BIG BEND NATIONAL PARK

By HOWARD KING, Author, Texas Tourist Travel Guide From El Paso, The Rio Grande dium Tuesday night.

This rocky mountainous semi-arid country is called the Big Bend country because of the big "U" formed by the river. At the very lowest part of the bend is Big Bend National Park Bend National Park.

The Big Bend Park consists of about 1,000 square miles of dry arid, rough, hot and dusty terriwith towering rocky walls. Some people say the park is a terrible place. Others thinks it is the most

Ibsen, Shmibsen, She Said; Confide With Me Everything

I recently read a magazine piece entitled, "What's Wrong with Modern Marriage," in which the author opined that the divorce rate would drop like an over-ripe apple if the average wife showed more interest in her husband's business and hobbies.

Well, mebbe so, but you can't prove it by my Uncle Charlie and my Aunt Frieda. . . .

Charlie and Frieda are a couple of oldsters who have been living in a four-room flat on the East Side almost as long as magazines have been printing articles entitled, "What's Wrong with Modern Marriage." Ever since their nuptials, they've had at least one argument a day, and when they stop scrapping that's when I'll start worrying about them.

I remember an evening back in the days when I was knee-high to the

However, with my Aunt Frieda, like Columbus, there was no turning back. She kept picking away until Charlie itemized the day's doings-everything from punch-in to punch-out.

BUT THAT WAS only the beginning. The payoff came a few weeks later when Charlie was fixing to attend his weekly pinochle session. "I want you should teach me how to play," said Frieda.

"Pinochle!" said Charlie. "Always you are saying pinochle is for loafers and no-goods." "I ain't saying different," said

Quality Features of New 1950 Ford Are **Impressive to Public**

A smoother flow of power in the V-8s and quieter operation in both V-8 and 6-cylinder engines distinguish the improved power plant for the new 1950 Ford passenger cars introduced by Ford dealers

"By taking advantage of the latest development in engine de-sign we also have still further in-creased oil economy and added to the life of these engines," Harold T. Youngren, vice-president, engi-nerring, said. "They are the quietest and smoothest running engines we have ever produced."

Included among the engine im-provements in the 1950 Fords are: 1. New camshaft timing gear made of laminated composition material which replaces the former aluminum gear, giving much

quieter operation. 2. New autothermic type pistons which control expansion and contraction and eliminate piston slap 3. New camshaft, designed for quieter operation, featuring a onger opening and closing ramp which eliminates tappet noises. 4. Increased oil economy result-

ing from (a.) Addition of an oil squirt hole in the connecting rods which pro-vide instant lubrication of the cylinder walls after a cold start. (b.) New cylinder wall finish

with better oil control. (c.) Rubber seal ring on intake valve stem guide of the V-8 engine, which prevents excessive oil consumption through leakage of oil past the valve guide. The new rubber seal ring help oil economy

from the first mile driven. 5. New three-bladed fan on the V-8 engine replacing the former four-bladed fan and a reduction of fan speed to 9-10th of the engine speed. Use of new narrow fan belts and rearrangement of drive so each of the two belts drives only three pulleys. The new fan, while providing the same cooling for the engine, is much quieter than the former model, and the reduction in fan speed eliminates far "roar.

6. Improved oil bath air cleaner with cork insulation which dead ens metallic engine noises.

The new timing gears in both the V-8 and 6-cylinder engines are made of laminated cloth impregnated with bakelite resins and moulded under extreme pressure

Another important improvement in the 1950 Ford engine is the use of better insulated high tension wires to the spark plugs. An im-proved arrangement of these wires also prevents cross-firing.

A feature of the new autother mic type pistons is the steel strut which is east into the aluminum piston and which controls expan sion so the piston cannot become tight when heated or loose when cold. The pistons eliminate engine slap, produce a great deal less friction and add to the life of the

When the former pistons had to be fitted with a certain amount of play to prevent scoring, the new pistons are being fitted as close as .0005 of an inch clearance. The new piston also has its pin offset one-sixteenth of an inch toward the thrust side as an aid in elimi-

Improved performance of the engine with the new pistons in stalled provides an even smoother flow of power than in previous models.

Other quality features of the 1950 Ford V-8 engine include: hardened valve seat inserts for exhaust valves; duplex water pump and series flow cooling, in suring against hot spots; extra large capacity oil pump and accessible vertical drive distributor incorporating full vacum control of

UNDER ONE FEATHER-LIGHT COVER Electrically!

