Open Letter to Voters of 16th District

STANDING ON RECORD OF PAST AND PROMISES OF FUTURE FAITHFULNESS TO CONSTITUTION HUDSPETH ASK SUPPORT

To every voter in the 16th Congressional District:

As a candidate for the Democratic nomination for Congress from the Sixteenth District of Texas, I have been engaged during the past several weeks in a canvass of the district, and have personally met as many people as possible. I shall continue in this work until the end of the campaign, but owing to its great size, it will be impossible for me to meet everyone in this, the largest Congressional District in the State of Texas; and I am therefore addressing this letter to each registered voter personally, hoping thereby to interest him in my candidacy.

This letter will go to my friends, acquaintances and supporters, as well as to those who do not know me, and accompanying it you will find a folder containing the speeches of Hon. C. B. Metcalfe, author of the Suffrage Bill, and Hon. Alex Collins, both of San Angelo, delivered upon the occasion of my speechmaking in that city on May 18th last. Your careful consideration thereof is earnestly requested, as well as of the resume of my San Angelo speech, as set out in this pamphlet.

I am a native Texan, born in Bander county, and have grown up and lived all my life within the limits of the present Sixteenth Congressional District, and feel that I know its people and their needs. Its people are my people, and their needs are my needs. The district is an agricultural one, largely devoted to farming and livestock interests, including horses, cattle, goats and sheep. Wipe them out and you destroy the welfare of the district. Uphold them and you establish and maintain the prosperity and welfare of its people. I have always been identified with these interests, and all I have invested therein, and I feel that I am equipped from the experience for properly representing them in the halls of the National Congress. My record will demonstrate that.

Besides, during the past nine years I have been engaged in the practice of law and that has better equipped me for legislative work. For sixteen years I have represented you in the legislative halls of my native state—four years in the lower house and as a member of the Texas Senate from the 25th Senatorial District. During that time I have tried to aid in building up constructive legislation and get things for my people, and I believe that I have accomplished something in that direction.

I have always opposed legislation the effect of which I have felt was detrimental to your interests. In educational matters my record shows

CLEARED \$10,000 FROM AN 80-ACRE ALFALFA TRACT

Bob Majors, who owns farms across the river in Ward County, in conversation with The Enterprise this week, says that last year he cleared up \$10,000 from an eighty-acre tract of alfalfa. He had other patches which did not clear so much but on the whole he is well pleased with his profits last year and with his investments in the Pecos Valley. He is only one of the many farmers in the Pecos Valley who could make similar reports. If you want to farm come to the Pecos or Toyah Valley.

—WSS—
Mr. and Mrs. J. J. Pope of Toyah, were visitors in Pecos Saturday.

that I have always stood to the front in support of proper legislation, in aid not alone of the little country schoolhouse, but also of high schools and colleges, and I have rendered material assistance in procuring for my district agricultural experiment stations and normal schools. Always, during my service as your representative and Senator, in accordance with my expressed promises, repeatedly made, I have ever tried by my vote to give expression to the views of the majority sentiment of my constituency, especially where that sentiment has been demonstrated at the polls. In such an instance there has been no difficulty, but at times other matters, where there has been no direct expression of your opinion, contending factions have made it difficult to determine the consensus of opinion on legislative matters, and on such occasions, keeping in view what I thought were your interests, and what I believed to be the wishes of the majority, I have voted my honest judgment and conviction without fear or favor. What would you think of a man who had done otherwise?

If chosen as your representative in the halls of Congress, I shall continue to vote your sentiments, and for your interests, and I shall ever be glad to hear from all of my people within the district, either personally or by letter, as to their wishes in any matter. In view of the other work that I have done in the past, I trust you can consistently and conscientiously support me as your National representative. Regardless of the charges that have been made my record will demonstrate that I have ever loyally supported the administration in every effort to win this war, and that is the great, the paramount question before the American people today, and I pledge you my word that my every effort will be bent toward upholding the strong arm of our country in this the greatest crisis in its history. I contributed to the Democratic Campaign Fund in 1912 and 1916, and campaigned for President Wilson in 1916. My speech at San Angelo will show how earnestly I have supported him.

This letter is addressed not alone to you personally but also to the women members of your family.

Yours very truly,
CLAUDE B. HUDSPETH.

Two Colored Troopers Win War Cross

AGAINST ODDS OF TWELVE TO ONE DUSKY SAMMIES HOLD ON UNTIL HELP ARRIVES BOTH IN HOSPITAL

No matter what the crimes charged against the negro, his fighting qualities as a soldier has never yet been questioned. During the war between the States, he played an active part and, though entirely dependent for even his very thoughts upon the whites who were then his lords and masters, made such a record during the four years of the war that the phrase "The colored troops fought nobly," became a byword. It was no mere flash in the pan either, this heroism. It was repeated in Cuba, when they literally saved from annihilation the Rough Riders under Wood. To prove further that it is a deep-seated instinct, a glance at the record in the recent Mexican campaign will suffice.

From the Literary Digest an account is here reprinted of individual heroism of negro troopers. These two boys were surprised by 24 Germans, and conducted themselves in such a manner that they have been cited for the French War Cross.

The account says that they fought their opponents with rifle, hand grenade, and knife and beat them back until help reached them, and found both unconscious from many wounds and now on the highway to rapid recovery.

The troopers names are Needham Roberts and Henry Johnson. The former hails from New York, while Johnson comes from Albany, where Mrs. Johnson calmly received the intelligence that "Bill"—she always speaks of him as "Bill"—had won the Cross. Her appreciative comment was:

"Bill ain't big, nor nothin' like that, but, oh, boy, he can go some!"

Details of the fight, related by a writer in the New York Evening World, and reprinted in The Literary Digest, will interest Enterprise readers. Here it is:

Since writing a former dispatch I have paid the dusky warriors who are brigaded with the French a second visit in their trenches to the north of St. Meneshould, west of Verdun, and have learned of the glorious exploit of Privates Henry Johnson and Needham Roberts. The names of Johnson and Roberts will stand out forever on the roll of honor of their race.

Battling in the blackness of night with rifles, hand-grenades and a bolo knife, wholly deprived of the assistance of their comrades they put to flight an enemy assaulting party at least twenty-four strong. Roberts, wounded in three places, stretched out helplessly in the mud, hurled the grenades even while the muscular Germans gripped his throat. Johnson did even more. Having shot one of the foe down, he clubbed another with the butt of his rifle, and then sprang to the aid of Roberts with his bolo knife. As the enemy fell back in disorderly retreat, Johnson, three times wounded, sank to the ground, seized a grenade and literally blew one of the fleeing Germans to fragments. The belief of their white commander, a former Commissioner of New York, the two negroes, by their valor and intelligence frustrated a well-developed plan to assail one of our most important points.

Here is Johnson's side of the tale. Toward three o'clock in the morning of May 15, when No Man's Land was still we heard a slight sound behind. It was in the opposite direction in which the Germans should have been.

"Needham," he whispered, "what that?"

"Rats, I guess," said Needham. The sounds increased in the long, marshy grass, and finally Johnson caught sight of a log-like mass on the edge of the barbed wire, with which the post was hedged in. It was crawling slowly, almost imperceptibly forward.

"That's the bush Germans," Johnson shouted. The enemy is always "bush Germans" to the negroes.

