## Fish Fry Enjoyed by the Fire Department

Feast Royal is Accorded Pecos' Fire Fighting Crew at the Sixteen Mile Dam Friday Afternoon

On last Friday evening the fire boys held themselves to the sixteen-mile dam on the Pecos River for a fish fry. Chief Kiser and Marshal Roddy preceded the bunch and caught the fish, prepared them, and made ready for one of the grandest affairs of the season.

Kiser and Roddy had prepared for the skillet thirty or forty pounds of as fine catfish as ever a man flopped his lip over, and Joe Caroline, Jr., and Walter Stevens fried them to a queen's taste. Besides the fish the boys had plenty of rye bread, hamburger steak, cheese and pickles.

About twenty firemen and guests enjoyed a feast on this occasion, the editor being one of the guests at the affair, and to say the least it was one of the very best affairs pulled off in Reeves county, and saying this full justice is not done the occasion.

The fish was browned to a queen's taste, the hamburger, prepared by that old-timer and expert in that line, C. E. Buchholz, was as fine as ever a man flopped his lip over, and the cheese and onions were the hot stuff.

The Enterprise editor hopes that these boys will repeat this occasion often, and that he may be a guest on all occasions of this character. It was a time worth while and one which will be remembered as the days go by as one of the best yet had by the Pecos boys.

## ANOTHER ANSWERS CALL TO THE COLORS

Tom McClure is the latest addition to the great National army from Pecos, and he will leave Sunday night for Camp Bowie and take up his duties at once.

Tom will be one of the right hand men to Major McCamant in the Dispensary Department of the Hospital Corps. He is a pharmacist of the first-class, having had experience in this line for a number of years at the City Pharmacy.

## NEWLYWEDS VISIT PECOS

Mr. and Mrs. Burt Sherfey, of Roswell, N. M., were Pecos visitors the latter part of past week and the forepart of this. They were married the past week and were visiting here, being the guests of Mr. and Mrs. D. J. Moran during their stay.

Mrs. Sherfey will be remembered by Pecos friends as Miss Arline, the youngest daughter of Mr. and Mrs. J. B. Cotten, who resided in Pecos and Reeves county for several years before moving with the family to New Mexico.

The bride has many friends in this county and it is hoped that she will have a long life of happiness and prosperity.

## Large Meteor Falls Near Hillsboro

Is Probably the Same Meteor Seen by Pecos Citizens Monday Night—Is Large as Ordinary Automobile

A meteor weighing several tons fell on the night of October 1 and completely buried itself on the farm of Harry James, two miles south of Hillsboro, Texas. Many persons saw the meteor which was the size of an ordinary automobile, falling through the air and there was some excitement in the vicinity.—Dallas News.

A meteor which answers to the description given in the above special to the Dallas Morning News, was seen by citizens of Pecos about 10:25 Monday night. It was a very brilliant affair and was traveling in a northeast direction, and when seen was southeast of Pecos, and was rapidly approaching the earth. It was so brilliant that the reflection from it lighted up the earth sufficiently that shadows could be seen.

The meteor fell near Hillsboro at about 10:25 Monday night. It was a spasm of nature that but few have had the pleasure of witnessing, and one they may never see again equal to it. The writer has had the pleasure of seeing two of these large and brilliant meteors, the first one fell in Tarrant county, or rather exploded into thousands of sparks, in May, 1885; the second he witnessed while on a street in Pecos Monday night, in conversation with W. J. Lewis, agent at the T. & P. depot.

## NEW MOTOR-CAR AND NEW TIME TABLE FOR P. V. S. Ry.

The Pecos Valley Southern Railway officials advise that the new motor car which is to run between Balmorhea and Pecos is just about completed, and hope to have it in operation not later than October 7th. They have been delayed some, waiting for parts from the factory, caused by the large demand of the Government for White Motor Cars, but everything is now on hand, and the car is receiving the finishing touches. Mr. A. E. Wilcox will be the motorman temporarily, if not permanently, and the car will be scheduled to lay over at Balmorhea at night, leaving there somewhere 7 a. m. and arriving in Pecos about 8:45 a. m., leaving Pecos on the return trip about 5 p. m. This will give Balmorhea and other town of the Valley country splendid service and we believe the company is making a good change.

The new time table which is effective Sunday, October 7th, was printed this week at The Enterprise office. The company will, in the future, use commutation tickets, which will prove very convenient for the traveling public over this road.

The cases of Jno. T. McElroy vs. the T. & P. Railway Company, et al, filed here have been removed to the Federal Court of Reeves county.

## Letters from Our Liberty Boys in Camps

Interesting Letters to Loved One That Indicate, Forcibly, Willingness With Which They Serve.

The following letters from Pecos Liberty Boys to loved ones here, are interesting. They disprove the fact that draft service is repugnant, and the note of willingness to sacrifice all for the cause of world democracy can be detected. They are satisfied with their lot, and we are proud of them.

The letter are from widely separated points, and this adds to their interest. The Enterprise would like to have several such each week to publish, so if you get a letter from one of "Our Boys", let us publish it. This request, of course does not include correspondence between sweethearts.

Camp Travis, San Antonio, September 27, 1917

Dear Ones at Pecos:

Just received your letter. Was glad to hear from you. Yes, I appreciate anything from home, will be glad to read anything.

Some things here I don't especially like, yet it is a big benefit to me and I intend to make good on everything.

We have church twice a week. Also three shows a week—free to all.

We do drilling or at least try the different steps, on Monday, Tuesday, Thursday and Friday. We have a lot to learn, but, oh, we are going to learn it. No drilling on Wednesday, Saturday or Sunday; can go where you please. I visited the Alamo last evening, I don't often go to town. You see, its not so bad after all, and I'm going to like it. It will make a man out of any one to learn to do things quickly.

I have been vaccinated against the smallpox. It is taking from the way it looks and it may be bad. Had one shot of typhoid vaccine, also, and two more to take.

Considering everything we are all treated nice. This sacrifice was made for Our Country, and it is my duty to be in line with the other boys and, again I repeat, I intend to put forth the best efforts of my life. I will be with you again some day. Write me often.

Your affectionate brother,

ELMER YOUNG.

Fort Jay, New York, September 29, 1917.

Dear Mother:

Landed in New York all O. K., and am feeling fine. Came across to Governor's Island on a steamboat, and will be here for some time. The thing we must submit to is vaccination.

Our branch of the service is under military rule the same as the soldiers in the ranks.

All mail that leaves here is censored.

We sure went through a bunch of tunnels coming to New York, and we either went over or under most of the cities we passed through enroute.

