Good Road Enthusiasts Meet at Little Rock

MEETING IS INDICATIVE OF INTEREST BEING MANIFESTED BY ENTIRE COUNTRY

The recent good road meeting held at Little Rock, Ark., was one of the most enthusiastic of its kind in the history of good roads campaigns.

This portion of Texas was ably represented at the meeting by A. D. Linton, who was our chosen delegate. The following is in the way of a general report of the session, which Mr. Linton has kindly contributed for the benefit of The Enterprise readers who are interested in the good road movement:

The United States Good Road Association, also the Bankhead Highway Association, with officers and delegates from every section of the United States, met in Little Rock, Ark., on April 16th, and continued in session until the 19th, discussing plans for future work.

For several years the people in the North have been more or less interested in good roads but the southern people had never become thoroughly aroused until U. S. Senator J. H. Bankhead took the matter up and not only interested the people of the South in this important movement, but succeeded in interesting Washington people as well. The Federal government is very much interested. They realize the necessity of a military highway from Washington, D. C., to Los Angeles, Calif. While our president and associates are advocating a strict economy to win the war first, they too say it is absolutely necessary to have this road in order to move, not only traffic, but the food and supplies of the United States, so there is no doubt but that the highway will be built before the war is over.

In regard to the work of the Texas delegation at the convention at Little Rock: They met in private session and organized, selecting Judge Adrian Poole, of El Paso, as leader, and Judge Roe, as our chairman, while Judge Overshiner of Abilene, was selected as the spokesman for the delegation. Our main object was to keep down all arguments and dissatisfaction among Texas delegates, and to line up as many states as possible, east and west of us, to help pull the Highway from Little Rock to Texarkana, then on through to El Paso, and by all means to keep it from going from Little Rock to Fort Smith, Ark., on through Oklahoma, New Mexico and Northern Arizona.

As regards the highway, it is settled and as good as built, and the only question is to beat the above route which is called the Northern Route. The Texas delegation was very successful at the meeting, winning every fight they were in and when we succeeded in landing the coming two meetings at Mineral Wells for next year, it was considered almost equivalent to getting our route selected.

Entire County Welcomes Liberty Special

STAND FOR HOURS IN HOT SUN LISTENING TO SPEAKERS AND THEN BUY LIBERTY BONDS

One of the most notable occasions in Pecos for a long time was that Saturday when practically the entire county turned out en masse to see the war relics on the cars which stopped over in Pecos for several hours.

While the people came from every portion of this and the adjoining counties to see the relics from the front of the greatest battlefields known to the entire world, many were a little disappointed at the exhibit, but all were enthused at the patriotic speeches as will be seen by the large purchase of Liberty Bonds on this occasion, about \$9,000 worth being sold. It must be remembered, however, that nearly every man in Pecos had previously subscribed liberally at a big rally held prior to the advent of the Liberty Loan Special, and this amount, mainly, was from citizens doubling up on their previous purchases.

The masses of people, covering the entire park at the T. & P. station, and well in front of the Orient Hotel, listened attentively to those patriotic talks which rang the bell at every pull of the string for probably an hour and a half, often cheering the speakers.

It was a splendid gathering of a splendid, gallant and patriotic people who were there because of their love of liberty and their country, and the occasion will last in the memory of our people as a most delightful occasion for years to come.

T. B. Pruett, who was confined to his home the early part of the week with a severe cold, is out again.

The final decision of selecting the route will be made by the Pathfinders, a body of three disinterested men selected by the government at Washington. East of the Mississippi there will be one engineer selected from Washington, and one selected by Senator Bankhead, and two delegates from each state. Our representatives are Mr. C. H. Lester, of El Paso, who is one of the broadminded and best-posted road men in the South, for the west end, and Mr. Atwood of Dallas, who is at the head of the Automobile Association of Texas, for the east end. Bert K. Smith, of Dallas, is vice-president.

The Texas delegation assured the United States Good Roads Association that out of 918 miles in Texas that there are 460 miles of roads almost completed and that they intended to get busy and make the very best showing possible before the Pathfinders start on the proposed route, which will be in September.

Mr. Lester has kindly consented to keep us posted regarding every move and also everything necessary along the route in order to win our fight.

County Exceeds Her Quota 25 Per Cent

EVERY TOWN IN COUNTY GOES "OVER THE TOP IN THIRD LIBERTY LOAN CAMPAIGN"

"Sincere congratulations. Uncle Sam is proud of Keeves county and its good American citizens. Keep up the good work until May 4. Honor flag being forwarded."

This was a telegram received from J. W. Hoopes, director of the Liberty Loan Campaign for the 11th District of Texas, of which Keeves county is a part, to our own tireless local manager, Jas. F. Koss. It means that Keeves County has done its full duty on the instant occasion, and that fact is appreciated, and should make our people feel proud.

It was accomplished by the efforts of as tireless a body of men as ever engaged in what these days is called a warwind campaign. The Enterprise, however, prefers to call it a cyclonic campaign, from the fact that wherever the committee appear they swept aside every indifference and carried the day (or night) for our common cause.

