Hundreds View Spectacular Sight at Oil Well

Country For Miles Around Is Lighted By Gas From Well. Described as Magnificent by Witnesses

On last Sunday several carloads of Pecos citizens visited the Troxel gas well about thirty miles northwest of Pecos, and about sixteen miles north and west of Toyah. Many of the citizens from Toyah had also gathered there. The object of the gathering was to see the gas well "fired." As this was to be done after dark those in attendance carried lunches, and a kind of general picnic was had.

The gas had been piped off and run up considerably above the ground and when the torch was applied the flame lighted the whole surrounding country and could be seen for many miles away. It was a beautiful sight to behold and one which many of those present never before witnessed.

This is one of the strongest gas wells in the district and may prove worth while at some future date.

Those from Pecos witnessing this most wonderful sight returned home after the torch was applied to the gas, arriving here about 11 o'clock.

NOV. 20 RED CROSS CHRISTMAS BOX DAY

On November 17th, at the home of Miss Florence McCarver, and on November 20th, at T. E. Browns Furniture Store, the Red Cross will entertain with tea and games for the benefit of our boys' Christmas boxes.

You will be given an opportunity to give as much as you can, or as little as you may.

Never, in a long time, have the dollars been so few and bought so little, as now. Some can give to fill many boxes, others cannot fill any. But ALL can give or help to fill a portion of one.

Already American blood has stained the French battle fields. Already American soldiers have been laid to rest over there somewhere, and unless peace comes before another Christmas, hundreds of our noblest boys will not be there.

Let us send while we have it to send, and while we have them to send it to. Let's make them realize the love and appreciation of those of us at home.

At an enthusiastic meeting of the chapter last Thursday, Mrs. Wood's nominating was elected secretary, and all the vacancy of Mrs. H. N. Lusk.

A box containing the following supplies for the "Home Containment" was packed and sent to the supply house of the Southwestern Division of the American Red Cross, at St. Louis:

- 7 pairs of pajamas.
- 1 box of dominoes.
- 1 safety razor.
- 12 cans of soup.
- 20 cakes of soap.
- 2 comfort bags.
- 12 pads and pencils.

This being the allotment for the service camp.

A large number of ladies willing and eager to lend a hand, made it possible for many garments to be made during the afternoon.

Another shipment of cut garments has arrived. Don't forget to sew with us Thursdays.

VERNON HICKS TRANSFERRED TO NORFOLK, VA.

R. P. Hicks received a message from his son, Vernon P. Hicks, who is in the U. S. Navy training camps at San Francisco, Wednesday, stating that he would be in El Paso Thursday, on his way to Norfolk, Va., to which point his contingent is now en route. R. P. left on No. 5 Wednesday afternoon to meet his son and bid him God speed on his way, and in his efforts to serve his country.

CARS FOR DROUTH AREA

San Angelo, Texas, Nov. 12.—The government took a hand in aiding the drouth-stricken farmers in this section today when the car service commissioner commandeered 3,500 stock cars for delivery to be used in transporting cattle to other ranges where feed is available. It is estimated that 6,000 cars will be required to relieve the situation.

Interest in Revival at M. E. Church Growing

Big Crowds Listen to Strong Sermons Each Night. Singing Led By Rev. Phillips is Attractive Feature

As per announcement in last week's Enterprise, the Methodist revival began Sunday morning at their church, the Rev. F. M. Neal, evangelist for the Northwest Texas Conference, in the pulpit.

Rev. Neal arrived not in the very best trim, physically, for the fight against sin in all its forms and phases, having contracted a severe cold on his way here. Notwithstanding this, he has left no doubt in the minds of those who have heard him that he is fully able, both from a physical and mental standpoint, to take care of his subject (and subjects) in the battle. His sermons, while to some may seem severe, are logical, philosophical, sound fundamentally and to the point.

This week, so far, has been spent in an effort to convert, reclaim, and get the church members warmed up and lined up for the battle, and he has poured hot shot into the stiff necks and slackers from every angle. While Rev. Neal is plain spoken and fearless, he is also sincere and his remarks are made solely for the bettering of his people, and will make them not only better Christians but better citizens if they will only listen and take heed.

Rev. Neal is most ably assisted in this meeting by Rev. E. G. Phillips. Mr. Phillips, is from Arkansas, and he arrived Monday in most excellent condition. His voice is in fine condition, and he is not only a most capable leader of the choir but his solos are beautifully rendered and rendered in a most pleasing manner, and those who hear him once are delighted to hear him again. He is not only a leader in this line worth while, but a faithful, conscientious and tireless helper in the congregational work. His manner, bearing and cordiality is most pleasing and delightfully acceptable.

