This Is Just the Way It Works Out

## Our Subscribers Seem to Be Luckier than Most People

Over a long period during which newspapers have been printed, astute readers will remember some masterpieces which have been published pointing out the dire things that can happen to one who does not take his home paper. Mark Twain, bless him, painted a picture of certain failure for the fellow in business who didn't advertise. And perhaps you've read about the many mishaps and misfortunes of a zirk that was on his way to borrow his neighbor's paper.

Since that subject has been so adequately covered, now let us tell you about the good things that can happen to a cash customer of the NR subscription department. Mrs. Melia McCook, who had been buying a single copy of the paper each week at the established price of a nickel, came in a fortnight ago to get that week's issue. Departing happily, she shortly returned with a worried look on her face and her face turned toward the lobby floor. Then she brightened up considerably.

"Glad to know you folks are so honest," she said, as she stooped down and picked up a lithographed picture of Abraham Lincoln. "I wasn't certain, but I thought I must have dropped this five dollar bill here a few minutes ago."

"All our customers are honest," she was told. "Besides, with inflation and everything, it is scarcely worth the stop for a V." To show that we were kidding, however, we hastily accepted her offer to subscribe for the NR because of her good luck in finding the lost five. It was a lucky day all around for all of us.

Mrs. Myrtle Duncan of Iredell had to hunt up the News Review staff recently while they were in the cafe drinking coffee (ye gods, again?) in order to pay her subscription. However, she stated cheerfully that it was worth the extra trouble to get the Hico paper, because she'd rather have it than some of the other papers in the surrounding area. Thanks for the compliment, Mrs. Duncan, and may your expectations from this newspaper be fulfilled.

Miss Stella Jones of Iredell, faithful correspondent from the upper end of Bosque County and subscription agent for the News Review, wrote us a note this week regarding a subscription which she brought in for Roy Dunlap of Dallas recently. The note read: "You all never mentioned about me bringing the money for the paper. I guess you all forgot it." Well, you caught up with us, Miss Stella, and the buttermilk and corabread will be on us the next time you visit us and Mrs. Prater. The writer of this column has been sorta behind with the business and held over a few names the last two weeks. Thanks anyway for reminding us, and perhaps we can do a little better when the hustle-bustle settles down in other affairs of community life.

"I would like a year's subscription to your paper. Please send me a statement as to price," writes R. P. Onstott, Lubbock Route 2. After receiving a check to the News Review office for a year's payment as a new subscriber. Welcome to the throng, Mr. Onstott.

A renewal subscription for Mr. and Mrs. A. D. Horton, Hico Route 2, was entered the first of last week. While transacting this item of business, Mr. Horton showed us an armload of papers and documents which he was attempting to fill out in connection with application for a "displaced person" from overseas to help out on his work.

Another new subscription has been entered on the News Review records, this one from Mrs. Wick Simpson, Iredell Route 1, who came in recently to order a year's reading of this worthy—and maybe worthy—publication.

Mr. and Mrs. R. Lee Ganaway and family are now receiving the News Review each week through the courtesy of her mother, Mrs. Wilson, who lives with them in their home on Route 2, on the place formerly owned by Alvin Hicks. The Ganaways are comparatively new citizens of the Hico community, having moved here last October.

"I think I'm getting the paper on the house—I'd better pay up," said Loyd Trimmer of Iredell, when he came by to find the News Review staff working late. So saying, he completed his business by renewing his subscription for another year.

A gift subscription has been entered for an old subscriber, D. H. Proffitt of Hobbs, New Mexico, who for some unaccountable reason allowed his name to drop from the list for a few weeks. The request for the birthday present to this ex-Hicoan and his family came from Mrs. James F. Harris.

W. C. Howard, new druggist and pharmacist who recently assumed ownership of the Corner Drug Co. and renamed the institution Howard Drug, is gradually becoming adjusted to membership in the Hico community, in spite of the fact that he has been overly busy during the first few weeks in his new enterprise. Evidence of his and Mrs. Howard's willingness to become an integral part of this community and to get acquainted more quickly was shown in one way last week as he asked how receiving a copy of the local paper each week. After his request was made, their name was added on the mailing list of readers who receive all the news that is made available to the News Review staff, through citizens who are interested enough to cooperate with efforts of the editorial department. Welcome into the fold, Mr. Howard, as a double-barreled customer—subscriber and regular advertiser.

Mr. and Mrs. J. E. Ozie witness their own names in this particular column for perhaps the first time—their paper formerly went in the name of the Corner Drug Co., which they turned over this month to the new owner, Mr. Howard. We haven't seen much of Bernard and Avinelle since they quit working at the drug store, but with their other varied interests—including the lovely fishing camp on the Leon River established by the late C. L. Lynch—we feel sure they are finding plenty to do to keep them out of mischief.

Chas. D. Hoover, Phoenix, Ariz., is credited with another year's time now since a recent office visit from his father, E. M. Hoover of Fairy. There has been a slight change in this subscriber's street address, but not so radical as that shown by our records, which disclose a previous address in care of the postmaster at New York. Like other veterans of World War II, we'd be willing to bet Charles is satisfied with any address in the good old U. S. A.

Responding to the well-known admonition of "Go west, young man," Willie Sirman, high school athletic coach, and W. T. (Dub) Carr, former manager of the Chicken Palace, left the first of this week to seek their fortunes during the summer months in the oil fields near Odessa. The coach, who finished up duties for the 1950-51 term at Hico High School on Saturday, was in town later that day to settle up debts and obligations, one of which included payment in advance for a subscription to the local paper, which he declares he reads regularly and thoroughly. And we've never been able to disprove the claim.

Bertice Barnett Jr. was in the News Review office Monday to tell us that he guessed he'd better pay up his subscription for another year. Bertice, veteran of World War II with an unusual and interesting, though rather rigorous, war record, is now serving as a rural carrier out of the Hico post office, has established a family here and takes quite a lot of pride in his neat and slightly home on the Glen Rose Highway near the edge of town.

Mrs. Roy French has ordered a subscription to be sent to her "baby son," Pvt. Robert W. French, who is stationed at Fort Sill, Okla. for 14 weeks' military training. Dub seems to be liking the Army quite pretty well, so far, according to his mother's reports, and although local people miss him a great deal, they're hoping he becomes adjusted to the necessity of being away from home, and that he capitalizes on the opportunities offered by the military service. Maybe some day he'll come home as General French.

