### OFFICIAL REPORT ON WEEKLY SWING OF FARM MARKETS OVER THE SOUTHWEST

Most southwest farm products sold steady to lower Monday through Monday although occasional strong spots appeared, according to the U. S. Department of Agriculture's Production and Marketing Administration.

Milk lost 2 cents a hundred pounds for the week, and barley 2 to 3 cents a bushel and white corn a penny. Other grains showed little or no change. No. 2 yellow milled Monday at \$2.30 to \$2.35 per hundredweight in bulk carlots at Texas common points. Barley sold at \$1.31 to \$1.36 a bushel on No. 2 grade and No. 2 Texas white corn at \$1.64 to \$1.66. No. 1 wheat ranged from \$2.38 1/2 to \$2.44.

Eggs continued to weaken in the southwest as demand failed to absorb the increased offerings. Most poultry, including turkeys, showed a little change from last week. Current receipt eggs brought 28 to 40 cents a dozen at Dallas and Fort Worth, 33 to 36 cents at Denver, and 33 to 35 cents at Little Rock.

A few less livestock came to southwest yards last week than the week before or the same week last year. Hog numbers increased sharply at midwest terminals.

Sheep and lamb prices changed little during the week. Fort Worth cleared feeder lambs at \$18 to \$20.50 Monday while medium and good 50 to 75 pound lots returned \$19 to \$21 at San Antonio. Monday's trade drew lower bids at Denver.

Wool and mohair brought firm prices as fairly large amounts sold in active trade. Sales reached 55

Voting will continue through this week. The 1948 Sweetheart was Peggy Goodloe.

## Burrus Bids High On Grand Champion Steer Sold for Record Price

The Pecos County 4-H Club has again captured the interest of the entire nation and made livestock history by taking their Texas Hereford steer to the International Livestock Exposition at Chicago where he was chosen grand champion and sold recently for the record price of \$13,800.

The steer, Judge Roy Bean, was purchased by Frank R. Pierce, president of Dearborn Motors, after an exciting contest between Pierce and Jess C. Andrew, president of the exposition. Andrew, bidding for Burrus Feed Mills at the instruction of Wiley Aldins, manager of the Fort Worth Mill, ran the bid up to \$11,25 before he dropped out of the bidding.

Mr. Akins, who always takes an active interest in the advancement of the boys' and girls' club work and the livestock industry, desired that the Texas fed steer bring a record price to prove to the world that Texas fed cattle can compete effectively with the best finished cattle to be found anywhere.

Last year Texo, gift of Burrus Feed Mills to the Pecos Club, and companion to Judge Roy Bean, was reserve champion of the show and brought \$10.75 per pound from Glenn McCarthy, well known Houston oil man and owner of the Shamrock Hotel.

During the summer, Judge Roy Bean was in Fort Worth as he and his youthful owners paid a visit to Burrus Feed Mills on their way to the show at the Jones County Fair in Iowa.

## RUGMAKERS MEET

Mrs. Harry Hudson was hostess for the Rugmakers Club at her home Wednesday afternoon. Five members were present. Refreshments of Christmas cookies, cold drinks, coffee, and candy were served.

## " 'TIS THE WEEK BEFORE CHRISTMAS, AND—"

## 'Don't Let Death Take Your Holiday' Is Safety Slogan

"Don't let death take your holiday!" This was the warning issued today by Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety.

"Too many people either do not, or will not, associate Christmas holidays with anything as grim as death," Col. Garrison said. "And yet this month's death rate is consistently high. Last year, more than 3,000 motorists and pedestrians died in December alone."

The Department of Public Safety is emphasizing the subject of holiday hazards during December in cooperation with Texas Safety Association.

Col. Garrison pointed out that December, last year, again successfully defended its title as the deadliest month of the year from a national standpoint. Both pedestrian and motorist fatalities were higher at that time than at any other time of the year.

"A lot of things go into the making of a record like that," Col. Garrison said. "Low visibility, slippery road surfaces, fogged windshields, more drinking drivers, and long hours of darkness that cover the peak hours of traffic every day are the factors chiefly responsible for such a high fatality rate."

Maintenance of windshield wiper, defrosters, and brakes, use of chains, lower speeds, and abstinence from alcohol before and while driving were the prevention measures urged by the Department of Public Safety and the Texas Safety Association.

