

Geo. A. Knight Gives Optimistic View "No One Should Be Discouraged"

Many of our people have been a little discouraged at the slow progress made in putting down wells in the Pecos oil field. In fact, we have all been more or less worried for few there be who do not believe there is oil and plenty of it in the Pecos field, and if only a few wells are put down to the proper depth to give the oil a chance to gush forth we all expect and hope to get rich therefrom. So why not show some concern about the tardiness, for the fortune, which lies just ahead is enticing to many of us who are anything but rich today. To those of us who have been impatient the following excerpt from a letter from Geo. A. Knight, Nocona, to a Pecos friend under date of November 25th, will prove interesting reading and may do us some good. The excerpt follows:

"Your recent letter came to hand on time, and we have been very much interested in the latest oil news contained in it.

"There are few people at Pecos that realize the difficulties that Mr. Tinally has had to encounter in drilling there as well as I do. In addition to other drawbacks, the water question has been a very serious one for him.

"I don't know whether or not it would be practical in deep drilling to use gasoline engines, but if it is practical, that is the thing to do.

"I am glad to know that Mr. Rhoades is on the ground and is a man of large practical experience—that is what is needed there—and needed badly. No one should be discouraged because oil has not been developed up to this time. I am not at all surprised. In a shallower field at Burkburnett it was more than four years after they began drilling before paying oil was developed, and it was ten years after they found oil at Electra before they found it at Burkburnett, only a few miles away."

HOLD FOR THE FARMERS' PRICE, 45 CENTS

The recent strike and the so-called ear-shorts are being used by the cotton gamblers and speculators to break the market and scare the farmers into selling their cotton for any price that may be offered. This scheme is used to justify the present bear raid.

WHEN COTTON DECLINES, QUIT SELLING.

Farmers, when the gamblers put the price down, quit selling; do not sell a bale on a declining market, but hold for 45 cents, and make it plain that you are going to hold for the farmers' price. Grouping or collective selling is a good rule, provided you use your collective power to secure your fixed price. Do not be led into grouping your cotton merely to sell at the exchange price and probably without any competition on the part of buyers because of a previous understanding.

DEMAND PROPER CLASSIFICATION.

See that your cotton is properly classed and graded. Recent complaints indicate that cotton is being sold from one to two grades under its true grade; this means a loss of \$15 to \$30 per bale. Lowering both the price and grades makes a double-header loss.

5,000,000 BALES SHORT.

The world is at least 5,000,000 bales short. They must have your cotton, not only to supply future but present necessities—strike or no strike. And regardless of car shortage and despite these drawbacks you are entitled to cost of production and a reasonable profit. The New York Commercial recently said: "If the farmer should receive the same price for his labor that is paid the American soldier, that is, \$30 per month, his cotton should bring 70 cents to 80 cents per pound, and if he were to get the average wage paid other labor, he would get \$1 per pound." Two congressmen and one senator say that to even up the farmers should get 75 cents per pound for their cotton. Therefore, we are more than justified in urging you to hold for 45 cents. And in this we are backed up by Hon. Chas. B. Metcalfe of San Angelo, W. B. Yeary, cotton specialist, the West Texas Chamber of Commerce, and other prominent citizens and other organizations, urging you to hold and market slowly.

MANUFACTURERS' PROFITS EXPOSED.

You are also entitled to a better price, based upon manufactured goods, as shown by President Wannamaker of the American Cotton Association in the Cotton and Cotton Oil News of December 1, page 8, wherein he says: "A profit of \$100 per bale or 20 cents per pound on cloth sold on a basis that would give a profit of 35 cents per pound on cloth sold on a basis that would provide a profit in excess of 35 cents per pound or \$175 per bale. We find in our investigation a few cases in which goods of a special construction, which for this reason were quite scarce, are returning a profit of 74 cents per pound, or \$370 per bale. The cotton used in the manufacture of these special goods is strict middling one-inch cotton. On the three grades of manufactured products quoted in the manufacturers are receiving an average of 46 1-3 cents per pound.

above all cost of manufacturing, and yet the farmers have not received an average price of 45 cents per pound. The manufacturer gets the above 46 1-3 cents clear profit while the farmer has not yet received cost of production, with no profit.

MORE THAN \$100,000,000 SAVED.

The present campaign, estimated two weeks ago to be worth \$10,000,000 to West Texas alone; put the lid on and let us make it a \$100,000,000.

Yours respectfully,
FRED W. DAVIS,
Commissioner of Agriculture.

ZONE OIL COMPANY TO PUT UP STANDARD RIG

A letter to Dr. I. E. Smith under date of December 2, from Mr. C. F. Savage of the Zone Oil Company has the following of interest to our people in general:

"Everything is shaping up very nice here and hope to be drilling in the near future, although it will take longer to locate a standard rig than a star. As a matter of fact we had all arrangements made to start with the star rig but on the advice of the different drillers and oil men we have been converted to the standard, for we want to make a success of our company."

As indicated above the Zone Oil Company had intended to put in a star rig and their decision to change to a standard rig will be hailed with delight by our people. Of course it is better to start with a star rig and go on down as far as practicable with that until such time as a standard rig can be obtained, but in order to develop the real oil strata in the Pecos field, according to all geologists who have made examinations here, it will be necessary to go down between 3,000 and 4,000 feet.

The Zone oil people seem to be of the kind who do things and when they decided the standard rig was the thing "fell to" at once.

METHODIST REVIVAL IN FULL SWING WITH GOOD ATTENDANCE

Despite inclement weather the revival at the Methodist church opened Monday with a fair sized audience to greet the evangelist, D. L. Coale, of Los Angeles, California. The second night found the capacity of the main auditorium taxed, and it is safe to predict that the attendance will continue to increase in numbers from now until the close of the meeting, which will hold for two weeks.

Rev. Coale is an ideal evangelist, possessing two rare qualities—a fine voice and an enviable command of the English language. These and the cut of his clothes are the only up-to-date marks about him, his message each night is just the plain old fashioned gospel, delivered in a way that cannot help but convict.

Results are being seen at this early hour of the revival—one conversion being reported Wednesday evening.

Two services are being held each day, one at 10 a. m. and another at 6:30 p. m. Those who do not hear Rev. Coale will miss a great deal.

PECOS BAPTISTS OVER- SUBSCRIBE QUOTA

Last Sunday was advertised as an epochal day at the Baptist church, and from accounts of those who attended the morning services it was all of that. It was the beginning of Victory Week in which the Baptists of the South were to raise seventy-five million dollars for the church's labor. Of this sum the Pecos valley Baptists were asked to raise the sum of \$70,000.00, and of this sum \$40,000 was the quota of the local Baptist congregation. In conversation with the pastor, W. A. Knight, who is also publicity director for the Association, he said the task was approached with fear and trembling—not that he feared the sum would not be forthcoming, but he felt it would take lots of hard work to reach the goal. In this he was agreeably disappointed, for the Pecos church oversubscribed their quota in time to get home to good, hot Sunday dinner. Commenting on the Pecos way of doing things, Bro. Knight said he had heard much about it, but the spontaneous generosity of his people surpassed anything he had ever witnessed. One gift, that of F. W. Johnson, was for \$10,000, while many were for \$1,000. The pastor stated that he is positive the offerings will reach the \$50,000 mark before the campaign ends.

IOWANS PLEASED WITH VALLEY COUNTRY

Mrs. D. A. Dodds, accompanied by a party of Iowa land buyers, drove all day last Friday looking over the country. She was agreeably surprised to find her people so well pleased with the Valley, although weather conditions were so unfavorable. She reports splendid success.

FIGHT LIKELY OVER NEW MEXICO'S USE OF THE UPPER PECOS RIVER

Austin, Texas, Dec. 1.—For the purpose of investigation the records bearing on the use of the waters of the upper Pecos river, as demanded by a resolution adopted by the legislature which alleged that New Mexico is using more than her share of the Pecos river waters for irrigation purposes, Assistant Attorney General John Maxwell left today for Pecos City. He probably will also go to Santa Fe and Carlsbad, N. M.

In the event the charges are borne out Attorney General C. M. Cureton will institute an original proceeding in the United States supreme court to have a judicial adjudication of the water rights of the Pecos river.

M'ADOO DISCLOSES HUGE PROFITS OF THE COAL OPERATORS AND SAYS "MUST NOW BE ON VELVET"

New York, Nov. 27.—Profits several times in excess of the entire capital invested came back to many coal operators in 1917, William G. McAdoo, former secretary of the treasury, declared in a further statement tonight relative to the coal controversy. He asserted these operators "must now be on velvet." The statement follows:

"The coal operators assert that I gave out confidential information when I stated that profits of the mine owners in 1917 ranged from 15 to 2,000 per cent on capital stock before deduction of taxes.

"This was not confidential information. The treasury department may publish statistical matter of this character any time. In fact, information concerning this very subject was furnished by me to the United States senate in response to a resolution introduced by Senator Borah, concerning profiteering, and was published July 5, 1918 (see senate document 259—Sixty-fifth congress—second session).

"In this report the returns of several hundred coal companies showed profits ranging from 15 to 800 per cent on their invested capital in 1917. The range of profits was higher on capital stock. In short, many operators got back their entire invested capital several times out of their profits in 1917, as shown by the reports and must now be on velvet."

RECRUITING FOR A FAMOUS REGIMENT

A recruiting party from Fort Bliss, headed by Major Ben H. Dorey of the 7th Cavalry, arrived in Pecos Wednesday and left Thursday for Del Rio, via Fort Davis and Marfa. The 7th Cavalry, as is well known, was General Custer's regiment, and is at present commanded by one of the best known and most popular Colonels in the cavalry service, Colonel Selah R. H. Tompkins, affectionately known as "Tommy" Tompkins in the army by both officers and enlisted men alike.

Major Dorey was accompanied from here to Marfa by Lieut. Ralph R. Landrum, who is a personal acquaintance of Colonel Tompkins and a great admirer of both the Colonel and the Regiment, and will assist Major Dorey in obtaining recruits in this section.