Performing a neighborly duty for his sister-in-law, Mrs. Ruth Roberts of Fort Worth, Raymond Lowe came by to order another year's subscription to be sent to her home there. "It would be bad if she missed it," he explained, as he took time off in order to be sure to remember the renewal.

Mrs. O. R. Meador, former resident who really came down from Kama, Texas, for something else too, declared upon renewing her subscription this week that she made a special trip for that purpose. She flattered the force by saying, in the presence of Mrs. Nettie Meador, whom she's visiting.

THE MAGNETIC NAIL PICKER of the Texas Highway Department arrived Thursday in Hico, where the crew ate lunch before continuing work sweeping the highways and road shoulders in this area of metal objects. P. S. Bailey, State Highway Maintenance Engineer (above), points out to John Nations, Director of the Equipment Division, the screws, nails, spikes, and other metal objects collected on a short run. Joe Webb of San Angelo is the driver.

ELECTRIC MAGNETS AT THE REAR of the nail picker collect loose metal objects. The magnets are activated by a large generator in the head of the truck and are strong enough to pick up nailhole covers. Gathered in pile of scrap metal are 2000 potential punctures.

## "HOME TOWNERS" ARE STARTING TO GATHER

This week end marks an annual occasion for reunion of former hometown residents and members of prominent pioneer families of Hico. These folks have already begun gathering here today (Friday) for opening events on the program planned for the organized group, known as the Home Town Club, and activities are to continue through Saturday at the Bluebonnet Country Club.

The general public has been issued an invitation to an open house Saturday at the Bluebonnet Country Club, where the home-towners will have headquarters these two days. Open house is between 3:00 and 5:00 p. m. for those interested in meeting the club members.

Arrangements committee, composed of Mrs. Harry Gleason of Hico and W. F. Hooker of Stephenville, reported the first of the week that plans were going ahead, and that they are expecting a big crowd.

Visitors will register Friday morning, and will be served a buffet luncheon at noon. The program is scheduled to close Saturday night with a dinner for the club members.

Members of the club began to come back as a group four years ago, when eight of the 12 members of the first graduating class (1898) from Hico High School were represented at the ceremonies.

Last year the ladies and gentlemen, who have retained their interest in the local community, and who have continued to increase in number from year to year, organized as a club and gave it the present name, Alsey Alford of Loving, N. M., was elected corresponding secretary of the organization, in view of his efforts in bringing about the first class reunion, and his cooperation displayed since that time.

Chamber of Commerce Names Recipients of Agricultural Awards

The annual award offered a deserving student of vocational agriculture in Hico High School was presented by the Chamber of Commerce Friday night at commencement exercises. Winners of this check, who tied for first place, were Bruce Slaughter, son of Mr. and Mrs. J. E. Slaughter, and Angus Churchill, son of Mr. and Mrs. W. R. Churchill, Hico Route 2. The boys shared the \$75.00 on the basis of their merits displayed in classwork and agricultural activities.

Truman E. Roberts, president of the Chamber of Commerce, made the presentation.

The regular monthly meeting of the local organization was held Tuesday night of this week in Firemen's Hall. Roberts presided over the business session, during which members voted to resume their custom of serving meals at each meeting. Other business included appointment of W. H. Greenstedt to work on the project of putting up signs on the edge of the city limits, to publicize Hico and the Chamber of Commerce.

Imperial Quartet in Concert Tonight at School Auditorium

An evening of unusual entertainment for people of this vicinity will be offered tonight (Friday) when the famous Imperial Quartet, accompanied by their pianist, Marion Snider, will present a concert in Hico High School auditorium, beginning at 8 o'clock.

These spiritual singers can be heard each week day from 11:45 a. m. until 12:00 noon over Radio Station WFAA. They are being brought here in person by the Hico Lions Club.

Speaking for the Club, Morgan Moon said he hopes everyone will take advantage of this opportunity to hear some good singing. Proceeds will be handled by the local organization. A further statement from the committee representing the Lions is to be found in an advertisement in this issue.

HICO GRADUATES' GUESTS

Leroy Barbee and daughter, Miss Barbara Barbee, of San Antonio, visited in Hico Friday and Saturday and were honored guests of the senior class at commencement exercises at Hico High School Friday night. Mr. Barbee, who is a former student at Hico High School, was here in January and presented this year's class with a painting of his own work, and a special part on the graduation program included presentation of this painting to the school.

Acceptance was made by Supt. J. E. Lincoln, as Roline Chaney, president of the senior class, handed over the picture, and invited guests to inspect it after the ceremonies.

Believe It or Not, Jake Blair Tells

## Interesting Story of WFAA Southern Neighbors Tour

Casual acquaintance with S. E. Blair Sr. of Hico often leads strangers—sometimes even those who have known him always—to form the opinion that he is taciturn. His reticence, however, belies his real nature, which is genial and observant.

Cooperating upon request of the News Review staff, he gives the following account of the tour through nine states and Cuba which ended last week.

"AS I SAW IT"

On May 9th left Dallas at 5:00 p. m. via Sam Houston Zephyr. Arrived in Houston 9:35 p. m., where we boarded our special all-Pullman train for New Orleans. Special train arrived in New Orleans 8:00 a. m. Breakfast in the lavishly decorated Swan Room of the colorful Monteleone Hotel in New Orleans' celebrated French quarter.

A 2½-hour sightseeing trip touching many of the most interesting and historic spots of this old and fascinating city, including French-Spanish Creole quarters.

New Orleans' Ocean Port Seen.

A two-hour boat trip on the Mississippi River. Here we saw the international trans-ocean traffic which puts New Orleans' port in the billion dollar class. The harbor has 10 miles of docks for the handling of bananas, coffee, grain and cotton, along with hundreds of other varieties of cargo. Dinner at Arnaud's famous New Orleans restaurant.

Special train left for Montgomery, Ala., 11:00 p. m. Arrived in Montgomery 7:45 a. m. Breakfast at Whitley Hotel under sponsorship of Montgomery Chamber of Commerce. At 8:45 special buses left on short tour of the city. Local citizens served as guides and pointed out the interesting highlights including the State Capitol, first White House of the Confederacy—then into the farming area south of the city.

