**Melvin Curtis Parker**  
Melvin Curtis Parker was born Sept. 1, 1909 near Pikeville in Bosque County, being the son of the late Mr. and Mrs. W. P. Parker, better known as Mac.

He passed away April 7, 1940.

He got to feeling ill and was brought to town to Dr. Pike. He walked into his office and was given aid, but passed away with a heart attack a short time afterward, in the morning.

On Dec. 24, 1933 he was married to Miss Myrtle Lundberg and to this union two daughters were born, Joe Ann and Linda Sue.

They were living at the Pettit Ranch. He was employed there.

I never had the pleasure of knowing him, but learned that he was a good man and a good worker and certainly had the friends for he made friends easily. He was a devoted husband and father. As one of his sisters said, "He was a dear, sweet boy." They will miss him so much and will feel lost without him.

Most of his life was spent right around here. He was well known in Iredell and the town was made sad when the news was spread that Mac Parker was dead. It is very hard to give up our loved ones but God doeth all things well.

The funeral was held Friday afternoon in the Baptist church with Bristol Funeral Home in charge. Rev. Tension brought the message, which was a good one, in the presence of a host of relatives and friends. It was an evident fact that he had many friends. The floral offerings were large and beautiful. Most of the busi-

ness houses closed and some of the school. Some of the relatives were pallbearers.

Besides his wife and two children he is survived by four sisters: Mrs. Lela Tidwell of Iredell, Mrs. Lilla Allen of Walnut Springs, Mrs. C. Bankston of Alvarado, and Mrs. Earl New of Hillsboro; three brothers, Jim and Lee Parker of Walnut Springs and John Parker of Covington. Burial was made in the new cemetery. Myrtle and her two little daughters and other relatives have the sympathy of their friends in the loss of their loved one.

Out-of-town relatives who attended the funeral were Mr. and Mrs. John Parker of Covington; Lee and Velma Allen and Mr. and Mrs. Claude Allen, Walnut Springs; Mr. and Mrs. Earl New, Hillsboro; Mr. and Mrs. C. J. Bankston, Alvarado; Mr. and Mrs. Tom Tidwell, Miles, Tex.; Mr. and Mrs. Jake Tidwell and son, Bobby Jack, Joshua; Mr. and Mrs. Jay Lee Tidwell and son, Joshua; Cotton and Ann and son, Jimmie Ray, Fort Worth; Ollie May Koonsman and family, Durwood; Jim Parker, Walnut Springs; Mr. and Mrs. Lee Parker, Walnut Springs; ten nieces and eleven nephews; Mr. and Mrs. Herman Koonsman and family; Mr. and Mrs. Marshall Dameron and family, Mr. and Mrs. Loy Hanshaw and family, Mr. and Mrs. Don Moore and daughter, Mr. and Mrs. G. D. Miller and daughter, Mr. and Mrs. Douglas Byron and family, Miss Irene Allen, Mr. and Mrs. Travis Huckaby and daughter, Mr. and Mrs. J. R. Linch and son, Mr. and Mrs. J. E. Tidwell and son, Mr. and Mrs. Virgil Parker and son, Mr. and Mrs. Richard Tidwell, Mr. and Mrs. Cleland Parker and family, Mr. and Mrs. J. C. Bankston, Mr. and Mrs. J. L. Tidwell, Mr. J. D. Parker, Mr. and Mrs. Ray Parker, Mr. and Mrs. James Allen and daughter, Mr. and Mrs. Buford New and son, Mr. and Mrs. Clifford Allen and family, and Mr. and Mrs. William Miller of Meridian. There were friends there from Meridian, Hico, Walnut Springs and other places.

**AN EASTER STORY**  
By MISS STELLA JONES  
"Mother all the little girls in school that are in the room I'm in will have new Easter dresses," said a little girl of 9, "and I will not have any."

Her mother, a beautiful woman in her middle-forties, said to her, "Oh, you may get one."

Their name was Adams. The daughter's name was Louise.

"Go bring me the tea pot up in the cabinet and don't drop it and break it," the mother said. Louise soon had it in there. "Look in there at the nickels and dimes and quarters and half dollars I have saved from the sale of milk, butter and eggs so as to buy you a new dress. I want my baby to look pretty." Louise was so proud she kissed and hugged her mother and said, "I love you so much."

This was a week before Easter. "Louise, remember that Easter is not just a day to dress up and have a feast—it is more to celebrate when Jesus arose from the grave. This day we should bring joy and gladness to some one or ones. As Jesus brought joy, so should we."

The next day being Saturday, Mrs. Adams and her daughter went to town and some pretty goods were bought. She got her some pretty socks and other little things too. In a few days Mrs. Adams had the dress made and it was pretty. She gave the balance of the money to Louise and it was a neat little sum for her.

The family lived in a thriving city in Texas. Mr. Adams was in business and was doing well.

On Wednesday after school Louise was in town. She met a little girl about her age. She was looking at the Easter eggs on display in the window.

"Are you going to buy some?" asked Louise.

"I don't have any money, but I do wish I could buy some."

"I'll buy you some," Louise said.

poor girl. You should take one of your class."

"I love Gaye," Curtis would tell them, "and she loves me. She is a sweet girl and a fine housekeeper."

