VOLUME XXVII. NO. 18.

PECOS, TEXAS, MONDAY, MAY 1, 1914.

\$1.00 PER YEAR.

## ARTESIA SHIPS CAR OF HOGS

O. M. Trotter, of the firm of Trotter & Coll, of Artesia, N. M., spent several hours in Pecos today, en route to Fort Worth with a carload of Duroc-Jersey hogs for market. He had eighty-four head, averaging in weight 225 pounds, and in age 11 months. The fact that people in the Pecos country are becoming directly interested in the hog industry, makes some of Mr. Trotter's experience of interest to them.

He states that he and his partner are running 200 head of hogs on ten acres of alfalfa, and that it would stand heavier pasturage than this. Mr. Trotter says that they will get two good cuttings of hay off the ten acres, besides what the hogs eat. This is due to the fact that the hogs have been running on the land for the last year. He has kept them on a grain ration at all times, varying from a very small quantity during growing season, to generous feeds when topping off. He believes that this has been worth \$20 an acre to the land in fertilizer, saying that the alfalfa is coming so fast this year that the 200 head of hogs cannot keep it down. He has the field cut into three lots. He never takes the hogs off the green feed when topping them off, but has been feeding Iowa corn at \$1.54 a hundred to put fat on them.

Mr. Trotter says the Durocs are the best rangers that he has found. He has been in the hog business all of his life, having come to the Pecos valley from Indiana, and for the last four years has been at Artesia. The Poland China, he thinks, is a "classier" hog, and a better one for show and pen purposes, but he has not found them to be as good grazers as his Durocs. After the four years of successful work in this line, he believes this raising, he having accomplished his results on ten acres of leased alfalfa.

He left this afternoon on a through freight for Fort Worth. Mr. Trotter expects to be shipping a carload of hogs a month from Artesia, within six months, shipments to be made up of his own and neighbors' hogs. Asked about choice of grains for topping off, he said that he had found milo and kafir almost as satisfactory as the Iowa corn, and quite as good as Mexican June corn.

## OIL REPORTED BY AN EYE-WITNESS.

The editor of the Daily Times had a very pleasant interview this morning with a person whose reputation for truth and veracity is beyond question of doubt, stated that they saw with their own eyes the oil flowing from an oil well in the Toyah field and that it was not more than three weeks ago. Why doubt any longer?

## THE HOT DINNER A FINANCIAL SUCCESS.

The Methodist ladies' midday hot dinner and 6 o'clock supper was as expected, a financial success. This was assured when it became known what it was that had it in hand. Some people say that advertising doesn't pay, but advertising and reputation, when thrown together, never fails of success. The estimated net profit amounted to \$67 from the meals besides the estimated pleasure and happiness that each individual enjoyed could not be computed.

## THE HILES CASE.

District Court convened promptly at 9 o'clock this morning and the taking of testimony was continued.

The defendant, W. J. Hiles, was the first witness on the stand. Both the state and defendant's attorneys announced at 10 o'clock that they were through the examination in chief. There will be no more testimony only for rebuttal.

The attorneys representing the state in this case are Will P. Brady, state's attorney, assisted by James F. Ross of Pecos, and Victor Moore of El Paso, and the defense is represented by J. W. Parker and Hefner & Cooke.

The battle between the legal profession will be strong, as this is one of the most important cases to be tried in this court.

## BUYS COMPLETE HOUSE-KEEPING OUTFIT HERE

W. A. Collins, manager of the furniture department of the Pecos Mercantile Company, is feeling good over a sale made today. It included everything needed in a complete housekeeping outfit, and was made to Prof. G. C. Jones of this city. Prof. Jones decided not long since to go into business with his brothers in Rogers, Texas, and will resign his position in the Pecos schools.

Having made this decision, he and Mrs. Jones made up their minds that they would go to housekeeping as soon as they reached Rogers. With this end in view Prof. Jones made his purchases, and Mr. Collins states that he has seldom sold so complete an outfit at one time. This sale is a compliment to the quality and the price of the goods handled by this big store. Prof. Jones stated that he did not believe a better assortment of furniture could be found in any of the stores of Central Texas, and is well pleased with his purchases.

## W. T. R. A. MEETING CALLED OFF

The meeting of the West Texas Reclamation Association scheduled to be held in Pecos tomorrow (Saturday) night, May 2, has been postponed, owing to the fact that a letter from Director Newell, of the reclamation service, received this morning, indicated that he could not possibly reach Pecos before May 6 or 7.

Later advices will fix definitely the date of his arrival here, and, as soon as they have been obtained, the announcement will be made of the time of holding the meeting. Mr. Newell stated that his delay had been caused by excessive rains and snows, and that he had no idea how long he would be delayed. He is greatly interested in his coming, and it is safe to say that a large and representative crowd from the whole of the Pecos valley will attend the meeting of the W. T. R. A. at which Mr. Newell will be the guest of honor.

## RECITAL

As the length of the program will not permit all of Miss Florence McCarter's pupils to take part in their annual commencement recital, which will be given Thursday evening, May 14, at the Baptist church, a part of the class will give a recital in the school auditorium, Tuesday afternoon, May 5, at 2:45 o'clock. All are cordially invited. The following program will be rendered:

Lady Bird (Loeb Evans)—Gladys Prunty.  
Teddy Bear Waltz (Connolly)—Louise Wadley.  
Garland of Roses (Kimball)—Eloise Watson.  
Dancing in the Moonlight (Sawyer)—Mary Hudgens.  
Quartet.  
The Fashion (Sawyer)—Ellen Green Sullivan.  
Oates and Beans and Barley Grow (Spaulding)—Modena Prunty.  
The Robin's Call (Freidman)—Irene Prewit.  
Pop Goes the Weasel (Spaulding)—Lucile Watson.  
The Tale of Hoffman (Tales of Hoffman by Bach)—Marguerite Glasscock.

## SOFT TRACK DELAYS TRAINS

The rain early in the evening yesterday north of Pecos made the Santa Fe track so soft from about a mile this side of Arno to about a mile above Dixieland that the E. W. McKenzie train of stock was hindered and are still trying to get by this place.

The train due here from the north at 12:30, mountain time, has not yet arrived, but is expected to get here late this afternoon.

## FIREMAN RESCUES CHILD.

Amarillo, April 29.—Si Perkins, fireman on a Rock Island passenger train, this afternoon saved a 2-year-old baby girl from instant death by rushing out to the pilot on his engine and snatching up the little one walking along the middle of the track, a few miles east of this city. The former parents saw the rescue and the father collapsed from the strain. There is talk here of asking for a Carnegie medal for Perkins.

## SUPERINTENDENT JONES RESIGNS

It is with regret that the resignation of Professor G. C. Jones, as Superintendent of the Pecos School is printed below. Professor Jones has been at the head of the local schools for the last three years, and there is no one who will contend that they have not been the three best years that the school has known.

As a disciplinarian he has been strong, yet has not ever "run it over" either pupil, teacher, parent, or trustee. Not long since, he was re-elected by the board for the 1914-15 session, and it was hoped by the people of the town that he would accept for the fourth year. Having decided to give up teaching, however, and to enter business life. It is to be hoped that the board will be able to find a man to succeed Professor Jones who will be as competent in every particular and as successful in his administration. The resignation follows:

Pecos, Texas, April 30, 1914. To Trustees and School Patrons of Pecos Public School:

A month or more ago I was unanimously re-elected Superintendent of Pecos Public School, but I told the board at the time of my election that I was sure my private business would demand my undivided attention from May 20, and it will. The trustees thought it would be best for the school, for me to accept and hold the place till the close or near the close of the present school term.

The trustees think they have suitable material from which to select a superintendent, therefore, I have selected this time and take this method of handing in my resignation.

The trustees have assured me that ninety-five per cent of the people of Pecos are well satisfied with the people of Pecos that the trustees have done everything in their power to induce me to remain another year. My Pecos work has been the most pleasant and profitable of my life. I love the big-hearted Pecos people, and I love the bright, manly boys and girls of the Pecos school; and it is with a feeling of sorrow and deep regret that I resign my position, to take effect May 17. I have rendered you the best service that I could render. I wish to say without qualification or reservation that whatever success Pecos school has attained is due to the combined cooperation from a wide-awake, progressive school board, an intelligent citizenship, and the best corps of teachers ever assembled in any school.

I wish I could find words that would adequately express my appreciation of the trustees, patrons, school children, and my loyal and co-operative teachers.

May you have better schools and more progressive years in the future than you have had, is my wish. I thank you. Respectfully,

G. C. JONES,  
Superintendent.

## SARAGOSA NEWS.

Miss Eva Stancliff went to Toyahvale last Friday for a few days' visit with Miss Mary Wilhite.

The ladies' home mission society of Balmorhea presented their play, "Maidens All Forlorn," here at the Methodist church last Friday night. The play was well rendered, a large crowd was in attendance and all present enjoyed the performance very much.

E. P. Stuckler, manager of the U ranch, shipped fourteen cars of cattle to Al Popham, White Deer, Texas, last Monday. Bob Lewis and S. M. McCollot were in charge of the shipment.

J. B. Tubb, formerly of this place, but now located at Grandfalls, shipped two cars of cattle to Monahans Monday.

Otto Hoefs went to Pecos Monday.

H. Crenshaw, C. L. Woods and George Grady went to Pecos Tuesday to attend court.

## ONE HUNDRED ACRES PLANTED IN CANTALOUPE

The cantaloupe growers have planted one hundred and twenty acres in cantaloupes and most all report a good stand and that the young plants are doing well.

## HAY GROWERS TO MEET HERE

The Hay Growers and Shippers of the Southwest are to meet in Pecos next Tuesday, May 5, for the purpose of organizing along lines that will be helpful to all; and to discuss the problems that face the producer and shipper in this great country. The meeting will probably be well attended by men from all over the Pecos and Rio Grande valleys, and should be instrumental in accomplishing great results.

The meeting has been called by the Toyah Valley Co-operative Society, of Balmorhea, Texas, Howard Russell, secretary. Mr. Russell has spent the greater part of his lifetime in the study of, and practical dealing with, the problems of marketing, and has been for a decade or more in the Pecos Valley of New Mexico, where his work is most highly thought of. He is therefore, the most competent man obtainable for the promotion of such an organization, and much is looked for from the meeting Tuesday.

Mr. Russell names three items to be taken up by the meeting that will be of especial importance to Pecos people. They are, (1), the prospect of placing the alfalfa mill in operation; (2), the opening of the Pecos gateway to the people of New Mexico; (3), making Pecos a common point for Texas shipments. In addition, the meeting will take up the discussion of the unreasonable demand for light bales of hay; co-operation in the fixing of sale prices to eliminate "throat-cutting" and the playing of one section of country against another; unjust rejections of alfalfa shipments to unscrupulous dealers; the development of new markets; and a number of other topics of importance. The meeting promises to be one of the most important of the year.

## POSTAL BESTS THE WESTERN UNION.

Albany, N. Y., April 29.—The court of appeals today affirmed an order of the appellate division, which in turn affirmed on order of the public service commission at Albany, commanding the Western Union Telegraph Company to cease charging the Postal Telegraph-Cable company an extra sum in addition to the regular telegraph tolls on telegrams taken in and transmitted part way by the Postal and then handed over en route to the Western Union for further transmission and delivery at exclusive Western Union points.

