U. S. Dept. of Agriculture's

OFFICIAL REPORT ON WEEKLY SWING OF FARM MARKETS OVER THE SOUTHWEST

(USDA)—Most southwest farm products held about steady to strong during the past week, but some easy spots appeared, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Sorghums advanced 10 cents a hundred for the week, but other grains lost 1 to 3 cents a bushel. No. 1 hard wheat closed Monday at \$2.58 to \$2.43 in bulk carlots at Texas common points. No. 2 white corn sold around \$1.86, yellow corn \$1.82, barley \$1.44, and milo \$2.67 to \$2.72. Oats ranged from 91 1/2 to 96 1/2 cents.

Warm weather in consuming centers slowed demand for rice during the past week, but prices remained unchanged. Higher feed prices reflected strength in the grain markets. Slackened demand for middle grade hay brought lower quotations.

Southwest cattle prices ranged largely from 50 cents to \$2 above a week earlier, although some classes showed little change. Houston moved cutter cows at \$15 Monday. Canners and cutters brought \$12 to \$16 at San Antonio, \$11 to \$12 at Fort Worth, \$13 to \$16 at Oklahoma City, and \$14 to \$15.80 at Denver.

Wide fluctuations during the week left hog prices \$2 higher after Monday's trading at San Antonio, and around 50 cents higher at most other markets. Top butchers reached \$20.25 at San Antonio, \$20 at Fort Worth, \$20.50 at Oklahoma City, and \$21.50 at Denver. Best pigs sold around \$16 to \$18.50. Lambs raised \$1 to \$3 for the week, and were changed little. San Antonio brought common and

Veterans' News

World War II veterans receiving education or training under the GI Bill are urged by the Veterans Administration to include the name and address of their school or training establishment in all correspondence with VA.

This information should be included in addition to the clearly legible, complete name and address of the veteran and the extremely important claim number. Student veterans and job-trainees who follow this advice will expedite any action on their case by VA and avoid delays often caused by lack of sufficient information contained in correspondence from veterans.

Veterans Administration has conducted a training program for corrective therapists at the Winter VA hospital in Topeka, Kansas, to broaden their understanding of the needs and problems of neuro-psychiatric patients.

The course—the sixth given for corrective therapy personnel in VA hospitals—was a joint program of the Division of Physical Medicine Rehabilitation of VA's Department of Medicine and Surgery, and the Division of Adjunctive Therapy of the Institute of Psychological Medicine.

Training programs previously were conducted at VA general medical and surgical hospitals in Richmond, Va.; Hines, Illinois; and Los Angeles, California. Two previous courses also were held at the Topeka hospital.

Future training programs are planned for the Topeka VA hospital and for other general medical and surgical hospitals. Corrective personnel informed of the latest developments in their field.

Dealer Invites Local Public to Showing of "Daring New Dodge"

Walter Reesing, manager of Reesing Motors at Hamilton, Dodge dealer in this area, has returned from Dallas where he attended a dealer preview of the completely new-styled Dodge cars, the first models of which will be publicly displayed in his dealership on Friday, February 25.

Mr. Reesing said that although detailed information of the appearance and many engineering and mechanical improvements introduced in the new Dodge could not be revealed prior to the public showing, there are certain general facts concerning the comfort-engineering story behind the new Dodge styling that can be disclosed at this time.

"The primary considerations that influenced the design of the new Dodge were Army statistics which showed that the G.I.'s of World War II were taller, bigger, and more active than their predecessors of World War I," Mr. Reesing said. "As a result, it was apparent that more passenger room, not less, was required in the modern automobile to comfortably accommodate our physically larger generation."

Mr. Reesing pointed out that the challenge to Dodge engineers was to design a car with more interior space and still reduce exterior dimensions to eliminate difficulties of handling in traffic, parking and garaging.

To learn how Dodge succeeded in meeting this challenge and at the same time produced a car with an entirely new and distinctive styling, Mr. Reesing cordially invites everybody to his gala open house to day (February 25).