The gatherings have not been as large as they should have been considering the class of service rendered, but the attendance is increasing nightly and it is predicted that by the end of the week the church will be crowded to its capacity at least at each of the night services.

Services are now being held twice daily—at 7:30 and 9:30 p. m. and your presence is very much desired at each of these services.

REEVES COUNTY BOYS PROMOTED AT CAMP TRAVIS

Camp Travis, Nov. 8.—Headquarters, 315th Supply Train, reports the appointment of J. C. Wilson as Sergeant, and V. V. Beck as Corporal. These men reported with the contingent sent from Pecos, Texas, on September 21st, and have been connected with Headquarters during the entire period. Both of these men will attend the school for Company Clerks and all indications point to their rapid advancement.

Clem Calloun of Van Horn, is playing on the Company football team for the 2nd Company of Military Police at the Camp.

SEVEN APPLICANTS FOR PECOS POSTOFFICE EXAMINED

Mrs. E. B. Howe, secretary of the Civil Service Board, of El Paso, was in Pecos Wednesday and conducted the examination of applicants for the Pecos post office. The examination was held in the district court room of the court house, beginning at nine o'clock and lasting until one o'clock, and The Enterprise man has heard of none complaining of having too much time.

The following were examined: Mrs. R. E. Gentry. Mrs. Ethel Reynolds. A. G. Armstrong. H. H. Johnson. H. N. McKellar. F. P. Richburg. O. O. Curtis.

It will probably be thirty days before on and grades made sent in from Washington, and then still further delay, probably, before the appointment is made.

Should be analyzed from all angles. First put the acid test on the superiority vulcanizing, next have an eye to the prices we quote you—third find fault with our prompt and courteous service if you can. Government Sends Feed For Texas Cattle

The Lack of Cars to Transport Stock East of Mississippi Forced Action By the Food Board.

Being unable to procure with sufficient rapidity enough cattle cars to remove the cattle from the drouth sections of Southwest Texas and New Mexico the food administration is preparing to meet the dire needs of the cattle raisers by supplying feed stuffs instead of continuing efforts to move the cattle east of the Mississippi.

The food administration has decided to expand the activities of its grain division by undertaking the systematic shipping and distribution of cattle feed stuffs to be sold in the drouth areas, cooperating with the agricultural department and its agents in the collection and distribution. It is estimated about one million head of cattle must be provided for. The food administration says it does not intend to supplant the normal commercial machinery at work on the problem but will supplement it to the extent necessary to meet the extraordinary demands by introducing new sources of food supply. The food board also makes the suggestion that cattle raisers at present buy only limited supplies of cottonseed cake as the now short supply will soon be increased from the present crop of seed and predict a material decrease in the price.

The information that those deported Belgians are happy and contented would be more convincing if it came from them.

Distinguished Denver Citizens Visit Pecos

Are Very Favorably Impressed With Our City, and Loud in Praise of Fire Fighting Apparatus

Hon. Paul B. Gaylord, of the Paul B. Gaylord & Co. Fire Insurance, of Denver, and Hon. Fred T. Henry, attorney for this company, were distinguished guests in our city the first part of this week. They were in Arizona looking after business matters, and could not resist the temptation of visiting El Paso. They then remembered that here in Pecos lived an old friend of boyhood days, in the person of R. S. Johnson, of the Orient Hotel, and decided to visit him.

They are both exceedingly pleasant gentlemen, congenial and good-natured, and their visit to The Enterprise office was highly enjoyed by the editor (including the splendid Tom Moore cigar).

Mr. Johnson showed these gentlemen the city of Pecos, with which they were delighted, remarking that we not only had a beautiful city, but one of the very best fire-fighting equipments of any city of its size they had seen. After this he could not let them go until he had shown them further sights and glories of Reeves county, and the counties adjoining. He accompanied them, together with Mr. Yates and B. T. Biggs, to Toyah, and from there they all went to the oil and sulphur fields. It is needless to say that these gentlemen were wonderfully surprised at the possibilities and resources of our country and will ever be boosters for same.

