Morbidity Report Shows Prevalence of Diphtheria in State

Austin, Texas, July 12.—According to the morbidity report for the week ending July 3, more than 463 cases of diphtheria occurred throughout the state so far this year.

The morbidity report is released weekly by the Texas State Department of Health. It shows the prevalence of communicable disease by counties.

"In the light of our present knowledge regarding the control of diphtheria, it is unfortunate that the disease is allowed to flourish," Dr. George W. Cox, State Health Officer, said.

For the week June 26 to July 3, Nueces County reported four cases, Hopkins, Tarrant and Val Verde Counties reported one each. For the year 1947, seventy-seven deaths from diphtheria were recorded.

"A life-time immunity may be established in 90 per cent of the children receiving the diphtheria toxoid," the health officer said. "If all parents of children over 6 months of age would have their children inoculated, the incidence rate of the disease would be rapidly reduced."

"The administration of toxoid causes little or no discomfort in the child," Dr. Cox said, and a positive immunity can be determined by a Schick test conducted four to six months after the final dose of the toxoid has been given the child.

Weekly SURPLUS NEWS WAA

The near-empty war surplus barrels of the southwest region are being scraped these days in an effort to provide critically needed supplies for expansion of polio treatment facilities in Texas. Surplus property inventories were searched last week to find iron pipe for an addition to the Grandview polio hospital in the Rio Grande Valley. A sufficient quantity, 800 feet, was located in Houston and rushed to the project before it had to be halted. At Gonzalez the Warm Springs Infantile Paralysis foundation put out a call for some high pressure pumps, which were quickly withdrawn from a scheduled public sale just before sale time. A polio clinic in Houston was enabled to solve its problem of overcrowding by use of a government surplus building furnished by the War Assets Administration.

WAA's last scheduled location sale of surplus buildings bids fair to be one of the largest of its kind ever held. The sale will be held at Camp Joseph T. Robinson on three days, July 27, 28 and 29. Public inspection of the various structures will open on July 12 and continue till sale time. Addition of all the odd buildings for offsite use at the big camp will make the total number to be offered at this sale in the neighborhood of 4,400 structures. Only other known sale to rival it in size was held at Camp Livingston, Louisiana, October 21, 22 and 23, involving 4,449 buildings. WAA believes the Camp Robinson disposal will be the final public auction, type operation to be held in the southwest, as remaining structures are scheduled to be sold on a sealed bid basis.

Tag-end items of consumer goods are being rounded up at Camp Swift, near Bastrop, for a clean-up sale there July 23. Screen doors, steel cots, heaters, stoves and furniture articles will go to the high bid bidders.

Utility facilities and the buildings housing such terminals at the Dalhart Army Air Field and the field's two auxiliaries are being placed on sale by War Assets Administration to both priority and non-priority purchasers. All property is for removal from the grounds. Included are well houses, turbine pumps, electric motors, wood poles, copper wire and related materials. Priorities will have until July 26, and bid forms will be available to the general public beginning August 12. An inventory list will be furnished on request to the Grand Prairie regional office of real property disposal.

Approximately \$50,000 worth of surplus consumer goods located in the Rio Grande Valley will be offered in 75 bid lots on July 28. Property is located at Fort Brown, Brownsville; Moore Field, Mission, and the Custom Collectors Office at Laredo. The goods will consist of vehicles, heaters, refrigerators, mowers, ranges, chairs and other general products. Veterans and other prospective buyers are invited to complete inspection July 26 and 27. Sale will be at Fort Brown.

All of the remaining buildings classed for offsite use at Camp Swift, near Bastrop, will be disposed of by the sealed bid method during July and August. Involved is a total of 354 buildings and fixtures, eligible to be purchased by priority claimants during an opening period, with the balance of the offering going to the general public. The priority period will expire July 26. Bid forms will be available to all who desire the structures on a non-priority basis beginning August 10. Additional information may be obtained from the awarding office, WAA's regional office of real property disposal, box 6000, Dallas.

rites held for Mrs. Ridenhower, Pioneer Teacher

Funeral services for Mrs. Orpha Ridenhower, 97, who began teaching in Hamilton County when Indians roamed nearby hills, were held at the Hico Methodist Church Sunday afternoon at 3:00 o'clock.

