# **INTENSIVE CAMPAIGN TO PROVE BELL SAND; 33 WELLS DRILLING** AND PROJECTED: OTHER WELLS

(Data compiled by W. N. SUTHERLAND, Secretary Pecos Chamber of Commerce)

Thirty-three wells drilling or under contract will prove the field This well is in section 22. Sunshine around the Bell well, 22 miles northwest of Pecos in seeking the 650 foot sand. They are within a radius of about four miles of that well. It is claimed there are 20 odd additiona. wells planned in the imimediate vicinity outside that region.

Sixteen of the 33 wells are under contract for section 20, block 2, H. & G. N. railway survey upon which the Bell well is located. These are the Bell wells Nos. 2 to 12, Minerva No. 1, which spudded in Monday, all belonging to Bell Bros., the Trox-Bell well to be drilled by C. K. Troxel, discoverer of the Toyah field the Shunuff, to be drilled by Lafa, ette Smith of Pecos, and the Abner Davis projected well.

Three other Bell wells are to ge down on section 30 two miles to the 34. southwest and the Lucky Thirteen well is drilling on section 13 in the same block 2, H. & G. N. railway tion has let a contract for the drill survey.

Other wells drilling or contracted for in block 2 are: Bell Reeves Oil Co., section 18, down 50 feet; E. R. A DEEP TEST FOR for in block 2 are: Bell Reeves Oil Slater, section 18; Grogan of the Sunshine Oil corporation on section 15, drilling; Citizens' Oil Co., on Scrap section 71, down 160 feet: Goodloe & Salaska, section 21; Texoiland Syndicate, two wells on section 6 with one derrick up; Tex-Plains Syndicate No. 1 well in section 6: T. P. Palmer well No. 1 in section 34, No. 2 in section 28; Campbell & Burris' well No. 1 in 20. Other wells north of Pecos and under contract follow: In block 4, H. & G. N. railway survey are the King, Laura and the Lone. The King is in section 40. 530 feet deep and drilling was resumed Monday, according to report. The derrick had been blown down by a windstorm week before last. The Bell, in Reeves county, Texas. The to rumor, and has been awaiting a the Toyah shallow field.

n.w 60 horsepower boiler which ar rived the first of the week. The Zone Oil company's No. 1 well resumed drilling last Wednesday after snutting off the water at 125 feet. Corporation has made location for fifth deep test on section 69.

In block C-19 are the following wells projected: Warn No. 1 in section 20 and Warn No. 2, deep test, in the same section.

In block 3, H. & G. N. railway survey, the Carlock well is contracted in section 10.

In block 54, township 4 are: Lockhart in section 1. Bozeman & Bryan in section 3, I. E. Smith No. 1 in section 34, and No. 2 in section 9 J. F. Leonard No. 1 in section 32 deep test; E. R. Lowell Nos. 1 and in section 7.

In block No. 55, township No. 4 are: Campbell & Burris No. 2 in section 9; Peter Snyder in section 10; J. F Leonard No. 3 in section

In block C-16, 15 miles southeast of Pecos the Susshine Oil corporaing of a deep well on section 20.

Policy of the Bell-Reeves Oil Co.

The officers and directors of the Bell-Reeves Oil Company are men of means, as well as experienced, and a SQUARE DEAL is their motto. There will be no delay or pussy-footing around to sell acreage or their own shares. The \$20,000 worth of stock retained by the officers and directors for the lease and equipment turned over free of debt to the Company is worth considerably more than the entire capital stock of the Company. It is an honest promotion, where subscribers of the \$15,000 of treasury stock get in better than the insiders. There are no debts or encumbrances of any

### FOUR DEEP TESTS FOR North Hudspeth Co.

have already been offered for the control. The company is drilling on the south east quarter

of section 18, block two, on what

is considered the axis of the

structure, the closest location to

the Bell well, and predictions

are for a thousand barrel well

which should come in about the

last week of April.

The timber for the derrick and the drilling outfit for the first deep well of the Cactus Gas and Oil Company is now being hauled from Sierra Blanca, Texas, in trucks to the site of the well on the 40,000 acres leased by M. M. Brown, of Haskell, Okla, and H. R. Lindsey, of Paducah, Ky., for the company, from Mrs. Cora Larabee and Dr. Hugh W. Crouse, of El Paso, on February 4, this year. The tract is in blocks 67 and 68, township 2, Hudspeth county, Texas, about 40 miles northeast of Sierra Blanca, and in what is known as the Crow Flat-Salt Lake field. Work of erecting the derrick and installing the rig will begin at once. The company is under contract to drill four deep

### Capital Stock

any price after that date.

well.

