REUNION PLANS CALL FOR HUGE BAND JAMBOREE

The dates for Hico's sixty-third annual Reunion have been set for Aug. 3, 4, 5, and 6. M. S. Norton has been named manager, following the resignation last year of S. J. Cheek, Sr., who had managed the event for a number of years. The first Hico Reunion was held in 1882 and has been held annually since with the exception of the war years. A parade, with prizes offered for several classes of entries, will be staged Wednesday, Aug. 3. Other customary features, a carnival at the City Park, performances by the Hico Square Dancers, and concerts by the Hico Band under the direction of Charles Tunstall, are expected to attract a large number of visitors. In addition, plans for a band jamboree, in which bands from other towns in this section will be invited to participate, are being made. Manager Norton stated, but have not yet been completed.

Hearing Ordered On MKT's Discontinuance Of Passenger Trains

Copy of an order of the Railroad Commission of Texas has been received by Mayor H. V. Hedges and other city officials and civic groups, setting July 12 as the date for a hearing on the discontinuance of Katy Trains Nos. 35 and 36 between Waco and Stamford. The hearing will be held at Austin. At the hearing the commission will hear all testimony and statements pertaining to the subject and pursuant to said testimony will render such decision as in its judgement will be fair and just to all parties concerned. The announcement of the arbitrary decision by the railroad to change service on this line brought vociferous protests from towns affected, and an injunction was issued by a Hillsboro court last month restraining the railroad from interrupting service without a hearing.

Texas Veterans Free To Select Privately Owned Land Tract For Farm or Ranch Home

By BASCOM GILES, Commissioner of the General Land Office. (Editor's Note: Second of a series of articles on the Veterans' Land Program.) The recently enacted legislation implementing the Texas Veterans' Land Board will be the means of making the dream of thousands of Texas Veterans for a farm or ranch home of their very own, come true. One of the most attractive features of this bill is that section which permits a veteran to personally select a tract of land suitable for agriculture or grazing held under private ownership in any sector of the State. It might be owned by kinsmen or by a corporation—it matters not to the Board. What will matter to the Board will be that the veteran feels reasonably sure that it will serve his purpose and needs; that it must have at least half of the mineral rights unencumbered and that the land is worth the asking price. After the veteran has made his selection his next step will be to furnish the Board with a complete abstract and description of the property so that it may be appraised. At the same time he files his application with the Board, he will pay to the Board his initial down payment of NOT less than five per cent of the total purchase price. In the event the application is rejected the veteran's money will be refunded and he will be free to make another selection. After the Board has appraised the land and approved the application for the loan for the balance, the applicant will be required to execute an on or before note for forty years at three per cent interest for the balance. After receiving his contract of sale he will be entitled to take possession. EDITOR'S NOTE: (In the next issue Commissioner Giles will tell of the eligibility requirements for qualification for a farm or ranch home loan and the protection provided the veteran under the legislation.)

Untimely Passing Takes Prominent Citizen At Olin

Coming as a distinct shock to relatives and friends throughout this entire section, death claimed A. J. Patterson last Friday at his home at Olin. His lifeless body was discovered early that morning in bed, where apparently he had passed away some time during his sleep. Funeral services were held at Barrow-Rutledge Funeral Chapel in Hico Sunday afternoon at 2:30, conducted by Rev. Jack Hull, pastor of the Olin Baptist Church. Burial was in Carlton Cemetery. Active pallbearers were Richard Tooley, Tom Haile, James Sparks, Vernon Knapp, Dan Haile and Mr. Gromatzky. Named as honorary pallbearers were Robert Jackson, John Guest, O. F. Turner, Ollie Haile, Emmett Basham, Lonnie Gray, Cecil Guest and Harmon Trammell.

A large concourse of sorrowing relatives gathered at the services and at the grave, many from out of town. Included among the attendants was a group from Dallas including Mrs. Lodie Hudson and son, Robert; Mr. and Mrs. Charles B. Crook, and Mr. and Mrs. Hubert A. Finley, friends of the only son of Mr. Patterson, J. D., who is personnel director for Veterans Administration at Dallas, but who is currently stationed at Washington for a short tour of special work. The son left by plane immediately upon receiving news of his father's death, but was unable to get reservations for his wife and young son who had just arrived there to stay with him.

Andrew Johnson Patterson was born December 21, 1887, in Coryell County, member of a prominent family which has resided for many years in this county. He was recognized as a successful farmer, industrious and active until advised by doctors in recent years to take life a little easier. He was active in politics, community affairs and church work but still found time for his family on every occasion. He and his wife had worked together through the years and attained a station in life that could easily be envied by those less sagacious and farsighted. Kind and considerate of his family and friends, his happy greetings and neighborly visits will be missed throughout the entire community. Survivors include his wife; one son, J. D. Patterson, and grandson, Buddy Dwin, Dallas; and three brothers, Ed Patterson of Jacksonville, Albert Patterson of Hamilton, and Charlie Patterson of Farmington, New Mexico.

BOY SCOUTS ASSISTING IN TOURNAMENT ARRANGEMENTS

The Hico Boy Scout Troop has spent the past week practicing masonry art, building bridges and steps, repairing tee boxes, and other projects in preparation for the Championship Sand Green Golf Tournament to be held at the Bluebonnet Country Club July 2-3-4.

