Right Time To Strike... the long suffering but some-time worm-turning public—can understand the meaning of strikes caused by hired agitators, paid foreign agents and local treason mongers.

Like everything else, there is a right time and a wrong time to strike. If the labor unions had allowed industry to get on its feet after V-J Day, it would—at this moment—be enjoying almost unprecedented affluence.

If the coal workers, or the steel workers, or the transport workers want to bring this country down around the ears of us all; if they want to roam the streets hungry and looking for work; if they want to make their children prey to the beastly Communist element which is always waiting to pounce; if they have no regard for their own condition or for that of their country—they will have but to bring on one, or two, or maybe three more of the devastating work stoppages which have already so badly crippled the economy.

A dam will stand just so much pressure—then it breaks! Already the dam shows signs of weakening. Manufacturers are buying much more carefully, fearing that the public won't and can't, continue to meet the rising costs produced by premature spiraling wages.

IT'S TRUE By Theodore Maisch

The gross business of cigar stores and stands in the United States averages about \$6000 a year. In the year 1933 the postoffice of Great Britain handled 1,500,000 letters and the revenue was \$110,000. Light from a firefly is equivalent to 1-25,000 candlepower.

More than 33 per cent of World War II veterans already have applied for education or on-the-job training under Federal laws. Veterans Administration said.

MILK-PRODUCING BRAMHMAN STRAIN... Red Sindhi bulls and heifers, a strain of Brahman imported from India for experimental work at the U. S. D. A.'s field station at Jeanerette, La. This strain of bulls which has been raised for milk production. Their resistance to heat, ticks and drought, together with their dairy qualities will make them a valuable cross. They will be mated to Jersey.

Duffau Couple Hold Reunion In Their Home

Mr. and Mrs. Eck Bell held a family reunion at their home in Duffau, Sunday, November 10th. There were eight of their ten children present. This was the largest number of the children that had been present in 32 years.

Those present were Mr. and Mrs. A. Bell and son, Edgar, from Belton, Tex. Rt. 2; Mrs. Lots Frede, 4374 Eaton St., Denver, Colorado; Mr. and Mrs. Tom Hale and Addis Paul Elmore of Hico Rt. 6; Mrs. Grace Daniel, 81 East 22nd St., San Angelo; Mrs. Susie Trice and sons, Jean, Bobby and Jerry, of Justiceburg, Tex.; Mrs. Luella Meglasson, 1309 South Adam St., Fort Worth; Mrs. Arline Shipman and daughter, Pernetta, 2715 Searcy Drive, Dallas; Mrs. Edwina Kinser and daughter, Naomi, Levelland Rt. 2.

Mrs. Nell Ledbetter of Carlton was ill, and unable to attend, and 1st Sgt. Alvin A. Bell of Aberdeen Md., was unable to attend because of last-minute changes in special army orders.

Informal Tea Monday Honored Mrs. J. F. Isbell

On Monday afternoon, November 11th, at the home of Mrs. E. H. Persons, an informal tea was given in honor of Mrs. Jefferson F. Isbell, wife of the outgoing pastor of the Hico Methodist church. Mrs. Persons was assisted by members of the Helping Hand Class and the Woman's Society of Christian Service. A lovely bonnet chair was presented to the honoree by her many friends in the church. To Bro. Isbell was presented a painting of the Messiah, a gift from Grady Barrow; also a lovely Tiffany vase from Mrs. O. D. Carpenter and Mrs. Arthur Burden was received with effective words of appreciation by Mrs. Isbell.

The president of the W. S. C. S., Mrs. H. N. Wolfe, presented Mrs. Isbell with a "Life Membership" certificate and pen, a gift from Bro. Isbell as a token of her love and esteem for this department of the church work. A Friendship Book was signed by all callers, the number totaling thirty-five or more.

The Isbells left Tuesday morning for Whitney, to begin their work at the new pastorate. Best wishes from their many friends go with this devoted couple to their new home.

ADDITIONAL FAIRY NEWS

Mrs. J. O. Richardson, News Review correspondent at Fairy, sent in the following news after publication of her regular column: "Reports Tuesday from Mrs. Cox stated that the fund for Little Betty Lou Edwards had reached \$297.99. Mr. Edwards returned home Monday from Houston, and stated that he had the privilege of seeing Betty Lou in her new braces. The braces support the entire body, and the patient can stand alone without aid, even though they have never been able to do so otherwise. Mrs. Edwards will remain with Betty Lou and assist in her care, while taking the training and treatment.

Also news from Mrs. Vernon Chew states that she withstood the operation and is resting well at this writing."

WARNING TO HUNTERS

A group of State Game Wardens headed by S. D. Turner of Waco, made a surprise visit to Hico last Sunday, November 10th, making arrests and prosecutions for Game Law violations, and warning that hunting out of season will not be tolerated, and for violators to beware.

Weekly SURPLUS NEWS WAA

Long sought motor vehicles for which veterans have held certificates for many months, are to be available in a one-day sale at Camp Hood Tuesday, Nov. 25. More than 130 used passenger sedans, pickup trucks, jeeps, weapons carriers, truck tractors, motorcycles, carryalls and other former army equipment recently declared surplus, will be sold. Inspection at Camp Hood may be made from Nov. 18 to Nov. 25, except Saturdays and Sundays. Oldest dated certificate holders will be served first on the day of the sale.

Karl E. Wallace, former army colonel and Fort Worth business man, has been named the new regional director for WAA in the Fort Worth region which comprises 195 counties of Central, West and North Texas. He was formerly head of the Veterans Division and through his efforts on behalf of West Texas veterans was instrumental in establishing the plan of field certification visits at regular intervals to key cities of the region, including Lubbock, Amarillo, Wichita Falls, Brownwood, Big Spring, Abilene and San Angelo. This plan has materially aided veterans in surplus property acquisitions.

Rubber heels—more than 400,000 pair of them—are waiting to be claimed by veterans, and other priority claimants. And they are right on hand, too—at the Fort Worth QM Depot. WAA offers them starting this week at low prices to get them in circulation quickly. Veterans may buy for as little as 4 cents a pair and quantity purchases are from 5.00c to 60.00c pair minimums, depending on the business classification. Orders may be placed with the Fort Worth WAA Office, T. & P. Building.