His cry was heard back in the main combat trench, fifty yards in

Pecos Saves Too Much Daylight

BY FOLLOWING REQUEST OF GOVERNMENT PEOPLE BEAT SUN TO IT EACH MORNING ANXIOUS FOR CHANGE

Before falling in with the desire of the administration that the people of the United States move their clocks back one hour in order to save daylight, Pecos time, as well as time kept by several other towns on the T. & P., was already nearly one hour ahead of the sun. Adjustment to the new time here was a difficult matter, nor is it harmoniously adjusted now. However, there is a remedy for everything, and if the plan suggested by some of our leading business men works out, Pecos will operate on what is called Mountain Time in future. Regarding the present time kept in Pecos, the El Paso Times has the following to say:

The people of Pecos, Texas, are the champion daylight savers of the nation, according to the view of the Chamber of Commerce of that city, which was contained in a letter received yesterday by the El Paso Chamber of Commerce.

In fact the Pecosites are such champion daylight savers they go to bed before the chickens and get up when the Pecos roosters sing their "matutinal song" as the poets say. So much daylight has been saved in Pecos that it is taking the joy out of life in that prosperous burg, and the citizens are seeking some relief from the enormous stock of daylight which has already been saved by dwellers in Pecos.

This is the why of the matter. Pecos is at the very eastern edge of the mountain zone, and naturally sun time is the same as mountain time. However, the citizens of Pecos don't use mountain time, but instead, imitate their neighbors further east and use central time, which is an hour earlier and more up-to-date.

This was no doubt fine and dandy and gave the Pecos people a feeling of superiority over their neighbors further west, that is, until the new daylight saving scheme came along and the clocks were moved still another hour! It made the clocks of Pecos just two hours ahead of the sun time, and folks had to get up in the dim moonlight to start their daily work. Naturally they stopped work when Father Sun was high in the heavens and had much of his day's work to do yet. It was making day night and night day.

However, escape is offered to the troubled Pecosites. The El Paso Chamber of Commerce has taken up the matter and wants mountain time to extend on the Texas & Pacific as far east as Big Spring, which is more than 300 miles east of El Paso. The hearing has already been held before the Interstate Commerce Commission, and it is hoped that the decision will be favorable.

Anxiety is strong in Pecos for the change. Daylight saving is a fine thing when you don't try to save too much, the Pecosites say.

ALFALFA SHIPMENTS FROM TOYAH VALLEY INCREASES

Farmers in the Toyah Valley are busy these fine days cutting and shipping alfalfa.

On Tuesday the P. V. S. brought in eleven cars of the famous peagreen quality of alfalfa, and on Wednesday a special containing 21 empty's left, and these are expected back Saturday loaded with hay for distribution.

The big reservoir near Balmorhea which was completed last year has already demonstrated that the money was well spent, and we understand that there is a movement afoot to build another large one not far from the site of this one.

There are great prospects showing that Reeves county will come into her own in the very near future, and it needs only one or two more large reservoirs in the county and these, in addition to the proposed reservoir at Red Bluff, will reclaim many thousand acres of the finest soil in the State, making possible the raising of crops of all kinds. Push the propositions to the limit.

PROCEDURE OF NOTIFYING RELATIVES OF CASUALTIES

Relatives of soldiers named in casualty lists forwarded from France ordinarily are notified within twenty-four hours after receipts of the lists, according to a statement authorized by the War Department. A "statistical division," with a staff of officers and a corps of stenographers gives its full time to the maintenance of files of soldiers' names and addresses and this division notifies relatives.

A copy of the roster of each contingent sailing to join the Expeditionary Forces is filed in card index fashion, each card bearing the name of one soldier, his organization, and the name and address of parent or other relative or friend designated by him to be notified in emergency. When a casualty list is received from General Pershing each name cabled is listed with the emergency address on file in the card index. As rapidly as the new list with emergency addresses is built up the telegrams, which require only the relative's address, name of sender, nature of casualty and the date, and filling in the blank spaces they get the telegram off as quickly as possible. In addition to maintaining the telegraph blanks for the sake of speed the statistical division is supplied with sets of form letters to be filled in and mailed when further details are available.

While relatives are generally in receipt of information within twenty-four hours after the cables are received delays are sometimes due to clerical errors caused by the fact that some names pass through so many hands in France and America incorrect emergency addresses turned by soldiers removal of families, to addresses other than those listed, and the occasional necessity for calling back to General Pershing to verify a name or to obtain an address.

Aside from these four causes of delay the only reason for the failure of relatives to receive word at once is military considerations. General Pershing may, at his discretion, withhold a casualty list until he is positive that it will have no military value for the enemy.

TO WOMEN VOTERS

Owing to the fact that the attorney general has made two or three rulings in regard to women registering, this is to notify all that the last ruling is to the effect that all women who vote will be required to register. The tax collector's office will be open from June 26th, to July 13th. The tax collector will also spend one day in each precinct in order to make it more convenient for those who do not desire to go to the county seat. Dates will be advertised later.

To make it more convenient for those who do not desire to go to the county seat the tax collector will be at

New Quarters-City Hall and Fire Department

BUILDING FORMERLY USED AS BOTTLING WORKS REMODELED AND CITY DADS HAVE MOVED IN

The City Dads of Pecos are forging to the front in a manner which should be pleasing to every citizen of the town who believes in progress. Since purchasing the new city hall and fire station the entire interior and a portion of the exterior has been rearranged and remodeled and they now have a model, comfortable and well-equipped city hall and fire station.

The front portion of the building is occupied by the fire-fighting apparatus while in the rear portion is the office which, while beautifully finished and furnished, is not to say very extravagant in space, but large enough for present needs; a bath room and rooms for two or three of the firemen, who will sleep there and be in readiness to give the proper alarm and get the fire-fighting machinery out. The entire inside has been beautifully papered and the changes necessary made to make it comfortable and convenient. The outside of the building has been treated to a coat of slate-colored paint which covered the big Coca Cola signs on the walls and very much improves the appearance of the building.

In addition to all this, cement walks have been put in on the east and north sides, with a walk from the north side walk to the entrance to the office of the secretary.

This week the fire-fighting equipment and fire alarm bell were moved to the new city hall and in future when you have business with the city you will have to go to the new city hall on the corner northwest from the courthouse, and when you enter you will feel prouder than ever of your city and the men whom you elected to look after city affairs. They are all live wires, good business men and drove a splendid bargain when they purchased this property.

To prove that The Enterprise believes the above statement the editor offered the city dads a few days after they made the purchase \$2500 spot cash for their property for which they had only paid \$2300.

Long may Pecos continue to remain on the map and it is the hope of The Enterprise that her citizens may continue to elect as good business men to guide her destinies.

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days... I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere... I had to let my house work go... I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me. One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle... I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. E 78

WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO

The splint warehouse of the American Red Cross in Paris has shipped 800 cases of splints and accessories, comprising approximately 16,000 different kinds of leg splints, and more than 6,000 arm, elbow and wrist splints since last December.

The American Red Cross has established a milk route in what is left of free Belgium, and distributes milk to babies in families that are unable to pay.

There are practically 270,000 refugees in France and nearly 50,000 in free Belgium. These the Red Cross must help.

During the German thrust at Amiens the American Red Cross headquarters at Paris assembled and hastened to the front all the instruments and accessories for a 1000-bed evacuation hospital. The whole job was done in less than three hours.

