

HERE IN HICO

By R. L. H.

These days most thoughts are turning toward circumstances and effects of mobilization...

A similar article from the Public Information Section of the Texas Military District...

From here on Colonel Oscar B. Abbott, Chief of the TMD, takes over.

In accordance with announced army policy, all delays will be on an individual basis...

Applications for delay, at present, may be made in the form of a letter by the individual stating his reason for the request...

Colonel Abbott stressed the fact that applications should not be made prior to receipt by the individual reservist of orders to report for active duty...

Reservists eligible for delay must be in one of the following categories:

- A. Those employed or engaged in critical civilian occupations and essential activities.
B. Those occupying critical key managerial jobs in industry or key positions in governmental agencies.

Individuals in the above categories who are ordered to active duty normally will have approximately 21 days in which to settle private affairs.

The individual seeking a delay may himself apply or both he and his employer may request the delay in the call to active duty from the Adjutant General of the state concerned...

After applications have been made, determination of whether or not delays are justified will be made. In the event an individual wishes to appeal a decision, he may submit his appeal through the same offices for forwarding to higher headquarters.

Unless an individual request for delay has been approved, the applicant will report to his duty station as ordered. If a delay is authorized after an individual has entered on military duty, as in the case of an appeal, he may take steps to be relieved and returned to civilian life for the period specified in the approval for delay.

Individuals who are authorized delays become available for assignment to active duty at the end of the periods authorized in their delays. Depending on the needs of the military service at the end of the periods of delay, individuals will be required to carry out the original orders to active duty for a period of 21 months...

In order to speed up the entire delay procedure, the Army has authorized individual members of the ORC who are not members of alerted units to communicate directly with the Chiefs of the military districts.

BOY SCOUTS SHOW PROFICIENCY AT LIONS' LUNCHEON

Four representatives of Hico Troop 99, Boy Scouts of America, and a group of their sponsors gave the program at the Wednesday noon luncheon of Hico Lions Club...

With Truman E. Roberts presiding over a Scout Board of Review, assisted by Rev. J. Fred Patterson and O. C. Cook, the four boys were questioned on their proficiency in work done toward attaining higher classification.

Don Warren, answered questions on first aid, and gave the eight principal points of the compass. Buddy Teague described a recent 7-mile hike and showed proficiency in nature study.

Don Ables described how camp was taken care of during the two-day hike, and told the proper use of knife and hatchet.

Tommy Leath enumerated some of the things he learned on the first camping trip he made after joining the Scouts.

I. J. Teague, father of one of the applicants, then was instructed to award the well-earned badges.

Scout Leath received his tenderfoot pin, and the three others were elevated to second-class Scouts. In awarding the badges, Mr. Teague pinned them on upside down, cautioning the boys that they were not to be righted until they were able to report a good deed each to their sponsors.

Mr. Cook made appropriate remarks on the value of Boy Scout work, and Bro. Patterson brought out the importance of the part of the Scout code, "A Scout is reverent." Both expressed the hope that they might be present when the boys attained the rating of Eagle Scouts.

The boys departed after reciting the Scout code and giving the Scout sign.

Besides the four boys, there were two other guests, Mr. Teague with R. D. Boone, and Rev. E. R. Patterson with his son, Rev. J. Fred Patterson. Twenty-two members attended.

Lion President M. S. Norton reported on the zone meeting held here last Thursday night, and preliminary plans for the proposed crippled children's hospital at Legion, sponsored by Lions Clubs. A directors' meeting was announced for next Tuesday.

Coach Willie Sirman issued the customary invitation for Lions to come out to the football games, calling special attention to the one with Walnut Springs here Friday night.

A very large crowd was on hand for this game. Rod Elkins, president of the Bosque Valley League, related. He continued, "This was the rubber game of this series, with Iredell winning and moving into the play-off for the League championship."

Local Boy Scouts Share In National 'Victory Roundup'

The Boy Scouts of America has a great opportunity to contribute to the preservation of the ideals of freedom, says Dr. Arthur A. Schuck, Chief Scout Executive of the organization in a statement to the nation's 544 local Boy Scout Councils.

