ollie Davis, the Chamber voted to extend a vote of thanks to Harvey Howerton and Monroe Latham for their excellent work in preparing the lunch, in addition to a slight remuneration for their services.

There being no further business, the Chamber adjourned.

## G. I. Bill Benefits Live As Long As Emergency Exists

Dallas U. S. Army Recruiting District, Oct. 28.—The G. I. Bill of Rights still lives! In spite of the misconception of many that it died on October 5, 1946, benefits under the Bill will still accrue, but only so long as the period of emergency exists.

The educational benefits of the G. I. Bill provide that veterans honorably discharged from the Armed Forces after 90 days or more of active service shall be entitled to one year of educational or vocational training plus one month for each month of service in the Armed Services between Sept. 16, 1940 and the termination of the war.

It is a common misconception that educational benefits for veterans are restricted to either college or university training. The law includes all public, elementary, secondary and other schools furnishing education whose standards are approved by the Veterans' Administrator. The Act may also be interpreted to include those businesses and establishments providing apprentice or other training on the job. The veteran must be qualified, however, for entrance into whichever institution to which he makes application.

RECENTLY ORGANIZED VIEW TO MEET NEXT WEEK. Announcement has been made of the next meeting of the local chapter of Veterans of Foreign Wars, to be held next Wednesday evening, Nov. 6, at 7:30. The session will be held at Firemen's Hall. The chapter was organized last week, and interest is increasing, but there is still need for more members.

The News Review hopes to have a more complete report when the organization work is perfected.

**SPORTS**  
The Hico Tigers met defeat at the De Leon Bearcats last Friday night here. They put up a good fight, but the weight was too much for them.

De Leon scored in the first few minutes of the game and made the extra point. After that, one touchdown followed another until eight were made. In the last quarter De Leon got within only a few feet of the goal line and the Tigers managed to hold them back for about three plays, but the Bearcats finally managed to get over the line for a touchdown.

Several of Hico's players were hurt, but they had all recovered by Monday morning.

Both teams played a fast, hard game and the final score was De Leon 55; Hico, 0.

**SENIOR NEWS**  
The last home football game was a big disappointment, but not because the Tigers didn't try. We're still yelling for them, and wish them heaps of luck next time.

The popcorn sales went over in a big way. Our many thanks to those who helped us out and who bought from us. Our lowest bows go to Mrs. Trammell and Mrs. Hancock for being fairy godmothers in disguise.

By the time this is read, Hallowe'en will be only a memory, but now we're digging in all sorts of corners and nooks for witches and goblins, and spooks. So we hope no one was surprised at what they saw or heard last night; it probably was only night-owls.

**JUNIOR NEWS**  
This week the girls of the Junior class have picked their ideal boy from the characteristics of the Junior boys.

He would have the hair of R. W. French, the eyes of James Lee Proffitt, teeth of Ray Johnson, manners of Ray Ables, make the grades of Don Eakins, wear the

clothes of James L. Proffitt, play football like Walter Latham, be entertaining like Ray Keller, have broad shoulders like Royce Grimes, energetic like Walter Latham, the personality of James Lee Proffitt, and the smiles of Ray Johnson, the height of R. W. French, be friendly like Royce Grimes, own the car of Ray Keller.

Some of the Juniors enjoyed a party at the home of Joan Gollightly last Wednesday.

We all enjoyed the football game Friday night and thought the boys played well, although they lost.

We did fine selling our sandwiches. We have all been raking our brains trying to think of some way to make more money.

**SOPHOMORE NEWS**  
Everyone seems to be looking with anticipation to Thursday night as that is the night of parties, spooks and various things. When you read this, look to see if anything of yours is missing. We hope the teachers won't mind us sleeping in classes Friday.

What would you like to know about Billy Jones? We shall try to help you. He has blue eyes, red hair, and is about so-o-o tall. We are all glad that since his accident he is improving very nicely and is practically well. He is a very nice guy and is liked by everyone who knows him.

**FRESHMAN NEWS**  
Well, we were defeated again but this time it was by De Leon. The boys played a good game and maybe they'll win the next game they play.

Every week from now on I am going to interview a boy or girl from the Freshman class. This week it's Betty Lou Alexander. She has light brown hair, green eyes, height 5 feet 6 inches, favorite actor and actress, Roy Rogers and Jeanne Crain, favorite food and dessert is chicken with dressing and angel-food cake, favorite subject Homemaking, favorite sport baseball, and her favorite color is red. She has a very sweet disposition and is well liked by all.

**HOMEMAKING NEWS**  
Every week, your reporter will interview a certain member of our club. Each person interviewed will tell what she is working on and what she has done so far this year. This week we will interview Betty Hicks—a Freshman.