This litigation between the two companies has been going on for about four years. There were various hearings before the public service commission and the final decision of the commission was given in favor of the Postal company. Thereupon the Western Union took the matter into the appellate division of the supreme court, which affirmed the decision of the public service commission. The court of appeals now affirms all this and henceforth the Western Union will be allowed to charge only the full local tolls on messages taken in by the Postal company and directed to points reached by the Western Union and not reached by the Postal. C. C. Adams, vice president of the Postal company, commenting on the decision yesterday afternoon said that this decision insures keen competition in telegraphy to all points, small as well as large.

## UNIVERSITY REGENTS MEETING AT AUSTIN

Austin, April 29.—Future financial plans of the University of Texas may be determined at a meeting of the board of regents of the university in session here today. The governor recently refused to allow a deficiency of \$450,000 to be created by the board, but intimated that he would likely approve a deficiency of about \$300,000 when it was determined that this was absolutely needed and when the present appropriation is exhausted.

The board is also to consider the question of salaries for some of the faculty. Provision may also be made at this special meeting to put in operation the school of mines at El Paso as provided for by one of the last legislature.

## TO THE VOTERS OF REEVES COUNTY.

Having announced for the office of County Treasurer of Reeves County, I wish to assure the people that if elected to this office I shall guarantee satisfaction, believing I am fully qualified to do so.

For fifteen years I have conducted my own business with reasonable success. My knowledge of both literature and bookkeeping enables me to say I can efficiently conduct the work connected with this office. I have held three teacher's certificates and have taught four terms of school, giving entire satisfaction. I also hold a diploma of graduation. These remarks furnish sufficient testimony as to my qualifications and I merely mention them, not to be boastful, but that the public may not question my competency.

I do not wish to withhold the fact that I am a self-sustaining woman and shall greatly appreciate your support, and cheerfully solicit your votes. Very truly,  
Mrs. Mildred Middleton.

## NO SOCIABILITY RUN TO-DAY

After a deal of discussion among the automobile owners, it was decided this morning to call off the proposed May Day Sociability Run of the Pecos Valley Automobile Association. This decision was reached because of the condition of the roads as regards dust and ruts. It is hoped that, when conditions improve, the trip may be made, and that it may do much toward acquainting the Pecos people with the prettiest portion of Reeves county, as well as to cement still further the good feeling that binds

## TO CITIZENS OF THE GLOBE

The Pecos Fire Department will conduct a "Trip Around the World" next Tuesday night, May 5. The funds derived in this way will go to swell the entertainment fund for the Panhandle and West Texas Firemen's Association, which meets here September 1-4, during the Reeves County Fair.

Those who remember the famous "Dutch Lunch" given by the fire boys, will look forward to Tuesday night's event with some anticipation, for the department has a reputation in the entertainment line of giving their guests a little more than their money's worth. The start will be made promptly at 7 o'clock from the Commercial Club rooms (the United States). The first stop will be in Mexico, which will be on the lawn of G. B. Landrum; from here the party will be toured to China, on the lawn of F. W. Johnson; thence they will be conducted to Italy, on the lawn of H. B. Link; thence to Germany, on the Marcus Snyder lawn; following which the tourists will finish in Greenland—the lawn of W. D. Cowan.

A brass band will furnish music for the occasion, Prof. Carl Beck directing same, and everything will be "up to snuff" in every particular. Don't fail to go. Remember that automobiles will be provided for the trip, and that you'll be well treated at every station. There'll be plenty of fun, and a good feed at every stop.

## BIRTHDAY PARTY.

Yesterday afternoon little George Kiser, being 9 years old, entertained a crowd of his little friends at his home between 4:30 and 6:30 o'clock. Master George was the receiver of many nice presents. The afternoon was joyfully spent. A course of cream, cake, candy and soda water were served and they departed, thanking their host and wishing him many more such pleasant birthdays. Among those present were Florence Caldwell, Bettie, Willie, Jimmie Harrison, Tommie Anderson, Ilaf Simms, W. C. Charles and Francis Hudson, Claud and Nathan Bozeman, Son and Lucile Pruet, Jack and Namonia Pain, Edna and Margaret Benway, Loland Runnin, Buster Moran, Malvin Sutphin, Ruby Eggleston, Mrs. L. S. Stuckler, Mrs. E. P. Stuckler and Mrs. Raymond Bozeman.

## PEDIGREED PIGS REACH PECOS

Pecos went "hog-wild" this morning over hogs. The first shipment of those furnished to farmers in the Pecos country by the Fort Worth Stockyards company arrived here this morning on a through freight. Mr. C. C. French came in on No. 3 this morning.

The car was made up of forty-four head of registered stuff, and a prettier lot of hogs was never seen together in this country. Word soon got around among the stock fanciers of the town, and the car in which the hogs were shipped was soon the mecca of the curious. To say that people were pleased with the lot is putting it mildly. One glance at the pretty, sleek animals, and a broad smile usually broke over the face of the spectator. "Some hogs!" was the usual remark.

Fifteen head of bred gilts were partitioned off in one end of the car. They were for Sol Mayer, at Toyahvale, Mr. Mayer having paid \$750, or \$50 a round for them. Probably the most attractive of the lot were thirteen little fellows that had just been weaned. Twelve sows and a boar, they were, and once he had seen them, F. W. Johnson claimed them as his own, settling for them on a basis of \$12.50 apiece. The prize of the entire car, however, were three tried sows from the celebrated Armour Hillcrest farm, consigned to W. H. Browning, Jr. One of these is a great yellowish-red animal that last fall won ribbons in New Orleans and Shreveport, at the livestock shows held there.

In addition to these, there were fifteen bred gilts, all registered, that were distributed as follows: E. C. Canon, 2, at \$47.50; H. H. Johnson, 1, at \$35; John Brocat, 1, at \$25.

Mr. French states that the next car lot, which will be made up of unregistered, but pure blood gilts, will be along within the next two or three weeks. He is delighted with the prospect for hog-raising in this country, and states that the Fort Worth Stockyards Company is in earnest in its efforts to encourage the industry here. Their efforts in this behalf, thus far, have convinced all of their sincerity, and the farmers of the Pecos country have gone into the matter in earnest.

## ICE PLANT STARTED UP.

The Pecos ice plant is again running, after its winter's rest, and will soon turn out its "first crop" of the "crystal coolness."

## CATTLE SHIPPED.

E. W. McKenzie shipped out 14 cars of 2-year-old steers last night. They were from his ranch in Pecos county and were taken to his New Mexico ranch near Roswell.

## ADDITION TO RESIDENCE.

Rev. C. S. McCarver has had a new addition built onto the south side of his residence.

## RESCUE OF MINERS PROGRESSES SLOWLY

Eccles, W. Va., April 29.—Efforts to penetrate mine No. 5 of the New River Colliers Company, wrecked with mine No. 6 by an explosion yesterday, progressed slowly today. There was little chance of rescuing alive any of the 178 miners entombed in mine No. 5. Rescuers continued clearing debris from the ruined shaft and expected to know the fate of the men by tomorrow noon.

The shaft guides of mine No. 5, by which the cage is controlled, have been badly damaged and must be repaired before the cage can be lowered to the bottom.

Tonight the rescuers reached a point within sixty feet of the bottom.

Thousands visited the scene of the disaster today. Eight bodies of the men who died in the mine No. 6 were prepared for burial. All of the 67 men injured in mine No. 6 are expected to recover.

Gov. Hatcher is expected to visit the town, having Chief State Mine Inspector Paul Perry and 20 other officials with him. The rescue work is being hastened.

## SICK HEAD

A. L. Ingle, a well-known resident of Pecos, is suffering from a severe headache. He is unable to work and is being treated by a local physician. It is believed that the headache is due to a strain on his eyes.

# NEXT FAIR SEPT. 1, 2, 3, AND 4

At the meeting of the stockholders of the Reeves County Fair Association held at the Commercial Club Friday afternoon, it was decided to hold the 1914 fair, on the first four days of September. There were a number of reasons why the early date was fixed upon, one of the principal ones being that heretofore a great many of the best exhibits have been limited by the fact that the later date prevented farmers from showing a full variety of their products. Another determining factor in this matter, was that the Pecos Volunteer Fire Department will entertain the Panhandle and West Texas Firemen's Association in its annual convention, during the fair, and it was desired to make the date as early as possible on this account.

As a matter of form, after President T. B. Pruett had called the meeting to order, he asked for a vote as to whether the fair should be continued this year. A brief motion was put and carried unanimously and with enthusiasm that betokened the attitude of the stockholders. "We must have the Fair—no use of discussing that," was the general remark. Upon motion, the by-laws were then amended so that the board of directors

will include but seven men, instead of the former cumbersome board of thirteen.

A committee having been appointed to nominate a board of directors, after consideration reported the following six names to the association: F. W. Johnson, W. P. Brady, H. B. Link, B. T. Biggs, J. W. Moore, and W. H. Moore. A vote was taken, and the men proposed were unanimously elected as a board of directors. The first list returned by the committee contained the name of T. Y. Casey, but the latter urgently requested to be relieved of the honor, and Dr. W. H. Moore was substituted. The seventh man will later be selected by the directors elect, and the board will then elect officers and proceed with the work of the year.

A most hearty vote of thanks to the officers and retiring board, managing the 1913 fair, was put through with enthusiasm. General plans for the year's work were discussed, though this was limited by the time that could be utilized for this sort of work, and the spirit of the talk showed that the men who have been chosen to direct the work of the 1914 Reeves County Fair will be well supported. Much less money will have to be spent on general improvement this year, and with the present outlook, the coming fair should be the best ever held in the Southwest.

**THE FIRE DEVIL MADE ITS APPEARANCE.**

This morning at about 9:30 the exciting fire alarm was sounded, coming over the telephone, then the ringing of the fire bell.

Nearly all business suspended and business houses closed. The streets were a mass of moving humanity, some running afoot, some by automobiles, and every means of conveyance going in the direction of the fire, which was at the home of H. G. Pinkston.

The fire was soon extinguished. The Pecos volunteer fire company was prompt to respond to the call, and it is estimated that in less than five minutes time after the first alarm was given the fire company had two streams of water and two chemical engines at work.

The damage was light, because of the good work done by the fire boys. Damage to property will amount to about \$50, property fully insured.

Pecos has good cause to be proud

and delicious as mother used

year, but not dying, together with fully organized.

**LAND IS STILL SELLING.**

Jacob Hanson of Bosque county, was in Pecos today and informed the editor of the Daily Times that he had just closed a deal for a section of fine land and that he will prove to the people what can be done with this land.

**TOYAH OIL BUSINESS.**

The Toyah oil interest is looking up. We have been reliably informed that one oil well in the Toyah oil field has a nice flow of oil. And we have just as reliable information that there is no truth in the report that here is a flowing oil well in that field. Now what are you going to do about it? Two reports. One said that there is flowing oil and one said that there was no flowing oil.

**FOR COUNTY TREASURER.**

We are authorized to announce Mrs. Mildred Middleton as a candidate for the office of County Treasurer.

Mrs. Middleton is and has been a resident citizeness of the city of Pecos and Reeves county for fifteen years. She is well and favorably known as a lady and one that has to work for the support of her family.