Dr. Schuck has challenged the leaders of the Heart O' Texas Council of the Boy Scouts of America, with headquarters in Waco, to strengthen the movement "because of the need here and throughout the world for the kind of youth and young men that Scouting can produce."

His message comes at the start of a nation-wide Boy Scout "Victory Roundup," which will continue until Dec. 31. The "roundup" is a part of the Scouts' two-year crusade to "Strengthen the Arm of Liberty" by which the organization endeavors to give more boys a richer Scouting experience through better trained leaders.

Another aim of the Roundup is to increase the membership by at least five in each scout troop. Troop 99 in Hico has already gained its new members suggested by Scout officials.

The Boy Scouts closed 1949 with its all-time high in membership, 2,579,515 boys and men enrolled. Each month this year the membership has increased. "We have demonstrated," says Dr. Schuck, "that Scouting is a vital force for our democratic way, and for freedom and liberty."

"We must recognize that we have led people everywhere to expect more from Scouting. This, Dr. Schuck said, requires all leaders to be more alert and aggressive than ever before. They must have the ability and willingness to recognize and correct weaknesses wherever they appear. This, he said, is the reason for the 'Roundup' and the 'Roll Call.'"

"It is our task," says the Chief Scout Executive, "to be eternally vigilant that every boy in every part of America may have Scouting and have it under the finest leadership American communities have to offer."

"We must reach greater numbers of the youth of America," he says, "and imbue them with the ideals and the traditions which have made America what it is and which will keep America strong. Never has the opportunity been so great to contribute to the preservation of the ideals of freedom and democracy, not alone in America, but of the whole world."

Heart O' Texas Council will officially kick off the 1950 Victory Roundup at Camp Tahuaya Saturday, September 23rd, announced Hugh Thompson, Council Commissioner.

Jesse James III and Out of Luck At 102 In Austin Hospital

Austin, Sept. 18.—A white-haired Confederate veteran who insists he is the real Jesse James, rested in an Austin hospital today as authorities worked to restore his name to the state's pension rolls.

J. Frank Dalton, 102, was released from the same hospital about a year ago after he recovered from a serious illness.

The old-timer was found ill and penniless in an east Austin room Thursday and taken to the hospital. Authorities at first thought he had broken a hip, but X-rays revealed his bones were "all in one piece."

At one time Dalton received a \$100 monthly Texas Confederate pension. That was before he announced he was Jesse James.

His name was taken off the state's pension rolls in 1948 after he had left the state. The Confederate pension division of the state comptroller's office said yesterday that, under Texas law, Dalton's pension probably can not be restored. There was some doubt, too, whether the old man could be placed in the Confederate Men's Home here.

Dalton served with Quantrill's Raiders during the War Between the States.

Local Housing Board OK's Management Plan Of Public Housing Units

Members of the Hico Housing Authority met last Thursday morning with W. A. Shropshire, of the Public Housing Administration, and Mayor W. H. Greenalt to formulate a preliminary management plan for the proposed construction of local low-rent housing units.

Members of the Authority present were Odis Petsick, chairman; J. B. Woodard, W. B. Coats, and Mack Moon. The preliminary management plan, drawn up with the assistance of Mr. Shropshire, provides that Mayor Greenalt will be in charge of the project, with the approval and cooperation of the city council and other city employees on a part-time basis.

The local authority had previously submitted an application for a loan from the federal government to build the low-rent dwelling units. At the meeting Thursday, they specified a request for 16 units and the application has been submitted, through the Fort Worth field office of the Public Housing Administration, to proper officials in Washington, D. C., and awaits the signature of the President for approval.

A tentative operating budget for the project was presented to and approved by the housing authority, to demonstrate to P. H. A. the feasibility of the operation and development of low-rent units.

Night Courses Tarleton College Are GI-Approved

Stephenville, Sept. 19.—Veterans may attend night adult classes at Tarleton State College here under the GI Bill of Rights. "Night classes are a part of the college, and the college is GI approved," Dean Paul A. Cynus explained.

GIs who register for night courses are entitled to draw tuition, supplies, and subsistence. Total subsistence is paid on 12 hours of work, the average class being three hours. Total subsistence amounts to \$120 for a person with two dependents, \$105 for a person with one dependent, and \$75 for a person with no dependent.