There are more than 21,000 nurses enrolled in Red Cross work: 12,000 are in active service. 3,000 are in France and abroad. 2,000 are engaged in teaching, etc.

3,344 are enrolled with special units. 729 are on duty in Naval hospitals. 84 are safeguarding the public health at army cantonments.

The army alone will need during 1918, 25,000 nurses. Nursing service is military service. What our own Chapter did last week:

The surgical dressing class eclipsed all, although the afternoons were very warm last week. On Monday, 27 present, 265 dressings were made. On Friday, 37 present, and 460 surgical dressings were made. This amount, made in two afternoons, almost exceeds the entire output of last month. Great honor and credit is due the young ladies of the class, who compose almost half the membership. They work with untiring fingers.

Friday Red Cross Unit, at the Red Cross room, with 11 present, completed 5 garments.

Merry Wives with 8 present, made 5 shirts.

MUST BACK THE GOVERNMENT WITH FULL STRENGTH

Few people in this country fail to realize that we are fighting a brutal, relentless enemy. The indictment against the Hun grows stronger every day. He is absolutely devoid of pity or chivalry. An American correspondent reports a conversation with a crippled British officer who, after a long stay in German prison pens, had been exchanged.

The officer told of men so feeble from lack of food and cad conditions as to be able scarcely to stand and these were forced to work at the point of a bayonet until they dropped from sheer weakness; of badly se-gun-fractured arms and legs; of soldiers buried to the accompaniment of jeers of the German soldiers; of the long journeys of the badly wounded without relief of dressings, food or water; of wounded prisoners marched to exhaustion and then shot down like dogs when they could no longer walk; of prisoners put into camps in which typhus raged.

This is the kind of an enemy we are fighting, and this is why all of us must get down and put every bit of our strength back of the government. For one thing, we must buy only those things necessary to maintain ourselves in the most efficient condition. That will give the government more labor and material for war purpose. And then with our savings we must buy War Saving Stamps. That will give the government current funds with which to use labor and materials in the successful prosecution of the war. We must do as President Wilson asks us to do in his message—pledge ourselves on or before June 28 to save constantly and to buy regularly the government securities. We shall be doing our part then.

Cincinnati Man Discovers Drug That Loosens Corns So They Lift Out

Good news spreads rapidly and the druggists here are kept busy dispensing freezone, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any drug store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callous.

You apply just a few drops on the tender, aching corn or toughened callous and instantly the soreness is relieved and soon the corn or callous is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

RED CROSS SAVES U. S. MAN-POWER BY WORK AT FRONT

RESTORATION OF WOUNDED ALIES CONSERVES LIVES OF SO MANY AMERICAN SOLDIERS.

BROTHERHOOD BIG WAR ANGLE

Money Not Sole Need, but Absolute Pledge of Personal Loyalty and Co-Operation is Required.

Every man, woman or child who, out of his own heart, gives to support the American Red Cross by enlisting as a member in its ranks is helping America to win the war from an angle of attack that is new in modern war.

It is the angle of brotherhood. It stiffens the courage of the civilians. It puts hearts into our soldiers by the comforting knowledge that their home affairs are going well.

And every additional member enrolled in the Christmas membership campaign, which opened Monday, Dec. 17, continuing until Christmas eve, makes not only for victory in the world war, but for everlasting peace between the great nations now fighting together for democracy.

Every time the American Red Cross helps to save the life of a wounded soldier at the front it saves two men—the man who was wounded and the American boy who will have to take his place. In other words, membership in the Red Cross will conserve America's man power.

Work done by the Red Cross makes the burdens of others easier to bear. Hospitals must be supplied in Europe, ambulances must be kept running, nurses must be provided if the United States is to care for the millions of American soldiers to be sent abroad, those already there and those of America's allies.

The Red Cross is not asking for 2,000,000 members in the Southwest division primarily for the money they will bring in, although the need is great, but for the absolute pledge of personal loyalty and co-operation which is so vital to the success of the nation in the war.

The government could, of course, hire knitters, and it could issue pensions for soldiers' families. It could buy ether and bandages and hire nurses. But these things are such a small part of Red Cross work that with them alone our cause would fail.

U. S. Takes Over the Busch Estate

PROPERTY OF WIDOW OF MILLIONAIRE BREWER TO BE HELD UNDER ALIEN LAW SAYS SHE'S LOYAL TO U. S.

Washington, D. C., June 17.—The entire estate in this country of Mrs. Lily Busch, widow of Adolphus Busch, the late millionaire brewer of St. Louis, Mo., has been taken over by the government under the Alien Property Law.

These facts became known today in connection with the return to this country of Mrs. Busch, who had been living in Germany for several years, or practically since the death of her husband. The government has not appraised the property, which consists largely of breweries in St. Louis and second assalant, Johnson turned to find Roberts feebly fighting off three Germans, one of whom was choking him, the other trying to lift him up, evidently trying to take him prisoner.

At this point another German, one of a dozen who had penetrated the wires during these few seconds, fired three revolver shots. Johnson fell wounded in his left leg, his right hip and his right forearm.

"Just then," said Johnson "I remembered my bolo knife." With this weapon he got into action, and it was all over but the shouting. At this point help came, the enemy fled, and this pair of dusky heroes, now unconscious, were taken to the rear, and finally to the base hospital where they await the decoration of War Crosses, well earned.

GOODS AND SERVICES

The doctrine of "goods and services" about which we have read a great deal the last few months is one to which we can heartily subscribe. It is one which we can also easily make clear to those of our friends to whom it is new.

A homely saying is "You cannot eat your cake and have it, too." This saying explains in a few words the idea of the doctrine of "goods and services."

We cannot go into the markets and buy and use good of any kind and at the same time leave those goods for war purposes. We cannot have labor work for us as individuals; and at the same time have that labor available for the use of the government to help it win the war.

Every time we buy goods, every time we use labor we compete with the government.

It makes no difference that the goods may be the kind not used by the government. If the goods that are bought by us are manufactured articles, certain raw materials are needed for their productions. If the goods bought by us are raw materials, then we are taking from the markets things that the government can almost certainly use, for there are indeed, few raw materials not used in some branch of war industry. Moreover, everything we buy must be transported in some way, and adequate transportation is vital to the speedy production of war goods and to the rapid movement of troops.

It makes no difference that the labor we employ for our personal use is labor not directly available for war needs. The men who work for us may not make soldiers or sailors; but whenever we use a man there is just that much less man power for government use and for use in making those things necessary to the public. And then, too, no man can work for us without using materials of some kind.

This does not mean naturally, that we must stop buying everything and refrain from employing all labor. Certainly not. Every one is expected, and in fact, urged to keep himself in the most efficient condition possible, so that his body and mind can give the maximum service. That necessarily means the use of goods and services. But there is a vast difference between using only those goods and services necessary to keep us in prime physical and mental condition and in using goods and services that we do not need.

And the reason we should restrict our buying to the things needed is that we cannot use materials and labor the way we did before we entered the war and at the same time have enough labor and materials with which to win the war.

Every day sees an increase in our fighting army. And our fighting army is made up of men from our industrial army. And every addition to our fighting army means an increase in the amount of war goods that must be manufactured. There can be only one result to all this great change—the ranks of necessary labor will have to be increased by the addition to them of many men who have heretofore worked at tasks not now necessary. Peace goods will have to give way to war goods.

