Pecos Chamber of Commerce Launched

STARTS WITH ENROLLMENT OF NINETY-TWO MEMBERS—ORGANIZATION WILL BE PERFECTED TUESDAY NIGHT

On Tuesday night of this week the progressive citizenship of our town met at the Pecos Valley State Bank for the purpose of reorganizing the Chamber of Commerce of Pecos. The room crowded to its utmost with men and women.

A committee had been out for a short time Tuesday and secured the names of ninety-two for membership in the organization and a good portion of these were in attendance.

After considerable discussion the organization was proceeded with and Judge J. A. Drane elected president, T. Y. Casey vice-president, and J. G. Love treasurer. The directors, other than the officers named above were then selected as follows: T. B. Pruet, Harry Anderson, R. S. Johnson, Dr. Jim Camp, M. W. Collie, O. T. Norwood and F. W. Johnson.

Heads of committees for the different departments were named by the president and these given instructions to get together and select for each head two others to assist in their work. A committee was also selected to draft a constitution and by-laws.

The executive in obedience to an order of the club, which, by the way, named "The Chamber of Commerce of Pecos," met in the office of Judge J. A. Drane Wednesday morning to discuss the matter of a secretary, and it was decided to employ a male stenographer for the present, whose duty it will be, in addition to the stenographic work, which will be handled principally by the president and vice-president, to collect the dues, which will be only one dollar per month per member for the present.

Many of those present at the meeting were in favor of classifying the membership and taxing them according to their interests and with this much greater fund employ an experienced secretary and start the ball rolling in earnest, but it was decided this was not best at present.

While the membership on Tuesday night was only 92, it is believed that from 250 to 300 members can be secured, and this will help wonderfully in keeping Pecos in the lime light.

A meeting is called for Tuesday night of next week in the old commercial club rooms for the purpose of adopting the constitution and by-laws and to further perfect the organization.

J. A. Reaves arrived in Pecos from his home at Big Spring Sunday to assist his son, who is manager of the Pecos Hide & Produce Co., but who has been incapacitated from looking after the business for several days on account of being ill with the flu.

LIVE STOCK SHIPMENTS

On last Friday R. N. Sewell shipped from Pecos to O'Kean, Kansas, a car of mules.

Saturday L. R. Speary shipped two cars of hogs from Greenfield, N. M., to the Peyton Packing Co., at Fort Worth.

Balmorhea Land and Cattle Company shipped from Toyahvale a car of hogs consigned to the Fort Worth markets.

Mrs. Lou Duncan shipped from Toyahvale one car of horses which were consigned to Willie Duncan at Arlington. She also shipped a car to the Horse and Mule market at Fort Worth.

Tuesday Camp Brothers shipped from Riverton to the Campbell, Rossen and Co., three cars of cattle.

John Campbell shipped from Riverton to the same company this week three cars of cattle.

Wednesday C. C. Popnoe shipped a car of cattle from Toyahvale to Silver Valley.

SMALL FIRE LOSS FOR 1918 IS COMMENDED BY OFFICIALS OF STATE—MAYOR WARNS AGAINST CARELESSNESS

From the State Fire Insurance Commission, at Austin, through its secretary, Robt. L. Pollard, Mayor Starley received the following communication, which explains itself: Hon. J. E. Starley, Mayor, Pecos, Texas.

Dear sir: This department is in receipt of advants from your local fire insurance agents showing the premiums and losses for your city for the year 1918 and the data has been checked and approved, and it is our pleasure to advise that an insert showing the proper credit for good fire record, as applicable to policies effective in your city during 1919 has been prepared and will be mailed to all local agents in your city within the next few days, and it will then be our pleasure to enclose a copy to you for your files.

Assuring you it is always a pleasure to be of service, we beg to remain,

Yours very truly,
ROBT. L. POLLARD, Secy.