"Don't Let Death Take Your Holiday, is more than a slogan," Col. Garrison said. "Remember—that very thing happened to more than 3,000 people last year."

## Lions Entertained By Carolers from Grammar School

Grammar school carolers, numbering 17 youthful blended voices, sang at the regular weekly luncheon and meeting of the Lions Club, held at Firemen's Hall. They announced also the Christmas operetta, "Red Candles," to be presented at the school auditorium on the evening of Dec. 20.

In spite of the new low in attendance, the sixteen Lions present had a spirited session.

Lion President Norton gave a report on the Presidents' and Secretaries' meeting at Cisco Monday, which he and Lion Knudson attended. "Our zone now has been divided into two zones with Hico now belonging to Zone 7," he said, adding that a zone president is to be appointed later.

Announcement also was made that a Ladies' Night for the entire zone would be held in Stephenville some time in February.

Lion L. H. Davis screened the moving pictures taken during the recent football game with Hamilton Lions.

Be in Hico next week end for Santa Claus' visit and gifts for everyone.

## EARLY ISSUES FOR HOLIDAYS

The next two issues of the News Review will carry regular dates, but will require cooperation of correspondents and patrons since they will be issued early.

Next week's Christmas greeting issue forms close Tuesday. The Dec. 30 issue containing New Year's messages will be issued early also. In this way our advertisers will be better served, and the readers will not be inconvenienced.

The most attractive line of illustrated holiday greetings we have ever had will be available to merchants and individuals—at no extra cost. Solicitation will be limited, so thoughtfulness on the part of those desiring to be represented will be appreciated.

## Deer Hunter's Wife Tells Her Opinion Of Popular Sport

Wives of local deer hunters may find sympathy in the following from the column written by Mrs. Leonard Webb in The West News.

"The Texas Deer and Turkey season opened on November 16th. I never have trouble remembering the date since it falls on our wedding anniversary. But little things like wedding anniversaries are not to interfere with deer hunting—at least not in the Webb household. You would think that an attractive anniversary present would be forthcoming under such conditions, as a peace offering if nothing more. But no, the few weeks before the hunting season are spent in making preparations, that anniversary again taking a back seat on the promise of something nice later on.

The thirty-five or more "huntling widows" in this community will agree with me when I say they deserve more credit for every deer and turkey killed than the men who carry the guns. For at least a month before the season opens that husband is rummaging through closets dragging out everything from feather combs to flannel night caps. A week in the woods requires more preparation than a world tour, yet the hunter returns home wearing the same clothes he put on the first day of the season, unshaved, and smelling as unsavory as the venison he proudly displays.

The wife whose husband fails to kill a deer is fortunate in many respects. She doesn't have to hear the story of how the feat was accomplished every time visitors drop in, and she doesn't have to worry about cooking this double cousin to a Billy goat. Try as I may, using enough seasoning to make a mesquite stump palatable, I have never cooked venison to suit my family. The hunter of the house says "no meat compares with venison steak that's cooked at camp." Maybe he is right. At least I agree it should be cooked in the woods—far out in the woods.

## Project Program of Local F. F. A. Chapter Outlined in Detail

Productive projects of the boys of the Hico High School under the administration of J. E. Lincoln and under the supervision of their teacher, J. Doyle Love are getting into full swing for the current agriculture year.

With stepped up requirements for productive projects, the boys are beginning to take more interest and are beginning to see a need for these productive projects more than ever before.

Among the forty-two boys taking vocational agriculture we find 12 beef calves being fattened, 29 pigs being fattened for pork, 1200 chicks being raised for fryer production, 180 hens being used for egg production, 50 turkeys for lamb production, 50 turkeys for beef, 3 orchards for fruit production, 7 acres of garden for vegetable production, 7 girls for pig production, 3 dairy cows, 2 dairy heifers, 7 acres of corn, 7 acres of grain sorghum, 2750 plants for commercial plant sale, and numerous other production projects such as breeding bulls, breeding beef cows, brood sows, boars, and lambs for mutton.

