HICO, TEXAS, FRIDAY, SEPTEMBER 16, 1949.

NUMBER 18.

ENROLLMENT IN PUBLIC SCHOOLS UP FROM LAST YEAR

With an enlarged faculty, well equipped for the work of teaching more pupils, Hico Public Schools are getting down to business this week and prospects for a successful year of school work are very bright at the present time, according to information received from J. E. Lincoln, Superintendent.

Registration took place on Monday, September 5, and most of last week was consumed in working out schedules, making room assignments, and planning for smooth operation after the first few days. This week the teachers and pupils alike are getting down to business, Lincoln said.

Total enrollment is higher than for the past few years, it was announced. Grade school, with 234 registered, is about at last year's peak, but more are expected as the school term progresses. High School had registered 134 by Wednesday, which is considerably over the past average, and more are expected there also.

Local International Dealer One of Three to Win Trip to Factory

The Dallas branch of International Harvester has announced that Paul Neel of Hico is one of three dealers to win a free trip to Evansville, Ind., where he will visit the new \$32,000,000 Refrigeration Plant of International Harvester.

Neel is the highest ranking salesman on freezers and refrigerators in a 26-block section, which includes towns like Wichita Falls, and he is one of the three top salesmen out of 82 dealers in the Dallas branch. He will take the trip, with all expenses paid, in November.

Mr. Neel stated that without the help of his faithful employees, he would have been unable to make this record.

Dates for Annual Vocational Fair Set At Hamilton

Hamilton, Sept. 10.—Dates for the second annual Hamilton County Vocational School Fair have been set for Oct. 28 and 29, W. J. Harris, co-ordinator of the school said.

Competitive exhibits in agriculture, livestock, poultry, home-making, cabinet making, auto mechanics and distributive education will be displayed and a schedule of cash prizes arranged.

The Hamilton Chamber of Commerce will back the fair this year and President A. G. Thompson has named Robert C. Williams, I. Comer and Dr. A. J. Koen as a committee to assist in raising funds.

U. S. Dept. of Agriculture's

OFFICIAL REPORT ON WEEKLY SWING OF FARM MARKETS OVER THE SOUTHWEST

Most southwest farm products brought steady to higher prices during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Monday's active hog trading found prices mostly 50 cents to \$1 higher than the Tuesday before on holiday-lightened receipts. Dressed pork ranged from unchanged to \$4 higher for the week at New York. Top butcher hogs brought \$21.25 at San Antonio, \$22 at Fort Worth, \$22.25 at Oklahoma City and \$23.75 at Denver.

Last week's holiday lowered cattle receipts below the week before. Texas markets showed little change in prices, but Oklahoma City and Denver gained mostly 30 cents to \$1. Choice steers reached \$29.65 at Denver, and fed heifers \$26.50 at Oklahoma City. Wholesale beef advanced 30 cents to \$2 at New York.

Last week's twelve market sheep totals equaled the week before despite the Monday holiday, but Texas receipts fell off. Spring lambs sold \$1 to \$1.50 higher for the week in Texas and Oklahoma, and ewes and feeder lambs slightly lower. Denver recorded little change in sheep prices. Goats varied from unchanged to 50 cents higher at San Antonio. Cull and common nannies brought \$6 to \$6.50.

Texas ranchers held the better grown 12-month wools at 65 to 70 cents per pound. Some fine and medium territory wools sold at Boston. A fair volume of mohair sold in Texas at 60 to 62 cents for adult and 60 to 63 for kid.

TEXAS TIME

There is no limit to Texas talents... even to watch-making. And no limit to the pride of this pretty Texas miss in her new Timex wrist watch, the first watch ever manufactured in Texas. By establishing a great watch factory in Abilene, The U. S. Time Corporation has chalked up another "first" for the Lone Star State.

Open Season On Hunters As Well As Game, Says Council

Thirty-six per cent of all fire arms deaths occur in the last three months of the year, which proves that there is an open season on hunters as well as on game, according to the National Safety Council.

The Council said November is the month when hunting accidents go up with a real bang, although October and December death totals are well above the monthly average.

A survey of hunting accidents in Michigan revealed that just three causes—humans in the line of fire, mistaking humans for game, and hunting with the safety catch off—led to almost two-thirds of the accidents in that state.

The Council said most hunting accidents can be avoided if these rules are followed this fall:

1. Treat every gun with the respect due a loaded gun. This is the cardinal rule of gun safety.
2. Carry only empty guns, taken down or with the action open, into your auto, camp and home.
3. Always be sure that the barrel and action are clear of obstructions.
4. Always carry your gun so that you can control the direction of the muzzle, even if you stumble.
5. Be sure of your target before you pull the trigger.
6. Never point a gun at anything you do not want to shoot.
7. Never leave your gun unattended unless you unload it first.
8. Never climb a tree or a fence with a loaded gun.
9. Never shoot at a flat, hard surface or the surface of water.

Erath Co. Vocational G. I. School to Stage Fair At Stephenville

Yes, all these will comprise the second annual "G. I." Fair to be presented by the Erath County Vocational School on the 16th and 17th of September. The fair will be conducted at the Stephenville Recreation Hall, opening at 9 a. m. Friday, September 16 and closing at 4 p. m. Saturday, September 17. The two day affair will consist of exhibits from veteran classes of Erath County, a carnival conducted by the school, ball games on Friday and Saturday afternoons at the Stephenville Park, and a dance sponsored by the school on Saturday night.

The main attraction of the fair will be individual and class exhibits from the various classes. Agriculture students will display livestock and farm products including ten classes of beef cattle, eight classes of dairy cattle, horses, sheep, goats, hogs, poultry and eggs, corn, grain sorghums, legumes, vegetables, hay and fruit and nuts. There will be judging for championships in each class of cattle and farm products.

The bookkeeping and accounting class will display a model office showing proper location of furniture and fixtures, proper lighting, use of labor saving devices, examples of various bookkeeping systems, good examples of business letters, and office reference books. New types of office equipment will be exhibited by their representatives.

The cabinet making class will have bed room suites, coffee tables, individual night stands, chest of drawers, table lamps turned on lathes, and many other examples of home furnishings made by the students of the class. Hand tools, woodworking books, and rough and surfaced lumber will also be displayed.

Two cut-away engines showing the working principles of the gasoline engine, cut-aways of transmissions and differentials, various test equipment, cylinder re-boring machines, valve re-sealing and refacing equipment will be shown by the mechanics class.

Preparations have been in progress for weeks for the presentation of this fair and from all indications it will surpass last year's not only in the many interesting exhibits, but also in recreational phases.

The dance will begin at 8 p. m. Saturday night at the Stephenville Recreation Hall. A small admission fee will be charged and a beautiful orchid corsage door prize will be awarded.

Although, this two day affair will present the perfect opportunity for enjoying yourself and at the same time seeing the advancement being made by veterans attending the vocational schools throughout the county.

Survey Shows Less Pecans In Sight For Hico This Year

A survey of the pecan crop in this section, conducted by Mrs. Emma Dee Hedges as correspondent for the Waco News-Tribune, appeared in that paper last week as follows:

The outlook for a good pecan crop in this section is far less bright than at this time last year, according to many local pecan growers. Last year's crop was exceptionally large, although the market underwent a slump before the season was over.

Randall Brothers, one of several local buyers shipped two carloads weighing a total of 120,000 pounds last year. Lusk Randall predicts a one-third of average crop this year, although he thinks there will be plenty for the needs of the community.

Mrs. J. W. Fairry, who marketed about 15,000 pounds of pecans from trees on her farm on the west edge of town last year, expects a much smaller crop this year. Only about 100 out of 2,500 native trees on her land are bearing, but she expects an average yield from her 50 budded trees. All of the budded trees are bearing. Trees on the Hall Ranch on the Gilmore River west of town, which were loaded last year, show spotty production now.

Fairy Meets Carlton In Hico Stadium Sept. 22 For Six-Man Football

Fairy will play Carlton in a six-man football game in Hico Stadium next Thursday night, Sept. 22, starting at 8:00 o'clock.

This promises to be a good battle, and everyone is urged to come out and give the visitors a good crowd.

CONTRIBUTED.

SINGING AT LITTLEVILLE

Ollie McDermitt of Hamilton has requested the News Review to announce the Hamilton County Singing Convention to be held at the Littleville Baptist Church next Sunday afternoon, Sept. 18. Everybody is invited.

WILL TELL ABOUT FAT STOCK SHOW

BOYCE HOUSE, newspaper columnist, after-dinner speaker and author of "I Give You Texas" and other books, has entered on his new duties as director of publicity for the Southwestern Exposition and Fat Stock Show, which will be held in Fort Worth, Jan 27 to Feb. 5.

TIGERS' DEFEAT BY DUBLIN AS VIEWED FROM PRESS BOX

By BILL NORTON

From where we were in the press box high above the green sod of Tiger Stadium last Friday night we saw a typical "first game" between the Hico Tigers and the Dublin Lions. These two teams were very evenly matched and played a close game with the exception of the score, which was in favor of the Lions by 12 to 0.

The game was slow, team-work dragging, blocking and tackling inconsistent, but expected in the first real game of the season. The boys from both sides handled the ball well and there was very little fumbling. The passing failed to click for either side, but this can be attributed to a good pass defense that both teams had built up.