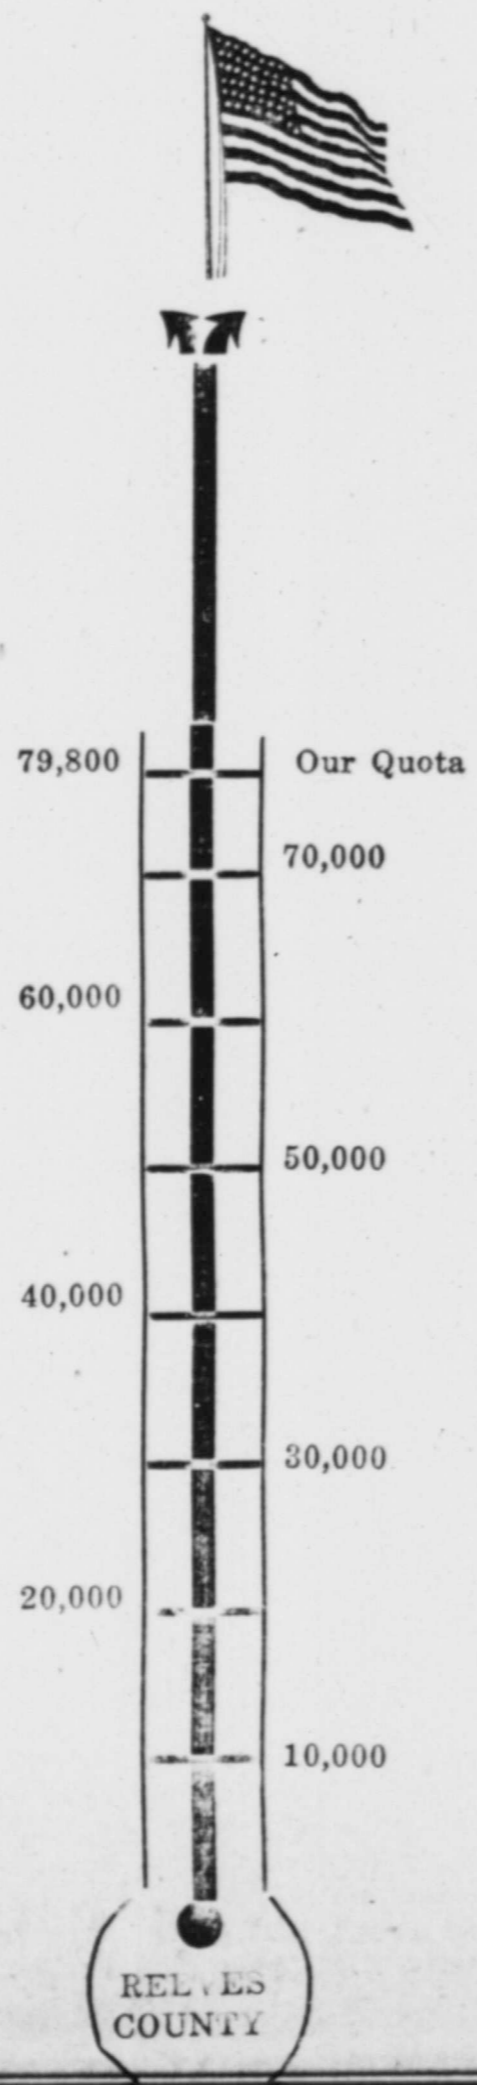

A resume of the campaign, in The Enterprise's opinion will not be amiss right here:

As is known, when it became circulated that Keeves county's quota was fixed at \$75,000 even the most optimistic in our ranks said it could not be done, but added "we'll try." A local committee, with W. W. Camp as chairman, was selected, and at the meeting called to map out the campaign, \$10,000 was subscribed by the handiwork present. This was before the date set for subscriptions to the loan and it acted like a lighted match to gunpowder. This spirit never lagged during the drive, and though the county is "over the top," subscriptions are still coming in, and it is the opinion of those in charge that \$100,000 will be subscribed.

The campaign opened in Pecos, with a parade, the longest procession ever witnessed in the history of the city, followed by a mass meeting in the evening at the Baptist church. The result of this meeting, the liber-

"OVER"—AND STILL GOING!

Honor Flag Raising is Fittingly Observed

ENTIRE CITIZENSHIP CHEERED AS EMBLEM OF LOYALTY IS FLOWN WITH OLD GLORY

On the flag-pole at the courthouse, reaching its arm to the vaulted dome beyond which tradition tells us is the abode of the God of nations, flies Old Glory, emblem of principles left as a heritage to earth's peoples by the self-same God. Beneath it flies the honor flag. Old Glory pointing to the source of those principles for which, even now, its sons are dying to preserve, upheld by the emblem of the loyalty of its people. It is indeed an inspiring picture.

Every town in Keeves county received an Honor Flag, and The Enterprise is sure they prize them as does Pecos prize hers.

Today was proclaimed Liberty Day by our president and Pecos took advantage of the fact to put the pride she felt into action. All places of business were closed by order of the mayor, and each and every automobile was requisitioned to appear at the school house at 3 p. m. sharp, to take part in what was the longest procession ever seen in Pecos. It may truly be said that on this occasion no one witnessed the parade, because every one took part that was able to be out. 70 automobiles loaded, bow to stern, circled the city, led by the volunteer fire department and the Pecos band, and stopped at the courthouse square, where the exercises of the afternoon were held.

The speaker of the day was our patriotic mayor, Judge Starley, and his address sounded the true keynote of the populace's sentiments. He said many good things, in fact, everything he said was good, but the part of his speech that sounded best was when he stated "That if Germany and Germans say it is right to teach and train people in wrong doing, then it should be recognized that we are

On the flag-pole at the courthouse, to the people principles of right and justice, and if there be any among us who have not learned these principles of right it is our business as a nation or a community to take them aside and teach them along these lines, even if it takes drastic measures so to do."

At this point H. G. Pinkston, an old timer among us, and a honored veteran of the Confederacy, raised the city's Honor Flag beneath the proud folds of Old Glory, while our citizens, prompted with a just pride, cheered loud and long, as the Pecos band played the National Anthem.

J. A. Drane was the other speaker of the afternoon, and his address was made in well selected words upholding the cause for which we battle and closing with an appeal to our people to support as nobly the coming campaign for Red Cross funds as we did the Liberty Loan.

The main part of the exercises was indulged in by the children of the Pecos schools. The little fellows gave choice readings, sang the national emblems of the Allied countries, and displayed such a spirit of real interest in the affairs of our country that was truly inspiring.

During the exercises the band dispensed music of martial nature, and made quite a hit with the people who seldom hear music of this kind. It may not be amiss to say that this organization is doing their "best" under handicap, as five of its members have enlisted in the army and navy. They played no small part in the big drive just ended and the citizenship have expressed their appreciation of this fact.

It was a perfect day with a perfect ending, and The Enterprise is sure that such occasions as these serve their real purpose—that of cementing with ties unbreakable our country and its children.

Sunshine Oil Corporation Receives Charter

CONCERN COMPOSED OF PECOS PEOPLE WILL DEVELOP COUNTY'S MINERAL RESOURCES

This week a charter was granted by the state of Texas to the Sunshine Oil Corporation with a capital stock of \$200,000, the incorporators of the concern being Alfred Tinally, D. T. Diggs, and Geo. B. Howard.

Those composing this corporation and the principal stockholders are citizens of Pecos and the company was formed for the purpose of developing the oil and gas areas near Pecos. While they have secured a good body of land under lease there are some, it is reported, who are yet holding out, and who, it occurs to The Enterprise, should fall in line.