Commenting upon the above communication, Mayor Starley says:

"It is a direct financial saving to all property owners for the town to maintain a good fire record. During the past year there has been paid in premiums on insurance, in Pecos, approximately \$8,700, and there was a fire loss of \$1,800. This record gives us a saving of fifteen per cent on the amount of premiums to be paid for the year 1919, or a saving of approximately \$1,300.

"The citizens of the town should keep their premises clean, inspect their flues, encourage the work of the Fire Marshal, and of the Volunteer Fire Department, and in every way possible assist in keeping the fire loss at a minimum.

"The saving affected last year and this year amounts already to a saving of over \$2,600."

The Pink Boll Worm In This Section

INVESTIGATION BY U. S. AGRICULTURAL DEPARTMENT IS AT WORK TO DETERMINE EXTENT OF INFESTATION

That the pink boll worm is a menace to the cotton industry of the country, and that nothing in the way of expense or labor will be spared to exterminate the pest is evident by the activities of the U. S. Department of Agriculture in this immediate vicinity.

For several weeks a corps of men from the entomological branch of the Department have been in Pecos, under the supervision of Mr. S. D. Smith, and at present their energies are directed in the cotton acreage of Ward county, a slight trace of the pink worm being found in specimens shipped from there.

In conversation with one of these men The Enterprise was informed that the extent of the infestation is unknown at present, but that it exists to some degree. Neither is it known definitely whether or not the infestation reaches to acreage in the surrounding counties.

The plan, as The Enterprise understands it, is to start where it is known to exist and work around in a circle until the infested area is definitely decided upon and all put under the ban. Men will then be put to work on the area infested, the field will be denuded of growth, everything will be burned. Also, all the shipments of cotton and seed from the infested fields will be traced by the Department and when found, no matter where, will be destroyed.

As The Enterprise understands it, the condition in this vicinity is not alarming, but the pink boll worm is such a menace that strenuous efforts to eradicate it are put forth wherever the least infestation appears. The pest's original habitat is Asia, but its entrance into the United States is by way of Mexico, and as investigations have shown has only been found in the rim acreage of Texas, no trace of it being found in the centers of the cotton industry.

The boll is the chief object of attack from the pink boll worm where

it imbeds itself preying upon the seed and in a short time will utterly destroy the fertility of the seed. Like the caterpillar it emerges as a moth, and anyone acquainted with the egg-laying propensities of this species, can easily appreciate the extent of the danger confronting the cotton industry. For this reason the Department of Agriculture, and these men now here studying the situation should have the whole-hearted cooperation of the farming people, for the success of their efforts means a great deal to the future prosperity of that class.

CHAMBER OF COMMERCE FOR WEST TEXAS FAVORED

J. G. Love returned the fore part of the week from El Paso where he attended a meeting at which discussion centered around the organization of the West Texas Chamber of Commerce. Jack is enthusiastic over the plan and is of the opinion that its formation will undo many injustices that West Texas has suffered in the past.

SECURES 100 SECTIONS OF OIL LEASES NEAR PYOTE

A correspondence from Pyote to the Fort Worth Star-Telegram states that about 100 sections of oil leases have been taken in the last few days in the territory south of Pyote.

A party from San Angelo is said to be securing the leases but the interests, financially, behind him, are not known. Three wells in this section that are supposed to be gas wells is the probable incentive for the leasing of the lands. The wells are of long standing, and known among the stockmen of that section as "blowing wells" but caused no comment until the oil situation began to develop.

Mrs. L. G. Hagard left Monday for her home at Canyon after a pleasant visit of several weeks to her parents, Rev. and Mrs. C. S. McCarver.

Soldiers and Sailors Bureau is Organized

OBJECT IS TO HAVE RETURNED MEN PLACED IN FORMER POSITIONS OR BETTER ONES IF POSSIBLE

About twenty of Pecos' representative citizens met last Monday afternoon at the Pecos Valley State Bank and listened to the object and purpose of the United States Employment and the U. S. Department of Labor explained to them by Henry M. Walker of El Paso, the result being the forming of a permanent organization at the close of the address, to be known as the "Bureau for Returning Soldiers and Sailors."