As a special feature, the "Dinner Bell Program" heard daily over Station KCLW will be broadcast direct from the showroom from 12:30 to 1:00. Interviews will be made with a number of individuals in regard to the new Dodge by use of a hand mike. Gifts will be distributed to the kiddies; therefore, everyone is invited, both old and young.

G-I Farmer

By T. H. BENSON

Devoted to news of the 175 veterans receiving institutional on-the-farm training under the GI Bill of Rights.

On several occasions I have discussed the Veterans' Agricultural Program with people unfamiliar with our objectives and almost without exception, these people consider our teaching primarily from the standpoint of disseminating technical information. Certainly this is a part of our job; however, in addition we would like to leave with the veterans, when the training program is over, something of lasting benefit. Technical information changes with scientific experiments, but the ability of an individual to work with his fellow-men for mutual benefit is a lifetime job. With this thought in mind, I should like to enumerate some of the accomplishments made by one of our veterans' agriculture classes in the county.

When Gilbert Davis, instructor of the Carlton Class of Hamilton county Vocational School, arrived in Carlton just a few days after being graduated from Texas A&M, he found a foundation run as part of a building, later to be his shop and classroom, moved from Camp Bowie to Carlton. Since that time (early in February 1948), members of the class have been rather busy. First, they set to work to convert the one-time barracks into a classroom and shop. The building had to be painted, plumbing installed, and rewiring was necessary. In early March the class decided they might save money by buying their feed co-operatively in large enough quantities to obtain wholesale prices. A feed room was built and in May, they started a cooperative feed-buying program which has grown considerably. Later, the need for a feed mill to be used on the veterans' farms arose. Members of the class decided to purchase a mill in which now each owns a share. In order to move the mill from farm to farm several members contributed sufficient material to build a trailer, this work being done at the farm shop of the school. Now these members, using their own tractor for power, have available a feed mill at a fraction of the usual purchase price. Utilizing the farm shop with each man helping others, ten self-feeders have been built, five trailers and many smaller pieces of farm machinery.

This year a plan is under way whereby each man will be able to let the rest of the class benefit by his experiences. Everyone will carry out some sort of experiment on his farm to determine the best way of doing a job. This will include test plots on various rates of fertilizer application on all major crops, methods of feeding poultry and hogs, and methods of feeding minerals to range cattle. Field trips have been planned for the class to visit each of these twenty-five experiments.

In years to come, a more profitable way to grow a bushel of corn may be developed which would make our present teaching out of date, but the ability to work together for a common cause is a lasting endeavor.

INTERNATIONAL DEALER'S "FAMILY PARTY" LAST WEEK INTERESTED BIG CROWD

Paul Neel, local International dealer, reports that his firm's big "Free Family Party" staged at the Hico High School Auditorium last Thursday night was a complete success from every angle. And expressions heard afterward from those who attended bore out his statement.

A combination of live talent, featuring popular stars, with screen films of both educational and amusing nature, delighted the large crowd present. The show carried out the promise to young and old alike, "No sales talks, just entertainment."

Mr. Neel said his only regret was that the limited seating space was not sufficient to accommodate the large number who came, some having to stand and some being turned away.

Civilization Dependent On Banking, Local Man Hears At Convention

Odus Patsick, president of the First National Bank of Hico, was in Fort Worth Tuesday attending the annual one-day session of the seventh district, Texas Bankers Association. There he heard Dr. D. M. Wiggins, president of Texas Technological College in Lubbock, tell an audience that our civilization is totally dependent upon banking.

Speaking on "Why Public Relations?" Dr. Wiggins pointed out that "no institution in our civilization is in greater need of confidence on the part of the American people than is the American banking business." The banking industry must help stamp out injurious business practices in which "public confidence is shaken and public relations are strained."

Other speakers at a business session in the Crystal Ballroom of Hotel Texas were Charles E. Maedgen Jr., vice president of the Lubbock National Bank, and Prof. R. E. Jackson of TSCW in Denton. Officers elected by the group are James G. Stapes, vice president of the First National Bank in Graham, chairman, and G. R. Crawley, cashier at the First National Bank in Lamesa, secretary.