The facts are that these people have been offered flattering propositions to use their means in developing propositions in proven oil fields, and may do this. However, they want to go to work near Pecos where their interest are, and will do so provided they close up some more leases.

Mr. Tinally, who is president of the corporation, has spent recently a large sum of money in getting the ideas of the best geologists in the United States as to the prospect for oil around Pecos and most of them are exceedingly optimistic as to the result of a test well or wells. In fact, they believe we have a great oil field here and that oil can be found at a shallow depth, although this corporation proposes to go down 3000 feet or more.

It is a great proposition for Pecos, and every citizen of the town, and every one interested in the development of the town should lend the proposition every encouragement.

Pecos Schools Report by the Supervisor

FEW DEFICIENCIES NOTED AND RECOMMENDS ITS RATING AS FIRST CLASS HIGH SCHOOL

As will be remembered, State Supervisor Bressler visited the Pecos schools some weeks ago at the instance of the Department of Education, for the purpose of making a report of conditions generally existing in the schools and, if justifiable, to make recommendations along certain lines. A letter to Superintendent McCasland, received last Saturday from the Department of Education, contains the report of Mr. Bressler, and some recommendations he saw fit to advise for our school. The following is the report:

The Pecos school board has recently spent \$14,000 on their high school building which made it adequate for the present enrollment. There are eleven rooms available for recitation purposes, two for vocational work and a large study hall. All these rooms are well equipped with the latest school furniture, globes, and maps. The rooms are supplied with some beautiful reproductions of famous paintings.

The laboratory is fairly well equipped with apparatus for teaching physics, physiography and physiology. However, the laboratory falls short in equipment for individual students.

The library for the grades and for the high school, with the exception of a deficiency in science, agriculture, and source books in history, is satisfactory.

The spirit among the teachers and pupils is good. All apparently are interested in their work and each one is trying to keep Pecos a first-class school. In this connection the sup-

**FOODS TASTE BETTER COOKED
—TOBACCO TASTES BETTER
TOASTED**

Since the day of the caveman, who liked his meat raw, civilization has learned a lot about the scientific treatment of the things we eat.

Naturally, none of us would now prefer to have our meat raw, our potatoes as they come from the ground, our coffee unroasted.

And naturally follows the great discovery recently made by The American Tobacco Co.—that tobacco tastes better TOASTED!

This wonderful new idea—simple like all great inventions—was first used in producing the famous LUCKY STRIKE Cigarette—made of toasted Burley tobacco.

Burley has a mellow flavor, entirely different from the tobacco usually used for cigarettes. It is a pipe tobacco and LUCKY STRIKE Cigarettes taste like a pipe.

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Phillips, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days... I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go... I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me.

One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle... I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. E 78

Great Demonstration in Turin.
The opening of the fourth section of the American Red Cross, made up of 25 ambulances, was the occasion of a great demonstration for the United States in Turin, Italy. Flowers were heaped on the ambulances, crowds cheered, bands played American airs and soldiers paid military honors.

are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weaknesses, delicate derangements, and painful disorders that afflict her sex, she will find relief and emancipation from her troubles in Doctor Pierce's Favorite Prescription. If she's overworked, nervous, or "run-down," she finds new life and strength. It's a powerful, invigorating tonic and nerve which was discovered and used by an eminent physician for many years, in cases of "female complaints" and weaknesses. For young girls just entering womanhood; for women at the critical time of life; in bearing-down sensations, periodical pains, ulcerations, inflammation, and kindred ailments, the "Favorite Prescription" is the only medicine put up without alcohol—ingredients on wrapper. All druggists. Liquid or tablets. Tablets, 60 cents. Send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10 cents for trial package.

MOODY, TEXAS.—"I gladly recommend Dr. Pierce's Favorite Prescription and the Lotion Tablets. I believe I would be in my grave if I had not used these medicines. I was so nervous I was a wreck; was not able to do my housework. Dr. Pierce's Favorite Prescription was recommended to me. I had taken it but a day until my nerves were quieted down and I could sleep at night. I had not taken more than half a bottle before I noticed a marked improvement, so I continued. I then got stout and did as much work as five other women. I had a burning in my side and a bearing-down, but the medicine put a stop to that. I am glad to recommend Doctor Pierce's medicines."—Mrs. GEORGINA BEAN.

RED CROSS
IS DOING
AND WHAT YOU CAN DO**

**LAST SATURDAY A GREAT
DAY FOR LOCAL RED CROSS**

Saturday, April 20th, will be handed down in Reeves county Red Cross circles as the "Greatest Day," from a financial standpoint, that the local Chapter has ever had. The Surgical Dressing class, serving lunch at the Elite stand to hundreds of Pecos and Toyah Valley citizens, netted the Chapter \$250.00. Then again at the "Liberty Loan Special", the patriotism and generosity of the people was proven beyond doubt when they turned their pockets inside out and emptied their purses on the Red Cross tray, to buy a Liberty Bond for the Red Cross. Your reporter had the pleasure of watching the large crowd as they passed the plate, and he is said to your credit and honor, without a single exception, of either nationality, creed or color, did one pass it by without giving most liberally, thus showing that their hearts are in the work and their eagerness to enter into and serve in this crusade of mercy.

And that's what it takes! And that is what made us go over the top with three liberty bonds for our Red Cross on Saturday and a liberal donation to Ward County's bond. A word to our large and enthusias-

tic surgical dressing class: A message from the Paris Red Cross headquarters commends the workers in surgical dressings for their most efficient output, and that all shipments have reached France with the exception of one ship that was destroyed by our enemy. All are urged to work unceasingly.

Thursday the Red Cross class under Mrs. Bryant, had 7 ladies present and completed 6 garments.

On Friday the Red Cross workers, under the supervision of Mrs. Collier, had 5 present, making 6 garments.

The Merry Wives Club cut 49 garments, and with 11 present made 14 garments.

Glover Unit, 3 workers, completed 3 garments.

The Twentieth Century Club had a most profitable day Wednesday taking lunch and spending the day at their sewing room in the High School building. There were 8 present, 13 garments made.

The box shipped out this week contained over 100 garments, both pajamas and bed shirts.

The surgical dressing class wish to thank one and all for their hearty cooperation last Saturday at the lunch. About 50 ladies have made surgical dressings since last report. RED CROSS REPORTER.