The 7th Cavalry recruiting party will return to Pecos between the 20th and 27th of this month. Those interested in enlisting in this famous regiment are requested to notify Lieut. Landrum who will be in touch with Major Dorey upon the latter's return to Pecos.

LITTLE JANE BARR DIES AT CHILDRESS

The friends and acquaintances of Dr. and Mrs. Roy E. Barr, who formerly resided here, but who are now living at Childress, deeply regret to learn of the death of their little daughter, Jane, from diphtheria on November 30th.

The sad message came to the grandparents, Mr. and Mrs. Brawley Oatis, Saturday, and Mrs. Mabel Beauchamp left on the night train to attend the funeral. The sympathy of the entire community is extended to the bereaved parents and grandparents in their deep sorrow.

ARRANGING FOR THE GOOD ROADS MEET

Birmingham, Ala., Dec. 4.—Mr. J. A. Rountree, director general of the United States Good Roads Association, left today for Washington at the request of United States Senator Jno. H. Bankhead, president of the United States Good Roads Association, to consult in regard to the program of the eighth annual convention of that organization, which meets in Hot Springs, Ark., April 12 to 17, 1920. Also to arrange for the United States good roads exhibit which will be held in connection with the convention. The war department has already notified Director General Rountree that an exhibit from that department will be sent to Hot Springs.

Mr. Rountree will arrange for a committee, representing the State of Arkansas, the city of Hot Springs and the United States Good Roads Association that will go to Washington early in January to extend an invitation to President Wilson to attend the meeting of the United States Good Roads Association. Also Secretary Baker of the war department and Secretary Lane of the department of the interior. This committee will be headed by Hon. Chas. H. Brough, governor of Arkansas, who is also first vice president of the association, Senators Bankhead of Alabama, Robinson of Arkansas and Shepard of Texas will accompany this committee.

While in Washington Mr. Rountree, who is also secretary of the Bankhead National Highway Association, will consult with the Bankhead Pathfinding Commission and secure their report, on the route from El Paso to San Diego, which will be promulgated by the board of directors that will meet at an early date.

Director General Rountree leaves full of enthusiasm over the prospects of securing a number of celebrities to visit Hot Springs during good roads week next April.

A person can live weeks without food, days without water, but only a few minutes without air, says the United States public health service. Persons who pay but little attention to the purity of the air they breathe are not careful as to drinking water and food. Become a fresh air crank. Raise the office windows.

LITIGATION AS TO WATER RIGHTS ON TOYAH CREEK ARE SETTLED

There is certainly not in Reeves County, and probably not in Texas, a more productive spot than the Toyah Valley, nor one which produces more in crops or money per acre per year. Not only is this "oasis in a desert" a real oasis where every manner of product which will grow in any part of Texas grows, and not only grows but produces a finer quality than can be grown anywhere else, but we have a climate that is unexcelled in the United States. The Toyah Valley pea-green alfalfa is known in almost every part of the United States as not only the standard but the finest grown anywhere. It is not only richer than other alfalfa but contains more nourishment than any other alfalfa. The same may be said of fruits grown in Toyah Valley.

Considering the above and noting that all this is brought about and made possible by the water from Head Springs and Toyah Creek, which is used for irrigation, there is no wonder that much litigation as to the rights to use this water has been indulged in. Ever since Heck was a pup, and at least as far back as the editor's knowledge goes there have been suits pending in the Reeves County courts relative to this water, and this one thing has done more than any other to retard the growth of this beautiful and fertile valley.

There are many all over this county who will rejoice with The Enterprise that all this litigation, some of it pending for ten or twelve years, has been settled and all out of court. Now that this litigation and contention is settled—it is to be hoped it is settled for good and all—there is no reason why this valley should not grow as she has never grown before. There are no better, more thrifty or big-hearted people—people who stand together and work together, than those of Toyah Valley. This is evidenced by the fact that last year they built a reservoir which impounds one of the largest artificial lakes of water in Texas to supplement that of Toyah Creek in irrigating their fertile fields. The half of the good things about Toyah Valley and her splendid people has never been told and while only a portion of this is being told let us not forget that this garden spot is in Reeves County. Come to Texas, and before settling see Reeves County, where not only the finest crops are grown, but where the climate is ideal—maybe after all the best part about it.

VILLA THREATENS TO BURN CAPTORS OF GENERAL ANGELES

El Paso, Nov. 30.—Death by burning at the stake is the punishment Francisco Villa has sworn to inflict on those who had any connection with the capture, arrest, trial and execution of General Angeles, according to word reaching here today from Northern Mexico. Villa agents here said he had been informed of the death of Angeles; but refused to say where he was or how the news reached him. From unofficial reports Villa was near Pilar de Conchos, 50 miles north of Parral, near the scene of the Angeles capture.

Tears rolled down the bandit's cheeks when he was told of his chief lieutenant's fate and seldom had his followers seen their leader weep. They watched him in amazement. Villa's grief was succeeded by ungovernable rage. He made a speech, declaring eternal enmity to Carranza and promising to avenge Angeles' death by burning all who had any connection with it.

Maj. Gabrino Sandoval and five followers, who captured Angeles, were paid 1,000 pesos each by the Carranza government.

"For every peso that the traitors received I will take a drop of their blood when they fall into my hands," Villa was reported to have said. "Then I will throw them into the fire to perish like the coyotes they are."

The four generals who passed sentence on Angeles are in Chihuahua City, with the exception of General Escobar, who is in command of the Juarez garrison.

Villa has sent to the border for publication to the American people his plan of vengeance for the killing of General Angeles.

"Every man who testified against General Angeles, or who sat in silence upon him at the court-martial which sentenced him to be shot, will be captured and burned at the stake," says the Villa declaration, according to "La Republica," a Mexican paper published here. "And for the members of the Home Defense League, who through treachery, captured him, another death will be meted out: They accepted 1,000 pesos each for their reward. For this I will exact for each peso a drop of blood, one drop at a time."

Villa's threats are accepted more or less seriously here, as it is pointed out the bandit chief, even in his hardest moments, has in the past managed to make good on any threats he has issued publicly.

Thousands of children are killed every year because parents say, "They will have it anyway," and permit the little ones to expose themselves to whooping cough, measles and scarlet fever, says the United States public health service.

Do not take drugs to cure the headache, says the United States public health service. Consult a physician, a dentist or an oculist, to see if the cause can be located. Often the eyes or the teeth may be at fault. A decayed tooth is far more dangerous to the health than a fly in the soup, says the United States public health service. Visit the dentist regularly. Keep the teeth clean.

MISS JANE M'GRATH IN SUL ROSS NORMAL

The State Normal School Board of Regents has elected Miss Jane McGrath as teacher of Primary Methods in the Sul Ross Normal College, Alpine, Texas. Miss McGrath has had the following preparation:

Diploma from a three-year kindergarten-primary course, State Normal School, Oswego, New York; critic diploma, State Normal School, Oswego, New York; diploma in Normal Supervision, Teachers' College, Columbia University; B. S. degree, Columbia University; M. A. degree, Chicago University.

In addition to the wide training for primary work, Miss McGrath has had a rich and varied experience in the field of primary methods.

The Sul Ross school is fortunate in securing the service of one of the best prepared teachers in the field. Miss McGrath will begin her work at the opening of the summer quarter of the Sul Ross school, which will be about June 15, 1920.

RED CROSS CHRISTMAS SEALS SELLING FAST

Austin, Texas, Dec. 4.—Red Cross Christmas seals built the Children's Hospital at Galveston in 1912. The sale of the seals in 1917 enabled the Texas public health association to donate later \$1,000 for upkeep and additions for the hospital which was deeded to the state, and is now connected with the John Sealy Hospital.

"The 1919 Red Cross Christmas seal sale is 'going over' strong," declared O. M. Lowry, campaign director, "and I predict that the sale, held December 1 to 10, will provide funds for much more health work over the State. When all reports are collected at headquarters, I believe we will find that over 20,000,000 of the little seals of good health have been sold. The ninety per cent of the \$200,000 raised will remain in the Lone Star State for the benefit of Texans."

The Children's Hospital cares for crippled and deformed children, especially those with glandular and bone tuberculosis. Many cases are cured every year, and the little tots are brought back to a healthy, happy life, and are made as strong and well as ever.

Such work is only one phase of the health activities of the Texas public health association in its fight against tuberculosis. Field workers, public health nurses, and other staff workers are sent among every race and class of people in Texas. Open air schools, free clinics, preventoria, dispensaries, tuberculosis hospitals and other anti-tuberculosis institutions are being worked for; and with a successful seal sale an extensive health program is planned for 1920.

The kitchen is the most important room in the house from a health standpoint, says the United States public health service. Keep everything about it and every one in it scrupulously clean.

Where the Farmer Draws the Line

It is not strange that our advance agents of a "proletariat" revolution have imagined the American farm to be good soil for the growth of their propaganda. Imagination ballasted by a bounteous lack of knowledge is capable of greater feats than that. But even people whose mental path keeps nearer to the ground of fact are sometimes a little uneasy as to the part which the farmer might play in the general industrial "hold-up" of organized society which agitators are continually plotting. The farmer is not a conservative from any reasoned out philosophy of life. He may occasionally follow a long distance in the train of enthusiasts concealing destructive economic or political vagaries under the cloak of fine promises, as in the case of Populism in Kansas a generation ago, or Townleyism in the Northwest just now. He is not instinctively averse to class legislation, so long as it is in favor of his own class; for he shares the persuasion common to so many that his class is after all the backbone of society, and his interests identical with the public good.