Football Game With Big Spring is All-Absorbing Topic. Our Reporter Does Not Predict This Time

By now it is a fact known to all that the Purple and Gold went down in defeat in the first game of the season before the Midland eleven, by a score of 37 to 0. Last year the scores on two separate occasions were 66 to 0 and 53 to 0, respectively. By comparison it will be seen that the Pecos team has increased its efficiency about forty per cent. Now, the game between Big Spring and Midland, at Big Spring, resulted in a 7 to 0 victory for the High School, while the scrimmage at Midland, last Saturday, when the same elevens opposed each other, showed a final score of 0 to 0. Therefore, the natural conclusion in regard to the Big Spring and Midland teams

American Soldiers Set Example for Courage

Officer in Charge of Defense at Recent Hun Raid Says That Sammie Leaped to Battle

With the American Army in France, Nov. 12.—Complete details and verified reports of the recent German trench raid show that the American troops on that occasion set an example for courage and valor unexcelled. The officer who had charge of verifying the accounts of the raid said to the correspondent today:

"I am proud to say that our men engaged in the fight and did everything in their power. They jumped into the fight and stuck to it. In the first place the troops had been in the trenches less than three hours when the barrage of the Germans began. They had marched a good part of the previous night and were tired. Some

PRESIDENT'S ISSUES THANKSGIVING PROCLAMATION

President Wilson has issued his 1917 Thanksgiving proclamation, fixing Thursday, November 29th, as Thanksgiving Day. It follows: (Thanksgiving Day, 1917).

"By the President of the United States of America:

"A proclamation.

"It has long been the honored custom of our people to turn in the fruitful autumn of the year in praise and thanksgiving to Almighty God for His many blessings and mercies to us as a Nation. That custom we can follow now, even in the midst of tragedy of a world shaken by war and immeasurable disaster, in the midst of sorrow and great peril, because even amidst the darkness that has gathered about us we can see the great blessings God has bestowed upon us, blessings that are better than mere peace of mind and prosperity of enterprise.

"We have been given the opportunity to serve mankind as we once served ourselves in the great day of our declaration of independence, by taking up arms against a tyranny that threatened to master and debase men everywhere and joining with other free peoples in demanding for all the nations of the world what we then demanded and obtained for ourselves. In this day of the revelation of our duty not only to defend our own rights as a nation but to defend also the rights of free men throughout the world there has been vouchsafed for us in full and inspiring measure the resolution and spirit of united action.

"We have been brought to one mind and purpose. A new vigor of common counsel and common action has been revealed in us. We should especially thank God that in such circumstances in the midst of the greatest enterprises, the spirits of men ever have entered upon, we have, if we but observe a reasonable and practicable economy, abundance with which to supply the needs of those associated with us as well as our own. A new light shines above us. The great duties of a day awaken a new and greater national spirit in us. We shall never be divided or wonder what stuff we are made of.

"And while we render thanks for these things let us pray Almighty God that in all humbleness of spirit we may look always to Him for guidance; that we may be kept constant in the spirit and purpose of service; that by His grace our minds may be directed and our hands strengthened, and that in His good time liberty and security and peace and the comradeship of a common justice may be vouchsafed all the nations of the earth.

"Wherefore, I, Woodrow Wilson, President of the United States of America, do hereby designate Thursday, the 29th day of November next, as a day of Thanksgiving and prayer and invite the people throughout the day to refrain from their ordinary occupations and in their several homes and places of worship render thanks to God, the great Ruler of Nations.

"In witness whereof, I hereunto set my hand and cause the seal of the United States to be affixed.

"Done in the District of Columbia, the seventh day of November, in the year of Our Lord one thousand nine hundred and seventeen and of the independence of the United States of America the one hundred and forty-second.

"WOODROW WILSON,
By the President,
ROBERT LANSING,
Secretary of State."

WONDERFUL FEAT OF THE RAILROADS IN MOVING TROOPS

Railroad men are given much praise for the manner in which movement of troops has been handled by Major General William Harding commanding the central department.

General Harding says:

"Without an accident to a single man, without delay at point of origin enroute, or at destination, without a hitch in the arrangements as originally planned, the officers and men of the National Army in fourteen states were transported by rail in one week to distant cantonments designated by the War Department. That is a record of which every American ought to be proud. It is more remarkable in view of the fact that it was made at a time when the railroads were handling the heaviest commercial traffic, both freight and passenger ever been known. Just two things made that record possible—organization and cooperation. The organization of our army, the organization of our entire transportation lines into practically a single system, and the hearty cooperation of these two highly developed organizations.

"The whole movement of the National Guard in a very short time without causing congestion on the roads could not have been effected but for the unification of the railroads agreed upon by their presidents and carried out through what is commonly called the "Railroads' War Board." The railway equipment necessary was provided regardless of ownership. Many railroads which were required to furnish cars for the movement did not haul any of the troops. That is practical patriotism which the country should appreciate.