The organization was perfected by the election of officers as follows:

F. W. Johnson, president; John Hibdon, vice-president; M. W. Collie, secretary-treasurer. Harry Anderson and Roy I. Biggs were elected members of the executive committee at large.

The above five gentlemen constitute the executive committee and all minor matters concerning the new organization will be transacted by them. The object of the organization will be to fully cooperate with the Federal branches above named in looking after the returning war workers and to see that they are returned to their former pre-war positions or given better ones upon their return home.

Another object of the bureau is to communicate with the U. S. Employment branch office at El Paso in case help is needed for this community and such help will be supplied free of charge to the party needing such help. The employer needing labor help will make direct application for

Happenings in the Pecos High School

CONDITIONS FAST RESUMING NORMAL—AT PRESENT ALL ARE "PLUGGING" HARD FOR MID-TERM EXAMS

The High School had the first meeting of the Keeping Up Club on Friday night, January 24. The program was very interesting and all who witnessed it were very much pleased with it.

The basket ball boys held a meeting last week and accepted the challenge from Midland College. The game will be played within the next few weeks.

Mid-term examinations will be given next week. Everybody is now busy reviewing.

The Tenth Grade had their final examination in geometry last week. The majority of the class made "A", and the other made good grades.

The Sophomore Class has a new pupil who enrolled Monday—Brenton Root—who had been attending school in Bridgeport, Connecticut. He is a nephew of Mrs. Hudson, our second grade teacher.

It seems to be a popular thing for the High School students to visit the Carnegie Library. You seldom go in there that you do not see several students busy at the reading-table.

Chauncy Garrison was sent home Friday morning on account of being sick, and before night he was fighting the "flu".

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment.

The Chemistry Class had a most successful experiment in chemistry Tuesday. At one time they had ten perfect flames. If the experiment had been made in the laboratory of the State University it could not have been any better.

ELISE ROBERSON, Soph. Tay Mahal

Last Friday morning the Sophomore Class had a very interesting round table talk on the subject of the Tay Mahal. The Tay Mahal is a mausoleum built by Shah Jehan as the burial place of his favorite wife, near Mahal, one mile from the city of Agra, India.

Surrounding the mausoleum is a park of unsurpassed beauty. The park covers about forty acres and is shut in from the outside by a great stone wall. There is a very large avenue running from the gate to the door of the mausoleum.

Two hundred and ninety feet above the park is the platform of red sandstone; on each side of this, one thousand feet above, is a marble terrace which rises to serve as a pedestal for the mausoleum. In the center of the great platform is a delicately-sculptured mountain of pure alabaster, supporting on its crest a sparkling dome.

The secret of its beauty lies in its simplicity. At each of the four corners of its pedestal is a marble minaret, that springs up like a silver arrow, piercing the air one hundred and forty feet above the pavement. A graceful mosque is on the eastern side, and one on the western side also. From one of these shafts there floats five times a day the muezzins musical reminder of the only god.

In the center of the dome is the main tomb, that of the emperor and his wife. There are also two other cenotaphs for their two children. On these two cenotaphs are the history of some royal lover in lines of which each letter is a gem.

The dome receives all sounds in its silver crucible and transforms them into purest harmony, and sends them down again as if the upper space was tenanted by a celestial choir. These sounds are heard again and again, and, very trembling, die away like whispered accents of impassioned love.

It took twenty nine hundred men twenty years to build the mausoleum. It value is estimated to be as great as sixty million dollars. The plaster was sent by Punjab, Ceylon gave sapphires, Tibre, Persia and Arabia gave agates and turquoises.

The pupils seemed to find the study of the Tay Mahal unusually interesting. The search was made in our own school library. Many of the students found material in books at the Carnegie Library. Mrs. Looby, the kind Librarian, is always so willing to assist the students in any kind of reference they wish to find.

FRANCES LINTON.