COLLEGIAN, 86, STARTS VACATION — Eighty-six-year-old Lewis Rich, America's oldest college student, is greeted by his fellow students as he reluctantly leaves the student building at Bergen Junior College in Teaneck, N. J., to start his summer vacation. He plans to continue his studies there until graduated. The youngest applicant for admission to the college is two-year-old Bette Schmidt (inset), whose parents, Mr. and Mrs. Fred Schmidt of Fallsides, N. J., attended Bergen and had their daughter registered for the class of 1968. Dr. Charles L. Little, president of the college, helps her register.

Ignoring Warning Signs On Highway Like 'Blind Flying'

Austin, June 20.—Would you drive with your head tucked under the dashboard of your car? It's as sensible to do that, State Highway Engineer D. C. Greer said today, as to ignore warning signs along the streets and highways. "Either one represents a case of flying blind," Greer said, "and cars aren't equipped for blind flying." The Texas State Highway Department is cooperating this month with the Texas Safety Association in an effort to impress the importance of traffic markers on motorists and pedestrians alike. "Traffic signs and signals and pavement markings cover almost every situation that can be anticipated, yet the regularity with which they are ignored is appalling," Greer said. "A contentions observation of traffic signs would help greatly to reduce traffic accidents."

Greer pointed out that traffic signs are easily recognized by their distinctive shapes, even at a distance that makes their lettering illegible. And he urged drivers to increase their own traffic protection by learning what these shapes are. "Round markers are used to indicate approaches to railroad crossings," he said. "The familiar 'cross-buck' marks the crossing itself. Oblong signs indicate speed limits or other regulatory instructions. Diamond-shaped signs warn of danger ahead. Eight-sided signs are used only for stop signs."

The Highway Engineer emphasized that every sign has a meaning and a purpose, and is installed for the protection and guidance of the people only after study by traffic engineers has established its advisability.

TWO 'GOLFERS' FROM FLORIDA COMING TO HICO TOURNAMENT

Two golfers from Florida have sent word that they will be on hand for the Bluebonnet Country Club's State Championship Golf Tournament which opens July 2 for a three-day run. The Cheek boys—the big one and little one—will start from their home in Pensacola the previous day. Goodness only knows how Geary and Geary Don are going to drive it that fast, but they've done it before and probably can do it again. Word received in Hico by Mr. and Mrs. S. J. Cheek Sr., also advises that their son and grandson are bringing along their private caddy—Mayme, who will visit also with her parents, Mr. and Mrs. Jim D. Wright at Carlton in between matches.

I REMEMBER...

By THE OLD-TIMERS

From George R. Bryant of Liberty, Mo.: "I remember when Allen's Fame Cherry beverage was being introduced. No Fourth of July celebration was complete around 1896 in President Truman's old home town of Independence, Mo., without large, leed barrels of this drink in abundance around courthouse square, with tin cups attached."

From "Pops" Scheulin: "I remember when Gypsy Smith held a revival meeting in our town, afterwards leading a parade of several thousand people and three bands down Main st. That was in 1909."

From Robert H. Sedgwick: "I remember the long, hall-like movie houses with a pianist and drummer under or behind the screen to produce sound and song effects. And that rhyme that went something like this: 'You may sing of stars that appear on the screen, But the hero, alas and ah-ah, Is the poor fellow who conducts the machine In that little hot-coop in the back.'"

From A. A. Schleske of Chicago: "I remember the square dances we used to have—the women with their sunbonnets and gingham aprons and the men wearing overalls and blue shirts and large straw hats."

From J. E. Schuck of Cincinnati: "I remember when shelled peanuts could be bought wholesale at three and a half cents per pound. There also was a time when anyone could buy bananas at five cents per dozen. Who's cornering the banana market?"

J. C. Prater Appointed To Fill Vacancy On Hico School Board

J. C. Prater has been appointed as a member of the Hico County Line Independent School District board, to fill out the unexpired term of the late E. C. Allison, Jr., who had served as president of the board for some time previous to his death last month. At a recent meeting of the board reorganization included election of Grady Hooper to serve as president, and J. B. Woodard as secretary. Woodard replacing W. M. Horsley who remains a member after having served as secretary. Publication of teacher elections and placements is still pending announcement by the board, whose members state that the faculty is not yet complete. This news is promised for the near future.

Local Rodeo Artist Holds His Own In San Saba Competition

G. K. Lewallen, Hico rodeo performer who shows them a thing or two in competition all the way from the Gulf Coast to Madison Square Garden, is still running true to form, according to daily newspaper reports of the Jaycee Rodeo at San Saba last week end. Bulls from Earl and Jack Sellers' Del Rio stock proved too much for six of nine riders in Friday night's contest, with only Lewallen, W. N. Rice of Brooksmith, and Bud Evans of Fort Davis riding until sound of the judge's whistle in the bull riding event. The Sellers boys, who have relatives here and are well known throughout this section, have gained considerable fame in this field, staging rodeos on many occasions.