"While the preference would have been given to the railroads to this military traffic in any event, the fact that it was not necessary to change the regularly scheduled passenger trains proves that the interests of the travelling public were also carefully considered when the plans were made for the National Guard movement. The facts most clearly demonstrated are the advantages to the government of close cooperation between military authorities and the railroads and that heavy military movements can be made without drawing on the resources of the railroads to an extent that interferes to an appreciable degree with regular commercial traffic."

CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

AN OLD MAN'S STOMACH

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should, and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.—Advt.

It is expected that the bees will very materially contribute their "bit" to the war activities by keeping down the sugar shortage.

INTERESTING FEATURE AT THE CAMP TRAVIS Y. M. C. A.

There is a corner in every Y. M. C. A. building at Camp Travis which rivals even the writing tables and the phonograph in popularity. It is the corner where the home town papers hang.

At any hour of the day, a scattering of rookies may be found, examining the home town paper rack or settled into their chairs encircling it, with their heads wrapped in the printed sheets. In the late afternoon, when the long hours of drill are over and the men come pouring into their Army Y. M. C. A. club, even before the checker and domino players assume their places, and the inevitable group of music bugs have taken possession of the Victrola and the piano, and the letter-a-day contingent lines up before the counter where the free stationery is dispensed there is a rush for newspaper row.

"The men don't miss a line in the papers from home," said one of the secretaries in charge of one of the Army Y. M. C. A's.

"They devour the society columns like debutantes and don't even skip the household hints or the beauty recipes."

It is not an uncommon sight to see half a dozen men from the same community reading over each other's shoulders, according to the secretary. "Look at this!" and "what do you think of that!" are the usual exclamations at such a session.

Special newspaper racks are being designed to accommodate the great numbers of newspapers which it is necessary to keep on hand in order to give every rookie reading from his own home town. Papers from a dozen of the larger cities and towns contributing men to the cantonment come regularly to all of the Army Y. M. C. A. buildings at Camp Travis through arrangements made by the educational department. Any other papers are furnished upon request.

J. E. Wells, of the furniture and undertaking department of the Pecos Mercantile Company, has been confined to his home this week, due to illness.

M. M. Laeman was a Pecos visitor from his Loving county ranch last Saturday. We learn today that that neighborhood was visited last night with a fine rain.

The family of W. D. Prewitt left this week for El Paso to make their home in future. Betty has been there for some time in the employ of the commissary department.

Miss Adele Lloyd came in from the Leeman neighborhood last Saturday for a visit over Sunday with her parents, Rev. and Mrs. J. F. Lloyd. She reports that she is getting along nicely with her school out there.

Kidney Troubles Attack Pecos Men and Women, Old and Young.

Kidney ills seize young and old. Often come with little warning.

Children suffer in their early years—Can't control the kidney secretions.

Girls are languid, nervous, suffer pain. Women worry, can't do daily work.

Men have lame and aching backs. If you have any form of kidney ills

You must reach the cause—the kidneys. Doan's Kidney Pills are for weak kidneys—

Have brought relief to Pecos people. Pecos testimony proves it.

John F. Grogan, Oak St., Pecos, says: "A younger member of the family suffered for a long time with kidney weakness. The kidney secretions passed too frequently and often could not be controlled.

There was also a lot of complaint from a weak and sore back. I had heard so much about Doan's Kidney Pills that I got a box at the Pecos Drug Co. The first box seemed to help and continued use made a cure. There has not been any complaint for quite a long time, and I can sincerely advise anyone to get Doan's Kidney Pills for weak kidneys."

The German foreign minister told the American ambassador Gerard, before the break with Germany, that the United States would not dare go to war with Germany, because, said he, "We have 500,000 German reservists in the United States." Gerard replied that we had 500,000 lamp-posts on which to hang these reservists if they attempted to interfere with this government. Germany, it seems, relied not only on the loyalty of the German reservists in this country, but the American born German as well. This lack of gumption on the part of the German government is the reason it is at war with the world.—Baird Star.

There is now no limit on the amount of taxes that may be levied and collected by counties, cities, town and sub-divisions of counties in Texas for school purposes, according to an act passed by the last session of the legislature, and which bill has been duly approved by Governor Hobby. Before the enactment of this law, a limit of 50 cents on the \$100 of property valuation was placed. Now the limit has been taken off and it is up to the voters of a county or sub-division thereof to determine the amount. Prof. W. F. Doughty, state superintendent of public instruction, considers this act one of the most important pieces of legislation enacted by the legislature in many years and that it will do much toward improving our school conditions.

