Rodent Control Will Help Hold Typhus Fever In Check

Austin, Texas, July 5.—The people of Texas have been fortunate in escaping any serious outbreaks of typhus fever this year, the total number of reported cases so far being 133. This is a gratifying decrease in the incidence of this disease, but at the same time, it is well to warn only continued stringent rodent-control measures will hold this disease in check.

This is the advice of Dr. Geo. W. Cox, State Health Officer, who says that "typhus is one of the most debilitating of all diseases, and the long drawn out illness results in such loss of time that this factor is usually even more expensive to the victim, than his doctor and hospital bills."

Inasmuch as typhus fever is transmitted to man by the rat flea, the control of typhus depends entirely upon ridding ourselves of rats.

No garbage should be left exposed where they can get to it to feed. Granaries and feed houses should be rat-proofed so that rats are starved out. All rat harborage such as trash piles, piles of old lumber, accessible quarters in the walls and foundations of buildings and other suitable living quarters should be denied them. Houses and business buildings can be effectively rat-proofed at a comparatively low cost, and the expense is always much less than the damage that can be done by rats, and the sickness they can spread.

"When the rat is gone, typhus fever will go also," Dr. Cox said. "Keep building all rats, and typhus fever will no longer menace the health of our people."

DUBLIN SHAMROCKS DEFEAT WEATHERFORD

The Dublin Shamrocks defeated the Weatherford team in the Brazos League last Sunday by a score of 6 to 4. This is the only time Dublin has beat that team in three years of League play. This gives Dublin two wins and one loss for the second half.

The Shamrocks will meet the Glen Rose team at Dublin Sunday, July 10 for a try for their third win, according to Delbert L. Shafer, Secretary of the Dublin Shamrocks.

Texans Urged to Keep Contributing to Cancer Control Work

Houston (Sp.)—In Texas, as in every other state, cancer's death toll is mounting, while that of most other diseases is falling off. J. Louis Neff, Executive Director, said today.

"Last year 6,913 Texans died of cancer," Mr. Neff said. "This was 413 more than in 1947."

"Several reasons have been given for this rise. Statisticians point out that, with improved health conditions generally, more people are living longer. They are living to the period in life when cancer takes its heaviest toll. "However, it may be that this increase reflects simply the increase in the number of cases discovered and reported on death certificates."

"Whatever the new statistics imply, they do clearly point out that the educational, service, and research work of the American Cancer Society must continue unabated," the cancer control leader said. "We cannot conduct our fight against cancer in this state without the funds contributed by the people of Texas. We are still \$100,000 short of our minimum fund-raising goal of \$450,000."

Mr. Neff urged all Texans to send contributions to the Texas Cancer control fight. Address your donations to: Cancer, Care of Postmaster, to your local post office. Postmasters are instructed to forward such contributions to the American Cancer Society for its fight against the disease.

I REMEMBER...

By THE OLD-TIMERS

From Mary K. Robinson of Bristol, Ohio: "I remember when wild turkeys were plentiful around the ranch I once had on Catfish Creek, two miles from Bristol. When the turkeys wanted a feast, they went to a turkey hunt with their neighbors at early dawn. Then two or three families would have a get-

together for Sunday dinner. This was in 1895 when he had no churches or schools. When it was my turn, the menfolk came in with a gobble so large that no one had a vessel large enough to cook it in. So I resorted to a new, 50-pound lard can! Wonderful days were those!"

From Mrs. Mary M. Sage of Allegan, Mich.: "I remember 'Are You Singing' was popular. At that time, Chicago boasted the longest streetcar ride for five cents in the world and one could also buy a tall schooner of beer for five cents."

From Mrs. Mary Stewart of Chicago: "I remember when saloons were advertised as sample rooms. They were equipped with swinging doors, stationary Venetian blinds, brass rails and shiny cuspidors. Ladies were not admitted."

From Robert H. Bodgwin of Chicago: "I remember the troubles which beset us as children when we used to walk barefooted, stubbing our toes, getting stivers from the wooden sidewalks, stepping in sticky, hot rosin spots and being stung by bees."

Give about your memories of the days gone by, old-timers! Address your contributions to this column in care of Mrs. Stubbins, Box 624, Louisville, Ky.)

Nonette Fabray to Open In 'Bloomer Girl' At Starlight Operetta

Broadway's most scintillating musical comedy star, the beautiful and effervescent Nonette Fabray, will make her Dallas debut on Monday evening, July 11, when the Starlight Operetta begins a week's engagement of "Bloomer Girl" in the State Fair Casino.