U. S. Dept. of Agriculture's OFFICIAL REPORT ON WEEKLY SWING OF FARM MARKETS OVER THE SOUTHWEST

Southwest farm markets presented a mixture of rising and falling prices during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports. Sorghum grain prices dropped 10 cents a hundred pounds for the week, and wheat and barley about 2 cents a bushel. Oats and corn advanced 3 to 5 cents. No. 1 wheat closed Monday at \$2.03 to \$2.11 at Texas common points. No. 2 white corn sold at \$1.73 to \$1.74, yellow corn \$1.62 to \$1.64, and milo \$2.25 to \$2.35. Prospects of another large rice crop together with large remaining stocks from the last crop weakened rice markets again last week. Corn feeds and oilseed meals sold lower last week while most other feedstuffs prices advanced. Unfavorable weather last week held back haymaking and caused a great deal of loss and damage to hay. Peanut prices held steady, as planting of the new crop neared completion. Heavier supplies of watermelons and cantaloups sold sharply lower at most markets last week. Southern Louisiana growers received a great deal of loss and damage to many peanut prices held steady, as planting of the new crop neared completion. Eggs strengthened slightly at Denver during the week, and sold about steady in the southwest. Prices of hens declined 2 to 4 cents a pound at Denver and 1 to 2 cents at Dallas. Fryers lost 4 cents at Denver and 1 in northwest Arizona. Leading markets received fewer livestock of all kinds last week than the week before. A third less sheep arrived in Texas and Oklahoma than a week earlier and less than half as many as a year ago. Wholesale dressed meat prices declined mostly \$2 to \$4 for the week at New York. Pork loins fell \$7 to \$8 and lamb \$5 to \$12. Cows, calves and bulls recorded losses of \$1 to \$2 from a week ago at southwest markets, with fed classes unchanged to \$1 lower. Medium to good killing calves ranged from \$22 to \$25 at Denver while good and choice grades brought \$24 to \$26 at Oklahoma City, and \$22 to \$26 at Fort Worth. Monday's strong hog market reduced the week's losses at Texas terminals to around 50 cents. Oklahoma City showed little change on butchers but sows and pigs lost \$1. Butcher hogs gained up to \$1 at Denver, but most sows sold unevenly lower. Top butchers closed Monday at \$22 at Denver and \$20.75 at Fort Worth. Sheep and lambs closed Monday unchanged to \$1 lower compared to the very weak market the Monday before. Good spring lambs brought \$23 at Texas markets. Good and choice natives sold at \$27.50 to \$28 at Denver. Goats lost 25 to 50 cents. Mohair strengthened last week, to bring \$8 to 40 cents a pound for adult and \$6 for kid hair. Some average French combing New Mexico wool sold around \$1.85 to \$1.45 per clean pound delivered in Boston. Cotton advanced 50 cents to \$1.35 a bale. Spot midline 15-16 inch closed Monday at \$7.95 a bale a pound at Dallas and Galveston, and \$2.80 at New Orleans.

In this speed camera action photo, Soddier tries valiantly to protect himself as Pep follows through with a terrific right.

FOR PRETTY salad decorations dip green grapes in beaten egg white then dip in fine grahamed sugar. Let dry and they will give a lovely frosty touch to salads or fruit cups.

Dip cubes of French dressing in fine dry bread crumbs and bake in oven drippings or oil. This is a delicious flavor treat!

Popovers make good containers for serving creamed chicken or chipped beef which has been creamed. Scoop out the insides of the popovers before using, of course!

RECIPE OF THE WEEK

Blue Cheese Hamburgers (Serves 6)

- 1 1/2 pounds ground beef
 - 1 egg
 - 1 teaspoon salt
 - 1/2 teaspoon pepper
 - 1 teaspoon dry mustard
 - 2 tablespoons salad dressing
 - 1 teaspoon Worcestershire sauce
 - 1/2 pound blue cheese
- Mix together meat, egg, salt and pepper. Form into 12 patties. Crumble the cheese and mix with mustard, salad dressing and Worcestershire sauce. Place this mixture on six of the patties and cover with remaining patties. Press edges of meat together, enclosing the cheese mixture. Broil on each side 6-8 minutes or until done.

Silvered, toasted almonds add elegance to a cream of chicken soup.

Top baked apples with whipped cream or ice cream if you want to glamorize this simple and homey dessert.

Cranberry sauce is an old standby with roast pork or pork chops, but you can make the sauce more interesting if you add some washed seedless raisins to the sauce during cooking.

Fry apple rings in butter, brown sugar and cinnamon and pair them with crusty-baked spareribs for a diet that's really flavormore.

If you want to add a bit of extra nice flavor to that steak about to be broiled mix together salt, pepper and a bit of macaroni. Rub this into the steak on both sides.

A thin slice of ham, spread with softened cream cheese, mixed with finely chopped chives, served on a paper thin slice of rye bread makes a delicious appetizer.

More Than 500 ROTC Cadets Get Military And Athletic Training

Austin, Texas, June 20.—More than 500 junior ROTC cadets in the Fourth Army area, will have completed an intensive course of military and athletic training by July 7, according to an announcement by Colonel Oscar B. Abbott, Executive of the Texas Military District in Austin.

At Camp Dallas, approximately 400 ROTC cadets from Dallas, Fort Worth and Shreveport High Schools, are taking part in the 29th annual renewal of the camp, while at Camp Bullis, 107 San Antonio cadets are taking part in their first junior ROTC camp.

Camp Dallas, which occupies 43 acres at Mineral Wells, Texas, has the distinction of being the first camp of its kind in the United States, according to information received from Dallas. The total attendance at the camp since it opened in 12,782, with an average annual attendance of more than 480. In the first camp, in 1921, there were 121 cadets and in 1944 the enrollment reached 860, the largest in the history of the camp.

The pattern of training, recreation and demonstrations as used in the Dallas camp are being followed to a great degree at San Antonio's first camp at Camp Bullis, which opened June 6 and will close July 7.

The cadets are reported to be taking a deep interest in the military training and as far as the recreational facilities are concerned, they are getting a big play, according to Lt. Col. Eldridge, who is the professor of military science and tactics for the San Antonio high schools. It is said the boys are looking forward to the demonstration to be given June 24 by a unit from the 2nd Armored Division, at which time all types of infantry weapons will be fired.