Gaye had visited in his home some. His father approved of him marrying Gaye, but his mother wasn't so anxious, for he was 22. Their courtship was a smooth one—nothing to mar their happiness. Some of the rich girls would have liked to have Curtis, but nothing doing.

The wedding was in a Presbyterian church where Mrs. Henderson and her children belonged. The wedding was a simple one. The bride's dress was a light blue which suited her as she was a blonde. The wedding was at the close of the service. The church was decorated in some beautiful cut and pot flowers. Her twin sister was her only attendant. His father was best man and her cousin, Mr. Bryan, gave her in marriage. The pastor spoke the words that made them man and wife. All was gay and bright on this happy Easter.

A very wealthy woman, a good Methodist who was a friend to Mrs. Henderson and family, had a fine lunch prepared for the bride and groom and some other people who included the pastor and family, the groom's parents, her mother and sister and brother, her cousin and daughters. The lunch was very much enjoyed—it was a surprise to them. The happy couple were told to go to a certain room and open the door and what a sight met their eyes! On a bed were many gifts for them, of which they were very proud.

The man and wife believed in helping people—didn't feel above anyone. This was good on Easter. The couple left on a two-weeks honeymoon. Her suit was a dark blue linen with a white blouse. A nice home was ready for them as he bought it before the wedding.

After they returned, on Friday night, a reception was given them in the Presbyterian church. They received some nice gifts and a nice donation of money also. They were proud of them.

The groom went in business and he prospered. They had a lot of friends in the city.

This was a happy Easter for them.

Mrs. Henderson, Faye and Bobby remained at home. Faye still worked. Mrs. Henderson's health was fine now. Bobby delivered papers and they were all doing fine. It was a very happy Easter for them, and especially for Myrtle Brown who was given the new Easter dress and eggs and also some money by Louise for Easter. Louise got a thrill out of it and she and Myrtle got to be great friends.

All should try to help some one or ones on this blessed Easter. It will make them happy.

THE END.

The months have been many since the end of conflict, and we have slowly assumed the calm of peace while building up the stability which will enable us to make that peace endure. As we join the joyous Church throughs this Easter, surrounded by loving family, cheering friends and friendly neighbors we can make one simple resolution in behalf of that peace. We can resolve to live the spirit of Easter throughout the year . . . and not to shed our "Sunday manners" of tolerance and sincerity when we hang away our "Sunday clothes." And as the meaning of Easter now fills our hearts, let it also guide our deeds day in . . . day out.

**There'll Always Be a "Gawker"**

"Harry the Hermit," as he's called, came into town last week and, as usual, caused quite a stir. He looks like a cross between Santa Claus and Daniel Boone.

We had a friendly glass of beer together and I asks him, "Don't you ever get annoyed at the way some people laugh and stare as you go by?" "Shucks no," Harry says. "Only while they're laughin' at me, I'm feelin' a mite sorry for them. Imagine—folks so ungrateful they can't see I'm really just the same as they are underneath."

From where I sit, Harry's a lot more "civilized" than the people who make fun of him. He's contented, lives the way he believes is right without harming anyone—and what's more, he's tolerant of others whose tastes in living are different from his.

Maybe we all don't look the same, or act the same, or eat or drink the same, but in a free country, why should we?

**Six-Inch Sermon**  
 BY REV. ROBERT H. HARPER

**The Future Life (Easter).**  
 Easter Lesson for April 17: John 5:25; I Corinthians 15:20-26; II Corinthians 4:16, 5:1.

**Memory Selection: I Corinthians 15:20.**

The lesson text begins with the great statement that the hour comes when the dead shall hear the voice of the Son of God and live. The hope of eternal life had stirred men from remote antiquity. Since the Resurrection it has thrilled men with assurance.

Death came through Adam's disobedience, but in Christ all shall live. Christ has risen, we shall rise. At length the present order will cease in the swift passing of the world. The atomic bomb indicates that the utter destruction of the earth is entirely possible. When the end comes, the cataclysm will not touch the unseen heaven. That blessed place will remain for the people of God. Let the Easter season bring the spiritual certainties of the other world nearer to all of us.

Within his decaying earthly tabernacle man himself may be renewed day by day until he puts his shining garments on to dwell with God evermore. The things which are seen are temporal, but the things which are not seen are eternal. Nothing you can see with the mortal eye will endure. Only what you see with the eyes of faith will outlast the world. Everything worth while is an unseen thing.

When our earthly house shall fall, we shall have a house not made with hands, eternal in the heavens. May the assurance of an eternal life of righteousness come to us anew this Easter, giving high purposes to the life which now is, and thrilling our hearts with sure hopes of a blessed future.

**Traffic Deaths Drop But Injuries Mount Survey of '48 Shows**

Hartford, Conn., April 11.—Traffic deaths dropped one per cent in 1948, reaching a total of 32,200, as compared with 32,500 in 1947, but injuries increased eight per cent, according to figures released today by the Travelers Insurance Companies.

The personnel injury total, 1,471,000, was an all-time high. The 1947 figure was 1,365,000.

These data are contained in a booklet entitled "The Human Race," fifteenth in an annual series of traffic safety publications issued by the companies.

In commenting on the title Jesse W. Randall, president of The Traveler's says: "America's miserable traffic accident record is, in a sense, the sum of all our trifling human frailties. Most of us know how to drive and walk with safety, but it is so human to let our absurd little personal foibles botch our better judgement."