**WHY AMERICA FIGHTS
GERMANY SUMMARIZED**

The above is the title of a timely publication issued free by the Committee of Public Information, Washington D. C.

"If Democracy is conquered in this war, all free peoples must either submit to Germany's domination or else give up a part of their democracy in order to resist her. We must fight Germany in Europe with help, that we may not have to fight her here in America without help."

In a booklet entitled "Why America Fights Germany," Prof. J. S. P. Tatlock, of Stanford University sets forth the fundamental reasons for our participation in the war. He shows how Germany has drowned our citizens, sunk our ships, intrigued against us, and outraged our sentiments of right and humanity by her unspeakable outrages in Belgium and France, founded as they are on deliberate principle and precept. He adds, "If we had not fought Germany after her false and brutal conduct, we should have been despised by all the world, including the Germans."

The publication may be obtained free by writing to the Committee of Public Information, 8 Jackson Place, Washington, D. C.

Tells Why a Corn is So Painful and Says Cutting Makes Them Grow

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which make them grow, just step into any drug store and ask for a quarter of an ounce of freezezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly to a tender aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug freezezone is harmless and never inflames or even irritates the surrounding skin.

The Pecos woman's story given here is not an isolated case by any means; week after week, year after year, our neighbors are telling similar good news.

I was tired and languid, and had dizzy spells and headaches. Black spots seemed to float before my eyes and kidney weakness also annoyed me. It only took two boxes of Doan's Kidney Pills, which I got at the Pecos Drug Co., to cure me, and I have never been bothered since."

**RED CROSS NEEDS
40,000 NURSES IN
WAR ZONE ALONE**

PATRIOTIC WOMEN OF SOUTH-WEST ARE URGED TO VOLUNTEER THEIR SERVICES.

RARE CHANCE FOR PATRIOTS

Those Between the Ages of 21 and 40 Who Can Pass Physical Examination Are Qualified for Enlistment.

Women of the Southwest have a chance to show their patriotism now as never before since the beginning of the war. They have been bravely giving up their sons, fathers, brothers, sweethearts and husbands to fight in the great war; they have knitted thousands of sweaters, helmets, wristlets and mufflers; they have practiced food conservation, bought Liberty bonds, Red Cross memberships, thrift stamps and certificates; they have marched in dozens of parades, attended hundreds of meetings and made hundreds of patriotic talks.

But in few instances have they been given an opportunity to go into the field of the world struggle. This is the path they now have a chance to take.

The Department of Nursing of the American Red Cross, the mobilizing agency for nurses in military service, still is in urgent need of recruits. The Red Cross wants the strong, brave, competent women of the Southwest to step forward and prepare to go to France and help nurse the brave sons of the United States when they fall on the battlefield.

Thousands of Nurses Needed.

This appeal to the Southwest is issued by Miss Lyda Anderson, head of the Nursing Department, Southwestern Division American Red Cross, and should be heard by every woman in this district. The need for more nurses is so acute that the surgeon-general of the United States estimates that within a short time the Red Cross will need 40,000 nurses for the army alone. Besides that, he points out that the Allies also are depending upon the United States to supplement their nursing service.

It is estimated that there are between 80,000 and 90,000 registered nurses in the United States at the present time, meaning graduates of accredited schools. Of this number 16,500 are enrolled Red Cross nurses, the majority of whom are in active service, ready for mobilization or prepared for specific service.

To be a Red Cross nurse one must be a graduate of an accredited school, be between the ages of 21 and 45 and must pass a physical examination. After the necessary 40,000 nurses are drawn from the total number of registered nurses in the country there will be only half enough nurses left here to take care of the civilian needs.

Nursing is Fine Preparation.

Therefore, the only solution to the problem—the only way to provide sufficient number of nurses to care for the American soldiers in Europe—is for women of the Southwest to answer the call of the Red Cross and say "We will help you fill the necessary number."

There are 75 accredited schools of nursing in this district that will prepare volunteers for service. Two years' duty is required.

Nursing education not only prepares for a large variety of professional fields, but it is an excellent preparation for home and family life and for public service in many ways. Almost upon enrollment the student begins her service to the community in helping to care for the sick, as part of her instruction and training. This service to the community will be greatly increased in war time, because the conditions of war, which take wage-earners from the homes and nurses from the civilian hospitals, produce an increased amount of sickness and distress among the civilian population, with decreased facilities for guarding its health.

It might be added that enrollment in the Red Cross does not compel one to go into war service, though there is moral compulsion that one should do so.

When Red Cross nurses are called upon for active duty they receive \$50 a month in the United States and \$60 a month elsewhere, plus maintenance and traveling expenses.

Red Cross is Backing Italy.

That the American Red Cross War Council will assist in re-equipping field hospitals in Italy, many of which were lost or damaged in the retreat of the Italian army, is the information contained in a telegram to the headquarters of the Southwestern Division, American Red Cross, at St. Louis, from Henry P. Davison, chairman of the Red Cross Council.

Dr. Tallafiero Clark Appointed.

Through the assignment of the surgeon-general, Dr. Tallafiero Clark has been appointed director of the Bureau of Sanitary Service of the American Red Cross. Dr. Clark succeeds Past Assistant Surgeon Paul Preble.

This War Must Be Fought On European Soil

If the peoples of the earth are not to become toiling millions for the Prussian Junkers and the Prussian Krupps, if they are not to be terror-ridden slaves at the mercy of a German Kaiser's will, Prussianism must be driven back within its own borders and kept there.

Not only English freedom, French freedom is at stake. Our own cherished institutions, our free government, all that our fathers fought for, all that free peoples prize, is threatened by an enemy that would impose his own hateful Kultur, on every free institution in every liberty-loving land.

That is why the war must be fought on European soil. We are fighting in Europe now that we may not have to fight in America, on the very thresholds of our own homes, later.

We are fighting for the safety and liberty of our children, our homes, our country. No price is too great to pay for Victory.

Your "bit" dear friends is out of style. Been laid away to rest. From here on out and all the while You've got to do you "best"!

People, that Honor Flag looks fine, doesn't it. And our county wears it. The Enterprise opines, with a great deal more pride than ever mortal woman displayed over her "bestest" Easter bonnet.

Onions are going up. How much better would it have been if you had you planted a war garden; then with a broad smile you could have hailed your neighbor and with pride say: "Onions are coming up".

