a servicemen and ex-servicemer may turn your heads, for we want Emily to talk about you-

"In the past few months, I have received numerous letters from soldiers and sailors and from their families expressing the resentment servicemen feel at the way their fellow-citizens behave toward them. If we stop for a moment and think of how our peacetime attitude to-ward servicemen compares with how we felt during the war, I we will understand why many of our returning men in uniform are distillusioned and exas-

Our behavior must be a severe let-down for those who remember the courtesy and hospitality we showed them only a short time ago. The idea that we have lost interest in them must be hard to take. And the younger men-and boys-who have recently been drafted cannot help recalling bitterly the consideration men now veterans formerly enjoyed.

In wartime, my mail was filled with letters from men and women asking what they could courteously do for the men in near-by camps. Not only were there canteens everywhere, but thousands of families were always eager to take in 'lonely boys' and give them a taste of home life. The slogan of the day was, 'What more can we do?'

Today, even the home-coming of fellow-townsmen arouses little interest. Many of us have come to regard men in the Army and Navy today merely as servicemen doing another job. They do not inspire the same feeling in us as the men who ran risks overseas during the

Of course, the situation is different. Those of us whose empty seats at the table now are happily filled tend to forget that many servicemen are still not home. Others whose tables have empty places that never will be filled are trying to forget. But we should realize that today's serviceman is vision. WAA, said this week. Servicemen should remember they are our country's most conspicuous representatives, and that they set an example, good or bad.

The rest of us, for our part, ould never be lacking in respect for a tidy, well-disciplined man in khaki or blue. We should make him feel that we are backing him up as wholeheartedly as ever.

THANKS 200,000!

WE WOULD SAY "THANKS A MILLION" - BUT YOU MIGHT GET THE IDEA WE'D SOLD THAT MANY GALLONS OF GASOLINE OUR FIRST YEAR.

The above figure represents our approximate gallonage during our first year as operators of your Texaco Station No. 1. We are sincerely grateful to our many customers who have enabled us to maintain such a steady business, and hope we have served you in a satisfactory manner on each and every visit.

When you stop to think about it, that's a lot of gasoline we've put out. We started figuring the other day how many times around the world it would take one car (if that were possible); how far a line of cars would reach, bumper to bumper, if that much gas were put in them, 5 gallons to a tank; and a number of things like that. But customers kept driving up, and we had to quit figuring and go back to servicing, for after all our motto is: "Never Neglect A Customer."

So, figure it any way you want to - for statistics are always open to argument. But we can state definitely, without fear of successful contradiction, that we have thoroughly enjoyed serving you, and want you to keep coming in.

Oh, well, we might as well go ahead and say it . . .

THANKS A MILLION!

Have you a little Bulbsnatcher in your home?

THEN remember this-bulbsnatchers are made, not born. It's well enough to lecture Junior, to point out that bulbsnatching leads to eyestrain and makes homework even tougher than it is.

But that's not enough. The real answer is to keep plenty of spare lamp bulbs on hand so there won't be any need to rob one socket to fill another. So lay in a supply of extras today. And be sure you get the right-sized bulb for every seeing job.