Athletics

We are looking ahead for two excellent basketball teams, one composed of girls and the other of boys, that will make our name resound with praise in West Texas.

Miss Carrie Wadley, captain of the girls' team last year, stated that the girls would reorganize their basketball team in the near future. There is excellent material among them and we expect some thrilling games from them. Miss Shaw will be their coach.

The boys reorganized their basketball team for 1919 last week. Edward Warn was elected captain and Hilliard Camp secretary and treasurer. Prof. Rutledge will be coach. They have been practicing unusually hard and we expect the best results. The captain received a challenge from Midland College for our first game this season. Of course we will win from them. The game will prob-

ably be played early in February at Midland after which a return game will be offered them on our own High School ground.

We are progressing rapidly in military training. In a few more drills the corporals will be chosen by a competitive drill—instead of appointing, the men they will be selected on their merits. An effort will be made to complete the military course within six or eight weeks. Two or three weeks will be given to drilling in extended order and students wishing to continue may do so. John Ross, recently of the S. A. T. C. of T. C. U., has kindly consented to assist us in drilling. He proves himself to be very efficient with drill formations as well as in the manual of arms. He is also very popular with the military boys.

Keeping Up Club

Last Friday evening, at seven o'clock, January 24, the Keeping Up Club of the Pecos High School met in the High School auditorium. A very interesting program was enjoyed by a large audience. It was the first meeting of the Club.

Zorene Todd and Julia Magee represented the Sophomore Class in special parts, while a few took part in the Spanish Song. Zorene Todd's selection was in Irish dialect and we judge it was very popular from the amount of laughter it caused. Julia's subject was the "Preliminaries of the Peace Conference." She stated a great many important facts and also gave many interesting details concerning the Conference. We were especially interested by the description of the room in the Salle de la Paix and the table around which the delegates to the conference will be grouped.

On the program we had four musical numbers which were enjoyed by all. These were two piano solos, a piano duet, which was encored, and a Spanish song.

At the close of the program the president of the Club, Jewell Cowan, in her pleasant way mentioned the good which is expected to be derived from the Club. Jewell also spoke of the encouragement offered by the audience. She then appointed the program committee for the next meeting as follows: Viola Ward and William Kerr for the Freshman, Jesse Heard and Woody Cowan for the Sophomores, Gussie Richburg and Veazy Kite for the Juniors, and Irene Prewit and Jim Prewit for the Seniors.

An invitation was extended to the audience from the entire High School to attend this meeting of the Club which will be held February 21. RUBY MAE BEAUCHAMP, Soph.

Rumblings From Below High School

The first grade is enjoying a new series of physical culture games, beginning Monday the 27th.

Three weeks ago the girls of the seventh grade entertained the boys on Friday afternoon, with hot chocolate and wafers.

The boys and girls of the sixth grade have been holding a spelling contest for the past three weeks and, as the girls were victorious they were served lemonade and cakes by the boys, on last Friday afternoon.

The seventh grade is studying stocks (not oil stocks) and bonds, and are having lots of fun as well as difficulties.

The sixth grade is studying Bank Discount and are having equally as good a time as they seventh grade.

A. J. Moran was absent from military training Monday.

It is reported that Miss Shaw kept her pupils in at noon last Tuesday

The Southwestern Tire Company of Dallas, Distributors for Texas, Oklahoma and Louisiana for THE PERFECTION TIRE AND RUBBER COMPANY of Fort Madison, Iowa, are pleased to announce, that, by arrangement with THE TRI-COUNTY TIRE COMPANY of BARSTOW, TEXAS, the Auto Owners of Ward, Reeves and Loving Counties now have the opportunity of securing PERFECTION ASBESTOS PROTECTED TIRES. We speak advisedly when we say "OPPORTUNITY," for we know it to be such in every sense of the word.