SLEEP ELECTRICALLY

and enjoy the difference

Imagine the joy of sleeping under one feather-light blanket that keeps you as warm as you choose all night long, regardless of weather changes.

That's the kind of automatic sleeping comfort you get with an ELECTRIC BLANKET. It automatically adjusts itself to changes in room temperatures ... it pre-warms your bed ... warms your bed all over ... lets you sleep in sunny comfort without being weighed down under mountains of cover.

Automatic ELECTRIC BLANKETS are safe, longlasting and washable. They come in single and double bed sizes and in a choice of attractive colors. Switch to better sleeping electrically!

HOW MUCH MORE ENJOYABLE is the Thanksgiving Feast when the setting is in a home of your own. We are especially proud of having helped numerous families of this community enjoy the security and satisfaction of home ownership.

Numerous others have understandable pride in living comfortably in homes they have remodeled and equipped with the many conveniences they have acquired so economically, but which constitute real luxuries upon such occasions as the holiday season brings.

We share the happiness of these families at this bounteous season and look forward to continuing our service through coming years.

Mr. Simmons had served two! years in the World War No. 2, and was overseas some. He came to the United States and stayed two months, was doing some kind of work like so many of them did. While he was over there he had seen some very bad things. The couple lived in a city in Texas and htd a little daughter and a little

On this day Mrs. Simmons and her little son were at the home of a nearby neighbor. Someone said, after looking out, "There goes Harry up on the porch." She said she wasn't looking for Harry until Wednesday. She got home in a hurry. All the wives that had husbands in the war and saw them come home know what Mrs. Simmons felt and did.

"Honey, I am so glad to be home with you and the children and all the folks!" He gave her a big kiss and a bear hug. The girl was in school and the boy was asleep. That afternoon his parents and her parents, Mr. and Mrs. Wright,

OUR THOUGHTS TURN BACK THROUGH THE YEARS

As the holiday season draws near, and at this Thanksgiving - with glorious peace and plenty in sight at last - we want to express our sincere thanks to the people of Hico and community for their loyalty and patronage during the many years we have served the people of this territory.

We Want You to Know We Appreciate This Loyalty and Hope to Continue Serving You.

> Let us pause at this period and give thanks for our many blessings -especially for the privilege of living in a land so outstanding among the nations of the world.

DEAR FRIEND:

At this Thanksgiving season, all of us have special cause to be grateful, contrasting our peace and plenty with the want and suffering abroad.

In addition, each of us has his own reasons for giving thanks - for health, for material well being, for national safety, and for all good things which have happened during the year.

We of this organization are particularly thankful for the opportunity of serving you in your automotive needs. We want to continue to serve you, and to serve you in a way that will merit your lasting friendship and good will, for well satisfied customers are a major cause of thanksgiving in ours as in all other businesses.

With the most cordial good wishes and with renewed assurances of our desire to serve you faithfully and dependably now and in the future.

WE SINCERELY SAY "THANK YOU"

Duffau H. D. Club Held Recent Meeting In Magee Home

at this writing.

Mrs. Ray Magee was hostess to the Duffau Home Demonstration Club when it met in her home Tuesday afternoon, November 8. Mrs. Glen Caraway, president was in charge of the meeting. She appointed demonstrators for the year: for kitchen improvements, Mrs. M. C. Lowry and for cereal demonstration, Mrs. E. E. Giesecke.

The meeting was turned over to Mrs. Elsie Short, whose demonstration was on table setting and the use of silver ware. She also told how to select crystal ware, pointing out that there are many substitutes for expensive china and sterling silver.

The hostess served refreshments to the following members: Mmes. Jim Ray Anderson, Fred Blackburn, Glen Caraway, Festel Elkins, E. E. Giesecke, F. S. Landers, Nathan Robinette John B. Fouts and the agent, Mrs. Elsie Short. Mrs. Stanley Roach, Reporter

Watch Out For The Symptoms!

Hoot Davis was down with Chicken Pox. A man of forty-five catching a kid's disease!

So I went to see him, armed with jokes about "second childhood" but forgot them fast when I got there. Hoot looked terrible and had quite a fever.

While we talked, I come to think of how Chicken Pox is a lot like other "diseases"-diseases of the character, such as intolerance, self-righteousness or just plain ignorance. They're excusable in children, but when they come out in

Laughed out loud when I heard adults they're ten times as badand can be mighty "contagious."

> From where I sit, we should all watch out for the "symptoms"little things like criticising a person's preference for a friendly glass of temperate beer or ale We've seen personal freedom wither away in other countries, when individual intolerance was allowed to get out of hand and become a nation-wide epidemic.