Excessive speed headed the list of accident causes in 1948, as it has in most recent years. More than 10,000 deaths and more than 338,000 injuries were attributed to this single cause.

Youthful drivers especially those in the 18 to 24 age group, caused more than their statistical share of both deaths and injuries, according to the figures.

The report, based on official records from every state, compares figures for 1948 and 1947 on the basis of age, sex, road and weather conditions, type of vehicle, mechanical condition of vehicles, type of accident, and many other factors.

Month of April  
Usually Brings Near-  
Summer Weather

Austin, Texas, April 11.—The  
month of April usually brings the  
first days of near-summer weather  
to Texas, and literally thousands  
of Texans commence to make  
serious and detailed plans for their  
annual vacation which is of great  
importance to the health and well  
being of every man and child.

A vacation can relax nervous  
tension, bring renewed vigor, and  
usually supply an opportunity for  
more sunlight and outdoor activi-  
ties than is customary for office  
workers and those of sedentary  
occupations. But traveling to vaca-  
tion spots for the purpose of  
"roughing it" can also bring a  
serious health menace in the form  
of typhoid germs from impure  
water supplies, and for this reason,  
Dr. Geo. W. Cox, State Health  
Officer, advises all persons con-  
templating such a vacation to first  
be inoculated against typhoid.

Persons planning a vacation  
where sanitation standards may  
not be carefully observed, should  
protect their health by typhoid  
inoculation, and thus avoid the  
risk of serious illness from this  
debilitating and sometimes fatal  
disease," Dr. Cox said. "An individ-  
ual not previously rendered im-  
mune can establish immunity by  
having one typhoid vaccine injec-  
tion administered each week for  
three weeks; if he has kept his  
family immune from a previous  
inoculation, one "booster" shot each  
year will keep him protected from  
typhoid."

Dr. Cox warned that impure  
water is not the only means of  
spreading typhoid, and cautioned  
against the careless exposure of  
food and milk to flies, roaches, ro-  
dents, and other germ-spreading  
pests.

**PREACHING AT DUFFAU**  
Services will be held next Sun-  
day afternoon, April 17, at 3:00  
o'clock at the Duffau Methodist  
Church.  
Everyone cordially invited.  
J. L. RAY, Pastor.

New Approach to  
Water Problem In  
West Texas Offered

Abiene, April 12.—A new ap-  
proach to the West Texas water  
problem has been offered by John  
D. Mitchell, president of the West  
Texas Chamber of Commerce in  
a letter to committeemen, in which  
he points out economic loss from  
lack of water as well as from flood  
water.

In this letter, addressed to Mayor  
Lawrence Hagy of Amarillo, chair-  
man, and R. M. Wagstaff of Abi-  
lene, co-chairman of the WTCC  
Municipal Legal Rights Committee  
he urges a study to submit to con-  
gress a plea for amending flood  
control laws so that economic loss  
due to lack of water may be com-  
pensated for on a parity with areas  
having an economic loss due to  
flood damage.

Staff of the WTCC, under Gen-  
eral manager D. A. Barden, has  
recently been making a study of  
this economic loss from lack of  
water, pointing to towns of the  
area that now are having to haul  
in water in tank cars.

"These towns not only are pay-  
ing a higher price per thousand  
gallons for their water, but they  
are suffering other economic loss-  
es," Barden said. "Service sta-  
tions can't wash automobiles, it is  
impossible to have yards or flowers  
which not only eliminates nursery  
and floral sales, but reduces real  
estate value. There isn't sufficient  
water for air-conditioning units,  
and other necessary uses are cur-  
tailed beyond the safety margin.  
We believe assistance to towns  
suffering from lack of water is just  
as important as assistance to  
towns with flood problems."

President Mitchell's letter also  
gave support to a program for the  
creation of an interim legislative  
committee to study Texas water  
problems and has offered the ser-  
vices of the various WTCC com-  
mittees to aid in this program.

"Due to our objections to the  
proposed surface water code and  
also to other objections, it appears  
now that the proposed code is be-  
ing held in abeyance for further  
study by an interim legislative  
committee," he said. "With the  
state having no inventory of our  
surface water; no definite formula  
for allotting such waters; no exact  
definition of riparian rights or  
stream flow, and since there exists  
a crying need among our cities  
for domestic water, while nine  
times as much water is being ap-  
propriated for hydro-electric power  
as for domestic use, and great  
quantities of our surface waters  
escape to the gulf, there can be  
no doubt that such an inquiry  
should be fruitful for the welfare  
of the state."

As another means of aiding  
municipalities in solving water  
problems, Mitchell asked his com-  
mittees to aid in the passage of  
the \$200 million state water sup-  
ply and conservation loan fund  
plan, as now before the legisla-  
ture. At the same time, he urged  
that support of this measure be  
offered only on the understanding  
that loans be confined only to  
political subdivisions not eligible  
for other government aids.

Third International  
Model Plane Contest  
At Detroit In August

Detroit, Mich., April 12.—Ply-  
mouth Motor Corporation will  
sponsor the Third International  
Model Plane Contest at Detroit  
August 22-29. D. S. Eddins, presi-  
dent of Plymouth, announced to-  
day.