I enjoyed the trip fine; trees all the way from San Antonio.

The steamboat whistles keep up a continual roar here.

Will write you again soon.

Your son,  
NATHAN.  
Address: N. M. Slover, Motor Machine Truck Co., Unit No. 3, Ft. Jay, New York.

Camp Bowie, Sept. 29.

Dear Nannie:

I was very glad to receive your letter some few days past, but was really surprised at the idea you seem to have of our camp life, etc. If you want to go to one of the nicest and most sanitary places in the country, why go to any army camp. Every Saturday we are lined up and inspected, not only our clothing and outward appearance, but every few weeks, at most, an examination is made for the appearance of disease. Our mess-shacks are long, open-sided buildings, with two long tables and seats made together, extending from one end to the other. This is all well screened and it is very seldom you ever see a fly in there. The kitchen and store room is a prolongation of the shack, and is also screened. Then right in the company street near the kitchen is an incinerator, a large dug hole. This is kept filled with rocks and a hot fire is kept going most all day on top of the rocks. All waste water and the hot rocks keep it evaporated. Then large slop cans with covers are

## Art Exhibit For Public Schools

Three-Day Exhibit of Reproductions of World's Masterpieces—Lectures Will Be Given Each Day.

On Wednesday afternoon, October 10th, from 3 to 6 o'clock, there will be opened for public inspection at the high school building a splendid art exhibit. The exhibit will remain here during Thursday and Friday and the public is cordially invited to visit the building during the hours specified. A general admission of ten cents will be charged and one ticket will admit the bearer to the exhibit any or all of the days it may remain. The exhibit consists of two hundred mounted reproductions of the masterpieces of the world as well as photographic prints of many famous buildings and places.

For convenience of study, the different Schools of Art are grouped together and catalogs will be sold which may be used to study the different pictures. As a further aid the following ladies have very kindly consented to lecture on the various schools at the hours noted:

On Wednesday afternoon from 3 to 3:30, Mrs. Hugh Roberson will lecture on Greek and Roman Art; from 3:30 to 4, Mrs. J. W. Parker on English Art; from 4 to 4:30, Mrs. J. E. Starley on Modern Art; from 4:30 to 5, Mrs. Woody Browning on French Art; from 5 to 5:30, Mrs. Chas. Parker on Dutch Art.

Thursday afternoon from 3 to 3:30 Mrs. H. H. Johnson will lecture on Modern Art; from 3:30 to 4, Mrs. T. Y. Casey on Italian Art; from 4 to 4:30, Mrs. George Finley on French Art; from 4:30 to 5, Mrs. Charles Parker on Dutch Art; from 5:30 to 6, Mrs. R. C. Warn on Greek and Roman Art.

Wednesday afternoon will be Senior Class Day, and the parents of the Class are invited to be present in the receiving line and welcome the visitors.

Thursday afternoon will be Club Day and the presidents and members of the various clubs will act as hostesses.

On Friday afternoon the out of town schools are most cordially invited to come in a body and be the guests of the local school.

Two pictures contributed by the Elson Art Co., and framed as the compliments of the Pecos Mercantile Company will be given to the room in the grammar school and the high school which sells the greatest number of tickets. This will be a splendid opportunity to select a Christmas gift as there is nothing which makes a more appropriate gift than a well-selected picture.

All proceeds from the sale of tickets pictures and catalogs will be put into pictures for the various rooms of the school. The children are now engaged in the study of a number of the more familiar pictures preparatory to the coming of the exhibit.

On Friday evening in the high school auditorium the Parent-Teacher Club will render a program to which all are invited. As this is an open meeting of the Club and the pictures will still be on exhibition, the evening should be delightfully spent.

Respectfully,  
THOS. J. YOE.

provided for the scraps and slop and this is hauled away. The toilet and bath house (one for each company) is cleaned and disinfected every day, so we are pretty nice people after all.

We have a hay mattress to put on our cots, and at present have three good wool blankets (and they are blankets, too), and if you want to get any extra for yourself it is permissible. We had our raincoats and third blanket issued this morning.

I would be tickled for you and the folks to come as you suggested, but I fear it would not work very satisfactorily. In the first place my transfer has been under consideration for two weeks now and I may leave most any day and may be here for months. I can't tell, but are hoping it will not be very long. And besides they are very strict about letting boys out except at times. We usually have Saturday and Sunday off, but not always. Well, I suppose I had better close. I am thinking of going to Waxahachie this afternoon, but will have to be back by Sunday morning at nine for muster, so we can get pay and not be court-

Let me hear from you when convenient.  
Your Bud,  
J. R. H.

## To the Public

PECOS, TEXAS, SEPT. 27, 1917.

As prices of casings and repair material have increased, it is imperative that we make a move along the same line.

However, instead of revising our regular prices, we are notifying our customers and the public that, beginning the 1st of October, 1917, we will do a strictly cash business. Thus we can give you our best workmanship at our present prices.

We are handling a line of FEDERAL and UNITED STATES TIRES, and all the necessary accessories that go to comply with your tire needs.

If you have any tire troubles, bring them to us and we will guarantee to save you money, either by repairing your old casings and tubes or by selling you a new one.

Very respectfully,

## Third Quota Leave for Training Camp Monday

Last of Original Thirty-Eight From Reeves and Loving Counties Receive Call to the Colors

On Monday the remainder of the original thirty-eight, Reeves and Loving counties percentage of the first quota of the National army, will leave for the training camp.

The quota comprises 11 of our boys as follows:

James Harbour.  
Voyl Beck.  
Clay Ezell.  
Geo. Stewart.  
Moise Rallaz.  
Baldomiro.  
Clem Calhoun.  
Homer Christian.  
Severino Hinojos.  
Fred Landreth.  
Add Eddins.

Ways and means should be put under way right now to give these boys a fitting send-off. The extent of their sacrifice has been told often enough to make us appreciate it, and any thing done to make the parting from home and loved ones less severe should be done with a will. It is as much our duty as it is theirs to go.

## I. J. SIMS ELECTED ALDERMAN

In the special election held in Pecos Tuesday for the purpose of electing an alderman to fill the vacancy in the City Council, caused by the death of M. H. Schermerhorn, I. J. Sims was elected. Very little interest was taken by the citizens, only 54 votes being polled, Sims receiving 42 and John Hudson 12.

## Turkey Day for Pecos, November 20th

Success of Last Turkey Day Should Be Incentive to Make This Great—Price May Be Higher

November 20th has been selected by the business men of Pecos as "Turkey Day." This will be a fine opportunity for turkey raisers within the Pecos trade territory to sell their birds, as they will be sure to get the best possible prices on that day. All turkeys offered will be taken, and prices that will more than repay you for the trouble of raising and marketing them.

