

Ray Cheek Captures Title In Bluebonnet '47 Golf Tournament

On the golf course where he had practically been raised, and for which he had longed during the weary war years...

The occasion was the annual tournament at Bluebonnet Country Club, and runner-up in the 36-hole final play was J. H. (Doc) Brinkley...

In presenting the winner's trophy to Ray, Herbert Sellers very appropriately remarked that naturally homefolks had a certain pride in the fact that the title had been won by a Hicoan...

Although the number of players was under average, probably due to the fact that the week-end days had prevented many from attending...

The Calcutta Pool and barbecue Friday night, held after qualifying rounds that day, were well attended and everything went off in good order.

Match play started Saturday morning for eight-man brackets in three flights, with that day and the following turned over to deciding the winners, runners-up and consolation winners in three flights.

Pen and pencil sets were given to Cecil Hobbs of Dallas as winner of the first flight, and to W. W. McCarty of Dublin as winner of the second flight.

Golf balls were presented to consolation winners in each flight, who were C. B. Mackey, champion; Johnny Thompson, first; and M. B. Shook, second.

A number of the consolation winners were decided through default. Following is a list of players and winners in the various flights as reflected by the results turned in for posting on the brackets.

Championship Flight: First Round: Brinkley defeated Mackey; Clyde Boyd of Austin defeated L. D. Hardin of Fort Worth; Jack defeated A. A. Brown, and J. L. Goodman defeated Billy Keeney.

Semi-Finals: Brinkley won over Boyd, 3 and 1, and Cheek won over Goodman, 1 up. Cheek took Brinkley at the 35th hole, after par and sub-par scores all through the match.

First Flight: First Round: Hobbs defeated Thompson; Willard Leach defeated Harry Hudson; Babe Horton of San Antonio defeated Luther Knox, and Marshall Hughes of Stephenville defeated Whitlock.