Some of these projects are not under way as we find it impractical for the present time, but will get under way before next May. Along with the productive projects we find numerous supplementary farm practices being planned and being carried out. Some of these for the current agriculture year are 13 houses being constructed or repaired, 34 yards of concrete being made, 10 head of livestock being butchered, 640 hens being culled, 445 cows being dehorned, 43 tests for germination of seed, 29 cows tested for butterfat, 50 acres of pasture mowed for control of weeds, 25 acres of pasture being seeded, 66 yards of rope made with a halter for each 3 yards, 64 spot tests of soil made, 25 to 30 different grasses being collected and 4000 head of livestock and poultry being vaccinated.

With all of these productive projects it is hoped that the boys gain more and a wider knowledge of some of the minor farm problems which may confront them in the near future. REPORTER.

## Santa Claus to Help Girl Scouts Entertain Families Friday Night

The Hico Girl Scouts will entertain their parents, brothers, and sisters with a Christmas program and tree at 7:30 o'clock Friday night at Scout Hall. Santa Claus will be present to distribute candy and gifts. Refreshments of cookies and cold drinks will be served and the girls will sing carols and play their song flutes.

Plans for the party were made at the regular meeting at Scout Hall Monday night. Program, refreshments, and decoration committees were named by the leaders, Miss Louise Blair and Mrs. Weldon Pierce. John Jolly was a guest at the meeting.

## Santa's Visit In Hico Will Be Welcomed By Young and Old

### Grammar School Offers Free Christmas Program Next Tuesday, Dec. 20

The Hico Elementary School will present a Christmas program, an operetta, "Red Candles" on Tuesday night, Dec. 20, at 7:30. The cast, directed by Mrs. W. D. Bradley, assisted by other teachers, is made up of all the grammar school students, grade one through eight.

There will be no admission charge. Speaking on behalf of the entire faculty, Grade School Principal L. S. Chandler invites each and every one to this free program.

### Conservation Problems Discussed In Meeting Held Here Last Week

The fourth meeting of the Hamilton Chamber of Commerce Manager with landowners of the Hamilton-Coryell Soil Conservation District was held at the Hico Vocational Agriculture building Tuesday evening, Dec. 6.

Vernon Jenkins, Chairman of the meeting, gave a good discussion of the many phases of the conservation problem and of the need of a coordinated program of many practices to meet those needs.

O. C. Chapman, Veteran teacher discussed the universal need of conservation and carefully explained how all people everywhere on the earth are related to the application of this problem. He showed how that both the quality and abundance of food from decreasing land for increasing population presents a program that is not just something which would be nice to do, or which would make life a little happier, or a little more pleasant but that it is in reality a case of life and death.

James D. Love, Vocational Agriculture teacher in Hico High School, spoke on the effectiveness and desirability of the cooperation of all interests in accomplishment of a complete and universal soil saving and soil improving program. Mr. Love was so impressed with the slides and moving pictures presented by the Hamilton Chamber of Commerce that he not only expressed appreciation for this service, but outlined plans for group meetings of all his constituents early in the year for further emphasis on the needs for application of soil and water conservation on all the land.

The slides and films were presented by Jack Pridgen, Manager of the Hamilton Chamber of Commerce, and the explanation of slides was made by Lee Colwick of the local Soil Conservation Service staff. Thirty-six men attended the meeting.

### Young German to Lecture At Hamilton Church of Christ

The public is invited to a free lecture at the Church of Christ, South Reagan and Leslie Streets, in Hamilton on Friday evening, Dec. 23, at 7:30; the speaker will be Mr. Dieter Alten, a young German from Frankfurt, Germany.

Mr. Alten was a member of the Youth Movement in Germany during the Hitler regime. He and many other youths were greatly deceived by the Hitler philosophy. The fall of the Hitler regime left him bitter toward the philosophies of man, and he turned to religion as the only solution to the problems of Germany.

Alten was in the army for 15 months during the closing phase of the war, assigned to an anti-aircraft division near Frankfurt. His father, a captain in the anti-aircraft, was killed in the war, his mother having died when he was born. At the close of the war, he had to spend a number of months in a Russian prison camp.

Though Mr. Alten has only been in this country about a year, he has a very good command of the English language, having studied it in the German schools. He is now attending the David Lipscomb College in Nashville, Tennessee, preparing himself to preach the gospel to his own people in Germany. He is a very interesting speaker, and one you will long remember.