After the business meeting, the bankers were entertained at a social hour, a luncheon and an afternoon reception, dance and floor show.

Oil Leasing Is Intensive Throughout This Section

Majors and Individuals Reported Dealing In Leases and Royalties in Three Counties

Deals in leasing of land for oil exploration purposes, active throughout this section since last Fall, has increased until at present there are few landowners in any direction from Hico who have not been signed up, or approached. Many sales of mineral rights have been reported.

Some of the leases are being assembled in blocks, and indications are that staking of locations for wells nearby is imminent. Wells are going down in Bosque county and in the lower part of Hamilton county, and in at least one block north of Hico, in Erath county, only details concerning titles are holding up paying off lease contracts and spudding in. The greater part of the leasing in Hamilton county is being done by three major companies, according to a story in the Hamilton Herald-News, carrying a list of leases on 89,481 acres recorded in the 2-weeks period from January 30 to February 5. This list, appearing below, accounts for only a small part of the deals in Hamilton county alone recorded in a fortnight. World Premiere of "The Lawton Story" To Be Held April 1

Lawton, Okla., Feb. 21.—The late Reverend Mark Wallock, founder and motivating genius behind the Wichita Mountain pageant, basis of "The Lawton Story", new Hallmark film that world premieres here on April 1, died peacefully—his dreams come true.

Even as he slipped away, his friends and co-workers were dedicating themselves to carry on his work and "The Lawton Story" was being completed in Hollywood studios.

Mr. Wallock, who dreamed that millions someday would see his pageant of the life of Christ, learned in his last hour on earth that the film would be shown throughout the world. For Hallmark, after its American presentation of the religious film, will show "The Lawton Story" to the world.

Other dreams of the little pastor of the hills was a Christ of the Wichitas statue, as large as the famed Christ of the Andes, overlooking the Holy City, site of the pageant, and a monument to the men who died in two wars for their country.

These dreams will come true because earnings from "The Lawton Story" will continue for 20 years and the pageant participates in every dollar earned from part of the film's presentation.

Mail order sale of tickets for the world premiere is proceeding at such a rate that a record attendance is expected, according to Reece L. Russell, secretary of the pageant board.

However, tickets are still available by mail, Mr. Russell said. They may be obtained by writing direct to Mr. Russell here, enclosing check or money order. The remaining seats in the three Lawton and Fort Sill theatres are being sold at the popular price of \$5 each.

Mr. Russell pointed out that payments for tickets to the premiere actually are donations to the pageant. Therefore, the amount paid is deductible from income tax "incentives" instead of tickets, will be mailed to persons attending the premiere.

President Truman, the governors of Oklahoma, Texas and Georgia, senators and congressmen are among the important personages invited to the premiere. In addition, there will be two planeloads of movie stars who will appear in person at all theatres during the evening.

Fairy
By Mrs. Jesse A. Massengale

We have had spring like weather for the past few days and seems from the outdoor activity of gardening and setting of shrubs and trees that most everyone thinks spring is just around the corner. I hope this is right.

Mr. and Mrs. E. M. Hoover and daughter, Daphne spent the week end in Lubbock visiting in the home of their daughter and husband, Mr. and Mrs. Ralph Spencer.

Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don and her mother, Mrs. Jesse Massengale and Mr. Massengale visited last Sunday in the home of their daughter and sister, Mr. and Mrs. D. E. Allison and family in Dublin.

Oran Williford has moved his garage to the Masonic Building and the lower part of the Woodman building vacated by Mr. Williford is being converted into a service station.

Mr. and Mrs. Reubin Anderson and daughter, Mrs. Don Taylor and baby of Grand Prairie spent the week end here visiting with her parents, Mr. and Mrs. H. R. Brumitt and other relatives.