The event, which last summer  
attracted entrants from 46 states  
and five foreign countries and U.  
S. possessions, will be expanded  
substantially because of what Ed-  
dins termed "its enthusiastic ac-  
ceptance by model builders, their  
parents, and educators through-  
out the country."

The contest is invitational, with  
bids going to model builders  
throughout the world who estab-  
lish outstanding records in pre-  
liminary local and state contests  
which will be sponsored by Ply-  
mouth dealers in hundreds of  
towns and cities during the coming  
months.

"We are tremendously gratified  
with the results of the contests we  
have sponsored during the past  
two years," Eddins said. "Last sum-  
mer the model builders established  
seven national records for en-  
durance and speed in Plymouth-  
sponsored contests. Model building  
and flying offers intensely keen  
competition and an excellent op-  
portunity for young people to devel-  
op useful skills. We are proud to  
be a part of it."

Eddins pointed out that during  
the spring and summer of 1948  
some 925,000 spectators watched  
208 Plymouth dealer-sponsored con-  
tests in which about 25,000 model  
builders participated. The num-  
ber of contestants increased more

than 400 per cent over 1947, he said.  
A record crowd of 62,000 attended  
the finals at Detroit.

The Third International, to be  
held in conjunction with the Aero  
Club of Michigan and sanctioned by  
the Academy of Model Aeronautics,  
will feature 50 indoor and out-  
door events, ranging from the  
delicate rubber-powered indoor  
rubber jobs to the roaring jet-  
propelled models which are flown on  
control lines. There will be 167  
tropics and \$8,750 in U. S. Savings  
bonds for the winners.

Participation will be open to  
boys and girls in four different  
age groups: novice, 13 and under;  
junior 14 and 15, senior, 16 to 20;  
and open, 21 to 25. Entry forms  
will be available at Plymouth  
dealers on or about April 20.

In the war against Cancer,  
there is no time to lose! Not  
while Cancer still kills 3 of  
every 4 victims

• The war against cancer is far from won! Today  
cancer still strikes in one of every two American  
families, still kills one American of every eight. Only  
every fourth victim survives this dread disease.

That's why we say send cash now instead of  
flowers later. For on the cancer battlefield, money  
is an all important weapon:

Progress is being made

Remember, everything that is known about cancer  
and how to cure it has been learned in two gen-  
erations. Certain types of cancer are being cured  
today: Diabetes, yellow fever, tuberculosis and  
other deadly diseases of the past have been brought  
under control. Patterns of research in other fields

assure ultimate victory over cancer, if you will give  
your dollars to keep up the search for the cause  
and cure of cancer. Research means working with  
the unknown. Men must be kept at this work:  
for how long no one knows.

Here's how your money helps  
conquer Cancer

**Through Research**—Your money helps support  
more than a thousand research specialists relen-  
tlessly pursuing the cause and cure of cancer.

**Through Education**—Your money helps keep the  
public aware of the cancer menace, alert to its  
danger signals while also keeping physicians and  
scientists informed as to the latest developments  
in cancer detection and treatment.

**Through Medical Service**—Your money backs  
the Cancer Society's field army in establishing and  
staffing cancer clinics—aiding cancer patients—  
carrying cancer control right into the home.

Don't wait until it's too late to send anything but  
flowers. Guard those you love. Give to conquer cancer!

## HOW TO LAND A JOB BY ONE LETTER

HERE'S how one man got 100 per cent in favorable replies to a letter asking for a job! Startling, isn't it?

Back in 1928 John Jensen, now with an advertising agency in Philadelphia, Pa., was badly in need of a job. He decided to go after it by mail, and to deal only with the top man, not a subordinate.

D. Carnegie

So he got the names of the presidents of 43 advertising agencies and other companies in work that interested him. These men were pretty high up top in the advertising world in Chicago, Detroit and Cincinnati. He knew none of them personally, but he wrote personal letters to them and enclosed an appointment card for the recipient to fill out, together with a stamped and self-addressed envelope.

Here is his letter:

"After a year or so as a copywriter on major accounts for a large Chicago advertising agency, I find myself looking for a job for reasons that reflect neither on the agency, nor on me.

"I came to this agency from a large manufacturer of warm-air furnaces, and other home equipment, with national distribution, where, during seven years I had advanced to the position of general sales and advertising manager. The change was made because I felt that my native bent for writing, combined with my rather wide sales experience, could be better used in an advertising agency.

"Before that, I had several years experience in newspaper work, in law (for four years I was a law student), and in court reporting.

"I am 40 years old, married, and have, I think, good habits.

"For your convenience I enclose an appointment card and self-addressed envelope."

The result: Nine cards were returned with an appointment date and hour; 12 were received by Mr. Jensen with arrangements for appointments; 23 replies came with polite acknowledgments of his letter.

Of course, Mr. Jensen landed a good job.

Here are the points which he believes got him the job and the astounding 100 per cent response:

- 1.) The letter came to the point at once; a reader knew after the second line what was wanted.
- 2.) All angles except salary were covered—and that is best arrived at during or after an interview.
- 3.) There is no boasting in the letter, but the letter itself is good, and a reader would know from it that the writer knew his business.
- 4.) Details of why he left the other job were omitted. This would pique the reader's attention.

Mr. Jensen's letter contains principles and ideas you can employ when you write for an appointment. Note them carefully.