At the close of the lecture the public will be given the opportunity to ask Mr. Alten questions as to the conditions in Germany. We urge the public to come and hear this young man. There will be no admission, collection, or free will offerings taken. It is free. Harry E. Johnson, Evangelist.

### Old Gent to Appear Here Next Week In All His Glory

You-u-u beh-eh-eh!! Santa Claus is really coming to Hico this year.

And don't let anyone tell you he only comes once each year. This Christmas, through the inspiration of the Hico Chamber of Commerce and the cooperation of liberal local merchants, he has been prevailed upon to practically empty his sock and bank account here.

In fact he has so much to give away that the distribution will require visits on three separate days next week end—

Thursday, Dec. 22, 2:30 P. M.

Friday, Dec. 23, 3:30 P. M.

Saturday, Dec. 24, 2:00 P. M.

He has notified C. of C. officials that he will even be here in person on the above days—in his best parade form Christmas Eve.

The first of the week he will be represented by the regular Wednesday Trades Day Committee who in view of the fact that it's Christmas time, have announced a 3:00 o'clock party each day next week. Ask almost any Hico merchant for full particulars.

For the kiddies there will be loads and loads of candy, fruits, toys, and knick-knacks—dear to the heart of every youngster. And the pretty part of it—it's all free. So make your plans now to be in Hico every day next week end. You will find Hico stores well stocked for your gift shopping, in case you are the average put-it-off-er. But if you are a smarty and already have your purchases made, you will miss it if you miss it!

### Cancer Workers Told Ways In Which They Can Save Lives Today

Fort Worth, Dec. 12—(Sp.)—"We can save many lives today with the knowledge we now have, through prompt diagnosis and treatment," cancer control workers were told as the Texas Division, American Cancer Society, concluded its fourth annual meeting here last week.

M. R. Runyon of New York, executive vice president of the national society, told representatives from throughout Texas about new advances in research, service to the cancer patient, and cancer education.

"I want to tell you who is going to find the answer to cancer," Runyon said. "It is you—the individual. No organization as an organization can solve a problem as varied and complex as cancer. In the problem of cancer control, individuals must accept full measure of responsibility. No matter how big our organization grows, cancer still will be a personal concern."

Previously, Frank C. Smith, president of the Texas Division, described the Division's major objectives as "education of the public to insure earlier diagnosis and treatment of cancer."

"We must serve, earn the support of, and improve the health conditions of, more than six and a half million Texans. This can be done through a good framework of organization, functioning to suit the needs of each county, utilizing trained volunteers who have at their disposal adequate specialized tools, and conducting a successful annual campaign for the public's support, including support for the national research program."

Meetings included a teaching conference for medical representatives which demonstrated operation of cancer clinic sessions.

### Reunion Dates for Next Year Set, Plans Started On Program

Hico's 64th Annual Reunion will be held August 9, 10, 11, and 12, 1950, according to announcement last week by M. S. Norton, manager.

A contract has been signed with a reliable carnival company, with promise of added features, and plans have already been started by the committee for something out of the ordinary in this mid-century celebration. Suggestions are welcomed from the general public.

Norton managed this year's Reunion with the assistance of S. J. Cheek, who was retiring after about a quarter of a century of successful administration.

'Remember Goliad' Is Battle Cry for Funds Campaign

Fort Worth, Dec. 12.—The first of four regional campaigns boosting the statewide "Remember Goliad" campaign to improve and beautify Goliad State Park got under way this week.

Intensive activities began in Fort Worth area under the direction of David Donoghue, well known geologist and historian, who is Fort Worth regional advisory chairman.

Similar drives will begin shortly in the Dallas, Houston and San Antonio areas, Brig. Gen. H. Miller Ainsworth of Luling, state chairman, said. Daughters of the Republic of Texas are sponsoring the \$200,000 campaign.

With school children contributing nickels and dimes, donors with more substantial means were gratified to learn that all contri-

butions to the campaign may be deducted from individual and corporate income taxes.

Announcement of the income tax ruling came from L. H. Van Dohlen, chairman of the Goliad Park Restoration Committee, which is receiving contributions at Goliad. The Goliad Park Restoration Foundation was incorporated Oct. 24 as a charitable, non-profit organization.