Mrs. Fabray comes to Dallas directly after her success in "Love Life" on Broadway all this past season. For her performance in this show she was awarded the Broadway equivalent of an Oscar, the Antoinette Perry Award, for the best performance of the season by an actress in a musical. The previous season saw her win two of the highly coveted Donaldson Awards—the first actress ever to be so honored—for her performance as the leading lady of "High Button Shoes," in which she introduced the song, "Pappa, Won't You Dance With Me." She is familiar with the role of Evelina in "Bloomer Girl," having played it for many months in New York and for more than a year on tour.

Many of the members of the original cast will return to Dallas for the production, including Mabel Taliaferro, Olive Reeves-Smith and Joe E. Maaks.

Hamilton-Coryell Soil Conservation District Notes

Albert Peters, 14 miles southwest of Hamilton in the Shive group, has reported a 60 bushel to the acre yield of oats on land which was cropped with Austrian winter peas in the fall of 1947 and spring of 1948. On similar land, and other conditions identical, except no legumes preceding the oat crop only 40 bushels per acre were harvested.

The farmers whose names are listed below have recently worked with the Soil Conservation Service personnel in making coordinated soil saving and soil improving District plans and have begun the application of conservation measures on their farms:

J. H. Trimble of the Sunshine group, 133 acres.

R. L. Schuster, 20 miles southwest of Hamilton in the North Star group, 1000 acres.

C. O. Guest, 11 miles north of Hamilton in the Sunshine group, 200 acres.

J. W. Ogle, 2 miles northeast of Hico in the East Hico group, 100 acres.

W. W. Williamson, in the south Carlton group, 65 acres.

Mrs. C. B. Shaw, 17 miles north-west of Hamilton in the East Carlton group, 237 acres.

J. B. Wooten, immediately east of Hico in the East Hico group, 334 acres.

Market trends on fruits and vegetables at Fort Worth varied widely this week. Denver sold tomatoes higher and cabbage and carrots lower. New Orleans enjoyed good movement and heavy receipts.

Watermelons moved very fast. Louisiana growers found steady markets for peaches, but tomatoes and peppers continued weak.

White corn advanced 7 to 12 cents a bushel for the week, barley 2 to 3, and wheat one. Oats lost 5 cents a bushel, yellow corn one-half cent, and milo 10 cents a hundred pounds. Wheat closed Friday at \$2.07 1/2 to \$2.15 1/2 in Texas.

Rice found limited domestic demand and only small movement into export trade. Most feedstuffs met with good demand at higher prices but wheat millfeeds declined. Hay markets showed more activity this week with quality improved. Season's first car of prairie hay arrived at Kansas City. Pennants declined slightly in light trade.

Fewer eggs came to market this week as summer weather got under way, but lighter weights and heat damage resulted in slightly lower per dozen prices. Fryer prices declined a cent or two per pound, and hens eased a little at some markets.

Cotton lost 50 cents to \$2.25 a bale. Middling 15-16 closed Friday at 31.55 cents a pound at Dallas and Little Rock, 31.50 at Galveston, 32.15 at Houston and 32.30 at New Orleans.

More and More "Special messengers"

The other day we heard a lady refer to her telephone as her special messenger. She has something there. Most people think of their telephone first when they want to send important family news or when they want to hear it. The telephone as a social instrument helps plan entertaining evenings. It offers the quickest means of business communication. Advantages like these keep the demand for telephone service at an all-time high. Our expansion program is rapidly forging ahead to meet this demand, and to furnish these "special messengers" for everyone as quickly as possible.

AN EASY dessert uses peach halves filled with a small scoop of ice cream, a covering of meringue which is then browned quickly under the broiler and served on slices of sponge cake.

Add a spoonful of horseradish to sour cream and serve over green beans if you want a real treat in the vegetable line.

What can you do with those green tomatoes? Slice them thick, sprinkle with sugar, salt and pepper and fry a few minutes before serving, pour soured cream over them and cook until cream is heated. Here's a vegetable that's a special treat with steak.

RECIPE OF THE WEEK

Appetizer Salad (serves 6)

- 3 pears, peeled and sectioned
- 1 1/2 cups grapes, halved and seeded
- 1/2 cup maraschino cherries, halved
- Salad greens
- 1/4 cup French dressing
- 1/4 cup mayonnaise

Arrange fruit in sherbet glasses and serve with French dressing mixed together with mayonnaise. Garnish with salad greens.