## This Week in WASHINGTON

WITH CONGRESS passing the buck of rent control back to the local communities, high point of interest insofar as the rural communities of the nation is concerned is the expected stand of Secretary of Agriculture Charles F. Brannan on the Administration's long-range farm program.

As this is written, the contending forces which include the three large farm organizations holding opposing views on this legislation, particularly with respect to farm price supports are at a standstill. These views range from 100 per cent of parity, down to 90 per cent and to the sliding scale of supports as now provided by the Aiken farm law. It is expected that Secretary Brannan's recommendation to the House and Senate agriculture committees will take the form of a compromise.

According to observers here in Washington, the push for the rigid farm price supports at a high level is losing some of its steam, and Senator Aiken has been leading the grass roots in an attempt to whip up support to retain the provisions of the present law, which go into effect January 1, 1938.

The most telling argument of the proponents for a lower parity price support and the sliding scale is the high cost of the support price and there is indication even now that by the end of this year the Commodity Credit Corporation will have exhausted its four and one-half billion dollar loan limit.

As a matter of fact, about two billion dollars of these funds are already tied up even before the 1943 crops start rolling from the fields. CCC has about 750 millions tied up in cotton loans; some 600 million in wheat loans; more than 200 million in corn, all on 1942 crops. The potato price support has already cost the government something like 170 millions of dollars.

Nevertheless, Congress even under the Aiken law cannot afford to let CCC go broke, so will have to fork over more funds and these funds come from the taxpayer.

The farm organizations are lined up to fight against the 75 cent minimum wage bill, and observers here say they are fighting a losing battle. The farmers are not directly affected by the bill, since it is agreed that farm labor will not be included in the measure in

its finality. However, the farmer who hires labor would be indirectly affected, since if rural businessmen are included in the bill such as canners, agricultural processors, grainers, the increased competition for the 75-cent jobs would force farmers to pay more for their workers.

In about half the states, particularly throughout the south, the average hourly rate farmers pay workers is less than the proposed 75-cent minimum.

There is also considerable speculation in Washington this week over whether the secretary of agriculture will be likely to proclaim a national marketing quota for wheat for the marketing year beginning in 1939. If he decides to take this action, he must also proclaim a national acreage allotment for wheat.

According to information acreage of Spring wheat is expected to be about 29,300,000 acres or almost four per cent larger than the total planted in 1938.

Combined with the winter wheat acreage estimated last December, the total 1940 planted acreage of wheat is estimated at 81,770,000 acres, or about five per cent more than was planted for the harvest last year.

According to some who are close to the White House the president has changed his tactics in his dealing with congress and is prepared to go all the way in an effort to get along with the legislators on Capitol Hill. An example is his cooperative statement in approval of the watered down rent control bill.

The bill is far from the measure asked by the president, but he gave it high praise. These observers say that as a matter of fact the president was far from angry.

These same observers say that if his program doesn't come through congress, that trip around the country to take his case to the people is still a possibility.

Senator William E. Jenner, Republican, of Indiana, brought nationwide publicity in a three-hour speech in the senate wherein he denounced the Marshall Plan, urged its appropriations be withdrawn, declared he would refuse to adhere to any bi-partisan foreign policy and declared that this nation's role in helping the less fortunate peoples and countries of the earth had made us "hated around the world."

## Almost 4,000 Children Aided Last Year by Texas Health Service

Austin, Texas, April 11.—Almost four thousand Texas children from more than 225 counties have received beneficial services and aid to happy, normal living under the Crippled Children's Division administered by the State Health Department, during the calendar year 1948. This information is shown by the annual report issued by Dr. Geo. W. Cox, State Health Officer.

According to Dr. Cox, the most commonly treated conditions are late effects of acute Poliomyelitis, cerebral palsy, osteomyelitis, tuberculosis of points, cleft palate, harelip and clubfoot. Although the services are provided for children from birth to 21 years, the largest group treated were from the age bracket of 5 to 14 years.

The help given these crippled children represents 3,747 clinic visits, 43,433 days of hospital care, 2,897 days of convalescent home care, and 4,986 doctor's visits.

"As long as sufficient State funds are available, any crippled Texas child of normal mentality, under twenty-one years of age, whose parents or guardians are unable to pay for proper care, is entitled to the help of the Crippled Children's Division," Dr. Cox said. "If his doctor believes that it is reasonable to expect that the child can be improved through hospitalization, medical or surgical care, artificial appliances, or through a combination of these services."

Parents of crippled children should make application for this assistance by completing application forms, which should be signed by the physician and approved by the County Judge. The application is then mailed to the Crippled Children's Division, Texas State Department of Health, Austin, Texas.

Many advantages are open to veterans who enlist for three years in the U. S. Army. High pay, security, opportunity to advance, choice of jobs.

## Better Breakfasts Tempt Families Into Getting Up Earlier

Breakfast is a meal worth a little extra planning, for two reasons, says Reba Staggs, food authority. First of all, a really tempting breakfast will help to solve the problem of getting the "sleepy-heads" out of bed. They'll get up if they know that they are going to get a good breakfast.

The second, and perhaps most important reason, according to Miss Staggs, is that the family, and especially the children, will start the day right with good, satisfying food.