"It looks like every Texan wants to give \$1 or more in honor of the heroes who fell at Goliad," Van Dohlen said, calling attention to the scores of contributions received by the committee each day. "We will have a park that all Texas can be proud of."

Telephones and Talking Dogs

Telephone traffic is so heavy today that we sometimes think even the fabled talking dogs have switched to the telephone.

Seriously, though, this increased telephone traffic does prove two important points of progress: the growth of the community—and the expansion of telephone service. More people are using more telephones today than ever before. Each new telephone installed increases traffic—but at the same time it increases the range of usefulness of every other telephone. This means your telephone service has reached its greatest value to date—and it's growing every day.

**Texas 4-H'ers Win Special Recognition**

OUTSTANDING records of achievement in the National 4-H Recreation and Rural Arts, Frozen Foods, Poultry and Home Grounds Beautification program have won four Texas club members state championship honors. The winners and brief outlines of their records follow:

Patsie Scales

Lorene Probst

Diana Behlen

Doris Rudolph

Working on the theory that all work and no play makes 4-H'ers dull, Patsie Scales, 18, of Brownfield, achieved State honors in the 1949 National 4-H Recreation and Rural Arts program. During four years in 4-H Club work, she has led songs and games at community meetings. She was mistress of ceremonies of the talent show at 4-H Club round-up. At county camp this year Patsie was in charge of all recreation, including vesper services and flag raising. She has given craft demonstrations on glass etching, bracelet making, and plaque making. Patsie will be among those whose records will be judged for national honors. The reward is an all-expense trip to the National 4-H Club Congress in Chicago, provided by United States Rubber Co., program sponsor.

It's June in January at the Probst dinner table in Baastrop, because fresh delicious fruits and vegetables from the family freezer are served in mid-winter. Also previously frozen and now appearing on the menu are meats, chicken and pastries. Daughter Lorene, 18, has made all this possible by participating in the National 4-H Frozen Foods program. Proof that she did a first-rate job is the \$50 U. S. savings bond she won as 1949 state champion. The award was provided by International Harvester Co., program sponsor. Lorene worked diligently on 51 projects during her six years in 4-H, and was active in club and community projects.

Sixteen projects in five years of 4-H work is a record worth crowing about. And that's just what Diana Behlen, 15, of Bebe, is doing. All of these activities were conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

ing idiots. Well, there were lots of things going on that night, Thursday. At the home economics cottage the homemaking girls and their gentlemen friends were patiently awaiting the arrival of Santa Claus, and then after eating, receiving their gifts, and playing some games, they scattered. Some went straight home, of that we can be sure, others went to the show. Before we let them go, you will probably be interested in who all were there. There were some new couples such as Betty Rae and Bruce, Betty Jo B. and Harold P., Wilma and Royce, although they have been seen on two previous occasions. The others that were there were Paula and Benny, and Margaret and Charles. It seems that Wanda Jean and Mary Jo invited, and their guests arrived, but later preferred to sit in the car during the party. Tough luck!

Later in town and at the show were Walter and Lois, Wanda Jo and Ralph, Mary and Fred, Billy and Louise, Louise and Earl, Jimmy and Dorothy, and Charlotte and Buck. After going over Fairy way, Alva Lee was seen with Joan B.

Friday night, there were two couples out, those being Margaret and Charles and Jo and O. J.

Saturday night, since the girls had to go play basketball, some of the boys waited for them to return. They came home victorious, and later most of them were seen in town at some time or another. Those that went to the mid-night show were Louise and Earl, Roline and Myrna, Wendell and Shirley, Billie Jean and Jim, Bertha and Milton, Joy Ann and Desk, Betty and James, Paula and Benny, Louise and Billy, and Shirley with some stranger, also Clarice with an unknown boy. Prowling around else where were Wanda Jean and Don, with Mary Jo and Royce. This week, Saturday night will be dismissed kinda casual like. Although I may get murdered for doing such a drastic thing.

Sunday afternoon at the show were Wanda Jo and Ralph. Out viewing the sights of such a lovely afternoon were Louise and Earl and Billy and Louise. Don must not have valued his life very much, because he had the nerve to let Wanda Jean drive, and what a thought! It seems that she was quite happy about the whole deal, but how could she torture the poor boy that way. This brings to a close the happenings of another week in the life of this school year. Stick around, will you?

the senior class want to wish everyone a very Merry Christmas and a Happy New Year.