But when the agitators of "the whatever is wrong" school approach him, a limit to his possible radicalism is very soon disclosed. Among the things that are, in his case, his farm, paid for by the sweat of his own brow, or perhaps his father's, through long years; the fields of hay and what, nearing harvest after months of toil and waiting; his wife, whose economies and counsels have played no small part in the success of his efforts; his sons and daughters either aiding him on the farm, or away at college, or holding positions of profit and responsibility in the neighboring city, for which they have been fitted by the income from the farm. Whatever is not wrong for him unless it has gone wrong by some mischance not within the normal course of life of the industrious and intelligent American farmer. And so, when a new regime is proposed to him which would set a "Mother Jones" or an Emma Goldman on a higher plane of womanhood than that of his own modest wife and daughters, and deny him and his family any moral right in the accumulated fruits of their toil and saving, there is "nothing doing". The life on the American farm may not be conducive to sustained philosophical thinking on such matters, but it does beget a shrewd common sense. If a farmer lets the brambles of Bolshevism take root in his brain it is a fairly safe guess that he has first let burdocks and wild carrots take root in the field where he should have been tending beans and corn—in other words, that he is about as genuine a farmer as the Bolshevistic agitator is a laborer. What real farmers think on the current radical agitation has just been expressed, with lucidity and vigor, in the meeting of the Farmers' National Congress at Hagerstown and of the Illinois Agricultural Association.

Every state in the Union has its tens of thousands of farmers who own their own lands and enjoy comparatively independent life which the farm secures. They take pride in the character and achievements of their sons and daughters who were born on the farm, were educated from its income, and, if they have left it for other fields of endeavor, are glad on every convenient occasion to come back to it as their "home." And so, American farmers as a class, will spurn any form of radicalism which strikes at the fundamentals of family life and morality, and the right to provide for one's family in one's own way, through the legally secured ownership and control of property honestly accumulated. And the same is true of a certain proportion of any class of men who earn their living by the work of their hands. Whatever may be truthfully said about American wage conditions, it remains a fact that thousands of wage earners, in all important branches of industry, have found it possible to acquire their own homes, to furnish them comfortably, and to bring up their families of well-trained children who have given good account of themselves in the schools and colleges and in every walk of life. It is a safe guess that the knowledge of the existence of a considerable element of men of this type is not the least of the reasons why labor agitators show so decided a preference for calling strikes without the formality of free discussion and a yes or no vote on the part of the individual workmen concerned.

Facts such as these present an important and promising line of effort to those who are interested in keeping the country free from serious danger of revolution. Congress and the State Legislatures should take all proper measures to encourage agriculture and a farm-owning habit, not of course by demagogical class legislation, but by making ample provisions for agricultural education, agricultural experiment stations, model farms and other things which will promote the putting into practical and general use of the results of scientific investigation in this field. But the most important desideratum of all can not be supplied by legislation, and that is to make the life of the farming community so attractive on its social side as to hold a larger proportion of the bright country boys and girls who so frequently find in high school and college a pathway to some calling which will open to them the more entertaining life of the city. Some of our Legislatures, on advice of incompetent educational theorists imagine that they can check this loss by making the country school a little more than a fitting school for the farm. Such a policy will defeat its own end, and even increase the evil, by sending the brighter farm boys and girls out of their home communities for their elementary education as well as the higher. There should be no attempt in America, even indirectly, to invade the easy passageway from one calling to another. But

with the cheapening of the automobile, the multiplication of country trolley lines, the improvement of the farm roads, the invention of cheap and easily managed electric light and power plants for isolated country homes; the diffusion of telephones, and the spread of rural mail delivery, the problem of a more satisfactory social life on the farm, with a consequent retention of a larger share of well-educated farm-born brains for farm use, will surely not be given up as insoluble. Farm houses, in point of comfort and appearance, farm household conveniences, farm sanitation, and all other fine fields for those subtler forms of public education which can not be administered through schools. A numerous, intelligent and fairly prosperous farm-owning population is so effective a barrier against the more dangerous forms of radical agitation that no effort should be spared to insure its maintenance.—From the Review.

ART AND DRESS

A lady connected with the State Department of Education (not the superintendent) writes in that she read in this column last spring a discourse upon heels, and is taking the liberty to ask State Press to revert to that article and join with her in a campaign for good taste in dress, including foot dress. The plan is already under way, through public school channels, and it is proposed to enlarge upon the matter through the domestic art classes in high schools. State Press is for all manner of practical and proper education, but he is somewhat embarrassed in this case by reason of having forgotten what he said about heels last spring. He prefers to be consistent, when it is no more trouble, but if he be consistent in this case he may not be able to help the lady who is soliciting his help. That is, if he was favorable to high heels last spring, if he was opposed to high heels last spring, he is still opposed to them, and he will be glad to assist in teaching the young idea how to dress. Also, S. P. will venture to assert that teaching girls not only how to make their dresses, but how to wear them, and when to wear them, is a reasonable departure in public education. In the main S. P. is opposed to fads in the schools. There is a tendency to make the curriculum indigestible, to pile on too much and to confuse the young with multitudinous books. If State Press were a teacher he would teach no boy or girl anything from books except reading, writing, spelling and arithmetic until he or she was twelve years old. Education comes easiest to those well grounded in the three R's and it comes harder to those not so grounded. It is as sensible to teach girls how to use the needle and thimble and scissors as to teach boys how to use the saw the hammer and the square. Clothes, like houses, are works of art as well as means of protection from the weather, and a good dressmaker, like a good carpenter, is an artist. But to know how to sew and embroider without having a talent for the utilities of dress is to lack completeness in sartorial artistry. The French sewing girls know not only how to make clothes, but how to wear them. Also what kind of clothes are suitable to one's figure, one's work and one's purse. This is the sort of education that is essentially as cultural as book knowledge. Indeed, it is not unusual—and en-

RESTORES SIGHT OF TEXAS SOLDIER

Baltimore, Nov. 19.—The most notable cure effected at the Government hospital at Fort McHenry, where seeming miracles are performed by surgeons, is that of Private Jazek, of Abbott, Texas, whose sight has been restored.

Jazek was struck by a machine gun bullet fourteen months ago and nerve tissues in his head were severed. He had been blind until Capt. J. B. Wheeler pointed the tissues together. The light began to trickle faintly through and Jazek saw dimly. The surgeon wrapped his head in bandages for several days. They were removed yesterday and Jazek leaped to the floor.

"I can see! I can see!" he cried as he danced about the room.

Jazek will be sent home. Two other remarkable cures have been effected by Capt. Wheeler.

Try one of my 5-acre blocks near either the Laura, Victory, Zone or Troxel wells. They will make you money.—I. E. SMITH. 12-1f

DON'T WAIT

Take Advantage of a Pecos Citizen's Experience

When the back begins to ache, Don't wait until backache becomes chronic;

'Till kidney troubles develop; 'Till urinary troubles destroy night's rest.

Profit by a Pecos citizen's experience.

Mrs. J. B. Prewit, says: "It has been quite a few years since I have needed Doan's Kidney Pills, but before I tried them I had a pretty bad case of kidney trouble. I had sharp pains in the small of the back and severe headaches. I am glad to say Doan's Kidney Pills brought me the relief I wanted. Since then whenever I have felt any soreness across my kidneys, a few of Doan's have fixed me up in fine shape."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Prewit had. Foster-Milburn Co. Mfgs., Buffalo, N. Y.—Adv.

HIGHEST QUALITY AWARDS

CALF CROP WILL SHATTER RECORD FOR SOUTHWEST

With cows wintering well with plenty to eat, the calf crop next spring promises to be another record-breaker for the southwest, according to information received by J. N. Sanburn, secretary of the Panhandle and Southwestern Stockmen association.

Several ranchers in the Marathon country have recently been in El Paso looking for sheep.

Cattle shipments are practically at a standstill, according to association reports received Tuesday.—El Paso Times.

Thousands of stock frozen and starved to death in Montana.

THOUSANDS OF STOCK FROZEN AND STARVED TO DEATH IN MONTANA

Have, Mont., Dec. 2.—Sub-zero weather and a lack of feed due to the protracted drouth this summer have caused the death by freezing and starvation of thousands of horses and cattle, according to ranchmen. Four weeks of "hard" weather so far has caught many stockmen in a hopeless situation as far as caring for livestock is concerned, according to reports which reach this place. Cattle left to rustle over the hills and plains for lack of feed in barns are now freezing to death because of lowered vitality, say the reports, or are the easy prey of wolves.

NEW ROUTE FOR OZARK TRAIL TO ROSWELL

A new route for the Ozark Trails Highway from Roswell into El Paso was recommended last week by the Pecos Valley Ozark Trails association. It begins at Roswell and runs to El Paso by way of Carlsbad and Van Horn over the most practicable route, according to information received Monday by R. J. Pritchard, head of the Automotive Trades and Highway Department of the Chamber of Commerce.

From Roswell to Carlsbad there is already a state highway which continues on to Malaga. The stretch of 16 miles from Malaga to the state line has been abandoned on account of a difficult crossing at the Delaware river. There is also a good road from Carlsbad to Frijole and on to Van Horn, which was favored by many.

There was opposition to routing the trail this way, however, from Malaga people. After considerable discussion it was decided to leave the routing of the lower end of the trail from Carlsbad to Van Horn, Texas, to a committee of five to be chosen by the association. The decision of this committee will be announced later.

The regular route of the Ozark Trails highway is from Roswell to El Paso by way of the Mesquero Pass over the White Mountains, Tularosa and Alamogordo.

It is supposed here that the proposed route by Roswell, Carlsbad and Van Horn is to be designated as a supplementary route.—El Paso Times.

BAPTIST WOMEN TO RAISE \$15,000,000

FIFTH OF SUM SOUGHT IN FIVE YEAR PROGRAM WILL COME FROM THEM.

ARE DOING A LARGE WORK

Hospitals, Mountain Schools, Good Will Centers and Church Building Funds Maintained by Them in Addition To Regular Gifts.

MISS KATHLEEN MALLORY Corresponding Secretary, W. M. U. Baltimore.

Evidencing the larger sphere which women have come to occupy in church life, as well as other activities, when the Baptist 75 Million Campaign was decided upon at the meeting of the Southern Baptist Convention in Atlanta last May, the women, through their regular organization, the Woman's Missionary Union, at once agreed to be responsible for one-fifth of the sum sought, or \$15,000,000. This means that the Baptist women of the South will raise for missions of all kinds, Christian education and benevolences, the sum of \$3,000,000 a year for the next five years, in addition to their contributions to local enterprises and special work.