All silk—and a yard wide—that is the latest War Assets Administration offer, and exclusively to veterans of World War II. A million yards of pure silk in taffeta weave, 36 inches wide, 800,000 yards of which is in natural white. Minimum purchases are set at 5,000 yards—maximum at 20,000. Prices range from 90c a yard for green and brown camouflaged silk to \$1.15 for white. Veterans must submit case number and date of preference certificate with orders to WAA. Orders should be placed with the Louisville, Ky. WAA office.

The toy market for the Christmas season is having its troubles supplying the demand, but WAA did its part to help alleviate that shortage. Some ingenious toy manufacturers have purchased \$5,000,000 (original cost to the government) worth of gas masks which they have converted into toys for the Christmas trade.

Austrian Winter Peas Available to Farmers in County

E. C. Gainous, administrative officer for the AAA, says that they now have an ample supply of Austrian Winter Peas available for Hamilton county farmers. He also says that where the producer's allowance is less than \$200 he can purchase these seed under purchase order without being out any ready cash. This is made possible due to an increase in all small payments of less than \$200. Every farmer in Hamilton county should take advantage of these Winter Pea seed. Gainous thinks, along with superphosphate that will be available within the next few days.

Gainous says that farmers are turning more to green manure and cover crops to boost their acreage yields and to protect their fields against erosion. This past year a large acreage was planted to legume crops, and all producers reported a large percent increase in their yields.

Planting Austrian Winter Peas in the fall is considered one of the most important practices in restoring fertility to the soil. Besides adding organic matter to the soil, legumes provide nitrogen and prevent leaching of plant food elements, as well as furnishing some winter pasture for livestock in this area.

Hunters Should Use Precautions Against Ticks

Austin, Nov. 12.—With the hunting season now open, Dr. Geo. W. Cox, State Health Officer, is urging that all hunters or other persons spending time in wooded areas use all possible precautions against being bitten by ticks which may infect the victim with relapsing fever. He further advises that when a tick is found, it be removed from the body as soon as possible and that care be taken not to crush the ticks in handling them.

"Tick-bite fever is contracted," Dr. Cox explained, "either from the bite of infected ticks or even more such relapses, which accounts for the name of the disease." According to Dr. Cox, the disease does not spread from person to person by direct contact but only through the bite of an infected tick or body tissue. Prompt removal of the insect is of the utmost importance.

Relapsing fever, commonly called tick-bite fever, is characterized by sudden onset, intense headache located in the front part of the head, and pains in the back and limbs. The fever lasts from three to five days before slowly declining. The temperature will then remain normal for about a week, when the fever repeats itself. There may be three, four, or even more such relapses, which accounts for the name of the disease.

Dr. Cox said that the wearing of suitable clothing so as to prevent ticks getting next to the skin is of importance in the prevention of this disease. The insects may be removed with the fingers but the use of tweezers is recommended since this helps to prevent leaving the head embedded in the skin. After removing or handling a tick, the hands should be washed carefully with soap and warm water.

Methodist Youth Group Meeting Held Nov. 5th

The Methodist Youth group had its meeting November 5 at Morgan. There were so few present that the number won't be mentioned.

We elevated our vice president, James Schuler, to president, and elected Neil Wellings as our vice president because our former leader has moved.

Since there were so few churches represented at the meeting, we shall have the news bulletin to discuss again. And let's please discuss it. So far there have been only five churches that have chosen their reporters. The other churches haven't expressed their views either way.

We decided to have a council meeting and after that meeting Sunday, Nov. 10, we have several things to report. We chose Mrs. E. F. Campbell of Morgan as our youth councillor, and we thought it would be much better for the home church to have the program. We mapped out plans for all the programs and that will help the home church. The program for December is to be a pre-Christmas theme.

There is to be a district rally at McGregor Nov. 19 at 7 p. m. and we want our sub-district to be very well represented. There are going to be movies shown by some Camp Hood boys about our camp. There will be plenty to eat, so there's good evidence that the place will be crowded.

We meet at Walnut Springs on December 3. The banner went to Morgan, who had 100 per cent present. They didn't have much competition for it, either. We're starting a new church year, so why shouldn't we start off right by increasing our membership? It can be done! Will we do it?

FOOTBALL Here Tonight STRAWN vs. HICO

Pvt. Wendell Seago and Pvt. Clovis Grant, who are both stationed at the Army Training Center in San Antonio, spent the week end here with Wendell's parents, Mr. and Mrs. Gene Seago.

Pvt. LeRoy Bobo arrived Sunday from Camp Polk, La., for several days' visit with his parents, Mr. and Mrs. J. R. Bobo. LeRoy had a short basic training period of only three weeks and two days, and now has received orders to report at Camp Kilmer, New Jersey, for further movement to MTO. He plans to leave Saturday.

Pvt. Julian (Chuck) Simons, who is in Southern Germany with an ordnance unit, has written his aunt, Mrs. Clair Brunson, to send him the Hico paper. He reports that his brother, T/Sgt. Lonnie Redden, is in a hospital in Western Germany with a broken arm, but no details were given.

Continental Bus System Announces Service to Valley

Texas bus travelers were offered another choice tidbit of traveling convenience this week with the announcement by Continental Trailways Bus System of through bus service between Dallas, Fort Worth, Hico, San Antonio, and the Rio Grande Valley, effective November 15, 1946.

In revealing the coordination of service with their South Texas connecting carrier, Union Bus Lines of San Antonio, Continental added another bright star to their expanding network of through bus operations throughout western and southwestern United States.

The latest extension of Continental's through services will afford travelers between North Central and South Texas with six through schedules daily from Dallas. Two different routes will be serviced, on via Dallas, Austin and San Antonio into Brownsville and the other via Fort Worth, Stephenville, Hico, through San Antonio, South from San Antonio, the big red Trailmasters will roll through Edinburg and McAllen to Brownsville on one route, and through Kingsville and Harlingen into the border city on the other route.

Departure times daily from Dallas will be at 2:15 a. m., 6:30 a. m., 10:30 a. m., 5:00 p. m., 8:00 p. m., and 10:50 p. m.

M. E. Moore, president of Continental, revealed that the new Valley service will be distinctive from several standpoints. It will be the only through ground transportation offered travelers from Dallas and North Central Texas into the Valley. It will afford also, the only service over the "direct" Valley route to Brownsville from San Antonio through Edinburg and McAllen.

