## Hico Rodeo Offers First Big Performance Under Lights Tonight

**Weekly SURPLUS NEWS WAA**

Wheat ranchers and others in the Texas Panhandle area will soon be able to reap a harvest of surplus camp buildings from the Amarillo Army Air Field. The War Assets Administration is announcing this week plans for staging a spot bid location sale of about 700 of these air field buildings July 7 and 8. No priorities will be needed to buy any of these buildings, which include many suitable for conversion to grain storage and other agricultural use. Public inspection of this property is scheduled to open June 28 and continue through July 6.

Unusual activity of top priority federal agencies including the military has resulted in withdrawal of more than half the inventory of surplus property planned for a South Texas War Assets offering on June 25. About 100 lots of assorted consumer goods, with a valuation cost of \$125,000, will remain for buyers, however. Inspection is invited at various sites where the property is stored, including Fort Sam Houston, San Antonio Warehouse Number One, Crystal City Internment Camp, the Port Aransas Naval Installation, Chase Field (near Beeville), and the Hondo Army Air Field. All bidding and awarding will take place at the San Antonio warehouse.

Houston will be spotlighted by disposal activity during the next two weeks. Auto parts, electrical, valve and pipe fittings will go on sale at the Sheffield Steel plant on June 30 and July 1. The following sites in Houston will be cleared in another War Assets bid sale July 3: Reed Roller Bit plant, WAA Warehouse 6, Hughes Tool Strut Plant, Goodyear Rubber Co., Converted Rice Factory, and the former War Assets Customer Service Center. Hand tools, portable phonographs, aviator bags, furniture and marine equipment originally costing nearly half a million dollars, are being assembled for this big clearance.

Cities, counties and other eligible priority claimants will get a chance to acquire another fine piece of airport property now up for disposal in WAA inventory. The property is the Somerville Auxiliary Field Number One which originally served Bryan Air Field and is located 16 miles south of Bryan, Texas.

Surplus airfield buildings at Aloe Airport, Victoria, and Jefferson County Airport, Beaumont, are currently up for disposal to priority applicants or other buyers who will use them in place. At the Aloe Air Field, the priorities have until July 5 to submit purchase offers on 36 buildings with their attached fixtures and utilities. Offers from the priority claimants and the general public will be considered for various buildings and improvements at the Jefferson County Airport until June 28. Awards will be made by WAA's Grand Prairie office.

### Workout Promises Prevue of Big Show Set for July 4th-5th

Daytime week end performances at the Hico Rodeo Arena were discontinued last week on account of the heat, and to allow improvements and additions in preparation for the first show under the lights which is scheduled for tonight, Friday, June 25, starting at 8.

Preparations are going forward on the big show announced for July 4 and 5, according to a report from the owners and operators, Wallace Ratliff, J. B. Ratliff, Bob Hancock, Donald Hefner and R. Koonsman. Much interest is being displayed and indications are that there will be a number of entrants from great distances joining the locals who are all pepped up over the occasion. Business men and citizens in general have been very cooperative, the owners report, and their interest, donations, and help in advertising the affair is fully appreciated.

Next week's paper will carry full details of the various events to be featured in the big rodeo on July 4 and 5. Meantime the general public is invited to come out Friday night of this week to see just how well the operators have the premises fixed up, and what kind of stock they have secured for plenty of action in these popular performances.

### Accepts Invitation to Address Ex-Students Of Grayson College

J. N. Russell advises that he has accepted an invitation to speak at the annual meeting of the Grayson College Ex-Students Association, Mr. Russell, an alumnus of the pioneer educational institution which has not been in operation for the past half century, has been chosen as his subject for the address, "Events of Fifty Good Years—With Comments," and has so advised H. A. Cunningham of Bonham, chairman of the annual gathering, from whom the invitation came.

### SEPERANNUATED MINISTER AND WIFE MOVE TO THEIR RANCH HOME NEAR HERE

Rev. J. H. Baldrige and his wife have recently moved to their home near Hico, where he will supervise ranching. Rev. Baldrige is a superannuated Methodist minister after having served forty-one years at the following locations: Duffau Circuit, Stephenville Circuit, Riverdale in Fort Worth, Winters, Meadowbrook in Fort Worth, Mexia, District Superintendent of the Gatesville District, Ennis, Olney, Dublin, Corsicana, and Winters.

The veteran workers in the Methodist church have a host of friends throughout this community who will welcome them as permanent citizens.

Nine chapels, located at Camp Joseph T. Robinson, Little Rock, Arkansas, are being offered to priority groups, including non-profit institutions such as churches. The churches are for offsite use only. Applications, submitted on special forms, will be considered at WAA's Grand Prairie office.

NEW PREXY GOES TO WORK... Without benefit of formal ceremony, Gen. Dwight Eisenhower is pictured on his way to work as 13th president of Columbia university. With him here is his aide, Maj. Robert L. Schultz. Official academic ceremonies marking his installation will be held in the fall, some time after the opening of the university year.

## Hico Reunion Parade Prizes Announced

### GIRL SCOUT LEADER CHARTS PROGRESS OF EACH MEMBER

We had twenty girls present at our meeting Monday night. We had seven girls absent.

Our Scout Leader, Miss Blair, has made a chart. It shows what each girl has done. If she has passed her tenderfoot test, she has a red star. As she completes each field of her second class badge, she receives a blue star and when she has completed one thing out of each field she has now passed her second class test. She then receives a silver star, and when she completes her first class test she receives a gold star.

Every girl has completed her tenderfoot test and three girls have completed their second class tests. These girls are Joan Parker, Genell Elder and Imogene Elder. Several more girls have theirs almost completed. Most all of the girls are working on theirs. "A Girl Scout Is Loyal."