The pioneer Central Texan died Saturday at the home of a daughter, Mrs. E. S. Jackson. They had made their home at Hico for a number of years before moving to a ranch in Erath County, later to Olin and then to Hamilton.

Mrs. Ridenhower and her husband, the late E. K. Ridenhower, came to Texas from Southern Illinois in 1875. They stopped at Cedar Hill, near Dallas, where they remained a year, and then moved to Hamilton County.

As a teacher, Mrs. Ridenhower's service antedates that of any living person in the county. A contract, found in the old Hamilton courthouse and now in the possession of her children, reveals she taught at the old Shaffer Public Free School in the Sunshine community near Carlton in 1878-79.

A copy of her term report, written in longhand, describes the school building as a log house. The teacher's salary was \$25 a month and tuition was charged at the rate of one dollar a month. An average attendance of 11 pupils per day was reported. The school term began in November and ended three months later.

Mrs. Ridenhower was also the first teacher at the Cranfills Gap school.

The early days were not always peaceful and she often told how she slept with an ax under her head and in the woods. Indians were sometimes troublesome and she was prepared to make it interesting for any trespasser.

Neighbors who often lived miles apart were always ready to share what they had. They frequently borrowed coals of fire from each other. Matches did not exist.

The Ridenhowers were pioneers in sheep raising in the county and a son, S. O. Ridenhower of Junction, is now a director of the Texas Wool Growers Association.

Surviving in addition to the son and daughter are another son, Ray Ridenhower of Junction, and two brothers, James Blackman of Chicago and John G. Blackman of Brackettville.

Rev. J. L. Ray of Hico, Rev. C. A. Morton of Gatesville, and Rev. Floyd W. Thrash of Tehuacana officiated at services. Burial was in Hico Cemetery.

Grissom Named On Board of Farmers Home Administration

Appointment of John Kyle Grissom, Route 4, Dublin, Texas, to a three year term on the Farmers Home Administration county committee of Erath County was announced this week by L. J. Cappie, man, State Director.

Mr. Grissom succeeds Al A. Yardley, whose term expired on June 30. Also on the committee are Jewel C. Ramage of Ireddell and Hugh R. Watson of Bluffdale. A committee of three serves in each agricultural county throughout the Nation in which the agency makes farm ownership and operating loans. Appointments are scheduled so that a committee always has two experienced members.

The Erath County committee has an important part in making supervised credit available to local farmers, according to Charles B. Williams Jr., County Supervisor. Before any money can be borrowed through the agency an applicant must have the approval of the county committee. In the case of farm ownership loans, the farm to be purchased, enlarged or improved must also be approved by the committee. "The members know agricultural conditions in the county, are often familiar with the farm applicants plans to operate," Mr. Williams explained.

In addition to approving loans the committee cooperates with the county supervisor in overall administration of the program in the county. Periodically they review the progress of the borrowers to determine whether they have reached a financial position that would enable them to refinance their loans through private lenders. A farmer who is eligible for credit from regular lending sources is not eligible for a loan from the Farmers Home Administration.

"Using this system of operation, the agency has helped 748 families in Erath County toward better living with farm purchase and farm operating loans," Mr. Williams said. "In the past twelve months 109 applications have been received for this type of credit."

Noted Educators Will Take Part In Huge Mill Opening

FT. WORTH, Texas, July 12.—Acceptance by two distinguished Texans of places on the program at the opening of the \$2,000,000 Burrus feed mill, one of the largest feed mills in the world, was announced today by Wiley Akins, manager of Burrus Feed Mills.

Vice President D. W. Williams of Texas A. & M. College will represent President Gibb Gilchrist and that institution on July 22 when the huge plant, just north of Fort Worth, is formally opened.

President M. E. Sadler of Texas Christian University will give the dedicatory prayer.

Williams, who will speak, is widely known in livestock circles. During the past two years, he has been chairman of the advisory committee of the livestock department of the Southwestern Exposition and Fat Stock Show in Fort Worth.

"It is a cause of gratification that the significance of the new mill is such that these eminent figures in the field of education, President Sadler of T. C. U. and Vice President Williams of A. M., are going to take part in the opening ceremonies," Akins said.