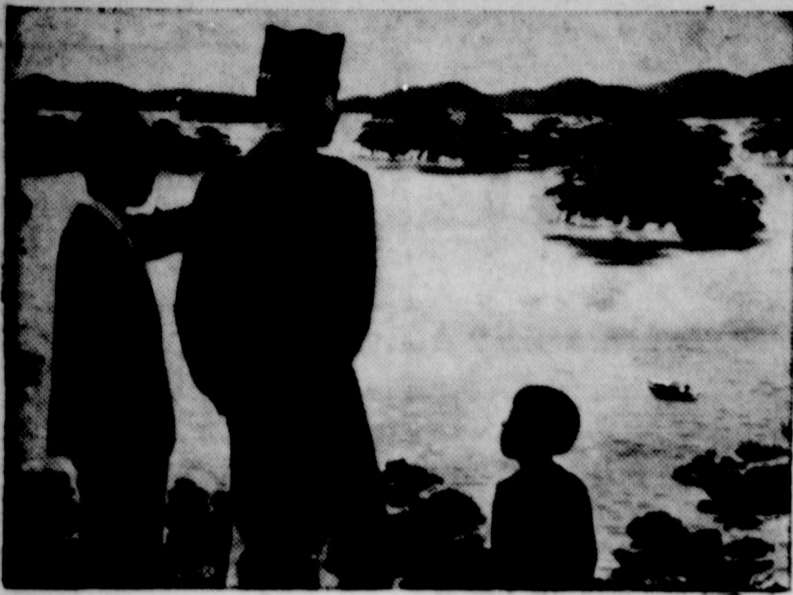

Furthermore, it marks the third time within a period of three months that Continental has extended and coordinated its operations with connecting carriers to bring about through bus operations: first to Colorado, then to California and now to the southernmost part of the United States, Brownsville, Texas.

Mr. and Mrs. J. W. Pylant of Dallas visited his parents this week.

Mr. and Mrs. C. L. Tidwell attended the homecoming at the Baptist church in Hico Sunday and report a wonderful time. Sunday night they heard Rev. Oral Bowman preach at the Flag Branch Baptist church. Rev. Bowman is Charlie's nephew and is in college at Brownwood.

Mrs. Harry Haddock of Waco spent the week end with her brother, Mr. Lott and family. Her little son went home with her for a visit.

Mr. A. A. Parks was accidentally shot to death while squirrel hunting Sunday morning, Nov. 10, about 11 a. m. Will be more next week.

Rev. Potter preached a fine sermon Sunday morning. His text was from Judges 7-21: "And they stood every man in his place." If all the church members would be in their places here, much better everything would be. There would not be so many empty pews here in the church. So all should find their places and be in them every Sunday.

Mrs. Ellen Tuggle

Mrs. Ellen Tuggle was born in Bosque County March 13, 1865, and passed away at her home a few minutes before 9 a. m. Sunday, Nov. 3.

She was married to Jasper Geren Tuggle February 7, 1883. To this union were born eight children, five of whom survive her: Mrs. Lennie Varnell of Hico, Mrs. Emma Jackson and Mrs. Cora Jackson of Chalk Mountain, and John and Sue of Iredell.

Mrs. Tuggle was converted and joined the Baptist church. She has been a member of the Chalk Mountain Baptist church for some 45 years. She had lived in Iredell for the past 10 years and for the past few years was totally blind. She was a sweet old lady and everyone loved her. I visited her every week, sometimes twice a week. She would look forward to my visits and I loved her. She reminded me so much of my own mother who passed away in 1925. She had a great deal of company and she was in very good health. She was very cheerful. She would talk and sometimes I would tell something funny and she would laugh. Everyone who went to see her was benefitted by her Godly life. She was very patient and loving and kind. Her children all were devoted to her—I never saw children more devoted to their

mother than her children were to her.

She was confined to her bed for a few weeks. All was done for her that could be done. Her life is lived out, and God called her and she was ready to go where she will forever be at rest.

Her husband passed away when her children were young, not big enough to do much, and I have heard her say she would plow and do all kinds of work on the farm.

I would take things I had made over to her home. She couldn't see them, but she would rub her hands over them which would give her a great deal of enjoyment.

I made her some crochet after she took her bed, and took it over to her home and put it on a pair of pillow cases. One of her daughters put the pillow cases in her hands and she thanked me so much for them and I am glad I gave them to her where she could rub her hands over them. It was very pitiful to see her blind, but she had the eyes of faith and could see her heavenly home. She is greatly missed by her children and neighbors and friends. She is gone from us, but she isn't forgotten.

She is survived by her children, seven grandchildren and 11 great-grandchildren; one brother, Mr. Alfred Stacy of Madisonville, Tex.; two sisters, Mrs. S. D. O'Neil and Mrs. J. R. Clayton, both of Glen Rose, Texas, and also a host of other relatives and friends.

The funeral was held Monday afternoon in the Baptist church, with Mr. Brister of Walnut Springs in charge. The floral offerings were large and beautiful. Some of her nieces and granddaughters were flower girls and her nephews were pallbearers. Rev. Potter, who visited her a great deal, brought the funeral message. The crowd would have been much larger if the weather had not been so bad.

She was 81 years, 7 months and 21 days old.

The remains were laid to rest in the cemetery at Chalk Mountain. There was a large crowd of relatives present from out of town but I failed to get their names as her son John and daughter Sue were gone all week.

The children and other relatives have the sympathy of their friends in the loss of their loved one. They can't bring her back, but all can go to her.

J. L. Mingus

Mr. Judson Lee Mingus was born in Palo Pinto County in 1865 and was the son of the late Mr. and Mrs. William Mingus. When a small boy he came to Bosque County where he grew to manhood. Some of his life was spent in Iredell and he was well known by the older ones here.

He was married to Miss Annie Gatewood in 1891 and to this union three children were born, two dying in infancy and the third, Mrs. S. P. Hale of Teague, with whom he made his home. He was in bad health for some time.

He united with the Missionary Baptist church in early manhood.

He made his home in Meridian for a number of years, where he was in the county clerk's office, and later was connected with the First National Bank. From Meridian he went to Abilene, Tex., where he was an expert accountant and later when the Republic National Bank was being organized at Dallas he was one of the expert accountants who helped to establish the bookkeeping system of that bank. He was a very prominent man, and was known all over Bosque county and perhaps over Texas. He was a good, honest man and all liked him and he had many friends.

He is survived by one daughter.

We have received many new frames—fine frames in metal and solid walnut, maple and oak—just right for Christmas.

A Suggestion:

Think of some picture we have made in the past—and have the negative—and have a nice new print in black and white or browntone or colored in oil, and select a nice suitable frame and lay away for a Christmas gift for some one interested in that picture.