### "Anything Goes" Is Starlight Operetta's Offering Next Week

Glamorous Gertrude Niesen, the sultry-voiced songstress who scored a sensational success last season in the Starlight Operetta's production of "Roberta" with her rendition of "I Want to Get Married," returns to the State Fair Casino, Dallas, for the week beginning Monday, June 28, to star in "Anything Goes," first musical comedy on the Starlight's 1948 schedule.

The Casino stage will fairly teem with celebrities during the presentation of "Anything Goes." Aiding and abetting Miss Niesen in her footlight escapades will be one of the greatest supporting casts ever assembled for a Starlight production.

Heading the Hollywood contingent will be Arthur Treacher, the noted English actor who has been seen in hundreds of films as the impeccable butler. Also from Hollywood comes June Preisser, lovely starlet. Coming to Dallas from Broadway are Romney Brent, Theatre Guild star; the beautiful Xenia Bank, handsome Archie Robbins, Helen Raymond, and others.

Music for the production was written by Cole Porter and includes such exciting tunes as "You're the Top," "I Get a Kick Out of You," "Blow, Gabriel, Blow," "Where Are the Men?" "All Through the Night," "Lady Fair," and "Anything Goes."

An internationally renowned quartet of humorists were responsible for the hilarious story of "Anything Goes" which will see Miss Niesen as a night club singer who fell in love with Treacher. The book originally was written by P. G. Wodehouse and Guy Bolton and revised for Broadway production by Howard Lindsay and Russell Crouse.

### List Offers Largest Incentive Ever for Gala Decorations

At a meeting of the parade committee of the Hico Reunion Association, held this week, it was decided that this would be made the biggest and best reunion that Hico has ever had.

S. J. Cheek, veteran manager of the annual affair who has accepted responsibility for putting over another celebration in grand style, has named the committee to take care of the parade arrangements, consisting of Bill Coats, Wallace Ratliff, Bill Norton and Morgan Moon.

At this week's meeting of the parade committee, the following prizes were decided on:

- Best Decorated Float or Car, \$25.00.
- Second Place in above, \$15.00.
- Best Decorated Bicycle, \$2.50.
- Best Rider and Horse (Women), \$5.00.
- Best Rider and Horse (Men), \$5.00.
- Most Comical Entry, \$5.00.
- Best Out of Town Entry, \$15.00.
- Best Band, \$15.00.
- Best Square Dance Team, \$25.00.
- Second Place in Square Dance, \$15.00.
- Out of Town, Farthest From Home, \$10.00.

On the morning of the first day of the Reunion, a booth will be set up on the bank corner where registration of out-of-town guests will take place up to parade time. Stores will be asked to close all afternoon and the parade is planned at 3:30 o'clock on Wednesday afternoon, August 4.

Make your plans now to attend Hico's 64th Annual Old-Timers' Reunion and meet your old friends of bygone years. To date there have been two families from out California way who have notified they were planning to attend.

### Scouts to Present Donkeys, Riders In Baseball Game

Monday night, June 28, the local Boy Scout troop is bringing something new and different to Hico for the public's entertainment.

This time it isn't pretty red heads on the maple, but a bunch of old mean, kicking, biting donkeys that know more about baseball than Ty Cobb. At least they know how to throw the game—and the players as well.

These aren't just common burros—these things are Texas-trained, call them whatever you like. When the game is over the boys who have so generously volunteered to assist the Boy Scouts by riding during the game may be calling them a lot of things.

There will be lots of spills and thrills and everybody will have a good time up on the hill as our local cowboys try to play soft ball and get the donkeys in the same mood at the proper time.

For further details see the ad in this issue of the paper—or just ask anybody who ever took part in such an affair.

BILL NORTON.

### HAMILTON-CORYELL SOIL CONSERVATION DISTRICT NEWS

A first planning meeting was held recently by the Agee Group to study District procedures for accomplishing soil and water conservation. Present at the meeting were B. F. Driver, Jack Miller, J. I. Jameson, C. W. Vaughn, E. McCoy, J. L. McCoy, Ed Guinn, J. D. Patterson, L. D. Sowell, V. T. Slater, Marvin Noland, Sheridan Coleman, C. M. Broyles, and Paul Davidson. Messrs. Davidson and Broyles were visitors from the Perceyville and Lanham soil conservation groups, respectively.

Mrs. Hulda Reich and M. G. Reich, 12 miles northwest of Hamilton in the West Sunshine group, with the assistance of Soil Conservation Service personnel completed coordinated conservation plans on their farms of 200 and 103 acres, respectively.

Paul Davidson, 18 miles northeast of Hamilton in the Perceyville group, has completed 7224 feet of channel type terraces.

A. G. Witzsche, whose farm is a mile and a half south of Potts,ville in the South Pottsville group, has completed 679 feet of standard diversion. He has had during the past year marked improvement of his pastures from stocking according to the calculated forage resources available.

J. W. Elam, 2 miles west of Hico in the East Hico group recently sold his farm. The new owner this week harvested 93 acres of rye and vetch which produced 7,000 pounds of seed of uniformly high quality.

### Social Security Officer To Visit County On New Schedule Soon

Beginning with July, R. R. Tuley Jr., manager of the Waco office of the Social Security Administration, or Joe H. Clepp, field representative of that office, will be at the County Courthouse in Hamilton on last Monday of alternate months at 1:30 p. m. to take claims for benefits under the Federal old-age and survivors insurance program and to supply information on the system, the News Review was notified this week. The first such visit under the new schedule will be on August 30.

Tuley also announced that the new address of the field office, after June 30, would be 206 N. 6th St., Waco, Texas. This new location is in the recently completed Home Abstract & Title Co. building.

The Federal social security program, which applies to workers in industry and commerce, provides for the payment of monthly benefits when the qualified employee reaches age 65 and retires, for eligible members of the worker's family, and for the survivors of insured workers who die at any age.

## Early Entries Assure Interest In Bluebonnet Tournament July 3-5

### Home Golfers Polish Up In Preparation For Many Visitors

The Bluebonnet Country Club's tournament committee reports that entries are piling up for the annual invitation golf tournament to be held July 3, 4 and 5.