After midnight, April 17th, the price of Bell-Reeves Company shares will

advance to \$1.50 per share. Quick action is neecessary if you desire what

is left at \$1.25 per share, as positively no shares will be sold by the Com-

pany after the above mentioned date for less than \$1.50 per share, and from

the present rate of subscriptions coming in no stock will be available at

The capital stock of the BELL REEVES COMPANY is \$35,000, of which only fifteen thousand shares were originally available for subscription. The proceeds from sales of same are to be used for the exclusive development of the company's holdings. There is absolutely no promotion stock.

### Location

The Bell-Reeves holdings are situated in the very heart of the Irabell pool, being east half of southeast quarter of section eighteen, block two, Reeves County, adjoining the Bell Syndicate holdings on which is located the Bell discovery well. On every side surrounding the Bell-Reeves holdings in close proximity is either production or drilling wells. -It is the consensus of opinion among geologists and experts that the axis of the structure crosses the entire width of the Company's lease. The drilling location, where the first well is now being sunk, was made by Dr. Tucker, who located the Bell description on the Company's holdings—all one class of shares. It is the intention of the Directors to pursue a liberal dividend policy at all times, as the Company is not burdened down with a lot of worthless acreage.

## Buy at Once

ACT IMMEDIATELY. Buy these shares at the original advanced price of \$1.25 per shares. Telephone, wire, write or call personally. Make all checks and remittances payable direct to the

### First National Bank, Pecos, Texas

NOTE-Remember, no subscriptions accepted after April 17th for less than \$1.50 per share.

The Only Way to remedy the present scarcity of houses in Pecos is to BUILD MORE HOUSES. We are not only prepared to furnish you lumber for these, but for your OIL DERRICK as well. Let us figure with you.

# **Pruett** Lumber Company

The Ford Sedan, with electric starting and lighting system, demountable rims with 31/2 -inch tires all around, is the ideal family car because of its general utility and refined and comfortable equipment. Finely upholstered. Plate glass windows. An open car in the spring, summer, and early fall. A closed car in inclement weather and winter. Rain-proof, dust-proof. In the city or the country, a family car. The low cost of operation and maintenance is not the least of its charms. Won't you come in and look it over?.

Pecos Auto Co.

## W. T. C. OF C. PUTS DAVIS MOUNTAINS ON THE MAP

Balhorhea, -- "Kool Kolorado" fades before "Dandy Davis" as an appropriate catch phrase to catch myriad summer and autumn pleasure and health resorters. The Davis mountains, lying almost in the heart of Texas, are known less to the average Texan than the Kool Kolorado mountains. Yet the "spurs" of the Rockies in Texas are for more sublime, beautiful and enticing than any of the mountains of Colorado.

Peaks which scrape the ether 8,000 to 9,444 feet stand out in bold beckoning relief to thousands of passengers on Texas & Pacific trains, which pass through the Pecos-Toyah country daily. They seem so far because no railroad touches them. Yet in the heart of these mountains nature has erected her monuments of health, happiness, pleasure and tonic. Simbecause the railroads have shunned them, because of, their frowning topography, they should not be neglected, says the West Texas Chamber of Commerce, which is seeking to interest capital to erect modern hotels up in the beautiful scenic country so little known to the people of Texas.

In the mountains are cool, healthgiving springs that run the year around. The trees are cedar and pine and other varieties. The mountains are just as inviting, just as steep and just as full of game as the mountains in the advertised part of Colorado. Everything to take business men's minds from everyday cares and intoxicate them with nature is here. The storage battery of health can be filled in the Davis mountains for the worn-out professional man. God gives breath here as He gives it nowhere else. Streams seem more sparkling and crystal here. Nature furnishes a forgetfulness that does many a worn-out man or woman good.

Some enterprising hotel man who lifts a hotel to the sky in the piney highlands of the Davis mountains ng to reap a reward for his laoor and for his benefaction to Texas and mankind. He will have brought the Kool Kolorado to Texas' inner deor, saving his long journeys and big expenses and giving him the perennial flowers, the best tonic water and a satisfaction unattainable in the higher Rockies.