SPORTS
 Friday night, November 8, the Hico Tigers met the Eastland Mavericks in Eastland for a fight to the finish. It is no secret that the Mavericks outclass the Tigers in playing skill, but the Hico team gave a good showing of itself. More than once, the crowd was heard cheering for Ellis, Hill, or Keeney.

It was a desperate fight and several times the Tigers came close to the Eastland goal, only to be stopped when a touchdown was in sight.

In the fourth quarter, Hill intercepted a pass and broke away, heading down the field toward a touchdown, but he was downed before he made it.

Although the Tigers lost with a score of 51-0, we say that they gave the Eastland Mavericks a real run for their money.

SENIOR NEWS
 The Seniors have been quite an inactive group lately, thus the dullness of their news. We've started reading plays and it may not be long until we decide on one. The early start is to make it a super-doooper play. We want it to be even better than the one we had last year. So plan to attend it.

There has been a change of plans in the football playing schedule, and there will be a game here this Friday. We'll be selling popcorn, so come and root for the Tigers, and buy our corn, please.

JUNIOR NEWS
 We enjoyed the football game at Eastland, and thought the home boys did swell.

Everybody enjoyed the holiday. It seems like a few enjoyed it so very much they didn't get back to school Tuesday.

We will be selling sandwiches at the football game Friday night.

SOPHOMORE NEWS
 It seems everyone enjoyed the holiday. Why don't we have more of them?

We are sorry that our football boys haven't won any games so far, but we want them to know that we are still for them and wish them better luck in their last two games of the season.

Who is that studying so hard on his history? Maybe he is trying to fool us, but it's really Vernon Hill. Vernon is one of our Sophomores who help to make up the Tiger eleven. He has played very well and we are proud of him, but it seems he has trouble with girls. He has a way with them, but we won't say which way it is. Vernon is short, blond, and lots of fun. He is very friendly and has a good sense of humor; also, he has many friends.

F. F. A. NEWS
 We had our regular meeting of the F. F. A. last week and decided to sell our sow's pigs to the boys in the chapter. (The editor lost the F. F. A. News, and this seems to be all she can recall about it. She's awfully sorry, and offers her most abject apologies).

REFLECTIONS
 The editor of The Mirror has been asked so often who writes the Worm's Eye View, she has decided to break down and confess. She really doesn't know.

Every Monday about 4 o'clock she hears a rustle and a slither somewhere in the vicinity of the floor. When she looks down to see what all the turmoil is about, she sees a paper covered with writing and an infinitesimal worm scurrying away. This worm is

about two inches long and its waist measured about one-eighth of an inch. It has long pink hair with a slight touch of blue in it, and its eyes, though of a slightly beady appearance, are a soft purple with spots of orange. It speaks in a sneaky voice and dislikes intensely those people who have made an effort to step on it, but so far none of you kind people have been guilty of this horrid breach of etiquette. Right now, he's living under a small stone out at the Gravel Pits, but this spring you'll find him hanging on the third blade of grass on your right as you pass the flag pole in front of the High School Building.

WORM'S EYE VIEW
 The Sophomores don't seem to think too much of Nillwonowillin's (he still doesn't have a nickname) views, but he has trained his sights on one anyhow. This young person's name is Imogene Elder. She is quite an oddity because she has red hair but it doesn't seem to be accompanied by the usual temper. She's an unusual character in another way, too; she gets along well with everyone, and doesn't seem to know what the word enemy means. Nillwonowillin is a great admirer of her's and he highly recommends her for a close bosom friend. He also has one criticism to make — why don't she and her sister give more of those wonderful parties (without Laura, please)?

CRYSTAL BALL
 Due to the fact that Zingara has a hangover from too much holiday, there will be no Crystal Ball this week.

Children's Book Heroes

BECAUSE children nowadays learn so much and are so frequently entertained through movies and radio, we are glad that Children's Book Week has become such an exciting November festival. For without giving thought to children's reading parents might drift into the notion that books aren't as important in children's lives as they used to be.

To prove that they are we need only ask, "Are friends any less important to your children than they were to you?" And what are the people in books but friends which

your children can know as intimately as you once knew them? And is there a more delightful bond than sharing friends? You are fortunate if even one of your actual friends is also a friend of your children's. Oh, they admire Mrs. A because she wears lovely clothes, or Mr. H intrigues them with his hearty voice, and Aunt Linda brings nice presents. But unless you have some one among your flesh and blood friends with the imagination and insight into the child's world of a Lewis Carroll or a Kenneth Grahame or an Uncle Remus, the chances are there is no one you and your children enjoy in the same way. But Huck Finn doesn't grow older and your daughters can as easily identify themselves with Jo March and her sisters as you ever did.

Then, just as books give your children a glimpse into your own childhood—a strength-giving continuity they will appreciate when they are older—so you can

understand better your child's needs and the quality of his nature by acquainting yourself with the present-day books he most enjoys. You are likely to be amazed at the real problems of today that are dramatized in these true-to-life tales. They are seldom the purely escape stories of yesteryear when life for the hero or heroine was just one joyous series of wild adventures. Remember the Rover Boys and the halcyon girlhood days the Little Colonel took for granted? The war touched our children's lives too closely for them to be unaware of suffering and inequalities. Some of the healthy realism which Louisa May Alcott put into Little Women (which is one reason it remains a classic while Elsie Dinsmore and Little Lord Fauntleroy have become objects of derision) has come back into today's stories of home, school, industry, biography, travel and social problems.

Florence C. Means "The Moved Outs," which is a sympathetic account of the experiences of relocated Japanese-Americans wouldn't have been tolerated during the First World War. Now children agree with it, just as they have welcomed the books which are trying to break down prejudices against minorities in this country, of which "Keystone Kids" by John R. Tunis is a notable example.

But aside from the mutual understanding between parents and children to which books contribute, it is for the understanding of human nature itself that books are most indispensable.

VETERANS' QUESTION BOX

Q. Will you please tell me how I can get a letter to my son, who volunteered without my consent or knowledge and enlisted in the Army? Our letters got back and forth for a while. Now he writes twice a week and complains he doesn't get a letter from me only once in three weeks. How will I find out what is wrong? He is only 17 years old.—Mrs. C. D. Cyle, N. C.

A. Since you say your son is in San Antonio, Tex., you should have no trouble with your mail if you have the proper address. If he is not getting your mail, the chances are your letters are being addressed improperly.