There were no particular stars for either side, but some of the boys did stand out at times. Gilbreath for the Lions of course was noticed by all as he was able to go through the middle of the Tiger line for a touchdown once in each half. To do this he was behind some good blocking and interference by his team mates, Perry, Mulloy, Hightower, Thiebaud, and Mote.

Ross and Burden for the Tigers also stepped through the middle of the line and off tackle for substantial gains. And late in the game when Lively took over in the backfield, he also showed the fans some nice plunging off tackle. Here again much of the distance gained should be credited to the Tiger line.

Ratliff at end stepped out for several nice plays and Fred Jones, a new man in the lineup this year, was out for some very nice open-field tackles. All of the boys looked good for the first game and with specialized work on blocking and tackling, both teams will show much improvement in all phases of the game and the speed and thrills are to come.

The very able Mr. Hicks who was keeping up with the statistics of the game, hands in the following information:

	Hico	Dub.
First Downs	9	8
Yds. by scrimmage	143	128
Yds. by passing	38	51
Yds. by punting	62	85
No. of punts	4	3
No. of passes	6	7
No. of Passes Comp.	3	3
No. passes intercepted	2	0
Penalized (yds.)	20	95
Score	0	12

From the above data one sees a very evenly and well matched ball game. The Lions were able to make the pay dirt twice, thus defeating the Tigers by a score of 12 to 0, but were unable to convert after either touchdown.

The hands from both schools were there for all the game, along with the pep squads. Half time brought both bands on the field and they were a credit to their schools. Our Tiger band is shaping up fine under the direction of Mr. Bradley and much enjoyment and entertainment is in store for all fans in the games to come.

The Tigers have an open date this week in which time Coach Barber, News Stand, and Sirman hopes to iron out the rough spots and when the Tigers visit Walnut Springs Friday night, September 23, the fans will see a very different, faster and smoother Tiger eleven.

Season tickets are still on sale at the following places: Hico Food Lockers, Coats Furniture, Western

Chitwood's Spectacle of Calculated Calamity to Be Staged At State Fair

Thrill-happy motor maniacs will mock death nightly in the hippodromic Jole Chitwood spectacle of calculated calamity, which has just been signed as a major attraction for the 1949 State Fair of Texas, Oct. 8-23.

The 23 world champion dare-devils will race, smash and crash their way through the most hair-raising stunts ever performed on purpose. Stunt men from Hollywood, internationally-known race-car drivers, circus clowns who laugh at danger—all combine their skills to electrify spectators in a program Fair officials believe is a unique offering for State Fair visitors.

Chitwood, Cherokee Indian who was born in Denton, has been tops as a racing driver for 18 years. Fifth-place finisher in the 500-mile Indianapolis Speedway classic on Memorial Day, the dapper speedster is a three-time AAA Eastern racing champion and holds the record of 87 feet for a broad jump in a standard sedan. He will seek to better this mark during his stay at the Fair.

Using new 1949 Fords as part of his \$100,000 caravan of stunt cars, the danger-loving thrillmen will roar through such events as crashing a sedan end-over-end and side-over-side until the car is demolished, blasting an auto through a flaming plank wall with a stunt man lying on the hood acting as a human battering ram, a high speed game of automobile leap frog with one car leaping through the air while another auto passes underneath.

A modern version of the ancient Roman chariot race matches new cars in hub-to-hub races with three-foot rampways as hurdles, and 70 miles an hour is about par.

Racing motorcycles also will be crash-snapped through the air, hurtled through blazing barriers and catapulted through space while others dash beneath.

Among the high-powered drivers who will be seen in action at the State Fair are Hal Kent, swash-buckling stunt man who doubles for Errol Flynn in dangerous movie scenes; Pierre Armand, hero of the French underground; Dario Guadino, fiery little auto racer from Venezuela; Pete Roberts, hilarious clown who has played with several major circuses.

'Back to School Safely' Month in Texas Again Calls for Safe Driving

Austin, Sept. 12.—Reading, rite, and arithmetic time is here again for Texas youngsters.

"This is 'Back to School Safely' month in Texas and once again we must increase our vigilance while driving." This was the warning issued today by Ross Rommel, who heads the school safety program of the Texas Safety Association.

"School time," Rommel said, "takes the child away from his mother's apron strings for a few hours a day and during part of that time he is a potential traffic accident victim unless we adults protect him."

Emphasis on child safety is particularly appropriate in September, according to the Texas Safety Association, because at no other time of the year are so many young children exposed for the first time to the dangers of our streets.

The bumper crop of war babies now entering first grade not only tax school room facilities but school crossings as well.

Despite careful teaching by their parents of correct pedestrian habits, children are still immature in their thinking, and warnings have very little meaning to them, the Association says.

"We can't over-estimate the importance of conscientious traffic training on the part of parents," Rommel said, "but we shouldn't forget that the responsibility for child safety will always lie heavier on the shoulders of the motorists than the parents."

"Motorists must not forget to expect the unexpected while driving near schools, playgrounds, and residential districts. When a child's life is at stake we can't afford the luxury of laxness."

GIRL SCOUTS TO MARCH

Following their regular meeting Monday night at Scout Hall, the Hico Girl Scouts marched to the City Park where they practiced the art of building campfires under the direction of Miss Louise Blair, Scout leader.

Two new members were present for the meeting, Paula Boone and Maxie Ruth Tidwell.

ROSE QUEEN

Rose Marie Young of Tyler will be crowned Rose Queen of the Twelfth Annual Texas Rose Festival to be held Sept. 30, Oct. 1 and 2 in Tyler. Also in attendance at the coronation will be Duchesses and Ladies-in-Waiting from 27 Texas cities, six other states and Mexico.

Lions Planning for Carnival, Continuing Assistance to Needy

One Hundred Per Cent Attendance Week lacked a little of accomplishing its goal at Wednesday's meeting of the Hico Lions Club, but five guests joined twenty-seven members in an enthusiastic meeting. Lion Hitt's team led Lion Moon's side with 40 points, bringing the total lead to 100 points.

After partaking of a delicious fried chicken dinner prepared by Mrs. Jackie McCook and her Texas Cafe force, the meeting was opened for business by Lion M. S. Norton, serving as chairman in the absence of Lion President Jack Nonce.

A committee to arrange for the Lions Carnival was appointed, consisting of Max Hoffman, chairman; Morgan Moon, Willie Sirman, and Paul Hamilton.

Lions Norton and Weldon Pierce agreed to confer with the firemen about continuing use of the hall. Lion S. E. Blair Jr. reported on the work accomplished by the committee appointed the previous week to see about getting clothing for needy children. He and Lion Bill Coats have made a good start, but need continued cooperation in this work. By vote of the club it was agreed that admission to the next meeting would require donation of some piece of usable clothing, to be deposited in a box at the door.

Lions and guests present were: Dr. W. F. Hafer and guests, M. D. Booth and Ben Wright; Morgan Moon and guest, Fred Martin; Willie Sirman and guest, High School Principal Walter Mauk; Weldon Pierce and guest, Marvin Pierce; M. T. Neenan, Arthur Burden, Doyle Love, Paul Neel, J. Z. Hitt, H. N. Wolfe, A. E. Duzan, D. E. Bullock, Max Hoffman, W. E. Coats, S. E. Blair Jr., W. Hamilton, Wayne Rutledge, Dr. H. V. Hedges, Rev. L. H. Davis, R. B. Jackson, Willard Leach, J. R. Bobo, L. F. Knox, E. C. Hampton, M. I. Knudson, M. S. Norton, and R. L. Holford.

THREE HIGHWAY HEADS ARE BEING TRANSFERRED

HAMILTON, Sept. 10.—Three members of the local State Highway Department's force have been transferred to Hamlin where a new office is being opened.

Men leaving for Hamlin are John R. Eldson Jr., who will be associate resident engineer; Nelson Shave, senior instrument man, and J. E. Stidham, junior inspector.

3 Men, None Can Walk

FORT WORTH FATHER, SON WITH POLIO GREET NEW BOY IN FAMILY AT HICO

(Fort Worth Star-Telegram)

A. C. Odell Jr., proud new father of a 7-pound son, admitted Saturday he was one father who didn't pace the hospital floor while awaiting news of the blessed event.

"But I sure paced this hospital bed," said the husky, 27-year-old polio patient at City-County Hospital.

In the same ward, his other son, Jackie, pondered several hours before he could believe the news. Nurses prodded him by asking, "What do you have new at home, Jackie?"

And the youngster, thinking they meant the present he received on his third birthday Tuesday would reply: "A new tricycle."

By noon, though, he was answering proudly: "A little baby brother."

The child was born at the Hico Hospital and Clinic early Saturday morning. Mrs. Odell has been staying at Hico with her husband's parents.

ANOTHER OIL WELL LOCATION MADE SOUTH OF HICO

Following a period of comparative inactivity in this immediate section, prospects this week for an increase in interest in wildcat oil enterprises.

An announcement which brought indication of operations in a different territory from those explored thus far was that of the Carter Drilling Company's setting up a rig on the old Tinkle Ranch, about 12 miles south of Hico. This same rotary rig was used on the McPherson test, in the Altman community, which was closed down last month.

Daily newspaper dispatches disclosed the information that General American Oil Company of Texas had filed location for the No. 1 S. W. Sibley Jr. Hamilton County wildcat four miles south of Hico. Estimated for 4,500 feet with rotary, the exploration is 2,000 feet from north and 3,000 feet from east lines of Francis Moore Jr. survey.