LEASE OWNERS

We have inquiries from out of town clients for oil leases in Reeves, Ward and Loving Counties. Also for cheap leases in Winkler, Andrew and Crane Counties.

If you give us exclusive listings for ten days, at the right price, we should be able to dispose of same for you.

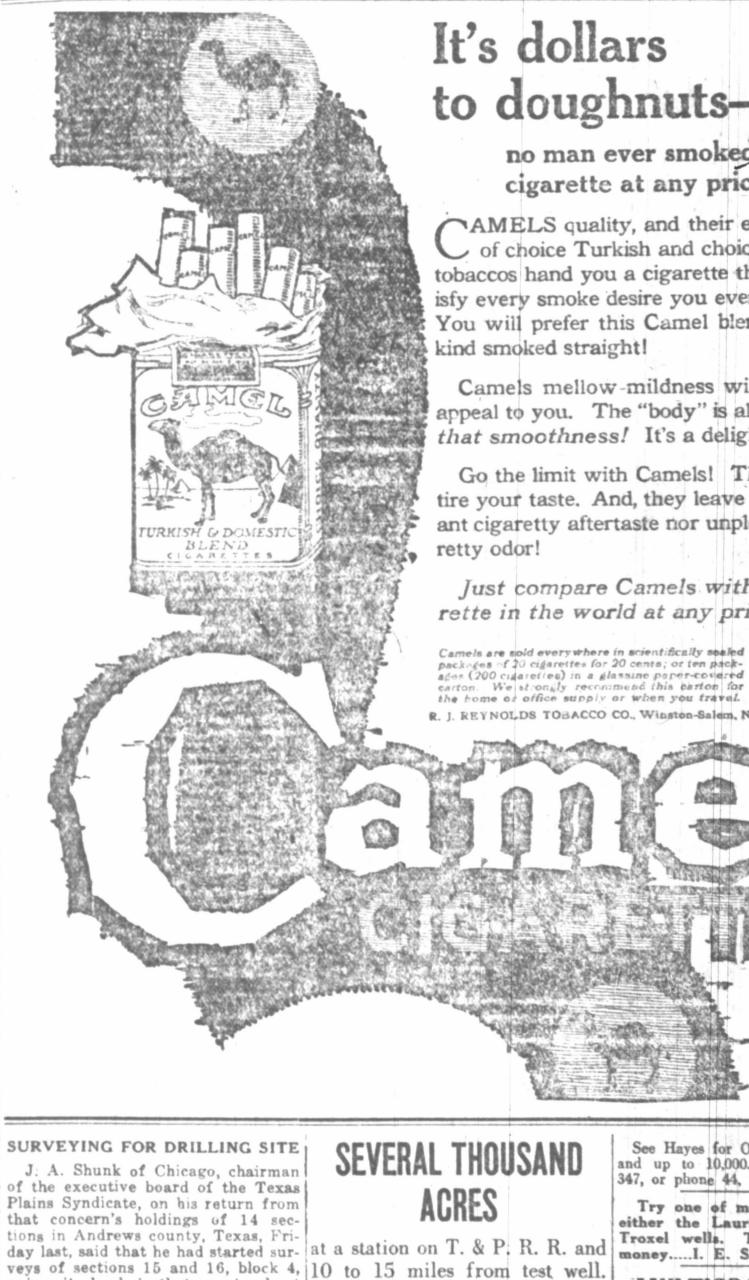

If we find a purchaser we charge you 10 per cent, otherwise there is no charge for our services.

We have correspondents in the larger cities who are interested in Pecos Valley Oil Leases. Send Us Full Particulars of What You Have for Sale.

#### CARTER OIL COMPANY **IS ERECTING DERRICK**

C. E. Madison, the local derrick builder, who has built three standard derricks for the National Exploration company, has the contract for the erection of a derrick in Eddy county, five miles west of Carlsbad for the Carter Oil company. Material is now being shipped to the site of this new drilling and work on the lerrick will be started monday.

The Carter Oil company expects to start a deep test by May 1 on a arge block of land which they own west of Carlsbad,-Carlsbad, N. M News.

H. H. TUCKER, JR., BUYS LAND H. H. Tucker, Jr., of Kansas City, has announced that he has purchased more than 11.000 acres along the Pecos river. He said that five and a half sections of this land is located between the city of Pecos and the Bell well in Reeves county and lying just west of the main road leading from Pecos to that well. These particular lands total 3,500 acres. A contract to purchase is said to have been filed.