Betty is making a dress of pink and white printed cotton. It is styled with a simple gathered skirt, puffed sleeves, ruffles set in the yoke, and the bodice is buttoned to the waist in back. The pattern is very flattering to her. She is more than half through and that is doing very well. Some of the girls haven't finished tailoring yet.

Well, so long until next week when we will interview another club member.

We are now drilling on the football field, and we are finding out that some of us don't know our right foot from our left foot.

Mr. Macy taught us how to counter march, and this we find very amusing, but you must remember that there is always room for one more in the Hico Band of '46.

**THE CRYSTAL BALL**  
This seemed to be a week end that everyone stayed at home or did a good job of dodging Zingara. Only a few pictures appeared in the Crystal Ball. **WORM'S EYE VIEW**  
If anyone saw a tiny ghost at any Hallowe'en parties dancing with a butterfly, this is to inform them that they have seen Nilwonowillin. He was the ghost. But unless you crawled around on the floor or looked in the grass, you probably didn't see him.

Last week Nilwonowillin was down stairs looking in the Freshman room and there were so many there that they frightened him, so he wriggled down the hall to a less populated class—the Senior.

He happened to enter during English class, and there sitting on the back seat was a bright-looking lad by the name of Brooks—Lee Roy, to be exact. It seems he isn't as bright as he looks, but from where we're sitting he looks like we'd like to move closer. To describe Lee Roy briefly, we'd say he's blonde and cute as a bug's ear, but he has his troubles—mainly literature and girls, and physics and girls, and geometry and girls, and then he has some trouble with girls. But we know a few girls who would be willing to solve his troubles or add to 'em.

On the whole, though, Lee Roy is quite a character, and you can take that either way, but personally either way we'd take him.

By the way, the views of Nilwonowillin are not necessarily those of the writer.

### Fairy

By Mrs. J. O. Richardson

Farming operations have been almost steady the past week. Early sown grain is coming up and the fields will soon be showing evidence that another crop is on its way. We have threatening weather at this writing (Tuesday) with showers predicted.

The Gum Branch school building was moved Tuesday of last week by Schooler Bros. of Hamilton. The building has been stationed west of the bus building and plans at present are to use it as a teacherage, which is badly needed here due to housing shortage.

The M. E. Parks family received a telephone call Sunday from their son and brother, Elzie Lee Parks, who stated he arrived in San Antonio Saturday and expected to be home Wednesday of this week. His father and brother, Audie, will go down for him Wednesday. He arrived from overseas last week. He has many friends and relatives who are made happy in his safe return.

There is to be a Halloween carnival at the school gym tomorrow (Wednesday) night. Sorry we did not know in time to announce it in last week's news.

Mr. and Mrs. Bonner Straite and Mrs. L. H. Fugate of Dallas spent the week end visiting in the home of their sister, Mr. and Mrs. J. L. McCoy.

Mr. and Mrs. Jasper Jenkins and family also had relatives visiting them over the week end, but we failed to obtain their names.

Mr. and Mrs. Orville Richardson and children, Dorothy Larry and James Dean, of Lamesa visited here a while Saturday afternoon in the home of his uncle and cousin, Mr. and Mrs. H. O. Richardson and Jerry, and Mr. and Mrs. Carl Ray Sellers and Carolyn. They were en route home from Terrell, where they visited an aunt, and are also making preparations to move there the first of the year.

Mrs. T. L. Betts of Fort Worth spent the week end here.

Mr. and Mrs. Elton Massengale of Fort Worth spent the week end here in the home of their parents, Mr. and Mrs. J. C. Massengale and Mr. and Mrs. H. R. Brummitt.

Mrs. Lackey visited with Mrs. West, who formerly resided near Fairy, Sunday afternoon, and sorry to hear that Mrs. West is very poorly, her illness

being due to arthritis. She and her nephew, Jimmie Mitchell, moved to Hico after the death of her husband early this year. We hope she will soon be much improved.

The writer and husband and Mrs. Brittle Little attended singing at Littleville last Sunday afternoon. Others who attended from Fairy were H. R. Brummitt and Nat Grimes.

Mr. and Mrs. Willis McAdams of Cranfills Gap are making extensive repairs on their farm dwelling here west of Fairy. The first of the year our editor, Mr. Holford, suggested that we solicit subscriptions to the Hico News Review to help defray our expenses of writing the news, and promised us a list of subscribers in this territory, but so far he's been too busy to get this for us and we have been too busy to attend to the matter, so we make this announcement that if you appreciate our efforts in writing the news we will appreciate your order for a subscription to the Hico paper.

Hico, Texas, Friday, Nov. 1, 1946.

THIS AND THAT

GOOD FOR TODAY ONLY: The human race, endowed with intelligence, has always looked forward to that intangible thing we call—Tomorrow.