PERFECTION TIRES in the 30x3 and 30x3 1-2 sizes are guaranteed for SEVEN THOUSAND FIVE HUNDRED MILES. All other sizes for SIX THOUSAND MILES. The GUARANTEE behind PERFECTION TIRES is as strong as any guarantee in effect and is based not on hopes but on ACTUAL PERFORMANCE UNDER AVERAGE ROAD CONDITIONS. Users Report that PERFECTION TIRES are Just Warming Up When they reach the Guarantee mark.

Buy at least one of these tires. Put it on along side of your favorite tire, and We Will Rest Our Hope of Your Future Patronage on the Performance of this One Tire. The ASBESTOS PROTECTION in PERFECTION TIRES prevents THREAD SEPARATION and Largely Eliminates Blisters, so Destructive to tires. The Asbestos Protection between thread and fiber also Counteracts the Injurious Effect of Heat and Friction.

The Perfection Tire is the True Economy Tire

The TRI-COUNTY TIRE COMPANY have an EXTREMELY ATTRACTIVE INTRODUCTORY OFFER to make you, and we advise every Auto Owner in Ward, Reeves and Loving counties to Avail Himself of this Most Profitable Opportunity.

THE OFFER:--With each order for a Perfection Tire which we receive during the month of February, we will include One Perfection Tube FREE! With each 30x3 and 30x3 1-2 tire, one Gray tube. With each 4-inch tire, one Red tube. Furthermore, we pay express charges on all out of town orders. It is only our faith in Protection Tires that makes this offer possible. The Virtue of Perfection Tires is such as to hardly need any further inducement to purchasers, and when coupled with our 30 Day Free Tube Offer the opportunity is such, that, we believe Every Auto Owner in our territory will Feel Justified in Accepting it. It is to Your Interest to Do So. There are three factors that go to make up tire value:

Initial Cost, Upkeep and Ultimate Service

Considering these three factors we believe (basing our belief on their record) that Perfection Tires offer the Greatest Value to tire Users. Prices not included below are in proportion.

SIZE	CASINGS		TUBES		SIZE
	Plain Tread	Non-Skid	Gray	Red	
30x3	\$21.10	\$23.25	\$3.60	\$3.90	30x3
30x3 1-2	25.50	29.25	4.60	4.90	30x3 1-2
31x4	35.25	40.50	5.90	6.30	31x4
33x4	38.50	43.10	6.20	6.70	33x4
34x4	40.00	44.40	6.40	6.80	34x4

We recommend the use of Non-Skid Tires. The added mileage they give compared to the added cost is in their favor. The prices of Perfection Tires are 5 to 25 per cent lower than the prices of the "Top Notchers" (highest priced tires) WITH WHICH THEY ARE SUCCESSFULLY COMPETING. We anticipate orders for large numbers of Perfection Tires during the month and are Prepared to Give Prompt and Courteous Attention to ALL.

Another delay has been caused in the drilling of the Laura well north of Pecos. The Enterprise has learned that these delays are questioned by many, the questionings enlarged upon by others and by not a few the whole project is discredited at every opportunity.

"Any man who feels there is no use to try to push our town on account of the start of Pecos over us, and is contented to let Barstow drift as it is—playing second fiddle—ought to go to Pecos to live. Pecos is a good town, but they only outnumber us about 900. We have the best surrounding country, and Barstow—not Pecos or Midland—is the only logical place for the town of the far west; and it will be when all push together and make it so hot for the knocker that he will leave us."

The sparrows, last season, played havoc with many a war garden in Pecos. They have eaten enough grain during the winter to feed a flock of one hundred hens. It's a condition that should be eliminated—partly anyway—and right now is the time to start. If every family in town who are feeding chickens will cooperate in a judicious use of poison, little trouble will be experienced in reducing the pest to a minimum.

since reading an article in the Toyah Valley Herald last week The Enterprise man has been in unusually good humor. It was an article signed by Ben Randals, now stationed at Camp Bowie, addressed to Editor Walker. Judge Randals seems to be interested in the poor people of Reeves county and inquires to know if they received any of a fund of "over half a million dollars raised by the good people of Texas to be distributed among the poor people".