Mr. Tucker is president and general manager of the Uncle Sam Oil Co. which is said to own production in Oklahoma and Kansas, owns and operates pipe lines, refineries, etc. No announcement has been made about development . Tucker Bros. of the Flowing Well Lease company of Texas and Liouisiana, who have established offices in Pecos, are the representatives of H. H. Tucker, Jr.

# **The Brunswick Name Certifies an Extraordinary Tire**

Many motorists buy Brunswicks because of the name alone. It is sufficient assurance for them of super-quality.

They have known this ancient house for its high standards, as have their fathers and grandfathers. Since 1845 the House of Brunswick has been noted for its rare workmanship.

Brunswick standards, as applied to tires, mean giving the utmost. In them you will find combined all the approved features properly related. No one advantage overshadows others nor hides shortcomings.

The best tread that's known, the strongest fabric, the most enduring side-wall construction, every addition, every extra, make Brunswicks prove their superiority. No factory cost has been too great.

ONE Brunswick will win your decision to have ALL Brunswicks. It will be a revelation.

Buy it today. It costs no more than like-type tires,

THE BRUNSWICK-BALKE-COLLENDER CO. Dallas Headquarters: 611 Main St.

### **OIL DEVELOPMENT** AT SWEETWATER

Sweetwater, Texas, Apjr. 3 .- The oil development has not cooled down, according to George H. Sheppard, of Waterloo, Iowa, visited Pecos last who reports fifteen deep test wells being drilled within a radius of 25 miles of the city. Fifteen more contracts are expected to be let shortly Most of these wells will be drilled to sidetrack at Irabel that was plainly a depth of not less than 3,500 feet. or such an early model that he climb-The greatest depth yet reached in ed upon the car to look at it. Write Postoffice Box 347. or phone 44. Pecos. 12-tf Office Three Mathis Bldg. PECOS, TEXAS OIL BOOM AT PEGOS is on with a vengeance. Ira J. Bell certainly put Pecos on the map when, at 650 feet he brought in the first commercial oil discovered between Eastland and the State of California. As yet it is too early to calculate the exact potentialities of the field; but certainly they appear vast. Oil men, who have followed the game since Beaumont, say the new field presents possibilities rarely seen in any new oil field because of the true geologic conditions which prevail in the district and the further fact that the oil is found in a sandstone formation rather than in the lime. The Bell is estimated variously at from 300 to 500 barrels per day. Twelve more wells have been contracted for on the 160 on which the discovery well is located, while E. P. Howard, Sims, Bell Bros., Citizens Oil and Gas Co. and others have contracted for at least twenty more in the close-up territory.

The time to get in on the oil game is early—RIGHT NOW. Do not let the procession go by. See us TODAY for leases near the Bell well. Also for drilling contracts nearby. We were on the ground early and had the first shot at it. Our prices are below the curbstone brokers. We have leases in all parts of the field in blocks of 10 acres and upward. Prices range from \$10 per acre, for 10-acre tracts, to \$1,500 per acre for close-in leases. Buy now. Every day prices are climbing. A small lease may mean your fortune. We, also, list your leases for sale-on a straight 10 per cent commission basis. Ours is the largest brokerage house in the Southwest. We have an outlet for your leases through our offices and correspondents in New Orleans, New York, El Paso, Shreveport, San Francisco, Fort Worth and elsewhere. Write us today for full information of the new Golconda.

Now selling at extremely low prices of \$100 for inside lots. \$150

# **BUY OIL LEASES AHEAD OF PRODUCTION**

Several hundred people who lately invested in Oil Leases about the Bell well, are congratulating themselves on their foresight in buying close to the FIRST WELL TO FIND A BIG PRODUCING OIL SAND WEST OF RAFGER AND EASTLAND. This well has proven the correctness of the predictions of the cologists and definitely settles their claims that the geological formations found here will make the Pecos country the GREATEST OIL FIELD IN AMERICA. Countless thousands will regret that they did not purchase before the drill hit the sand for at 656 feet, when but 18 inches in the sand, it brought up a golden stream estimated by experienced oil men at better than 500 barrels, with the probability that the flow would increase to 2000 barrels when the drill went a few feet deeper.