Through the channels of the Woman's Missionary Union, with headquarters at Baltimore, Md., the Baptist women of the South have since their organization contributed more than \$5,000,000 in cash to various denominational purposes. With the addition of boxes of food and clothing sent to orphanages and other benevolent institutions, the total of their contributions through this channel has reached \$5,710,433.71.

Miss Kathleen Mallory is the corresponding secretary of the Woman's Missionary Union, and in appreciation of the service she has rendered in that connection the Baptist women of Alabama have established the Kathleen Mallory Hospital for Women at Lichow-Fu, Shantung, China, Miss Mallory being a native of Alabama.

Women of many of the other states have also undertaken special enterprises of their own. Those of Georgia, for instance, established the Ayers Hospital for Women at Hwanghai, China, a girls' school at Kumamoto, Japan, the Catherine Bryan Kindergarten School at Canton, China, and the Mary P. Willingham School for Girls at Blue Ridge, Ga., a school designed especially for the education of girls in the mountainous section of that state.

Many of the other state unions have special projects such as Good Will Centers in the tenement, factory and mining districts, whose effort is made to bring more sunshine and enlightenment and love into the homes and lives of needy families, especially those of foreign birth; church building funds, scholarships for young women who want to obtain training for special Christian service, and similar undertakings.

The general W. M. U., representing all the women of the Southern Baptist Convention, owns and operates the Women's Training School at Louisville, Ky., which has already sent out 700 trained women for special service in all parts of the world; and has established the Margaret Fund for the education in the Baptist schools of the South the sons and daughters of missionaries on the foreign fields, and the Fannie E. S. Heck Memorial, a church building fund established in honor of one of the greatest leaders Southern Baptist women have known.

But money for the support of these institutions as well as that for the payment of the women's pledge of \$15,000,000 in the 75 Million Campaign, will be raised by the actual work of the women and through economy and sacrifice. Church fairs, bazaars, suppers, ice cream socials and the like, are frowned upon by the organized Baptist women of the South as unworthy means for raising funds for carrying forward the work of the kingdom of God and their contributions will not come from this source, it is announced.

HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prina, of this place, says: "After the birth of my last child... I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time... I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles... After about the second bottle I felt greatly improved... before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of m' vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

Lebanon Cedarless No Balm in Gilead

Sydney, Australia, Nov. 22.—Harry Cullett, official correspondent with the Australians in the campaign which broke the Turkish rule over Palestine, says that country "was disillusionment all the way." In a speech to newspaper men on returning from the "Holy Land," he added:

"Palestine was the ghost of a country living on the memory of the glory that had gone. 'Jerusalem the golden' was a most verminous and foul city. There was not a cedar in Lebanon; no balm blew over Gilead, and there were no bulls in Bashan.

"What an Australian learned from this land was that he must always keep and strengthen his ideal of one land for one race."

TOO SLOW

"Please, mother says these matches won't strike."

From behind his counter the grocer looked down on the child with the air of an insulted saint.

"Won't strike?" he said. "Why look here." And he struck one on his leg.

The child departed home to tell his mother of the mistake she had made. But in a very short time he was back at the shop with the matches, which the child laid on the counter with an air of finality.

"Mother says she hasn't time to come and strike matches on your trousers."

ON HELL!
They sometimes say "It's cold as Hell."
Sometimes they say "It's hot as Hell."
When it rains hard, "It's Hell," they cry.
It's also Hell when it is dry.
They hate like Hell to see it snow;
It's a Hell of a wind when it starts to blow.
Now, how in Hell can anyone tell
What in Hell they mean by this word Hell?

This married life is "Hell" they say;
When they come home late there's Hell to pay.
It's Hell when the kids you have to tote,
When he starts to howl, it's a Hell of a note.
It's Hell when the doctor sends his bills,
For a Hell of a lot of trips and pills.
When you get this you know real well,
Just what is meant by the word Hell.
Hell yes, and Hell no, and Oh Hell, too;
The Hell you don't, the Hell you do,
And what in the Hell, and the Hell it is,
The Hell with yours and the Hell with his.
Now, who in the Hell and Oh Hell, where?
And what in the Hell do you think I care?
But the Hell of it is—it sure is Hell
We don't know what in the Hell is Hell.
—Gulf Coast Lumberman.

WEDDINGS

SLOVER-BARRAGER.
Walter Slover and Miss Gladys Barrager were married Thursday afternoon of last week at the home of the bride's parents, Mr. and Mrs. B. A. Barrager, Rev. Fred B. Faust, pastor of the Methodist church, officiating.
The wedding was a quiet one, only the relatives of the contracting parties and a few intimate friends were present.
The wedding is a son of Mrs. M. T. Slover, was reared in Pecos and his friends are numbered by his acquaintances. He was one of the brave sons of Reeves county who volunteered his services to his country, having spent a year in the army of occupation in France.
Miss Barrager is modest and possesses many womanly graces. The Enterprise joins the friends of this splendid young couple in wishing for them much joy and happiness.

BUCHANAN-JONES.
Announcements of the marriage of Philip H. Buchanan to Miss Ora Lala Jones have been received by Pecos friends this week. The wedding took place at the home of the bride's parents, Mr. and Mrs. C. H. Jones, in El Paso, Thursday, November 27, 1919.
Philip is the son of Mr. and Mrs. M. C. Buchanan of Pecos, and is well known here, having lived here the greater portion of his life.
The bride is unknown to the editor, but Philip's judgment has always been good and it is very likely he made no mistake in this selection.
The Enterprise wishes the happy couple a long, happy and prosperous life.

FRUIT AND TARIFF

The Department of Agriculture makes the announcement that apples are selling higher now than at any time since commercial apple-selling began in this country, a statement by a Democratic administration that not even a Republican will deny.—Henrietta Independent.
Isn't it the same also with oranges and lemons and bananas and muscadines? We used to read pieces in newspapers where it said that if the Democrats came into power and "finked with the tariff" all manner of foreign fruits would hurry to these shores and find sale at such low prices our American orchardists would be ruined. California statesmen and publicists iterated and reiterated the charge that Democrats were trying to pauperize the Golden State by admitting pauper oranges and lemons to compete with the home-grown stuff. The result of a Democratic administration's tariff policies has certainly not reduced the cost of anything. Producers of foodstuffs never had such a picnic as since the Democratic party came into power. Only the other day State Press noticed an advertisement in a Texas county seat paper in which a groceryman solicited "eggs, butter, sorghum molasses, hides, potatoes, beans, chickens, turkeys, peas and turnips." These were all he could think of at the time, but

he was also in the market for hay, pecans, peanuts, acorns, autumn leaves, brussels sprouts and four-leaf clover if anybody asked him. The farmer's merchandise was never in such demand, never so eagerly sought at such high prices. The Federal Reserve Bank announced a few days ago that its "transit department was working in three eight-hour shifts in order to keep up with its work, the sluice of business being ascribed in part to the large number of Texans who are paying their debts. The almighty dollar is not altogether almighty these days. It will buy only about sixty cents' worth of axle grease or other luxuries, but it will pay a hundred cent debt without a bobble. Therefore, those who owe two dollars will make a mistake by not paying them at a time when they will buy more in the form of receipts than in the form of merchandise. But speaking of apples, aren't they disappointing things? Where are the old-fashioned, firm, sweet, meaty apples? The colors are as lovely as ever, the price is as high as a camel's hump, but the eating quality is missing. Some experts say it is because the apples are pulled green and are ripened in transit, after which they are quarantined in an ice house until the flavor becomes impaired. It may be so.—State Press in Dallas News.

HOME TALENT

Deportation for the men who want to overthrow this Government. The men who cannot be satisfied here should be sent away. They may learn when too late that Uncle Sam has a limit to his patience. And the limit has been reached lately, then some.—Sherman Courier.

Deportation is all right and should be employed against those who belong in other lands while resident here in the interest of remaking America in their own unlovely image. But let us not conceive the idea that all the jackasses who proclaim themselves "radicals" are foreigners. The red-eyed jabberers who inflame themselves and their audiences with lurid imaginativeness are the least dangerous of all the so-called anarchistic elements. The Lenin cult, which proclaims not only the cancellation of all moral contracts and the dissolution of the present codes of honor, as well as the disintegration of all government and the substitution of a vague thing called "revolution," appeals equally to a certain type of American idiot, a certain type of foreign idiot, a certain type of collegian, a certain type of demagogue and a certain type of Jew. These various types are alike in analysis. They haven't much sense but are strongly sexed, also they are

sorry workmen, shallow sentimentalists, lovers of luxury which they lack means to command, and more than all, easily intoxicated by the sound of their own revolving wheels. This type of animal craves a social condition where his fleshy instincts may have freer play without laying upon him inconvenient responsibilities. He wills to eat, drink and marry and divorce without formality in the way of legal or moral observance or expense in terms of labor. This is by no means a new type. It is very old, but its present aggressiveness is very new. Lenin, the premier anarchist, is their inspiration. As long as Lenin remains posed as a martyr or messiah he will remain the god of the dissolute in all lands. It would be of incalculable advantage to the world if Lenin and his hooligans were revealed, freed of their mysticism and discovered for what they are—mere ignoramuses, playing at government, reveling in harlotry and rotting in squalor.—State Press in Dallas News.