This will mean that all of us must buy wisely.

One of our countrymen successful in amassing a great fortune once said that the way to get rich was never to buy anything until you absolutely had to have it. We have now come to the point where all of us in order to give our country every assistance possible must not buy things unless they are needed to maintain our health and our efficiency.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD IN 1918

The THRICE-A-WEEK WORLD'S regular subscription price is only \$1 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Enterprise together for one year for \$2.50.

Practically a daily at the price of a weekly. No other newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never so great as at the present time. We have been forced to enter the great world war and a large army of ours is already in France. You will want to have all the news from our troops on European battlefields and 1918 promises to be the most momentous year in the history of our universe.

No other newspaper at so small a price will furnish such prompt and accurate news of these world-shaking events. It is not necessary to say more.

Presidential Proclamation calls for War Savings Pledges

By proclamation the President of the United States has authoritatively summoned all adult males and females to solemnly pledge to the Government the greatest amount they can save and invest in United States Government War Savings Stamps. They have been summoned to make their pledges between now and June 28, National War Savings Day. The proclamation provides that all adult males and females are to meet at appointed places in their school districts June 28, National War Savings Day, and, even though they have already made their pledges as they should have done, they are at these meetings to re-affirm their War Savings Stamp pledges to the President on the official Government pledge card which will be furnished them for that purpose. Pledges for War Savings Stamps made before June 28, National War Savings Day, should be turned over to the County Chairman of the National War Savings Committee or to one of the local representatives of the National War Savings Committee, according to the instructions of the Treasury Department. In addition to notification by publication, every adult male and female will be authoritatively summoned through the mails to attend the June 28 meetings. Responsibility for attendance upon these meetings rests wholly upon the individual.

TO THE PEOPLE OF THE UNITED STATES—GREETING:

This war is one of nations—not of armies, and all of our one hundred million people must be economically and industrially adjusted to war conditions if this nation is to play its full part in the conflict. The problem before us is not primarily a financial problem, but rather a problem of increased production of war essentials and the saving of the materials and the labor necessary for the support and equipment of our army and navy. Thoughtless expenditure of money for nonessentials uses up the labor of men, the products of farms, mines and factories and overburdens transportation, all of which must be used to the utmost and at their best for war purposes.

The great results which we seek can be obtained only by the participation of every member of the Nation, young and old, in a National concerted thrift movement. I therefore urge that our people everywhere pledge themselves as suggested by the Secretary of the Treasury to the practice of thrift; to serve the Government to their utmost in increasing production in all fields necessary to the winning of the war; to conserve food and fuel and useful materials of every kind; to devote their labor only to the most necessary tasks, and to buy only those things which are essential to individual health and efficiency, and that the people, as an evidence of their loyalty, invest all they can in Liberty Bonds and War Savings Stamps.

The securities issued by the Treasury Department are so many of them within the reach of everyone that the door of opportunity in this matter is wide open to all of us. To practice thrift in peace times is a virtue and brings great benefit to the individual at all times; with the desperate need of the civilized world today for materials and labor with which to end the war, the practice of individual thrift is a patriotic duty and a necessity.

I appeal to all who now own either Liberty Bonds or War Savings Stamps to continue to practice economy and thrift and to appeal to all who do not own Government securities to do likewise and purchase them to the extent of their means. The man who buys Government securities transfers the purchasing power of his money to the United States Government until after this war, and to that same degree does not buy in competition with the Government.

I earnestly appeal to every man, woman and child to pledge themselves on or before the 28th of June to save constantly and to buy as regularly as possible the securities of the Government, and to do this as far as possible through membership in War Savings Societies. The 28th of June ends this special period of enlistment in the great volunteer army of production and saving here at home. May there be none unenlisted on that day.

Red Cross Canteen Service Furnishing Food to American Soldiers "Somewhere In the Southwest"

The workers of the Red Cross canteen service are always on the job when soldiers are passing through a town. They prepare mounds of delicious sandwiches, huge wedges of pie, and to top it off gallons of piping hot coffee for the soldier boys. This photograph shows a typical scene at a station somewhere in the Southwestern Division of the Red Cross when a troop train made a brief halt on its way from somewhere to somewhere else with some of our soldier boys. "Pledge the President" on June 28th. Go the limit, and then keep the pledge.

Please Mr. Garfield, send around some of your heatless days now.—Washington Herald.

"The German Army Loses Its Morale," reads a headline in one of our Texas dailies. The Enterprise wonders what the kaiser will use to feed them from now.

When The Enterprise glances at the long list of soft jobs that McAdoo eliminated by firing the holders in the various railways, it ventures to commend his appointment as Director General, for he has proven himself an A1 fireman.

To folks who are too busy to read in detail the war news of the day The Enterprise would suggest that they merely glance at the cartoons by Knott in the Dallas News from day to day. They cover the situation like six columns of slugs.

"McAdoo Rests," is the burden of an Associated Press report appearing in the press the past week. As a rule dispatches from this source can be relied upon. However, when any one suggests that McAdoo is resting—well The Enterprise don't believe it, that's all.

The Enterprise notes a funny angle taken by candidates of the present day. That is putting forward the argument that they believe there should be no extensive campaign for any office, which would detract the people's mind from the main issue of helping win the war. The Enterprise is of the opinion that campaigns for important offices, or for all offices, should be as extensive as possible in order that the people may be well acquainted with candi-

dates for whom their votes will be cast. In times like the present men seeking positions of trust and honor must be proven, and to spread their past records in the limelight is one of the best methods of procedure. We are not going to forget the war, nor are we likely to dodge doing our part in helping win it. This is no time, The Enterprise says, to let men slide through the back door into public office.

On good authority the statement comes to The Enterprise that a Mexican, totally blind, who sole manner of earning his daily bread is the salvaging of junk, which he sells, was led into one of our banks by a small boy who is his constant companion and guide, shoved fifty cents across the counter, stating it was for the Red Cross, and promised to duplicate each month. Get the moral.

Every play Germany makes is a bonehead. When she stated that the United States would cut no ice in the war, she said a mouthful that every American soldier is now bent on cramming down her throat and its half-way down right now. Again, when they sent their tourist subs over here to prey on fishing and other small craft, she just added a little more "pep" to the preparations that ere long will put the Huns out of business.

"German militarism is a success," solemnly declared the kaiser in a recent address to his misguided followers. The Enterprise has at last found a subject on which it can heartily agree with Bill the Hun. One needs only to look at the casualty list since the war started—the sudden cutting off of countless thousands of the flower of earth's manhood, the desolate homes of France and Belgium, and listen to the wail of despair from outraged womanhood in these countries. As facts and figures pile up it won't take one long to agree that German militarism is a howling success.

ABOUT WAR SAVING STAMPS

Dallas, June 30.—Stressing the responsibility which rests upon all adult men and women to attend the 11,000 Federal War Savings Stamp pledge meetings to be held in Texas June 28, National War Savings Day four-minute speakers in the State have been instructed by the Texas State Council of Defense to visit and speak at schoolhouses in their counties on June 28 or earlier if possible.

In the letter of instructions to the four-minute men of the State, Mr. Joseph Hirsch of Corpus Christi, publicity chairman of the Council of Defense, said:

"This is one of the most important campaigns in which we have engaged. The only way we can pay the terrible cost of the war is by saving; by rigid economy. Sooner or later our people will have to learn that lesson. It we help to teach that lesson we shall indeed be performing a national service."