For a special occasion breakfast broil peaches which have been brushed with oil right alongside the bacon. Place a piece of brightly colored jelly in the peach just before serving. These make a plate of fried or scrambled eggs look like an elegant dish.

Saute 1 1/2 cups of shrimps in butter with a few fresh, sliced mushrooms, chopped green pepper and celery. Place in individual casseroles and top with cheese sauce. Bake for 15 minutes in a moderate oven, and you'll have a nice supper dish.

Add a dash of cinnamon to whipped cream before serving over puddings or apple pie for a subtle flavor touch.

Cereals which lose their crispness in humid summer weather should be stored in a cool place in airtight jars. To crisp the cereal before serving, place on a shallow baking pan in a moderate oven for 5 minutes. Cool before serving.

Stains are easily removed from linoleum by rubbing lightly with steel wool before washing.

THE DANGER IS IMMEDIATE!

WITH THE PERMISSION of the editor of The Rhinebeck (New York) Gazette we quote the following illuminating article.

"YOU MUSTN'T"

"Small green onions must not be picked. The diameter shall be construed as meaning the maximum diameter of the bulb measured at right angles to the axis."

"Metal discs must be attached to the horns of all pedigreed Angus bulls being exported."

"You can't repair your home the way you please. Not more than \$60 can be spent annually for repairs. Any additional expenditure will require a government permit."

"You can't drive a car if and when you please. The Fuel Ministry will determine that."

"Don't plan on killing your pig until you get the okay from the Ministry of Agriculture."

"Fantastic?"

"Not a bit of it. Those are just a tiny taste of what 'all wise' government planning means in Britain."

"Make no mistake about it—the United States is taking long steps down the same road of state socialism."

"Inch by inch we're chopping away the roots of our free enterprise system."

"Planning and subsidies are the evil drugs that paralyze and destroy the initiative and abilities of individuals and lead to the destruction of democracy."

"There's no underestimating the danger to our system of free enterprise. And it will continue to be endangered until we take a reef in our oar and try to solve a few of our own problems without always running to Washington's apron strings for help, apron strings that are a noose that will strangle individual liberty."

The editor could have added that our freedom is half gone already! It has been comparatively painlessly extracted, except for the high known and hidden taxes which we ALL pay.

There is only one way to stop this pilfering of our freedom. It is to form groups in every small town and country community in the land, and for those vote-casting and determined groups to instruct their Congressmen to VOTE AGAINST EVERY "GOVERNMENT CONTROL" BILL WHICH IS INTRODUCED IN THE CONGRESS.

High Blood Pressure

Hardening of Arteries, Pains In Left Arm And Side—

Elmer G. Johnson, President of Harlingen State Bank, Harlingen, Texas, writes on Feb. 20, 1948: "Please send another bottle of Liquid Garlic, also send a bottle to my sister-in-law, Mrs. Hulda C. Dutton, 45 Atwater Terrace, Springfield, Mass.

"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here, has taken two bottles and is much better, his blood pressure down about 60 points. Mrs. W. F. Nelson, San Benito, who was in bad shape, is also very much better and her blood pressure down considerable. This garlic works, and you are doing a fine job of producing it for the benefit of those suffering from high blood pressure or heart trouble." Hundreds of other testimonials of similar nature.

NO MORE CLINGING DIRT OR GRIME

All paints collect dirt and grime during the first few months.

With Du Pont House Paint, a fine white powder forms on the surface after a few months.

Rains wash off this powder—and with it, much of the accumulated dirt and grime.

Self-Cleaning leaves surface clean and white... keeps it sparkling white for years. This cleaning process is gradual and does not adversely affect the long life of the paint.

Du Pont House Paint Cleans itself!

Houses painted with Du Pont No. 40 Outside White are dazzling white at the start, but more important, they stay white. Du Pont "40," owing to its unique combination of pigments and oils, actually cleans itself... sheds dirt and dust with every heavy rain. Normally, this "Self-cleaning" starts in a few months on most surfaces. However, excessive soot, or heavy shade, or stains from metal surfaces such as copper screening, may interfere with or delay the process.