Announcement already has been made that Beauford Jester will press the button setting the machinery in motion and will speak over Texas Quality Network and the Lone Star Chain, both of which will carry the program. Governor Jester will be introduced by Jack P. Burrus, president of Tex-O-Kan Flour Mills Company, parent company of Burrus Feed Mills.

Guests will include leading business men (among them, Texo feed dealers) of 12 Southwestern and Southern states as well as Latin American business men, livestock raisers, dairymen and poultry.

John Adams, second president of the U. S., was father of John Quincy Adams, the 6th president.

Business Suspended Briefly Tuesday During Services for Pfc. Raymond W. Howerton

The Veterans Administration reminds veterans that July 31 is the last day for reinstatement of lapsed National Service Life Insurance on a "comparative health" basis.

Before August 1, an eligible veteran may reinstate any amount of term insurance—from \$1,000 to \$10,000 in multiples of \$500—regardless of the length of time it has been lapsed, and usually without a physical examination. He need only fill out a simple application form, in which he certifies that his health is as good as when the policy lapsed, and pay premiums for two months.

The privilege of reinstating on this basis will be available after July 31 only to veterans whose policies have been lapsed for less than three months. Where the period of lapse is longer, the veteran will be required to take a physical examination and qualify as an insurable risk, VA said.

Veterans carrying National Service Life Insurance term policies will be able to renew them for an additional five years upon expiration of the present term period, under Public Law 838 passed by the last Congress.

Term insurance taken out before January 1, 1946, carries a term period of eight years from date of issue. Policies issued after that date are for a five year term.

The first NSLI policies were issued to men in service in October of this year.

Those who renew their term insurance will pay a higher premium than their old rate because of increased age. Veterans may convert their term insurance to permanent types of insurance whenever they desire.

Former Hico Boy Takes Bride June 26 In South Texas Rites

In a beautiful, impressive ceremony, Thelma Jean Parish, daughter of Mrs. Loretta Parish of 1310 Cypress Street, Orange, Texas, became the bride of Gene Ramey, son of Mrs. Bettie Ramey of Hico, Texas Saturday evening at 6 o'clock, in St. Mark's Methodist church. The Rev. L. R. Condry officiated at the single ring ceremony.

Arrangements of white shasta daisies, gladioli, and feverfew against a background of fern decorated the church and the chancel rail, on either side of the bride and the bridegroom. Preceding the ceremony, Mrs. Sam Manley played "Bourree" by Bach and "Gavotte" by Martini. She also accompanied Larry Rich who sang "O Promise Me."

Francis Parish, brother of the bride, gave her in marriage. The bride wore a white suit with white accessories. The long-sleeved, high necked jacket of the suit had a scalloped peplum which came to a point in the back with a flare of unpressed pleats. Her white hat had a waist length veil held by a row of white flowers around the brim. She carried a bouquet of pink sweetheart roses tied with streamers of white satin ribbon.

Mrs. Kenneth McGill, matron of honor, chose an aqua and palomino dress with brown accessories and a corsage of orange gladioli.

William R. Sicksels, DTS USN, of Cleveland, Ohio, served the groom as best man.

The bride's mother was attired in a brown striped corded suit with pink and brown accessories. She wore a corsage of pink carnations.

Reception Held.

A reception was held at the bride's home immediately after the ceremony. Bouquets of white shasta daisies and fern decorated the house. The serving table which was laid with a white lace cloth, held the two-tiered wedding cake and the punch service. The cake, trimmed with tiny rose buds and topped with a miniature sailor and bride, was encircled with small daisies and fern. Mrs. Ken.

neth McGill served the cake and Mrs. Malcolm Robison presided at the punch service.

The bride is a graduate of Stark senior high school. The bridegroom attended Hico high school and is on the dental staff at the Naval Hospital. The couple will make their home in Corpus Christi, Texas where the bridegroom is stationed.

Naval Reception Held.

The wedding party arrived at the Naval Station Recreation Hall at 8 o'clock, where they were met by friends from the Naval Station and invited guests from Orange.