As was the case last year, special prizes will be given by the Pecos business men, and a list of these will be published at an early date. Everything possible will be done to aid the raisers of turkeys and to make the day a big success.

Last year the day was all that could be asked for, and those who marketed their birds in Pecos went away rejoicing, while many who were afraid to take chances regretted their action.

The prices, naturally, will be much higher than last year, and as competitive bidding will be the order of the day good prices are guaranteed.

Turkey raisers are urged to get ready for "Turkey Day" and have their turkeys in the very best of condition and have them in Pecos on Tuesday, November 20th.

## ENTERPEANS WILL MEET

The Enterpean Club will hold a regular meeting tomorrow, Saturday, October 6th, at 3 o'clock p. m. All members are urged to be present.

### THE KID HAS GONE TO THE COLORS

The kid has gone to the colors and we don't know what to say; The kid we loved and cuddled Stepped out for the flag today. We thought him a child, a baby With never a care at all, But his country called him man-size And the kid has heard the call.

He paused to watch the recruiting, Where, fired by the life and drum, He bowed his head to Old Glory, And thought it whispered "Come!" The kid not being a slacker, Stood forth with patriot joy, To add his name to the roster, And, God, we're proud of the boy!

The kid has gone to the colors, It seems but a little while Since he drilled a schoolboy army In truly a martial style. But now he's a man, a soldier, And we lend him listening ear, For his heart is a heart all loyal, Unscourged by the curse of fear.

His dad, when he told him shuddered, His mother, God bless her, cried; Yet, blest with a mother-nature, She wept with a mother-pride. But he whose old shoulders straightened

Was Grandad—for memory ran To years when he, too, a youngster, Was change by the flag to a man. —William Herschell in the Indianapolis News.

### TICK ERADICATION BOOMING

With active work for tick eradication proceedings in 332,251 square miles of southern territory, the U. S. Department of Agriculture and State officials are decidedly hopeful that their cooperative goal—"a south entirely free from the cattle fever tick in 1921"—will be attained. Twenty thousand eight hundred and eighty-two dipping vats were in commission in August, and during that month 522,541 different herds, comprising 4,319,554 cattle were being dipped regularly every two weeks. A force of 1,901 Federal, State, and county officials and inspectors were actively employed in getting rid of the cattle pest. When the territory now being worked is entirely freed from ticks there will remain only a comparatively small quarantined territory in the entire South.

Mississippi led with 187,330 herds, and 1,373,952 cattle dipped regularly in 6,583 vats. This work, it is believed, shortly will clean out the tick from 45,176 square miles of territory and free the entire state from quarantine this year. Louisiana was second in number of cattle dipped and Alabama, third, each dipping over 600,000 animals. Arkansas was a close third with 648,000 animals dipped.

Texas, where dipping recently has become active, is handling 295,592 cattle, but leads all the States in area handled, with over 65,000 square miles being worked. Florida, where cattle are not so numerous, is second in the area covered, with 53,111 square miles of territory. One of the most hopeful signs is that the State Legislatures of Georgia, Louisiana, Texas, and Arkansas have made dipping of cattle compulsory.

E. T. Cobb of Glasscock county, arrived in Pecos Monday afternoon, and left Tuesday over the Santa Fe for points up the Pecos Valley in search of pasture for a string of fine heifers he recently purchased. Ed owns a fine ranch down where he lives and is one of the West Texas stockmen that believe in diversification. He has on his ranch some cattle, hogs, sheep, and operates a small farm which he irrigates from wells, and now has growing on a part of it sorghum that was planted in August and has some part of the farm in wheat. He says that a man can't depend entirely upon one or two products, either farm or stock, and make any great success.

Wool growers should cooperate in order to obtain the full market value of their product; enough growers should unite so that several thousand pounds of each grade of wool can be marketed at a time.

### THE CHEERFUL CHERUB

I feel constrained today to show A little burst of speed. As also does my faithful dog And eke my plunging steed.

### GOD KNOWS HOW

"God knows how" the American State department got hold of the mass of incriminating German diplomatic documents that it is now publishing to the amazement and chagrin of the Wilhelmstrasse and to the confusion of the much-bragged of espionage system of the Boches. Thus a German newspaper man bursts forth; and despite weak denials and half-hearted jeers the effect upon the German press and undoubtedly soon upon the German public of these exposures is profound. They constitute a sensational coup; and the work of the secret service in securing them is highly gratifying to Americans who have shared the superstition that there was something unbeatable and baffling about the German safeguards for official secrets.

That we are living in a day of truth that is stranger than fiction is pointed out by the Indianapolis Star, commenting upon the official revelations and other mysteries which are developing and being unveiled in private life.

The Star says: Readers of detective stories find the most of them tame this year, their mysteries falling short of those involved in the news columns of the daily papers. Of course in most of these news stories the mysteries are not explained, but are left for the imaginations of those who read to deal with.

For example, people would like to know how our government obtained possession of the contraband dispatches sent by the German minister from Argentina. They would like to know how our secret service officers manage to uncover plans of the enemy to block our interests in regard to munitions, shipping, and industrial progress and the like. Of course, they are not told, but curiosity in regard to these actual performances checks their interest in the most ingenious deeds of the detectives of fiction. The secret service men are greater objects of interest.

The mysterious crimes of private life in recent weeks rival the wildest imaginary plot on record. There is the case of the New York bank president who, it is announced months after his death, was guilty of the embezzlement of \$300,000, all taken from the funds of a customer of the bank of which he had special charge. His salary was \$25,000 a year, he had no vices of which any one knew and he lived a quiet life, though separated from his wife and daughters. It is supposed that the money all went to his family, though no one knows definitely what he did with it. Another mystery stranger than fiction.

There, too, is the case of Mrs. King a Chicago widow, murdered in a little town in North Carolina. She had inherited a large fortune from her husband, but her death discloses a tale of intrigue in which half a dozen men and women are involved, their purpose evidently being to deprive her of her possessions. A forged will and all the other "properties" of the most lurid movie tale figure in the affair. The writers of detective stories have a difficult task before them in producing fiction with plots equal to the facts described in daily records of actual events. After all, the most gifted imagination cannot transcend reality.—Santa Fe New Mexican.

A bull with a good beef form and a marked tendency to early maturity is a prime requisite in producing baby beef.