Some of our citizens have not yet learned that while the National Anthem is being played or sung they must doff their hats and stand. This must be done to show your respect, and allegiance, too, to our country and its institutions. If not done The Enterprise will advocate the appointment of a human derrick to raise both man and hat on these occasions.

Some force is arousing our people to an extent that The Enterprise is becoming alarmed at the fate that may befall the slacker and the wargrouch. They have had plenty of time to repent, that's a cinch, and if some disaster should befall them The Enterprise will have no message of sympathy for them, you can bank on that.

An unsigned communication was received at The Enterprise office today. Correspondents must learn that it is necessary to sign articles sent to papers to secure the publication of same. The Enterprise is always glad to have these news items but it must, for its own protection, know the source from which they come.

Bright young men are still offering their service to their country. If The Enterprise has the correct figures 86, representing the flower of our young manhood have answered duty's call to date. We are beginning to feel the closeness of the war, love of country is undergoing a revival and each of these young men represents but one more link in the golden chain that binds our interests with those of the common country.

The spirit behind our citizens is a psychological problem. They're awake and patriotism is oozing from every pore. If there is a good cause in this county, operating along lines that will help win the war, suffering from lack of support The Enterprise wants to hear from its head, and the needed relief is guaranteed. This represents the measure of The Enterprise's faith in our people after witnessing the enthusiasm of the past week or two.

Judge Gibbs, in an address, at Toyah Wednesday, struck the keynote of patriotic endeavor when he said that "the time has come when we at home must quit thinking of the war as a side-issue, and from here out make it the all-absorbing work of our daily lives." To which The Enterprise fervently answers "Amen". The editor has this week lent the entire force of The Enterprise to help in the Liberty drive, and as was stated last week, The Enterprise is in the war with both feet. Should many items be missing from this issue that should have space, that's the reason.

The next drive is for the Red Cross at which time we are expected to give of our means liberally without hope of individual gain in return. Bonds draw interest, but these dollars given to the greatest factor the world has ever seen for the mitigation of human suffering will bring returns that will be lasting. To give to the Red Cross means that we have really and truly sacrificed, and long after our consciences will be stilled by the thought that we did something to allay the suffering of those who are fighting for us. When the great lists, that are bound to come, telling of friends and relatives, too, who have fallen, many dying because of inadequate attention from lack of funds, how can any look their conscience in the face, if he has done nothing for Red Cross work. God help that being who, out of his means, fails the angels of mercy in their great work for humanity, who minister to foe as well as friend.

"They're Americans," yelled a horde of Huns at the recent raid at Zebrugge, when a handful of English made a determined and partly successful attempt to block the harbor to the U-boats. At the cry their courage oozed, and they turned tail and fled, all but those who were un-

fortunate enough to be surprised and these are now free from earthly cares and sorrows, and goodness knows who'll claim them in the land unknown. Chances are when they try for admittance into his Satanic majesty's kingdom, they will be informed that Satan is trying to run a half-way decent place and do not desire that kind of cattle, and to get rid of them may give them a shovelful of sulphur, direct them to a vacant lot far removed, so they will not contaminate the lost souls, and tell them to start a hell of their own. What The Enterprise wanted to say was that the incident of the raid, the German's fight at the name "American", calls to mind the statement of Germany at the time we entered the war. They said we were a negligible quantity, they weren't afraid of us, and that we didn't know how to fight, nohow. Any person with sense enough to wish for rain can see what The Enterprise means. Oh, no, they don't fear us! Neither does mice love cheese!

TOM T. GARRARD ANNOUNCES FOR REELECTION AS ATTY

In this issue Tom T. Garrard announces for reelection to the office of district attorney, subject to the action of the democratic primaries in July.

Mr. Garrard has served in this capacity for the past two terms and is in the race because he wants the office. He is a good mixer, and a good friend of The Enterprise, and he now through its columns asks your vote and support.

WSS RANDALS HAT IN THE RING TO REPRESENT 120TH DISTRICT

In this issue will be found the announcement of Judge Ben Randals for the office of Representative of the 120th District at Austin, subject to the action of the democratic primaries in July.

Judge Randals informs The Enterprise that he is entering the race only after having been informed by good friends of Judge E. R. Bryan of Midland, that the latter would not again make the race for that office.

Judge Randals was district attorney, and in that capacity several years ago served the people in practically every county in the district, and is well known to most of the people in the east end of the district as well as in this part of the country.

In Reeves county, where he has lived for a number of years, he has followed diverse occupations—that of stockman, lawyer and county judge—which latter office he held for two years. He solicits your vote and support on the ground that he knows the needs of West Texas and will, if elected, go to Austin to serve his people.

WSS LIMB AMPUTATED AT THE PECOS SANITARIUM

It is with deep regret that The Enterprise chronicles the result of a very serious operation performed at the local sanitarium this morning at which it was found necessary, in order to save her life, to amputate the left limb of Mrs. J. Y. Leavell, the member being removed well above the knee.

Mrs. Leavell for some time has suffered from a well-developed case of tuberculosis of the bone, and recently made a trip to Dallas for advice and treatment, but specialists in that city could hold out no hope by any known source of treatment. She returned home, and more recently an X-ray examination showed the disease was making inroads that threatened life itself, and the only recourse was the operation performed this morning.

Mrs. Leavell is a long-time resident of Pecos, beloved by every one, and her condition will be prayerfully watched by our people. Her condition at present as all that could be hoped for, according to a statement of our physicians.

E. W. Kayser, a representative of the First National Bank of El Paso, was a visitor in Pecos yesterday and today. He had been to Midland, Ft. Stockton and other towns on business and in conversation with The Enterprise representative stated that he was surprised to see Pecos in such fine shape—that it was the best and most prosperous looking town he had seen since leaving El Paso. He accompanied the Pecos Liberty Loan Bond boosters to Barstow last night and made the people a rousing talk. Mr. Kayser left this afternoon for Carlsbad and other points along the Santa Fe.

Mrs. Joe Kraus was on her way to Camp Bowie to see her son, who is enlisted in the army there, when Joe received a message from an officer in command to the effect that he had been transferred to another camp in the East. Mrs. Kraus was wired, in care of the conductor, and returned home from Midland.

County Exceeds Her Quota 25 Per Cent

(Continued from page 1)

al response to our country's call, was told in last week's Enterprise.