No. 1—Leases on sections 27 and 27, block 50, T. 7, T. & P., Reeves county. This is regular 30-year commercial lease. Price 50 cents per acre in one-half or whole section lots; 80 acres for \$50, 40 acres for \$30. One-fourth section in section 27, block C-1, Reeves county. This is at rate as above quoted in 40 and 80-acre tracts.
No. 2—1 yet have more. This half of section 19, block C-17, 2 miles northwest of Havana. The west half of this section at \$4 per acre or in 10-acre tracts. Anything in east half of this section for \$5 per acre in 10-acre tracts. Derris already completed on section 22, block 4, H. & C. N. survey.
No. 3—1 have some 5-acre tracts in 300 yards of drilling site of the Trans-Pecos Oil Co., \$100 per tract.
No. 4—A 6-room house in heart of town on 100-foot front. Large barn and garage; small patch of alfalfa; a special bargain at \$1,600; half cash, balance 2 years.
No. 5—A splendid well finished up to date home on southeast corner, parked on two sides of the lot and in yard well set in grass and shade; has hot and cold water and hot air; a home good enough for you or anyone.
No. 6—Half block with three dwellings on it; this property is well located and the place newly righted up and all houses painted; now renting for \$42.50 per month. Good terms on this property. Price \$4,500; \$1,500 cash, balance easy.
No. 7—22 acres four miles east of Pecos on T. & P. Ry.; 65 or 70 acres in cultivation; a well pumping 800 gallons per minute, 22 horsepower engine, all in good shape; two houses with all necessary sheds, etc.; good pump house. Entire tract fenced with bit proof fence. This land is well adapted to growing alfalfa, cotton, melons, etc. Price \$75 per acre; some time on this proposition.
No. 8—10 acres all mineral northwest from Pecos; all in state of cultivation and nearly all well set to alfalfa; has two flowing wells which waters the tract extensively; small house and good barn, chicken yards and sheds, etc. Price \$75 per acre.
We yet have on our list the beautiful Clay Cooke home. This is an elegant, well located and finished home. Price \$4,500. Some terms and some kitchen and bathroom furnishings go with above price. See F. P. RICHBURG, Pecos, Texas.

FOR LEASE

Five-year lease, the southwest quarter and the northeast quarter of section 16, block C-17, Reeves county, Texas, as follows:
In 20-acre tracts, \$2.50 per acre.
In 40-acre tracts, \$2.25 per acre.
In 80-acre tracts, \$2.00 per acre.
In 160-acre tracts, \$1.50 per acre.
This land carries all mineral rights. Will give 5-year lease on 88 Form of lease, 50c annual rentals. This land is situated four to five miles north of Toyah. Above described land is a smooth prairie land, well grassed and shallow water wells with only 62 feet. Believed to be amply sufficient to pump for irrigation. The soil will grow good crops with irrigation. Price to sell in fee:
In 20-acre tracts, \$5 per acre bonus, and buyer to assume 2% to State, 3 per cent.
In 40-acre tracts, at \$5 per acre bonus and buyer to assume State debt.
In 80-acre tracts, \$4.50 bonus per acre, buyer to assume State debt.
This land carries all mineral rights and lease or deed will come from the owners. The price named means the land in fee simple which includes land, lease and royalty. This would be good land to sell to small farmers who wish to grow truck and cotton. The above is guaranteed by F. P. RICHBURG LAND AND RENTAL COMPANY, Pecos, Texas. 15-4f

AN ORDINANCE

PROHIBITING THE KEEPING OF HOGS IN THE INCORPORATE LIMITS OF THE TOWN OF PECOS CITY, AND PROVIDING PENALTIES FOR THE VIOLATION OF SAID ORDINANCE.

Be It Ordained by the City Council of the Town of Pecos City:

Section 1. That hereafter it shall be unlawful for any person or persons to keep any hog or hogs within the incorporate limits of the town of Pecos City. Said hog or hogs shall not be kept in pens, or in any other place in the incorporate limits of said town of Pecos City. No person or persons who are the owner or owners of any hog or hogs, or who have the same, under their management or control, or who are in charge of the same, shall keep the same, or allow the same to remain within the incorporate limits of the said town of Pecos City.

Section 2. Any person or persons who are the owner or owners of any hog or hogs, or any person or persons who have any hog or hogs under their management or control, or who have the same, under their management or control, or who have the same, shall be fined in any sum not exceeding \$25.00; and each day that said hog or hogs are kept within the incorporate limits of the town of Pecos City shall constitute a separate offense.

Presented and passed by the City Council of the town of Pecos City, in Reeves County, Texas, this 11th day of November, A. D. 1919.

Approved this 12th day of November, A. D. 1919. BEN PALMER, Mayor.

Attest: EARL EASTERBROOK, City Secretary. (First insertion Nov. 14)

SHERIFF'S SALE

The State of Texas, County of Reeves.
By virtue of a certain Order of Sale issued out of the Honorable District Court of the County of Reeves, on the 21st day of October, 1919, by L. A. Morris, Clerk of said court, against O. O. Curtis, Ed F. Miller, A. R. Penny, and Elizabeth Newell, and said judgment also cancelling and holding for naught, so far as plaintiff's lien is concerned, a certain oil and gas lease as against the defendants, Sunshine Oil Corporation, Inc., and Alfred Tinnally and B. T. Biggs individually, and placed in my hands for service, I, E. B. Kiser, as sheriff of Reeves County, Texas, did, on the 6th day of November, 1919, levy on certain real estate situated in Reeves County, Texas, described as follows, to-wit: All that certain tract or parcel of land situated in the county of Reeves, State of Texas, being 220 acres and being a part of survey number twenty-nine (29) in block number four (4) of the Houston and Great Northern Railway Company survey in said county, and described as follows: Beginning at the original N. E. corner said survey No. 29 in N. E. corner of the tract thence S. 33 1/2 E. 900 yards to N. E. corner of a 100-acre tract decreed to J. W. Lane December 5, 1908, of the S. E. corner of this tract; thence S. 56 1/2 W. 627 yards to J. W. Lane's north line to his N. W. corner; thence N. 33 1/2 W. with J. W. Curtis's east line 368 yards to his N. E. corner; thence S. 56 1/2 W. J. W. Curtis's north line 1273 yards to his N. W. corner for the S. W. corner of this tract; thence N. 33 1/2 W. with west line of survey No. 29, 532 yards to N. W. corner of said survey for N. W. corner of this tract; thence N. 56 1/2 E. 1900 yards to the place of beginning, containing 220 acres of land, and lieved upon as the property of said O. O. Curtis, Ed F. Miller, A. R. Penny, and Elizabeth Newell, and said judgment also cancelling and holding for naught so far as plaintiff's lien is concerned, certain oil and gas lease as against the defendants, Sunshine Oil Corporation, Inc., and Alfred Tinnally and B. T. Biggs individually, and placed in my hands for service, I, E. B. Kiser, as sheriff of Reeves County, Texas, did, on Tuesday, the 6th day of January, 1919, at the Court House door of Reeves County, in the town of Pecos, Texas, between the hours of 10 a. m. and 4 p. m. I will sell said premises at public vendue, for cash, to the highest bidder, as the property of said O. O. Curtis, Ed F. Miller, A. R. Penny, Elizabeth Newell, and said judgment also cancelling and holding for naught, so far as plaintiff's lien is concerned, a certain oil and gas lease as against the defendants, Sunshine Oil Corporation, Inc., and Alfred Tinnally and B. T. Biggs, individually, by virtue of said levy and said order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Enterprise, a newspaper published in Reeves County.

Witness my hand, this 6th day of December, 1919. 16-4 Sheriff Reeves County, Texas.

W. W. Dean, reliable life insurance. 16-1t

SHERIFF'S SALE

State of Texas, County of Reeves.
By virtue of an Order of Sale issued out of the Honorable 44th Judicial District Court of Dallas County, on the 1st day of November, A. D. 1919, in the case of Parlin & Orendoff Implement Company versus J. A. Martin, Jr., R. A. Welch and R. A. Welch and Edgar E. Townes, independent executors, No. 30841-B, and to me, as sheriff, directed and delivered, I have levied upon this 6th day of November, A. D. 1919, and will, between the hours of 10 o'clock a. m. and 4 o'clock p. m., on the first Tuesday in January, A. D. 1920, at the Court House door of said Reeves County, in the city of Pecos, proceed to sell at public auction to the highest bidder, for cash in hand, all the right, title and interest which said defendants had on the 1st day of November, A. D. 1919, or at any time thereafter, of, in and to the following described property, to-wit: Lots or parcels of land situated in Reeves County, Texas, described as follows:
Section No. 28, Block No. 55, township 7, T. & P. Ry. Co., 690 acres, all in Reeves County; also all of Sections 4, 10 and 11 in Block 59; also the N. E. 1/4 and N. 1/2 of the N. W. 1/4 of Section 22 in Block 59, public school E. Townes, independent executor, No. 30841-B, and to me, as sheriff, directed and delivered, I have levied upon this 6th day of November, A. D. 1919, and will, between the hours of 10 o'clock a. m. and 4 o'clock p. m., on the first Tuesday in January, A. D. 1920, at the Court House door of said Reeves County, in the city of Pecos, proceed to sell at public auction to the highest bidder, for cash in hand, all the right, title and interest which said defendants had on the 1st day of November, A. D. 1919, or at any time thereafter, of, in and to the following described property, to-wit: Lots or parcels of land situated in Reeves County, Texas, described as follows:
Section No. 28, Block No. 55, township 7, T. & P. Ry. Co., 690 acres, all in Reeves County; also all of Sections 4, 10 and 11 in Block 59; also the N. E. 1/4 and N. 1/2 of the N. W. 1/4 of Section 22 in Block 59, public school E. Townes, independent executor, No. 30841-B, and to me, as sheriff, directed and delivered, I have levied upon this 6th day of November, A. D. 1919, and will, between the hours of 10 o'clock a. m. and 4 o'clock p. m., on the first Tuesday in January, A. D. 1920, at the Court House door of said Reeves County, in the city of Pecos, proceed to sell at public auction to the highest bidder, for cash in hand, all the right, title and interest which said defendants had on the 1st day of November, A. D. 1919, or at any time thereafter, of, in and to the following described property, to-wit: Lots or parcels of land situated in Reeves County, Texas, described as follows:

"Common Clay"

ADAPTED FROM THE FAMOUS DRAMA BY CLEVES KINKEAD

Prices for this show are: Children 15c, Adults 35c

FIRST SHOW WILL OPEN AT 5 P. M.

A modern hospital illustrative of the type of buildings Southern Baptists are employing in the relief of human suffering.