She promises to give to the people a fuller and clear write-up of herself and reasons for asking you to give her your support.

**CATTLE SHIPMENTS.**

ent out g and le this aded at the Deer Popham anch. — E. Rochesn of sick y, caused debilitat- ach, when mberlain's and them ld and ef- s' time I rmer good all deal- (Adv.)

**MOTHERS' CLUB HAD A SPLENDID MEETING.**

The club met in regular session on April 17, Mrs. Charake, president, presiding.

The meeting was opened with the Lord's Prayer.

A song rendered by the first grade girls was greatly appreciated by all, and Mrs. Williams gave the mothers some fine suggestions which were enjoyed.

It was agreed that we change the day of meeting from the third Friday to second Friday in each month, as this date would be more convenient for the teachers.

It was decided we take money we had in the treasury buy one book case and fill it with books that would be suitable for the intermediate grades.

The club expressed a desire to observe Mothers' Day would be observed Pecos.

The club also extended a vote of thanks to Messrs. G. B. Lane, B. J. Strickland and Davis and Young for their kindness and generosity.

**HAD A CLOSE CALL FOR FIRE.**

Yesterday morning about 9:30, Mrs. J. T. Hubbs had gone out to hang up some clothes and in a few minutes returned to the house and found the blaze from her oil stove reaching to the ceiling. The fire had already burned all the paper off one side of the room. There was a tub of wet clothes in the room and with wonderful presence of mind she grabbed some of them and whipped out the fire. Had she instead stopped to raise an alarm the fire undoubtedly would have gotten beyond her control and possibly the whole house and contents destroyed, and other buildings in close proximity might have gone also. This occurred about the same time that the fire at H. G. Pinkston's residence was being put out.

**HAD GOOD ONION SETS.**

Here is a good one on a certain grocery store clerk in town. In answering a phone call this is the conversation that passed:

He—Yes, madam, this is grocery store.

She—Well, have you some nice oatmeal sets today?

He (not understanding)—No, I'm very sorry, but we have some very nice onion sets.

# Warning!

Nobody allowed on this earth except regularly certified smokers of STAG.

The best outdoor tobacco because it holds all its goodness in the open air.

The best indoor tobacco because of its fresh and delicious fragrance.

**Dodson's Liver Tone Takes the Place of Disagreeable Calomel and Its Often Dangerous After-Effects.**

You probably know that calomel is a poison, a form of mercury, very dangerous to a great many people and sometimes causing disagreeable after-effects for nearly everyone who tries it.

Dodson's Liver Tone is recommended as a perfectly safe and reliable remedy to take the place of calomel. This is exactly what it is made for and has been made for ever since the first bottle was put up and sold.

Dodson's Liver Tone is pretty widely imitated. But be careful to judge between the loud boasts of the imitators and the plain truth of the original.

Dodson's Liver Tone is sold and guaranteed by the Pecos Drug Co., who will refund purchase price (50c) instantly with a smile if you are in any way dissatisfied.

Dodson's Liver Tone is a palatable vegetable liquid. Its action is easy and natural, with no gripe, no pain and the after-effects are pleasant instead of disagreeable. Dodson's Liver Tone does not interfere with your regular duties, habits and diet, but builds and strengthens instead of weakening you or "knocking you all out" for days. Try Dodson's and feel better and brighter, as thousands have. (O)

**W. J. HILES JURY COMPLETED YESTERDAY.**

Mr. Jack Palmer of Balmorhea was the twelfth man that completed the jury. Two witnesses had been examined up to 12 o'clock today. It is possible that it will take all this week to get through with this case.

**NOTICE TO OWNERS OF DOGS.**

It is against the laws and ordinances of the city for dogs to be permitted to run at large on the streets unless muzzled; and I take this method of warning owners of dogs that all dogs must be muzzled unless you expect to be called on to answer for the offense.

Also, a license of \$1.25 per year is required for each dog, and each dog should wear a collar and tag, and this ordinance I desire to enforce and ask all owners of dogs to call at the marshal's office and procure license.

E. B. KISER, Marshal Pecos City.

**TO THE VOTERS OF REEVES COUNTY**

When a man aspires to the most important office in the county, it's due the people whose support and suffrage he solicits that he should advise them of his qualifications and purposes.

I was admitted to the bar in 1894. I practiced law continuously from that time until 1907, since which time I have occasionally tried a case. From 1900 to 1904 I was District Attorney of the Thirty-second Judicial District, which at that time extended from the Pecos river to the east line of Nolan county.

It's equally as important that the voters should know what he now stands for, in principle and measures at this time are of more concern than mere mecs.

The office of County Judge of this county will mean much for the next few years. The interest of the taxpayer is no small item; the development of the country also must be cared for, and the method of developing must be closely studied or else disaster will be inevitable.

Sufficient taxes must be collected to defray the expenses of the county, economically administered, and this must be upon a fair and just equalization of values in the county.

So the first thing I promise you if I am elected is that I will use all the influence I have to equalize the tax values; that is, I will endeavor to have every piece of property in the county placed upon the tax rolls at its true value, regardless of the blanket valuation as now and heretofore practiced in this county. In other words, I will equalize the value of each piece of property, both personal and real, in the county, according to its true value, and the trouble and annoyance it will cause me will not be considered by me, because my time will be yours, and I shall hold that you will be entitled to my very best services. When these valuations are made as above set out there can and will be plenty of money for the legitimate uses of the county.

The next thing I promise you is: that if I am elected I will take pleasure in earning the money that I draw from the school fund. I will be superintendent ex-officio and in fact. I will see to it that none but moral, competent and trained men and women are entrusted with the care and instruction of your children. I believe that a school teacher is the one person whose walk and conduct should if possible be better than the preacher; so with that idea in my mind I shall try to maintain the highest standard of living and teaching. I will not only try to maintain this among the teachers, but by the help of God I will so live and walk before you, your children and the teachers as becomes a man who insists upon this standard for those under his direction. No higher ambition could grace the mind of a man or a woman than to be truly a Godly teacher. I would not be content with being superintendent ex-officio unless I could really superintend your schools and give them the encouragement of my occasional presence and sugges-

ions. If I am elected, this I will do, for I would no more take the pay as superintendent and not do everything required under the law than I would refuse to try a case and then collect the fee.

Another matter of interest to the voters of road precinct No. 1, and to the county as a whole is the construction of roads in precinct No. 1. There will soon be a hundred thousand dollars to be expended on the roads in district No. 1. This money is to be expended under the direction of the Commissioners Court and Board of Supervisors. If I am elected, I shall work in harmony with these gentlemen, trying by every means to aid them in spending this money where it is most needed, and where it will benefit the greatest number of people. I am sure the court and board will each have the same desire, for they are men of affairs in the county who are anxious to have a judicious expenditure of the money. So far as I am able I will see that every dollar of this money goes to our home people, if possible. I shall insist that this work as far as possible be so arranged as that our home people can do it all.

In this connection I want to say that I shall endeavor to have the road and bridge fund in other parts of the county expended for the purpose for which it is collected.

I shall also use my influence to have the office of sheep inspector abolished.

If elected, I will lend the influence of the office to the proper enforcement of the law in all of its branches of which its jurisdiction can take cognizance.

I will also lend the influence of

the office to every effort that can be put forth to maintain the purity and intelligence of the ballot. As a private citizen I have always contended for the proper safeguarding of the ballot and as a public officer, I shall be none the less zealous in opposing certain methods of debauching the electorate that has been in vogue more or less since the organization of this county. So if any voter thinks I am not suited to hold the office of County Judge because I am opposed to the politics of this county being dominated by a people who have no interest in common with us then don't vote for me.

But on the other hand, if you stand for the things I stand for I will appreciate your support and influence, and I promise you that if I am elected I will go into the office unfettered, so that I can give the poorest man in the county as patient hearing as the richest would get. No clique or set is behind me. I am my own candidate, and if I should be elected then no ring or set of men can tell me what to do and expect me to do it without it's right.

Again earnestly soliciting your support and thanking you for any support you may give me, I am,

Yours truly,

BEN RANDALLS.

At the proper time I expect to make a public campaign, at which time my views will be more fully explained.

Sallow complexion is due to a torpid liver. HERBINE purifies and strengthens the liver and bowels and restores the rosy bloom of health to the cheek. Price 50c. Sold by Pecos Drug Co. (Adv.)

**Taste it**

Drink a tall, cool glass of iced tea made with

## White Swan Tea

You'll enjoy the fragrance of it, the delicate refinement of its taste, the good tea without even a suggestion of bitterness. Then you'll agree with us that no meal-time drink is so delicious or so cooling. Absolutely pure—better than the law requires.

Four sizes in air-tight tins

#### BANNER CROP OF APPLES ASSURED IN PECOS VALLEY

Roswell, N. M., April 23.—A banner apple crop and a consequent heavy yield of all other fruits in the Pecos Valley is the prediction of orchardists, who believe that the prospect were never better for bumper crops. Some of the apple trees are so heavily loaded that it will be necessary to shake some of the trees in order to save the limbs.

Spraying has been started and will be continued until the trees have been sprayed from four to six times, a condition may require.

The first cutting of alfalfa will soon be ready. In the Greenfield and Dexter sections the county for miles is a mass of green.

#### JAPAN TO SUBSIDIZE A FLEET OF STEAMERS

Tokio, Japan, April 25.—Notwithstanding the failure of the Japanese diet to agree upon the budget, which was the immediate cause of the fall of the Yamamoto cabinet, the government was advanced funds for the subsidy of a tri-weekly steamship service thru the Panama canal to New York, feeling sure that the next session of the diet will ratify the action.

Latest plans provide that the new line shall start from Yokohama and proceed to New York by way of Seattle, Panama and Colon. On the return trip the steamers will touch at New Orleans, Panama and Seattle. The original idea to make Boston the terminus has been abandoned for the present.

The Nippon Yusen Kaisha, which probably will receive a subsidy of about \$800,000 annually, will place nine 10,000 ton steamers in the Panama service. The government has selected Seattle as the Pacific port of call because it finds coal cheaper there than at Honolulu, and some port is considered necessary on the voyage of 7660 miles.

#### IMMIGRATION RECORD IS BROKEN AT ELLIS ISLAND

New York, April 25.—During the week just ended 31,000 immigrants representing every country in Europe passed through the gates at Ellis island, which is the official reception room for the port of New York, thus breaking all previous records.

The record for one day was 5369 immigrants, this number being brought in by six steamers. The record for one single steamer was made by a German vessel which brought in 2049 steerage and third class passengers. Nearly 3000 of the immigrants brought in still remain on the island.

The majority of these are to be deported for various reasons while several hundred are waiting the call of relatives and friends. The resources of the island are taxed to the utmost, the detention rooms being uncomfortably filled.

#### NOT FIT FOR LADIES.

Public sentiment should be against it and we believe it is; there can be no reason why ladies should suffer with headaches and neuralgia, especially when Hunt's Lightning Oil gives such prompt relief. It is simply a question of getting the ladies to try it. All druggists and 50c bottles. A. B. Richards Medicine Co., Sherman, Tex. (Ad.)

#### WILSON'S PORTRAIT BURNED

Buenos Ayres, April 26.—According to a cable from Montevideo, hundreds of Uruguayans are signing a petition which is being circulated calling for a mass meeting in protest against Americans.