**HHS — JUNIOR**  
 We received our pictures last week. I think everyone is pretty well pleased with their pictures.

We are proud of the Hico boys and girls who played in the Kopperl tournament last week end. The girls won first place. The boys didn't but we are still proud of them.

Won't be long before we will turn out for Christmas. I guess everyone will be glad.

We have our basketball tournament here at Hico this week. So everyone come on out.

**HHS — SOPHOMORE**  
 The sophomore class are planning to have a Christmas party on Dec. 21, at Mrs. Segrist's home. The class drew names and everyone is looking forward to it.

We are very proud of our basketball girls who won first place in the Kopperl tournament. One of the sophomore girls, Stella Behrens won a basketball.

**HHS — FRESHMAN**  
 The Hico basketball girls are still undefeated. They entered a tournament this week and won first place. Wednesday night they played and only won by one point. Saturday night the girls played Kopperl and of course they won.

We hope that our girls and boys both can win the tournament being played here this week. The finals will be played Saturday.

**HHS — F. F. A.**  
 Thursday, Dec. 1, 1949, twenty-seven of the Hico F. F. A. boys went to Mr. Laney's place west from Chalk Mountain to cut Christmas trees.

Each boy was to cut four trees but some of the boys cut more than four and some cut less, so it came out just about right.

Some of the trees are being painted and some of them are being left a natural green and they are being sold by the Hico F. F. A. chapter to finance the Hico Livestock Show.

**HHS — HOMEMAKING**  
 On Tuesday, Dec. 6, Miss Nix, a home demonstration agent visited the Homemaking girls and their teacher, Mrs. S. E. Blair Jr., and showed us how to prepare several dishes; Date Nut Cake, Orange bars and Cranberry Muffins were among the ones she prepared.

On Thursday night, Dec. 8, the homemaking girls had their Christmas party and invited guests.

Also on Tuesday, our new electric sewing machine arrived, which all of us are proud of.

**HHS — WORM'S EYE VIEW**  
 I've crawled all through the halls this week and nothing special is happening.

The seniors, as usual, are collecting money. But this time it isn't to their benefit. And as usual, the junior girls are talking about boys and the boys are talking about the Christmas trees the agriculture boys are trying to sell. I went in the other day to ask Mr. Love if he had a worm-size tree to sell cheap but with all the commotion going on I couldn't get a word in edge wise. Were all the juniors like the 1949-50 juniors.

Mrs. Segrist must be a good sponsor, her room is quiet and studying everytime I go by. And least but not last are the freshmen. It seems that they are always happy and giggling about

something all the time. But all in all I bet the teachers are very proud of their students.

Oh yes, I like to have forgotten. I asked Benny Collins personally if he caught the horses and he said after a long trip there and back he finally caught them in front of the stall where he keeps them. I'm really sorry Benny, that you had so much bad luck in catching them.

So long until next week when I'll be spying on you.

**HHS — SPOTLIGHT**

I'm telling you this Texas weather is giving me a pain in the neck along with numerous other people. One day it's summer; the next, winter, and as a result of such immediate changes, the sniffles keep on haunting me.

It seems that no matter whether it's rain or shine the dating situation in and around this neck of the woods keeps right on. If it weren't for such, there would be no column in the weekly paper known as the Spotlight. Speaking of this column, there have been numerous complaints of it being too long, and also about not giving all the couples proper mention.

Well, if you aren't aware of the fact, I shall inform you that it is rather difficult to chase around to five or six different places all in the same night, and find out who you were with and where. I'm doing the best I know how, and if it doesn't suit you—who knows? Maybe some day you'll find someone who can write it and please you in every way.

To get on with the story of the happenings of the previous week: Monday Louise and Earl were at the Baptist Church practicing for the Christmas Pageant, and on up the highway at the Methodist Church were Patsy and Buck and Charles and Margaret having gobs of fun at a party there.

At the show Tuesday night were Margaret and Charles, Roline and Myrna, Patsy and Glen, and a new couple to add to the collection, Mary Nell and Billy.