Q. My son, who is in the navy, sailed from Pearl Harbor on an LST in May for Shanghai, China, but the ship's course was changed twice, going by way of Iwo Jima and then to Surabaja, Japan. He was on the water May 26 until June 29 and did not receive mail from home. Please tell me if no mail planes deliver mail to our boys in the USN while they are on the water, or do they receive mail from the states only when they land?—Mrs. W. O. H., Mission, Tex.

A. There is no way to deliver mail, particularly to an LST, while en route from one port to another. Ordinarily, mail is received when ships make port at regularly established mailing stations.

Q. I would like to find out any information you may have pertaining to the whereabouts of my brother. The last address I have from him is Pfc. Rex B. Marion, ASN 44139245.

Prev. 2, APO 21612, Postmaster, New York. Would appreciate any information as to his whereabouts.—Mrs. J. M. Pinnacle, N. C.

A. The army says that as of May 6, 1946, the address of your brother was Company B, 12th Constab. sqdtn., APO 046, Postmaster, New York.

Q. Please give me the age limit for admittance to the navy nurse corps.—A. J. R., Denver, Colo.

A. The applicant must be between the ages of 22 and 30. Physical standards are those set up for naval officers and will be determined upon application.

Q. Will a blue discharge keep me out of Veterans hospital for treatment or care? I am a Marine veteran.—B. A. L., Jackson, Miss.

A. Ordinarily veterans who receive a discharge other than honorable from the armed forces are not eligible for care in Veterans Administration hospitals. However, there are sometimes extenuating circumstances and a veteran who receives a blue discharge should check directly with the nearest office of the VA as to his eligibility.

Q. My husband reenlisted in the Army after his discharge in May. He signed up for three years. Can he get a furlough at the end of his first year?—Mrs. J. A. K., San Francisco, Calif.

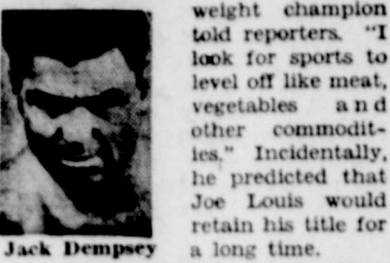

A. Furloughs do not come automatically. They are given at discretion of the immediate commanding officer and a serviceman usually applies for furlough after he has put in six months' service without one.

THE KNOTHALE

By ELLIOTT PINE
NWNS Sports Writer.

The postwar sports boom is about over, says Jack Dempsey. The slump has begun to show in the East, the former heavy-weight champion told reporters. "I look for sports to level off like meat, vegetables and other commodities," he predicted that Joe Louis would retain his title for a long time.

Paying college boys to play football is all right, declares Byron (Whizzer) White, who was brilliant both on the gridiron and in the classroom. Addressing members of the Washington Touch-down Club he said: "You must ask yourself what might have happened to these boys had they not had the opportunity to come to college and pay their way with football. And they'll have to prove to me that these players are being hurt by the system before I'll condemn it."

Whizzer White is a Phi Beta Kappa and a Rhodes scholar. He was an All-American halfback in 1937, and is now studying law. He was upholding his side of the case against the blast of Paul Douglas, president of the American University, who called football a "20th century slave mart." You couldn't muster a passable team for less than \$50,000, he asserted. Coaches are slave drivers he went on, and players surrender their freedom absolutely to them.

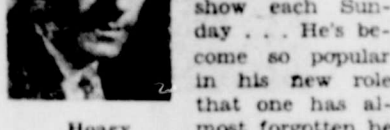

The baseball draft is dying out, experts comment. All the good prospects have been snapped up by the minor teams owned by the big league clubs—the so-called "farm system." Commissioner Chandler has a list of 3,000 eligibles for selection—the largest in years, but it is doubtful if even half a dozen will be chosen. Last year only 10 were signed, and the year before only 21, and all were returned to minor clubs.

Most important element in bowling is timing, declares Joe Wilman, of Chicago, all-events champion of the American Bowling Congress. Frank Menke, author of the Encyclopedia of Sports, is asking sport fans to send in what they think are corrections on the data in his big book "Many of the facts," he says, "are now incorrect, and many inaccuracies have crept in."

A PEEK at the STARS

By LYN CONNELLY
NWNS Radio-Screen Editor.

TIME was when folks identified Hoagy Carmichael as "the chap who wrote 'Stardust.'" Now he's carving a new career for himself as a singer and weaver of homey philosophy in both the movies and on his own CBS radio show each Sunday... He's become so popular in his new role that one has almost forgotten he Carmichael wrote the perennial favorite, "Stardust"... Strange how fate takes a hand... Hoagy is now more popularly known as "the chap who wrote 'Ole Buttermilk Sky'."

The Ray Millands will spend Thanksgiving in England with Ray's mother... The twins of Susan Hayward and Jess Barker are non-identical, one having red hair like his mother, the other blonde hair like Jess... Rumors are flying that Gene Tierney and Tyrone Power fell in love while making "Razor's Edge"... they've been substantiated by the recent separations of Ty from wife Annabella and Gene from hubby Oleg Cassini... Course, the rumors might be the result of publicity for their picture and the respective separations were a co-incidence.

Call for Henry Morgan
Several movie studios are paging HENRY MORGAN, ABC's zany master of wit... There's talk in Radio City that JEANETTE MACDONALD will soon have her own air show... The New York Philharmonic Symphony makes its screen debut in the forthcoming movie "Carnegie Hall," which is being shot in the historic New York structure from which the Philharmonic's CBS broadcasts have been originating for 16 years.

Robert Mitchum is being kept busy these days... After completing "Pursued" for Warners, he goes to MGM for more scenes with Greer Garson in "Sacred and Profane" and thence to RKO to star in "Hang My Galloway High"... Ida Lupino, who has had a variety of roles ranging from comedy to murder, is being taught to stutter for her part as a mountain girl in "Deep Valley"...

A one-dollar bill wears for an average of about nine months; a two-dollar bill about fourteen months; a ten-dollar bill lasts indefinitely.

B. N. Hubbard of Los Angeles, Calif., who has been away from this section since his ball-playing days with Iredell fifty-five years ago, got to thinking recently that he would like to renew his acquaintances with friends through the paper. So he wrote an old friend, J. R. Tidwell, to have a sample copy of the News Review sent to him. Apparently he liked the way we are running the paper with the assistance of our able Iredell correspondent, Miss Stella Jones, for he sent money for a year's subscription to Mr. Tidwell with the request that his subscription be entered. Thanks to all parties concerned in the deal.