To date, entries have been received from Jack Vickrey, former Hicoite who now holds the Beaumont city championship; Doc Brinkley of Fort Worth, another former Hico resident who was runner-up in last year's tournament; L. D. Hardin of Fort Worth, a player of merit; Cecil Hobbs of Dallas, last year's first flight winner; Bullet Boyd of Austin, another strong contender for the title, with entries coming in daily.

Many more fine players have already announced their intention of entering, and the 1948 tournament shows all signs of being the hottest fight for honors in the club's history.

There has been lots of interest shown locally by old club members and a host of new talent that have entered the ranks of the delicious ball swatters.

The Old Guard is ably represented by Ray Cheek, last year's champion, who defeated Doc Brinkley for the coveted title, and who is currently reported as driving 350 yards and shooting a par-shattering 69 on his last time out.

J. L. Goodman, who recently won a local tournament; Lefty Knox, the curved ball artist; Buddy Randals, a steady pay shooter, and A. A. Brown, who has recently dusted off his irons and woods and is again running Old Man Par a tight race—all these locals will add interest to the tournament.

The novice class is loudly defended by Morgan Moon, who claims to drive 250 yards, in a roundabout way, M. I. Lumberman Knudson, Bill Snap-Snap Coats, and Bill Deep-Freeze Norton. These bizzard shooters claim they will make it hard on anyone entering their class, which has been aptly dubbed the Moon Flight, with the sky the limit as far as scores are concerned.

The club will offer some very fine prizes this year and winning players will be amply rewarded as follows:

Championship flight—A fine Bulova wrist watch.

First flight—A good-looking Helbros wrist watch.

Second flight—Matched set of Gene Sarazen woods.

Runners-up and consolation winners will also draw down some very fine prizes.

MAX HOFFMAN.

## Veterans' News

Student veterans entitled to increased monetary benefits because they have more than one dependent are reminded by VA of two important deadline dates to be observed if they are to receive increased allowances retroactive to April 1.

One deadline affects veterans who are taking full-time educational courses. The other affects veterans taking part-time courses, combination school job training courses or entitled to increased benefits due to new subsistence, earned income ceilings.

Veterans in full-time educational courses who are entitled to \$120 monthly subsistence because they have more than one dependent must submit evidence of additional dependency before July 1 in order to have the higher payments retroactive to April 1.

Veterans with more than one dependent and taking part-time school training, a combination of courses or who are affected by the increased income ceiling must submit proof of additional dependency by September 1. In most cases, veterans in this group may submit this evidence on a form which they will receive from VA.

Veterans who lose subsistence, compensation or pension checks should notify immediately the appropriate Veterans Administration Regional Office.

VA said a veteran losing such a check should write a letter giving his full name and address, his claim number and the date and amount of the check. He should also state what the check was for and the circumstances surrounding its loss.

On being notified of the check's loss, VA determines first if it may have been found and returned to the U. S. Treasury. If so, the check will be re-mailed to the veteran. If not, VA will request the Treasury to stop payment and take necessary steps to reimburse the veteran.

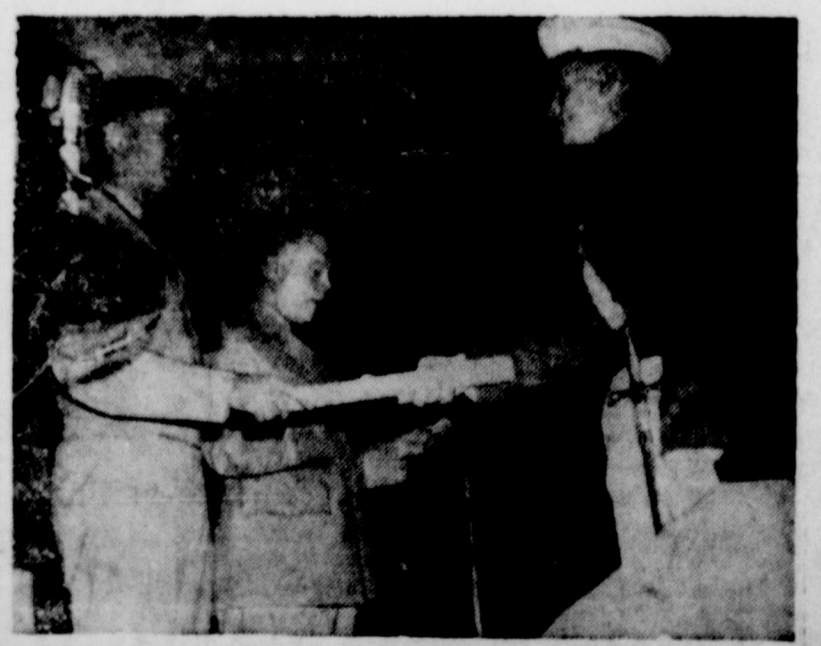

A veteran who finds his check after reporting its loss should notify VA and hold the check until he has been advised by the Treasury that action to stop payment has been withdrawn.

### WAA WARKER WINS PRIZE

The government is so concerned with keeping an accurate record of what happens to every part of its war surplus that sales slips, descriptions of materials, and many other documents are required to be kept in permanent storage. This poses a big problem for War Assets employees charged with filing away thousands of such documents resulting from disposals. One employee in WAA's Grand Prairie office, Verna M. Landry of Dallas, arrived at a time-saving solution through the construction of a simple rack for holding record boxes. Her design, submitted in a War Assets Administration employees' suggestion campaign, won an award of \$100 and is being adopted nationally.

## How to Save Gas

A well-tuned engine and proper driving methods resulted in gasoline savings up to 70%, tests recently conducted by Plymouth Motor Corp. at Detroit showed. The testing team above checks recording equipment and notes results of the unusual experiment.