The work of pro-German sympathizers and spies in the United States becomes evident in many unexpected ways, but they seem to be sleepless, and our people should make eternal vigilance a watchword. The recent burning of the freight depots at Dublin and Fort Worth and other places is thought by officers to be the work of war enemies, the intention being to destroy food stuff that might be stored in the railroad depots. These successive catastrophes serve to give warning to keep watch not only over depots and down town feed stores, but also the barns and graneries and the smoke houses throughout the country. We must ever bear in mind that this is the harvest time and unusual care must now be exercised or our stores will suffer fearful depletion, and the punishment for incendiarism will not restore the loss, and loss of feed-stuffs and foods is what we should jealously guard against now. Eternal vigilance is the price of preservation at this time.—Hamilton Record.

The Honorable Commissioners' Court of Reeves county met in regular session Monday, November 12th, with all members present.

Here and There in The Pecos School

(Continued from page 1)

It is that the High School boys are the better players. From this the Pecos eleven realize that they will have to work harder than ever to score in the game against Big Spring Saturday.

The game against Midland showed the Pecos eleven wherein they were weak and by diligent practice since, have endeavored to strengthen itself along these lines in anticipation of the coming scrimmage.

The High School lined up against the town team on two different evenings during the past week, and a marked improvement in form and efficiency of the players was noted by those who watched them. Public opinion agrees that the outlook for the Purple and Gold is decidedly better.

The High School team as a whole and as individuals wishes to thank the men of the town who came out to the practice games and aided in improving their playing.

A message from Big Spring received last Friday, stated that they gladly accepted our invitation to play a game here on Saturday, November 17th. The student body of the High School, and particularly the football eleven will greatly appreciate the presence of all who can possibly attend. It will be a great encouragement to the team to have a large crowd out cheering for them. The game will be called at 3:00 p. m.

Postmaster Burleson's Address

Last Wednesday Postmaster General Burleson who was in Pecos on a business mission, was drafted by members of the faculty into making a talk to the students of the Pecos High School. He was introduced, in a very humorous manner, by Judge Ross, who requested that the students especially notice Mr. Burleson's resemblance to Robert Burns and Sir Walter Scott.

Mr. Burleson stated that this was his first attempt to speak to young people, and, further, that he was greatly inspired when he looked into the faces of the future men and women of America.

For the basis of his talk Mr. Burleson took the motto of Robert E. Lee, "Duty." His speech, in substance, follows:

"We have duties to perform for ourselves, our parents, our state, and our God. Since there is no freer land nor better government than the American, we owe it to our government to become good citizens that we may uphold this free land and good government. We are too young to fight the battles at the front, but we can do our part at home by upholding the spirit of democracy and inspiring our soldiers by doing our duty.

America is doing her part; the government and the president are doing their part; you should do your part.

In closing, I will request that every boy and girl in the Pecos High School adopt for their motto: 'Do your duty.'

The following were adjudged the two best themes of the week:

Imagination versus Science

Our professor performed several experiments for the benefit of our class in science. One of them was the making of carbon dioxide gas.

After collecting several bottles of the fluid and illustrating its presence by various methods, he passed one of the vessels containing a portion of the gas around among the students, instructing them to attempt to discover any odor or form to the gas.

The first student to receive the bottle sniffed gingerly at the cork and, after meditating upon the matter, declared that he could detect a faint odor, but could not say for certain that he saw anything. The bottle was then passed to the next in turn. She declared her nostrils to be more delicate than her fellow-student's by announcing that a slightly disagreeable odor was distinctly perceptible. She also said that she could see gas floating around inside of the bottle.

As the bottle was passed from one student to another, the odor grew more and more distinct and increasingly disagreeable, and the presence of the fluid could be easily detected with the eye. Some of the last students to receive the bottle found the odor so unpleasant as to compel them to hold their noses while the gas remained in their immediate vicinity. The professor was somewhat surprised, astonished, and even dismayed at our remarkable sense of smell, as it is a known scientific fact that carbon dioxide is colorless, odorless, and tasteless.

EDWARD WARR.

My Inferno (With Apologies to Dante) In the midway of this our mortal education, I found me in a gloomy schoolyard. Gone were the students and darkness hover around.

I journeyed across that lonely yard, and when I ascended the steps a janitor in striped overalls appeared.

When he saw me he did not vanish, but strove to check my onward going.

While on the lower floor my eyes discerned the form of one whose voice seemed faint through long misuse of speech. "Have mercy on me," cried I aloud, "Speak, spirit; are you man or ghost?"

"I am not man, but once man I was; I was the superintendent of this school in the days of yore, when Germany tried to conquer the world," thus answered the ancient pedagogue.