Gathering the remnant of the Pecos band, of which five are enlisted in the service of Uncle Sam, the committee next made an assault on the beautiful town of Saragosa, the population surrendering without a struggle. The deeds of this good people were also recorded in last week's issue.

Balmorhea and Toyah, respectively, were next in line of the committee's triumphal march. So on Tuesday of this week five autos filled with enthusiasts, stormed the town of Balmorhea, and though the town nestles in the famous Toyah Valley, at the foot of the Davis Mountains, giving the casual observer the idea that a people so snugly located would become steady worshippers at the shrine of Morpheus, the delegation found them to be very much awake and when the opportunity was given them to subscribe to the bonds the response was phenomenal. A purchase of \$3000 headed the list, followed by one for \$2,000 and several for \$1,000, and on the heels of these came 13 for \$500 each. \$19,000 was raised among these good people in less time than it takes to pen these lines, and though Balmorhea was the farthest point from Pecos the committee visited they were home and asleep in quicker time than was made from any other place during the entire campaign, and no phase of the work at this point was slighted either.

On Wednesday evening the committee hied to Toyah, not to arouse the good people to a sense of duty for Toyah had put one over on said committee by oversubscribing their pro rata of the county's quota when the Liberty Loan Special visited that little town last Saturday. It is stated that Toyah has had her hand on her pocketbook since Uncle Sam made the call, waiting for some one to come get it, and not caring who that some one would be, just so Uncle got it in the end. The committee, however, was not in mood to forego this trip, and enjoy the far-famed hospitality of Toyah people. To the mass meeting was called, a patriotic rally, a reconsecration of hearts to our country's service, and to present to this people an honor flag, the emblem of patriotic devotion. Hearts, and eyes, too, were full when, in a sincere address Judge Starley presented this insignia of loyalty to the town. Cheering was loud and long when the flag was unfurled.

Toyah, on this occasion, departed not one whit from the traditional hospitality that wins every stranger within its gates. A steaming supper awaited the visitors, every courtesy was extended, and The Enterprise knows no better phrase with which to sum up Toyah's reception to the delegation, than to say "They were the people's guests."

At the conclusion a big tub of ice cold lemonade, prepared during the evening, was served to all by two of Toyah's charming young daughters. After this good-byes were spoken, as were words in appreciation of the committee's interest, and a hearty invitation to come again.

Last night the committee, finishing their work in Reeves county, and not willing to rest while their was work to do, hied to the adjoining county of Ward, with the band trailing and far from winded, succeeded in adding the needed punch to lead the people to the summit, though their quota was a little over half subscribed on their arrival.

The Enterprise is aware that many of our citizens dislike being specialized for efforts put into this campaign, but it feels that too much cannot be said in commendation of the work of the committee as a whole, and to Judge Ross in particular. However, those who contributed to the success of the drive have a reward that mere words cannot measure up to, in their own breasts. The faithful band, those who contributed time, loaned their cars—all did their duty, and in the words of an American admiral "There's glory enough for us all."

Pecos Schools Report By the Supervisor

(Continued from page 1)

Supervisor would mention a deficiency which amounts almost a calamity, namely, the scarcity of boys in the high school. This cannot be attributed wholly to the war for there are seen on the streets many boys who ought to be in school. Efforts should be made next year to place vocational and commercial work in the high school in the hopes of attracting and holding more boys. Approximately \$1500 has been spent to fit up home economics rooms for the instruction of the girls, and nothing special has been done for the boys.

The high school teachers are doing superior work. All but one have graduated from college and some of them have had post-graduate work.

The note-books were neat and they showed that considerable work had been done throughout the year. In some instances the notes were not as complete perhaps as they should be.

Mr. Bressler made the following recommendations: 1. That fourth unit in English and a unit in American History be granted provided the work submitted be satisfactory to the examiners.

2. That vocational agriculture be introduced next year and application be made for Federal aid to assist in paying the teacher's salary.

3. Manual Training and a third year's work in science should be offered next year.

4. The laboratory and library to be strengthened in those lines indicated above.

5. The ranking of the Pecos high school as a school of the first class should be continued.

FERGUSON WILL ADDRESS PECOS PEOPLE MAY 10

Letters were received yesterday morning from Governor Jas. E. Ferguson, by friends of his which reads as follows:
"I will speak in Pecos on Friday afternoon, May 10th, at 3 o'clock, coming there from Midland where I speak on Thursday, the 9th."
The place of speaking has not yet been arranged for but will be made known in plenty of time. Ferguson is a forceful speaker and those who hear him are not only offered a treat in the way of oratory, but a free and full explanation of his platform, together with the why and wherefores of his making the third race for the gubernatorial chair in spite of the rank opposition any Texan event went up against. Whether he be right or wrong the editor believes he should be given a hearing and a fair, impartial weight of his argument.

LEMONS BEAUTIFY AND WHITEN THE SKIN.

Make This Beauty Lotion Very Cheaply For Your Face, Arms and Hands

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice thru a fine cloth so that no pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, and hands. It is marvelous to smoothen red, rough hands.—Advt.

During the three and one-half year period, beginning July 1, 1914, the United States exported to the Allies more than 616,000,000 pounds of fresh beef and nearly 202,000,000 pounds of canned beef.

IN CITY and country more war gardens are needed this year than ever before. Patriotism prompted 2,000,000 Americans to plant gardens last year, according to estimates of the United States Department of Agriculture. Transportation facilities of the nation will be strained this year hauling munitions of war and foods for the Allies. The surplus food created by home gardens will help in the railroad problem. And the nation will eat less of the goods we must export—wheat, meat, fats and sugar. Every boy and girl that helps with the garden is helping win the war. Leaflets of instruction in garden making may be secured from the Department of Agriculture at Washington, upon request, without charge.

RED CROSS TO GIVE FIRST-HAND NEWS OF CASUALTIES OF WAR

Persons in the Southwest who have sons, brothers, husbands, fathers and sweethearts at the front will be especially interested in the announcement that the American Red Cross has organized a Bureau of Communication at Washington to give them details of casualties at the front. The bureau will supplement in a personal and humanitarian way the reports of the Statistical Division of the War Department, which gives to relatives official notice when a soldier is reported killed, wounded or missing.

The bureau will be ably presided over by William R. Castle, Jr., formerly assistant dean of Harvard College and editor of the Harvard Graduates' Magazine. The information on which it will base its reports is gathered through a central office in Paris, under the direction of E. Gerry Chadwick of New York, aided by the Rev. Robert Davis of Englewood, N. J., and 30 assistants stationed at the base hospitals and rest camps to which soldiers are generally returned following important engagements.