Subsistence payments are also made on the ratio of one fourth, one half, and three fourths. For only three hours of work, the GI may draw one fourth of whatever subsistence he is entitled to.

Tarleton State College is planning night classes in education, English, Spanish, shorthand, typing, interior decoration, shop work, and other subjects. In fact, classes in any course for which there is a demand will be formed, Dean Cynus says.

For further information and details, call or write Dean Paul A. Cynus, Tarleton State College, Stephenville.

Fairy

Mrs. Eunice Massengale

This community was drenched with another inch of rain Monday night. Fields were badly damaged and all water drainage ditches were filled to capacity.

Most of the maize harvest has been completed. T. L. Betts, who had the largest maize acreage in the community, liked only two rounds finishing up his crop, when the rain came Saturday. He would have finished, but was delayed a short while with combine trouble. Fortunately he got all hauled out of the field just before the rainfall late Monday.

Mr. and Mrs. J. J. Jones Jr. are entertaining a little son in their home. He made his arrival at the Hico Hospital last Friday morning. He weighed 7 pounds, 8 ounces and has been christened Stephen Jay. Mrs. Jones is the former Mrs. Jessie Courtney of Dublin.

We talked with M. D. a short while after the service, he being as much surprised as ourselves. He is pastor of the Church of Christ there and is a fine young man, with a very promising future. His wife is the former Mary Beth Clifton, formerly of near Carlton and daughter of Mr. and Mrs. O. R. Clifton, now of Stephenville.

Mr. and Mrs. D. E. Allison, Ruby Jean and Darrel and his friend, Oswald Bell of Dublin visited here a while Sunday in the home of their parents, Mr. and Mrs. Edd Allison and Texie and Mrs. Eunice Massengale.

We made an error last week in stating that Mr. and Mrs. Dellis Seago and Sherry of Waco were visiting here last Sunday week. Instead it was Mr. and Mrs. Edwin Seilheimer and children of Fort Worth.

Oran Williford was in Coleman Thursday of last week to attend funeral services for his cousin, Mr. Ardis Wells.

Mr. and Mrs. N. S. Sellers and Joy Marie and Mr. and Mrs. Frank Sellers, Barbara and Bobbie visited last Sunday in the home of their son and brother, Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don.

Mrs. Garland Arrant accompanied them as far as Lorraine, where she visited with her sister.

The writer attended singing at Clairette Sunday afternoon. All enjoyed the singing of the Stamps Sextet Quartet.

Several from here attended funeral services in Hico Monday for Mr. John Henry Munnerlyn. Those whose names we secured were Mr. and Mrs. John Abel and daughter, Mrs. Ovie Clark, Mrs. Ted Arrant and son Garland and wife, Mrs. Walter Abel, Douglas Barbee and daughter, Joan, Mr. and Mrs. Cleve King and the writer and probably others whose names we failed to secure.

We now have our telephone installed and will appreciate any items of news by telephone. Our number is 1002.

The Fairy 4-H girls met Friday for their first meeting of the new club year. Miss Ethel Hender, home demonstration leader, and 15 members were present.

The following officers were elected: Shirley Rae Clark, president; Jerre Jean Dunklin, vice-president; Jimmie Gordon, secretary; Carola Jean Clark, reporter and Gold Star Girl.

After the election of the officers, Miss Hender discussed the year book and the craft for the coming year.

New Idea in Dishwashing

Operating on a "revolutionary" principle of automatic dishwashing, this new Youngstown Kitchens dishwasher will do the family's dishes in less than 10 minutes. The young lady holds the partially filled upper basket to show how cups, glasses and silverware are positioned. A lower basket holds plates, larger dishes and pans. The machine will hold table service for six people. The tube in the middle of the tub is a jet tower which spins and throws powerful streams of water which shear food particles off dishes. Water at 180 degrees is delivered from a booster heater tank in the machine.