The old sage said to me, "I will lead you hence through an eternal space, where you shall hear despairing shrieks of students who are being tormented. With my guide leading me, we descended the gloomy stairs.

"Through Me You Pass Into the City of Woe," was inscribed over the door.

Finally we reached a river, and an old man, white with age, came toward us in a boat, crying, "Woe to you wicked students; hope not to see the light again; I come to take you to the other shore into eternal darkness."

Onward my guide led me, into the first circle of the pit.

"In this circle," said my guide, "dwells those who lived creditably in their school life but never were wholly sanctified in their work."

"I suppose that when I pass from mortal life, I will inhabit this sphere," said I to my guide.

We then went down a steep precipice and into the second circle, where the lost souls lie in mud and water. Looking at their faces I recognized some of my old friends and I fell down in a death-like swoon.

When I awoke the sun was high in the heavens and it was almost school time. Pies are all right for comedians to hurl but not to eat for supper.

American Soldiers Set Example For Courage

(Continued from page 1)

of them were allowed to go to sleep in a dugout twenty-five feet underground.

"When the barrage began these men did not hear the racket. It is apparent that the first they knew of it was when the Germans started throwing grenades down upon them. It was these men who were taken prisoners, but they fought well even when surprised, for the stairs of the dugouts were covered with blood, especially the top half, showing that some very bloody work had been done. The entrance to the dugout also showed evidences of hand to hand fighting.

"From the dugouts through the trenches and to the barbed wire into no man's land there was a wide red trail. How much of it was American and how much was German blood is not known.

"There is a corporal now in the hospital back of the lines who did a good job. He was in the listening post when the barrage began. During the firing an officer made his way through the shells, God knows how, and yelled to the corporal to go into the dugout.

"The corporal saw the officer's lips moving but did not understand the command and stuck to his post. At the end of the barrage he saw Germans all around him—five being in front of him. He took careful aim, and fired three shots and three of the enemy were seen to fall. Then a hand grenade fragment entered the corporal's back and put him out of action.

Investigations show that all the American telephone wires had been previously cut between the observation posts and the trenches and the batteries at the rear were cut by fragments of German shells which numbered approximately 50,000. The Germans crossing no man's land, rolled up telephone wires behind them and set up a small field telephone exchange outside the American barbed wire, with branch lines running to at least three points while the raid was in progress, in order to direct enemy artillery.

The first American officer and private wounded in the war have been mentioned in French dispatches and presented with citations. The officer, of the Signal Corps, Lieut. of Burlington, Vermont, who was the first casualty. The soldier was wounded in the raid of October 29th, by a shell splinter. The citations say that both men were wounded while working in a trench under enemy observation and that they were respectively the first officer and soldier of the American forces "to shed blood on the soil of France for right, justice, and liberty."

A major general delivered the lieutenant his document in a base hospital today and congratulated him upon his honor.

The officer was highly elated and he declared he was amply repaid for his wound.

The soldier, who is in a field hospital, was informed of his honor and notified that his citation would be delivered in a few days.

10,000 STENOGRAPHERS WANTED BY THE GOVERNMENT

Special to The Enterprise: Abilene, Texas, Nov. 15.—Hon. Jno A. McIlhenny, president of the civil service commission of Washington, D. C. wrote recently to Draughon's Business College, Abilene, urging that college to help the United States government to secure more stenographers, both men and women, the government now being in need of ten thousand stenographers and many, many bookkeepers, at salaries ranging from one thousand dollars to twelve hundred dollars to begin on.

In his letter Mr. McIlhenny urges young men and women who are not trained for government office positions to begin now to take the necessary training as a prospect is that the demand will continue indefinitely.

Draughon's Abilene College is also receiving many calls from railroads, and many other important business concerns for bookkeepers and stenographers.

To show its patriotism Draughon's Abilene College is offering a FREE civil service course, in connection with shorthand and bookkeeping, and low rates to all who desire to prepare at College, or by mail for these good office positions.

COTTON SEED SIEZED

Houston, Texas, Nov. 12.—Approximately 20,000 tons of cotton seed cake belonging to Danish and other neutral country interests, stored at Galveston, and Port Arthur, is to be seized by the United States Food Administration and taken to the drought-stricken areas of Texas to relieve the cattle feed famine. Confirmation of this is contained in a telegram received today from E. B. Spiller, secretary of the Cattle Raisers' Association of Texas to local cattle raisers. Herbert Goodwin, assistant food administrator, says he knows nothing of the report.