Next Sunday is our regular singing day and we extend a cordial invitation to all to come and bring your books and enjoy the song service with us.

Audie and Elzie Lee Parks have been doing quiet a bit of interior re-modeling at their parents home the past few weeks, adding to the convenience of the home.

Edd Allison says he needs only one more granddaughter now to even up his grandchildren. The latest addition being Daird Allison Seilheimer, born to Mr. and Mrs. Edwin Seilheimer of Lund Valley and making Mr. Allison's seventh grandson. Well, we should say he does as the figure is thirteen as it stands with only the six granddaughters, or maybe Daird Allison will be the unlucky party since he is the thirteenth grandchild. At least we hope not.

Don't forget the All-Star basketball Tournament to be held at Fairy, Thursday, Friday and Saturday night this week.

From where I sit ... by Joe Marsh

Remember How We Talked?

From where I sit, it's easy to criticize the other person when we don't take a good long look at ourselves. Sure, there'll always be some differences. I'm fond of a temperate glass of beer and maybe you would prefer ginger ale—but let's just live and let live. Because when we go out of our way to find things to find fault with in others, chances are they can find a few in us, too.

HAVE your winter vegetables or leftover vegetables take on personality plus by combining them with one of those small cans of chef's spaghetti or mushroom sauce.

For a hot delicious snack on cold evenings at home, spread Old English or a sharp cheddar cheese on rounds or triangles of bread. Place a small strip of bacon on top and toast in broiler until bacon has cooked slightly, and cheese is bubbly.

A turn of the can opener puts a new food surprise on the lunch or dinner table.

Treat the family to canned ravioli, bite-sized pastry triangles filled with pure beef. All they need is heating.

RECIPE OF THE WEEK

Raisin Candy

3 cups granulated sugar
1 1/2 cups scalded milk
1 tablespoon grated orange rind
1/2 cup butter or substitute
1 teaspoon vanilla extract
2 cups seedless raisins
1/2 cup chopped, roasted blanched almonds

Heat 1 cup sugar over low heat until melted and light brown in color. Add scalded milk and heat to boiling. Add remaining sugar and boil to 236°, or until mixture forms a soft ball when tested in cold water. Stir in orange rind and butter and cook to 238°. Remove from heat, add flavoring and cool slightly. Beat until creamy. Blend in raisins and almonds. Pour into a greased pan and let stand until firm. Cut into squares.

If the family needs a sweet bite to finish off the meal, here's the easy dessert with which you can do it: slice icy-cold oranges into thin rounds, sprinkle them with snowy shredded coconut and powdered sugar between the layers. It's truly named ambrosia!

Another special, easy-to-make treat is called "mock angel cake." Trim crusts from slices of day-old bread. Cut slices in one-inch strips. Cover with sweetened condensed milk, then roll in shredded coconut. Place under the broiler to brown lightly.

Texas 4-H Clubs All Set for 1949 Garden Program

More than 4,700 Texas 4-H Club boys and girls who pledged their "hands to larger service" last year are expected again to enroll in the 1949 National 4-H Garden program. Announcement of this state's acceptance of the program has been made by the National Committee on Boys and Girls Club Work. The activity is conducted under the direction of the Cooperative Extension Service.

Last year nearly 375,000 4-H Club members ranging in age from 10 to 21 years planted and tended approximately 80,000 acres of garden, according to reports of State Club leaders. Born of wartime necessity, the National 4-H Garden contest was first launched in 1942. Peacetime has not lessened the incentive to produce, because 4-H'ers continue to raise a large variety of fruits and vegetables which keeps the home table supplied and reduces the family outlay for food.

Records are kept of costs, progress and money returns as part of the 4-H requirements. County Extension agents, and local Club leaders organize and encourage the youth to learn how to care for and manage a well-planned garden, carry out a program of disease control, and market surplus produce. In an effort to "make the best better", products are exhibited at county, district and state fairs as well as in community competition.