Information relative to the action of the Council of Defense has been received by Louis Lipsitz, the State Director of the National War Savings Committee.

There are between 1500 and 1700 four-minute speakers in the State. Mr. Lipsitz said, and they will carry the government's message to a great number of people. Every precaution is being taken to notify Texas adults of the government's desires. All persons affected by the President's proclamation will be authoritatively summoned by the Federal Government to attend the June 28 meetings; in addition to this notification, every officer who has been charged with the holding of a meeting in his district will personally summon the people of his district as far as possible. The President's proclamation is now being posted in all public places by the sheriffs, postmasters and railroad station agents who are considered government employees.

From all sections of Texas Mr Lipsitz is receiving reports from the county chairmen, notifying him that all is in readiness for the pledge meetings to be held in their districts.

Two Colored Troopers Win War Cross

(Continued from page 1)

the rear and a star-shell flared aloft. In the grayish light what seemed to the startled sentries to be a host of Germans was revealed. Simultaneously a volley of German grenades awoke the silence of the night, and Roberts muttered "I'm hit," and collapsed on the duck-boards underfoot. The grenade splinters caught him on both elbows and on his right forearm. With his left hand he groped for the basket of grenades and let fly.

Meanwhile, Johnson, stooping low beneath the breastwork—there are no trenches at that point—grabbed a rifle and fired point-blank at a big fellow who had just finished severing the last strands of wire. The German dropped, but another took his place and leaped toward Johnson. He wasn't ten yards away so the colored boy grabbed his rifle by the barrel, swung it and it landed full on the other's head. Thus freed from his other cities, stocks and bonds and real estate in New York but it is generally believed to be worth many million dollars.

Alien Property Custodian Palmer announced today the seizure of the estate was made some months ago and that the Union Trust Company of St. Louis had been named as depository and had been operating the property for the government.

Under the law which permits the government to seize the property in this country of any person resident in Germany, title to the entire estate reverts to the government and unless the attorney general rules otherwise, it will be held subject to such disposition as the government may choose to make of it.

Mrs. Busch, who is 74 years of age, was in Havana over Sunday, on her way to the United States from Germany, through Switzerland and Spain. She is accompanied by her attorney, Harry D. Hawes, who went to Switzerland to confer with her several months ago. It is understood that Mrs. Busch plans upon her arrival in this country to call at the State Department of Justice in an effort to regain custody of her estate.

It is stated that Mrs. Busch will insist that she is a loyal American citizen of the United States, who did not forfeit her citizenship by reason of her residence in Germany since her husband's death.

Charles Nagel, one of the trustees of Mrs. Busch's property, said this evening that he had not yet been notified of Custodian Palmer's order for the seizure of the property.

"Mr. Palmer first demanded custody of Mrs. Busch's property last December," Nagel said. "However, a conditional custody was agreed upon and the property remained in the hands of the depositories."

Inquiry was made by United States officers here last fall into the status of Mrs. Busch's citizenship, and it was found that she was born in this country and that her husband, the late Adolphus Busch, was a naturalized American.

Two of Mrs. Busch's daughters are wives of German subjects and she stayed with them while in Germany. Other members of the family are American citizens.

MARRIED SUNDAY EVENING

G. B. Gunn and Miss Minnie Osteen were quietly married at the home of the latter in North Pecos Sunday evening last, at 8:30, Judge Jas. F. Ross officiating.

Mr. Gunn has been a resident of Pecos for more than a year as manager of the Pecos Hide & Produce Co., is a man of good business qualifications and has not only made a splendid manager for this concern, but has gone after and secured the business and at the same time made friends with all with whom he has dealt.

Miss Osteen, the bride, has been a resident of Pecos for a number of years, but has been in Alamogordo for some time. She is a trained nurse and has done much of that work among our people, all of whom hold her in the highest esteem.

The Enterprise joins the friends of this happy couple in wishing them bon voyage on the matrimonial sea.

VENRON SULLIVAN MOVES RESIDENCE TO EL PASO

Vernon Sullivan, well known to residents of this section, especially through his recent efforts to obtain legislation favorable to the final construction of the Red Bluff Reservoir, has located in El Paso, and an account of his removal from the Pecos Valley appears in the El Paso Herald as follows:

HUDSPETH'S VOTE ON THE ZONE BILL!

Mr. Z. L. Cobb, candidate for Congress has repeatedly stated that his opponent, Senator Claude B. Hudspeth, was paired against the bill prohibiting the sale of liquor within ten miles of army posts, commonly known as the Zone Bill. Senator Hudspeth replied that he was absent when the Zone Bill was voted upon, and that Senator Strickland misunderstood the pair.

Senator Strickland is a Prohibition leader. Mr. Cobb wrote to Senator Strickland about the matter. Senator Strickland replied to Mr. Cobb's letter. Mr. Cobb failed to make the reply public. Senator Strickland sent a carbon copy of the letter to Mr. Hudspeth's law partner. It follows, and it speaks for itself, sustaining Senator Hudspeth, refuting Mr. Cobb's charge.

Hon. Zach Cobb, El Paso, Texas.

Dear Sir: Your letter of some time ago received, and on account of the illness of my law partner I have up to the present been unable to catch up with my correspondence. You ask me to advise you as to the facts and circumstances concerning my pair with Senator Hudspeth on the Zone Bill. I understood Senator Hudspeth to tell me that he was going to Silver City, N. M., and try a case, and that he wanted me to pair with him on the zone law, which I did. At the time I announced my pair several of the senators, among whom were Senators Clark, Page, and Lattimore, protested, saying that they thought I was mistaken, that if Hudspeth were present he would vote for the bill. I did not withdraw the pair, however, and a few days after, upon his return, he stated that I was mistaken, that his pair was on statutory prohibition. About that time the zone bill, which had passed both houses and was in free conference committee, came back to the senate and Senator Hudspeth voted to concur in the free conference committee report.

Yours truly, (Signed) J. J. STRICKLAND.

P. S.—Judge Harper has written to me asking the same question and I am sending him a carbon copy of this letter. J. J. S.

American Society of Civil Engineers, who was territorial engineer of New Mexico under governors Itagelman, Curry and Adams, is located in El Paso. He will maintain an office at Buenavista, Texas, where he will continue the management of the Imperial Irrigation Co. To take this position he resigned as territorial engineer of New Mexico in 1911.

In addition to his work with the imperial company, Mr. Sullivan has constructed several large irrigator systems. Two of them have been completed since war was declared in 1914. These are the Reeves County irrigation district No. 1, and the Leon Valley irrigation system. Both of these projects have large storage reservoirs and are now doing a great deal in furnishing food stuffs during war times.

Mr. Sullivan has been very much interested and has spent much time in trying to get the Red Bluff reservoir built for the storage of the Pecos river to augment the water supply of the ten irrigation systems now insufficiently supplied with water in the State of Texas. This reservoir will hold a half million acre feet of water and would control the entire floods of that river. The projected reservoir is located just above the line of New Mexico. He has been to Washington, D. C., a couple of times in the interest of the project. Recently the El Paso Chamber of Commerce endorsed the project.

He is now looking after the construction work of the Ward County Water Improvement District No. 2, which is constructing storage facilities for its present system.