Those familiar with this site state that the location for the well is about a quarter of a mile from the ranch house on the former Tinkle Ranch.

Bosque County AAA Office Calls Attention To Current Services

Loans on corn produced in 1949 and stored on the farm are now available through the AAA office. Corn may be stored either in the ear or shelled. The preliminary loan rate for Bosque County is \$1.39 per bushel if it grades no. 3 or better. Storage need not be elaborate, but it must be such that the corn will be protected from the weather and livestock. Since the producer is responsible for its safe keeping, in respect to both its quality and quantity, it is recommended that reasonable precautions be taken in regards to storage.

We are now ready to help you purchase your phosphate and legume seed. Contact your dealer before you call for your purchase order. The County Committee cannot issue purchase orders to anyone unless the material is in stock. These are things which help build up the soil. Animals depend upon plants which in turn are dependent upon the soil. Man not only utilizes plants directly in nutrition but indirectly in the form animal products such as milk, meat, and eggs. Therefore, the condition and up-building of our soil is of vital importance to every one.

TROY B. PETTIT,
Secretary, Bosque Co. ACA.

Whitney Gymnasium Burns This Week With \$60,000 Loss

Whitney, Sept. 14.—An early morning fire destroyed the Whitney school gymnasium today, causing damages estimated at \$60,000.

Construction of the gymnasium had been completed this summer, and the building had been in use only two days.

The fire destroyed rooms used for classes by 200 students, gym facilities, and much classroom and football equipment.

Volunteer fire fighters of Hillsboro joined Whitney firemen in battling the flames.

School officials said \$30,000 insurance was carried on the building. Cause of the fire was not determined immediately.

Jackie was admitted to the polio ward Aug. 7 and has partial paralysis of his left leg. His father, admitted Aug. 9 has partial paralysis of his right leg.

"Now we've got three men in the family," the new father said with a grin, "and none of them can walk."

He and Jackie were driven down to Hico to see the new arrival and mother Saturday afternoon by Mrs. Odell's brother, Herbert Smith. They will return to the hospital Sunday.

Odell, a Conair electrician hopes to be out of the hospital by Sept. 26, when he will be 23.

The number of polio patients treated here this year remained at 167 Saturday, with no new cases diagnosed.

Carlton

By Mrs. Fred Geyer

Mr. and Mrs. Columbus Thetford returned home Monday after visiting at Purnela and celebrating his 33rd birthday and their 61st wedding anniversary at Roby's Park in Gatesville Sunday. Others from Carlton attending were their two sons, George Thetford and family and Fay Thetford and family and Connie Mack Self little friend of Theon Dean Thetford.

Mr. and Mrs. Hobdy Thompson and daughter, Sherie visited Sunday in Waco with Mr. and Mrs. Hubert Stuckey and Helen Jean.

Teachers for the Carlton school are H. E. Walton, Superintendent; Mrs. H. E. Walton, English; Aubrey Roberts, Coach and History; Mrs. J. W. Jordan Jr., commercial work; Mrs. John Rainwater, 5th and 6th grades; Mrs. Grady Littleton, 3rd and 4th grades and Mrs. Hugh Parrish, 1st and 2nd grades. Bus drivers are Mack Taylor, Elmer Chick, Rev. Landon Campbell, pastor of the Baptist church at Wilson and Purves.

Miss Maise Conoley, accompanied by her cousin, E. J. Coleman of Huntsville, left Thursday to attend school at the Sam Houston College in Huntsville.

Mr. and Mrs. W. W. Lacewell of Belknap, New Mexico, and daughter, Mardel of Artesia, N. M., visited Monday and Tuesday with her brother and wife Mr. and Mrs. W. S. Rudd.

Culmer Jordan, Dewey Williams and Cyrus King attended a district banquet at Gatesville Thursday night given by the Methodist laymen at Gatesville.

Mr. and Mrs. Rudy Potlett and son, Rudy Merlin and Glen Niece of Wichita Falls left Saturday for their homes after a visit with his parents, Mr. and Mrs. J. L. Potlett.

Armo Turney of Fort Worth is spending his vacation with his brother, Lee Turney and other relatives.

Mr. and Mrs. Roy Huffhines of Dallas spent the week end with her mother and brother, Mrs. J. O. Pollard and Mr. and Mrs. Oscar Pollard.

Mr. and Mrs. A. C. Odell of Fort Worth are the happy parents of a 7 pound, 2 oz. boy born Friday night in the Hico Hospital. Mrs. Odell has been visiting her sister-in-law, Mrs. Elton Samford for several weeks. Her husband and little son are in a Fort Worth Hospital with polio.

Mrs. Clifford Malone and daughter of Waco were week end visi-

tor with her parents, Mr. and Mrs. J. W. Jordan Sr.

Mr. and Mrs. C. H. Wolf of San Angelo and Mrs. E. C. Essary and daughter of Eastland spent the week end with their daughter and sister, Mrs. Chester Sylvester and husband.

Mr. and Mrs. Cyrus King and Mr. and Mrs. Ernie Burnett attended the funeral of George Burnette, held in Cisco last Monday afternoon. Mr. Burnette was the husband of Mr. Ernie Burnette's niece.

Mr. and Mrs. Lee Turney were visitors Sunday afternoon in Walnut Springs with their daughter, Mrs. Leo Finley and family.

Mrs. James Fine and children Michael, Keith and new baby daughter, Gay returned home Wednesday after a two and one-half months visit with her parents, Mr. and Mrs. H. C. Clark at Roscoe.

Travis King of Lubbock spent the week end with his parents, Mr. and Mrs. Cyrus King.

Mr. and Mrs. George Vick of Riverside, Calif., their daughter and husband, Mr. and Mrs. Haskell Wilcox of Lamesa visited over the week end with their sister-in-law and aunt, Mrs. W. H. Vick.

Mrs. W. W. Gillispie and baby, Christine returned Saturday to their home in Oceana, Va., after a weeks visit with her parents, Mr. and Mrs. Tull Thompson and children.

Miss Winnie Kerley, manager of Western Union in Ennis spent the week end with her parents, Mr. and Mrs. Dock Kerley. Her father, 92, has been ill for several days and confined to his bed most of the time.

Mrs. Norma Wilson received a message Monday that her son, Woody Wilson had been injured in a car accident. He was on a narrow bridge when he met another car and in trying to avoid hitting it, pulled too far and ran into soft dirt, throwing him against the steering wheel cutting a gash on his mouth, requiring ten stitches to sew up the wound. He is reported improving and back at his work in a Taylor Shop in Abilene, but has to eat his meals through a straw.

Visitors in the home of Miss Ida Fine Sunday afternoon were her sister and niece, Mrs. Maggie McPherson and Mrs. Aubrey Duzan of Hico and their cousins, John and Pete Fine of Cleburne.

Mr. and Mrs. Ernest Upham returned Saturday, to their home in West Columbia after a visit with her aunts, Misses Effie and Georgia Shaffer and his mother, Mrs. J. D. Upham.

Mr. and Mrs. John Abel of Fairy visited Sunday with his sister, Mrs. Lilla Byrd and attended the singing Sunday afternoon. Mrs. Byrd accompanied them home for a visit.

Pete and John Fine of Cleburne visited Sunday afternoon with their cousin and wife, Mr. and Mrs. E. L. Fine.

Friends of Mr. and Mrs. Virgil Battershell are happy to know he was able to return home Sunday from a hospital in Temple, where he underwent a serious operation some three weeks ago. He is reported doing fine.

Mr. and Mrs. C. A. Proffitt and daughter, Melba Jean visited in Dublin Sunday afternoon with his brother and wife, Mr. and Mrs. Ray Proffitt.

Mrs. Sid Clark is visiting in Cleburne with her son and daughter, John H. Clark and family and Mrs. Clyde Lefevre and husband, Mr. and Mrs. E. R. Kelley of Itasca spent the week end with her grandmother, Mrs. Izora Wilhite. Their daughter, Sherie, who had visited here a week, and Mrs. Wilhite accompanied them home Sunday afternoon.

Emmett Stockham of Sweetwater visited the past week with his father, uncle Clem Stockham, who has been ill for several days in the home of his daughter and husband, Mr. and Mrs. Charley Bain.

Mr. and Mrs. Ernest Salmon and daughters, Lou and Gladys Lee of Dallas, left Tuesday morning on a vacation trip in New Mexico and Colorado.

Mr. and Mrs. Billy D. Rudd and children of Brownwood visited Saturday with his parents, Mr. and Mrs. W. S. Rudd.

William Howard Taft was the first U. S. President to receive a salary of \$75,000 a year.

Fairy

— By —
Correspondent

Mostly fair weather has prevailed since our last writing. Farmers have been very busy preparing land for fall sowing and gathering corn.

We are very sorry to report the misfortune of Miss Leta Fort, who received a broken hip in a fall early last week. She is a patient at the Hico Hospital. Miss Leta is residing with her sister, Mrs. Emma Ogie of Fairy. We hope she will soon be up and about and able to return home.

Mrs. Joylette Rivers of South Carolina, who with her husband were on their way here for a visit with her parents, Mr. and Mrs. Walter Abel and other relatives, became ill enroute and has been a patient at the Hico Hospital for the past several days. We hope she will soon be much improved and able to enjoy the remainder of their vacation period here.