Friday night bands of students assembled in the streets and made violent anti-American speeches. The police stopped a procession of students because a permit had not been obtained. President Wilson's portrait was burned and General Huerta's was cheered. Police surrounded the American legation and consulate as a precautionary measure. There was more or less rioting through the night. Some minor accidents occurred in the clashes with the police.

In Buenos Ayres a formal commission has been named for the purpose of organizing a big anti-American demonstration. The press is hostile to President Wilson's Mexican policy.

#### TOWN IN WEST TEXAS IS WIPED OUT BY STORM

Peacock, Stonewall Co., Texas, April 26.—A terrific cyclone at 5:30 o'clock this afternoon almost wiped Peacock from the map. Not a business house is standing, but no one was killed. The storm approached from the south and extended north. Damage to property will amount to several thousand dollars as all business houses and the cotton gin are a total loss.

#### SEVEN AMERICANS HELD IN MEXICO REPORTED KILLED

Vera Cruz, Mex., April 28.—An unconfirmed report was received here today to the effect that six Americans had been taken from the jail at Cordoba and killed, and also that another American had been put to death at Cosamaloapan, a town about 60 miles south of Vera Cruz.

Neither Rear Admiral Fletcher nor Consul Canada had what they regarded as conclusive information as to the execution of the Americans but they are investigating the report.

#### BAD ROADS LESSEN SCHOOL ATTENDANCE

Washington, D. C., April 28.—Data recently compiled by the United States department of agriculture shows that the rural school attendance in communities with improved highways is much higher than in localities where bad roads exist. In good roads states the average attendance is 84 per cent, compared with 64 per cent in the states where the roads are in poor condition. The census reports of 1910 show that only 58 per cent of the Texas children attend school.

#### Y. M. C. A. STATISTICS.

Houston, Tex., April 28.—There are 41 Y. M. C. A.'s in Texas with a membership of 14,000, while a quarter of a century ago Texas had only 17 associations with only 1600 members, according to the annual report of the state secretary, which has just been issued. These institutions own property valued at \$1,500,000, and the annual operating expenses is a quarter of a million dollars.

#### TEXAS MEN BECOME UNITED STATES CONSULS

Recently the daily press announced the appointment by President Wilson of two men to consular service who graduated together at the University of Texas in 1894. One of these men is B. H. Carroll Jr., of Houston, who goes as consul to Venice, the other, H. C. Von Struve of Amarillo, who is to become consul to Curacao, West Indies. In addition to these two recent appointments, by President Wilson to the consular service, Mr. Emil Sauer, another graduate of the University, is also in the consular service. He first represented the United States government at Bagdad, but has recently gone to a post in Sweden. Both Mr. Sauer and Mr. Von Struve while students in the university were self-supporting. As Mr. Carroll is the son of a Baptist minister, he perhaps was not over-supplied with funds.

#### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm. NATIONAL BANK OF COMMERCE, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

#### SAN ANTONIO RANKS FIRST TEXAS CITY.

Washington, April 28.—Continental United States has a population of more than 98,000,000, while the country with its possessions is peopled with more than 100,000,000 persons, the census bureau announced today. The census experts have calculated the population of continental United States on July 1, 1914, will be 98,781,324, against 91,972,266 on April 15, 1910, when the last census was taken. For the United States and its possessions they estimate the population this July will be 109,021,993, compared with 101,748,269 in 1910.

Among the cities for which estimates of 100,000 population or more will be found San Antonio with a population of 115,063, and Dallas 111,986.

#### MAY SEND TROOPS.

Austin, Tex., April 28.—Governor Colquitt would send state militia into Mexico if necessary without consulting the Washington government. The governor said today that he proposes to keep the state troops at Brownsville on duty there until the actual arrival of the regiment of infantry of regulars promised by Secretary of War Garrison. He says that while conditions are apparently quiet there at present, the withdrawal of militia before the arrival of the regulars may result in trouble and disorder.

Up to noon today the governor had received no reply from his 600 word telegram, wired the secretary last night, in which Colquitt intimated very strongly that state troops would cross the border in pursuit of Mexicans who raised any trouble.

The governor pointed out that this right was given the state under the state constitution.

#### CHEAP TRANSPORTATION.

San Diego, April 28.—Action by the Transcontinental Passenger Association at its recent meeting in San Francisco, on railroad rates to California during 1915, the exposition year, has caused officials of the San Diego Exposition, which opens on January 1, 1915, and continues open the entire year, to feel assured of a large attendance of visitors from Eastern states at this exposition.

A one-way fare for the round trip to the Panama-Pacific Exposition in San Francisco, to Los Angeles and the Panama-California Exposition at San Diego, from all points west of Chicago was agreed upon by the Transcontinental Passenger Association.

Tourists to or from either of the California expositions will be given the opportunity of being routed through Los Angeles, and the visitors will be able to take in both expositions on one ticket.

The rates agreed upon are the same as those allowed during the Alaska-Yukon-Pacific Exposition at Seattle, and are practically the rates asked by the directors of the expositions.

The destinations named on the tickets will be Oakland, San Francisco, Los Angeles and San Diego. The rates will go into effect March 1, 1915, and will end November 30. The tickets will have a return limit of three months, with the proviso that no return will be good after December 31, 1915.

From Missouri river points, which include Omaha, Kansas City, St. Joseph and Atchison, the round-trip rate will be \$50. Other rates from railroad centers are fixed as follows: St. Louis, \$57.50; Chicago, \$62.50; Denver, Colorado Springs, Pueblo, \$45; Peoria, \$59. Proportionate rates from points not mentioned will be offered.

From July 13 to July 17 there will be conducted at the University of Texas in Austin a special program for the improvement of rural life. This week is known as Rural School Week and county superintendents, county school trustees and all persons interested in rural welfare are invited to be present. There will be no charge for the lectures.

#### CHAMBERLAIN'S LINIMENT.

This preparation is intended especially for rheumatism, lame back, sprains and like ailments. It is a favorite with people who are well acquainted with its splendid qualities. Mrs. Charles Tanner, Wabash, Ind., says of it, "I have found Chamberlain's Liniment the best thing for lame back and sprains I have ever used. It works like a charm and relieves pain and soreness. It has been used by others of my family as well as myself for upwards of twenty years." 25 and 50 cent bottles. For sale by all dealers. (Adv.)

#### TO EAT FORT WORTH CANDY WHILE IN MEXICO.

Fort Worth, April 28.—United States soldiers campaigning in Mexico, if there is to be a campaign, will munch Fort Worth made chocolates.

An order was received by the King Candy Company Sunday night to ship 10,000 boxes of chocolates to Galveston. Delivery is to be made Wednesday. The chocolates will be distributed among the troops at Galveston and those at Vera Cruz.

Soldiers on hard campaign into the interior of a country are always provided with chocolates when possible, as they are regarded as the most nutritious small food-stuff obtainable.

#### TEXAS FLOWERS ARE OF WORLD WIDE INTEREST

Texas flowers and plants offer one of the most active fields for those persons whose business it is to study the flowers and plants of the world, according to C. H. Winkler, who is preparing a book on the title "Botanical Work in Texas." From the very beginning of the republic of Texas, European botanists and naturalists made excursions into Texas.

The father of Texas botany was Ferdinand Lindheimer, who devoted himself exclusively to the collection and study of Texas plants. His collection formed the nucleus of the large collection of plants now found in the United States National Herbarium of the Smithsonian Institute at Washington. Mr. Winkler has found that there is still several sets of these famous collections and he has made arrangements to present a set to the University of Texas Botanical Herbarium where Mr. Winkler is instructor in agricultural botany.

#### FAIR TREATMENT ASSURED AT SAN DIEGO EXPOSITION

San Diego, Cal., April 27.—Visitors to the wonderful exposition that will be opened in San Diego on January 1, 1915, and which will be open for one year, will be assured of fair treatment by hotel, apartment and lodging house keepers because of the agreement already reached by the members of the Hotelmen's association of San Diego.

Prices have been established for 1915 by the association, and a compact entered into, which makes it impossible for any hotel, apartment or lodging house keeper to advance or lower his prices at any time during the exposition year. Publication of the rates already has been made, and it is seen that they are not exorbitant—in fact they are the usual prices of past years.

And in furtherance of this effort to assure exposition visitors fair

#### HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for you.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. 50c.

### PATRIOTISM NEVER ACQUIRED BY ARMS OR LEARNING.

Patriotism is a principle that is borned and becomes a part of the individual that becomes famous in war or in the defense of his own country as a statesman, but in most instances the person that becomes famous as a patriot in war the honors are misplaced. At the close of the Civil War of the sixties where has the honors been placed?

on one side and R. E. Lee upon the other? How was it that these men became so famous? Was it not because of the armies that they commanded that bore the arms and fought the battles and sacrificed their own lives for their country's good; the soldiers that carried the muskets and the man that carried the regimental colors, are they not entitled to share a part of the honors as patriots? But do they? As before stated, patriotism was born; it is a principle of love. Love and respect begins in the incipency of one's self, even when they are an infant in mother's arms. As they grow in stature and increase in mind and knowledge they become patriotic in proportion to the amount of self-respect for self, love for home and country. This principle of patriotism was never acquired by education or curiosity, prompted by the desire to see something exciting or to be mixed up in a combat or contest which only has the influence of arousing the coarser nature of one's being, and in many instances the defeated has a greater amount of patriotism than the successful. Look, will you, at the Civil War of the sixties. Was it because of the greater patriotism of General Grant and the men that wore the blue or was it because of the want or lack of patriotism of General Robert E. Lee and the men that wore the grey that was the cause of the success of Grant and his men who marched under the stars and stripes. No. Neither was it because of their superior advantage in learning. It was contributed to the greater forces that composed the Northern army in this instance the honor was not gained because of the patriotism, but because of the greater force. A patriot is one who champions the right against the wrong. To him the honors belong, tho he may be in the minority and be the looser. A greater patriot the world never knew than Christ, the Lord.

Why should we not lead? The town has been pretty well filled up during the last week with prospectors and the indications are that the Pecos Valley will have an influx of prosperous homeseekers—men that are not afraid to invest their money, neither are afraid to work. That's what we want.

### NEW TUBERCULOSIS REMEDY

Paris, April 29.—A new treatment for tuberculosis, which, in the opinion of some of the principal experts on the disease, gives greater hope for a cure of the scourge than anything yet discovered, was described to the Academy of Medicine last night. The new method is the discovery of a young Swiss biologist, Henry Spahlinger.

The treatment consists of combined intramuscular injections of antigenic solutions and ferments which are modified according to the condition of each patient. The treatment, it is claimed, causes the drying up of lung cavities and the disappearance of bacilli and stops the fever—three results which never have been obtained by any previous method for the cure of tuberculosis. The action of the injections is said to be extremely rapid on incipient cases.

In several cases described the patients were said to have been able to follow their usual occupation. Of fifty-four persons treated one was said to have virtually been cured. Most of the other cases still were being treated.

Spahlinger is not a doctor. Originally he was a lawyer but quit law for science. He spent four years in work and \$100,000 of his private fortune in the research which led to his discovery.

### HER IDEA.

Patience—Will says that when he kissed you last night he noticed that you had been eating onions.

Patrice—Well, all I've got to say is that a man who will notice onions on a girl's breath when he's kissing her hasn't got his mind on his business.