### CATTLE TICK VOTED OUT

Cattle ticks must leave Harris County, Texas. The voters of that county have so decided at a recent election. The law, which passed by a safe majority, provides for a compulsory dipping of cattle throughout the county. It means that Harris County will not have to wait until 1922, when the State compulsory dipping law is effective in that section, to be tick free. This is the second, southeast Texas county to anticipate the State law, Jefferson County having voted for tick eradication some time ago.

In discussing the action of the Texas counties officials of the Bureau of Animal Industry of the U. S. Department of Agriculture said the step taken by Harris and Jefferson counties might well be followed by other counties of the South that are still in the "red" or tick infested territory. Department officials commend the work of the Young Men's Business League of Houston, which took a leading part on the side of tick eradication in the recent election in Harris County. Farmers' organizations and farmers of the county who had tried and proved the effectiveness of dipping also aided greatly in overcoming opposition. Meetings were held and city voters as well as farmers were made to appreciate the necessity of freeing the county of cattle ticks. Testimonials from farmers, published widely in the county were a strong argument for eradication. Opposition was sure to diminish before such statements as these.

"After dipping my cattle in an arsenical bath, as described by the U. S. Bureau of Animal Industry, and getting ticks off them," testified one Harris county dairyman, "they increased in milk yield 1 quart per cow per day, or a total daily increase of 31 quarts, which meant an increased daily revenue of \$3.40."

Another dairyman said: "We find that our milk cows are giving about twice as much milk and butter now than before we began dipping."

"I want to say," wrote another farmer, "that I have been using arsenical solution prescribed by the U. S. Bureau of Animal Industry and find that it gives entire satisfaction. I have dipped my stock four times this season and they are free from ticks."

The farmers of one community in the county united in this contribution to the literature of the campaign:

"We, the people of this community, have dipped our cattle for the first time and are very well pleased with the results. We have had none of the bad results we were told we would have. Our cows look better and give more milk. We are well pleased and are solid for tick eradication."

County-wide dipping in Harris and Jefferson Counties under the supervision of State and Federal inspectors will begin as soon as equipment can be made ready, it was said. There are only about 45 dipping vats in Harris County at present, according to the Federal Inspector in charge at Houston, and it is estimated that at least 100 more will be necessary.

### LIFT YOUR CORNS OFF WITH FINGERS

Tells How to Loosen a Tender Corn or Callous So it Lifts Out Without Pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small Lottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.—Advt.

185,000 AUTOS REGISTERED

Many Texas counties have placed  
traffic squads on highways and will  
cooperate with the state highway de-  
partment in enforcement of the traffic  
law passed by the last regular ses-  
sion of the legislature. The depart-  
ment has registered 185,000 motor cars  
in Texas and indications are that the  
total number will exceed 200,000.

Give peddlers the cold shoulder.  
They have no reputation to sustain,

shake.

WHAT PECOS SAYS

Is Surely of Interest to Times  
Readers.

Pecos people are always inter-  
ested in the statements of  
Pecos residents. And this is  
particularly true when a man  
so well known as Mr. Tyler  
speaks. Those in Pecos who  
suffer from backache, head-  
ache and other kidney ills will  
make no mistake by following  
Mr. Tyler's example.

Robt. P. Tyler, real estate  
dealer, Eight St., Pecos, says:  
"I have used Doan's Kidney  
Pills off and on for several  
years for kidney weakness  
lame back and bladder trou-  
ble, and they have always given  
satisfactory results. They  
act better on the kidneys than  
any other kidney medicine I  
know of. I gladly advise any-  
one to get a box of Doan's Kid-  
ney Pills at the Pecos Drug Co.  
if in need of a kidney medi-  
cine."

Price 60 cents at all dealers  
Don't ask for a kidney remedy

THE DALLAS SELECT MEN

The following from the Dallas Times  
Herald, applies to all soldiers, as well  
as to those from Dallas to whom it  
was indited:

To the Dallas County men who have  
been chosen in the selective draft:  
You men who go to fight tomorrow  
can go to the battlefield with the con-  
sciousness that you are under a com-  
mander who will not sacrifice you  
needlessly. Next to national honor,  
which is also individual honor,—he  
loves you and wishes you and yours to  
be happy.

You are under a commander who  
has interpreted correctly the senti-  
ments of the American people. He  
orders you to the battlefield, not to  
fight for more territory, not to gain  
huge indemnities, not to humiliate  
the German people, but to make the  
world safe for democracy.

Making the world safe for democ-  
racy means that you are making your  
homes safe for your loved ones; that  
you are safeguarding your property,  
and that you are putting down every  
cruelty, jealousy and envy among the  
nations. You are going out to gain  
this victory and you will not return  
until you have won it. We know that  
none of you want to return home  
empty-handed. If you need help your  
commander-in-chief will get it even  
if it takes our last dollar and our last  
man.

Our president has said that we will  
not sheathe the sword until German  
autocracy bows to and acknowledges  
the freedom of men and nations. You  
cannot come home with a compromise.  
You must see it through to the very  
end, cost what it may. Nothing short  
of a complete victory will satisfy the  
American people nor will it satisfy  
you. And our president does not want  
victory to the humiliation of the van-  
quished. He does not want you to  
come home as bragging conquerors.  
On the other hand he wants to see  
you exult over a duty well perform-  
ed, and best of all, a lasting friend-  
ship won with a former enemy who  
will realize that you have performed  
for him a service that will make civi-  
lization our debtor for all time.

Our president has been slow to act.  
We have been impatient with him at  
times. But he has been sure in his  
acting. And then we praised him.  
Some have called him a detective and  
not a diplomat following the embar-  
assing exposures regarding Sweden  
and Germany, but he has played all  
his cards on the table and has caught  
von Bernstorff every time that crook-  
ed politician tried to take an ace from  
his boot.

Woodrow Wilson has earned our  
confidence. He was last to lead us in-  
to war, but he has taken command of  
all the armies of Europe. He writes  
all the important war documents and  
the allies pay him tribute by subscrib-  
ing thereto.

You are going to fight for your  
country, not a king or a potentate.  
But you cannot help fighting for  
Woodrow Wilson, too, for he embod-  
ies the true spirit of Americanism.

You lads from Dallas county are the  
best men our president could find in  
this district. You are the pick of the  
flock. Uncle Sam wants only those  
to fight who are clean in body and in  
mind. Yours is as noble a service as  
man was ever called upon to perform.

Wherever you go you will know we  
are at home looking after your inter-  
ests. Those of us fat and forty or old  
and decrepit will do our tasks with en-  
thusiasm because of your achievement  
in far-off France will be our inspira-  
tion.