When is Tomorrow? It has never been, nor will it ever be. Tomorrow is ten thousand million years away, and more.

Tomorrow is not created. When the thing we call Tomorrow actually arrives, it will be the thing we call Today.

Today! This is the only day we have, and by the same reasoning, the only day we will ever have. Today is the time to be happy—the season out of which we may build our success.

If we mentally measure what we are doing right now, this measurement in some ways will tell us what we may expect to do tomorrow.

Most of us are always telling what we are going to do tomorrow, and in so doing we forget that our example of Today is of much more importance than any estimate of any future time.

ONE WAY OF BEING HAPPY: Charles A. Locke, a Pittsburgh, Pennsylvania lawyer, gave away \$200,000 in just one day because, he said, "All that money piled up in the bank was not doing a thing to bring me any happiness."

He further stated: "I'm keeping just enough for myself to prevent my ever becoming a burden to my relatives or my friends, or both."

Locke stated that he felt happier and more care-free now than he ever had in his life.

"Never," he said, "had I realized what happiness was until I saw the face of that young girl who won my \$100 scholarship. Then and there I decided that I'd give away most of all I have accumulated through the years and I'm glad to be rid of it."

Today is all we have. Tomorrow is a promissory note. Yesterday is a cancelled check.

THE FAIRIES

Editor: Fay Grimes. Asst. Editor: Barbarette Jameson. Reporters: Winnie Riley, Pansy Prater, Billy Dee Massingill, Vera Lee Davis, Norma Joyce Riley, Pansy Nell Hicks, Willie Brown, Deannie Mae Lewis, Joette George, Mrs. Gregg.

Seniors: Here it is Monday again and we are all at school, happy but very sleepy. We think that almost everyone in our class went somewhere last night. We should have stayed at home.

Last Wednesday night our class went to see the show, "The Green Years." We all enjoyed the show, but we wished all our class could have gone.

Juniors: The Juniors have been planning and working forward to our Halloween Carnival. We are sure our candidate will win the King and Queen position.

Everyone is sorry to admit that the Evant Elks defeated us last Friday. We are hoping we will do better when we play Pearl this coming Friday, Nov. 1.

We received our report cards last Friday and everyone made fairly good grades.

Sophomores: Here we are back at this same old routine again this morning. We had almost recovered from our six weeks tests when we received our report cards.

We received our history notebooks last week. This will probably make our course a little more easy.

By the time this news is read the spooks will probably already have carried us off.

We are going to interview one of our Sophomore boys this morning. His name is Nelson Ables. He has brown hair, blue eyes, and is five feet, nine inches tall.

Freshmen: Well, here it is Monday morning again and we all enjoyed our week end but I'm sure we will enjoy our program much more Wednesday night.

This week we will interview Fred Duncan. He has brown hair, blue eyes, and is five feet and eleven inches tall.

Eighth Grade: We're all glad to be back in school Monday morning. We are planning for our Halloween Carnival and hoping it will be a success.

Sixth and Seventh Grades: We are backing our duke and duchess, and want to see one of our couples crowned.

The Golden Beeds Club met last Friday afternoon. We had a good program.

Third, Fourth and Fifth Grades: We now have begun our work on the second six weeks term. We are determined to make better grades.

In addition to our regular work we are making little work books from our English and Reading lessons.

Our Junior football boys play every day. We have a Junior pep squad, too, giving some yells, and have lots of fun.

First and Second Grades: We certainly worked hard cleaning up our room, but we enjoyed seeing the soap and water make the dirt disappear. Now we have a nice clean room to study in.

We were very busy during our drawing periods last week making Halloween things.

We were glad to have Katie Lon Columbus back last Monday after being absent for a week on account of sickness.

We are glad to report that we have had some company. Mrs. Hacholz and Gayle, Mrs. Hammark, Mrs. Nix and Raymond, and Ann Hutton all have visited us. We hope they come again soon.

VETERANS QUESTION BOX

Q. Would it be possible for my son to be enrolled at college for the February term, since he is still overseas but expects to be home very soon? He attended college for one year under the army specialized training program prior to being inducted into active service.—H. A. C., Petersburg, N. J.

A. No, not ordinarily. Your son is not a veteran until he receives his discharge and only veterans are eligible for GI benefits.

Q. My husband has been in service over 42 months and was overseas and a prisoner of war for 11 months. In January he had a chance to sign a paper to get out immediately, or to stay indefinitely, since he thought he would not be sent back overseas since he was a prisoner of war.

A. It would make a difference if your husband is an officer or an enlisted man. If he is not an officer, he has the privilege of asking for a discharge.