The Enterprise is authorized to announce the name of H. E. (Earl) Collings as a candidate for the office of Secretary of Pecos City. The editor is at loss when it comes to introducing him to people who already know him, some better than does the editor himself. Most of his life has been spent in Pecos, to be exact, 26 years, growing up with the town, and the experience makes him familiar with the handling of its business.

The ex-kaiser is reported as sporting a full beard, and recently he received from Germany a shipment of gold. To The Enterprise this is significant news, and warns our dailies to have ready, in their biggest box-car letter, the headline "Ex-kaiser Has Disappeared," and keep it real handy.

The Enterprise is heartily in favor of the West Texas Chamber of Commerce. This statement should be sufficient. However, it is expected of papers as well as individuals to give reasons pro and con on every subject. This it will not attempt to do in this issue, for it is sitting back taking careful note of the brickbats and boquets that the move is receiving from the weekly papers especially. An organization of this kind is the "missing link" of West Texas. To supply it, and put it to work with full cooperation of the people would be to forge such a chain of prosperity around the section embraced that would be beyond the possibility of any other agency.

Pecos citizens who do not believe in advertising have only to watch the business of those who do advertise and then go back behind the scenes in their own business and ponder. These non-advertisers probably at one time had as good a line of goods as any in town. They still have these goods and will have them until the proprietor and deliveryman eat them up.

Why do Green and the Leader Cash spend \$20 to \$30 each every month in advertising their goods? If you think it is because they are "nuts" you have only to watch their delivery wagons to become denuded of the delusion.

The "flu" is still with the people. The Enterprise asks what has become of the good old gauze mask and the shotgun patrol?

FOR CITY SECRETARY

The Enterprise is authorized to announce the name of H. E. (Earl) Collings as a candidate for the office of Secretary of Pecos City. The editor is at loss when it comes to introducing him to people who already know him, some better than does the editor himself.

FOR CITY SECRETARY

The Enterprise is authorized to place before the people of Pecos the name of Earl Easterbrook as a candidate for City Secretary. Earl is a fine young man, and his qualifications for attending to the duties incumbent upon the City's secretary, so far as The Enterprise knows, up to the standard required.

This is Earl's first favor to be asked of the public, in fact it is his debut in politics, but as he says, "the start must be made somewhere." He promises to give the office the kind of care and attention needed, to secure the best results for the City's interests.

THE FUTURE OF PALESTINE

A few days ago 400 delegates from all sections of the country and representing more than 3,000,000 Jews of America, assembled in Philadelphia for the second session of the American Jewish Congress. The delegates were unusually enthusiastic because of the present bright prospects for the reestablishment of a Jewish nation in Palestine and the realization of the aspirations of the Jewish people throughout the world during the last 2,000 years for a homestead of their own.

That their hopes in this respect are well founded seems evident from the fact that the project has already been approved by France, Italy, Serbia and also by our own President, and moreover the attitude of the delegates to the peace conference is reported to be, almost without exception, favorable to the plan.

GIRLS! LEMON JUICE IS SKIN WHITENER

How To Make a Creamy Beauty Lotion For a Few Cents The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice thru a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.—Adv.

MY WAR GARDEN

Dear Mr. Editor: Last year there were thousands of war gardens planted to save food to help feed our soldiers and the allies and thus help them whip the Hun. I planted my garden and through you report the result to the government. I had about one-tenth of an acre and a small hot-bed for a garden. I spaded it, fertilized it, and planted with the avowed purpose of helping whip the Hun. The war spirit was in me. But early in the game there came a counter attack—our artesian well ceased to flow and my garden was in fair prospect to become a failure. But I was determined that our boys should not go down in defeat on my account, so I began pumping water by hand and carrying it to my garden. Now, just as our government did not intend to do so much when we entered the war, so I did not contemplate carrying so much water to my garden. But just as we intended to stay in the war until the world was made safe for Democracy, whatever the cost, just so I purposed to keep my garden going until it rained.