Six Inch Sermon

REV. ROBERT H. HARPER

Lesson for November 17: Acts 17:1-7; 1 Thessalonians 1:2-8. Memory Selection: 11 Thessalonians 3:13.

After his release from prison in Philippi, Paul and his companions passed through Amphipolis and Apollonia to Thessalonica. In this city were many Jews and for three Sabbaths in the synagogue Paul reasoned with his hearers. Some were persuaded and "consorted with Paul and Silas;" also a "great multitude" of Greeks and "chief women not a few."

The Jews, with certain lewd fellows, stormed the house of Jason; not finding Paul, they dragged Jason forth to the city rulers, charging that Jason had harbored who were turning the world upside down and saying there was another king than Caesar—one Christ. This charge was true, but the Christ they preached was the head of a spiritual kingdom. After taking security of Jason, the rulers released him.

Through the help of friends, Paul and his companions had escaped, and they went to Berea, where they had some success. But Jews from Thessalonica going there and making trouble, Paul left and eventually reached Corinth. His letters to the Thessalonians were written from that city.

In the first chapter of his first Epistle to the Thessalonians Paul writes that he gave thanks to God always for them because of their "work of faith and labor of love;" declared they had become an "example to all that believe in Macedonia and Achaia," and had "sounded forth" the word of the Lord.

IREDELL BOY WEARS WINGS OF UNITED AIR LINES PILOT

Special to The News Review:

News Bureau, United Air Lines, Nov. 11, 1946.—James Henry Johnson Jr., son of Mr. and Mrs. James H. Johnson Sr. of Iredell, now is wearing the wings of a United Air Lines' pilot, having completed training at the company's Denver flight school. He is stationed at Chicago.

AT THE SIGN OF THE FLYING RED HORSE

THE MIDDLES

Fairy

By Mrs. J. O. Richardson

The second cool spell of the season struck Sunday morning, continuing cool Sunday and Monday, with frost Sunday and Monday nights, but due to light nights the frost did no damage to vegetation.

We have received several reports of damage done by the windstorm last Sunday week. At the Russ Brummitt home all buildings were damaged except the residence and barn. A large double garage and wash house made of tile blocks was partly unroofed and some of the blocks were buried on to a cement cellar nearby, knocking a hole through the top. Sheep sheds, poultry houses and other out-buildings were damaged and trees uprooted. And a windmill was blown down at the home of Miss Eliza Geise.

Mr. and Mrs. Oran Willford are the proud parents of a little daughter, born to them at the Hamilton hospital late Wednesday of last week. She has been christened Doreen Gwen. Mrs. Willford is the former Miss Doris Edwards.

The charity fund being raised in behalf of little Betty Lou Edwards is still growing. Our last report from Mrs. Cox, who was soliciting the fund, was last Saturday when she stated that the fund at that time was two hundred and sixty-nine dollars. At a meeting of the Masonic Lodge Thursday night of last week, when visiting members were present from Cranfills Gap, Hico, and other points, a total of fifty-three dollars was turned over to Mr. W. E. Goynes for the fund, thirty dollars being donated from the treasury and visitors and local members who had not had an opportunity to help before quickly raised the additional twenty-three dollars. Many thanks to the Masonic Lodge and each visitor and member who had a part in the donation.

Mr. Marvin Tidwell and Rev. Norris of Iredell were over Friday of last week for a short visit here and at Lanham, where Rev. Norris was getting acquainted with some of the members of his church congregations. He is the new pastor of the Methodist church for Fairy and Lanham, and will serve half-time at Iredell. He filled his first appointment here last Sunday.

Mr. and Mrs. Dewey Sellers of Pecan visited last Sunday in the home of his brother, Mr. and Mrs. Carl Ray Sellers, and Carolyn.

Mr. and Mrs. Alvin Hicks and family of near Hico attended services at the Church of Christ here Sunday and visited the remainder of the day in the home of her sister, Mr. and Mrs. J. T. Jackson and family. Betty Jo and Max Hicks remained over Monday and visited the Fairy school.

Mr. and Mrs. Horace Moore and family and Mr. and Mrs. Jeff Patterson have been making frequent trips to Stephenville to be at the bedside of their mother, Mrs. Moore, who recently suffered a paralytic stroke.

Mr. and Mrs. G. R. Fomby have sold their farm and ranch property north of town. We did not learn who purchased the property or the future plans of the Fomlys, but hope they decide to locate not too far away.

We have also been informed that Mr. and Mrs. I. M. Hutchens of Clairette have purchased the New-some place, better known as the Hatton place. Mr. and Mrs. Hutchens formerly resided near Fairy and we hope this report is true and that they will again make this community their home.

Mr. and Mrs. Printis Newman were visitors a while Saturday night in the home of Mr. and Mrs. Grady Anderson and daughters.

Miss Cleoyne Parks of Kerrville returned home Thursday of last

week, after several days' visit in the home of her parents, Mr. and Mrs. M. E. Parks and family, to be with her brother, Elsie Lee, who recently returned home from overseas.

Mr. and Mrs. Claude Brunson and Mr. and Mrs. Herman Sills and family are in Gorman today (Tuesday) to be with their daughter and sister, Mrs. Vernon Chew, who is to undergo a major operation at the Blackwell sanitarium. We hope the operation will be successful and that she will soon be fully recovered.

Carl Ray Sellers received a badly sprained foot while playing basketball at the school gym Tuesday night of last week, but we are glad to report him able to get around with the aid of crutches.

The writer and husband and John Abel attended singing at Carlton Sunday afternoon.

Mr. and Mrs. D. E. Allison and family of Dublin spent Thursday night of last week here with relatives.

Mrs. Gladys Cox was a guest of Mrs. Brittle Little last Saturday night.

Audie and Elzie Lee Parks are giving their dad's store building a coat of aluminum paint, which adds greatly to the appearance.

Mr. and Mrs. Bill Williams and daughter, Cleo, of Los Angeles Calif., visited Mr. and Mrs. J. L. Dunn and family recently. Mrs. Dunn and Mrs. Williams are sisters.

Mr. and Mrs. H. G. Cozby of Stephenville visited Mr. and Mrs. Wayne Cozby Thursday.

O. O. Pollard accompanied his parents, Mr. and Mrs. J. O. Pollard of Carlton, to Dallas Friday where his father went through a clinic. They remained in the home of their daughter and sister, Mrs. Eula Huffines, and husband until Sunday.

Mr. and Mrs. J. H. McAnelly have been to the Hamilton hospital this week to visit her brother, C. E. Willhite, who is ill. He seems to be slowly improving.