Mr. Sullivan, who has had a large experience in irrigation hydro elec-

tric power, good roads and city work, is a member of the American Society of Civil Engineers. He intends to make this his future home, having purchased a new bungalow at 3913 Trowbridge street.

A WORD FROM T. T. GARRARD TO THE COUNTY VOTERS

To my friends of Reeves County: I had intended to see some of my Reeves county friends personally before this time in the interest of my candidacy for reelection as district attorney, but since court adjourned at Barstow I have been busy and am busy now farming.

I believe it is the patriotic duty of every man during this critical period of our country's history to do everything possible toward relieving the food and feed situation and everything else necessary toward winning the war.

A number of farmers have left the country during the drought and there is some uncultivated lands left as a consequence. Rains have been plentiful in this section the past few weeks and I have decided to put in all the feed crops I can possibly get. I'm busy as the proverbial one-legged man, having feed put in now but I hope to get through soon.

I hope my friends over Reeves county will keep me in mind and see that my interests in this campaign are properly safeguarded. Please don't think that because I have not been around more often that I am not interested in you and in your support. I assure my friends that I am as keen for your support now as at any time and as soon as I get through farming I am going to see every man and woman in my district and kiss as many babies as mothers will permit.

Your friend, TOM GARRARD.

 SAN ANGELO BUSINESS COLLEGE

PROCLAMATION

THE STATE OF TEXAS,
County of Reeves.

Know all Men by These Presents: WHEREAS, the President of the United States of America has designated June 28, 1918, A. D., to be National War Savings Day and has authoritatively summoned every adult male and female to attend meetings to be held in their respective school districts and pledge to the United States Government the greatest amount they can save and invest in the United States Government War Savings Stamps; Therefore, I, Jas. F. Ross, Judge of the county of Reeves, States of Texas, do at the request of the United States Treasury Department call upon and direct all adult males and females resident or present in the County of Reeves on the dates heretofore published to be in attendance upon such meetings to be held in the particular school districts in which they may reside or may be present and solemnly pledge to the United States Government the greatest saving they can make this year and invest in United States Government War Savings Stamps.

Fail not in a punctual response to the authoritative Federal summons. By order of the United States Treasury Department such meetings shall be held as published. Under instructions from the United States Treasury Department the duly accredited persons who shall hold such meetings for the government shall cause an accurate roll to be kept of the persons present and those absent. The names of absentee residents of any district shall be certified to the United States Treasury Department for official record and disposition.

I do most earnestly appeal to every resident of the County of Reeves to take cognizance of the bloodshed and loss of American life on the foreign battlefield and by their pledges to keep unsullied the fair name of the County of Reeves, showing to the United States Government, the other counties of the State of Texas and to those men of this county who are now in the army's service of the United States Government and fighting for the retention of our liberties that the citizens of the County of Reeves are loyal and steadfast here at home in the service of their country.

Witness my hand and the seal of the county of Reeves this 19th day of June, 1918, A. D.
(Seal) JAS. F. ROSS,
County Judge of Reeves County.

DEMOCRATIC EXECUTIVE COMMITTEE HOLDS MEETING

At a meeting of the Democratic Executive Committee of Reeves county, on Monday, June 17th, there were present Max Krauskopf, chairman; Tom Roberts of Toyah; Edgar Patterson of Balmorhea; and Chas. W. Tudor of Pecos. Albert Kyle, from Loving county and W. R. Black of Saragosa, being absent.

At this meeting, preparatory to fixing the ticket, the names of candidates were drawn from a hat, for preference of position on the ballot.

The fees fixed by the committee for each office, to pay for the expense of the election are as follows:

County judge, county clerk, sheriff and tax assessor, \$15 each; county attorney and county treasurer \$10 each; surveyor, \$5; precinct officers, \$2.50 each.

The following were appointed as judges of election at the boxes named, and each will appoint his own assistants:

The following resolution was voted on and carried:

"Be it Resolved: That only white voters shall participate in the election and only the English language shall be spoken."

A resolution was passed asking for bids for printing the tickets for the primary election.

Meeting adjourned until the second Monday in July.

FATHER DIES AT UVALDE

Mr. and Mrs. Evy Bowles returned home Sunday from Uvalde where they had been called by the death of Mrs. Bowles' father, W. C. Clubb, of that city.

Mrs. Bowles had been down there for some time previous assisting in caring for her father and returned home, leaving her father, as she thought, improving, but the second day after her arrival here received the sad news of his death.

The bereaved have the sympathy of the entire community in which The Enterprise joins.

SOLDIERS TRANSFERRED TO MEET PARTICULAR NEEDS

Nearly 240,000 transfers of men from one unit to another have been made in army camps as a result of occupational qualifications determined by investigations by the War Department committee on classification of personnel. Recently about 40,000 transfers have taken place each week.

Through the committee organizations have been built up in all army camps, by which enlisted men and commissioned officers are classified according to occupational qualifications. In some camps, where as many as 2,500 men are received each day, forces of 200 interviewers are employed to ascertain full information regarding each man's occupational qualifications.

CHURCH OF CHRIST

The government is asking the ministers of our country to assist in a campaign of education preparing the people for the proper reception of our wounded soldiers as they return from the battlefields. This is a very necessary work and we need to begin it now. Therefore, I shall speak on the subject at the morning hour next Lord's day. Every patriot and christian should be interested. Come and let us reason together.

At night (9 o'clock), we shall have for our study the second chapter of Galatians.

The Bible school and Endeavor Societies will be held at the usual hours.

W. C. T. U. MEETING

WAR SAVINGS CAMPAIGN, SAYS PRES. WILSON, BASIS OF GOVERNMENT'S WAR-TIME FINANCIAL PROGRAM

THE War Savings Campaign is the foundation on which the Government has based its entire war-time financial program. In the measure that the lesson of saving is learned and practiced by all the people, both President Wilson and Secretary William G. McAdoo have emphatically declared, in just that measure will the Government float the bond issues that may be necessary in the future.

The saving and investing of the War Savings Stamp quota is far from the only thing based on the War Savings Campaign. The future Liberty Loan bond issues and the floating of the Treasury's indebtedness certificates are wholly dependent for success upon the constant practice of economy through the medium of War Savings Stamps.

Texas are called upon to save and invest \$91,000,000 this year in War Savings Stamps and it is vitally necessary that this be done and that everyone practices to the utmost the principles of war-time economy which the Government is teaching with War Savings Stamps. Mr. McAdoo has declared. A single strand in the cables which uphold the great Brooklyn Suspension Bridge is not very strong, but thousands of these strands bound together uphold one of the greatest pieces of engineering in the world. In the War Savings Campaign one person is like the single strand, but all of the people saving and buying War Savings Stamps will make the Government's entire financial program a success, the Secretary of the Treasury has pointed out.

—Pledge the President.—

"NO individual in this great country can now expect ever to be excused or forgiven for ignoring the National obligation to be careful and provident of expenditure, now become a patriotic duty and an emblem of patriotism," says President Wilson in his message to Texas people. "I suppose not many fortunate by-products can come out of the war, but if this country can learn something about saving it will be worth the cost of the war. I mean the literal cost of it in money and resources."

—Pledge the President.—

TEXAS cattlemen, barons of the Lone Star plains, are urged by James Callan, President of the Cattle Raisers' Association, not only to keep on feeding the "boys over there" bully beef, but to invest all they can in War Savings Stamps so the Sammie can feed the Hun's bully bullets.