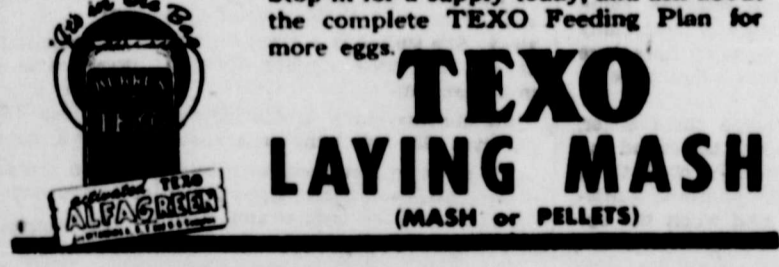

"Self-cleaning" Du Pont House Paint is also available in light tints. It assures you long-lasting protection against rust, rot and decay. Economy is yours, too. Smooth, easy application, excellent spread, high hiding... all add up in your

favor when you specify Du Pont. If the surface is bare wood or badly weathered paint, make certain a prime coat of new Du Pont House Paint Primer is applied. It assures maximum adhesion and performance of the finish coat.

CLOAK AND DAGGER DRAMA

This Week in WASHINGTON

THIS WEEK IN BOTH house and senate, political fortunes are being made. Especially are lines being drawn for the 1950 elections.

As a matter of fact the 1950 campaign already is under way with the Democrats recently holding a mid-west conference at Des Moines to well middle-west farmers on the Brannan farm program.

Sen. Robert A. Taft of Ohio not content to wait for action by the senate campaign committee has become a columnist in his own right and is sending out weekly columns to some 148 newspapers in his native Ohio.

The Democratic senatorial campaign committee is headed by Sen. Clinton Anderson of New Mexico, former secretary of agriculture.

Apparently there was something of a paradox at the recent governor's conference at Colorado Springs, for according to observers here, those states-rights governors who yell loudest in national campaigns years about federal domination yelled loudest at Colorado Springs for more federal grand-aid funds.

ON GRANDPOP'S BIRTHDAY: All set to congratulate their great-grandfather, King Gustav V of Sweden, during recent 91st birthday celebration.

Six-Inch Sermon

By REV. ROBERT H. HARPER

Pilgrim Marching Songs. Lesson for July 10: Psalms 122: 1-14.

Memory Selection: Psalms 122: 1. It appears that Psalms 120 through 134 were used by pilgrims going yearly to the Passover.

Other things made them eager, but the desire to visit the grand and glorious temple was the chief thing that inspired the pilgrims.

It is evident the people had a great pride in Jerusalem and the temple. They sang in their marching songs of their glory and prayed for the prosperity of both.

The picture of these ancient pilgrims should stir us to greater concern for the present church and the worship of the sanctuary.

YES, OF COURSE

(A Short Story) By RICHARD HILL WILKINSON

PREIDA had not gone 20 feet before she fell. She pitched forward on her face. Her skin went flying over her head and jammed into the drift, breaking her forehead.

Freida opened her eyes and looked up at the man standing over her. He was tall and dark and homely. He grinned, and the grin made her so angry that she almost forgot the pain in her ankle.

"Oh, so you can't take it, eh?" She was struggling to regain her feet, a task well-nigh impossible because of her maladroitness in maneuvering the cumbersome skis.

Freida gasped. She stared at him and struggled for words violent enough to express her feelings. "Marry you—why—why?"

"I'm not! I'm quite all right—and I—don't!" Freida's voice died away. She sucked in a great lungful of air and then pitched forward in a dead faint.

An eternity later Freida opened her eyes. She was lying on a couch in a room that was hung with skins of animals, deer heads, out-of-door portraits, skis, snowshoes and other trappings.

For a while she lay in perfect contentment. And then abruptly the thought of Lee Rogers. A wave of anger surged through her. How she hated that man! How she despised him!

HOW TO WIN FRIENDS and INFLUENCE PEOPLE

N. W. LIEBERMAN of Brooklyn, N. Y., thinks I am wrong when I assert that one should never say, "No, you're wrong." He thinks there are times when a man should be told definitely that he is wrong.

Well, note that I didn't say you must always agree with a man, though I did say for you not to say, "No, you're wrong."

It is the phrasing that is important. If you are tactful, careful in your manner, you can say practically anything to a man without offending or even ruffling him.

Dr. Lieberman says—and I am sure that you will agree with him, as I do—that there is an art in saying no, and this art is based on the oldest law of human relationships—respect for the other fellow.

But let's let Dr. Lieberman tell his own version:

"When someone comes to me with an idea," says Dr. Lieberman, "I ask him to spill it, and as soon as possible I agree with some minor point of his proposition. Then I ask him to come back after a few days or a week, when we both will have had time to think over the matter. If, when he returns, my answer is still no, I say no, but I give reasons for my conclusion, and I attempt to raise his own self-esteem by suggesting a substitute idea not too far removed from his own."

"Before I end the interview, I praise him for the value of his idea and ask his opinion about some other matter about which I know him to be well informed."