Experiment Station in Alabama.

Highlight of the day was visit to Black Belt Sub-Station near Marion Junction. This is an experiment station of the Alabama Polytechnic Institute and was under the direction of Mr. K. G. Baker, a native Texan, who has achieved international recognition for the work he has done in the production of legumes and grasses and for the marketing of these crops through beef production. At noontime a barbecue luncheon was served at the experiment station.

The afternoon tour included a trip through the center of the crimson clover region. Combines were running here.

Georgia's "Wonder of the World."

May 11th, at 6 p. m., dinner at Whitley Hotel. Left for Atlanta 11:50 p. m. Arrived there 7:00 a. m., May 12th. First thing in the morning we went to the great Cyclorama, which graphically tells the story of the Battle of Atlanta. This is labeled as one of the "Wonders of the World." Its principal feature is a painting 400 ft. long which is claimed to be the largest painting in the world. For the men a special feature was a visit to the Georgia State Experimental Farm at Griffin, and here the director is a former Texan, Dr. F. F. Cowart. The experiment station contains 1,500 acres of land and it brings grasses from all over the world for testing in Georgia.

At 11:00 p. m. special train left Griffin—arrived at Tampa, Fla., 7:00 a. m., May 13th. Breakfast at Morrison's. Buses left at 9:00 a. m. for tour of Tampa lakeland, stopping at the great phosphate producing region where we witnessed the operation of the "Bigger Digger," claimed to be the largest drag-line in the world. It has a 200-ft. boom and its 2½ cubic yard shovel can fill a railroad car with only two scoops. Perhaps the most unusual feature is that the drag-line has feet and uses them for walking. We visited the famous Cypress Gardens and saw the world-famous water ski show. This exhibition was staged by world champion water skiers. It is familiar to millions because it is a favorite subject for magazine and newsreel photographers. Our luncheon was served in Cypress Gardens.

Pangola Grass Seen in Florida.

The afternoon tour included a visit to the farm of Eugene Griffin near Bartow, to inspect his pangola grass. This little-known grass has recently become of great interest to Texas cattlemen. Dinner was at the Spanish restaurant, Las Novedades, in Ybor City, the Cuban section of Tampa.

Special train left for Miami at 11:30 p. m. Arrived 7:00 a. m. in Miami, May 14th. Breakfast was served at Miamian restaurant. Boarded buses at 9:00 a. m. for Miami Beach for sightseeing cruise. The trip was made in cabin cruisers. The route included Lake Pan Coast, Indian Creek and Paradise Bay, where we saw some of the most beautiful homes, hotels

and scenic spots that earn Miami Beach the title of "Magic City." Viewed Northern Islands, Gorce Island, where motion picture scenes are made; also Biscayne Bay for a view of the palatial homes and a splendid view of Miami's skyline. Luncheon was at the famous Pickin' Chicken restaurant. Afternoon free in Miami.

Same day, 6:00 p. m., boarded S. S. Florida for overnight trip to Havana, Cuba, leaving from Municipal Pier No. 2 in the heart of Miami. Dinner on board ship, but no dancing. May 15th, 8:00 a. m. the S. S. Florida docked at Havana. Breakfast aboard ship before landing. The party was met by a large fleet of automobiles (the use of buses for sightseeing in Cuba is forbidden by law). A tour of the city was made and a visit to the old and new sections with stops at the most historical landmarks and public buildings in Havana. These included Cuba's magnificent capitol building; Our Lady of Mercy Church, built in 1750; Old Palace built in 1774, now the city hall; the Cathedral, built in 1704—popularly known as Columbus Cathedral; and the well-known Corona Cabanas cigar factory. Luncheon was served at Aljibe Farm, one of the most complete farms in Cuba. Special features of entertainment were cock-fights and natives climbing the pole-like trunk of the Royal Palm.

"Not Right Well" Aboard Ship.

At 6:00 p. m. the S. S. Florida left Havana docks for return trip to Miami. Dinner on board ship. At this point some 75 or 80 of our group got seasick and I was not right well myself. The ship crew said this was the roughest sea they had ever witnessed. At 8:30 a. m., May 16th, the S. S. Florida docked at Miami. Breakfast on board ship. This point of special interest on this tour of Miami included Coral Gables, Coconut Grove, Orange Bowl Stadium, University of Miami, and Bay Front Park.

Leaving for St. Augustine by train at 11:59 p. m., arrived there at 7:00 a. m., May 17th. This is the oldest city in the U. S., having been founded in September, 1565. Tour of city was made in horse-drawn carriages. Breakfast at Chimes Restaurant. Luncheon at Neptune Restaurant. At 1:30 p. m. began bus trip to alligator farm and Marine Land Studio. Saw feeding at this studio at 4:00 p. m. Dinner at Bennett Hotel at 6:00 p. m.

Large Textile Industry Noted.

At 11:30 p. m. train left for Spartanburg, South Carolina. Arrived there 7:00 a. m., May 18th. Breakfast at Elite Restaurant. Left at 9:00 a. m. for visit to various textile mills. Spartanburg is the center of the world's cotton textile industry. It is said that over 40 per cent of the nation's cotton spindles are within 100 miles of Spartanburg, and that Spartanburg county consumes more bales of cotton and produces more yards of cloth than any other county in the nation.

Lunch at Franklin Hotel. Here we had a real Southern meal—Virginia baked ham, Blue Ridge yams, garden string beans, green salad bowl and strawberry shortcake. Visited Dairy Farm, Beef Farm and Peach Orchards. It is said that Spartanburg County has three million peach trees and it also claims to be the peach capitol of the world, that this county produces more peaches than the entire state of Georgia. Dinner at the Elite Restaurant at 6:30 p. m. That evening we were guests of Spartanburg Peach Hill Club at a night game.

Delayed in North Carolina.