Mr. G. F. Allen, who had been living in the home of Mr. and Mrs. John Moore, moved to Stephenville Wednesday to spend the winter in the home of Sheriff and Mrs. Carl Turnbow.

Mr. and Mrs. Sam O. Elder and daughters of Hico were guests of Mr. and Mrs. O. O. Pollard Sunday afternoon.

The two elections last week went off very quietly, with the small sum of 27 votes polled, six of them for the Republicans.

Armistice Day was celebrated by farmers working in the fields. Weather permitting, there will be a box supper at the school house Friday night. Proceeds to go to the school.

James Ray Anderson, wife and children were visiting down in Freestone county last week end.

Henry Killion and wife visited in the home of Pack Brown Sunday. They live in the Harbin community, and Mrs. Killion is the mother of Pack Brown.

Vernon Mills and family have moved back to our community and are located on the Tom Shaw place.

S. F. Landers and wife were in Dublin Saturday, where Mr. Landers was attending to business.

Willard Lay and wife visited in the home of J. C. Kilcrease and family Sunday. Mrs. Lay is the daughter of Mr. and Mrs. Kilcrease.

From where I sit... by Joe Marsh

How to Handle a Fortune

Some months ago I reported in the *Clarion* how Mel Bate's uncle died up north, and left him with a tidy fortune.

Naturally, our town was curious to see how Mel would spend it: Traveling around the world... getting a new house or car... wearing fancy clothes... or dining on cold pheasant and champagne...?

We can now report, Mel hasn't changed a bit! Drop in on him any night, and you'll find him in his shirt sleeves by the fire, chatting

with the Missus, sharing a mellow glass of beer with friends.

From where I sit, Mel has learned the art of handling money—as well as handling people. You don't let cash-in-the-bank push you around any more than you let people push you around. If you like the simple, homey life; companionship and quiet ways; a glass of beer and friendly talk—that's worth a fortune, after all!

How much light is ENOUGH to study arithmetic?

ARITHMETIC and other homework require concentration, close attention to small type, more work for young eyes. BETTER LIGHT is needed to make seeing easier, prevent fatigue and drowsiness.

Help make your child's homework easier by seeing that he has plenty of good light at his study table. Equip his lamp with at least a 100-watt bulb—and see that it is properly shaded to spread the light and prevent glare. Better light means better grades.

In the shade of your porch, Nature provides 600 foot-candles of light... far more than the 5 foot-candles found in many homes. Have better light for better sight.

THE FAIRIES FROM FAIRY HIGH SCHOOL

Editor Fay Grimes Asst. Editor Barbarette Jameson Reporters: Winnie Riley, Pansy Prater, Billy Lee Massingill, Vera Lee Davis, Norma Joyce Riley, Pansy Nell Hicks, Willie Brown, Dianne Mae Lewis, Joette George, Mrs. Greggs.

Seniors

Everyone so far seems to be very happy this morning. Could it be that everyone had a good time over the week end?

There are quite a few absent this morning. Some are out picking cotton. We hope they will be back with us soon.

We Seniors are very proud of our basketball team this year. The Seniors have ordered their play for public speaking. We'd like to give you a brief summary of the play and we will at a later date. Be sure to watch for it. The title is "Hen-Pecked Henry," which indicates to anyone that there will be laughter all the way through.

We are going to interview one of our class each week until we make the circle. We will first interview James Abel. He has blue eyes; his hair is brown, he's five feet eleven inches tall. His favorites are: teacher, he likes them all; sport, basketball; food, he likes them all, too; girl friend, well—we are all trying to make a guess, but we haven't had any luck.

We will all be pretty busy for the next three weeks trying to catch up in our studying before tests. Lots of us were absent this six weeks, picking cotton.

We elected one of our class to be on the committee for our annual. She is Barbarette Jameson, and we think she is well qualified for the job.

Juniors

The Juniors have ordered their class rings and they will arrive about February. They are really going to be pretty.

The Juniors received their pictures Thursday and were very proud to get them.

There are four Junior girls and five Junior boys coming out for basketball. Doris represents the Junior class in the making of the High School Annual this year.

Lloyd Akin and Margene Perry were selected as class favorites.

Freshmen

Fairy students are being good, going to school on a holiday. But we decided we'd rather go to school today and get out another day.

Betty Jo Hicks and Flossie Bolton are visiting the Freshmen today. They seem to be pretty good on Algebra, and we'll have to let them work some for us, won't we, kids?

Oleta Perry and Milton Clark were chosen to be class favorites, and Bobbie Edmondson was chosen to work on the committee for our school annual.

Pansy Hicks is absent today. We wonder why. Surely that girl isn't working!

Sophomores

We are back in school again this morning, studying as hard as ever. Everyone seems to be proud to get started playing basketball.

As I was walking down the hall I met quite a character. He has black hair, gray eyes, is 5 feet and 8 inches tall. His favorites are: food, steak; sport, football; subject, Biology; teacher, Mr. Columbus; girl friend, Doris Streater. He is always having his share of the fun, and with a description like that he could be none other than Texie Dell (Toots) Allison.

Girls Sports News

We have now organized our basketball team for the 1946-47 season, with Tommy Harper as coach, elected Ione Arrant our captain. We have 15 girls coming out for basketball this year. We have and Betty Adams our co-captain. We have the same team this year as we did last, except for one guard, Margene Perry.

We received our new sweat suits in time for the first game. They are grey and have "Fairy" written in royal blue in front.

Our first game this year was with Blue Ridge. We defeated them with the scores of 19-7.

Friday night we went over to Lamkin and the scores were 6-6. We flipped a coin to see if we played the tie off, so we decided to make another game of it.

Boys Sport News

The football season is over for the Fairy Tigers and we have played two games of basketball since we gave this report last.

The following are the boys who are coming out for basketball: James Abel, James Moore, Toots Allison, Joe Blakley, Truitt New, the main team; Milton Clark, Gene Glenn, Billy Massingill, Weldon Parks, Nelson Ables, Fred Duncan, substitutes.

We played Blue Ridge Wednesday night. The scores were 36-16 in our favor.

We played Lamkin Friday night. The scores were 22-9 in Fairy's favor.

Fairy is getting a good start in basketball and we hope to make a good ending.

We have a new coach this season.

Sore Throat—Tonsillitis! Our Anestho-Mop is a Doctor's Prescription that gives quick relief from pain and discomfort. Guaranteed to be the best Mop you ever used—or money refunded. Generous bottle with application only 20c at CORNER DRUG CO.

son. He is Mr. Tommy Harper. The boys also have new sweat suits. They are grey with royal blue letters across the front.