Miss Daphne Hoover of Stephenville spent the week end with her parents, Mr. and Mrs. E. M. Hoover. V. H. Heyroth of Gatesville was a business visitor here Sunday.

Rev. Newton of Shive filled an appointment at the Church of Christ Sunday in the absence of Bro. L. J. Wood, who is visiting with relatives for a few weeks. Rev. Newton's wife and 3 children accompanied him and were dinner guests of Mr. and Mrs. Bill Lackey and family.

Emmitt Anderson and Sid Dickerson spent a few days in San Antonio last week, where they visited in the home of Mr. Anderson's son, Mr. and Mrs. Jack Anderson. Mr. Dickerson went out to Hondo while there and visited with his sister, Mrs. Maude Strawn.

T. L. Betts visited recently in Portales, N. M., with his father and other relatives. A niece accompanied him home for a few days visit here and at Jonesboro with Mr. and Mrs. John Betts and family.

Mrs. Brittle Little has been a patient at the Hico Hospital for the past few days. She has been under the care of doctors for the past several months and was detained for a more thorough check-up.

Mr. Laney of near Chalk Mountain has opened up the new Texaco service station and will appreciate a share of your patronage.

Mr. Pat Patterson of Dallas visited here recently with his wife and children.

Mr. and Mrs. Sam Turner of Carlton visited Sunday with Mr. and Mrs. Sid Dickerson.

Mr. and Mrs. Hoyt Walker and small son of Marble Falls spent the week end here in the home of Mr. and Mrs. Grady Anderson and daughter, Virginia and other friends and relatives.

Mrs. J. C. Sills has gone to San Antonio where she will visit in the home of her daughter, Mr. and Mrs. Stanford Berry, and will also be employed as assistant house keeper for a lady there.

Plans are being made for the fiftieth wedding anniversary celebration of Mr. and Mrs. J. L. McCoy at their home on Sunday, September 25. Many relatives are expected and open house will be held in the afternoon for their many friends. We will give a more extended notice in next week's news.

Mr. and Mrs. Carl Ray Sellers have just completed a new lawn fence at their home which adds greatly to the appearance of the home.

Mrs. Jesse Massengale of Carlton visited here Sunday with relatives.

Since school has opened the drop box will be maintained at W. E. Goyne's Store. Please leave your news items there by Tuesday morning of each week.

Cancer Insurance Available Through Local Post Offices

Knowledge—today's best weapon against cancer—is as close to you as the Hico post office.

It's not on a table at the post office. The postmaster doesn't have any cancer literature on the shelves.

But, if you'll just address a postcard or letter to: Cancer, Care of Postmaster, Hico, Texas. In just a few days you will receive in the mail a free booklet about cancer, which may even save your life, should you ever develop this disease.

Here's how it works:

Last year the Postoffice Department in Washington decided to aid the national fight against cancer by authorizing a simple mailing address for all requests for cancer information. In a directive to postoffices all over the country the Postmaster General instructed all postmasters to forward all mail addressed to "Cancer" to the state headquarters of the American Cancer Society. In Texas, the Texas Division of the American Cancer Society is located in Houston. Therefore, all Texas postoffices forward all mail addressed to "Cancer" to the Houston postmaster, who, in turn, sends it to the state office of the Society. As soon as cancer control workers in Houston receive the requests, they forward cancer booklets and information to the persons mailing the inquiries. Why don't you write to "Cancer" today? Do you know the seven danger signals of this disease? "Cancer" will tell you.

NOW... while our stock is complete is the time to let Barnes & McCullough solve your Heating Problems.

WE OFFER AN OUTSTANDING SELECTION OF

DEARBORN HEATERS

HERE ARE THE UNBEATABLE REASONS WHY DEARBORN LEADS THE FIELD IN DOLLAR VOLUME OF GAS SPACE HEATER SALES—

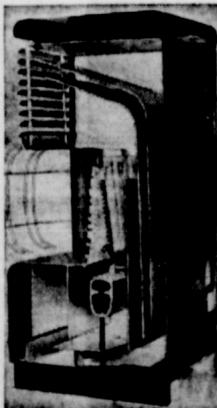

- NO MOISTURE — BLUE FLAME PILOT
 - ABUNDANT RADIATION
 - LOW FUEL OUTLET — A. G. A. APPROVED
 - BASCO SAFETY PILOT PROTECTION!
- This new safety factor absolutely assures you of maximum safety in pilot function. Optional on the 30,000, 45,000 and 65,000 BTU sizes.

De Luxe Radiant Models

Equipped with the famous High-Crown Burner and wide-angle Glo-Brite Radiants, the Dearborn line of radiant gas heaters is unexcelled in its field. Sturdily built with heavy ceramic back walls and a gleaming chrome hearth plate, these Dearborn radiant heaters are good looking as well as efficient.

\$24.95

DEARBORN'S FULLY PATENTED INTERIORS

This patented forced-circulation principle is utilized in Dearborn's Circulators and Radiating - and - Circulating models with outstanding results. An exclusive feature which accounts for the speed with which a given space can be heated and the greatly reduced banking of useless but costly heat to the ceiling.

Dearborn Saf-T Cabinet

SAFETY, BEAUTY AND UTILITY—these important features make the Dearborn Saf-T-Cabinet radiant circulators the best unvented heater buy on the market today. The exclusive Dearborn Saf-T-Cabinet stays cool on top, sides, back and bottom—always—serves as an additional table all year 'round. Even when the heat is on, books, lamps, flowers, or bric-a-brac are perfectly safe on its top. There is no worry about scorched drapes or blistered woodwork. The Dearborn's smart styling and warm, hammered copper-tone finish of lifetime, baked-on enamel will blend pleasingly with wood finishes and fabrics—harmonize with the color scheme of any room. But the safety and beauty of your Dearborn keeps your "living zone" comfortably warm with a constant supply of fresh, warm air.

\$19.95 to \$44.95

LEARN THE SECRET OF DEARBORN USERS' LOW GAS BILLS AND EFFICIENT, SAFE HEATING

● OUR PRESENT STOCK INCLUDES SEVERAL SIZES IN MOST MODELS. In addition to Low First Cost, you will also find them to offer Low Cost Operation. Come in today and let's talk over your individual Heating Problems — that's where Dearborn is best!

**Agricultural Writers
To Hold Conference At
Texas A. & M. College**

College Station, Sept. 12 (Spl.)—
Agricultural writers of Texas
papers, including dailies, weeklies,
magazines and radio stations, will
gather at Texas A. & M. College,
September 30 and October 1, for

**the annual Agricultural Writers
Conference.**

Reports on the trends of the
program for the coming year, re-
search teaching, extension activi-
ties of the System and a general
overall picture of the various de-
partments, will be presented.
A highlight of the conference
will be a forum conducted by the
newspapermen, to hear re-
ports from the various sections
of the state on the conditions of
their areas and their needs from
an agricultural standpoint. Top A.
and M. men will be on hand to an-
swer questions as to what the
System can do to aid them in their
problems.

A tour of the college agricultural
centers will acquaint the writers
with the latest in research work
and progress that is being made.

Several agricultural leaders of
the state have been invited to take
part in the program. Men of the
college and the System scheduled to
deliver talks and take part in
the discussions, include Gibb
Gilchrist, chancellor of the A. and
M. System; F. C. Bolton, presi-
dent of the college; E. R. Alexan-
der, head of the Agricultural Edu-
cation Department and D. W. Wil-
liams, vice-chancellor, who is in
Germany for a 10-day stay at the
request of the State Department,
to advise them on the agricultural
program in that country; G. G.
Gibson, director, Agricultural Ex-
tension Service; Dr. R. D. Lewis,
director, Texas Agricultural Ex-
periment Station and A. D. Fol-
weller, director, Texas Forest Ser-
vice, all of the A. and M. System.
E. L. Summers, agricultural edi-
tor, Houston Chronicle, is presi-
dent of the conference.

**Thirsty West Texas
Has New Hopes for
Water In Pipelines**

Ablene, Texas, Sept. 12.—
Thirsty West Texas today has a
new hope for water in a program
that may make the entire area a
network of pipelines, supplying
water from a half-dozen multi-
city dams on the major watersheds.

This prospect is seen in a letter
from President John D. Mitchell
of the West Texas Chamber of
Commerce to Manager D. A. Band-
een, in which he pledges the or-
ganization's support of multi-city
surveys.

"From our study of and activities
on development of our municipal
water supply, it appears that the
solution is beyond the capacity of
the individual cities and that the
total solution of the problem
must come from complete river
basin development and the build-
ing of large dams serving several
cities," Mitchell wrote.

"The fact is that dam sites are
not available for each of our cities
and that there are only a few
dam sites with ample watersheds
and potable water on each of our
main streams."

"These few main basin dams
must be promptly developed if
West Texas is to save the water
originating in our territory and
meet the critical water shortages
now existing in all of our cities."

Immediately Bandeen set about
a study of the formation of a West
Texas water association with its
main purpose of "extracting the
optimum values of water originat-
ing in and available to West Texas
in the common interest of the
area."

This association would cooperate
with existing authorities and
might even assist in the formation
of others, according to plan.

It was Bandeen who recently
propounded a new formula for
federal aid in dam building, which
would make it possible for the
Corps of Army Engineers and the
Bureau of Reclamation to build
dams for municipal water as well
as flood control.