A color scheme of white and green was used to decorate the hall. White shasta daisies, gladioli and fern, flanked with palms and tapers in white candelabra, banked the walls. A lace-laid table, centered with an arrangement of white shasta daisies and fern, held the eight-tiered wedding cake which was decorated with yellow rose buds and topped with a miniature bride and sailor.

A table for the wedding party was laid with a lace cloth and centered with an arrangement of daisies and fern with burning tapers. On each side of the hall, twenty-five lace-laid tables, centered with daisies and fern, seated the two hundred invited guests.

A shower of gifts were presented to the bride and bridegroom and the evening was spent dancing to the romantic music of a local orchestra.

The bride and bridegroom cut the wedding cake and a buffet supper was served to the guests. The reception was given by Miss Margaret McHenry of 130 Cypress St. and members of the Navy Wives Club of Orange.

Pre-Nuptial Courtesy.

A party honoring the bride was given Friday night in the home of Elizabeth Davis, 213 McKee Courts by members of the Kjolli Club. A white chenille bedspread was presented by the club to the honoree. Cakes, Ritz crackers and cookies were served to Anna Marie Dorton, Ina Faye Runnels, Bobbie Jean Marsh, Joan Carter, Ann Mathews, Dorothy Simpson, Miss Davis, and the honoree.

Mr. and Mrs. Louis Sawyer of Fort Worth spent the week end with their parents, Mr. and Mrs. Harve Sawyer. The Baptist revival came to a close Sunday night. It was a good meeting with very large crowds at all services.

Mr. Allen J. Morris owned his home there. His daughter would look for a reliable family to live there. "Honey boy, how did you know how to come to me?" Ethel asked.

"I went to your home town and was told where you were and I am glad I found you at last." They returned home and went by and spent the night with her two brothers. They had lots of places they could stay.

In a week he opened up a law office and they were happy. All the stock was taken away but one little heifer with her first calf.

There all of her life. She has a little daughter." Ethel told him she was so sorry she failed to see him. "Your mother told me you had decided you didn't care no more for me. I sure felt hurt."

"Oh, Allen! She just told you all that stuff." "Do you want to renew our love and be my second wife?" "Sure I will, for I love you and have all the time."

He kissed and fondled her, which gave them both thrills and made them very happy. "Honey, get into a suit or a dress or something and we will go to the city and be married."

"All right, I'll slip on something and be ready in a jiffy," said the happy girl. "She was a member of the Methodist church and they decided to get that pastor to marry them."

Before they left she called in her servants and told them: "We will be back after a while." This was on Thursday. "Have a good supper fixed for us when we get home," she admonished the retinue.

The pastor was soon found and in a few words he pronounced them man and wife and they lived happily ever afterwards. When they returned, some of their neighbors were there, Mr. and Mrs. Douglas were also there, hanging around with the rest.

In a few days the happy couple went to Oklahoma City. He wanted to bring some clothes to move in on his new found home, and he also wanted Ethel to see his children he already had. His son was a pastor of a large church in Ardmore.

W. W. ROARK FOR SENATOR. A large political advertisement featuring a portrait of W. W. Roark and various callouts: 'SOUTHWESTERN UNIVERSITY', 'TAUGHT COUNTRY SCHOOL FOR FIVE YEARS', 'HE GAINED HIS EDUCATION THE HARD WAY', 'NEED \$30,000 TO CARRY OUT MY PLANS TO HOUSE AN AUTOMOBILE AGENCY', 'I BELIEVE IN THE PEOPLE', '6 YEARS IN LEGISLATURE AS BELL COUNTY REPRESENTATIVE', 'TO COVER THIS YOU REALLY HAVE GO', 'HE'S ALRIGHT', 'INSURANCE SEE W.W. W. A. 'Son' SHOFNER for STATE SENATOR (21st District, Bell, Bosque, Coryell, Erath and Hamilton) ★ Qualified ★ Aggressive ★ Dependable "SON'S THE ONE" HEAR HIM SPEAK! KTEM Temple July 19 thru 22, 7:45 to 7:50 A. M.; July 23, 6:45 to 7:00 P. M. KCLW Hamilton July 19 thru 22, 6:45 to 6:50 P. M.; July 23, 7:00 to 7:15 P. M. (Paid Political Adv.)