## Driver Tests Show Conservation Easy

How to conserve precious gasoline and save money was recently demonstrated at Detroit when results of engineering tests showed savings as high as 70% possible through proper engine tune-up coordinated with correct driving techniques.

The tests were conducted by the Chrysler Engineering division at the direction of W. B. Rice, director of service for the Plymouth division. They were made by technical experts with a 1948 Plymouth special deluxe sedan equipped with recording and measuring devices including a "fifth wheel" electric speedometer, gasometer, vacuum gauge, odometer, and batteries of stop watches.

No "trick" gasoline saving devices or special fuels were used. The secret of the savings obtained lay in (1) proper spring tune-up of the car, including ignition, carburation, cooling system, oil change and chassis lubrication, and steering and brake adjustments, and (2) employment of proper driving techniques in handling foot throttle and brakes.

A basic gas saving up to 10% may be secured by giving an out-of-tune car the approved dealer's spring tune-up, the tests showed. Past that point the driver himself holds the whip hand in achieving phenomenal gas savings.

The first test run was over a ten mile course in a section of Detroit where stop lights and stop signs were numerous. Here, reasonably moderate acceleration and braking showed a 60% greater gasoline mileage over the "quick stop and start artist."

Surprisingly, the safe driver who saved so much gas, arrived at the finish of the ten mile course only one and one-half minutes later than the "hurryup" man, made 50 percent fewer stops and spent 51% less of his time at those stops. He averaged only two per-cent slower speed and two per-cent greater elapsed time.

In a test run over the 165 mile highway from Detroit to Lansing, Michigan, the safe driver achieved a 50% saving in gasoline on the trip. The surprising difference in gas economy was achieved by maintaining a normal speed of 50 m.p.h. on open highway as against one of 70 m.p.h.

Added to the advantages of conserving the nation's fuel supply for next winter's heating use and the saving in money accruing to the individual is the fact that safety statistics prove the "moderate" driver involved in fewer and less serious accidents than the speed-seeker. Rice pointed out.

## A NEW KIND OF FARM AND RANCH RADIO PROGRAM

A new kind of farm-and-ranch program featuring Ted Gouddy, popular radio personality, is heard six days a week at 6 a. m., Monday through Saturday, over WBAP, 820. "Ted Gouddy and the Texo Party Line" is sponsored by Burrus Texo feeds.

The ringing of an old-time telephone, with its long and short rings, will usher in each program, which will give what is happening of interest on farms and ranches.

Highlight of each broadcast will be a long distance call by Ted to some farmer or livestock raiser to find out "what's doing down your way."

Gouddy, a native of Colorado City, Texas, has been around livestock all his life. He earned his way through school by milking cows and, in vacations, he helped his uncle, who bought and sold cattle at the Fort Worth stock yards.

"The Bar Nothing" is the name of Ted's two-acre "ranch." He likes to ride and owns two excellent horses. He is a familiar figure at rodeos and stock shows. Since 1938, Gouddy has been on the air with livestock reports and comments. He has conducted radio reviews with such notables as Leo Carillo, Ernest Tubb and Will Rogers Jr. Ted is highly popular as evidenced by the volume of his "fan mail."

SHRED OR CHOP raw cabbage and other raw, leafy vegetables only shortly before using.

Pare, or, even better, scrape root vegetables such as carrots and potatoes as thinly as possible so that you don't lose their precious nutrients.

Leafy vegetables should be handled as little as possible to prevent bruising which in turn destroys vitamin C.

It's not safe to freeze any frozen food after it has thawed. Cook and use immediately or cook and use shortly later.

Be wise and save meat drippings for soups, gravies and sauces. They contain not only meat flavor but also fat for energy and important vitamins and minerals.

A DELICIOUS GLAZE for baked ham can be made by mixing 1/2 cup of maraschino juice, apple cider or sweet pickle juice mixed with 1 cup of sugar.

After glaze is applied on baked ham, set the oven at 400° F. and bake for 15 minutes or until the desired shade of brown is reached.

Combine a slice of ripe banana with shreds of fluffy coconut and a tiny sprinkling of grated orange rind. Cover with chilled apricot whole fruit nectar and serve for dessert with chocolate covered graham crackers.

YOU'LL LIKE COOKED BROCCOLI if it's topped with a hot French dressing and a sprinkling of chopped roasted almonds.

RECIPE OF THE WEEK: Frozen Fruit Dessert (Serves 8)

- 2 egg yolks, 2 teaspoons sugar, 2 tablespoons lemon juice, 6 marshmallows, cut, 1 cup chopped pears, 1 cup fruit salad, 1/2 cup toasted almonds, 1 cup heavy cream, whipped.