In a study of the Hoover Com-
mission's report, the WTCC recom-
mended that economic loss from
lack of water be made criteria for
multi-city dam building, as well as
flood control.

Bandeen pointed out that much
of the money spent on multi-city
dam building, where municipal
water would be the principal pro-
duct, would be reimbursable to
the government, but at the same
time communities would receive
federal aid so which they are not
now entitled. This is because of
inability to show flood damage
on West Texas streams in the 20-
inch rain belt.

At the same time the WTCC went
on record as approving the Hoov-
er recommendation that municipal
water be given the highest
priority in multi-city dam building,
and that hydro-electricity be con-
sidered only after all other uses
had been provided for.

Already the Bureau of Reclama-
tion is beginning its study of dam
building in West Texas, with a
view to supplying municipalities
with water. First of these studies

covered the proposed dam on the
Canadian River north of Amarillo
near Borger. There a dam and dis-
tribution project to cost some \$87
million is recommended for serv-
ing nearly a dozen cities. Water
would be piped from this dam out
of the Canadian basin, across the
Brazos and into the Colorado water-
shed, in serving Lamesa. This is
the first project of its kind pro-
posed in Texas, and it already has
the approval of the House of Rep-
resentatives and a favorable nod
from President Truman himself.

Next has come the proposal of
25 towns in the Brazos watershed
for the construction of the Bob
Gaskin dam near Rule, which
would impound 310,000 acre feet on
the Double Mountain fork of the
Brazos river for domestic and
irrigation water. This project pre-
viously had been rejected by the
Bureau as an irrigation project
that would not pay out.

WTCC engineers applied the do-
mestic yardstick and urged a re-
consideration on the basis of sup-
plying domestic water to the 25
towns, and the Bureau of Reclama-
tion announced it would re-
consider the project in the light
of the suggested usage.

In turn the Bureau also has in-
dicated a willingness to investigate
other projects, on a basin wide
basis, with a view of supplying
domestic water with a series of
dams. Such a series would be
necessary to divert certain hard
and salty waters from the main
lakes, so they would provide palat-
able water for domestic uses.

Already the WTCC has pro-
posed a study of the Big Spring-
Odessa project on the upper Colo-
rado and Pecos River project for
a score of towns in the Ver-
non area. Reclamation service of-
ficials from Oklahoma also are
making a study of a project on
Prairie Dog creek, which would
serve Memphis and Childress.

The multi-city water supply idea
is not a new one in West Texas,
where some towns already are
having to use water which has been
impounded by other municipalities.
A number of West Texas towns
have had to use tank cars to haul
water from neighboring towns,
when their own water supply be-
came exhausted. Coleman, on the
Colorado water-shed, for nearly two
years bought water from Brown-
wood and served it through Cole-
man distribution system at a cost
ten times greater than normal.
Finally Coleman was able to get a
dam built in Hords' creek which
now is supplying it with ample
water.

The City of Baird, however, now
is buying water from Abilene in
water trucks. The city of Trent
Stamford also is threatened with
buying water from Abilene,
while other towns in the general
area are buying drinking water
from tank trucks which haul it in
from Sweetwater.

The multi-city dam and pipeline
system would put a stop to that.

**Texas Farm Bureau
Federation Plans to Hold
25 Bi-District Meetings**

A series of 25 bi-district meet-
ings sponsored by the Texas Farm
Bureau Federation will be held
throughout the state of Texas
September 21, it has been an-
nounced by J. Walter Hammond,
federation president. The two meet-
ings scheduled for this district
will be held in the Roosevelt Hotel,
Waco, on Tuesday, September 20,
and in the Court Room, George-
town, on Wednesday, September
21. Frank Taylor of Waco, vice-
president of TFBF and district
director, will preside. Meetings will
start at 10:00 a. m.

Hammond will be principal
speaker at the meetings. R. G.
Arnold, organization director of
Southern Region, American Farm
Bureau Federation, and Marvin
Carter, organization Director,
TFBF, will also appear on the
program.

A highlight of the meetings will
be a queen contest scheduled for
3:00 p. m. The queen selected at
each meeting will participate in
the ceremonies at the state con-
vention in November at which the
district queen will be determined,
and a state queen chosen from
the district winners.

Farm Bureau spokesmen will
give farmers and ranchers first
hand information on developments
in the agricultural field directly
affecting the welfare of farm peo-
ple; they will also seek the views
of the people on current issues as
well as future programs.

Enrollment procedures to be used
in the state-wide membership pro-
gram will also be discussed. In re-
viewing some of the accomplishments
of Farm Bureau in 1949, made
possible by a good membership,
President Hammond called atten-
tion to work of the organization
in securing adequate storage facili-
ties for grain producers which is
estimated to have saved Texas
farmers approximately \$45,000,000;
also the Farm Bureau's efforts in
securing a support price on cotton-
seed, estimated to have saved
farmers of Texas another \$20,000,
000.

All farmers and ranchmen, and
agricultural agency leaders are in-
vited to attend the meetings.

The average weight of the human
brain is 48 ounces.

**From Rock Oil to
Gasoline, All Within
One Century's Time**

One of the oldest saws says
that great oaks from little acorns
grow—a statement which is irrefu-
tably true. By the same token,
great industries also grow from
strang and modest beginnings.

A century ago, for instance, salt
was obtained from brine wells in
this country. A Pittsburgh citizen
found that his well was producing
not only the salt but a certain
amount of crude oil. He hit on the
idea of bottling and selling this,
with the appealing label "Kier's
Petroleum or Rock Oil. Celebrated
for its Wonderful Curative
Powers."

A few years later a New Yorker
noticed some of the bottles in a
drug store. As it happened, he owned
acreage near Titusville, Penn-
sylvania. He wondered if his land
might hold oil, and sent a railroad
conductor named Edwin-L. Drake
to investigate. The rest of the story
is a dramatic chapter in American
history. Drake had many a set-
back, but he went stubbornly
ahead, in the face of public ridicu-
le which characterized his ven-
ture as "Drake's Folly." He struck
oil—and the oil industry, as we
know it today, was born.

Rock Oil, which was supposed to
cure almost anything, has gone.
In its place we have gasoline, fuel
oil, diesel oil, lubricants, and thou-
sands of other products which make
life better—and we have an in-
dustry which is a cornerstone of
our economy.

**Water Purifier Now
Serving In Ecuador As
Gift of An Airline**

Dallas, Texas, Sept. 12.—A water
purifying machine which was origi-
nally designed for Texas farms
and ranches is now producing
500,000 gallons of water a day for
earthquake stricken sections of
Ecuador as a gift from its Texas
manufacturer and an international
airline. It was the first water
purification equipment to reach
the country after the earthquake
in early August.

The unit which is now purifying
water from a mountain creek in
Ecuador, was donated by Paddock
Engineering Company of Texas and
cargo space for the 2500 pounds of
equipment, including pumps and
power sources, was donated by
Braniff International Airways
which flies to Ecuador through the
Houston, Texas gateway and Cuba
and Panama.

Tom Collins, representative of
the firm who flew down ten days
ago to operate the equipment for
the Ecuadorian government, ar-
rived in Texas today after leaving
the unit operating near Ambato,
center of the devastated area where
water sources were destroyed. Only
source of germ-free water when
Collins reached Ambato were tanks
into which chlorine pellets had
been dropped by hand.

At the capital city of Quito, Col-
lins was invited to the Presidential
Palace to receive the personal
thanks of president Gala Plaza
Lasso to his company and Braniff
for making the shipment possible.
The unit as a whole was designed
by Paddock for Texas valley
farms and ranches, and since it
consists of several portable parts,
can be quickly set up by any
stream, river, or pond to produce
pure water. It operates from
either electricity or a gasoline
pump and can be transported on
one pick-up truck. Bulk of the
2500-pound shipment to Ecuador
was power generating equipment
and extra supplies of the chemicals
used.

**Dove Wings Being
Collected As Part of
Research Program**

College Station, Sept. 12 (Spl.)—
An appeal is being made to Texas
hunters to send mourning dove
wings to the Texas Cooperative
Wildlife Unit, Texas A. and M.
College, College Station. From
these wings it is possible for wild-
life technicians to determine how
many of the birds were hatched
this summer, and thereby know
if a successful nesting season oc-
curred.

Collecting dove wings at A. and
M. is a part of a coordinated re-
search program initiated by the
U. S. Fish and Wildlife Service
due to a noticeable decline in the
dove population during the past
few years. All wildlife conserva-
tion agencies in the Central and
Southeastern United States are
cooperating in this program.
Hunters are urged to aid in this
program by sending the right
wing of the doves to the Texas
Cooperative Wildlife Unit, A. and
M. College, College Station. Each
wing should be marked with the
date and location where each dove
was taken.

**Sure You Haven't A
"Blind Spot"?**

As I was driving down Main
Street last Saturday, another car
swung out right in front of me. It
turned out to be Buck Blake. He
wasn't going fast. It was just that
he had something else on his mind
at that particular moment.

Buck's really one of the nicest
fellows I've ever known. But,
sometimes he gets to day-dream-
ing on the road. He sort of gets a
"blind spot" to what's going on
about him!

Now, lots of normally consider-
ate folks have their "blind spots."