Roark's Background Reveals Fitness For State Senator. A careful check of the highlights of his career reveals that W. W. (Red) Roark, candidate for Senator from the 21st District, has throughout his entire life carefully abided by the two fundamental precepts for success which he laid down in his opening announcements for the office. When announcing his candidacy, Mr. Roark stated that he firmly believes there is no substitute for hard work and common honesty and that he believes that the acts of a public official should be governed by principle and that, if elected to the office he seeks, he will continue to adhere strictly to these precepts. He further stated that he believes there are few ills in our land today that an application of hard work and honesty will not cure completely. Born on a farm, the son of a farmer, country school teacher and Baptist preacher, he learned at an early age that hard work can overcome many obstacles. After high school, he worked for more than a year as a day laborer to save enough money to enter Southwestern University where he made an enviable record as a student and as a worker. While attending the university he held down several jobs at the same time and was able to defray his own expenses and send money home to assist in the support of his family. After pursuing his education at Southwestern, he entered the teaching profession and worked his way up in three years from Coach and Principal to be superintendent and served in this capacity until he was offered and accepted a position as Program Director of Radio Station KTEM where he remained for more than two years and until he decided to enter business for himself. In 1928, with a total capital of thirteen cents, he organized an insurance agency and built it by hard work and fair play into a successful business which together with his father and brother he operates today as one of the leading agencies in Central Texas. In 1943, Mr. Roark organized the Roark Bus Lines between Temple and Marlin by borrowing \$750.00 from a Temple bank and buying a 1931 model Studebaker bus, which he drove himself, until the line became a success and he was able to acquire good equipment. His friends like to recall the speculation that went round before each trip as to whether the antiquated equipment would make the trip but as Mr. Roark said, "due to a little baling wire, the grace of God and the indulgence of a local banker" the line became a success and was operated profitably for two and a half years and then sold to the present owners. In 1945, he was offered an automobile agency if he could provide a building to house the enterprise and, not to be outdone by the commercial housing shortage, he again consulted the local banker and, according to the mortgage records in the County Clerk's office at Belton, he was able to finance the entire cost of a building to house the agency which he now operates and employs the heads of sixteen families. Mr. Roark's acquaintances have pointed out that, as a result of his record as a dependable and tireless worker and upon his record for unflinching honesty, he has been able to obtain a foothold in the business world and that his wide experience has well qualified him to render a distinct service to the 21st District as its senator; that he has been both an employee and an employer and is well acquainted with the problems of both labor and management; that he is a taxpayer and realizes that the power to tax is also the power to destroy and will be considerate of this fact if elected Senator and it becomes necessary to levy additional taxes. Having served six years in the Texas Legislature as Representative from the 96th District, it has been conceded that he is adequately experienced as a Lawmaker and his record reflects that he was a leader in the House of Representatives for Soil Conservation measures; for farm-to-market roads; for increased old age assistance and other benefits and was an untiring worker for better educational facilities and improved school conditions and it was believed that his five years teaching experience qualify him to render a real service to the cause of education. Being 36 years of age, he is regarded as being young enough to be active yet old enough to be mature and those who are familiar with the facts have testified that he is running his own race on his own merits and is paying his own campaign expenses in this campaign, as in all others that he has waged, in order that he may remain entirely unobligated except to the people of the district as a whole and will not be bound to the will of a favored few or to special interests or pressure groups, and, if elected, will earnestly try to serve the district and Texas courageously, with free conscience and clean hands, without fear or favoritism. Mr. Roark stated that, due to the fact that he served in the past without favoritism, he is expecting strong opposition from pressure groups and those desiring legislation for their own personal gain. He further stated that he realizes it is impossible to please an entire constituency because it is impossible for a law maker to vote on both sides of a question, but that, if elected, he will try to the limit of his ability to use such common sense as he may possess in passing legislation which will inure to the most good for the most people. Roark told the editor of the News Review that he would consider it a distinct honor to serve as Senator and that it has been a lifelong ambition which he hopes the voters of the district will help him to fulfill. He stated that he was fully aware that the pay of a Senator was approximately \$1200.00 every two years, or roughly \$500.00 per month, and that he thought it wise that our forefathers had made such a provision in our State constitution intending that those seeking the office would do so with a desire to render public service rather than as a livelihood. Having been active in civic affairs for many years, Roark is now serving as a member of the Board of Directors of the Optimist Club of Temple, having also served as the Club's first President. He is a member of the board of Directors of the Retail Credit Executives of Texas for District Four, and is also serving as President of the Nash Dealers Accountants Association for south Texas. He is a member of the Baptist Church. Mr. Roark pledges, if elected, to continue his efforts on behalf of the old people, and stated that he would work untiringly for the removal of the ceiling on pension payments. He also pledges that he will wholeheartedly support and work for the payment of a bonus to Texas veterans. (Political Adv.)