### BILL RENDERED.

Dutton—You should pay more attention to your personal appearance, old chap. Remember that the clothes make the man.

De Broke—Yes; but for me the man refuses to make any more clothes.—Boston Transcript.

again, these three republics do not offer their good office to settle all the troubles in Mexico. They only offer to settle the trouble between the United States and Mexico, and allow the Huerta faction and the constitutionalists to go on and settle their own troubles in their own way. Now if the war is to be continued in Mexico in the future as it has been in the past, how can this government expect to have peace. The Americans in Mexico will remain in just as much danger as they have been heretofore. Then again, the border will have to be guarded and patrolled all during the unsettled condition of Mexico. The one and best thing to do is own with the armed force even to the hilt.

### THE CRIMINAL LAW SHOULD BE CHANGED.

If it was the object of the law to convict every criminal that is over-taken in any crime against his fellow-man or the violation of any law, then the law should be so amended so as to compel all lawyers to go before the jury and there tell what the defendant has said unto them. There has been many a guilty man that went scott-free and his attorney died with the knowledge of his guilt locked up in his heart. Because an attorney has been employed by a man that is accused of crime should not be a legal excuse to keep him from being compelled to testify before the jury. As long as the present law is in force there isn't any reason for running the people to the expense to try to convict a man whom is guilty of arson, larceny, rape or murder when the lawyers that defend him can stand before the court with a full knowledge of the facts within his own breast, but cannot be made to divulge it. The law as it is goes further to protect than it does to convict the guilty.

### COTTON THE MONEY CROP.

It is reliably reported that there will be 1500 acres of cotton planted and watered from the Farmers Independent Canal system this season. This is a large increase over what has been done in any year before this. If the increase in other parts of the county holds good with this report, Reeves county will be one of the leading agricultural counties in West Texas. We boast of our climate, of our water advantages, of our alfalfa crops, and now adding to these the hog industry.

Why should we not lead?

The town has been pretty well filled up during the last week with prospectors and the indications are that the Pecos Valley will have an influx of prosperous homeseekers—men that are not afraid to invest their money, neither are afraid to work. That's what we want.

## The Vital Importance of Christian Education to the Church.

REV. JOHN R. ABBOTT.

(The following is an address delivered before the El Paso Presbytery at Pecos, and is published at the request of that body.)

God's word has summed up the vital importance of right instruction better than we can. Proverbs 1:3 says: "Take fast hold of instruction; let her not go; keep her; for she is thy life." Those words are just as applicable to the church as to the individual. When asked how important Christian education is to the church we may reply in the words of our text, "it is her life." Instruction has been the life the religion of Jehovah from the earliest days. It was so in the time of beginnings in Israel when God said: "And these words which I command thee this day shall be in thine heart: And thou shalt teach them diligently unto thy children, and shalt talk of them when thou sittest in thine house, and when thou walkest by the way, and when thou liest down, and when thou risest up." (Deut. 6:7.)

In the days when the national life of the Jews was decaying, the spiritual life of the Hebrew people was preserved and heightened by the springing up of the synagogues and the schools of instruction that clustered about them. Under this system the truths of Judaism manifested a strength and vitality out of all proportion to the power of Israel's external organization.

The Reformation under Martin Luther was pre-eminently a revival of learning and instruction. Characteristical instruction was one of its most marked characteristics. It was the thing that at once secured its rapid progress and its perpetuity. The Roman church was quick to see its effectiveness and to adopt it in its own defense.

The crowning glory of the work of John Calvin at Geneva was its educational features. John Calvin's parish was a school. There is no more heroic thing in history than the story of the arduous labors of that poor tuberculous minister and scholar who expended the last spark of his wonderful energy in the instruction of the people, lecturing many times each week

and preaching to a congregation of a young lady that Paul had an epileptic fit at Damascus, and that that was all here was to his conversion. I met many young men and women who had had their faith taken away from them by that teacher—young men who started in to study for the ministry and became infidels. One parent in conference with that teacher about his daughter asked him about his teachings upon various points, and learned that "Genesis was to be regarded as a myth, Sinai was a forged story of the time of Josiah, Jesus was born in a perfectly natural way and His resurrection was in doubt." I would that all Christian parents would say to all such teachers what that parent said to that man. He said, "Professor, I would rather put my daughter in a little row boat and start her out upon the wide sea without oar or compass, than to leave her under your instruction." That college was probably not a sinner above all others in that matter. It only demonstrates to us the necessity of vigilance. While the church school may not always succeed in being free from that type of infidelity, it is the only school whose settled policy is to try to be free from it.

We must look to Christian education for the instillation of the right sense of moral obligation. The school age is the character-forming age. The things that pass muster with the school boy or girl will have a determining effect upon their moral convictions through life. There are those of us who look upon the over-rushed social life, and the corrupt conditions in some schools not under ecclesiastical control, with nothing short of alarm. Do not misunderstand us. Not all the pupils in the church schools are angels. But the church school has the strongest motive for the building of moral character, and it has the most effective instrument—the Word of God. There can be no full development of moral character apart from the teachings and sanctions of religion.

No wonder then that the church gets her leadership from her own educational system; 80 per cent of our theological students, 84 per cent of our foreign missionaries, and 84 per cent of our home missionaries come from our church schools, while only 6 or 7 per cent are furnished by the state institutions. Surely the bread cast upon the waters of Christian education has come back to us.

It is vitally important that the

There are some things that Christian education alone can do for the church. The church must depend upon it for these things.

It can give the right spirit to the young generation, such as will maintain its openness and receptivity to religion. That may sound rather indefinite, but it is a thing of which those who work with young people soon become definitely conscious. Your speaker has held revival meetings in school committees of two kinds: those in which the schools were church schools, and those in which the schools had no definite Christian policy or instruction. The spirit of those schools were not to be compared. They had different spirits. The public schools in many of our cities are not only non-religious in their teaching, but they are anti-religious in their spirit. The most serious defect in the young generation of today is the want of reverential and even respectful regard for things religious. They did not create that spirit in themselves. Some thing, some system outside of themselves is responsible for it. We may guess what it is. If for nothing else, the church needs to give to her children from her own hand, that she may preserve in them "a right spirit."

We must look to the church school to counteract the rationalistic tendencies that today are almost too pronounced for us to properly speak of them as "tendencies." The preacher can not stem that tide in the coming generation. The preacher has the pupil only for an hour on Sunday if he has him at all, while the teacher has him five or six days out of the week. Aside from this comparison, there are few people that have an influence with the young that can compete with the professor. If that professor be attractive, and possessed of many graces of disposition, not even the parents can stand against him in the estimation of their children. They have no chance of refuting his views. Even the church school is not a rationalist proof. I knew a professor of Bible and Philosophy in such a school who, in all of his recitation hour trying to prove to

a young lady that Paul had an epileptic fit at Damascus, and that that was all here was to his conversion. I met many young men and women who had had their faith taken away from them by that teacher—young men who started in to study for the ministry and became infidels. One parent in conference with that teacher about his daughter asked him about his teachings upon various points, and learned that "Genesis was to be regarded as a myth, Sinai was a forged story of the time of Josiah, Jesus was born in a perfectly natural way and His resurrection was in doubt." I would that all Christian parents would say to all such teachers what that parent said to that man. He said, "Professor, I would rather put my daughter in a little row boat and start her out upon the wide sea without oar or compass, than to leave her under your instruction." That college was probably not a sinner above all others in that matter. It only demonstrates to us the necessity of vigilance. While the church school may not always succeed in being free from that type of infidelity, it is the only school whose settled policy is to try to be free from it.

We must look to Christian education for the instillation of the right sense of moral obligation. The school age is the character-forming age. The things that pass muster with the school boy or girl will have a determining effect upon their moral convictions through life. There are those of us who look upon the over-rushed social life, and the corrupt conditions in some schools not under ecclesiastical control, with nothing short of alarm. Do not misunderstand us. Not all the pupils in the church schools are angels. But the church school has the strongest motive for the building of moral character, and it has the most effective instrument—the Word of God. There can be no full development of moral character apart from the teachings and sanctions of religion.

No wonder then that the church gets her leadership from her own educational system; 80 per cent of our theological students, 84 per cent of our foreign missionaries, and 84 per cent of our home missionaries come from our church schools, while only 6 or 7 per cent are furnished by the state institutions. Surely the bread cast upon the waters of Christian education has come back to us.

It is vitally important that the

### What "Bee Dee" Means

"Bee Dee" on the label means REAL VALUE inside the package, and RESULTS and SATISFACTION after the contents have been used. Always ask for "Bee Dee" when you buy a stock or poultry remedy. "Bee Dee" remedies are prepared from pure, medicinal ingredients, in a scientific way, and are genuine medicines that you can depend on.

**Bee Dee** STOCK & POULTRY MEDICINE LINIMENT—DIP  
Bee Dee Healing Powder—Bee Dee Colic Remedy

After using the Bee Dee Remedies generally for sometime, we take pleasure in saying that they are giving entire satisfaction, and we cheerfully recommend them.  
McMillen Stock Farm,  
Waco, Texas.

You can get them at your dealer. P. B. 6

church stand forth before the world as the friend and champion of education. Just the moment that we put ourselves in any other position we commit ecclesiastical suicide. To be driven into the ranks of the enemy of science and philosophy is the worst effect that the rationalism of our day could have upon us. When the Roman Catholic church summoned Galileo before the papal throne and compelled him to retract the statement that the earth moves round the sun, it sealed its doom. Galileo said as he left the room, "but the earth moves all the same." Yes, it does, and it is leaving the Roman church behind.

We are not afraid of truth—any truth. But we have our hypothesis with which to explore in the realm of truth, and it is the one that has given us the greatest and most dignified characters of the ages. We do not have to apologize for it. It is our pride and glory! And today it is "up to" the church as never before to show herself the friend of true education, and to demonstrate that in order to be scientific we do not have to be infidel.

Church of God, these words are for you: "Take fast hold of instruction; let her not go; keep her; for she is thy life."

### EYES SUNKEN WITH PAIN.

Three years ago I had a very bad spell of neuralgia which caused my eyes to become sunken and blood-shot with pain. Hunt's Lightning Oil was recommended and, after using the pain left and has not returned; says A. M. Coffey, 316 Van Buren Street, Litchfield, Ill. This wonderful medicine is sold by all druggists everywhere. A. B. Richards Medicine Company, Sherman, Texas.

Dizziness, vertigo, (blind staggers) sallow complexion, flatulence are symptoms of a torpid liver. No one can feel well while the liver is inactive. HERBINE is a powerful liver stimulant. A dose or two will cause all-bilious symptoms to disappear. Try it. Price 50c. Sold by Pecos Drug Co. (Adv.)

### Grain Privileges

#### MONEY IN WHEAT

Puts and calls are the safest and surest method of trading in wheat, corn or oats. Because your loss is absolutely limited to the amount bought. No further risk. Positively the most profitable way of trading. Open an account. You can buy 10 puts or 10 calls on 10,000 bushels grain for \$10, or you can buy both for \$20, or as many more as you wish. An advance or decline of 1 cent gives you the chance to take \$100 profit. A movement of 5 cents \$5000 profit. Write for full particulars and Bank References.