"Although laboring under the most adverse and trying conditions in the history of Texas range country, you have not lost your courage nor your patriotism," Mr. Callan addresses Texas cattlemen. "An appeal is made to everyone to help to his ability in the purchase of War Savings Stamps. "Help whip the Kaiser, cattlemen of Texas! Our boys are on the firing line."

—Pledge the President.—

W. A. FRASER, Sovereign Commander of the Woodmen of the World, is intensely interested in the War Savings Campaign. Several days ago, shortly after his return from Omaha, where he and Mr. Fraser were together a good deal, Louis Lipsitz, State Director of the National War Savings Committee, received the following telegram from the Woodman Sovereign Commander:

"A War Savings Society in every Woodman of the World camp, every sovereign member and the doctrine of personal economy practiced hand in hand with the great principles of woodcraft—that's my ambition.

"Woodman of Texas: Chop down the trees of extravagance with War Savings Stamps; blast out the stumps of unnecessary expenditures with War Savings Stamps. Help make an open road which the Government needs if it is to travel the paths of victory.

"The Woodmen of Texas have a vastly important part to play in putting Texas in the clear. Acquire War Savings Stamps, invest to the hilt. Save your country. Save yourself. The cry must not go up that 'the tree is falling.'"

—Pledge the President.—

THE Government looks to the women of Texas for much support in driving home the teachings of the War Savings Campaign.

"To every Texas woman the Government has assigned the role of Joan of Arc," declares Mrs. Percy V. Pennybacker, former President of the National Federation of Women's Clubs. "The French maid saved the land of the Tri-color. Texas women are called upon to save with their economic hand that their funds, invested in War Savings Stamps, may perform their full office.

"Let us all save—save and save—save our boys fighting for us in Europe."

JUVENILE LITERATURE IN GERMANY IS NEGLECTED

It is said that literature for juveniles, especially the kind that deals with leading sports and games, and which tends to inculcate into young minds ideas of fair play, is an un-known quantity in Germany. Dealing with this phase a writer, in The Literary digest says:

"Look at the crimes Germany has committed—crimes against the fair name of sport. Look at the times she has left sailors to drown after an attack by submarines. The cases are too numerous to mention, and all due to the fact that Germany has been brought up without the idea of giving the other fellow a fair chance. Do you remember that story of Santiago years ago, when Spanish sailors were going down with their ship? Our jackies were just on the point of giving a great cheer of victory when the captain said: 'Don't cheer, boys, those fellows are dying.' Well, a German wouldn't begin to understand that. It wouldn't begin to get beneath the skin of his psychology.

"I must admit that, when aviation began to play such an important part in the war, I thought I detected a change in the German attitude of sportsmanship. You see, aviation was a new game—both to Germany and her opponents. It was not a game in which rules learned years beforehand could enter into consideration—when human action could be directed by them. So, when the German aviator, Boelcke, wrote a letter home to his father telling of the heroism of an English airman, who, helpless and out of the fight, was trying to stabilize his machine by standing out on the framework, I thought I saw the first sign of a German conscience in sport. But, no; it was a wish farther from the thought. Later came out the story that when Boelcke saw his helpless opponent, he swooped down upon him and sent him to his death. If there is a moral in this record it must be remembered in connection with those fine stories of the tributes which British airmen have paid to their enemies, and, in particular, to the wonderful story of Richthofen's death and the ceremonies over his grave. These stories never could have been written had not the British been brought up on the playing-fields in the spirit of fair play.

"Germany can't see it—simply can't see it. If she could the world would get the benefit. So the whole game must go on to the finish—fair play against foul—until Germany is shown that her sort of game is not worth the effort and the price."

"VICTORY JUNK" DRIVE BY JUNIOR RED CROSS

At a meeting of the executive board of the local American Red Cross on Tuesday, it was decided to re-open the work of the Junior Department for the summer, with Mrs. J. E. Starley, director. To that end Mrs. Starley, assisted by Mrs. J. W. Brooks, Mrs. Woody Browning and Mrs. Marion Hudson has called a meeting of the Junior Red Cross at the Music Hall on Monday, June 24, at 5 p. m. Every schoolboy and schoolgirl of any age is not only invited but urged to be present to discuss plans for the summer's work. This is to furnish opportunity for every girl and boy to do her and his bit in patriotic service at this time. There is work for even the smallest boy or girl.

The Salvage Department of which Mrs. Starley is committee chairman, has decided to have the salvage work done by the Juniors and are preparing for the "Victory Junk" Drive, which will commence Monday, June 24. In every home are articles having little or no value for which the Red Cross can find a market and it is believed that a neat sum can be realized if a proper cooperation of everyone is had in the move.

Through the courtesy of Mr. Steve Ward the grocery department of the old Thomason building has been donated as a depot in which to store the clothing, rags, metals, papers and other junk, and this will be kept open every day during the drive, which is to extend over a period of ten days. It is hoped that the public will respond enthusiastically to this call, that whenever possible they will deliver their donations, especially of the less bulky materials. Mr. Collie has generously donated the use of the phone, and the Salvage Department will gladly call for any and all materials, and will be pleased to answer phone calls giving instructions for the assorting of materials preparatory to sending.

The Salvage Department believes that everyone will cooperate to make this "Victory Junk" drive a splendid financial success.

Following is a suggested list of salvage articles for which there is a ready market. It is only by all cooperating to make as large a collection as possible, by each sending in his bit, that we can ship in such quantities to get the largest money returns. So do your bit:

- Aluminum pans, etc.
- Auto tires; machinery.
- Auto radiators.
- Books of any kind.
- Barels of any kind.
- Bottles (pints and quarts), Bevo, Beer, Catsup, Bluing, Pickles and Mustard.
- Brass (any kind).
- Bicycle tires.
- Carpets and Rugs.
- Cotton and quilts, etc.
- Canvas, any kind.
- Clothes of any kind.
- Collars, ties, etc.
- Copper wire, kettles, etc.
- Copper, any condition.
- Electrical fixtures.
- Hats, felt.
- Iron.
- Iron fences (not wire).
- Iron stoves or castings.
- Jars, fruit, salve or cosmetic.
- Jugs and demijohns.
- Leather, hides, etc.
- Lead, any form.
- Magazines (bundled).
- Movie posters.
- Mattresses, Mixed rags.
- Metals (any kind).
- Paint and paste tubes.
- Pewter.
- Pipe, plumbing fixtures or parts.
- Rope and string.
- Rubber boots and shoes.
- Rubber articles of any kind.
- Sacks and burlap.
- Shoes (uppers must be sound).
- Tinfoil, any kind.
- Tools and machinery.
- Coins. Gold. Gold Plate.
- Silver plate.
- Platinum.
- Precious stones.
- Trinkets of value.
- Zinc.

No. 291.—Corner lot with two 4-room houses on it. This property is in fairly good shape and is good rent property for colored people. Close in, almost always rented. Owner lives in Illinois and wants to dispose of it. Price, \$600 cash.

No. 293.—One section land 8 miles south of Pecos. This section borders on the Pecos River which makes it riparian land. Most of it is agriculture land. Price \$10 per acre.

No. 300.—1 section, No. 24, H. & G. N. Ry. survey. A splendid river section. Part has been cultivated. Price \$10 per acre. Good terms. Lies 10 or 12 miles from Pecos on the Pecos River.