A VISIT TO CEDARVALE

It was the writer's privilege to visit the Cedarvale community last Sunday afternoon in company with Homer L. Magee who preached to the folks in that section in the evening.

It was our first trip to that section, and we were very much impressed at the general air of contentment, if not prosperity, on the surface. The community comprises a narrow strip of land, about two miles wide and seven miles long, and the soil appears to be as fertile as is to be found anywhere.

Alfalfa is the main crop, but cotton and various feedstuffs are in evidence. The hospitality of the people is another noticeable asset in the community, and strangers are made welcome on their visit.

A fine school building is a memorial to the progressive spirit of these good people, and the pupils are indeed fortunate in having as a teacher, Mrs. McCasland, who has had many years of experience in handling the youth of Texas.

The religious training, too, is by no means neglected, and though preaching services are a treat to these good people, a Bible school is maintained, that meets each Sunday afternoon. Mr. McCasland, as superintendent, aided by his wife, are the responsible for much of the activity along this line of endeavor.

Our visit was much enjoyed and we trust, at some future time, to again visit with these people.

GILLARDI-WADLEY Mr. James Gillardi and Miss Edna Wadley were married Sunday morning at ten o'clock, November 11th, 1917, at the home of the bride's parents, Mr. and Mrs. J. W. Wadley, in the presence of relatives and a few intimate friends, Rev. J. H. Walker officiating.

It was a quiet home wedding. The bride was becomingly gowned in a traveling suit of handsome woolen goods in champagne, elaborately embroidered. Miss Wadley grew to young womanhood in Pecos, where she is much admired for her sterling worth and lady-like demeanor. She recently resigned a desirable position with the Pecos Mercantile Co. Mr. Gillardi was at one time a resident of Pecos, having been interested in the McKee farm. This he sold or traded and secured a ranch in New Mexico which he recently sold for a good sum of money. He is of French descent and recently purchased five thousand dollars worth of Liberty Bonds. This is evidence of his loyalty to his country and his frugality. He is a hard worker and evidently a good business man and is well liked by those who know him. The happy couple were presented with a number of useful and costly articles which will be useful to them in time to come. After the ceremony a wedding breakfast was served and Mr. and Mrs. Gillardi left immediately after in an automobile for Virginia where they intend to make their home. The Enterprise joins the many Pecos friends of this happy couple in wishing them bon voyage on their matrimonial journey which The Enterprise hopes will be cast in pleasant places.

Auto Owners, The Laws Will Be Enforced

The sheriff and city marshal have authorized The Enterprise to state that the State laws as regards automobile numbering and lights will be strictly enforced on and after the 19th day of November. There will be no further speculating or fooling in this matter and if your cars are not numbered and the lights made to comply with the State laws you had better leave them in the garages, as you will surely be arrested and made to pay the penalty. This is the last notice, and it might be well to heed it, unless you have more money than brains.

PRESBYTERIAN BAZAAR The Bazaar to be given by the Ladies Auxiliary of the Presbyterian church will be held on Friday and Saturday, December 7 and 8. 12-12 (Advertisement.)

TO SELL OR TRADE

No. 280—164 acres, 5 miles west of Pecos, on T. and P. Ry., 80 acres in cultivation and fenced with rabbit-proof wire. 3 room house in good shape, good barn and other sheds. A good well of about 1500 gallons per minute, 5 inch pump, 45 horse power crude oil engine. This land is suitable for growing cotton, maize, alfalfa, sweet potatoes, melons, etc. Price, \$50 per acre. If this interests you, write us for full particulars. Would consider trade for farm in the Lampasas country, at the right price. This same kind of land this year has made an average of \$375 per acre on 7 acres in melons.

No. 282—We have 40 acres unimproved land just a little outside of town limits on northwest side of Pecos, all fenced. An artesian well on it. This land is near the Pecos Valley Southern shops and roundhouse. The land is priced at \$25 per acre. Also two 4 room houses in the town of Pecos. Want to exchange all this for a

small farm. Let us hear from you with a full description.

F. P. RICHBURG Real Estate Agency
Pecos, Texas.

WANTED

We want a tract of several hundred acres of land in a country where land is reasonably productive and adapted to a variety of crops, principal crops being corn, field peas, sorghum, hay, fruit, vegetables, and a number of other crops will turf add set to a tract. Would like for 14 to 15 years of cultivation. Would like it being in small tracts, or tracts join. We want as we can find, but don't refuse everything else. A few miles from railroad, be seriously objectionable. water for drinking and have a tract that will above description. Respectfully,
F. P. RICHBURG LAND COMPANY, Pecos, Texas.