May 19th, 4:00 a. m., special train left for Asheville, North Carolina. This early departure was scheduled so we could enjoy the scenery through the Saluda and Blue Ridge Mountains. This is where the train stalled for an hour and a half. Breakfast at the George Vanderbilt Hotel in Asheville at 8:00 a. m. Special buses left for trip to Biltmore mansion and farms. The Biltmore House, called the finest in America, was built by the late George W. Vanderbilt between 1890 and 1895 at a cost in excess of thirty million dollars at that time. It is filled with costly treasures from all over the world. A mile away is the famous Biltmore Dairy Farm, home of what will be the world's finest herd of Jersey cattle. Buses arrived at Biltmore Industries at 11:30 a. m., where the well known Biltmore hand-woven homespun are made. The process began with the raw wool and ended with finished homespun. The weaving is done by hand on looms built by hand. Luncheon at 12:30 p. m. at Grove Park Inn, the most beautiful hotel in the Carolinas.

Train Leaves, But Jake Doesn't.

Special train left at 4:00 p. m. for Knoxville. This is where the

Just "Can't Get Over" Easy's Fence

Few years ago, Easy Roberts took a lot of kidding when he planted that hedge of Multiflora roses...

But today plenty of people who laughed at the idea slow down when they drive by Easy's place...

Practical, too! The hedge is a good four foot high now, and at least five foot thick...

cost less than ordinary fencing. (Might be well worth your while looking into.)

From where I sit, there's no sense in looking down on something just because it's different from what we like...

I Have Been In Hico 5 Years, and Kinda Like It So Have Decided to Locate Here

MY WIFE SOOK (My wife used to be Sook Leeth) SAID SHE THOUGHT IF I WANTED TO STAY HERE I OUGHT TO TRY TO MAKE HER AND THE KIDS A LIVING. AFTER STUDYING THAT OVER I DECIDED THAT THE REASON I COULDN'T SELL SOME OF THE THINGS I HAD WAS BECAUSE IT WAS TOO DADGUM HIGH-PRICED!

SO HERE GOES — I AM GONNA MARK IT DOWN AND SEE IF I CAN GET RID OF IT!

1 White Side Wall 6:70-16 Tire. May or may not be the best one in the world, but it is a Davis, brand new, with the best 24-month guarantee you can get.

1 Procter 1000-watt Automatic Iron. I got it at an auction sale up at the school house one night. Ollie Davis gave it to them to raise some money for something.

Now last January I went up to Dallas to a big Merchandise show and I guess I thought it was gonna be awful hot and dry down here this summer, cause I sure did buy a lot of thermos jugs.

Here a while back somebody told me you wouldn't be able to buy any zinc buckets in another month. So I rushed up and bought a big batch. He must have told somebody else, too, because they sold good for a while and then, that's all, brother.

1 32-piece set Hand Painted Dishes. They are plum purty and a lot of them. I will take \$10.00 for the batch. If you haven't got \$10, we will work out weekly payments.

Ice Cream Freezers have been too high too long. Eskimo 1 gallon or 8 quart—take your choice. \$7.95 still sounds too high but that's \$2.50 less than I have been getting for them and as cheap as I am gonna sell them if I have to make ice cream in them and peddle it on the street corner.

FOLKS, I CAN'T TELL YOU ABOUT ALL THE THINGS I WANT TO — IT COSTS TOO MUCH TO HAVE THESE THINGS PRINTED. BUT IF YOU WANT TO COME IN AND SHOP AROUND, I WILL HAVE A BUNCH OF OTHER JUNK PRICED DOWN AND BEFORE I GET THROUGH I MAY FIND SOMETHING I WANT TO GIVE AWAY.

Hydraulic Jacks, 1 1/2 ton. National known brand Dreamaught. Lift 6 in. but has got a gadget on top you can screw up to fit the axle before you start. These things got up to \$11.50 before the OPS told us to roll 'em back to \$9.45. They made me mad so I am going to sell them for \$7.95 while they last—I reckon that'll show 'em what I think of their old cello.

You wouldn't think so but I handle a lot of auto parts and accessories. I ain't gonna cut the price on them cause I don't need them cut, they are cheap enough anyway. Even or under a buck of this stuff that comes in here by U. S. mule. Bicycle parts too.

1 Automatic Toaster. New and works good. Throw the bread at you when it gets toasted. Sold good before Xmas for \$18.95—been trying to sell it for \$16.95 ever since. Take \$12.00 for it and buy something I can sell.

I have some 4 qt. pressure cookers in club aluminum and if you don't know what club aluminum products are, ask your neighbor. It is the best that can be bought. I am not going to take off a penny on them, either. They are hard to get, and worth the money at \$12.95.

I want to tell you about a pair of bed room table lamps I have with blue plastic shades, but I guess I better not because I only have one pair left out of the 2 doz. I bought. Sold them for \$8.50 a pair. Nobody liked blue so I have this set left and would take \$6.50 for them, I think. P. S.: Got some of them kind you plant tomatoes in the bottom of, too.

**Of course, it's Electric**

Compare the dollars you spend for food with the pennies you spend for electric refrigeration, and you'll agree that your dependable electric refrigerator is mighty low-cost insurance against costly food spoilage.

Is your present refrigerator large enough for your family's needs? Does it incorporate all the latest convenience features? Does it give you all the ice cubes and frozen food storage space you want?

If not, see the new 1951 electric refrigerators at your appliance dealer's or our office. They're bigger, more beautiful, more efficient than ever—and, being electric, they give you low operating cost plus ample reserve power for the hottest summer days.

**"OLE SARGE"**

(On Memorial Day, May 30, Ole Sarge saluted the ones who paid the supreme sacrifice, with the following thoughts)

**REMEMBER ME?**

I could be Willie, the kid who delivered the groceries to your house—or I could be Joe, the guy at the service station, who serviced your car before the War—I could be Jack, the young fellow who had just started to work in the bank when the little brown men raised Hell on innocent Pearl Harbor that day in December.

Perhaps I was in the Infantry—and got mine at Normandy or Bloody Okinawa—maybe I was in the Marines—killed by deadly mortar fire on Iwo Jima—or Tarawa—maybe I fell the victim of famine and starvation in a prisoner-of-war camp—I could have been shot down that day after I accounted for two Japanese vessels—and went down in flames. Perhaps I manned a deck gun that day when we were struck by a "tin fish"—or a Kamikazi—and went down with my ship. Maybe I was destroyed in the African Desert by Rommel's artillery—could be that it happened to me at Salerno—I might have been in the Coast Guard—or perhaps the "Unsung Merchant Marine" or Seabees—I might have been killed at the Inje Reservoir in Korea—regardless of my status then—I was a guy in uniform—your representative to preserve Democracy and win a war against enemy aggression.