We cannot do as much as you are  
going to do. We cannot make the  
sacrifice that you are cheerfully mak-  
ing, but we can help in our small way  
and we make the solemn pledge now  
that we will put down strife and dis-  
sentiment at home, we will crush the  
white feather spirit everywhere we  
find it and we will try in every way  
to be worthy of our sons and broth-  
ers at the front.

When school opened at Moore school  
house last Monday morning only 12  
scholars were enrolled. When it is  
known that the enrollment at this  
school was more than a hundred last  
year, you may form an idea of the fam-  
ilies that have been compelled to  
move somewhere where work could be  
secured.—Big Springs Herald.

HANDS, ARMS,  
LIMBS ASLEEP

And Was Run-Down, Weak and  
Nervous, Says Florida Lady.  
Five Bottles of Cardui  
Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prine,  
of this place, says: "After the birth  
of my last child... I got very much  
run-down and weakened, so much  
that I could hardly do anything at  
all. I was so awfully nervous that  
I could scarcely endure the least  
noise. My condition was getting  
worse all the time...  
I knew I must have some relief or  
I would soon be in the bed and in a  
serious condition for I felt so badly  
and was so nervous and weak I could  
hardly live. My husband asked Dr.  
\_\_\_\_\_ about my taking Cardui. He  
said, 'It's a good medicine, and good  
for that trouble', so he got me 5 bot-  
tles... After about the second bottle I  
felt greatly improved... before taking  
it my limbs and hands and arms  
would go to sleep. After taking it,  
however, this poor circulation disap-  
peared. My strength came back to  
me and I was soon on the road to  
health. After the use of about 5 bot-  
tles, I could do all my house-work  
and attend to my six children be-  
sides."  
You can feel safe in giving Cardui  
a thorough trial for your troubles. It  
contains no harmful or habit-forming  
drugs, but is composed of pure, vege-  
table, medicinal ingredients with no  
bad after-effects. Thousands of women  
have voluntarily written, telling of  
the good Cardui has done them. It  
should help you, too. Try it.

Now is the time to prepare your land for wheat and other winter crops.

The Texas State Fair opens at Dallas Saturday, October 13, and closes October 29th.

The campaign for the second Liberty Bond Loan was started October 1, and is being pushed all over the United States.

An advance of \$12 a bale has been made on cotton in the New York market since the government estimate of the crop was made on Tuesday of this week.

A full investigation of all departments of the State government at Austin has been ordered by the Legislature and will be commenced in the early part of November.

The Government has decided to follow the example of the allies and use gas in war. Might as well form a regiment of I. W. W. agitators and have them shout against the enemy.—The El Paso Times.

The trouble about kicking La Follette and his ilk out of office and politics is that they will go off and bury themselves to the eyebrows in muck, using the remainder of their days as public martyrs.

The G. O. P. of Wisconsin has asked for the expulsion of Senator La Follette from the United States Senate or "treasonable and seditious utterances and disloyalty to our government."

German armies are reported resting under the bombardment of heavy guns. If this is the German idea of resting it is not strange that prisoners are glad to fall into the hands of the British.—El Paso Times.

Those of us who are disposed to criticize Argentina for delaying that war declaration might do well to remember that our own government stood for quite a little from the Kaiser before deciding that too much was a plenty.—El Paso Times.

Governor Hobby has issued a proclamation designating Tuesday, October 9th, as State Fire and Accident Prevention Day. Let every one do what they can to prevent fires and accidents in future. Have all fires examined before putting up stoves.

For the life of us we can't understand the moods of women generally. Many will object to the installation of an oil stove in the home, stating they are "afraid of death" of any kind of an oil contraction, and then spend all day Sunday motoring, while sitting serenely over about ten gallons of bad gasoline.

The war department announced that a third series of officers' training camps would be opened January 5, to run until April 5, for the education of enlisted men of the regular army, national guard and national army of commissions. One camp will be located at Fort Bliss and one at Fort Sam Houston.

The army of children attending the Ohio schools is said to equal, if it does not surpass, the combined military and naval forces of the United States. A record to be proud of. And while this spirit dominates the land Uncle Sam will have no cause to worry for the future of this good country of ours.—Star-Telegram.

To get State and Federal aid on county roads generally, Mitchell county voters have petitioned for a road bond election to bring up the county's section of the Fort Worth-El Paso Highway to requirements necessary to the aid sought. Vote bonds. Progress in road building and road maintenance pays.—Star-Telegram

Now that Ferguson has been impeached and ousted from office, we hope there will be no cessation of the housecleaning at Austin until all departments have given an account of their stewardship. If any are by chance found wanting, it is only as they should be handled in proportion to the degree in which they fall short of the people's trust.

Don't forget to take up all your discarded books and magazines and have them ready for the committee Saturday. These books and magazines will be appreciated by our boys, and we will never miss them.

Of all the things that keep us guessing these days, the attitude of Russia has 'em all shoved off the map. Just as hard to tell what will happen next in Niek's land as it is to pronounce the names of the towns and people.

Another Turkey Day for Pecos! The last one was a hummer, wasn't it? Every turkey, hen, pullet, and feathered critter that was brought in was taken at a price that made the producers happy. Many went away rejoiced that they would be in the procession next year. Well, the time is drawing near. How are you hooked up. We're going to have another "Day" and prices are going to be a good deal better. November 30th is the date selected. This notice gives you good time to get the birds in the best of shape. Hop to it!

Today a tax becomes effective on many articles, some necessary, some not. We have in mind one that is purely a non-essential—cigarettes. It will do to illustrate how the tax applies and who pays it. The tax is declared, the producers raise the price, this makes them come out even. The wholesaler, ditto, and the retailer, whom Hoover says he can't touch, raises the anti something ridiculous. The consumer must pay the tax, the others having got out from under. Taxation is sure h— on big business isn't it?

If the Kaiser should consult us about peace terms we would be frank to tell him that we could never consent to terms of peace with an autocracy. We fully endorse the position taken by President Wilson, Roosevelt and many others on that matter. The Kaiser and his bunch will have to come up a little higher and get on a footing with honest men who regard what is written as more than a "mere scrap of paper," which they can throw to the winds at will. Let the people rule in Germany if Germany wants the fellowship of civilized nations.—Foard County News.

The killing of innocent women and children by German air raids has at last begun to pall upon both French and English citizens. At first to retaliate in like manner was not to be thought of—the mode was too barbaric. But the old adage about the worm turning holds as good today as when coined by the inventor, and a cry has been raised for reprisals of these air raids. France has already given a few German towns a touch of high life, and Lloyd George promises that England will repay Germany in the same coin, with compound interest in a few days. War is—you bet it is.