OUR FIRST STEP in washing a sweater comes when the sweater is new. Outline on paper that can be used as a guide for shaping the sweater after it's washed. Sweaters are washed best before they're too soiled, and one sweater at a time. Remove fancy buttons or trimmings. Test the water for its lukewarm temperature by dropping on the wrist. If you can't feel the water, the temperature is correct. Squeeze

Sweaters don't stand for soaking, vigorous rubbing, twisting or wringing, up and down dousing or drying near heat or in the sun. Keep the sweater under the water while washing. Even in taking from the water, lift from below so the weight of the water does not pull it from shape. If you're in a hard water area, use softened water or a detergent for washing. Soap in hard water gets locked in the knit and is very difficult to remove. A soft hand brush dipped into mild suds is good pre-washing treatment for sweater necklines and soil on long sleeve cuffs.

POOR CRIMINAL

(A Short Story) By RICHARD HILL WILKINSON

She handed Warren a sheaf of papers. He studied them a moment, then glanced up.

"Want to get all the facts first," he explained briefly. "No sense in going off half-cocked. Waste of time. Besides," he added dryly, "if the man was murdered like you say, he won't walk away on us."

THE REGULAR WORK of the 81st Congress is now a matter of history. Unless the law-makers are called into session again before the convening of the 82nd Congress in January, many in both house and senate will have greeted their colleagues for the last time for many will not be back in the ensuing congress. Highlight of this week was final agreement in conference on the huge omnibus appropriations bill carrying a total of \$36,153,600,425 in cash, contract and borrowing authority. As finally agreed upon by the conference committee, the bill shows a total reduction of \$2,298,757,723 under the budget estimate, which includes a fixed amount of \$559,000,000 to be cut from the provisions of the bill by the budget bureau. This provision is a compromise from the Byrd amendment which provided the President should make a 10 per cent across-the-board cut. The bill carries a total of \$33,934,455,425 in direct appropriations; \$2,170,145,000 in contract authority and \$599,000,000 in borrowing authority. This latter figure is authority to borrow that amount by REA and the farm home administration in the department of agriculture. Aside from the additional \$16,000,000,000 which President Truman is asking for military appropriations, the chief executive likely will ask for some additional items before congress gets away. These might include \$139,000,000 for emergency government agency dispersal in case of atomic attack; \$13,740,000 for space outside of Washington for 44,000 office workers to make room for defense agencies; \$475,000 for science foundation; \$24,000,000 for Voice of America over funds already approved; \$60,500,000 for administration of mobilization program; \$1,800,000 for administration of civil service commission loyalty program; \$1,700,000 for collecting new social security taxes; \$76,700 for expanding select service and \$7,500,000 for Alaskan roadbuilding. Since the appropriations measure sets no time when the mandatory

THE MIDDLES By Bob Karp

PAUL, native of Tarsus, came of a Jewish family that had acquired Roman citizenship. Well educated, and fluent in Greek, which was used throughout the Roman empire, he was admirably fitted to become the Apostle to the Gentiles. After being set upon in Jerusalem by a Jewish mob, and being sent by Roman authorities to Caesarea for his own safety, he despaired of justice from the Roman governor, and appealed unto Caesar and was eventually sent to Rome. Meanwhile, King Agrippa and Bernice came on a state visit to Festus, who had succeeded Felix as governor. They desired to see Paul and he was brought before them. The lesson text is a part of his defence. Paul gave a brief history of his life and recounted in full his vision on the Damascus road, when the risen Lord appeared unto him and commissioned him as an Apostle to the Gentiles. And he stoutly maintained that he had not been 'disobedient unto the heavenly vision.' The world has learned how truly Paul spoke that day. The first to see Christianity as a world religion, Paul, in the course of several missionary journeys and in his labors in chief cities of the Roman Empire, made Christianity a religion for all men. We are thankful for his great service to mankind. Let us each make sure of redeemed life through the Christ Paul proclaimed.

Early Symptoms of Rheumatic Fever Should Be Investigated

Austin, Texas, Sept. 19.—While the specific cause of rheumatic fever has not been discovered, several factors associated with it and its onset and recurrence are now generally recognized, said Dr. Geo. W. Cox, State Health Officer.