You remember me now—sure you do—you put a rifle in my hand "go destroy"—"win"—"save our land"—you shouted "Hip! Hooray!"—but look at me today—you and I live in a land of no return—never can I come back—never will I return to those I hold most dear—never can I mingle with my old pals. As for myself, I can only say that I am not sorry this happened to me, for in my heart I know that I carried on the tradition taught me since childhood about my forefathers at Bunker Hill, the Alamo, and the Argonne—within me is the self-satisfaction that I did not break the chain of Democracy handed me.

But I do wish to ask you, "Have you forgotten me?"—What are you doing to preserve the peace for which I died?

Ask yourself this question now—and please—whatever you do—never allow Communism to grow as fast as Democracy—if so, we can not sleep!

See you in the papers, SARGE.

### Fairy

By  
Mrs. Eunice Massengale

We have been having warmer  
weather for the past few days.

Our school closed last Friday  
with a barbecue and basket lunch.  
A program was rendered by pri-  
mary pupils in the forenoon, with  
ball games and tennis matches in  
the afternoon. Since we had re-  
ceived about one-half inch of rain  
on Thursday night, many more  
people than expected were able to  
attend since farm work was re-  
tarded. A large crowd was present  
and there was a bountiful supply  
of food for all. We are sorry  
we didn't know of the program  
scheduled in time to include it in  
last week's news, but from the  
number present it must have been  
pretty well advertised. Those from  
out of our community whose names  
we secured were Mr. and Mrs.  
Weldon Parks and her sister, Mrs.  
Truitt Turner, and two little sons,  
and Mrs. Lee Cates of Fort Worth;  
Mrs. Maude Driver of Slaton, and  
Mr. and Mrs. D. E. Allison of  
Dublin.

Friends and acquaintances of  
Mrs. Maggie Hackett of La Grange  
will be sorry to learn of her un-  
timely death, which occurred on  
Friday of last week when she suf-  
fered a heart attack. She survived  
only two minutes after being  
stricken. Funeral services were  
held at Jacksonville, Texas, on  
Sunday afternoon. Mrs. Hackett  
was residing in this community and  
attended Fairy School. She was  
the daughter of the late Mr. and  
Mrs. J. D. Crow of Fairy. She was  
about 65 years of age. The Hack-  
etts formerly resided at Jackson-  
ville, where they still owned a  
farm, and their children still re-  
side there. Her husband, Mr. Jim  
Hackett, is a semi-invalid, having  
suffered two paralytic strokes and  
other serious ailments. Mrs. Hack-  
ett had been nursing in a La  
Grange hospital for the past four  
years. We extend sympathy to  
all those bereaved in her passing.

Mr. M. E. Parks suffered a heart  
attack at his store Wednesday of  
last week, and is now a patient in  
the Hico Hospital. His daughter,  
Miss Ovie, who has been a patient  
there for the past ten days, was  
expected to return home the first  
of the week. Our last report from  
their bedside was that both were  
improved. They are greatly  
missed from the store and we sin-  
cerely hope they will soon be able  
to return home. Later report is  
that Miss Ovie Parks, who has  
been ill in the Hico Hospital, was  
removed this week to a hospital  
in Temple for further treatment.  
Well, it seems that cattle theft

is still evident over the county.  
Another yearling was taken from  
the pasture of Mrs. Emma Ogle on  
Thursday night a week ago. Mrs.  
Ogle also lost one in February, and  
another has been reported stolen.  
When the first of Mrs. Ogle's year-  
lings disappeared it was at first  
thought the calf had strayed to  
some other nearby pasture. Some  
of the cattlemen are making prepa-  
rations to have their cattle brand-  
ed, which is a wise procedure.

Mrs. W. E. Goynne and daugh-  
ters, Malinda Lou and Wilma  
Grace, returned home last week  
end following the closing of the  
Purves school, where Mrs. Goynne  
was a member of the faculty.

Mrs. Maude Whitson has gone  
to Dallas for an extended visit in  
the home of her niece, Mr. and  
Mrs. Monroe Henderson, and fam-  
ily, and her son, Mr. and Mrs.  
R. F. Whitson, and family who  
visited here during the week end.

Mrs. Maude Driver of Slaton is  
visiting at this writing in the home  
of her brothers, Mr. and Mrs. Em-  
mett Anderson, Mr. and Mrs. Grady  
Anderson and Virginia, and her  
sister and family, Mr. and Mrs.  
Byrd Slater and Virginia.

Mr. and Mrs. Byrd Slater and  
Virginia are enjoying a visit from  
their son and brother, Mr. Thomas  
Slater, and his new bride, Thomas,  
who is attending college at Waco,  
was married recently to Miss Mel-  
ba Smith of Tyler. We wish for  
them much success and happiness  
throughout life.

Mrs. Lee Cates of Fort Worth is  
visiting in the home of Mr. and  
Mrs. Leonard Wood. Mrs. Cates'  
only daughter married an only son  
of the Woods'. The couple, who  
have two young sons, are living in  
New York and only get to visit the  
parents and grandparents about  
once a year.

Mr. and Mrs. H. C. Beck of  
Fairy and her brother and wife,  
Mr. and Mrs. Howeth of Glen Rose,  
spent Sunday at San Antonio and  
visited their son and nephew, Chas.  
Beck, who is stationed there. He  
expects to be transferred to Cal-  
ifornia soon.

Mrs. Emma Lackey left early  
Sunday morning for Corpus Chris-  
ti for a visit in the home of her  
daughter, Mr. and Mrs. Hardy  
Walker and David. She accom-  
panied Mr. and Mrs. W. M. Hors-  
ley and son, Vern, of Hico, who  
are spending several days' vacation  
on the beach there. David is re-  
covering from a broken leg which  
he suffered recently.

Mr. and Mrs. Fulton have the  
sympathy of the community in  
the death of her mother, Mrs.  
Jim Cole of Providence commu-  
nity. She had been a patient at the  
Massingill home in Hamilton for  
several years. Funeral services  
were held from the Riley Funeral  
Home in Hamilton on Monday af-  
ternoon. Mrs. Fulton's father has  
also been a patient at the home.

We are very glad to report Billie  
D. Massingill able to be at home  
again after spending some time in  
the Hamilton Hospital.