Look at them all —
*The Harder You are to please...
The BETTER You'll like a JOHN DEERE*

No other farm equipment investment is more
important than your tractor. Its purchase deserves
thoughtful consideration... complete investigation.
So look at them all before you decide—choose the
one with most of the features that count. We feel
certain the harder you are to please the better you'll
like a John Deere.

In modern design which offers you the very
latest engineering advancements for speedier
easier farming as well as in proved, two-cylinder
performance which insures years of faithful, low-
cost service, John Deere Tractors are today's
leaders. Give us a chance to prove it.

WISEMAN STUDIO
HICO, TEXAS

Mr. and Mrs. L. O. Verlier returned home last week end after spending the summer in Colorado.

Mrs. Grace Smith of Munday spent a few days the first of the week in the home of Mrs. M. E. Burnett and M. O. Burnett.

A baby daughter was born to Mr. and Mrs. L. B. Giesecke, Jr., of Stephenville at Hico Hospital Saturday afternoon, Sept. 10.

Mr. and Mrs. W. P. Pittman of Oceanside, Calif., visited Tuesday and Wednesday with his sister, Mrs. Henry Davis.

Mr. and Mrs. D. F. McCarty spent the week end in Hillsboro with their daughter, Mrs. Charles Clark and family.

Mr. and Mrs. Barto Gamble spent the week end in Fort Worth with their son, Doris Gamble and wife.

Evangelist Q. A. Dunn and family left Friday for Grandview, Texas, to accept work with Grandview Church of Christ.

Mrs. C. C. Crews of Alvord is spending the week with Mrs. Josie Duckworth and daughter, Miss Irene Frank.

A little girl, Kathy Dee, was born August 17 to Mr. and Mrs. Dee Ballew at Robert Lee, Texas. The mother is the granddaughter of Mrs. W. A. Howard of Hico.

Mr. and Mrs. S. E. Blair Jr. and Mr. and Mrs. M. I. Knudson were guests of Mr. and Mrs. W. B. Coats at the "Navy Club" in Dallas over the past week end.

Mrs. Mary A. Holland and Mr. and Mrs. A. J. Bommer all of Dallas were visitors this week with Mr. and Mrs. Roland Holford and Carolyn.

John Gorman of Brownwood, representing Southwestern Paper Company of Fort Worth, was in Hico this week on his regular monthly call.

Pfc. Royce Grimes has returned from overseas duty, and spent several days here before departing Monday to report to Carswell Air Base, Fort Worth.

J. O. Burnett of Corpus Christi visited over the week end with his mother, Mrs. M. E. Burnett, and with his brother, M. O. Burnett.

Mr. and Mrs. W. A. Jenkins, accompanied by their son and wife, Mr. and Mrs. Herman Jenkins of Coleman, left Thursday for a visit with their daughter, Mrs. Red Mayfield and husband in Del Rio. They all plan to take a short vacation trip into Old Mexico.

S-Sgt. Ira E. Napier, who has been attending supply school at Petersburg, Va., has been here on furlough several days visiting with his wife in the home of her parents, Mr. and Mrs. Albert Grimes. He left Tuesday for Camp Hood, where he has been assigned to duty.

Fred Billingsley, manager of the Fort Worth Branch for Olmsted-Kirk Paper Co., accompanied by Chuck Fakes, who is taking up the salesman's route through this territory vacated by Billingsley before he became manager, paid the News Review office a combined business and fraternal call Wednesday.

Mrs. Fred Jones Entertains Club at Wednesday Bridge

The Wednesday Bridge Club was entertained by Mrs. Fred B. Jones at her home this week. Roses were used for mantel and table decorations.

Those present were: Mrs. Henry R. Potts, Mrs. L. O. Verlier, Mrs. J. N. Russell, Mrs. W. E. Hafer, Mrs. R. B. Goodloe, Mrs. H. N. Wolfe, Mrs. H. V. Hedges, Mrs. W. B. Coats, Mrs. Milburn I. Knudson, Mrs. Harry Hudson, and Mrs. J. W. Fairley. High score was won by Mrs. Wolfe, and second high went to Mrs. Jones.

Refreshments of pinwheel sandwiches, cookies, candy, and cold drinks were served.

CARD OF THANKS
Please accept our sincere thanks for every kindness and words of sympathy expressed to us at the death of our loved one, B. M. King. We are grateful for the beautiful floral tributes. They will linger long in our memory.
MR. & MRS. JIM LAND.

Opening Tea for Review Club Held Last Thursday

The opening tea to begin the new year for the Review Club was held last Thursday, September 8, in the Randals home, with Mrs. E. H. Randals, Mrs. Lusk Randals, and Mrs. L. J. Wood as co-hostesses. Members answered roll call by giving famous quotations on friendship.

Mrs. R. B. Jackson, retiring president, introduced the new officers, as follows: Mrs. Marvin Marshall, president; Mrs. W. M. Horsley, vice president; Mrs. Odie Petrick, recording secretary; Mrs. E. H. Randals, treasurer; Mrs. L. J. Wood, parliamentarian; Mrs. Lusk Randals, federation counselor; Mrs. J. E. Lincoln, reporter; Mrs. J. T. Appleby, critic, and Mrs. Lillie Fairry, censor.

Introduction of the following guests and new members was made by Mrs. Wood: Mmes. Jernigan, Aycock, Ellis Randals, Love, Davis, Gleason, Lane, Guyton, Mauk, Bradley, Chandler, and Miss Dale Randals.

Mrs. Marshall brought a brief but inspiring message for the new year's club work. Mrs. Jackson led the group in repeating the pledge of allegiance to the flag. Mrs. Wood had charge of the program, "As Others See Us."

The dining table was laid with a beautiful lace cover and snow-on-the-mountain and zinnias were the decorative flowers. Roses-of-sharon were arranged in clusters around the punch bowl.

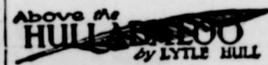

The hostesses were assisted in serving by Miss Dale Randals and Mrs. Ellis Randals. Refreshments of punch, sandwiches, nuts, mints, and angel cake were served.

Faculty Entertains Board Members and Wives This Week

The faculty of the Hico School entertained the members of the school board and their wives on Tuesday evening at the school cafeteria where a chicken dinner was enjoyed, followed by a "42" party in the homemaking cottage.

Fall flowers were used to decorate the cafeteria and the cottage. Members of the board and their wives present were: Mr. and Mrs. Grady Hooper, Mr. and Mrs. J. D. Jones, Mr. and Mrs. W. M. Horsley, Mr. and Mrs. J. B. Woodard, and Mr. J. E. Wooton.

Other guests present were: Mrs. Doyle Love, Mr. J. L. Goodman, Mr. R. B. Jackson, Mr. John Appleby, Mr. Bernell Jernigan, and Mr. S. E. Blair Jr. Prizes were awarded Coach Willie Sirman and Mrs. R. B. Jackson.

SPAIN IS THE KEY
OUR GOVERNMENT, which, like all who oppose state control is unfavorably disposed toward the present Spanish regime, does not believe that a loan to Spain would be advisable.

What does our government expect to happen when Franco falls? Does it really believe the populace will hold a free election and vote into office a group of patriotic, liberty-loving citizens who will formulate a constitution something like ours and live happily ever after?

Maybe so! It seems to have been slightly in error ancient far-eastern matters—as witness what has happened there, is happening, and will obviously continue to happen.

Anyone who knows his Spanish civil war can visualize the bloody result if the Anti-Communist Franco government is allowed—AT THIS TIME—to collapse. The prepared and waiting Communists will rise immediately. Russia will send help of all sorts, if that should be needed. And there won't be any powerful Germany and Italy to balance the scales.

When France and Italy digest the fact that they are hemmed in by the Reds, will they not join the bandwagon and try to save their own personal necks? They will scarcely feel able to depend upon us! And suppose by some strange chance these two nations decided to "stick it out!"

With Spain on their side, the Russians could "parade" to the English channel. And the only way we could attempt to stop their armies—widely scattered over thousands of square miles of territory, and well defended in the air—would be with a limited number of atomic bombs.

This course of action would scarcely endear us to the "atomized" population of western Europe. We would doubtless attempt to bomb the principal Russian cities. But these too, would be well covered in the air; and the Reds would be making England a very precarious base from which to operate.

Spain is the key. If our government permits it to fall into Red hands, we the people will have to accept the consequences.

Helping Hand Class Of Methodist Church Met Tuesday Evening

The Helping Hand class of the Methodist Sunday School met at the church Tuesday evening, September 12 at 7:30 o'clock for their monthly business and social meeting. Mrs. Annie Waggoner, Mrs. J. W. Richbourg, and Mrs. Andy Hutton were hostesses for the occasion.

Several songs were sung, with Mrs. Richbourg at the piano. The president, Mrs. Annie Waggoner, said the 16th psalm. Mrs. Owen led the prayer. Mrs. J. L. Ray, the secretary, called the roll. Sixteen members answered roll call.

The class then held a short business meeting. Members of the class discussed the sick, shut-in class members who can't attend church or Sunday school and decided to remember them with gifts and visits when possible.

Games of questions and answers were led by Mrs. Hutton and Mrs. Richbourg. The class meeting closed with each member standing to repeat the class motto.