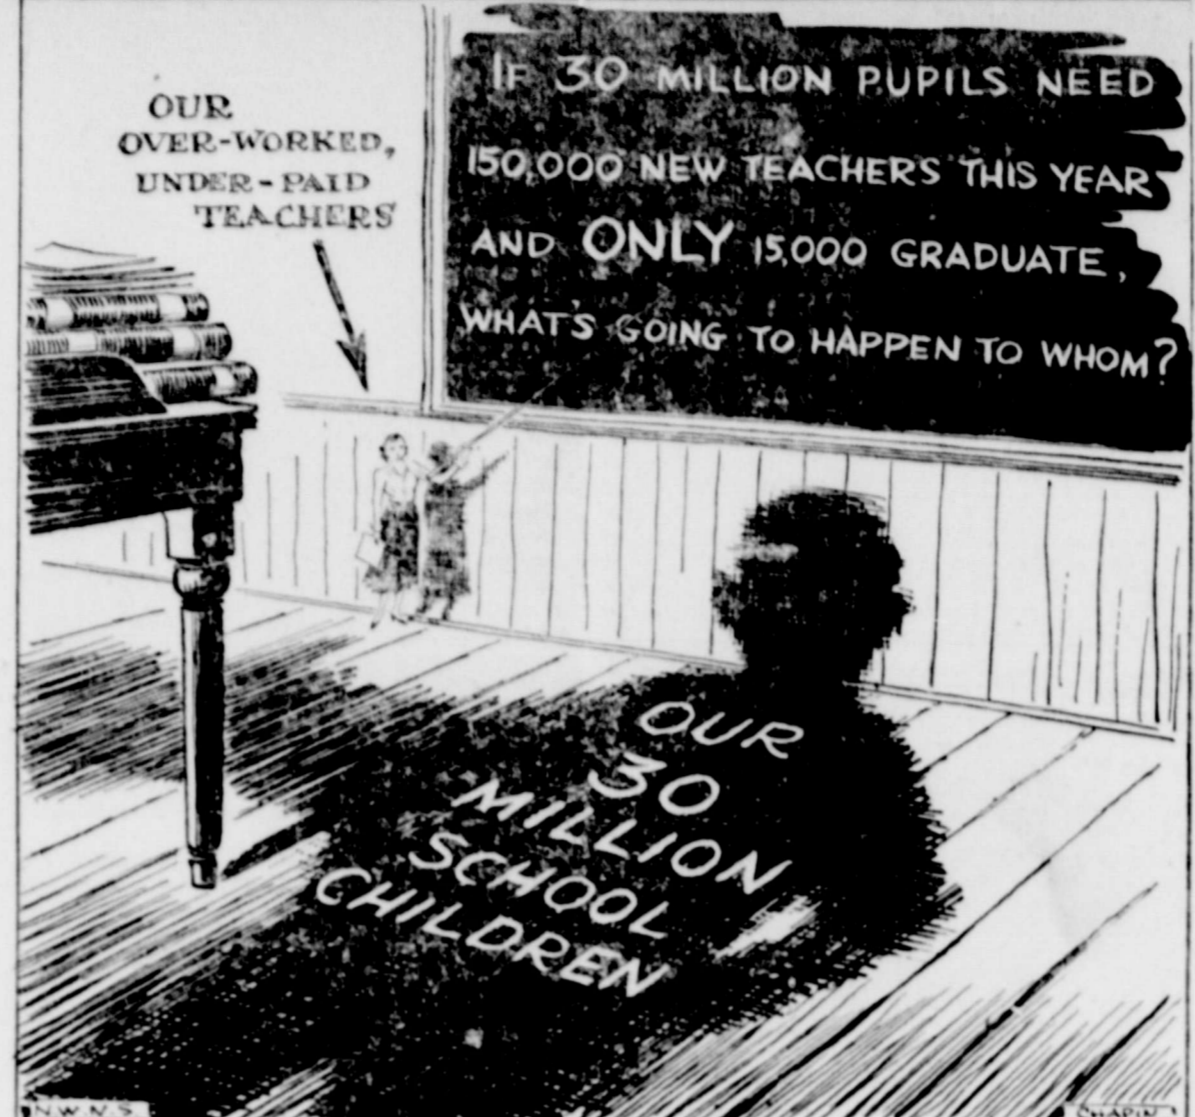

Cook yolks, sugar and lemon juice in double boiler until thick and smooth. Add marshmallows. Cool and chill. Add fruit and nuts, then fold in whipped cream. Pour into freezer tray and chill until firm.

WHEN LEAVES SHOW THEIR UNDERSIDES, BE VERY SURE THAT RAIN BETIDES.

Many plants and trees change with variations in temperature, humidity and sunshine. Leaves show their under sides because their stalks absorb moisture from the damp air of an approaching storm and become stiff.

"Problem for Today"

STRICTLY PERSONAL A SHORT-SHORT STORY By GORDON SCENDEL

GENEROUS REWARD to person able to tell of hearing gun shot Tues. a.m., between 1 and 1:30 within 2 blocks of Lyndale and Blank street. Please call WI. 0021.

The city editor had the want ad section of the last edition spread out on his desk. His stubby fore-

"But I have no story for the newspapers," the young woman insisted, after I'd identified myself.

finger was jabbing a paragraph in the "Personals" column. "Might be a story, Bill," he grunted.

"But I have no story for the newspapers!" the young woman insisted, after I'd identified myself. "Everything's fixed up! ... There's nothing I want published!"

I reminded her that my city editor was notoriously unsympathetic to such an attitude. But she was unyielding.

"See! You don't believe it either! ... That's just what I told him! I said: 'Peter Dinwiddie, do you expect me to believe that fantastic story?'"

I reached quickly for an aspirin. I always carry along aspirins ... and often find use for them.

"You ... ah ... you say he met a ... horned toad?"

"Two of them! ... they raced! ... Down Lyndale avenue ... And he didn't get home until 7 minutes after four because he had to be an umpire, or referee or something!"

I coughed. It probably was my cigar. They aren't as good as they used to be.

"But, pardon me ma'am," I broke in, gentlerlike, "I ... I thought you were going to tell me about that ... er ... gun shot!"

"That's what I am doing!" she replied, crisply. "That shot was what started them off ... That's how they started the race!"

"You mean the ... er ... horned toads shot off a gun ...?" I coughed again; that certainly was a bum cigar.

Her jaw dropped. She looked at me queringly.

"Don't you feel well?" she asked. She came a bit closer, and I could see that her nostrils tensed, inquiringly.

"Ma'am, I shook my head emphatically. "I'm a teetotaler ... but after hearing about these gun-totin' horned toads ..."

She laughed. Delightedly, then continued:

"The shot was fired ..."—enchantedly she stopped to laugh again—"by one of the two men who owned the horned toads ... Those two men you saw walking out of here just as you arrived!"

"Oh ... You mean those ... those two lugs dressed in the fancy cowboy getups?"

"Oh, they're nice! ... They're from Texas, just up here on a visit. They did it on one of those crazy bets you read about."

"You see, they met my husband on the street and just insisted he act as referee, as umpire, or whatever it was! ... They wouldn't let him go home!" At that her expression changed sharply; she turned around and uttered a startled, "... Oh!!!"