Social Security Aids Families In Planning For Old Age, Death

"Sooner or later, each of us will grow old or die. When either of these events occurs, wage income stops. It is upon these simple truths that old-age and survivors insurance under the Social Security Act is based," said Joe H. Clepp, field representative of the Waco office of the Social Security Administration.

"Under this system of Federal insurance, workers earn, and they and their employers pay for the financial protection of their families," he continued. "The insurance is paid when it is likely to be needed the most—that is, when older people or young children are left without wage income. When earnings cease in old-age or death, the insured worker or his family receive the benefits which have been earned."

The insurance payments are never large enough to do the entire job, explained Clepp, but they are paid as an earned right to those who are entitled to them. The payments partially replace an insured worker's average wages for work done on social security jobs.

Clepp believes that if Hico families know what their rights are, they will be encouraged to supplement their social security insurance, through other savings and investments.

In order that families affected by social security may plan for their future, they should know exactly where they stand under the retirement and family insurance program. A booklet which explains this government insurance will be mailed to anyone on request. Just address a post card to the Social Security Administration, 206 N. 6th St., Waco, and ask for the booklet No. 35.

USO's Budget Is \$12,100,000 In New Expanded Program

New York.—A budget of \$12,100,000 for the new USO's expanded program of services to the nation's enlarged peacetime armed forces and to hospitalized veterans has been adopted by the USO executive committee and approved by the National Budget Committee.

The estimate is for 1950 operations and represents an increase of \$5,450,000 over this year's budget of \$6,650,000. It provides for 242 USO centers, 217 in continental United States and 25 overseas, as compared with 105 centers in the United States, Alaska and Guam at the time the USO was reactivated in 1948. To date, USO activities have increased to 170 centers—147 in Continental United States and 23 overseas.

As funds become available, the additional 72 centers planned for 1950 will be placed in operation at points of urgent need selected from those requested by the military.

Veterans Hospital Camp Shows, successor to USO Camp Shows, will continue to provide entertainment for 100,000 patients in 120 Army, Navy and veteran hospitals in 42 states. Its USO budget allotments is \$1,400,000.

Another budget provision is for operations of the American Social Hygiene Association which will receive \$200,000, double the amount allocated to it this year.

Funds to finance operations will be raised through inclusion of the USO as a Red Feather service in Community Chest Campaigns and through independent campaigns in other areas.

Six Inch Sermon

By REV. ROBERT H. HARPER

Jesus' Continuing Ministry.

Lesson for June 26: Matthew 28:18-20; Acts 1:4-14.

Memory Selection: Matthew 28:20.

Obedient to His command, the disciples met Jesus on a mountain in Galilee, and He bade them go and make disciples of all nations. His direct command should settle all questions as to the wisdom of missions. When a young man asked the Duke of Wellington if he thought it wise to try to convert the heathen, the Iron Duke replied: "What are your marching orders, Sir?"

Jesus bade the disciples to tarry in Jerusalem until they received power from on high. He discouraged them in their questions about this and that and indicated that the all-important thing was for them to do their part by being witnesses in Judea and Samaria and the uttermost regions of earth.

The Lord then ascended into heaven and a cloud received Him out of the disciples' sight. As they gazed after Him, two men in white apparel stood by them and asked: "Ye men of Galilee, why stand ye looking into heaven?" They then told the disciples that Jesus would come again. We should give more attention to the Ascension, with its promise of the second coming of Christ.

It is significant that the disciples continued in prayer unto the day of Pentecost. They made their headquarters in an upper room, perhaps the same in which they had gathered for the Last Supper. And there they received the Holy Spirit. Thus the first chapters of Acts are the prelude to that, as history.

High Blood Pressure

Hardening of Arteries, Pains in Left Arm And Side

Elmer G. Johnson, President of Harlingen State Bank, Harlingen, Texas, writes on Feb. 20, 1948: "Please send another bottle of Liquid Garlic, also send a bottle to my sister-in-law, Mrs. Hulda C. Dutton, 45 Atwater Terrace, Springfield, Mass.

"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here, has taken two bottles and is much better, his blood pressure down about 60 points. Mrs. W. F. Nelson, San Benito, who was in bad shape, is also very much better and her blood pressure down considerable. This garlic works, and you are doing a fine job of producing it for the benefit of those suffering from high blood pressure or heart trouble."

Cotton Growers In Livestock Business Get Double Value

Every farmer suspects that he "should be twins" to get all of his work done. It is a fact, says A. L. Ward, educational director, National Cottonseed Products Association, that the cotton grower who is a "twin" by being a livestock producer also, profits more. "By using the feed products of his cotton crop—cottonseed meal, or cake, and hulls—the cotton farmer gets added value from his cottonseed, his grains and pastures and his time and labor," Ward said.

Cottonseed hulls, which compare in feeding value to average grass hay, can now be bought in many areas for less than it costs to put up hay, and cottonseed meal also is relatively cheap compared with other feeds or with the value of meat and dairy products. "The abundance and low cost of cottonseed feed products offers an opportunity for many Cotton Belt farmers to increase their income through fattening livestock for home use and sale, and through dairy production," Ward commented. "It also is an opportunity for reducing costs of producing livestock and dairy products through wider use of these feeds in better-balanced rations."

Kenny Baker Scores Enormous Success In First Starlight Show

History is repeating itself at the State Fair Casino, Dallas, home of the Starlight Operetta, which opened its eighth season on Monday evening, June 20, with the popular Kenny Baker starring in a magnificent production of the Sigmund Romberg musical, "Up in Central Park," which will continue nightly through Sunday evening, July 3.