In their work of relieving human physical suffering Southern Baptists at present own and control fourteen hospitals and there are under course of construction and about ready to be opened at least two more, with considerable progress made toward the erection of others. All of these institutions are liberally patronized and are self-supporting but all of them need to be enlarged in order to meet the rapidly-growing demands upon them. The demand for charity work is especially urgent and in order to enable them to thus render a needed service to those who are least able to help themselves as well as to provide larger facilities for the regular work the hospitals are doing the sum of \$4,300,000 has been apportioned to them from the proceeds to be raised in the Baptist 75 Million Campaign.

This work of relieving the physical infirmities of men women and children and thus putting them on the

road to better health and larger efficiency and usefulness was begun within the bounds of the Southern Baptist convention in 1890 when the Missouri Baptist Sanitarium was opened in St. Louis. From a very small beginning in a residence with less than a dozen beds, this institution has grown into a modern institution with more than 300 beds.

Other Baptist hospitals in the South include Baptist Hospital, Muskogee, Okla.; Baptist Hospital, Miami, Okla.; Baptist Hospital, Cushing, Okla.; Baptist Memorial Hospital, Memphis, Tenn.; Georgia Baptist Hospital, Atlanta; Oklahoma Baptist State Hospital, Oklahoma City; Baptist Hospital, Columbia, S. C.; Texas Baptist Memorial Sanitarium, Dallas; Baptist Hospital, Houston, Tex.; Baptist Hospital, Alexandria, La.; Baptist Hospital, Jackson, Miss.; St. Louis Baptist Hospital, St. Louis, Mo., and the Kansas City Baptist Hospital at Kansas City, Mo.

FINANCIAL REVIEW

A preliminary report of the United States Bureau of the Census gives the amount of cotton seed received at American mills during the past two months as 463,335 tons, against 955,955 tons during August and September, 1918. This does not include 23,725 tons and 40,438 tons on hand August 1, nor 14,616 tons and 24,417 tons re-shipped or burned for 1919 and 1918 respectively. During the two months 254,600 tons of seed were crushed, against 340,325 in the like period of 1918; and on September 30, 1919, 232,460 tons were on hand at the mills, against 644,168 tons on the corresponding date of the previous year.

During August and September of 1918, 6,258,727 pounds of cottonseed oil were imported as compared with 1,527,764 pounds for the corresponding period of 1918. Exports of cottonseed products were 14,726,638 pounds of oil, against 5,760,544 pounds in 1918; 38,787 tons of cake and meal, against 2 tons; and 8,869 running bales of lintery, against 20,314 bales.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy.

NOTICE TO AUTOMOBILE DRIVERS

On and after this publication and notice, all officers of the county will more rigidly enforce the Glaring Light Law in automobiles. The law requires a Dimmer on all front lights of cars on the public highways and streets.

Chapter 161, Section 9, General Laws.—"It shall be unlawful for any person to operate an automobile, motorcycle or bicycle upon the public highways of this State, at night time, whose front lamps shall project forward a light of such glare and brilliancy as to seriously interfere with the vision of the driver of a vehicle approaching from an opposite direction."

I believe every driver of every automobile in Reeves county will agree with me that this law should be enforced.

Yours respectfully,
E. B. Kiser, Sheriff.

The Goggles That Do Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor dizziness in head. Remember the full name and logo on the wrapper.

LEFT HANDERS IN THE BIBLE

In the 20th chapter of Judges, the 15th and 16th verses, recognition of the expertise of left-handed persons is given as follows:

"And the children of Benjamin were numbered at the time out of the cities, twenty and six thousand men that drew sword, besides the inhabitants of Gibeah, which were numbered seven hundred chosen men.

"Among all this people there were seven hundred chosen men left-handed; every one could sling stones at a hair-breadth and not miss."

It is proverbial that left-handed people are quick in the use of the eye. They are good shots, good billiard players, quick to detect anything out of line or out of plumb; they seem to have what is called the mechanical eye. They are also usually quick in action where the use of the eye is involved; they are accurate and precise and the scripture rightly recognizes this peculiarity of left-handed people in citing the seven hundred left-handed Benjaminites who could throw stones at a hair-breadth and never miss.

Plight of the Newspaper Man

A newsprint paper famine is certain. This week the Record received notice from the wholesale paper house that newsprint had advanced to 8c a pound; we used to buy it at 2 1/2 and 3 cents a pound. We immediately ordered 25 bundles to hedge against another rise as we had information from another source that it would soon go to 10 cents. The house wrote back that they would not ship 25 bundles but were sending us 5 bundles.

Self preservation is the first law of individuals as it is of nations. Pre-war conditions no longer exist in so far as the publisher is concerned. During the years of the great conflict he saw the price of material, (including newsprint and ink), climb to the skies. He saw largely increased wage scales. He obtained no relief when the armistice was signed. He has obtained none in the year that has followed since the signing of that historic document.

He is face to face today with another and a graver crisis. Prohibitive price of print paper and a threatened famine.

One thing seems certain: that the publisher must raise his advertising rates and certainly the subscription rates, as the subscriber should bear at least the cost of write paper. Publishers should not fear a loss of circulation in inches of advertising. It would be better for them to decide on the maximum number of pages which is less than they have been printing of course, carrying an advertising rate that would bring fair returns.

The metropolitan dailies such as in New York, Philadelphia, Boston and Pittsburgh, by cutting their issues two pages per day for the month, would probably provide a sufficient supply for the smaller papers in respective states. Some consideration should be shown the smaller publisher. Surely, after consideration, the paper companies will not throw the

smaller publisher on the open market but will pro-rate their supply.

In the meantime let all the publishers diligently set down and make plans for increasing the production, and surely no newsprint should be sent abroad until American publishers' requirements are met. The government should be called upon to intervene in the exportation of wood pulp until this country's needs are met and at a reasonable price.

One thing certain, the Record will be published as long as there is a sheet of newsprint to be had at any price.—Colorado Record.

SOLDIERS AND FARM LIFE

The Smiths and Joneses have lost their onetime prestige, according to a man by the name of Johnson, who lives in Wichita, Kansas. Mr. Johnson claims that the Johnsons won the war. He submits statistics to show that there were 53,200 Johnsons in the army, against only 51,590 Smiths, 48,300 Browns, about the same number of Andersons and Walkers, and only 25,000 members of the Jones family.—Coleman Democrat-Voice.

That the Johnsons, Browns, Smiths, Andersons, Walkers and Joneses, outnumbered other names on the army lists is easily believable. When you begin cataloguing your own neighbors you discover how many Johnsons, Browns, Smiths, Walkers and Joneses there are among them. Their sons went to war, fought like good Americans, came back heroes—and are now living in town. It is declared by those who make a specialty of such information that an infinitesimal portion of the demobilized army has returned to the farms to make war on general green. This is scaring the timid witnesses, who are afraid the old farm will grow up in weeds for lack of sturdy hands to plant and cultivate the crops. But it isn't as bad, let us believe, as it looks. The fact at the bottom of this business is that the boys who were in the army can't demobilize their gregarious spirit all at once. Leaving the associations of the billet and barracks and going back to the more or less isolated farm produces a reaction, and it is this reaction that is taking them to town. They will tire of the town after a little while, finding as they surely will, that town life is not as easy as it looks. Then they will trickle back to the farm, better fitted to appreciate its advantages. At least this is the cheerful view of the situation. And one might as well be cheerful when cheerfulness helps him be happy.—State Press in Dallas News.

The "Live One"

Select what you regard as the "livest" man in this community. Multiply that by 500, and put them all into one big organization—like a chamber of commerce. Can you conscientiously say there is anything an organization of that kind can't do?

The only thing that makes your ideal "alive" is the fact that he sees a future if everybody works. He begins with himself and does more than his share. The more he works the more enthusiastic he becomes. You can be a "live" one too—you have just as much ability as he.

The first ones to join the chamber of commerce are the liveliest ones in the community—you can usually count on that.

CORRECTING AN ERROR

In discussing the matter of humor among courts and lawyers a few days ago, a legal member of the company related the following as having come under his observation and vouched for the truth of it:

A lady who had testified in a lawsuit in Pennsylvania created something of a sensation by subsequently rising and asking the judge if she might correct an error in her testimony. Being granted permission she stated:

"At the time I was asked my age I was so flustered that I gave my bust measure by mistake."

THE CRACK O' DOOM FOR NASTY CALOMEL

Folks Abandoning Old Drug for "Dodson's Liver Tone," Here in South.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day. Calomel is mercury! When it comes into contact with your bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if your breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can not salfate or make you sick.

BETTER PROVISION PROMISED PASTORS

BAPTIST 75 MILLION CAMPAIGN WILL RAISE BIG SUM FOR RETIRED MINISTERS.

CARE FOR THE WIDOWS, TOO

Total of \$5,000,000 Included On Program For This Purpose—Insurance Feature Also Included.

REV. J. M. RUSSELL
Typical Retired Minister.

While the salaries paid the ministers of Baptist, as well as other churches in the South, has been far too small in the past to enable them to lay aside a competency for old age, a long step in remedying this situation is promised in the Baptist 75 Million Campaign, which proposes to raise \$2,500,000 for the relief of aged ministers during the next five years, and then bring this sum up to \$5,000,000 during the two years immediately following the campaign.

Looking to the adequate care of hundreds of aged Baptist ministers and ministers' widows in the ranks of the Southern Baptist Convention who are now in need of financial assistance, this body, at a recent session, authorized the creation of the Relief and Annuity Board at Dallas, Texas, with Dr. William Lunsford as corresponding secretary.

Heretofore the average annual salary of Baptist ministers in the South has been less than \$500, meaning that a large number of preachers received considerably less than that sum, making it necessary that they engage in other occupations during the week in order to support themselves and their families, and rendering it practically impossible for them to lay aside any money as a support for their old age.