Our derrick on Section 25, Block B-19, Ward County, 6 miles southwest of Monahans, is a standard Ranger derrick; machinery of the heaviest and latest design, entirely new and fresh from the makers, is all on the ground and the drillers tell us that the biggest and best drilling outfit ever put to work in the west half of Texas will within ten days be going down after the deepest oil sand ever discovered in America at a depth of less than 1000 feet, capable of being developed into the greatest oil field in the world, according to the reports of two geologists in whom we have the utmost confidence.

Lands about the Bell well sold BEFORE PRODUCTION for \$50 for one-tenth of an acre. Today lands against the derrick are held at \$5,000 per acre and the prices are going higher every day. This month only we will sell ten acres of land on the structure, in sections one mile from the derrick section, for \$500, not \$500 per acre, but \$500 for the ten acres. Cash or three payments as desired. April 5th these lands will be doubled in price and probably doubled again each thirty days thereafter for this will probably be the well that will be driven to production in less time than any other ever attempted. THESE ARE THE RAREST BARGAINS EVER OFFERED IN OIL INVESTMENTS. 88 Form Leases, 5 years, rental 25 cents, abstracted and titles approved by our attorney. Better wire as the first orders received will be given the lands closest to the derrick.

# for corner lots

Act at once if interested, as these lots are selling very rapidly, owing to very reasonable prices and excellent location.

We reserve the right to advance prices without further notice.

# Our Most Extravagant Predictions Coming True

We were saying it more than a year ago. They are all saying it now. Some of the world's foremost geologists have been in Pecos during the past two weeks. All of them say that Pecos is destined to be another Tampico; that it will in all probability be the world's greatest oil field; that the Laura well of the Sunshine Corporation will flow over the top in another hundred feet; that it will be a gusher, and that there is no doubt of it.

We said so long ago; our own geologists said so. We were confident of it, our own geologists were confident of it. But, as is always the case with pioneers, we were more or less laughed at. We were believed only by a comparatively few—the knowing few.

# Pecos is Now an Oil Field

And since oil began to flow in the Pecos field oil men by the thousands have come to see, and skepticism has ceased to be. Hundreds of thousands of dollars have been invested in the Pecos field within a month. Practically every oil company of any moment has sent its scouts and geologists into the Pecos field. Pages of newspaper space have been devoted to the statements of these men, and all of them agree that this field is destined to be the largest field in the world. This is a big statement, a tremendous statement, but it is true.