Well, here is what happened: I kept a record of the water and of what the garden produced. I packed 3010 gallons of water and in those hikes I walked 20 miles, and just like England and France held out until Uncle Sam got there and turned the tide, I held out and saved part of my garden.

Well, that's the fighting end of it. What did my war garden yield? Here is the record according to market values at the time: Lettuce \$3.50, mustard, \$2.00, turnips, \$3.00, beets, \$4.00, onions, \$5.00, black-eyed peas, \$3.00, tomatoes, \$2.25, cabbage and collard greens, \$1.50, radishes, \$1.50, okra, 20c, beans, 25c. A total of \$26.10.

I have on hand for the new year, but planted in 1918, onions, \$3.00, cabbage and collard greens, \$2.00, turnips, \$2.00. Which makes the total products from my war garden for the victorious year of 1918, \$33.10. Now, that is small. So is a \$50 Liberty Bond, or a soldier alone. It has been estimated that there were 5,000,000 war gardens. If my garden was an average, then all of us produced \$165,000,000 in our war gardens. The unit may be small but the aggregate is tremendous.

Now, there were some elements that entered into my garden that cannot be put into dollars and cents. Here are some of them: Patriotism, brotherhood, physical exercise in cultivating the garden, recreation and keeping in touch with nature. Well, this is sufficient for one garden.

W. A. KNIGHT,

Pastor of the Baptist Church. There is little room left for comment on the above. But what a sad story it would be if each and every one had figured that "my little will not help anyway," and quit! Rev. Knight's pluck can well be emulated by all in 1919. True, the Hun is whipped to a frazzle, but the other things can be enjoyed which he enumerates at the close of his article. There is one thing, however, that is remarkable throughout his delineation, and that is he must have an ideal helpmate to sit calmly by and let him claim all the honors.

R. G. Ezell returned this morning from an extended trip, first to Beebe, Arkansas, for a visit with his sister, Mrs. Anna Sparkman, after which he went to points in Louisiana and Mississippi to look after some horses he had shipped, and reports having better success in disposing of them than he anticipated.

RESOLUTIONS OF RESPECT

Whereas "death, that knocks with equal hands at the door of the prince and the peasant, has been busy at its appointed work," and has taken from our midst our worthy brother, Tom Harrison, and,

Whereas, deceased was for many years a member of the Masonic Lodge at Pecos, Texas; a prominent and useful citizen of Pecos and of Reeves county; a kind and loving father and husband;

Therefore, be it resolved, that this committee of brothers express in behalf of our Lodge, our sorrow at his untimely passing, and our sympathy for his widow and children in their bereavement, and that a copy of these resolutions be spread upon the minutes of our order; a copy be published in the local paper and a copy sent to the members of deceased's family.

ALL BODIES OF SOLDIERS AND CIVILIANS DYING IN EUROPE WILL BE REMOVED HERE AT GOVERNMENT EXPENSE

Bodies of soldiers and civilian employes of the United States Government now buried in France will be brought back to the United States at Government expense except where specific requests are made to the Adjutant General to have the bodies remain there.

The following announcement was made last week by acting Adjutant General J. C. Ashburn:

"It cannot be stated now when the work of transfer will start," he said, "as it must be deferred until the conditions, including that of transportation, warrant the undertaking. Due notice will be given through the public press.

"It is not deemed advisable to grant the requests for friends, relatives or undertakers to go to France to superintend the preparation and shipment of the bodies, or accompany the bodies to the United States.