An important point to consider is planning with an eye to ease of preparation. A really good breakfast need not take too much time or extra work.

For example, the addition of crisp bacon slices to the breakfast menu is a great tempter of appetites, and bacon requires only a short time to prepare. Put a single layer of slices in a cold frying pan, turning occasionally. Pour off the fat from time to time so that the bottom of the pan is only well greased. When the bacon is light golden brown and evenly crisped, remove to a hot platter.

Canadian style bacon or ham may also be used if you prefer. They are as easily broiled or pan-broiled.

### Name Alone Is Not Sufficient In Making Social Security Reports

Shakespeare was correct, according to R. R. Tuley Jr., manager of the Waco social security office, when he had Juliet say those oft-quoted words "What's in a name?" and then go on to imply that the name was meaningless.

Tuley based his agreement with Shakespeare on the fact that an employer who lets his employer report his social security wages by name alone is asking for trouble in getting his proper amount of benefits when a claim gets filed, trouble in getting full credit for the wages earned.

More than eighty million people have social security accounts in the central bookkeeping division of the Social Security Administration.

It is not enough for an employer to show only the name of his employees on the social security tax returns. By name alone, the Social Security Administration cannot identify the proper account to which those wages should be credited. The social security account number and name of the employee should be on each social security tax return for the tax return to be correct and complete.

## Veterans' News

### QUESTIONS AND ANSWERS

Q—Will VA pay my bill if I go to a private hospital in my home town instead of a VA hospital in a distant city?

A—Yes, but only for a service-connected disability and if you have secured prior approval from VA.

Q—My brother plans to go to school this summer for the first time under the GI Bill. I am already attending a school under the same Bill. I wish to attend the same school as my brother attends this summer. Do we have to make application in advance to attend summer school?

A—Yes. Your brother should apply now for a VA certificate of eligibility; and, if you intend to continue your education this summer in a different school, you should apply as soon as possible for a supplemental certificate of eligibility.

Q—I am a disabled veteran and would like to know on what basis compensation for service-connected disability is granted?

A—The disability must result from disease or injury incurred in or aggravated by active military or naval service, in line of duty.

Q—What interest rates are lenders permitted to charge on business loans?

A—In most cases, 4 per cent is the maximum. However, the interest rate may be slightly higher for certain types of insured business loans.

### 4-H Safety Workers Striving to Reduce Farm Accident Toll

More than one and a half million farm residents took enforced vacations last year due to accidents. In short, one out of every 17 farm people suffered a disabling injury.

Motor vehicle accidents now head the list of causes of fatalities to rural people, 7300 of whom were killed due to collisions, blowouts and other highway mishaps in 1948.

The annual economic toll due to all types of farm accidents is now nearly one billion dollars!

In an all-out attempt to reduce these staggering figures, 4-H Club members throughout the nation are already engaged in the 1949 National 4-H Farm Safety program, reports Guy L. Noble, director, National Committee on Boys and Girls Club Work.

Daily safety practice is stressed in farm buildings and yards, in use of farm machinery, handling livestock and in driving or walking on highways. Through county extension agents and local 4-H Club leaders, rural boys and girls are encouraged to check and remove conditions likely to cause accidents and fires, and promote safety practices in farm life. They are also taught to cooperate in community safety activities. The entire program is under the direction of the Cooperative Extension Service.

As added incentives to produce good safety records, General Motors is again donating awards. Five sterling silver medals of honor are presented members in each county for best achievements. The state winner is given an all-expense trip to the National 4-H Club Congress, and also an opportunity to be selected for national honors and one of the eight \$300 scholarships. The county reporting the most outstanding safety program in each state receives an engraved plaque of merit.

### Girl Scouts Organize Choral Club Monday At Regular Meeting

At our meeting Monday night the Girl Scouts organized a Choral Club. Many songs were enjoyed by the group, including "Your Are My Sunshine," "Moonlight Bay," "Let Me Call You Sweetheart," the school song, and many other songs.

We had a contest on Scout work in which our leader, Miss Blair, asked questions about Scout work.

We have postponed our skating party until next Tuesday night because other activities would prevent a number of girls from going.

### Volunteer Workers In U. S. Savings Bond Program to Be Feted

Austin, Texas, April 12—Governor Beauford H. Jester will be host at a dinner in Houston on Tuesday, April 19, honoring the volunteer workers of 1949 in the U. S. Savings Bonds program for Texas.

The Governor, who is honorary chairman for Savings Bonds activities in Texas, said he had mailed invitations to a list of 650 program leaders. The list was provided by the U. S. Savings Bonds Division of the Treasury Department and included county Savings Bonds chairmen and committeemen in all of Texas' 254 counties.

Speakers will be Governor Jester and Colonel Alvin M. Owsley of Dallas, former national commander of the American Legion and former ambassador to Ireland, Denmark, and Romania. Nathan Adams of Dallas, chairman of the Treasury Department's Advisory Committee for Texas, will preside.

The Governor said that this and similar dinners are being held in each of the 48 states on April 19 to acquaint local volunteer organizations with the objectives of the "Opportunity Drive" which will be conducted May 16 through June 30 to stimulate the sale of Savings Bonds. The date is Patriots' Day and the anniversary of the battles of Lexington and Concord. These battles, launching the American Revolution in 1775, produced the "Minute Man" that today is the Treasury's symbol for U. S. Savings Bonds.