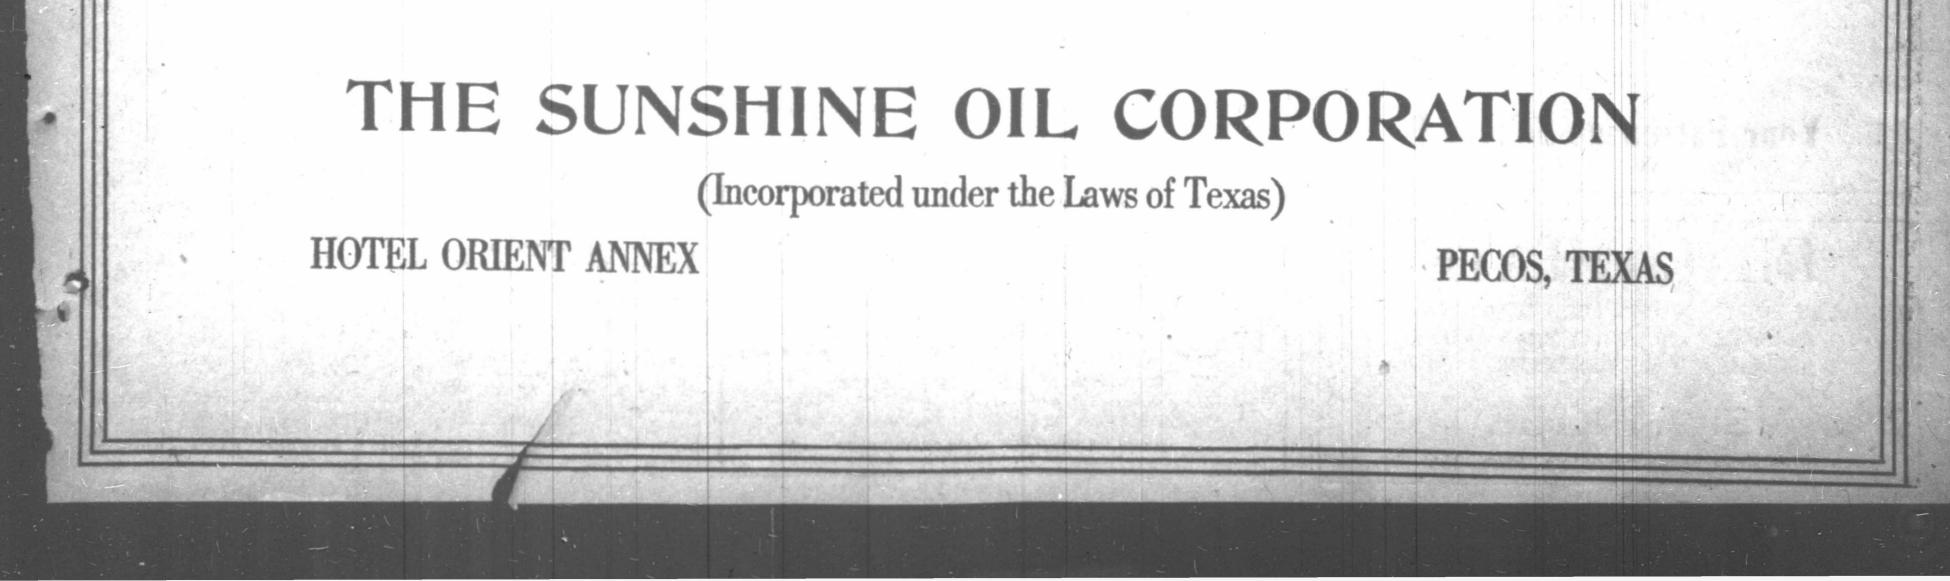

# The World's Greatest Oil Field

Some day you will be reading stories, in all likelihood, of the world's greatest oil field. The magazines and newspapers will be filled with stories of poor men who became rich by an investment made in the Pecos field. You will, in all likelihood, read of a once desert waste, of land that was worth but a few cents per acre until it began to produce oil, but that suddenly became the most valuable land in the world.

It is very likely that some day famed writers will give vivid descriptions of the Pecos field, with pictures of its derricks and of the men who made it a land of oil, and when you read these stories you will be told, in all likelihood, that, acre for acre, the Pecos valley is the most valuable real estate ever found upon the face of the earth, the extent of its area considered.

And when you read such stories you will be reading of opportunities lost, unless you happen to be among those who invested in this field immediately upon reading this prophecy of what is going to happen in Pecos.

We present ourselves as the medium of your opportunity. We invite you to investigate the leases we have for sale. They are dirt cheap in comparison to their real value.

tion should be made to him for the purchase of same. There is no local agent for the sale of the lands in Pecos County, and parties desiring to purchase may of same should apply to the undersigned.

IRA H. EVANS, Agent and Attorney in Fact, AUSTIN, TEXAS

### In 2000 Counties This Month

The Forces of the Church of Christ Will Gather To Face the Facts

N 2000 counties in the United States the pastors L and laymen of 30 great denominations will meet in conference this month.

It is the kind of conference that generals hold before a critical engagement; that business men hold before entering a new market. A conference of judgment, not emotion; a clear-eyed facing of the facts.

### A Survey that Business Men Must Admire

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields, and of America county by county.

The facts developed are startling. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys thirty Protestant denominations are uniting in a

On Plum Street Between Third

The "Endless Life," Raymond Norwood.

How did Christ secure endless life for us And how are we assured that there is an endless life, Alyce Leeman. .

Special music. Who was Malchizedek and what, was the nature of his priesthood?

Jennie Drummond. The order and nature of Christ's

priesthood, Lorena, Furr. Mymn No. 1. League benediction.

#### Corns and "Gets-It" Gan't Live Together

You'll have no more pain but will notice the corn getting loose an wobbly. In a day or so, you lift it right off without any feeling. it right on without corn and of That's the end of the corn and of your troubles. Millions have proved "Gets-It" to be the one and only unfailing, common sense corn re-mover. Why not you? "Gets-It" costs but a triffe at any drug store and carries a money-back guarantee. Mfd. by E. Law-rence & Co., Chicago.

Sold in Pecos and recommended as the World's best Corn Remedy by Pecos Drug Company.