No. 301.—E 1-2 of section 59, blk No. 4, H. & G. N. Ry. Co. survey. Situated between Experiment Farm and Sand Lake. Price \$5.00 per acre.

No. 302.—Sections Nos. 21 and 38, price \$3.00 bonus. \$2.00 due to the State at 3 per cent. 2 other sections joining that can be leased.

No. 375.—We have several small ranches for sale, ranging from 4 sections to 50 sections. Price from \$1.00 to \$3.00 per acre, most of it \$1.50 to State at 3 per cent interest. If you want a small ranch come to see us.

No. 376.—800 acres in Ward County, just across the Pecos River from Pecos City. 160 acres of this tract lies on the south side of the T. & P. R. R. track and borders on the river. There are some 150 or 160 acres of this tract in cultivation. A drain ditch and a canal pass through it. Will sell it in a body or in tracts. Price \$40 to \$80 per acres. We can make satisfactory terms. This tract lies on the Pecos and Barstow road for 1 mile or more.

No. 378. A 5-room one and one-half story on 115-foot lot. Northeast corner, good shades. A good place for a good house. Price \$1500, 1-2 cash, balance in three annual payments.

An 18-room Hotel for sale or rent. Will sell furnishings and rent the building or sell all.

We want a section of good land near railroad. If you have one let us know.

No. 379.—4 sections, Nos. 2, 4, 24 and 26, block 57, twsp. 2, T. & P. Ry. Co. survey. This land lies in the sulphur belt, between Ord and the Santa Fe and the Tinnally sulphur mines. Price \$5.00 per acre, bonus.

No. 380.—1 section, No. 183. This section lies on the north side of the P. V. S. Ry., joining Verhalen. Splendid land. Price \$10 per acre.

Don't forget to list your pasture land with us.

We have a 200-acre Clay county farm to trade for a small ranch. Will trade all farm implements and teams and take cattle on the ranch.

No. 400.—A 6-room house and 100 foot lot, with barn, poultry yards and garden and lots of nice shades. This place is situated in the best part of town. An artesian well in back yard. A good bargain. Price \$1500, two-thirds cash, balance easy terms.

We have a number of cheap houses that we can give special bargains in. If you want a little home call and see us. If you have any property to trade let us hear from you.

TO SELL OR TRADE

No. 280—164 acres, 5 miles west of Pecos, on T. and P. Ry., 80 acres in cultivation and fenced with rabbit-proof wire. 3 room house in good shape, good barn and other sheds. A good well of about 1500 gallons per minute, 5 inch pump, 45 horse power crude oil engine. This land is suitable for growing cotton, make alfalfa, sweet potatoes, melons, etc. Price \$50 per acre. If this interests you write us for full particulars. Would consider trade for farm in the Lampasas county, at the right price. This same kind of land this year has made an average of \$375 per acre on 7 acres in melons.

FRIEDA HEMPEL JOINS EDISON

THE most richly endowed soprano in America is what the critics call Miss Frieda Hempel of the Metropolitan Opera. A true artist, her ambition to have her voice preserved in all its splendor outweighed all other considerations. She has joined the Edison group of stars. Henceforth she will sing for the only instrument which can Re-create her superb voice.

Miss Hempel heard Re-Creations of other great artists; noted their superiority to anything she'd ever heard before and decided to investigate. She went to the Edison laboratories; made a Re-Creation; then submitted it to the searching trial of the tone test. She herself sang in direct comparison with the instrument. If you've ever heard her voice on talking machines you can conceive her joy in hearing it Re-created with such fidelity and perfection that no human ear could distinguish artist from instrument. It was enough. There and then she resolved that henceforth the instrument for her voice was

FOUR BEEF MEALS A WEEK FIXED BY NEW SCHEDULE

The Food Administration has just issued a new schedule for patriotic beef eaters, which allows of beef meals as follows: Monday—One meal roast beef. Tuesday—One meal boiled beef. Thursday—One meal boiled beef. Saturday—One meal, beefsteak. All restaurant and hotel keepers have agreed to serve beef only on this schedule.

BACK PAY DUE RAILROAD MEN TO BE PAID BY McADOO

The railroad men of Texas, who will soon receive more than \$1,000,000 in back pay as the result of Secretary McAdoo's recent order, have been called upon to pledge the President and to back up the government which has approved the back-pay order and to invest in their limit in War Savings Stamps. The following has been addressed to them by Ben J. Flood of Dallas, secretary of the legislative board of the State of Texas, for the Trainmen:

ALL MUST WORK

At last America is waking up. We have almost a million men in France, and others are going as fast as a largely augmented fleet can transport them. The aircraft scandal, we hope, is a thing of the past, and henceforward there will be machines instead of a "bluff" at making them. Congress has given the President extraordinary powers, and he is using them. The railways have been taken from the control of the presidents chosen by the shareholders and are administered by men selected by the Director General. The people have lent the government all they were asked to lend and the money so provided has been appropriated without stint, and, so far as we can see, wisely.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

WATSON'S SENTENCE OF 99 YEARS AFFIRMED BY COURT

Austin, Texas, June 19.—The court of criminal appeals finding no reversible error today affirmed the case of T. R. Watson from McLennan county, convicted of the murder of John S. Patterson, state commissioner of insurance and banking, and given a term of 99 years in the penitentiary. Commissioner Patterson was shot and killed at Teague, Freestone county, August, 1916, whether he had gone on official duty connected with the state of affairs of the State bank at Teague, and of which T. R. Watson, the appellant was president. Watson was tried and convicted in McLennan county in the district court to which the case had been sent on a change of venue. The appeal from the judgment of the trial court has been pending in the court of criminal appeals nearly one and one-half years.

STAMP COLLECTORS EAGERLY AWAITED

Stamp collectors eagerly awaited the stamps issued for the newly established aeroplane postal service between New York, Washington and Philadelphia. The stamps which are for twenty-four cents have a picture of an aeroplane and are printed in red, white and blue.

TEXAS RAILROAD MEN ARE WORKING FOR THE GOVERNMENT

"Texas railroad men are working for the government. They should back up the government to the last ditch down to the last penny. And the way to do it is to buy the greatest number of War Savings Stamps they can possibly purchase. There are just two kinds of people in this country now—Americans and slackers. And the man who does not heed the President's solemn injunction to save and serve and buy War Savings Stamps is a slacker, and there is no room for him in America. "The railroads of the United States are represented in France on the battlefield by some 100,000 former railroad men. Those who are here at home have not only the duty of the government railroad man to perform but theirs also is the duty of putting all they can in War Savings Stamps. "I know that the records will show the greater portion of this back-pay invested in government Stamps. The railroad men are loyal to the core. Every month our reports show that some railroad men have lost their lives in France in the service of their country. Our strict adherence to the doctrine of saving and the practice of buying War Savings Stamps will do much to keep the list of honored dead from lengthening. "There never has been a better investment than War Savings Stamps. They pay 4 per cent interest. Compounded quarterly; they are cashable at any postoffice upon ten days' notice, and they can be registered at any postoffice, making loss in any way impossible. "I think I speak for the railroad men of Texas and the members of the Brotherhoods in the entire United States when I say that this is no time for idle spending of money, no time for strikes, but a time for the best service that one can possibly perform. "Let's pledge the President; let's show him how the railroad men stand."

CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tone because it is perfectly harmless. Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.