One of the wholesale liquor houses of Dallas is preparing to move to Fort Worth, and no doubt others will follow, and Fort Worth will be "soused" with wet establishments until even the antis will turn against them. There is no use denying the fact that, the modern saloon will be put out of business, and furthermore, the use of liquor in pro territory is going to be prohibited. We always contended that the only logical conclusion of the prohibition issue was total prohibition. Merely changing from the saloon to the express office does not stop drunkenness and never will. There are signs of a great drought coming, boys, better prepare for it by cutting the stuff out for good and always.—Baird Star.

**INITIAL MEETING OF TWENTIETH CENTURY CLUB**

The Twentieth Century Club held its initial meeting for the year 1917-1918 Wednesday afternoon at the home of its president, Mrs. Weyer.

The commodious porch of Mrs. Weyer's cottage home was beautifully decorated with the National colors and cut flowers. Rugs and easy chairs added to its attractiveness and presented a most hospitable welcome to the home gathering of the members of the club.

Roll call was responded to with reminiscences of the summer and were both interesting and entertaining.

The president's address, outlining a useful year for the club, was listened to with much interest and warmly applauded at its close.

The club unanimously voted to lay aside its interesting study course and devote its time and energies to Red Cross work, and will meet at the regular time at the public school building and sew in the girls' sewing room.

At the close of this session a delicious ice course was served by the hostess, assisted by the two charming young matrons, Mrs. Walter Browning and Mrs. Ben Palmer, Jr.

**STUDEBAKER CAR BURNED UP**

Travelers on the road between Pecos and Toyah brought in reports of a large Studebaker car, practically a new one, being burned up yesterday morning. Those attracted by the smoke found the car and practically the country in its vicinity deserted, and though we have made diligent inquiry, can find no one to claim this car, nor does any one seem to know who did own it.

**NEW FAMILY FOR PECOS**

Mrs. Lou Duncan and children are now bona fide residents of Pecos, and will be during the entire school year. They have secured part of the Mrs. Weyer cottage and are now located there.

**WIVES**

Wives are useful and respected members of society who are allowed to do housework for a living. They are also allowed to bask in the new clothes every spring and fall at so much per basket. Some wives do more basking than baking, but the majority work harder than a section foreman after a cloudburst.

Wives are secured by means of the Marriage contract, which ties them hand and foot, but leaves their vocabulary free to roam at will. Tyrant man has never found a successful way of quelling the turbulent vocabulary of a wife who looks back upon the man she might have had and then begins to compare them out loud with what she got. This is one of the most painful experiences of married life, and causes the proud Castilian spirit of a self-respecting husband to droop and wither like a frosted cucumber vine.

For hundreds of years, prior to the Christian era, wives were counted as household goods and could be mortgaged for about the same sum as a second-hand stove. There was little social etiquette in those days, and the ancient Roman could go down town any Saturday afternoon and buy five or six wives with good teeth for \$2.49. How painful it must have been to become the bride of some alcoholic, red necked Roman to whom one had never been introduced. It is said that Ramesses the Great had 4,900 wives, no two of whom were alike, which probably accounts for the sad, drawn expression which travelers have observed protruding from his mummy.

There has been great melancholy changes since Ramesses' time. Nowadays a man who has one wife is perfectly satisfied to let things stand as they are. All about us in the busy mart of life we hear men clamoring for this or that—for more maple syrup on their pancakes, or more shortening in their biscuits, but never for more wives. This is a beautiful lesson in self-denial which shows how rapidly the world is advancing to a nobler and loftier plane.

Wives have been the making of thousands of men who otherwise would be dodging their poll tax. The average wife has more courage, discretion, horse sense and piety than her husband, and if she ever gets hold of the purse strings there will be less blue sky tucked away in the safe.—Howard Rann.

**BOOKS FOR THE SOLDIERS**

It is hoped that there will be a generous response when the committee calls on Saturday, October 6, for books and magazines to be sent to our soldiers in Texas training camps. The great need of reading matter in these camps has already been stated in the appeal made ten days ago.

Books of adventure, sea stories, detective stories and collections of short stories have been found popular.

On Saturday be ready to do your bit for the men in Texas camps.

**IN THE DISTRICT COURT OF REEVES COUNTY, TEXAS**

November Term, A. D. 1917  
 U. S. PAWKETT, No 1744; vs. A. E. HUGHES, et al.

To all persons interested in the above said suit:

Notice is hereby given that U. S. Pawkett, plaintiff in the above entitled and numbered cause, has filed interrogatories in the above said cause in the District Court of Reeves County, Texas, in said suit, wherein U. S. Pawkett is plaintiff, and A. E. Hughes is one of the defendants, said cause being number 1744; said interrogatories being propounded to the plaintiff, U. S. Pawkett, who resides in San Antonio, Bexar County, Texas, the answers to which will be read in evidence on the trial of said cause; and said Pawkett, through his attorney of record, has also filed an affidavit in said suit in substance to the effect that said A. E. Hughes is beyond the limits of the State of Texas, and is outside of the jurisdiction of the above district court, and that said A. E. Hughes has no attorney of record, and that a commission will issue on or after the publication of this notice to take the depositions of said witness.

WITNESS: S. C. VAUGHAN, Clerk of the District Court of Reeves County, Texas.

Given under my hand and the seal of said Court, at office in the town of Pecos, this the 5th day of October, A. D. 1917.

**Toyah Valley Items**

(From Toyah Valley Herald)

Miss Thelma Balcom left last week for Denton where she will resume her studies at the C. I. A. for the ensuing term.

J. E. Starley, of Pecos, was out last Monday attending a meeting of the Board of Directors of the Irrigation District.

Fourteen cars of cattle were shipped by Joe Eepy last Monday from the Toyahvale stock pens to the market at Fort Worth.

Charley Meyersick and wife of St. Louis, who have been visiting their sister, Mrs. J. F. Meier, left Wednesday for El Paso to visit for a few days before returning home.

C. E. Peck left Tuesday for El Paso, where he will be gone for several days and says that if he can locate a good job in El Paso he may decide to locate there during the winter.

We understand that the new motor car on the P. V. S. will be given a try-out in a few days, and that as soon as the necessary arrangements can be made the regular schedule will be announced.

Rev. J. F. Lloyd of Pecos, filled his regular appointment with the Presbyterian congregation at Balmorhea last Sunday morning and night, and left for home on the northbound train Monday morning.