### OPEN DAY AND NIGHT

# Overland Autos Again in Pecos!

For ten days I have been unable to get Overland cars on my orders on account of the "Spring Rush" that is now on in all of the territory. I now have an auto on hand and will have a car-load this week ready for delivery. Some of these cars are already sold, and I have no hopes of getting more care after these orders as this is all the cars I have contracted for until July.

- When You Come to Consider**  
that the most serviceable cars that have ever been in the Pecos Country are unquestionably the OVERLAND cars.
- When You Come to Consider**  
the size of a car and the general make-up—including the wheel base, horsepower, the electric source, the carburetor and the general finish of a car for \$950 to \$1350, the one with the most for the money is unquestionably the OVERLAND car.
- When You Come to Consider**  
what you are to get from your car the one offering the most is unquestionably the OVERLAND car.
- When You Consider**  
the factory building a car, and their financial strength, their disposition and assurance of help to buyers the one offering the most is unquestionably the OVERLAND.

**These Facts**  
coupled with the fact that I have already sold in this territory more than my yearly supply; that 90 PER CENT OF ALL THE CARS SOLD THIS YEAR IN THIS CLASS IN PECOS HAVE BEEN OVERLAND CARS.

**All These Facts**  
should be conclusive evidence and assurance that you need hesitate no longer as to your new car, but consider YOURSELF LUCKY if you get one of this year's production. Place your order now while you can get it filled at once.

**Let me show you this new car.**

 Has your city reached a point of perfection, or is there still something you can contribute to its development,

**A BIG SUCCESS.**  
 According to Announcements, the Methodist Women Had a Hot Dinner and Big Crowd.  
 A hot dinner was served at the public dining hall today. The tables were heavily laden with the choicest of food, prepared in the best of style. We failed to learn of but one person that went away not satisfied. This person, after he had filled his capacity, he walked around the tables that were still heavily laden with the good things and said that he was sorry that he had not been capacitated as the pelican. This man was as Alexander the Great—he mourned because there were no other kingdoms for him to conquer, and this man mourned because his inability to consume what was before him.

**NO CALOMEL NECESSARY.**  
 The injurious effect and unpleasantness of taking calomel is done away with by Simmons Liver Purifier, the mildest known liver medicine, yet the most thorough in action. Put up in yellow tin boxes only. Price 25c. Tried once used always. A. B. Richards Medicine Co., Sherman, Texas. (Adv.)

**Fort Worth and Quannah city property to trade for western land.** Talk the matter over today. J. L. Tyler, office over postoffice. 48-3

**Cash paid for hair combings.** Switches made from combings. Satisfaction guaranteed. Mrs. Hunter. 47-6

**Subscribe for the Daily Times.**

# THE CHURCHES

**Methodist.**  
 Next Sunday morning Rev. C. S. McCarver will preach. We speak for him a full house. There will be Epworth League service at 8 p. m., but no preaching service at night.

Next Wednesday night, Brother Mitt Thomas will lead prayer meeting. Brother Thomas is the young man who has offered himself for the ministry and we hope the church will give him every encouragement.

The pastor will be home in time to preach the baccalaureate sermon on May 17th.  
 J. F. Hedgpeth.

**Church of Christ.**  
 "Wherefore also God highly exalted him, and gave unto him the name which is above every name; that in the name of Jesus every knee should bow, of things in heaven and things on earth and things under the earth, and that every tongue should confess that Jesus Christ is Lord to the glory of God the Father."  
 This means that you will some day make this confession. Will you make it now, in time, willingly, or in eternity when the circumstances compel you to make it? Get right with God now.  
 We shall be glad to have you meet with us the coming Lord's day, in divine worship. The morning sermon will be on "The Prodigal Son's Lessons for Christians." At night, "Jesus' Work Among the Outcasts." will be the theme. The Bible school and C. E. will meet at the usual hours.  
 Homer L. Magee.

**Presbyterian.**  
 Services 11 a. m. and 8:15 p. m. Sabbath school 10 a. m. Junior Missionary Band 3 p. m. Prayer service Wednesday 8:15. Everyone is cordially invited to attend each of these services and worship with us.  
 Chas. B. Boyles.

**Baptist.**  
 Who would not go to church on such a beautiful Sunday as was last Sunday? Surely the Lord gives us just such days as that to teach us that there is one eternal Sabbath in heaven.  
 The flowers on the pulpit, the children of the Sunday school at the preaching services and the calm, happy faces of the people, made it a joy to preach about the Good Shepherd's Care for His Sheep.  
 The call for a thousand dollars for home and foreign missions was gladly answered by a collection of \$1,006—one thousand and six dollars in cash, which the church treasurer has forwarded to Dallas. Again, we are all happy and believe the truth that "It is more blessed to give than to receive." Let our people show to the world that we are not beggars, but givers, and that the business of our King is not a penny business, but a holy crusade for the salvation of men from sin and death.  
 Come to church next Sunday and don't miss a single service of the day. How to Live with Folks will be the subject Sunday morning and The Value of the Soul will be the evening topic.  
 Come, even if you have not been to church in a long time.

**WARNING NOTICE.**  
 All dynamites are warned against dynamiting for fish; also against seining and taking fish in any way except by hook and line. The grand jury will be in session next week and there may be something doing.  
 Every irrigation farmer needs a transit for leveling his land. The Bostrom-Brady Farm Level with spy glass solves the problem. Only \$15. See A. S. Whitten, agent, Porterville, Texas. 18-5

**A GREAT BEAUTIFYING MOVEMENT ON FOOT.**  
 San Diego, April 29.—What is doubtless the greatest movement ever inaugurated with the purpose of beautifying and adorning a city, was begun here at a mass meeting called by the officers of the San Diego Federation of State Societies this week. Representatives of every commercial and civic organization in the city, the schools, churches, fraternal societies, city and county officials and directors of the San Diego Exposition all pledged support for the movement, which has been systematically planned by experts in city beautification work. Holding of the San Diego Exposition during the entire year of 1915, which is expected to attract hundreds of thousands of visitors from all over the world to San Diego, was the incentive for the movement, which has now assumed such form that those at the head of it feel safe in asserting that by Jan. 1, 1915, the date of the opening of the San Diego Exposition, there will not be an unsightly spot in all San Diego.  
 Fences and outhouses are to be overgrown with perennially blooming vines, vacant lots will be cleared and sown with flowers that bloom the year around, houses will be freshly painted, streets cleared of all weeds and rubbish, bare walls adorned with window ledge flower boxes, and hanging baskets from roof ledges, and flower gardens will appear everywhere, until San Diego becomes one great, fragrant, beautiful bouquet.  
 Already arrangements have been made whereby property owners can secure a certain number of small ornamental trees in pots, cuttings of creeping vines and packages of flower seeds for the asking.  
**FOUND**—A small pin with three initials on same. Owner can have same by proving property and paying for this notice. 46

**HOW TO COOK RAISINS.**  
**Raisin Brown Bread**—Three cups yellow corn meal, 1 1-2 cups Graham flour, 1 1-2 cups white flour, 1 cup N. O. molasses, 1 teaspoon soda dissolved in half cup hot water, 1 teaspoon salt, enough sour milk to make soft batter. Mix flour and salt then molasses with soda, stir until foamy, then add milk and 1 1-2 cups Sultana raisins. Fill mould half full and steam three hours.  
**German Nut Loaf**—One cup of seedless raisins, 1 cup chopped nuts, 1 egg, 2 cups milk, 1-2 cup sugar, 1-4 teaspoon salt, 4 teaspoons baking powder, 4 cups flour. To the flour add the baking powder, salt, sugar, raisins and nuts, mix thoroughly, then all beaten egg and the milk. Grease a pan and pour in this mixture. Put in moderate oven and bake 40 minutes.  
**Raisin Pie**—Cook together 3-4 box of seeded raisins, 1-2 cups water, 1 cup sugar, 1 level tablespoon flour, sift sugar and flour, butter size of an egg, pinch of salt. When cool add 1 well beaten egg and bake with two crusts. Paste for pie: 1 cup flour well sifted, 2 tablespoons lard well rounded, 3 1-2 tablespoons cold water, pinch of salt.

**raisins, 1-2 cup butter, 2 cups water, 1 cup sugar, 1 teaspoon cinnamon; stew raisins in the water, add other ingredients and boil to a thick syrup, let cool. Use a good rich pastry as for pie, roll out and cut in pieces about 4 by 5 inches, fill with the raisin mixture, roll and pinch edges together, bake in moderate oven.**  
**Potato Cake with Raisins**—One cup butter, 2 cups sugar, 2 cups flour, 1 cup mashed potatoes, 1-2 cup milk, 1 cup chopped walnuts, 1 cup seeded raisins, 1 cup chocolate, 4 eggs, 1-3 teaspoon cinnamon, 1-3 teaspoon cloves, 1-3 teaspoon nutmeg, 2 teaspoons baking powder. Spread dough in bread pan and bake in medium hot oven.  
**California Raisin Salad**—One-half cup chopped apples, 1-2 cup diced celery, 1-2 cup orange sections, 1-2 cup chopped nuts, 1 cupful seedless raisins, 2 tablespoons chopped pimiento. Mix altogether and have ready a plate or large salad bowl covered with shredded lettuce. Put the salad on the nest of lettuce and pour over all a dressing made of 1 teaspoonful salt, 1 teaspoonful of sugar, 1-3 cupful of olive oil and 2 1-2 teaspoons lemon juice. Put a slice of the yolk of an egg in the middle of salad and cut pimientos into shape representing a poinsettia and lay around the sliced egg yolk so as to form the poinsettia flower. Sprinkle chopped olives on egg yolks and lay a circle of the muscat seeded raisins around edge of salad.  
**Raisin Cake**—Two eggs well beaten, 1 cup butter, 3 cups sugar, 5 cups flour, 2 cups milk (sour), 1 teaspoon soda, 1 pound Thompson seedless raisins, 1 cup walnuts if liked, 1 teaspoon cinnamon, 1 teaspoon cloves, cream butter and sugar, add eggs, milk, flour with soda sifted through it, add spices and raisins, walnuts if one cares to.  
**WHOOPING COUGH.**  
 "About a year ago my three boys had whooping cough and I found Chamberlain's Cough Remedy the only one that would relieve their coughing and whooping spells. I continued this treatment and was surprised to find that it cured the disease in a very short time," writes Mrs. Archie Dalrymple, Crooksville, Ohio. For sale by all dealers. (Adv.)  
 Mrs. Jno. Y. Yell, who for the past three weeks had been visiting her parents, Mr. and Mrs. J. F. Christian, left last Saturday for her home at Lyra, Texas.

**Friday, May 1, 1914.**  
**San Diego, April 29.**—What is doubtless the greatest movement ever inaugurated with the purpose of beautifying and adorning a city, was begun here at a mass meeting called by the officers of the San Diego Federation of State Societies this week. Representatives of every commercial and civic organization in the city, the schools, churches, fraternal societies, city and county officials and directors of the San Diego Exposition all pledged support for the movement, which has been systematically planned by experts in city beautification work. Holding of the San Diego Exposition during the entire year of 1915, which is expected to attract hundreds of thousands of visitors from all over the world to San Diego, was the incentive for the movement, which has now assumed such form that those at the head of it feel safe in asserting that by Jan. 1, 1915, the date of the opening of the San Diego Exposition, there will not be an unsightly spot in all San Diego.  
 Fences and outhouses are to be overgrown with perennially blooming vines, vacant lots will be cleared and sown with flowers that bloom the year around, houses will be freshly painted, streets cleared of all weeds and rubbish, bare walls adorned with window ledge flower boxes, and hanging baskets from roof ledges, and flower gardens will appear everywhere, until San Diego becomes one great, fragrant, beautiful bouquet.  
 Already arrangements have been made whereby property owners can secure a certain number of small ornamental trees in pots, cuttings of creeping vines and packages of flower seeds for the asking.