It was the same Kenny Baker who won such tremendous acclaim in last summer's opening bill, "The Great Waltz," and also starred in "One Touch of Venus." In "Up in Central Park" he repeated his previous triumphs. The new musical provides him with considerably more scope for his talents and his renditions of such tunes as "It Doesn't Cost You Anything to Dream," "When She Walks in the Room," "Close as Pages in a Book" and "The Big Back Yard" have won him resounding applause. Also winning favor with Dallas audiences are two charming young Broadway actresses, Beverly Janis and Helen Gallagher, who have featured assignments.

Mr. Baker plays the role of a crusading young newspaper reporter in a New York of the 1870's the recreation of which was inspired by the colorful Currier and Ives prints of the era.

While in Dallas, Mr. Baker, who started his career as a soloist with a church choir, revealed that he is devoting a considerable portion of his time to the recording of sacred music. Unable to win the cooperation of any of the major recording companies on his favorite project, Mr. Baker formed his own company, Kenart Productions, and already has recorded some thirty hymns which are being played all over the world. Using his Beverly Hills, Calif. home as his headquarters, he has shipped recordings to England, China, Java, Japan, Venezuela, Chile, South Africa and to many European countries including several behind the Iron Curtain. Encouraged by numerous letters of appreciation he has received from all parts of the globe, he intends to budget his time so that he will be able to expand his list of recordings in the future.

Fly Eradication Is
Important Part of
General Clean-Up

Austin, Texas, June 23.—During
the last several summers, con-
siderable enthusiasm was shown
by various local organizations
such as Chambers of Commerce,
many Civic Organizations, and
others in the arranging of a fly
eradication program. Dr. Geo. W.
Cox, State Health Officer, says
that for taking interest in this
work, the responsible parties are
to be commended.

However, without year-around
community sanitation the ultimate
result, which is so important has
not always been too successful; in
some areas this has given rise to
rumors that flies are DDT resis-
tant.

"The Texas State Department of
Health heartily endorses a fly
spraying program, provided it in-
cludes a general clean-up pro-
gram carried out during the entire
year," Dr. Cox said. "For example,
why spray a garbage heap that
not only invites but actually breeds
flies when it should have been re-
moved. Why spray the city dump
when it really should be cover-
ed. I fear the unplanned spraying
program is similar to the applica-
tion of perfume or toilet water
to overcome B. O. or the applica-
tion of powder to cover dirt."

In a well-planned fly control
program, Dr. Cox declared, all
places where flies gather, such as
dumps, rubbish piles, garbage
piles, decaying vegetation should
be cleaned up by hauling away
and burying. Proper garbage and
rubbish containers with fly tight
covers should be demanded from
all. All buildings should be screen-
ed. Then, secure a sprayer out-
fit, preferably with one or more
hoses each manned by a skilled
operator to spray the areas where
flies and other insects will light.
It does little good to spray the
center of the street, the ball diam-
ond, or the sidewalk. Spray the
surfaces where insects light or
breed.

A residual spray remains active
until the DDT washes off or is
covered with grease, dirt or soot.
This usually lasts four to six
weeks. After that, a second spray
is recommended provided the item
of clean-up is still being carried
out.

PLATTER CHATTER

CAPITOL: "Gloomy Sunday," the
suicide song that was banned for
so many years, is back via a Charlie
Barnet arrangement and it's suffi-
ciently weird to continue chillies
where they left off some years back.

The reverse has "Be Bop Spoken
Here." A new song that's heading
for the top is "Lovers' Gold," the
nearest thing to "Nature Boy" yet,
and Gordon MacRae has a smooth
rendition of it backed by a cutie
"Ting-a-Ling." Catch Jan Garber's
excellent waxing of "Heart of
Loch Lomond" with "That's When I
Long for You" on the flip. And
another good disc is the Starlighters'
"Room Full of Roses" with "Weddin'
Day."

MERCURY: Benny Veneta gives
a snap to two happy ditties, namely,
"He's a Devil" and "Be My Little
Baby Bumblebee." Ted Weems
has come up with a new issue of
"Canadian Capers" with the peren-
nial Elmo Tanner doing the whis-
tling. The flip is a rather clever
ballad called "Stammerin'." Flip
Phillips does justice to a new, in-
strumental arrangement of the fan-
cinating "Caravan" with "Flying
Home" on the reverse.

COLUMBIA: Another cute new
song is "Scalawag" and one of the
best waxings of it is Tommy Tub-
er's. He couples it neatly with
"That Old Sweetheart of Mine."
Kay Kyser has a mellow rendition
of that oldie, "I Love You" with
Harry Babbitt doing a nice job on
the vocal. The flip has another
oldie "Sweet and Lovely."

CONCLUSIVE EVIDENCE

By RICHARD HILL WILKINSON

DEATH was instantaneous!"
Medical Examiner Ryan com-
pleted his examination of the body.

The crime was a gruesome affair.
The dead man still sat in his desk
chair, the weight of him thrown
back so that the chair had tipped on
its pivot, giving the impression that
its occupant had assumed an atti-
tude of lazy indifference. The square
base of a desk spindle was gres-
tfully affixed to the man's fore-
head, close to the left temple. The
spindle point had penetrated the
head, piercing the brain.

The dead man's name was Jacques
Francis, a prominent real estate
broker, Caleb Earle, a member of
the Francis organization, had dis-
covered the body early that morning.

Ryan reexamined his kit and a
moment later departed. Detective

"Was it possible," Warren asked
"for any one to enter Mr. Francis'
office any other way but through
the outer office?"