You will note that Dr. Lieberman tactfully refrains from arguing; that he is honest in his treatment, and that he shows the man the respect that everyone craves. And you can be sure that Dr. Lieberman has many more patients than he would have if he put up an argument with them on matters in which they are not wholly in accord.

If he shouted, "No, you're wrong!" when they did not agree, he would be sure to offend the sensibilities of some of those patients, with the result that they would not care to have further association with him.

So, you see, after all, Dr. Lieberman and I do agree.

New Motor Oil Cleans With Detergent Action

Oil company scientists have applied the principles used in the making of fine detergent washing powders to the manufacture of the new Humble Esso Extra Motor Oil. Adding a specially manufactured detergent to the oil enables it to pick up, break up and hold in suspension soot, dirt, sludge and varnish which damage automobile engines. New Humble Esso Extra Motor Oil, say scientists, keeps an engine clean as a hound's tooth. Humble station salesmen are urging customers to drain dirty, diluted oil and refill with new Esso Extra Motor Oil for extra protection. Adv.

It's like getting a dollar's worth
of gas for 85¢ with

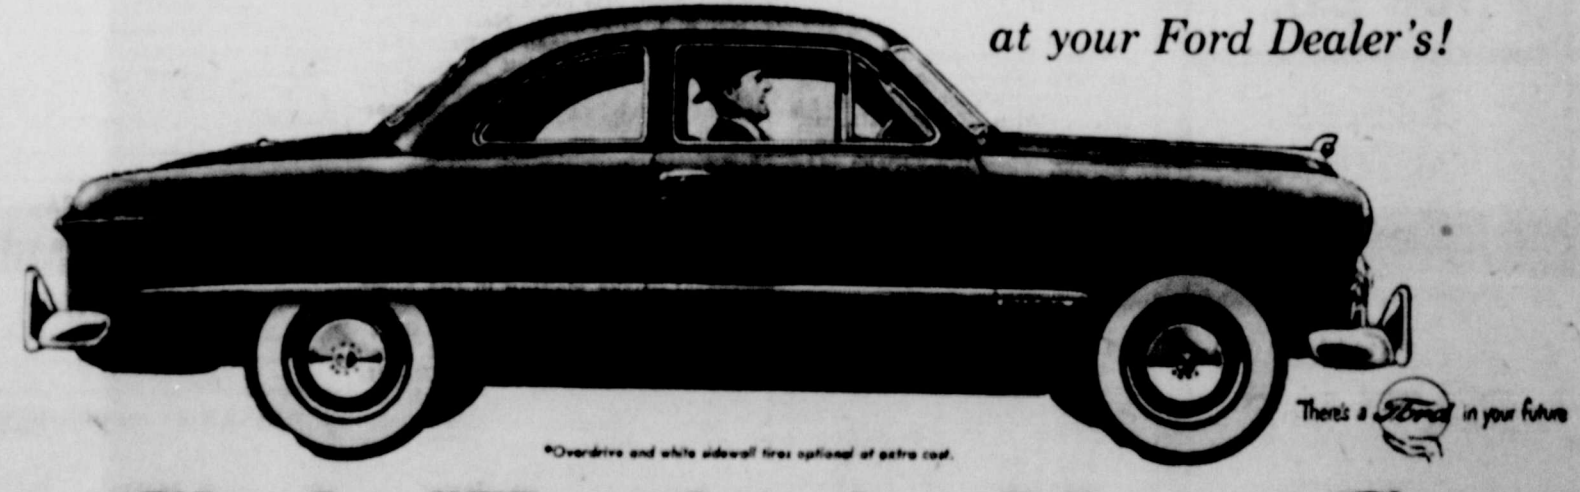

Drive one of our demonstrators and see for yourself how Ford Overdrive smooths your ride. Your engine speed actually drops 30% without any drop in road speed. For example, while your car's road speed stays at 50 m.p.h., your engine speed drops to 35 m.p.h. in Overdrive. This actually adds to engine smoothness and quietness and engine life. It saves you up to 15% on gas and oil... cuts service costs... it's like getting a dollar's worth of gas for 85¢. And for added safety, a touch on your gas pedal releases a magic-like surge that makes passing and hill-climbing a breeze.

It accents the new **FORD "FEEL"**

Take the lower, level "Mid Ship" ride... the power of new V-8 or Six engines... the "feel" of "Hydra-Coil" and "Para-Flex" Springs... the 35% easier "Magic Action" brakes. Add the many other firsts of the "Fashion Car of the Year" and you'll see why you should be ordering your Ford now.