Which Side are YOU On?

Are you one of the many thousand taxpayers of Texas who think they govern this state and who every year send in their hard-earned money at the front door of the state capitol to defray the cost of government?

Or, are you one of those sleek, well-fed, superbly dressed and leisurely gentlemen who take money out of the back door by the bagful and shovelful, and who are the ones who really do govern the state?

Of course if you belong to the latter class you will not be interested to know that the number of state employes increased from 1567 in 1907 to 4379 in 1917. You will see no necessity for publishing the fact that the "traveling expenses" of state employes increased from \$23,600 in 1907 to \$210,000 in 1917, or about 800 per cent.

But if you belong to the taxpaying class you will be mightily interested to know the why of these facts. The place to find out is in the pages of

FARM and RANCH

The Farm Paper of the Southwest

The time to find out is now. Senator John G. Willacy's eye-opening serial "The Heavy Hand of Invisible Rule" is now running. It contains more straight facts about the Invisible Forces that are the REAL governing power in Texas than have ever been published before about this state or any other.

If you want to know where the dollars you pay in taxes actually go, here is your chance. Here is your chance, too, to learn something about the value of your vote. You thought it as good as the next man's? Yes, but what show does it stand against the 30,000 mobilized, irresponsible votes that are voted every year, many of which come from the cemeteries?

All of this is now being shown in FARM AND RANCH

The Farmer's "Right Hand Man"

For nearly forty years FARM AND RANCH has published facts and information of inestimable value to the farmers. It has done more to modernize and improve the farming methods of the Southwest than any other publication. It is in every respect the most helpful publication that a farmer can have about the place.

Today FARM AND RANCH is publishing "The Heavy Hand of Invisible Rule" to show the farmer what the situation actually is, for it is a well known fact that most of the graft and padded legislation that goes through our state capitol is put through under the guise of "helping the farmer."

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston of this place, writes: "I am a user of Theodor's Black-Draught; in fact it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught, pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's the original and genuine. E 79

Toyah News Items

MRS. W. L. COALSON

Miss Emma Loree Wells, was born at Snyder, Texas, on the 12th day of September, 1892, and died at the home of her sister, Mrs. Harry MacTier, at El Paso, November 8th, 1917, at nine o'clock a. m.

Deceased, with her parents, Mr. and Mrs. H. F. Wells, moved to Toyah when a child, and there grew to womanhood, loved and esteemed by all who came in touch with her sweet personality. 'Twas here that the best days of her life were spent, and where, at an early age, she became a child of Him, whom she served to the end. It was here also that she was united in marriage to Mr. W. L. Coalson, on May 6, 1914, and their union was blessed by the birth of a son, W. L. Jr., on the 29th day of March, 1915, who, with the sorrowing husband and father, is left behind, with the hope of another meeting from which there will be no parting.

Shortly after their marriage Mrs. Coalson's health began to fail, and it was soon discovered that the grim White Plague had fastened itself upon her, and during the weeks and months following the family moved from place to place, residing mainly in California, in a vain attempt to check the ravages of the disease.

The news of her death, was not unexpected, but nevertheless, came as a shock to her many friends in this section of the country. With her these many months was the loving husband, and for several weeks before the end, to his gentle administration were added those of her mother.

Death to her was but the release of an immortal spirit from a pain-racked body. The end was calm, as is always the passing of those who die in the Lord. Her last words: "God is all in all." This last message should be a balm to those left behind, for He only is the one who can comfort as no other.

Tenderly the remains were borne to Toyah—home. At the Baptist church, of which she was a member, the funeral services were conducted by Rev. B. G. Richbourg, in the presence of the entire community and many who had come especially to pay their last respects to one they admired and loved. The casket was covered with beautiful wreaths of flowers, mute evidence of the affection of loving friends.

Interment was in the new cemetery north of Toyah.

To the husband and child our hearts go out in sympathy. We realize that words of ours would aid but little in lessening the grief that must be theirs. To the father and mother, and other relatives we also extend sympathy, and commend them to the Father of us all for comfort.

Bro. Victor Dziedziel while working at the oil well this week, was seriously injured. He was holding some sort of tool which was being driven with a sledge in an effort to drive a collar from some casing, when the steel or iron splintered, one piece entering his hand and the other entering his arm at the wrist and running almost to the elbow. They are both ugly wounds. The one in the hand was easily drawn, but the other missile had to be cut out of the arm, it taking something like a half hour to accomplish this. It is to be hoped no complications will result, and that the wounds will heal rapidly.