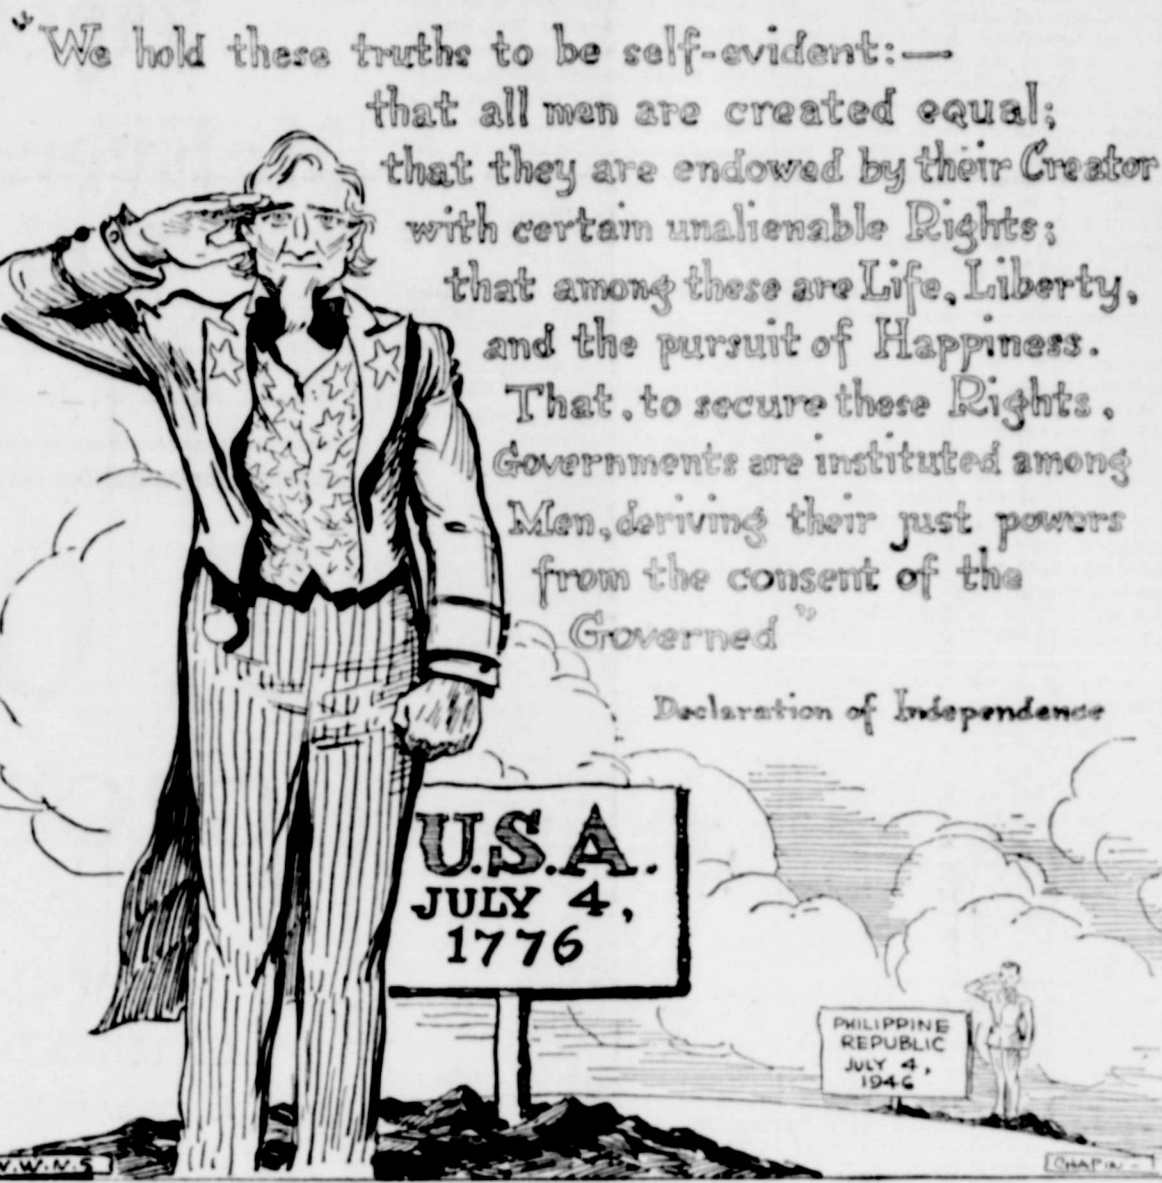

Semi-Finals: Hobbs won over Leach, and Hughes won over Horton. Hobbs was winner of the finals over his south-paw opponent from Erath County.

Second Flight: Miller of Rochelle defeated M. B. Shook; W. W. McCarty of Dublin defeated Woody Stimpson; Ray D. Brown of Mt. Pleasant defeated H. D. Hamrick, and Paul Wren defeated Sandy Ogle.

Semi-Finals: McCarty won over Miller, and Brown won over Wren. McCarty won the finals from the ex-superintendent at Hico, visiting here for the tournament.

Farm Cash Income Fulfilling Promises For 1947 Prosperity

Austin, July 1.—In terms of Texas farmers' income, 1947 was fulfilling its prosperity promises. Farm cash income totaled \$379,895,999 in the first five months of 1947 to stand 13 per cent above the total for the same period in 1946, reports from the University of Texas Bureau of Business Research.

The Bureau's seasonally-adjusted index dipped to 267.5 in May from April's 295, for a drop of 9 per cent, since the April-to-May gain was not as great as the anticipated monthly hike. (Base 1915-39-100).

In dollar value of income, however, a 15 per cent gain was chalked up during the month to bring May's total up to \$93,618,909. Greatest percent advance for the month was in the Edwards Plateau district where income skyrocketed upward 114 per cent to more than double April's total.

In actual dollar income, the Edwards Plateau district was far in front with a May total of \$14,783,909.

In the comparison with income in May 1946, gains ranged as high as the 153 per cent scored in South Texas Plains and the 85 per cent increase reported in the East Texas Timbered Plains.

Income in the period January through May showed gains in all but two districts, the Trans-Pecos area and the Lower Rio Grande Valley. Increases ranged up to the 82 per cent hike turned in by the Northern High Plains.

The Bureau's index for the crop reporting districts was highest in the Southern High Plains.

The United States leads all other countries in the number of commercial radio-telephone circuits to other countries.

Offer Awards to 4-H Girls For Dairy Food Demonstrations

Three 4-H Club girls in each qualifying county in Texas will receive honor medals this year for showing community groups how to use dairy products to make appetizing, healthful dishes.

From among the various county winners, the state extension office will select an individual and a team as state champions. Each of the three state winners will get a \$50.00 U. S. Savings Bond award.

The above rewards for superior records are provided in the 1947 4-H Dairy Foods Demonstrations by Kraft Foods Company. For their demonstrations, the girls may select any dish or combination of dishes using milk, cream, cheese or butter.

It is pointed out that by giving demonstrations, 4-H girls not only strengthen their club records, but gain self-confidence and poise through speaking before public audiences.

This is the eighth consecutive year of the activity. Last year's champion individual demonstrator in Texas was Linda Faye Williamson of Eastland. The state's highest ranking team members were Joyce Horn of Winters, and Melba Pearce of Bradshaw, County winner was named in Tarrant County.

Game Tournament At Country Club Was Well Attended

The game tournament sponsored by members of the Hico Garden Club, held at the Bluebonnet Country Club on Saturday, June 28, was well attended. Besides local people, there were guests from Cleburne, Granbury, Hamilton, Stephenville and Dublin.

Prizes which were donated by local merchants were awarded to high, low and consolation in games of bridge, rummy, and forty-two. Also attendance prizes were given.

The committee wishes to publicly express special thanks to the merchants who contributed prizes; to the funeral home for furnishing chairs; to Mr. O. C. Beck for transportability of chairs, etc., and to each member who worked diligently to make the affair the success that it was.

Children Need Immunity From Measles Attacks

Austin, July 1.—With the incidence of measles usually being somewhat high in summer time, Dr. Geo. W. Cox, State Health Officer, has issued a statement concerning the use of immune globulin for protecting very young or frail children from an attack of this perennial childhood disease and its often serious complications.

"If you have a child less than five years old who has been exposed to measles, your family doctor may recommend giving him immune globulin," Dr. Cox said. "Through city, county or state health departments, doctors can obtain immune globulin free to be used as they think advisable. Infants and children, whose health makes it inadvisable for them to suffer an attack of measles, may avoid the disease if immune globulin is administered within eight days from the time of exposure."

The State Health Officer emphasized the fact that immune globulin cannot give a child permanent protection against measles, but explained that the protection is ordinarily of about three weeks duration. However, there is no limit to the number of times it can be used, and a baby who is protected by it once can be protected by it again if exposed later. Immune globulin can go on shielding him against measles until he is old enough and strong enough to stand an attack without risking serious consequences.