Mr. and Mrs. Milford Miller and  
little son of Fort Worth were  
visiting here for the past several  
days to be with her father and  
sister, M. E. Parks and daughter,  
Miss Ovie, who are ill.

Housewarming for Clarks.  
Mrs. Arnold Gleason, Mrs. A. W.  
Rachulig, Mrs. O. H. Brummett, and  
Mrs. Roy Blakley were joint hos-  
esses to an open house party Mon-  
day night, honoring Mr. and Mrs.  
Audie Clark and family at their  
new home.

Guests were received by Mrs.  
Coyt Clark. After each one regis-  
tered, he was served refreshments  
by the hostesses. The rock-vener  
home consists of four bedrooms,  
living room and dinette, kitchen,  
bath and garage.

About 80 guests attended the  
open house. The family received  
many nice and useful presents.

AUTHOR OF "HOW TO STOP WORRYING AND START LIVING"

### Three Rules for Well-Being

A YEAR AGO Edith Sunde, 628 West 114th Street, New York City, was on the verge of a breakdown. She would go to her work every morning feeling that a crushing weight was settling down on her. She didn't see how she was going to handle all the work before her, some of it left over from the day before. She dreaded the nerve-racking sessions with her high-strung boss who worked always under tension. At the end of the day, she had no appetite, and only forced down the food necessary to keep her going. All the day long, every day, from morning to night, she was tired. When she tried to sleep, it was only half a sleep, the other half was a nightmare.

Carnegie

Did this mental state take its toll? Naturally! That was inevitable. Soon her physical self became undermined. She suffered violent pains in her stomach. She went to a doctor who discovered a thyroid deficiency and said her pulse rate was far too high. Then he told her what she already knew, that she was living under too great strain. He added that he could relieve her symptoms but that she herself would have to effect the cure.

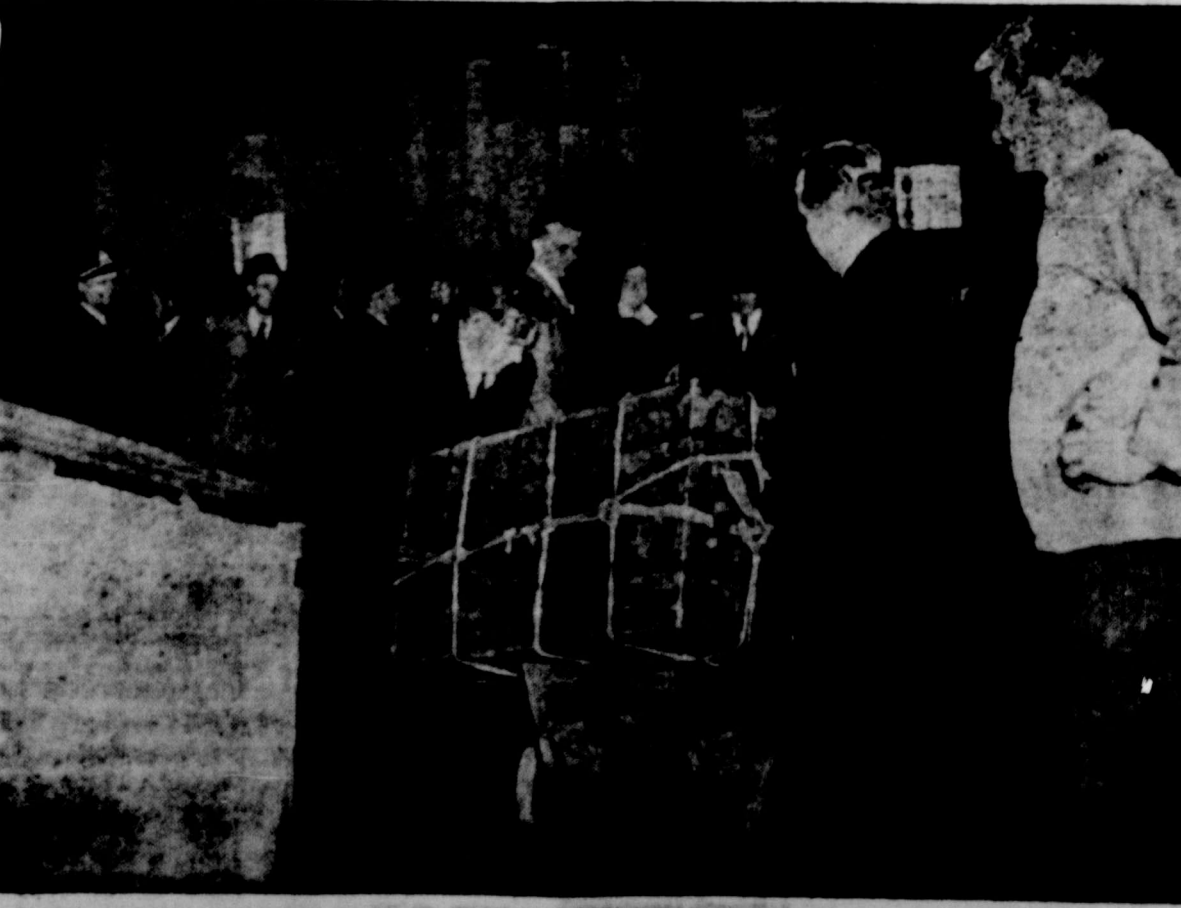

As she left the doctor's office, she asked herself if it were worth while? She was living 1500 miles from home. Human values meant most to her yet there was no opportunity to give anything significant to anyone's life. If she were run over no one would miss her particularly. A gnawing sense of futility suffused her entire being.

Suddenly she wondered whether the people all around her felt the same. What would happen if each of them became swift and miraculously happy. Each helping the other!

Well, she might find someone she could help. She went home and wrote a set of rules to follow for just one week, to see if they would work. Here they are:

- 1—Try to learn another's problems and help to solve them.
- 2—Do the job at hand and forget all the others.
- 3—Laugh often, and laugh at myself. See the funny side of troubles whenever possible.