Texas' share of the national quota of \$1,000,000,000 in the "Opportunity Drive" is \$36,950,000. County quotas will be announced April 20, the day following the dinner. Governor Jester said he had been informed. Quotas are being set only for Series E, the popular "People's Bond."

"I am pleased to join Nathan Adams and other active leaders of the Savings Bonds program in paying tribute to the volunteer Savings Bonds workers of Texas," the Governor said. "They are an army of public-spirited citizens—women as well as men—who are performing outstanding service to their communities and to the State and nation."

"By promoting Savings Bonds, they are encouraging thrift and wise spending which, if practiced on a large scale, tend to strengthen the nation's economic framework while helping individuals achieve financial security."

**HHS - HOMEMAKING NEWS**  
 On Saturday, April 9 the FHA had their annual meeting of Area 11. It was at the John Tarleton Agriculture College in the main Auditorium at Stephenville. The ones that went from Hico were Helen Nachigall, Glenda McCook, Margaret Hampton, Patsy Salmon, Betty Goughly, Mary Moore, Miss Rohne, Mrs. Salmon, Mrs. Goughly and Mrs. Sherrard. The general meeting started at 10 o'clock and closed at 4:30 that afternoon. The meeting consisted of speeches, sing songs, introduction, JTAC Cappella choir, style show, discussion on "Boy and girls relations", camp fund report, degrees of achievement, and installation of officers. Everyone that went learned something. I wish more of you could have gone. Maybe there will be more go next time. I know everyone had a good time.

In the style show there were many models. Mary Sherrard modeled a strapless evening gown. Things modeled were suits, dresses, sun dresses and evening gowns. All of them were pretty. The style show was put on by the Fair in Fort Worth.

**SPOTLIGHT**  
 Say did you wonder what happened to the school paper and the Spotlight last week? Well maybe I'd better tell you. You know all the symptoms of spring, probably you have them yourself. You get sleepy and absent minded. Well our editor has got spring fever and some where along the way from school to the news office the school paper got lost. How? No one knows, it was there then suddenly it was gone.  
 We are back this week to bring things up to date so relax and we will get under way.  
 Looks like spring has finally arrived. I go by the expressions on your faces. Some gaze off into space and you have to speak twice to bring them back to earth. Others suddenly and violently fall in love with every pretty face and broad shoulders that pass by. But in general everyone seems happier and troubles fewer. Even despite the measles that have settled in Hico.  
 We'll pick up last Sunday night and proceed from there.  
 Jo and O. J. and Barbara and Garland were returning from a trip to San Antonio. They had been visiting Barbara's dad.  
 Next night the Monday blues had hit and didn't see any couples dating. So let's head out Fairy way and go skating.  
 The Hico-Fairy situation dating is growing daily. The regulars were there such as Jo and O. J., Punk and Milton and Wendell and Lois and added to them are a lot more. Lois R. has a Fairy interest now. The interest and Fred D. and they were skating. Buck L. and Raymond L. also have found Fairy girls, at least they brought Norma Ruth and Audine skating. There were a few strictly Hico couples on the floor. They were Myrna and Melvin and Patsy and Glen.  
 Back in Hico I found as usual, Garland at Barbara's house.  
 Wednesday caught me napping so we will tip toe over it.  
 Next night being Thursday and since I hadn't seen a show lately, the show was my destination. Lucky thing I dropped by cause several other people were there. Jo and O. J., Punk and Milton, and Lois and Fred were together. Later they walked down to Barbara's ad there was Garland, Wendell, with the measles, and Raymond, with measles, were riding around together. I guess they were not afraid of catching each other's measles.  
 From what I heard school was pretty dull Friday! Why? No boys. The boys were away at track and the sudden notice about 12:00 that night was their return.  
 Lois R. home was all lighted up so I looked in. There were Jo and O. J. making candy. Punk and Milton and Lois and Fred playing checkers. Down at the show Louise L. was with C. H. Halle.  
 Saturday night everything went wrong for me. First I forgot my raincoat and got wet. Then the bulb burned out and I couldn't see but after several attempts things started running smoothly and I was ready to go. You were already on the go and I had to hurry to catch up. Being the weather was rainy nearly everyone stayed in their cars and rode around. At least that's what Shirley and Charles, Buck and Patsy and La Verne and Ralph did.  
 Mary Nell and Truman and Jo Nell and Von were at the chicken shack. Mary and Odell and Betty and James were together.  
 Jo looked happy and for a good reason, Ralph was here.  
 Jo and O. J. and Punk and Milton all got together when she got off work. In the mid-night show were Wanda, Jean and Don W. Charles and Margaret, Glen and Patsy, Paul and Betty, and Wendell and Ione.  
 Sunday afternoon was a lovely time for car riding or kodaking. Some even played ball. May M. and La Verne along with Odell and Ralph were in Clairette at a ball game. Lois and Donald, Myrna and Delbert and Louise and Billy were riding around Hico.  
 A lot of couples attended Church Sunday night. Pat and Don were in church and later out to the chicken shack. Jo and O. J., Lois and Fred and Punk and Milton also went to church.  
 Well, that is a good way to start the new week off. So, till then, "Keep Dating."