During an outbreak of measles, Dr. Cox said that it is well to keep children under five years of age, and more especially frail children, from all other youngsters who might serve as sources of infection.

Statistics show that nine-tenths of all measles deaths occur in children under five years of age.

Public Urged to Hear Indian Missionary At Baptist Church

Mrs. E. Bradley and Mrs. Luther Burden have asked the News Review to announce an important service to be held at the 7:00 o'clock hour at the First Baptist Church in Hico next Sunday, July 6.

Mrs. Aaron Hancock of McAlester, Okla., missionary to the Indians, will be the speaker, and will have an interesting and inspiring message not alone for members but for the general public, to whom a special invitation is issued.

Mrs. Hancock will be Camp Missionary at the encampment for boys and girls here at the City Park, July 7 to 11. Her message will be given at the regular time for the Training Union.

Following this service, there will be preaching by Rev. O. R. Robinson of Denton, according to Robert Jackson, representing the pulpit committee of the church.

Rev. Robinson will also preach at the morning hour.

Square Dancers to Give Program At Local Gym July 24

A group of local square dancers, who have been meeting weekly at the Bluebonnet Country Club for the past several months, have agreed to put on an exhibition at the Hico School Gymnasium on Thursday evening, July 24, according to announcement this week from E. C. Allison Jr. Proceeds of the entertainment will go to the Victory Class of the Methodist Church, he said, on behalf of the committee which is composed of himself, Mrs. J. B. Ogle, and Morse Ross.

Music will be provided by a local string band, which has been cooperating with the square dance team since its organization. A number of Hico men and women have been participating in this form of entertainment, and it is reported that they have grown very proficient in the art of square dancing. A bus load of them went to Gatesville last week upon invitation from a similar aggregation from Coryell County, and had a most enjoyable time while picking up a few new tricks.

"We feel that in this public exhibition we have something worthwhile that the general public will be interested in," Allison said. He asked that the readers watch for further announcements about the program in the local paper, and stated that tickets which would be sold at nominal admission prices could be obtained at the Corner Drug Store.

WEATHER REPORT

The following weather report is submitted by L. L. Hudson, local observer:

Economist's Visit Shows New Trends In Home Equipment

In reporting some of the highlights of the annual meeting of the American Home Economics Association which she attended in St. Louis, Mo., June 23-26, Miss Hannah Nabors, Electrification Advisor of the Erath County Electric Cooperative Association, states that all phases of home economics were represented on the program and by exhibits, but much emphasis was placed on new trends in food and equipment. Some of the new trends in household equipment as discussed at one general session by Oneta Luter of the REA, Washington, D. C., and by Elizabeth Beveridge of Woman's Home Companion of New York City are as follows:

Frozen food units are in the headlines, with still a little uncertainty as to size demand, but with a tendency for trading in smaller units for larger units. The cabinet type predominates. Demand in refrigerators leans toward more storage for frozen foods. Some interest expressed by a recent consumer survey suggests adjustable shelves, large space for ice cubes, ice cube release, and foot pedal for opening door.

Washing machine consumer survey revealed interest in safety devices, enclosed motor, wringer rolls to save buttons, durable tubs and easy to operate drains. In the automatic types there was interest in machines with adjustments in height and in keeping machine steady in addition to means of water softening.

On irons, the survey showed that sinking requests were for slender point, thermostat, slot or grooves for buttons, and steady rest. Cooking utensil wants were heat resistant handle, tight-fitting covers and flat bottoms.

Another trend in the food picture for future consideration may be electronic cooking. Some day housewives may be doing a roast in a flash by simply electrocuting it—that is, sending current crackling through the meat by electronic cookers. This process is still in the experimental stage, and not feasible for home use at present.

Discussion on Food and Nutrition Research brought out many interesting factors in freezing, canning, preparation and storage.

OPENING NEW BEAUTY SHOP

Mrs. John Henry Munnerly announces this week the opening of her new beauty shop on Saturday, July 5, under the name of Deluxe Beauty Shop.

The location is in the Corner Drug Company building, in the offices formerly occupied by Dr. H. V. Hedges.

Extensive repairs and modernization have been under way this week and all new equipment will be found in the shop. Ruby Lee says, and she will be glad to have the public call and inspect her new quarters.

KEEPER OF THE KEY... Paul M. Fulks of Wolfe City, newly-elected president of the Texas Press Association, is shown at left receiving from Walter Humphrey of Fort Worth, retiring president, the golden diamond-studded key to the Texas Treasure Chest at the State Fair of Texas upon his election by the press group last month in Amarillo. The golden key, which is

being passed down from president to president, will be used 39 years hence to open the treasure chest on the 100th anniversary of the State Fair. Embedded in 1938 in a monument to the founders of the State Fair, the chest contains historical documents and copies of more than 100 Texas newspapers. Mr. Fulks is publisher of the Wolfe City Sun and Mr. Humphrey is editor of the Fort Worth Press.

**The Picnic Was a "Hug" Success!**

Our local Wild Life League went on a picnic Saturday, and I went along to cover it for the Clarion. Monday, folks kept stopping me, and saying: "Must have gotten out of hand, that picnic!"

"Nonsense," I says. "It was mighty pleasant and congenial. Just beer and hot dogs, cheese and cider." And then they show me the headline reading: "WILD WIFE PICNIC HUG SUCCESS."

Of course it was Elmer, my type-setter, who had made the misprints: But is my face red! It's only be-

cause folks are so temperate and well-behaved in our town, that they could afford to take the whole thing as a joke.