After finally making it over those rough roads, Wanda Jean and Don, Mary Jo and Royce were seen entering the show. Later at the same place were Jo and O. J. and Bertha and Milton.

All of this rain should be helping all of these so called flowers of the family. You know, the bloom-

**Eating Pork That Has  
Not Been Well Cooked  
Can Be Dangerous**

Austin, Texas, Dec. 12.—"Please  
pass the pork" is a familiar  
sentence around many dinner  
tables these days, as cold weather  
approaches. A juicy roast pork or  
pork chops are dishes that can't  
be beat, according to many con-  
noisseurs of meat. However, pork  
can be dangerous if it isn't cook-  
ed long enough. So, be sure that  
pork passes the test of thorough  
cooking before you put it on the  
table. Otherwise, trichinosis may  
result, said Dr. Geo. W. Cox, State  
Health Officer.

Trichinosis is a big word, but  
the disease is easy to prevent. All  
you need to do is cook the meat  
until the pink color turns to white.  
When the change of color occurs,  
the meat is safe to eat. Farmers  
who raise hogs for sale as meat,  
and who feed them garbage,  
should cook the garbage first, or  
the meat may become contaminat-  
ed. If butchered pork is stored at  
a temperature of five degrees  
above zero, Fahrenheit, for 20  
days, trichinosis parasites should  
die, if there are any.

If a person eats a pork chop,  
for example, that contains  
trichinae, they are swallowed in  
the form of tiny capsules. In the  
intestines these capsules develop  
and discharge minute worms which  
are carried by the bloodstream to  
various parts of the body... set-  
tling in muscles where after a  
period of time they become calcified  
and die.

On this city's "day," the high school band is invited to give a

concert in front of the Will Rogers Memorial Coliseum. Band members in uniform are admitted free to the exposition grounds and are given aisle seats at a rodeo performance.

This city is invited also, as a feature of its "day", to designate a young lady as its "cowgirl sweetheart" and she will ride in the rodeo grand entry and will be introduced to the audience.

"We appreciate greatly the cooperation you and your citizens have given in the past and we are counting on you again this year," Deen states.

The exposition in Fort Worth, founded in 1896, is the oldest and largest stock show in the Southwest. The show holds the world's greatest indoor rodeo. Cash awards offered for the 1950 exposition represent an all-time high—approximately \$112,000.

**"Uncle Barney" Royal**  
Mr. Richard Willis Royal was born near Macon, Ga., July 6, 1861, and died at the Holt Hospital in Meridian Saturday morning, Dec. 10, 1949 at 4:30, at the age of 88 years, 5 months and 4 days.

He was married to Miss Martha Lavonia Beavers Sept. 6, 1883. To this union were born 14 children. The following five have preceded him in death: Billie, Marshall, Sallie, DeWitt, and another infant son. He is survived by the following children: Mrs. Lula Trammel, Hollis, Okla.; Mrs. Ella Jordan, San Angelo, Tex.; Mrs. Leah Trammel, Eldorado, Okla.; Clark Royal, Valley Mills; Mrs. Grace Martin, Crystal Lake, Ill.; Barney Royal, Midland; Mrs. Beatrice Parsons, Mrs. Lora Martin and Mr. John Royal, all of Iredell. He is survived also by Mrs. Myrtle Kendrick of Texas City, an orphan niece he reared from infancy. There are 49 grandchildren and 71 great-grandchildren, and a host of other relatives and friends.

He was converted and joined the Methodist church at an early age, and took an active interest as long as his health permitted. Uncle Barney, as he was called, came to Texas in 1894 and has lived in and near Iredell ever since. He was well known, was always on the right side of all that was good. He made his home with his daughter, Mrs. Beatrice Parsons. He was ill but a few days, but at his age he couldn't pull through. He had pneumonia a few years back and was soon over it. He will be missed by his children and friends, but all are consoled to know that he is at rest.

The funeral was held Sunday afternoon at 2 o'clock in the Methodist church. The remains were brought to the home of his son, John, Saturday afternoon. Rev. R. Y. Wallace brought the message in the presence of a host of relatives and friends. He was assisted by Rev. Bob Jenkins, the Baptist pastor. The floral offerings were large and beautiful.