Rheumatic fever is serious because it may affect the heart. Age is important. Rheumatic fever usually begins in childhood at about 5 or 6, although adults may have it. There is susceptibility to the disease which causes rheumatic fever to be more common in some families than in others. The other factors which may favor its onset, combined with an individual's susceptibility, are frequent chilling, damp or over crowded living quarters and a poor diet. The early signs and symptoms may be slight. Some of them, which may occur singly or in combination are: failure to gain weight, poor appetite, pallor, repeated nosebleeds, low persistent fever, and frequent complaints of pain in the arms, legs, or abdomen. These symptoms do not necessarily mean that a child has rheumatic fever, but they do indicate that he is below par and should be examined by a physician and his advice followed.

"Let's Talk Live Stock"

By TED GOULDY

Fort Worth, Sept. 18.—Stocker...
trade continues to hold the spot-...
light in livestock circles and new...
high prices are reported right...
along on virtually all kinds of re-...
placement cattle, calves and sheep.

Some sources feel that light-...
weight calves and yearlings will...
reach to the \$37.50 to \$40 range...
this fall. Fact is some are being...
priced as high as \$37.50 at some...
points in the winter wheat graz-...
ing sections but so far we have...
heard of no takers.

There is a tiny undercurrent of...
doubt at the present time as to...
whether there may or may not be a...
reaction toward lower prices in...
the near future in view of the...
steady climb of the past weeks.

Some of the observers speculate...
as to whether a quick termina-...
tion of the fighting in Korea...
might take a good deal of the...
fever out of the soaring stocker...
market. At present, it appears that...
General MacArthur's lightning thrust...
might cut off and chew up the...
invading North Koreans and result...
in a quick surrender. If that hap-...
pens and if the fighting does not...
break out on another front, a less...
optimistic view of the coming...
months would not be unexpected.

In the meanwhile some note-...
worthy sales which will give you...
an idea of current values in-...
clude: a load of good Angus cows...
weighing 1,051 pounds from C. H...
Penner, Mill Creek, Okla., sold at...
Fort Worth today for \$25 per...
hundred for stockers. That's \$262-...
75 for dry cows with no coupon...
(calves) at side or definitely in sight.

Sid Richardson, oilman and ranch-...
er, had some cross-bred Brahma-...
Shorthorns in from the Dutch...
Branch Ranch near Benbrook, the...
ranch formerly owned by Elliott...
Roosevelt, which weighed 960 and...
brought \$27.50.

C. V. Herbert, Shreveport, La.,...
(he's the son of the late Victor...
Herbert, the world-famous mus-...
ician and composer) has a ranch...
about 22 miles from Shreveport...
had five loads of cattle at Fort...
Worth Monday which included 42...
calves at \$32 per hundred and...
15 head at \$30 as well as a load...
of stocker cows at \$23. Herbert uses...
good Polled Hereford bulls.

Henry Sauerbacher, Clay Co.,...
had some \$29 feeder yearlings in...
One of the more unusual sales was...
three big, 1,598-pound Brahma-...
Longhorn type steers that were...
sent here by Oscar Hadden, Ponca...
City, Oklahoma. These steers were...
high as the fence, and had horns...
four to five feet long, regular...
hat-racks. The steers were sold...
with the stipulation that the heads...
and hides would be returned to...
Hadden to be hunted. They...
brought \$25 per hundred.

Feeder lambs climbed to a new...
season high of \$27 per hundred...
We understand that in a good...
many sections of the Cornbelt, the...
feeders are turning the lambs in-...
stead of calves or yearlings this...
year since the lambs take a little...
less investment.

Billy Graham, he's the nephew...
of the widely known Dink Graham...
of the Panhandle-Plains section...
from Dimmitt, had some \$27 feed-...
er lambs that averaged 81 pounds...
Monday at Fort Worth. Billy also...
had some old ewes mostly canners...
that sold at \$14.50, the 194 head...
weighing 100 pounds.

Last week we saw evidence again...
of the highly profitable practice...
of fattening lambs on irrigated...
alfalfa pasture. Mr. E. P. Malone...
of Arthur Lake, New Mexico, and...
Mr. G. H. Malone of Fort Stock-...
ton, marketed \$29 lambs. Malone's...
weighed 85 pounds and Crone's...
weighed 97 pounds.