From where I sit, even a newspaper editor's entitled to a few mistakes. And since I reported that they served a moderate beverage like beer, I'm sure nobody thinks the picnic was the least bit wild, or anything but a huge success—and I mean huge!

**Hamilton-Coryell Soil Conservation District News**

Board of Supervisors: C. M. Tinkle, Glenn Riley, Elmo Newson, Virgil Lockhart, and Sam Powell. Clovis Belvin of the Liberty Conservation Group has reduced the number of livestock on his pasture to encourage rapid recovery of the original grasses. He reports that already signs of improvement are noticeable in the instance of increased vigor of plants. This increased top growth is accompanied by increased root system development. This top growth also gives protection against soil erosion, which is started by raindrop splash. Still another beneficial result of larger amounts of above ground development of grasses is the accumulation of residue or aftermath which nature uses to improve soil.

C. W. West of the Land Valley group has built a new fence dividing his pasture into approximately two equal parts, thus permitting him to practice rotated grazing of his pasture grasses. The experience of a number of ranchers indicates that rotation of grazing at the proper time and in regular, systematic order or sequence increases annual production of forage 25 per cent, aside from other concurrent benefits.

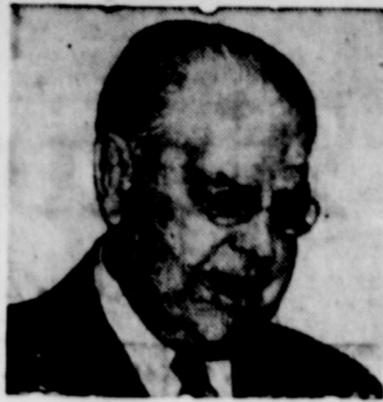

S. E. Richerson, six miles north of Hamilton in the Elza Conservation Group, reports that oats this year on land that was in vetch fertilized with 200 pounds of acid phosphate last year produced two and one-fourth times as much as on similar land in the same field but not in vetch last year. In addition to the increase in grain there was a much larger amount of straw for soil mulch.

Jimmie Schrank of the Pottsville Conservation Group is making preparation for building needed terraces on his farm with his own farm equipment. A number of Cooperators with the Hamilton-Coryell Soil Conservation District have proven that this can be economically done by following the procedures set up in the District plan of work.

The first newspaper report to be transmitted by telephone was sent from Salem to Boston, Mass. in 1877.

## HOUSE AND HOME

By MARY E. DAGUE

Author of Sister Mary's Kitchen

**JUNE** brides are July housekeepers with their housewifely cares heavy or light according to their experience. Marketing, meal planning, cooking and cleaning fill days

that were formerly spent some other way. So in order to accomplish all your housekeeping duties and also have some time for other interests and activities you will have to work out an efficient system.

In the first place don't dandle about your work. It's a habit that grows on you and is extremely tiring. Not that you should hurry and rush through tasks under nervous tension but train your hands to move quickly and surely without unnecessary motions. Plan your work and allow yourself a reasonable amount of time for each job. Don't be discouraged if your work seems to go slowly at first. That old saw "Practice makes perfect" applies to housekeeping just as aptly as it does to a golf stroke or running a typewriter.

It's a good idea to plan meals at least three days ahead. That reduces marketing to twice a week and saves a worth while amount of time.

Make it a rule never to let yourself be entirely out of any staple article. Reorder supplies at least three days before you will need them. Keep your emergency shelf well stocked.

I once knew a girl who was the soul of neatness and order after she went into her own home as a bride. But before her marriage she was utterly careless of all her possessions and of other people's time. It's so much easier to put things away when you are through with them than to wait for a regular "clearing-up time." "Order is Heaven's first law," you know, so why not make it the first law of Home.

### Fairy

By Mrs. J. O. Richardson

Another week has passed by and we are still having high winds and dry weather. We hope next month will bring some rain and several times we have seen the temperature down low enough on July 4th to make us dig out our coats, but think we'd be willing to wear the coat this time, if we can only get the moisture.

Most of the grain has been combined and a few threshers are making short runs, which will be finished soon.

Mrs. Gladys Cox is in Austin at this writing (Sunday) for a few days' visit with her daughter and husband, Mr. and Mrs. Charles Price.

Mr. and Mrs. Printis Newman attended the funeral of her uncle, Mr. Alf Pederson, at Cranfills Gap last week. He suffered a heart attack while assisting in loading grain with a threshing crew, and passed away before a physician could be summoned. He was 69 years old and had never married.

Several from here attended the rodeo at Hamilton over the week end.

Rev. Stanley Giesecke filled an appointment at the Church of Christ Sunday morning and Sunday night.

Mr. and Mrs. Lester Betts returned last Thursday to their

home at Stillwater, Okla., after a three weeks' visit here in the company of their daughter, Mrs. T. L. Betts.

Mrs. Sybil Flowers and son, Farrell, of Fort Worth are still visiting here in the home of her uncle, Mr. and Mrs. W. E. Goyne, and daughters. She has been employed for a number of years and states this is her first vacation in 22 years. So it seems she is due a vacation.

Mr. and Mrs. Edwin Selheimer and Danny of near Hamilton visited Sunday in the home of her parents, Mr. and Mrs. Edd Allison, and brother, Texie. In the afternoon they and other relatives visited Mrs. E. C. Allison Jr. of Hico who underwent an operation at the Hico Hospital last Monday.