Six of his grandsons were pallbearers. The remains were laid to rest in the cemetery east of town by the side of his wife who preceded him in death on May 18, 1939. Several friends from Meridian and Walnut Springs and perhaps other places attended the funeral. A large crowd of out-of-town relatives attended. The children and other relatives have the sympathy of their many friends.

*We Are Always in the Presence of God.*

Lesson for December 18: Isaiah 7: 14; Jeremiah 29, 31; Luke 1.  
Memory Selection: Jeremiah 29: 11-13.

**THE TROUBLED** mind of man has been tormented endlessly, throughout every age of his civilization, with the immense question—Is God with us? Is God with me? But the answer has always been there. God is with us. He is at hand for all men who seek Him. That is often the difficulty—the necessity for seeking. A man who denies the existence of that necessity might never find God, or at the best, approach only part of the way to His grace.

Jeremiah points the way to a full realization that God is ever available.

"Then shall ye call upon me, and ye shall go and pray unto me, and I will hearken unto you. And ye shall seek me, and find me, when ye shall search for me with all your heart."

God is eternally with us, and God's promised blessings always have been fulfilled. To his confused and spiritually downtrodden people Isaiah prophesied: "For unto us a child is born, unto us a son is given; and the government shall be upon his shoulder; and his name shall be called Wonderful, Counselor, The Mighty God, The everlasting Father, The Prince of Peace."

The prophets of Israel never doubted God nor His sublime presence in the affairs of all peoples. The presence of Christ on earth bore out that supreme belief and continues now to sustain us in our knowledge that God IS with us.

### Fairy

By Correspondent

A good slow rain has been falling most of the day today (Monday) which will be very beneficial to the fall grain.

Mrs. Myrtle Brunson is still a patient at the Hico Hospital and has been quite ill, but we hope by this time she is much better.

We were very sorry to learn of the death of Mrs. Bertha Henderson of Cranfills Gap. Mrs. Henderson and her small sons resided north of Fairy some twenty-nine years ago.

We have just been informed that Ercey Parks is seriously ill in a Brownwood hospital. He was carried to the Hico Hospital on Friday of last week and was transferred to the Brownwood hospital the following day, where he will be under the care of a specialist.

Employees of the J. D. Cunningham Butane Agency of Evant installed butane gas at the Jud Massengale home last week. They also installed a new gas range and water heater. This addition to the home completely modernized their farm home.

Mr. and Mrs. Carl Ray Sellers and Carolyn were dinner guests last Sunday of his parents, Mr. and Mrs. N. S. Sellers and Joy Marie of Hamilton. In the afternoon, accompanied by his brother and wife, Mr. and Mrs. Frank Sellers, also of Hamilton, they motored to Waco where they spent from two until four visiting their little son and nephew, Jimmie Don Sellers, at the crippled children's hospital.

They reported him to be doing fine and is now walking with out aid and if nothing arises to prevent, he will be dismissed from the hospital next Sunday. However he will be kept under close observation of the hospital staff for some time yet.

Mr. and Mrs. Marvin Porterfield visited last Sunday with her mother, Mrs. Lester Smith and daughters of Lanham. L. M. Grant of Fort Worth was here last Sunday for a visit in the home of his brother-in-law and wife, Mr. and Mrs. Frank Driver. Mr. Grant, who is now deceased was the former Miss Minnie Webster of Fairy. He was accompanied by relatives who visited at Ames, near Gatesville.

Mrs. Guy Lockhart of Pidooke visited Wednesday of last week with her mother, Mrs. V. H. Heyroth.

Mr. and Mrs. E. M. Hoover were Christmas shopping in Fort Worth last week and drove home a new Plymouth sedan.

Mr. and Mrs. Milford Miller of Fort Worth were visiting here last week with their parents, Mr. and Mrs. A. J. Miller and Mr. and Mrs. M. E. Parks and family.

Mr. and Mrs. Dewey Sellers of Pecan spent last Saturday in the home of his brother, Mr. and Mrs. Carl Ray Sellers, assisting them in butchering a hog.

Many are making preparations for Christmas which is just around the corner. Though many of us can only dream of a white Christmas.

There has been several cases of intestinal flu recently. The latest victims being Mrs. V. H. Heyroth and Carl Ray Sellers.