Within a month the doctor told her she needn't take any more thyroid tablets! Shortly after she went on a vacation to the mountains west of New York, she found that she was

## Water Follies Has Variety

An artist's impression of some of the sparkling acts in Water Follies of 1951, to be presented in the State Fair Ice Arena at Dallas, June 1-10, indicates the variety of the big colorful stage and pool show. At left the Massive Twins, world's greatest hand-balancers, demonstrate the effects of muscle over matter. Martha Ann Bentley, beautiful and talented young ballerina, cavorts in the center. At upper right, the inimitable Eddie Rose, one of the funniest water comedians on earth, hangs from a diving board. At lower right, one of the gorgeous Vinson Twins, swimming champions without peer, relaxes between some fancy doin's in the water. These are just a few of the sensational acts in the show, coming to Dallas for its first appearance in the Southwest.

FASHION FLASH . . . Arlene Dahl wears this suit of gold and black wool in her newest picture.

**TO THE PEOPLE OF HICO:**

It is with regret and a feeling of sorrow that we announce our retirement from the teaching profession. It has been a great life and a wonderful experience. We are proud of the fact that we have been associated with one of the best classes of people in the world—The Teachers of Texas.

People have always been good to us wherever we have worked, but this has been especially true here at Hico. We feel sure that we could not have found a better place to end our teaching career.

May we take this opportunity to express our appreciation to School Board, Teachers, Parents, and Pupils for the wonderful considerations shown us while here. It will be one of the pleasant things stored away in our memory for the years to come.

Although we are retiring to our little ranch, we shall continue to think of Hico as home and the people of Hico as our friends. Come to see us.

Best Wishes to you all.

## "I REMEMBER" BY THE OLDTIMERS

From E. E. Meredith, Fairmont, W. Va.: Do you remember when mantels were artistically draped with fancy diaphanous strips of material called "lambrequins?"

From Bessie Williams, Decatur, Ill.: I remember my mother cleaning house on Saturday by moving all the furniture out on the porch while she gave the front room a good sweeping by putting wet papers on the floor.

From Mrs. Ida Combs, Gilboa, Ohio: I remember when we didn't have electric lights. My dad would go to the woods and get pine and he would make us children hold the pine lights for him to do things. And the tar would run down on our hands and burn us. I was married in 1900 and never saw an orange until after my first child was born.

From Mrs. W. E. Miesner, Overland Park, Kans.: I remember when we went to school in a one-room white frame schoolhouse with outdoor rest rooms and wood and coal shed, with a big old heating stove at the back of the room, and when there was any night entertainments at the schoolhouse, there were coal oil lamps hanging from the walls for lighting the room, and for the curtains on the "stage" there was a wire stretched across the front end of the room, with sheets pinned to the wire with big safety pins so that they would slide back and forth on the wire to open or close the curtains.

From Emma Funk, Munster, Ind.: I remember when we would save the combings of our hair and made pictures of flowers framed and watch chains, also real hair for dolls. Wonder why we don't save and sell combings now?

(Mail your memories to The Old Timers, Box 340, Frankfort, Ky.)

## "Let's Talk Live Stock"

By TED GOULDY

Fort Worth, May 25.—The quota system as set up by the Office of Price Stabilization, is coming in for heavier criticism from the livestock industry as a result of the manner in which the quotas allowing packers, large and small, thumped the hog price into lower ground this week all around the market circle.

Announcement of the June quota on hogs being upped five percent may relieve the situation in the opinion of some, but since these increased quotas do not go into effect for another week there is considerable question in the trade being raised as to whether the quota system is flexible enough.

This week, the 12 major markets, including Fort Worth, reported 325,800 hogs marketed. This is about 16,500 less than a week ago, but the total was 40,000 more than in the same week a year ago. This increase of 12 to 13 percent approximately in the hogs coming to market compared with a year ago appears at first glance to make the five percent increase allowed look too small to keep prices from being further demoralized.

Hogs dropped around \$1 per hundred during the past week and heavy hogs and sows were still under heaviest pressure.

If movement to market continues to run as far ahead of last year in the coming weeks, then quota restrictions would have to be relaxed to prevent further loss to hog growers.

OPS maintains that quotas can be adjusted during each report period. The industry feels like this week would be a good time for the OPS to demonstrate their ability to move fast enough on quota changes to effectively prevent demoralized livestock prices.

Cattle and calves during the past week moved at generally fully steady to unevenly higher prices. Stocker trade at Fort Worth showed a strong to higher level of prices because rains in most sections of the territory enhanced pasture and stock water prospects.

Another reason for the higher prices was renewed inquiry from Northern buyers of stockers and feeders. Inquiries from Summer grazing areas, especially in the Colorado, Montana and Wyoming sections, are showing up.

Another factor in the stepped-up tempo has been the re-entry of speculators into the cattle and calf trade.

Speculators apparently have gotten over some of their jitters that followed the roll-back and to some degree apparently anticipate slackening of the control situation from Washington, or expect the black market to begin to function and provide an outlet for "over ceiling" livestock.

Packers at Fort Worth currently say that virtually none of the cattle and calves being bought at present prices are in compliance with ceiling prices.

The loss, when meat is sold at permissible ceilings, runs at \$2 to \$4 per hundred in most cases.

OPS personnel report they are unable to understand why slaughterers continue to take this loss. Slaughterers explain that they are handling the stock because they want to keep in touch with some of their customers.

There is always the possibility that some meat sales are being made at well over ceiling prices.

At Fort Worth an interesting bit of information came out this week. Average beef consumption, per capita, is around 69 pounds per year. When the roll-back program is completed, and if the ten cents per pound of meat were attained, the saving to each person would be 13 cents per week, or 52 cents per four-family unit per week.

Cattle growers say such a saving would help the housewives much with the family budget problems.

It has been pointed out that the program, however it works out, amounts to confiscation. On the face of it, it is taking money from cattle producers, handing it to consumers.

Of course, the enforcement program is going to cost the taxpayers a good part of the alleged savings.

At the moment, consumers and livestock producers are getting highly sensitive to the reports from Washington that income taxes may be hiked sharply.

It is getting more difficult all the time to find someone who is happy with the way things are working out. Now, isn't it?

Four All-Round Girls On Tarleton Campus Include Myrna Sparks

Miss Myrna Sparks, 1930 graduate of Hico High School, and daughter of Mr. and Mrs. James R. Sparks of Hico Route 6, was recently chosen as one of the four all-round girl students of Tarleton State College for the school year of 1934-35.