Each 4-H Club member enrolled in the garden program has an opportunity to win one of four county medal awards provided by Allis-Chalmers. Also a state award of an all-expense trip to the 1949 National Club Congress in Chicago, and a chance to become a candidate for one of eight \$300 scholarships.

The word "specimen" does not appear on any genuine social security account number card. Employers should ask to see the card of each new employee and copy the name and number on their records exactly as shown on the card.

International Essay Contest Announced By United Nations

Lake Success, New York.—A second international essay contest, designed to select ten members of national organizations who will be awarded fellowships to study the work of the United Nations at its headquarters here, has been announced by the U. N. Department of Public Information.

The contest will involve all U. N. Member Nations other than the United States, and each contestant will be required to submit an essay of approximately 2000 words on the "Implementation of the Universal Declaration of Human Rights." Contestants must be between 20 and 35 years of age, must demonstrate a reasonable knowledge of one of the working languages of the United Nations—English, French or Spanish—and must submit 500 word statements explaining what branch of U. N.'s work they are interested in, indicating any special plans they may have for studying particular activities of the United Nations.

The contest will be organized and publicized in Member Countries by national committees composed of the Director of the U. N. Information Center serving those countries and by the Secretaries-General of the respective national U. N. Associations or other organizations furthering the aims of U. N.

All entries must be sent to the national committees for submission to the U. N. Department of Public Information by 6 June 1949. As in the past, the winners must be members of national organizations which actively cooperated with national United Nations Associations, or with local U. N. Information Centers, or must be affiliated with international non-governmental organizations. They will receive transportation between their homes and Lake Success, plus an allowance of \$10 per day for the thirty days they will spend at U. N. Headquarters.

More than a million dollars a day is now being paid out in retirement and family insurance under the Social Security Act.

SENIOR NEWS

Well, it is Monday morning again and in the senior room and everyone is talking as usual. What isn't talking is trying out for parts in the play. But everyone should be studying as this is six week test week. Do you know something? It is not going to be long until school is out. Only two more six weeks left.

JUNIOR NEWS

Well, six weeks tests are just around the corner now, but don't disappear because you will probably make the grade. If it is a doubtful, remember to study a little next six weeks. Since six week tests are this week, it means that next week we won't have "blue Monday", it will be "blue Thursday", because we will get our report cards on Thursday.

SOPHOMORE NEWS

Boy, what a relief. I just finished my last six week test. There are some F. F. A. boys up here at school that should be senators instead of just students in high school. You should hear the speeches they made in their public speaking contest. I believe that if it had been campaigning time they would have been elected to some office.

FRESHMEN NEWS

I wonder why everyone looks kind of worried this morning. I imagine it is because of the six weeks tests that will start Wednesday.

Hula Mae is pretending to be studying, but we know different, she is eating candy.

Buck must have been keeping late hours because we have to keep reminding him not to go to sleep.

BAND NEWS

Friday night is the Amateur night. We are expecting to see you all there. The band will sell candy.

A weiner roast has been planned for Thursday night.

We are going to parade in town at 5:30 Friday afternoon and then we will play at 6:30 at the gym.

SPOTLIGHT

Say, are you bored? Kind of tired after the strain of six week tests? Want some excitement, something different that you haven't rolling back the pages of time and taking a trip. It's a rather enjoyable trip and in some

places it is exciting. Ready to go? Over a dark starless sky a beam of light swings slowly to and fro. Hanging almost motionless at times, suddenly it comes to life, darts over toward the southeast and Wendell Burden, the object of attention. The light swings in above your car and we can see you, singing a song to yourself. It's Sunday night and you headed to Fairy to get Ione. You're both going to church at Fairy. How do we know? Why, when the light falls on you it makes it possible for us to read your mind. That's how we know.

Now it is Tuesday night and we are peering in the windows of the Fairy gym. There sit Punk, Pat, and Jo. They are sitting with Milton, Don and O. J. To their left sit Wendell and Ione, and over here is Wanda Jo and Ralph J.