All this is contingent on Geary's orders going through—and upon Mayme's getting things packed up and young Jimmie Cheek ready for departure Friday of this week.

Pioneer Patrol of Girl Scouts Elects Leader and Assistant

Monday we discussed about getting a troop flag and an American flag. We are going to get them as soon as possible.

The Pioneer Patrol elected a new patrol leader and assistant patrol leader, since their patrol leader has moved away. The new patrol leader is Joan Parker and the assistant patrol leader is Jo Ann Johnson.

Several of the girls completed some of their fields Monday night. Some of them don't lack much of passing their second class test.

We also did some marching Monday night. We marched for a little while and then we said our Promise and sang our Song and then we dismissed and went home. "A Girl Scout's duty is to be useful and help others."

SULLIVAN HAS FINAL ANNOUNCEMENT TO VOTERS OF COUNTY

To the Voters of Hamilton
County:
As the time for our primary
election draws near, I wish to
make my final newspaper an-
nouncement to you. In campaign-
ing for Sheriff of Hamilton County,
I have attempted to contact as
many of you as I possibly could.
I realize that I have not met all
of you, but I certainly have not
intentionally passed anyone by.
I wish to say to you that I am
a believer in law enforcement, and
if elected to the job, I intend to
do just that. I do not mean by
that to be contentious or radical.
I believe that a law enforcement
officer can, by using common
sense and discretion, keep most
minor law violations down to a
minimum. I also believe that on
more serious violations, such as
stealing other people's property,
or habitual drunken driving, that
the law enforcing bodies should,
as the Army expresses it, "Throw
the book" at them. I do not be-
lieve in showing partiality to any
individual, regardless of name,
rank, or position. Everyone should
be treated alike, and will be, if I
am elected to the office.
I have worked with hundreds of
people in my life, on various jobs,
and I have never been accused of
being hard to work with, or to get
along with.
I wish to express my thanks for
your consideration, and I cer-
tainly will appreciate your vote
on July 24.

Very truly yours,
BOB SULLIVAN,
Candidate for Sheriff,
Hamilton County.

Latin America to Participate When Burrus Mill Opens

Fort Worth, Texas, July 12. An international background will be given to the formal opening on July 22 of the Burrus feed mill, one of the largest in the world and pronounced by engineers to be the most modern feed mill ever built.

Wiley Akins, manager of Burrus Feed Mills, declares, "Burrus" Texo feeds have developed into a position of some pre-eminence in Latin America."

Present for opening day ceremonies of the \$2,000,000 plant, just north of Fort Worth, will be some of the leading dairymen and poultry raisers of the lands south of the United States, as well as leading brokers, distributors and Texo salesmen in those nations. Attending also will be F. Menendez Guillot, veterinarian, Texo's technical advisor in Puerto Rico. He is a graduate of the University of Pennsylvania.

Texo feeds are sold in Cuba, Puerto Rico, Venezuela, Colombia, Guatemala, Costa Rica, El Salvador, Ecuador and Mexico.

The participation of citizens from those nations will be arranged by D. R. Touriel, vice president in charge of exports of the Tex. O. Kan Flour Mills Company, parent company of Burrus Feed Mills. The export business has developed to such a remarkable degree that not only have Texo feeds become one of the favorites of Latin America, but Tex. O. Kan has perhaps become the largest flour exporter in the United States.

Touriel was born in Spain but came to America when he was 4, completed schools in Georgia, then attended Burgos University in Spain and the Sorbonne in Paris, receiving his doctor of philosophy degree from the latter institution. He early became an American citizen and, during World War I, was in the Army. He speaks French, Italian, Spanish, English and modern Greek fluently.