Refreshments of cake and punch were served to the following members: Mesdames Roy Stevens, Annie Waggoner, J. D. Wright, J. C. Barrow, Lusk Randals, B. B. Gamble, Watt Ross, Motts Archibald, George Stringer, J. L. Ray, J. W. Richbourg, Roy French, Nettie Meador, Andy Hutton, T. H. King, and J. P. Owen.

The next class meeting will be the second Tuesday in October with Mrs. Roy Stevens and Mrs. J. P. Owens as hostesses.

CLASS REPORTER.

Book Review Given During Last Friday's Garden Club Meeting

The Hico Garden Club met in regular monthly meeting at the First Methodist Church, Friday, September 9, with Mrs. Archie Carbett and Mrs. Edgar Bradley serving as hostesses.

Following the call to order and roll call, a motion was made and seconded to pay Mr. Ford \$2 for mowing of the park across from the Wiseman residence.

The program was then turned over to the hostesses and Mrs. Marvin Marshall gave a book review on "Road to Survival" by William Vogt.

The meeting adjourned.

Health Department Figures Human Lives Worth More than Dogs

Austin, Texas, Sept. 12.—The Texas State Department of Health during the first seven months of this year has a record of the examination of 2709 animal heads for rabies and of this number almost one fourth were found positive, said Dr. Geo. W. Cox, State Health Officer.

Rabies is transmitted to man through a bite or having a cut exposed to the saliva of a rabid animal. If a person is bitten, the offending animal should be penned, if possible, for a period of at least ten days. If the animal is in the infective stage, he will die within this time. This does not mean that he may be in the non-infectious or incubative stage and develop rabies later. All dogs bitten by a rabid animal should be confined six months. If it is necessary to kill the animal, this should be done in such a manner that the brain is not destroyed.

When sending a head to the State Laboratory it should be put in a container, sealed and packed in ice to prevent decomposition.

Dr. Cox said that rabies is a hard disease to eradicate, but that it could be done if all owners would have their dogs vaccinated each year and eliminate all stray dogs. If you have a dog, get him vaccinated the same as you have your children immunized against diphtheria and smallpox.

Rabies is commonly supposed to be a disease of warm weather, but it is more prevalent during the spring and fall because the dogs congregate and move about more, therefore the chances of exposure is greater during this time. It is true that more dogs are killed during the summer months, but the percentage of rabies is low.

NOTICE TO THE PUBLIC

On certain nights of the week when necessary, water will be cut off at 5 o'clock for a few hours, until current repairs and improvements are completed.

Plain Talk About TELEPHONE TAXES

Federal excise taxes are increasing your telephone bill—in some cases as much as 25%. There is a flat 15% Federal tax on local service. On long distance service where the charge is 25¢ or over, the tax is 25%. Other forms of telephone service are taxed from 0 to 25%. This tax is imposed directly upon you as a telephone user. Your telephone company, as its own expense, acts as a tax collector.

These excise taxes, levied directly upon you as a user, are in addition to the corporation income taxes which the company pays to the government. These taxes must be included in the company's cost of business and must, therefore, act to increase your telephone bill as a sort of hidden sales tax.

Telephone service is generally regarded as a necessity. Yet the 25% tax on long distance and other service is higher than the 20% luxury tax for jewelry and furs.

We are sure your Senators and Representatives in Congress would welcome your views as a taxpayer and citizen in helping them to guide future action on this unusual peacetime tax on a necessity.

GULF STATES TELEPHONE CO.

BETTER LIGHT = BETTER SIGHT

REDDY KILOWATT TEACHER

A Lesson To Remember!

There is a lesson here for parents, too! No child can do his best at homework if eyestrain caused by poor light makes him drowsy and unable to concentrate. Make sure your child has plenty of good light at his study table. See that the lamp he uses for home study is equipped with bulbs totaling at least 100 watts, and that it is well shaded to eliminate glare. Better light means better grades!

Here's Better Light for Home Study!

Homework's quickly done with a Better Sight Table Study Lamp like this. Its wide-angle shade and extra tall standard spread light over a wide area. Its white glass diffusing bowl sifts out harmful glare. Equipped with a 150-watt bulb it provides plenty of light and the right kind of light for safer, easier seeing.

Duffau

By Elmer Giesecke

Health is good in our community and farmers are through with their peanut crop and we are in need of a good rain that we may sow grain.

School started last Monday with a good attendance and the same faculty composed of Mr. Chandler and Miss Jennie Phillips Lucille Brown has charge of the kitchen.

Mr. and Mrs. E. B. Price and E. B. Jr. and Patsy were down from Grandbury Sunday attending the Gospel meeting.

Mr. and Mrs. Isom Brand of Grandbury were dinner guests of Mr. and Mrs. George Bowie Sunday.

The Home Demonstration Club met with Mrs. Priscilla Caraway Tuesday.

Mrs. Nora Rutledge is on a visit with a sister and old friends in Indiana.

We lost one of our oldest and most respected citizens last Thursday when B. M. King passed away in a Wichita Falls Hospital.

Bowen Martin King was born in Frankfort, Kentucky, March 15, 1876 and was 82 years five months and 24 days of age. He had lived in Texas for 62 years having spent most of that time in this vicinity.

He was married to Mrs. Melinda Cox July 19, 1899. To them were born one child, Erwin Lee King, who resides in Hobbs, N. M. Also surviving him are three grandchildren, Ervin Lee of Waco, Dan of Houston and Dora of Hobbs, two great-grandchildren, Nita Lee and Mike King of Waco. Also six step-children, J. C. Cox, New Gulf; J. C. Cox, El Campo; Fred Cox, Boswell, Okla., Mrs. Minnie Chaney, Hico and Mrs. Zella Harris of Corpus Christi and Mrs. Amanda Land of Hico. His good wife, Mrs. Melinda King, passed away Feb. 21, 1941.

He married Mrs. Hattie Hair December 27, 1946, who survives. B. M. King was a good honest and upright man and faithful member of the Church of Christ. Stanley Giesecke held the services at the church and burial was in Duffau Cemetery under the direction of Barrow-Rutledge Funeral Home of Hico.

DON'T OVERDO IT Uncontrolled use of fluorine tablets, now being given to children as a preventive against tooth decay, will cause ugly mottling of the teeth. Cosmopolitan magazine recommends that children be taught to handle the chemical with caution and not swallow a tablet anytime they feel like it.

Benjamin Franklin designed a dollar made of silver, brass and pewter, bearing the motto, "Mind Your Own Business," and minted in 1776.

FAIRY SCHOOL NEWS

Junior News

As a week of school has already gone by, I think two of the Juniors are ready to retire for winter. Our future of 1964: Delbert Brooks, a star football player for Texas University, James Arrant, Engineerman for the Santa Fe. Jo Ann Barbee, A secretary for the Central Motor Line in Seattle, Washington. Virginia Anderson, famous designer for Yo Sel in New York.

Sophomore News

We are proud to report that we have completed a week of school successfully, or did we? Guess what? Norma Ruth says she wants to be a housekeeper about three years from now. (For her mother and Dad.) But some of the boys don't agree. Rah! Rah! Our future hero of the sophomore class is Leon New. He plays center on the football team.

Freshmen News

Monday has rolled back around and here we are minus one. Dan Brooks is absent. I saw Pearl and Cleon come out of the Library. Wonder what they got? Our freshmen boys are out for football this year and we are proud of them. Barbara is about the only one in here who is trying to study, while Louise and Shirley are discussing what to write. That's all the news for this week.

First and Second Grades

We have enrolled 33 children in our room: 20 in the first grade and 13 in the second grade. Most of our mothers came the Friday we enrolled.

Our visitors the first week were Mrs. G. W. Little, Doris Smith, Mrs. E. J. Stanford and Mrs. Robert Jones. We're always happy to have visitors. And we extend a welcome to all our mothers and friends.

The first week, our attendance was perfect. But today, Monday, Danny Haile is absent. We hope he will be with us soon, yes, tomorrow, and thereafter.

The second grade has two new pupils who were not with us last year in the first grade. They are Joan Patterson from Dallas, and Karen Rushing, who attended school at San Saba. We're glad to add them to our class.

LAFF OF THE WEEK

"I'm sorry dear—but I just HAD to take a dime out of my pay envelope to pay for my bus ride home."

Danger Ahead Through Gossip

ONE MILLION CAN BE MISINFORMED IN 25 MINUTES BY RUMOR MONGERS

Have you heard that an automobile company is trying to find and buy back an experimental car with a 50-mile-to-a-gallon carburetor, which was sold by mistake, so that they can keep the invention secret? Have you heard that a machine from Mars recently landed in New Jersey? Or that Margaret O'Brien is really a midget? If you're smart, you laughed heartily at such rumors. "Rumors are stories that no one has the heart to investigate," says an article in the September issue of Cosmopolitan magazine. Under the heading "Everything You Hear is NOT True," the author writes: "Rumors run from mouth to mouth with electric speed. . . . If it takes five minutes for one man to tell an anecdote, and each one tells ten, it's possible to bend the ears of a million people in 25 minutes." The article debunks such rumors as the one that an electric light bulb has been invented that will burn forever, but that it won't be put on the market because it would kill off profits for the business. Among other baseless beliefs,

it lists the ideas that a powerful Hollywood executive has never been seen by anyone, and that Czarist bonds outstanding in this country are going to be paid in full, netting a tidy profit for the smart people who've been picking them up for next to nothing.