Now it is twenty-four hours later in Hico. What is the show? "The Voice of the Turtle". My it is lucky we stopped by, is it not Shirley. If we hadn't we might have missed seeing you and Vernon. It is not only you but Mona and Norman and Betty and Paul also fall under the beam of the Spotlight. Now it is Thursday. The stage show drew quite a crowd but not many couples. Barbara and Garland and Pat and Don are here. Pat is really having fun. Jo, I see, is talking to O. J.

Now it is Friday night and the boys are playing ball and the girls are watching. Shirley and Vernon, Bobby and Mary and Betty and Paul are together again. Glen and Patsy Jo are singing "Frankie and Johnay". They sound alright together. Melvin seems to be beating his cousins time, at least he was sitting with Jo. Jean and Billy were sitting in front of them. Night comes and Wendell again travels down that familiar road to Fairy to see Ione.

Well, it is Saturday night again. Lets stop above the town and see whose who. My but there is a crowd out. Say do you hear music?

It must be coming from the music shop. Lets drop down and see who is there. Derrel F. and Paula D. are listening to Jo play. Walking are Jauree H. and Eugene M. and Wilma H. and C. Jackson.

Lets go up the street to the drug store. Say we are just in time, there are Mary and Odell and Betty and James going inside. Look out! You will get run over, the car riding is going strong. Stop

here and take a look. Shirley and Vernon, La Verne and Ralph, and Jo and Ralph. La Verne and Jo are not with the same Ralph. Heading out toward Stephenville is Myrna and Delbert, Jo and O. J. and Punk and Milton. All in one car too.

Ellen G. is right popular tonight. Two boys came for a date. Who took her? Charles J.

Patsy and Buck were playing hide and seek when I saw them they were hiding from one of Patsy's admirers.

Say is it 10:30 already. Let us go to the show. Pat and Don are there. Look, there is Lois and Donald. For a change he is seeing instead of showing the feature. Louise and Earl and Glen and Patsy just came in and sat down. Leven R. and Wendell S. and Jo Nell R. and Von Scott are here too. Even Wendell and Ione made it. Looks like that the bunch so let's settle down and see the show. We will have to walk home cause the Spotlight has faded but I will be back next week ready to go.

SERVICE IS IMPORTANT TO USERS OF BUTANE AND PROPANE GAS

Prompt service is of the utmost importance to the people who depend on either Butane or Propane Gas at any time of the year; but it is even more important in times of bad weather. Therefore it is gratifying that we have been able to keep all of our customers supplied during recent weeks.

PLENTY OF GAS

In spite of forecasts of shortage of this kind of fuel earlier in the season, we have been able to secure a plentiful supply for all of our regular customers and have sufficient surplus to service a limited number of new customers and to take care of emergency calls from people that we do not usually supply.

STORAGE CAPACITY

Our ability to supply you with plenty of gas at any time is due to the fact that we have a storage capacity at our plant sufficient to bridge the shortages that have occurred and that will continue to occur every winter.

CARD OF THANKS
We wish to use this means of expressing our sincere and heartfelt thanks to all of you many friends who have called, sent flowers, or through other means, shown your sympathy for us when wife, mother and grandmother passed away.
We who are lonely would not call her back to one minute of illness, suffering, and patient waiting to join her loved ones in Heaven, but there is an emptiness in our hearts that seems to grow, not lessen, with the hours. That is why your many beautiful expressions of love and sympathy for us have meant so very much to us in these sad days. May God bless each of you.

We Have CHICK FEEDERS AND FOUNTAINS And ALL KINDS OF CHICK SUPPLIES

If we don't have in stock just exactly what you're in need of, we will try to get it for you.

This little chick is pushing things a little too far but it's amazing how our starting mash will help push your chicks along toward early maturity.

A good batch of chicks looks pretty uniform when it arrives from the hatchery, but in even the best, differences may soon develop. The more complete the starting mash, however, the better are the chances of all the chicks developing rapidly and evenly.