The establishment of the Relief and Annuity Board and the decision to raise \$5,000,000 during the next seven years for the relief of the aged ministers already in need of assistance and the more adequate care of the men who hereafter give their lives to the Christian ministry without an opportunity to save up a competency to tide them through sickness or care for them in their declining days, has met with a cordial reception at the hands of Southern Baptists, and it is believed the provision of better treatment for the ministers in their retirement will not only tend to cause young men to look with greater favor upon the ministry as a life work, but will bring the members of local congregations generally to see the need of paying pastors more adequate salaries before these pastors become old and helpless.

By the addition of an annuity feature it is possible for retired ministers to receive an annuity of \$500 after they have reached the age of 68, and provided they have been in the ministry for thirty years. If they have served less than 30 years the annuity is reduced by a certain proportion. To participate in this annuity a minister must make monthly, quarterly or annual payments sufficient to bring in an income of \$100 per year when invested, on the principle of regular life insurance, while this is supplemented by \$400 provided by the denomination. A minister's participation in the annuity fund is in addition to his claims upon the relief fund.

If the minister is disabled at any time after joining the annuity fund, he will receive a certain annuity throughout the period of disability. If he dies his widow will receive an annuity of 60 per cent of what would have gone to her husband as long as she lives, and should the widow die her annuity will be divided among minor children until they become self-supporting, marry or reach the age of 21.

The board has received an endowment of \$100,000 from the Baptist Sunday School Board at Nashville not included in the 75 Million Campaign, and this sum will be divided equally between the relief and annuity departments. This enables the board to begin work immediately and assistance is already being given to 235 aged ministers and ministers' widows.

PEACE HAS COME

One of the biggest items in the new era that the return of Peace has ushered in will be that of BUILDING. Building of honor, integrity, a democracy that will survive and, as important as any, the

BUILDING OF COZY HOMES

Materials for building will, later on become scarce. Entire cities in Europe must be rebuilt. America must supply the material. We are in position to furnish estimates on plans and materials for the building. Later on we may not be able to do so.

Pruett Lumber Company

BUILD A HOME OF YOUR OWN

YOU WOULD BE PROUD TO OWN YOUR OWN HOME

Did you ever notice the difference in the amount and quality of care a home OWNER and a home RENTER give to the place in which they live? The joy of possession, the feeling of independence on the part of the home owner is evidenced in the appearance of his home, the ground that surrounds it and the rooms within. He is proud of his home. He wants it to be the prettiest place in town. And the women,—well, you just ask your wife if she would like to have a home of her own!

It isn't hard to build at this time, either, for a home is very good security and if you haven't all the money necessary, you can do as thousands upon thousands of home owners have done for years and are doing now—borrow the money from your bank or building and loan association and pay back in installments of about the same amount you now pay for rent.

It's really a matter of beginning. Let us help you make the start.

Brady-Camp Jewelry Company, Inc.

TEXAS OIL DEVELOPMENT IN ITS INFANCY SAYS DR. WATERHOUSE, NOTED GEOLOGIST

Texas oil development is in its infancy. Great as is its present production that of the future will make it appear small. The best veins have not yet been found. But they will be found and I believe above the black line.

Dr. J. A. Waterhouse of Fredonia, N. Y., who drilled his first well in 1876 in Butler county, Pennsylvania, has drilled a total of 130 wells and been interested in numerous others and whose judgment as a geologist is considered equal to the best by all oil men everywhere, thus expressed himself Saturday as to the future of the Texas oil industry.

The doctor, who is well along in years and wise and ripe in experience, is lithe of body and spry of step and his mind cracks like the tip of a cattle whip.

The fact that during twenty years of his earlier experience as an oil man he turned into Pennsylvania and Ohio creeks and rivers enough oil and gasoline to overflow Lake Worth and wipe out the national debt at prices now current, does not seem to bother him.

Furthermore, by way of disclosing his philosophical soul, he does not worry much over the fact that for years he sold crude oil of his own production for 15 to 60 cents a barrel—the revenue being just about enough to pay for the pumping. At times when the revenue was not great enough to care for that item he has moved his family onto his lease and done his own pumping.

And still more remarkable is the fact that although oil holdings he has parted with have made a grand opera horse shoe full of millionaires, there is not a trace of a Balshевич oblique in his makeup. When he passed up his best oil holdings the refining industry on its present vast scale was unknown and undreamed of, as were also many of the uses to which refined products now are put. And there was not even a bare living in the sale of crude oil.

"In Eastland, Stephens and Wichita counties the sandstone has been found above the black line and it will be found everywhere," continued the Pennsylvania oil man. "In Wichita county seven sands

have been found above the black line and I believe the farther west wells are bored the thicker the layers of sand and the more productive they will be found to be.

"Geologists of high reputation have declared that the permian sand increases in thickness from thirty to fifty feet per mile as the vein is followed westward I think that estimate is a bit extreme yet not far off, according to what borings show at Amarillo.

"If the permian sands are found as I am sure they will be, our experience in Pennsylvania makes me sure that the life of the wells will be much longer than those in which the oil comes from the limestone.

"Today there are 40,000 oil wells in Pennsylvania from ten to fifty years old that are averaging one-quarter of a barrel a day. Usually they are pumped once a week. At Bradford a remarkable reclamation is in operation. Numerous wells pierce the red sandstone there, with a production that was dwindling, quite naturally, after many years.

"So the sands are being flushed by water turned into some of the pipes, which forces the oil into reach of the other wells. In that way from one-quarter of a barrel to two barrels a day are being obtained. Owing to the high quality of the oil it brings \$4.25 a barrel with a premium of 85c. It has a gravity of about 38."

Dr. Waterhouse is an old friend of William E. Clark, secretary and general manager of the Texas Eagle Producing and Refining Company, who also hails from Fredonia, N. Y. For years the two had frequently expressed a desire to bore a well in a certain spot near Fredonia which had every geological and surface indication of having oil immediately beneath it. But they never got around to it. Saturday they learned they had missed something in not doing so. On that long coveted spot is a well yielding ten barrels a day which has just been brought in. But what, pray, is ten barrels a day with the gusher State of Texas just starting to roll up its sleeves preparatory to showing the world what it really can do by way of producing oil?—Weatherford Herald.

SAYS EASTERN CAPITAL IS ENTHUSIASTIC OVER TEXAS OIL FIELD

E. H. Rinehart, president of the Texas Oil Exchange, returned yesterday from a business trip to Pittsburgh, Chicago and Kansas City, where he went two weeks ago for the purpose of establishing eastern connections for the company, and incidentally to arrange the eastern market for the Texas Petroleum Company, of which he is secretary.

"I found the eastern brokers enthusiastic over Texas and Louisiana oil issues," said Mr. Rinehart, "and undoubtedly large blocks of stock of the good and legitimate companies will be absorbed by the three cities I visited. The weather was at zero and the coal famine serious. In Kansas City the schools and theaters were closed and department stores were only operating between 9 a. m. and 4 p. m., in order to conserve fuel and light. This coal famine emphasized the interest in petroleum as a possible future substitute for coal, and there was intense interest in the oil fields of Texas, New Mexico and Louisiana, especially in Pittsburgh, where everybody is talking of oil and oil stocks."—El Paso Times.

FOURTH GIANT GASSER IN AMARILLO FIELD

Amarillo, Dec. 2.—The Amarillo Oil Company brought in its fourth big gasser late Sunday afternoon, the well blowing itself in after the bit had barely touched the sand. This well has proven by far the biggest in the Amarillo field, scouts and other oil men declaring it to be making not less than 50,000,000 feet a day. Monday at noon the well was still throwing stones and dirt over the derrick. The gas is of a very high grade, the smell of oil being very strong in the neighborhood.

Perhaps a substitute for power seldom seen was used during the operations at the well Monday, when a high wind blowing from the boiler to the derrick made the use of fire out of the question. A pipe line of fuel gas was connected directly with the engine from another of the company's wells. The gas pressure was sufficiently high to operate the engine when blown into the cylinder. This was piped from the Masterson No. 1, brought in in September, 1918, where the pressure is said to have decreased considerably.

The bringing in of this gasser is of much interest, both in this community and in the cities on the north, as the natural gas supply is diminishing in Oklahoma and Kansas. The Amarillo Oil Company probably has 100,000,000 feet of gas available daily at this time.

The franchise granted the Union Petroleum Company, a Buffalo, N. Y., concern, is to be contested in an election here December 19. The action of the city commission in granting the franchise is considered hasty by one faction in this city. The rate agreed upon is said by some to be the bone of contention, although it is perhaps the lowest in the State, considering pipe line costs and other incidentals.

According to information recently given out, a ready market has been found in cities to the north of Amarillo for the gas, in case this city turns down the franchise. The Amarillo business and professional men have declared a preference for marketing the fuel here. In cities where natural gas has been used, it is said by oil men here, a much higher rate can be procured, the value of this fuel being known.

Plans for providing Amarillo with natural gas, as given out to the city commission during recent meetings, involve the expenditure of about \$750,000. A pipe line company is to be formed, and with remodeling the present artificial gas plant and extending the mains in the city, the figure is considered conservative and low.

THE DEEPEST WELLS IN THE WORLD

A natural gas company of Pittsburgh enjoys the reputation of having twice broken the world's record for deep wells within the past two years. One of these deep borings, known as Martha Goff well, is located eight miles northeast of Clarksburg West Virginia. Drilling was begun April 19, 1916, and on March 4, 1918, a depth of 7,386 feet had been reached, thus exceeding by 37 feet the depth of the well hitherto known as the "deepest well in the world," located at Cuzchow, Upper Silesia, Germany. At this depth the steel cable parted, over 5,000 feet down leaving the tools and 2,000 feet of cable in the hole, and the well had to be abandoned.

This record has since been surpassed in the L. H. Lake well, drilled by the same company 6 1/2 miles southeast of Fairmont, W. Va. Drilling began here August 5, 1916. On June 18, 1919, a depth of 7,579 feet had been reached; 193 feet greater than the depth of the Goff well. At this depth misfortune again overtook the company. The tools stuck in the drill hole and the cable parted, leaving tools and 4,000 feet of cable in the hole. "Fishing" was unsuccessful and this well, also, has been abandoned. These wells were sunk in the hope of reaching the rich gas-bearing and oil-bearing "Glinton" (Medina) sand, which extends across eastern Ohio, and is supposed to underlie the part of West Virginia in question.