He has traveled over Latin America for 25 years and his activities in the field of world trade have taken him to countries of Europe, Africa, the Near East, and the Orient.

Almost every member of the company's export division speaks two or more languages. Among the members of the staff are Gonzalo Serrano of Quito, Ecuador, consul for Ecuador in Dallas, and Albert Sadok, formerly of New York, who was a lieutenant in the Air Corps.

"The results obtained by feeding a balanced ration have been convincing to the Latin Americas; and Texo, along with other feed manufacturers, has found a constantly expanding market for its products," Touriel declared.

"They are fine people to deal with and they welcome Americans with a livestock and poultry improvement program," he added.

4-H Poultry Raisers Overcome Feed Costs With Quality Birds

Higher feed costs is another challenge to successful poultry raising, but 4-H Club members taking part in the projects are meeting this problem by good care of flock and the keeping of quality producing birds.

One major objective of the 4-Hers taking part in the 1948 National 4-H Poultry Achievement program is to find the place of poultry in the economy of the general farm. To do this, they study scientific developments in poultry production and demonstrate the application of new findings to their own poultry flocks.

This year, Dearborn Motors Corp. furnishes awards for outstanding records in the program which include medals of honor for county, National 4-H Club Congress trips for state and \$200.00 college scholarships to each of 10 national winners.

Last year's winner in Texas was Lola Pearl Williams of Crowley.

There were 242 county medal winners in Texas last year. County Extension Agent, E. R. Lawrence will furnish complete information on this program.

SUMMER SKI CAMP . . . Harvey Clifford of the Canadian Olympic Ski Team, won first place in the James I. Brewster Memorial Ski Race held at the Columbia Icefields in Jasper National Park, opening the summer ski activities. The course was two miles in length down a 2,500 foot vertical drop.

GEO. R. HOLLADAY PATIENT IN McCLOSKEY HOSPITAL

George R. Holladay, a veteran of the Spanish-American War and long-time citizen of Hico, spent two weeks in the hospital here and then was sent to McCloskey General Hospital at Temple for further treatment, according to information received from his daughter, Mrs. Vernon Jenkins.

Mr. Holladay suffered a light stroke, she said, and the family is uncertain as to how long he will be hospitalized at Temple. He wants the address on his Hico paper changed to the hospital from Walnut Springs, where he has been residing for several years.

ROY LEE CARPENTER ATTENDING TEXAS A&I

Kingsville — Roy Lee Carpenter of Hico is among the 1290 students enrolled at Texas A&I College for the first summer term, according to Dr. George W. McCulley, registrar.

Students from 94 Texas counties, and Puerto Rico make up the enrollment which sets a new record for summer registration at A&I. Previous high was in the summer of 1947 when 1,194 were enrolled.

Veterans are still in the majority with 668 being enrolled, six of whom are women. Men still outnumber women by a count of 823 to 467.

MRS. LITTLE REPORTS ON HER HICO-RAISED FAMILY

A long overdue letter from Mrs. Alyce Little, who recently moved from Stephenville to Texas City, gives a little information on her family which will be interesting to the many friends they left behind when they moved from Hico several years ago:

"My time has simply got out of hand. It goes on wings, surely."

"Richard got his BFA degree in Art and has already gone to New York. We put him on the train the 10th. His going away this time seems different—sort of final, if you know what I mean. Always when he was in school I'd be looking for him to come home every few weeks, but New York is a bit too far for a week-end trip."

"Had a long letter from C. G. while he was in China. He said he saw things there that I wouldn't believe unless I saw it. He sent Willie and me some lovely silk material from Shanghai, which he said cost him 68 million dollars in Chinese money—only \$48 in good old U. S. currency. It is lovely, and we've had quite a sewing bee at our house lately."

"Had a letter from F. S. today. He works for the power and light company in Tulsa and likes there very much. He said it had been hot there, but where is a cool spot?"

"I was right proud of Doc Brinkley. He is good with those golf clubs, truly."

"Must stop. Just glanced at the clock and it was 4:00 a. m. I often get my days and nights mixed, and I am not too proud of such a situation."

Come down and play on the beach. Love to all my friends."