Q. In the Sept. 19 issue, the following question and answer appeared in the Veterans Question Box column: "Q. My son was drafted in the army April 30, 1945 when he was 18 and has been overseas since Dec. 1945. Can you tell me when he will be eligible for discharge?"

A. She will eventually receive all the money deducted from her son's pay. Write to the Office of Dependency Benefits, U. S. Army, Newark 2, New Jersey, giving your son's full name, rank and serial number, and I am sure they will straighten the matter out for you.

Among other things, the report urges encouragement of the major purpose of German education to develop a democratic and peaceful way of life; elimination of class distinction in elementary, secondary and vocational schools; encouragement of teacher training since under the denazification program more than half all school teachers were ousted.

HERE'S a man worth cocking an ear at. He is H. M. Van Liew. Mr. Van Liew has done something that practically every business in the country would like to emulate; he's found a way to cut down mistakes in the office.

His company manufactures typesetting machines, and many of these were used in the war effort. There was tremendous pressure on his company to get the machines out and to get them out fast.

One day he overheard two of the employees discussing an error one had made. The man described it as a "five-cent error." Then and there an idea was born in Mr. Van Liew's mind—he would try an "error kitty box."

Once a month there is an office dinner paid for by the good kitty box. Of course, Mr. Van Liew contributes half the cost, but that is all right with him.

After dinner, the slips detailing the mistakes are hauled out of the box. They are divided into two categories—errors of omission, and errors of commission.

### Mental Health

By DR. J. B. WARREN

A boy or girl of bright parents is likely to be bright, just as a child of rugged healthy parents is likely to be strong physically. However, the child slightly below normal mentally can accomplish more for himself and others if given full opportunity; he can be taught to adjust himself to life and overcome handicaps. The essentials necessary for sound mental health are:

- (a) Understanding and sympathetic parents.
- (b) The banishment of ignorance, fear, and superstition.
- (c) A sense of humor.
- (d) Enthusiasm in work and play.

## Six-Inch Sermon

REV. ROBERT H. HARPER

Paul Champions Freedom and Brotherhood. Lesson for November 3: Acts 15:23b-29; Galatians 5:13-18. Memory Selection: Galatians 5:14.

Soon after Paul and Barnabas returned from the first missionary journey, a controversy disturbed the Antioch church. Certain Jews from Jerusalem insisted that Gentile converts be circumcised. It was decided to send Paul and Barnabas to inquire of the matter from the Jerusalem church.

After solemn consideration the mother church handed down a momentous decision—that Gentile converts should not be circumcised but, doubtless in deference to Jewish Christians, they were urged to abstain from things offered to idols, from unclean meats, and from fornication. The decision really meant that faith in Christ alone is necessary to salvation.

Paul was the great champion of justification by faith in Christ and in Galatians 5 we find him writing of the freedom of faith. But this does not mean license to break the law. Quite the contrary, faith leads to keeping the law. The whole law, Paul writes, is fulfilled in this: "Thou shalt love thy neighbor as thyself." They who reach the high experience of Christian love will do no wrong to their neighbors.

So Paul is the champion of brotherhood. They who live by love will be true brothers in all relations. And they who are led by the Spirit will not be under the law because they are superior to it—not to ignore it but to keep it through the power given them by the Spirit.

### Duffau

— By —  
Elmer Gleescke

The Baptist Church has called Jimmie Allen, a young preacher of Brownwood, to be the pastor of that congregation for the coming year. We understand Mr. Allen is a young man of 19 and was called after seven weeks of deliberation.

The remains of Oli Pingleton were laid to rest in the Duffau Cemetery Saturday afternoon. We were not intimately acquainted with Mr. Pingleton, but we extend condolence to the bereaved.

We have received word that Ellis Canady had passed away at his home in Oklahoma. His remains were brought to Stephenville and laid to rest Tuesday afternoon in

the Duffau Cemetery. Ellis was very well known here, having been born in the western part of our community. He was the son of Uncle John Canady and wife. We are sorry this is all the information we have.

We are glad to report the condition of Mrs. N. Cole is greatly improved.

## Friendship—Three Thousand Miles Apart

Ever play chess? It's a great game! One of the strongest friendships I know of started with a game of chess—between Dad Hoskins, in our town, and a man named Dalton Barnes, in England.

They've never seen each other, never met. But for the past eight years they've been playing chess by mail together—Dad puzzling over Dalton's latest letter, while he sends a chart of his next move to England.

Dad always thinks best with a mellow glass of beer beside his

chessboard. And the Englishman writes him that he does the same. "You know, it's almost as if we shared a glass of beer together, too!" says Dad contentedly.

From where I sit, you can talk about diplomacy and foreign policy, but it's often those little things—like a game of chess or a glass of beer—that can make for tolerance and understanding... between people of all nations... between neighbors here at home!