The board of directors of the Irrigation District began the erection of an office in the lots just across the street from Hourigan's blacksmith shop, Monday morning. The building will probably be ready for occupancy next week.

Lee Kingston returned home last Sunday from Baird and reports the country along the T. & P. from Pecos on east, as in pretty bad condition. Says most of the range country in Midland, Howard, Taylor and Nolan counties are in pretty bad shape and that conditions in Reeves and Jeff Davis counties are far ahead of any he has seen.

Now is the time to buy land in the Toyah Valley if you ever expect to "get in on the ground floor." The new reservoir has been practically turned over to the District, and as soon as it can be filled, the water supply assured, land will go up by leaps and bounds. Why? Because the best alfalfa farmers in the Valley will tell you that they can grow more alfalfa here than anywhere else in the United States if they can get plenty of water.

The recent rains have put about 11 feet of water in the new reservoir and it has begun to take on the appearance of a big lake already, and this amount of water will considerably relieve the situation. As one stands on the big dam with this vast amount of water spread out before him and contemplates what it will be like when full, and then raises his eyes to the splendid slopes of the Davis Mountains, whose peaks of grandeur look down upon the scene, one cannot but realize what nature has placed in store for the future residents of the Toyah Valley.

That jolly ranchman, T. A. Randals of Reeves county, was here Wednesday transacting business and incidentally mingling with old friends, but carefully avoiding the presence of Lon Boley. Mr. Randals informed the News man that he once neighbored with Lon, and that they had attended a few round-ups together, but that is mighty few people to whom he will now acknowledge this fact.—Ward County News.

Potatoes, Irish and sweet, should be used freely, when plentiful, because they are useful vegetables for many purposes. They can be grown in almost all sections of the country and, hence, need not be transported long distances; and, furthermore, since they contain much starch, or its equivalent, they may take the place of grains, which bear shipment better, and are less bulky.

**LEMONS MAKE SKIN WHITE, SOFT, CLEAR**

Make This Beauty Lotion For A Few Cents and See For Yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to also whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so that no pulp gets into the bottle and then this lotion will remain pure and fresh for months. When applied daily to face, neck, hands and arms it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply 3 ounces of orchard white at a very little cost and the grocer has the lemons.—Adv't.

**CITATION BY PUBLICATION**

THE STATE OF TEXAS

To the sheriff or any constable of Reeves county—Greeting:

You are hereby commanded to summon A. E. Hughes by making publication of this citation once in each week for eight successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 70th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 70 Judicial District, to appear at the next regular term of the District Court of Reeves County, to be holden at the Court House thereof, in Pecos, Texas, on the 3rd Monday in November, A. D. 1917, the same being the 19th day of November, A. D. 1917, then and there to answer a petition filed in said Court on the 14th day of September, A. D. 1917, in a suit, numbered on the docket of said court No. 1744, wherein U. S. Pawkett is plaintiff, and M. L. Talbot, A. E. Hughes, R. O. McCormock and M. E. Pawkett are defendants, and M. E. Pawkett are defendants and being a suit to foreclose a vendor's lien note for the sum of \$405.00, dated July 25, 1910, due July 25, 1912, drawing interest at 7 per cent per annum from date, and providing for the usual attorney's fee, and expressly retaining a vendor's lien against Secs. 1 and 12, both in Block C-3, Public School Land in Reeves County, Texas; said note having payments thereon reducing same to \$275.00. It being alleged that all the defendants have some interest in the above said land, and said suit being brought to foreclose the lien against said two sections of land. It being alleged that plaintiff is the sole owner of said note, and that plaintiff became the owner of said note by purchase from B. R. Stine and F. W. Johnson. Plaintiff prays for general and special relief, and for a full description of said suit, reference is made to Plaintiff's Original Petition now on file in the above court.

Herein fall not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Pecos, Texas, this 20th day of September, A. D. 1917.

District Court, Reeves County.

**POULTRY HOUSES**

While our winters in the Southwest are mild, some precaution must be taken to keep the fowls comfortable during the sudden changes. Sometimes a brisk "norther" may come and if the poultry house is at all open the hens may be chilled. Especially is it desirable to prevent draughts. If there are draughts the fowls are likely to have colds, roup, rheumatism, etc.

Poultry houses need ventilation, plenty of it, but arrangements should be made to prevent draughts. When the temperature drops suddenly the house should be so it may be closed and the fowls protected.

If the poultry house is not what it should be for cold weather such repairs and improvements as are needed should be made soon. A little neglect might be a very serious matter and one cannot afford to take chances.—Farm and Ranch.

**TO FATTEN CHICKENS**

The most satisfactory method of finishing chickens for market is to confine them to small crates where exercise will be restricted, and to feed heavily for ten days or two weeks on a wet sloppy mash made with milk.

The advantages of the crate method of feeding over all other methods are that it is more sanitary, the fowls are more easily controlled, feeding is easier and greater gains are secured. In addition it is easier to avoid disease since every chicken fed is under individual observation.—Farm and Ranch.

DATE OF THE FIRST FROST

Truckers and gardeners planning for late crops should be aided in determining their "best bets" on the first frost by referring to this historical summary of frost occurrences in various sections, recently issued by the United States Weather Bureau.

Killing frost has never occurred earlier than September 10 south of the extreme southwestern portion of South Dakota, extreme southern Minnesota, central Wisconsin, and the interior northern portion of lower Michigan. It has never occurred earlier than October 1 south of the extreme northern portions of Oklahoma and Arkansas, southern Tennessee, and the mountain districts of North Carolina and Virginia. It has never occurred earlier than October 20 to the southward of the extreme northeastern portion of Texas, northern Louisiana, the central portions of Mississippi, Alabama, Georgia, South Carolina, and eastern North Carolina.

The chances are even that killing frost will not occur before September 15 in most of North Dakota, Montana, and the extreme northern portion of Minnesota. By the first few days in October killing frost occurs on the average one year in two as far north as the southern portion of Nebraska, southern and eastern Iowa, southern Wisconsin, most of the interior part of lower Michigan, and throughout the greater part of New England. By the 15th of October it may be expected in at least half the years as far south as the central portions of Kansas, Illinois, Indiana, throughout the eastern part of Kentucky and the mountainous sections of Virginia.

There is one chance in two that killing frost will not occur earlier than November 1 at the latitude of central Oklahoma, central Arkansas, and the northern portions of Mississippi, Alabama, Georgia, South Carolina, and in eastern North Carolina. The chances are even that it will occur by November 15 a little south of the central portions of Texas and Louisiana and well toward the southern portions of Mississippi, Alabama, and Georgia. This does not mean that killing frost will occur in the localities and on the dates specified every other year, but that in the long run it occurs, as indicated, in half the years.