She ran to the telephone in the other room. "Oh! ... I'm terrible! ... I'm forgetting poor Peter! ... I have to phone him immediately and tell him those nice men came over and explained it all to me! ... Poor, poor Peter!"

"He'll be worried terribly! There he is, poor dear, working so hard, and all broken-hearted because he thinks I'm leaving tomorrow morning to go home to mother. I must tell him."

She had the telephone in her hand; she was feverishly, nervously dialing a number.

"Goodbye ...," she called out to me; something in her voice that brought a kind of an uncomfortable tickling in my throat. Those nickel cigars they sell you nowadays are sure terrible.

"... Now remember, it's not for publication!" she called out again to me.

Then she turned back to the phone; she spoke to whoever had answered it, and her voice changed. It was soft and lilting, just like a summer breeze in a tree full of apple blossoms.

"Let me speak to Mr. Peter Dinwiddie ... quickly, please!"

So, that's why I'm sitting at my typewriter now, killing time while I try to figure out how to tell the boss there wasn't any story in that want ad about the gun shot.

ABOVE THE HULLABALOO BY LYTLE HULL

YOUTHFUL HERO ... 13-year-old Joseph Fisher, of Washington, D. C., joins Bob Feller of the Cleveland Indians in a bit of refreshment after saving the life of a youngster by pushing the child out of the path of an automobile.

FEAR THE GREATEST controlling factor in life is FEAR.

Yesterday we feared Hitler and his mighty hordes. We pacified and appeased. Today we fear the powerful and power-mad masters of the Slav nations. We have pacified and appeased. But appeasement only works when the other fellow fears also.

All sorts of schemes and theories are being concocted to stop the onward advance of the Asiatic conquerors. But there is only one thing which will stop them—FEAR.

Do we believe for one moment that the world would pay attention to communism, as such, if that so-called "Ideology" was backed by Portugal or Siam. Do we believe we would fear it here, or in Italy, or anywhere unless behind it stood the — at present — most powerful military force on earth? We would not even read about it in the morning papers!

If the U. S. and the Western European democracies were so militarily powerful that Russia and her satellites were dwarfed by comparison, communism would fade rapidly eastward and eventually die a natural death.

Czechoslovakia would be the first to drive out her Red masters if she knew that the all-powerful democracies would protect her. Poland would be next—and the rest would follow rapidly.

Only Henry Wallace believes that the Russian enjoys living in constant fear of the secret police. The police state would disappear there also if the democracies made themselves all-powerful!

To wipe out the threat which now faces the world would be worth all the money and effort of the next one hundred years. Why do we quibble over a few billion? Our every effort should be directed toward becoming so militarily powerful within the next two years that we can literally scare "communism" back into the gutters from which it came.

Successful Parenthood

Use of Slang by Tots Not To Be Condemned

A RADIO MAN installed two new loud speakers in a friends radio last week. He explained that the smaller was for the high notes—the tweeter—and the larger for the bass—the woofer. You can imagine how the children enjoyed this new vocabulary and told everyone about their woofer and tweeter. Children love slang, and save its color and imagery.

Most slang makes for brighter speech. And a wide vocabulary, literary or slang means a more fluent child. Slang, too, helps the youngster feel he is one of the gang. Being in the know, he uses "All right" today instead of yesterday's "Roger" —or our generation's "Okay." There is the slang of jive and of sports, of aviation, the sea, and radio. Borrowing from these jargons into everyday language gives a child a strong brisk vocabulary—and pleases him too because it indicates he is really in the know.

Two kinds of slang, though, are always a problem to parents. The famous four-letter words, Anglo-Saxon and otherwise, find their way onto many a toddler's tongue, shock-

ing grandmothers and embarrassing mothers. These shocks can be kept to a minimum by quietly censoring adult speech around our highly imitative children. If objectionable expressions are brought home from outside, tactful explanation will help far more than making children feel they've been either cute or naughty.

Another help will be to foster as substitutes some innocent blustering expletives, satisfying the need for occasional dramatics.

Another slang problem that parents have to be alert to catch is the word that hurts others. Racial and religious nicknames are rarely intended with ill-will, but almost everyone is sensitive when on the receiving end. Here again, parents have the difficult assignment of setting a good example, and of calm patient explanation. Pointing out your children's own ancestral background, and the resulting epithets which might come their way, will probably halt this kind of name-calling.

Here is a real pruning job for parents: to take out the damaging slang, both the vulgarities and the name-calling, and yet leave the picturesque patter which enriches a child's speech, adds to his fun with words, and broadens his imaginative horizons.

## Six-Inch Sermon

By REV. ROBERT H. HARPER

From Malachi to Christ.

Lesson for June 27: Malachi 3: 1-5; 4:1-2; Luke 1:76-79.

Memory Selection: Luke 1:68.

Four hundred years passed between the closing of the Old Testament and the coming of Christ. Persians, Alexander the Great, Egypt, and Syria in succession ruled Palestine until the rise of the Hebrew Maccabees who, after a century, were overcome by the Romans. Under the Romans the Herods were ruling as kings in the time of Christ. The literature of this period is contained in the Apocrypha and the Apocalypse, neither of which has been given a place by Protestants in the Biblical canon.

Malachi, last of the Old Testament prophets, writes a warning against the irreligion and the corrupt practices of the time. As with a fire the workers of iniquity would be consumed. But for those who feared the Lord the Sun of righteousness would arise with healing in his wings.

The last words of the Old Testament concern Elijah—he should come in preparation for the "great and dreadful day of the Lord." The name of old Elijah had a peculiar effect upon the imagination of all his people and they looked for one to come who would bear the character and do the work of that great prophet. Jesus likened John the Baptist to Elijah—John came as the great forerunner of Christ.

Prophecy was resumed—in glorious fulfillment—in the New Testament. The last passage of the lesson is part of the song that Zacharias sang at the circumcision of his son, John. It heralds the coming of Christ and rejoices in the blessings to come through him.