The bureau will advise in detail the nature and extent of the wound, and will gather evidence from comrades in arms and at the hospitals and rest camps regarding those reported "missing."

Relatives will be given any information of interest or consolation through personal letters. It will be possible for the wounded to send messages in the same way.

The bureau is reporting on all cases that come to its attention. It is probable, however, that with the increase of reports from the front information will be sent only to relatives requesting it, except in cases of those imprisoned or reported "missing."

Through the International Red Cross office at Geneva, Switzerland, the list of American prisoners supplied officially by the German government will be sent to the bureau.

We Give a Few of Our Best Bargains

If you own vacant grazing land and wish to lease it, list it with us and give definite description so we can locate it. If you want to lease, see us and tell us what you want and where you want it.

In your description of land be sure and give Section No. and what Survey, that is, whether Public School Land, T. and P. Ry., H. and C. Ry., etc., and sometimes it is designated by Townships. Be careful to give full description.

No. 106—4-room house, 100 feet front, artesian well in yard. Grass, and shade, small barn, chicken pens, etc. All up in good shape. Price \$800 cash.

4-room house on 75 ft. lot. East front and S. E. corner. This place is well situated on Oak Street, and up in good shape. Pretty good out buildings. Entire lot fenced, a galvanized 30-barrel cistern and house guttered. Price \$1000. Half cash, balance on easy terms.

We have two 10 section and one 20 section ranches for sale in Reeves county. A good time to buy while it is yet dry. Think it will rain some day, then land will be higher.

No. 281.—A small 4 section ranch 25 miles south of Pecos. Four sections in solid block and 5 sections leased for 5 years, making 9 sections in all. All fenced and all lying in block. Good soft water, 4-room new house, barn, garage and good corral made of 2x8 lumber. The four sections, Nos. 35, 36, 37, and 38 bought at \$2.01 from State. 5-1-2 sections leased on five-year lease. This is a splendid little ranch with soft water and good soil to grow fruit, vegetables, etc. Price \$3.50 cash or \$4.00, 1-2 cash, balance in one year.

No. 274.—160 acres 3 miles northwest of Pecos, 1 mile northwest of the State Experiment Farm. All in good state of cultivation, watered by a large pumping plant. The entire farm is fenced with hog-proof woven wire. Has a \$3,000 residence and 1 tenant house. This is an extra good irrigated farm. Only \$100 per acre. Good terms.

No. 282.—1 sections, No. 10, 680 acres, and S 1-2 of section 6, Block No. 54, twsp. 7, 276 acres. \$1.50 to State, at 3 per cent. Has good well. Lies 3 miles west of Hoban, and joins the H. H. Jones farm on the north. Think this can be bought for \$5.00 bonus.

5-room house on 100 ft. lot and S. E. corner. Weatherboarded and painted. Considerable out buildings, house nicely painted and screened porch. Plenty shade trees and good garden place. Price \$900; \$250 cash, balance monthly or in 2 or 3 annual payments, 8 per cent interest.

No. 286.—A well located 4-room house close in; 50-ft. lot, east front and good terms. Price \$800. Part can be paid in monthly installments. If you want a pleasant little place don't fail to see us.

Good time now to lease grass land; it is not going to stay dry always. F. P. RICHBURG LAND & RENTAL COMPANY. 9-2f

No. 288.—Good 5-room house with screened porch and bath; garage, barns, poultry yards and pens and garden. East front. This is a weather-boarded house and up in good shape. Lot 100x135 feet. In good neighborhood. Price \$1500.

No. 290.—4 section ranch about 4 miles west of Arno. Sections No. 4, blk 54, and Nos. 8, 10, and 12, blk No. 55, Twp. 4, T. & P. survey. Well on section No. 4, blk 54. This is good grazing land. Other land around it can be leased. Price \$1000 per section bonus.

No. 291.—Corner lot with two 4-room houses on it. The property is in fairly good shape and is good rental property for colored people. Close in, almost always rented. Owner lives in Illinois and wants to dispose of it. Price, \$600 cash.

No. 293.—One section land 8 miles south of Pecos. This section borders on the Pecos River which makes it riparian land. Most of it is agriculture land. Price \$10 per acre.

No. 300.—1 section, No. 21, H. & G. N. Ry. survey. A splendid section. Part has been cultivated. Price \$10 per acre. Good trees. Lies 10 or 12 miles from Pecos on the Pecos River.

No. 301.—E 1-2 of section 59, blk No. 4, H. & G. N. Ry. Co. survey. Situated between Experiment Farm and Sand Lake. Price \$5.00 per acre.

No. 302.—Sections Nos. 21 and 38, price \$3.00 bonus. \$2.00 due to the State at 3 per cent. 2 other sections joining that can be leased.

No. 375.—We have several small ranches for sale, ranging from 4 section to 50 sections. Price from \$1.00 to \$3.00 per acre, most of it \$1.50 to State at 3 per cent interest. If you want a small ranch come to see us.

No. 376.—800 acres in Ward County, just across the Pecos River from Pecos City. 160 acres of this tract lies on the south side of the T. & P. R. R. track and borders on the river. There are some 150 or 160 acres of this tract in cultivation. A drain ditch and a canal pass through it. Will sell it in a body or in tracts. Price \$40 to \$80 per acres. We can make satisfactory terms. This tract lies on the Pecos and Barstow road for 1 mile or more.

No. 378. A 5-room one and one-half story on 115-foot lot. North-east corner, good shades. A good place for a good house. Price \$1500, 1-2 cash, balance in three annual payments.

An 18-room Hotel for sale or rent. Will sell furnishings and rent the building or sell all.

We want a section of good land near railroad. If you have one let us know.

No. 379.—4 sections, Nos. 2, 4, 24 and 26, block 57, twsp. 2, T. & P. Ry. Co. survey. This land lies in the sulphur belt, between Orla on the Santa Fe and the Tinally sulphur mines. Price \$5.00 per acre, bonus.

No. 380.—1 section, No. 183. This section lies on the north side of the P. V. S. Ry., joining Verhalen. Splendid land. Price \$10 per acre.

Don't forget to list your pasture land with us.

We have a 200-acre Clay county farm to trade for a small ranch. Will trade all farm implements and teams and take cattle on the ranch.