In the case of the Goff well, interesting fossils and other geological material were secured and a valuable series of temperature measurements were made. According to C. E. Van Ostrand, of the United States Geological Survey, the temperature at 7,000 feet was found to be 172 degrees Fahrenheit, and the rate of increase at that depth was one degree in 51 feet. Scientists estimate that the boiling point would be reached at about 10,000 feet below the surface.—Scientific American.

Habitual Constipation Cured in 14 to 21 Days
"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

Common-Sense for Corns, "Gets-It"

The Great Painless Corn Loosener. Simple as A. B. C. Never Fails.

If you have ever tried to get rid of a corn by bundling up your toe with bandages, or by using salve that made your toe red and almost

raw, or tried to drag your corn out with a knife, there will be a surprise waiting for you when you use "Gets-It." Imagine peeling your corn off gloriously, easily and painlessly, just like peeling off a banana skin. Well, that is what happens when you use "Gets-It." There is nothing else that will give you this same result. Millions of folks have had the same blessed experience. Why putter and suffer, limp, and spoil a good time for yourself and your friends, or your peace of mind while trying to attend to business? Use "Gets-It," the simple common-sense way. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfgd by E. Lawrence & Co., Chicago, Ill.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. Repatriating Prisoners.

When hostilities ceased there were in the hands of their Teuton captors millions of prisoners of war of all Allied countries, the terrible plight of whom is well known to all the world. Red Cross workers, carrying relief supplies of clothing, medicines and supplementary foodstuffs, penetrated the Central Powers as soon after the armistice as the military authorities would permit, and the work of getting the prisoners started back to their own countries was soon begun. In this photograph a group of these men are seen packed up and restored to something like normal health, awaiting the train that will carry them out of bondage.

THE CHURCHES

ELECTION OF OFFICERS.

The Woman's Missionary Society of the Methodist church elected officers at their business meeting Tuesday for the ensuing year, as follows:
 President—Mrs. Emma Boles.
 Vice-President—Mrs. T. A. Esel.
 Recording Secretary—Mrs. W. W. Runnels.
 Corresponding Secretary—Mrs. A. J. Curtis.
 Connectional Treasurer—Mrs. H. N. McKellar.
 Local and Church Treasurer—Mrs. C. B. Jordan.
 Superintendent of Young People—Mrs. Oscar Buchholz.
 Superintendent of Children—Mrs. John Hibdon.
 Superintendent of Study and Publicity—Mrs. Wm. Adams.
 Superintendent of Social Service—Mrs. Albert Sisk.
 Superintendent of Supplies—Mrs. A. G. Taggart.
 Pianist—Mrs. Ben Randala.
 Agent for Missionary Voice—Mrs. Monroe Kerr.

MISSIONARY SOCIETY.

Mrs. Ben Randala, Mrs. C. K. McKnight and Mrs. John Hibdon entertained the Missionary Society of the Methodist church Wednesday of last week in the monthly social meeting at the home of Mrs. Hibdon. A program of music and readings was enjoyed. A contest in Scripture quotations

on the Centenary proved interesting and instructive. Refreshments of chocolate and cake were served.

B. Y. P. U.

Birth of Christ and what it promises.
 Leader—Miss Blanchard.
 Scripture—Marilee Riechburg.
 1. A Messianic Kingdom Expected—Alma Harper.
 2. It Promised Hope to the Despairing—Vernon Hicks.
 3. The Promise was of a World Redeemer—Satie Collings.
 4. Jesus' Coming Meant New Inspiration—Balsar Hefner.
 Conclusion—Orto Johnson.
 Special Music—Mrs. J. C. Wilson and Warren Collings.

EPWORTH LEAGUE.

Consecration Meeting.
 Subject—"Truths that Jesus Taught."
 Leader—Alyce Leeman.
 Scripture—Matt. v. 3-12; 1 Cor. iii, 5-10.
 Opening prayer—Leader.
 Song 86.
 Whom Does Jesus Call "Blessed"?
 1. The poor in spirit.—Jessye Heard.
 2. They that mourn.—Alyce Morrison.
 3. The meek.—Louise Wadley.
 Song 72.
 4. They that hunger and thirst after righteousness.—Corrine Miller.
 5. Be merciful.—Lorena Furr.
 6. The pure in heart.—Edna Boles.
 Thoughts on the theme.—Anna Boles.
 Song 96.
 League benediction.

SOCIAL EVENTS

ENTERTAIN AT DINNER.

Friday, November 28, Mesdames Wylie Cole, M. W. Collie and L. A. Dyane entertained at the home of Mrs. Cole.
 The Thanksgiving idea was carried out; branches of autumn leaves were artistically arranged over doors, windows and pictures, clusters of which formed shades for the electric lights, causing them to give a mellow yellow light. Baskets of these autumn-colored leaves were used effectively about the rooms.

Unique score cards and tally books in the shape of turkeys were used in the lively games of forty-two, at the conclusion of which Mrs. Clay Slack was found to be sitting in chair number 13 and was presented with a bouquet of yellow chrysanthemums and ferns.

A lunch consisting of shredded, creamed chicken, Parker house rolls, olives, potato chips, stuffed dates and coffee was served the following guests:

- | | |
|--------------------|----------------|
| Wm. Adams | John B. Howard |

Mrs. W. E. Blomson and sons of Big Spring were the week-end visitors last week of their sister, Mrs. C. C. Colwell and family.

Miss Julia Padgett is visiting her sister, Mrs. Ben Jackson, in Van Horn.

Max Krauskopf was a visitor to El Paso the early part of the week.

Frank Figman, one of Pecos's first citizens, now at Monahans, was in Pecos on Tuesday poring over with old friends. Frank is hale, hearty and young as ever. Come again, old-timer.

Mrs. J. F. Christian writes the editor from El Paso to state that she "is at home again" and to forward the Enterprise to her there. Mrs. Christian, along with many others, has lots of nice things to say about the Enterprise, all of which is duly appreciated.

Mr. and Mrs. Jack Hubbs are the happy parents of a bouncing boy born to them Saturday. Jack came down that day-looking happier than usual and says he will soon be able to watch the boys do the work.

In a letter to the Enterprise family from Mrs. E. J. Moyer she states that "We are enjoying living in Alpine and find the people here very pleasant," but adds that "we shall always be interested in the Pecos people and the doings of Pecos people, for they are dear to us."

Terry Downes and By Johnson, prominent citizens of Toyah, are in Pecos court and seeing friends this week.

E. A. Humphries of the Toyah Creek country is up attending court this week.

Tatum Moore of Bogado was in Pecos the forepart of the week doing grand jury service.

Mrs. Marshall Branner of El Paso, spent Thanksgiving with the family of Mr. and Mrs. F. P. Riechburg, returning home Saturday.

Mr. and Mrs. Green Selman ate Thanksgiving dinner with Mrs. Selman's parents, Mr. and Mrs. F. P. Riechburg, and returned to their home near Clint Thursday afternoon.

Jack Hollister, the genial editor of the Artesia Advocate, was in Pecos for a while the fore part of the week. He was returning home from a visit to El Paso. Mr. Hollister is getting out an 8-page all home print paper, six columns to the page, and is carrying both full and half page ads and doing well.

By Johnson was up from Toyah the fore part of the week attending district court.

Terry Downes came up from Toyah the first of the week to spend a few days in the city and incidentally to build a flue at the home of Will Cowan, that the family of the latter might keep warm provided they can get fuel.

Tatum Moore was up from his Toyah Creek farm-ranch the fore part of the week in attendance upon the grand jury and while in town was the guest of his father-in-law, M. Somes, and the editor. He has a cordial invitation to come again and bring his wife and children.

Hon. W. W. Stewart was up from his Toyah Creek farm-ranch for two or three days this week, seeing after his cotton and looking after other business matters. He made The Enterprise a pleasant visit and in a political way believes Thomason of El Paso the proper timber for governor of Texas next term. He has no talk against the other candidates, however, but simply believes Thomason can't be beat as a governor and he knows Thomason. He, with The Enterprise, believes Thomason should vote West Texas solidly.

Mrs. J. L. Moore was a visitor in Pecos last Friday, returning to her home on the P. V. S. Saturday.

M. Somes, foreman of the Enterprise office, visited his daughter, Mrs. Tatum Moore, and grandchildren at Toyah Creek Saturday and Sunday, returning Sunday afternoon.

A. D. Casey was in Pecos the latter part of last week from his home in Pieacho, N. M. He had been down in the Valley for a week visiting his sister, Mrs. J. L. Moore, and his brother, W. D. Casey, in the Davis Mountains on a business errand. Ad is looking fat and saucy and looks even younger than in former days.

Mrs. C. K. McKnight is in town this week the guest of Mrs. J. E. Hudson, attending the revival at the Methodist church.

Mrs. J. G. Love went to Dallas last week and spent Thanksgiving with her daughter, Miss Aileen, who is in school at the Southern Methodist University.

J. E. Cox came over from Midland Thursday and is packing his household goods preparatory to moving Mrs. Cox and the children there. We regret to lose this splendid family.

Mrs. Marvin Cowan and children are in from the VH ranch for a visit to the parental home of Mr. and Mrs. W. D. Cowan.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 50c per bottle.

A man's
 best pal
 is his smoke!

"Knew we'd get together"

—Ches. Field

HERE'S where the particular smoker meets the particular smoke—Chesterfield.

Particular is right! Not only do we use the four choicest varieties of Turkish tobacco—Xanthi, Cavalla, Smyrna and Samsoun—but to these we add the rich, sun-ripened leaves of specially choice Domestic tobacco.

Fine as these tobaccos are, it's the exclusive process by which they are blended that gives to Chesterfields that satisfying body, that mellow richness which makes a smoke mean something.

Chesterfields certainly do satisfy as no other cigarette has satisfied you before—and to top it off, they are packed in a glassine paper package that preserves for you all of that delicious flavor.