"Arrangements have been made with the French government for the use of certain sections of the country as military cemeteries, and organizations known as Grave Registration Units have been formed, whose duty it is to look after burials, care of the cemeteries and the preservation of identification records, so there will be no question as to the identity when the time comes for the transfer of the remains to the United States.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Cannot Salivate

Every druggist in town—your druggist and everybody's druggist, has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist who sells it. "Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach, or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

Expert aviation engineers express an opinion that it is now possible to have air service between London and Marseilles, with a single stop at Paris for taking on gasoline and overhauling the machines. Mrs. Martha Adams

An Open Letter to the Voters of Texas

TO MODIFY HOMESTEAD LAW THAT FARMERS OF TEXAS ENJOY PRIVILEGES AS IN OTHER STATES

At a conference held at Houston on the 9th of this month, of those who favored such modification of the present homestead law as will permit the farmers of this State to enjoy the same benefits as is now accorded the farmers of every other state in the Union, of obtaining loans upon rural homesteads, at a low rate of interest and with easy payments upon the principal, the undersigned were appointed a committee to issue an address to the public setting forth the character of amendment that is deemed necessary to accomplish the desired end and the reasons why such amendment should be submitted by the Legislature and adopted by the people of the State.

We believe that the rural homestead provision of our present constitution should be so amended as to provide that the owner thereof, when joined by his wife, could execute a valid lien thereon to secure the payment of a loan, the proceeds of which

are to be used for one and all of the following purposes: For the purchase of additional farm land, any improvement of farm land, the purchase of farm equipment, fertilizer, livestock, feed for livestock and seed for planting purposes. Such loan should be restricted to a rate of interest not exceeding six per cent and should be made upon the amortization plan over a period of at least twenty years, with the right of prepayment given the borrower after five years.

In order to further safeguard the loans made upon such homesteads, it should be provided that before the owner thereof could obtain a loan thereon, he should be required to execute an affidavit and file the same of record in the county in which the land is situated, stating the amount of the loan desired and that he will use the proceeds thereof for one or all of the above-named purposes.

The adoption of an amendment along the lines above suggested is in our judgment imperatively necessary in order to enable our farmers to bring about the real development of our splendid agricultural resources.

At the time of the adoption of the present constitution in 1876 money for development purposes could only be obtained at a very high rate of interest and upon short time. Now conditions have changed and there is an unlimited supply of capital for our farmers at a low rate of interest and upon such easy terms that no active, industrious farmer can fail to meet the payments required.

The above is the gist of the message, or enough to deduct what is aimed at by the amendment, and it is signed by M. H. Gossett, President of the Federal Land Bank and other Texans prominent in agricultural and financial circles.

Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean, as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

Theford's

Black-Draught

Mrs. W. F. Pickle, of Rising Fawn, Ga., writes: "We have used Theford's Black-Draught as a family medicine. My mother-in-law could not take calomel as it seemed too strong for her, so she used Black-Draught as a mild laxative and liver regulator. . . We use it in the family and believe it is the best medicine for the liver made." Try it. Insist on the genuine—Theford's. 25c a package. E-75

NOTICE

Notice is hereby given that the Commissioners' Court for Reeves County will, at its regular term, on February 10th, 1919, receive proposals from any banking corporation, association or individual banker in Reeves County that may desire to be selected as the depository of the funds of the county.

Any banking corporation, association or individual banker in the county, desiring to bid, shall deliver to the County Judge, on or before the first day of the February term of the Court (February 10th), a sealed proposal, stating the rate of interest offered on the funds of the County for the term between the date of such bid and the next regular time for the selection of a depository. Said bid shall be accompanied by a certified check for not less than one-half of one per cent of the county revenue for the year 1918, as a guarantee of good faith on the part of the bidder, and that if his bid should be accepted, he will enter into bond as provided by law. Upon failure of the successful bidder to give bond as required by law, the amount of such check shall go to the county as liquidated damages.

This notice is given in accordance with Arts. 2440, et seq., Vernon's Sayles' Texas Civil Statutes, 1914, and amendments thereof, to which reference is hereby made.

You can take a onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiarly strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous, habit-forming drug), or you can plant a rhubarb seed and get something that helps constipation. No scientist, living or dead, can explain these mysteries of Nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, bearing-down pains, periodical irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of the slippery root, black cohosh root, blue cohosh root, blue cohosh root and Oregano root. Women who take this simple and ready remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it. Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine were the only things that always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial of Tablets.