A complete starting mash includes plenty of essential vitamins and minerals which help chicks to make better use of other ingredients. Vitamins and minerals are also important nutrients in themselves, and the only way your chicks can get them is in their ration.

To help your chicks develop rapidly and uniformly feed vitamin-mineral fortified.

Approved Milk Supply Is Safeguard Against Undulant Fever

Austin, Texas, Feb. 26.—As a safeguard against the serious and disabling disease known as undulant fever or Malta Fever, Dr. Geo. W. Cox, State Health Officer, advises Texans to drink milk only from approved sources. Undulant fever is usually acquired by human beings as a result of consuming raw milk or raw milk products from cows infected with Bang's disease.

Raw or raw milk products can be consumed with safety only when they are known to be produced by cows tested and found to be free of Bang's disease. Pasteurization, of course, will kill the germs if present.

To assist in lowering the incidence of undulant fever all dairymen should remove cattle infected with Bang's disease from their herds as soon as the disease is discovered. Even if the milk is made safe for human consumption by pasteurization, infected cows are still a menace to health since they can transmit the disease to healthy animals and to their owner and other persons who handle them.

"Undulant fever from cattle," Dr. Cox said, "is one health hazard we can eradicate in our State through absolutely safe milk supplies from dairy herds free from Bang's disease."

"Unless a herd is known to be free from this infection, only pasteurized milk should be used so that the disease cannot be passed on to the consumer of milk, and dairy products."

Retired Mail Carrier's Funeral Services Here; Burial At Killeen

The body of E. S. Jackson, retired mail carrier and landowner, who passed away on Feb. 22, was returned here for funeral services held Wednesday morning at 10 o'clock at the First Baptist Church. Rev. E. E. Dawson and Rev. L. H. Davis officiated. Burial was at Killeen that afternoon, with Barrow-Rutledge in charge of arrangements.

Pallbearers were Louis Chaney, J. P. Rodgers, R. A. Herrington Sr., C. D. Richbourg, H. D. Knight, and Ray Stipes.

Ewell S. Jackson was born Sept. 23, 1876 in Johnson County, Texas, was saved and joined the church at an early age. On Dec. 20, 1896 he was married to Miss Ida Godman. To this union two children were born, one preceding him in death. Surviving is Owen L. Jackson of McCamey, Texas. The wife died Oct. 29, 1899.

On Jan. 2, 1901 he married Miss Mattie Gault. To this union were born three children, R. E. Jackson of Hico, Miss Minnie Jackson of Midland, and Dr. H. T. Jackson of Fort Worth, all of whom survive. The wife and mother of these children passed away Aug. 10, 1925.

He later married Miss Ada Ridenhower, postmaster at Hico at the time. They engaged in farming and ranching for a number of years, first in Erath County and most recently at Olin, also having resided at Hico where Mr. Jackson leaves a host of friends.

Other survivors are five sisters, Mrs. Cons Davis of Lometa, Mrs. Lettie Raines of San Antonio, Mrs. Albert Turner of Abilene, Mrs. Jimmie Edwards of Lampasas, and Mrs. Charlie Morse of Gatesville; and two brothers, B. Jay Jackson of Granbury and Dr. L. B. Jackson of San Antonio.

FORMER RESIDENT DIES

Mr. and Mrs. Geo. W. Stringer received news last week end of the death of Mrs. W. G. Reagan at Waxahachie. Funeral and burial services were held there Sunday.

Mrs. Reagan and her husband, who survives, made their home in Hico a number of years ago.

Recent visitors in the home of Mr. and Mrs. J. P. Owen to celebrate Mr. Owen's birthday which occurred last Friday, were a brother of his, Ira Owen, and wife of Anton; also Mr. and Mrs. W. B. Hines of Corpus Christi, their son-in-law and daughter. Mr. Hines went on to Fort Worth to attend a dental meeting, returning Sunday evening, and he and his wife returned home Sunday night. His mother, Mrs. J. B. Hines of Fort Worth, went home with them for a visit. She will also visit others of her family in the Valley before returning to her home.