"One of the most frightening things about rumors is their spontaneity," says the author. "It's almost as hard to start a profitable rumor as it is to stop a dangerous one. . . . During the war, rumor clinics, established by newspapers to explode stories dangerous to civilian morale, frequently discovered that their readers remembered the story and forgot the refutation. Truth may bear away the victory," the author concludes, "but a good lie is immortal."

Student Loan Fund Helps Thousands to Attend TSCW, Denton

Denton, Tex., Sept. 12.—A student loan fund now totaling \$125,000 is available to students who attend Texas State College for Women, according to Jack Hester, Loan Fund Chairman. Existence of the fund, now larger than ever before in its history, has enabled thousands of girls to complete their education and enter communities as college-trained women.

During the more than 40 years in which the loan fund has operated, girls who have borrowed from it have made a remarkable record of repayment, Hester stated. Built up through contributions of individuals, women's clubs and students, the Student Loan Fund has been in operation almost from the time the college opened when need of assisting girls financially was first evident.

In 1936 Will C. Hogg of Houston, famed for his philanthropies, contributed \$30,000 toward enlargement of the fund. Any girl who has graduated from high school in the upper half of her class, or any TSCW student or girl transferring from another college with a C average or better is eligible for a student loan. Loans, extending over a two-year period with privilege of renewal, draw three per cent interest. Payment does not have to be made until the student completes her courses at the college and is ready to accept a position. Applications for loans should be made to the TSCW Loan Fund Committee.

937 Peace Officers Attend School for Enforcement Training

Austin, Sept. 12.—Nine hundred and thirty-seven Texas peace officers participated in law enforcement training programs conducted by the Texas Department of Public Safety Training Division during the 12 month period ending August 31st, according to an announcement today by Homer Garrison, Jr., Director of the Public Safety Department. A total of 19 schools were conducted with 301 rookie Highway Patrolmen and Drivers License Examiners graduated; 185 members of the Department received inservice training; and 551 city and county officers were enrolled and graduated from schools offered by the Department of Public Safety. The latter group included a school for newly elected sheriffs and their deputies which was held last fall as well as classes held in several cities over the State for the benefit of local officers.

Hamilton-Coryell Soil Conservation District Notes

The Hamilton-Coryell Soil Conservation District program provides for a coordinated plan on every farm of treating every acre according to its needs and using every acre according to its capabilities; for according to Dr. H. H. Bennett, Chief of the Service: "Modern Soil Conservation is based on sound land use and the treatment of land with those adaptable, practical measures that keep it permanently productive while in use."

In keeping with the above idea the following land owners have recently completed plans on their farms and ranches and have begun to apply needed measures to keep their farms and ranches and have begun to apply needed measures to keep their land productive:

- Dan Halle, 12 miles north of Hamilton in the Olin group, 300 acres.
A. A. Riewe, whose farm is 21 miles northeast of Hamilton in the Hamilton group, 249 acres.
R. E. Cox, whose farms are located 20 miles west of Hamilton in the Indian Gap group, 145 acres.
H. H. Stroud, whose ranch is 20 miles northeast of Hamilton in the Hamilton group, 2,900 acres.
H. P. Ashby, 18 miles northwest of Hamilton in the East Carlton group, 106 acres.
Ed Cummings, 2 miles south of Hamilton in the Blue Ridge group, 141 acres.
D. R. Proffitt, 21 miles northeast of Hamilton in the Gleason group, 350 acres.
J. C. Simmons, 16 miles southwest of Hamilton in the Wilson group, 160 acres.

Mrs. J. C. Anderson, 15 miles west of Hamilton in the County Line group, 437 acres.
J. D. Henderson, 20 miles southwest of Hamilton in the West Fairview group, 350 acres.
Gilbert and Marvin Sommerfeld, 15 miles south of Hamilton in the Ireland group, report highly productive and profitable yields following and in connection with Madrid clover. A field of 4 and one half acres which was in Madrid clover last year and which was over seeded with sweet sudan in the spring has already produced 410 bales of hay, and at this time has an excellent crop of sweet sudan which will be combined for seed. They estimate that if it were baled for hay, it would produce another 200 bales of hay.

A number of District Cooperators have recently been constructing all or part of water disposal systems as a part of a coordinated conservation program which would prevent gullying of their cultivated fields and carry excess water off of the farm in an orderly way:
Tado Fablanke, 13 miles north of Hamilton in the West Olin group, 815 feet of diversion.
W. O. Manning, 8 miles northeast of Hamilton in the Hamilton group, 880 feet of diversion and 8180 feet of large channel type terraces.
R. W. Lackey, 16 miles northeast of Hamilton in the Long Point group, collective waterway, 738 feet.

A. G. Register, 12 miles southwest of Hamilton in the North Evant group, 7447 feet of channel type terraces.
Glenn Riley, 12 miles northwest of Hamilton in the Pottsville group, collective outlet waterway, 1485 feet.

Mrs. Roe Allen, 6 miles southeast of Hamilton in the Blue Ridge group, 4490 feet of terraces.

Odie Shaffer, 11 miles northwest of Hamilton in the Spurlin group, 4130 feet of channel type terraces.

O. R. Williams, whose farm is 12 miles east of Hamilton, 2218 feet of collective outlet waterway.

Walter Feldman, 7 miles southeast of Hamilton in the South Aleman group, 2750 feet of collective outlet waterways.

Governor, State Solons And Press to Open Texas Prison Rodeo

Huntsville, Sept. 9 (EHO)—Opening day at the greater Texas Prison Rodeo will be known as "Governor's Day," French M. Robertson, Abilene prison board member and chairman of the board's rodeo committee, announced today.

He said that Governor Allan Shivers has accepted the prison board's invitation and will appear as guest of honor at the opening of the Prison Rodeo on Sunday, October 2, in Prison Stadium, Huntsville. It will also be a day in honor of the members of the Texas Legislature. Each member has been issued a personal invitation by prison General Manager O. B. Ellis.

In a further display of honor to Governor Shivers, Mr. A. C. Turner, prison rehabilitation director and rodeo publicity chief, has asked all Texas newspaper and radio men to be his guests on "Governor's Day." He expects about 2,000 newshawks and their wives to be present, and has arranged a special "press section" for the visitors.

Mr. Robertson promised many special features for the "Governor's Day" ceremonies and Rodeo Manager Albert Moore insists that he'll have the fastest, wildest show ever staged during his 16 years of Prison Rodeo experience.

Activities begin promptly at 2 p. m. on opening day and each Sunday thereafter during October. A Wednesday performance is also scheduled for October 19. Reserved seats are now on sale at the ticket office in Huntsville. Prices are the same as last year: two dollars for reserved seats and one dollar for standing room. "Early ticket sales are brisk," says L. J. Craig, chief cashier at the prison rodeo ticket office.

Rural Youth Day At State Fair Expected to Be Biggest In History

To help make Rural Youth Day Oct. 15 at the State Fair of Texas the biggest event of its kind in the nation's history, Texas railroads will offer special reduced round trip coach fares to Dallas for the occasion, James W. Aston, chairman of the State Fair Rural Youth Committee, has announced.

More than 75,000 4-H Club members, Future Farmers and Future Homemakers, along with their leaders and parents, are expected to attend the Fair in the largest single gathering of its kind in the country.

W. W. Fair, general passenger agent for the Texas & Pacific Railway Company at Dallas, speaking for passenger traffic officers of all Texas railroads, declared:

"All of us fully appreciate just what these rural youth organizations and the State Fair of Texas mean to the development of our agricultural resources, and we are happy to join in making reduced round trip group rates and special trains available."

The farm youngsters are expected to flock to Dallas from every corner of Texas. They will be admitted free to the Fair and a picnic lunch will be served each and every one of them through the courtesy of the Dallas business leaders and the Dallas Chamber of Commerce.

"The State Fair regards its rural youth as one of its most important educational projects," Aston said. "From a healthy start in 1946, when 30,000 boys and girls attended the Fair on Rural Youth Day, the event grew until it attracted more than 60,000 last year. This year upwards of 75,000 should attend. We think Texas has another 'first, biggest and best' here."

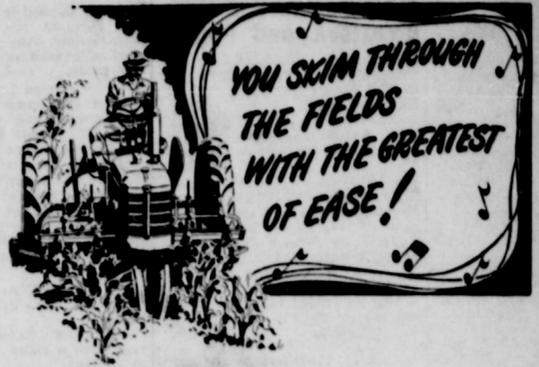

A banquet honoring the 50 outstanding Future Farmers, Future Homemakers and 4-H Club members of the state for 1946 will be held Oct. 14. Prizes will be given by the Fair to the county 4-H Future Farmer and Future Homemaker delegations having the best attendance scores at the Fair on Rural Youth Day.

How much regular train fares are reduced depends on the number traveling in the group to which the fares apply. Fifteen is the smallest group which may take advantage of the special rates. The fares are available to anyone who wants to visit the Fair on Rural Youth Day.

Full information on the special fares has been sent to all vocational agriculture and homemaking teachers and county Extension agents by State Fair officials.