"No. There's only the one door."
"Splendid!" Warren suddenly
whirled and there was an accusing
gleam in his eyes. "This is going to
be easier than I thought. Jim, call
up Mr. Francis' home and find out
what time he left his house this
morning. Find out also about how
long it would take him to get to his
office. Then call Caleb Earle's home
and ask the same questions!"

Warren turned to face Caleb Earle.
The little man's face had gone a
shade whiter. "Why—why are you
doing that? You don't think for a
single instant — you don't think
Jacques was murdered!"

"There's no thinking about it,"
Warren snarled. "I know it!
And in a moment or two I'll
know whether or not to accuse
you of the crime, Mr. Earle!"

"Me!" The little man fairly
shrieked the word.

"Me!" The little man fairly
shrieked the word.

Bradley expelled a breath of relief.
"It sounded like a pretty routine
report to me," he said.

Instead of replying, Inspector
Joe Warren turned his attention
to the desk. After a moment he
looked up. "Jim, go out there
and tell Caleb Earle I want to
see him."

Bradley returned, accompanied by
a small wizened individual with
thinning grey hair and gold-rimmed
spectacles.

Warren asked:
"You're Caleb Earle?"
"Yes."

"You were a sort of partner to
Mr. Francis were you not?"
Caleb Earle shook his head. "No,
I merely worked here. I've been
with Jacques ever since he started
in business, 20 years ago. I always
hoped he would take me in, but he
never seemed to get around to it."

Warren nodded, asked: "It must
have been quite a shock when you
discovered him this morning?"
"It was! For a moment I thought
I'd faint!"

"Was any one else in the office
when you arrived?"

"No. I always get here a few
minutes before nine to start things
going. I noticed the door to this
office was ajar and looked inside,
thinking perhaps Mr. Francis had
come down early."

"And after that you did what?"
"—I don't exactly know. I
stood there for a minute or two,
just staring. Then I turned
tumbled a telephone and called
the police."

CARD OF THANKS
We wish we could personally and fully express our very deep appreciation and thanks to all those who paused with us at the loss of our husband and father.

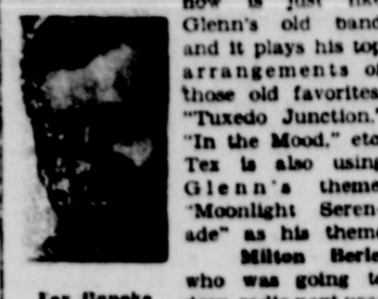

More specifically will we always remember the spiritual and material aid and comfort given by our neighbors in the Olin Community. Your thoughtfulness and unselfish desire to help in our hour of greatest need was a tribute to community relations and true neighborliness.

Friends such as these makes the way much easier.

PEEK AT THE STARS

DUE to the popular demand of fans who wanted to hear "the original Miller style," the Tex Beneke band was reorganized. . . . Its set-up now is just like Glenn's old band and it plays his top arrangements of those old favorites, "Tuxedo Junction," "In the Mood," etc. Tex is also using Glenn's theme, "Moonlight Serenade" as his theme Milton Berle, who was going to drop radio next year in order to devote all his time to his popular television show, has changed his mind again and will continue both programs.

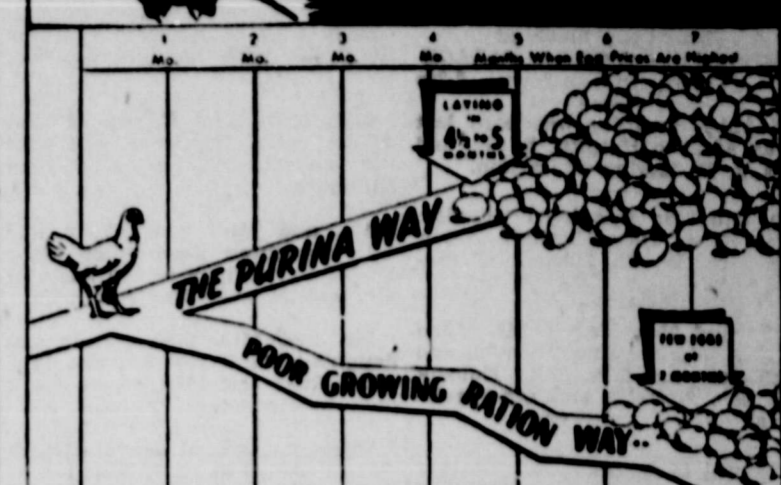

PLATTER CHATTER
Capitol: The most beloved songs of Noel Coward have been compiled, given an excellent arrangement and recorded for Capitol by Georges Lippine and his concert orchestra. . . . Among numbers are "I'll See You Again," "Zigeuner," "Someday I'll Find You" and "I'll Follow My Sweet Heart." . . . In singles, one of the best Capitol releases in recent months is "Baby, It's Cold Outside" with Margaret Whiting and Johnny Mercer giving the delightful lyrics precise timing. Jimmy Wakely comes up with another mournful ditty that should keep him on top of the folk song heap. . . . It's "Someday You'll Call My Name" and on the reverse is "I Wish I Had a Nickel."

Columbia: "Secret Music of China" is one of the most sensational offerings in years. . . . Columbia's Alexander Laszlo has embodied all the pathos, tragedy and some of the light moments of modern day China in songs that will tear at your heart strings, particularly his "Rape of Nanking." . . . His direction is outstanding and while not a word is spoken, the music itself suffices.