Mrs. J. C. Sills is visiting here at this writing in the home of her daughter, Mr. and Mrs. Bill Lackey and son, Mr. and Mrs. Herman Sills and family. She has been making her home with the children since her recent illness a few months ago. She is much improved and thinks she will soon be able to resume her own household duties again.

Mr. and Mrs. Vernon Moore had moved to the Cow Park place west of Fairly, recently vacated by Mr. and Mrs. Dooley Whitaker and sons. We were informed that the Whitaker family moved on the Miers place below Lanham.

Mr. and Mrs. Wade Roe of Fort Worth, who were recently married, spent Sunday here visiting her parents, Mr. and Mrs. Nat Grimes and family. Mr. Roe is employed with a transit company and Sunday is his only day off duty so ladies of the Church of Christ arranged a miscellaneous shower for them Sunday afternoon at the home of her parents, Mr. and Mrs. Nat Grimes. Those present for the occasion were Mr. and Mrs. J. T. Jackson and daughters, Mary, Louise, and Gwendolyn; Mr. and Mrs. E. Z. Brummitt, Mr. and Mrs. Whitlock and daughter, Mrs. Eileen Copeland, Rev. and Mrs. Stanley Giesecke, Mesdames W. E. Goyne, H. C. Beck, M. E. Parks, J. O. Richardson and Brittle Little, Mrs. Herman Sills and daughter, Jo Ann, and the honorees, Mr. and Mrs. Wade Roe and her parents, Mr. and Mrs. Nat Grimes, and sisters, Otha May and Ola Frances. All enjoyed an hour or more of sacred singing after which the happy couple unwrapped the gifts and passed them around for inspection by the guests. Many who were unable to attend sent gifts. They received many nice and useful gifts, two of which were two nicely quilted quilts given them by Mr. and Mrs. Ernest Brummitt and Mr. and Mrs. Herman Sills, and a nice set of ivory dinner ware given by her parents. They expressed their thanks and appreciation to all

Below are names of recent donors to the cemetery fence fund: Mrs. Brittle Little, \$2.00; Mrs. Emma Ogle, \$5.00; Mrs. Ada Jameson, Titus, Ohio, \$5.00; and Mr. J. M. Grisham, \$10.00. This brings the fund up to something like \$270.00 cash, and better than \$60.00 has been spent for posts. We would like to see the work started as soon as the rush of farm work is over, and help can be secured, and urge all who expect to help on the fence to do so as soon as possible. We thank these latest donors and hope others will see fit to help on this worthy cause.

Author of "HOW TO WIN FRIENDS and INFLUENCE PEOPLE"

HE WON BY LIKING PEOPLE

IN New York City there is a group called the "Mexico Pilgrims." They are Americans and British who formerly lived in Mexico. Two or three times a year they have a dinner to honor someone who has done outstanding work in that country.

Recently, while the committee was having a meeting to arrange a forthcoming dinner, they fell into a discussion and challenged each other to name an American who had made a million dollars in Mexico. They named one man after another, but most of the men named had only added to their fortunes by development work in Mexico. Finally they agreed that only one American had ever made a million dollars in Mexico. And that man was Harry Wright.

He had made it, for the most part, in the steel business. He sold "La Consolidada" Steel plant to New York capitalists for five-and-a-half million dollars.

He was the most famous American business man living in Mexico. In his home he had, for that matter, the finest private motion theatre in the world.

The day Harry Wright arrived in Mexico there was a cloudburst and the streets were so flooded that he couldn't cross. Peons were carrying people across on their backs, so Harry hired one of them to move him from one sidewalk to another. So that's the way Harry Wright came into Mexico—on manback. Some enter on muleback, but Harry says he is the only American who ever entered on the back of another man.

The Mexico Pilgrims then talked about why Harry Wright had had such outstanding success in Mexico, and they came to the conclusion that much of it stemmed from the fact that the Mexicans liked him. He made friends with them and was able to work in close cooperation with them, when other Americans had failed. Until 1942 he was the only foreign director of any Mexican bank; this one was the Banco de Comercio.

He says that the reason he was able to work with the Mexicans was—First, he tried to understand them, to accept their ways which were different from ours. Second, he showed them that he liked them and evinced friendliness for them. Third, he did favors for them. Fourth, he refrained from criticizing.

He introduced baseball into Mexico, and this the Mexicans liked. Later he introduced golf, and this the business men liked. Still later he introduced the "Black and White" Balls which became a famous national institution in Mexico.

This Week in WASHINGTON

Congress Acts On Small Business Legislation

The committee for economic development, probably the most responsible representative of small business in Washington, through Paul G. Hoffman, has just issued recommendations for legislation which would involve a long-range tax adjustment program, aid in management and custom-tailored financing as necessary for the progress of small business.

And apparently this program is in exact reverse of the one that now has been adopted by this congress, which slashed the appropriations for the "county agent" system for small business aid to management set up in the department of commerce, and which now urges curbs to financing small business.

For instance, the report of the senate and house small business committees of the 79th congress urged just what CED is asking, and in addition urged curtailment of monopoly. The present house small business committee, however, under chairmanship of Cong. Walter Ploeser (R., Mo.) intends to curtail "unnecessary financial assistance to business," investigate tax exempt privileges of farm cooperatives and "foundations and the alarming fact" that in the last 20 years there has been an enormous extension of the operations of government into the sphere of private enterprise.

So Congressman Ploeser, instead of curbing monopoly of big business, intends to investigate big government instead, which is quite a shift in emphasis from the recommendations made in the house small business committee in the last congress.