Mr. and Mrs. E. F. Porter attended the annual homecoming of the Baker family at Glen Rose Sunday. Mrs. Porter's mother was a Baker.

Mr. and Mrs. Edward Lazar and son, Edward Gunn, of Dayton, Ohio, have returned to their home after spending a week at the ranch home of Mr. and Mrs. Otto Horton and young son, Edmund Robert, between Hico and Chairette. Mrs. Horton is Mr. Lazar's sister.

Cyrus Field financed the laying of the first Atlantic cable.

CONTRIBUTED.

Mr. and Mrs. H. B. Dawson of Dallas were called to Hico Wednesday night on account of the illness of his grandmother, Mrs. B. S. Washam, who fell and broke her shoulder. Mrs. Washam is a patient in the Hico Hospital.

Mr. and Mrs. Keith Appleby have returned to their home in El Paso after visiting his parents, Mr. and Mrs. J. T. Appleby.

Mrs. Lena Beavers, Mrs. Wallace Snedden and baby, Jane, of Miami, Ariz.; Mr. and Mrs. Coleman Newman, Monticello, Fla.; Mr. and Mrs. C. L. Tidwell, Iredell, and Mr. and Mrs. Kent Appleby and daughters, Judy and Sandra, of Clifton were recent visitors in the home of Mr. and Mrs. J. T. Appleby.

### CARD OF THANKS

We wish to take this method of thanking all those who assisted and consoled us in any way following the tragedy which took the life of our dear son, Bobby Ray. Your words of sympathy and kind deeds have helped us more than we could ever express.

I was President of our Old Age Pension Club while we had it here at Gatesville. I followed Sid Gregory's record and I know that he was loyal to us old folks every time. And he did everything he could for us every chance he got.  
So I want to put in a good word for him, and I hope you folks up there in Hamilton County will stay with Sid as we are doing here in Coryell County. I have known him and his folks here for three generations, and they have all been good hard-working people.  
I was Justice of the Peace here for eight years, and have been assessing taxes here for fourteen years.  
Yours truly,

### Fairy

Mrs. J. O. Richardson

We are needing rain again in this section and have been having threatening weather with high winds the past few days. Most of the grain has been combined and some are breaking their stubble ground.

We were very sorry to learn that Clair Brunson isn't doing so well since being conveyed recently to New Mexico. Arrangements are being made to return him to the Hico Hospital where he had spent more than a year. We hope he will soon be much improved. Mrs. Brunson left early Saturday for his bedside.

We are also sorry to learn that Mr. Will Jones hasn't been doing so well the past few days, and here's hoping he too will soon be feeling much better.

Next Sunday is our regular monthly singing day and we extend to all a cordial invitation to attend. A number of visiting singers from adjoining communities are expected to attend. The time is 2:00 o'clock Sunday afternoon.

Mr. and Mrs. Ralph Spencer of Odessa spent several days here last week visiting in the home of her parents, Mr. and Mrs. E. M. Hoover. They returned home last Thursday.

Mr. and Mrs. D. E. Allison and children, Ruby Jean and Durrell of Dublin were visiting here last Sunday in the home of their parents, Mr. and Mrs. Edd Allison and Texie and Mrs. J. O. Richardson.

Mrs. Edwin Seilheimer and little son, Danny, of near Hamilton visited Sunday with her parents, Mr. and Mrs. Edd Allison, and Texie. Mr. and Mrs. Carl Ray Sellers and Carolyn spent Father's Day visiting in the home of his parents, Mr. and Mrs. N. S. Sellers and Joy Marie, at Hamilton.

Mrs. J. O. Richardson and her mother, Mrs. A. L. Newman, attended singing at Littleville last Sunday afternoon and visited a short while after the singing with Mrs. Henry McCarty. Mrs. McCarty is the former Mrs. Minnie Penny of Fairy.

Mrs. Raymond Driver and children of Dallas have been visiting in the home of her parents, Mr. and Mrs. M. E. Parks, and family.

Mr. and Mrs. Billy Lightfoot of San Angelo were also recent visitors in the M. E. Parks home. Mrs. Lightfoot is the former Miss Frances Cable, a niece of Mrs. Parks. She was reared in the Parks home after the death of her mother when she was only two weeks old. We failed to get this item of news in time for print last week.

All should be very careful about the burning of trash and smoking these dry times. All this dry grass and stubble needs to go wild is a spark of fire. A spark set fire to a portion of stubble in our field on Friday afternoon of last week. Carl Ray Sellers and Buck Noland were combining a piece of wheat and luckily the spark hit on the stubble where they had just cut, and on the north side, T. L. Betts who was breaking stubble nearby and one of the Prof. Harpers (We believe Sammie) assisted the boys in putting out the blaze. A car and trailer in its path was removed and little damage was done other than setting fire to five sacks of wheat, most of which was saved. We are glad no serious damage resulted and we wish to say thanks to Mr. Harper who jumped right into the fire-fighting in dress clothes. Well, we'll have to see that he gets some chicken feed for his part in the affair, for we feel sure he had a tailoring bill to pay.

The Hamilton County REA is extending a line from the Sibley Ranch to the J. L. McCoy home. We rejoice with them that they will be able to enjoy the many conveniences that electricity affords.

Recent visitors in the B. A. Glea-

son home were Mr. and Mrs. George W. Parker of Tucson, Ariz. Mr. Parker and Gleason saw quite a bit of army service together, but had not seen each other in two and a half years.

The Fairy Baptist Church is having an ice cream social at the tabernacle Saturday night, June 26th.

#### MISS DOROTHY PURSLEY AND WEYNAND ALLISON WED AT DAYTON, TEXAS

A double ring ceremony Tuesday evening, June 15 at the First Methodist Church of Dayton, Tex. united in marriage Miss Dorothy Pursley, daughter of Mrs. B. Pursley of Goose Creek, Tex. and Weynand Allison of Baytown, Tex., son of Mr. and Mrs. E. C. Allison of Fairy, Tex.