In Columbia singles, some recommended ones are the new and pretty "A Million Miles Away" as recorded by Jerry Wayne and the Dell Trio with "Loneliness" on the flip side. . . . Frank Sinatra has a winner in his rendition of that popular "Huckle-Buck." . . . In fact, Frankie has been putting out some good records lately, other highly recommended ones being his "Comme Ci, Comme Ca" and "Dop Goes My Heart."

WHICH ROAD WILL YOUR PULLETS TAKE?

SEE THE DIFFERENCE GROWING PULLETS RIGHT MAKES . . .

The above diagram shows the results of Purina Research Pullet Growing tests. They prove time and again that well-fed pullets are larger and better-developed — start laying earlier, lay more eggs and make more money in the fall high-egg-price months — than pullets that are poorly fed.

This year put your pullets on the straight road to early fall eggs, big fall eggs, lots of fall eggs. After Purina Chick Startena change to Purina Growena, complete ration or Purina Growing Chow, to balance grain!

Duffau

— By —
Mimer Glencoe
Farmers are taking advantage of the dry weather. Harvesting of grain is almost completed, and row crops are in fair condition. There was quite a bit of visiting in and out of this community Sunday in observance of Father's Day. Our ball club got revenge Sunday afternoon when they trounced Johnsonville to the tune of 15-2, before a crowd of 200. What we are on that subject, don't forget, if you like good clean sport, go to Alexander's next Sunday afternoon when the second half of the Bosque Valley League gets underway. Duffau will play the leading team of the circuit and a strong contender for the pennant. A large crowd was present at the Amateur hour Friday night, which takes place every Friday starting at eight p. m. on the lawn at Stanley Roach's. If you can sing, play, yodel, or dance, be on hand. It's all as free as the water that flows through this village. The school election for the bond raise carried with not a dissenting vote. J. D. Land and wife and Chester Land and family drove to Wichita Falls Monday to visit B. M. King who has been in the hospital there for several months. They report B. M. doing very nicely at this time. Rod Elkins has a brand new spic and span mower and rake and has cut and had baled some 700 bales of Johnson Grass, oats, speltz and vetch.

SHERRARD-TALLEY
Robert Sherrard and Irma Lucille Talley drove to Stephenville Saturday afternoon and at 6 p. m. at the home of Elder Telephus Cawyer, were quietly united in wedlock. Robert is the son of Mr. and Mrs. Geo. Sherrard of the Johnsonville community. He spent two and one-half years in the Pacific Theater of War and was stationed in the Philippines. Irma Lucille is the charming young daughter of Mr. and Mrs. H. H. Talley. She finished high school at Hico and has been taking a general secretarial course at Fort Worth. May happiness attend them in the eager desire of their manifold friends.

The Army's new career guidance program is especially designed for high school graduates. Check today with your local recruiting officer to see if you can qualify for Army entrance.

A Few Timely Suggestions . . .

- Clean eggs as soon as possible before any foreign matter becomes dry.
- Gather twice daily.
- Get rid of, or pen roosters.
- Let eggs set over-night before casing, as fillers and flats of an egg case will hold the heat of a new-laid egg.

Dale Carnegie

ARTHUR D. KIMBER, of Grand Rapids, Mich., tells me a story that is, as he says, applicable to practically anyone driving a car with the best of intentions to obey the law.

He was driving home to lunch one day and says he had no idea that his car had picked up the speed it obviously had picked up. He glanced up into his mirror and saw a late model Ford in the rear that was rapidly gaining on him, and, he felt, with purpose and intent. He slowed down, but it was too late. The siren was sounding and in a flick of the eyelash a police car was beside him. There was just one thing to do: "pull over to the side of the road." The officer parked his squad car and came over.

As he rolled down his window the officer said, "Going pretty fast, weren't you, Boy?"

Mr. Kimber says he has always aimed at being a conscientious driver, and that he respects those officers for he knows full well that if it were not for their alertness no one could drive without risking his own neck. He wanted to say this to the officer, but who wouldn't look for just such an "out." And what officer would regard it?

So he let the officer "read him down," which he did in an unusually gentle manner. He pointed out how traveling at such a rate of speed could easily mean crashing another vehicle, hit a tree, or run into some children playing on the sidewalk. He called attention to how this latter could easily have happened in that particular neighborhood.

Mr. Kimber said nothing until the officer had finished, paying respect by his manner, then he replied, "Officer, you are entirely right. I could have caused a bad accident, and I honestly want to thank you for stopping me before something terrible happened."

How did that officer react? Well, there was no doubt that he believed in the sincerity of Mr. Kimber's remarks. He reached for his pad, however, but instead of writing down the usual fine in such cases, \$25, he wrote \$10. Mr. Kimber says he never paid out \$10 more willingly, knowing what an accident could have meant.

Yes, and it's too bad all drivers can't look at an officer and his duty from the same point of view.

Rural Roads Group Planning All-Weather Low-Cost Construction

Celebrating its first Birthday with a Board of Directors meeting in Dallas, last week, the Texas Rural Roads Association revealed plans to consolidate present legislative gains and continue its campaign to establish a system of low-cost, all-weather rural roads in Texas.

The directors adopted a resolution recommending that any increase in the tax revenues from natural resources be used only to finance permanent improvements, such as rural roads, soil conservation, permanent buildings for Eleemosynary and other State Institutions not otherwise provided for.

"We intend to continue to press for the adoption of a 10-year plan, supplying \$0 million each year, which is necessary to adequately serve the farms and ranches of Texas with low cost all-weather rural roads," said Jim Cantrell, Collin County banker and President of the Texas Rural Roads Association.

He added, "We firmly believe that our natural resources are our most valuable capital asset and that any additional tax revenues derived from this source, should be placed back into a capital investment to be expanded only upon permanent improvements, such as rural roads, soil conservation and public and institutional buildings."