**FOUND**—A small pin with three initials on same. Owner can have same by proving property and paying for this notice. 46

COPYRIGHTED FARM AND HOME HOLLAND'S MAGAZINE

The time worn axiom, "All is not gold that glitters," could not be more aptly applied than to present-day merchandise. And it is a fact beyond dispute that a great many people judge and buy merchandise that "glitters" rather than goods of proven quality and worth.

This condition, however, is not altogether the fault of consumers in general, as it is an easy matter for manufacturers to cover up shoddy material with a glittering surface. In fact, it would be impossible for any of us to take the time from our respective vocations necessary to the study of values of the countless articles we use regularly. It is therefore essential that we rely upon something other than our personal judgment for the assurance of values received in our purchases of necessities, comforts and luxuries.

Manufacturers of every kind of merchandise long ago recognized the fact that an infinitely small percent of possible consumers of their particular products could possibly be capable of accurately judging their true quality or value. This realization on the part of manufacturers afforded them an option of either producing high-class goods and then establishing a reputation for them, or of producing a low-grade line and depending on the surface glitter for sale.

Manufacturers who decided to

make this last mentioned class of goods of course readily realized that trial purchases and comparisons would not reflect creditably to them or induce repeat orders, and they therefore not only decided not to spend any money advertising, but in most instances refused to attach their names to their products as a mark of identification.

On the other hand, I know of one American manufacturer of a high-class, well advertised line of men's clothes who places his name and trademark on only those garments that under a most rigid inspection are found to be perfect in both material and workmanship. All imperfect or faulty garments are sold at reduced prices and marketed either under private brands or unbranded.

Manufacturers who brand their products with their name or trademark, and then spend large sums of money advertising them, have to keep up quality to protect their names and their investments in advertising, whereas manufacturers of unbranded, unadvertised products have neither name nor publicity investments to protect, and can therefore well afford to slight quality at the expense of those consumers who do not acquaint themselves with the facts in the case and accept goods of the "glitter" variety simply because they look good.

**Prize Raisin Bread.**—Soak one yeast cake in one and one-half cups of potato water; mix enough flour to make a stiff batter; beat five minutes. Let stand over night. In the morning, scald two cups of sweet milk, into which put one rounded tablespoon Cottolene, one tablespoon salt, three tablespoons sugar. When milk is lukewarm, mix with the yeast; add enough flour to make a stiff batter; beat about ten minutes; let rise; when sufficiently raised, add two cups of seeded or seedless raisins; mix; add more flour and knead until dough is smooth; let rise. Make into loaves and bake one hour. When baked wet top of loaves with sugar and hot water to prevent the crust becoming hard.

**Raisin Bread (for Bakers).**—Fifteen gallons water, two and a half pounds salt, five pounds sugar, three pounds lard, 3 pounds compressed yeast, 150 pounds of California raisins, one barrel patent

### GIVE SHADE TREES RIGHT CARE.

The tree committee of the Laurel Hill association, Stockbridge, Mass. has evolved a plan for arousing interest in the systematic care of the village shade trees which commends itself to other communities.

In order to plan more intelligently for tree planting and tree removal, the town of Stockbridge has had a chart of its village trees plotted to scale.

The work has been done with the approval and authority of the selectmen and the tree warden by the committee on trees of the Laurel Hill association, a village improvement society, which prides itself on being the pioneer of such societies.

The village main street is 100 feet wide and flanked on either side by a row of trees. Elms predominate, supplemented by maple, ash linden and pine. The largest of the elms is 17 1/2 feet in circumference at a height of three feet above the ground and is probably about 160 years old, says American Forester.

In addition to the chart, the committee has issued a pamphlet for local distribution outlining briefly the number and varieties of the village trees and showing the need of a comprehensive plan for the whole street in the matter of tree removals and replanting.

The charts and the pamphlet together make it easily apparent that the usual aversion to any sort of thinning of trees in public highways or parks is a mistaken attitude.

The committee has as yet charted only those trees on the roadway side of the property lines, but it is expected that property owners along the street, which is widely known for its perspective of arching trees and its well kept lawns, will conform to the general plan indicated by the committee.

In addition to this landscape study, the committee supplements the town and private activities in the nature of spraying, trimming and general care of the trees and expects systematically to call the attention of the residents of the town to any state or federal bulletins on these general subjects as may be from time to time available for general distribution.

### TRY IT, ANYWAY.

Go to church and get acquainted with your clergyman; he's not a bad sort.

"I can't be a hypocrite," was the ready excuse of one man when asked why he didn't attend church. "I know that I am not righteous and that I cannot practice what the church preaches."

There is hope for this man. He is the kind the church wants. If he is not righteous he is not happy. Let him acquire the habit of going to church and he will get a broader, better and happier view of life.

We cannot all be saints. But a man can forget the temptations of the world for one hour or one day each week. At least for the hour or so that he is in church he can really think over the big things in life. Let him listen to the word of God and do his best. Of course there are some persons in every community who will criticize as freely the man who goes to church as the man who stays away.

No man who goes to church can be a hypocrite long. Deep down in his heart he knows that he cannot sell God a gold brick. If originally he goes to church solely to make a good impression with his neighbors—and this is to be encouraged—eventually he will find that he is gradually being led to the right sort of life. It is easy to acquire the go to church habit. Try it one Sunday. When another Sabbath rolls around you'll feel a pang of remorse if you don't go again. Get acquainted with your clergyman. You'll find that he's not a bad sort. Talk to him. If you have any criticism of the church or its methods, don't talk about it on the outside, but tell him. He'll meet you half way. None realizes more than he how hard it is to work up an interest in religious affairs among some people.

But give him and his church a chance.

Go to church once!

Then go again!

May, A. D. 1914, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. at the court house door of said county, I will offer for sale, and sell at public auction for cash, all the right, title and interest of the said S. B. Pugh in and to said property.

Dated at Pecos, Texas, this the 13th day of April, A. D. 1914.

### HOW TO COOK RAISINS.

Raisins are delicious when returned to their original form as near as may be possible. Soak them, simmer them. The result will be most pleasing. Fireless cooker gives perfect results. Raisin juice extracted in cooking is simply unfermented grape juice and is very pleasing and nourishing to weak stomachs.

In bringing out the good qualities of puddings, cakes and mince pies, the California raisin has no rival. There are many uses to which raisins are adapted that are just becoming known. The are good, every-day food—an unrivaled health food. The following recipes convey some of the new ideas.

The baker who first made Raisin Bread conferred an everlasting blessing on children. The sugar in the raisin satisfies their natural appetite for something sweet. When properly baked in bread it gives them an ideal food of cereal and fruit. It takes the place of un-

Rice Pudding.—Boil rice until tender. One quart milk, 3 eggs beaten light, 4 tablespoons sugar, 1 teaspoon vanilla, 1 1/2 cups cooked rice, 1 cup seeded raisins. Put in dish, grate nutmeg over top and bake until brown.

Raisin Cookies.—Two eggs, small cup of shortening, large cup sugar, 1 cup rolled oats, 1 cup chopped raisins, 2 cups sifted flour, 1/2 teaspoon cinnamon, 1-2 teaspoon nutmeg, 1 teaspoon soda and sour milk for very stiff batter, drop in pan with spoon and bake. Sweet milk and baking powder can be used instead.

PUBLICITY PARAGRAPHS.

Advertising is the voice of business.

Advertising is the advance agent of salesmanship.

Advertising don't pay unless the advertised product has merit.

Men have accumulated fortunes by the persistent use of printer's ink.

The recollection of quality remains long after the price is forgotten.

An article that is worth advertising at all is worth advertising well.

Newspaper advertising is the greatest force in the business world today.

To conduct business without advertising is like trying to eat without food.

Late to bed and early to rise, hustle all day and advertise, has made many a man wealthy and wise.

## REMINGTON UMC CLUB SHOT SHELLS

"The Shell With a Nickname"

WE'RE proud of the fact that gunners have nick-named our black powder loads. To go around the country and hear them talk about "The Old Reliable Yellow Shells" feels as good as a cheery greeting and a slap on the back.

New Club Shells are really the premier black powder shells of this country—Standard for over 50 years.

The No. 2 Primer gives a snappy ignition—sure and quicker than you usually find in black powder shells.

Remington-Union Metallic Cartridge Co.  
299 Broadway New York

### NOTICE OF SALE.

The State of Texas, County of Reeves.

In the District Court of Reeves County, Texas, April 13, A. D. 1914.

Whereas, by virtue of an order of sale issued out of the District Court of Reeves County, Texas, on the 13th day of April, A. D. 1914, upon the following described judgment to-wit:

"M. E. Solman vs. S. B. Pugh, No. 714. December 3, 1910.

This day this cause being regularly reached and called for trial came the plaintiff by his attorney and announced ready for trial, but the defendant, although duly served with citation, came not, but wholly made default, whereupon, no jury being demanded, the matters in controversy, both of law and of fact, were submitted to the court, and it appearing that plaintiff's cause of action is liquidated and proved by instruments in writing, signed by the defendant; it is ordered that the clerk assess the damages accruing to the plaintiff by reason of the premises, and the

### NOTICE OF TRUSTEE'S SALE.

State of Texas, County of Reeves.

Whereas, by virtue of authority vested in me, as substitute trustee, named in lieu and in place of the trustee appointed in certain deed of trust, recorded in Volume 20, page 385, records of real estate mortgages of Reeves county, Texas, executed and delivered to the said trustee therein named on the 25th day of June, A. D. 1913, by W. C. Crowder, for better securing the payment of seven certain promissory notes as follows: \$250.00, \$250.00, \$500.00, \$500.00, \$500.00 and \$500.00, and such other indebtedness as may thereafter accrue, more fully described in said deed of trust, executed by said W. C. Crowder, payable to the order of J. M. Radford Grocery Company, at Abilene, Texas, dated June 25, 1913, due July 10th, 26th, August 10th, September 10th, October 10th, November 10th, and December 10, 1913, respectively, less credit of \$16.88 on November 10, 1913, executed by the said W. C. Crowder, bearing 10 per cent interest per annum from date until paid, interest due and payable annually, as it accrues, providing failure to pay either said notes or other indebtedness or any installment of interest thereon when due, shall at the option of the holder of the said notes or other indebtedness, or either of them, mature each thereof, and in such event the holder thereof may proceed to collect the same in the same manner as if the full time provided in said notes or other indebtedness had expired, and also providing for the payment of 10 per cent additional on the amount of principal and interest then due as attorney's fees, if placed in the hands of an attorney for collection.