Miss Sparks, and three other girls and two boys were nominees for the Colonel Dyess scholarships, presented each year to a worthy girl and boy. The board of representatives consisting of teachers, college personnel and members of the student council, observed students throughout the nine months of college, judging them on grades, conduct on campus and class rooms, ability to get along with teachers and students, personality and personal appearance.

These six students, chosen from the college enrollment, were then interviewed by a final board of judges, composed of Dean Paul A. Cunyus, John E. Tompkins, dean of students, and Miss Helen Willard, dean of women. Final scholarship winners were Miss Mary Beth Garret and Harold Lewallen, both of Stephenville.

EARL W. HEATH

District Manager for Lone Star Gas Co. at Cleburne Is Changed

Earl W. Heath, a veteran employee of the Lone Star Gas Company with twenty-two years of service, has been appointed manager of the company's Cleburne district of distribution, according to F. L. Carmichael of Fort Worth, division general manager. He succeeds George A. Gott Jr., who has been placed in charge of the gas company's Waco district.

The new district manager comes to this territory from Gatesville, where he served as district manager since 1937. His latest assignment places him in charge of operations in Cleburne, his headquarters: Godley, Keene, Glen Rose, Granbury, Burleson, Joshua, Mansfield, Britton, Lillian, Meridian, Morgan, Walnut Springs, Hico, Iredell, Duffau and Fairly. Heath joined Lone Star on August 1, 1929, and for six years was assigned to inspecting, storekeeping and sales work. In 1935 he was appointed local manager at Hamilton and in 1937 was placed in charge of the Gatesville district. Born in Prosper, Texas, he attended school at Prosper, the McKinney high school and Metropolitan Business College at Dallas.

Active in church and civic affairs, Heath was county chairman of the Red Cross at Gatesville during World War II and director of the Gatesville USO. He has been director and secretary of the Lions Club, recently completed a six-year term as a member of the board of stewards of the Gatesville Methodist Church, and is past president of the Young Married Couples Class of the Methodist Sunday School.

Mrs. Heath is the former Erlene Winfield of Gatesville. The Heath youngster is Earl Heath Jr., age 13. In taking over his new assignment as district manager at Waco, George Gott leaves Cleburne with a background of community service. He has been secretary of the Rotary Club, on the board of directors of the Cleburne Rural Youth Training Program, on the board and chairman of the house committee for the Cleburne Country Club, and a member of the board of Deacons of the Anglin Street Presbyterian Church. He formerly served as a member of the Cleburne Chamber of Commerce board of directors, chairman of the Johnson County Chapter, American Red Cross, and chairman of the camping and activities committee for Johnson and Hill counties in Circle Ten Council, Boy Scouts of America. He is a Mason.

A native of Belton, Gott was employed by Lone Star Gas Company in 1927. He was appointed manager of the company's distribution property at Cameron in 1928 and given a similar assignment in Handley in 1933. He was named manager of the Arlington district in 1941 and placed in charge of the Cleburne district in 1947. Mrs. Gott is the former Dulcie Riddle of Bellville, Texas. Mr. and Mrs. Gott have two sons, Abbott Gott, with the Government Soil Conservation Program as technician at Lincoln, Nebraska, and George Andrew Gott, III, a graduate of Cleburne high school now employed by Lone Star at Grand Prairie.

Church of Christ To Teach Singing, Everyone Invited

Everyone in and around Hico is again reminded that there will be a singing school, June 11 through June 22, conducted from the Church of Christ building in Hico. "The school will be open for all who are interested in learning music," said Bro. Merle King, "and we want everyone to feel welcome."

Class will begin at 8 o'clock each evening. C. C. Helms of Stephenville is to be the instructor. There will be no charge for the school.

"We wish to urge the parents to come and bring their children," continued the minister.

"They will receive training in this school that would cost a great deal of money otherwise. Here is a wonderful opportunity. Don't pass it up." Those interested in attending can get the book which will be studied from Brother King.

WEDDING SHOWER FOR SLATER COUPLE WILL BE GIVEN TONIGHT AT FAIRY

Mmes. Maude Driver, Grady Anderson, Emmett Anderson and Crockett Slater will be hostesses for a wedding shower Friday evening, June 1, honoring Mr. and Mrs. B. T. Slater Jr. of Waco. The shower will be in the school gymnasium in the Fairy community, between 8:00 and 10:00 p. m.

Mrs. Slater, a junior student in Baylor University, is the former Melba Jean Smith, daughter of Mr. and Mrs. Ben L. Smith, Tyler. Mr. Slater, a senior in Baylor University, is the son of Mr. and Mrs. B. T. Slater Sr. of near Hico. All friends of the couple are invited to attend.

ing, that she reads every line in the paper. She was frank enough, though, to call our attention to a dereliction of the past which we regret. Our former swamper—her nephew, Buck Meador—used to forget news items about his kinfolks, or either too modestly pass them up. The present force has no false modesty. Meador, Meador, Meador. Holford, Holford, Holford. How's that? We just must please these kinfolks, Buck—you remember that while you're out at Pearl Harbor. And don't forget to come on back as soon as Uncle Samuel will let you—we're tired.

Mrs. Ada Williams of Carlton, telephone manager at that thriving center for the past couple of years, is on a deal with the News Review for an order of printing, believing that people out there should figure Hico as their second home and cooperate in any way possible. To further support her contention she has ordered a year's subscription, and has volunteered to turn in news items of interest from time to time when she comes across them. Thanks to Mrs. Williams and all those other people out Carlton way who have been so kind and considerate toward their neighbors in Hico.

In the customary fashion, Mrs. J. R. McMillan recently renewed a subscription for her daughter, Mrs. Roberta Forgy of Fort Worth. We woulda thought Roberta would be around to smell printers' ink and chat a while with us again before now, but guess she's too busy with her job in Cowtown.

One of our regular readers, Mrs. Izora Wilhite of Grand Prairie, wrote while visiting recently in Itasca, that she would like to enter a subscription to the News Review to be sent to her sister, Mrs. W. J. Hinson, Route 1, Meadow, Texas.

Miss Mary Belle Cox "can be real snappy" to us now, to use her own words while she was paying up her subscription a year and a month in advance. In town on other business Tuesday morning, she dropped in courteously to investigate about her subscription, and obligingly took care of it ahead of time to save time and trouble for everyone concerned.