The rural people of Texas are grateful to the Legislature for the 15 million dollar per year appropriation, which will enable the Texas Highway Department to carry on the present Farm-to-Market road program, but we must

bear in mind this appropriation is only for the next biennium and is not adequate for the purposes we have in mind," Cantrell said. "Regardless of our present abundant supply of natural resources, Texas is basically an agriculture State. When these irreplaceable resources are exhausted, we will realize the value of farming to our economy. The rural population of the important farming areas is constantly decreasing."

Col. J. I. McGregor of Temple, a Vice President of the TRRA, was named chairman of the State-wide membership organizational campaign. Four new directors were named. They are T. E. Patton of Blanco, Judge W. W. Mason of Mt. Pleasant, J. E. Lightfoot of Comanche and Herman E. King of Hemphill.

Veteran Students At University of Texas Decrease In Number

Austin, Texas, June 23.—The ranks of that new addition of recent years to college life—the veteran student—are growing smaller, University of Texas summer enrollment figures indicate.

Although veterans are still in the majority, their number is decreasing steadily and registration officials predict that by next fall fewer than half the student body will be veterans.

First summer term enrollment totals 8,474, a decrease of \$45 from the 1948 summer first-term total of 9,319. The decrease in the number of veterans is greater than the overall decline, from 6,300 last summer to 5,306 this summer, but they still represent 62.5 per cent of the summer total.

All schools and colleges, except the Graduate School and the College of Fine Arts, registered fewer students this summer than in 1948.

From where I sit... by Joe Marsh

Don't Fence Yourself In

Every spring, Handy Peterson and Easy Roberts patch up the stone wall that separates their farms. They walk along talking—Easy on one side, Handy on the other—picking up the fallen stones and putting them back.
Afterwards, over a friendly glass of beer, Easy says, "You know, wall-mending is a nice neighborly custom, but we really don't need that wall. We keep it up just because it happens to be there."
"Yes," says Handy, "a lot of walls and fences and boundaries keep on separating people for no

good reason. Maybe we'd all be better off if some of them were torn down, instead of kept standing."
From where I sit, Handy said a mouthful. Take the "walls of intolerance" that people build up against each other. I like a temperate glass of beer now and then, you may prefer buttermilk—but that's no reason for me to criticize you, or you, me. Let's live and let-live together—making more friends and fewer "walls."

National Dairy Month Suggests Use of More Milk During June

Austin, Texas, June 20.—In view of the fact that June has been proclaimed National Dairy Month, Dr. Geo. W. Cox, State Health Officer, urges that with the more extensive use of milk, both producer and consumer be concerned as to its quality. The use of clean safe milk is a health measure.

Have Your Fireworks and Eat Them Too

Snow in winter and sun in summer usually spell playtime for week ends. Since Fourth of July falls on a Monday this year the holiday will be lasting from Friday night through Monday night. Holiday, that is, for most workers but not for Mom unless the family plans to "eat out."

Chances are that at least one picnic supper will be held in the backyard, on the terrace, or under cover should the day be wet or chilly. How does this menu sound for such a supper, served buffet style?

- Fireworks Fiesta Food**
Tomato juice cocktail
Firecracker rolls
Pinwheel pie
Potato chips
Grilled Hamburgers
Radish Torpedoes
Punk Sticks
Watermelon
Coffee

Here are recipes and helps.
Tomato Juice Cocktail
Chill well flavored tomato juice. Pour some of it into the ice cube tray. At serving time add a cube or two to each glass of cold juice. Serve with firecracker rolls. To make these, slice fresh bread. Cut off the crusts. Butter the slices generously. Spread with mustard or horseradish. Roll and hold in shape by inserting a toothpick. Wrap and keep cold. At serving time remove the picks and insert a slender strip of pimiento for fuse.

Pinwheel Pie
Buy the largest round loaf of rye bread you can find. Cut off the bottom crust. Cut two round slices, about 1/4 inch thick. Remove crusts. Butter each slice. Spread a thick layer of deviled ham on the bottom slice. Top with second slice of bread. Spread three bands of colorful food on the top slice. First

band uses sieved hard cooked egg white mixed with softened cream cheese, horseradish, and chives.

Second band is made of sieved hard cooked egg yolk mixed with mayonnaise. Add a little anchovy paste, if desired.

Third band is made of chopped cooked beets held together with a suggestion of a gelatin base. Soften 1 teaspoon plain gelatin in 1 tablespoon cold water. Heat 2 tablespoons vinegar with 1 tablespoon beet juice. When boiling pour it over the softened gelatin. Stir to dissolve the gelatin. Add beets. Chill until rather firm, then use as the outside or third band of color.

Remove a slice from a peeled hard-cooked egg. Take out the yolk. Fill the opening with washed, perky parsley. Set the egg cup in a hole made at center of top bread slice. Put slices of stuffed olives on white band. Cut narrow strips of pimiento or pickled green peppers and radiate these from the center hole to outer edge of round slice in a pinwheel effect.

Place the "pie" in a large platter. Surround with crisp potato chips, the more the better.

Years ago Fourth of July torpedoes were in the form of small balls. Small stones and a mild explosive were wrapped in gaily colored tissue paper. When thrown to the sidewalk the torpedo exploded with a bang. Round radishes may be called today's torpedoes. When fireworks are to be set off, the fuses are lighted by applying a slender stick of a slow burning material which used to be called "punk." The carrot sticks can be of the same size, but not the unattractive gray brown color which used to identify punk.