And whereas, the said J. M. Radford Grocery Company is the owner and holder of said above described notes and said other indebtedness as provided for in said deed of trust, which is represented by an open book account incurred by the

said W. C. Crowder aggregating in amount the sum of \$522.30, and the said W. C. Crowder has made default in the payment of said notes and book account, aggregating a total of \$4,144.92, above described, now past due and unpaid, principal, interest and attorney's fees, by reasons thereof and as provided for in said notes and open book account and in the said deed of trust, the said J. M. Radford Grocery Company has declared said notes and open account and all of said indebtedness immediately due and mature and has heretofore notified the said W. C. Crowder, in writing; and, whereas, I have been appointed substitute trustee by the said J. M. Radford Grocery Company, under and by virtue of the terms of said deed of trust, and have been requested by the said J. M. Radford Grocery Company to enforce said trust, I will offer for sale between the legal hours thereof to-wit: between the hours of 10 o'clock a. m. and 4 o'clock p. m., at public auction, to the highest bidder, on the first Tuesday in May, A. D. 1914, the same being the 5th day of said month, at the court house door in the town of Pecos, in Reeves county, Texas, the following described property, to-wit: All of section No. 39, in Block No. 56, public acres out of the southwest corner of said tract heretofore sold to Mr. Arthur Iongbotham, containing 600 acres of land, more or less.

This sale is made subject to prior lien in favor of the state of Texas, covering balance of purchase price of said land, together with past due interest and all unpaid taxes.

Witness my hand this 9th day of April, A. D. 1914.

### PERSONAL MENTION.

(From Saturday's Daily)

Miss Lena Boles went out to the Prewit and Wadley ranch near Sargent this morning for a visit with her sister, Mrs. Elmer Wadley.

R. P. Verhalen went out to his ranch this morning after spending a few days in Pecos, circulating among his numerous friends.

Trav Windham, who has been in Pecos for the past week, left this morning for his ranch in the Barrilla Draw country.

M. T. Budaly, one of Grandfalls' prominent farmers is a Pecos visitor today.

H. Stokes of Grandfalls was a Pecos business visitor yesterday.

J. A. Heberle of Toyah was greeting his many Pecos friends yesterday.

Abbie Herbert of Saragosa was a visitor in Pecos yesterday.

W. W. Stewart of Balmorhea, was among the many business visitors in Pecos yesterday.

Delbert Hankins, from Hay Flat, was in town yesterday on business.

S. T. Kelsey, one of Toyah's prominent citizens, was a Pecos visitor yesterday.

Andrew Hedgeblom made Arno a flying business trip Friday.

Rudolf Hoef, from his farm, was in town Friday for supplies.

Ben Castle, who has been attending court here, returned to his home at Toyah yesterday on No. 5.

Mrs. Frank Kistler, Mrs. Hesie, Mrs. Luckett, Miss Maggie Coker and Lorine Hosie were down from Toyah yesterday, visiting friends here.

(From Monday's Daily)

A. E. Addens, from his farm near Panama, is a Pecos business visitor today.

Belton Short has a very painful burned hand, caused by a mass of hot rosin being poured into it.

Lee Gambell of Oklahoma will leave this afternoon for his home. He is favorably impressed with the prospects of this country and holds a large interest in the Toyah oil wells.

Mrs. Winslow of Pecos will leave this afternoon for a short visit to El Paso.

Mrs. Looner, who had been on a visit to Los Angeles, California, stopped off in Pecos Thursday and Friday while on her way home and visited her daughter, Mrs. Marcus Snyder and family, leaving Saturday for her home at Colorado City.

R. B. Thurston was a Pecos visitor Sunday and worshiped at the Methodist church. Was at the Sunday school and recited with the Bible class.

Messrs. J. G. Love and T. Y. Casey took a pleasure trip to the town of Toyah yesterday, going on No. 5 and returning on No. 6. They must have enjoyed the trip for they returned with a happy smile adorning their countenances. It has been suggested that they struck some of that Toyah oil.

Mr. Briggs, of Barstow, one of the alfalfa kings, autoed over to the city this morning.

T. Y. Casey and Jack Love made Toyah a flying trip yesterday.

Harry Woods, who has been in El Paso for the last week, came home Sunday after having spent a most delightful time.

Mrs. Garlick spent Sunday with relatives in Toyah.

M. L. Roddy made Van Horn a visit yesterday, returning in the afternoon.

Ed Doty came in from Toyah on No. 6 yesterday.

Earnest Hamlett of Odessa came up yesterday to spend the day with friends.

Mr. and Mrs. S. M. White, after spending a few days here with their relatives and numerous friends, returned to their home Saturday at Van Horn.

Mrs. Fayette Duncan, daughter Grace and Winnie and son George were down from their ranch to spend the week-end with friends and relatives.

Mr. and Mrs. Henry Myers of Toyahvale were Pecos visitors Saturday.

Mr. and Mrs. Sheppard of Balmorhea were in town Saturday visiting among friends and relatives.

W. M. Beauchamp of Balmorhea was a visitor in Pecos Saturday.

David S. Butler of Saragosa was a Sunday visitor in Pecos.

Lewis Wilson was up from Verhalen Sunday greeting his numerous Pecos friends.

F. L. Parker of Grandfalls was a Pecos visitor Sunday and this forenoon while on his way up the Pecos valley in New Mexico on a business trip.

R. E. Tucker was visiting friends in Pecos Sunday.

Jno. T. McElroy, the popular president of the Pecos First National Bank was visiting among his numerous Pecos friends and looking after his interests here, Saturday.

Howell Johnson, one of Fort Stockton's popular attorneys, was greeting his many Pecos friends Saturday.

Messrs. J. E. Cope and D. Turrington, two of Pecos county's prominent ranchmen, made Pecos a business visit Saturday.

J. H. Renfro was in from the U ranch Saturday shaking hands with his many Pecos friends.

The pencil pusher of the Ward County News gave the Pecos Times a very pleasant social call today. Expressed himself as having renewed hopes of the outcome of the Pecos valley and more especially Ward county.

(From Tuesday's Daily)

Messrs. Honeycock and Johnston left this morning for their claims in the Davis mountains for a stay of two weeks. Dad Green accompanied them and will enjoy a fishing and hunting rest.

Sheriff Cantrell from Barstow, is over this morning in search of a Mexican.

A. J. Bumgarner is in Pecos from his ranch near Riverton, circulating among his many friends here.

Cash paid for hair combings. Switches made from combings. Satisfaction guaranteed. Mrs. Hunter. 18-1

ONE WELCOME ORDER. (El Paso Herald.)

Removal of the Mexican federal prisoners from El Paso to Fort Wingate, N. M., removes at the same time a menace to El Paso's peace of mind. In so saying, there is no thought of questioning the ability of Col. Loughborough and the 20th infantry to keep the prisoners within the stockade. Colonel Loughborough has been 40 years in the United States army and does not have to be reminded of his duty in the least detail. He has maintained the strictest sort of watch over the prisoners and at no time has there been any danger that any of them would escape. The system inaugurated by Col. Loughborough has been absolutely perfect, quiet and order have prevailed every moment of the time, every humane consideration has directed the activities of the troops on guard, and there has not been the slightest indication of any purpose on the part of the prisoners to make trouble.

At the same time it has been felt by many El Pasoans that in case any disturbance should arise on the border or in the city, troops that might be needed to protect El Paso would necessarily have to be with

held to guard the prisoners both from their own possible attempts at rushing the stockade, and from possible attempts from outside to liberate them. For it would not be comfortable to have even a few get away at a time of public disturbance. Col. Loughborough's confidence has been shared by the people, and yet he and his regiment will no doubt be as glad to be rid of this unwelcome task as the people of El Paso will be to have the prisoners removed from their vicinity.

Removal to Fort Wingate will put them beyond the possibility of any attempt from outside to aid them to escape, and will put them as far from the border that there would be no inducement for them to leave voluntarily, with the certainty of being caught before they could get far.

The act of removal is appreciated by the people of El Paso, who are disposed today to congratulate Col. Loughborough and the 20th on being relieved from this most unpleasant duty of a soldier, at the same time to congratulate him and his regiment upon the splendid manner in which they have fulfilled their trust.

**ADOPT FORT WORTH "TRUTH EMBLEM."**

Fort Worth, April 29.—Word was received here recently by members of the local advertising club apprising them of the fact that the Associated Advertising Clubs of America, which had been holding a meeting in Indianapolis, Ind., have adopted the "Truth Emblem" of the Fort Worth club. The plan to use the emblem of the local club will be finally ratified at Toronto, Canada, in June when the International convention comes off there. The adoption of the truth emblem by this association means that the Fort Worth plan will be used by the Associated Advertising Clubs of America, Canada and Great Britain and is considered quite an accomplishment for the Ad Club of this city. J. Montgomery Brown, a local citizen, is the originator of the "Truth Emblem" and deserves a great deal of credit for its adoption by the executive committee at Indianapolis.

Feterita seed at Prewit & Wadley's. 18tf

### FEED FOR DAIRY COWS.

Prof. J. W. Ridgway, professor of dairy husbandry at the A. and M. College, suggests the following feed for dairy cows: "For a grain ration or a concentrated ration, I would suggest equal parts, by weight, of cold pressed cotton seed cake and wheat bran for every two and one-half pounds of milk, feed one pound of this mixture. As an illustration, if the cow is giving three gallons of milk daily, then she would have ten pounds of the above mixture, five pounds at a feed. In connection with this grain or concentrated food, she should have as much Johnson grass hay as she will eat up clean.

"If it is preferred to feed the cotton seed meal instead of the cake, then you can substitute three pounds of cotton seed meal instead of the five pounds of cake and you will get practically the same results, and it would cost very little if any more."

### SKIN DISEASES CURED.

Hunt's Cure is the name of the remedy which is absolutely guaranteed to cure all forms of skin disease or the purchase price promptly refunded. Wonderful results are obtained by its use, curing cases that would not yield to other treatment. Ask your druggist. A. B. Richards Medicine Co., Sherman, Texas. (Adv.)

### YOUTH NECESSARY TO SUCCESS.

Nature has approved the great law of change, eternal change, in this wide universe. Conditions and systems are ever on the change. The things that contribute to our success today may contribute to our failure tomorrow. It has been said that this is the day for young men. It is. It has always been. There is no excuse for age. Man is no older than he feels, and to feel old is to surrender his moral courage and acknowledge defeat.

The reason that so many men are placed on the shelf, so to speak, is because they insist on using over and over again the same methods by which they achieved success in the years gone by. This is impossible. It is unnatural, unbusinesslike, deplorable. If change was not ordained by nature, then the era of advancement would cease, in fact no advancement would ever have

been made. This is the very reason that places man high above the brute creation. It is the creative genius of man that impels the race forward. It is the principle of advancement.

Even education is changing. A man must keep acquiring knowledge if he expects to remain informed. The machinery used one or two decades ago is entirely out of date. The man who pursues the same business tactics today that he followed a few years ago is rapidly traveling the road to bankruptcy. He will be supplanted as surely as the sun moves. The great wheels of progress will crush him. The laggard certainly will fall beneath the discipline of advancement. It is the lack of that impelling, soul-stirring, rock-bound principle of creative genius, generally known as hard work and keeping overlastingly at it.

Barbed wire cuts, ragged wounds, collar and harness galls, heal up quickly when BALLARD'S SNOW LINIMENT is applied. It is both healing and antiseptic. Price 25c, 50c and \$1.00 per bottle. Sold by Pecos Drug Co. (Adv.)