No. 400.—A 6-room house and 100 foot lot, with barn, poultry yards and garden and lots of nice shades. This place is situated in the best part of town. An artesian well in back yard. A good bargain. Price \$1500, two-thirds cash, balance easy terms.

We have a number of cheap houses that we can give special bargains in. If you want a little home call and see us. If you have any property to trade let us hear from you.

TO SELL OR TRADE

No. 280—164 acres, 5 miles west of Pecos, on T. and P. Ry., 80 acres in cultivation and fenced with rabbit-proof wire. 3 room house in good shape, good barn and other sheds. A good well of about 1500 gallons per minute, 5 inch pump, 45 horse power crude oil engine. This land is suitable for growing cotton, maize, alfalfa, sweet potatoes, melons, etc. Price, \$50 per acre. If this interests you, write us for full particulars. Would consider trade for farm in the Lampasas country, at the right price. This same kind of land this year has made an average of \$375 per acre on 7 acres in melons.

Doings at Saragosa

When company comes there is no time to waste—no chances to be taken—so mother sees that there is always a can of

CALUMET BAKING POWDER

on hand. Cakes, pies, doughnuts, muffins and all good things to eat must be dressed up in their best taste and looks.

Then, too, her reputation as a cook must be upheld—and she "stakes" it on Calumet every time. She knows it will not disappoint her.

Order a can and have the "company" kind of bakings every day. Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

TO ALL WHO EAT.

The public should read the newspapers for their own protection and in order to keep posted upon all changes and modifications of the food conservation law.

Every day there is something new in food conservation. It can be learned in no quicker or better way than through the columns of the newspapers.

Read these articles upon food conservation and food production. Don't skip in reading.

If you don't remember or haven't a good memory—cut out the items and save them for continuous reference.

Use the newspapers to keep posted. Mails are slow. The story is always in the paper before it reaches our district and county administrators. You owe it to yourself to keep posted. You will then know the law and be able to live up to the law. Remember, if you violate the regulations you are subject to a fine of \$5000 or two years' imprisonment, or both, and ignorance of the law is no excuse.

Read the newspapers. They are the voluntary distribution agents of the government.

FEDERAL FOOD PROGRAM WEEK'S CALENDAR AT A GLANCE. WHAT'S ASKED OF THE HOUSEWIFE

In the calendar of wheatless meals and meatless meals the only "off meals," so to speak, are the noonday meals on Sunday, Thursday and Friday. Supper throughout the week is to be wheatless. Breakfast throughout the week is meatless. In order that the housewife may have the days clearly in mind, the following simple calendar of days is issued by E. A. Peden, Federal Food Administrator for Texas:

Table with 4 columns: Day, Breakfast, Dinner, Supper. Rows for Sunday through Saturday.

Waste of Food Threatens Disaster to Individual and Ruin to Nation.

(By E. A. Peden, Texas Food Administrator)

There can be no higher concentration of the American citizen who is not actually engaged in serving the colors than a genuine response to the cause of food saving.

Enough movements have been started. The thing now needed is team work to finish what has been begun.

Food saving takes second to no issue, unless it is the issue of the men in arms. All the wealth in the world is no wealth if there is no food; and no front can be held and no battles be fought unless there is food to sustain the men who shoot the guns, throw the grenades, make the dash over the top and across no man's land.

The rise and fall of ministries, the sinking of transports, the devastation of communities through explosions and fires—all are redolent with tragedy that staggers the imagination.

But let there be an absence of bread, a restriction of sugar beyond what the body needs and craves; let the meat ration shift to a grain diet; let hunger become rampant and famine pregnant, and there is no calamity so great, so awesome, so appalling.

If there is to be a sporadic saving of food and not a constant one, just so much has the enemy been aided. To deny oneself of staples needed by the allies and our own men in arms, is not a sacrifice, but an opportunity to be of real service.

If there are the thoughtless and the heedless, let them now be apprised of an attitude, not dissimilar to an alien who openly espouses the cause of the Vaterland, the business of adapting oneself to substitute foods is not recommended, it is imperative.

Let there be no minimizing of the part that the housewife plays in her kitchen. Her work is now as sacred as that of the priest at the altar.

Let there be no minimizing of the war menus in hotel, restaurant, Pullman dining car and boarding house; it is the performance of a fine duty in a fine and splendid way.

Let there be no hesitancy in learning to say: I will do with less wheat; I will do with less meat; I will do with less wheat bread and gladly eat of the bread of the corn; I will eat less of the fats which is the body fuel of armies; I will henceforth think in terms of the nation, and no longer in terms of myself.

In the name of this freeland of ours, I earnestly petition the people of Texas to take heed of what is needed of them; to open their eyes to the world situation as it now exists, and through an act of selflessness cater to creature comforts which can do no other than bring disaster to the individual and ruin to the commonwealth.

TO CONSERVE WOOL WEAR ALL-WOOL

LET no man think he is conserving wool by wearing part-cotton clothes—wool adulterated is only good material gone to waste.... Instead of buying poorer suits and more of them—buy better suits and fewer of them.... For clothesmaking as it is done in the Kirschbaum shops means better wearing clothes—means wool conservation in its only genuine sense - \$20 to \$40

PECOS MERC. CO.

THIS drawing is made from an actual photograph of Marie Sundelius singing in direct comparison with the New Edison and thus demonstrating that her voice and the instrument's Re-Creation are indistinguishable.

NOT AN IMITATION— BUT A RE-CREATION

If you are a music lover you know that talking machines give merely a clever imitation of the actual voice or instrumental performance.

The New Edison is different. It Re-Creates with such completeness and satisfaction that it is utterly impossible to distinguish the artist's voice from the New Edison's Re-Creation of it.

The famous Edison tone tests have demonstrated the wonders of this marvelous instrument beyond question. More than 1500 of these tests have been held; 30 famous artists have participated in them—have sung in direct comparison with the New Edison and proved that no difference between their actual voice and their Re-Created voice could be detected. Upwards of 2,000,000 people have heard these tests and have been convinced that the strongest claims do not exaggerate the merit of

The NEW EDISON "The Phonograph with a Soul"

The New Edison is the only sound-reproducing invention that has stood the test of direct comparison with living artists. Truly a marvelous accomplishment, but just how marvelous you will never realize until you come to our store and hear the New Edison.