"There must be a complete recasting of the tax system, not just a tinkering with tax rates," Paul G. Hoffman said, and "there is reason to hope we can get congressional consideration of the tax problem on an economic and not a political basis." Most revolutionary of the CED proposals was the recommendation that "capital banks" be established to provide small business with funds for expansion and development, and the suggestion that these banks might make funds available by purchase of securities, including stock in which case the bank would share in the profits.

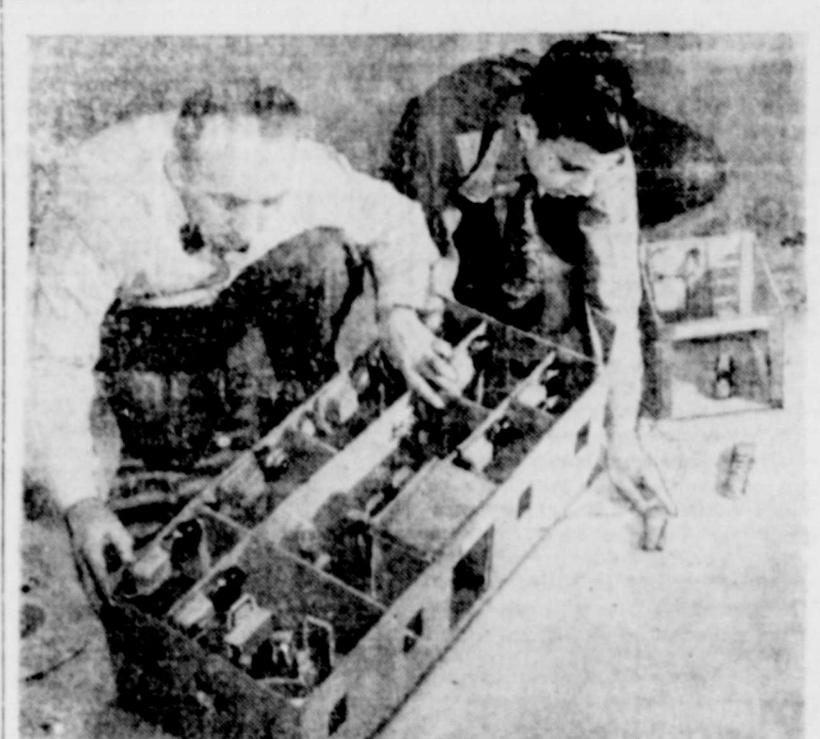

There has been so much talk about the senate version of the Hartley labor bill being so much more "moderate" than the house version that most folks have accepted the bill as not detrimental or punitive toward labor unions.

The fact is, Senator Taft admitted on the floor of the senate that even newspapers published by labor organizations could not, under the bill, take a stand one way or another on any candidate for office and neither could a labor leader such as William Green or Phillip Murray go on the radio for or against any candidate for office. Such Senators as Pepper, Morse, Tobey, Aiken, Taylor, Barkley and others declare this provision constitutes violation of the freedom of speech and press rights.

The house small business committee has started its investigation of various government agencies charged with competition with private business. First to be investigated were the federal barge lines. These were established 25 years ago to provide freight service for small shippers along the Mississippi waterways covering routes which were unprofitable for private operators. The barge lines concentrate on less than barge lot shipments for small plants between New Orleans and Minneapolis. The private barge operators now argue that the federal line has consistently lost money, is inefficient and cuts into their business. Backing the private operators are the railroads who say the government's barge line gives them unfair competition. Steel from Chicago to New Orleans by rail costs \$13 per ton. By barge it costs \$4.55. But shippers argue if the federal lines are discontinued their shipping costs will soar.

President Truman's citizen advisory committee on universal training used military training for all boys just as one segment of "musters" for future security of the nation. Other recommendations included stock-piling of essential materials, industrial mobilization, scientific research and development, a coordinated intelligence service, a strong air force and a unification of army and navy. And it repeats throughout the report that immediate action is "urgent."

WORK WENT OVERBOARD... When the longshoremen, members of the A. F. of L. union started their strike on the S. S. American in New York harbor, they decided to take it easy. The unions refused to work under the "no contract, no work" slogan. They called it a "lockout." Two unions acted in sympathy.

TEACHER AND PROTEGEY DISAGREE... Presidential aspirant Harold E. Stassen, right, and his one-time political protege, Sen. Joseph H. Ball (R., Minn.) recently engaged in a lengthy debate over the closed shop issue and accused each other of sponsoring "too drastic" labor reforms.

MORE FLOOD WATERS... As reports continued to come in on new floods in the country, such scenes as this were common along the raging Des Moines river, as more than 10,000 persons were forced to leave their homes. This photo taken near Ottumwa, Iowa, shows a small boat bearing women and children to safety from the flood waters.

# THE KNOTHOLE

By ELLIOTT PINE

**NWNS Sports Writer**  
A British middleweight, Randolph Turpin, is being hailed as the most promising fighter England has developed in many years. The 19-year-old lad, recently discharged from the Royal navy, has battered out a spectacular string of quick victories mostly knockouts.

When he matures he will probably become a light heavyweight. British fans want him to make a barnstorming tour of the U. S. Last year he kayoed Harold Anspach, American amateur welter champ.

Miami's Orange Bowl is being enlarged by 22,800 seats, to a total capacity of 60,000. This makes it the largest stadium in the Southeast.