There prevails in some sections a popular belief that in the season when frost may be expected its occurrence is largely influenced by the phase of the moon or other periodical phenomena. Careful tabulation of frost data and its comparison with moon phases fails to disclose any such relation. All persons interested are therefore cautioned to watch, not the moon, but the forecasts issued by the weather bureau.

INCREASE POULTRY PRODUCTION

An appeal to poultry raisers to increase their production of poultry, meat and eggs, has been issued by the American Association of Instructors and Investigators in Poultry Husbandry, which met recently at Amherst, Mass. These poultry experts, in a resolution, state that there will be an unprecedented demand for breeding stock and poultry products, which can be met most effectively by the introduction of approved methods and better stock and management in each flock.

The association urges particularly that owners of flocks not sacrifice valuable chickens simply because feed has become abnormally high in price. They point out that such a practice will tend to reduce the supply of the breeding stock and lead to serious reduction in output.

The members of the association who are experts in poultry husbandry from the several State agricultural Colleges and the U. S. Department of Agriculture, stand ready to help all poultry producers to get maximum results.

CHAMBERLAIN'S COUGH REMEDY THE MOST RELIABLE

After many years' experience in the use of it and other cough medicines, there are many who prefer Chamberlain's to any other. Mrs. A. C. Kirstein, Greenville, Ill., writes, "Chamberlain's Cough Remedy has been used in my mother's home and mine for years, and we always find it a quick cure for colds and bronchial troubles. We find it to be the most reliable cough medicine we have ever used."—Advt.

SHERIFF'S SALE

The State of Texas )  
County of Reeves. )

By virtue of a certain alias order of sale issued out of the Honorable District Court of Reeves county, Texas, on the 1st day of October, 1917, by the clerk of said court, against R. D. Morris and Mary Morris, his wife, for the sum of Fourteen Hundred Eighty-nine and 84/100 (\$1,489.84) Dollars and costs of suit in cause No. 1710 in said Court, styled The Pecos Valley State Bank versus W. P. Morris, W. D. Morris, Mary E. Morris and G. W. Morris, and placed in my hands for service, I, Tom Harrison, as sheriff of Reeves County, Texas, did on the 2nd day of October, 1917, levy on certain real estate situated in Reeves county, Texas, described as follows, to-wit:

All of an undivided one-half interest in and to Section No. Eighty (80), Block No. Four (4), H. & G. N. R. R. Company's Survey in said Reeves County, Texas, except that part of said section that is situated north of the Texas & Pacific Ry. right-of-way.

And levied upon as the property of said R. D. Morris and Mary E. Morris, and on Tuesday the 6th day of November, 1917, at the court house door of Reeves county in the town of Pecos, Texas, between the hours of ten a. m. and four p. m. I will sell said land at public vendue, for cash, to the highest bidder, as the property of said R. D. Morris and Mary E. Morris by virtue of said levy and said alias order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Enterprise, a newspaper published in Reeves County.

Witness my hand, this 2nd day of October, 1917.

Sheriff, Reeves County, Texas.

OUT OF TOWN PEOPLE IN PECOS

The following out of town visitors did honor to Pecos by a timely visit Wednesday:

Aaron Estes of Ward County, a successful cattleman whose fine ranch is located seven or eight miles east of Grandfalls, was trading in Pecos.  
B. P. Van Horn, now of Toyah, but an erstwhile citizen of Pecos, and one of its earliest druggists, was here greeting friends and acquaintances.  
Judge Walker of Barstow, but a pioneer of Pecos, was mixing with Pecos friends and transacting business here on the above date.

SOUR STOMACH

Eat slowly, masticate your food thoroughly, abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to cut them out.—Advt.

UGH! CALOMEL MAKES YOU DEADLY SICK.

Stop Using Dangerous Drug Before It Salvates Your Life's Health!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

BOOKS FOR THE SOLDIERS

It is hoped that there will be a generous response when the committee calls on Saturday, October 6, for books and magazines to be sent to our soldiers in Texas training camps. The great need of reading matter in these camps has already been stated in the appeal made ten days ago.

Books of adventure, sea stories, detective stories and collections of short stories have been found popular.

On Saturday be ready to do your bit for the men in Texas camps.

MRS SMITH RECOMMENDS CHAMBERLAIN'S TABLETS

"I have had more or less stomach trouble for eight or ten years," writes Mrs. G. H. Smith, Brewerton, N. Y. "When suffering from attacks of indigestion and heaviness after eating, one or two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." The tablets tone up the stomach and enable it to perform its functions naturally. If you are troubled with indigestion give them a trial, get well and stay well.—Advt.

With them either for Sale or Rent. If you own vacant grazing land and wish to lease it, list it with us and give definite description so we can locate it. If you want to lease, see us and tell us what you want and where you want it.

In your description of lands BE SURE and give Section No. and what Survey, that is, whether Public School Land, T. & P. R'y, H. & T. C. R'y, etc. and some times it is designated by Townships. Be careful to give full description.

Below We Give a Few of Our Best Bargains

101—A Rare Bargain. 50 feet lot, east front, 3 room house with front porch, fairly well situated. For quick sale \$400. This piece of property can be bought in payments almost like paying rent.

103—5 room house on 2 lots. A good location. At a bargain and on EXTRA GOOD terms.

104—10 acres in truck and poultry farm just outside the city limits of Pecos. This place has a 4 room well finished house, well and pumping plant; 1 1/2 acres wired with poultry wire, balance of place fenced with rabbit-proof wire. This is a nice little suburban home. Price \$2000. Will consider a good city residence in Pecos or some other good town at right price in exchange for this property. Owner is professional and wants place in town.

105—Good business property bringing good rent, at a bargain. Owner a non-resident and wants to close out his interest here.

106—Good 4 room house, well located with artesian well in yard. Yard well set with grass and good shade. Corral and small barn. Price \$800. Would consider some trade on this proposition.

For Rent—A 6 room house close in to town. Plenty of water and out buildings. Price \$15 per month.

A BEVERAGE

Bevo is a great favorite in the Army Canteens, where none but pure, soft drinks may be sold. After drill or march, you are sure to see a long line of hot and dusty-throated soldier boys making a bee line for Bevo. They know that there lies complete satisfaction, full refreshment and pure wholesomeness.

At home or abroad—at work or play—between meals or with meals, you will appreciate what we have done for you in making this triumph in soft drinks.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, in the navy, at canteens, at mobilization camps and other places where refreshing beverages are sold.