Malone creepfeeds his lambs...
while they run with their mothers...
on irrigated alfalfa fields. He loads...
the creeps with a pellet made of...
50 per cent good hay and 50 per...
cent ground maize and 10 per cent...
molasses. Says this ration costs...
about \$50 to \$60 per ton and keeps...
it before them day and night.

Malone has shipped 12 loads of...
lambs this season and they have...
averaged 77 pounds and brought...
from \$26.50 to \$29. Average age of...
the lambs has been about four...
months. He uses Corriedale, Ram-...
bouillet and Delaine type ewes and...
pure-bred Suffolk bucks. This...
makes a really fast developing...
high dressing feeder lamb.

This last bunch of lambs origi-...
nated in Colorado, and probably...
set a distance record for market...
lambs here having traveled over...
800 miles to get to market.

Merle Waggoner of Wichita...
Falls was at Fort Worth with a...
bunch of aged cows Monday on the...
canner and cutter order at \$19.50...
These cows would have brought...
\$21 or better as stockers but Wag-...
goner, like many other ranchmen...
does not want his brand scattered...
around over the country and...
wanted them sold for butcher.

To Speak On Behalf Of Governor Shivers' Economy Program

Truman E. Roberts of Hico, has volunteered to accept speaking engagements before civic groups and other public-spirited organizations in Hamilton County on behalf of the program of Governor Allan Shivers' Texas Economy Commission.

Governor Shivers appointed 600 Texans to this advisory body to conduct intensive research into the state government and to make recommendations for economical and efficient reforms.

The speaker is a member of a statewide speakers' committee of the State Junior Bar of Texas. This committee is volunteering its services to civic and patriotic causes as they develop throughout the year. The Texas Economy Commission is the first project of this committee of the Junior Bar.

These men are on call by organizations in this county who are seeking to present programs on subjects of current interest, such as the Texas Economy Commission. They also are available for talks sponsored by local Texas Economy Commission meetings.

Achievement Awards Will Go to 300 Texas Farmers On Oct. 17

Certificates of Achievement will be awarded to more than three hundred Texas farmers at ceremonies to be held in the State Fair Park Auditorium on October 17, County Supervisor C. B. Williams Jr. announced this week. He is making plans to accompany a delegation of Erath County families to Dallas for the event.

The ceremonies will start at 1:30 in the afternoon. Mr. Williams stated that a special bus had been chartered for the trip to Dallas. Not only persons who have paid up their farm and home loans, but families whose farming operations are financed by Farmers Home Administration are to make the trip.

This will be the third annual achievement day. Of the six thousand tenant purchase loans made in Texas under the Bankhead-Jones Act one-third have been paid off and are now owned free of debt by former tenant families.

A part of the program will include radio interviews of successful farmers and awarding of prizes of outstanding accomplishments with their crops.

COUNTY SINGING SUNDAY

RESOLUTIONS OF RESPECT

Carroll Chapter 948, O. E. S. To the Worthy Matron, Worthy Patron, Officers and Members of Carroll Chapter No. 948, Order of the Eastern Star:

We, your Committee on Resolutions, submit the following resolutions in loving memory of our sister, Mittie Walker.

WHEREAS, on August 27, 1950, the death angel visited our Chapter and took from our number our beloved sister and friend, God in His infinite wisdom has called her to eternal reward and we of Carroll Chapter No. 948 deem it a privilege to hear testimony to the long and useful life she lived. She was loyal and true to her family, her church, and her Chapter.

She has just stepped through the Heavenly Portals into that larger and more beautiful life that awaits us in that City Not Made With Hands, and has entered into that reward which God has promised to all those who faithfully serve Him.

RESOLVED: that we express to her loved ones the honor in which we cherish her memory, the sympathy we feel for them in their loss, and our trust in the Father Above, Who doeth all things well, and be it further

RESOLVED: that we drop our charter for a period of 30 days; that a copy of these Resolutions be sent to her family, a copy be spread on the minutes of our Chapter, and a copy be published in The Hico News Review.

Respectfully and Fraternally submitted,
MARY E. PARTAIN