Babie Bradshaw Zaharias won the British women's amateur golf championship while nursing a sore thumb, one refused to mention her injury until she had the coveted contest in the bag, lest it be thought that she was preparing an alibi to man of defeat.

Mr. Malcolm Campbell, British sportsman whose hobby is breaking speed records, is fitting jet engines on his motor boat, the Bluebird. He hopes to travel more than 150 miles per hour on Lake Coniston, England, beating his own record of 142 mph. Until 1939 he held the land speed mark with his super racing car, of more than 300 mph.

A new camera for sports events has been developed similar to the type used by the air corps. It has an F 5.6 lens, color-corrected, with a focal length of 40 inches. It can take clear shots of action 420 feet away, which means it can cover any part of the field. First of the new "Big Bertinas" is owned by the Chicago Daily News.

Yale and Harvard shell crews met on the Thames river, in New London, Conn., for the 82nd time since 1882, after a lapse of six years during the war days. This is the oldest competition of its kind in the country. The event used to be full of social glamor and color, but this year it was relatively drab, with only a few small yachts in attendance. Harvard won the four mile race in 20:40. Harvard has won eight times in a row since 1936, this victory asking the ninth.

#### FOR NEXT SPRING'S GARDEN

Right now, weeds, lawn clippings and other types of growth around the house are plentiful, and these can be put to a good use if you'll put them all together in a compost pile to use in your garden next spring.

Compost, you know, is a decayed mixture of soil and plant or animal matter, and it can come in handy as a means of improving the physical condition of your garden soil in growing seedlings for transplanting, or for mulching. Extension horticulturists at Texas A. & M. College say that you can make good compost by first piling your soil and organic materials, such as barnyard fertilizer or lawn clippings, in layers. Between each layer of organic material, put in a two to three inch layer of soil. Then every three or four months, turn or stir the heap. Now an important point to remember is that the compost heap must be kept moist at all times, to keep that rotting and decaying process going. Usually, in about 12 months time you'll have a good supply of compost.

#### JOBS FOR SODA

From the U. S. Department of Agriculture household specialists come some tips for homemakers on the use of baking soda for cleaning jobs around the house.

You can use soda, say the specialists, as a gentle scourer for stains on china, pottery, glass or cooking utensils made of enamelware or glass that would be scratched by rougher scouring materials. For example, tea or coffee stains on china cups may be removed by rubbing with a damp cloth dipped in soda. Don't, however, rub soda on gilt decorations on china.

Soda will also help soften food particles that have scoured on enamelware or glass . . . and it's also good for washing the refrigerator or rinsing out vacuum bottles.

Brightening silver is another use to which soda can be put, the specialists say. For a fast silver cleaning chore, fill an aluminum kettle with water containing salt and soda . . . one teaspoon of each to a quart of water. Bring the water to a boil, lay in the silver and continue boiling for just two or three minutes. Then remove and wash it. Some housewives keep an aluminum cup of hot water containing soda beside the dishpan when doing breakfast dishes. Into this cup go spoons or forks discolored by breakfast eggs or any food. By the time the dishes are done, the soda has made the silver bright again.

# IREDELL ITEMS

by Miss Stella Jones, Local Correspondent

## Mrs. C. S. McLaughlin

Louella Parks was born December 9, 1893, in Iredell, Texas, the daughter of Mr. and Mrs. J. E. Parks, now deceased, and passed away June 24 at her home in Houston.

She was married to C. S. McLaughlin on October 31, 1919. To this union one child was born, Twila Jo. Mrs. McLaughlin professed faith in Christ at an early age and joined the Baptist church and was a faithful servant for Christ since that time. She was a regular attendant at her church at all services.

Iredell was shocked when the news came that Louella was dead. She and her husband had been at the home of neighbors to spend a while; when they got home and got ready for bed, in a short time he heard her gasping and got up and turned on a light. A neighbor and a doctor were called, but by the time the doctor arrived she was already dead. It was a shock to all, but those things will happen. She had been about as well as usual. Louella spent most of her life here and she was born here and had many friends and all loved her. She was a friend to all, and did all the good she could for all.

She was a fine singer. She would sing a great deal at her church. She would sing solos, and now she is singing in the Glory Land in a choir that will never break up.

I knew the deceased all of her life, and considered her to be a fine woman. She had a smile and a hearty handshake and a cheerful "Good morning" for one and all. She was the same every day, and treated all alike, and no doubt it can be said of her, "She hath done what she could." She was a devoted wife and mother.

The undertaker from Hico went after the body and it was brought to the home of her sister, Mrs. John Wyche.

The funeral was held at 3:30 p. m. Wednesday, June 24, in the Baptist church where she had worshipped for many years. The Hico funeral home had charge of the funeral. Rev. Blair, a former pastor, now of Cisco, brought the funeral message which was very appropriate. He was assisted by Rev. Tension and Rev. Norris. A large crowd of relatives and friends attended the funeral and through respect for her memory the business houses were closed for the afternoon.

She certainly looked very natural, as if she were asleep. From the good Christian life she lived we know she is at rest. Her influence will live on.

The floral offerings were very large and beautiful, and the following were flower bearers: Mrs. Hayden Sadler, Mrs. Rance Phillips, Mrs. W. J. Cunningham and Misses Eleanor Helm, Bettye Bradley, Jamie Lou Earley and Joyce Faye Whitley. The following were pallbearers: John L. Tidwell, R. L. Mitchell, Roy Moore, J. E. Laurence, Bill Russ, and Arkie Holden.