First and Second Grades

We are glad to see the sun shining and a clear sky after the few days of cloudy weather. However, we are glad to have some cold and frosty nights. We like to sing our "Jacky Frost" song and enjoy watching the leaves change colors on the trees along the mountain-sides near our school.

We wish all the little boys and girls who go to schools on the prairies could come to visit us and see our pretty hills and mountains. We think they are so pretty.

We are glad to have C. R. Parks Jr. back in school after being absent a week on account of sickness. We are also glad to have Euleene Reeves back in school. She has been off on a cotton-picking trip.

We First Grade pupils have a new boy in our class. He is Mark Grisham. He came from the Arlington school near Fort Worth. We are glad to have him in our class.

Third, Fourth, and Fifth Grades One day last week the Third and Fourth Grade pupils pulled weeds. It improved the looks of our play ground very much.

The Fifth Grade pupils are now studying about "Oil in America." We are enjoying our picture study in visual education.

Sixth and Seventh Grades We were happy to have Betty Jo Bolton visiting in our room Monday.

We have just completed our 3-weeks tests. And now we are getting ready for Thanksgiving. We plan to have a club meeting.

Eight of our number attended Sunday school Sunday.

Our pictures came in last week. We didn't know we were so pretty.

Your pharmacist is not a superman. Like you, he requires a certain amount of sleep and recreation so that he may function efficiently for his community. That is why, late at night, or on a Sunday, you may find the lights of your pharmacy out, the door locked.

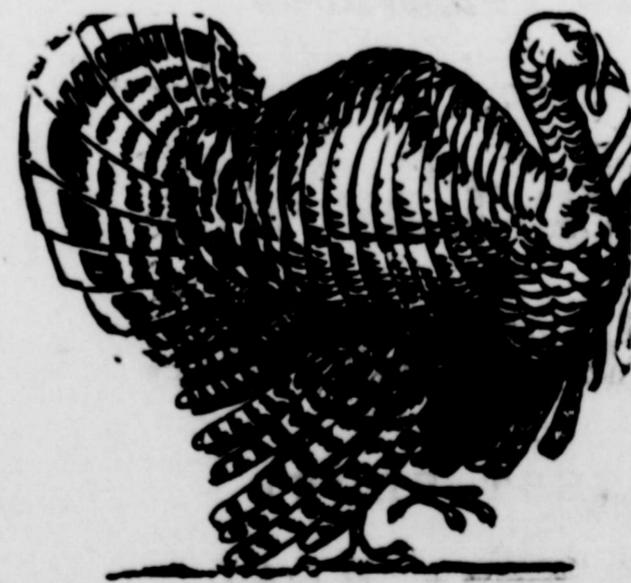

There are sound reasons why every pharmacy cannot remain open 24 hours a day, 365 days a year. Whether your pharmacist works alone or is assisted by others, his professional duties require exacting care and mental alertness—conditions he cannot fulfill if he works lengthy hours, day after day.

Like every other individual, your pharmacist requires rest and relaxation after his strenuous duties. Yet in cases of real emergency—when his science and skills are needed to preserve or save life—you will find him eager to serve with every weapon in his professional arsenal.

THIS AND THAT
 By JOE SMITH DYER

CAUSE YOU TO THINK:
 Since 1916, seven years have been added to the life-average of mortal man, and the interesting part of this information is that from a social and economic standpoint the lives that have been lengthened are in that period of late adult years.

The real gain in life extension has been made during the ages of our greatest economic productivity.

Older people are not living so much longer but they are definitely living much, much better. Fifty-two years is the present expectancy of life. Little contribution to longevity has been accomplished. This saving has been in the younger years.

Here is information that may cause you to think: During 1931 it is estimated that 1,365,000 people died.

Heart trouble took its huge toll of about 350,000. Kidney disease destroyed thousands of people, as did cancer.

Tuberculosis and apoplexy came in for their share, too.

The many other diseases that man is heir to, and that are not classed as "silent sicknesses" are enough to attract our attention; but the insidious diseases are enough to awaken any man's interest in the most important material thing that any person can think of—life and health.

THE GOLD RUSH:
 Out in the vicinity of Crescent City, California, there's a new gold

rush in full swing. Every day cars by the hundreds pass along the highways and men and women are walking through the town and heading straight for the hills. Some of them carry with them all types of tools and cooking and camping equipment. Every person in Crescent City is considered an authority on this new gold mine and many of them spend their working hours passing out information to those who have come to seek the treasure.

But — to date only two people have any faith in the project.

Assayer Albert Hey, who assayed the first bit of ore, is one who is a believer, and the other is 60-year-old Thomas Cronin, an old-time prospector who staked the original claim.

Cronin's findings show a gold content in the decomposed ore which might possibly bring anywhere from \$18 to \$75 a ton.

Cronin says: "It's actually here. This is no fake. This part of the country was never molested by the grinding forces of erosion. That's why the gold is so hard to check on, but it's here, boys, and of that I'll stake my all."

The prospectors need a small plant—a pilot plant—which will cost them around \$6,000.00 and when they get the plant they will in turn get the gold. At least that is what the two enthused men think. No mineralogist has been able to prove that Hey and Cronin are wrong.

They have tried to prove that it's all a mistake, but so far they have failed. The pastor of one of the churches at Crescent City said: "How wonderful it would be if people would manifest the same eagerness for that which is far better than gold—but not many of them do."

Little Marilyn, who had fallen ill, begged for a kitten. It was found that an operation was necessary for Marilyn's recovery, and that she must go to the hospital. The mother promised that if she were very, very good and brave, she would have the finest kitten to be found. When Marilyn was recovering from the influence of the anesthetic, the nurse heard her saying: "What a rotten way to get a kitten."

QUADS ON "TREASURE HUNT" ... after combining mischief with pleasure by exploring for Jean Lafitte's reputed buried treasures as their Halloween escapade, and reporting no luck, the golden-haired Radgett quadruplets of Galveston, Texas, decided to fill a treasure chest with themselves. The pirates are now seventeen years old.

MODERN TECHNIQUE . . . Arthur Teller, 88, of Cooperstown, N. Y., oldest photographer in the U. S., uses an ancient camera—a wooden one he built himself 69 years ago—as he prepares to photograph 18-year-old Bonnie Lynch. However, he employs the most modern posing technique a la the ship news photographer.