## TAXES and TELEPHONES

Take a good look at your next telephone bill, and you will see that Federal taxes make up an important percentage of your bill! Federal tax on local service is 15%. On long distance service where the charge is 25c or over, the tax is 25%. Other forms of telephone service are taxed from 8 to 25%.

**This tax is imposed directly upon you as a telephone user. Your telephone company, at its own expense, acts as tax collector.**

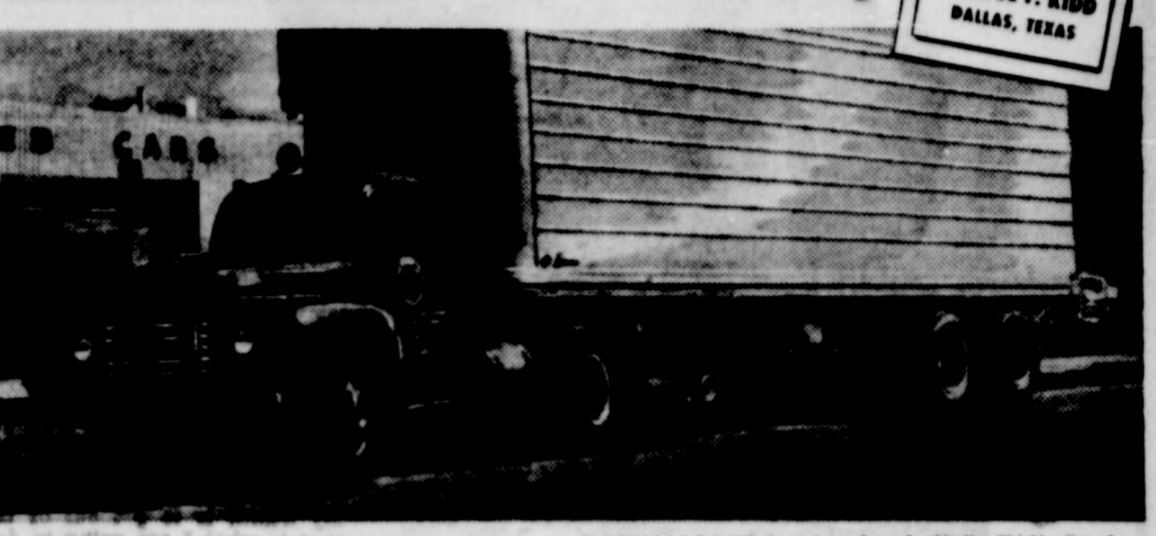

Telephone service today is usually regarded as a necessity. Yet the 25% tax on long distance and other services is higher than the 20% for luxury items, such as jewelry and furs.

Telephone users everywhere have expressed their opinions on this high excise tax to their Senators and Representatives in Congress. Their views will help to guide future Congressional action on this unusual peccetime tax on a necessity. We are sure that your Congressmen would appreciate your views as a taxpayer and citizen on telephone taxes.

These excise taxes levied directly upon you as a user are in addition to the corporation income taxes which the company pays to the government. These taxes must be included in the company's cost of business and must, therefore, act to increase your telephone bill as a sort of hidden sales tax.

# "PERFORMANCE of my new 145-H.P. Ford F-7 BIG JOB equals trucks of twice the G.V.W. rating"

**OVER ALL TYPES of roads, the performance of my new 145-horsepower Ford F-7 BIG JOB equals that of trucks with double the G.V.W. rating of the F-7," reports George F. Kidd who hauls for the Frozen Food Express of Dallas, Texas. "The economy of operation is more outstanding with an average of 7 miles to the gallon of gas. My Ford Truck has proven that it is really "Bonus Built!"**

Mr. Kidd is but one of many Ford BIG JOB enthusiasts. Thousands of others are profiting from gas economy unusual in the big truck field... from an ability to carry gross loads of 50,000 lbs. and more on tandem-axle semi's... from power that makes the BIG JOB the king of the hills. **LOOK THIS WAY, LADY, FOR YOUR BIGGEST BARGAIN!**

Yes, I'm talking about myself...

Since 1931, my average wage per hour has come down almost one-half. During the same period, my hours of work in the average home have doubled. So the average user of my services is getting about twice as much for his money now as in 1931.

Perhaps you haven't realized that my wages have come down that much. That's because you've been adding more and better lights and more appliances all along. Your monthly bill may have stayed about the same or even gone up some, but you're getting about twice as much for your money now, if yours is the average family.

And that's a real bargain any way you look at it.

## I MUST SAY FAREWELL TO BUSINESS!

The Doctor says the only way to regain my health is to get out of the store. So that is what I am going to do and I must do it quickly. He has made up my mind for me—

Realizing the great task before us, I have secured the services of W. L. Fouts of Dallas who closed out the Carlton Stock before I took over several years ago. I have instructed him to cut prices on everything to make sure that the entire stock would be disposed of in short order.

So I will take this opportunity to thank each and every one of you for the patronage and sincere feeling of friendship during my entire business life in Hico, and I assure you that we will miss these friendly gestures in the future.

Mrs. Richbourg and myself will continue to be one of you here in Hico. We hope to see you often, and will always remember how we tried to stick to the Golden Rule. We are sure that "We have helped each other."

YES—and we can still help each other if you'll come to see us often during these final days at the store.

THANKS!

J. W. RICHBOURG.