She was laid to rest in the new cemetery. She is survived by her husband, C. S. McLaughlin, of Houston; her daughter, Mrs. Joe Silvers, Pecos; two grandchildren, two sisters, Mrs. Van Wilson of Arlington and Mrs. John Wyche of Iredell, and two brothers, John Parks of Iredell and David Parks of Graham. Also left to mourn her passing are a host of nieces, nephews, other relatives and lifelong friends. She will be missed very much by her husband, especially, who is left very lonely, and by her daughters. All her relatives and friends will miss her.

Out-of-town relatives attending the funeral were: C. S. McLaughlin, Mr. and Mrs. Bill Russ, and Mr. and Mrs. Arkie Holden of Houston; Mr. and Mrs. Joe Silvers and children of Pecos; Mr. and Mrs. David Parks of Graham; Mrs. W. R. Newsum of Big Spring; Mrs. Bob Scott and son and Miss Witcher of Arlington; Mr. and Mrs. Bill Ross and children and James Wyche of Odessa; Mr. and Mrs. Roy Brannon of Comanche; Rev. Blair of Cisco who was accompanied by two men from Gorman whose names I failed to get, and Mrs. Lane of Hico.

The relatives have the sympathy of their friends in the loss of their loved one.

tripped over last night, yet they are afraid to mention the matter either to Mr. Onesjay or the police officers. They want the editor to start all the reform movements, do the work, take the responsibility and accept the blame. Then, there are other persons, when the editor embarks on some reform which he thinks is in the interest of the citizens generally, who jump up and get sore at him and cause him to run the community and tell folks what they ought to do and ought not to do. Of course, the editor does sometimes overstep the bounds like all folks who talk to the public, such as preachers and editors and writers and leading politicians and statesmen, and may attempt to tell the world too much of what it ought to do, and of course this is not so good because the editor ought to realize (as he generally does) that he has his limitations and opinions are not always perfect.

"All in all the editor who tries to do a good job of reporting the parties and social events of his community in writing editorials which he thinks are constructive, finds himself in hot water from time to time.

"Sympathize with the poor editor sometimes, folks; see if you can't understand his problems and cooperate with him better, and overlook some of his mistakes."

After noting the trials and travails of the above contemporary, the NR skipper feels that his present good fortune is due to one of two things. He is pusillanimous enough to disregard some of the accepted obligations of an editor—or he is over-exercising his prerogative by depending too much on a working wife, a cotton-headed cohort and a titian-tressed tyro. At any rate he isn't getting any more stomach ulcers worrying. When his career is ended, let it be said, "He done the best he knowed how." Until then, he wouldn't feel natural without a lot of cajoling and kidding, which seems to be inseparable from true friendship and regard. Anyone in public life who is not criticized is not doing much.

**Milk Does Not Cause Cancer**

By Dr. J. B. Warren

*THEY DON'T KID US*

A few years ago some earnest but not well informed writers warned the public that milk caused cancer because the American Indian did not die of cancer as he drank little or no milk. The average life-span at his time was 30 years, whereas the average life span today is 65. More than 90 per cent of the deaths from cancer occur in persons over 40 years of age. Fortunately all ages today drink milk which is an all-round food.

**Church of Christ**  
The religion of Christ is not negative but distinctly positive and aggressive. Its philosophy goes beyond the three monkeys who "See no evil, hear no evil, say no evil." Christianity involves doing no evil but likewise involves doing good. When a person neglects to do the right thing his religion is inadequate and God counts him a sinner.  
July 3-13 are our revival dates. This is your invitation.  
Bible study, 10 a. m. and 7:30 p. m.

Popular bidding on electrical equipment supplies will be conducted by the Customer Service Center of the Grand Prairie regional WAA office until June 30. Flashlights, fluorescent lamps, fuses, and photo lamps are included in the lot. Priority groups have had previous opportunity to fulfill their needs from this category. It was announced.

Telephone statistics show that about 1,322 calls are made on the average American telephone each year.

**ENGAGEMENT OF HICO BOY TO GATSVILLE GIRL TOLD**

On Thursday evening, June 26, Mrs. Andrew Kendrick, Mrs. Bailey Curry, and Mrs. Allen Graham of Gatsville entertained with a buffet supper at the Kendrick home, 402 S. 14th Street. The supper was given in honor of their niece and daughter, Louise Graham, to announce her engagement and forthcoming marriage to Billy McKenzie of Hico. Pieces of white satin ribbon concealed in balloons bore the inscription "Billy and Louise—July 12, 1947." The guests had to burst the balloons in order to learn the wedding date.

Bowls of flowers were placed at vantage points about the living room and dining room. Places for four were set at each of four small linen-covered tables in the living room. The place cards had tiny gold rings in each corner, representative of wedding bands, and white satin ribbon tied through the rings. The menu consisted of cold slices of ham and roast beef, deviled eggs, stuffed olives, pickles, potato chips, pineapple salad, hot rolls, iced tea, apricot sherbet, and Toll House cookies.

Those enjoying the courtesy with Miss Graham were Mrs. H. L. McKenzie of Hico, mother of the groom-to-be; Mesdames Lloyd Ivy and Ray Byrom, Misses Bonnie Fowler, Lela Beth Fowler, Harvill Hamilton, Marian McMurray, Martha Fay Eubanks, Patsy Sogtherland, Gwendolyn Hayes, Billie Gene Freeman, Betty Jean Graham and the hostesses.