The bride wore a blue gubardine dress, her hat pink feathers with a shoulder length veil. She chose white accessories, and a corsage of blue carnation corsage. Miss Rosemary Fisher of Cedar Bayou was the bride's only attendant. She wore a brown crepe dress, with white accessories, and a corsage of blue corn flowers.

Johnny Jennings of Baytown, Tex. attended as best man. After a short wedding trip, the couple will reside at 712 Graham Street, Baytown, Tex.

Mrs. Allison is a graduate of Conroe High School.

Mr. Allison is a graduate of Fairy High School and served four and a half years in the army. He is employed in the pumping and gauging department of the Humble Oil & Refining Co. in the Baytown plant.

The many friends of the happy couple in this vicinity expect them up within a few weeks for a visit, at which time they look forward to greeting Weynand and meeting his lovely wife.

Elias Howe invented the sewing machine in 1846.

### They let the Wives in!

The ex-GI's of our town entertained their wives the other night at one of their "feeds" of hamburger sandwiches and ice cold beer. (The girls had hinted that they'd like to see what went on when their husbands got together!)

Being wary, the boys provided chicken sandwiches and cake and cider—for those wives who might have other tastes. But though they were grateful for the choice, most of the wives agreed that hamburger sandwiches and beer were a mighty pleasant combination.

After the "feed" the husbands took their wives on at a game of darts, and later they played "indications." The party broke up around ten, with the boys agreeing that it was mighty successful.

From where I sit, it's this companionship among young couples today, and their moderation in a sensible beverage like beer, that's won the younger generation such a wholesome reputation.

my dolly's  
sick

A "sick" dolly is a terrible tragedy to a little girl, so naturally she seeks help quickly by telephone. This little girl is typical of people everywhere who regard their telephone as the first line of help in an emergency. A source of ready aid when trouble strikes—a ready mouthpiece to spread glad news, the telephone occupies an irreplaceable position in everyone's life. We are proud to be the supplier of such a vital service to you.

# Signs of Life

## DANGER AHEAD! With Old Tires

WE NOTICE THAT THE NATIONAL SAFETY COUNCIL IS CONDUCTING A CURRENT SAFETY DRIVE, THE THEME OF WHICH IS "SIGNS OF LIFE --- READ THEM"

The purpose of this drive is to call the attention of motorists to the meanings of various traffic signs and how the careful observance of such signs can lead to safer, accident-free driving.

There's another sign we would like to call to your attention --- it reads "Danger Ahead! With Old Tires." You won't see this sign along the highways, but it is one well worth heeding---now! It doesn't pay to risk driving on old tires! Most flats occur when you're trying to squeeze out "A few extra miles." Even worse is the danger of possible skids and blowouts caused by smooth treads and weak tire bodies.

So right now, before you start taking those week-end drives and vacation trips, stop in and let us take a look at your tires. We can show you quickly whether or not your tires are in safe condition.

IF YOUR PRESENT TIRES DO NEED REPLACING, YOU'LL FIND THE NEW B. F. GOODRICH SILVERTOWNS GIVE MORE MILEAGE AND GREATER SAFETY.

### Veteran Campaigner For Salvation Army to Make Annual Visit

W. D. Pedigo, veteran campaigner for The Salvation Army in Texas for the past 25 years, will be making his annual visit to Hico in the very near future for the purpose of soliciting funds for the statewide program of The Salvation Army. Citizens of this community are urged to contribute when called upon for their support is greatly needed by the organization in order to continue its varied program of service.

Almost 100 unmarried mothers in the State of Texas received maternity care last year at The Salvation Army Home and Hospital in the City of San Antonio, which serves the entire state. Homes for unmarried mothers have been an integral part of The Salvation Army program since its beginning in the United States over 80 years ago.

The Salvation Army Home and Hospital provides much more than good physical care for the unmarried mothers who enter for help and refuge. Seclusion, friendship, healing of shock and bitterness, social case work, guidance and plans for the future are all supplied during the period of their stay, which averages three months. More important still is the healing of the soul as many of these young women are spiritually reborn and begin a new life.

Many of these women come from the rural areas, of Texas seeking seclusion in a large city. In the files of The Salvation Army are tragic stories -- some tragic, some sordid, some tender -- of people who have been lifted from the gutter to high levels of Christian citizenship. The Salvation Army will continue to give its best to the people and the generous support of all persons interested in the welfare of the less fortunate is earnestly solicited.

### Athlete's Foot Among Common Skin Diseases Prevalent All Year

Austin, June 21.---"Few, if any, people have escaped the inconvenience and the annoyance of athlete's foot. It is said to be the third most common skin disease of the summer, and, contrary to popular opinion, the fifth most prevalent disorder in the winter."

So says Dr. George W. Cox, State Health Officer, in a recent press release. Dr. Cox explains that athlete's foot is due to a small, mold-like growth or fungus which thrives on moist, warm parts of the body such as the feet.

"The infection of athlete's foot is usually gotten directly or indirectly from someone else," Dr. Cox says, cautioning that the most likely places to contract the infection are around bath houses, locker rooms, and other places where people go barefoot.

"It is probable that at least one-half of all adults suffer from the infection at some time."

In suggesting some effective measures to be taken to prevent initial cases and avoid recurrent attacks of the disease, Dr. Cox emphasized drying carefully between the toes; use of a mild alcoholic solution on these areas after drying; liberal applications of talcum powder in the socks and the shoes; and wearing socks that are absorbent but not coarse.

"Ill fitting shoes are often the source of athlete's foot," Dr. Cox warns. "Shoes that rub and chafe should be corrected or discarded."

James Brown returned to his home in Miami, Fla., Sunday after a visit here with his parents, Mr. and Mrs. A. A. Brown. Another son, Rudolph Brown of Fort Worth, was a week-end guest in their home.
